## HOLLAND CITY NEWS

S. L. MORRIS, Editor.

SATURDAY, MARCH 9, 1873.

### THE SPRING ELECTIONS.

Our friend Schadelde has commenced agitating the question of Charter election, in *De Hollander*. We hear considerable political gossip on the streets, but so far all seems to be speculation. We hope that a careful, dispassionate consideration of the matter will convince our friends that some kind of change is required in our system of conducting municipal affairs, that will materially lessen our expenses.

Under the present system, our burdens are so heavy that capital cannot be employed here as freely as in other favored localities.

We trust our readers will peruse the article of Prof. Scott's, published in this number of our paper, and unite upon some plan to reduce our taxes, and to more fully equalize those we do have to pay.

This question may be one that will prove the life or death of this city, and we think it highly important that our citizens unite in an effort to elect such men for office as will command such an influence irrespective of party, sect or nationality. So long as we make the issue of a charter election a personal, sectarian, or national one we shall lose the opportunity of seeking for such changes and modifications in our city government as will tend to reduce our expenses. If the same principles which controlled our last charter election shall be the issue at the coming election then we may not hope to secure any needed reform; personal preferences and prejudices will control the vote and the real wants of the people will be abandoned to gratify an unworthy desire, to gain a point over your neighbor upon the mere matter of difference of opinion can we afford it?

**WHITEWASH.**—Judge Poland, with his committee have at last made their report upon the Credit Mobilier swindle. After a full and careful investigation of the facts, the committee found a verdict of guilty, and recommended the expulsion of Ames and Brooks. The honest patriots of the House could not see it in that light, so after a great deal of talk and quibbling they concluded to call them naughty boys and let them go. All the rest go free. The whole affair has proven a farce, and only reminds us of the story of the Quaker's advice to his son on leaving home. He says, "John you must be honest, you must get money honestly, if you can—but I tell you, John, get money." A few more of Judge Poland's like are needed in the House, then whitewashing will not be as popular as now.

### THE TAX QUESTION.

Correspondence Holland City News.

Over my own signature, I wish to make some comments on the tax-roll of 1873.

Is it not time that the people, in both city and township, made a special effort to secure Assessors, who are not only honest in private life, but who also dare to be just and impartial in all public acts, and who will make reasonable efforts to secure an approved and legal equality of taxation?

1. In 1870, I owned a house and lot on Ninth street, and paid a tax thereon of \$30.25, neither too little or too much; it seemed in proportion to that of others. In 1872, I had the same lot, (or lot) and a heap of ashes and \$2,400, mainly from insurance, with which I hoped in part to replace my lost home. This was honestly given up to the Supervisor, with explanations. The result was an assessment of \$2,800, and a tax of \$46.45. This I do not hesitate to brand as a piece of gross injustice.

2. On the north side of the river, and east of the bridge, I had a tract of wild, unimproved land, of no present benefit to myself, but a favorite place for timber stealers. Along side of it, and by the bridge, is lot No. 3, of M. D. Howard, with a good orchard, and a profitable dock, using public property as its approach. The sagacious Supervisor can see no difference in valuation, acre by acre. And furthermore, while my road tax has been regularly called for, and well appropriated, as I hope, still it would puzzle an editor, even, to find the highway through what was once Schrader's woods. The above lot, No. 3, however, seems to be well provided for in this respect.

3. On the Michigan Lake Shore, a lot of 20 acres is assessed just the same as all the 40 acre tracts around it. I can

not say what gave it this special favor in the Supervisor's eyes, unless it was the poverty of the soil and the absence of any hut, or fence, or timber trees. The tax was certainly an equality, but I would prefer an equality on different principles. Who would not?

4. Michigan taxation has always seemed to me a sort of extortion. On real estate, one-fourth the value of farms at the East, and more unsalable, the average burden is greater. One error is that personal property is generally overlooked. How absurd the idea that equalization can only be referred to the former. Let the demand of the law be the demand of the people, viz: an equitable assessment on all kinds of property, and the election of men that will do it.

I see no other way of obtaining redress; others make similar complaints, and hence my motive in penning this communication. CHAS. SCOTT.

### THE SALARY BILL.

The bill to increase the salaries of officers has passed both Houses of Congress and only awaits the signature of the President to become a law. Congressional consistency is one of the lost jewels and can only be restored by a thorough cleaning out of the Halls and placing men fresh from the people to warm the seats now occupied by men who seek to legislate for their own personal benefit at the sacrifice of the dear people.

We would ask our legislators where, in is the righteousness of such legislation as will compel a citizen to pay for a public document should he want one from Washington; or to prepay the postage upon his publication, and right upon the heel of such a sweeping retrenchment, vote to increase their own salary: verily it looks like curtailing the rights and privileges of the people and in proportion as they abridge their rights by a pretended reform they transfer its benefits to themselves if "to rob Peter to pay Paul" is the system by which a Republican Congress proposes to reform the expenses of Government then we are no reformer; if to abolish the Franking Privilege means increase of salaries to officers then give us the Franking Privilege. We heartily endorse the following sentiment taken from the *Inter Ocean* of March 4th, relative to the subject. It says:

"They first endeavored to increase their salaries \$3,000 clear; failing in this they voted \$7,500. Again failing, they finally abolished mileage and stationary allowances and fixed the salary at \$6,500, making their entire pay \$1,000 or \$1,200 more than at present. Upon this the Senate failed to concur, and a conference committee was appointed, which increased the amount to \$7,500.

There was no valid excuse for raising salaries a penny at this time. If gentlemen were so fearfully exercised over the mileage question they could very easily have abolished it. Two thirds of them pay no railroad fare anyway, and it would not have been a great injustice to cease refunding to themselves out of the public treasury money they never expend; but to abolish this system, and saddle in its stead an additional expense of three-quarters of a million of dollars per annum to the country, is by no means a commendable piece of business. Yet this is the least of the offense. The most iniquitous provision is left in full effect, and that is the clause permitting members to draw the extra compensation for the last two years. It will take well nigh a million and a half of dollars to pay this back compensation alone. Why our honorable members stopped at two years is a mystery. If the salary has been insufficient for twenty-four months past it certainly has for three times or four times that period, and why not run the matter back to the commencement of each man's time, and be done with it? The action of Congress has been cowardly in this matter. Members have skulked behind every possible excuse, and been guilty of all sorts of subterfuges. They have voted no when the yeas and nays have been called, and aye whenever there was a division on the question. At last they are on record, and people can note the names at leisure. There are some from whom better things could have been expected, but they have chosen to take the responsibility of this unwarranted legislation, and must abide by it. Since the first day this proposition was suggested in the House, up to its final passage, the press of the country, speaking the known and oft expressed sentiment of the people, has protested against it, but the protest has been disregarded; greed has outrun discretion and justice in the race. It would be an eminently practical and popular act were the President to veto the measure when submitted for his consideration."

The papers have discovered a curious disease out in Cache County, Utah. They say that the patient is attacked by a pain in the left knee; the leg below the knee, down to the toes, becomes much swollen, hardened, and red. The pain then abates. Then the swelling recommences above the knee, and extends up to the body, when inflammation seizes the bowels and the patient dies. A medical man, out there, who has had forty years practice, says he has never known anything like it before.

### THE NEW ADMINISTRATION.

The 4th of March marks the commencement of a new administration, and witnesses the retirement of nearly 150 Senators and Representatives to private life. Among the Senators who go out are a number whose names are very familiar to the country, such as Lyman Trumbull, James Harlan, Samuel C. Pomeroy, James W. Nye, James W. Patterson, John Pool, of North Carolina; Frederick A. Sawyer, of South Carolina, and Francis P. Blair, of Missouri. In the House, Bingham, of Ohio; Banks and Ames, of Massachusetts; Voorhees and Kerr, of Indiana, and others who have been in Congress for many years give way to new men.

The new House will be composed of 292 members, the Republicans having, so far, 187, the Democrats ninety-three, and the Liberals five; there are seven vacancies. In the Senate forty-seven members are Republicans, twenty Democrats, and seven Liberals, the whole number being seventy-four.

The president's term and the term of the new Congress begin on the 4th of March under a resolution of the Continental Congress. In September the First Congress appointed the first Wednesday of the next January as the day for choosing Presidential electors, the first Wednesday in February for the election of President and vice president, and the first Wednesday in March as the time for the organization of the new Government. This happened to fall on the 4th inst., and since then the 4th day of the month has marked the inauguration.

It is a question if ever a President has been sworn into office under more favorable circumstances than those attending General Grant in his inauguration to-day. By his extraordinary ability, practical common sense, inflexible integrity, and frank, resolute method of performing his duties, he has compelled respect, conquered prejudice, and enforced confidence. If the voice of the united people could be heard to-day the grand majority which he received in November would be swelled by the cheerful addition of hundreds of thousands whose faith in the man is increased and strengthened with every succeeding month. Party malice was never so near disarmed as now, and in taking once more upon himself the duties of his high office General Grant will be strengthened by the increased support and argumented faith of the whole people.—*Inter ocean*.

**THE STATE FAIR.**—The Executive Committee of the Michigan Agricultural Society has been in session at Eaton Rapids during the past week, and have fixed upon Grand Rapids as the place for holding the next exhibition. The committee on Location reported in favor of East Saginaw, but the report was amended by substituting Grand Rapids in place of Saginaw, by a vote of 16 to 2. Grand Rapids offered the use of the grounds and buildings occupied by the fair last fall, adding a switch for unloading stock near the grounds, and all the wood, water, ice, hay, straw, etc., required during the exhibition, a 75-horse power engine, necessary shaftings, and \$1,500 cash. East Saginaw offered the grounds of the Driving Park Association, as much more land as is necessary, and all the buildings decorated and completed, as required by the society. The reasons that induced the committee to decide in favor of Saginaw are that no fair had ever been held there, consequently the novelty of the thing would make the attendance very great; that suitable grounds would be secured; that the railroads favored Saginaw; that Grand Rapids has had so many fairs that the novelty and attraction are lost.

**LICENSING DOGS.**—It may be interesting to citizens to learn that a bill has passed the House, which provides that every person who desires to own or keep such an animal shall procure a license from the township clerk, pay therefor, according to the sex of the animal, either one or three dollars. The licenses run and be in force from the day of its date to the first day of April next thereafter. The dog is to wear around its neck, during the life of the license and no longer, a collar marked with the owner's name and a given number. The money received for the license is to be paid into the treasury, subject to withdrawal on order of a justice of the peace, before whom a complaint shall be made by any owner of sheep unlawfully killed, as compensation for the ravages of dogs. All dogs unlicensed are to be killed, constables and policemen being paid fifty cents for each animal destroyed by them.

So Allegan is to have a live musical convention, and a live musical man to conduct it. Well, that is a big thing for Allegan. Do you suppose she will appreciate it? We hope so, for Palmer stands at the head of his profession and will draw singers of no mean ability from the surrounding towns and country, and Allegan singers will have to look well to their laurels. We understand singers are coming from Kalamazoo, South Haven, Saugatuck, Holland, Wayland, Plainwell, Otsego, Hopkins, Monterey, and other towns, and Allegan singers should meet them with proper spirit and make their stay here pleasant—then all will move pleasantly and we will have such a musical feast as Allegan never saw before.—*Allegan Journal*.

Only two members of the Michigan delegation in Congress voted for the increase of salaries proposed by Mr. Butler's amendment to the Legislative appropriation bill. These are Mr. Sutherland (Dem.) and Mr. Stoughton (Rep.) who both go out of office. Messrs. Conger, Foster, and Waldron (Republicans), who are elected to the next Congress, and Blair (Lib.) who is not, voted against the increase of salaries.

### LEGISLATIVE.

The following is a bill introduced by Senator Chubb To prescribe the course of study in common schools.

**SECTION 1.** The people of the State of Michigan enact, That the course of study in the common or primary schools of Michigan, entitled by law to receive money from the primary school fund, is hereby required to include—reading, writing, spelling, arithmetic, geography, and history, especially of this State and the United States, English composition and grammar, and such other branches of study as may be determined by the district school board.

**Sec. 2.** That in all graded schools reading, writing, spelling, geography, history, arithmetic, and the science of government, shall be taught in the intermediate departments; and in the higher departments of said schools, history, ancient and modern geography, practical book-keeping, and commercial penmanship; the elements of the natural sciences, including physiology and the laws of health, together with such other branches of study as the school board may prescribe, shall be regularly and efficiently taught.

**Sec. 3.** All district school boards are hereby required to forward to the county superintendent of schools, at the time of making their other reports required by law, a report showing the particular branches of instruction actually and efficiently taught in their respective schools; and if any one of the branches required by the preceding sections are not taught, said report to show which of said branches have been neglected, and the reasons for such neglect.

**Sec. 4.** Each county superintendent of schools, on receiving the reports required by the preceding section, shall consolidate and complete the same, and forward the compilation thereof to the State Superintendent of public instruction, who shall furnish the information thus obtained in his annual report.

**Sec. 5.** In the inspection of candidates for higher grades of teachers' certificates, county superintendents of schools shall interrogate each candidate in reference to the branches of study actually taught by such candidate, as well as to his or her qualifications for teaching the same, and shall regard an efficient observance of the provisions of sections one and two of this act as among the reasons for advancing the grade of said candidate.

**Sec. 6.** It shall be the duty of teachers and inspectors of schools, of county superintendents thereof, and the State Superintendent of Public Instruction, to use their best endeavors to carry out the provisions and requirements of this act.

**LOUISIANA New Orleans March 5.**—Between 9 and 10 o'clock the McEnery militia attacked the Third Precinct Police Station. They commenced the attack by firing into the building. The firing was returned by the Police. Soon after General Badger, Chief of the Metropolitan Police, moved down Charles street, from Canal, with about two hundred men and one piece of artillery. Quite a large body had by this time collected about Jackson Square and on the streets leading thereto. When near the crowd General Badger ordered them to disperse. The militia refused to give way, when the police fired a blank cartridge, and soon after another shot was fired. This time the gun was loaded with grape. By this one man was killed and several wounded. Another charge of grape was fired soon after. Some ten or twelve are reported wounded, but only one man was reported killed. As far as known only one policeman was wounded during the entire fight. At one time firing was quite brisk resembling somewhat a picket skirmish. For the powder expended and the fuss made the damage is remarkably light. The grape of the Metropolitan Police was more than the militia bargained for, and they are reported to have weakened readily. Many of them are reported to have skeddaddled in great disorder.

United States troops, about 11 o'clock, reached the scene of conflict, and the remaining militia retired, leaving in possession.

From the Grand Rapids *Eagle*, of March 5th, we clip the following: Cold weather prevailed yesterday, the 4th, all over the country. In the morning the thermometer marked only 5 degrees above as far south as Louisville; 11 degrees above at Nashville; 22 degrees above at Memphis, and 27 degrees above at Charleston, S. C. In the northwest the "cold snap" has but slightly abated since yesterday; the thermometer indicated 7 degrees below at Pembina; 15 degrees below at Duluth and St. Paul; 10 degrees below at Escanaba; 3 degrees below at Milwaukee; 23 degrees above at Boston; 11 degrees above at New York; 7 degrees above at Philadelphia; 6 degrees above at Washington; 34 at Jacksonville, Fla.; 55 at Key West; 42 at New Orleans; 45 at San Francisco; and 28 at Cheyenne.

Speaker Blaine, immediately after the House decided by a vote of only 100 yeas—the House has 240 sitting members—to tack the salaries amendment on an appropriation bill, asked to be counted out of that arrangement. He was satisfied with the wages which was allowed by law when he was chosen and for which he had agreed to serve. If the Speaker's salary was to be raised to \$10,000, he wanted they should commence with the next Congress. The proposition does him honor.

A political orator, speaking of a certain general whom he admired, said he was always on the field of battle where the bullets were thickest. "Where was that?" "In the ammunition wagon."

## Local News.

Little bubbles show that the political cauldron begins to boil.

Sixteen weeks of sleighing without intermission this winter; pretty good for a fruit country.

R. K. Heald has nearly completed his contract on the Episcopal Church. It is to be an ornament to the city.

Weather moderate; barometer rising; which gives us an idea that spring is not far off. Good!

We claim 29 days for February, as the boys in the office have received no propositions the past year, as per last issue.

Chas. Chambers, the young man who was crushed between the two cars several days ago, was on the streets again yesterday.

The firm of Van Landegend & Ter Haar has been dissolved. Mr. Ter Haar returns to Kalamazoo. Mr. Van Landegend continues the business.

Mr. Gabriel Van Putten has purchased the stock and good will of the popular firm of De Vries & Bro., and will continue the business at the old place.

We call the attention of those of our readers who may want garden seeds, this coming spring, to the advertisement of "Old Colony Nurseries," in to-day's paper.

The concert of Messrs. Woodhams Bros. came off on Wednesday evening. A large audience enjoyed it and requested a repetition on Thursday evening. The music was well selected and thoroughly executed, giving entire satisfaction.

Work commenced on the Fanny Shriver this week. This elegant little boat is to be thoroughly repainted and made comfortable for passenger traffic. The owners are talking of putting her on the route between Pentwater and Luddington. We shall miss the Fanny.

FIRE.—About 2 o'clock on Thursday morning a fire was discovered in Vyn & Sons saw mill at Centerville. The mill was entirely consumed, with about \$5,000 worth of lumber. Entire loss, \$6,000 insured in the "Home," of New York, for \$3,000.

The Hartford Day Spring man, last week demolishes a correspondent "citizen" of the Lake Shore Commercial, with an argument of great power and beauty, and so long as the Day Spring lives no one will dare mention aught against the old, time-worn, and musty ideas of the past.

LECTURE ASSOCIATION.—The fourth lecture of the course will be delivered on Wednesday evening next by Rev. J. W. Beardslee, subject William the Silent and his times. This promises to be one of the finest entertainments of the course and should insure a full turn out.

RAILROAD.—Our neighbors over at Saugatuck have another attack of railroad fever. We do not learn how many are affected with it, but hope a sufficient number may be quickened to labor to avert a periodical occurrence of the excitement in the future. They propose now to connect their fortunes with East Saugatuck.

The Phoenix Hotel, so long and favorably known to the traveling public, under the management of its genial landlord, Mr. James Ryder, is about to change hands. It has, we understand, been leased by Mr. Adolphus King, engineer of the "Highlander," running between this city and Grand Rapids. Mr. King is too well known to the travelers throughout this section to need any comment from us, and we can only tender him our best wishes for the future.

DR. BARTH, Office and Institute No. 43 Monroe street, Grand Rapids, will again be in Holland, at the Etna House, during Thursday, March 13th, also on the second Thursday of each month, where he can be consulted for the successful treatment of all curable chronic diseases. 52

We are pleased to refer to the advertisement of J. M. Reidsma & Son. These gentlemen have long been in the furniture business here, and have established themselves as one of the reliable firms of our city. They do not offer their goods at cost, but customers can rely upon purchasing them at a very small profit. As they carry a full line of goods, customers are sure to get what they want. Call and see them.

RECEIVED.—We have received from Miss E. D. Eames music teacher, the following new music: "Silver Cloud Mazurka," a beautiful lithographed piece by Tueller; "Sweet thoughts," a fine Nocturne by Sonel; "Pretty Evaline Adair," and when we say this is by Will S. Hays, their is no need to say more, it is a charming song; "Lottie's waltz," a nice waltz for little fingers, by Kinkel. Miss. Eames will receive orders for any sheet music at her room over Van Putten drug store.

The first number of the Bangor Journal is on our table. It is a five-column "quarto" sheet, and presents a very neat typographical appearance. It is edited by Mr. Chas. Gillett, and as to the politics of the Journal, we cannot better express them than by a short quotation from its "salutatory": "that a political paper is not an 'imperative need' to a place like Bangor, and as we can suit ourselves by running a news paper outside of political ruts and rings, we propose to do so." \* \* \* The Journal has our best wishes for future success and prosperity.

**I WANT**  
Everybody who wishes to purchase PAINTS, OILS, VARNISHES, BRUSHES, GLASS etc. to call and examine my stock.  
**Holland City White Lead**  
made in New York, expressly for my own trade cannot be surpassed. It is warranted superior to any White Lead in this market, and is sold at a much less price. My stock is purchased in large quantities of first hands, saving all jobbers' profits, and can, therefore, afford to sell below my neighbors.  
Remember—I am not to be undersold by any House in the State of Michigan. Call and see

**WINEGAR BITTERS**  
**WALKER'S CALIFORNIA**  
**WINEGAR BITTERS**  
Vinegar Bitters are not a Vin. They are made of Four Run Whisky, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonic," "Appetizers," "Restorers," etc., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition, enriching it with refreshing and invigorating food, and giving it a healthy body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.  
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.  
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Nervousness, Sour Eructations of the Stomach
