Casimir Wenowski, a resident of the township of Robinson, Ottawa county, comes from one of the most notable families in Poland, and was a Polish nobleman up to the time he left that country for the United States some five years ago. Among the speakers announced for the Knickerbocker society banquet to be held in Grand Rapids February 28 are Professor B. Dooze of the University of Michigan, whose subject will be "The University of Leyden," the Rev. P. Moerdyke of Chicago; J. A. S. Dr. John M. Fulton, pastor of the Westminster church, of Grand Rapids, will give his lecture on the Passion Play of Oberammergau at Winants chapel Thursday evening, February 13. Dr. Fulton will give in a simple but vivid style a description of the Passion Play as he saw it in 1900. It is the verdict of those who have heard many lectures on this subject, that Dr. Fulton's description is the most vivid and complete of any they have ever heard, even more so than that of Dr. Talmadge. It lets the people know what the Passion Play actually is. Tickets for this lecture now on sale at Hardies. Admission 40 and 25 cents.

Clara Barton, president of the American National Red Cross association, has written a letter to Congressman William Alden Smith which says: "I have read this morning with great satisfaction, your resolution of yesterday concerning the action of the British government toward Commandant Scheepers, its prisoner of war. This is a case which may well make a test of the verity of the Geneva convention and the respect which it may expect to receive from the nations that have entered into the treaty of Geneva. You have done more than well, to call attention to this point. I am rejoiced that the senate concurs in your resolution, and cannot forbear expressing my gratification of the same."

Sheriff Dykhuis of Ottawa county has four hoboes in the Grand Haven jail awaiting the new stone pile, but they are not losing any weight breaking hard-heads. One old tourist who has been making Grand Haven for his regular tramp rounds for years said that if no other way would do the tramps would come here in such large numbers that the police would be put at their wits end to know what to do with them. This particular tramp said that if 20 or 30 hoboes would strike Grand Haven the stone pile system would be "put on the bum."

Sheriff Dykhuis is going to follow the instructions of the board of supervisors, however, and compel the tramps to work or subsist on bread and water.

THE APPEAL OF SCHLEY.

Navy Department Makes Public the Petition Sent to President Roosevelt.

ASKS REVIEW ON THREE GROUNDS.

First Urges Question of Who Was in Command at Time of Battle; Second Relates to Withdrawal of Squadron from Santiago, and Third to Trip from Key West.

Washington, Jan. 29.—The navy department has made public Admiral Schley's appeal, delivered to the president about a week ago. The department's "comment" will be published in a day or two.

Admiral Schley appeals to the president as the chief executive and commander-in-chief of the army and navy, "vested with power to regulate and direct the acts of the several executive officers thereof," and he asks that the president review the findings of the court. He asks this on three grounds, in each case basing his appeal on the findings of Admiral Dewey, as opposed to the majority report.

Three Grounds of Appeal.

These three grounds are set out

MAP SHOWING LOCATION OF SHOOTER'S ISLAND, WHERE THE KAISER'S YACHT IS BUILDING.

compactly in the "petition," which fills about eight printed pages of a pamphlet and is signed by Admiral Schley, and by Messrs. Rayner, Parker and Teague, of his counsel. Attached to the petition are three exhibits, "A," "B" and "C," each made up of copious extracts from the testimony taken by the court of inquiry, and intended to confirm the statement of fact made in the petition itself.

In this latter document the first ground of appeal is the holding of Secretary Long in his endorsement on the court's findings that "the conduct of the court in making no findings, and rendering no opinion on those questions (that of command and of credit for victory) is approved—indeed, it could, with propriety, take no other course, evidence on these questions during the inquiry having been excluded by the court." On this point the petition says that the secretary of the navy was in error in stating that the court excluded testimony to show that, as Dewey said, Schley was the senior officer in the battle of Santiago; was in absolute command; and entitled to the credit due for the glorious victory which resulted in the total destruction of the Spanish ships.

Therefore the petitioner asks the president to annul Secretary Long's endorsement on this point; and that he specifically approve Admiral Dewey's statement declaring that Schley was in command. He says that only in this way can exact justice be done him under the present.

The second ground relates to the alleged withdrawal of the squadron at night from Santiago bay and the character of the blockade, and the propriety of Commodore Schley's conduct in the premises. This was one of the points upon which Admiral Dewey specifically dissented.

The third ground recites Admiral Dewey's opinion to the effect that: The passage from Key West to Cienfuegos was made by the flying squadron with all possible dispatch, having in view the importance of arriving off Cienfuegos with sufficient coal; that the blockade of Cienfuegos was effective; that the Adula was permitted to gain information; and finally, that the passage from Cienfuegos to a point off Santiago was made with as much dispatch as possible, while keeping the squadron a unit. The petition declares that this opinion, being at variance in certain points with the majority opinion, is the only one justifiable by the evidence and facts before the court, and it is asked that the secretary's approval of the majority's finding be set aside and annulled in each instance where it is at variance with Admiral Dewey's opinion, and that the latter's opinion should be approved for the reasons heretofore set out in the bill of exceptions filed with the secretary of the navy. It is also asked that the president annul that portion of Sec-

retary Long's endorsement which states "as to points on which the presiding member differs from the opinion of the majority of the court the opinion of the majority is approved," and that in place he substitute and approve the declaration of Admiral Dewey on these points above referred to, connected with the passage from Key West to Cienfuegos and thence to Santiago. The petition concludes: "And your petitioner most respectfully states that only by the action for which he prays in this relation can exact justice be done him within the contemplation of the precept under which the said court sat and whence it derived its authority. "All of which is most respectfully submitted."

LOUISVILLE'S GREETING.

Admiral Schley Feels the Warmth of the City's Regard During His Stay There.

Louisville, Ky., Jan. 29.—With his arms still aching from Tuesday's greetings Admiral Schley Wednesday faced a throng at the board of trade public reception. A row of people stretched around the entire circumference of exchange hall, in the board of trade building, and extended down the stairway to the street. The admiral, much refreshed by a night's rest and a quiet morning, stood at one end of the hall by the side of Marion E. Taylor, president of the board. As the people passed before the admiral Mr. Taylor introduced them and to each the admiral gave a courteous word of greeting. After the reception the admiral took

NO WAR IN THE ISLANDS.

Gov. Taft Says There Is Very Little Fighting in the Philippines at the Present Time.

THE OPPOSITION WILL END THIS YEAR.

Believes Fifteen Thousand Soldiers Will Soon Be Sufficient Trouble Is Caused by Ladrone-Native Good Christians—Says That the Civil Government Is a Success.

San Francisco, Jan. 23.—Real war no longer exists in the Philippines, according to Gov. Taft, of the islands, who arrived on the transport Grant from Manila. The insurrection is now confined to two localities—the province of Batangas and the island of Samar—said the governor, who holds that even in those places peace is in sight. The surrender of 700 rifles, just reported by Lieut. Gov. Wright, leaves few weapons in that province, and the governor deemed it improbable that Gen. Bell would have to inaugurate his reconcentrado plan.

Nearing Its End.

That all opposition to the United States will be ended before the end of the present year was predicted by the governor, and he said by that time the occupation army could be reduced to 15,000 men, who, with the native constabulary, would maintain order.

Other points which Gov. Taft would impress upon the people here are the importance of legalizing the present tariff law to provide ample revenue for the island government, and the necessity of purchasing the lands held by the friars and reselling them to the present tenants on easy terms.

May Reduce the Army.

Gov. Taft in further discussing Philippine affairs, said:

"Capt. Allen, head of the constabulary, says that in his judgment in one year from the date of the report, which is December 15, 1901, the force of American troops may safely be reduced to 15,000 men, stationed in garrisons at convenient points.

"The troops would be used only for a show of authority and in case of emergency. The actual policing and guarding of life and property and the operations against the ladrone and other criminals would be conducted entirely by the constabulary."

"The constabulary is an organized force of 5,000 natives, of which only about 500 had been organized, armed and equipped when I left. It is intended that a force of about 150, nearly all mounted, be placed in each province.

Trouble Caused by Ladrone.

"The great trouble at all times has been the ladrone, but the constabulary is rapidly cleaning them out, and in three or four months more the islands will be cleaner than they have ever been either under Spanish or American rule."

"The cost of an American soldier in the islands is about \$1,000 a year and the United States government pays for it. On the other hand, the cost of the constabulary is only about \$250 a man and the expense is borne by the Philippine island government."

Natives Good Christians.

"Despite the general denunciation of the friars, they did much in Christianizing the natives, who at heart are Catholics and would return to the religion were the abuses which have grown up in recent years done away with."

Can Settle Friar Problem.

"In consequence of their oppression the feeling grew strong against the friars, and has not yet subsided, and never will under the old circumstances. But the people are good Catholics and want priests who will be their spiritual leaders. Their feeling is not against the church, but against the friars. Therefore we believe that the settlement of the trouble will be accomplished by buying the lands of the friars, which amount to about 400,000 acres, and reselling it to the tenants. That will settle our agrarian question."

Teachers Treated Well.

"This morning I received a most encouraging cable from Gen. Wright, who is acting governor. The dispatch says that there are 83 teachers in the islands, in 49 places, and 200 of these places are unoccupied by United States troops. I may say that the Filipino is not hostile to the teacher. One was captured some time ago, but he was sent back in a hammock. The inference is plain that they entertain no hostility toward pedagogues or pedagogy."

Civil Government a Success.

"I wish to impress upon everybody that civil government is a success. There is a strong peace party in the islands, and it is composed of the most influential men among the Filipinos. There has certainly been a great change in the sentiment of the people. They are beginning to appreciate the fact that civil government means better times for them."

Schley's Appeal.

Washington, Jan. 25.—The president has referred Admiral Schley's appeal to the navy department for "comment." This is the technical term applied in naval law to designate a reply, in the nature of a criticism to any presentation. If charges are lodged against an officer, they are referred to him in order that he may "comment" upon them, and his reply is known legally by that name. It is understood that the preparation of this comment will consume about two weeks' time.

Big Crowd Sees Double Hanging.

Harrisburg, Pa., Jan. 29.—Weston Keiper and Henry Rowe were hanged at 10:40 Tuesday morning in the presence of 1,000 persons. Their crime was the killing of Cashier Charles W. Ryan, in the attempt to rob the Halifax national bank.

New College President.

Marshalltown, Ia., Jan. 29.—Rev. Daniel S. Bradley, of Grand Rapids, Mich., was elected president of Iowa college, at Grinnell, by a unanimous vote at a meeting of the trustees Tuesday afternoon.

Death of a Centenarian.

Monmouth, Ill., Jan. 29.—Mrs. Elizabeth Shoemaker is dead. She is said by her family to have been 100 years old last December. She was born in Virginia.

Soldiers Perish.

London, Jan. 29.—The Tokio correspondent of the Daily Express cables that over 200 soldiers have been frozen to death in northern Japan.

Impressive Tribute to Hon. Isaac Cappon

The funeral of the late Hon. Isaac Cappon took place last Monday afternoon. Business was practically suspended in the city and all thoughts were bent on paying the full tribute of respect to the man who in life was Holland's best friend.

During the hours set for viewing the remains a continuous line of people visited the late home of the deceased and paid their mute sympathy and respect to their departed friend. The casket was decked with many beautiful floral tributes, silent but eloquent testimonials of the love felt for Mr. Cappon.

Services were held in the Third Reformed church at 2:30 o'clock. A quartet composed of Messrs. John Van der Sluis and Henry Kleyn and the Misses Spritsma and Winter sang "Nearer My God To Thee." Rev. J. T. Bergen offered a prayer for the dead, and eulogies were pronounced by Dr. H. E. Doeker and Rev. G. H. Dubbink, the officiating clergymen. In the course of his sermon Rev. G. H. Dubbink spoke as follows:

"The man who distinguishes between God's house and the place of the wicked and loves the former, will surely have his reward."

"Such a love for God's kingdom and His house was the keynote of the life of Mr. Cappon. He told me that he and his mother on their way home from the church meetings in the Netherlands would take a roundabout way in order that they might have an opportunity to discuss the sermons. Their heart burned within them when they heard the word of God unfolded. He evinced the same spirit when they came to this country. One mother, who traveled on the same boat with him in 1848 from Rochester to Milwaukee, often referred to him as a serious young man."

"He was ever a friend of the Reformed church and one of the close friends and supporters of Dr. Van Raalte. When Dr. Van Raalte in 1867 conceived the idea of organizing the Third Reformed church, Mr. Cappon was appointed with Mr. J. Labots to canvas the congregation in regard to the matter. Later in the same year, when the church was organized, he was elected deacon, which office he held for many years. When the Sunday school was organized he was elected its first superintendent and retained that position for 25 years, during the greater part of that time also teaching a class."

"During my pastorate, he held the position of elder and proved himself a man in the right place. He knew both his Bible and human nature. Though old in age, his heart remained young. In the consistory meetings he ever pleaded the cause of the young people. His many travels widened his sympathies, his experience broadened his outlook. He did a great deal for this congregation. He was often a member of special committees and his liberality could always be depended upon."

"Though our relations to him as pastor were always most pleasant and cordial, he always maintained that reserve in the expression of his personal religious experiences that characterized him in his other spheres in life. One thing, however, is certain—he had no doubt as to his faith and believed only in Jesus Christ and him crucified."

"His love for God's house was prominent in his life. On the Sabbath he forgot his business and found pleasure in public worship. We lay him to rest in the hope that he may rise again and as he loved the house of God upon earth we trust that he may find his home in the abode of the blessed."

Following were the pall bearers: Active—H. Landel, R. H. Haberman, Joen Konig, Albert Zuidema, David Boyd and P. Leappe. Honorary—Dr. G. J. Kollen, G. J. Diekema, C. J. De Roo, E. J. Harrington, D. B. K. Van Raalte, G. W. Mokma, Heber Walsh, John Bertsch, E. Van der Veen and Peter Gunst.

The common council met last Friday night to take action on the death of Mr. Cappon. The following communication was made by Alderman Zuidema, mayor pro tem:

"The sad news having been communicated to us of the death of the Hon. Isaac Cappon, the first mayor of our city, whose life-long devotion to the best interests of this city and community are matters of public record and as his successors and co-laborers, I deem it my duty as mayor pro tem to convene this council in special session in order that we may adopt proper resolutions befitting the occasion and I recommend the adoption of appropriate resolutions and the making of proper arrangements for the attendance at the funeral and such other action as your Honorable body may deem necessary."

The following resolutions introduced by Alderman Geerlings were passed:

"Whereas, the common council has heard with sorrow of the death of the Honorable Isaac Cappon, the first mayor of the city of Holland, and

Whereas, Mr. Cappon led a life of remarkable thrift and industry, of long and efficient service in public affairs, and throughout his whole life took an active part in religious and educational matters, stood shoulder to shoulder with the other founders of the city, saw the city rise from its ashes after the great fire of 1871, was four times its mayor, gave his valuable time and energy to secure harbor and railroad connections, manufacturing industries and other enter-

prises, and recognizing the growth, prosperity and commercial importance of the city are in great measure due to his persistent efforts and executive ability.

Resolved, therefore, that we express our appreciation of his high character and sterling honesty, and for the valuable services rendered the community at large, and that we express our heartfelt sympathy with the bereaved family of the deceased.

Resolved, that, as a mark of respect for the honored dead, the flags be placed at half mast on all the public buildings on the day of the funeral, that we request that all business be suspended at the time of the funeral, Monday afternoon, January 27, 1902, and that the members of the common council, with the ex-mayors of the city, attend the funeral services in a body.

Resolved, that these resolutions be spread upon the minutes, and the clerk instructed to transmit a copy thereof to the family of the deceased."

The Grand Rapids Herald pays the following tribute to Mr. Cappon:

"In the death of Isaac Cappon, ex-mayor of Holland, not only that city but western Michigan loses a valuable and valued citizen. Coming to Holland in the early fifties, he entered upon a life of toil and usefulness, the result of which has been that few men have been more thoroughly and extensively identified with the growth of western Michigan. His career is another illustration of what diligence, persistency, frugality and hard work can accomplish."

Upon the shoulders of such men as Isaac Cappon the burden of developing and building up an extensive portion of one of the greatest states in the union has rested. The passing of such is a matter of public interest and regret."

Attorney Arend Visscher Purchases The Klekentveld Block

The Klekentveld building on Eighth street is now the property of Attorney Arend Visscher. He bought it Tuesday morning at public auction. I. Marsille was the auctioneer and the leading real estate men of the city attended the sale and spirited bidding prevailed until the property was sold to Mr. Visscher for \$7,000. The first bid was \$5,000.

Capt. Austin Harrington has resigned his position as captain of the Macatawa Park fleet. Capt. J. M. Mitchell, of this city, will take his place.

President Kruger Coming

The correspondent of the Daily Telegraph at Brussels says in a dispatch that Mr. Kruger has received fresh invitations from Chicago, New York and Philadelphia to visit those cities, and that he will probably start upon an American tour next April.

Political Fight Will be a Warm One

A Washington dispatch in the Grand Rapids Press says:

"State Chairman Gerrit J. Diekema of Holland, who has been here for a week, declares that he expects to see as quiet a campaign in Michigan this year as was ever known. Governor Bliss will be renominated without any question. He must be. Party precedent demands it. I do not believe there will be any other candidate in the field unless possibly George B. Horton gets out actively, but I don't think that likely. There will be quite a fight for the attorney generalship, but everything else will go, just as expected."

That fight next spring for the Supreme Court is going to be a warm one, continued Chairman Diekema. A determined effort is to be made all over the state to break into this precedent of giving a retiring justice a second term. The claim is made that there is too much good material to allow one man to serve twenty years, and that changes must and should be made. Many of the old members of the bar, however, will stand by Hooker and fight for his renomination."

Burned to Death

MRS. KLAAS DYKEMA

A deplorable accident occurred in this city last Tuesday evening. Mrs. Klaas Dykema was burned so badly that death resulted from her injuries Wednesday afternoon.

At ten o'clock at night, after the rest of the family had retired, Mrs. Dykema was extinguishing the hanging lamp when it broke from its fastenings and fell to the table. The crash caused an explosion and the oil saturated her night robe which instantly was set on fire. Attracted by her cries for help, her husband and her son rushed to her rescue and tried to quench the flames with their hands. They were badly burned and their efforts did not avail. Miss Johanna Barkel, who was boarding at the house, with rare presence of mind, hurried downstairs and covered Mrs. Dykema with a blanket, extinguishing the flames. But it was too late as Mrs. Dykema was frightfully burned, parts of her body being literally cooked. Dr. C. J. Fisher was summoned and did all that was possible for the injured woman but he could offer no hope for her recovery. She lingered until about three o'clock Wednesday afternoon when death came after terrible suffering.

Mrs. Dykema was one of Holland's most respected residents and the news of the shocking accident that caused her death was received with sorrow by the people of the city, who sympathize deeply with the husband and children who are stricken with this great bereavement.

The funeral will be held tomorrow afternoon at 1 o'clock from the home, 86 West Twelfth street and at 2 o'clock from the Central avenue church, Rev. H. Van Hoogen officiating.

John Roost, Jr., is very ill at the home of his mother on East Fourteenth street. He had been suffering with the grip for some time, and Tuesday while on his run on the north bound Pere Marquette freight became very sick. He was brought home on the night train in a partially unconscious condition. Dr. Leenhouts was summoned and found that he was suffering with congestion of the brain. For a time his condition was very serious but he rallied and is now in a fair way to recover.

Hoodlumism has broken out to a new form in Holland. It is the fashion now to interfere in social affairs. This was demonstrated yesterday. Knowing that a dance was to be given at the Lyceum opera house last night the meddlers entered the building and scattered powdered rosin on the floor in order that it would be unfit to dance upon. Not content with that they broke the coal grate of the furnace. But the managers of the dance were undaunted. They swept away the rosin, put wood in the furnace and gave the dance as scheduled.

Maud Ballington Booth

A prominent eastern manager has recently said of Maud Ballington Booth who will lecture at Winants chapel next Tuesday evening:

"Mrs. Booth is the only woman orator of the decade whom the public will turn out and pay to hear. Why? First of all, she is the ablest woman orator in America. Her cause is the most worthy. She is probably the most beloved woman in the land; certainly she is the most attractive of all women speakers. She has fire and magnetism—gifts of the highest oratorical order, sustained and animated by deep conviction, high purpose, and burning earnestness. These great essentials are of paramount importance to success on the platform."

Adjourned to Monday.

MITCHELL REELECTED.

President and Other Officers of United Mine Workers Chosen for Another Term.

Indianapolis, Ind., Jan. 25.—President John Mitchell and Secretary-Treasurer W. B. Wilson were reelected to their offices in the United Mine Workers of America at Friday's session of the national convention of the miners. There was not the slightest show of opposition, the delegates being unanimously in favor of continuing their leaders in office, as they had been the day before in voting to exonerate both Mitchell and Wilson when the charges preferred by Miss Mollie Meredith were at issue. Vice President T. L. Lewis was also reelected, though the Ohioans tried to defeat him. Lewis comes from Ohio. The convention adopted a resolution appropriating \$500 to the national McKinley memorial fund after a prolonged discussion.

TWENTY-TWO ARE DEAD.

Result of the Explosion in the Mine at Lost Creek, Iowa.

TEN OTHERS ARE SEVERELY HURT.

Shot Was Too Heavily Charged and Ignited the Dust When It Was Set Off—Coroner's Verdict Says Explosion Was Entirely Due to an Accident.

Lost Creek, Ia., Jan. 27.—Twenty-two dead bodies were Saturday morning taken from the improvised morgue in shaft No. 2 of the Lost Creek Coal Mining company, of this place, as the result of the worst mine disaster experienced in the history of Iowa. When brought to the surface they presented a horrible sight. Some of the bodies were terribly mangled and beyond recognition and could only be identified by some trinket or something found in their pockets. The 11 injured are improving, and no additional deaths are anticipated, since the death Saturday morning of Oliver Mable, making the list of dead 22. He had his arm broken and was terribly burned about the face and head.

The list of the dead is as follows: THE DEAD—Mike Fox, Sr., aged 48; Mike Fox, Jr., aged 21; John Elder, aged 23; C. B. Crews, aged 31; Russell Fish, aged 27; Joe Berto, aged 30; S. C. Creighton, aged 28 (colored); James Stovall, aged 35 (colored); Andrew Pash, aged 33; Sam Humphrey, aged 24; James Humphrey, aged 34; J. J. Humphrey, aged 23; Daniel Fish, aged 24; Dave Walters, aged 23; Frank Gasperi, aged 25; Alexander Gray, aged 24; Jack Mannealy, aged 20; John Martin, aged 20; George Benochak, aged 20; Joe Gasperi, aged 24; John Kaval, aged 22; Oliver Mable.

Those most severely injured are: Ed Swanson, Jonas Mable, leg broken and head hurt; John Jerkin, of Eddyville, spinal injuries, may die; Frank Secrees, of Eddyville, arm broken, burned; Charles Leaman, of Lost Creek, leg broken, burned; Ed Swanson, of Eddyville, bruised and burned; Jonas Mable, Jr., of Lost Creek, bad burns; William Harvey (colored), badly burned, will recover; George Gogo, spinal injuries, will recover; Harry Derrock.

To Fix the Blame. Coroner Fochlinger, of Oskaloosa, Saturday held an inquest to determine who is to blame for the disaster. The trouble was caused by an explosion of dust ignited by a shot too heavily charged. It proved to be what miners call a "screamer." To be more clear, the shot, when exploded, instead of knocking down the coal, fired straight out into the room. This kind of a shot causes much dust and the flames coming into contact with the dust usually furnish an explosion.

Force of Explosion Terrific. In the accident of Friday the effect was simply terrific. The tracks were torn up and the guides for the cages were blown away. On this account they could not be operated for three hours. The fans were also damaged and could not be used to ventilate the mine immediately. All the entry doors were blown completely out and no system of ventilation could be arranged until the doors were replaced by volunteers, and it was almost certain death to go into the mine.

Brave Volunteers. As soon as the cages could be operated, volunteers speedily stepped forward. The first man to enter the mine was Jap Timbrell, general superintendent of the mine. He was eagerly followed by many others, who took their turns in going to the relief of the victims.

The Lost Creek Mine. The Lost Creek mine, where the accident occurred, was about ten miles south and one mile east of Oskaloosa, and three miles northeast of Eddyville. It is owned by the Lost Creek Coal and Mining company, of which C. E. Laughlin, H. L. Spencer, Jeff Timbrell, F. E. Green and O. S. Ellis are the chief stockholders. The property has been successfully operated a number of years. The shaft where the accident occurred is No. 2 and has been operated about 18 months. It has been thought perfectly safe. The ventilation is perfect, the only possible fault ever found being that it was a little dusty at times.

Miners in West Section Escape. The explosion occurred east and north of the shaft, in the east entries, and almost all in that part of the mine were killed or hurt. All the miners on the west side escaped injury and got out of the mine; in fact some did not know of the accident till called on for help.

Due to an Accident. Oskaloosa, Ia., Jan. 27.—The coroner's verdict finds no one to blame, declaring the disaster due solely to accident.

Decide on Investigation. Washington, Jan. 25.—The senate committee on the Philippines decided to enter upon a thorough investigation of the entire Philippine question, and Senator Lodge, chairman of the committee, was authorized to present to the senate the usual resolution authorizing the committee to sit and to send for persons and papers.

Value of Manufactures. Washington, Jan. 27.—According to statistics collected by the census bureau, the gross value of the products of manufacture in the United States in 1900 was \$13,003,127,682, as compared with \$9,372,437,282 in 1890, an increase of 38.73 per cent.

Much Suffering. Milwaukee, Wis., Jan. 29.—An Evening Wisconsin special from Mondovi, Wis., says: The cold is intense and there is much suffering. The standard thermometer registered 40 below zero Tuesday morning. Business is practically suspended.

HOME AND CHILD

Does your horse "feel his oats"? What a difference between the grain-fed and the grass-fed horse! The first strong and full of ginger, the second flabby, weak and tired out before he begins. The feeding makes the difference.

Children are not alike either. One is rosy, bright-eyed, full of life and laughter, another is pale, weak and dull. The feeding again is responsible.

Sickly children need special feeding. They don't "feel their oats". Scott's Emulsion adds just the right richness to their diet. It is like grain to the horse. The child gets new appetite and strong digestion.

Scott's Emulsion is more than food. It is a strong medicine. It rouses up dull children, puts new flesh on thin ones and red blood into pale ones. It makes children grow. Scott's Emulsion makes ordinary food do its duty.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample.

SAYS MORMONISM GROWS.

The Declaration Made That This Sect Now Controls in Seven of the States.

At a meeting of the members of the West End Presbyterian church of New York it was decided to indorse and work for the proposed amendment to the constitution so that polygamy may be made impossible in the United States.

Rev. N. E. Clemenson, of Logan, Utah, was the principal speaker. He told of polygamy as he had seen it in his own street, and how the Mormons were still living with many wives, contrary to their pledges when Utah was admitted to statehood.

He thought the dangers in Idaho greater than in Utah, as less attention is paid to Mormons there, and they live openly with their wives under the system they call "celestial marriage," and which they deny to be polygamy. Mrs. W. P. White, who for some years has been doing missionary and educational work among the Mormons, told how her schoolhouse had been attacked and wrecked by a mob. She declared that the Mormon church had political control of seven western states. Mrs. White also said that under their marvelous system of colonizing doubtful states, the Mormons before long would control 13 states, and it would then be impossible to kill polygamy without a civil war.

FIFTY-FOUR STORY BUILDING.

Boston Promoter of Large Ideas Proposes a Gigantic Structure for New York.

A promoter from Boston in whom the projective imagination is developed to an enormous degree is searching New York for capital to back the erection of a 54-story office building on Broadway. The scheme has been developed so far that plans have already been drawn and a block front in the district south of the Astor house—the exact location cannot be divulged for obvious reasons—has been selected as a site for the structure.

There is no building law to prevent, and competent authorities say that from an engineering standpoint the project is entirely feasible. All that stands between the Boston genius and the realization of his dream is a dozen million dollars or so.

By his figures the building will yield a gross yearly income of \$1,600,000, and when the running expenses are deducted, he contends, enough will still be left to pay the interest on the \$9,000,000 in bonds, the sale of which is to be the company's chief hope of getting launched, and also an enticing dividend on the \$9,000,000 of stock which an eager public is to be permitted to absorb at reduced rates.

such cases, the state department officials decline to make public any of the details of the treaty, so that it is not possible to state positively the price to be paid, though this is believed to be in the neighborhood of \$5,000,000. It is known also that Denmark has abandoned the position she was inclined to occupy toward the conservation of the political rights of the inhabitants of the island, and leaves the United States a free hand to deal with them, without pledge of American citizenship or of free trade privileges. So it is assumed that the status of the Danish West Indian islands, politically and commercially, should the treaty be ratified, will be similar to that of Porto Rico. Having gained these points in the negotiations, the state department officials believe that the treaty is certain to receive the approval of the United States senate.

POSITIVE PROOF FROM HOLLAND CAN'T BE BRUSHED LIGHTLY ASIDE.

The reader is forced to acknowledge that convincing proof in his own city is preeminently ahead of endorsement from everywhere else in our Republic. Read this:

Mr. J. H. Streur, farmer three miles south of the city, says: "I was bothered more or less for years with pain through my loins, never sufficiently severe to lay me up, but it was distressing and annoying. If I ever exerted myself or had been driving long, my back became so tired and ached so much that I could not rest nights. I had often heard Doan's Kidney Pills so highly recommended that I got a box at J. O. Doesburg's drug store and used them. They relieved me immediately, soon banished all my aches and pains and rendered the kidney secretions healthy and natural."

IMPORTANT CAPTURE.

Gen. Viljoen, Boer Commandant, Made Prisoner by British.—Brisk Fight at Frankfort.

London, Jan. 27.—A report sent by Lord Kitchener in Johannesburg tells of the important capture of Gen. B. Viljoen in the neighborhood of Lydenburg, Transvaal Colony, as well as the captures of small parties of Boers elsewhere.

The capture of Viljoen, who was Gen. Botha's most able lieutenant and who has given the British a deal of trouble, has created lively satisfaction in London.

Pretoria, Jan. 27.—Col. Wilson captured 20 Boers near Frankfort, in Orange River Colony, last Saturday. He was preparing at dawn the next day to move away with his captives when a superior force of Boers made a desperate effort to recapture the prisoners. A hot fight ensued, in which all but three of the prisoners escaped and in which a few men were killed or wounded on both sides.

Pretoria, Jan. 28.—Gen. Bruce Hamilton, by a clever night march, surprised a laager between Ermelo and Pethel, in the Transvaal colony, and charged the Boers, who fled in all directions and were pursued many miles. As a result of this expedition 82 Boers and a quantity of stores were captured. The casualties were small.

HOLLAND WANTS PEACE.

Addresses Note to Great Britain Suggesting Way to End War in South Africa.

London, Jan. 29.—The government leader, A. J. Balfour, announced in the house of commons Tuesday that no overtures for peace had been received from anyone authorized to speak in behalf of the Boers. A communication was, however, received late Saturday last from the Dutch government which was now under consideration. Mr. Balfour hoped shortly to lay the communication and the reply to it before the house.

The government of Holland has offered in the most friendly terms to help in bringing about peace in South Africa. In a communication to the British government the Dutch government suggests that it might be permitted to act as a sort of diplomatic agent for the Boer delegates. The government, however, expressly disavows any attempt to intervene, and does not mention any terms.

TENEMENT BURNS.

Fire in Boston Which Caused a Loss of Ten Lives—Several Hurt by Jumping.

Boston, Jan. 29.—Ten bodies were taken out of a tenement at the corner of Hanover and Clark streets, where fire broke out at one o'clock this morning. The building is three stories, of brick, with a laundry on the ground floor, the upper parts of the building being occupied by a number of families. The fire had been smoldering for some time before it was discovered, and when the firemen arrived a number of men and women were hanging from windows and shouting for help. Some jumped before the firemen could reach them, and were injured. Several bodies were found in the beds, where the victims had been suffocated by the smoke as they slept. Of the injured six are seriously hurt, three of these fatally. The victims of the fire are Italians.

KILLED AT A CROSSING.

Fast Mail Train Crashes Into a Carriage Near Hammond, Ind.—Three Lives Lost—Three Injured.

Chicago, Jan. 29.—While returning home from the Polish Catholic cemetery, near Hammond, Ind., where an hour before she had buried her only child, a baby boy, Mrs. Martha Rolek, a beautiful young Polish mother, was instantly killed by a fast mail train on the Michigan Central railroad Tuesday at one o'clock. Two men who were riding in the same carriage were fatally crushed. One died on the way to St. Margaret's hospital in Hammond, the other in the hospital an hour after the accident. A third man riding in the carriage sustained injuries that probably will result in death. The undertaker and an assistant, who were sitting on the driver's seat, saved their lives by jumping. The latter suffered internal injuries, but they are not serious.

Honor to McKinley.

Chicago, Jan. 27.—William McKinley's birthday was observed in a number of churches in this city Sunday, and the services were made the occasion for contributions to the fund for a monument to the martyr president to be erected at Canton. Reports from various cities show that memorial services were general throughout the country.

Six Persons Killed.

New York, Jan. 28.—Six persons were killed, over a hundred were injured and a property loss of over \$1,000,000 was caused by an explosion at the Park avenue shaft of the New York Rapid Transit tunnel. The Murray Hill hotel is so badly shaken that it has been abandoned as unsafe.

Negro Confesses.

St. Louis, Jan. 27.—William Strother, the negro attendant at the Vista Turkish bath house at Grand and Franklin avenues, confessed Saturday to the murder of Alexander Dean Cooper, the millionaire.

The Death Penalty.

Sioux City, Ia., Jan. 29.—Harry Hortmann, the slayer of Miss Florence Porter, was on Tuesday sentenced to hang March 12, 1903, at Cherokee. The prisoner showed no emotion.

A STUDY IN WAITERS.

One Proud Spirited Fellow Who Always Warns His Victim When It Is Too Late.

To a philosophical observer the waiters of New York furnish an endless field for study. So numerous are the restaurants of this great city, and so diverse their nationalities, that it would seem as if nearly all styles of waiters in the world are here represented, says the Tribune. From the respectful servility of the French waiters at Delmonico's or Sherry's down to the positive truculence of the Irish-American waiters who "sling hash" in the Bowery it is a far cry indeed; yet each style has its uses, and the customers would complain if they missed it.

There is a waiter in Park Row who affects neither the manners of Fifth avenue nor the Bowery. His spirit is too proud for servility; his physique unsuited for truculence. He pursues the middle course, of always trying to make the customer feel responsible for the faults of the service or the bill of fare. Does he carelessly spill soup upon the clothes of a patron of the place, will he apologize? Never. In a cheerful and forgiving voice he exclaims:

"Look out, sir!"

Does he utter the warning before the coffee slops over and descends between your collar and neck? Never. But as it trickles down your spine, he courteously cries:

"Look out, sir!"

Every outrage which he commits upon the offending customer is followed by this "Look out, sir!" and the odd thing about it is that nobody slugs him, but nearly all his victims are made to feel in some unaccountable way that if they had done their part in "looking out," the accident would not have happened. One day, however, this impudent waiter met a man who would not suffer himself so easily to be placed in the wrong. As a splash of gravy fell upon his cuff, and the genial "Look out, sir!" fell upon his ear, he leaped up, and with withering scorn and in tones which reached the ear of the boss at the far end of the room, exclaimed:

"Why do you tell me to 'Look out, sir?' You spilled the gravy on me without any warning at all. Now you tell me to 'look out.' Do you intend to do it again?"

OBSERVED THE TIME LIMIT.

How a New Yorker Was Afforded an Opportunity to Warm His Hands in Boston.

Treasurer Logee, of the Young Men's Christian association, tells a characteristic story of Boston deliberateness, the moral of which he always applies to his own hand in the audience's pocketbook, says the New York Tribune.

Not long ago a New York commercial traveler was riding in a Boylston street car. It was a bitterly cold day, and, as the New Yorker had inadvertently forgotten to take his gloves when he started out, his hands were nearly frozen.

Presently a spare and prim Boston woman entered the car, and, gathering her skirts tightly about her, took a seat next the New Yorker. In her lap, she laid a very imposing fur muff, into which she thrust one hand, having the vacant side toward the New Yorker. A violent temptation to thrust his benumbed fingers into the fleecy depths of the muff assailed the traveler. For a time he resisted courageously, but at length, as the car shot into the dark subway, human nature could resist no longer, and he surreptitiously thrust one hand into the muff.

After a few minutes, when a delicious sense of warmth was just pervading his hand, the Boston woman turned to him and observed with great dignity:

"Sir, you have your hand in my muff."

The trespasser began to stammer a confused apology, but the Boston woman ignored it, and continued icily:

"Sir, I might make trouble for you. I might call the conductor and have you removed from the car."

The New Yorker trembled visibly at this awful threat. The Boston woman concluded with superb hauteur:

"But, sir, I'd have you understand, I know my rights as a Boston woman, and, sir, I'll give you just 20 minutes to remove your hand."

The New Yorker escaped just 19 minutes and 59 seconds before the time limit expired.

Passing of the Carabao.

Even time-honored fixtures must give way to the advance of modern civilization. The carabao, whose leisurely gait Manila has known for so many generations, sniffs the air and rolls his eyes suspiciously as the clang of a gong and the whir of wheels announce the approach of the automobile. Poor brute; he sees his finish. The horseless wagon seems destined to become a permanence here, where the level country permits its unhampered use. This may be the eventual solution of the problem of drayage in these parts. Carabao and Filipino ponies are relics of barbarism. The heavy draft horses of Europe and America can not stand the climate. Therefore why not the automobile as the general carrier of freight for short distances?—Manila Critic.

Income Tax in France.

The income tax in France is collected in 12 monthly installments, although the taxpayer has a right to pay it down in a lump sum. This year he has done this, and the enormous profits that the government gained by fining those who overlooked their monthly obligations are suppressed. Paris alone used to bring in 2,000,000 francs in this indirect fashion of taxation. —N. Y. Sun.

DANGERS OF LAUGHING.

Instances in Which Utterly Mirth Brought Down Its Own Punishment.

It was awkward for the czar's confidential adviser, Baron Enidoff, a few weeks ago, that he had not a quicker control over his features, for a laugh at the wrong moment lost him his high position and \$12,000 a year, says London Answers.

While the royal suite was at Compiègne, soon after the arrival, the czar was tired, and a little irritable, by the effects of the long journey. While going through the big library, which was part of the great apartments prepared for him, he slipped on a wolfskin mat that lay on the highly polished floor, made a wild attempt to save himself, and clutched at one of his attendants.

He nearly brought himself and his standby to the ground, but he just managed to avoid a fall. The spectacle was rather ludicrous, especially in such a stately personage; and when the rather irritated monarch turned round he found his favorite Enidoff indulging in a grin of amusement, which he could not suppress.

The czar, who detests levity on state occasions, spoke very sharply to the culprit, who, next day, was dismissed his post, and relegated to an assistant secretaryship, with plenty of hard work to do, and wherein he never sees the czar at all. Although wealthy and of the oldest nobility, the baron dared not refuse the minor service. His former stipend was \$12,000 a year.

But the kaiser, on the whole, is the most dangerous person to laugh at, or before, and more than one person has "done for" himself in this way. So did the unfortunate Gough Milbank find it—the clever but bluff Scottish colonial administrator. It was he who used to command the Sultan Abou Din's troops and manage the Arabian finances.

The kaiser took him up, four years ago, as a guest, with a view to making use of him in the new "expansion" policy of the German empire, and had decided to give him a fine position in the east, to guard German interests in China, at a princely remuneration, of course. The kaiser sees to these things himself, and anybody who becomes one of his right-hand men is pretty well set up for life.

At one of the audiences given him at Potsdam, Milbank was giving the emperor the benefit of his experience, and receiving his orders, when the kaiser made a rather absurd suggestion as to eastern diplomacy, proposing to win the confidence of the Japanese and Kurile islanders with presents.

Milbank, bursting into a guffaw, asked the kaiser if he thought the Japanese were Congo niggers, who could be bought over with a few glass beads and a flint-lock gun? The kaiser froze at once, wished Milbank good night, and never reopened relations with him.

The moral is, when you are chatting with a king don't forget he is a king, and dig him in the ribs. A still more amusing case of this kind was the mistake of another Scottish administrator, Duncan McVea, who was, next to McLeavy Brown, of Corea, the most famous of "wandering" governors. Scotland, by the way, supplies 80 per cent. of the world's pioneer administrators, as well as its engineers.

McVea was dealing with that pleasant but touchy monarch, the king of Portugal, who had proposed to put the rather shaky government of the Cape Verde islands into his hands, to set things going and pull the finances together. This would have been a big step, and meant some \$25,000 a year to the famous adventurer; but he had too much of what Scotchmen are supposed to lack—sense of humor. At any rate, it was the ruin of the finest prospect he ever had.

The king became a little excited and irritated at the various common-sense objections that McVea, knowing what he was talking about, opposed to some of the monarch's plans, and though the king speaks admirable English as a rule, when excited it becomes a very odd mixture indeed. This, finally so worked on McVea's feelings that he smiled audibly with the result that he was promptly ordered away, and the Cape Verdes still lack a Scottish governor to look after their affairs.

The Successful Eye.

There are two classes of human eyes, says Prof. J. M. Simon, the eminent oculist. First, the cold and indifferent eye, which falls upon you with the same interest that it would fall upon some large building or anything else. Then there is the warm, flattering eye that indicates a human interest. The gray is the strong one. I have observed in the majority of cases of people who have risen to eminence that the eye has been gray, although I am inclined to believe that the gray eye is weaker than any other. A gray eye can charm, and in every instance I give a man with that color of eye more consideration than if his eyes are of another color. —N. Y. Herald.

Wouldn't Do.

"Is my hat on?" began Mrs. Collingwood, when her husband interrupted:

"Yes, your hat's on straight. Come along, or we shall be late."

"If it's straight, it won't do. Wait a minute till I go back into the house and tilt it a little."—Detroit Free Press.

PRaises AMERICAN WOMEN.

Lady Algernon Lennox Says They Are the Finest Dressers in the World.

Lady Algernon Lennox, who is known as England's best-dressed woman and who spoke at length on woman's attire at New York the other day, continues to express herself freely on the subject of dress. Lady "Algy," as her friends call her, says she does not desire the title bestowed on her by the English. "There are many American women in England," said she at the Waldorf-Astoria, "who are better entitled to credit for good dressing than I."

"To my mind American women are the finest dressers in the world. Their success is due to the fact that they wear becoming gowns, regardless of the very latest fashion. Simple costumes are almost the most becoming, and they are besides more economical."

"The fashions from season to season are only inventions of dressmakers to catch the eye for a moment. The woman who dresses becomingly and comfortably is always well dressed and need pay little attention to fashion. Nobody ever thinks of criticising her attire as not being strictly up to date."

"I like short skirts, and I intend to wear them often during my stay in Colorado. English women are only just now learning how to dress. They have taken the cue from the Americans living in England."

"Paris, I believe, will always be the leading city for fashionable dress wearers. The fashions started there, and I think they will continue to be."

FINDS CANCER MICROBE.

Dr. Doyen, Leading Paris Physician, Says He Can Reproduce the Disease.

Dr. Doyen, a leading surgeon, of Paris, has announced in a lecture that he observed in cancerous tumors a new microbe, which he calls micrococcus neoformans. Dr. Doyen as long ago as 1887 noticed in cancerous juices certain diplococci and small chains that were with difficulty distinguished from cellular granulations. When examined at the end of two or three months he found these as active as when in the tumor.

Experimenting with the new microbe, Dr. Doyen found that he was able to reproduce cancer. Later, by subcutaneous injection of a sterilized solution of toxins derived from the new microbe, he succeeded in producing in cancerous patients a reaction resembling the effects produced in tuberculosis subjects by Prof. Koch's tuberculin; that is, tending to prevent a return of the cancerous growth. Dr. Doyen does not claim that the experiments are conclusive, but says that the result of trials carried on for six months has been most satisfactory. He proposes to continue his experiments.

FINDS GOLD LONG BURIED.

Philadelphia Man Discovers Rare Old Coin in the False Bottom of an Ancient Chest.

From the false bottom of an old chest which has been in his family for more than 30 years John McDonald, of 404 North Twenty-second street, Philadelphia, recovered on Sunday afternoon a collection of 563 old English and American gold coins valued at upward of \$5,000. Who hid the treasure is a complete mystery. Most of the coins antedate the revolutionary war. A few of the gold pieces were stamped by the first coin presses set up in this country, but most of them are English guineas, bearing on one side the head of George III. and on the reverse side the English coat-of-arms.

John McDonald's mother bought the valuable chest a third of a century ago in a Philadelphia second-hand store. She paid only a few pennies for the plain lumber box and had it placed in the cellar of her home, where it was used as a potato bin until recently. It was four feet long by two wide and three deep.

Inventor Dies in Reach of Fortune.

Edward Taylor Bradford, a mining engineer, died the other afternoon at 32 West Ninety-fourth street, where he had been boarding. Early in the day he called at the office of Coroner's Physician O'Hanlon and told Dr. O'Hanlon that he was suffering from heart disease, and that some patent medicines he had been taking seemed to be doing him more harm than good. Dr. O'Hanlon advised him to let the patent medicines alone and gave him a prescription. "I want to live at least another week," said Bradford, "because then I will get \$1,000,000 for an invention I have perfected." Bradford went back to the boarding-house and laughed and joked with two friends. About two o'clock they left him. An hour later he was found dead on his bed. A physician said he seemed to have died of heart disease. Bradford's invention, it is said, was a smelter.

A Collection of Punch Bowls.

Sir Thomas Lipton has been presented by his American friends with a silver bowl, says the Chicago Inter Ocean. This, he believes, is the fifteenth or sixteenth bowl that he has been presented with in all. He might exchange a few of them for mugs if it were not for the inscriptions on them.

In Self-Defense.

Greenup, Ill., Jan. 29.—Owen Fealer, living ten miles northwest of this place, was instantly killed last Monday night by James Dow in a fight over a woman. The coroner's jury acquitted Dow, rendering a verdict of self-defense.

The congregation of Rev. Van der Valk, of Muskegon is now divided into two factions—the supporters and the opponents of the pastor. The Rev. Vander Valk has been threatened with personal violence if he continues to conduct services in the church and he is not safe from harm, it is claimed, even in his own home, so bitter is the enmity. The anti-bell session last night and it was announced that the Rev. Krone-meyer, a Milwaukee minister, had been secured to conduct services in Emmanuel church. The Rev. Vander Valk exhibits a fighting spirit and declared last night that he would conduct the services Sunday if he has to call upon the entire police force of Muskegon to protect him.

Installation of Officers

The late installation of the officers of Major Scranton Circle, Ladies of G. A. R. of this city, by Mrs. Lucia Ludwig of Saugatuck, as installing officer was a very pleasing event.

Several of the Saugatuck members were present thus adding to the interest as well as the numbers. Mrs. Ludwig favored the Circle with an original poem, "My Jan. 3rd trip to and from Holland," which created no little amusement and applause. It being decided to have it printed at no late day.

After the exercises all present were invited to meet with the past president, Mrs. Mary Wilms, of 258 South River street where the daintiest and best of refreshments were served in the charming way this circle has of doing. A most enjoyable social followed till the Saugatuck members took their departure on a homeward bound trolley, all declaring it an unusually pleasant event. The following are the new officers of this Circle: President—Irene Reeve. Senior Vice Pres.—Capitola DeBoer. Junior Vice Pres.—Ida Belcher. Treasurer—Mary E. Wilms. Secretary—Belle Weaver. Chaplain—Sylvia Lamoreaux. Conductor—Elpha Allison. Guard—Mary Harris. Ass't Guard—Mary Grant. Delegates to State convention—Lucia Ludwig, Mary Grant. Alternates—Margaret Holt, Mary E. Dutton.

Will Keep Him Busy

A Washington despatch in the Grand Rapids Press contains the following regarding G. J. Diekema: "State Chairman Diekema's place upon the Spanish war claims commission promises to make him a very busy man for some time, and his hardest work is just now beginning. He has been here several times before on this task, but is here now to remain about two months, his only return to Michigan being when he goes to Grand Rapids to attend the Lincoln club banquet next month. He is also executor of the estate of Isaac Cappon of Holland, who died last week, and will stay a day or two to look after that, after which he will return here to take up the work of the commission in earnest."

GONE BY!

All use for the vile smelling and stomach upsetting Cod-Liver Oil—Vinol takes its place and because it does not disagree with the most delicate stomach, it is a greater tonic reconstructor than the old form of cod-liver oil ever was.

Mr. Geo. Heise wishes to testify for Vinol.—"I wish to testify to the merits of Vinol. I was all run down, tried different physicians and took all the nauseating preparations I ever heard of—Emulsions of Cod-Liver Oil included—but all to no avail; they only made me worse, finally I heard of the great curative powers of Vinol and concluded to try a bottle of it. I gained in weight continually from the time I commenced to take it and now I can truthfully say I am perfectly well and have regained my former strength and weight completely. —Geo. Heise, Comet, Ohio."

When we talk of Vinol we know on what we speak and will refund your money if you are not satisfied.
