## Ottawa Group Wins Sweepstakes In Farm Contest

### Blizzard Postpones Muskegon Round-Up Until Later Date

North Chester Community Farm bureau of Ottawa county won the sweepstakes prize in the 1946 West Michigan Farm-to-Prosper contest. It was revealed today.

The Round-Up today at Muskegon where winners were to receive their awards from Gov. Kim Sigler was canceled because of the blizzard that virtually paralyzed traffic in the Muskegon area.

With the sweepstakes title goes \$100 in cash and a Michigan state flag to be held until won next year.

Some 700 farmers, members of 34 rural community, organizations, were to have attended the celebration today. A noon dinner had been prepared and C. D. McNamee, president of the contest board of trustees, told The Sentinel "We don't know what we can do. We are attempting to give the food away to keep it from spoiling."

John Chisholm, another contest official, was snowbound at noon today at his North Muskegon home. Plans for presenting prizes will be announced later, Chisholm said.

Dean Emil Leffler of Albion college had been scheduled as principal speaker and state commissioner of Agriculture Charles Fay was to have attended. He telephoned contest officials that highway department heads had advised him to stay at home. This advice was also forwarded to Gov. Sigler.

Willard Haskins is chairman of the winning bureau.

The North Chester Farm bureau won its award on a basis of a program of wide activities. The group, aided by Mrs. H. E. Strohm, conducted a registration drive to get voters certified for the general election, took an interest in state and national affairs, conducted a successful membership drive, secured road improvements, sponsored a Thanksgiving Day banquet for the entire community and encouraged members to hold office in community organizations. Ottawa county entries were judged in this order: North Chester Farm bureau, first; North Ottawa Junior Farm bureau, second; Huyser Community Farm bureau, third; Coopersville Grange, fourth. (Only four completed reports.)

Judging at the county level was done by committees of judges in each county. The winning report in each county was sent to the office of C. V. Ballard, assistant state extension director, Michigan State college, where a committee selected the sweepstakes winner.

Reporting on the selection of the sweepstakes winner, Mr. Ballard wrote:

"The judges were favorably impressed with the accomplishments of these groups in furthering rural community well being. They all are to be congratulated. Any one of these group efforts would have been a creditable first in your contest. However, a contest calls for a winner. Therefore, the judges have made a choice."

"I wish to compliment your association for sponsoring this friendly rivalry between community groups. It centers attention upon a great public need. The contest is unique in that the last in competition is still a winner in the judgment of the community served and in the satisfaction gained through doing something for the common good."

## Here's How Come We Had That Lightning

Holland's amateur scientists disagree on yesterday's spectacular display of lightning. One report is that temperature of clouds went above the freezing point and the discharge was from cloud-to-cloud, accounting for its wide visibility.

Normally, lightning is the result of cloud-to-earth exchange of electrical charges when the potential is sufficient to overcome the air resistance.

The storm resulted from the meeting of a cold air mass and a warm air mass, which precipitated moisture from the warmer mass, others pointed out.

## Information on Dutch Family Is Sought Here

The Netherlands Information Bureau is attempting to locate a couple who left The Netherlands in 1912 for Holland. The information is requested by a nephew in The Hague.

The couple sought is Mr. and Mrs. Cannemeyer, aged 70 to 76. Mr. Cannemeyer came to Holland as a candidate-preacher and later the family moved to Chicago. The couple was known to have a daughter, Wilma, born in 1913, and a son, Robert, born in 1916 either in Holland or Chicago. Mrs. Cannemeyer was the former Corbelia Wilhemina Goedvolk.

Pictured here are members of the Holland Kiwanis club as they gathered around the March of Dimes plank situated on Eighth St. Saturday. This is the third annual drive for the National Foundation for Infantile Paralysis, sponsored by the Kiwanis club. The contributions last Saturday totalled \$714.38.

Above (left to right) are Bastian Bouman, announcer; Bud Larsen; Jack Plewes, Holland Drive chairman; Police Chief Jack Van Hoff; Simon Borr, president of Kiwanis and Judge Raymond Smith, Ottawa County chapter chairman.

## Petitions Filed by Office-Seekers In Grand Haven

Grand Haven, Jan. 30 (Special)—Petitions have been filed with City Clerk J. Nyhof. Poel by citizens seeking public office. Some are new comers to the political field and others are seeking re-election.

Mayor Edmond Wilds, who has served the city four years as mayor, has filed his petition seeking re-election. Besides serving the city as mayor for four years Wilds previously served four years as an alderman. The term of office of mayor is one year.

Those who are bidding for the office of alderman are Louis J. Breitels, Russell Vander Veen, Govert Van Arkel and Henry Casemier, all of whose petitions have been filed. Petitions are out for three more seeking the office, but those had not as yet been filed up to Saturday noon. The first three, Breitels, Vander Veen and Van Arkel are seeking office for the first time and Casemier is seeking re-election. Frank Meyer, whose term as alderman expires, has expressed a desire not to seek re-election if there are other candidates and it is not considered likely Meyer will file in view of other candidates in the field.

George Wessel is seeking a second two-year term as city treasurer and has filed his petitions.

Hugh Mulligan, retired steamboat inspector and former member of the Board of Public Works, has filed his petitions as a member of the board. Arthur J. Walter, incumbent, is expected to file his petitions seeking re-election. This is for a five-year term.

The deadline for filing petitions with the city clerk is Jan. 25 and the primary election will be held Feb. 17.

## Three Students Waive On Automobile Charge

Three Hope college students waived examination when they were arraigned Wednesday afternoon before Municipal Judge Raymond L. Smith on charges of unlawfully driving away an automobile.

The three defendants, Vernon Sennett, Jr., 22, of Norwood, O.; Ivan E. Martin, 21, Hasbrouck, N. J.; and Guy Hackett, 21, of Pontiac, were bound to Circuit Court to appear Saturday morning.

They were released on their own recognizance.

## Hope Entertains Calvin Knights In Game Today

When the Calvin Knights come to Holland tonight to battle Hope in their traditional game, it will mean a homecoming for four Holland men now playing on the Calvin varsity. These players, Mart Sjaarda, Wes Vryhof, Harvey Bratt, and Elmer Walcott, are all former Holland Christian stars. Both Sjaarda and Vryhof were members of the Maroon squad which were defeated a state championship by Decatur in the state quarter finals in 1942. Coach Charles Bult of the Calvin outfit said today that all of the Holland boys will see action and Sjaarda most likely will be a starter.

Although Calvin is not conceded much chance to cop the tilt, followers will admit that the Knights always give the Hopesies a good battle. The game will also give the Hope "scoring" trial of 1943 a chance to renew the acquaintance of Marvin Bysma. Calvin's main threat, Hope fans will remember that it was Bysma who was a constant thorn in their flesh in the Calvin 49-42 victory. Since this memorable game, Mulder, Van Dis and De Vette have all entered the service as did Bysma, and now have returned once more to oppose each other on the court.

While in the service, Bysma like De Vette played a great deal of basketball. The Calvin ace established quite a record for himself while playing regular for Coach Buck Read of Western Michigan, and for a short time held a scoring record at Madison Square Garden in New York. This record was finally broken by De Paul's great All American center George Mikan.

The Knights also boast of some height in Jake Hekman, 6'6" center. He is a good bankboard man, and does a great deal of scoring from the free throw area.

Coach Chuck Bult will most likely play "control ball" against the faster and more accurate Hope players. It is a question however, whether the Calvin boys can stop the Hope fast break—something which no team has done this year. Western, although they defeated the Hope quint twice did not stop the fast breaking attack, but merely employed a faster one of their own, combined with more accurate shooting.

Calvin will most likely start a completely revamped lineup against Hope tonight which may look like this: Bysma and Zondervan or Zylstra at the forwards, Sjaarda and Bratt or Roskam at the guards and Hekman at center. Coach Milton Hinga will start his same high flying scorers which line up Mulder and Scholten at the guards, Van Dis and De Vette at the forwards, and Buter at center.

A prelude between the B squads of the two colleges has been arranged. This should prove an interesting battle, because both quint played a mutual opponent, the Western B team. The Hope squad was defeated by the Broncoes while the Calvin boys split with them in a pair of games.

## DeWaard Advises Caution in Use Of Rat Poison

"I'm not so concerned over the effect of rat poison on muskrats as I am over possible misuse of poisons in general," Neal De Waard, president of the Fish and Game club, said here in commenting on Common Council's action Wednesday night to purchase 1,000 "baits" of poison to kill rats in the city dump.

Questioned by The Sentinel whether muskrats might be poisoned in the program, De Waard explained that the muskrat is more dignified and fastidious than his cousin, the common rat.

The muskrat, he said, is 99 per cent vegetarian, and his only deviation from the vegetarian diet might be a clam or mussel. The muskrat usually stays close to the water, but during the mating season they may wander far afield. "Rats are undesirable and should be done away with, but anyone who places poison does so at a risk, and those responsible for placing the poison must assume responsibility for whatever happens," he said.

De Waard said he understood the poison to be used will be fatal for rodents alone and not for mammals. Rodents will die because they cannot vomit, but dogs and cats would recover.

The State Conservation department frowns on the use of poison of any kind when there is any other possible way of solving a problem, De Waard said. He added that the department does not encourage its use even on predatory animals.

De Waard said he was not particularly alarmed that rats would enter the city in large numbers. Rats naturally are attracted to any easy food source, he said, floors where rats can get at grain. Chicken coops without cement supplies are the most popular attraction, he said.

Careless dumping of garbage on back lots also can be the signal for Mr. and Mrs. Rat to set up housekeeping and raise a family. Messy alleys also are a good setting.

De Waard said well kept premises and proper disposal of garbage from the homes will do more to keep the rats from the city than anything else.

## Dutch Organ Grinders Want to Visit Holland

Centennial Commission President Cornelius Vander Meulen has received several letters from persons in the Netherlands interested in Holland's celebration of its 100th anniversary this year.

One letter, addressed to the "lord-mayor of Holland, Esq.," was written on behalf of the organ grinders who would like to come to Holland to participate in the celebration.

The letter, written by Jan Verus of Hoorn, said the organ grinders were not allowed to play in the streets during the war, and many of the men fought in the underground. "But the first day liberation came, we went into the street and 'organ-grinders swing' was here again. And now we ask, can't we come over with our instruments to play at your festival? Maybe we can make things so that a great part of the revenue can be used for the wounded American soldiers of World War II."

Another letter written by M. V. D. Zouwen, secretary of Oranje-Garde, a youth organization, expressed surprise that a city by the name of Holland in America

## West Ottawa Plans Annual Election At Grand Haven

### Conservation District Will Select Directors, Hear Yearly Reports

Hunter Hering, chairman of the board of directors of the West Ottawa Soil Conservation district since its establishment in 1938, will perform his last act as chairman January 30, by presiding at the annual meeting of the district, spokesmen said today. Some time ago Hering told the board that it would be impossible for him to continue as a director.

This district, first established north of the Ohio river, and east of the Mississippi river, has made great strides during the last eight years. Much of this progress has been due directly to Hering's leadership. He is an ardent supporter of conservation of soil, it is reported. Five directors will be elected and the new board will reorganize after Jan. 30.

All farmers of the county are invited to attend this county-wide meeting on Jan. 30 at the Grand Haven High school at 1 p.m. Any landowner possessing three acres or more of land within any of the 12 townships in the district may vote for the directors. However, all farmers in the county are invited to attend.

Bill Renshaw, farm editor and Clint Ballard of Michigan State college will deliver talks at this annual meeting. There will be other features such as music by the Grand Haven High school band, presentation of awards to rural children who participated in the conservation contests, a report of the district activities for 1946 given by L. R. Arnold, county agricultural agent.

In 1946 this annual meeting was attended by 550 growers.

## Prince Decorates Holland Resident For War Services

The wartime record of Robert R. Horner of Holland has received official recognition of the Belgian government, it has been announced here. The prince regent of Belgium has bestowed a medal on Mr. Horner.

The telegram of announcement from the Belgian ambassador at Washington said in part:

"I have the honor to inform you that the prince regent of Belgium has been pleased to be-

stow upon you the Cross of Knight of the Order of the Crown in recognition of the services which you have rendered in the common cause."

Mr. Horner received the award in absentia when he was unable to go to Washington to attend the bestowal ceremony.

In his reply to the ambassador, Horner said he felt the award was "undeserved" because he had only been attempting to accomplish his task of carrying out "just policies for economic rehabilitation and regeneration" established by American leaders.

Mr. Horner was for two years an official of the Combined Raw Materials board. This board was composed of American and British representatives and charged with control of international production, transportation and allocation of critical raw materials.

Following liberation of European Allies, it was Mr. Horner's task to process raw material programs of Belgium, The Netherlands, France, Denmark, Norway and UNRRA. The programs were essential to re-establishment of economies of those countries.

At termination of duties with the board late in 1945, Mr. Horner returned to his home on Lake Macatawa, where his wife, Charlotte, had lived during his absence.

The Horners acquired the Moorings in 1939 and came here to live in 1941. Mr. Horner was an instructor in economics from 1929 to 1941 at the University of Michigan. He was active in student counseling at the university. He received a B.A. degree from the university in 1926 and M.A. degree in 1927. He later studied at the Robert Brookings Graduate school.

He was born in California but was reared at Grand Rapids and Manistee. Horner's hobby is sail boating.

Jeffreys, president of the Jeffreys Lecture bureau, Columbus, O., and executive of Capitol college, Columbus. Mr. Jeffreys is considered one of the most dynamic and colorful speakers in the country. Now he is devoting his time to the lecture bureau, Capitol college and the lecture platform.

## Snow Loader Is Working Overtime To Clear Streets

The snow loader of the Street department was working overtime today in an attempt to clear main streets of huge deposits of loose snow left by a storm which raged all night and continued with slightly shifting winds this morning.

City Engineer Jacob Zuidema estimated the snowfall between five and six inches. He said plowing was particularly difficult because of the crust on top of the snow drifts. Extra equipment was pressed into service to pile the snow in the middle of the road.

In the last snowfall, Zuidema said the snow loader loaded 160 loads in eight hours, averaging nine cubic yards per truck, working with four men and four trucks. Without the snow loader, he estimated it would have taken at least two days using 12 trucks and 15 men.

Today's snowfall is heavier and with additional problems due to the loose dry quality, it was estimated it would take considerably longer than eight hours to clear the city.

Zuidema said the snow loader takes care of 20 loads an hour and can discharge 1,440 cubic yards on an ordinary working day.

Wednesday's freak thunder and lightning was not without humorous angles.

The Northern Wood Products plant, a short distance from the 5th St. power plant, was rocked by the concussion. The tension among the startled employees was broken only after one of their number bolted from the men's room, his trousers at had mast.

On the serious side, another employee, Kenneth J. Lohman, 19, route 2 escaped serious injuries when the concussion numbed his hands as he was operating a truck. Examination by the plant nurse, Mrs. Harvey Olson, revealed no serious injury, but mechanics later found that the steering apparatus of the truck would not function.

Near Ottawa beach a car bounced up and down when lightning struck. A truck bounced too, it was reported.

Even Holland's weatherman was snowed in today. Jay Folkert, Hope college instructor who takes charge of weather readings on Hope campus, was unable to get through from his rural home.

Worse than that, Folkert had the key to the weather box in his pocket, and so nobody else could take the readings. Hence, the 11 a.m. temperature reading in The Sentinel today is unofficial.

## Freak Lightning Makes Direct Hit On Police Radio

### Spectacular Display Heralds Beginning Of Frozen Snow Fall

A freak bolt of lightning followed by a long rumble of thunder at 4 p.m. Wednesday scored a direct hit on the police department's two-way radio system at the 5th St. power plant, but otherwise caused little damage. Everybody in the Holland area heard the crash. Reaction ranged from mild amazement to fright.

Speculation among the people ranged from atomic bombs to industrial explosions, and telephone calls poured into The Sentinel office and the police station for an hour.

The lightning and thunder served as "opening gun" of a severe snow storm which left many rural residents snowed in this morning and resulted in slow traffic, off-schedule buses and general tardiness at work and school.

The tinted snow had a peculiar crystalline quality, somewhat like sugar, which did not pack. Residential snowblowers and professional snow removers alike experienced difficulty in clearing paths and drives. Brisk winds drifted the snow rapidly.

The fire alarm bell at Jack Knoll's on Eighth St. was hit by lightning, putting the fire alarm system out of commission until night. Knoll is captain of the fire department.

The mail truck from Grand Rapids was three hours late this morning. Trains also were running late.

Two street lighting circuits were put out of commission late at night by high wind.

Jim Evans of Paw Paw, radio engineer who services state police equipment, came here on an emergency call and worked until 2 a.m. making temporary repairs. He and his helpers resumed work early this morning and were expected to have the system in operation this afternoon.

The control console in police headquarters was not hit. All damage was confined to the equipment at the big stack of the power station.

Lightning struck the 15-foot antenna on top of the 200-foot stack, dislodged many bricks at the top and burned off the antenna before traveling down the coaxial cable to the transmitter at the base of the stack.

The concussion knocked the five-foot door off the transmitter cabinet, which is six feet high, and caused considerable damage to the transmitting and receiving apparatus within the cabinet by burning and concussion.

The bolt then "bounced" to a 110-volt meter on the outside of the stack, burning it out, and then "blew" a fuse box. A telephone circuit also was shorted.

The repairs have installed a temporary antenna about 15 feet high inside the stack which is expected to service a 10-mile radius.

Evans said the equipment has the proper lightning arresters on the antenna equipment, but these are of little value in case of a direct hit because of the exceptionally high voltage.

He said the coaxial cable which leads from the antenna to the transmitter is a copper tube 1/4 inch in diameter with a smaller copper wire inside separated by insulation beads which makes the inner conductor concentric with the outer conductor, with the outside conductor acting as a shield and a ground and the inner conductor carrying the current.

Damage to the cable was not determined, but in case it must be replaced, it will require expert service. There is no insurance on Holland's radio equipment, according to City Clerk Oscar Peterson.

The police radio equipment was installed at the stack several years ago after the Board of Public Works switched to the "forced draft" system of eliminating smoke.

## Hope B Squad to Play In Polio Benefit Tilt

The Grand Haven city recreation department is sponsoring a benefit polio basketball night Friday and has invited Coach John H. Schouten's Hope college B squad to participate. The locals will meet Jobbers' Outlet, high scoring Grand Haven team, at 7:15 and the City Merchants will engage the Anderson Packers from Muskegon at 8:30 p.m. Both games will be played in the Grand Haven high school gym.

Interest is running high around Grand Haven for this is the first year a basketball benefit has been held here for the infantile paralysis drive.

One of the officials for Friday's tilt was a victim of polio in 1938. He was a player on the Jobbers' team in 1938. He also has a wife who is still hospitalized with polio after suffering an attack November 21, a few days after the couple returned from their wedding trip.

## Two Killed in Car-Train Crash Near Zeeland

Driver in Hospital; Car Catches Fire After Being Dragged 200 Feet

Zeeland, Jan. 30 (Special) — Henry Marlink, 34, route 2, Zeeland, formerly of Holland, and his nephew, five-year-old Larry Dale Wierda, also route 2, Zeeland, were fatally injured at 5:20 p.m. Thursday when a Pere Marquette passenger train crashed into an auto at the Franklin St. crossing about a half mile west of the Zeeland city limits.

The boy's father, Harvey Wierda, 26, driver of the car, received a fractured right collarbone and multiple bruises and contusions, according to the physician who is attending him at Huizinga Memorial hospital in Zeeland. The physician said Wierda recovered consciousness this morning after being in a semi-conscious state during the night and his condition was described as "somewhat improved."

Marlink was killed outright, but his nephew died three hours later in the hospital of a skull fracture and internal injuries. Marlink received a skull fracture and crushed chest.

Martin De Jonge, route 2, Zeeland, who witnessed the accident from his parked car 100 feet south of the crossing, told sheriff's officers the car was traveling at a moderate rate of speed, perhaps 20 to 25 miles an hour, and was in motion when the crash occurred. He said the engineer shrieked the train's whistle "terribly" before the crash.

The car was dragged down the tracks 200 feet and hit a large utility pole en route, officers said. Occupants were thrown free before the demolished car caught fire.

Deputy Louis Visch, first officer on the scene, was unable to extinguish the blaze with two extinguishers and summoned the Zeeland fire department.

Coroner Gilbert Vande Water said he would consult Prosecutor Howard W. Fant Tuesday in a conference with Deputies Edward Brouwer and Louis Visch to determine whether an inquest will be called.

Two of the drive wheels of the locomotive were derailed, and the train was halted for a little over an hour. The front of the locomotive was damaged, officers said.

Officers said visibility at the crossing is clear toward the east, the direction from which the train was coming. There is no flasher at the crossing.

Crew members were Engineer Charles Younggreen, Fireman Arlie Belden; Conductor C. E. Muckey and Brakeman E. Jones, all of Grand Rapids.

Wierda, the driver, marked his 26th birthday anniversary the day of the accident. He formerly lived in Holland.

Marlink is survived by his wife, Margaret; four daughters, Marilyn, Violet, Iola and Barbara; his father, William Marlink of Grand Rapids; and four brothers, Justin of Holland, Dick of Zeeland and Marvin and Chris of Grand Rapids; two sisters, Mrs. Bertha Talsma and Mrs. Joan Crawford of Sault Ste. Marie.

Larry is survived by his parents; a sister, Carol Jean; and his grandparents, Mrs. James Thompson of Cadillac and Mr. and Mrs. John Wierda of 195 East Sixth St.

The prepared program leaflet has for its theme "Make Level in the Desert a Highway for Our God." This program was written by a talented third generation Christian woman of India, Mrs. Isabel Caleb, on the staff of Ewing Christian college at Allahabad. The theme will be introduced by a litany and responses with a local woman as leader. The thought suggests a period of meditation on the desert-places of human lives.

Other speakers will touch on "Mirages, Secret Sins," on "Oases and Caravans" and on "Jesus, the Head of the Caravan."

Principal speaker will be Mrs. Clayton Hoffman of Grand Rapids whose subject will be "The Technique of Prayer." Seasons of prayer will be held with music and responsive Bible readings interspersed between the subjects announced.

The offering will be directed to five causes; to the needs of 4,000-6,000 migrants and sharecroppers in our country's fields; to Indian students enrolled in eight government schools who will get help from religious work directors; to magazines published in their own languages for the reading of women and children in China, India, Burma, the Philippines, Africa, Egypt, Turkey, Latin America, Holland, France and Germany; to the support of eight Union Christian colleges, four in India, one in Japan and three in China; and to thousands of oriental students being sent to America who will be given Christian hospitality from men and women here and will have driven from their hearts homesickness and alien customs.

## Counselor Emphasizes Value of Aptitude Tests

Cornelius vander Meulen, local veterans' counselor, today praised the work of the Vocational Guidance Center on Hope college campus in a Sentinel interview.

He called particular attention to the values of the aptitude and interest tests offered by the center which is sponsored by Veterans Administration.

The better part of a day is required for veterans to take the various dexterity and mental tests, all of which are based on psychological research.

Results of these tests reveal capabilities of the applicant which, steer him into the fields of education and training in which he is best fitted.

One veteran, planning an engineering course although he knew he was weak in mathematics, found himself better qualified in personnel work and is now training for a diplomatic career, vander Meulen said.

Another who wanted to take training for a mechanic found he was qualified for engineering and subsequently decided to start college rather than take on-the-job training.

These tests are open to all veterans who have a certificate of eligibility or entitlement. This may be obtained through Counselor vander Meulen who also will arrange an appointment for the tests.

The counseling center on Hope campus is operated by Esaki Carlson, Leonard Jay Van Hoven and Clifford Barleson, who work in co-operation with the college faculty. Carlson and Barleson are counselors and Van Hoven is training officer.

## Dutchmen Wallop Albion, 83-46 in League Affair

### Hope Gives Shooting Exhibitions in Rout; Van Dis Leads Scorers

With a dull thud, the challenge of the Albion Britons for a share in MIAA honors fell here before a rampaging Hope college attack by a score of 83-46. The Thursday night victory tightened the Dutchmen's hold on first place and dropped Albion into a tie with Kalamazoo college, two games out of first place.

Bob (Gabby) Van Dis hounded every Albion player to score 22 points. Don Mulder, all-state guard, split the meshes on 10 field goals and one foul shot for a total of 21 points for the evening. Eltin Isaac scored 19 for the losers.

The game, played at the Holland Armory, opened with Isaac and Bob Dies scoring on field goals to give the Britons a 4-0 edge. Don Mulder then scored on a long shot and Don Scholten hit on a free throw. Isaac came back with another 20-foot long shot that never touched the rim to make the count 6-3. But before four minutes had been played Hope made up the deficit and moved ahead 9-6.

It wasn't until 10 minutes had passed that the Hollanders began their spirited drive. Van Dis, Mulder and DeVette turned in some amazing passing feats and the Dutch machine began to roll. Mulder, Butler and DeVette all connected to give Hope a 21-14 lead.

Then with five minutes left in the first half two spectacular shots by Mulder and a set-shot by DeVette ended the half with the Dutchmen ahead 38-25. Isaac scored on a long shot just as the horn blew.

As the teams left the floor it seemed Albion was tiring before the whirlwind Dutch attack. But the Britons had yet to feel the full fury of the Hope scoring power, which really began in the second half. Coach Milton (Bud) Hinga, Hope mentor, found no fault with the first five and didn't substitute at all in the first half.

In the first two minutes of the second half the Dutchmen scored eight points on baskets by Mulder and DeVette and two goals by Van Dis to make the score 46-25. The Hope passing became sharper and the baskets were kept hot by the sharp-eyed Hollanders.

With seven minutes remaining in the game, Coach Hinga began substituting and the crowd roared tribute as DeVette, Mulder, Butler and Scholten left the game. It wasn't until three minutes later that Van Dis was removed from the contest, having turned in his finest performance to date.

The score at the four-minute automatic time-out was Hope 71-Albion 42. The Dutch reserves then carried on where the regulars left off and scored nine points while Albion counted four points. The ball game ended with the Britons desperate and the Hopeites having a wonderful time, with the score 83-46.

Lew Moon, giant Briton center, came into the Hope dressing room after the game and said "I'd rather play Kalamazoo, if at least let you rest awhile." Moon was held to a single point by Herb Butler at the center slot.

Don Scholten, Dutch guard, played his best game to date last night too as he scored nine points and played smoothly on defense. Scholten seems to have found his eye at last and it may be the answer to many of Hinga's problems.

For the Dutch it was the scoring of Van Dis and Mulder with 22 and 21 points respectively that helped make the score so high. Isaac was high for Albion with 19 points.

## Mooi Promises Action Soon on Re-Zoning Issue

Ald. Herman Mooi, chairman of the council's re-zoning committee, told councilmen and visitors at a regular meeting last Wednesday that the committee will report "soon" on the issue involving rezoning of River Ave. from 12th to 17th Sts.

Harold Beernink's request to council for special permission to re-zone his "half block" at 17th and River so that he could build a photographic studio was described as "out of order" by City Attorney Vernon D. Ten Cate, who said any kind of re-zoning must follow the regular procedure with petitions and public hearings.

Beernink told council he had been "very patient" the past year in awaiting action on the zoning change to allow commercial building on River Ave. He pointed to signatures of property owners on River Ave. on petitions requesting the change.

Ten Cate pointed out it was not simple for council to solve the many problems confronting such a transfer and said provisions must be made for alleys and setback lines.

Council approved a transfer of the club license of the VFW from 1791 River Ave. to the new building at 24-28 West Seventh St. The notice came in a communication from the Liquor Control commission. A dance permit also was allowed.

City Clerk Oscar Peterson read an opinion prepared by City Attorney Ten Cate clarifying city leave benefits for city employees also covered by workmen's compensation. The communication said sick leave absences resulting from injuries or illnesses directly with the job will come under workmen's compensation and illnesses arising from sources outside employment will come under city sick leave benefits.

Claims and accounts totaled \$8,902.40. Other claims were hospital, \$12,326.47; library, \$246.88; park and cemetery, \$2,011.22; Board of Public Works, \$32,617.64. ## Grocery Chain Ups Advertising

An experimental plan of placing company advertising in at least one newspaper in every city or town in which it has a store has been put into effect by A and P food stores, C. Wall, vice-president in charge of the company's Grand Rapids unit which serves this area has announced.

The advertising, entitled "Marketing with Marjorie", is new and chatty in form and will appear every other week in more than 900 papers throughout the country to tell consumers about quality brands to be found in A and P stores.

"A and P has always strongly believed in the selling power of newspaper advertising," Wall declared. "The best proof is that we have been using approximately 2,000 newspapers regularly to carry our message to the public and with the total of present additions the list has been increased to 3,000."

"Since it is new and different, 'Marketing with Marjorie' is being tried on an experimental basis," Wall said.

PEPPER LOOKS AT  
VANDENBERG

When Senator Claude Pepper of  
Florida took a potshot at Sen-  
ator Vandenberg because the lat-  
ter did not fall down in worship  
before the state department, he  
merely showed that human nature  
is about the same in senators as  
it is in the rest of us small fry.  
When any average man of us is  
stymied by another in some pet  
project, we quite naturally hate  
the other fellow and try to believe  
that he is not as good as he should  
be. Pepper runs true to form.

It should not surprise anyone  
that Pepper hates Vandenberg;  
the motivation for his dislike is  
perfectly plain. Not because Pepper  
is a New Dealer and Vandenberg  
is a Republican. Not because  
the Florida senator is a radical  
and the Michigan man a conserva-  
tive. Not because the two are  
on opposite sides of the political  
fence; Vandenberg has many per-  
sonal friends among the senators  
on the other side, while Pepper's  
animus against the Michigan sen-  
ator is personal.

The reason is that Vandenberg  
years ago put a spoke in the wheel  
of a Pepperish New Deal project  
that meant a great deal to the  
personal and political advance-  
ment of the Florida man. During  
the flush years of the New Deal,  
when Pepper was first beginning  
to feel his political oats, the ad-  
ministration at Washington cook-  
ed up a fifty fifty brew, with the  
active encouragement of Pepper,  
to build a ship's canal across  
Florida. The canal was about as  
much use as an airline to the  
moon. It would cost some scores  
of millions of dollars. All in all it  
was about the most fantastically  
absurd scheme for milking the  
country that could be devised.

Vandenberg was the one man  
who blocked it. But for him it  
would have gone through. Single-  
handedly he fought the forces of  
the New Deal. And the project  
was so fantastic on the face of it  
that even though the New Dealers  
were in full control of both  
branches of congress they did not  
dare go ahead in the face of the  
Michigan man's revelations.

The canal would have meant  
a pot of money for Florida, and  
Senator Pepper would have re-  
ceived the credit from the voters  
of his state. The rest of us would  
of course have footed the bill for  
a project that was wholly political.  
No wonder there is personal  
animus in Pepper's attitude to-  
ward Vandenberg. You could hard-  
ly expect anything else. For sen-  
ators are just ordinary men who  
happen to have been elected to  
high office. Their human nature is  
not changed when they assume  
the senatorial toga.

Sunday School  
Lesson

February 2, 1947  
Jesus the Giver of Life  
John 5:2-9

By Henry Geerlings

Sunday school teachers are  
sometimes expected to handle  
very difficult problems. Sin, sick-  
ness, and death certainly belong  
to that class. And even though no  
problems may be permanently  
settled there is some satisfaction  
resulting from the fact that we  
may think about these problems  
frankly and in the light of the  
teachings of Jesus. It cannot for  
a moment be said that our Lord  
ever evaded them. It could possi-  
bly be shown without great diffi-  
culty that some or perhaps all of  
them entered into most of His  
discourses. He did not for a mo-  
ment deny them in the light of  
His understanding of eternal  
truth.

Sometimes one hears the ques-  
tion even today. Did Christ per-  
form miracles? It would be rather  
discouraging to think of the four  
gospels with the element of the  
miraculous eliminated. It is not  
necessary that we shall know pre-  
cisely how many miracles are re-  
corded in the gospels, nor what  
the particular nature of these mir-  
acles was. It is sufficient to say  
that our Lord came into the world  
to seek and save the lost and He  
dealt with all these elements and  
factors which robbed Him of what  
God gave Him at the beginning.  
It does not seem so very difficult  
to reconcile the miraculous with  
the mission and purpose of our  
Lord. Would it not in fact seem  
very strange if our Lord had not  
done anything unusual or out of  
the ordinary?

Sickness is one of the facts we  
face every day we live. It is no  
respecter of persons or families.  
We have still a long distance to  
go before it is removed from our  
civilization. It lays its hands on  
persons of all ages and classes and  
stations. The very institutions we  
erect to care for the physically  
unfortunate proclaim the unmis-  
takable evidence of widespread  
physical misfortune. It is a truism  
that the sick we have always with  
us. They become a problem the  
solution of which is nowhere yet  
in sight.

Our Lord is spoken of as the  
Great Physician. The gospels  
would in a sense be only frag-  
ments of what they are now if  
His ministry to the unfortunate  
should be eliminated. He seemed  
never to need to force Himself  
to give them necessary attention.  
Both His attitude and His acts in-  
dicated sympathy of a deep and  
abiding sort. He seemed to be  
on the lookout for them. Their  
presence immediately attracted His  
attention. He was moved with  
compassion as they were carried  
into His presence. The scope of  
His ministry would have been  
greatly lessened if limited entirely  
to His teaching. The kindness and  
mercy which permeated His  
words laid deep hold upon His  
audience when He healed the sick  
and cleansed the lepers. He antici-  
pated the blessing of the science  
of medicine as we know it and  
prepared the way for its discovery  
and use.

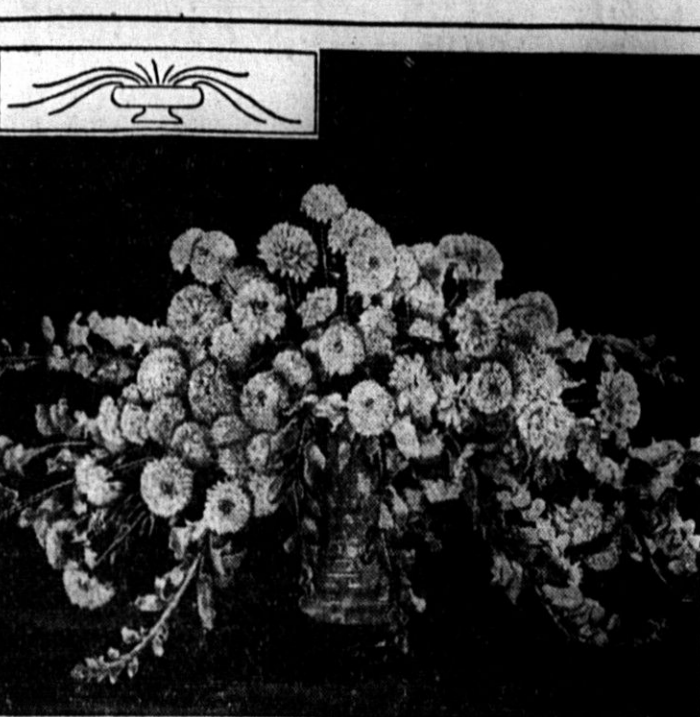

Christ saw the inherent worth  
in persons who were called upon  
to suffer. How different in this  
respect He was from many of the  
wise men and philosophers of an-  
cient times. It was not unusual  
for him to advise that the sick  
be neglected or cast out or forgot-  
ten. He may not have been the  
first to bring sympathy for the  
unfortunate into the world but  
He gave it a mighty impetus and  
we can as easily forget Him as we  
can forget the wonderful ministry  
of His mercy.

Works of mercy are permissible  
on the Sabbath. Many of the lead-  
ers in His day objected to that.  
It was not customary for Christ  
to heed their criticism and cer-  
tainly He did not on these occa-  
sions. It was His contention as  
well as His practice that works of  
mercy were allowable. He had lit-  
tle patience with the deductions of  
the lawmakers of His time, espe-  
cially when the results of their ef-  
forts were to lay heavier burdens  
on the people. He had come to  
make those burdens lighter and  
He gave little sympathy to prac-  
tices that made life harder than it  
really was. We shall have to re-  
vise our definition of work if we  
hope to catch the full meaning of  
His merciful spirit.

The Great Physician is at work  
today. To preach the gospel is in  
itself a contribution to the intel-  
lectual and physical welfare of the  
community. There are those val-  
ues in the gospel of our Lord  
which so elevate human thought  
and experience as to make impos-  
sible the existence of conditions  
which are prevalent where the  
gospel is not found. It is our firm  
conviction that the ministry of  
Jesus found three distinct fields  
for its application, the physical,  
the intellectual and the spiritual.  
In none of these dare the church  
today be negligent. It not infre-  
quently happens that the outward  
ministry of the church does more  
to incline people to accept His  
total message than anything else.  
Of course, our Lord is at work  
today if those whom He calls and  
commissions are at work; and this  
applies as immediately to the lo-  
cal community as to any parish  
abroad.

In this lesson Jesus sets an ex-  
ample of the care for the bodies of  
men we are in danger of forget-  
ting. It is impossible to have in-  
corporated within our own think-  
ing that compassion which was so  
characteristic of His own life  
without giving expression to it in  
some form that may be likened to  
the relief and soundness He  
brought to multitudes. There are  
some people who are satisfied to  
attend church and others who are  
satisfied to meet physical needs.

## Expert Arranging an Art—Here's How

Just as the whole art of music  
is based on a handful of notes  
called the scale, the art of flower  
arrangement is based upon a few  
fundamental designs. These sound  
like fugitives from a geometry  
book, since the basic types are  
triangular, circular, radiating, ver-  
tical, horizontal or rhythmic. As  
simple as "do re mi," with prac-  
tice you can make your own floral  
symphonies.

Study the beautiful example  
shown here. Since horizontal lines  
and masses predominate, this is a

horizontal arrangement. The sec-  
ret of the whole thing is keeping  
it simple and "easy to look at."  
Pink pompons are clustered to  
create a center of interest. The  
graceful, easy lines of the light  
pink snapdragons reaching out-  
ward in both directions are nicely  
balanced but not stiffly regular.  
The decorative container adds  
firmness and stability. Horizontal  
arrangements are particularly  
good for the dining table since  
the guests can look across them  
most conveniently.

collected last Saturday. The  
chairman said that the total  
contributions to date, which  
includes both Saturday planks and  
contributions from merchants and  
industries, is \$2,061.32.

Although the quota of \$4,500  
for Holland is still far from at-  
tained, Plewes expressed confi-  
dence that the quota will be reach-  
ed by the closing of the cam-  
paign on Jan. 30. He said that  
many merchants and industries  
have not as yet contributed, but  
are expected to do so during the  
week.

The drive committee termed the  
campaign as successful and ex-  
pressed appreciation to the people  
of Holland who gave so generously  
throughout the two week drive  
period.

Final success of the drive will  
hinge on contributions from man-  
agement and labor in local indus-  
tries, Plewes said. In many cases  
management is arranging to have  
containers passed among workers  
to facilitate their gifts, and this  
collection, together with com-  
pany contributions, are turned in  
to drive headquarters, he re-  
ported.

## Maroons Trounce Favored Ottawa In 59-40 Victory

### Locals Display Power To Win Eighth in 10; Bankboard Men Shine

Holland Christian completely outclassed a favored Ottawa Hills aggregation Friday night by defeating them 59-40 before a capacity crowd at the Ottawa gym. The locals played by far their best ball of the season in fitting tribute to their star forward and co-captain, Bobby Altena, who played his last game for the Dutch. The Maroons were never threatened in the ball game after Ottawa had jumped to an early three point lead. At one time in the tilt, Holland held a 22-point lead when they jumped ahead to a 31-29 score.

The locals stunned the partisan crowd with a great exhibition of shooting and clever ball handling. Coach Art Tuls' boys had complete control of both bankboards and never allowed the Indians two

successive shots at the basket.

Christian opened the scoring with a foul by Zierhof, but soon found themselves trailing when Tom Greenhoe and Ralph Lock connected on two pointers for the Class A school. The locals overcame this margin and within the space of a minute had an 8-6 lead of their own. From this point on the locals never trailed in the contest. The Dutch lengthened their margin to 14-7 at the end of the first quarter.

Zierhof, little Christian spark-plug found the basket in the second period as he paced the locals by hitting five goals from the corner on one handed push shots. Ottawa star, Jim Eaddy, also playing his last prep game, sparked the losers with eight points in the high scoring period. The locals led 30-18 at the end of the first half.

If Ottawa had any hopes of Christian weakening in the second half, they were soon shattered, because the locals lost no time in piling up a 40-25 lead. Bobby Altena came through for the Dutch with six points in the first few minutes to maintain the hot pace. Gene Schrottenboer also contributed four successful charity tosses to the ever mounting Christian total. The locals clinched the game at the end of third quarter with a comfortable 47-29 lead.

The last quarter was a slower affair and both teams showed signs of tiring although the locals outscored the Grand Rapids lads 12-11 in the final stanza. Jim Eaddy was ejected from the fray on five personal fouls with one minute left to play.

The Maroons displayed a smooth working machine throughout the entire contest and methodically worked through the Ottawa defense. The Ottawa offense never was able to click because the local guards continually kept the Ottawa offensive threats in the back court, forcing them to shoot long shots. Lampen and Altena stood out on defense for the Dutch. The work of Rosendahl and Schrottenboer under the basket was spectacular, especially on rebound plays. The remarkable fact about the Christian triumph was that the locals piled up a huge total and yet did not once vary from their set-up style of play.

Holland Christian counted on 13 of 23 foul attempts and Ottawa made good on six of 16.

The Maroon scoring was evenly divided between four men. Rosendahl was high with 16 points but was followed closely by Schrottenboer with 15 and Altena and Zierhof with 13 each. The smooth working Jim Eaddy paced his team with 15 points.

It was the Maroon's eighth victory in 10 starts and Ottawa's third loss in eight starts.

## Roofing Ideas Given by Firm

Adding to the appearance of any home is the type of roofing applied. By asking the Holland Ready Roofing Co. to help you solve your roofing and siding problems you can be sure your house will look its best.

John Bagladi and sons are justly proud of the fact that many people have come to them over a period of years for help in solving their roofing problems.

The roofing craftsmen advise all prospective home owners or present owners planning a re-roofing job, to inspect the various types of roofing for a choice to suit their taste of beauty and durability.

They strongly recommend and stand back of Flintkote products. These products are made with every advantage that scientific research can provide backed by 40 years of successful manufacturing experience.

Like most products on the market today, there is small choice in colors and types of materials due to the shortage of basic materials in the manufacturing of these products. However, Mr. Bagladi assures his customers that he will do his best in serving them in every possible way to solve improvement problems.

## Addition Begun At Bohn Plant

Work has been started on the foundation for a new 120 by 200-foot one-story addition to Bohn Aluminum plant No. 11, Manager Chester C. Moffat announced today.

The new addition was authorized by CPA authorities in Grand Rapids about a month ago and will be used for production work. Meanwhile, company officials are engaged in obtaining prices and other information before seeking permission from the CPA to replace a warehouse north of the plant which was destroyed in a \$50,000 blaze Jan. 19.

The approved addition, cost of which is estimated at \$125,000, will be built east of the building on what has been parking space. The new wing will eventually provide space for another 50 employees. At present 540 are employed by the company.

Krieghoff Co. of Detroit, which built the original plant, will be the contractor. The new addition will be of cement and steel construction.

The only other application filed last week with City Clerk Oscar Peterson called for the repair of the front cement steps of the Paul Baker home at 288 West 19th St. at a cost of \$200. Peter Kalkman was listed as contractor.

## Dutchmen Whip Michigan Normal In Tough Contest

**Ypsilanti Quintet is Much Improved Squad; De Vette Paces Scorers**

Hope college basketballers won their tenth game in a dozen starts Saturday night when they emerged victorious over the Michigan Normal Teachers 49-42. The Dutchmen led again after their hot night against Albion Thursday and had all they could do to come out on top.

The Teachers employed a revolving block soon after the game began and were protecting a 4-0 lead. Then slowly and cautiously they worked the ball in to Howard Messenger, pivot man, who helped the Normals to build up a 21-11 lead midway in the first half.

The Michigan Normal offense was unusually effective and had the Hollanders worried until Gaby Van Dis, still sizzling from the Albion tilt, hit on two long shots and the locals gathered 12 points in the final 10 minutes while the Teachers scored but one. In this period Russ De Vette broke loose on several fast breaks and scored for the Hollanders. The half ended with the locals holding a 23-22 lead.

Because of the slow blocking game the Teachers were playing, the Hope players pressed them and fouled many times. Had the Teachers made a better percentage of their fouls they undoubtedly would have beaten Hope. They made only 12 out of 29 fouls as it was.

During the second half the Dutchmen managed to hold a 10-point margin most of the way until five minutes remained in the game when the Teachers crept up to within five points of Hope with the score 46-41. Then Hope began stalling and holding the ball from the Teachers forcing them to foul four times in the last two minutes. The Hollanders counted on two of them and finished with a 49-42 score.

Russ De Vette, star forward, again paced the Hope attack with 18 points while Don Mulder garnered 12 points for second high. Van Dis kept the Dutch in the game several times with long shots. Sampier led the losers with 15 points while Messenger tallied 11.

It was one of the best games the Teachers played all season and through fine coaching, excellent shooting and fine floor play they threw a genuine scare into the Dutchmen. Sampier, Normal's captain, was absent from the Hope-Michigan Normal tilt in Holland and strengthened the squad tremendously after his return.

## Holland Quint Wins League Tilt

The Holland Pure Oils easily defeated Ross Zephyrs 30-14 in the first game of the second round of play in the Grand Rapids YMCA league, Saturday night. The locals jumped off to an early lead and were never threatened after a close first quarter.

The locals missed numerous easy lay up shots in the second quarter, but managed to hold a 14-10 half-time margin. The Dutch stepped up the pace considerably in the last half and outscored the Ross 16-4.

Higgs and Holkeboer paced the Hollanders with eight apiece, while Bots and De Vries each got four for the losers.

The Pure Oils will be sponsors of a guest night Tuesday in Grand Rapids, and at that time will oppose the Pastors Foods.

## Seven Up Bows to Grand Haven Five

The local Seven Up basketball team lost its fourth contest of the season Thursday night when they bowed to the strong Grand Haven Jobbers outfit at Grand Haven 53-39. This was the second loss of the locals to the Grand Haven five.

The Dutch played the Harbor City lads even for nearly all of the first half, but fell behind in the last two minutes of the first period. The score at the intermission was 22-16 with Seven Up on the short end.

The winners continued their hot pace in the second half. Lanky Grand Haven forward Liederveldt threw in shots from all angles and soon pulled his quintet into a comfortable lead.

Holland was handicapped in the fact that they had only five men, and they just couldn't keep up with the fast breaking Grand Haven boys. De Ward led the Seven Ups with 15 points while Liederveldt tallied 26 for Grand Haven.

Programs were printed on blue paper with a sleepy-time gal silhouetted on the cover. Guest favors were carnation boutonnieres and eversharps engraved "Delta Phi."

## Group to Study School Expansion

Ald. L. C. Dalman, Bernard De Pree and Melvin Van Taten have been appointed by Mayor Ben Steffens as a council committee to meet with a committee of the Board of Education to map plans for a building program involving school expansion and a city recreation center.

School Supt. C. C. Crawford said the Board of Education will be represented by Trustees E. V. Hartman, A. E. Van Lente and Clarence Klaasen.

Consideration is being given to establishing a recreation center in connection with the school system so that such a building could be utilized to the fullest extent with a minimum of maintenance costs.

Common Council approved plans for a recreation center as a post-war building project in the summer of 1944. The Board of Education last fall outlined an extensive building program listing a new elementary school, gymnasiums for two other elementary schools, additions and repairs.

Guests of the club were John Wichers, Zeeland Rotarian, Dr. William Schrier of Hope college and Randy Bosch.

A lingering illness claimed the life of Mrs. William F. Van Anrooy, 80, at 2:50 a.m. Monday in the home of her son-in-law and daughter, Mr. and Mrs. W. N. Dykhuis of 58 East 22nd St.

Her husband died several years ago. Mrs. Van Anrooy was a member of Third Reformed church and the home department there.

Surviving are two sons, John Van Anrooy of Spring Lake and William L. Van Anrooy of Holland; nine daughters, Mrs. Earl Hock of Pasadena, Calif., Mrs. Ed Reidt of Kalamazoo, Mrs. Dick Vander Laan of Detroit, Mrs. C. B. Andrews of Grand Rapids, Mrs. T. A. Fitzpatrick of Wheaton, Ill., Mrs. C. Van Koeveering and Mrs. George Van Koeveering of Zeeland, Mrs. Lester Essenburgh and Mrs. Dykhuis of Holland.

## Hope Undisputed Leader in MIAA Basketball Race

### Local Dutchmen Hit Sizzling Pace at Mid Season Mark

With the season better than half finished, Hope college looks like a good bet to repeat as basketball champion of the Michigan Intercollegiate Athletic association.

Undeclared in five MIAA games, the Dutchmen have conquered every other team in the conference except Hillsdale and should have little trouble disposing of that foe in a home-and-home series Feb. 7 and 21. The Dales so far have dropped all five of their MIAA starts.

Albion college, which shared the 1945-46 crown with Hope, also has won five games but has lost two—both of them to Hope. The Dutchmen triumphed 49-36 at Albion Jan. 6, and then repeated in even more impressive fashion with an 83-46 decision here last Thursday.

Albion so far has tripped Kalamazoo, Hillsdale (twice), Alma and Adrian. Kalamazoo, in third place with three wins and two losses, has downed Alma, Adrian and Hillsdale while losing to Albion and Hope.

Adrian is in fourth place with two wins in five starts. Alma has one win in four conference games and Hillsdale brings up the rear with five MIAA setbacks.

Only conference game this week pits Kalamazoo against Adrian on the latter's court Saturday. Next week three MIAA tilts are on tap with Albion invading Alma on Thursday and Hope traveling to Hillsdale Friday and to Adrian on Saturday.

## Dutch Cage Stars To Get Diplomas

There are now important vacancies in pairs of empty shoes on the Holland High school basketball squad. Three of the ace basketballers on Coach Malcolm Mackay's squad will graduate in February. They are Bud Vande Wege, Leo Vander Kuy and Jack Van Dorple.

Vande Wege was a member of the state championship team last year and was chosen for the "Hall of Fame" because of his outstanding play in the tournaments. He was also a member of last year's all-conference squad and has played two years on the varsity and one on the reserve team. Vande Wege expects to play on an independent team for the rest of the season.

Vander Kuy is one of the big boys under the basket for Mackay's team and his height will be greatly missed. He was chosen two years straight on the all-conference team and along with

Vande Wege was placed on the all-state team last season. He has had three full years of varsity competition and expects to attend Western Michigan college in September. He also will finish the season playing with an independent team.

Jack Van Dorple, all around athlete at Holland High will be finishing his second and final year on the varsity squad under Coach Mackay. Van Dorple is one of the stalwart guards on the squad along with Vander Kuy. He was named to the all-conference team last year by the coaches of the conference. He is also an outstanding quarterback in football and is a catcher in baseball.

Who Mackay will put in place of these three stars remains to be seen but Bill Hinga, Fuzz Bauman and Don Van Hekken may win the positions.

Vande Wege scored 66 points in the past seven games while Van Dorple has scored 43 and Vander Kuy 57.

## Dutch Have Long Road To Recovery From War

"The Dutch still have a long way to come," says Evert Van Slot, 81 East 25th St., recently returned from The Netherlands where he visited six weeks with his mother, five sisters and a brother. Van Slot himself, born in The Netherlands, had not seen his family since he left home in 1917.

During his stay there, he visited Amsterdam, The Hague, Rotterdam and southern part of Holland and took many pictures. One of the highlights of his trip was the visit to the huge World War II cemetery at Margraeten.

Speaking about the recovery of the people there after the war, he says, "It is hard to imagine how much the people have suffered. However the Dutch are a very energetic people and have rebuilt many buildings and railroads. The destruction in southern part of Holland is worse than expected." He added that the people in the smaller cities did not suffer as much as those in the larger cities, because they were more or less self sustaining. The clothing is very poor, especially the footwear. He advised anyone who sends shoes to send them extra wide. The crops he said looked very good, and in some instances were producing more than before the war.

He added that food luxuries were still scarce and if they are available, an exorbitant price is charged for them.

His immediate family, although their home was occupied, suffered no real hardship, he mentioned.

He also took a five-day trip through France and to Paris and said that France today is much worse off than Holland or Belgium. The living conditions are much poorer, and the country is definitely not on a firm financial basis.

Asked about differences he had noticed in his native land since he left it some 29 years ago, Van Slot said, "The great difference which I have noticed is the modern railroads and modern highways which were still in their primitive stages 29 years ago." He also noted the fact that automobiles now replaced the waterways in Amsterdam, and also the fast increase of population throughout Holland.

It took Van Slot nine days by Dutch steamer from New York to Rotterdam and nine and a half days to return by an American steamer sailing from Le Havre, France.

## Holland Cagers Hand Muskegon 75-42 Setback

Three Holland High stars said goodbye 49 times Friday night when they collaborated in downing Muskegon 75-42 at the Armory. The three, Jack Van Dorple, Bud Vande Wege and Leo Vander Kuy wrote a fitting valedictory to their prep careers before a packed gallery that cheered them to the finish. They scored 20, 15 and 14 points respectively.

The Reds, who are rated high in the state, stayed in the ball game for one quarter before the locals got down to business. The Muskies led for a short time at the beginning of the game but didn't have the staying power against the hustling "Vans."

The fans figured the Dutch were in for a real battle as the Reds, behind Bill Pedler, stayed with the Dutch and Coach Malcolm Mackay didn't chew his gum quietly until the third quarter. Mackay didn't substitute at all in the first half as he gave his graduates their last real chance.

Van Dorple and Vande Wege began hitting on long shots as the ball game opened and kept their eye all through the first half. The Dutch commanded a 21-16 lead at the first quarter. Vander Kuy and Van Dorple worked beautifully under both baskets during the second quarter even though the Muskies were just as tall as the Dutchmen. As the half ended the locals held a 38-27 lead and it looked as though Muskegon had come as close to the Dutchmen as they were ever going to get. Bill Pedler, high scoring guard on Coach Harry Potter's squad, kept the Reds in the game with his accurate long shots.

Right after the second half started Van Dyke and Vander Kuy completely dominated play inside the foul circle and were getting the fast break clicking. The third quarter ended with the Dutch moving further and further ahead with a 56-32 lead. The locals scored 18 points in the third quarter to five for the Muskies.

In the final frame again the Dutchmen showed no let down but finally Mackay substituted Hinga for Beukema, for the first substitution of the game. Near the end of the game Mackay replaced the three seniors and the crowd went wild, as they came to the bench. More reserves entered the game near the end and the affair was over with the Dutch winning their seventh of the season.

It was a great exhibition of scoring power which the fans will not soon forget, and the seniors will never forget. Van Dorple and Van Dyke claimed scoring honors with 20 points each. Vande Wege counted 15 while Vander Kuy gathered 14 for the Dutch. These four boys totaled 69 points as the Hollanders' hit their highest score of the season.

For Muskegon, the work of Bill Pedler was outstanding. He scored 14 points. Vriesman counted 10 for second honors for the Big Reds.

In the preliminary game the Holland High reserves took a 35-29 decision from the little Reds, outscoring the Muskies in every quarter but the fourth. The Reds served a 17-10 halftime lead and built it up to 28-14 by the third quarter. Bob Kruijthof led the locals in the scoring column with nine points while Marvell led the Muskie team with seven counters.

### Allendale

About 40 kindergarten and first grade pupils escaped injury Monday morning when fire destroyed the quonset addition to the Allendale Christian school. While devotions were being conducted, smoke was detected and soon fire was discovered. With the aid of Miss Postma, the teacher, all pupils left the room in orderly fashion, as well as the pupils of the main building. Much damage was done by smoke to the three room structure and many repairs are required before classes can be resumed. The pupils of the burned addition will be back at school in the unused room of the Allendale Public school after a few days. Much credit is due to local help and the Coopersville fire department.

## Students Seek Data on Wells Here on Friday

Ninth grade citizenship students of Junior High school will canvass the city Friday to collect information on old wells in connection with a survey carried on by the Board of Public Works to chart old valleys and water supplies.

Last November, engineers and geologists of the U. S. Geological Survey in working with engineers of the City Water department in surveying underground waters found evidence that a great river once passed under the site of the city in pre-historic times.

According to the geologists, glacial ice later buried this valley and filled it with the shattered and pulverized remains of rocks and other materials, gradually forming the present land surface.

Where these old river valleys were filled with sand and gravel, they represent vast underground reservoirs for storing water. Where these sands and gravels are very coarse, wells can be drilled and great quantities of cold and crystal clear water can be pumped.

The survey is made in connection with developing a new water supply for Holland.

Students making the survey are of classes taught by Carl Van Lente, Austin Buchanan and Chapman McAllister.

In case of a snowstorm or inclement weather, the canvass will be postponed.

## Need of Vitamins In Diet Described By Dr. W. De Kleine

### People Eat Too Many White Flour, Sugar Foods, Medics Hear

Bacteriological diseases are slowly being brought under control but degenerative diseases such as heart disease and cancer are increasing, Dr. William De Kleine, state commissioner of health, told members of the Ottawa County Medical society here Friday night.

He mentioned that such diseases as diphtheria, typhoid and small pox are not nearly the menace to health that they used to be because of such procedures as immunization and sanitation.

Dr. De Kleine believes that faulty nutrition must play an important part in the cause of degenerative diseases.

"We are living today on 'de-vitalized' foods, he said, meaning that many people subsist largely on highly refined white flour and white sugar products in their diet. He described six fundamental food groups which should be present in every person's daily diet.

They include milk and milk products, fresh fruits including citrus fruits, vegetables, whole grain cereals, an egg a day and meats. Eat sparingly of white flours and sugars, he warned.

Dr. De Kleine related several of his own cases of essential hypertension, coronary heart disease, angina pectoris, and extensive eczemas which had responded remarkably well to large doses of vitamins in their natural form.

Dr. De Kleine emphasized the value of nutrition unit headed by Dr. Elton Osborne, to the people of this county and its doctors. He pointed out that we do not expect to find many cases of advanced nutritional deficiencies but that this study will reveal the dietary habits of the families in this area, and will demonstrate methods of determining the nutritional status of families invited to participate in this survey.

Dr. C. Dale Barrett, Jr., director of the Ottawa county health department, stated that this nutrition unit is a part of the county health department and the county public health nurses will soon begin to call on families to invite their participation in the program.

### Commissions Available In Naval Reserve Now

Commissions in the new, streamlined Naval Reserve are now available to veterans of the Navy or Coast Guard, and reserve commission thereof, announces Lt. (jg) J. H. Faber of the naval reserve traveling recruiting unit for Michigan.

The program affords former enlisted men who were never eligible for commissioned rank during the war, but who are otherwise highly qualified, the opportunity to become commissioned officers. Eligibility for commissioned rank requires applicants to be enrolled in the inactive naval reserve and to have satisfactorily completed at least two years in an accredited college, or be of the equivalent educational level.

Because of excellent response to the Naval Reserve's new civilian program, the unit will return to Hope college campus and the post office Friday between 9 a.m. and 5 p.m.

During its previous visit to the campus, the unit enrolled many veterans of the Army, Navy, Marines, and Coast Guard, as well as ex-Waves into the inactive duty program.

All veterans receive the benefits of the GI Bill of Rights, remain civilians, keep their rate, and maintain their longevity. Naval Reservists can also increase their rates or become eligible for a commission in the program. They can be called to active duty only in the event of a national emergency declared by Congress or upon their own consent. Applicants enroll for a four year inactive duty period, and enrollment can be effected regardless of time elapsed since last discharged.

No physical or mental examinations are required, and veterans with dependents are eligible. Applicants must present honorable discharge certificates (Ex-Army personnel one of the following: 615-360, 615-362, 615-363) and former Naval personnel their notice of separation (Form 553).

## Fennville

(From Wednesday's Sentinel)  
The 50th anniversary of Damascus Lodge F. and A.M. No. 415 was celebrated last Thursday evening with a large number of members and guests in attendance. A program followed the anniversary dinner.

Distinguished among the guests was the worshipful grand master who was given a hearty welcome. Robert Keag acted as toastmaster and announced the program which opened with songs by a Shrine chorus of chanters from Grand Rapids. They also offered solos "I'll Take You Home Again Kathleen" and "The Battle Hymn of the Republic." Thirty-five men composed the chanters, and on conclusion of their work they were served a dinner at Hospitality House.

Also on the program was a history of Damascus Lodge given by Lawrence Bale. In addition to the dates and details of the organization of the lodge, Mr. Bale recalled various items of interest which lent color to the years.

Among these was the time E. C. Foster acted as master and conferred the third degree upon three of his sons, Edward G., Evedard C. and Max. The boys' 90-year-old grandfather was a proud witness of the event and had a part in the rites.

The music for this half of the program was provided by Mr. and Mrs. Clinton Spencer. Mrs. Spencer played piano numbers and was accompanist for her husband's songs, "Only a Rose" and "Home on the Range," the latter song in a colorful cowboy costume.

Two of the current officers' fathers were either a past master or a charter member. Albert Kroning, Sr. is a past master and his son the present master. Treasurer Lawrence Bale's father, William M. Bale, was a charter member.

Twelve life memberships have been issued to members, five of whom are still living and three of the five were present Thursday evening. A total of 42 master's have succeeded the first one, George Wilson Forrest, who was installed Feb. 13, 1897, on the evening of the constitution of the lodge.

The lodge received its charter Jan. 27, 1897, after having been in existence only under dispensation since Nov. 9, 1895. The reason for the delay was the wait for action by the Grand Lodge in its annual session.

## College Group Presents Play for Club Women

Members of the Woman's Literary club were amused and entertained Tuesday afternoon when an excellent cast of players from Palette and Masque Hope college dramatic club, presented the clever little play, "Upward and Onward," by Marian Leonard Bishop.

Prof. Edward Avison of the speech department at the college, director of the performance, made the introduction.

With melodramatic abandon, the players threw themselves into the character parts to the delight of the audience. A simple setting consisted of the living room of the Mayberry mansion in "the good old days." Mrs. Mayberry, played by Adella Perkoft, was fast becoming an "emancipated woman" under the influence of the sour pinster, Miss Prudence Prodder, played by Ann Van Der Veer, when the latter experienced a change of heart. The delicate young daughter, Bessie, was portrayed by Carol Jean Hermance, and Sunny Donohue played the role of maid Thomas Van Dahm who eventually asserted himself.

As a fitting climax to the production, the cast appeared in a curtain call to point out the moral, that "woman's place is in the home."

Next Tuesday the club will celebrate the birthday anniversary of the club house with a meeting and tea arranged by the board of directors and the education committee. Contributions for the Kate Garrod Post scholarship fund will be received. The Women's Glee club of Hope college, under the direction of Mrs. W. Curtis Snow, will present an attractive program.

Mrs. Randall Bosch presided.

## COMMON COUNCIL

Holland, Mich., Jan. 22, 1947  
The Common Council met in regular session and was called to order by the Mayor.

Present: Mayor Steffens, Aldermen Harrington, Bontekoe, Van Tatenhove, Slagh, Mooi, Gallen, Slighter, Prins, Meengs, Dalman, City Engineer Zuidema City Attorney Ten Cate, City Inspector Wiersma, and the Clerk.

Devotions led by City Inspector Wiersma.

Minutes read and approved. Petitions and Accounts.

Clerk presented communication from the Liquor Control Commission relative to a request by the Veterans of Foreign Wars for transfer of Club license from 179½ River Avenue to their new building at 24-28 West 7th St. A dance permit is also requested.

Approved.  
Clerk presented communication from Marine Corps League, Welfare Foundation, for permission to park a trailer and exhibit heretofore rarely seen war material. Such parking to be along the curb at a location agreeable to the Police Department. Admission to such exhibit is free but donations are acceptable. The proceeds are to be used for their national welfare program.

Approved.  
Clerk presented two communications, one from the Holland Junior C. of C. and the other from the Public Affairs Committee of the Womens Literary Club, both calling attention to our present garbage collection system. Both letters state that the rat population in the City is increasing because of our present inadequate collection system. The letters recommend some action be started so as to provide for the construction of an incinerator plant and City collection of garbage and refuse.

Referred to the Civic Improvement Committee and City Inspector and City Engineer.

With reference to a garbage collection system, City Inspector Wiersma reported that the Board of Health had recommended a city-wide collection system a long time ago but before this could be acted upon, the War came along and further action has been deferred ever since that time.

Mr. Joe Geerds, Chairman of the Board of Public Works, then presented for the information of the Council and the visitors present a history of what transpired during past years. It developed from the report by Mr. Geerds that the Council has considered a city-wide collection system for several years. It was shown that the matter was first presented to Council back in the year 1929 and at that time a resolution was presented from the Board of Health recommending the adoption of an ordinance to put it into effect. Such an ordinance, however, was not adopted due to the fact that the people objected strenuously to it at that time and further action was dropped for the time being.

The Board of Health again presented the matter to the Common Council in May, 1940 and as

a result of this communication, Council appointed a committee to study the problem. As a result of this communication, Council adopted a report of the Committee recommending a system of city-wide garbage and refuse collection together with the construction of an incinerator plant to burn garbage and refuse. The matter of putting this into effect was then referred to the Board of Public Works but before anything definite was done, the War came along and no further developments have been made since that time.

Mrs. Vernon D. Ten Cate, who was present, suggested that it might be well to have the City Inspector place poison in certain localities where the rats are most prevalent, and the City Inspector was authorized to proceed with such a program.

Reports of Standing Committees.  
Claims and Accounts Committee reported claims in the amount of \$8902.40, and recommended payment thereof.

Allowed.  
Committee on Ways and Means presented a report for financing the immediate construction of an addition to the Hospital. This report follows in full:

"Pursuant to the suggestion made by the Council at its recent meeting as a Committee of the Whole, your Ways and Means Committee presents the following report. In view of the immediate need for relief in order to alleviate the present very critical situation that exists at our Holland Hospital, we present the following recommendation:—

1. That the Council appropriate the sum of \$120,000.00 to finance the construction of a new boiler room together with an addition to provide space for 25 more beds.

2. That such sum be provided for in the next Annual Appropriation Bill of the City and the money be obtained from the following sources:—

a. \$60,000.00 from the City's General Fund Reserve, and

b. \$60,000.00 by a loan from Reserve Funds held by the Board of Public Works.

We wish to commend the Hospital Board for the very thorough study that has been given to the needs of our Hospital both present and future. We understand fully that this present building project is only the first step in the overall picture in their expansion program and trust that future needs will be taken care of when necessity and conditions warrant the construction of additional space."

Report was unanimously adopted.

Ways and Means Committee also reported that the Council as a Committee of the Whole had met with representatives from the Board of Education to discuss the advisability of constructing a Recreation building somewhat in line with that recently drawn up under the supervision of the Common Council. Mr. Mooi suggested that the Council be authorized to appoint a committee of 3 from the Council to meet with representatives from the Board of Education to give this matter further study.

Report was adopted.

(Mayor later appointed the following committee: Aldermen Dalman, De Pree and Van Tatenhove.)

Ways and Means Committee also reported for information of the Council that their Committee has been giving consideration to a request from the Volunteer Firemen for an increase in wages. Committee stated that they hoped to have this matter settled before next Council meeting.

Public Buildings and Property Committee reported for information that they hoped to have the council chambers completed so far as placing the acoustone material on the ceiling is concerned before

the next council meeting.

Reports of Special Committees.  
Mr. Harold Beernink who was present requested that the Council rezoned the block in which he lives between 16th and 17th St. on River Avenue from Residential to Commercial district. Mr. Beernink made this request so he could proceed without further delay in the construction of a photographic studio in the rear of his lot, such building to face River Avenue.

In this connection, the City Attorney called attention to the fact that the Council could not act upon Mr. Beernink's request at this time since it is necessary to advertise a hearing before any district can be rezoned. City Attorney called attention to the fact that the petition which is now before the Council calls for rezoning the entire district on River Avenue from 12th to 17th Streets and that before they could just go ahead and rezone one block, it would be necessary to set a date for a hearing on such a proposition.

Communications from Boards and City Officers

The claims approved by the following Boards were ordered certified to the Council for payment:

Hospital Board \$12,326.47  
Library Board 246.88  
Park and Cemetery Board 2,011.22  
Board Public Works 32,617.64

Allowed.  
Board Public Works reported the collection of \$49,345.30; City Treasurer \$19,671.16 for miscellaneous items, and \$12,976.50—fall tax collections.

Accepted and Treasurer ordered charged with the amounts.

Clerk presented communication from the Board Public Works reporting that the Superintendent was authorized to purchase one K. V. A. 2400 volt, single-phase, 60-cycle, 250 ampere regulator, from the General Electric Company at a net cost of \$2272.22, subject to approval of the Council.

Approved.  
Clerk presented communication from the City Attorney Mr. Ten Cate, calling attention to the possibility of a misunderstanding in the interpretation of "sick leave" as provided for in our Working Rules and Regulations, and Compensation Insurance, as provided for by State Law. It is the suggestion of the City Attorney that both the Common Council and the Board Public Works give the same interpretation as follows:—

"That sick leave as used in the Rules and Regulations applies to sickness other than injury, disease or disability covered by the Workmen's Compensation Act."

Adopted.  
Clerk called the Council's attention to the fact that at the previous Council meeting a request to purchase some city-owned vacant property on River Avenue and 4th Street by the Service Machine and Supply Company was presented and asked the Council's wishes in the matter, i.e. if they desire to go ahead and advertise the sale of this property as requested.

Council went on record in favor of advertising the sale, and Clerk was instructed to place the required notice in the local paper.

Motions and Resolutions  
City Attorney reported that sometime ago the Board of Public Works had sold a piece of swamp property to Richard Van Dyke and wife on contract. Since then, Mr. Van Dyke has passed away and in order to properly clear title, it was necessary to draw up a new deed, and recommended that the Mayor and Clerk be authorized to sign such a deed on behalf of the City. Recommendation of City Attorney adopted and Mayor and Clerk instructed to sign the deed.

Adjourned.  
Oscar Peterson—City Clerk
