## Is There No Remedy?

The National Safety Council sends out a discouraging report on automobile accidents. It says that approximately 30,000 people were killed in them last year. In other words, enough men, women and children to populate a fair-sized city died under the wheels. And there was an increase of three and one-half per cent over 1932.

In elaborating, the Council also makes this comment:

The 1933 increase was entirely the result of unfavorable experience during the last half of the year when there was a 12 per cent increase over the corresponding six months for 1932. This increase more than canceled a decline of seven per cent which occurred in the first half of the year. \* \* \* Increased automobile traffic during recent months was largely responsible for the increase in deaths.

In other words, the United States is getting nowhere fast in its effort to reduce the highway accident toll. Yet every conceivable sort of campaign and exhortation has been tried; and there is no lack of law. Nobody seems to have an answer.

Mrs. Deckard Ritter will give a book review at next week's program.

## Beaver Dams and Fish

A trout won't jump over a beaver dam but it doesn't have any trouble in dropping down over the dam. Trout, accustomed to living in the backwaters of a beaver dam, are generally unfit to eat. Ordinarily a beaver dam for the first two or three years provides the best fishing, only to lose its importance after that time.

These are some of the preliminary conclusions made by J. C. Salyer, who is making a study of the relationship between beaver operations and trout, for the Department of Conservation.

Salyer began his investigations in September and filed a preliminary report of his studies with the Conservation Commission at its January meeting. His report, he said, is only cursory and does not indicate conclusive findings.

One stream where he studied conditions with the aid of hundreds of tagged trout he found that not a single fish was able to jump over a beaver dam and travel up stream. However, in one instance a female went down over five dams to reach spawning beds below. She was placed up stream again and in eight days she was down over the five dams again.

Beaver dams, Salyer said, have a very definite influence on the chemical condition of the water in a stream, and frequently cause stagnation to the extent that fish living there are "muddy." In three streams in the upper peninsula water was in such a condition that the trout could not be eaten. All of the streams had many beaver dams with a large amount of vegetation that was fermenting and decaying.

## Ducks Are Vegetarians

All wild ducks are at least 90 per cent vegetarians in their food habits, according to the United States Bureau of Biological Survey. When ducks dive, scientists of the bureau declare, they are almost always going after rootstalks and the tubers of aquatic plants, or seeds that have sunk to the bottom. The animal food that wild ducks do consume consists of worms, insects, snails and crayfish—very seldom fish.

## ZEELAND

William J. De Jonge, 54, died Monday evening at Huizenga Memorial hospital where he had been confined for several weeks. Mr. De Jonge, a machinist, has lived in Zeeland his entire life. He resided with Mr. and Mrs. Hans Fisher until a few weeks ago, when he was removed to the hospital. He had been ill since last September. Funeral services were held Thursday afternoon at 3:15 o'clock from the home of Mrs. Nellie De Jonge, 239 East Central avenue. Rev. J. Van Peursen, pastor of First Reformed church, officiated. Burial took place in Zeeland cemetery. Surviving are two brothers, Gerrit of Detroit, and Cornelius of Brooklyn, New York, and several nephews and nieces.

Mr. and Mrs. James D. Stuver, former residents of Zeeland and now residing north of the city on a farm near Bass river celebrated their sixtieth wedding anniversary Wednesday of last week. The elderly couple is making their home with their daughter, Mrs. Frank Kara. The Stuvvers came to Zeeland in 1893 from Riverdale, Illinois. Mr. Stuver took a position with the Zeeland Brick company as a stationary engineer. After leaving the Zeeland Brick company the Stuvvers farmed a small section near Beaverdam for three years. They then took up a residence near their present home. Both Mr. and Mrs. Stuver are in perfect health. He, although 83, still can do his day's work as a carpenter and hunts and fishes as in his younger days. He reads without glasses. Stuver has served as a township officer and school board member several years and also has been on the board of the Christian Reformed church of Rusk. Their only son, a World War veteran, died soon after his return home from service.

The Ladies' Aid society of the School for Christian Instruction will meet Friday afternoon, February 2. Rev. A. Jabaay will be the speaker for the afternoon.

The girls' society "Esther" of the First Christian Reformed church will hold a sale of baked goods Saturday afternoon, January 27, at De Bruyn's store.

Born to Mr. and Mrs. John Busie, Borculo, a daughter, on Tuesday, January 23.

The American Legion auxiliary will meet Monday evening, January 29, at the home of Mrs. Bernard Veneklasen at the old brick yards.

Mrs. Martin Berkompas of Olive Center is spending a few days at the home of Mr. and Mrs. O. De Jonge on Lincoln street.

Mr. and Mrs. William Oonk and Billy and Eleanor of Holland visited Mr. and Mrs. Fred Bosma and children at their home on North State street, Zeeland, last Sunday.

After an absence of three years, Miss Beula Vander Wege returned to her home at Zeeland this week. One year of that time she spent with her brother and sister, Mr. and Mrs. Walter Frey at Oakland, California, where she completed her high school studies, and two years she spent with her brother and sister, Mr. and Mrs. Ernest Maston at Buffalo, South Dakota.

It has been estimated that there is a shortage of about 350,000 homes—population has kept increasing but the depression has reduced home building to a rate below normal—and numerous observers expect the repair of this shortage to afford one of the big fields for industrial activity as soon as the upturn economically definitely reveals its upward swing.—Buffalo Courier-Express.

VALENTINE DAY

And what a Valentine! With Ben Lievensen, Ben Lanning and Elmer Schippers on the program detail. Trot out your best boys, we're watching you.

By the time you read this the South Haven visit will be all planned. But something else is coming, it's always something. In fact, if it isn't one thing it's several. The Fifth district meeting at Grand Rapids on Saturday, February 3. This is a joint meeting with the ladies, so get set and be there by 4:30 in the afternoon. Watch the papers or write your congressman for more news of it.

At our last meeting Mr. Allen told us about the sugar industry. It was very interesting. Some time we should hear from Jim Hoover on "The Life History of a Pickle" or from Doug Esten on "The Sole of a Shoe." There is no end of possibilities.

Has anyone heard anything of the Legion bowling team? Way back in 1933 we heard rumors of a team. It reminds us of some of the rumors we heard over in

## In The WEEK'S NEWS

**MOTOR CAR IS KING.** New York's most popular topic was the new 1934 cars during the auto show, to which celebrities and plain John Citizen flocked in great numbers. Here are some of the high spots of the show, as the cameraman shows some of the crowds which jammed the exhibit.

**AL SMITH MEETS NAMESAKE.** Al Smith of New York met Al Smith of Detroit during the show. Detroit's Al, a veteran employee of the Fisher Body Corporation, hasn't missed an auto show in thirty-five years, but this is the first time he ran across New York's Al. Looks as though Al has his eye on that car in the next picture!

**THEY COULDN'T GET PAST.** Lyda Roberti and Tamara, stars of "Roberta," were busy inspecting gadgets and motors at the show until they found this miniature style show with tiny mannequins dressed in latest fashions—and there they stayed. Photo shows Miss Roberti, Margit Nilson, ex-Vanities dancer who designed the style show, and Tamara.

**THE PRESIDENT'S DAUGHTER.** Mrs. Anna Roosevelt Dall, put off her return to Washington from a shopping expedition long enough to inspect the new cars. The most interesting exhibit in the show, she said, was the tiny Napoleonic coaches built by young members of the Fisher Body Craftsman's Guild. She is shown inspecting the coaches with W. A. Fisher, sponsor of the foundation.

**WRAP IT UP!** That's what these stars of "She Loves Me Not" are saying as they rest for a minute on a shiny new streamlined LaSalle. Polly Walters, New York's stage sensation, is at the wheel.

BOY SCOUTS OF AMERICA

## AWARDS PRESENTED AT ANNUAL BOY SCOUT MEET

The annual session of the Ottawa County Boy Scout council was held Monday evening in First Methodist Episcopal church. Dinner was served to approximately 150 Boy Scouts, leaders, commissioners and parents from all sections of the county, after which a program was presented.

Rev. Thomas G. R. Brownlow, pastor of the Methodist church, pronounced the invocation. Special music was provided by the Junior High school orchestra. John Vander Sluis led the song session and Stephan Mead of Grand Haven presided over the roll call by troops. Attorney Elbert Parsons was toastmaster for the evening and Prof. Henry Winter, chairman of the program committee, presided over the program.

George Mooi of Holland was re-elected president of the council, Stephan Mead was re-elected Scout Commissioner and Bernard Sherwood, Jr., of Grand Haven was named treasurer to succeed Henry Winter of Holland.

A letter was read from William Hutton of Grand Haven, honorary president of the council, who was unable to be present.

Rev. J. J. Vanden Berg of Zeeland, chairman of the council court of honor, directed the presentation of awards.

Gold medals for bravery and life saving were presented to Neal Addison and Charles Jacobson of Grand Haven for rescuing two skaters from the waters of Spring Lake. Skipper Hendrik Noble of Ship 18, Holland, was awarded a life-saving medal for saving three boys whose boat had capsized in Black lake.

Harvin Huizinga of Grand Haven, junior assistant scoutmaster of troop 3, was given a medal for administering first aid to three victims of an automobile accident.

Harold Westrate of Holland and Max Reynolds and Per Reynolds of Coopersville received Eagle Scout badges.

President George Mooi was presented with the Silver Beaver award for "distinguished service to boyhood."

Prof. Egbert Winter of Hope college, chairman of leaders' training, presented scoutmaster certificates. The following awards were given:

Scout leadership, Willard De Jonge, Coopersville; Indian lore, William Vander Water, Zeeland; camp craft, George Meengs of Zeeland, Carl Bigler of Grand Haven and Isaac De Kraker, Benjamin Mulder, Albert Van Lente and Virgil De Feyter, all of Holland.

The following, all of whom live in Holland, were tendered the Scoutmasters' key:

Elmer Van Lente, Benjamin Mulder, Virgil De Feyter, Isaac De Kraker, Fren Benjamin, Louis Mulder and William Lundie.

Prof. Winter spoke on "The Why of Cubbing," and pointed out that the boy from 9 to 12 years of age is a difficult problem.

Rev. Raymond Drukker of Grand Rapids gave an inspiring address on the subject "Whose Boy?" In answering this question the speaker said:

"A boy is his parents' society's and belongs to the state," he declared, "but by belonging to God he belongs to all of us."

The session was brought to a close with the singing of the Scout vesper song and the reciting of the scoutmasters' benediction.

## TO ORGANIZE FOR GREATER BUYING POWER

THROUGH their county corn-hog control associations, American farmers can follow the pathway to increased purchasing power for corn and hogs. Under the corn-hog reduction plan, they can organize to control production and they will receive the full benefits for their efforts.

Although the Agricultural Adjustment Administration is charged by law with the responsibility of directing the corn-hog reduction program, the actual sign-up of contracts and the local administration will be in the hands of the corn-hog control associations which will be organized in major corn-producing counties by contract signers. Each farmer who signs a reduction contract becomes a member of the association and is entitled to a vote in its affairs.

The Board of Directors of the County Corn-Hog Control Association will be composed of representatives from the various communities within the county, elected by contracting producers, themselves. In each community a permanent committee of three to five members also will be elected by farmers.

## HAMILTON

The play "The Arrival of Kitty," was presented to large audiences last week, Thursday and Friday evenings, after a preliminary performance for the benefit of the youngsters on Wednesday evening. It was a comedy of errors and greatly enjoyed by the crowd. The play was different in that the players themselves were "let sea" as to what was going to happen next as well as the audience. No matter how hard they tried and in spite of the most carefully made plans they were wrong to the delight of the fans. The special music furnished by "Slim and Jim" and little Jimmy of Holland kept the audience entertained during the intermission. Proceeds amounted to about \$125 which will go to community welfare. Gladys Lubbers, the director, entertained the cast, stage managers and others that helped to make the presentation a success. Rehearsals for the next play will begin within the near future.

Ernest Kronmeyer left for Los Angeles, and Hollywood, California, and Phoenix, Arizona, Monday morning. He will act as chauffeur for Mrs. La Caff and daughter on a business trip to those cities.

"The Printers Who Know How"

## FOOD SALE

The Great Atlantic & Pacific Tea Company, who have two large stores in Holland and one in Zeeland among their thousands of other stores, are putting on their annual one-week food sale, ending on Saturday night of this week.

The A. & P. have circled this whole vicinity with four pages of bargains. Every meal of the day is provided for. When you get up in the morning you can utilize Palmolive and Kirk's soaps for your bath. You can "break the fast" with breakfast foods of all kinds—full cream cheese, Sunfield pancakes with those nice little sausage, and read your morning paper smoking the best cigarettes, according to this sale.

The dinner meat list is well defined from poultry to steak, roasts

and choice cuts, all at anniversary sale prices.

"Dinner at Eight" can be made complete with Eight O'Clock coffee that gives the meal a zest as nothing else can. The meal can be given official class through Whitehouse milk, perfect for cooking and baking. Your three squares can be enhanced through bread that grandma used to bake and can be made more appetizing through the endless list of relishes, salads, catsups and sauces that are given in the A. & P. menu set forth in the large colored circular.

Friday can be liberally supplied with fish and other sea foods, including extra select oysters direct from the oyster beds.

The local management, in speaking for Holland, wishes to say that this is one of the largest sales events of the year.

Consult your sales circular for food bargains.

The first election, November 14, was illegal as other than taxpayers voted. At the second election January 2, the proposition lost.

## Peck's Drug Store

194 River Ave.

Flour sale at Krogers. See large announcement.

Charles E. Misner, chairman of the Democratic committee of Ottawa county, went to Detroit today to attend the testimonial banquet given to Horatio Abbot, Democratic national committeeman from Michigan. He was accompanied by Dr. J. N. Jarvis of Grand Rapids, Lou Vanden Berg of Holland and William Wintzels of Zeeland.—Grand Haven Tribune.

Mrs. Anna Start, believed to be the oldest resident in Spring Lake, observed her ninety-third birthday Wednesday at her home, in comfortable health regardless of the fact that she has been unable to walk for the past five years following a fall when she fractured a leg. She has lived in Spring Lake since her marriage many years back to Hilbrand Start, who died 19 years ago.

An orthopedic clinic will be conducted in Washington school on Friday morning, February 2, at 9 a. m. for school children and at 9:30 a. m. for outsiders. Dr. John Hodgson of Grand Rapids will be in charge.

A small blaze was started last week, Tuesday night some time after midnight, at the rear of Gerrit Van Koevring's home on Lincoln street, Zeeland, just east of Peck street. The fire department responded and found a small, roughly constructed coop so far developed in flames that there remained nothing worthwhile to save, and the property loss is reported as none. The building, it developed upon investigation, was a "shanty" built by a group of neighborhood boys as a playhouse and was constructed of lumber from old wooden boxes and crates. It is thought the boys had occupied it in the late evening, and had not been any too careful about the old stove they used for heating before leaving the place.

Brenton Shauding, 27, was arraigned before Justice Herman H. Cook, Allegan, Wednesday on a charge of stealing bridles and saddles from a Douglas riding academy. He was bound over to circuit court. Bond of \$500 was not given. His trial has been set for February 1.

Judge Fred T. Miles has granted an extension of 40 days from January 30 for presenting the Fred C. Ring appeal case to the state supreme court. Ring was convicted of indecent exposure as head of the nudist colony near Allegan at the October term of circuit court.

Born to Mr. and Mrs. John Karsten, Beaverdam, a daughter, Joyce Elaine, Tuesday, January 16.

Prof. W. Curtis Snow will present one of his regular organ recitals in Hope Memorial chapel Sunday afternoon at 4 o'clock.

Martin Korstanje spent Sunday in Holland visiting his children, Mr. and Mrs. Anthony Korstanje.—Zeeland Record.

Mr. and Mrs. Hein Derks, G. J. Buter and Miss Minnie Buter of this city, and Mr. and Mrs. Albert Buter of Holland were guests last Wednesday evening of Mr. and Mrs. Gerrit Buter at their home in Grand Rapids.—Zeeland Record.

Allegan County Treasurer J. Roy Tanner is sending out checks to pay the \$45,000 covert road bonds that were defaulted by the county last year. The county was enabled to make payment by reason of the receipt of \$87,000 from the state recently.

Mrs. Ralph Bloore's group of the women's home missionary society of the First Methodist Episcopal church will hold a baked goods sale at the Holland Gas company office, River avenue, Saturday.

Word was received here that Mr. L. Kardux, perch and blue gill fisherman in Holland, who is in Florida, that he recently caught a trout weighing 5 pounds and 7 ounces and became winner of the free plug donated for the largest fish brought in that week. Mr. Kardux and his friend, Charles De Boer, also of Holland, enjoyed the fishing trip on Cotee river.

A West Michigan Laundry truck driven by George Overway, 28, and a truck driven by James Fabiano, 18, collided and caused injuries to Mr. Overway. Overway, who injured his side and received a cut hand, was given medical attention. The laundry truck was overturned and completely demolished and the front end of the Fabiano truck was damaged.

Mrs. Len Kivitt of Holland attended the W.C.T.U. meeting at Zeeland Friday afternoon.

Rural mail carriers of Allegan county and County Agricultural Agent A. D. Morley are obtaining names of Allegan county farmers eligible to sign hog or corn contracts. A farmer must have grown an average of more than 10 acres of grain corn for the last two years to be eligible. To sign the hog contract he must have produced an average of three litters of pigs per year on his farm the last two years.

## Found Guilty of Bastardy

The Allegan circuit court jury devoted its time to the trial of the case of the People vs. Franklin Tiefenthal, bastardy. There was the usual crowd of spectators, the contradictory testimony, the noisome details, that mark this kind of case. One angle worthy of attention was the testimony of the mother of the complaining witness, that she watched her daughter carefully, supposed she was a model daughter, and was amazed at her admissions on the stand. Attorney Pell commented: "It's pretty hard to keep track of a daughter these days." "It certainly is," replied the mother. In his argument Mr. Pell referred to the troubles that young people get into these days of fast living. "You can see what can be pulled off right under a mother's nose without her knowing it. These cases are indeed a lesson to parents." The jury returned a verdict of guilty.

LaRue Mudgett of Hopkins, charged with enticing a female child under sixteen years of age, pleaded guilty. Sentence will be passed later.

The case of Everett Mort of Otsego, who was charged with statutory rape, was dismissed by Judge Miles.

The judge dismissed the jurors until Monday, Jan. 29.

## We Envy the Farmer

Allegan Gazette—We envy the farmer and his farm club meetings. Nothing in American life today is more wholesome or substantial than these neighborhood gatherings that so frequently are a part of winter afternoons and evenings in the agricultural districts. Here the entire countryside meets to discuss the business and social problems of importance to the nation. You do not see them pictured in vain pursuit of pleasure, but in earnest and hopeful search for a higher and finer moral standard of human conduct. Despite the hardships of the past few years the farmer remains the solid foundation upon which the Republic rests. It is because of the friendly manner in which he meets with his brother farmer for mutual discussion of their problems that this has been made possible. As long as first importance on the farms the these farm meetings continue of future of agriculture is assured.

## SAYS COMPANY HOLDS UNUSUAL SALES RECORD

For the eighteenth consecutive year, Goodyear tires enjoy a greater public preference than any other kind, according to Mr. Charles Van Zyl, local Goodyear dealer. "Recent national surveys indicate that public preference for Goodyear tires is even greater in 1933 than it was before," Mr. Van Zyl stated. "Nearly one-third of the tires sold in this country are Goodyears."

"During the past five years many newcomers have taken their place in the Goodyear line—the Airwheel for airplanes, the Airwheel for passenger cars, the pneumatic lug tire for tractors, the pneumatic farm tractor tire, the new and advanced Goodyear bus and truck balloons that have revolutionized long-distance pay-load hauling."

"Early this spring, Goodyear concentrated its production of passenger car tires on two main lines, both manufactured with full center traction for gripping the road and with the famous super-twist cord which gives the tire longer life and greater mileage," he continued. "Overwhelming public preference indicates the motorist would rather buy first-choice merchandise, especially when it costs no more than second-choice. This has been my experience, too, during the many years I have been selling Goodyears."

"When one considers the pioneering that has been done by Goodyear in all phases of tire development, and the consistent quality that has been built into that line of tires, it is no wonder the statement that 'more people ride on Goodyears than on any other kind' has held true for eighteen straight years," Mr. Van Zyl of the Holland Vulcanizing company concluded.

## Dutch Music Predominated At Music Club

## MISS RUTH KEPPEL TELLS OF MUSIC IN THE NETHERLANDS

A very interesting program was given at the beautiful home of former Mayor and Mrs. Earnest C. Brooks on State street, Wednesday afternoon when the Holland Musicians' club was entertained. It was guest day and a large gathering spent a delightful afternoon at this open house affair where hospitality reigns always.

The guests became more intimately acquainted with Netherlands music so ably portrayed by Miss Ruth Keppel, local artist. Miss Ruth Keppel presented a most instructive paper on "The Music of the Netherlands." She stated in part:

"In the fourteenth and fifteenth century the Dutch were the most musical nation, due largely to their development of commerce and industry, their comparative peace and the wisdom of their rulers. Netherlands became the teachers of Europe and supplied almost all the church centers with composers, choir leaders and teachers. There were 370 prominent Netherlands composers in this period. Dutch music won a European reputation before Dutch painters were recognized."

"The fountain of music was in The Netherlands," writes a Venetian of the time. Whole orchestras of Dutch musicians traveled through Europe and practiced their art. Netherlands song books were in general use throughout Europe and found admirers and imitators everywhere.

"The chief difference between the Troubadours, Trouvères, Minnesingers and the musicians of The Netherlands was that the latter were trained musicians and men of letters. They used major and minor scales rather than the church modes."

"There is a stern grandeur, a rugged strength and sublimity in the music of these old Flemish masters which was certainly not transmitted to their Italian successors but disappeared from music until the time of Bach."

"There is one form of music in which the Dutch have always excelled and may be regarded as excelling other people. This is as organists. The Dutch were very fond of large organs and early became extremely expert in their manufacture."

"Amsterdam came into prominence late in the sixteenth century through the genius of Jan Sweelinck one of the last of The Netherlands school and the greatest organist of his time. He had so many pupils from every country that he became the founder of a very famous school of organists and in the next generation nearly all the leading organists had been his pupils."

"Since the sixteenth century the music of Holland has suffered something of an eclipse being totally overshadowed by Germany. Now, however, it is slowly beginning to come into its own again. The modern Dutch composers have brought about a renaissance of the madrigal style of their forefathers."

"Little Holland can well be proud not only of her pre-eminent artists such as Rembrandt, her great national statesmen such as William of Orange, but also her less lauded musicians who have given Holland and the world a treasury of melody."

The afternoon program follows:

Paper, "Music in the Netherlands," Miss Ruth Keppel. Dutch quartet, (a) "When Neerlandisch Bloed;" (b) "De Zilverloot," Miss Helen Bosman, Mrs. P. Prins, Mrs. H. Weller and Mrs. Miller, accompanied by Miss Jennie Karsten. Vocal solo, "Goeden Nacht," Miss Helen Bosman, accompanied by Mrs. A. C. Keppel. Violin compositions by unknown Dutch composers of the early eighteenth century (a) "Minuet," (b) "Andante," and (c) "Intermezzo," Miss Ruth Keppel, accompanied by Mrs. A. C. Keppel. Holland high school glee club, Quartet, assisted by the audience, "Forty-second Psalm sung in Dutch."

Dutch lunch. (Presented by a Dutch cast in costume.)

Chairman—Miss Ruth Keppel, assisted by Miss Spritsma.

## CENTRAL PARK

The Young Men's Bible class at its annual meeting elected the following officers: President, John Van Der Werf; vice president, William Appeldorn; secretary, Jacob H. De Pree; treasurer, Simon Beckford.

A pancake supper for men only was served by the members of the Y. M. B. C. Sunday school class at the church Monday evening. This was a great success in every way, Judd Kronmeyer proved to be exceptionally skilled in making pan cakes and Jim Cook's ability in making coffee was no less. There were sixteen dish washers as each man washed his own dishes under the surveillance of Floyd Boerema who was in charge of this affair. Several of the men are reported to have worked without breakfast Tuesday morning because they were still surfeited with the pancakes of the night before.

The first P. T. A. meeting of the year will be held at the Lugers school next Tuesday evening, January 30 at 7:30 p. m. Mr. Henry Van Den Berg is in charge of the program.

A new tall wire fence around the Lugers school property was erected this week and completes the CWA work to be done at this school.

Mr. and Mrs. Dick Van Der Meer and Mr. and Mrs. James Cook motored to Agnew Wednesday evening to call on Mr. and Mrs. Thomas Rosendahl.

Rev. P. J. Van Dyk was in Grand Rapids last Friday attending the afternoon and evening session of the annual conference at Mel Trotter's mission.

The Ladies' Missionary society met Thursday afternoon at the church. Mrs. Cora S. Prince read a story by Grace Livingston Hill, "The Old Guard," and Mrs. James Cook sang a solo, accompanied by Mrs. Van Der Meer. Mrs. Ralph Van Lente and Mrs. Dick Van Der Meer were the hostesses. Reports were given by Mrs. Fred S. Bertsch on the day of world-wide prayer for missions to be observed February 16, by the society's treasurer, Mrs. Elmer Teusink, and the committee on work among the lepers. Election of officers took place.

## VIRGINIA PARK

## Action Is Taken By Council; Ask for State Store

ALLEGAN IS GOING INTO THE  
HARD LIQUOR BUSINESS  
SOON—NOT BY GLASS

A definite stand that will prohibit the sale of liquor in Allegan by the glass was taken Monday night when a resolution, offered by William Legner and supported by C. C. Benson, providing a prohibitory clause to the sale of liquor by the glass, was adopted.

At the same time, the resolution offered by Mr. Legner provided that the state liquor control commission be asked to establish a state store in Allegan. The resolution was unanimously carried and later in the meeting, the council recommended Peet's Drug store as first choice for the location of the state liquor store and gave Al Davidsmeyer a recommendation as second choice.

With the council having complete authority to decide whether or not liquor shall be sold by the glass in Allegan in either restaurants or hotels, the action taken by it Monday night means that liquor can be purchased by the package only.

If Allegan citizens want the sale of liquor by the glass then they must wait for a one-year period and at the expiration of that time they may present a petition, if signed by twenty per cent of the qualified electors, asking the council to call a special election to decide whether or not the city shall sell liquor by the glass.

Several applications asking permits to sell liquor by the glass have been received by the council but the action of Monday eliminates them and no permits will be granted for that purpose.

According to reports made to members of the city council at their session Monday, several state agents from the liquor control commission have been in Allegan and have inspected places where liquor can be sold, but there has been no definite information as to a final action by the state and it is probable that the state will follow the city's recommendation. It is expected that information will be available in the near future.

## SAUGATUCK TO SELL LIQUOR BY GLASS

A motion was made by Ald. Crow and supported by Ald. Jinnette that the sale of spirits by the glass for consumption on the premises, when approved by the State Liquor Control Commission, be granted in Saugatuck. Yeas: Alderman Jinnette, Freeman, Lynds, Crow and Peshon. Nays: None. Carried.

Motion made by Ald. Jinnette, supported by Ald. Crow, that permission be granted to Dale J. Crow to sell liquors by the glass on the premises known as the Saugatuck hotel. Carried.

Nykerk, Hope forward, was high individual scorer of the game, sinking seven field goals and four free throws for 18 of the Hollander's points. In a game marked by numerous personals he played without a single foul against him. Alma lost one and Hope three players by the foul rule.

## Ground Hog Day Special

NAME JOHN BARR, ZEELAND,  
COMMITTEE CHAIRMAN;  
EYE SPRING PRICES

More than 150 hatcherymen, members of Michigan group 1, comprising Ottawa, Kent, Allegan, Muskegon, Oceana, Newaygo, Barry and Muskegon counties, met at the city hall at Holland to discuss the NRA code of the International Baby Chick Association.

A compliance committee to watch regulations and violations was elected with John Barr of Zeeland as chairman. Other members of the committee named were Robert Christophel of Holland, John Elhart of Fremont, M. Knoll of Holland and E. C. Forman, Lowell.

Cards were distributed, filled out and signed by the hatcherymen on a schedule of prices on two grades of chicks for spring sale. These will be tabulated and averaged, the results to be mailed out to the hatcherymen.

The meeting was under the direction of J. A. Davidson and Otis Shear, Michigan State College extension specialists. C. P. Milham of Grand Haven, Ottawa county agent, opened the meeting.

The national code clearly defines all terms, sets a country-wide scale of prices and wages of employees and points out unfair methods of competition. It is provided that chicks must be sold at cost or above, no individual price level being set. Penalty provided by the code for any violation is \$500 per day.

Under the code it is forbidden to use for hatching, including custom hatching, eggs that weigh less than one and five-sixths ounces each and less than 23 ounces average per dozen, it was stated. The business practice of giving extra chicks beyond the number sold and specified in the order is also taboo, it was shown.

### WHY BEET SUGAR?

By James Prins.  
(First Prize)

The battle for supremacy between the lowly sugar beet and the stately sugar cane is on. Which shall be the source of the sugar with which you sweeten your coffee and obtain energy for your body? Mother Nature clings tenaciously to the secret process of its manufacture and thus far, man has been unable to wrest it from her. Her chief laboratories are the sugar cane and the sugar beet. Man does not make sugar; he extracts it from these two plants. The word sugar is a very general term and although the product obtained from the sugar cane and the sugar beet is commercially called that, its technical name is "sucrose." The chemical formula for this carbohydrate is C12 H22 O11. The sugars from sugar beets and sugar cane have the same physical properties and the same chemical content. In a highly refined state they both are 100 per cent sucrose, which means that beet sugar and cane sugar are identical and can be distinguished in their source only.

All, which has been said thus far, may seem superfluous and irrelevant but shows that the question "Why Beet Sugar?" cannot be settled on the issue of quality. Beet sugar is an all-American product. It is all-American in the sense that we as citizens of the United States call ourselves Americans. The people of the United States consume more sugar per capita than any other nation in the world. The sugar beet is the only great source of sugar grown in the United States. Louisiana is the only state which raises sugar cane. The United States extracts approximately 1,174,000 tons of sugar from the sugar beet annually. This sugar is refined in the United States by American workmen. Yet, the people of the United States consume 5,500,000 tons of sugar in the same length of time. This leaves 4,326,000 tons of sugar which are imported into the United States. Every year there is a 4,326,000 tons of sugar which are not all refined in the United States by American workmen. Most of this sugar is cane sugar and comes principally from Hawaii, Porto Rico, and the Philippines. It comes duty free which means that it is placed on a par with the American product regardless of the facts that American labor requires higher wages and the refining of beet sugar is a more extensive process than that of refining cane sugar. Thus, our first issue is established. The refining of beet sugar is a strictly American industry. We as Americans are its market. It calls for our support as American citizens.

Let us take a step closer. We are more than Americans; we are citizens of Michigan. We are proud of that fact. Michigan is a great industrial state; a great agricultural state. Michigan is beautiful and natural. It belongs to you and me. The farmers of Michigan raise sugar beets. Michigan has the second largest number of sugar beet factories in the United States. They number sixteen. Beet sugar is a Michigan product. Our second issue is logically established. The refining of beet sugar is a Michigan industry. It merits our support as citizens of Michigan.

The governmental structure of our country is a happy one. It calls for something more than a price for our state and nation. It calls for a pride in our community. We make a distinction. We are Americans and Michiganders, and we are proud of it. But we are also citizens of Holland. Farmers in the vicinity of Holland raise sugar beets. Holland has a sugar beet factory. The refining of sugar is a Holland industry. We desire to make Holland a prosperous community. Upon our support depends the success of the venture; upon its success, in a measure, depends the prosperity of the farmers and workmen. If their buying power is increased, the merchants of Holland are benefitted. The nearer the market, the greater are the farmers' profits. If they are appreciable, the prosperity of our community is increased. We are that near market. We have established a third issue. Beet sugar is a Holland product. It merits the support of the Holland citizens.

The refining of beet sugar is an American industry; a Michigan industry; a Holland industry. Beet sugar is a Holland product; a Michigan product and an American product. It appeals to our pride in our nation, in our state and in our community. Why Beet Sugar? Because we are Americans; Michiganders, and Hollanders. That means something to all of us. Let's buy American! Let's buy Michigan! LET'S BUY HOLLAND! Let's buy beet sugar and push this project around the corner.

## Stop Road Work for Ten Days, Are the Orders

ORDER EXTENDS TO JANUARY  
19 BECAUSE COUNTY CWA  
QUOTA IS OVER-FILLED

Work on all road projects in Ottawa county under CWA will be discontinued for the next 10 days, according to instructions received recently by Carl Bowen, county engineer, from John DePree, project man of the county CWA board.

The order extends from Jan. 1 to Jan. 29, which will mean only four working days according to the present schedules. The reason for this order is to make arrangements for employment to come within the quota of CWA workers allocated to Ottawa county.

With the large number of school projects in the townships, the municipal work on buildings in this city and elsewhere, many more men were put to work than could be supported under the CWA quota. It was estimated that about 2,000 men are on the CWA lists. As the quota from this county is 1,580, instructions have been received from Lansing to cut down the work.

Mr. Bowen agreed that road work of the kind being done under CWA could be abandoned at this time more easily than building projects. There has been considerable over the quota in this city for some time.

The order today will affect residents in the townships heavily as county road work is being done almost exclusively by them.

**Petitions and Accounts**

Clerk presented letter of appreciation from the local post of the American Legion thanking the Council for its assistance in furnishing trucks for delivering Christmas baskets during the recent holiday period.

Accepted with reciprocal thanks to the legion for their activity in sponsoring this drive.

Clerk presented applications for building permits covering addition to new City Warehouse on 5th St., also a new warehouse on 6th St., for B.P.W.

**Granted.** Clerk presented communication from Thomas N. Robinson on behalf of Peter H. Van Ark, City Assessor, relative to a claim for additional salary extending back to 1929. It is contained in the communication that this additional back salary due Mr. Van Ark amounts to \$1,998.19 from 1929 up to March 31, 1934. The communication further contends that the additional salary due for the fiscal year 1933-34 amounts to \$740.00, and if this amount is paid, Mr. Van Ark will waive all claims for additional salary prior to 1933.

**January 10, 1934.** "Mayor and Common Council of the City of Holland, Holland, Michigan.

"Gentlemen: "Mr. Peter H. Van Ark, city assessor, has referred to me a claim for salary extending back to 1929, at which time Mr. Van Ark's salary was reduced after he had entered upon his term of office.

"It is my opinion, and I have so advised Mr. Van Ark, that he is entitled to recover from the City of Holland the difference between the amounts of salary actually received and the amounts authorized by the salary or ordinance in effect at the time he assumed office, inasmuch as the salary of a municipal officer cannot be raised or lowered during his term of office. On this basis Mr. Van Ark is entitled to \$458.27 for the term covering the years 1929-1930; \$455.92 for the year 1930-1931; \$300 for the year 1932-1933, and he will be entitled to \$740 additional at the expiration of his term on March 31, 1934, a total of \$1,998.19, exclusive of interest.

"I am authorized on behalf of Mr. Van Ark to advise you that if Mr. Van Ark receives this additional \$740 for the year 1933-1934 and is paid at the rate of \$2,500 for the year 1934-1935, instead of \$1,760 as fixed by the ordinance passed after his present term of office commenced, that he will waive the amounts due him for salary in the previous years. In other words, if Mr. Van Ark is paid for his present term at the rate of \$2,500, instead of \$1,760 as provided in the ordinance passed on May 1, 1933, he will waive all other claims against the city for amounts due him under the salary ordinance for the years in question.

"Kindly give this matter your attention as promptly as possible and advise me whether or not the settlement proposed can be worked out.

"Very truly yours, "THOS. N. ROBINSON."

**Filed.** Reports of Standing Committees

Claims and Accounts Committee reported having examined claims in the sum of \$3,430.53, and recommended payment thereof.

**Allowed.** The Committee on Public Buildings and Property reported having been called to the hospital in regard to a matter concerning the exhaust steam being now run into the sewer; and further that this was rather a dangerous method, and recommended that a change be made. The committee further reported having received estimates from different parties in order to make such change, and find that the cost will run approximately \$150.

Committee authorized to go ahead and make the necessary change.

The Building Committee further reported having met with the County Administrator, Miss D. Veneklasen, relative to additional furniture that is required in order to properly equip the Welfare and CWA workers in the City Hall. The committee further reported having received a bid on the necessary used furniture which amounts to \$263.00; further that it is their intention to use the new rooms that were recently built in the Court Room together with other Court Room space to accommodate the several workers. The committee further reported that the present heating system is not in proper condition to furnish sufficient heat in the Court Room; further, that the additional cost for having pipes run direct from the boiler, together with the necessary radiation, would cost approximately \$250 in order to give the proper heat. After some discussion on the matter, the committee was authorized to

go ahead and purchase this furniture and make the necessary repairs to the heating system.

**Ald. Habing, Chairman of the Building Committee,** called on Ald. Jonkman to make a report on the cost of enlarging the vault in the clerk's office. Ald. Jonkman reported that when he was chairman of the Building Committee last year, a plan had been worked out whereby the office now occupied by the Boy Scouts would be used for additional vault space. He further reported that this cost at that time was estimated at approximately \$800; further, that this can now be done as a CWA project, but that it may be necessary for the city to contribute material cost not to exceed \$200.00 if this proposition goes through.

On motion of Ald. Jonkman, seconded by Habing.

Resolved, that the committee proceed and have this work done as a CWA project.

The Sidewalk Committee reported for information of the Council that they had investigated the various walks throughout the city and found that it is advisable to make several repairs. However, this cannot be done at the present time, but as soon as the weather permits in the spring, they will proceed to have these walks repaired.

The Committee on Public Lighting recommended that two street lights now located in the Second Ward, one along the railroad track near the Standard Grocer Co., and the other on W. 5th St., west of River Ave., be removed since they are no longer necessary in these particular locations. The committee further recommended that one of these lights be placed on the corner of Lincoln Ave. and 14th St.

**Adopted.**

**Reports of Select Committees**

Mayor Bosch reported that a Special Committee had been appointed some time ago to investigate the complaint that the old ice house building on West 16th St. is infested with termites, and he was interested to know if said committee is now in a position to report on their findings. After considerable discussion on the part of several Aldermen, Mr. Drinkwater agreed to take it upon himself to make a thorough investigation before next Council meeting and report his findings. It was further suggested that the City Clerk get in touch with the proper authorities at Lansing who are interested in matters of this nature.

**Messages from the Mayor**

Mayor Bosch presented a message to the Council commending them on their work during the past year. He especially recognized the co-operation given by the Council in providing work for the unemployed during the economic distress. The Aldermen were further commended for recommending several CWA projects, which he hoped would soon be approved to provide additional labor. He especially mentioned the Fire Engine House, Police Station and Municipal Dock.

**TO THE HONORABLE,** The Common Council of the City of Holland.

Gentlemen: Jan. 17, 1934.

We have just passed through a hard year—a tremendously hard year on a part of our good citizens. After having courageously fought through three previous disappointing years in the economic depression, they were forced to fight again for a fourth year. And with the true courage of the American citizen and the strong heritage handed down to them by their Dutch ancestors, Holland's citizens have fought the depression with every ounce of power in them.

We have entered into the new year of 1934 and for the first time in four years we can look forward with conviction that it will be much better than the one just ended. I know that you as the council of our city will continue to bend every effort possible in the direction that leads to the ultimate happiness of our people.

Our president, Franklin D. Roosevelt, is doing everything within his power to end the economic hardships of our country and again make glad the home of our American people. He has declared war on the depression and it is the duty of every American citizen to support him in his program. I want to commend you as the representatives of our city for your splendid work during the past year. The city projects which you passed upon, such as the grading of roads, the addition of sewerage, systems, and many others too innumerable to mention, not only provided labor for our citizens, but added materially to the wealth and beautification of our city. Your co-operation with our Chamber of Commerce has made possible a great many useful enterprises.

The city working as a unit with our Chamber of Commerce has opened a number of our large factories, which had been idle for years. The fact that these factories are all growing institutions not only provides labor for our people, but adds to the future permanent growth of our city. More money is flowing into the channels of Holland, making for greater prosperity for its citizenry.

The three proposed CWA projects, the fire engine house, the police station and the municipal dock which you passed upon, and which was intended to provide many months of labor for hundreds of our men, has been tabled by the state CWA commission. We must continue, however, to do everything in our power to secure sanction of these projects. Mr. Louis W. Nims of Lansing, assistant CWA administrator of the state, advised in a letter that the projects were tabled simply because the CWA schedule extended only to February 15 and that the projects could not be completed by that date. At the same time he told us to again submit the propositions to them in case the CWA program is extended beyond February 15, inasmuch as they are splendid projects, and when completed would doubtless prove to be real assets to the city of Holland.

As an aside I also wish to inject in this message that the guarantee of bank deposits is beginning to make itself felt not only nationwide but right here in Holland. I have been assured that substantial rains are being made here every day and my trades papers, where financial statistics are absolutely reliable, also chronicle that the bank insurance is having tremendous results in the way of additional deposits and this is augmented by a spirit of confidence that has not been so noticeable at any time during these four years.

Our road is clearly laid out before us, Gentlemen, and I know

that every man on this council will work for the ultimate successful acceptance of these projects.

Holland's council will continue to work for the prosperity and happiness of its citizens, and Holland will never stop until every man who wants a job can have a job.

Respectfully submitted, NICODEMUS BOSCH, Mayor.

Accepted and clerk instructed to send copy to Louis W. Nims at Lansing, Assistant CWA Administrator for the state.

Carried.

**Motions and Resolutions**

Mayor Bosch stated that he had been asked by Ald. Huyser several questions in regard to the provisions of the recent Liquor Law, which he was unable to answer, and called upon City Attorney Lokker to explain the provisions of this new Act. Mr. Lokker stated that if no action whatever is taken by the Council, there will be no liquor sold by the glass. He further stated that the law provides that the legislative body may within 60 days from the passage of the Act, authorize the sale by the glass. If they do not take such action within 60 days, then it will be necessary for those citizens who may be interested in having it dispensed by the glass, to circulate a petition and obtain signatures of at least 20 per cent of the total vote cast for Secretary of State at the last election, requesting a special election to determine the wish of the people. City Attorney further answered several questions put to him by several Aldermen in regard to the various phases of the new Liquor Law, and further stated that on such questions with which he is not entirely familiar, he will be glad to look up any Alderman who may be interested.

Ald. Huyser reported that there have been many complaints registered with him relative to the box elder trees throughout the city being infested with the box elder beetle. It was stated that within the last two years these pests have become very numerous in different sections of the city, and since it is reported that the only remedy is to destroy the trees, he felt that this is an opportune time to have these trees, which are located in the curbs, cut down and replaced with elms. He further suggested that this matter be turned over to the Park and Recreation department and that they go ahead and remove these trees now ahead and in the curbs with elms as rapidly as it can be done. Further, that wherever these trees are located on private property, the property owner be requested to co-operate and have the trees removed.

**Adopted.** Ald. Prins recommended that Lincoln Ave., from 16th to 24th Sts., be improved as a CWA project. It was reported that since this street is the dividing line between the City of Holland and Holland Township, that the matter should be taken up jointly with Holland Township authorities.

Referred to the Street Committee with instructions to work on this improvement as a CWA project.

Ald. De Boer reported that there are two signs standing on the former Ottawa Furniture grounds, and recommended that these be removed.

Referred to Ald. Jonkman.

City Attorney Lokker reported having met with the Industrial Commission and the matter was brought up relative to the proceeds that are derived from the salvaging of the Ottawa Furniture Co. plant. It was reported that at a recent meeting of the Council, it was ordered that all moneys received from salvage of materials to be turned in directly to the City Treasurer instead of to the Industrial Commission, who were delegated with the wrecking of the plant. Mr. Lokker further reported that the Commission felt that these moneys should go through their hands since there are incidental expenses from time to time which are necessary for them to meet. After some discussion, a motion by Ald. Van Lente, seconded by Prins, called for the rescinding of the former action of the Council.

However, it was the Mayor's contention that all these moneys should clear through the Treasurer's office, and a substitute motion by Ald. Steffens, seconded by Jonkman, was made that the Council defer any definite action until the next meeting.

**Adjourned.**

### A Tale of Two Soups

## America tasted them and clamored for more!

Cream of mushroom. Noodle soup. Last year Heinz introduced them. People tasted them. Families raved about them. They told their friends. From kitchen to kitchen the news spread. News of two unbelievably tasty soups! Ready-to-serve soups. Ready-to-serve, in flavor, in consistency. As freshly delicious as any ever ladled from a chef's soup kettle.

Good cream of mushroom and noodle soup are not easy to make. Until recently, only well-taught family cooks could prepare them successfully.

Heinz adopted their prized recipes, their methods. Heinz follows them to the letter. Procures ingredients more choice than are available to the family shopper. Concocts soups in small batches. Cooks them slowly in open kettles, under the care of skilful chefs. Submits each batch to the Heinz Flavor Jury before sealing fresh into tins.

Heinz home-recipe soups are *finished* soups. Please add nothing to them. Heinz soup chefs have done the *whole* job for you.

And American palates have approved their achievement, as your own grocer will tell you. Tell him you'll try these remarkable home-recipe soups of Heinz.

### Cream of Mushroom

Tender cultivated mushrooms, cut into tiny cubes, are blended with wholesome sweet cream, then delightfully seasoned to bring out the true mushroom flavor, and slowly cooked under the supervision of skilful chefs.

### Noodle Soup

Heinz makes the noodles in air-washed rooms. Long, thin and tender, they are cooked in well seasoned broth which has been simmered for hours. This soup cannot be told from well-brewed home-made soup made in your own kitchen.
