## Allegan Sets Millage Vote

ALLEGAN — The Allegan Board of Education of Allegan Public Schools has called a special election for April 29 to extend an eight-mill extra voted levy for operating the school system.

The present eight-mill operating tax expired with the collection of taxes in December.

State aid income is uncertain, according to Supt. L. E. White, but the Allegan Board is certain that the eight mills will again be needed to meet the budget for the 1968-69 school year.

If more school tax money is needed after the state aid is known, another millage proposal could be presented in the August election.

The last day for residents to register for the April 29 election will be March 29.

In further business the board unanimously passed a resolution "Resolving that the Board of Education of the Allegan Public Schools not approve the use of the public tax dollars for the support of parochial or private schools because it is a violation of the principles of separation of church and state, promotes racial discrimination, and affords special privilege to an individual segment of our society."

Copies of this resolution are being sent to all senators and representatives of Allegan county, the Michigan Education Association, County Principal's Association, Michigan Civil Rights Union, Education committees of the House of Representatives and the Senate and the Michigan School Board Association.

## Council Tables One-Way Streets For Four Weeks

Although it was not a formal public hearing, Wednesday's session of City Council took the form of such a function when a full hour was devoted to a discussion of one-way traffic on 16th and 17th Sts.

And after the discussion, Council voted to table to the first meeting in April a motion to amend the proposed program terminating one-way traffic at Harrison Ave. instead of the merged "Y" some blocks west. This was proposed out of consideration for West 17th St. merchants who contend most trade comes from westbound 17th St. traffic late in the day, and for H.J. Heinz Co. which asked time for their engineers to study the proposal with respect to truck patterns, loading docks, etc.

The one-way program as proposed two weeks ago calls for westbound traffic on 16th St. from Fairbanks to the merging point with 17th St. on South Shore Dr., and eastbound traffic on 17th St. The program calls for extending 17th St. east from Lincoln Ave. and curving it towards 16th St. just west of Fairbanks Ave. It also calls for widening 16th St. to four lanes east of Fairbanks Ave. to the bypass.

The proposed plan also calls for traffic signals on both 16th and 17th Sts. at River, Pine and Van Raalte Ave. intersections, and four-way stops at Columbia Ave. intersections.

Before the discussion opened, the city clerk read a report from the Planning Commission approving the plan, and a letter from Ward Hansen, owner of a business at 505 West 17th St. protesting the proposed one-way plan on the basis it would mean a general decline in sales to each business in the West 17th St. area.

First to protest in person was Hansen's son-in-law, James Pollock who manages the store at 505 West 17th St. Pollock felt that the proposed program would harm retail business, would encourage speedways and would produce depressed areas the length of the city on 16th and 17th Sts.

Nelson Lucas whose wife operates a store on Washington Square was not opposed to the one-way street concept but felt the choice of 16th and 17th Sts. would harm the merchants on Washington Square, merchants who also will be harmed when the Washington Ave. access at 32nd St. will be cut off.

Robert Primley, representing Theisen and Clemens which has a service station on 17th St. opposed the move, particularly on short notice.

Ernest Johnson who operates a barbershop on River Ave. between 16th and 17th Sts. felt one-way streets would be detrimental to businesses in the area, particularly for access into parking areas which exit on one street only.

Bill Alderink of Carleton Cleaners at 532 West 16th St. opposed the move citing inconvenience for customers, 75 per cent of whom come from the area west of his business. He also feared one-way streets would result in speed lanes and a higher accident record.

Atty. Vernon D. Ten Cate, representing H. J. Heinz Co., said the company, which is perhaps the largest taxpayer in Holland, neither approves nor disapproves the proposed program but seeks more information so that its engineering department in Pittsburgh may study truck entrances and traffic patterns to determine whether factory functions can fit into the program.

Gerrit Jongsma favored one-way streets and encouraged more of them, but asked that Council consider possibilities of viaducts or underpasses at the C and O crossing between Columbia and Lincoln Aves., particularly on 17th St. where the grade currently is eight feet and 16 feet is needed for a grade separation. He also suggested a bridge over Black River west of River Ave. to provide access to industrial firms on the north side, and relieve heavy traffic on River Ave.

Tom Vander Kuy posed two questions, one referring to whether a member of the Planning Commission opposing the plan had not previously approved the plan before he had business interests there, and secondly, companies certainly had plenty of notice since the program has been under study by the Planning Commission for many years and had been widely reviewed and publicized.

Adrian Koert of East Lansing, retained by City Council as traffic consultant, explained that the one-way system for 16th and 17th Sts. has been under study for 15 years and was included in the master plan of the Planning Commission back in 1953. He said in the last 20 years, he has engaged in one-way street studies in 20 to 30 cities all over

the United States and that six months after such plans were implemented, everybody wondered how they had gotten along before.

He said one-way streets enhance safety since all movement is in one direction only, and stilled fears that 16th and 17th Sts. would become speedways in view of signals at River, Pine and Van Raalte intersections and four-way stops at Columbia.

He conceded that business to westside stores could be detrimental temporarily, and had no objection if Council would terminate one-way traffic at Harrison Ave. instead of the merging point some four blocks further west. He said this would resolve any problems Heinz Co. might have in view of a truck route running north of 16th St. on Harrison.

Lucas asked why not implement one-way systems on Seventh and Ninth Sts. and on River and Pine Aves. at the same time, and Koert explained that Michigan State Highway Department has a definite plan for this program but is not ready to implement it at present.

In answer to question from Councilman L. W. Lamb, Koert said some 8,000 cars use the western part of 17th St. in a 24-hour period. It was pointed out that engineering plans are not completed and that it would be about two years before the program could be implemented.

A motion to table the program outright died for lack of support, and a motion to implement the plan terminating at Harrison Ave. lost to a tabling motion that this plan be considered again two meetings hence.

The tabling motion was passed by voice vote. It was not unanimous.

## Funeral Set For Allegan Prosecutor

ALLEGAN — Funeral services were held Thursday for Allegan County Prosecutor Ervin L. Andrews, 59, who died at 1:40 p.m. Monday in Bronson Hospital in Kalamazoo of self-inflicted gunshot wounds.

Allegan Police Chief Howard Falk found Andrews wounded and unconscious shortly after 11 a.m. Monday in the garage at the rear of Andrews' law office. Falk said the man had shot himself in the mouth with a .38 caliber snub-nosed revolver. Police said they were unable to establish a motive.

Falk had gone to Andrews' office to deliver some papers that were to be presented to City Council Monday evening. Andrews also was city attorney. His secretary, Mrs. Delores Smith, said Andrews had stepped out to empty some wastebaskets. The revolver was found about three feet from the wounded man.

Assistant Prosecutor Edward Barton, Allegan attorney, will serve as acting prosecutor until a successor is named by Circuit Judges Raymond L. Smith and Chester A. Ray to fill out Andrews' unexpired term.

## Say Damage In Excess Of \$100,000

Discovered by Holland  
Patrolman; Firemen  
At Scene for 2½ Hours

An early morning fire raged through the Kroger Company supermarket at 182 West 31st St., gutting the building and causing damages estimated in excess of \$100,000 Wednesday.

The blaze was discovered at 3:52 a.m. Wednesday by Holland Patrolman Randell Blauwkamp who noticed smoke while cruising in the vicinity. Flames were already reaching through the roof when the call was turned in.

Holland Fire Chief Dick Brandt said it was believed the blaze broke out in the area of the heating system on the west side of the building; however, the exact cause has not been determined. The building was heated by an overhead gas space heater system.

No one was injured although a large section of the roof collapsed shortly after firemen arrived at the scene. Two of the firemen who were on the roof at the time made it to a safer section when they felt the roof beginning to cave in.

Some 25 to 30 Holland firemen battled the blaze for two and one-half hours. Equipment and personnel came from Fire Engine Houses No. 1 and No. 2 and Central Park.

There were four fire trucks at the scene including three pumpers and the hook-and-ladder truck.

Local Kroger store manager Alfred Kietzmann said Kroger Company officials and adjusters would be in Holland later to survey the damage. The building was boarded up.

With the building boarded up, Sam Stephenson, Holland director of environmental health, said all items were under seizure until they can be evaluated and inspected for salvage.

Stephenson said a quantity of frozen foods were checked and determined all right for salvage. These were picked up in Kroger Company trucks that had been awaiting authorization in Grand Rapids.

Stephenson pointed out the frozen food items that were released had been stored in two isolated frozen food lockers, one located on the outside of the building on the southwest corner and one in the rear of the building on the south side. The frozen food items, Stephenson reiterated, that were inside the store were all placed under seizure. He added only that food safe for human consumption would be redistributed.

Firemen said the flames centered primarily in the northwest section of the building and swept through the space between the roof of the store and the false ceiling. Heavy smoke and water damaged the other areas. Flames did not plague the east side, Brandt said.

Firemen had to shatter the glass windows in the front of the store to get in. They also had to use their rescue saw to cut through the bolt on a thick steel door on the west side.

Kietzmann said Kroger officials are also probing possible causes of the fire and are checking with a truck driver who had reportedly delivered produce at the store around 3 a.m. Wednesday.

Kietzmann said future plans concerning the store were unknown. It was reported the Kroger Company has its own insurance.

Ottawa county sheriff's deputies identified the other drivers involved as Carl John Johnson, 65, of 1365 South Shore Dr., and Douglas Blauw, 25, of 18 East 21st St.

Jose Lara, 34, owner of the home, was admitted to Holland Hospital for treatment of first and second degree burns to his forearms and face. Hospital authorities said Lara was in "good" condition Monday.

Lara's 11-year-old son, Jesse, was examined at the hospital and released Saturday night. Hospital spokesman said Jesse had a large bruise on his head where he had bumped it apparently in his attempt to flee the burning house. Hospital authorities said he also had some blistering to his left ear.

The fire broke out in attic space above the kitchen of the one and one-half story wood frame house and burned in the partitions of the upstairs walls.

Firemen said the call came in through a telephone operator who was told "a house was on fire."

When firemen arrived at the scene, they said the house was full of smoke and the entire attic was aflame; however, they added, the flames never did get through the roof.

Firemen are investigating the cause of the blaze. Estimate of damage had not been determined and it was not known if the house was covered by insurance.

Extensive damage, including that caused by smoke and water, was reported by firemen who had to chop a section of the roof to allow dense smoke to escape.

The smoke was very thick, firemen said, reporting it was churning across River Ave. when they arrived.

Holland police were called to reroute and direct traffic away from the area.

Firemen were at the scene for about two hours.

Police said the incident is still under investigation and believe two older companions of the arrested youth may also have been involved.

## Consumers Ranks High In Efficiency

Consumers Power Company's James H. Campbell electric plant, near Holland, ranked fifth in efficiency among all U.S. fossil-fueled plants, according to the Federal Power Commission report on 1966 electric system operations.

The single unit operating at the plant in 1966 had a heat rate of 8,889 British thermal units (Btu's) per net kilowatt-hour. A second unit was placed in operation in 1967.

Next in efficiency in the nation was the company's Dan E. Karn plant, at Essexville, rated sixth by the FPC report with a 8,901 Btu heat rate for the two units operating.

The integrated Consumers Power electric system ranked 11th in efficiency among all U.S. multi-plant systems, the FPC said. Five major steam plants are included in the Consumers Power system.

Harry R. Wall, vice president — electric operations, said on the national average the amount of fuel required to produce one kilowatt-hour has been decreasing annually over the 65-year history of the use of the steam turbine-generator by the industry. The early day turbine-generator required approximately 75,000 Btu's (about six pounds of coal) to produce one kilowatt-hour whereas the best plants of today produce one kilowatt-hour with slightly less than 9,000 Btu's (slightly more than 1/2 pound of coal).

Consumers Power Co. plants have ranked consistently high for the past several years, he said.

## Dutch Take Opening Win In Tourney

Holland High's opening victory in Class A tournament competition, a 73-49 win over Grand Haven in the Holland High field-house Tuesday night, proved to be little more than monotonous repetition of the teams' two prior meetings this season.

The Dutch also cored solid conquests over Grand Haven in season play by scores of 102-71 and 70-65.

Field goal shooting percentages reflected the story of the game as Holland hit on 27 of 52 for 52 per cent while the Pioneers hit a dismal 16 of 58 for 28 per cent.

Both teams suffered from erratic shooting in the first period but the Pioneers survived more readily and held a 13-10 quarter margin, their widest split of the game.

Holland whipped up the tempo early in the second quarter as they sole the ball repeatedly, forced the Pioneers into fouls, and scored 13 consecutive points. Holland utilized their effective full court press to open up the game and kept the Pioneers from scoring for almost five minutes. Dan Shinabarger, senior guard, netted 10 of his 26 point total while generally harassing the Grand Haven defense.

Senior forward, Bob Pete also played an exceptionally fine game both offensively and defensively as he tossed in a 30-footer in the final second to give Holland a halftime mark, 33-22.

In the third period, Holland had their poorest shooting mark from the floor as they connected on only six of 23 for 26 per cent while the Pioneers hit for the best quarter, five of 16 for 31 per cent. But what the Dutch were unable to do from the field they accomplished from the free throw line as they took advantage of 13 opportunities and tossed in nine. Holland maintained their edge, 54-34.

Shinabarger again was the offensive power for the Dutch in the fourth period as he connected for 12 points. Grand Haven's leading scorer, Ike Nietring was held to only one field goal in the period, but hit on five of seven free throw attempts.

Each team was equally sloppy with Holland committing 23 miscues while Grand Haven exceeded this with 24.

As usual Holland held the edge on rebounding as the Dutch grabbed 15 offensive and 17 defensive while Grand Haven was nine and 11 respectively.

Holland now is 14-3 and Grand Haven was 2-14.

## New Dump Site Sought For Area

Holland needs a new dump. Or sanitary landfill — the term used these days.

In a report to City Council Wednesday night, City Manager Herb Holt pointed out not only that the present city landfill off Sixth St. near Black River is filling up but that state laws regulating the establishment and operation of sanitary landfills prohibits stream pollution. This would preclude further use of the delta area surrounding Black River for this purpose.

Holt said the Ottawa County Board of Supervisors has under study a county-wide solid waste disposal program, a study authorized in October, 1966, at a cost not to exceed \$15,000. Last January, Greeley and Hansen Engineers of Chicago in its report stated in part that "sanitary landfill is considered to be the most suitable method of solid waste disposal for Ottawa County," and that the most favorable approach involves operating four sanitary landfills, one in each quadrant of the county.

This report was referred to the water and sanitation committee of the board with instructions to report back at the April session.

Council voted to "communicate with the Ottawa County Board" and expressed the hope that the county would put into operation a program not later than Oct. 1, 1968. If such decision is not forthcoming after the April board session, the city then should begin making other plans, including a revision of rate to place the landfill operation on a sound financial basis.

Holt's report revealed a significant fact that the present landfill is bordered by established elevations on all sides — on the west by WHC, Holland Motor Express and Central Ave.; on the south by Sixth St.; on the east by the Fifth St. power plant, and on the north by the south branch of Black River.

He said at such time as the garbage and refuse fill material comes to about two feet of these established elevations, the site should be discontinued as a sanitary fill and used only for land fill until about two feet of cover has been established. The city engineer recommends that the sanitary phase of the fill be discontinued by Oct. 1, 1968, and also informed the city manager that the landfill bulldozer purchased in June of 1964 at a cost of \$22,540 will be worn out and beyond reasonable repair by this date.

Holt also revealed that an agreement has been reached between local and state health authorities to permit the completion of the existing fill site which is conditionally licensed in accordance with this understanding that no further encroachment on the delta area be made. This agreement runs to Oct., 1968.

Holt also said the landfill program over a four-year period starting Sept. 1, 1964, may break even financially except for recovering the initial investment in equipment of some \$30,000 for dozer, trailer, fencing and toll booth, and \$10,000 of start-up cash. No provision has been made for appreciation in land value.

Revenues have remained fairly constant while costs have increased with the result that the cash surplus established the first two years will have been used up by the end of the second two-year period. Of the \$30,000 per year received in revenues, about half comes from commercial packer fees at the rate of \$2.50 per load, mostly from Jacobus's Refuse Service.

Holland's charge of \$2.50 per packer load is below the going rate, according to Fred Kellow of the Michigan Department of Public Health who has expressed the opinion that the charge should be 40 to 55 cents per cubic yard which would put packer collection somewhere at \$6 to \$6.50 as a minimum rate.

## Artist Tells Century Club How to Appreciate Art

Members of Century Club were treated to a delightful lecture on art appreciation by Michael P. Church of Ann Arbor, Monday night in the Tulip Room of the Warm Friend.

As Assistant Director of Cultural Activities, Extension Service, at the University of Michigan, Mr. Church travels some 30,000 miles a year for the University, and he showed his experience as he held his audience in complete attention with his polished style and intriguing form of presentation.

"Having Eyes, See Ye Not," the provocative title of his lecture, was demonstrated convincingly as Mr. Church explained the organization, selectivity of materials, and deliberate arrangement of subject matter, without regard to realism, used by great artists throughout the centuries.

Beginning with the society in which we live, Mr. Church pointed out that our exposure to all kinds of "visual litter" causes us to develop a reflex not to notice and that this reflex action is carried over into our natural environment. So, the ordinary person does not even "see" the natural beauties of nature all around him—the sunset, shadows, sky and trees.

Members were greatly amused by the speaker's account of the typical "museumgoer" today who, in spite of good intentions to "appreciate" art, is caught up in a "wool-gathering experience of nostalgia" as he goes from one picture to another. Unable to banish his own extraneous thoughts and learn to look at the art before him, he is instead constantly reminded of mundane details of his own life as he views the paintings.

Mr. Church gently lead his audience from the clever cartoon type of art back to the old masters, such as Giotto, Botticelli, Vermeer, and Van Gogh to the great modern painters, Braque, Mondrian, and Picasso.

By his imaginative use of slides in a flash-back through time, members could see how the universal themes of love and death were painted through the centuries by artists who reflected the society in which they lived. A dramatic example of this humanism in art was the comparison of several classic paintings of the Madonna and Child in religious art, showing the greatly different depictions by Italian, French, Flemish, and Dutch masters.

In discussing Picasso, Mr. Church contrasted his depiction of the universal theme of death and lamentation, as shown in Picasso's "Guernica" (done in black and white line drawings with distorted figures) with the painting by a medieval Italian artist of the death of Christ. Both paintings show angels. Picasso's picture, Mr. Church said, gives us the "scream of the angel." Thus, by the modern artists' use of greatly reduced symbols, they demonstrate, as did medieval artists, that "reality is not the sole criteria for art."

Mr. Church concluded with an axiom for judging art: "Less does more," he said, and certainly the Century Club members got the opportunity to "see" how great selectivity of material by the artist eliminates the clutter and "visual litter" around us and enables us to appreciate the essence of a work of art.

Carl Harrington, president, greeted members and introduced the speaker. Dr. Anthony Koolker, club member, presented Miss Wendy Winslip, senior at West Ottawa High School and piano student. She played three preludes by George Gershwin, to the great appreciation of the audience.

Vernon Ten Cate, club member, paid tribute to the memory of Judge Cornelius vander Meulen, honorary member, who died last week.

The last meeting of the season for Century Club will be a dinner meeting at Il Forno Restaurant in Saugatuck on April 1.

### CAPTAIN EDDIE RICKENBACKER

With all our problems today and the almost daily increases in government programs and departments that continue to increase our government deficit, this is a good time to call attention to the autobiography of Captain Eddie Rickenbacker, World War I ace, race driver, businessman and another one of our great Americans.

The book entitled "Rickenbacker" we think is well worth reading as it tells about the life and times of this national hero who worked with unlimited confidence in himself and his country.

Today we need more people who will stand up for our country and work for the reduction of the government waste. Somewhere along the way it seems to us that we are going to need more people who will stand up and demand that much of the duplication of government operations be stopped.

With the problems we have around the world, we are going to need to find better ways to run our governments from the township, village, city and state right up to the national government.

So write your elected officials and tell them what you think.

### Sunday School Lesson

Sunday, March 10  
Christ, The Humble Servant  
John 13:1-15  
By C. P. Dame

We all at some time or other are ashamed at what we did or because of not doing what we ought to have done. If at any time the disciples of Jesus felt ashamed it was when Jesus washed their feet and taught them and us all that the truly great serve.

I. Jesus loves His own to the end. John devoted almost half of the 24 chapters of his gospel to the last 24 hours of the life of Jesus. The dramatic washing of the feet of the disciples took place on Thursday night, the day before His crucifixion.

After Jesus raised Lazarus from the dead several important events took place. Mary and Martha gave a supper in honor of Jesus at which Lazarus was present. The triumphal entry took place on the first day of holy week. Monday is called the Day of Authority, for on that day Jesus drove the money-changers from the Temple. Tuesday is called the Day of Controversy, Wednesday the Day of Retirement, and Thursday the Day of Fellowship.

It was on Thursday that Jesus knowing that "His hour was come, that He should depart out of this world" and "knowing that the Father had given all things into His hands, and that He was from God, and went to God" that "He riseth from supper, and laid aside His garments; and took a towel, and girded Himself... and began to wash the disciples' feet" and shamed the disciples and taught them an unforgettable lesson.

Jesus knew He had come from God, and that He was here on a mission. He also knew what was going on in the hearts of His disciples and how they quarrelled about who would be the greatest in the kingdom which they dreamed about. Jesus still loved these status-seeking disciples and taught them a needed lesson.

II. Jesus humbled Himself. The disciples took turns washing each other's feet before their meals. At this time no one was willing to do this menial task and therefore Jesus did it. When Peter objected, Jesus insisted and had His way and said to Peter, "He that is washed needeth not save to wash his feet" meaning thereby that a person who has been regenerated by God's Spirit is clean but still needs daily cleansing because of his daily sins. Jesus knew that Judas was not clean for at that very time he was in the devil's grasp. Jesus, by this lowly service, not only washed the feet of the disciples but also cleansed their hearts of self-seeking and pride. And note this too, before anyone can serve others, he must first be served by the Lord.

III. Jesus gave a great example in humility. "For I have given you an example, that you should do as I have done to you." Jesus calls us to take the lowliest place if necessary in order to serve in the home and in the church. Many think that leadership means the power to dominate, from the Christian viewpoint servanthood and responsibility are associated with leadership. Selfless service is far nobler than the assertion of one's rights.

### St. Patrick's Theme Feature Of OES Meeting

The Star of Bethlehem chapter 40 OES held a family potluck dinner in the chapter rooms last Thursday night. The tables were decorated with shamrocks and green ribbons for St. Patrick's day.

Each has made many trips through the west and the selections of pictures that he showed were varied and exceptionally life-like.

The guests were also entertained with several musical numbers by the Mesdames Wilma Hill, June Sundin and Darlynda Marlink. These women were dressed to carry out the themes of their songs.

Mrs. Betty Walker and Mrs. Mary Turschman and their committee served the coffee and decorated the tables, assisted by Mrs. Evelyn Fendt, chairman of the special projects committee.

**GIVEN BEQUEST**—This picture of the late Dr. and Mrs. James A. Wayer who left a bequest in excess of \$58,000 to the Western Theological Seminary, was taken at a reception in Hope Reformed Church in June of 1964 on the occasion of their 60th wedding anniversary and Dr. Wayer's 60th anniversary of his ordination into the ministry.

## Seminary Gets \$58,000 From the Wayer Estate

The Western Theological Seminary has established The Wayer Presidential Scholarship Fund, President Herman J. Ridder announced today.

A bequest to Western Seminary from the estate of the Rev. and Mrs. James A. Wayer in excess of \$58,000 has been received by the seminary. Annual earnings of the fund will be used at the discretion of the president of the seminary in offering scholarships to prospective seminary students as well as to seminary students who maintain excellent performances while at the school.

Dr. and Mrs. Wayer served a distinguished pastorate of 20 years at the First Reformed Church of Holland from 1919 to 1939. Dr. Wayer was born in The Netherlands in 1871 and came to America in 1892. A graduate of Hope College in the class of 1901, Dr. Wayer was graduated from Western Seminary in 1904, and was ordained and licensed into the Reformed Church in America by the Classis Holland that same year.

Pastorates served by the Wayers included the Ebenezer Reformed Church in Holland, 1904-1907; the Bethany Reformed Church in Grand Rapids, 1907-1919; the First Reformed Church in Holland, 1919-1939; and a final pastorate in the Reformed Church of Racine, Wis. from 1939-1949. From 1950-1960 Dr. Wayer was associated with the work of the Hope Reformed Church at Holland.

In 1955 Hope College, his alma mater, honored Rev. Wayer with the degree of Doctor of Divinity.

Active in the work of the Reformed Church, Dr. Wayer served on the Board of Trustees of Hope College, on the Board of Domestic Missions, R. C. A., and on the Classical Board of Benevolence, R. C. A. Mrs. Wayer, the former Margaret E. Maring, was born in Muskegon, and during the years of their active pastorate she was intensely interested and deeply involved in the work of the Board of World Missions, R. C. A., and was also an active participant in a variety of programs for women's work in the Reformed Church. In their parish ministry, the Wayers served in the grand tradition of a team ministry to their congregations.

Dr. Wayer died in Holland on Oct. 25, 1965 at the age of 94 years, from the effects of a stroke which he suffered while attending church the day prior to his death. Funeral services were held from the First Reformed Church of Holland on Oct. 28, 1965.

Mrs. Wayer died on May 27, 1966.

In commenting on this generous gift, President Ridder said, "This is one of the finest gifts Western has received in its modern history, and it could come from no finer people. The Rev. and Mrs. Wayer were able and devoted servants of the church throughout a dignified and meaningful ministry. In using the proceeds of this fund to grant scholarship assistance to our most able candidates for the ministry, we are seeking to continue the kind of dedicated ministry these dear friends typified."

Other members of the group were Susie Baar, Karla Brower, Lisa Emelander, Lois Gebben, Debbie Heyboer, Vicky Hulst, Susan Miller, Mary Van Eene-naam, Debra Van Orman, Shelby Vanden Bosch, and Kitty Flaherty. They were accompanied by their leaders Mrs. Vern Hoeksma and Mrs. Lyle Vander Haar.

## Local Scout's Condolence Letter in Chaffee Book

Like all Boy Scouts, Roger A. Stam of Holland was interested in astronauts and the space age.

After he worked through the ranks to become an Eagle Scout in 1963, he became a member of the Roger B. Chaffee Eagle graduation class a year later. This annual Eagle Scout graduation class serves to recognize young men from the Grand Valley Council who became Eagle Scouts the previous year.

At the time of the recognition dinner Feb. 24, 1964, astronaut Roger Chaffee could not attend because of a NASA assignment,

Roger A. Stam

but he sent each member of the graduating class an autographed photo, and his taped talk was played to the group. His father, Donald Chaffee, attended for his son and congratulated each scout.

This association was what prompted Stam, now a sophomore at Ferris State College majoring in education, to send a note of sympathy to Chaffee's parents when the astronaut was killed Jan. 27, 1967.

Recently a new book on Chaffee titled "... On Course to the Stars" by C. Donald Chrysler and Donald L. Chaffee, was released.

Roger was excited about getting a copy autographed by Don Chrysler.

And he was even more excited when he began reading the book, for in the beginning was a reference about frequent visits of the Chaffee family to Holland during Tulip Time, on pages 20 and 21.

And farther along on page 136 and 137 was a copy of the letter Stam sent Chaffee's parents. It reads:

"Three years ago I became an Eagle Scout and was a member of the L. Roger B. Chaffee Eagle Graduation Class. Even though I never met him, I have felt great pride in the fact that I was in his graduating class and considered him a personal friend.

"I would like to attempt to offer some consolation in the moment of great personal loss. Not only have you lost a son and Mrs. Roger Chaffee a husband, the whole country has lost a great man. Sincerely, Roger A. Stam."

Stam, son of Mr. and Mrs. Ray A. Stam, 1728 Van Bldv., Holland, started in scouting as a cub scout at Washington School in 1955 and continued through cubbing in Harrington school and advanced to the Boy Scouts as a member of troop 30 of Harrington school of which his father was Scoutmaster.

During 1965, he served as junior assistant scoutmaster under the leadership of Al Kane who had become Scoutmaster of troop 30. After becoming an Eagle Scout and membership in the Roger B. Chaffee Eagle graduating class, he was nominated to the Order of the Arrow, a national honor camping society.

In August, 1964, he represented all Holland area Boy Scouts as a member of a seven-boy team from Grand Valley Council to the New York World's Fair Boy Scout Service Corp. The group attended under the leadership of Charles Briggs of Grand Rapids.

At present while attending Ferris State College, Roger is working as an assistant leader

for a troop of the Methodist Church in Big Rapids.

Among his collection of Scout paraphernalia is the citation with gold seal acknowledging his membership in the L. Roger B. Chaffee Eagle Graduation Class, and the elaborate recognition program of the event.

## Allegan Garbage Rates Boosted

ALLEGAN — Garbage rates paid by residential customers in Allegan will increase from \$2.50 to \$3 per month, effective on April 1, according to a rate hike approved by City Councilmen.

The increase, which was requested by the DeYoung Refuse Service, Zeeland, and the Allegan Sanitation Service, the two companies presently licensed for garbage collection in the city, was called for by owners "because general operating costs have increased by as much as 25 per cent during the last year."

A present policy of refuse pickup twice weekly will continue in accordance with the city ordinance which defines licensing provisions.

The last rate hike came in 1964, when the monthly cost of city collection was increased from \$2 to \$2.50. According to owners Pete Bulthuis and Robert DeYoung, the hike will not affect refuse for private industry, "which will continue as in the past paying costs on a services rendered basis."

## Mrs. Olert Speaks To Churchwomen On Prayer Day

A large group of Holland area churchwomen gathered Friday afternoon in Calvary Reformed Church to observe World Day of Prayer at the opening of the Lenten season.

Mrs. Robert Nykamp, president of the Council, conducted the service. Assisting with the prayers were Mrs. Howard Maatman, Mrs. Richard Bates, Mrs. Myron Van Ark, and Mrs. Henry Visser.

## Allegan Social Services Return Half of Budget

ALLEGAN — Allegan County's Department of Social Services has announced that it is returning over half of its 1967 budget to the county's general fund, in its annual year end report presented to the Board of Supervisors.

Noting that although this year was the busiest one in the history of the department, Deputy Director Hilski outlined that the Department of Social Services would return \$110,000 of its \$200,000 budget to the county because of "greater State and Federal financial participation, Medicare and Medicaid assistance with hospitalization."

A surplus of \$21,000 out of \$295,000 in county funds was returned by the department in 1966. Although increased State and Federal funds were responsible for a reduction in the county's share in welfare this year, the report noted that an increase in costs during 1968 and future years due to "a more equitable balance of county, state and federal funds."

Outlining a proposed change over from the present Surplus Commodities Program during the coming year, the report stated that the department had applied for, and expected to participate in the Federal Food Stamp program early in 1968.

Many counties have changed over to the stamp program, which has been found to give recipients greater purchasing power for needed commodities, while eliminating much of the waste associated with the present surplus program.

The report requested that the Board of Supervisors earmark a portion of the returned funds for the construction of a separate Social Services Facility, citing the growing need for office facilities prompted by increasing Social Services and Medicare programs.

## Indian Mounds Reveal Secrets For Rotarians

Secrets buried in the Hopewell Indian mounds near Grand Rapids were revealed to Holland Rotary Club members Thursday noon in a talk given by Dr. Richard E. Flanders, sociologist - anthropologist on the faculty of Grand Valley State College.

Remains of human beings who inhabited this area were unearthed by an archaeological party headed by Dr. Flanders. The work on the mounds, located not far from the Grand River along I-196, was done in 1964.

Dr. Flanders estimated the skeletons and bones dated back to about the first century when the Hopewell Indian culture flourished in this region. Communities were located in Ohio, Indiana, and other midwest areas where burial mounds similar to those in Grand Rapids are seen today.

Tools and implements buried with the early Grand Rapids area dwellers included flint spear heads, ceremonial pipes, axe heads, figurines, and copper pins of various sizes. Dr. Flanders' party also found sea shells and other articles which indicated the Hopewell Indian traveled widely in developing his culture.

Hopewell Indians are so-named because the first excavations of their burial mounds took place on a farm in Ohio owned by a man named Hopewell.

The series of slides which illustrated Dr. Flanders' talk revealed an episode of more recent history. A scientist dug into the Grand Rapids area mound nearly 100 years ago, Dr. Flanders said, and left a record that he found nothing except a copper needle. Evidence of the trench he dug was discovered when Dr. Flanders' party pursued their recent work, and this showed up in the colored slides as earth of a lighter color than the undisturbed soil around it. Had the earlier archaeologist explored just three feet beyond his trench he would have discovered the remains that were found by Dr. Flanders' party.

Dr. Flanders said that after the archaeology discoveries have been classified and properly prepared they will be displayed in the Grand Rapids museum. He was introduced to Rotarians by Arthur Hill, formerly of the Holland High School faculty and now a member of the administration staff at Grand Valley College. James Crozier was in charge of the program.

## Undefeated Maroons Top Allegan

Holland Christian's basketball team chalked up its 18th consecutive win of the season Friday night by walloping Allegan 76-42, in the Holland Civic Center.

By winning the Maroons have completed their regular season undefeated, their first since the 1934-35 season and await district tournament play next week in Zeeland, where they will go against Hudsonville Unity Christian Wednesday.

Christian left no doubt as to the outcome of the game, as they scored the first four points, on a Steve Bushouse basket and two free throws from Dan Brower. Tom Massie scored a basket for Allegan, making the score 4-2, and that was the closest the Tigers ever came in the game. The Maroons came right back with six more points, including two baskets by Brower, and led 10-2 after three minutes of play. Christian led at the quarter 17-10 with Massie getting six of Allegan's total.

The tip opening the second quarter went to Lloyd Dozeman and five seconds later he scored. Massie, who was Allegan's only offensive threat of the night, followed with a basket, and with the score at 19-12, the Maroons quickly ended all hopes the Tigers had for a win, by ringing up 14 straight points, moving to a 33-12 lead midway in the second stanza. Bushouse and Bob De Nooyer scored four points apiece in this surge.

At halftime Christian was ahead by a 42-18 margin. The Maroons sank 11 baskets in the second quarter, four by De Nooyer, while holding Allegan to three buckets and eight points. The Maroons scored 17 baskets in the first compared to eight for the Tigers, five of which were made by Massie.

The third quarter was the most even of the game as the Tigers were outscored 18-15. Again it was Massie with four baskets, while Jerry Meyers added five points. The Maroons had balanced scoring in the quarter, led by Jim Vogelzang's six points. Christian carried a 62-33 bulge into the final eight minutes.

The reserves played nearly the entire fourth quarter for coach Art Tuls, and recorded 12 of the 14 points the Maroons scored, while holding the Tigers to nine points, and just three baskets. Bob Haven with four points led the winners in the fourth quarter, along with working well under the boards. Haven ended the game with six rebounds, which was second only to center Dan Brower's nine.

The Maroons took 72 shots, making 31 for 43 per cent, against 18 baskets in 61 tries for 29 per cent. In addition the winners blocked numerous attempted shots by the Tigers. Christian also held a 41-22 advantage in rebounds.

At the charity stripe Christian hit 70 per cent on 14 of 20 attempts, with the starters missing only one of 12. Allegan scored on six of 10 for 60 per cent.

Holland Christian, rated the second best Class B team in the state, must be regarded as a contender for the state crown this season.

The Maroons have four fine guards in starters Bob Van Langevelde and Lloyd Dozeman, along with De Nooyer, and Art Tuls, son of the coach. In addition to the starting front line of Vogelzang, Bushouse and Brower, Christian has depth in Haven, Bob Dozeman and Steve Baker.

Bushouse and Brower with 15 points each led Christian's scoring, while Massie had 22 for Allegan.

The three-weeks training session delved into all areas of police work including riot control, first-aid, traffic investigating, shotgun training, criminal interrogation, public relations and burglaries.

At the dinner meeting held last Friday, Muskegon Municipal Judge Harold J. Steendam, in addressing the new graduates said the school was the "best method to get trained policemen in uniform."

Steendam was "hopeful more officers will be able to take the course in the future. . . It is totally unfair to send men into the field without special education."

The Muskegon judge said, "Police work now is more difficult than in the past and trained men are desperately needed. I hope this is the beginning of an answer to the problem."

The officers who participated attended the sessions on a full-time basis including several evening classes. They came from Muskegon, Muskegon Heights, Norton township, Montague, Spring Lake, Holland, Grand Haven, Fremont and the Muskegon and Ottawa county sheriff departments.

## Dutchmen Compile 17-6 Record

OLIVET — Hope College brought down the curtain on its basketball season with a bizarre finale at Olivet College Saturday night.

The Flying Dutchmen came out the winner by an 89-82 score, but not before a rally in the final minutes of action put off the determined MIAA cellar-dwellers.

Leading all the way, the Dutchmen went without a basket for a seven minute stretch in the second half while Olivet erased a 10 point Hope advantage and battled back to deadlock the affair at 76-76 with 4:37 left to play. Two free throws by Hope's Floyd Brady and a basket by Marty LaPorte of Olivet knotted the score at 78-78.

Freshman Randy Adolphs hit a 15-foot jump shot while teammate Bruce Van Huis scored on a tip-in to put Hope ahead to stay 82-78. Olivet's Bill Dawson countered with a basket to trim the gap to 82-80 before Hope's Gary Rypma and Floyd Brady each scored to put the MIAA champs on top 86-80 with a minute left.

Hope led 45-40 at halftime and opened the gap to 64-51 before the basket drought started. Barry Schreiber's two-point shot at 11:05 was Hope's last until Adolph's jumper at 4:19.

Free throws were the only thing that kept the Flying Dutchmen on top during that stretch as ten personal fouls were whistled against the Comets. Before the contest was over 52 personal fouls were whistled and 72 free throws attempted.

The scoring punch of Brady and Rypma decided the issue. The seniors, playing in their last Hope game, each scored 28 points while junior teammate Bruce Van Huis added 18.

Brady became the fifth Michigan college basketball player in history to score 2,000 or more career points. His 24th point of the game gave him 2,000 and before the contest was over the 6-3 forward had 2,004.

Other college players who scored more than 2,000 points during their collegiate career included Cazzie Russell of the University of Michigan, Dave De Busschere of the University of Detroit, Dennis Alexander of Aquinas and John Bradley of Lawrence Tech.

Rypma, playing in the shadows of the Little All-America candidate for three years, finished with a career total of 723 points including a 16.1 average as a senior.

The game could prove to have been costly for senior Tom Pelon. The three-sport athlete suffered a knee injury during a rebound battle in the last three minutes of play and was forced to leave the game.

Freshman Tom Hilbrand, a mainstay on the Hope javayee team, made his first appearance in a varsity uniform when he replaced the injured Pelon.

Hope finished with 32 baskets in 67 attempts for 48 per cent clip while Olivet made 30 of 65 for 46 per cent.

Gordon Loftis, the highest scorer in Olivet College history, led his team with 24 points and

## Shinabarger Scores 35 For Dutch

Holland High's basketball team completed its best season in 15 years Friday night, as the Dutch defeated Grand Rapids Union 76-67 before a near capacity crowd in the Holland High School fieldhouse.

The bulk of Holland's points were scored by conference leading Dan Shinabarger and Bob Pete, who scored 35 and 20 points respectively.

Bob Conser and Bruce Steketee led the Redhaws with 21 and 19 respectively.

Neither team held a decisive lead in the first half. The score was tied six times in the second quarter. Holland scored its first field goal of the game on a long jumper by Pete. It was the repeated use of this shot, which, in effect, broke Union's box defense. Holland led the Redhaws at the end of the first quarter 13-12.

The second quarter saw little change with Pete taking his long jump shot from the corner. Holland increased their lead to three points to lead at the end of the half 35-32.

It was the third quarter which had disastrous results for the Redhaws, and gave Holland a lead that was not challenged for the remainder of the game. Holland scored 10 points in the first two minutes of play in the second half.

Holland's offensive was centered on Shinabarger and Pete. Shinabarger shot his long jumper with unerring accuracy, while Pete pumped from the corner. Holland outscored the Redhaws 2-1 as they led at the end of the third quarter 59-45.

The fourth quarter served only as an anti-climax to the game as the Redhaws trailing by 21 points, managed to reduce the margin of defeat to nine points.

Holland's shooting was far below its usual average, as the Dutch threw in six of 18 for 33 per cent. Union also hit for 33 per cent as they made four of their 12 attempts. Holland improved in the second quarter as they tossed in 10 of 16 for 63 per cent, while Union scored 44 per cent on seven of their 16 shots.

In the second half Holland scored on 17 of 31 attempts for 55 per cent, as the Redhaws sunk 12 of 25 for 48 per cent, their best shooting of the night.

Holland held a controlling margin in the rebounding as the Dutch pulled down 14 offensive rebounds and 19 defensive rebounds, while Union took nine and 14 respectively. Coach Don Piersma commented after the game that "Union's record is misleading. They're a fine team. Shinabarger and Pete played good offensive and defensive games. Pete's shooting from the corner in the second half broke their box defense."

## Panthers Take Second In Annual Swim Meet

The St. Joseph Bears ran away with top honors in the Sixth Annual Southwestern Invitational Swimming Championships chalking up 345 points Saturday afternoon and evening in the West Ottawa Natatorium.

Taking home second place honors in the competition were the host Panthers with 226½ points. Also scoring were Kalamazoo Loy Norris 212, Wyoming Godwin 188½, South Haven 75, Hudsonville 43, and Fremont 30.

St. Joseph took first in the 200-yard medley relay, with John Barlow, Gary Biasi, Ed Hinz, and Chris Karsen swimming the event in a record breaking time of 1:47.5. The time erased a pool record of 1:47.8 set in 1965 by a West Ottawa team and a meet record of 1:48.2 set in 1965 by a St. Joseph team.

West Ottawa placed fourth in the event with Dan Meyers, Chris Raphael, Mike Zavadi, and Jon Helder swimming in 1:54.4.

In the 200-yard freestyle St. Joseph's Fred Jenkins established a meet record of 1:52.4 breaking the record he set last year of 1:54.7. Following in second place was West Ottawa senior co-captain Kirk Steketee with a clocking of 1:56.3. Junior co-captain Chuck Nienhuis placed fourth and in 11th place was West Ottawa's John Timmer.

Chuck Seidelman went all out for the Panthers in the 50-yard freestyle setting an invitational meet, West Ottawa pool and varsity records in the afternoon preliminaries with a time of :22.6. His first place time in the finals was :23.1.

Other West Ottawa point-getters in the 50 were Rob Fisher in fifth place and Pat Battaglia in 12th.

More records fell in the 200-yard individual medley as St. Joseph's Frank Smith won first in 2:08 to set new pool and meet records. The old pool record was established earlier this year by Smith. The old meet record was held by Jim Rockwell of Kalamazoo.

Placing for the Panthers in the individual medley were Terry Rithamel in eighth and Greg Plomp in ninth.

In the diving competition, Alan Doering from Godwin took top position with 317.55 points. West Ottawa's Dana Rigerink recorded 294.35 points in second place. In fourth and sixth position were West Ottawa freshmen Dan Troost and Dave De Feyter.

Top honors in the 100-yard butterfly went to St. Joseph's Rich Ball with a final time of :56.6. His qualifying time in the preliminary competition of :56.4 tied a pool record held by Seidelman of West Ottawa.

Points for West Ottawa were tallied by Terry Rithamel in fifth place, Mike Zavadi in eighth, and Mark Meyer in 12th. It was a fight down to the finish in the 100 yard freestyle between Smith of St. Joseph and Seidelman of West Ottawa with Smith coming out on top by .1 second in the final tally. Smith posted a first place time of :51.1 while Seidelman was second in :51.2.

Other West Ottawa places in the 100-yard freestyle went to Ken Wiley in eighth and Rick Hamstra in eleventh.

Backstroke Pat Low from Kalamazoo Loy Norris captured first place in that competition, coming in in 1:00.4. Panther backstrokers Dan Meyers and Greg Plomp placed third and 12th.

The 400-yard freestyle was a runaway for Fred Jenkins of St. Joseph who established pool and meet records with his time of 4:03.1. Both old records were held by Jenkins. Kirk Steketee followed in second place at 4:16.3, while fifth place went to West Ottawa's Chuck Nienhuis at 4:22.0. John Timmer recorded eleventh for the host team.

Taking first place in the 100-yard breaststroke was Rick Handy of the Bears. West Ottawa placers were Chris Raphael in fifth and Gerald Lengkeek in a tie for eleventh.
