Residents in the neighborhood of Mrs. Smith's home are considerably relieved now that the woman is in jail. A large number of the fruit growers of Fennville are preparing to erect modern steam cooking plants, for preparing the lime-sulphur spray for the control of the San Jose scale louse. It is possible that a large plant will be installed at the Fennville roller mills for supplying several growers in that vicinity, at a cost of about three cents per gallon. Evidently the growers are of the determined kind and do not intend to be scared out of the fruit business by anything as small as a louse. It is about time that citizens of Holland began thinking of the same thing if our shade trees will remain. It is up to the common council to look into this matter.

An Infernal Machine.

Mrs. W. C. Cadwallader, of Owosso, formerly Miss Lella McBride, daughter of P. H. McBride of this city, had an unusual experience according to the following dispatch from Owosso:

When Mrs. W. C. Cadwallader opened her real estate office door last night something heavy fell to her feet. She picked it up and handed it to W. E. McKenzie who has the adjoining office. McKenzie backed away, declaring the article to be a dynamite bomb.

It was a piece of inch gas pipe a foot long with a fuse in one end and a loaded twelve gauge shot gun cartridge in the other. Mr. McKenzie handed it over to the police.

Last summer Mr. McKenzie received an anonymous letter which said: "I'll give you ten days to settle that matter or I'll kill you."

He had some stock dealings with an Owosso man who claimed McKenzie had defrauded him. Now McKenzie fears the man is keeping his threat.

Some of the Matters that came up at the Business Men's Meeting.

The business men held a very profitable meeting Thursday. The attendance was large and the members entered enthusiastically into the discussion of the several subjects presented.

The two question of allowing peddlars to operate without a license and allowing auction sales to be conducted to the detriment of established merchants were considered at length and it was the sense of the meeting that the attention of the council should be called to the repeated violations of the peddling ordinance, and that a more rigid ordinance regulating auction sales should be passed by the council.

Holland is one of the very few cities in which established merchants are not protected against the auction sale evil. The license here on that class of business is low and in the past, through subterfuge on the part of the persons conducting the sales, they have escaped the payment of the small license exacted, and merchants doing a legitimate, every day business, have suffered in consequence.

It is proposed that a new ordinance should be passed and the fee fixed at a sum that will shut out the auction sale merchants.

According to reports made by members of the association the peddling ordinance is not strictly enforced. One member reported that a peddler of provisions had told him that he had not paid a license, but that he had the license money ready to pay on demand. The council will be asked to instruct the marshal to enforce the ordinance.

The committee having in charge the matter of obtaining the general closing of the stores evenings reported progress. In the outlying districts some of the merchants have been keeping their store open every night in the week, and it is desired to have them observe the same custom in vogue among the downtown business men, that of closing every night in the week except Tuesday and Saturday nights.

The matter of having the piles removed from Black river was discussed and it was the sense of the meeting that the council should be requested to take action looking to the sawing off of the piles and making the river navigable.

The funeral was held Wednesday afternoon.

Beet Sugar Facts.

In his report to the president the secretary of agriculture estimated the beet sugar production of the country for 1906 at 350,000 long tons, valued at \$34,000,000. This he contrasted with the crop seven years ago, which amounted to only \$7,000,000.

As a matter of fact, on a basis of figures later than his, the season's crop will aggregate about 450,000 tons at a valuation of considerable over \$40,000,000.

Colorado leads the country in this production with upward of 300,000,000 pounds, and California comes next with 200,000,000 pounds, while Michigan, Utah and Idaho follow on in regular ranking order. In fact, all over the northwest sugar beet growing is coming to be more and more a feature of agricultural importance.—Boston Transcript.

Hidden Dangers.

Nature Gives Timely Warnings
That No Holland Citizen Can
Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Holland proof:

John Lockhart, of 28th street, near Central Avenue, says: "I had a constant aching in my loins and kidneys so that at times I could hardly keep around. I could not rest comfortably in any position and after a restless night would get up feeling as tired as when I went to bed. The kidney secretions became irregular, frequent and unnatural. I used different remedies but did not receive any benefit. Seeing Doan's Kidney Pills advertised I procured a box at J. O. Doesburg's drug store and tried them. They did me so much good that I got another box and then another. They cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name Doan's, and take no other.

From Page to Senator.
From a page in the House of Representatives to a United States Senator is quite a jump in a political life. One would say how is it possible, nevertheless it has been demonstrated that such things are possible. Not alone possible by years of waiting and hard work, but in a comparatively short space of time, and when a man is still in the prime of life.

William Alden Smith of our district has shown that these things are possible. Twenty-seven years ago he was a page in the lower house of Michigan and now at the age of 48 years he has attained the highest office in the gift of the people of this great commonwealth, excepting one.

How did he do it?
By his loyalty to his friends.
By his friends loyal to him.
By his unlimited energy.
By never making a promise that he could not live up to.

By his undaunted courage to stand up for what he thought himself to be right, not unreasonably so, as he has always been open to reason and the council of his constituents.

By his ability as a statesman which he has shown on numerable occasions, and which go to show that he is especially adapted for this high office.

Some months ago the Saturday Evening Post in a writeup under the heading "Who's Who," styled our present Senator as a molasses factory, in other words "a spreader of the salve."

If affability, kind words, and a hearty hand shake constitute a molasses factory, it would be a Godsend to humanity that there were more of those kind of institutions in the world. That he has all these attributes and more, we will not deny, if he did not he wouldn't be Billy Smith. But there are other things required than these.

Do you think he could have secured the large appropriations for Holland and Grand Haven harbors by the use of salve?

Could he have attained the high position on the Ways and Means committee in Congress by the use of this article?

Could he have attained the prestige and standing among his fellow colleagues and even the President of the United States by the use of the slippery stuff?

Not much, these men are men of deep thought and of great minds, the pick of the country in fact, and salve artists are soon detected and they dwindle into oblivion.

This therefore goes to show that there is more back of Mr. Smith than the above named qualifications mentioned by the Post, and his career in the Senate as in Congress will not be passed unnoticed by the people of this country, and if his life and health is spared him, mark you he will be heard from, and the country will say, we are proud of him and will claim him as their own as does his district and his State.

Van Weelden Takes Holland Station.

Keeper Jacob Van Weelden has been transferred from the life saving station at South Manitou Island to the command of the crew at Holland to succeed Capt. Chauncey Poel, who was recently removed from the command of that crew, because of the incident of the 21st of November which resulted in the loss of four lives on the breakwater at Holland.

Capt. Jacob Van Weelden is a Grand Haven man and he has been in command of the crew at South Manitou for the past three years. Previous to that time he served for years in the crew at Grand Haven. There is not an abler or a more capable man in the service on the great lakes and his transfer to Holland is in the nature of a splendid promotion to a deserving and tried officer. One thing is certain the Holland crew will have a very able leader.

Eli E. Pugh, who has been No. 1 in the Pentwater crew for several years, is promoted to the captaincy of the crew at South Manitou. He also is spoken of as a very capable officer.

These promotions come through the treasury department but are made at the recommendation of Supt. Morton of the Twelfth Life Saving District.

Is Elected Business

Manager of State Fair

Charles A. Floyd, Traffic Manager of Holland Interurban Gets Position.

Charles A. Floyd, traffic manager for the Grand Rapids, Holland & Chicago interurban railway, was elected business manager of the State fair at a meeting of the business committee, and his election confirmed at Detroit yesterday.

Mr. Floyd was tendered the position several weeks ago by the state fair officials, but was unwilling to sever his connection with the Interurban company. This resulted in a compromise between the association and the company by which Mr. Floyd will continue in his present capacity as traffic manager and will be permitted to conduct the work connected with his new position in Grand Rapids, going to Detroit when necessary and during the time of the fair.

The position was offered him in recognition of his services rendered the finance department at last year's exhibition.

Mr. Floyd entered the employ of the Interurban company in 1900 when the line was in its infancy and operated between Holland and Macatawa Park. Later when the road was extended to Grand Rapids Mr. Floyd's business qualifications were recognized and three years ago he was promoted to his present position. He has served under three manage-

CHARLES A. FLOYD

ments and is the only one of the original force still in the service.

Mr. Floyd was born in Sheffield, Iowa, 24 years ago, and has lived in Sault Ste. Marie for 12 years and in Chicago for two years prior to coming to Holland. He is a member of Castle lodge No. 153, F. of P., which recently honored him to the position of chancellor commander, but he was compelled to resign on account of the duties connected with his two positions.

The Once Great Ferry Family.

Twenty-four years ago at this time they were balloting for a Grand Haven man for United States Senator at Lansing. That was in 1883 the campaign that marked the defeat and the passing from public life of Thomas White Ferry. Ferry was defeated at that time in a dead locked caucus that has become historic. Twelve years before Ferry was elected to the U. S. Senate for the first time, defeating Jacob M. Howard.

Before Ferry's election western Michigan was never considered in the choosing of a Senator, and it was the splendid fight of a Grand Haven newspaper man, Henry S. Clubb, which eventually brought out the claims of this section of the state and ultimately the election of Ferry.

How the mighty have fallen. Senator Ferry died unsung despite his splendid work for the Commonwealth and the Nation and despite the fact that for a time in the Hayes Tilden recount period he was virtually at the head of the government. Today there is not a member of this great family living in the town which they founded and where their ancestry are buried. The family's fall, its dissensions, its later rise to affluence and great wealth, its pioneer influence are a matter well known.

Today it's members are divided, Greed and opulence mixed with wealth have torn it assunder and a name which should be honored in the community is given little thought or care. The old home stead, which has housed men and women who made national history, is a wreck, unoccupied and uncared for. The few holdings here are in litigation. Some of the family are practically exiles from the town which Rev. William M. Ferry founded, the brainiest member and the one who is now given credit for the Senator's political success is a hopeless mental wreck out in Utah. The others are scattered from their native New England to the shores of the Pacific. Their history would furnish material for a novelist or a philosopher.—G. H. Tribune.

Plan of Citizens' Band to Get Recruits.

The Citizens' band held its annual meeting Monday evening, the following officers were elected:
President—Wm. Vander Hart.
Vice president—Benj. Du Mez.
Secretary—Luke Sprietsma, jr.
Treasurer—Benj. Du Mez.
Manager—H. J. Luidens.
Instructor—Frank Wurzburg.
Director—John Van Vyven.
Executive committee—Wm. Vander Hart, H. J. Luidens, L. Sprietsma, jr.; Frank Smith, John Van Vyven.
It was decided that the band should give a public concert the first week in March.

The proposition to organize an auxiliary band was approved. The plan is to form a band of beginners in music, who shall be under the supervision of the Citizens' band, and as they advance the band will be able to secure recruits from this organization.

The finances of the organization are in very satisfactory condition and the band is flourishing.

The Lokker-Rutgers Co.

Reformer on the Board.

For some reason, Mayor Van Putten of Holland sent Alderman Nies, of that city as his substitute to the board of supervisors. The substitute entered into his official position by stirring up a sensation on the board. Hardly had the first session got under way Monday when the Holland member dug the prod into the ribs of the board. He tried to pry open the chest that held the hobo graft disturbance, safely tucked away and although Supervisor Glerum immediately jumped upon the lid, some of the fumes succeeded in getting out.

Immediately after the sheriff's proposition for going upon a salary was referred to a special committee, Mr. Nies attempted to make a speech recalling the hobo conditions. This talk was to proceed a motion which, it is believed would have called for an investigation, but he did not put the motion in its proper order and Supervisor Glerum objected to the proceedings and Chairman Averill sustained the man from Grand Haven.

Mr. Nies sat down and the incident closed for time being. His motion or resolution, whatever it was, was only quelled temporarily and the supervisors knew that another outbreak would come today.

There were rumors that a grand jury investigation would be called in the matter, but the sheriff and his deputies have many friends on the board, who will stand by them. Some of the board are inclined to believe that Mr. Nies' presence on the board is a put up job, designed to stir up trouble and the majority do not take kindly to the alleged schemes. At any rate Mr. Nies' is looked upon as a reformer in the Holland council and he may bear out his reputation on the board.

Mr. Nies' plans came to grief Monday afternoon, however, when the board decisively killed his hopes. Mr. Nies started things by introducing a resolution, which called for the appointment of a committee of three with the prosecuting attorney, with all books and records at their disposal to fully and thoroughly investigate the reports of the hobo evil. The resolution stated the sheriff seemed willing to have a full investigation and cited the cases of George Clark, the hobo, whom it is claimed was released before his time was out and Frank Ossignac who stated that the sheriff advised him not to plead guilty to the charge for which he was held.

Mr. Rosenraad of Zeeland seconded Supervisor Nies' motion to adopt the resolution but Mr. Gordon of Crockery moved as an amendment that the matter be tabled. The amendment was carried and Mr. Glerum of Grand Haven asked that the whole matter be espoused from the records. This motion was carried after some hot discussion by a vote of 13 to 8 and the investigation bubble burst in the blowing.

Mr. Glerum stood firmly by the sheriff and when the Nies resolution was offered he demanded to know what was meant. He was backed up by the supervisors from the north country who were friendly to the sheriff.—Grand Haven Tribune.

Sheriff Woodbury does not object to an investigation being held if the board wants it. "Let 'em call their grand jury" he said yesterday when questioned about the rumor that was afloat. "I'm not afraid of any investigation. The trouble with a grand jury, though,

is that you can't tell where it will stop. If they call one for an investigation let 'em look out for when the jury finds out all it can about me, I'll spring something that will make some of those fellows sizzle, who are so anxious to have the jail graft investigated. The men I'd want as witnesses in such a matter can prove things but they want talk until they have to."

Calm has settled over the board of supervisors again and they are attending strictly to business without any more disturbances. A. E. Bonner of Coopersville was present with a couple of propositions for supplying the jail with blood hounds for tracking criminals. He was directed to make his proposition to the finance committee, which would report on the matter to the board.

The bonds of the county officers were accepted after the report of the finance committee.

The other committees are working in the various rooms and will be ready to report towards the end of the week.

Circuit court Under Way.

Judge Padgham opened circuit court at about three o'clock Monday afternoon and the early part of the session was taken up in considering the cases to be tried. In the case of the people against John Link, the attorneys announced that they were ready for trial. The case of the people against H. L. Slossen, charged with selling diseased meat, was nolle prossed and the case of Josephine De Young, charged with cruelty to her step-child, was put over term. Several arraignments were made. Cornelius Van der Veere, charged with violation of the liquor law, pleaded guilty. Fred E. Minuth and Frank Mader, who were held for giving liquor to prisoners in the jail, were both arraigned and Minuth pleaded guilty while Mader entered a plea of not guilty. Those cases closed the business of the criminal calendar, which is rather light this term.

The Link case will take up most of the time allotted to the trying of the criminal matters. After the Link case there is nothing else of importance. Frank Mader is the only one of those who were arraigned who pleaded not guilty and he may be tried.

The Link case was begun this morning in circuit court and a jury was struck at eleven o'clock. D. F. Pagelsen, acting prosecutor, opened the people's case by a statement of the facts connected with Link's assault upon Detective Kennedy of Grand Rapids.

Mr. Kennedy was the first witness called and he told the story of the beating he got at the hands of Link. All witnesses have been excluded from the court room.

Henry Nykamp of Olive; J. B. Mulder, Holland township; John Z. Clooster, Jamestown; Fred Sherwood, Georgetown; Simon Bouwens, Zeeland; Marinus Weststrate, Olive; William Evans, Tallmadge; Derk Ten Broeke, Blendon; Fitch D. Cooper, Crockery; Ernest Dubois, Allendale; John Holtrop, Spring Lake; Peter Gunst, Holland City, make up the jury, which is trying John Link on the charge of attempting to kill Detective Kennedy.

The testimony introduced by the state is about all submitted and as the defense also has a great deal of testimony, the case may take up the greater part of this week. The case is a hard fought one and John Link and his wife are together at the trial.

At the opening of court W. I. Lillie for the defendant asked the jury to take case from the jury under the argument that it was Kennedy who had assaulted Link and not Link who assaulted Kennedy. Mr. Lillie claimed that Link only defended himself as he had a right to do as Kennedy was assuming the responsibility of an officer while in reality he had no such authority in Ottawa county at all. The jury was taken from the court-room while the arguments were being made.

Common Council.

At a meeting last evening two ordinances were passed, one is relative to protection of public property and the other is relative to slaughter houses and butchers which reads as follows:

No person shall keep a slaughter house or carry on the business of butchering, in any place in the city of Holland, except at such place or places as shall be designated by the Board of Health or Common Council of said city.

Every butcher and market man shall keep the inside of the lockers, and all tables, counters, blocks, scales and tools in his market house and place where his meats are kept, the floor and all other parts of his market clean and free from all filth and dirt.

Those not complying with this ordinance shall be punished by a fine of not exceeding one hundred dollars, and costs of prosecution, or by imprisonment in the city jail or

Will Vote on Local Option.

By a vote of 21 to 2, the board of supervisors at Allegan Friday morning decided to grant the request of the several township petitions and submit to the voters at the coming April election, the question whether the manufacture and sale of intoxicating liquors shall be prohibited within the county. The Allegan supervisor asked to be excused from voting, having been absent during the discussions.

It is quite generally conceded that the local option plan will carry, as a strong organization is being made to dispense with the saloons.

NEGROES TERMED NIGHT ASSASSINS

SEVERE WORDS OF PRESIDENT
IN DESCRIBING MEN GUILTY
OF BROWNVILLE AFFAIR.

Roosevelt Declares Evidence Against
Colored Troops Is Positive—Ban
on Civil Employment Under Gov-
ernment Is Lifted.

Washington, Jan. 15.—President Roosevelt Monday sent to the senate a special message regarding the Brownsville incident, which gives additional evidence collected by Assistant Attorney General Purdy and Maj. Blocksom, who were sent to Texas by the president to investigate the affair. The president submitted with his message various exhibits, including maps of Brownsville and Fort Brown, a bandoleer, 33 empty shells, seven ball cartridges, picked up in the streets a few hours after the shooting; three steel-jacketed bullets and some scraps of casings of other bullets picked out of the houses in which they had been fired.

Calls Them Midnight Assassins.

The president declares that the evidence is positive that the outrages of August 31 were committed by some of the colored troops that have been dismissed and that some or all of the members of the three companies of the Twenty-fifth Infantry had knowledge of the deed and have shielded the guilty ones. The negro troops are referred to by the president in his message as "midnight assassins" and he declares that very few, if any, of the soldiers dismissed "without honor," could have been ignorant of what occurred.

That part of the order, which bars the soldiers from all civil employment under the government is revoked by the president. This clause, the president says, was lacking in validity. The discharged troops, however, will be forever barred from reenlisting in the army or navy, and as to this the president says that "there is no doubt of my constitutional and legal power."

Secretary Taft's report, giving the sworn testimony of witnesses, is transmitted with the message. The testimony of 14 eyewitnesses is given and the president declares that the evidence is conclusive that the weapons used were Springfield rifles now used by the United States troops, including the negro troops who were in the garrison at Brownsville.

Taking but a brief time to pass the legislative, executive and judicial appropriation bill, carrying nearly \$31,000,000, the senate devoted the remainder of the day to discussing the president's message.

Tillman Scores President.

Washington, Jan. 14.—Senator Tillman spoke on the Brownsville incident in the senate Saturday. He characterized the president's action in dismissing the negro troops "as nothing more nor less than a lynching." He challenged anyone to produce in the army regulations or articles of war any foundation for the charge of conspiracy of silence, mutiny and treason made against the soldiers, although he declared there was no doubt that the soldiers were responsible for the "outrage at Brownsville."

Senator Tillman held that it was contrary to the fundamental principles of liberty of English and American law that the innocent should suffer because of the sins of the guilty; also he declared that a man shall be considered innocent until he is proved guilty.

"In this case," he said, "167 men have been punished, while not more than 20 have been charged with participation in the crime."

Should Not Have Been Sent to Texas.

Senator Tillman maintained that the negro troops should not have been sent to Texas. They were sent there, he said, against the protests of one of the Texas senators and the congressman from that district. They were sent there, he continued, with a wholly inadequate number of officers as there were only five officers for the three companies.

Hopkins Defends Smoot.

Washington, Jan. 12.—The first speech in defense of the right of Reed Smoot to a seat in the senate was delivered Friday by Senator Hopkins of Illinois.

Senator Hopkins took the position that senators were not federal officers to the extent that the senate could pass upon their qualifications and eligibility or could impeach them for high crimes or misdemeanors. If a senator was to be punished, it must be done by the state or federal courts. Only federal officers, he maintained, were impeachable, and this impeachment must be for acts committed as such federal officers.

The precedent cited was the unsuccessful effort to impeach Senator Blount of Tennessee, charged with treasonable correspondence with a foreign nation, more than 100 years ago. The conclusion then, Senator Hopkins said, had never been reversed, and that was that the senate had no right to try the case, as Senator Blount was not an officer of the United States.

A general service pension bill was passed by the senate Friday which, if it becomes a law, will give to survivors of the civil and Mexican wars who have reached the age of 62 years, \$12 per month; \$15 to those 70 and \$20 to those 75 years of age.

SUIT FOR MILLIONS BEGUN BY ILLINOIS

ATTORNEY GENERAL WANTS I.
C. RAILROAD TO PAY ALLEG-
ED BACK TAXES.

Improper Bookkeeping and Jugglery
of Receipts of Branch Lines Are
Charged—Documents Are Volu-
minous.

Springfield, Ill., Jan. 15.—The suit of the state of Illinois against the Illinois Central railroad for the collection of several million dollars which the state alleges has been withheld from the state's share of the gross earnings of the railroad was filed in the state supreme court Monday morning by Attorney General Stead. Summons in the case was issued by the clerk of the court and served on N. J. Neer, local agent of the Illinois Central, in the absence from the county of President Harahan.

Expect Fight on Jurisdiction.

The supreme court convenes again on Feb. 5 and at that time the attorneys for the railroad will appear in court and answer the summons. A fight on the jurisdiction of the state supreme court is expected and it is possible that the attorney for the railroad may attempt to have the case taken into the federal courts. In case the supreme court assumes jurisdiction a master in chancery will be appointed to hear evidence in the case.

The state will fight hard to have the supreme court assume jurisdiction, as, if it is successful in this, it is hoped to have the case settled before Governor Deneen's term expires. In case the supreme court does not assume jurisdiction, however, arrangements have already been made for prompt filing in the circuit court.

The papers make a voluminous document, comprising 60 pages, besides exhibits, each consisting of the semi-annual reports made by the road to the state since 1877 and which are declared to be inaccurate. There are 17 divisions to the bill and each is followed by one or more specific instances by which it is claimed the gross revenues of the road were reduced.

Improper Bookkeeping Charged.

To a great extent, according to the allegations in the petition, this seeming reduction in gross revenue was accomplished by means of various bookkeeping devices and the policy of the management which gave the branch and subsidiary lines the lion's share of returns on all business. Another method was by making an arbitrary charge of so much for every 100 pounds of freight passing over the bridges at Cairo and Dubuque, although, the state claims, these bridges were owned by the railroad.

One allegation made is that from 1859 to 1896 there never was filed with the state auditor a list of the stock, property and assets of the road. This was not done because it was held that 7 per cent. of the gross income was the maximum amount which the state could take from the road, and it was easier to reckon this on the reports made by the company. Gen. Stead, holds, however, that the state's income should be equal to at least 7 per cent. of the gross receipts and that the railroad property should be taxed the same as that of other roads.

It is further held that the state should receive its share of the income derived by the Illinois Central on stocks and bonds of other roads which it holds. The amount so derived by the company since 1895 is given as \$33,000,000.

Minnesota House Orders Inquiry at
Minneapolis and Duluth.

St. Paul, Minn., Jan. 15.—The lower house of the state legislature Monday night adopted a resolution directing the speaker to appoint a committee of five to investigate the organization, rules and methods of operation of the Minneapolis chamber of commerce and the Duluth board of trade.

In the senate a bill was introduced increasing the bounty on iron ore taken from state lands operated under the mineral lease law from 25 cents to 50 cents per ton. The bill further provides that after 1907 four cents additional per ton annually shall be added to the royalty payable to the state.

Epilepsy Fits St. Vitus Dance

Are nerve diseases, and unless checked, lead to destruction of both mind and body. The weak, shattered nerves must have something to strengthen and build them back to health. Dr. Miles' Restorative Nerve is a remarkable nerve tonic and stimulant. It strengthens the nerves, relieves the nervous strain, and influences refreshing body-building sleep and rest. Persistent use seldom fails to relieve these afflictions.

"I was taken with epileptic fits; had eleven in less than 12 hours. My father sent for our family physician, but he could do very little for me, and I grew worse every day, and at last they had three doctors with me, and I still got worse. My father heard of Dr. Miles' medicine and bought a bottle of Nerve and a box of Nerve and Liver Pills. I had taken only a few doses until I began to feel better. I took 12 bottles, and it cured me sound and well. It has been worth all the world to me. I recommend it wherever I go. You may use this as a life-long testimonial to the merits of your medicine, for I am enjoying the best of health, and feel that my life and health is due to this wonderful medicine." LEVY WILLIAMS, R. F. D. No. 2, Boston, Ga.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Notes of Sport.

Hope college and Zeeland played the most enthusiastic and closely contested games of basketball ever witnessed in this city last Friday night in the Carnegie "gym." Hope college winning by the score of 37 to 30.

Hope college started out by playing excellent ball and at the end of the first half led by the score of 19 to 10. In the second half Zeeland fought desperately to overcome the lead taken by the college boys and were encouraged by more than 100 rooters, but failed to accomplish the goal. Both teams played fine ball and every player started at some time during the game. Hope was a little weak on passing, but made up for it in throwing baskets.

Hope college still leads in the Trolley league, having defeated Grand Rapids, Grand Haven, Muskegon and Zeeland in succession, giving them 1,000 percentage.

Hope college will play Zeeland a return game a week from Saturday at Zeeland.

Teachers' Association Meeting Held Last Saturday.

The South Ottawa Teacher's Association met Saturday afternoon in Winants chapel. Rev. J. M. Vander Meulen conducted the devotional exercises and he also delivered the first address on the program. His subject was "Opening exercises, Nature of and Benefits Derived Therefrom." Mr. Vander Meulen spoke very informally. He said that this was at the same time his inaugural and ex-inaugural address before an association of this kind because the department of education at Hope college had been placed in the hands of Prof. Kuizenga. Furthermore Prof. Vander Meulen said:

"Every speech or essay, I believe, needs an introduction, and in the same way the day's work in the schoolroom ought to be introduced by opening exercises of some kind. These exercises need not necessarily be of the old hackneyed kind that to most teachers and pupils have become the least bit stale. The use of opening exercises is not necessary on the idea that the day's work is unreclaimably uninteresting. But there are always many drawbacks about routine work such as is done in the schoolroom, and if we begin well in the morning the work of the day is liable to be interesting.

"One of the methods of opening the schoolroom is by reading a passage from Scripture. The Bible stories are of perennial interest to pupils both old and young. But this must not be a cold heartless exercise; it must be made interesting and vital in order to be made valuable. The Scripture reading can be accompanied by reading from the world's greatest poets because the poets have generally been characterized by deep religious sentiment. It is not the outward exercise that is of value but the feeling that it produces in the children. And poetry, sacred or profane, is best fitted to inspire in the children deep moral feelings.

"And then it is valuable that in each opening exercise there should be the element of surprise. It will make the child interested and alert and will encourage punctuality. In this way the opening exercises are apt to give tone to the whole day."

Charles W. Garfield, president of the state forestry association, gave an exceptionally interesting talk—interesting in its novelty. He says that the present force of teachers has fallen into ruts from which it seems difficult to emerge. He believes that the whole educational system must be changed in its methods. He is hopeful that the change will come although it seems still far distant. He said in part: "The two objects of education are service and happiness in that service is a resultant of the first. It is not the amount of theoretical knowledge that will mark the man's effectiveness in the world but the amount of working power that he acquires. It is a common joke with college graduates that they forget all about their college studies so, too, in common schools. The child is required to learn too many studies that have no practical bearing.

"Let each teacher invite into the school room people who are authorities on certain lines. Let those people talk practical ideas into the children. These talks whether they be about farming or history will interest the child and it will give him something valuable for the future. Some such system of teaching, perhaps modified but nevertheless on the same principle is bound to be introduced into American Education."

A debate on the subject "Resolved, That teachers should attend the county association, and the state and county institutes" was held by the following teachers: Affirmative, Bert De Boer, Peter Ver Meulen; negative, John Etterbeck, Cornelius Boone. It was decided in favor of the affirmative.

Senator Luke Lugers talked on "The Law Making Process." His subject, interesting in itself, was but distantly connected with education proper. He gave some personal experiences of his in his life at Lansing and told some good stories. In the conclusion he made an eloquent plea for a deeper study of law and its bearings on civil life.

Prof. John E. Kuizenga spoke on "Chinese Education which does not mean education in China." It certainly did not mean education in China for the professor said that there are a greater number of Chinamen in this country than we imagine. Many a man or woman with a white skin is a Chinaman. Especially teachers are often characterized by the same characteristics as the Chinaman. They are unable to take another's point of view but are wrapped up in their own conceit. They are conservative like the Chinaman, and make no effort to interest the pupils. They think a study is good for a pupil because it does not interest him. They cultivate memory to the exclusion of reason and convert their pupils into mere machines. They are always imitators and never

take the trouble to think for themselves. They do not treat the child as a living personality but use him as a subject to try their pet theories on. "All these are Chinese tendencies against which all teachers should guard."

Supt. Bishop was the last speaker, his subject, "The Personality of the Teacher," contained much of interest for the audience of teachers. He said, "It is not enough to have knowledge. The minds that are the most clever in retaining facts are often the most mechanical and are least adapted to real school work. The teacher's examination is but a test of part of their capabilities. Knowledge of human nature is of more value to a teacher than knowledge of books. Many teachers worship the letter of their profession and neglect the spirit. Adaptation is the great secret of teaching. The teacher must be able to adapt himself to the pupil. To be successful he must have social and spiritual elements besides the intellectual. A warm, social, sympathetic nature is of prime importance in the schoolroom."

The next meeting of the association will be held in Zeeland.

New Bank in Fennville.

For some time there has been talk of another bank being started in Fennville, or that a new banking company might purchase and run the Old State Bank. The rumor took on a more substantial appearance, when Fred I. Chichester, cashier of the First National bank of Allegan, and Mr. Slaght, of the Grand Rapids National bank, came to Fennville Thursday and entered into negotiations for the purchase of the bank from J. E. Hutchinson, principal owner of the stock of the local bank. It is expected that a final decision may be reached within the next week. In case the deal goes through, the capital stock of the bank would probably be raised from \$15,000 to \$25,000 and a new manager come here to take charge. Local capital would be enlisted, but the outside promoters would control the majority of the stock.

Polkton Man is Chairman.

Harrison H. Averill, supervisor from Polkton, was elected chairman of the board of supervisors at the opening of the January session. Three ballots were taken without a choice Supervisor VanDuren moved that the rules be suspended and Mr. Averill be elected by acclamation. Mr. Averill took the chair started directly to business without making any preliminary speech.

The most important business of the afternoon was a petition from Sheriff Woodbury containing a proposition to work under salary and named the amount at \$4500. This will run the jail and pay the sheriff and one deputy but does not include working expenses when away from the jail. He stated that compared with last year's expenses, the new order of things would save the county about \$2000 per year.

The matter was referred to a special committee to investigate and report.

CONFESSES COX MURDER

PRISONER IMPLICATES HARGIS AND EX-SHERIFF CALLAHAN.

John Smith Declares They Ordered the Killing and That They Paid Him \$100.

Jackson, Ky., Jan. 12.—John Smith, one of the men under indictment for the murder of Dr. B. D. Cox, has made a confession, which is now in the hands of Commonwealth Attorney Jonett. Smith names ex-Judge Hargis and ex-Sheriff Edward Callahan as moving spirits in the crime. He says that Hargis and Callahan induced him to enter the conspiracy against Cox, making promises to see that he was acquitted and to give him a job. He declares Callahan gave him \$100 after the killing, saying "Jim" Hargis sent it to him.

According to the confession, three men shot Dr. Cox. Smith's words in describing the murder are:

"So Judge and Ed put us three—Spicer, Abner and myself—under the barn shed and sent Elbert Hargis to stand on the corner. When Dr. Cox left his office and started home and got opposite where we were in hiding, Elbert Hargis was to call him so we would know it was Dr. Cox.

"We stayed under the shed about one hour, and while we were there Ed Callahan came to us and stayed with us until just 20 minutes before Dr. Cox was killed, and he told us to be sure and not miss him.

"And when Dr. Cox did start from his home and came down just across the street from us, Elbert Hargis called to him and said: 'Is that you, Doc?' and he said: 'Yes,' and stopped, and all three of us fired at the same time, or so near the same that it was all one report."

WORK FOR PEACE.

Move to Organize Branch of Civic Federation in Chicago.

Chicago, Jan. 14.—Labor and capital, the workers of Chicago and their employers, met Saturday night on common ground and equality. The project of settling their difficulties by conciliation brought them together at the residence of Mrs. Potter Palmer, 100 Lake Shore drive.

It was a conference under the auspices of the National Civic Federation and was attended by more than 600 persons. Perhaps half of them were trade unionists and probably every labor organization in the city was represented. The object of the meeting was the organization of a branch of the Civic Federation for Chicago and the central west.

As a result of the conference a meeting will be held in Chicago this week at which a western branch of the National federation will be organized.

Chicago, according to the plan, will become the central point from which the efforts of the National Civic Federation will be exerted throughout the central and middle western states, as they have been heretofore in the eastern and New England states.
