Especially for Bracelet Wearers

## Prayer Service Set for POWs

An all-faith prayer service for POWs and MIAs of the Vietnam war will be held in Dimnent Memorial Chapel Sunday, Feb. 25, at 3 p.m., sponsored by local POW/MIA groups in cooperation with local churches and other organizations.

The all-faith prayer service will be of special interest to those who have been wearing POW/MIA bracelets the past year, and a special invitation is extended to all bracelet owners, many of them of school and college age.

The Rev. Fred Van Houten, pastor of Ninth Street Christian Reformed Church and World War II Army chaplain, will give the main meditation. There will be special prayers for thanksgiving, hope and intercession for those still unaccounted for, prayers for the families of imprisoned or missing men, and special tribute to those who died in captivity.

Local National Guardsmen in uniform will serve as ushers

and the VFW color guard will present colors as well as carry large sketches of some Michigan POWs which will be lined up in front of the chapel.

Barbara Veurink will serve as organist and the Holland Christian a cappella choir will provide music under the direction of Marvin Ritsema.

Invitations are being sent to all churches, to families of POWs in the area, state and local officials and to the public at large with emphasis to those wearing POW bracelets.

Among those arranging the All Faith Prayer Services are Mrs. Harold Ketchum of Holland, Mrs. Harry Oppenhuizen of Zeeland, Mrs. Floyd Nykerk of Hamilton, Mrs. Earl Kennedy of the VFW, Hope College Chaplain William Hillegonds, Rev. Van Houten and representatives of POW families in Kent county. Holland has no POWs or MIAs, and local promotion is worked out in cooperation with families nearby.

To Be Financed by Revenue Sharing

## Council Okays Downtown Beautification Program

City Council Wednesday night voted unanimously to proceed with implementation of the downtown beautification program as outlined by City Manager William L. Bopf. Several meetings of downtown merchants and interested persons had been held earlier.

The program will be financed by revenue sharing funds with costs estimated between \$50,000 and \$100,000, depending on its total scope and representing less than 4 per cent of the total revenue sharing budget over the next five years.

Bopf pointed out that the downtown area represents approximately 15 per cent of the community's valuation and that commercial and industrial taxpayers have a double burden with respect to their property, paying both personal property tax and real estate tax.

Other points:  
1. This beautification will generally be enjoyed by everyone in the community and will greatly enhance the beauty of this area.

2. The proposal should effectively eliminate truck traffic on this portion of Eighth St. At least, only trucks making deliveries should be in the central business district.

3. It should eliminate needless cruising and driving on Eighth St. since the traffic pattern will be drastically changed.

4. This area will provide a considerable amount of additional parking which would cost approximately \$150,000 to duplicate if parking lots were provided.

5. The amount of investment in this \$100,000 is a mere fraction of the amount already expended both by the Board of Public Works and the city in support of the Hedcor industrial complex.

6. The identity of the city will be enhanced by this beautification.

## Demands Hearing In Shooting Case

Sid Colby, 19, of 151 Central Ave., demanded examination at his District Court arraignment Tuesday to a charge of felonious assault in Sunday's shooting and wounding of Steve Alan Lawrence, 22, of 15475 Ransom St.

Colby was released on \$2,000 property bond pending a hearing.

Lawrence suffered a broken left leg when struck by a slug fired from a 22-caliber rifle during an incident at the Colby residence, police said.

Frank Lawrence, 22, of 523 Butternut Dr., charged with simple assault in connection with the same incident, pleaded guilty to the charge in court Tuesday and is to return March 14 for sentencing. His bond of \$100 was continued.

## Area Board Pushing For Skills Center

GRAND HAVEN — The Board of Education of the Ottawa Intermediate School District was informed at its monthly meeting Thursday that \$5,000 has been contributed to promote the election for a skills center March 8.

The board also was informed that the project has been receiving favorable comments through the district and that people see it as an opportunity to extend their local school offerings into over 30 vocational areas, assuring a salable skill before leaving high school. The program is designed for those students who do not expect to enter college.

The board also reviewed the first semester at the new trainable center for the mentally handicapped, finding that the program has received excellent reception. A surprise development was in enrollment, the present figure at 131, an increase from the 113 projected last summer.

The professional staff at the trainable center also was reviewed and those eligible were granted tenure. Those eligible to continue on probationary status had this status extended one year. Professional personnel are holding an election on MEA representation.

The resignation of Ken Burger, director of the Audio-Visual Center for the past 18 years, was accepted with regret. The resignation is effective July 1, 1973. Present usage of materials per month is greater in number than the entire year's usage 18 years ago.

The board was informed that the Ottawa - North Allegan area has been designated as a separate educational planning area by a committee of superintendents who were asked to recommend to the state board such a plan. The state board will consider this recommendation at the Feb. 27-28 meeting. Primary purpose of such a planning area is to make short and long range plans from kindergarten through community college level. Funding programs would be involved.

The board approved plans to proceed to spend the \$10,000 planning grant to write educational specifications for the skills center to be voted on March 8. Thirty-four craft committees are presently being formed to assist in developing their specifications. Experienced lay citizens are assisting.

The board was informed that a \$56,733 grant has been approved for shared - time vocational programs for the 1972-73 school year. This will reimburse local districts in full for expenses in having students from other high schools in the district to attend vocational classes.

DOCTOR OF HUMANE LETTERS — Dr. Gordon J. Van Wylen (left), president of Hope College, presents an honorary degree on U.S. Sen. Mark Odom Hatfield (R-Ore.) at a convocation today in Dimnent Memorial Chapel.

The senator spent the day on campus participating in a press conference, convocation and an afternoon panel discussion, all geared to "The Christian in Politics." (Sentinel photo)

## Hope Confers Honorary Degree on Sen. Hatfield

"For your courageous statesmanship . . . for your generosity in giving of yourself to noble and worthy goals . . . for being an example and model for all youth who aspire for that which is just, and honorable and true . . . for the grace of God which has been evident in your life in your commitment to Jesus Christ."

So read the citation of Hope College in conferring the degree of Doctor of Humane Letters upon U. S. Sen. Mark O. Hatfield of Oregon at a convocation today which filled Dimnent Memorial Chapel.

Sen. Hatfield, one of the earliest opponents to the United States' intervention in the Vietnam war, was spending the day on campus, participating in a press conference, convocation and an afternoon symposium, all geared to the theme, "The Christian in Politics."

A prominent Baptist layman, the Oregon senator said there always has been a danger of a "civil religion" in America, merging piety with patriotism and equating the Christian way of life to the American way of life.

"This includes the belief that God has blessed and chosen America as He did Israel . . . and that the Promised Land becomes the Perfect Land. Our faith must be in the Biblical God of justice and righteousness who is revealed in the scriptures and in Jesus Christ. Then we shall cease using the trappings of religion to sanctify the status quo . . . not

through nationalistic vain-glory, but in acts of humble love, service and justice," he said.

Sen. Hatfield dug deeply into history, reviewing the old Roman government, the Zealot movement, the first martyr Maximilian in the third century who was executed March 12, 295 A.D., and the "conversion" of Constantine in the fourth century which he said was motivated by political expediency rather than the work of the Holy Spirit.

Charging that the state used the church to justify its own existence and power, Sen. Hatfield said government still struggles with many of the early agreements spelled out by Constantine, and he admonished a prayerful examination that religious faith be not conformed to the culture of the 20th century of America.

"Today we need a 'confessing church' — people who are prepared to live by their confession. Let us be Christ's messengers of reconciliation and peace, giving our lives over to the power of His love. Then we can soothe the wounds of war, and renew the face of the earth and all mankind," he concluded.

Participating in the convocation were Hope President Gordon J. Van Wylen who read the citation; Hugh De Pree, chairman of the board of trustees who presented the senator for the degree; College Chaplain William C. Hillegonds and Dr. Morrette Rider, academic dean. Music was provided by the

chapel choir under Dr. Robert W. Cavanaugh. Roger Davis was at the organ.

## Man Held In Wounding Of Another

Holland police Monday held one man in connection with an alleged shooting incident early Sunday that wounded another man.

Held for arraignment was Sid Colby, 19, of 151 Central Ave., where the alleged incident was reported at 12:24 a.m. Sunday. Injured and admitted to Holland Hospital was Steve Alan Lawrence, 22, of 15475 Ransom St. He was listed in "good" condition today with a fractured left leg. Police said he was struck in the leg by a slug fired from a 22-caliber rifle.

Police said the incident apparently occurred at the rear of Colby's house and followed an argument that involved Lawrence, Colby, Frank Lawrence, 22, of 523 Butternut Dr., and another man, Frank Lawrence was released under \$100 bond on a charge of simple assault.

Police said Colby was being held to face a felonious assault charge. Officers said two or three shots were fired from the rifle before Lawrence was wounded. No other injuries were reported.

Most Liberal Policy Ever Offered

## South Shore Dr. Paving Opposed

No public hearing was scheduled on South Shore Dr. paving at the meeting of City Council Wednesday night in City Hall, but Council chambers were filled with some 60 persons, most of them South Shore Dr. residents.

So after City Manager William L. Bopf outlined the new plans for paving and a hearing was set for March 7, Mayor L. W. Lamb Jr., said the people might ask questions or express their opinions, either at this meeting or the hearing two weeks hence.

One person, Cotter Tharin, 1082 South Shore Dr., used an allotted five minutes. He presented a petition which he said was signed by 60 per cent of the property owners in the two-mile stretch of South Shore Dr. who are opposed to the paving.

He said he was not speaking for the petitioners, but only for himself when he personally preferred a road similar to the one west of Old Orchard Rd.

Then Mayor Lamb called for a five-minute break which lasted 15 minutes while people milled around, talking with Councilmen and studied sketches of planned improvements which ringed the walls of Council chambers. A table model of a stretch of South Shore Dr. showed a typical intersection. When the meeting reconvened after 15 minutes, there were no more questions or comments.

The plan for paving that Bopf presented calls primarily for a two-lane road from Plasman Ave., to Old Orchard Rd. Total cost is estimated at \$741,000 of which property owners would pay \$10 a foot amounting to \$184,321. The city's portion of the cost would be \$556,679. A bicycle path is listed as an alternate.

Major intersections would flare to allow a lane for left turns, and because there are several such intersections west of Myrtle, that section of the road would be 36 feet wide instead of 28. The normal road would be 25 feet wide with a 1 1/2-foot curbs on each side.

The road would be designed so that all street water would spill into the road drainage system as well as from the shoulders in some areas. Only three trees would have to be removed in the two-mile stretch. The bicycle path, if adopted, would wind around some trees.

Bopf said cost of the improvements would be \$70 to \$75 per linear foot, with property assessments at \$20, \$10 for each side.

"It is probably the most liberal policy ever offered the taxpayers of Holland," he said. The public hearing is scheduled March 7.

That also is the date of a public hearing on paving Prospect St. between 22nd and 24th Sts. Because the street borders on a city park, the city's share of the \$22,000 estimated cost would be about \$20,000.

And because Council has adopted a policy of \$10 per front foot for paving in the city,

costs were adjusted for paving corner lots. When the short side is paved, it will be \$10 per front foot. Paving on the long side will be calculated on the basis of one-half the length up to 132 feet, plus 100 per cent of the remaining footage on the balance of the lot. This new adjustment is effective immediately.

## New Aerial Fire Truck Gets Okay

City Council okayed the purchase of a snazzy new aerial fire truck Wednesday night—as well as a van type truck to be used as an emergency vehicle for the fire department.

Both vehicles will come in the latest color for fire trucks—sort of a lime green with chartreuse overtones. Fire engine red gave way to yellow some years ago, and now the color is green. But the flashing lights will remain red.

The aerial fire truck will be purchased from the Sutphen Fire Apparatus Co., the only company to meet all specifications in its bid. The cost is \$135,336, to be paid from revenue sharing funds. The Sutphen bid was described as the best bid of the three submitted, City Manager William L. Bopf said.

Mayor L. W. Lamb Jr. pointed out that more than two years of study has gone into the purchase of a new aerial truck, and that some Councilmen had taken time out to visit the factory. One model was in Holland a short time ago for demonstrations.

Delivery is slated in 18 to 24 months.

City Manager Bopf said the new green is not particularly pleasant but has an improved safety factor and is recommended.

"Do the firemen like green?" one Councilman asked.

"They have no preference. They want a new truck," Bopf replied.

The 1973 model step-van truck will be purchased from De Nooyer Chevrolet for lowest of four bids submitted.

School Superintendent Steps Down July

## Peter A. Lamer To Retire at Hamilton

HAMILTON — Peter A. Lamer announced Tuesday his retirement after eight years as superintendent of Hamilton Public Schools effective July 1, ending 39 years in education and administration.

Lamer, 61, a graduate of Zeeland high school and Western Michigan University, did graduate studies at Northwestern University in Evanston, Ill., the University of Michigan and Western Michigan University. He was superintendent of Gull Lake schools before coming to Hamilton.

Prior to Gull Lake, Lamer was superintendent of schools at Climax-Scotts, Harper Creek and Wattles and he taught in one-room country schools in Barry County for eight years.

While in Hamilton, Lamer saw the district grow from 1,400 students to the present 1,900 enrollment. The district expanded from 110 square miles to 150 square miles and increased in valuation from \$19 million to \$44 million.

The biggest change Lamer saw was the elimination of one and two-room schools in about 1968 through a modernization and expansion program.

The new Blue Star elementary school was constructed and additions were completed to the Hamilton and Sandy View schools. Annexation brought in the Benheim and Burnips schools.

Phased out were such schools as Beeline on M-40, Russcher,

Peter A. Lamer

Sunnyside, Westwood and Elmwood.

Today the elementary schools accommodate grades kindergarten through six while the junior-senior high building has grades seven through 12.

After retirement Lamer says he hopes to travel and perhaps do some volunteer work with the Reformed Church missions. He is a member of the Haven Reformed Church in Hamilton, Lamer and his wife, Rachel, have two children; a son, Norman, an architect in Kalamazoo, and a daughter teaching in the Parchment schools near Kalamazoo.

300-Acre Year-Around Development

## Seek to Develop Carousel Region

By Paul Van Kolken

A 300-acre year-around recreational development with Lake Michigan beaches, winter skiing, indoor tennis and up to 1,881 living units is proposed for the Carousel Mountain area in Allegan County's Laketown Township.

The \$52 million development is proposed by Carousel Recreational Equities Inc., for the wooded land generally north of Castle Park to and from 66th St. west to Lake Michigan.

In addition to the living units, the total project includes an indoor tennis and recreational facility, a shopping area and service station and convention facilities.

Carousel Recreational Equities is a branch of Comco, a Chicago development firm.

Len Hoffius, a Grand Rapids attorney representing the Carousel firm, said start of the project hinges on favorable action by the Laketown Township board in granting requested exceptions to current zoning codes.

A public hearing on the matter is scheduled Thursday, March 1 at 7:30 p.m. in the public meeting room of the Carousel Ski Area lodge.

Hoffius said the total complex is designed to include 211 single family homes and 1,670 multi-family units. He said no more than one-third of the marketing research indicates total dwelling units should be for permanent occupancy.

Ed Havlik, vice president of Comco, said the project is designed to be developed gradually to meet demands. He said commercial areas would be developed in the future.

The existing Carousel Ski Area would be expanded and planned for public use.

Also planned is a second lodge in the northwest section of the development and a beach house overlooking Lake Michigan.

The dwelling units would include condominiums and rental units in addition to the single-family homes. All would be for year-around use. Initial construction was planned as soon as zoning variances are granted by the township, Hoffius said.

The project was developed with the cooperation of Michigan State University research teams and the Michigan Department of Natural Resources. One DNR request was that no construction be within 400 feet of the Lake Michigan shoreline, Havlik said.

## LWV Endorses Skill Center for Ottawa Area

At their general meeting this week, the League of Women Voters of Holland Area saw a slide presentation concerning the proposed Area Vocational Center in the Ottawa Intermediate School District, and heard a panel discussion about the Great Lakes Shoreland.

The Area Vocational Center slide program, introduced by Miss Alice Ihrman, presented facts about the proposed center to be voted on March 8.

Some of the relevant facts are: that the center will be open to 11th and 12th grade students from the 13 cooperating school districts; 8 out of 10 students do not finish college and this center is designed to give them training in skills they can use to procure jobs on finishing High School.

The students spend one-half of their day in the facility and remaining half in their original high school. The center will be able to offer as many as 34 different skills, in modern technique, that have been recommended by business and industry. The Ottawa Intermediate School District will be responsible for the operation of the center.

The LWV has studied the subject of the need for such a center in this area and consensus showed definite agreement for the need here. The League is therefore backing a "Yes" vote for the Skills Center and will be glad to answer any questions.

Mrs. Robert Bolte, moderated a panel of Mrs. William Winter, Mrs. Paul deKruif, and Mrs. Stuart Padnos, on Great Lakes Shorelands. Mrs. Bolte read a general statement about some of the things that plague the shorelands, including erosion, high water and water quality. The Water Resources Commission has said that non-development of the shoreland is the only real answer, but it is not feasible. They recommend only the necessary development with local preference a factor.

Mrs. Winter spoke on some of the laws affecting the shoreland: two laws in 1899, Rivers and Harbors Act and a 1969

Rivers and Harbors Act, in which the Army Corps of Engineers are required to keep the rivers and harbors navigable but must make a statement as to what impact their work will have on the environment.

Mrs. deKruif spoke concerning the various type of material and filling used to change or protect the shoreland, such as trash, temporary beaches, jetties, sea walls and dikes.

Mrs. Padnos told how the Army Corps disposes of Holland's dredgings, which is in a large hole or pit and will probably be usable for two or three years as it is.

Mrs. John Donnelly announced that the March 12 general meeting would be the kick-off of the annual finance campaign.

# Dutch Lose But Scare Highly Ranked Rockets

MUSKEGON — This hasn't been the year of the Holland Dutch in basketball but here Tuesday night, Coach Don Piersma's Dutch came within a hair of upsetting highly rated Muskegon Reeths Puffer.

However, like in 14 previous games, the Dutch went down to a hard fought 66-62 decision. Earlier in the year, the Rockets had defeated Holland 64-55.

"We played real well but a few crucial turnovers in the fourth period killed us," said Piersma.

With the Dutch leading by a 44-43 difference with 2:13 left in the third quarter, the Rockets drilled in six straight points to take a 50-44 lead. Ron Israel's basket before the buzzer cut the gap to 50-46.

Two free throws by Bryan Bobo, and baskets by Al Charles and Darrell Flourney gave the winners the biggest margin in the fast moving game at 60-49 with 5:33 left in the contest.

Holland hasn't won many games but they don't go down without a fight, as Tim Boeve sank a free throw, Jed De Boer hit two more and Boeve and De Boer added baskets to cut the deficit to 60-57.

The Dutch could never quite catch up against the Class B Rockets, who have only lost once in 17 games and that to Muskegon Heights, 64-61.

De Boer was fantastic in the first half as he netted 16 of his game high 27 markers. In the second half, the Dutch couldn't get the ball into their ace scorer as easily as they did during the first 16 minutes.

The lanky De Boer pumped in 10 of his counters in the first period, as the Dutch led 19-18. Holland also led at the half, 36-35.

Six-foot-three Leon Manning was a Tiger on the boards for the Rockets, as he put in 11 baskets and one free throw for 23 point team honors. The Rockets' slick guard Flourney, the second leading scorer in the Seaway Conference followed with 22.

The Dutch held Charles, the Seaway's No. 1 scorer with a 22 point average to only 12 markers.

Paul Van Oostenburg and Israel followed De Boer with 11 and nine points respectively for Holland.

Holland had the better percentage from the field, as they connected on 22 of 43 attempts for a fine 51 per cent clip. Reeths Puffer threw up 75 shots and netted 30 for a 40 per cent mark.

The Dutch had trouble hanging onto the ball in the late starting tilt, as they committed 25 turnovers compared to 17 for Reeths Puffer.

Reeths Puffer also took the marathon reserve game, 51-47 after leading at the half, 27-18.

Holland made a game out of it in the foul marked contest in the second half.

Chuck Modder threw in 15 counters for the Dutch while scoring seven each were Jeff Eterbeek and Ken Bauman.

## Panthers Top Godwin For No. 6

West Ottawa, scoring its highest point total in over three years, rolled over the Wolverines of Godwin here Tuesday night by the score of 80 - 72. The Panthers were never in serious trouble taking the lead from the opening tip.

A happy coach Jerry Kissman replied, "We really needed this win to give us the momentum to carry us through the rest of the season. All of the guys

Steve Hartman ... has strong contest

played well and we were really able to control the boards." This was the key as Steve Hartman and steady Tim Glupker did just that. Between the two of them they accounted for 34 rebounds in all.

Mark Miersma suffered no ill effects from the game last week when his front tooth was chipped as he was swishing baskets from all over the floor. When the Panthers couldn't work it in Miersma would hit from outside. This was the sixth win of the season for West Ottawa. Godwin has five wins for the season one coming against Rogers, who the Panthers meet on March 2.

The Wolverines had a real fine center by the name of Paul Dieterle, a junior who is also a football player. Dieterle led all scorers with 25 points and was playing with a bad cold.

It was sweet to see the Panthers take charge in this game, especially on the boards. No less than four players reached double figures. Miersma ended the game with 20 points followed very closely by the two big men, Glupker and Hartman with 17 and 16 points respectively. Hartman had one of his best games of the year leading in rebounds with 18. Joe Gaskill sank 11 points before he fouled out in the fourth period.

West Ottawa was bothered somewhat by a strong press the Wolves put on but did manage to cut down the turnovers to 19, a definite improvement over the last couple games. The Panthers had comfortable leads at the end of every period, leading first by 21 - 14 at the half, 44 - 33 and the third period 63 - 52. West Ottawa shot a respectable 47 per cent from the field compared to Godwin's overall per centage of 35. The bench also did a good job for coach Kissman as Scott Hearington made eight points and Kelly Vander Ploeg hit six.

The Panthers reserves of coach Karl Von Ins had another close but managed to beat the Wolverines 60 - 57. The Little Panthers led comfortably until the final quarter when Godwin made a close game of it. Mark Visser led with 17 points followed closely by Dan Scheerhorn at 15 and Kelly Solis with 15.

West Ottawa meets Rockford who they beat earlier in the season on Friday at Rockford.

HUDSONVILLE — Hamilton outscored Hudsonville, 23-4 in the third quarter on the way to a 76-69 non-league basketball win over the Eagles here Tuesday evening.

The Hawkeyes were on top by only four points at the end of the first period, 20-16 and trailed at the half, 39-34.

Hamilton won the game at the free throw lane, as they swished 30 compared to only 17 for the Eagles.

Hudsonville sank 26 of 75 shots from the field for a 35 per cent mark while Hamilton hit on 23 of 58 tries for 39 per cent.

Earl Slotman had 12 of Hamilton's 38 team rebounds. Craig Reister had 16 of the Eagles total.

Swimming Pool Bids Too High; Study Continues

Councilman Morris Peerbolt, chairman of the swimming pool committee for an outdoor pool in Smallenberg Park, told City Council Wednesday night that bids received on the project were much higher than anticipated.

At a committee meeting Tuesday noon, the architect suggested many areas of possible changes, each of them considered carefully. But, Peerbolt said, the committee felt it would be unwise to change design to the point where maintenance costs would rise. Nor have they discovered a way to cut costs to the original estimates.

On Peerbolt's recommendation, Council instructed the committee to proceed with negotiations to build the facility at the lowest possible cost without sacrificing on low maintenance and esthetically pleasing design.

The committee will report on methods of financing later.

Serving with Peerbolt on the committee are Councilmen Don Oosterbaan and Al Kleis Jr. City Manager William L. Bopf, and City Recreation Director Joe Moran and Park Supt. Jacob De Graaf.

## Christian Has Unreal 33 Miscues

Holland Christian's basketball team played the role of hosts to the Niles Vikings a bit too far Tuesday night, as they bowed to Niles, 63-60. The teams entered the contest with identical 10-7 records.

Both teams shot at a 46 per cent clip in a game which was nip - and - tuck all the way. The lead changed hands nine times and the score was tied 14 times. The largest lead in the game was seven points, which Christian held twice, while Niles' biggest advantage was four points. The Maroons held a rebounding edge of 34 - 25, led by Terry Grassmid with 11. Grassmid started in place of Keith Frens, who is ineligible for this week.

The big difference in the game was in the turnovers, where the Maroons committed an almost unbelievable 33 violations, including 20 in the first half, compared to 16 for the Vikings. Another place Christian was too generous was at the charity stripe where they missed 11 times while hitting on 10 attempts.

Niles used a full - court press which gave the Maroons a lot of trouble, leading to many of the turnovers, while several others were self - induced.

Bill Weaver, sharp - shooting junior guard from Niles, hit four shots to give his team an early lead, 8-5. The remainder of the quarter see-sawed back and forth, with Jim Terpstra knotting the count at 16 - all to end the period. Weaver scored 10 points in the quarter and Terpstra seven.

The game was tied six times in the second quarter, as the Maroons alternated with turnovers and breaking the press on easy baskets by Grassmid, who would be all alone under the bucket. Grassmid tallied nine points in the period which ended in a 32-32 deadlock.

Niles was consistent in the first half as in both the first and second quarters they hit on eight of 15 shots, had five rebounds and five turnovers. Christian, meanwhile, was seven of 15 and six-11 with 11 rebounds in each quarter, along with nine and 11 turnovers.

The Maroons, in the third quarter, looked as if they would pull away from the Vikings, taking a 49 - 42 lead with 47 seconds left in the period. Weaver's free throw and a basket by Dick Crocker narrowed the count to 49 - 45 going into the final quarter.

Christian made only four of 13 shots in the fourth quarter, compared with six of 12 for Niles. Sid Bruinsma's field goal put the Maroons ahead for the last time, 57 - 55 with 4:02 left to play. This turned out to be Christian's final basket of the night. With 3:12 left Crocker knotted the count and Weaver put the Vikings ahead at the 2:40 mark.

Niles then went into a semi - stall and held on as the Maroons hit on charity tosses from Chuck Visser at 0:17 and two by Terpstra at 0:12, making the score 61-60. Crocker connected on a pair with four seconds remaining to ice the decision.

Weaver, who like Bruinsma, is carrying a 21 - point per game average, notched a total of 32. Bruinsma led the Maroons in scoring with 20, followed by Grassmid with 16 and Terpstra with 12.

Coach Dave Vander Hill's reserve squad returned to the victory column, breaking open a close game in the second half, winning 77 - 62. The Vikings led 19 - 15 at the quarter. Christian took the lead for good shortly before the half, at which time the score was 38 - 34. The third quarter ended at 60-49.

Bob Vander Hooned and Tom Zoerhof shared scoring honors with 21 points, and Ken

## Free Transportation? It Could Be Answer

A free transportation system for Holland!

That was the arresting solution to environmental and energy crises that Dr. Gordon J. Van Wylen, president of Hope College, suggested to the Holland Kiwanis Club at its 34th annual charter meeting Monday night.

Speaking on "Futurism and a Community Such as Holland," Dr. Van Wylen used the Kiwanis Club as a sounding board for a radical departure that may be a solution in the future for changing life styles.

Drawing on his own considerable knowledge of engineering, Dr. Van Wylen spoke of driving his children to school, of seeing his neighbors and college cohorts doing the same thing and getting caught in the same traffic tieups.

"We have lived through the space age and the ecology span. Now we are faced with the shortage of energy — natural gas, petroleum, etc. We are building more cars and homes are using more commodities. We are using more electricity in more appliances.

"What does the future hold for us? Abundant cheap energy has been a way of life, but

Dozeman was right behind with 18. John Harrington paced Niles with 19 and Tim Dill had 17.

#### CHARLES S. MOTT, 1875-1973

Charles Stewart Mott, Flint industrialist, once the largest individual stockholder in the General Motors Corporation, and one of the world's wealthiest men, died Sunday morning Feb. 18, at the age of 97. He was the founder of the world's largest philanthropic foundation, the Mott Foundation, whose assets have recently been listed at almost \$300 million. His donations to the city of Flint and its schools earned him the title of "Mr. Flint"; in fact, he served three terms as mayor of Flint, sometimes known as "the town that Mott built." Within hours of his death, Francis Limmer, mayor of Flint, declared a seven-day period of mourning and ordered all flags flown at half-staff.

The Flint Board of Education said classes would be dismissed at 2 p.m. Wednesday, the day Mott's funeral and memorial service will be held.

The impact for good which this nonagenarian has made upon the educational system of Flint is difficult to compress into a few words. As a matter of fact, his influence extends far beyond the borders of his home town for we are told: "Some 70,000 educators have already come to Flint to inspect its schools first - hand, and more than 100 other communities have started versions of the Flint program."

Mr. Mott was a believer in total utilization of school facilities the year round and "has pumped 42 million into the public schools of Flint to keep them open evenings, weekends and summers for an improbable array of community activities." One novel facet of the Mott Foundation approach is "to use recreation as a lure to coax people into continued learning."

The remarkable community response is indicated by the fact that, out of a population of 200,000, some 92,000 residents, over half of them adults, are occupied with some form of educational activity. Many persons, some years ago, were much impressed by an educational film showing the extent and nature of this community involvement.

Now that the days of Charles Stewart Mott on earth are ended, thousands of the beneficiaries of his program will rise up and call him "Blessed." He was a great and good man.

Promise of a Better Day  
Zechariah 8:1-8, 11-13  
By C. P. Dame

Hope plays a large role in life. The Bible says much about hope and gives reasons why believers should keep on hoping. In this day when news is often saddening it is timely to sound forth the note of a better day and instill hope in the hearts of people.

I. God does not neglect His people. Last week we learned about Zechariah, the prophet who helped to stir up the people to build the temple in Jerusalem. This lesson gives us more information about him. "Again the word of the Lord of hosts came to me." God did not neglect His servant but spoke to him again. The Lord revealed Himself as "the Lord of hosts," a phrase which appears five times. Chapter 8 contains nine sections introduced by the words, "Thus says the Lord." The prophet got a message from God to deliver to the people. He did not have to look for a message.

God also reveals Himself in the words, "I am jealous for Zion, with great jealousy, and I am jealous for her with great wrath." God's jealousy and wrath are holy. Love leads to jealousy. A loving husband is jealous when his wife plays around with a lover. God is jealous when His people serve the world and the devil. God showed His wrath to Israel by exiling the people, once by Assyria, once by Babylon. Warning did not help.

II. God makes promises to His people. God promised to restore Jerusalem and make it a city known as "the City of truth... the holy mountain." The desolate Jerusalem would become a real city again. The old and the young would walk on its streets again, indicating peace and good - will. God promised not only to bring the people back to Jerusalem but also to restore the broken relationship between Him and the people, broken by their sins. Two things would happen.

III. God is eager to bless His people. In the Old Testament much is said about material blessings. The people would be blessed and be a blessing to others. God told Abraham that he was a blessing and Christians who are His spiritual descendants are also commanded to be a blessing. Some of the prophecies were fulfilled in Zechariah's days but some were fulfilled in the days of Jesus. A number of messianic prophecies appear in his book. Chapter 9:9 tells about the Triumphal Entry, 11:12-13 about the 30 pieces of silver, 12:10, 11 about the great mourning when the people will see Him whom they had pierced, 13:1 about the blood of Jesus, 13:9 about a promise, and 14:9, 15 and 20-23 about a glorious future.

God is at work. God has made promises, some have been fulfilled, some will still be fulfilled. A great time is coming for all who believe in God who has revealed Himself in Jesus Christ.

#### Fennville Schools Denied Permission To Join Ottawa

ALLEGAN — The Allegan County Intermediate School District Thursday in a unanimous 5 to 0 vote denied a request from the Fennville Board of Education to join the Ottawa Area Intermediate School District.

Fennville had sought permission to conduct an annexation vote in the district.

Allegan Intermediate district superintendent William Sexton said the decision was made to prevent further fragmentation of the Allegan County district and to maintain a financial stability in the district.

Sexton said state law now mandates that intermediate school districts provide special education facilities. Sexton said such a facility is under study for the Allegan district and a June 11 vote is scheduled.

Hamilton and Saugatuck districts both were allowed to join the Ottawa district before the state mandate on special education was handed down, Sexton said.

At present the Allegan Intermediate district serves nine school districts including Fennville.

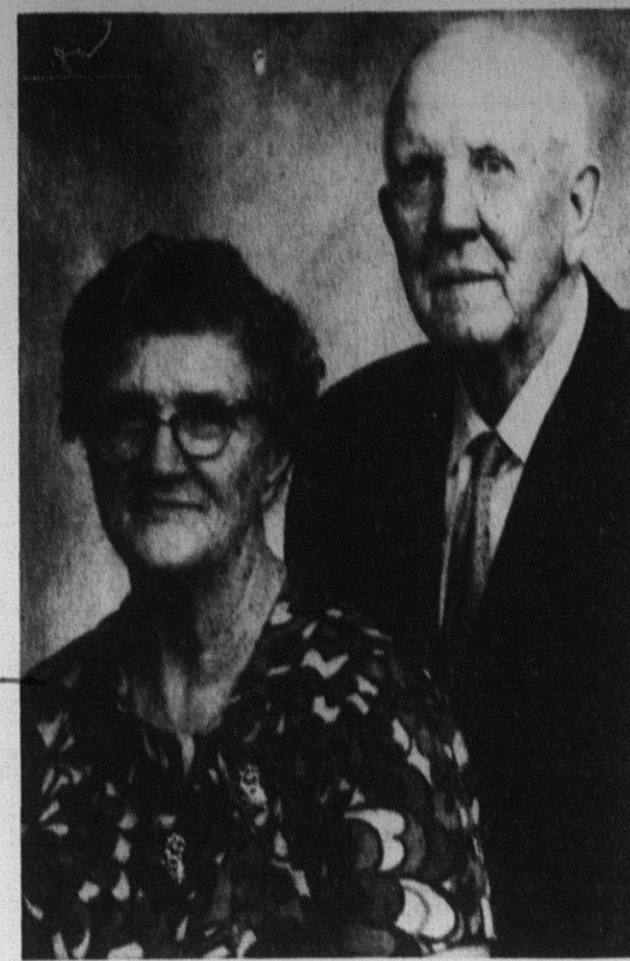

In other action, the Allegan district approved joining a five-county program of drug education.

#### Tintype History Told to Questers By Mrs. Hadden

The Elta Fox Chapter of Questers met Monday at the home of Mrs. C. Neal Wiersma. Mrs. Mayo Hadden presented the program on "Tintypes."

The Christ se people have always used pictures and symbols because "A picture is worth a thousand words." In 1839 a Frenchman by the name of Louis Daguerre perfected the process which produced the famous "daguerotypes," on which the image of so many people are produced to this day.

The government paid him for the process thus making it available to the world. An American by the name of Brady took still life scenes and later portraits. He took pictures of all the presidents from John Quincy Adams to McKinley.

Later photographs were replaced by tin. During the Civil War the boys at the camps found Tintypes easy to send home. The first tintypes were mounted in cases and these cases became popular. One operator alone sold 3,000 gross, in the summer of 1862. There is no tin in tintypes, only iron.

The first Tintype was made in 1855. The inventor was Hamilton Smith. The public soon used the term "Not on your Tintype." In 1860 tintype portraits rose in popularity.

Mrs. Hadden displayed many Tintypes. The club members displayed their treasured tintypes. One was of a Dutch boy, Jan Keppel, who enlisted in the Civil War and was killed in action May, 1862. One month before his death he wrote a letter to his niece in Holland, Mich., which is displayed in the Netherlands Museum. Jan Keppel was the youngest brother of Teunis Keppel, the grandfather of Miss Ruth Keppel.

The bride, given in marriage by her father, wore a gown of white silk peau de soie and alencon lace styled with a high mandarin collar, bishop sleeves and A-line silhouette skirt. Seed pearls in latticed design bordered with rose point alencon lace formed a panel down the front of the bodice and skirt. Matching trim accented the deep cuffs and alencon lace circled the neckline and bordered the chapel - length train. Her silk illusion veil fell from a bandeau of tiny sculptured flowers and pale blue satin bows.

The attendants wore gowns of romance blue chiffon styled with high ruffled necklines, bishop sleeves ending in ruffles and softly gathered skirts. Ruffles and blue venise lace formed a plastron effect on the bodices. Deep blue velvet accented the waists and made a bow and streamers in front.

A reception was held at the Elks Fort Harrison Country Club with Miss Susan Cranfield assisting.

#### Chief Engineer Explains Cable TV to Rotary Club

William Grant, chief engineer for Century Company was the guest speaker at Holland Rotary Club at its regular Thursday afternoon meeting.

Grant pointed out that there are over 2,000 cable companies operating in communities around the country and the industry has grown tremendously in the past few years. Grant said that the first two cable companies were in San Diego, Calif., with about 61,000 subscribers and Allentown, Pa., with about 43,000 subscribers.

Grant said that cable tv will service only the local community which grants the franchise upon approval of the FCC. Any outlying local governmental units of their own will not be serviced by a cable tv system except when it is requested by that unit of government. In the case of Holland, only Holland has granted hearings to cable companies and if approved both by Holland and the FCC, only the city itself will be served by cable tv.

Grant, speaking as a technician, stated that it is possible also to use a cable tv system as a two - way operation. That is, to monitor water and gas and electric meters in individual homes, activate burglar alarms and fire alarms. He didn't specify whether the two way system was presently in the Holland plan.

Grant said that it could also be feasible to use the cable system for broadcasting a number of local events such as basketball and football games, council meetings, or events from any of the educational institutions and churches. However, he said, a mobile program system might not be feasible in the immediate future since the cost for mobile equipment is extremely high.

The cost for installing a cable system into a home would be approximately \$20 with a fee of \$4 to \$6 per month for service. If more than one set is used in the home there would be an approximate \$1 per month additional charge for each set connected to the cable system.

Cable tv eliminates the use of outdoor antennas and apparently will provide a much better picture for viewers.

Grant didn't indicate what would happen if the cable tv system became inoperative in the city because of equipment failure or if certain sections of the city were affected by cable problems. He did say that in the event of power failure, the cable system would also be inoperative whether in parts of the city or over the entire city. If the central cable office was affected by a power failure and confined to only that small area of the city, the cable system would also be inoperative.

Century Cable Co. has a syndicate of local backers who have contracted Century to install a cable system if approval is granted by the city of Holland.

# Olivet Tops Hope Despite 27 Turnovers; Take First

The Hope College Flying Dutchmen basketball team wasn't in the receiving mood Saturday night in the Civic Center, as the Comets of Olivet College tried hard to give Hope its fourth league win.

Instead, the Dutchmen dropped their sixth loss, contest in nine games while the MIAA champions for the past two years moved into sole possession of first place in the league with a 7-3 slate.

Olivet turned the ball over an unreal 17 times in the first half and finished the evening with 27 miscues compared to 17 turnovers for the Dutchmen.

"I don't know how we won but we did and that's the main thing," said Coach Gary Morrison of the Comets.

"At times, this team has played as well as any I ever had at Olivet but at other times, they just haven't did the job and tonight we were just sort of lucky," Morrison continued.

One of the big reasons the Comets picked up their fourth straight win over the Dutchmen, was their fine accuracy at the free throw lane where they only missed once in 12 tries.

On the other hand, the Dutchmen connected on 12 shots but missed six from that spot.

The Dutchmen once again outrebounded their foes, this time by a 50-40 difference, as 6'6" sophomore Brian Vriesman grabbed 18 and 6'6" Tom Walters had 13. Reserve Paul Miller had 10 for Olivet.

Olivet had the hotter hand from the field (26 of 54) for 48 per cent compared to (24 of 78) for 31 per cent for Hope.

The Dutchmen came within two points, 55-53 on a series of buckets by Vriesman with four minutes left in the game and were only down by three points at 61-58 after one of Lee Brandsma's long fielders found the mark.

Starting Olivet guard John Martin locked up the tilt with two charity throws with 20 seconds left, as the Dutchmen were forced to foul and hopes of the Comets missing from the free throw lane.

A steal by Dave Harmelink gave Hope a 12-12 tie early in the slow moving first half. However, a few minutes later, the Comets moved out to a 24-16 margin.

Olivet ended up leading at the half by a 31-26 score.

The Comets held nine point leads on two occasions in the second half at 37-28 and 39-30.

Brandsma, the ex-South Holland, Ill. star led both teams in scoring with 22 points. Vriesman and Walters followed with 15 and 13 totals while pacing Olivet was center Dennis O'Mara with 13 points. Sub center John Nametz added 12 as did another reserve, Paul Miller.

## Panthers Drop 1st Loop Meet

GRANDVILLE — West Ottawa's swimming team dropped its first league contest of the season, falling 57-38, at the hands of Grandville here Thursday evening.

The loss put the Panthers and the Bulldogs in a second place tie with identical 6-1 records in the OK League. Leading the loop, East Grand Rapids has compiled a 7-0 record.

The local stokers opened the meet in second place and never regained the composure to surpass the Bulldogs.

In the distance competition, Fred Nelis snatched first place honors in the 200-yard freestyle, and returned in the 400-yard free style to tally second place points.

The diving competition presented the spectators with some very competitive boardmanship as O'Brien maneuvered for 194.5 points for the Bulldogs, while Matt Johnson and Don Wiley posted 182.2 and 172.0 points respectively for the Panthers.

Breaststroker Jon Van Allsburg and Tim Beckman netted first and third places in their specialty as Van Allsburg continues to improve his stroke.

The Panthers finished the meet in the style they had hoped the entire meet would go, as the freestyle relay team churned for a first place with Nelis, Ken Hamstra, Dave Beckman, and Dave Bilek hitting the water for a 3:40.9 clocking.

The Panthers, coached by

Henry Reest have compiled a 10-5 dual meet record and a 6-1 league mark. They will face league-leading East Grand Rapids Thursday, Feb. 22 at 7 p.m. in the West Ottawa Natatorium.

## Grandville Wins Tilt On Free Throws

West Ottawa lost another close game to the rugged Bulldogs of Grandville here Friday night by a score of 76-71. Grandville won the basketball game from the free throw line sinking 28 points.

The Panthers came within three in the last two minutes but a strongly disputed foul called on Mark Miersma after he lost his front tooth on the play was definitely the turning point in the closing minutes.

It was another tough loss for Coach Jerry Kissman's Panthers who dropped their eighth straight game, most by a close score.

Kissman again thought his Panthers didn't give up when they were down, sometimes by 12 points and figured his team was in the game right to the closing seconds.

This was not a weak Bulldog team, strongly evident in the fact they are second in the Big Red Conference, only East Grand Rapids is ahead of them.

Mike Coger, the big center of Grandville is rugged under the boards and led all scorers with 27 points. This was a rough game, looking at times like it might have been football. Over 30 fouls were called on West Ottawa alone and three of the lined because of five personal fouls.

The Panthers got off to a fast start scoring the first eight points of the game, but by the next time they scored, Grandville had scored 17 points.

Tim Glupker kept West Ottawa in contention with some fine shooting in the first half. Glupker, who has more moves than Bobby Fisher, led the Panthers in scoring with 20 points and also in rebounding.

Grandville led at the end of every quarter with its biggest lead at the end of the third, 61 to 48. But the Panthers put on a hard press and came within three in the last two minutes.

Miersma made some nice shots from way out and ended up with a total of 15 markers. Con Zomermaand was next in line at 12 followed by Steve Hartman with eight. Kelly Vanderploeg was out of school all week with the flu and was unable to dress for the game.

West Ottawa was guilty of 23 turnovers compared to 19 for the Bulldogs. The Panthers made two more field goals than Grandville but had less chances from the charity line.

The West Ottawa reserves lost a wild game to the little Bulldogs by a 57-50 score. Mark Visser netted 20 points followed by John Thomas and Kelly Solis with eight each.

The Panthers host Godwin Tuesday.

## Chix Woes Continue, Drop 12th Straight

GRAND RAPIDS — Zeeland's basketball woes continue to mount.

Here Friday night, the Chix went down to their 12th consecutive loss to Forest Hills Central, 74-58.

The Chix were hoping for an upset, as they led at the end of the first period, 15-11 and at the half, 33-29. The Rangers tallied 23 points to only 14 for Zeeland and 22 markers compared to 11 for the Chix to turn the game into a rout in the second half.

Coach Hal Cutshall's Chix could only throw in six field goals in the entire second half compared to 12 in the first 16 minutes of action.

"Scott Van Dort did a pretty good job for us tonight," Cutshall said.

Bill Maat and Steve Bassett tied for scoring honors for the Chix with 13 points. Kurt Bennett added 10. Zuiderveen had 14 for the winners.

Zeeland's reserve fell 65-61 while the Chix freshmen dropped only their second game of the season, 48-46.

PAWLING, N.Y. — A clergyman who has been a minister of a Spanish-American church in New Mexico, an Army chaplain in Korea and a teacher in Hong Kong has joined the staff of the Foundation for Christian Living as its director of ministries.

Myron L. Boardman, executive director of the Foundation, announces the Rev. Gordon De Pree, 42, will work as a deputy to Col. Oliver E. Porter, assistant executive director.

De Pree will have special responsibility for correspondence, prayer and guidance, in-

Boardman noted that De Pree "brings a wealth of training and experience to the foundation," which disseminates the sermons and writings of Dr. Norman Vincent Peale and inspirational messages by others to nearly 600,000 people in 120 countries.

The foundation conducts a prayer fellowship that responds to special requests for prayers and provides literature for institutions. It also sponsors an annual Good Friday World-Wide 24-hour Prayer Partnership.

A graduate of Hope College and Western Theological Seminary, De Pree also has a master's degree in administration from Columbia University. He is a native of Zeeland.

For the last 17 years he has covered a wide area of service, ranging from helping to revitalize a small church in the Jemez mountains of New Mexico to serving as principal of a secondary school in Hong Kong.

As an Army chaplain, De Pree was assigned to an isolated area of South Korea where he refurbished two battalion chapels to stimulate an interest in worship and encouraged a group of servicemen to express concern for the Korean people by adopting a local elementary school.
