LIVES WITH TWO WIVES.

Remarkable Conditions Which Exist in the Family of an Italian with Satisfactory Results.

The following story of a remarkable condition of marital affairs comes from the village of Clifton Park, in Saratoga county, N. Y. Giovanni Peloe, an Italian, and commonly known about the village as "John," was married about a dozen years ago to an Italian woman of the village. A few years later John's wife was seized with what was generally regarded as a fatal illness; in fact, the physicians who were called in declared that she could not possibly recover.

This being the case, Mrs. Peloe called her weeping husband to her bedside and told him that she wished him to marry her sister, and wanted the ceremony performed then and there, for she could not die happy if she did not see them married. The sister being a comely young woman, the husband announced his willingness to accede to his wife's dying wish. The girl also acquiescing, the ceremony was performed at the bedside of the sick wife.

The first wife recovered, and John found himself with two wives. Both women loved him, and he was equally fond of each, so they mutually agreed to live together. This Mormon-like arrangement continues to this day, both wives having presented him with children. What makes this case still more remarkable is the fact that the mother of John's two wives lives with them.

TO HAVE BETTER LIGHTING.

A New Illumination Scheme Has Been Devised by the London Municipal Authorities.

In dread of the ancient reproach that London is the worst lighted metropolis in the world, the city corporation has decided to carry out a scheme of illumination likely to put old stagers into a panic.

The narrow side streets of the business quarter, hitherto enveloped in the darkness of night on foggy days, will be fitted with many-jetted lines of incandescent gas, within a triangle roughly indicated by St. Paul's, Finsbury Circus and the Tower. Lights will run along the river, dispelling the gloom of that region sacred to the "hoolligan" and the "wharf rat."

Ludgate Circus, the western entrance to the city, will be made a place of dazzling brilliancy by circular rows of 1,000 candle power high pressure gas lamps. These will compete with the electric lights already there. In order that comparisons may be obtained the two kinds of light will be kept burning in all weathers.

Each of the gas lamps costs £23 (\$111) a year. The makers say that they will change Ludgate Circus from its present condition of semi-darkness to one of the best lighted spots in Europe. They also assert that the lamps will go a long way to dispel the gloom of London's worst fogs, far surpassing electricity in this respect.

Mortgage Sale

Default having been made in the conditions of payment of a certain mortgage, given by Emulous Brown of the township of Olive, Ottawa, State of Michigan, to John D. Everhard and George E. Kollen, of Ottawa County, Michigan, dated the fourteenth day of April, A. D., 1899, and recorded in the office of the Register of Deeds of Ottawa County, Michigan, on the 17th day of April, A. D., 1899 in Liber 60 of Mortgages on page 197 on which mortgage contains a power of sale that has become operative by said default which also contains a stipulation that in the event of non-payment of the principal sum and the interest, or any part thereof, at the time, and in the manner and at the place specified in said mortgage to be made, then the interest thereon shall become principal and sixty days thereafter the whole amount shall become due and payable. And whereas default has been made in the payment of the principal and the interest, as set forth and specified in said mortgage, and part of said principal and said interest has been in default for more than sixty days after the same became due and payable, therefore the entire amount of three hundred sixty six dollars and six cents has become due and payable, together with twenty-five dollars attorney fee, provided for by law and in said mortgage; and no suit or proceedings at law or in equity having been had to recover said amount so due or any part thereof. Now therefore, notice is hereby given that said mortgage will be foreclosed by the sale of the mortgaged premises at public auction, to the highest bidder, on the third day of March, A. D., 1902, at three o'clock in the afternoon of said day, at the north front door of the Ottawa County Court House, in the city of Grand Haven, Ottawa County, Michigan, to satisfy said sum due on said mortgage, with costs of foreclosure and sale.

Said mortgaged premises are situated in the township of Olive, Ottawa County Michigan and are described as the northeast quarter of the southeast quarter and the southeast quarter of the southeast quarter of section 5, township 6, north of range 15 west, containing 40 acres of land.

MESSAGES FROM A SHIP.

Remarkable Demonstration of Possibilities of Wireless Telegraphy by Kaiser Wilhelm Der Grosse.

TALKS WITH SHORE AND OTHER SHIPS.

During Almost the Entire Trip the Vessel Was in Communication with Other Ships or the Shore—How Nantucket Lightship Was Located to a Certainty.

New York, Jan. 15.—Through the wireless telegraph system the Kaiser Wilhelm der Grosse, of the North German Lloyd line, just arrived from Bremen, Southampton and Cherbourg, was for half the trip to the eastward and a large part of her westward voyage in almost constant communication with other vessels or the shore. The ship was practically a floating telegraph office.

Capt. D. Hogemann, of the Kaiser Wilhelm der Grosse, told of the telegraphic marvels.

"It was the most complete test of the Marconi system that we have ever had," said he. "Herr Kronkent, operator on the Kaiser Wilhelm," was formerly the Marconi expert on the Lucania, and consequently familiar with the latter's instruments. On December 15, off the banks of Newfoundland, the Kaiser ran

LOST HIS NERVE.

Engineer on Wabash Road Meets with Fatal Accident Through Fear of Wreck.

Peru, Ind., Jan. 15.—A danger which really existed only in a mind overwrought by dwelling on recent railroad wrecks Tuesday night brought fatal injuries to J. E. Sible, an old and trusted engineer of the Wabash railroad.

Sible was at the throttle of the big locomotive of the limited Tuesday night. His fireman, Burt Frick, noticed nothing unusual about his conduct, unless it was that he was more quiet and somewhat more uneasy in his expression than usual. The train was thundering along at a rate of 40 miles an hour when the lights of the town of Attica appeared. The track was clear and the signal lights of the switch showed an unobstructed path. Suddenly the old engineer gave a start and shouted to his companion: "Jump for your life Burt, the switch is turned and we'll crash into—"

The sentence was not finished, for in an instant Sible had applied the safety brake, reversed the lever, and had jumped to escape the specter his harassed nerves had conjured up. The fireman followed, but was not injured. The train came to a stop and Frick went back to find his engineer. The latter lay on the roadbed, horribly injured. His skull had been crushed, an arm and leg broken,

into a heavy fog. Late on Monday night the Kaiser ran into clear weather again. Herr Kronkent flashed to the Lucania this message:

"We are 35 miles east of the banks and in clear weather," to which the Lucania replied: "We are still in the fog, 60 miles astern. Many thanks."

"Communication between the two vessels ceased on Tuesday morning, December 17, when we were 85 miles apart, or practically half way across the ocean, and after we had conversed nearly 66 hours."

When off the Lizard, the record of Herr Kronkent shows the 12 messages from the Lucania were flashed and a reply stated that all of them had been correctly taken on shore.

Of the Marconi successes on the westward trip Capt. Hogemann said:

"We passed the Kronprinz Wilhelm bound east almost in midocean when the two vessels were 41 miles apart. Greetings were exchanged between the passengers and passengers given."

"Off Nantucket lightship soon after midnight dispatches were sent ashore and all aboard. The Marconi system is a most valuable attachment to a ship in case of accident or shipwreck. As an example of its value in locating position I refer to a recent trip of the Kaiser, during which I should have picked up the revolving light of the Nantucket lightship. It failed to show up and the lookout picked up instead two fixed white lights."

"Have you two fixed white lights?" I asked through the air. The answer was flashed back: "Yes. Our other light is out of order."

It is her intention when the child becomes older and stronger to take her in charge again.

his ribs fractured and his spine injured. He was carried aboard the train. Meanwhile an investigation showed that there had been no danger to the train. Sible was brought to a hospital here, where he managed to gasp out his story.

According to Fireman Frick, up to the time of the wreck at Lafayette, some months ago, Sible had been a man of absolutely perfect nerves. Sible was in that wreck, and ever since he has been possessed of a ceaseless fear of further trouble. The news of collisions in any part of the country added to his depression. Tuesday night, apparently, his worrying came to a climax in the hallucination which the physicians say will cause his death. He thought the switch had been turned and that he would crash into a train standing on the siding.

The passengers were shaken up by the sudden stopping of the train, but none of them was injured.

Senator McMillan Stands For
The Protection of the Beet
Sugar Industry

So much has been said about Senator McMillan's attitude toward the proposition to reduce the duties upon Cuban sugar that Mr. McMillan has seen fit to make a statement for him self. He said to the Grand Rapids Herald correspondent Tuesday:

"I cannot understand how the impression has got about the country that I have deserted beet sugar interests and favor reduction of duties upon Cuban sugar. I have seen newspaper articles along this line for some weeks and I authorize the statement there is no truth in them. I have never favored the reduction of these duties and now I stand squarely for protection of the new industry that we are building up in this country. I have realized for a long time and have tried to make our people understand that this Cuban reduction was a serious thing; that the effort being made to cut duties there was backed by powerful interests, and that it would require powerful efforts to offset it. This has been my attitude from the start and it is the position that I occupy now. It will not do to regard this movement as a thing of little consequence. It is an unusually strong movement and one which the beet sugar industries must understand in order to be able to combat it. But I repeat that my belief in the protection of the Michigan industry cannot be overstated. I should like it made perfectly clear."

January Term of Court

The January term of circuit court is in session in the handsomely newly decorated court room. There was the usual sprinkling of out side lawyers at the opening day. Among the number, attorneys Powers and Smedley of Grand Rapids, George Kollen, Arthur Van Duren, Chas. McBride of Holland, Ruel Boynton of Muskegon and others.

In the perjury case against Clara B. Moreley, one of the witnesses required in Florida, and it is not likely to be tried at the present. The case against Worden for violation of the liquor law will also go over the term.

Nearly all the important criminal cases have gone over the term and the present session is not likely to be a very exciting one in that respect. The Lindgren, Morely and Cook embezzlement cases are all put over.

The cases of the People vs. John M. Cook and the People vs. C. L. Pherambucq, charged with violation of the state pure food law were added to the calendar. It is likely that these cases will be fought as the companies that have been selling the colored oleomargarine to the local grocers, seem disposed to test the matter and have C. O. Smedley here looking after their interests. Inspector John R. Bennet of Muskegon was also present.

Marinus Traas, charged with larceny from the West Michigan Furniture Co. at Holland was arraigned and pleaded guilty. The arson case against Christopher Luther of Robinson is ready and will be one of the first ones to be tried.

Congressman Smith on the Boer War

The following communication from Rev. J. T. Bergen shows the attitude of Congressman William Alden Smith on the Boer war:

To the signers of the Boer petition to President Roosevelt:

The following reply has been received from Congressman Smith: "Replying to your letter permit me to say that I take great pleasure in presenting this expression of the people of Holland upon the Boer controversy in South Africa, and in this connection, permit me to say that I am in perfect sympathy and accord with the resolution adopted at the meeting and subscribed to by so many of my constituents and friends. I regard the conduct of Great Britain in South Africa as cruel and unjustifiable from every standpoint, and I would do anything in my power to prevent the continuance of this outrage and the defeat of the Boers, who have made such a desperate struggle, against great odds, for their homes, their families, and their country."

Mr. Smith also informs me that the local committee of the Allies Boer Organization was held at his house last week, and ways and means were devised for assisting the Boer cause.

J. T. BERGEN.

Large Petition

Six hundred and forty signatures were attached to the petition to President Roosevelt presented for signature at the Pro-Boer meeting held in the Lyceum opera house December 30. The petition was circulated throughout Holland and vicinity and sent to Washington last Friday.

Traas Gets Two Years

Marinus Traas, who pleaded guilty, to the charge of burglarizing the West Michigan Furniture factory, came up for sentence this forenoon and after a sharp lecture from Judge Padgham was sentenced to two years in the states prison.

Christopher Luther was found guilty of burning the barn of Mrs. Biles of Robinson and was sentenced to seven years in prison.

Holland Man Receives Pathetic Letter From Boer Prisoner

Direct news from the Boer prisoners on Bermuda Islands was received in this city this week under peculiar circumstances.

When the box of books collected by Dr. L. A. M. Riemens was shipped to the exiles a few weeks ago Siebolt Bolt, 129 East Fourteenth street, sent a book. His name was on the fly leaf, and one of the Boer prisoners seeing it wrote him the following letter:

L. O. W. Camp, Darrels Island, Bermuda, Dec. 21, 1901.

Dear Friend: On receipt of all the books and papers for which I must thank you very much on behalf of all here at Darrells. I was indeed very glad to receive all these books, as our library was rather dry and our books in stock are not of any value so you can imagine how we appreciate the thoughtfulness and kindness of unknown friends.

I am very sorry I can't exactly state the affairs of Darrells, but I may assure you that we don't have such a fine time as many observe. Just fancy this will be my second Christmas and New Year I am spending in exile. As we have no other help in our present state of exile than our Heavenly Father so we have not to fear a minute as He is with us in light and darkness and He is comforting us immensely and His children are doing a great work here at Darrells and on the other island too.

The only comfort we have here and the only jokes we have to amuse us a little is by making all kinds of toys and other paintings. We have a grand tennis court here so we have a little exercise too. I am still busy studying here but books are a great want. As you know we don't get news from home so often, and as our letters frequently run astray, so we are not able to get anything from dear old Africa Oh, it is really a comfort when I do get a letter from a dear unknown friend, it comforts me a great lot. If there is any possible chance I would be very glad to receive anything from you. So hoping to hear some time from you I must close with kind regards to all. I am your sincere and mourning friend.

Boers Cost Weight in Gold.

An ingenious arithmetician, writing in the Speaker, London, makes the following calculation in comparing the weight in flesh of the Boers and the cost in gold of the war: Assuming that the Boer army proper contained originally about 22,870 men, averaging in weight 154 pounds, and accepting the estimate of Mr. Lloyd George, the pro-Boer member of Parliament, the war will eventually cost England some \$2,000,000,000, he makes the discovery that the whole of the Transvaal army might have been weighed out in the scales and barely equal the weight in gold which will be required before they are all led into death or captivity.

Death of Benj. Van Anrooy

The many friends of Benjamin Van Anrooy were grieved to learn that his death occurred in Cleveland, Ohio, Monday after a weeks illness. His brother, John F. Fred Steketee, brother in law of the deceased, went to Cleveland and with Mr. Van Anrooy accompanied the remains to this city.

Benjamin Van Anrooy was well known in this city where he resided for many years. His age was 41 years. For the last year and a half he lived in Cleveland where he was employed in a shoe store.

In circuit court Tuesday evening Judge Padgham granted Mrs. Sam Jones of this city a decree of divorce. Her husband is the man who was sent up a term of seven years in Jackson about three years ago. A peculiar thing is that the papers announced Tuesday morning that Gov. Bliss has granted a parole to Jones and he is now a free man by the grace of the governor. Jones was arrested for the crime during Sheriff Van Ry's term of office. He eluded the police for a long time and was finally arrested in Indiana.

Sheriff Dykhuis and Coroner Kiel were called to Berlin Monday afternoon to investigate the cause of the death of Geo. W. Taylor, an old and well known, as well as eccentric character of that neighborhood. Taylor, who was an old man of 78 years, lived on a fine farm two and one-half miles from Berlin. He was found dead in his wood shed by a chore boy in his employ. The coroner impaneled a jury and held an inquest. There was nothing to suggest foul play, or anything suspicious and a verdict was rendered to the effect that death was caused by natural causes. Taylor had a wife living and also a daughter.

A trunk containing \$1,300 worth of property was stolen from a transfer wagon in Grand Rapids ten days ago and taken to a point near Zeeland by the thieves. The trunk was sent from Cedar Rapids, Iowa, to a lady in Grand Rapids. Saturday Tony Asink, John Smilde and a woman giving the name of Carrie Southland were arrested in the Cadillac hotel charged with having the trunk in their possession. Many of the articles were found on the trio. Upon the confession of the two men it was found that the woman had not had anything to do with the stealing of the trunk and was released. The trunk was found near Zeeland and was brought back to Grand Rapids. The two men are held for \$500 bonds.

Congressman William Alden Smith introduced President Charles M. Heald of the Pere Marquette system to the president yesterday. They recalled that they had met in New York when the president was just Theodore Roosevelt of Oyster Bay and Mr. Heald was manager of a Long Island railroad. "Say, but he's a corker. Yes, sir; a corker," was the president's indorsement of their mutual friend.

The Grand Rapids, Holland & Lake Michigan railway company has started suit against the village of Zeeland to recover the sum of \$1000 deposited by the company in March, 1900. This money was deposited as a guarantee that the railway company would keep faith with the village and live up to its agreements regarding the construction of the road. The village officials assert that these agreements were violated in several instances and claim the right to keep the money. Diekema & Kollen are attorneys for the plaintiffs.

Chicago Chronicle—There never was alike to the learned and the laity to compare in genuine fun and literary innocent and improving pastime, suitable profit with the spelling "bee." So general has become the vice of bad orthography that signs multiply in favor of a revival of the "bee." There will be a little more difficulty than of old in agreeing upon a standard, but the words spelled more ways than one are comparatively few and not important. Teachers of spelling, the few that remain in the schools, should be the first to encourage the jolly "bee" and are liable not to be the last to be spelled down.

In the mandamus proceedings brought by the watchers of diphtheria and scarlet fever cases against the Board of Supervisors of this county, Judge Padgham has ordered that the bills of the watchers, amounting to about \$380 be paid forthwith. These bills were incurred at the time of an epidemic of those diseases in Grand Haven. There were twenty-nine cases of scarlet fever and ten of diphtheria at that time. City health officer Walkley put watchers out to guard against too much communication with the houses in which the disease existed. When the city turned the bills of the watchers over to the county for settlement there was a protest by some of the solons, payment was refused and the mandamus resulted.

The board of supervisors has concluded its January session. Before adjourning the board gave L. A. Thiel & Co. of Chicago the contract to decorate the lower rooms of the court house on their bid of \$675. The board also decided to redecorate the Prosecuting Attorney's office. The workmen are now in the building and will continue until they finish. The work will take a number of weeks yet. It was also decided to place chair strips on the walls in the offices. Action in the matter of reducing the toll over the Spring Lake bridge was deferred. The business men's association wanted the rate lowered, but the present owners of the bridge presented figures showing that the bridge was a losing venture, and even offered to sell the bridge to the city for \$4,000 should the city want it.

The sanitary improvements that have been going on at Ottawas Beach for the past two years were finally completed this week. The last thing to be added was the sewer, and it is this work that has not been completed. Over 2,000 feet of tiling was laid at an expense of \$300. About thirty-five cottages are benefited by the improvement and the general sanitary condition of the resort is bettered. The iron piping is run 200 feet into Black lake sixteen feet of water, so that there is no chance for its being offensive to the residents. The improvements here are completed include the water system and electric lighting plant. Some of these improvements were made by the Pere Marquette Railroad company, but the sewer was put in by the resorters themselves.

M. E. Church Opened

The new M. E. church was opened for services for the first time last Sunday and large congregations attended both morning and evening.

Through all the services was noticeable a vein of thankfulness for the kind Providence that has made it possible for this handsome new edifice to arise from the ashes of the burned structure. Rev. Adam Clarke, the pastor, at every opportunity took occasion to extend to all a hearty appreciation of their efforts in the work of arranging for the building of the new church. It was surely a happy day for the M. E. congregation and every face wore a joyous look.

The exterior of the new church resembles the old one to a slight extent but the interior is far different and is a great deal handsomer in appointments and finish. In the evening the effect is made brilliant by a number of arc lights that have been placed therein instead of electric chandeliers.

The auditorium is commodious and has a seating capacity of 750 or 800.

At the services Sunday over \$200 was raised to apply on the price of the pews.

A Grand Concert.

The Boston Ladies Symphony orchestra scored a remarkable success at Winants Chapel last evening. Attracted by the fame of this wonderful concert company the hall was crowded to the doors, many of the audience being glad to obtain standing room.

The entertainment rivalled the other high class musical attractions seen here and many are willing to assert that it was best of all. Every number on the program was encores and in some instances the audience insisted on double encores. Popular music shared the honors with classical and it was difficult to tell which gave the most pleasure. Every member of the orchestra is an artist and every artist did excellent work. The trombone, violin and flute solos were especially good.

Requests have been made for a return date and it is likely that Holland will be favored by another visit in the future.

Great Interest in Revivals.

Last night at Hope church Messrs. Smith and Colburn, the evangelists, held the first of the revival meetings and the large congregation present indicated that the attention will be just as great as it was last year and the results just as far reaching. The following from a notice issued by Rev. Adam Clarke and Rev. J. T. Bergen explains the scope of the meeting:

"We wish it to be distinctly understood that these coming services belong to all; and we trust that the blessing will be given to every church in the city.

There never was a time when the various churches of Holland were so much alive as they are today; but we believe that now is the best time to reach out and save the many who are still outside. While Hope and the Methodist church assume the responsibility for the conduct of these meetings, we look to all of God's people for help, but most of all to Him who said "The harvest is plentiful, but the laborers are few; pray ye therefore the Lord of the harvest, that He send forth laborers into His harvest."

The meetings will be held in Hope church for one week and in the M. E. church the week following.

been wrecked on the financial reefs
of the board of trade. His suspen-
sion was announced and his trades
ordered closed out at his request
when the board opened Tuesday.

his wife and then himself at their

but their condition is critical. Domest-
ic troubles led to the crime.

THE VIEWS OF PRESIDENT-ELECT PALMA

Island Must Have Aid, and Prosperity
Declared Impossible Unless Tariff
Concessions Are Granted—No
Money to Be Borrowed and No
Armed Force Is Wanted.

Central Valley, N. Y., Jan. 13.—Gen.
Tomas Estrada Palma, recently elect-
ed president of Cuba, is a remark-
able combination of Spaniard and of
American, and as such is peculiarly
qualified to guide the destinies of
the infant republic in the days be-
fore it learns to walk alone. He
taught school here in New York
state for 20 years or more, and
though he has never learned to talk
English without a pronounced Span-
ish accent, he has imbibed the spirit
of American institutions, and, as a
consequence, the two foundation
stones of the new republic are to be,
first, commercial union with the
United States, and, secondly, the ed-
ucation of the masses.

Wants No Army Nor Navy.

He does not believe in wars, nor in
armies nor in navies for the new re-
public. If he has his way Palma will
have no armed forces on the island
except the so-called rural guards or
insular police. He takes the ground
that the Platt amendment was really
the best thing which could have hap-
pened to Cuba, because it pledges the
United States to defend and protect
the independence of the island.

For Commercial Union.

As to a commercial union with this
country, Gen. Palma assumes that Cu-
ba is so near the United States that
it must have in this country its best
possible market, and, on the other
hand, that the United States can nat-
urally control the market in Cuba.
On this ground he favors the negotia-
tion by the new republic of a treaty
giving to the United States tariff priv-
ileges such as are not extended to
any other nation in the world.

Cut in Tariff Most Needed.

As a preliminary to this Gen. Palma
urges that the first step should be a
reduction on the part of the United
States of its tariff on tobacco and
sugar. In return he hopes that Cuba
will admit American machinery and
agricultural implements either entire-
ly free or at so low a rate of duty
as to give the United States the ex-
clusive control of the Cuban market.

Island Not to Borrow Money.

Nevertheless, Gen. Palma is strong-
ly opposed to any immediate issue of
bonds or other securities. He thinks
that as the Cuban revenues have pro-
ven sufficient for the government of the
island under the direction of the Uni-
ted States military forces, as command-
ed by Maj. Gen. Wood, the same thing
ought to be true when the Cuban gov-
ernment is organized on the first day
of May next. He proclaims that econ-
omy shall be his watchword through-
out the entire term of his adminis-
tration, with only a single exception.

Views on Education.

This exception is characteristic of
the man. Gen. Palma would spend all
the money he could gather together on
giving the masses of Cuba a common
school education. While he was an ex-
ile in this country for more than a
score of years, he supported himself by
teaching. He made a close study of
the American public school system,
and he firmly believes that the peace
and the prosperity of the republic of
Cuba can be guaranteed forever only
by means of the general uplifting and
education of the masses of the people.

Will Visit United States.

Berlin, Jan. 13.—Prince Henry of
Prussia, brother of Emperor William,
is to visit the United States. It is of-
ficially announced that the imperial
yacht Hohenzollern will sail for New
York, January 18, and that Prince Hen-
ry will follow on a German liner and
will be present at the launching of the
kaiser's new yacht.

Blew Up the Maine.

Chadron, Neb., Jan. 15.—News has
reached here from Pine Ridge agency,
S. D., that a Spanish captain,
born in Cuba, who has been working
on a ranch near the agency, has con-
fessed that he was the author of the
blowing up of the battleship Maine in
Havana harbor on the evening of
February 15, 1898.

Husband's Double Crime.

Madison, Wis., Jan. 14.—Benjamin C.
Keig, a boilermaker, killed his wife
and then cut his own throat at their
home in this city, where they conducted
a students' boarding house. Keig is
still alive, but probably will die. The
cause for the crime is unknown.

Peace Plan Agreed Upon.

City of Mexico, Jan. 14.—The com-
pulsory feature has been definitely
added to the arbitration treaty by a
vote of a majority of the delegates
to the Pan-American conference. The
Chilian delegation abstained from
voting.

Savings Bank Assigns.

Cleveland, O., Jan. 11.—The Euclid
Trust and Savings company of Cleve-
land, with deposits of nearly \$1,500,000,
has assigned. Its officers assert that
creditors will be paid in full.

Defense Estimates.

Washington, Jan. 14.—Secretary
Root has sent to congress estimates of
\$307,000 for the defenses of the island
of Guam, and \$326,000 for the defenses
of Hawaii.

Help... Nature

wrong. They need a little

a marked improvement. For
larger children, from half to

TOTS TRAVEL ALONE.

Four-Year-Old Boy and His Older
Sister on Their Way Back
to Germany.

Leaving their mother behind them
because of reverses in the circum-
stances of their family, two little chil-
dren came to New York alone from
Ashland, Ore., nearly 3,600 miles away,
and will sail for Bremen, a journey
of 3,500 miles more, without an escort.
Earl Edelhoff, four years old, with his
sister Agnes, twice his age, came on
the Southern Pacific train from the
west. Kind-hearted conductors and
train men kept vigil over the little
ones for five days and nights. Carry-
ing toys given them by interested pas-
sengers, the little ones were met by
Henry Densel, passenger agent for
the Southern Pacific railroad, at the
Grand Central station, who took them
to his home to the care of his moth-
er and sister. They spent the day in
traveling about the city. Mr. Densel
will send them on the North German
Lloyd steamship Darmstadt in care of
the stewardess, and an aunt, with
whom they will make their home in
the future, is to meet them.

Find Cave Near La Crosse, Wis.

A cave, believed, by its crude draw-
ings, trinkets and pottery, to be the
work of cave dwellers or prehistoric
races of people, has been discovered
on the farm of David Samuels, a few
miles east of La Crosse, Wis. The
cavern was discovered by Frank Sam-
uels, an 18-year-old boy. The
cave is a natural formation of
solid white sandstone, and upon
its walls pictures of historical
characters of an ancient type
were found. There are four distinct
layers of ashes, indicating four oc-
cupancies. The weapons are of bone,
and crudely formed. It is believed
that the last occupancy was not less
than 170 years ago, and that between
this and the first there was an inter-
minable lapse of time, probably 15
centuries.

Good Shipbuilding Year.

According to the London corre-
spondent of the Tribune this has been
a good shipbuilding year in Great
Britain, but there has been a note-
worthy diminution in the number of
warships built for foreign powers.
The vessels included in this year's re-
turn are principally for Japan, and
at the present moment there are prac-
tically no large ships building for
foreign navies. The falling off in or-
ders is attributed to political consid-
erations.

It is stated that during the last year
420 tons of cigarettes were exported
from Algeria, and there promises to be
a largely increasing trade.

A Fitting Tribute

A CITIZEN OF HOLLAND PAYS A WELL
EARNED TRIBUTE

The following public statement of a respected citizen adds one more emphatic endorsement of merit to the following scores that have appeared before. Mrs. M. Shonaker, 256 W. 15th St., says: "I suffered from constant heavy aching pains across the small of my back so that I could not rest comfortably at night in any position and during the day I felt tired and languid. The kidney secretions became badly affected. Irregular, frequent, scanty and were attended by a good deal of pain besides depositing a heavy sediment. I suffered also from headaches and spells of dizziness so that I either had to sit down or hold on to something to keep from falling. I used a great many different remedies but without obtaining any benefit. Friends advised me to try Doan's Kidney Pills and I got a box at J. O. Doesburg's drug store and used them. They helped me from the very start. They are the best remedy I ever tried, and I have no hesitation in recommending them."

For sale by all Dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U.S. Remember the name, Doan's, and take no substitute.

CANAL BILL PASSED.

House Adopts the Nicaraguan Measure by a Vote of 308 For and Only Two Against.

Washington, Jan. 10.—The house yesterday passed the Nicaragua canal bill by a vote of 308 to 2. The provisions of the measure are briefly as follows:

The bill as passed authorizes the president to secure from the states of Costa Rica and Nicaragua in behalf of the United States control of such a portion of the territory belonging to said states as may be desirable and necessary to which to excavate, construct and prospect a canal suitable to the wants of modern navigation and commerce, and appropriates such a sum as may be necessary to secure the control of said territory.

Section 2 authorizes the president, after securing control of the needed territory, to direct the secretary of war to construct such canal from the Caribbean sea, at a point near Greytown, in Nicaragua, by way of Lake Nicaragua, to a point on the Pacific ocean near Brito, and also to construct proper harbors at the terminal of said canal, and to make necessary provisions for the defense of the canal and harbors.

Sections 3 and 4 authorize the president to make such surveys as may be necessary and to employ such persons in constructing a canal as may to him seem wise, and directs that in the construction of the canal the river San Juan and Lake Nicaragua shall be used as far as they are available.

Section 5 authorizes the president to guarantee to the states of Costa Rica and Nicaragua the use of the canal and harbors, upon terms to be agreed upon, for all vessels owned by said states, and by citizens thereof.

The last section makes a present appropriation of \$10,000,000 to carry on this work, and authorizes the secretary of war to enter into proper contracts for material and work as may be deemed necessary therefore, such work and material to be paid for as appropriations may be made from time to time. The section fixes the aggregate cost at \$160,000,000, to be drawn from the treasury on warrants of the president.

DIE IN A MINE.

Ten Persons Lose Their Lives by an Explosion in a Shaft in Indian Territory.

South McAlester, I. T., Jan. 15.—Ten miners lost their lives by an explosion in a mine of the Milby & Dow Mining company at Bow. All the bodies were recovered, and as none was burned the conclusion is that death was due to after damp. The condition of the mine indicated that the men might, had presence of mind been exercised, made their escape. The bodies were found within a comparatively small radius. The victims had been in the employ of the company for some time, and most of them had families.

Inter Ocean Changes Hands.

New York, Jan. 14.—A deal has been completed at the Holland house by which George W. Hinman, who for four years has been the editor of the Chicago Inter Ocean, with the cooperation of some eastern friends, acquired the entire control of that newspaper. Charles T. Yerkes, the owner of the Inter Ocean, sold his holdings absolutely, and it is announced also that William Penn Nixon, who has been connected with the paper for some time, also retired.

Two Sudden Deaths.

Cincinnati, Jan. 15.—Mrs. Edmund Bachus, living on the fourth floor of an Elm street flat, was taken suddenly ill with heart trouble. Dr. G. H. Thurman, who resides in the same neighborhood, was called and hastened to her relief. She died just as the doctor entered the apartments and the doctor died immediately on entering from exhaustion from climbing the three flights of stairs.
