Head stones for soldier's graves are
furnished free by the government.
The grave of any veteran of the Civil,
Spanish or Philippine wars will be
marked by a marble headstone bear-
ing the name of the deceased, his
rank, company letter, regiment and
the state in which he enlisted. The
government delivers the stones at
the nearest railroad station, free of
charge, and the family must move
them to the cemetery and install
them at their own expense, which is
comparatively trifling.

The S. A. A. basket ball team went
to Holland Wednesday night to take
another lesson in the game. The result
of the game was, first half: Hope, 17;
S. A. A., 1; second half: Hope, 24;
S. A. A., 7; total: Hope, 41; S. A. A., 8.
The second half showed a marked im-
provement in the play of the Sanga-
tuck boys. Their principal fault is
lack of aggressiveness, due to wrong
practice at the start, and which is
very hard to overcome. More games
will be played in the near future.—
Saugatuck Commercial.

Grand Rapids has already begun
calling Holland its southern suburb.
Holland considers Saugatuck its
southern boundary and Saugatuck
has always looked upon Douglas as a
part and parcel of its territory. Fig-
uring in this way Grand Rapids and
this village are one, which easily ac-
counts for the peculiar atmosphere
which has hovered over this vicinity
for the last month. Con. DePree,
manager of the Holland ball club, has
selected his team for the season and
predicts that the Twin-City boys will
look like 30 cents when they get hold
of them. Con had the same idea last
year.—Douglas Record.

True Economy

The difference in
cost between an alum
baking powder and
the highest-class
cream of tartar bak-
ing powder would not
amount for a family's
supply to one dollar
a year.

Dr. Price's is the
standard cream of tar-
tar baking powder. It
makes the food de-
licious and healthful.

NOTE.—You cannot, if you
value good health, afford to
use cheap, low-grade, alum
baking powders. They are
apt to spoil the food; they do
endanger the health. All
physicians will tell you that
alum in food is deleterious.

The date of the West Michigan
band concert has been fixed at Wed-
nesday evening, March 12.

Will Get Ten Cents More.

The H. J. Heinz company is nearly doubling the capacity of its plant in this city, which is the largest except one west of Pittsburgh. The company was unexpectedly successful in securing tomato and pickle acreage for this season's run and already has more contracts than last year, with prospects of securing twice as many. The enlargement of the factory will make the acreage it can handle almost limitless. An advance of 10 cents per bushel on pickles will be given the farmers on pickles this year.

One Million Pounds

Warner, secretary of state and president of the state Dairyman's association, has just secured the Joliff cheese factory at Plymouth, the second largest plant in Michigan, and will operate it in connection with his five other factories located respectively at Northville, Novi, Farmington, Franklin and Springbrook. This additional factory will make Mr. Warner's yearly output of "Oakland County Cheese" about 1,000,000 pounds.

Fire from a stove pipe destroyed the residence of C. Claus Tuesday afternoon together with all the furniture, two dogs, etc. This makes the third house burned to the ground from stove pipes since last year in this vicinity and is a warning to other people who have houses without chimneys. We should do all in our power to aid Mr. Claus and his family to an extent that they can rebuild.

Indications appear that the Methodists will be successful in erecting a church some time during the year. They will probably get the land and organ free and also money from outside. A union church would be all right too, if quarrelling was expelled from the creed.

Frank Peck and Abe Boyer, Jr., spent a couple of days in Grand Haven this week.

Our exchange says that a sea bear, seen one day last summer down near the lake has turned out to be nothing more or less than a naked man bunting for his clothing which was stolen from him while he was swimming.

Miss Flora Boyce returned to Moorland Friday after a two weeks visit her parents, Mr. and Mrs. Wm. Marble.

We should oppose strong drinks for two reasons. First, that it is a sin against God according to the Bible, and second it has a great deal to do with crime. Therefore it is also a sin against the law of man and all sensible men that have a respect for the law should do all in their power to aid prohibition.

Miss Van Dyke was surprised by a party of 22 people from Grand Haven one evening last week. The correspondent, however, does not call it a surprise party because our teacher was notified once before that a crowd was coming with a sleigh which was bounded on all sides in snow banks and then had to return. Denver, Colorado.

To friends and readers of the HOLLAND CITY NEWS: I see brother correspondent of West Olive has woke up and asked to hear from Colorado and I expect he means me, although there may be others who are enjoying the pure mountain air like myself. Well I am busy every day in the engine room. I have not missed an hour since I commenced work, am getting along first rate but get lonesome at times.

I see you have had some bad weather there. We have fine weather here although I went to work at 6 o'clock in the morning a few times when it was 20 below zero but didn't feel it, it is so dry. I haven't seen a sleigh yet. Sorry to hear of Pete Kramer having bad luck. Old Port Sheldon must be dead since the hustler, as the Times correspondent of West Olive once called him, left.

This state is now booming with big oil fields. They are having good luck. They expect a lot more of eastern people here next summer, fully fifty thousand visited Colorado last summer. There are some grand sights to be seen here and good pure air to build up anyone.

Denver is booming and Denver is alright. Some bad people and lots of good ones here. Lots of good schools and churches all through Colorado. I am deeply interested in Y. M. C. A. They have a fine building and good meetings and they help lots of strangers who come here and have nowhere to go. I would like to hear of some of my young friends at home joining them, then no matter where you go you have a place to go where you are welcome. Your old friend, CHRIS COOK.

"In three weeks our chubby little boy was changed by Pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, O. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. Mortgage Sale

Default having been made in the conditions of payment of a certain mortgage, given by Emulous Brown of the township of Olive, Ottawa County, Michigan, to John D. Everhard and George E. Kollen, of Ottawa County, Michigan, dated the fourteenth day of April, A. D. 1899, and recorded in the office of the Register of Deeds of Ottawa County Michigan, on the 17th day of April A. D. 1899 in Liber 59 of Mortgages on page 197 on which mortgage contains a power of sale that has become operative by said default; which also contains a stipulation that in the event of non-payment of the principal sum and the interest, or any part thereof, at the time and in the manner and at the place specified in said mortgage to be made, then the interest thereon shall become principal and sixty days thereafter the whole amount shall become due and payable. And whereas default has been made in the payment of the principal and the interest, as set forth and specified in said mortgage, and part of said principal and said interest has been in default for more than sixty days after the same became due and payable, therefore the entire amount of three hundred sixty six dollars \$366 has become due and payable, together with twenty-five dollars attorney fee, provided for by law and in said mortgage; and no suit or proceedings at law or in equity having been had to recover said amount so due or any part thereof. Now therefore, notice is hereby given that said mortgage will be foreclosed by the sale of the mortgaged premises at public auction, to the highest bidder, on the third day of March, A. D. 1902, at three o'clock in the afternoon of said day, at the north front door of the Ottawa County Court House, in the City of Grand Haven, Ottawa County, Michigan, to satisfy said sum due on said mortgage, with costs of foreclosure and sale.

Said mortgaged premises are situated in the township of Olive, Ottawa County Michigan and are described as the northeast quarter of the southeast quarter and the southeast quarter of the southeast quarter of section 6, township 6, north of range 15 west, containing 60 acres of land.

Washington, Feb. 18.—The unexpected happened in the house yesterday when the bill to repeal the war revenue taxes was passed unanimously, without a word of debate.

[The war taxes, the repeal of which was voted by the house, produced a revenue from July 1 to December 31, 1901, of \$27,362,572, and for the current fiscal year would have produced about \$77,000,000. The distribution of these taxes is as follows:

Schedule A, including all taxes on documents, insurance policies, bonds, certificates of stock, and similar matters,

man, was badly bruised about the hips. A number of other passengers were slightly injured. The wreck was evidently caused by Engineer Frew overlooking his watch or failing to remember the existence of the passenger train, which he should have cleared at Gifford.

PREDICTS WAR IN CUBA.

Dr. Lionel de Peau, Roosevelt's Physician After Battle of San Juan, Sees Trouble.

THE ISLANDERS REBEL AGAINST PALMA

Predicts a Revolution Between Whites and Blacks If He Becomes President—Declares Annexation Is the Only Solution of the Present Critical Situation.

Richmond, Va., Feb. 14.—"If Estrada Palma, the newly chosen president of Cuba, ever lands on that island there will follow immediately a revolution between the whites and blacks there, which will again tear the island to pieces."

This is the prediction of Dr. Leonel de Peau, now in this city, who was physician to Col. Theodore Roosevelt, now president, during the war in the island between the Spanish and American forces. Further, Dr. de Peau says that Palma was never wanted as president by the better element, and that the moment the United States troops are withdrawn there will be another conflict.

The Only Solution.

Annexation, says Dr. de Peau, is the only solution of the present situation in Cuba. Because of the tariff against Cuban sugar planters cannot move the crop. They have no money and no means of raising any without giving from 18 to 22 per cent. on it, and he thinks the spirit of internal dissension will tear the island to pieces again, and that the United States will be compelled to take possession.

Hope for Annexation.

This is what is desired by the better element, Spanish and Cuban alike, he declares, and he is now on his way to Washington to see President Roosevelt and tell him about the conditions on the island.

Senor de Peau came to the United States to see President Roosevelt personally in the matter of the loss of his family fortune in Cuba. Vast tracts of land which Spain never owned, he says, have been sold there, and among them the private interests of hundreds of residents of the island.

Now he says hundreds are starving on the island, the United States is pouring a flood of labor there instead of utilizing the labor at hand, and the result is that, although three years have elapsed since the close of the war, Cuba has made little progress, because of the fact that there is no money.

Predicts a New War.

"Further," said Dr. de Peau, "the situation there is growing worse. With the withdrawal of the American soldiers and the landing of Palma, if he is permitted to land, there will be a new war."

"The only relief that the United States can offer us outside of annexation is the rescinding of the present sugar tariff, so that planters who now have a great deal of sugar can ship it. Cheap immigration to Cuba should be stopped. We now have more negroes than we can handle, and we do not want any more. The importation of American negroes to Cuba has been one of the worst things we have had to deal with."

"Palma is not the president for us. The whites wanted Maso. Palma has not been there for years, and does not now know the conditions."

During the fighting around Santiago Dr. de Peau attended Col. Roosevelt during an attack of fever. He is one of the most noted physicians of Cuba.

Isn't it Worth 25c. To Be Cured of Constipation

People who suffer from habitual constipation with all its attendant ills, clogged stomach and bowels, sluggish liver, heartburn, indigestion, and thin and impure blood, are too apt to believe that the only remedy is violent purgatives. The contrary is the case. Such cathartics, even if they do move the bowels, are irritating and griping, leave the stomach inflamed and enfeebled and the constipated condition recurs with greater difficulty of cure and the sufferer constantly growing worse. There is a laxative that moves the bowels without pain or griping, cleanses the stomach, sharpens the appetite, stimulates the liver, strengthens the nerves, and purifies the blood, while its marvellous tonic properties tone up the entire system and keep it healthy.

Laxakola Does It

Its remarkable tonic properties reach every organ—the liver, kidneys and stomach, nerve, heart and brain—and removes the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure.

Laxakola is the only medicine for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevers, colds, chills and languid feeling it is the ideal medicine.

It tastes good. *Children like it and ask for it.*

Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 50c. and 80c., or send for free sample to LAXAKOLA CO., 125 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

Postpone Gas Question.

The gas franchise question will have to take a back seat this spring as it will not be submitted to a vote of the people by the city council. It gives way to the question of extending the water works and electric light plant. The matter came up for consideration at Tuesday night's meeting of the common council.

The committee on ways and means reported having had a conference with the board of public works, that they found the board of public works in favor of submitting to the voters of the city at the ensuing charter elections, the proposition to extend the water works and the electric light plant, the question of gas to be postponed for the present. The committee further reported that at the next meeting of the council they would present resolutions necessary to submit said propositions.

Report Adopted.

Edward M. Deane petitioned the council for a gas franchise. Referred to the committee on ways and means.

Will Get Ten Cents More.

The H. J. Heinz company is nearly doubling the capacity of its plant in this city, which is the largest except one west of Pittsburg. The company was unexpectedly successful in securing tomato and pickle acreage for this season's run and already has more contracts than last year, with prospects of securing twice as many. The enlargement of the factory will make the acreage it can handle almost limitless. An advance of 10 cents per bushel on pickles will be given the farmers on pickles this year.

After the Third Termers.

The Grand Haven Courier Journal is camping on the trail of the county officials who desire a third or fourth term as the following editorial will show:

"The two term slogan is going to be taken up by the Republicans of this county in the coming campaign. The rights of young Republicans growing up, and of the older ones who have worked for the party in many hard fought campaigns, and whose services have never been recognized properly, will be respected in the county campaign now upon us.

Ottawa county is one of the few counties in Michigan that does not follow the "two term" idea. In nearly every other county in our state when an office holder has occupied the place two terms, party precedent and unwritten law, compels him to step aside, whether he wants to or not, and give others a show for the plums of the party.

It is high time the two term idea should take root in Ottawa. In 1900 the Republican candidate for president, the beloved McKinley, received 5,324 votes in this county. There are really but seven offices in the county that are sought after. They are the positions of probate judge, sheriff, treasurer, clerk, register of deeds, prosecuting attorney and school commissioner. The other county elective positions are minor ones and pay no particular salaries.

And yet of these seven offices named, three men are holding their third term. One of the four remaining would like a third term.

Is it right? With only seven county offices three men are third termers and one wants to be. Two are striving for a fourth term.

We have 5,324 loyal Republicans in this county. It is safe to say that one-tenth of that number would make good official timber. And yet they are hurried by politicians who seek third and even fourth terms, with only seven offices that amount to any thing to be passed around."

President Kruger Doesn't Ask For Intervention.

It is said that the desire to keep secret the departure of Dr. Mueller, the former consul of the Orange Free State in Holland, for the United States was so keen that the Boer emissary booked his passage under an assumed name.

Mr. Kruger's letter to President Roosevelt, of which Dr. Mueller is the bearer does not appeal for intervention but expresses regret that he is unable at present to personally congratulate President Roosevelt on his accession to office, and concludes with a gratified allusion to the numerous invitations to visit the great republic which have arrived, and are still arriving.

Besides reorganizing the Boer propaganda in the United States Dr. Mueller will direct his efforts principally to obtaining government prohibition of the exportation of articles regarded by the Boers as contraband of war, thus indirectly eliciting an opinion on the war from the United States government.

Dr. Mueller is supported by wealthy Boer sympathizers in Europe and has great hopes regarding the result of his mission.

Agricultural College, Mich.,
Feb. 17, 1902.

To the Editor:

The daily press has announced that there is a case of smallpox at the Agricultural College. I hope that no one will stay at home from the Round-up Institute at the College, Feb. 25-28, fearing exposure to this disease. A suspected case has been kept in quarantine for four weeks, but there is now not the slightest danger of smallpox at the College or in Lansing.

C. D. SMITH,

Superintendent of Institute.

Sheldon in Talked Politics.

Sen. Sheldon, formerly of this city, but now of Ottawa county, who had the honor of representing this county in the state senate, was in the city today and he took occasion to look over the local political horizon a little. "Things are very quiet in our locality," he said, "and there is little stirring politically. We hear that Senator Kelly of Muskegon will not be a candidate for another term and that a Mr. Bolt is being pushed in Muskegon to succeed him, but that cuts but little figure down our way, because the nomination for senator properly belongs to Muskegon county this time. From the time when the two counties were first organized into a senatorial district by themselves it has been understood that the senatorial nomination would alternate every four years between them. Muskegon has had but one term and is entitled to another."

The name of Representative Alward of Ottawa has been mentioned in connection with the senatorial nomination, but Mr. Sheldon says that in spite of his utterances in this city last week, Mr. Alward has declared himself out of the race for anything politically and signified his intention to retire. Millard Durham of Coopersville, a well known business man of that place, is mentioned as successor in the legislature to Mr. Alward. The latter has had three terms and his predecessor, Mr. White, had two terms, and ten years is about all that Georgetown township is entitled to, according to the view of residents of the other townships in that district.—G. R. Press.

The above cut gives an idea of the main plant and general offices of the H. J. Heinz Co. at Pittsburg. The company was founded 33 years ago in a suburb of Pittsburg, and the first business was done on three-quarters of an acre sown with horseradish. At the present day the expanded company is planting 18,000 acres with its own seeds and gathering the fruits of many thousands of acres more. It employs over 2,500 workers.

Tanner Will Ferry.

Albert Tanner, the well known ferryman who ran the boat livery and ferry line on the government pier last summer, will continue the business despite the efforts of the Macatawa Park association to restrain him. The injunction brought by the association has not been definitely adjudicated but an important step has been taken whereby Mr. Tanner may continue to ply between the piers and the Ottawa dock for the accommodation of those who wish to patronize him.

His attorney, A. C. Dennison, of Grand Rapids, appeared before Judge Padgham at Allegan last week and called his attention to some of the salient facts of the case. The judge thereupon issued an order modifying the temporary injunction. According to this modification the injunction is now limited to the premises occupied by Mr. Tanner and does not apply to his actions in any other place. He is simply called upon to observe the contract he signed when he leased the lot upon which he built the house.

The order means in substance that the temporary injunction as first issued was too broad. It does not settle the rights of the controversy. But it leaves Mr. Tanner in the position he was in last summer, and that is all that Mr. Tanner desires. He never claimed the right to transact business on the property leased from the association. He simply claimed the right of doing business on the government piers and did so under permission granted by the United States government. He can continue to carry on business upon the piers and upon the public waters without violating the modified injunction. The preliminary injunction as modified still stands.

but the complainants are really placed on the defensive as they must bring the matter up by motion and then both sides of the case can be heard. The burden of haste now rests on the Park association and if they still wish to try to force Mr. Tanner out of business they must take the next steps.

In the meantime Mr. Tanner will keep on ferrying, selling bait and renting boats. The modifying order says in substance:

"It is ORDERED, that the preliminary injunction issued in this cause be and is hereby modified so that the defendant shall continue to be enjoined only 'from using said premises for any purpose except residence purposes, or for any business whatsoever, or for any purpose detrimental to the interests of said Park association,' that to this extent the preliminary injunction continue in force and that in so far as it otherwise or further enjoins the defendant, it be vacated."

Lillie Has Landed a Plum.

Michigan senators have agreed with the department of justice to have Walter L. Lillie of Grand Haven appointed assistant United States district attorney for the Western district of Michigan in place of Assistant District Attorney Dwight Goss of Grand Rapids. Mr. Goss will retire from the office next week and Mr. Lillie will be installed in his new position in time to become acquainted with the business of the department in time for the March term of court, which will begin March 4. This change has been made after a long understanding between District Attorney Cavell and Mr. Goss through which it was expected to take place

a week or more ago. In connection with the proposed change is the announcement that the salary of the office is to be increased. The present salary of assistant district attorney is \$1,800, but Mr. Cavell said that the salary under the new schedule will be \$2,000.

Smallpox in Grand Haven.

Grand Haven has a case of smallpox. Edward Dake, of that city caught the disease in Muskegon and is now quarantined at his home in Grand Haven.

Grand Haven took time by the forelock some months ago and had a pest house constructed. The move was a very wise one as the appearance of smallpox in town justifies all that has been done looking toward combating the disease. Not in over 25 years has there been a case of smallpox in that city. In the '60s there was a serious epidemic there and many died. In the '70s there was also a number of cases. Now that the smallpox has appeared so near it is prudent for Holland to take precautions against the disease. Vaccination should be encouraged.

Mayor Bruce is ready to take steps to keep the disease out of Holland and it is likely that a meeting of the board of health will be called to discuss the matter and make plans.

Singular Almanac Regarding Crime.

Very curious is the almanac which has been published by a foreign criminologist. It is entitled the "Almanac of Crime," and its object is to indicate those periods in each year when the various crimes are most likely to be committed.

Here are some extracts:

"Murder—Many cases of this crime occur in August, January and June; few in February, November and December.

"Infanticide—Dangerous periods are February and May; very few cases occur in September and December.

"Poisoning—May is the favorite month for criminals of this type; during September as a rule they remain absolutely idle.

"Threats of death—Many such threats are made in August and few in February, May and November.

"Forgery—During April, October and December forgers are most busy, and also during the first days of every quarter and the last days of every year.

"Theft—More crimes of this kind are committed in December and January than during any other months of the year.

Fans Just Waiting.

The Holland base ball fans are just waiting, waiting for the springtime, waiting for the balmy April days. They have nothing else to do, for the work is all done, the plans well made, and everything is in readiness for the first visiting club to come laden with bats, gloves and confidence and looking for trouble.

Practically a complete club of 12 has been signed and it is composed of names to conjure with. All of the old favorites will be in the game and a couple of new ones that will force the old timers to look to their laurels.

There may be a few changes before the umpire says "play ball" for the first game as several letters have been received from speedy men who desire to cast their lot with Holland. Con DeFree is the Sir Oracle who will proclaim the names of the men who will compose the team but he is not prepared to speak at present. When he does the followers of the game can begin placing their bets and unearthing their "joy sticks."

Hope College News.

Tonight, in Winants chapel, will take place the 5th annual oratorical contest of Hope college for the purpose of selecting the orator who is to represent Hope in the state contest to be held in May at Ypsilanti. That tonight's contest will be more enthusiastic and successful than those of previous years is not certain, in fact there are several reasons to believe that this will not be the case. And yet, though the students are rather dissatisfied because their efforts to make this contest the most successful one have been somewhat frustrated, they are, nevertheless, not discouraged, but are going to make the best of it possible under the circumstances.

The list of speakers first announced has, for various reasons, suffered several changes. The Freshmen class will be represented by Miss Caroline Judd and Mr. Rootman, the latter taking the place of Jacob Pelgrim. The Sophomore class which was to be represented by Messrs. J. Van Zomer and J. Brouwer, has withdrawn from the contest. The Juniors, who won both first and second place last year, will this year be represented by Messrs. N. Hesselius and P. Grooters, the latter taking the place of W. H. Cooper, and the seniors will have as their representatives Messrs. J. Van der Beek and J. Winter.

Through the kindness of the faculty the college exercises were suspended today to enable the students to make suitable preparations for the occasion. The preparatory students as well as those of each class represented are doing everything they can to encourage their favorite orators and the public may be assured and at the same time warned that enthusiasm will run high.

The exercises will begin promptly at 7:30, Henry DePree presiding. The following program will be carried out:

Invocation.....Prof. J. T. Bergen.
"The End to be Attained".....Z. Rootman.
"The Disfranchisement of the Negro".....Miss Caroline Judd.
Music.....
"The Student and Music".....John Winter.
"John Brown".....John Van der Beek.
Music.....
"Patrick Henry".....Ned E. Hesselius.
"Webster and the Union".....Peter Grooters.

BASKET—(FOOT) BALL.

Last Wednesday evening the Olympics tried to play basket ball with a detachment of the Holland Foot Ball Team and the game, as a basket ball game, was a complete fizzle. The Olympics do not deny that they were defeated as to the number of points made, the score of 13 to 7 against them plainly shows this fact, and moreover the forfeiting of the game to the city team during the second half gave them the victory by a score of 3 to 0. The city team is entitled to the honor, if they so consider it. However, the Olympics do claim that they played the game according to the requirements of the official rules,

with which they ought to be at least somewhat acquainted, having played the game together for two seasons whereas "the members of the city team, with the exception of Mr. Damson (as they themselves write) are entirely new to the game; but all are old foot-ball players and realize that their only chance lies in making up in aggressiveness and fighting spirit, what they lack in team work."

The fact that 22 foul-plays were made by the city team is enough evidence that the game was too rough on their part; and consequently savored too much of foot ball. At least the fact they were all foot ball players was very evident. But foot-ball tactics, and individual strength without team work find no place in basket ball.

It can be readily understood that the Olympics through two seasons of playing are more or less trained and accustomed to play according to a strict interpretation of the rules. They do not profess to be foot-ball players and consequently were not able to cope with the force of their opponents.

The Olympics desired a clean, fair game and seeing that this was impossible under the circumstances they forfeited the game. Let it be understood that they do not at all disown their defeat, but they do disown that it was administered by means of fair clean basket ball tactics and team work.

Candy was king on Eighth street Tuesday noon. A team of horses driven by Thomas Kraai, a New Holland merchant, became frightened and attempted to run away. Washington, Feb. 19.—When Mrs. Fairbanks, president-general of the Daughters of the American Revolution, called the convention to order Wednesday, but few of the delegates had arrived, and it was some time before anything like a fair representation of the society was present. Mrs. Layton, of New York, demanded the reading of the minutes of Tuesday's proceedings, and much time was consumed in this detail. Mrs.

Large Band of Insurgents in Batangas Province, Philippines, Gives Up the Struggle.

Manila, Feb. 19.—What is believed to have been the largest existing band of insurgents in Batangas province surrendered Tuesday to Lieut. Charles D. Rhodes, of the Sixth cavalry, at Banan. Maj. Amoranto, two captains, six lieutenants and 98 Filipino soldiers gave themselves up, and also surrendered five revolvers, 66 rifles and 2,000 rounds of ammunition. Rhodes had been hunting the insurgents from place to place for three weeks, and continually destroying their supplies. They were virtually starved into surrender.

The skeletons of five soldiers of the Thirty-ninth infantry, killed in November, 1900, have been recovered. They will be shipped to the United States.

An invitation to the congress from the South Carolina delegates that they attend the Charleston exposition on South Carolina day was adopted with thanks.

Miss Mickey, the registrar-general, reported that during the year 3,814 members have been added to the rolls, including 49 actual daughters of revolutionary soldiers. The society has obtained the military records of thousands of soldiers. There were issued 2,649 certificates of membership, 1,600 permits for insignia; 70 permits for ancestral bars. More than 50,000 additional lines of descent have been approved and verified, "which the society holds in equal honor the service of a private soldier, minute man, teamster, officer, committeeman or signer of the Declaration of Independence." The society has 395 descendants of 49 signers of the Declaration of Independence and has in preparation a reference list of their children, as also of the brigadier generals of the revolution. The society, the report says, has grown to such numbers that the authenticity of the records has become of vital importance. The report also called attention to the proper limit of the revolutionary period and recommended the adoption of a resolution that the revolutionary period shall be held to extend from the resistance of the stamp act (1765) to the treaty of independence in 1795. The report paid tributes to the surviving daughters of the revolutionary patriots and advocated their enrollment as honorary members. Miss Mickey in her report announced her resignation as registrar-general on account of consideration of private interests.

REPORT WAS PREMATURE

Miss Stone, According to Best Advice, Has Not Yet Been Released.

DISPATCH FROM PARIS NOT CONFIRMED

State Department's Information Shows That While the Missionary Has Not Yet Been Given Her Liberty, Her Release Is Imminent—Explanation of the Delay.

Washington, Feb. 19.—The state department's advice concerning Miss Stone indicates that the Paris publication to the effect that she had been set at liberty is to say the least, premature. It is gathered, however, from the reports of the United States diplomatic agents that the woman is likely to be released very soon and that the delay is explained by the requirement of the brigands that they be given ample opportunity to insure their own safety.

Miss Stone Reported Released.—Paris, Feb. 19.—The Temps publishes a dispatch from Constantinople which announces that Miss Ellen M. Stone has been released by the brigands who have held her captive since September 3 last, and has been handed over in good health, to the dragoman of the American legation. The dispatch adds that "Rev. Talika" has been arrested on the charge of complicity in the kidnapping of Miss Stone.

Mme. Talika's Husband.—London, Feb. 19.—"Rev. Talika," who, according to the Constantinople correspondent of the Paris Temps, in a dispatch announcing the release of Miss Stone, had been arrested on the charge of complicity in the kidnapping of the missionary, is the husband of Mme. Talika, Miss Stone's companion. It was announced recently that the Turkish authorities suspected "Rev. Talika" of complicity in the abduction of the missionaries.

Says Bandits Are Macedonians.—The Daily Mail quotes Spencer Eddy, secretary of the American legation at Constantinople, as confirming, on the eve of his sailing for New York on the steamer Kronprinz Wilhelm, the statements that Miss Stone's abductors are Macedonian revolutionists. They had expended in telegrams, negotiations, and in transporting their prisoners from place to place an amount of money that no brigands were likely to control. Their extraordinary delay in coming to terms was owing to their extreme ignorance, they being genuinely convinced that everybody in the United States customarily goes about with from \$40,000 to \$50,000. Hence they regarded the proposed ransom as a mere bagatelle, and being unable to obtain even that they doubted the good faith of the negotiators.

WOULD STOPSTRIKES.

Arbitration Committee of Thirty-Six Meets at New York with Senator Hanna in Chair.

New York, Feb. 19.—The first meeting of the arbitration committee of 36, appointed through the National Civic federation to arbitrate labor troubles, was held Wednesday with Senator Hanna in the chair. The meeting was in executive session. Nearly all of the 36 members of the committee were present. The object of the gathering was to receive a report on a working plan by which strikes, lockouts and other forms of disputes between capitalists and workmen may be dealt with.

Archbishop Ireland, of St. Paul; Bishop Potter and Samuel Gompers, president of the American Federation of Labor, attended the meeting. Charles M. Schwab, president of the United States Steel Corporation, was unable to be present.

Mob After a Negro.

Winona, Miss., Feb. 19.—A large party of citizens are pursuing Tom Brown (colored) who Wednesday morning shot and killed Mert D. Williams, son of a Baptist minister. Williams was a spectator at a negro dance and quarreled with Brown, who, after securing a revolver, shot, killing him instantly.

Oliver Bibb, a negro who gave Brown the pistol with which Williams was killed, was called out of his house later and riddled with bullets by persons unknown.

Cleveland, O., Feb. 19.—That public interest in the McKinley National Memorial is on the increase is evidenced by the ever growing volume of letters and telegrams received at the headquarters of the National association in this city. Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St., New York. 50c and \$1. all druggists.

DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By dealers, agents, etc., and in a few instances as a premium for subscriptions to papers. Announcements of these comparative

reprints are very misleading. They are advertised to be the substantial equivalent of a higher-priced book, while they are all

phototype copies of a book of over fifty years ago, which was sold for about \$5.00, and which was much superior to these imitations, being a work of some merit in its day.

Long Since Obsolete.

The Webster's Unabridged Dictionary published by our house is the only authentic one of that name. It bears our imprint on the title-page and is protected by copyright from all other editions.

A Case Of It

MANY MORE LIKE IT IN HOLLAND.

The following case is but one of many similar occurring daily in Holland. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence. Mr. Garret Kopenga, living five miles east of Holland, farmer, says: "I have been subject more or less all my life to attacks of kidney pains and backache. If I caught cold or strained myself I am doing any unusually heavy work I was sure to be laid up for a time. The attacks came on at intervals and were very severe, so that it was almost impossible for me to bend over and if in a stooped position I could scarcely straighten again. I tried a great many different remedies and wore plasters but could get nothing to remove the trouble until I saw Doan's Kidney Pills highly recommended and went to J. O. Doesburg's drug store in Holland and procured them. My back was hurting me severely at the time but it required only a few days treatment to relieve me and in a short time the aches and pains were entirely removed."

SANITARIUM BURNED.

Big Institution at Battle Creek Reduced to Ashes—All Inmates Saved but One—Loss Is Heavy.

Battle Creek, Mich., Feb. 19.—The Kellogg, or Seventh Day Adventist, sanitarium here, which was located on a hill at the highest point in the city, was destroyed by fire early Tuesday.

The total property loss will reach nearly half a million dollars, divided as follows: Main building, \$250,000; hospital, \$125,000; furniture, etc., \$65,000; loss to guests, \$45,000. The insurance on the sanitarium property is placed at \$160,000.

The fire started in the bathroom of the sanitarium building, probably about the furnace. A still alarm was turned in, but the first company of firemen called could not cope with the flames, which shot up the elevator shaft to the roof like rockets. A general call was sent in, but the fire was beyond control. The water pressure was low and this added to the handicap of the firemen, as the sanitarium stood on a hill.

In two hours the building was in ruins and the hospital was destroyed. It is almost miraculous that the 400 sleeping inmates escaped with their lives. Watchmen darted through the corridors awakening them when the fire was discovered. Few of them had time to gather together any clothing, escaping in their night clothes.

It is now supposed that one life was lost. The missing man is Abner Case, aged 83, of Bath, N. Y. Mrs. Case, who was at the sanitarium with her husband, escaped. She said she supposed the nurse who was attending her husband succeeded in getting him out. His remains have not been recovered.

Thrilling escapes were many. Ira D. Sankey, the well-known evangelist, and his wife were nearly burned to death. Mr. Sankey was on the ground floor in the office of the building when he was notified that the floors above were on fire. He rushed upstairs to rescue Mrs. Sankey, and succeeded in getting safely back with her, though they were barely able to make their escape down the stairways before the flames closed behind them. A great many of the evangelist's manuscripts, which he was preparing for publication, were destroyed, with all his personal effects. The guests, with few exceptions, lost everything, very few even saving wearing apparel. All the schools, resorts and public and private buildings in the city were thrown open to them and all are comfortably housed. The board of managers of the sanitarium met Tuesday morning and unanimously decided to rebuild as soon as possible. Meantime the work of the institution will be carried on in the other buildings and cottages owned by the company.

MUST FACE ANARCHY.

Lord Minto, in Opening the Canadian Parliament, Suggests Cooperation to Check Crime.

Ottawa, Ont., Feb. 14.—The speech from the throne at the opening of the Dominion parliament contained statements of more than ordinary importance. Referring to the death of President McKinley, Lord Minto said:

"The assassination of President McKinley elicited a universal feeling of sympathy and sorrow throughout the civilized world, and though Canada has happily so far been free from crimes of this character, the close proximity to the United States may make it advisable to join our efforts to the efforts of the United States and other nations and to provide by legislation for the adequate punishment of those who, either by speech or writing, incite fanatics to the perpetration of such horrible crimes."

Lived to Be 103 Years Old.

FARM GARDEN

SMOKEHOUSES.

The Simple Essentials of a Good House—Plans For Two Kinds.

A good smokehouse is one of the things which should be found on every farm whether large or small, remarks an Ohio Farmer writer, who gives the practical information here presented on building the same. The object is to expose meats to the action of creosote resulting from the imperfect combustion of wood or coals. All that is necessary for a smokehouse is a room from the size of an ordinary dry goods box to that of a barn which can be filled with smoke and shut up tight, with conveniences for hanging the articles to be cured. In common smokehouses the fire is made on a stone slab in the middle of the floor. In others a pit is dug, say a foot deep in the ground, and in this pit the fire is placed. Sometimes a stone slab is placed over the fire at the height of a foot or so.

The first cut is an illustration of a brick smokehouse, built over a cellar six feet deep. The roof is arched, and there is no wood about the structure except the door, and that may be iron. The floor of the structure is made of iron bars three inches wide and three-eighths of an inch thick set on edge about six inches apart so as to form a grating. Over these grates there are stretched No. 12 wires one inch apart. They are made for laying side pieces of bacon on during the smoking. The hams are hung upon inch round iron bars stretched across the upper part of the house. The ends of the bars are bent in the shape of a letter L, thus forming stays to the building. A few spaces are left in the front of the house over the door for ventilation. The arch should be thoroughly covered with about two inches of cement mortar, which will make a very good roof. The hams are hung upon wire hooks, which slide upon the rods. This house requires in building 3,000 bricks and two masons' labor for two days.

The second cut shows a section of a good, cheap and convenient house. It diffuses the rising smoke and prevents the rising heat of the fire affecting the meats hanging immediately above. It is not expensive to build and is generally satisfactory. It is of wood, with brick foundation, and should be plastered on the inside. It has a chimney, C, with an 8 by 12 inch flue, and a fireplace, B, which is outside below the level of the floor. From this a flue, F, is carried under the chimney to the middle of the floor, where it opens under a stone table, E.

In kindling a fire a valve is drawn directing the fire up the chimney. The green wood or coals are thrown on, and the valve is then placed so as to turn the smoke into the house. Both at the upper and lower parts of the chimney there are openings, G, G, closed by valves regulated from the outside. The door has to be made to shut very tight, and all parts of the building must be made tight. The advantage of such a house as this is that the smoke is cooled before it is admitted. No ashes rise with the smoke. Meats may be kept in it the year round without being very much smoked. One seven or eight feet square will be found a convenient size for family use. The table placed in the center will be found a great convenience in a smokehouse.

THE APIARY IN WINTER.

Provide a Windbreak and Face the Hives to the South.

Make some sort of a windbreak on the north and west sides of the beehives, advises F. G. Herman in The Farm Journal. Old boards or cull lumber of any kind will do. Make it a foot or two higher than the top of the hives. Bees can stand a great deal of freezing weather, but it is the cold winds that penetrate the hives and use up their vitality.

Even single walled hives will winter bees fairly well if they are placed on the south side of a barn or protected by a windbreak of some sort.

Have the hive entrances facing the south, so as to allow the midday sun to shine into them, and when the temperature is high enough the bees will take advantage of a cleansing flight. They will also be able to cluster to where the sealed honey is. At the beginning of winter the cluster is generally formed in the center of the hive near the bottom of the combs, where the last brood is hatched out. As the cold weather advances the cluster gets more compact and moves upward toward the top of the hive, eating up all the honey within their reach. Should they, however, reach the top of the hive before a warm spell comes, they will be sure to meet their death. Some writers claim that bees never freeze, they starve, for could they reach the honey they would keep up the necessary heat. We repeat, therefore, that it is absolutely essential to have the hives placed so as to get all the sunshine possible in order to give the bees every possible chance in moving from the center of the hive to one side or the other when the center combs have become emptied of honey.

Every spring we find some colonies that have starved with lots of honey in the outside combs. This danger is greatly augmented by using shallow hives, such as we use when working for comb honey. The taller the hive the less danger from winter losses, but, also, the less surplus honey. The important duty for every beekeeper is to study his locality and try to strike a happy medium between safe wintering and lots of surplus honey.
