Manager of Oldest Firm in Holland Retires

T. KEPPEL SONS BROUGHT FIRST CARLOAD OF COAL TO CITY—WAS A CURIOUSITY

Albert Keppel, for many years head of the T. Keppel Coal Company, this week retires from that firm in order to enjoy the first real vacation after being many years in the business harness. The management is now assumed by John Vandenberg, son-in-law of B. D. Keppel, also connected with the firm, although not actively.

The T. Keppel Coal Co. has a very interesting history. It was established in 1877 by the late T. Keppel, one of Holland's moving spirits in pioneer days. He was a man of unswerving honesty, who fought for what he thought was right, and he had strong religious convictions which he inculcated in all his business dealings.

Mr. Keppel was among the first pioneers who came to the colony in 1847, one month after Dr. Van Raalte planted the banner here. Mr. Keppel grew up with the colony, took an intense interest in all public and church affairs, and was one of the leading citizens in the early days.

It was Mr. Keppel who brought the first carload of coal to Holland and this was at the request of the late Leendert Mulder, publisher of De Grondwet, who had installed a small stationary engine and boiler to set in motion the first steam printing press installed in the city.

Coal was necessary, however, to start up steam and Mr. Keppel saw to it that some coal was imported and the first using of it brought out the whole business street to see what success De Grondwet was having with the new fuel. Wood was the only fuel in the early days and there was plenty of it and it was selling at \$1.25, \$1.50 and \$1.75 a cord, based on the kind of wood required.

Albert Keppel states that it was fifty years ago that the coal was brought to De Grondwet office, and he, as a lad of 12, drove it over in a two-wheel dump cart and this cart the T. Keppel Sons still have as a relic in their coal yards.

In 1896 Mr. Keppel turned the enterprise over to his sons, Bastian D. and Albert, and the firm continued under the name of T. Keppel Sons, dealers in fuel, tile, piping, cement and other building materials. The firm was the first to handle kerosene and gasoline. That was in the days when Holland had no electric lights.

Mr. Keppel stated that the gasoline was called benzine and was only used for cleaning purposes, and in one or two naphtha launches the first to appear on Black Lake. The "gas" in those days cost 5 cents a gallon. The T. Keppel Sons for years handled the Standard Oil products even long after the advent of the automobile, and until "service stations on every corner" became the general thing.

In the earlier days Mr. T. Keppel also dealt considerable in farm produce. Holland's first fair grounds, comprising Kollen park, Sugar Factory and Shoe Factory properties, were at one time the Keppel farm, and instead of smoking chimneys and turning wheels large cabbages were leisurely sunning and growing during the summer months on this farm overlooking Black Lake. The products from the apple orchards were taken to the Keppel cider mills on East Seventh street to the rear of the large Keppel home-stand, a commodious brick building still standing on College avenue.

MRS. VAN DUREN 80 ON GROUND HOG DAY

Mrs. G. J. Van Duren, for many years head of the Red Cross unit at Holland, leaves today for a three months' visit with her daughter, Mrs. William Cox, of West Orange, N. J. Mrs. Van Duren states that she was 80 years old on "Ground Hog" day. She is one of Holland's most beloved women and the News hopes that she may be spared to us for some time longer. She has given our community great and outstanding service, and she is a self-sacrificing citizen of whom we indeed are proud.

OLDEST MICHIGAN MAN IS GIVEN LICENSE

Probably the oldest licensed automobile driver in the United States lives in Michigan. The Department of State recently issued a driver's license to Thomas Gordon of Grand Rapids, 102 years old. When the application giving Mr. Gordon's age was received, at first it was thought a mistake had been made. Then because of his advanced age, he was asked to demonstrate to state police that he could control an automobile. They reported that he was as adept a driver as the "average man of 60."

OTTAWA-ALLEGAN SCOUT AREA HAS 1,100 WORKERS

The Ottawa-Allegan scout area has 1,100 active workers. In the classification are found 881 Boy Scouts, 56 Sea Scouts and 68 Cubs. Besides these the records show approximately 300 council members, district committee members, merit badge examiners, Club committee and pack leaders. Eleven new units were added in 1931, making a total of 42. Peter H. Norg is scout executive.

BORCULO TELEPHONE CO. HAS A GOOD YEAR

Despite the general curtailment of all business many local corporations are prospering comparatively well with other forms of business organizations, and one of these is the Borculo Independent Telephone Co. This company has been able to meet all expenses and carry net cash balance comparable with the prosperous year of 1929 in the face of a gross business of 72 per cent of that year. Ralph P. Lamer has been secretary and treasurer of the company for many years.

Guest Speaker Defines Good and Bad Fellowship

"BUD" HINGA'S FATHER-IN-LAW GUEST SPEAKER AT EXCHANGE CLUB

The members and guests of the Holland Exchange Club, who were present at the regular meeting yesterday noon at the Warm Friend Tavern were privileged to listen to a very appropriate and inspirational address by Rev. W. F. Kendrick on the subject of "Good Fellowship." The speaker is "Bud" Hinga's father-in-law and had been secured by "Bud" to take the place of another speaker who could not appear. The club members were certainly pleased with the speaker and received help from his address.

The speaker, well with other members of the Rotary Club and an Exchange at Kalamazoo, Mich. He has spoken before many of the noon luncheon clubs and is very familiar with the work they are trying to do. He said that he was proud of all the clubs he has visited which has never heard anything which was not fine and clean. Good fellowship, he stated, must be really good, not bad. A "good" fellow cannot be a "bad" fellow as the world so often calls him "good."

He must be positively good, both in character and in his dealings with others. Never before, he said, has the world so much needed fellowship. It must come from the heart.

Life, the speaker claimed, has much of humor in it if we only have our eyes and ears open to observe it. In these days of tension when the business and professional men are under a terrific strain, just to produce a smile on a weary face is doing God's service. We cannot always smile. Beware, he said, of the affable frowner. He quoted an ancient proverb, "He who always smiles must do at times at the expense of his character." But we can always be kind, friendly and sympathetic.

He encouraged the club to undertake worthy projects as it can only life if good for something outside of itself. Rotary has become internationally known due to its program of help for crippled children. So must all other clubs serve.

Clarence Jalving, a former secretary of the Holland Exchange Club, was present as an honored guest. So was Judge Fred Miles, also a former member. Leon Moody, the most recent member, led the club in singing.

Bank Receiver Tells of Working of Our Banks

PEOPLE DESTROY THEMSELVES AND COMMUNITY WHEN THEY DESTROY FINANCIAL SYSTEM

Holland Merchants' Association Has One of Finest Meetings in Years

The Holland Merchants' Association met in the city hall for the first time with the newly elected officers. William Brouwer, the president asked the co-operation of the members in the full measure which the merchants have always given. He stated that the merchants cannot expect more of the association than they themselves are putting into it and said that if the size of the audience that evening was any criterion then the merchants are starting out under the best of auspices on the new year.

This year a program committee has been added to the list of other committees and the doing for the following month will always be announced early.

Next month there will be discussion as to the advisability of admitting chain stores into the Merchants' Service Bureau or in both the Merchants' Service Bureau and the Merchants' Association. This undoubtedly will be an interesting meeting.

Members to the Merchants' Service Bureau were elected in the persons of C. Dornbos, Cornelius D. Jongh, Kenneth De Pree and John Van Tatenhove. John Rutgers, who was elected by a large vote, withdrew since he had already served on that committee and wanted others to shoulder the burdens for a while.

Carl Shaw, able manager of the Service Bureau, gave a very optimistic view for the future, stating that but twenty more members were needed to assure a successful year during 1932. He stated that there was \$130.39 in the treasury.

Many men spoke in behalf of the Holland Merchants' Service Bureau, stating the advantages derived from it.

Fred Beekun was a history of Service Bureaus and his experiences with them even before one was created in Holland. His talk was convincing as were the talks of Jake Fris, Tyde Warner and Jack Knoll.

The smoker received a real treat in the way of music. Herman Cook, the old-time musician, has a quartet in the family and they sure gave the merchants a real program of singing. Herman Cook, the father, was surrounded by his sons, Earl, Vernon and Lester, all good singers.

Before the meeting adjourned to Keefe's Restaurant, where the members all sat down to coffee and pie, Chairman-elect Brouwer and retiring president, Cornelius Dornbos, thanked Charles French of the Holland Sentinel and Ben Mulder of the Holland City News for their earnest co-operation in always helping along the activities of the Holland Merchants' Association. B. A. Mulder of The News asked for a rising vote of thanks to Clarence Jalving, receiver of People's State Bank, for a splendid speech, which gives so much information relative to banks in which the people are vitally interested. His discourse is found in full below:

By Clarence Jalving

I have been asked to speak tonight on a subject which in the last two years has been the subject of considerable discussion and which has become a matter of tremendous importance, not only to financiers, but also to the average business man and small depositor. The widespread uneasiness caused by the heavy mortality among banks, especially during 1931, has extended to practically every community. For many years there was no interruption in the flow of credit, but the stringency having raised questions in the minds of many as to the financial stability of even our larger banking houses. This uneasiness has been world-wide, and may further be traced to the lack of knowledge on the part of a great majority of people about the functions a bank is called upon to perform.

The subject on which I wish to make a few brief remarks is "Banks in their Relation to Business." In this connection I might state that without business there would be no banks, and without banks business in its modern form could not be carried on. When we stop to think that 85 per cent of the business or trade of our country and that of the world is done without the use of money as represented by currency and coin, we can form some idea of the part played by banks in the realm of business. It is a far cry to the days of our pioneer fathers who settled this country. They owned their own piece of land, raised everything they needed in the way of food, made their own clothing from wool and leather raised by themselves, cut the trees from their own forests to construct their homes, and each family was generally a self-sustaining unit. If there was a surplus of anything barter was resorted to, usually within a limited boundary.

Compare this with the complexity of our modern civilization. Every man is today more or less of a specialist, and he is dependent on the effort of others to supply his needs in the way of food, clothing, shelter, amusements and what-not. This calls for a tremendous amount of machinery by way of collecting and distributing the various commodities to fill these, together with the manufacturing processes through which these commodities pass. In every transaction, whether it involves the production of raw materials, the production of finished materials into a finished product, (Continued on Page 2)

FIFTY YEARS AGO TODAY

We are informed that Sheriff Vaupell, a Holland man, now at Grand Haven, has received a permanent male boarder which he prefers to keep as an assistant—a fine boy. Congratulations, Sheriff.

Ben Van Raalte has rented the large double store formerly occupied by Wm. Wakker as a furniture and undertaking establishment, under De Grondwet office and will fill it up with farming implements, wagons, buggies, etc. Note: This building was located on River Ave. and Ninth St. and was torn down when the Wolverine Garage was built. The Van Raalte Implement store remained there for at least 35 years. De Grondwet on the second floor was moved to its present location 45 years ago.

While Mrs. M. D. Howard and Mrs. Geo. Metz were driving home on River street to the North Side, some drunken driver by the name of Howe came up behind them with his team at a furious rate of speed, running into the buggy, upsetting it and throwing both ladies out, injuring them seriously. The set had shortly emerged from one of our short shops. Men in their "cupe" should not be permitted to drive a team. Note: Amen—they should take away his driver's license.

Charles P. Peterson has sold to Metropolitan Church Ass'n. 50 acres of section 22, Laketown, for \$1.00 and other valuable considerations.

A. P. Van Vulpes has sold to Richard Wiegman 20 acres of land south of Ottawa Street for \$2,000.

BURGLARS ENTER ZEELAND FARM CO-OP.

Another in a series of petty thefts and robberies occurring in Zeeland within recent months was reported after the Farm Bureau office on East Washington Street entered Tuesday night. Entrance was gained by breaking a window out of the cash register and ransacking the cash register and took a small sum in cash and found the safe locked and left it. The robbery occurred late Tuesday night or early Wednesday morning and it is believed that the same individuals who have been active in pilfering small articles from various business houses in this community are responsible for this job as well.

Mayor Brooks Does Not Seek Office Again

ALDERMAN VANDEN BERG THROWS HAT IN THE RING

It has been known for some time that Mayor E. C. Brooks, Holland's most able mayor, who has possibly given more of his time to that office than any man ever elected to it, has finally decided to not stand for re-election. It would take columns to tell of the accomplishments of Mayor Brooks and his unselfish and self-sacrificial service, but that will have to remain for another time.

Another able man in the person of William C. Vandenberg, alderman of the third ward, has tendered his services as will be seen in the announcement in this column.

Mr. Vandenberg is also one of those energetic welfare workers who has given of his time wholeheartedly to many civic projects, the most recent being the Community Chest drive, when he gave at least ten days of his time to manage this campaign.

The announcement of Mr. Vandenberg follows below and is self-explanatory.

Holland, Michigan.
Feb. 3, 1932.

Mayor E. C. Brooks,
Holland, Mich.

Dear Mayor Brooks:

You told me some time ago that under no circumstances would you be a candidate for re-election as mayor of our city at the coming spring election. Although you have not made a public announcement to that effect, your position seems to be quite generally known. I have been asked repeatedly if I would not like to be your successor. The citizens of Holland will be of course I would like to be mayor of this wonderful city.

In all of my activities of a civic nature, since my return to Holland in 1919, I have carefully avoided doing anything which might have led friends to believe or think that I had any political ambitions. I have always endeavored to throw myself enthusiastically into the many community projects with which I have been identified, solely for the good of the projects themselves. Never during these many campaigns in which I have taken part, have I received or expected any personal reward.

I am not now politically ambitious, but I do have a high and serious regard for the duties and responsibilities connected with the office of mayor. It has been my privilege and pleasure to serve as a member of our Common Council during my administration as mayor. I know something about how severe and trying your problems have been, especially during the last two years. We are all hopeful that better times are just ahead, but regardless of whether this be true or not, I know that the problems of our city for the next few months at least, will require much thought and consideration on the part of all of our people as well as the governing bodies of our city.

Our tax and budget problem, and our unemployment and welfare situation, are serious indeed. In fact the entire condition of affairs require a great deal of hard work, and I do not wish to put myself into the position of claiming that I am the one who can best fill the office of mayor of Holland during these strenuous times.

I am "throwing my hat into the ring" because I am familiar with the city's problems, and if I should be selected to serve I am confident that with proper support and co-operation Holland's problems will be well worked out.

Sincerely your friend,
WM. C. VANDENBERG.

JANUARY BREAKS ALL TEMPERATURE RECORDS

A record for high temperature as set by January, 1932, which maintained in Ottawa County an average temperature of 34.2 degrees, a score 2.6 degrees higher than any previous January on record here. The warmest January in the past was in 1906 when an average temperature of 31.6 degrees was recorded.

No one need go to the "sunny South" this year; we have our winter resort right at home.

GRAND HAVEN MEN STOPPED BY CHICAGO POLICEMEN BUT THEY ARE NOT DETAINED

Grand Haven Tribune—Herman Schaafsma and Martin Van Schelven who drove to Chicago recently, were stopped by two plain clothed men of the Chicago police force and questioned. Mr. Schaafsma stopped at a filling station, two men with guns drawn halted the party and questioned them. The officers in a police cruiser said they were on the watch for some hold-ups, but, being convinced the local party was innocent, allowed them to go on. The appearance of the drawn guns by plain clothed men threw quite a little excitement into the party, they said.

SPRING LAKE DON'T WANT TO BE A CITY

In a decisive vote of 252, no, and 107, yes, the voters of Spring Lake decided at the special election Monday to remain a part of the township and spurned the proposal of becoming a fifth class city.

The majority of 145 votes against the proposal is believed sufficient to discourage, for some time to come, any further efforts to create a fifth class city out of the village.

The registered vote of the village is 575, and the vote yesterday was considered a fair one as the weather was not any too favorable.

Beaverdam Men Head Company For Many Years

MOTHERED BY REAL HARD-SHIPS, COOPERATION WINS SUCCESS IN THE END

Zeeland Record:—Thirty-six years is a long while for any man to hold one job, but that is the record of Mr. Cornelius Van Farow of Beaverdam, who has served as secretary and treasurer of the Beaverdam Creamery Company since the day of its organization in 1896.

And many are the hardships this cooperative organization has seen, but it has succeeded until this day and at the present time is enjoying a cash reserve that will guarantee its continued existence for many years to come.

At the time of its organization conditions were as desperate as they are today, with commodity prices scraping the bottom and available cash down to zero. But people had become used to these conditions, having survived five years of depression.

With little or no outlet for their dairy product, and butter down to 12c a pound, these men joined forces, built their plant, paying carpenters and mechanics \$1.00 per ten hour day, and started business. The ice house was filled by holding an ice-cutting bee and each member donated 1 1/2 cords of four-foot wood to burn under the old steam boiler.

Two years after starting business five destroyed the whole outfit, throwing the farmers upon their own resources again. This did not discourage the members for they immediately set about to rebuild and within a short time had replaced the old plant with a new and better one.

Competition many times has threatened its existence, but they always survived. In 1907 it became necessary to reorganize, but the plant operated every day, thanks to the efficient management.

Of late years the average turnover has been about forty thousand dollars, derived from about 150,000 pounds of butter manufactured from 450,000 pounds of cream.

Although there may remain others of the original members, Mr. Cornelius Huyser, who for many years has been both plant manager and sales manager, has contributed much to the success of this company.

The present officers of the company are Fred Berends, president; Cornelius Van Farow, secretary and treasurer; and Cornelius Huyser, manager.

City Will Vote On Daylight Saving Time

MATTER OF PARK BOARD SALARY CUT IS AIDED IN COUNCIL

Outside Concern Wants to Collect Garbage in City on Contract

Many matters of importance came up before the Common Council last evening. One in particular that will call out a tremendous vote on election day will be whether Holland will remain on Eastern Standard time or adopt the old time prevalent since the war, in other words "daylight savings time." There is a great division of opinion on this question and it is well to have it settled. Should the result in Grand Rapids and Holland, where vote are being taken this spring, favor the old order of things, an attempt should be made to repeal the Conlon bill which brought this confusion about.

The matter of salaries of the park and cemetery board was fully aired at the council meeting, the park board giving their views and actions in a communication which was fully discussed by many of the aldermen at the meeting.

The aldermen named election inspectors for the primary election March 4, and took no action on the request of giving a Battle Creek man a contract to collect garbage in the city.

Relative to the salary of John Van Bragt, park superintendent, and Benj. Brouwer, clerk of the cemetery board, the aldermen were divided.

Clerk presented communication from the Board of Park and Cemetery trustees setting forth their position in regard to the wage reduction put into effect by them which did not entirely coincide with the ideas of the Council. The Board outlined certain policies that they have put into effect during the past few years which have saved the city a considerable amount of money by reducing their overhead expense and felt that the reduction which they made was fair and equitable and in line with the reductions made by other city departments, and for these reasons felt that their former action should stand, and the salary of the Park Superintendent and Cemetery sexton at \$2,600.00 per year, and that of the Cemetery Clerk or Superintendent remain at \$300.00 per year.

Alderman Brieve reported that his committee had met with the Park Board, but could not come to any agreement, and

On motion of Alderman Brieve, seconded by Jonkman, RESOLVED, that the salary of the Park Superintendent and Cemetery Sexton be fixed at \$2,500.00 per year and the Cemetery Clerk (also known as Cemetery Superintendent), be fixed at \$300.00 per year as originally recommended by the Council.

This brought up considerable discussion on the part of several aldermen. Alderman Hyma contended that the action of the Board should be approved, since they acted in good faith and had the best interests of the city uppermost in their minds. He felt that their judgment should be respected and there should be harmony between the Council and the different Boards and no dissension.

Alderman Vandenberg and Alderman Kleis also spoke in favor of approving the Board's action.

Alderman Brieve, Jonkman, Steffens, Prins and Huyser spoke in favor of having the original recommendation of the Council adopted. Mayor Brooks took the position that the continued good-will and co-operation of the different city boards was essential in order to get the best results from the various departments. The mayor further stated that in his opinion the charter does not give the Council the authority to dictate to the Boards what individual salaries or wages they shall pay so long as they do not exceed their budget allowances as fixed by the Council. City Attorney McBride stated that in his opinion the mayor's position was correct in regard to elective Boards, but that Boards appointed by the Council were in the same status as committees and that the Council had the right to tell them how they should spend their money.

After considerable discussion a yeas and nay vote was called for on Alderman Brieve's motion, resulting as follows:

Yeas—Aldermen Prins, Brieve, Woltman, Steffens, Habing, Postma, Jonkman, Veltman, Thomson; total, 9.

Welfare paid out during the last two weeks amounts to \$551.50 regular, and \$2,777.77 temporary aid, or a total of \$3,329.27. The amount is surely climbing.

The Common Council is asking bids on \$40,000 and \$25,000 General Obligation Bonds. A report of this bond issue will be found elsewhere in this issue.

Appointed election inspectors for the primaries March 7 are the following: Simon Kleyn, first; J. A. Drinkwater, second; Ray Knoelhuizen, third; William Lawrence, fourth; Henry De Ward, fifth; Herman Steggers, sixth ward.

The official Common Council as compiled by City Clerk Oscar Peterson, will be found in our next issue.

Petitions for Del Souler as a candidate for alderman of Holland and Cornelius Huisman for police and fire commissioner are in circulation. Numerous petitions have been obtained and indications are the city ballot here will carry an unusual number of aspirants for the office.

Mrs. Benjamin J. Bush has returned to her home in Detroit after spending a week at the home of her mother, Mrs. A. N. Van Duzer, 123 East Tenth street.

Every winter we see a good deal of cord wood, etc., hauled through town, but never as at present. Another difference is evident in the fact that all wood and even large logs are being hauled by automobile.

In the last half with roughness increasing, the winners went into a scoring spree which took victory out of Zeeland's reach. For the victors Herren, with 8 tallies, and Broene with 6, led the scoring, while Hoogsteen turned in an outstanding floor game. Local Representative of Goodyear Company Attending Big District Sales Conference on Tires at Akron, Ohio

A. Jack Sears, Western Division Manager, P. W. Litchfield, President, and R. S. Wilson, Vice President and Sales Manager of the Goodyear Tire and Rubber Co., Inc., who will conduct the Tire Sales Meeting.

R. C. Houser District Representative

Mr. R. C. Houser, district sales representative for the Goodyear Tire and Rubber company for this district and surrounding territory, is in Akron, Ohio, attending one of the largest conferences of the year in the automobile tire industry.

The conference will be held at the Mayflower hotel and will be signaled by the presence of Pres. P. W. Litchfield, who in addition to being an outstanding figure in the rubber industry, is directing the construction of the ZRS-5, sister ship of the U. S. S. Akron, recently completed for the Navy.

Mr. Litchfield, who has been connected with the rubber industry since his graduation from the Massachusetts Institute of Technology in 1896 and who joined Goodyear four years later as superintendent, is making first-hand study of dealers' problems and of car owners interests.

The conference will last two days and cover various phases of merchandising and distribution. R. S. Wilson, vice president in charge of sales; J. E. Mayl, manager of tire sales; A. J. Sears, Division Manager; H. E. Blythe, assistant to the president, and other company executives will attend the session.

An interesting figure is Litchfield; one of the first technical men attracted to the rubber industry.

He set up a small laboratory and designed the first Goodyear automobile tire. Going up the ranks as factory manager, vice president and president since 1926, he has in that period directed the construction of nearly 200,000,000 tires, the largest number credited to any individual in the world; and from his experience as a production leader won the name in the industry of the tire master.

Within the last few years however, he has come also into the title of the country's leading builder of lighter-than-air craft, some 1100 observation and training balloons and 110 airships having been built under his direction prior to the completion of the U. S. S. Akron. Mr. Litchfield's interest in aeronautics dates back to 1911 when the experiments of the Wright Brothers with airplanes and of Count Zeppelin with airships had gone far to convince a skeptical public opinion in Europe and America.

He set a little group of engineers to work, studying this subject, and in the following year began building balloons for the army and navy. In 1913 a Goodyear balloon team, Upon and Preston, won the James Gordon Bennett International balloon race, flying out of Paris.

The World War brought the building of a great hangar or airship dock at Wingfoot Lake, the construction there of hundreds of aircraft and the training of 600 army and navy officers for the air service.

In 1926 Litchfield took over for his company the Zeppelin patents for North America, bringing to America Karl Arnstein, chief engineer of the Zeppelin plant at Friedrichshafen, along with 12 of his engineering experts, and set them to work on initial design of full size military and commercial airships.

The construction dock in which the Akron was assembled, was started in 1929, being the largest building in the world without interior supports. This huge building, 1200 feet long by 325 feet wide and 210 feet high, stream-

lined to reduce air disturbances, and having four great orange-peel doors, also streamlined and weighing 600 tons each, has been called almost as interesting an engineering feat as the building of the airship itself.

The conference which Mr. Litchfield is attending is one of the series of eleven to be held over the early last year for cars of the Ford, Chevrolet, Plymouth class. The Airwheel Tire, originally designed by Goodyear in 1928 for airplanes, and already having largely displaced the old high pressure tires for automobiles and is said to be the latest word in automobile comfort.

Mr. Litchfield is a great believer in newspaper advertising, a large share of the company's annual advertising appropriation since he became president being diverted to the newspapers.

REV. DE HAAN HURT IN AUTO SMASH NEAR ZEELAND

Rev. Martin R. DeHaan, pastor of Calvary Union denominational church, Grand Rapids; his daughter, Ruth, 16; David Reed and a Mr. Krelgen of South Haven, were injured late Sunday afternoon on M-21 two miles east of Zeeland when the DeHaan and Reed automobiles crashed head-on in a blinding blizzard. Both cars were virtually demolished. Rev. DeHaan and his daughter were returning to Grand Rapids when the cars collided. The crash was caused, deputies sheriff who investigated, said, by escaping steam from the Reed automobile which blinded the vision of Mr. Reed. The DeHaans were assisted by Deputy Ed Rycenza to the residence here of Ralph DeHaan, a brother of the Grand Rapids minister, where they were attended by Dr. C. E. Boone. Their injuries were slight ones, consisting principally of bruises and cuts.

Mr. Reed and his companion were taken to Huizenga Memorial hospital, where it was said their injuries were not serious ones. At Rev. DeHaan's residence at Grand Rapids it was said that the pastor had not received severe injuries, but suffered somewhat from shock.

Dr. DeHaan, who has been conducting revival meetings at Zeeland, is again on the job today. Later Reed and Krelgen were taken to Holland hospital.

LOCAL SHOE FIRM MOVES TO BEAUTIFUL NEW QUARTERS

The Spaulding Brownbilt Shoe Store has moved to their beautiful new quarters directly across the street from the old stand. A transformation has taken place in the Vaupell block and one would not recognize the old store front. It is modernistic in every way; it has the latest word in lighting arrangement and in the entire shoe department the modernistic idea has been carried out in the remodeling program.

The commodious show windows are displays in themselves. The deep entrance is done in tile and this same effect is carried out on the inside with tile inlaid linoleum patterns. In the show window there is a colorful background of panels, each one of which contains a hidden door, making the window easy of access when customers wish to see footwear in the show window for closer inspection. The window fixtures are of the latest model in black and silver and the windows are held in place with clips doing away with the old-fashioned metal strips. The store is also equipped with a modern fitting machine to insure proper fitting.

Mr. Everett Spaulding, the proprietor, states that many new features have been added to the store which has attracted so many youngsters to the children's department the past year. This department is known as Jungledale. The seats have animal sides and quite a menagerie. There are toys of most every description to entertain the children while waiting. Mr. Spaulding states further, according to an announcement on this page, that the informal opening takes place today and tomorrow, Friday and Saturday.

HOLLAND QUINT SEEKS TO END LOSING STREAK AGAINST MUSKIE TEAM

Although beaten in eight straight games this year, Holland high hopes to break in the win column by upsetting Muskegon this week. The Muskies will play here Friday in a Southwestern conference battle. Muskegon defeated Holland by eight points at the awkward city early in the season and will be the favorite to cop the return game. The Dutchmen have been awaiting Friday's game in hopes of turning the tables despite all odds.

Coach Gerald Breen may use some new players in the Muskegon game. Bosworth, a big guard, played well enough against Kalamazoo last week to warrant a steady job. He may be paired with Buesing at guard, with Slighter and Eensburg at the forwards and Otteman at center.

C. of C. Elects Directors For Ensuing Year

COLONEL SIDNEY STORY RAKES THE COMMUNISTS WHO ENDEAVOR TO TEAR DOWN THE GOVERNMENT

The Knights of Pythias hall over the Sentinel building was a very active place Friday evening when the members of the Holland Chamber of Commerce were called together for a smoker, and for a little business besides listening to a real musical program by Hope College talent and a stirring speech against the "enemy within our gates" by Colonel Sidney Story of Chicago, who spoke on the subject "Safe guarding American Ideals."

President Dick Borer opened the meeting giving a brief review of the Chambers activities during the past year and calling upon Secretary Charles Gross, who gave a glowing account, briefly so, of these activities distributing a more complete report of these accomplishments in printed form.

Election of officers was one of great interest and Mr. Dick Borer of the P. S. Borer Co., J. H. Hoover of the H. J. Heinz Co., and Andrew Klampars of the Holland Furnace Co. were re-elected while H. S. Covell of Hart and Cooley Manufacturing Co., and William L. Eaton of the local investment company were elected.

Other men who received fine endorsements were Frank Esenberg of Esenberg Lumber Co., Charles A. French of the Holland Evening Sentinel, John J. Good of the Good Coal Co., A. E. Ramsland of the Holland Awning Co., and Chester Van Tongeren of the Dutch Novelty Shop.

With the above named members who were elected the following hold over directors must be added making full board: Mayor E. C. Brooks, Arthur Wrieden, Dr. Wynand Wichers, Milo De Vries, Frank Lievens and Vandie Vandenberg.

Among guests at the meeting were John Dunphy of Detroit, general passenger agent of the Pere Marquette railroad company, George E. Hunt, of Grand Rapids, division freight agent of the Pere Marquette and former resident here, Sidney Coates of Grand Rapids, James A. Starr, president of the Grand Rapids Junior Chamber of Commerce, Holland; Mr. M. W. Berg, new manager of the Michigan Gas and Electric Co.

Mr. Starr presented the charter which affilates the new Junior Chamber of Commerce in Holland with the national organization. The charter was presented to Adrian Klassen, president; John Eaton, first vice-president; and Chester Van Tongeren, second vice-president. Mr. Starr said the Junior chamber of America was but 12 years old and that there were six units in Michigan. Mr. Klassen in accepting the charter revealed that Holland is the smallest city in the United States to have a group affiliated with the National Junior chamber.

The head liner of the evening was Colonel Sidney Story, president of the American Merchant Marine League, who came here at the invitation of Veterans of Foreign Wars, which was augmented by an invitation from the local chamber. John Hafner and John Bremer of the local post were on the committee to escort Mr. Story to K. of P. hall where he was fittingly introduced by President Borer.

The Veterans of Foreign Wars, through their post throughout the nation are spending thousands of dollars to inculcate the old time American loyalty and patriotism. Mr. Story pointed out that Communists imported from Russia are endeavoring to break down our American institutions, are endeavoring to undermine our American form of government and haul down "Old Glory" and thus to destroy the republic made possible by Washington and the colonists, by Abraham Lincoln, by U. S. Grant, by Garfield and McKinley, Theodore Roosevelt and others.

He stated that the Communists are placing their poisonous hands even on our schools system, aiming to spread Atheism, disloyalty and destruction of home life we hold so dear.

Mr. Story gave an inside view of Russia and its five year plan stating that it was a camouflage to build up an army. He pointed out how Communists are spying on all American activities and through whispering campaigns throughout the land put distrust in the minds of bank depositors against banking institutions that are financially strong. He pointed out that their aim is to destroy us by destroying our financial structure. Mr. Story said that it was time to apply drastic remedies in order to save from communistic propaganda the best government on this earth today. We may have passed through a stressful period but still American standards are the highest of any of the peoples on this earth. Those who think Russia is such a wonderful utopia should visit the place and what a disillusionment would their experience be.

Mr. Story pointed out how Russian Communists had destroyed all religious environments and he compared Holland with a Russian city where there were no churches and Holland, where the church was dominant and God's word was the foundation. It was unnecessary for Mr. Story to stress which kind of a city Holland folks would sooner live in.

He spoke in favor of military training in schools—not alone for preparedness, but to build up the mind and body of America's youth.

When the United States entered the war only 4,000,000 men were found fit, he declared.

"When America entered the war she had to hire foreign ships to send soldiers to Europe. The war was begun and bonds by the billions were issued. This was the start of the condition we now face. Expensive habits were contracted

GRAND HAVEN LIGHT RATES TO BE READJUSTED

Ottawa county farmers have been cutting down roadside trees, presumably for fuel, road commission officials believe. They have used a different excuse for the wood cutting however, claiming the trees are removed because they sap life from the soil of the farmer's field just inside the fence line of the highway right of way. Carl T. Bowen, Ottawa county engineer, points out continued violation of the law in regard to cutting trees from highway right of ways, will result in prosecution. The fines for this offense are \$1 to \$25.

Holland Again Interested In Sugar Beets

ITEM SENT OUT BY MICHIGAN STATE COLLEGE OF INTEREST

If Holland and vicinity can secure enough sugar beet acreage it is possible that the old Holland and St. Louis sugar mill will be opened up again and bring to this city and the country side a new glimpse of prosperity.

Holland was a busy place around sugar beet time when the campaign was on. Farmers' wagons lined the streets for blocks waiting to be unloaded.

The large sums of money paid out to farmers for beets was augmented by a heavy payroll for labor in factory and yard.

The sugar campaign came just when there was a natural lull in other lines and this industry in a measure filled the gap in the winter time. A contribution from M. S. C. gives some beet raising figure and profits which may prove of interest in this vicinity at this time. A crop of 28.72 tons of sugar beets per had been taken off it. Mr. Dyke Turner, put him in the front rank of Michigan Banner Beet Growers for 1931, according to records of the farm crops department, Michigan State College.

The winning crop of beets was planted on very fertile soil which was fall plowed after a crop of corn had been taken off. Mr. Dyke used 180 pounds of 2-12-6 fertilizer, applied in the rows which were 22 inches apart.

The Banner Beet Growers' contest is decided on a basis of profit per acre, and the crop grown by the winner brought him a net profit of \$111.37 per acre after the production costs of \$68.13 had been subtracted from the total receipts. The value of the crop was computed as \$6.25 per ton.

The other 19 growers who won places in the contest are Jerry C. Geer, Beaverton; Ray McConnell Sr., Rosebush; Frank Thompson, St. Louis; Edmund McLeod, Merrill; Semon Bollenbacher, St. Louis; E. G. Hofferbert, Bannister; Earl Morris, St. Louis; Mark Caywood, Breckenridge; Ora Netzeley, St. Louis; Dean Geer, Coleman; Otto W. Weger, Riga; Arthur A. Dehmel, Unionville; John Longanbach, St. Louis; Oswald Geyer, Frankenmuth; Mrs. B. C. Rosebush; C. B. Shampo, Prattville; Robert Gulick, Merrill; and M. T. Cooney, Gaines.

—but the war ended and the bottom fell out of the fictitious prosperity.

"Now is the time to get back to earth, with war flaming in the east and hatred infesting the world. The World War did not end with the signing of the armistice. It is now a war of the world against America; a war of propaganda."

Colonel Story paused to tell of the hardships of soldiers in Europe and of the ungratefulness expressed now in opposition to bonuses.

Striking at communism, the speaker told of activities in this country which have their origin in Soviet Russia.

It is the object of the Veterans of Foreign Wars to arouse the nation, Colonel Story said and urged voting strength at the polls, explaining, "We get the government we deserve."

The smoker concluded with a luncheon. About 150 members and guests were present. John Olert, George Dauchy and Eugene Ripley were tellers during the election.

The program as rendered follows: Master of Ceremonies—Dick Borer, President, Chamber of Commerce; Invocation—Rev. J. O. Randall, D. D., Methodist Church, Holland; Remarks and Introduction of Guests by the Presiding Officer, Dick Borer; Three-minute Concert by Hope College Men's Glee Club; Program—Salutation By Gaines, Glee Club; Piano Solo—Selected, William Welmers; Song of Fellowship—By Harvey B. Gaul, Glee Club; Vocal Solos—Harry Friesema; Hills of Home—By Fox; Today—By Hueter; Trombone Solo—Selected, John Mullenberg; Olaf Trygvason—(Landsighting), Glee Club, By Edward Grieg.

HOLLAND CHAMBER OF COMMERCE SONG

HOLLAND IS A GOOD TOWN TO LIVE IN TELL US NOW

If with pleasure you are viewing
Any work the Chamber's doing,
If you like us—if you're with us—
Tell us now!

Don't withhold your appreciation,
Check the dismal, dark emotion,
Let us know your real opinion—
Tell us now!

Have we carried out your wishes
For a bigger, greater Holland?
If we have—if we haven't—
Tell us now!

Don't be kicking at the workers,
Or waste time among the shirkers,
But be honest with your verdict—
Tell us now!

Will you lend your hand in friendship?
And your efforts to our town?
If you like us—if you're with us—
Tell us now!

Don't stand back and say you're wise
Please don't slink critics,
But come on and say you're loyal—
Tell us now!

REV. DE HAAN, FORMERLY OF HOLLAND, TO CONDUCT REVIVAL AT ZEELAND

Rev. M. R. De Haan, pastor of Calvary Underdominational church, is conducting an evangelistic campaign in the Bible Witness hall at Zeeland, beginning Feb. 1, and continuing for two weeks.

Meetings are being held every night excepting Saturday.

Short Circuit

Michigan power companies fear wild birds which fly between power wires, short-circuiting the line and plunging nearby communities into darkness and depriving them of power. Recently in California an accident occurred reminding us of the fear mentioned. A swan wintering in the Alvarado salt marshes tried to fly between two power wires and short-circuited the line. One wire fell across a nearby telephone line and put both source of communication for a time. The swan was burned to death by the contact.

AT LEAST \$15,000 TO BE SPENT FOR DOUGLAS ROAD

F. R. Mosier and John Scarlett, supervisors of Ganges and Saugatuck, Orrin Wolbrink and W. H. Haile were in Lansing last Tuesday in behalf of a stretch of highway on US 1 between M89 junction and Douglas. They were informed that the job would be for reconstruction in three weeks—that the highway would be widened twenty feet—that the improvement calls for a soft asphalt top and concrete curbs. This piece of road is in a dangerous condition and many serious accidents and not a few fatalities have occurred there this season mostly to motorists who do not know the condition of the road it is claimed. The reconstruction job will cost about \$15,000.

IDLE MAN, OFFERED JOB BEHIND BAR, ASKS JUDGE TO MAKE POSSESSION LEGAL

Thomas Bell, 31 years old, chauffeur, electrician and plumber all in one, married and with a girl baby, out of work and discouraged to the point of desperation, walked into the United States District Court in New York city presided over by Judge Alfred C. Cox. A case was droning toward its close. Presently there came an interval of quiet.

Thomas Bell got to his feet in the back part of the courtroom. He put up a hand and started to speak. Two court officers started toward the young man to shut him up. But he broke into a fast, emphatic speech and the Judge let him run on. He told the court of his troubles.

"Now, here's what I want, Judge. Here's where you can help me. I have got a real chance to work as a bartender in a speakeasy. I know it's illegal, but I thought that you as a Judge could fix it up so it would be legal and I could get the job and earn the money. I've got to do something."

After a moment's silence Judge Cox said:

"Young man, you have my decided sympathy. I would like to do something for you, if possible. What you ask is impossible."

The Judge appealed to the District Attorney to do something for Bell. He professed helplessness and sent him along to the Court's probation officer, who could do nothing, either. Finally the jobless man quit the Federal Building in dejection.

Henry Geerlings will speak tonight, Friday, at a meeting of the Parent-Teacher Association in Olive Center.

Rabbit hunting season in Michigan was over Sunday. The "cotton tails" can now come from their haunts unmolested.

Horses and State Parks Seem to Be Strangers

THE AUTOMOBILE CARRIES THE VAST MILLIONS TO THESE OUTING PLACES

Old Dobbin who once carried the family and the picnic baskets to some wooded grove for a Sunday outdoor dinner is now a part of Michigan legend.

Not a single person of the thousands who visited nine representative state parks during the 1931 season used a horse as a means of conveyance.

Visitors and campers used every other means, feet, bicycles, motorcycles, boats and automobiles, but not one horse was registered according to the Parks Division of the Department of Conservation.

To satisfy their own curiosity, park superintendents at nine of the state parks last season noted the conveyances used by campers to reach the parks. The nine parks were: Bay City, Burt Lake, Dodge Bros. No. 9, East Tawas, Fort Wilkins, Grand Haven, Island Lake, Orchard Beach and Traverse City.

Forty four percent of the 18,219 campers who used these parks traveled in two types of small motor cars. Thirty five trucks loaded in campers were registered. Ten campers went in boats, five on bicycles, 15 on motorcycles, and 1,557 entered the parks from trains, busses or had walked. All of the rest of the campers went to the parks in automobiles and the parks superintendents listed 73 makes of cars, many of which are now "orphans," and are no longer manufactured.

GRAND HAVEN LIGHT RULES TO BE READJUSTED

The board of public works of Grand Haven voted to have a new rate schedule worked out at its meeting last night. The board felt the old rate schedule was not equitable, that some were being charged more than they should be and others less.

Hamilton and Weeber of Grand Rapids have been authorized to start on the schedule which must be presented the council sometime in May as rates are changed only on June 1. Last year the board made a 10 per cent reduction in household lighting rates. The new rates are to be scientifically worked out to be fair to every user. It is expected they will be in the hands of the board sometime in April.

KAZOO CENTRAL FIVE DEFEATS HOLLAND TO WIN TENTH STRAIGHT

Kalamazoo Central high's greatest team won its tenth straight game here this evening by defeating Holland at the Armory, 35-14. Displaying a fast passing attack the visitors progressed to a long lead in the first half and then coasted to victory. Coach Gene Thomas used his second string team in the entire second half. Kalamazoo led at the quarter, 7-0, and was on top at half-time, 24-3. Holland outplayed the visitors in third and fourth periods. Everhardus and Surville were outstanding for Kalamazoo with 10 and 9 points, respectively, while Huesing scored 7 of Holland's total.

Last Saturday sheriff Teed of Allegan was in Plainwell and met a man on the street who evidently had a load of booze in him. At first he thought he would arrest the fellow, John Vinson, as a drunk, but asked him if he could tell him where to get a little drink. "Sure!" he said, he could supply it himself. He went away but returned with a pint of alcohol for which the sheriff paid him \$2 and immediately arrested him and took him to the county jail. Like all his kind he insisted he had been "framed."—Allegan Gazette.

MICHIGAN'S STATE PARKS

The state parks of Michigan furnish an excellent venue to the growth of out-door recreation in this state. In 1922 the total attendance in these parks was 220,000. In 1931 the 10,000,000 mark was passed. Much of this attendance is, of course, from Michigan residents.

Yet the number of campers and visitors from out-of-state has increased in a highly satisfactory manner. There can be little doubt that during the past ten years Michigan has developed one of the finest and most popular state park systems now in existence.

Probably no single factor has done more to open up Michigan's tourist and resort areas than has the construction of efficient highways. The progress of this work is too well known to everyone to need further explanation.

PHEASANT CUCK WHIPS A BULL

Probably the gamest ring-necked pheasant cock ever witnessed in action is a Pennsylvania specimen said to have put to route a whole herd of cattle headed by a bull. According to Norman Wood, of Coatesville, Pa., the pheasant resented the entrance of the cattle into a certain portion of the field and flew at them so persistently they were forced to retreat to other grounds. It is thought that there were probably pheasant chicks hidden in the grass in the area which the pheasant was holding.

If you see a politician who isn't talking, it's because he has given up hope of saying what he thinks of Milwaukee and her four million surplus.

You can tell Americans were hard up in 1931. At one race track they bet only a trifle over \$48,000,000.

Miss Edna E. Oosting, 31, former resident of Holland, died a week ago last Tuesday morning at 2 o'clock at Bethesda sanitarium, Denver, Colorado, of tuberculosis.

Funeral services were held Thursday afternoon at 1:30 o'clock from the home of her parents, Mr. and Mrs. John Oosting, 74 East Sixteenth street, and at 2 o'clock from the Third Reformed church. Services at the home were private. Rev. James M. Martin, pastor of Third Reformed church, officiated. Burial was made in Pilgrim Home cemetery. A short service was held in Denver prior to sending the body to Holland.

Miss Oosting was a graduate of Holland High school and Hope College. She taught for a year in the Allendale school and a year in the East Twenty-fourth Street school here. She had been in Denver three years.

Surviving are her parents and one brother, Peter Oosting of Holland.

Miss Oosting graduated from Hope in the Class of 1922.

The inter-fraternity games Monday evening ran true to form with the Fraters defeating the Addisons, 36-13; the Knicks ringing up a 37-6 victory on the High school, and the Cosmos edging out the Emmermans, 15-11.

In the first game Van Peurseem, Tyse and Notter each got 6 points for the winners, while Hicks and Heersma performed well for the losers.

In the second game, which was a sloppy affair, Meers rang up 10 points for the Knicks.

For the third and final game, Hoffman was spectacular, making 10 of his team's 11 points. For the Cosmos Steffens and the two Wiergeriks were best.

Mr. Berg Is New Manager Of Local Gas Co.

IS AN ABLE EXECUTIVE WHO HAS SPENT 22 YEARS WITH THIS UTILITY

Mr. M. W. Berg, who for 22 years has been connected with the Inland interests, who have many public electric and gas properties throughout the United States and Michigan, is the newly appointed manager of the Holland division of the Michigan Gas and Electric company.

He officially took up his duties Monday to take the place of Mr. Walter Groth, who last December handed in his resignation to take effect February 1st.

Mr. Berg is a thorough gas man, having been connected with the company for a score of years. For the last two years he has been chief engineer in charge of operation of the Michigan properties and held the position until last September when he was promoted to commercial manager in charge of merchandise, public relations and employee education for four companies in Michigan.

Mr. Berg is also an official of the company being a director of the Michigan Gas and Electric Company, Michigan Public Service Company, Michigan Electric Power Company and the Albion Gas Light Company.

Before coming to Holland the headquarters of the new manager were at Lansing. Mr. and Mrs. Berg, have already moved to Holland and are well settled in their home at 280 West Seventeenth Street. They are very much taken up with this city and speak in glowing terms of the beauties of Holland and its resorts. They are looking forward with anticipation to the summer months when the resort advantages are available.

Holland has been very fortunate during the past score of years to have gas company managers who are real assets to the city. Emory P. Davis proved to be a real Holland man taking part in all civic activities. The same can be said of Walter Groth, who never failed to give of his time for civic welfare and was often called upon to participate in public programs as a musical artist.

Mr. Berg is already active along the lines of public service and is ready to aid in any place where civic interests have a task for him to do.

Mr. Walter Groth, who has been with the local gas company for the last four years, has accepted a position with the Holland Furnace company. Mr. Groth has had this place in mind for sometime and while his duties will take him abroad often, he and his family, who are glad to say will remain residents of this city and will continue to occupy their beautiful home in Lawndale court.

Pageant For Youth Helps Temperance

LOCAL TEMPERANCE WOMEN PUT IN A BIG DAY WITH STATE PRESIDENT

The Holland, Zeeland and Grand Haven Temperance women met in large numbers at the Woman's Literary club Friday in an all day session when Mrs. Dora B. Whitney of Benton Harbor president of the State Woman's Christian Temperance Union was the guest of honor.

The meeting was in charge of Mrs. Edith Walvoord local president who in a fitting manner introduced the guest speaker. Mrs. Whitney brought out that the cause of temperance should be instilled into the youth of the land, and this could be most effectively done thru pageants and playacting, picturing the evils of intemperance and the happiness of leading a temperate life. This session closed with noontide prayer.

In the afternoon Mrs. A. Pieters 1st vice-president of the Holland union presided. Mrs. Whitney again spoke at this session. She said that prohibition has nothing to do with the depression but that some people confuse the issue, that 12 years was too short a time to try prohibition but that it should receive as long a trial as saloons. In reply to some who said that the Women's Christian Temperance Union was composed of "old women who sit in a corner knitting" she said "they had knitted prohibition into the constitution and no modern crocheter could unravel it."

In the discussion hour, Mrs. Whitney spoke of the importance of scientific temperance instruction and the value of medal contests. She told that the wet newspapers had declared that if beer could be manufactured a million men would be given work but the department of commerce discovered that in 1919 only 45,000 men were employed in the manufacturing of all kinds of liquor.

The work of the different departments was explained by Mrs. James Wayer, who spoke on Christian Citizenship, Mrs. Fritz Jonkman, on evangelical work, Mrs. Walvoord, on institute; temperance and missions, Mrs. James Van Oss on flower missions and Mrs. John Vischer on the work in the Sunday schools. The above named ladies are all of Holland. Mrs. G. Van Peursem, missionary to Arabia, and Mrs. Harry Boot, missionary to China, gave brief messages describing conditions in these countries.

The talks were interspersed by musical numbers. Mrs. William C. Vanden Berg, accompanied by Mrs. Harold Karsten singing "Thanks Be to God," by Dixon and "Master I Will Follow Thee," by Andios. These offerings were well received. In the tea room Mrs. J. Van Ark, Mrs. Minnie Meengs and Mrs. F.

Gives Review of Holland's Federated Bible Classes

The members of the Women's adult Bible classes taking in most of the Holland churches gathered in large numbers at the First Reformed church for the annual meeting. Devotions were in charge of Miss Nellie Zwemer and Mrs. Gerrit Ter Vree.

A program was given, including organ solo by Miss Geraldine Walvoord, two numbers by a quartet of First church and an address by Rev. C. A. Stoppels of Bethel Reformed church on "The Christian Home and Its Influence." Mrs. G. Schurman, president, presided. The newly elected officers were introduced by the president as follows: Mrs. J. Jappinga, president; Mrs. Henry Vanhulzen, vice-president; Mrs. S. C. Nettinga, second vice-president; Mrs. P. Slagh, secretary; Mrs. Geo. Van Landeghe, assistant secretary; Mrs. G. Ellander, treasurer; Mrs. M. Markham, assistant treasurer and Mrs. Geo. Van Landeghe, reporter.

Mrs. Margaret Markham gave a very interesting review and much historic data relating to the Federated classes. She states that the federation had been organized December 8, 1914, in the parlors of the Third Reformed church. Charter members were the classes of Third Reformed church, represented by Mrs. P. Irmann; Methodist church, represented by Mrs. M. Markham and Trinity Reformed church, represented by Mrs. C. Dressel.

The object of the organization was to promote Bible study, Christian culture, social intercourse and evangelistic work. The following were appointed to form a constitution: The former Mrs. I. Cappon and Mrs. William Van Dyke of Third Reformed church; Mrs. Huyser and Mrs. Van Peursem of Trinity Reformed and Mrs. Winter and Mrs. Ver Weys of the Methodist church.

Mrs. Markham said that First Reformed joined the following weeks, Fourteenth Street Christian Reformed in 1925; Maple Avenue Christian Reformed in September of 1915; Hope church in May of 1921 and Ninth Street Christian Reformed in January of 1925, making it eight classes which at one time had a membership of nearly 800.

The first public meeting was held in Third church in January of 1915 when Mrs. William Moerdyke of Third Reformed church was named president; a member of First Reformed, vice-president; Mrs. Winter, of the Methodist church, secretary and Mrs. H. Cook of Trinity, treasurer. She said the executive board transacted all the business.

Since 1920 each year the retiring board members entertain the officers-elect at a social meeting previous to the annual session. Five public meetings were held with an average attendance of 174 and average collection of \$13. The September meeting of 1929 was a joint meeting with the Men's Federation in Hope church. The largest attendance was at the meeting in 1923 held in the Methodist church when Rev. M. R. De Haan

was the speaker. This also was the largest offering. At the request of Dr. and Mrs. Sam M. Zwemer, funds amounting to \$1159.41 were given to the American Literature society in New York city for the purpose of spreading the gospel by printed material among the Moslems. In 1929 Bibles were placed in all of the rooms in Holland hospital.

Where Does She Get Her "Pep?"

SHE doesn't look seventy. Nor feel that old. The woman who stimulates her organs can have energy that women half her age will envy!

At middle-age your vital organs begin to slow down. You may not be sick, simply sluggish. But why endure a condition of half-health when there's a stimulant that will stir a stagnant system to new life and energy in a week's time?

This remarkable stimulant is perfectly harmless. It is, in fact, a family doctor's prescription. So, if you're tired of trying every patent medicine that comes along, tell the druggist you want a bottle of Dr. Caldwell's syrup pepsin. Take a bit of this delicious syrup every day or so, until you know by the

way you feel that your lazy liver is again active, and your bowels are poison-free.

Men, women, and children who are run-down, who tire easily, get bilious spells or have frequent headaches, are soon straightened out when they get this prescription preparation of pure pepsin, active senna, and fresh laxative herbs. (Syrup pepsin is all the help the bowels need, and you do not form the very bad habit of always taking cathartics.)

Keep a bottle of Dr. Caldwell's syrup pepsin in the house, and take a stimulating spoonful every now and then. It is all that a great many people ever take to keep strong and vigorous, and absolutely free from constipation.

HOPE COLLEGE NEWS

Joan Walvoord, Edith De Young
and Vivian Behrman Elected
New Anchor Heads Monday

Joan Walvoord of South Holland, Illinois, was elected editor of the Hope College Anchor at a student body election during the first hour Monday morning, and Edith De Young of Newark, New York, was made business manager. The position of advertising manager was voted to Vivian Behrman of Flushing, New York. All three are members of the sophomore class.

Miss Walvoord, who succeeds Ivan Johnson, present editor, has served on the staff for a year as head reporter. She was also editor of the freshman issue in 1930, and has had a fund of valuable experience in the editing of her high school annual. Edith De Young has assisted Melvin Dole, retiring business manager, as a member of the business staff, and has shown marked ability in that field. The office of advertising manager, now held by Miss Behrman, is a newly created one designed to relieve the business manager of too many duties.

The next issue of the Anchor for February 10 will be omitted to allow the new heads to organize their staffs. The first issue under the new regime will appear Wednesday, February 17.

However, nothing definite has been decided since their going is dependent on several things that have not as yet been settled.

The evening contest saw the schools on opposite sides of the question, with Joe Esther and Arthur TerKunst, affirmative, arrayed against O. F. Yarger and W. E. Oliver, negative. The entire delegation from Illinois State Normal university, consisting of six delegates, went on to Kalamazoo after the evening debate, the next stop on their itinerary. The story involved in "Once There Was a Princess" may be summarized thus:

Little Ellen Guthrie of Millertown, Indiana, has been taken abroad by her wealthy father and ambitious mother, and married to an Italian Prince. He spent all her fortune and then died, leaving her quite alone. She has always been homesick for Millertown and her old friends, and decides to return. The village is all excitement at the news of her coming, and great preparations are made for her reception. When she arrives, she is mistaken for a seamstress who was expected, and seeing that the people are looking for a great and glorious princess in dazzling array, she makes no explanation, but sits and sews. Presently, however, she is recognized by her early sweetheart, and by her old friend, "Uncle Joe." The three then make plans to keep her identity a secret. She attends the reception in disguise, and then plans to slip quietly away, but many highly interesting incidents occur before the final curtain, when the future looks rosy for all concerned.

Frosh Take
Cosmos Into
Camp 38-20

The Hope frosh, playing true to form, defeated the Cosmos in the preliminary game Thursday by the score of 38-20. The society five put up a splendid battle in the first half, but when the yearlings began hitting the hoop in the last period the chances of a Cosmos victory became dim and then slowly faded away.

Gordon Korstange and Gerald Bonette, two flashy forwards, scored more points than the entire Cosmos team. Teed Van Zanden came through in fine fashion with four field goals. G. Wiegink and "Len" Steffens turned in the best games for the losers.

The frosh still have to meet their equal in campus teams. No fraternity team has been a match for them. It is the best "greenie" team that has represented the Freshman class for several years.

Not the Right Way
I never wait until the first of the year to make good resolutions. I make them every morning. And by January 1 sometimes almost hope I have made a little progress. But I am never able to accomplish anything by promising to quit all my bad habits at once.—E. W. Howe's Monthly.

Quail Need Protection
Quail cease to increase in number after a time, even when not molested. Probably for lack of cover and food. After a territory has its full population of quail the birds do not increase in number unless man, by planting food and cover, makes more covey ranges.

With January almost gone and no winter weather, there is a great deal of conjecture on the part of the horticulturists in this section over fruit prospects this year. PUBLIC TO VOTE ON OLEO BILL

The compiling division of the Department of State is making preparations for the handling of a far greater number of proposed constitutional amendments and referendums in 1932 than is usually found on the ballot in a presidential election, they report.

By the filing of the requisite number of signatures the oleomargarine tax bill, passed by the 1931 legislature, has been held in abeyance until the voters have an opportunity of expressing themselves next November.

Two petitions containing 5,000 and 15,000 signatures have already been filed with the department calling for changes in the state's prohibition laws, and it is understood that additional signatures will be filed within the near future. Voters will probably be given the opportunity to pass on various constitutional amendments regarding taxation at the next election.

To place a proposed constitutional amendment on the ballot in November, 1932, 55,089 signatures are needed. To initiate legislation at the next session of the legislature, the names of 68,071 voters must be signed to petitions while a referendum on an existing law requires 42,545 names.

The Cosmopolitans held no regular meeting this week, due to the semester exams. However, the house was usually full of fellows, happy to get through their exams. The Society basket ball team, after having put up a good fight in the first half, lost the preliminary game Thursday night with the Freshmen. If the cold weather continues, some of the fellows are going to form an Eskimo Club, membership being based on the ability to withstand the cold of the dormitory.

This policy calls for one increase in rate beginning with the fourth year; but dividends begin at that time and on the basis of current experience as indicated above these dividends are more than sufficient at all ages to fully offset the increase in the premium, thus reducing the cost below the initial rate.
