Working Hard To Open Our Sugar Mill

MANY MEETINGS ARE TO BE
HELD IN RURAL DISTRICTS
DURING FEBRUARY AND
MARCH.

William C. Vandenberg, who was some time ago appointed by the common council to see what progress could be made in opening the Holland Sugar factory, which has laid idle for a number of years, is doing some very constructive work along these lines.

In other sugar beet districts old mills have been reopened and the sugar beet industry has been a boom to the farmer and laborer as well. The money paid out through this source in Michigan alone the past year has amounted to millions and Holland, it would seem, with the proper organization and sufficient acreage, could reopen the once busy mill where mountains of sugar beets were stacked high waiting for slicing to be converted into sugar and the by-products such manufacturing brings.

To ascertain the interest Ottawa county farmers have in the raising of sugar beets this year the following meetings have been scheduled:

Holland, 9:30 a. m., February 20, Town hall.

Vriesland, 9:30 a. m., February 23, Town hall.

Forest Grove, 2 p. m., February 23, Smallgan hall.

Georgetown, 9:30 a. m., February 28, Town hall.

Allendale, 2 p. m., February 28, Town hall.

Conklin, 2:30 p. m., March 1, Grange hall.

Coopersville, 7:30 p. m., March 1, High school.

The hours are eastern standard time.

If the Holland sugar mill is to be operated this year it is necessary that sufficient acreage be pledged.

In communities where sugar beets have been raised in 1932 growers have found this crop to be the most profitable of all farm products and all interested in the raising of sugar beets this year are urged to attend one of these meetings. The form of contract to be used this year will be submitted.

The meetings will be held promptly at the hours set.

Headlines of Yesteryears From the News Files

DATED JAN. 31, 1918, A STORY
OF THE LATE FRANK BRIEVE
THE "COOKIE KING"

With apologies to Quinn Ryan of the Chicago Tribune who invented and broadcast "Headlines of Other Days" nightly over WGN, the Holland City News also gives a headline—from the files of the Holland City News during war times relating to our much beloved friend, the late Frank Brieve, dean of the common council at the time.

JAN. 31, 1918

Ald. Frank Brieve, the "cookie king" of Holland, is one of the best Dutch patriots in the city, but of course the police of Grand Rapids did not know this, nor did they know that he was one of the city fathers of the "Honorable, the Common Council of the City of Holland."

All these things availed him very little when last week he had missed a street car on the outskirts of the Furniture City, where he had been doing business with a merchant showing his line of nice crisp cakes. When he had finished up with his order book he sallied forth to catch the first car downtown. But to his surprise, the car he intended to take went by him and another one would not be available for an hour.

He entered a barber shop nearby and made acquaintance with the barber's razor. The tonsorial artist looked rather suspiciously at the alderman from the Second, and gingerly combed back the locks of the "Cookie King" and called "next." Frank paid his bill, took up his grip and proceeded to patrol forth and back for a half block in order to be ready when a car came.

In the meantime Mr. Barber, seeing the alderman doing a best by the shop several times, became more suspicious still. In fact it had taken such a hold on him that he telephoned police headquarters stating that a suspicious looking character was prowling in the neighborhood, who might be a German spy. Post haste, Abbe Carroll, chief of police, sent a special man to the barber shop and the suspicious looking Frank was pointed out.

The man with the "brass buttons" taps the alderman on the shoulder and said, "What are you doing here?" Frank answered, "None of your business." Says the cop, "I'll make it my business." Says Frank, "If you must know, I'm waiting for a car." Says the minion of the law, "Cut out the comedy, you have been prowling around here for two hours and we want to know what your intentions are."

Here the "City Father" became very excited. "Who say that?" The policeman pointed to the barber, who was gleefully watching the proceeding from the barber shop window.

The second ward alderman grabbed the cop, pulled him into the shop, faced his accuser and then pulled out his alderman button showing that he belonged to the illustrious official circle that governs the city of Holland. The officer and barber were crest-fallen indeed and endeavored to apologize but the "Cookie King" has lost his usual sweet disposition.

IT'S NO TROUBLE TO FEED THE BIRDS

Winter feeding of birds is a hobby with Dr. Harry A. Barbour, of Detroit. "Persons interested in this work will find that a mixture of sunflower seeds, suet, unshelled peanuts, cracked walnuts and bread crumbs will attract most of our winter birds," he says. "If you can induce English sparrows to start feeding you will soon have the other rarer species coming to your feeding station. Through this unsolicited hospitality I have been able to band 525 birds so far this year." Holland and the countryside also do its share of bird feeding and no doubt many are already doing so. It is impossible for birds to find food in this heavy pack of snow.

Fish Is Fish But The Names That's Different

HOW CAN A BLACK BASS BE
A WHITE BASS, TOO?

There isn't a species of fish in Michigan's waters that is not known by at least a half dozen other names in other states, according to the Fish Division of the department of conservation, and frequently this diversity of names causes confusion.

As an example the fish division pointed out, when a Mississippi angler says that he caught a trout, the chances are it was the same fish that is known in Michigan as a small-mouth black bass, which is known in some localities as a black perch, or in other places as a hog fish. The large-mouth black bass has even more designations. He is known variously as a green bass, white bass, a welshman, bride perch, cow bass, southern chub or he may be known as a yellow perch.

The "wall-eye" pike is another species gifted with a long array of names. On the Great Lakes he may be known as a pickerel, yellow pike or pike perch. In other localities he may be a river trout, jack pike, white-eye, jack salmon, blow fish or a blue pike.

A black bass is a white bass, a sunfish is a moonfish and a pike is a trout.

The trout is fortunate in that almost universally he is known by that one name. However, the brook trout is sometimes a speckled or a mountain trout. The rainbow trout is frequently a coast range trout and a brown trout may be a con Behr trout, German trout or a European brook-trout, depending upon the particular locality.

The lake species are more frequently given a wide range of names in various waters. The sheepshead is known to some as the thunderpumper, croaker, bubber or white perch. The bullhead may be a miller's thumb, muffle-jaw, springfish or blob. The burbot is a lake lawyer, ling, alecky trout or a long-tailed cat.

Surviving are her husband; one son, Henry; her mother, Mrs. S. Kingma of The Netherlands; a sister, Mrs. Albert Vander Wall of Holland, and three brothers in The Netherlands.

Funeral services will be held Saturday afternoon at 1:30 o'clock at the home, 395 West Twenty-second street, and at 2 o'clock at Fourth Reformed church. Rev. H. Van Dyke will officiate. Burial will take place in Holland township cemetery.

Buys Zeeland Post Office Site For \$19,000

MOST DESIRABLE SPOT IN
CITY IS SELECTED FOR
NEW BUILDING

According to the Zeeland Record, the United States treasury department accepted the post office site offered by Zeeland city at the price of \$19,000, and a new federal post office building is in prospect for this city.

The property involved is located on the northwest corner of the East Main and Church street intersection. It includes the properties now owned by Zeeland city, D. F. Boonstra and Mrs. J. De Pree. The city property includes the present city hall and fire department building and full lot; the Boonstra property is the old factory building now occupied by the Hamburg tire shop on Main street and the service station on Church street, and the De Pree property on the corner is now occupied by the Economy Food shop, owned by J. H. Teusink. Included in the parcel sold to the government is a small parcel belonging to the Isaac Van Dyke Co., lying at the north end of the city hall lot.

When Mr. Walter, inspector for the postal department, was at Zeeland last fall to investigate sites for the proposed new federal building, there were fourteen separate locations offered, varying in price from \$9,000 to \$33,000, all of them situated within the territory between State and Centennial streets on the west and east, and the Pere Marquette railway and Cherry street on the north and south.

Nearly all of these were immediately ruled out by Mr. Walter because they did not meet the required specifications of facing a south exposure on a paved street. It seemed that either the exposure or the paving could be overlooked, but the combination could not. It finally simmered down to Main street locations by the claim that the improvement was to at least also add to the city's beauty.

It is not definitely known when the wrecking of the old buildings will begin, but it is expected the deal will be closed and the money paid over within a few days, when it is probable the wrecking will begin. The application stipulates that the ground must be cleared within sixty days after the sale, which would indicate that work on the new structure may be expected to start by May 1.

Knecht, McCarty and Theband, architects of Grand Rapids, have been awarded the work of preparing the plans for the new post office.

No Necessity For A Bank Holiday Here

ORDER FROM GOVERNOR
COMSTOCK CAME AS BIG
SURPRISE

Holland Banks Were Getting Into
Fine Balance When State
Order Came.

Because of a bank defection in a Detroit group of banks, which Governor Comstock, together with the banking heads, felt would temporarily injure the banking structure of the state, caused Governor William A. Comstock to call a bank holiday of eight days, or rather nine, with the inclusion of Washington's birthday, which is a legal holiday.

It was a drastic order and many felt that it was unnecessary for a larger part of the state to be included in the order, although a general order, including all banks, had to be given officially in order to cover that portion of the state where the bank group in question did business. Had enough time been given the men of sober judgment, who were handling this financial situation in Detroit, the bank holiday would never have been necessary.

Grand Rapids bankers have all proclaimed through the Grand Rapids newspapers that the holiday came as a complete surprise and it surely did to the Holland bankers, who received wires early Monday morning containing the order of Governor Comstock. Both Cashier Cornelius Vander Meulen of the First State bank and President Otto P. Kramer of the Holland City State bank stated that the holiday for this city was entirely unnecessary and it appeared that the action was largely for the city of Detroit and undoubtedly the borders of that city were the features entering in a bank holiday for the entire state.

Both Mr. Vander Meulen and Mr. Kramer stated the restrictions placed on certain phases of the banking business in Holland had brought a more confidential balance and the situation here was well under control. Citizens, including business men and depositors, showed a fine spirit of co-operation and even now that spirit is continuing and they are hopelessly and willingly adjusting themselves to inconveniences that a bankless town brings.

The lesson has been brought home most forcibly here as elsewhere what a city without a bank means, and there is no doubt that all will co-operate during this short bank vacation, which after it is all over with will have put the entire banking structure in Michigan, on a much sounder basis.

Undoubtedly in the end the holiday in Michigan will bring added safeguards in bank legislation at Lansing and Washington. In the meantime loyalty and confidence should be the watchwords.

One Of Holland's Popular Young Ladies Is Wed

DAUGHTER OF FORMER
CITY ATTORNEY MARRIED
TO YOUNG DETROIT MAN

A social event of unusual importance was the marriage of Miss Virginia McBride, daughter of Mr. and Mrs. Charles H. McBride, of this city, and Mr. Donald Jackson Crawford, son of Mr. and Mrs. A. J. Crawford of Detroit.

The ceremony took place at 8 o'clock Tuesday evening at the beautiful home of the bride's parents on College avenue.

The marriage was performed by Dr. Thomas W. Davidson, pastor of Hope church, the beautiful single ring service featuring in the rites.

During the ceremony and at the reception offerings on the violin and piano made the occasion still more impressive.

The bride was escorted to the altar by her father into the beautifully decorated living room.

At least one hundred and fifty guests witnessed the ceremony which took place before a green and white background, ornamented with roses and calla lilies. White and black predominated in the color scheme.

The bride looked charming in a gown of bridal satin-made Empire, with a dainty cap of tulle, which caught up the bridal veil of the same material. The bride wore white satin sandals and carried a muff of white garçotas. Mrs. Donald Daugherty, sister of the bride, was matron of honor and was gowned in black chastity lace over black taffeta finished with wing sleeves and carried a corsage of white roses.

Mrs. McBride, mother of the bride, wore a gown of black velvet and carried lavender sweet peas and Johanna Hill roses.

Mrs. Crawford, the bridegroom's mother, was gowned in black lace. Her flowers were lilies of the valley and violets fashioned into a shoulder corsage.

Mr. and Mrs. Chester Boltwood acted as master and mistress of ceremonies. Mrs. Boltwood is a sister of the bride and wore a gown of light blue chiffon and lace.

Mr. John Shantz served the groom as best man.

During the reception a buffet supper was served in the large dining room, beautifully adorned in green, white and crystal, the table being decorated with white roses and candelabra.

Mrs. Martha Kollen of this city and Mrs. Lucius Boltwood of Grand Rapids, presided at the coffee urns.

The bride, who was a popular young lady at Holland High school and a graduate, also graduated from Olivet college and took a finishing course at Randolph-Macon at Lynchburg, Va., a southern girls' school.

The bridegroom is a graduate of Culver Military academy and Olivet college, and also took a course in business training at Michigan. He is now connected with the Michigan Life Insurance offices at Detroit, and after an automobile trip, which they are now taking, the happy couple will settle in their new home at Detroit.

The out-of-town guests were Mr. and Mrs. A. J. Crawford, Mrs. L. Hall, Mrs. T. McKay and Mr. John Schantz of Detroit, and Mrs. Thomas Horgan, Jr., of Boston.

Mrs. Horgan is a sister of the bride and a writer of note from the east.

The guests of Grand Rapids were Mr. and Mrs. Lucius Boltwood, Charles Boltwood, Mrs. Huntley Russell, Mrs. C. C. Russell, Mr. and Mrs. Francis T. Russell, Mr. and Mrs. Ingie B. TWO LOCAL BANKS INSTALL CONVENIENT CHANGE HEADQUARTERS

The two Holland banks have made it possible for merchants to make change. The old Peoples Bank building, through the courtesy of former Mayor Earnest Brooks, has been opened for that purpose.

Neal Van Dyke of the Holland City State Bank and George Nevenzel of the First State Bank are in charge, alternating their services during the period of the bank holiday.

This co-operation was made possible after a hurried meeting of the Merchants' association on the first day of the holiday and it has proved a boon to all those doing business necessitating small denominations of money in the transaction of their business.

The merchants fully appreciate the co-operation of the banking fraternity at this time.

Allegan Shows Citizens Want Electric Plant

COUNCIL CIRCULATING LISTS
TO PROSPECTIVE USERS
OF CITY SERVICE

Canvass of every Allegan taxpayer to determine the extent to which light and power will be purchased from the city's proposed plant if completed, in order to meet the major objection of the R. F. C. to granting the city a loan to carry on the dam construction, is being carried on this week and will be completed shortly, according to Mayor Joe Mosier.

The major objection of the R. F. C. to granting the city its requested loan of \$335,000 to complete construction, Mayor Mosier pointed out, was that it felt that Allegan residents were not wholeheartedly behind the dam, and would not purchase at least 50 per cent of the power when the dam was completed. This would mean financial failure.

The canvass is being carried on by aldermen in the separate wards, and they are utilizing numerous assistants in order to reach every taxpayer quickly and forcibly.

"Allegan faces a crisis right now as far as the project is concerned," Mayor Mosier states. "Now is the time when our future will be made or broken. We have gone this far with the new dam, there is no turning back. We must go on, and we will!"

Special City Attorney Clare E. Hoffman visited Washington last week in the interests of securing the loan. Monday night city council met with him for an hour behind locked doors. The announcement by Mayor Mosier of the canvass for at least 90 per cent support by the taxpayers was made Tuesday morning.

"We'll show them by this canvass, which I expect will obtain the signatures of at least 90 to 95 per cent of the taxpayers to purchase power from the city, that we can make a go of it,"—Allegan News.

PROCLAMATION OF
GOVERNOR COMSTOCK

Governor Comstock has declared an eight-day banking holiday in Michigan as a precautionary measure, thus protecting the state banking structure which he felt necessary because of a sudden defection in a bank group at Detroit, where it will take a few days to adjust conditions.

The action by Governor Comstock was decided upon after having received the advice of the most expert financial minds of Michigan and the nation, and by so doing they felt positive to thus avoid not only serious trouble in Detroit but the holiday would counteract any reflex that might chance to occur beyond its borders.

In this city and in western Michigan bankers declare the bank holiday was not looked for nor was it needed. The situation undoubtedly is unpleasant temporarily but as a whole everyone is taking the new condition philosophically and business is adjusting itself to the sudden change in method in transacting affairs here as elsewhere.

Legislators and financiers from the state and nation are working out a program to solve this problem most effectively and permanently if allowed to go on unhampered in their work. They feel that after the holiday has expired confidence will be restored with the proper measures being generally adopted as safeguards.

President Hoover said in his recent message that the economic situation called for as much patriotism as during a period of war, and he asked that such a spirit be manifest on every hand at this time.

The president stated further that many there were who did not understand or fully realize the situation, but now knowing it should awaken their patriotism to the utmost.

In an editorial comment the Detroit Free Press quoted in a paragraph as follows:
"The people of Michigan may find reason for confidence in the knowledge that the banking system of the state is, as a whole, one of the strongest the nation possesses."

TAXPAYERS LEAGUE HOLD
MEETING AT CITY HALL

Holland Taxpayers' league held another session Tuesday with A. I. Hazard presiding. New factories for Holland were discussed and one in prospect caused considerable debate and the matter will be taken up with the Chamber of Commerce.

Peter Zalsman brought on a discussion relating to the high cost of school system and Henry Geerlings of the board of education discussed the outlook for the coming year. Alderman Al Kleis discussed the investigation being made relative to lowering telephone and gas rates. It appears that an investigation made by Alderman Fritz Jonkman indicated that Holland had the second lowest gas rate in the state.

Lower telephone rates in Holland and Park townships were discussed by Attorney Elbert Parsons, who said that work along those lines were also being perfected.

Not So Much Interest

I have observed in reading that it is frequently said of the hero that he "knows books." This being admitted, it is at once concluded he is a man of education and character, and worthy of all confidence. The most interesting people I know do not talk much about books, or mention them; I have never been in a bookish atmosphere, except when occasionally in company with publishers or writers.—E. W. Howe, Monthly.

Truth Always Supreme

If a crooked stick is before us, you need not explain how crooked it is. Lay a straight one down by the side of it and the work will be done. Preach the truth and error will stand abashed in its presence.—Spurgeon.

To Conjure With

The expression, "a name to conjure with," harks back to the time when conjurers claimed to perform their tricks by uttering some "name of power," such as Solomon.

WOMAN RUNNING FOR
ALDERMAN IN GRAND
HAVEN; FIRST IN HISTORY

Miss Williamena Young native-born citizen of Grand Haven, will continue her candidacy for alderman by allowing her name to be put on the ballots for the primary election to be held on March 6, she announced this morning. Miss Young had held off making a decision from the time her name was first suggested and her petition circulated by friends.

This is the first time a woman has ever run for alderwoman in that city.

Washington Shown as
Master of Light Humor

One of General Washington's most graceful bits of humor crops out in a letter he wrote in 1770, inviting several ladies to dine at his table. To prepare them for the Spartan fare they might have to face, he wrote:

"Since our arrival at this happy spot, we have had a ham (sometimes a shoulder) of Bacon, to grace the head of the Table; a piece of roast Beef adorned the foot; a dish of beans, or greens, (almost imperceptible) decorates the center. When the cook has a mind to cut a figure, (which I presume will be the case tomorrow), we have two beefsteaks, or dishes of crabs, in addition, one on each side of the center dish, dividing the space & reducing the distance between dish & dish to about 6 feet, which without them would be near 12 feet apart. Of late he has had the surprising sagacity to discover, that apples will make pyes; and its a question, if, in the violence of his efforts, we do not get one of apples, instead of having both of Beefsteaks. If the ladies can put up with such entertainment, and will submit to partake of it in plates, once Tin but now Iron—(not become so by the labor of scouring), I shall be happy to see them."

When Truth Isn't Spoken

Lying is a pleasure, and speaking the truth a painful necessity. How true that is, especially when applied to woman! Does woman lie to please herself or through necessity? Certainly in society lying is as necessary as breathing. Truth does not come out of wells but from the mouths of guests out of earshot of their hostess. They dilute on the scantiness of the refreshments and the boring afternoon they have spent. Every truth is good to express except those which one hides from one's hostess.—Maurice Dekobra in the London Saturday Review.

Early Motion Pictures

The modern motion picture dates from about the year 1895, when Edison produced his kinetoscope, the first machine of the kind using film. Edward Muybridge, often called the "father of moving pictures," had preceded him by about 20 years, but was handicapped by the fact that he had to use glass plates. Other pioneers before Edison were Sellers, Lincoln, Marey, etc. In 1894 C. Francis Jenkins was the first to produce moving pictures by modern methods. The first public showing of moving pictures was made in June, 1894.

Old Mahogany

A freight steamship recently reached New York from the Philippines with 500,000 feet of mahogany for the manufacture of motor boats. The timber was cut from trees estimated to have been from 800 to 1,000 years old.

New records for drawing books have been set at the city library, due largely to the unemployed, who appear to devote much time to reading. According to statistics tabulated by Miss Dora Schermer, librarian, 1,534 more volumes were issued in the last two months than a year ago. Works of fiction predominated.

Mrs. Marie Kuhlman of Eastmanville was denied the pleasure of celebrating her one hundred and first birthday anniversary at the home of her grandson, William Kuhlman, in Holland Saturday because of the severity of the weather. George Saxon, age 45, of Allendale, S. C., should be an authority on hiccoughing—he's been doing it seven years. For the first several years Saxon waked himself many times at night with his hiccoughing but now he has trained himself to sleep. He holds his nose when he eats and drinks to avoid choking. Because of his weakened physical condition, he has not worked in two years. A 13-year-old son manages the Saxon farm. Saxon is married and has another son who is 3. Medical treatment to date has brought no relief and a physician here says a nerve in Saxon's diaphragm will have to be cut to give relief. Meanwhile, Saxon keeps on hiccoughing on an average of once a minute.

Edison's Wonder Work

When Edison entered the jungle of earth's elemental forces, the carbon arc-light of Sir Humphrey Davy and Faraday was sending its first uncertain blue flashes across the world's night. It sputtered like a short circuit and sometimes behaved as temperamental as lightning. The night of the world, except for this crude device, was lit by tallow, oil and gas. All of earth's illuminants, compared with sunlight, were no more than a burning match.—Exchange.

Spelling of "Hare-Brained"

The original and correct form of the word is "hare-brained." It means flighty, skittish or reckless and refers to the characteristics of a hare. "Mad as a March hare" had a somewhat similar origin. A wild, heedless, foolish, volatile or giddy person is said to be hare-brained because he has or shows no more brains or sense than a hare or rabbit. The word is sometimes incorrectly written "hair-brained," even by reputable writers, and that spelling, which began to occur before the year 1900, has led many to seek a different origin of the term.

Michigan Needs a New Gate

Nearly half of the States in this country, and six Canadian Provinces have adopted Safety Responsibility Laws which provide public protection against the reckless driver. In Ontario, where such a law is in effect, accident rates have actually been reduced by restricting the privilege of driving to those who have either established a record of safe conduct, or ability to stand responsible for the damage they illegally cause. Such a measure has been drafted by the American Automobile Association after a nation-wide study. It will soon be placed before the Michigan Legislature for consideration.

HAMILTON

The Hamilton basketball team motored to Allegan last week on Wednesday evening where the local junior high team met defeat at the hands of the Allegan freshmen by an 8 to 4 score, while the first team defeated Allegan by a score of 16 to 13. Both teams played a strong defensive game in which the locals had the edge. The boys are evidently over their slump. Their play was fast and smart, with a deadly eye for the basket. Allegan, however, succeeded most of the time in covering up the locals when within the danger zone, but found it difficult to break up the short and quick passes of the locals. Ivan Roggen was high scorer with 8 points, while Marvin Kaper followed with 4. Howard Kronmeyer of Hope college has joined the team and will help considerably to strengthen the team with his height.

Mr. and Mrs. Raymond Dangremond and son, Roger Lee of Grand Rapids, visited at the home of the former's parents, Mr. and Mrs. E. A. Dangremond Sunday.

Rev. Henry Van Dyke of the Fourth Reformed church of Holland, and Rev. Paul E. Hinkamp will exchange pulpits next Sunday evening.

Julia Alderink, Iola Butler, Juliana Ter Avest and Kenneth Dolan were dinner guests at the home of Mr. and Mrs. A. G. Lohman last Saturday evening.

The snow storm last week will long be remembered by local folks. It succeeded in stirring up a great deal of trouble. Schools were closed, business was at a standstill and the various meetings in churches and community were given up or postponed. While a great many folk found themselves at the wrong place when information was sent out that the road was closed. Among the Hamilton folks who were caught by the storm were J. Eding, Harvey Zeerip, Dr. M. H. Hamelink, Bert Vos, Herman Nyhoff, Andrew Lubbers, Merton Dangremond and Jerry Hagelskamp. These men breeze dinto town minus their cars the next day on the Hamilton express.

William Ten Brink received word Sunday evening that his sister, Mrs. John Veer of Holland, had passed away.

Mr. and Mrs. Ben Weller of Holland were Sunday guests at the home of Mr. and Mrs. Harold Dangremond.

The home of Mr. and Mrs. Gilbert Bussies was burned to the ground last week, Friday afternoon. The blaze started in the roof of the building. The family was unaware of the fire until some folks, who saw the flames, stopped to inform the family. The Hamilton fire department was enabled to save the other buildings. With the exception of a few pieces of furniture all the contents of the home were lost.

Andrew Lubbers of East Saugatuck is laid up with an infected knee and is unable to be about without the aid of crutches.

A large number of visitors viewed the new Ford V-8, 112-inch wheelbase motor cars when they were put on display Saturday at the showrooms of Eding garage. Throughout the day the crowd showed unusual interest in the new bodies and their appointments in fourteen body types. No doubt the crowd will be back when Jake is ready to give them a ride. No wonder it is by far the finest Ford ever put on the market. With its longer wheelbase, more powerful engine and flowing streamlines and many other improvements it is a most attractive car.

"We Serve Michigan"

The Problem of the Railroads

THE difficulty of solving the railroad problem has been greatly increased by the development of competing means of transportation by highway, waterway and airway, which are aided by subsidies by our national and state governments, and by exemption from such regulation as is applied to the railroads. The importance of the railroads to the economic welfare of the country is such that constructive efforts to solve the problem must be made at once, confronted as we are by evidence of the effects produced upon the entire industry and commerce of the country by the decline in railroad earnings.

THE SERVICE OF THE RAILWAYS IS INDISPENSABLE FOR HANDLING THE GREAT BULK OF OUR COMMERCE.

HERE are the facts as to the decline in railway earnings during this depression. The gross earnings in 1929 were \$6,360,000,000 while in 1932 they will approximate only \$3,200,000,000. Railroad operating expenses are 45 per cent less than they were in 1929, a decline of \$2,052,000,000. This was effected by the reduction in the number of employees by about 620,000 and in the total wages paid them about \$1,325,000,000. Purchases of fuel, materials and equipment have been cut about \$1,430,000,000. The total reduction in wages paid, and purchases, exceeds \$2,750,000,000.

THE recovery of the railways is essential to the recovery of national prosperity and they cannot recover under government policies that promote every kind of competition with them and at the same time impose every kind of restriction upon the steam lines to prevent them from meeting this competition.

EXPERIENCE AND COMMON SENSE DICTATE THAT EQUALIZATION OF TAXATION AND EQUITABLE REGULATION ARE NEEDED IN ALL BRANCHES OF TRANSPORTATION.

IMMEDIATE, vigorous action by national, state and local executives and legislators is required. They alone have the opportunity and the power to enact and enforce the remedial legislation on taxation and regulation so necessary in this extreme exigency.

THROUGH forthright action the tide can be turned, and by bringing back the railroads' purchasing power, and by their larger employment of labor, all industry will be quickened simultaneously. Every man, woman and child in the country would be benefited by this correction of basic causes.

MICHIGAN RAILROADS' ASSOCIATION

friends in Holland for several days last week.

A steady stream of visitors viewed the new Ford V-8 cylinder 112-inch wheelbase motor cars when they were put on display Saturday at the showrooms of Jacob Eding, Ford dealer, at Hamilton. Throughout the day the crowd about the car showed unusual interest in the new bodies and their appointments. The new Fords are the most powerful ever built. Fourteen body types are available, including both standard and deluxe types of the roadster, phaeton, coupe, tudor and fordor sedan. The cabriolet and victoria are exclusive deluxe types. Bodies are of all-steel construction and, therefore, sturdy, strong and safe. Many sections are joined by electric welding.

FATHER, SON ARE FINED AS RESULT OF ROW

A father and son battle in Robinson township resulted in a sentence for both from Paul Behm, justice of the peace, before whom the two were arraigned today. John Maciejewski complained that his son Adam was not doing his share of the farm work in the manner in which he wanted it done, according to the sheriff's office, and Adam took a piece of pipe and hit the father over the head and body. Adam was given a fine of \$25 and costs of \$7.00 or 30 days in the county jail for assault and battery. The young man was confined there today but the officers stated efforts were being made to release him. The father was given a 15-day suspended sentence for being disorderly.

DEATH CLAIMS AGED RESIDENT OF ZUTPHEN

An aged mother, Mrs. William Ensing, passed away at her home here on Thursday following a stroke of paralysis. She attained the age of 81 years and 5 months. She was the daughter of the late Mr. and Mrs. Harm Blooming. Her mother passed away when she was only a child.

About sixty-one years ago she came to America from Drenthe, The Netherlands, with her husband, father and three sisters of which only one is still living and settled on a farm and lived in this vicinity for the remaining years, losing her husband thirty-one years ago, and thus the family responsibilities depended on her as she was left a widow with nine children and her aged father, who died nine years later at a ripe old age of 91 years.

She leaves to mourn her loss eight children, Mr. Harm Ensing of Rusk, Mrs. William Albrecht of Hudsonville, Mr. Bert Ensing of Jamestown, Mrs. George Brinks of Grand Rapids, Mr. John Ensing of Forest Grove, Mrs. Leonard Van Es and Mr. George Ensing of Zutphen and Mr. William Ensing at home. Her youngest daughter, Mrs. Orrie Tanis, died thirteen years ago, and one sister, Mrs. John Engelsma of Oakland and thirty-two grandchildren together with thirty-three great-grandchildren and a host of other relatives and friends survive.

Ants Never Found at Loss in Finding Water

In a thirsty land where, as sometimes happens in South Africa, a three-year drought dries up every blade of grass, the white ants always have water. The reason has been found by M. Marais, a South African naturalist. The ants are water-finders and well-sinkers.

On a Transvaal farm while a man's well was being sunk the borers came upon a tiny two-inch shaft running into the earth. The ants had been there before them! They had sunk an ant well 65 feet deep to where water was to be found.

Up and down this shaft, night and day, water-carrying ants went, each bearing its drop of water. It took each half an hour to get down to the reservoir, draw its water, and bring it up to the nest. Then down again it went. There appeared to be night shifts and day shifts, and the night ants worked the hardest.

It may be true, as declared by M. Ford, the greatest living authority on ants, that they are creatures working almost by instinct, and only to the extent of about 2 per cent, by intelligent or reflective observation; but when it comes to water-finding, their intuition makes them hard to beat.

Eliminations for the oratorical contest, open to juniors and seniors, will be held in room 209 on February 21, at 3:30. The local contest will take place in the high school auditorium on February 28, at 8 o'clock. The orations must be not more than 1,500 words in length.

Ernest Tirrell, speaking on "The Horrors of War," Lucille Batur, on "Modern Youth," Christine Ver Hulst on "Racketeering," Edwin Ensfield on "The Psychology of Movies," Floyd Otteman on "Crime Prevention," Russell Van Tatenhove on "The Cost of Crime," Adelaide Kooiker on "The Depression," and Marian Bocks on "Our Generation," will enter this contest.

The extempore contest, to be held in the high school auditorium on February 26, is very difficult in nature. Contestants must read all the articles in the February, March and April issues of the "Readers' Digest" and the "Literary Digest," and be prepared to talk on any topic covered by these magazines. The topics will be chosen by lot and contestants will be given one hour in which to prepare their speech. As yet only two contestants, Angelina Van Lente and Emily Evans, have entered. All entries must be either juniors or seniors.

The winners of each of the three local contests will go to a sub-district contest in April, in which representatives from Fennville, Grand Haven, Saugatuck, Zeeland, Hope Prep and Holland High schools will compete. The three winners of the sub-district contest will be sent to the district contest in Kalamazoo in May. The date and place of the final state contest has not yet been decided upon.

On Tuesday, January 17, Principal J. J. Riemersma read a paper

on "Our Federal Courts" before the Social Progress club of Holland. His subject dealt with the organization of federal courts and the judiciary machinery by which they function; it also included experiences and impressions which he had obtained as he served on the federal jury last November.

Practices for the all-city school operetta, sponsored by the Holland Teachers' club, "Cinderella," to be given February 28 and March 2 and 3, have begun in earnest. The high school cast, under the able direction of Mrs. Nina Dougherty, has met and the choruses have started rehearsals with Miss Tricie Moore and with Eugene Heeter, who also directs the orchestration.

One feature of the operetta is a nursery rhyme party with elementary school children taking part. Lincoln school offers as "Bluebeard," Junior Sybema; "Little Girl with a Curl," Vera Vanderbeek; "Sally Waters," Ethel Brandt, and "Little Boy Blue," Gerard Viering. Representatives from Washington school are "Raggedy Ann," Phyllis Pelgrim, and "Jack, the Giant Killer," taken by Jack Yeomans.

Billy Faasen as "Jack Frost," Dorothy Wichers as "Goldilocks," and Mildred Hermon as "Miss Muffet" are from Froebel school. Longfellow presents "Jack and Jill," Ernest Post and Phyllis Stuit; "Jack Be Nimble," Bobby Scheerhorn; "Old King Cole," Lloyd Gunther, with the parts of the "Piper, Bowl, and the King's Three Fiddlers" taken by Junior Wise, Gerard Van Wynen, Harvey Van Tubergan, Rexford Koetsier and Donald Kuite, respectively.

Joyce Ter Haar characterizes the part of "Little Bo Peep," and the "Three Bears" from Van Raalte school are John Lightfoot, Harvey Van Dyke and Gerard Cook. The "Yellow Witch" is played by Marion To Roller of senior high school whose name was omitted in the high school cast announcement. General committees have also been appointed in the various schools.

This year new magazines have appeared at the Holland High school library. Magazines that have been discontinued were those that are not included in the reference material that is used here. These include "Mid-Week Pictorial," "Travel," "House Beautiful," "Musical America," and "Outdoor America." The new magazines are "Christian Century," "Collier's," "Nation's Business," "New Republic," and "Theater Arts." The librarian is hoping that the new magazines will be read extensively.

Twenty-five aspiring journalists were made more fully acquainted with the ways of running a newspaper, when the entire staff of the Holland High Herald was conducted through the Holland Evening Sentinel building on Tuesday, January 17.

William Holt of the Sentinel staff, served as a guide for the visitors and explained to them the operation of the linotype machines, the manufacture of cuts, the locking up of forms and the setting up of advertisements.

As a climax to their tour, the high school visitors witnessed the actual printing of the paper—how a giant press prints, cuts and neatly folds 100 papers a minute. Before the departure of the visitors, Mr. Holt presented each with a linotype slug on which the recipient's name was set up. The visit of the Holland High Herald staff to the Sentinel building has grown to be an annual event, and does much to promote friendliness between the two establishments.

March 20, 21, 22, 23 Set as Dates for Producing "Family Upstairs"

March 20, 21, 22, 23 are the dates set for the presentation of the 1933 senior play, entitled "The Family Upstairs," which is reported to be a roaring comedy. The scene is in an apartment in New York City.

"Papa," to be portrayed by James D. Boter, is a street car conductor earning \$27.50 weekly; his wife, Angelina Van Lente, tries her best to spend \$27.50 weekly. The children, Athalie Roest and Ernest Tirrell, promise to be the most entertaining youngsters you have ever seen. Athalie teases all the spare nickels she possibly can from her mother for music lessons. If you have passed room 209 after school hours you probably have heard her practicing "Rustles of Spring."

The young lovers, Marie Dalman and La Verne Scheerhorn, take the art of love making very seriously. Gertrude Meengs, as dress maker, becomes more gossip every day, so Miss Lucille Lindley, coach of the play, says. Lois Geerts is the proud mother of two fine sons, the younger of which, Eitel Eberhardt, proves somewhat unruly at times.

There will be a new set of scenery, something entirely different from that used in previous productions. This will be erected by Edward Donovan of the manual arts department.

Arrival of Sophs Augments Attendance While Three Seniors Leave

With the arrival of one of the largest mid-semester classes in the history of the high school, the enrollment has been greatly increased. As there is no room for

more assembly seats, the tenth graders have been assigned to room 205, 206, 207 and 302. Besides, so as not to miss the regular morning exercises or the assembly programs they have been given seats in the gallery for these occasions.

The new class roll numbers 86, with 37 girls and 49 boys.

Only three seniors have dropped school. These are Bernice Zonnebelt, George Wendt and Stella Dabrowski. A number of new students have enrolled in the school, including several post-graduates. Several others have enrolled in the commercial department.

With these new additions to the student body, the enrollment of more than 730 greatly exceeds that of any previous year.

Principal Riemersma, commenting on the large enrollment, remarked that it was a wonder the school was standing the added strain so well.

Economics Heads List of New Subjects Being Taught This Semester

Economics, a new subject in Holland High, is being offered to seniors this semester, this subject completing a three-year course in social science. The course, being taught by Ervin Hanson, is very popular, forty-five students being in the class.

Many principles of business are covered in this course, theories on finance, sales, transportation, world marketing of goods, production and general distribution of wealth, are included. Economics is a prerequisite for courses in business administration and commerce in colleges. A good course in economics in universities covers a period of four years and so only a small part of this material can be covered in a high school semester course.

Mr. Hanson says: "The social science department has consulted with the administrations of many Michigan high schools and with Professor Dimmet of Hope college, before selecting a text fitted for the high school interpretation of an interesting and important college subject."

Other subjects which are being offered this term which were not scheduled last semester are commercial law, which will be taught by Miss Davidson; home economics D, or graduation sewing, which will be taught by Miss Lavina Cappon; advanced journalism and Old Testament, which will be taught by Miss Hanna Hoekje.

Seniors in Lead, Setting Mark for Underclassmen in Scholarship

Ninety-seven students earned places on the first semester honor roll of the year 1932-1933.

This list is important because of the fact that it is the last semester honor list to be recorded before the senior honor roll is made out. Also, students receiving an average of A's and B's earn points toward the National Honor society rating.

The honor list follows: Students receiving all A's the first semester are Bernice Zonnebelt, Willard Veltman, Julia Van Dam, Calvin Vander Werf, Clarence Veltman, Victor Notier, Beatrice Boot, Adelaide Kooiker, Hazel Burge, Edwin Ensfield, Raymond Boot, Peter Veltman, Charles Bertsch, Jean Spaulding. John Orlert earned six A's and other marks B, while Mary Jane Vaupell received five A's and other marks B.

The following earned four A's

and other marks B—Marian To Roller, Richard Schaftenaar, Angelina Van Lente, George Bosworth, Barbara Lampen, Ethel Redder, Patsy Verhulst, Alice Munro, Henrietta Broadway, Willard De Groot, Margie Knoll, Herman Johnson, Oliver Lampen.

These students received three A's and other marks B—Robert Van Spyker, Emily Evans, Etta Kooyers, Renetta Shackson, Janet Oudman, Marianne Bocks, Raymond Rigerink, William Arendshorst, Esther Hinkamp, Cornelia Lievensse, Lois Tyase, William Zeerip, Irma Hoeland, Thelma Kooiker, Charles Laitach, Janet Witteveen, John Weller, Robert Vander Berg, Cornelius Groenewoud.

Two A's and other marks B were received by Lois Geerts, Floyd Otteman, Marian Williams, Omeel Palmer, Herman Stoel, Hector Martin, Glenn Eilers, John De Witt, Louise Schippa, Joyce Notier, Ruth Beckman, Ruth Van Anroy, Clarence Brink, Craig Trueblood, Harriet Bremer, Edmund Pendleton, Angelina Vander Schaaf, Heath Goodwin.

The record of one A and other marks B was made by Albert Schrotenboer, Stella Dabrowski, Alma Vanden Berge, Harriet Van Doornik, Lois Vanden Berge, Eleanor Drenton, William Wichers, Lucille Schapp, Donald Visser, Elaine Wierda, Alyce Dykens, Bernard Donnelly, Syna Weststrate, Julia Klinge, Edward Schierbeek, Edna Plagenhoef.

All B's were received by Earl Van Leeuwen, LaVerne Scheerhorn, Max Welton, Edward Rowan, Esther Johnson, Arthur Sas, Irene Kleis, James Westveer, Jean Helminck, Julia Victor, Alice Victor, Caroline Ter Haar, Vera Kierhorn, Lloyd Wyngarden, Gerry Swierenga.

The Muskegon Big Reds started the second round in the Southwest conference by decisively beating Holland, 22 to 13. The game was closer than the score indicates as Holland was leading for three-quarters of the fray, only falling before Muskegon's powerful attack in the final period.

Holland stepped out early in the game to take a lead of 5 to 4 in the first quarter and a lead of 8 to 6 at the half. The Maroons still retained their lead throughout the third period, leading 12 to 11 at the three-quarter mark, but in the final period Muskegon unleashed an attack that scored 11 points and held Holland to only 1.

Woldring and Ottemen looked best for Holland, scoring 6 and 4 points, respectively, while Boone and Petrosky led the Big Reds with 6 points apiece.

The Benton Harbor quintet defeated the Holland High team by a one-point margin after Holland had put on a thrilling finish that had the crowd on their feet only to have the game end with Holland trailing by 1 point, 23 to 24.

The third quarter jinx again fol-

lowed Holland as it has been doing every game previous, when Benton Harbor rang up 7 points to Holland's 4. Holland was leading at the end of the first quarter, 8 to 7, but Benton Harbor overcame the lead and forged ahead, 16 to 13, at the half.

The third quarter proved to be disastrous to Holland and ended 23 to 17 in Benton Harbor's favor. The fourth quarter comeback of the Dutch was one of the best examples of fighting spirit shown here this year. Led by Russ Woldring, the Maroons played inspired ball, holding Benton Harbor to a lone foul shot, while Holland rang up 6 points.

Woldring proved to be the big gun of Holland's attack, scoring 11 points, while Hurst, Tiger forward, collected 12 points to lead the Harborites.

After losing five games on their own floor the Holland High basketball team emerged victorious over Catholic Central by the score of 18 to 16 Tuesday, January 31, at the armory. The game was close but somewhat uninteresting because of the many shots missed by both teams.

The score at the first quarter was tied at 5 all, but Holland stepped out to take a 10-to-8 lead at the half. Holland continued its stride and by the third quarter led, 16 to 10. However, Catholic Central began to hit the loop and to draw up within 2 points of the Orange-men; the final whistle cut short their drive with Holland leading 18 to 16.

Woldring was high-point man with 10 points, for the victors, while Hartwacks shone for Catholic Central.

Peter Koopman has announced himself as candidate for alderman of the fifth ward at the March primaries.

The Old State bank at Fennville Thursday was opened for business as usual, except for the cashing of checks on other Michigan banks. Regular business was transacted as usual. Checks on other Michigan banks will be honored as soon as Governor Comstock's bank holiday has been lifted, Hutchinson declared.

The private bank of H. Brower & Co. at Hamilton operated all day Tuesday despite the bank holiday proclamation. Herman Brower, cashier, Wednesday explained that it was nearly noon before the bank officials heard of the holiday order and then they were certain that the proclamation affected a private institution. So the bank continued business Tuesday afternoon as usual.

Mrs. Nina Dougherty is coaching the cast for the all-city school operetta, "Cinderella," to be staged February 28 and March 2 and 3, by the Holland Teachers' club. Choruses are being drilled by Miss Trilzie Moore and Eugene F. Heeter, who directs the orchestration. A nursery rhyme party by elementary school children will be a feature.

Christian Reformed churches in this city disbursed approximately \$22,500 for charity in 1932. The amounts for the six churches ranged \$2,200 to more than \$5,000. According to a n u n a l reports churches of other denominations also contributed generously toward relief of needy families connected with their congregations.

The Holland City Sunday school association will sponsor a series of five lectures, beginning March 5, and continuing on successive Wednesday evenings, for teachers, officers and members of adult Bible classes. Rev. S. C. Netting, president of Western Theological seminary, will speak.

Miss Janet Witteveen, daughter of Mr. and Mrs. A. Witteveen of Holland route 4, is still confined to Holland hospital. Miss Witteveen is a student of Holland high school.

CENTRAL PARK

Marjorie Timmer, who has been confined to her home for several days on account of illness, is making a gradual recovery and hopes to be out soon.

The Sunday school class of which Elmer Teusink is the teacher, enjoyed a sleigh ride party Wednesday evening. Each of the young men had invited a friend and Mr. and Mrs. Teusink were the chaperons. After the long ride they were entertained at the church with refreshments served by Mrs. C. Zeedyk. Games were played and all enjoyed the evening immensely. About twenty were present.

Mr. Maurice Hendrickson of Grand Rapids sang a solo at the church services Sunday morning. The Central Park male quartet, with Mr. Hendrickson substituting for Albert Berkompas who was ill, sang two numbers at the evening service.

The Boy Scouts of troop No. 30 with Mr. Ed John, the scoutmaster, were present in a body at the evening worship hour and took an active part in the services which were well attended.

The children of the local schools have enjoyed two extra holidays in the past week. Last Friday there was no school on account of the severe weather conditions and this Thursday the teachers are attending a teachers' institute.

Mrs. F. J. Van Dyk was a Grand Rapids visitor Tuesday. Gerrit Heneveld and Ben Damveld motored to Grand Rapids on Monday.

The Willing Workers Aid society met at the church Thursday afternoon. Mrs. Simon Harkema and Mrs. George St. John were the hostesses. Mrs. Fred S. Bertsch, the vice president of the society, whose home was destroyed by fire last Friday, was very pleasantly surprised with the presentation of a large quantity of canned fruits and vegetables to take the place of what she lost in the fire.

Mr. Ed John and family have moved their residence from the Bertsch estate to a house on the Graafschap road.

Mrs. F. S. Bertsch and family who have been staying at the home of Henry Van Den Berg, are moving into the house recently vacated by the John family and which was not harmed by the fire though in close proximity to the burning house.

The play, "Uncle Tom's Cabin," on which the community players of Virginia and Central Parks have been working very assiduously, is scheduled to be given March 15, 16 and 17. More than twenty people are in the cast and it is by far the most pretentious production put on by local talent.

SPORTING

Local high school teams face old rivals on home courts this evening. Holland high entertains Grand Haven in a renewal of competition for the county title, and Christian is host to Grand Rapids Christian high.

Holland defeated Grand Haven at the county seat earlier in the season, and a victory for the locals tonight would give them a clean sweep over Grand Haven this school year. Holland copped the football game last fall. The reserve teams of the two schools will meet in the preliminary at the armory starting at 7:15 o'clock.

Last week Holland lost a 30-to-12 Southwestern conference decision to Kalamazoo Central, after playing a 10-to-10 first half with the Maroon Giants.

Christian had little difficulty in chalking up its tenth straight success last week as the locals trimmed Zeeland, 29 to 12.

Hope college split even in a pair of M. I. A. conference games. The Hingham walloped Kalamazoo here last week, 42 to 30, but dropped a 34-to-20 battle at Hillsdale on Thursday.

The Mosser Leathers rule as the champions of the City Basket Ball league. Coach Dick Japinga's Tanners copped the city title Wednesday evening at the armory by noosing out the Rutgers Clothiers, 21 to 20.

The Leathers took the title only after a great rally in the final period. Rutgers led at the quarter, 9 to 5, and were ahead, 12 to 5, at half time, but the Mossers, led by Peter Beckman, came back strong. Beckman scored 15 of the 21 points himself on a combination of seven field goals and a free throw.

A capacity crowd witnessed the great finale of the league season. The Mossers were presented a trophy by the Red Lion Sandwich shop. Next week the league will present three outside games, with the Mossers, Rutgers and Selles facing outside opponents.

The Pieper Optics upset the Keefer Restaurants, 27 to 25, in another thrilling encounter. The Optics took the lead late in the game to chalk up their first league triumph of the season. Tuls and Slighter were outstanding in the victory.

The Selles Decorators defeated the Grand Rapids Pere Marquettes, 35 to 19, in the outside tilt.

Unusual Intelligence

By RUBY DOUGLAS

"WANTED—A young woman of unusual intelligence to sell books in a tavern book stall."

Barbara Marquis read the advertisement over and over, her temperature rising with each reading. She had been lying on the red chaise longue in her own room reading a weekly literary journal that she always enjoyed. Suddenly she arose and went to the mirror on the wall.

"I wonder if I might call myself of 'unusual intelligence'?" she asked herself, studying her own face critically.

Barbara had always wanted to handle books in some capacity. They had had a fascination for her ever since the days when she used to go into her father's untidy study and sit on the floor to look at the books he never had time to put away nor space to shelve. She wrote a little, but not books.

And now, into her very lap, had dropped the idea. She picked up the paper again and decided that it was Fate whispering in her ear. "I shall apply tonight," she declared. "I always have more personality after noon. I believe I must be nocturnal. And the tavern is sure to be candle lit—my favorite atmosphere."

She had a small runabout that she had named "Asthma," and as the diminutive car wheeled its way to the front of the tavern, whose proprietors sought a young woman of "unusual intelligence," Barbara began to feel a trifle nervous about her venture. However, it was too late to turn back, and she parked Asthma underneath a linden tree and entered.

Business evidently was not rushing. A few moldy-looking persons sat in stalls here and there eating and smoking and chatting, or trying to read in the flickering candle light. But Barbara liked the place the moment she put her foot over the threshold, and it mattered not to her that business was dull.

A prepossessing man of middle age approached her. He looked as if he might have been an actor.

"I came to see if perhaps I might qualify for the position you advertise in the Literary Review," Barbara began.

"Oh—a yes. Won't you sit down?" Together they sought one of the dark wooden tables in a stall, and each sat on a bench. The man moved the brass candlestick so that the light would show him the young applicant's face.

Ereosion

A Concordia young woman finds nothing more obnoxious than people who accost her affectionately with a pat on the cheek. "They must think," she declared angrily, "that I have nothing to do all day but reassure my face."—Concordia (Kan.) Blade.

Bridge's Central Span

"Frozen" Into Position

It is perhaps not a generally known fact, but the following incident actually happened, says the Washington Star. A certain bridge was under construction, and when the central span was lifted into place it was found to be slightly too long to fit into the supporting spans. The engineer in charge purchased an enormous quantity of ice, and, packing it around the steel members, caused contraction of the steel, eventually shrinking the entire structure and allowing the central span to slip into its proper position.

The fact that the bridge was too long resulted merely from a day of unseasonably high temperature, which happened to correspond with the day on which the last member of the bridge had to be placed. The simplest solution would have been to delay closing the bridge until the temperature dropped, or perhaps inserting the member at night. The fact that the engineer thought of packing the cantilevered arms of the bridge with ice indicates clearly what a resourceful engineer he was. The bridge is the Eads bridge across the Mississippi river at St. Louis, and the engineer's name was James B. Eads.

Writer Has Some Doubt About Weather Control

A scientist thinks that weather eventually may be controlled by electricity. We contemplate with awe the bringing on of a thunderstorm by the pressing of a button. Will powerful sirens warn the people of the storm's approach so they will stop the superfluous watering of their lawns and shut the north-west windows? For we do not suppose that the electrical rainmakers will so far defy established natural laws as to bring rainstorms from unheard of directions.

The rains should be quite orderly and never freakish. Ruskin said: "As men do not walk on their heads, there are natural laws that clouds do not disobey." We have always thought that man would, one of these days, determine when rain should fall and when it shouldn't, and electrical control may be the secret. But we have profound doubts of his being able to do a thing when a Gulf of Mexico hurricane comes along shore.—F. H. Collier in the St. Louis Globe-Democrat.

New Version of Legend Concerning St. Patrick

The legend of St. Patrick driving the snakes out of Ireland, as told in "Wonder Garden," by Frances Jenkins Olcott, is that St. Patrick found Ireland filled with snakes, serpents, demons and toads, and determined to rid the country of them. So he gathered them all together and bade them go to the top of Crochan Acla. Some refused because they knew they would be forced into the sea from the mountain top. St. Patrick, knowing they feared the sound of a bell, rang one very gently. Immediately they rushed to the top of the mountain and from there over the side of a cliff into the sea.

Some of the reptiles, however, hid in a cave near the edge of the sea. The saint rang the bell again, but in vain, as the surf drowned out its chimes. The reptiles were safe until he flung the bell over the mountain top and into the hollow where they were hiding. It fell on their backs and they plunged into the sea. Never since that day have snakes been seen in the land and some folks say that the bell lies hidden under the earth in the hollow of Crochan Acla.

The legend is symbolic of the fact that St. Patrick cleansed Ireland of its sins and brought it the faith.—Cleveland Plain Dealer.

Unfeminine Occupations

The census bureau lists many occupations in which it is unusual for women to be employed. Some of these are: Blacksmith, baggage man, boilermaker, brakeman, butcher, conductor on the railroad, cooper, electrician, locomotive engineer or fireman, fireman in the fire department, forester, garbage man, hostler, pilot, plumber, railway mail clerk, stone mason, street cleaner and tinsmith.

Materials Evolved by

Acids Drawn From Air

Silk stockings have actually been made from air! They look very well indeed, but they have one drawback: they melt in hot weather. Still, that is a disadvantage which will doubtless be overcome in time, for the science of making silk from air is still in its infancy. Wonderful work has been done by Mr. Wallace Carothers, who has discovered that about twenty substances can be extracted from the air, each of which can be turned into a material very like those silk in appearance. A synthetic cloth has even been evolved by treating various acids drawn from the air with a waste product of ordinary petrol.

Air plays a very important part, for we could not live for an instant without it. In the future, though, it is likely to provide things besides breath. Saltpeper, one of the most valuable fertilizers known, is already manufactured from air, and the neon gas used for filling certain kinds of electric lamp bulbs can be obtained in the same way. Not long ago a method of extracting carbon from air was discovered, and from this it was predicted might be developed methods of obtaining both fuel and food from the atmosphere.—London Tit-Bits.

Composed Famous Song

A negro year book says that Richard Milburn was the composer of "Listen to the Mocking Bird." Mr. Septimus Winner, composer and publisher, induced Milburn to whistle this song before him while he wrote down the birdlike notes. The song was afterward published by Mr. Winner in Philadelphia in 1855, and during the years 1855 to 1893 it was popular with minstrel companies and serenading parties. The front of the piece reads "Words by Septimus Winner—Music by Alice Hawthorne." "Alice Hawthorne" was one of the pseudonyms used by Mr. Winner on his title pages.

Government by Soviets, That Replaced Czarism

A definition and explanation of the term "Soviet," made by Webster's New International dictionary, is as follows: "Soviet: A council, specifically, either one of two governing bodies (village soviets, town soviets) in the Union of Socialist Soviet Republics, established as a result of the Russian revolution of 1917 and by the constitution of the republic of July, 1918, and later by the constitution of the union, July, 1923. These soviets are the primary organs of a government based on the principle of communism, seeking to give the power to the working classes. They are the supreme local authorities; consist of representatives, chosen annually, of workmen (elected by shops, organizations, etc.), soldiers, and peasants; and send deputies to the higher soviet congresses; volosts (rural district), uyezds (county), guberniyas (provincial), oblasts (regional), and the congresses of the constituent republics. All these soviet congresses meet annually. The highest governmental body of all is the union soviet congress, composed of representatives of town soviets and of representatives of the provincial soviet congresses. This congress elects the union central executive committee."

Holland Harbor Tonnage Under Other Ports

GRAND HAVEN IS FAR AHEAD OF OTHER HARBORS ACCORDING TO REPORT

Holland harbor tonnage does not loom up as big compared to our sister city, Grand Haven, according to an article appearing in the Grand Haven Tribune.

Grand Haven's harbor tonnage report as shown in the Army Engineer's annual 1932 report shows Grand Haven to have made great strides in tonnage during the year, 1930-31 and to have advanced from 31st place on the lakes in 1930 to 26th place in 1931, passing Huron, Saginaw, Frankfort, Rochester and Ogdensburg. This report was formally announced in January, 1933.

The Grand Haven tonnage in 1931 was 1,380,277 as against the 1930 figures of 987,000. This was due to the large increase in shipments of gravel by the Construction Materials corporation. Grand Haven was exceeded in Michigan only by Calcutte, River Rouge, Detroit, Ludington, Alpena and Wyandotte. This last port exceeded that city only by 700 tons.

In value the tonnage through Grand Haven exceeded that of Ludington. The Grand Haven figures are \$105,426,100 while Ludington's valuation of tonnage is \$104,056,400, and Calcutte with a very large tonnage of over 3,000,000 is only valued at \$4,349,583.

Of the nearer ports in Michigan Muskegon is reported to have a tonnage of 678,831 valued at \$15,295,200; Holland, 20,204 valued at \$2,672,700; St. Joseph, 69,988 at \$1,884,300; South Haven, 25,554 at \$2,672,700; Frankfort, 1,087,371 at \$124,176,300.

The commercial statistics show that commerce for the last calendar year was coal, grain, sand, gravel, automobiles, lumber and forest products and unclassified commodities. The car ferry traffic is reported to comprise about 47 per cent of the total traffic.

BANQUET FOR YOUNG PEOPLE IS HELD

Tonight, Thursday, a banquet is being held in the Christian High school gymnasium for the young people of the Christian Reformed Churches of Holland. About 225 tickets were sold.

The program committee consists of Justin Homkes, chairman; Miss Jean De Koster, Miss Frances Bartels, Jerry Bultbus, Miss Ellen Vander Meer, Miss Sue Jacobus, Dick Windemuller, Miss Esther Ten Brink, Miss Marjorie DeVries, Miss Cornelia Bos and John Berentschot.

The committee in charge of the supper is composed of Mrs. C. W. Dornbos, Mrs. Raymond Nykamp, Mrs. George Tinkhof, Mrs. B. Timmer, Mrs. A. Verger, Mrs. Frank Weener, Mrs. George Slikkers and Mrs. B. Veltman.

HENRY KIK WILL REPRESENT HOPE HIGH

Eliminations for the county Sunday school oratorical contest were held at Hope College high school Monday.

Henry Kik of Grand Rapids, member of the senior class of the college high school, was awarded first place in the oratorical contest and will be given the \$10 prize which the Ottawa county Sunday School association offers annually to the best orator from each high school in the county. Mr. Kik will also represent the school in the final county contest to be held March 14.

Miss Geneva Kleinheksel of Holland, a member of the junior class, was awarded the second prize of \$5. Morris Folkert and Allen Cook also took part in the contest.

The subject for the oration was "Christ's Attitude Toward other Races."

Miss Gertrude Jalving, winner of first place in the county contest last year, was in charge of the assembly program.

CIVIC ORCHESTRA OF HOLLAND WILL BE HEARD IN ALLEGAN

A program is nearing completion for the Holland Civic orchestra's second concert of the winter season which will be presented on Tuesday evening, February 21, at 8:15 o'clock in the Holland High school auditorium.

The orchestra has increased its membership to forty-two musicians. The group is under the direction of Eugene F. Heeter. On Thursday evening, February 23, according to Harold J. Karsten, president, the organization will offer a concert at the Griswold auditorium in Allegan under the auspices of the Women's History club of that city.

HOLLAND TEACHERS VOLUNTARILY TAKE 10% CUT

Voluntary reductions in salaries of \$7,000, representing an added cut of 10 per cent over last year, were presented to the board of education by Superintendent E. E. Fell on behalf of the teachers of Holland's public school system. While appreciative of the offer, the board in general, however, feels that a larger cut may be essential to meet the regular monthly payments.

Last year a voluntary cut of \$7,525 was made. William A. Rendshor, member of the board, stated that Holland should avoid if possible the non-payment of teachers' salaries so prevalent in some of the larger cities. Mr. Fell pointed out that although there were nearly 100 more students, requiring ordinarily two more teachers, the system was being conducted with three teachers less, or five if the full requirements were maintained.

From The Farewell Address

... As avenues to foreign influence in innumerable ways, such attachments are particularly alarming to the truly enlightened and independent patriot. How many opportunities do they afford to tamper with domestic factions, to practice the arts of seduction, to mislead public opinion, to influence or awe the public councils! Such an attachment of a small or weak towards a great and powerful nation dooms the former to be the satellite of the latter.

Against the insidious wiles of foreign influence, I conjure you to believe me, fellow-citizens, the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy, to be useful, must be impartial, else it becomes the instrument of the very influence to be avoided, instead of a defense against it. Excessive partiality for one foreign nation, and excessive dislike of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop...

—George Washington.

Indians Have Best Way for Using Rabbit Skins

There are a number of ways in which a rabbit skin blanket may be made, but those experienced in the art insist that it pays in the long run to use the method that takes the longest and requires the most skins. This is a well known Indian method.

The skins are taken from the animal as with the usual case of pelts and salt is rubbed over the whole of the flesh side while it is fresh. Before the skin becomes fully dry it is cut, by starting at the bottom of the skin and cutting a continuous strip out of the fur one inch wide, going around and around until all the fur is cut. The strip thus made is then stretched, gently, until it is straight, and twisted into a sort of rope with the fur fluffed out on all sides.

The next step is to make a wooden frame with the strings tacked to the edges forming loops toward the center of the frame. One end of the fur strip is then attached to one corner of the frame and the fur strip is pulled through the loops of string, each time by looping the rope over the string. For the next row, starting back, the fur is looped over the previous row of fur loops in a similar manner and this is continued until the frame is filled with a flexible mesh of fur. The rabbit skin "rope" should not be woven too tightly. It should be possible to thrust one's finger in here and there without much resistance.

This loosely woven fur mesh is then stretched between layers of outting flannel or any other quilting material and the resulting blanket probably cannot be beaten for warmth.

ROAD CREWS OF OTTAWA COUNTY WORK HARD

The Ottawa county road crews worked most of Saturday night and all day Sunday to clear traffic on the trunk line roads. Numerous calls came from all sections of the county for county and township roads, but the equipment was only able to clear the trunk lines. By constant effort on the trunk lines these roads were kept well open and no reports of traffic tie-up have been received. On Monday the county lines were attacked. The snow in some places was very deep. The snow was very heavy and it required a tremendous amount of work to clear some sections. This is the first time in three years that the county road crews have been so taxed.

SON OF HOLLAND ALDERMAN FOLLOWS IN FATHER'S FOOTSTEPS

Nick F. Yonkman, former Grand Haven alderman, and son of Alderman Yonkman of Holland and a former Holland boy, announced today that he would be a candidate for alderman providing his friends circulated a petition to that effect. Mr. Yonkman has been persistently mentioned as a possible candidate and up to this time has withheld any definite statement on the matter.

Mr. Yonkman served on the Grand Haven city council for one two-year term and during that time the municipal water system on Lake Michigan was started. He declined to run for a second term last year.

The Grand Haven High school band of fifty pieces, assisted by the high school glee club and the junior band and glee club, will present the seventh annual concert in the high school auditorium Friday, February 24. It will be directed by M. F. Richards.

DANIEL PETT OF GRAND HAVEN AWARDED SCHOLARSHIP IN OHIO

Daniel Pett of Grand Haven, who is attending Oberlin college, Ohio, was recently informed that a scholarship fund of \$400 was due him which had been awaiting his disposal since September. Mr. Pett has received the scholarship for the past two years on the award of scholarship. He was not notified that the scholarship would be continued this year and supposed he had failed to come up to the mark.

His surprise was a double one, however, when he learned the money was on deposit and had been given him as usual for his high school rating. He was told also that he could expect the scholarship next year if he continued his high rate of work.

Despite the supposed loss of the fund the young man continued to attend college but the scholarship fund was a welcome addition to the expenses for the year.

Rabbits Keep Eye On Time of Hunting Season

HOLE UP DURING LAST DAYS IN WHICH TO HUNT

The bunnies were smart. Seeing their numbers diminished by the gunners, and with the season only a few more days to go, they "sat tight." Your old-time hunter may say that it was the weather—that there was a storm in the air, that the rabbits didn't want to get caught too far away from home when the snow should begin to fall.

Maybe so, but we still believe those snowshoes and cottontails north of Lake City had been reading the game laws and studying the calendar, after which they decided that nothing would serve them better than to "stay put" until the men with guns and dogs should no longer range the woods.

Dogs Get the First One

We actually did knock over a few bunnies. It wouldn't have been a rabbit hunt if we hadn't. There was the "Leaping Lena" that Ed and I both shot at once, just when he turned a right angle. The dogs were so close we didn't try again, but the first shots had slowed her down and they got her quickly. Then there was a big snowshoe that led Bess a merry chase, from one swamp into the next and back again, fully three-quarters of a mile. That one, too, rolled over when it crossed Carl Snider's path.

The height of the day's excitement came, however, when we found the cottontails on the high ground just beyond the edge of the swamp, where the brush grew sparse among the charred pine stumps and the people were beginning to crowd in. Ed kicked out the first one, and was so surprised at seeing the bounding whittail go over the hilltop that he forgot to raise his gun.

Only a few feet farther along, another sleek gray rabbit bounded out and started in the opposite direction. Ed was ready for that one, and made a clean hit with his 20-gauge. It was one of the finest cottontails of the year—sleek and healthy, with a nice layer of fat along his ribs that assured his being good eating.

Right then, Spots and Bess came in full voice out of the swamp. Spots with his bass and Bess with her treble did as pretty a piece of dog-music as we ever hope to hear. Beelining straight for a clump of scrub oaks, and then ran in circles.

Frank Blaisdell and Bob Wheaton followed the dogs and watched the performance. The dogs kept making a lot of noise, but no Bunny popped out.

"He's right around here somewhere," said Frank, "or those dogs wouldn't be acting that way." Scarcely had he spoken, when a gray rabbit started from under his feet. His remarkable speed carried him far beyond reach of the dogs, but Glen, who was watching the show from a little rise to the left, accounted for him. The cottontail was a surprise in this region of snowshoes. Ordinarily, the swamps only were hunted, but on a day when the big white fellows sat tight, we experimented a bit and found the grays lots of fun.

The rabbit season is over now. Perhaps the gun pressure has been pretty heavy. Certainly countless numbers of white rabbits have been taken out of those swamps. Whether or not they can stand this toll, only another season will tell.—Van Coevering in the Detroit Free Press.

SOME THINGS WORTH KNOWING

Now is the time that all children under eight years of age should be receiving bottled sunshine. Include one tablespoonful of cod liver oil or ten drops of "haliver oil with viosterol" in their daily diets.

The dining center in a large kitchen can be made more private and attractive by separating it from the work area. A simple screen made from light weight building board and covered with wall paper may solve your problem.

In making a crocheted rug from torn strips of old materials such as percale and shirting, a firmer rug is made if a strip of the same material is carried along underneath the stitches as a filler. This filler is particularly advisable if some stretchy knitted fabrics are added to the rug.

TRAP STEALING HAS BEEN GOING ON ABOUT THE STATE

Trap-line thieves through the upper peninsula are handicapping the work of state predatory animal hunters and are jeopardizing efficient control of wolves, coyotes and other predators, according to H. P. Williams, leader of predatory animal control in a report directed to the Department of Conservation. "Hunters during the past quarter year were greatly handicapped by trap-line robbers," Williams said. "Thirty-seven animals and one hundred and six traps were stolen. In many instances attempts have been made to hamper the work of the trappers not only by stealing the traps but by pulling them up and throwing them into the woods or destroying them with axes, Williams said.

Test Within a Tent

"Several winters ago I became ac-
quainted with a method of winter
camping which I believe was, and
is, just about as ingenious as one
would expect to meet with in many
a moon," writes Robert Page Lin-
coln in Forest and Stream. "A
trapper showed me the trick. It in-
volved the use of two wall tents.
The one tent as I remember it, was
nine by eleven, while the other was
twelve by fourteen. The smaller
tent was erected inside of the
larger tent. A good job had been
done of pegging down and stretch-
ing both of these tents. The re-
sult was that the outer tent was a
windbreak par excellence and that
even in the coldest winter weather
the inside was well protected, the
camp stove, a box affair, keeping an
even temperature within."

All Are "Jugulars"

Children in the vicinity of Forty-
ninth street and Wentworth avenue
were playing croquet.

One boy stood apart from the
group and deftly kept three of the
wooden balls in the air. The game
was forgotten as admiring young-
sters crowded about the young
juggler.

"Say, you really know how to do
that," one of the group remarked,
with open mouth. "How did you
learn to do it?"

"Oh, I guess I just inherited it,"
the boy said, still keeping the three
balls in the air, "there's a jugular
vein in every member of my fam-

Highly Important Senses

Books on physiology speak of the
very intimate relation between
smelling and tasting. Flint's Physiol-
ogy says that "In the appreciation
of delicate shades of flavor, it is
well known that olfaction (smell)
plays so important a part that it
can hardly be separated from gusta-
tion (taste). It is undoubtedly true
that the delicacy of the sense of
taste is impaired when the sense of
smell is lost. The experiment of
tasting wines blindfolded and with
the nostrils plugged, and the par-
tial loss of taste during a severe
coryza (cold in the head) are suf-
ficiently familiar illustrations of this."

Lightest Wood a Mystery

From time to time pieces of a
strange variety of driftwood have
been cast up on the beaches of La-
zon and of other Pacific islands. Na-
tive Filipinos call it "gumaan,"
meaning "very light." It has only
half the weight of balsa, the light-
est known wood. Authorities have
been unable thus far to find where
the gumaan tree grows. If it can
be located it may prove of great
value in airplane construction, for
which balsa is now used.—World's

**What Will
She Do
About It?**

H. L. CRAWFORD is one of the most
successful merchants in the Middle
West. He has built a business in his
town that has made him famous—and a
mighty substantial citizen!

How did he do it? Well, Crawford is a
"born salesman." He knows that if he
wants to sell goods he's got to find buyers.
And he must persuade folks to come back,
again and again.

One of the most forceful things he
does is to place in every parcel that
leaves his store, a folder or book-
let offering an attractive bargain.
This enclosure is always an effective
piece of advertising, and it gets results.

The publishers of this paper are eager to
produce that kind of printed matter for
the merchants of this community. We
want to serve you in that way. Please ask
us to call and we'll discuss a plan.

South Dakota's Black Hills

Game in the Black Hills.

(Prepared by the National Geographic
Society, Washington, D. C.)

IN ALL but name, the Black Hills
of South Dakota are more than
hills. They rise higher than
either the Appalachian or the
Ozark mountains, and Harney peak,
their loftiest mass, is the highest point
between the Rockies and the Atlantic
ocean.

They form a veritable island of
mountains in the Great Plains, and the
natural attractiveness of their heavily
wooded peaks and ridges and their
well-watered valleys is made doubly
appealing by the contrast of the sur-
rounding country.

Touching the hills on the southeast
is one of the most desolate yet in-
teresting areas in America, the Big Bad
Lands of southwestern South Dakota,
where, through thousands of years,
rains have carved the light clays and
sands into duted columns and cones,
jagged buttresses, and a thousand
other fantastic forms.

The Black Hills are not a part of
the Rockies, but they may be looked
upon geologically as dwarf brothers
to those giant mountains, showing the
family characteristics on a smaller
scale. Both probably were formed
about the same time. Data assembled
by geologists show that millions of
years ago, during the Mesozoic age,
a vast sea washed over the entire
central portion of the continent, covering
the site of the Black Hills. It was
at this time that the softer rocks of
the region were formed as sediments.
When at the end of the Mesozoic, the
great flow of melted granite welled up
from below to raise the Rockies, it
found a weak spot at the site of the
Black Hills and rose there, poking
the surface limestone and other rocks
up as a rising tent-pole pushes up the
canvass.

The cooking process which the sur-
face rocks underwent at that time had
much to do with making the Black
Hills one of the richest mineral re-
gions in the country.

In the ages since these mountains
rose, the softer stones have been
weathered away in many places, ex-
posing the hard granite, as at Harney
peak. Around the base of this peak
stand great spires, remnants of the
softer rock, which constitute The
Needles, one of the most striking bits
of scenery in the region.

Hunting Grounds of Indians.
The Black Hills derived their name
from the blue-black appearance of the
dense pine forests when viewed from
a distance.

They played a peculiar and interest-
ing part in the frontier life of Amer-
ica. Before the coming of the white
man these wooded uplands were one
of the favorite hunting grounds of the
Indians of the surrounding plains.
They were unsettled by whites long
after emigrants had established them-
selves in California, Texas, Colorado,
Utah, and other territories farther
West. This was because all of west-
ern South Dakota was reserved for
the Sioux Indians.

What Indian tribe possessed this
choice hunting ground of the West
before the white man came to Amer-
ica is unknown; but since the open-
ing of the West several distinct tribes
have occupied the region, each in turn
forced out by a stronger group. In all
cases these newcomers have appeared
from the East and almost without ex-
ception the older residents have
moved farther West.

The Crow Indians are believed to
have been in possession of the Black
Hills near the beginning of the Eigh-
teenth century. Later the Poncas en-
tered the eastern portion of the high-
lands, but, finding them occupied,
turned back eastward. The Cheyennes
were the next successful invaders
from the East, and were in posses-
sion of the territory when Lewis and
Clark passed in 1804. Next came the
Sioux, the last of the red men to
hold this desirable region before the
advent of the whites.

The first "written" history of the
country is a pictorial chronicle of the
Sioux on prepared skins. It records
that the famous chief, Standing Bull,
led a party of warriors to the hills
about the time of the American De-
claration of Independence, and took
back to his plains home a little pine
tree, a type of tree never seen before
by his immediate tribe.

General of the State of Michigan, for and in behalf of said State,
for the sale of certain lands for taxes assessed thereon.
On reading and filing the petition of the Auditor General of
the State of Michigan praying for a decree in favor of the State
of Michigan, against such parcel of land therein described, for the
amounts therein specified, claimed to be due for taxes, interest and
charges on each such parcel of land, and that such lands be sold
for the amounts so claimed by the State of Michigan.
It is ordered that said petition will be brought on for hearing
and decree at the February term of this Court, to be held at Grand
Rapids, Mich., in the County of Ottawa, State of Michigan, on the
25th day of February, A. D. 1932, at the opening of the Court on
that day, and that all persons interested in such lands or any part
thereof, desiring to contest the lien claimed thereon by the State
of Michigan, for such taxes, interest and charges, or any part
thereof, shall appear in said Court, and file with the clerk thereof
their objections thereto on or before the first day of the term of
this Court above mentioned, and that in default thereof the same
will be taken as confessed and a decree will be taken and entered
as prayed for in said petition. And it is further ordered that in
pursuance of said decree the lands described in said petition for
which a decree of sale shall be made, will be sold for the several
taxes, interest and charges thereon as determined by such decree,
on the first Tuesday in May thereafter, beginning at 10 o'clock
a. m. on said day, or on the day or days subsequent thereto as may
be necessary to complete the sale of said lands and of each and
every parcel thereof, at the office of the County Treasurer, or at
such convenient place as shall be selected by him at the county
seat of the County of Ottawa, State of Michigan; and that the sale
then and there made will be a public sale, and each parcel described
in the decree shall be separately exposed for sale for the total taxes,

of less than the entire thereof, then the whole parcel shall be
offered and sold. If any parcel of land cannot be sold for taxes,
interest and charges, such parcel shall be passed over for the time
being, and shall, on the succeeding day, or before the close of the
sale, be reoffered, and if, on such second offer, or during such sale,
the same cannot be sold for the amount aforesaid, the County
Treasurer shall bid off the same in the name of the State.

Witness the Hon. Fred T. Miles, Circuit Judge, and the seal
of said Circuit Court of Ottawa County this 6th day
of December, A. D. 1932.

Countersigned,
ANNA VAN HORSSEN, Deputy Clerk.
FRED T. MILES, Circuit Judge.

STATE OF MICHIGAN

To the Circuit Court for the County of Ottawa in Chancery:
The petition of Oramel B. Fuller, Auditor General of the State
of Michigan, for and in behalf of said State, respectfully shows
that the list of lands hereinafter set forth and marked "Schedule
A," contains a description of all lands in said County of Ottawa
upon which taxes were assessed for the years mentioned therein,
and which were returned as delinquent for non-payment of taxes,
and which taxes have not been paid; together with the total amount
of such taxes, with interest computed thereon to the time fixed for
sale, and collection fee and expenses, as provided by law, extended
against each of said parcels of land.

Your petitioner further shows to the Court that said lands were
returned to the Auditor General under the provisions of Act 246
of the Public Acts of 1929, as delinquent for non-payment of said
taxes for said years respectively, and that said taxes remain unpaid;
except that lands included in said "Schedule A" for taxes of 1929
or prior years were returned to the Auditor General as delinquent
for said taxes under the provisions of the general tax laws in force
prior to the passage of Act 246 of the Public Acts of 1929, and
which remain unpaid.

Your petitioner further shows that in all cases where lands are
included in "Schedule A" as aforesaid for taxes of 1929 or of any
prior year, said lands have not been sold for said taxes or have
been heretofore sold for said delinquent taxes and the sale or sales
so made have been set aside by a court of competent jurisdiction,
or have been cancelled as provided by law.

Your petitioner further shows that the taxes, interest, col-
lection fee and expenses as set forth in said "Schedule A," are
a valid lien on the several parcels of lands described in said
schedule.

Dated December 5, 1932.

ORAMEL B. FULLER,
Auditor General of the State of Michigan,
for and in behalf of said State.

SCHEDULE A

A list of the lands referred to
as included in "Schedule A" is on
file in the office of the County Clerk
and subject to public inspection.

When Right of Command

Was Won by Washington

When George Washington rode into Philadelphia on February 23, 1776, accompanied by his aide, Captain Mercer, he lacked some days of being twenty-four years old; but already he was a personage and important enough to have his visit mentioned in the following week's issue of the Pennsylvania Gazette.

He was on his way to Boston to confer with General Shirley, that the latter might determine the right of command between himself and Captain Dagworthy, who acted on a commission of the governor of Maryland. It was decided by the commander in chief of the British forces in America that Colonel Washington, as a provincial field officer, would be in command at Fort Mifflin. That decision gave him the supreme satisfaction of having his contention ratified by authority.

A long and expensive journey was required to settle this disagreement, but Washington footed the bills for his aide and himself and appears to have enjoyed his sojourn in Philadelphia, New York and Boston.—Philadelphia Ledger.

"Kit" Carson More Than

Average Hardy Pioneer

Christopher ("Kit") Carson was born in Madison county, Kentucky, on the day before Christmas in 1809. While he was a baby the family moved to Howard county, Missouri, and he became inured from his cradle days to the pioneer perils and privations. He grew up as a hunter and trapper, and at the age of twenty-four was appointed hunter to Bent's fort, where he remained for eight years and then was engaged as a guide by Fremont in his expedition across the plains, and over the mountains.

In 1847 Carson was sent to Washington with dispatches and received an appointment as lieutenant of the United States rifles. In 1853 he drove 8,500 sheep over the mountains to California, and on his return to Texas was appointed Indian agent in New Mexico. He was the means of bringing about a number of important treaties between the government and the Indians. During the Civil war he was brevetted a brigadier general, and rendered good service to the government in the Indian territory. He died at Fort Lyon, Colo., May 23, 1883.

Honey in Biblical Times

How useful as an article of food honey was in olden times before sugar had been discovered, and honey was practically the only sweetening thing easily available, we can hardly imagine in these luxurious days. A bit of honeycomb was the greatest delicacy most houses could afford in our Savior's time, and it was what was timidly but gladly brought forth when the Risen Lord wanted to give proof that his Resurrection Body could eat, as could a natural body. "And they gave him a piece of a broiled fish and of an honeycomb. And he took it and did eat before them" (Luke 24:42, 43). So were the disciples taught that he who had died and was now alive again, and afterwards ascended into Heaven, still retained his mortal body which had been born of the Virgin Mary.—Montreal Family Herald.

Michigan winter sunshine cannot be used to cure hay but County Agent A. D. Morley says it is the best kind of weather for curing some of the troubles which are sure to occur during the next harvest season if the haying equipment is not repaired and adjusted before the rush of farm work starts. A meeting has been arranged at which A. J. Bell, Specialist in Agricultural Engineering from Michigan State College, will show Allegan county farmers how to repair and adjust a mowing machine so that it will be in first class shape for next summer's hay crop.
