MISCELLANEOUS INFORMATION

The scholastic year of forty weeks begins on the third Wednesday in September and ends with the general Commencement on the Third Wednesday in June.

LOCATION

Holland is a city of 12,000 inhabitants, and is centrally located on the Pere Marquette railway. A number of daily trains afford direct connection with the leading cities east, and as many with Chicago and other points west. It is on a straight line from Grand Rapids to Chicago, distant from the former city 25 miles, and from the latter city 152 miles. When navigation is open it also has connection with Chicago by a daily line of steamboats. It is therefore most desirably located, having both land and water communications, being near the shore of Lake Michigan, with which it is connected by a beautiful sheet of water, called Macatawa Bay, and on which are numerous popular summer resorts.

GROUNDS AND BUILDINGS

The College Campus lies in the center of the city, between Tenth and Twelfth streets; and contains sixteen acres. It presents a finely varied surface, is well shaded with native trees, and is annually improving in beauty and attractiveness. The College buildings are ten in number.

Van Vleck Hall is the dormitory for men.

Graves Library and Winants Chapel, which contains the Administration Chambers, a Reading Room, a Y. M. C. A. hall, and four lecture rooms, affords suitable and improved accommodations for these purposes.

Van Raalte Memorial Hall was dedicated and occupied September 16, 1903. In it are located the Chemical, Physical and Biological laboratories; lecture rooms devoted to Physics and Chemistry, Biology, Modern Languages, Elocution, Biblical Instruction, English and Mathematics. A large Assembly room and the Museum are located on the third floor.

Maria L. Ackerman Hoyt Observatory—In 1894 a valuable addition was made to the equipment of the College in the form of a telescope. Miss Emilie S. Coles generously donated both observatory and telescope in memory of Mrs. Maria L. Ackerman Hoyt.

WINANTS CHAPEL AND GRAVES LIBRARY

Elizabeth R. Voorhees Hall—In October, 1905, one hundred thousand dollars was given by Mr. and Mrs. Ralph Voorhees on the annuity plan for the erection and maintenance of a Girls Residence to be erected upon the campus. The building was completed and formally opened June 18, 1907. Model but simple apartments for girls away from their own homes is the object sought, and every convenience compatible with residence life is aimed at. The building is heated by steam and lighted by electricity. There is running water in all the rooms and commodious bathing facilities on each floor. Rooms are provided for a dean of women and her assistants so that there may be constant care and supervision. The studios and practice rooms of the School of Music are located on the first floor. A dining hall and parlors are located also on the first floor.

Carnegie Gymnasium—Carnegie Gymnasium, the funds for the erection of which were given by Mr. Andrew Carnegie in 1905, was completed and dedicated in June, 1906. The building has been constructed so that it will serve for public meetings of all kinds in addition to the original purpose for which it was built.

RELIGIOUS EXERCISES

The exercises of each day begin with prayer in Winants Chapel at 8 A. M.

On the Sabbath every student is expected to worship regularly in one of the churches in the city or vicinity unless excused by the President.

Religious instruction is given in all the classes regularly and, like all the other studies, is in charge of the Faculty.

Although Hope College is denominational and is under the patronage of the Reformed Church in America, yet by the law of its incorporation it can have no "religious tests." The doors are open to all regardless of religious or denominational affiliations, and welcome is given to all who will submit to its scholastic regulations. As a Christian school, however, it inculcates gospel truths and demands a consistent moral character and deportment.

LIBRARY

The library, which numbers 22,000 volumes, is open every day and is free for the use of the students. Books and pamphlets, as well as magazines and papers, are constantly added.

FEES, EXPENSES, ETC.

The aim constantly kept in mind is to provide at Hope College everything necessary to a broad, liberal education

at the lowest possible cost consistent with educational facilities of the most modern and approved type and with a life of refinement and culture.

There are no regular tuition fees. A nominal, incidental fee of eight dollars in the College, and six dollars in the Preparatory School is charged each term. These fees must be paid in advance. Laboratory fees cover only the actual cost of apparatus and material used by each individual student. As these vary with each student no satisfactory statement can be made regarding them but they are so small as to be practically negligible. The college graduation fee is five dollars, which must be paid immediately after the student is admitted to candidacy for the degree.

In the Gymnasium a nominal fee to cover rental of lockers and incidental expenses is the only official charge. Expenses connected with team and club or special work are met by the students engaging in the work, and the amount expended lies wholly within the pleasure of the student. The Faculty discountenances all ill-advised or unnecessary expenses.

The cost of living upon the campus is correspondingly low. Limited dormitory accommodations are provided for men students, and rooms are rented at a cost barely covering the expense of light and fuel. There are twenty-six rooms in Van Vleck Hall in the selection of which students looking toward the Christian ministry have the preference. These are furnished in-part. The building is lighted by electricity and heated by steam.

Complete accommodations are provided for women in Voorhees Hall. The building lighted by electricity and heated by steam, is capable of housing one hundred girls. It is equipped in the most modern way in every detail. There are large general baths and toilets, individual lavatories, reception parlors and dining rooms. Rooms may be rented single or en suite. A special circular giving full details regarding accommodations at Voorhees Hall will be sent upon application to the Dean of Women.

The cost of rentals in private homes of the city varies from fifty cents per week without heat to three dollars per week with heat and light.

Accommodations for board are provided in the Dining Rooms at Voorhees Hall for both men and women.

Term fees and room rent are to be paid strictly in advance; any student who violates this rule forfeits his right to continue in the institution after one month's grace.

ADMISSION

For admission into the Freshman Class a certificate of graduation from an accredited High School or any other school requiring a minimum of fifteen hours' work in the literary or scientific studies, will be accepted. Entrance

conditions to the extent of three-fourths of a year-hour will be allowed but these conditions must be removed before the end of one year's residence. Advanced standing for College grade work will be allowed on the basis of one hundred twenty semester hours requirements.

DEGREES

The Bachelor of Arts degree is granted upon the completion of one hundred twenty semester hours of work arranged on the basis of the groups shown below. No graduate degrees are granted at present.

CARNEGIE GYMNASIUM

THE
PREPARATORY SCHOOL

ADMISSION

Pupils holding an "Eighth Grade Diploma" of an accredited Public School will be admitted to the "D" class without examination.

In order to enter any **Advanced Class**, it will be necessary for the applicant to pass an examination in the studies previously pursued by the class. If the applicant be received on condition, these conditions must be removed before regular admission. Applicants for admission will not find it possible to enter a class if they have not studied all the branches which the class has pursued.

GRADUATION

Upon the Completion of forty-eight units of work or "credits" a diploma of graduation is awarded. All of these credits are "given" for required courses which must be pursued as scheduled in the different groups. A "credit" or "unit" is one hour daily class per week during any of the three terms of the school year. Two hours of laboratory work are reckoned as the equivalent of one hour of class work, but are not included in the forty-eight units. A table of the required units is given below. No diploma will be awarded for less than one year resident work immediately prior to the granting of the diploma.
