THE SAFETY MOVEMENT

One of the finest things about the development of our industrial and mechanical civilization is the progress made in the safety movement.

Millions of Americans work in factories filled with complicated and potentially dangerous machinery. Yet the death and accident rate is decreasing.

One reason for this is the progress made in the guarding of machinery. But of far greater importance have been the successful efforts of industrial and insurance executives to educate employees in safety principles and ideals.

It is a proven fact that safety is not something to be applied extraneously. It comes from within. It is the result of ceaseless care. It is the result of an educated mental attitude on the part of the worker. We can look forward to a time when industrial accidents will be rare.

In direct contrast to this splendid situation is the automobile accident problem. The death and injury toll from this cause continues to mount. Carelessness and recklessness are almost rules of the road with thousands of Americans. Automobile accidents will be curbed when motorists follow the example of industrial workers, and heed simple, commonsense principles of safety.

Reserves Enter
A. A. U. Matches

The Hope Reserves have been entered in the A.A.U. tournament of Western Michigan to be held at Grand Rapids starting this week. They have been placed in Class A, representative. The following players will compete: "Brute" Japenga, Herman Kruisenga, Titus Van Haisma, Harvey Hoffman, Jack Juist, Tom Beaver, Sidney Heersma, and Jacob Tigelaar.

In other years Hope has cut quite a figure in the tournament. Last season the "All Stars" got to the finals before being defeated. The men mentioned above have supported the varsity all thru the vagaries of a long hard season. As a reward they shall be watched closely by the fans during their tournament games. Several of the "shock troops" are of high calibre.

Seventy-five People
Attend Convene Here

The Michigan Christian Endeavor Union closed a two day leaders conference and executive officers meeting Sunday afternoon. There were more than seventy-five leaders present, representing twenty C. E. Unions in the state. The meetings opened Saturday afternoon at 5:30 o'clock with a conference of the Hope Memorial Chapel. The Sunday dinner was at the Warm Friend Tavern. A devotional meeting was held Sunday afternoon. The convention adjourned late Sunday afternoon.

The purpose of the convention was to acquaint Christian Endeavorers of the state with Holland as a convention city. The State C. E. convention will be held in Holland during the week of June 26-29. The clergies stressed Christian Citizenship and Missions. It emphasized Christian Endeavor goals for 1930. The meeting was planned by Mr. E. S. Marks, State C. E. secretary, and the local C. E. Union.

GROAFSCHAP GAZETTE
HAS AGAIN APPEARED

A competitor of the Holland High "Maroon and Orange" has been discovered and resurrected by Doris Japenga. This paper, "The Groafschap Gazette," was written and published by Robert Lieveens two years ago. The following stock quotations are given:

Boter's Shaving Cream
Stock \$.02
Albers' Rouge (pfd) 10.00
Beach's Dictionaries 200.00
Lieveens' Chewing Gum02
Harbin Suspender Co. 1000.00

The following persons are listed:

"Miss Albers is very sober nowadays, we hope nothing has happened. Her students have been watching her fingers, but nothing took place."

"A serious accident happened on Wednesday p. m. Miss Esteline Tindholt fell off her kiddy car. A scratched finger resulted. She is in the local hospital and doing very nicely."

The immediate editor also reported that the Grasshoppers defeated the Rinkydinks, because of their sliding side to home plate on a banana peel.

This publicity should encourage Mr. Lieveens to greater journalistic effort next semester when he becomes a member of the badly overworked staff of the Maroon and Orange.

Mrs. Nellie Vander Meulen of Holland was the week end guest of Miss Sarah Vander Meulen of Grand Haven. Miss Vander Meulen entertained Mrs. Henrietta Kaatz and Mrs. Nellie Vander Meulen at dinner on Sunday.

Mr. and Mrs. J. Voss and Mr. and Mrs. Joe Lampen of Holland spent Sunday with their parents, Mr. and Mrs. J. Etterbeck, Zeeland.

Gandhi's Appeal
The King's Maxim
If War Did Come

Woman's interest in dress, strong and deep, goes back a million years. She started with a necklace, according to scientists. First an ornament around the neck, then one around the waist, then a skirt and all sorts of things.

A woman in California who murdered a man and killed herself asked to be buried in white satin with yellow roses in her hand. A well-known actress in New York jumps from a twentieth-story window and makes two requests: first, that she be buried in pink satin; second, that her husband keep away from the funeral.

Beautiful in sincerity and humility is Gandhi's appeal to the British government. "On bonded knees, I ask you to ponder this phenomenon—namely, the 'improvement' of India's dumb millions" by Britain.

Gandhi says, "I do not intend to harm a single Englishman." He will only resist passively.

Very touching, but not the attitude that gains independence, not the attitude of a people ready for independence.

Britain set a different example before the Hindus after the Sepoy rebellion. The British put numerous rebels inside of cannon and blew them to pieces, knowing that religious superstition would make the punishment most terrible.

No rebellion of consequence since then.

One industry marches on to higher and higher figures. In the cigarette business, prosperity reigns. Everybody always has money to buy cigarettes.

When employment is lacking there is leisure to smoke more cigarettes, and all feel that they must have them. Job or no job.

Last year's production was one hundred and nineteen billion cigarettes, almost a thousand cigarettes per year for every man, woman and child in the United States.

One thing most important to all business men in connection with the cigarette industry: Cigarette men are the most aggressive, energetic and continuous advertisers in the nation.

The Standard Oil Company of New Jersey sets an example to other oil concerns, voluntarily reducing its refining operations by one-seventh.

Refining is a continuous process, and must continue seven days a week, but only six days' actual work will be done, to prevent over-production.

And most important part of the good example, men will not be discharged or have their wages cut.

An English clergyman reveals King George's six maxims, all hung up on the walls of his library. The first is: "Teach me to be obedient to the rules of the game."

Excellent for a constitutional monarch, obeying the will of his people. Rulers of a different kind, Alexander, Caesar, Napoleon, had a different maxim: "See that you obey the rules of the game as I make them."

We do not understand management of prisons, or our criminals are different from other criminals. Weeks ago, Warden Hoffman, of Auburn prison, New York, told a reporter: "We are sitting on a powder keg."

Recently a convict stabbed the head keeper of the prison to death. He knew that the electric chair nearby, would inevitably avenge that murder. Nevertheless, he committed it.

Swift trial and punishment should protect the other keepers. Careful investigation should find what treatment and conditions drove a convict to so desperate an act.

General Ely, commanding the second corps area, has a plan to defend New York city in war. He would "mobilize the civilian services."

If modern war came the civilian services would mobilize themselves. And with them the six million population of New York, as many as survived the first gas and bomb attacks, would mobilize themselves by scattering through the country, abandoning the city as rats leave a ship when it is sinking.

In case of an attack by airplane, which would be the first sort of attack in a new war, it would not be necessary for General Ely to worry about his suggestion for "guarding the water supply."

After the first half hour, there wouldn't be anybody left in New York to drink water. The dead couldn't drink it and all the living would have left the city.

An encouraging statement comes from Mr. Edsel B. Ford, now in Florida. He is one who talks rarely, and thinks first. President of the Ford company, knowing the sales from day to day, possessing confidential information about business conditions, he predicts steady improvement in business, particularly in industrial lines.

—Hope College Anchor—
Wednesday, March 5, the Home Volunteers enjoyed hearing Rev. Somerville, Pastor of the Seventh Day Adventist Church speak. He gave a summary of the history of his church, pointing out the important doctrines and its purpose. In the eighty-four years of the Adventist Church's existence it has set a noble example in missionary and educational enterprises.

In conclusion Rev. Somerville expounded his sorrow over the many differences which arise between denominations. "We want to be liberal," he said, "I don't see why we have so many divisions."

Six Cylinder Sentences

By DR. JOHN W. HOLLAND

A lazy worker overdoes under-doing. The intemperate man opens a spigot for his soul to run out. The best pay in one's pay check is the satisfaction of having earned it. Young people who step along the primrose path are doing the goose step. Does the sun shine on a greater tragedy than upon a man physically strong and morally weak? It is easier to say to a neighbor, "You must," than to one's own soul, "I must."

FIRST REFORMED CHURCH

BIDS FAREWELL

TO MISSIONARIES

First Reformed church tendered a farewell service Sunday evening for Mr. and Mrs. H. J. Harling, who are planning to return this week to their field of labor as missionaries in Nigeria, South Africa.

Rev. James Weyer preached a brief sermon appropriate to the occasion, after which Mrs. Harling gave a short talk. She thanked all her friends for the many kindnesses shown to them while here on furlough. Mrs. Harling said it was rather sad to bid farewell but nothing could give them more joy than to return to their black people in Africa.

After the message by Mrs. Harling, Mr. Harling led in a prayer for the great needs in Africa and other fields and for the people at home.

All the friends were given an opportunity to shake hands and bid farewell to these people and they were also given an opportunity to see little Donald Harling, son of Mr. and Mrs. Harling, who was born in Africa.

CAMPFIRE GIRLS HEAR

SPEAKER FROM NEW YORK

A group of campfire girls, their mothers and friends, attended a meeting Tuesday evening at the Woman's Literary club rooms to hear Miss Annette Francisco, national field worker from New York.

The evening program was opened by a group of campfire songs sung by Miss Suzanne Schoep. The group consisted of "Walking Song," "Mammy Moon," and "Burn, Fire Burn."

Miss George E. Kollen introduced Miss Francisco in a very pleasing manner. Miss Francisco explained the symbolism of the campfire costume by showing how the Indian characters, signified honors that were earned through and carrying out of appointed tasks.

March 17 marks the 18th birthday of the organization, which boasts a membership of 220,000 girls in the United States and groups in 30 different nations.

Prior to the meeting in the auditorium there was a banquet given at the Warm Friend Tavern to Miss Francisco. Those who attended were:

Miss Hazel Albers, Miss Delia Heider, Miss Martha Weingarth, Miss Helen Eberhardt, Miss Edna Cook, Miss Julia Merriam, Miss Helen Johnson, Miss Betty Kraai, Miss Sarah Lacey, Miss Suzanne Schoep, Miss Alice Brunson, Miss George Kollen, Miss Annette Francisco, Mrs. Harvey Kleinhekel.

Directors of music in Holland High school, Miss Tricie Moore and Mr. E. F. Heeter, announce that the glee clubs will not give their cantata, "The Father of Waters," which was to have been presented the same week as the senior play, but would interfere with the stage planning and settings for the play. The cantata has been put away on ice until next year when "Old Man River" will flow again.

HOLLAND ARTISTS MAKE

CENTURY CLUB PROGRAM AN

UNPRECEDENTED SUCCESS

AT HOME OF MRS. KOLLEN

By Dr. John B. Nykerk

Last night witnessed one of the finest concerts given in Holland by local talent. The occasion was a bi-weekly meeting of the Century Club at the hospitable home of Mrs. George E. Kollen, 80 West 13th street. After pleasant and appropriate words spoken by the president of the club, Dr. Thomas W. Davidson, the latter introduced Mrs. D. B. K. Van Raalte, who had charge of the musical soiree.

Here follows the program: Mrs. D. B. K. Van Raalte, soprano; Mr. Walter Groth, baritone; Mr. and Mrs. W. Curtis Snow, pianists; "Siellienne" (Bach), "Le Matin" (Chaminade), by Mr. and Mrs. Snow (two pianos); "A Spirit Flower" (Campbell-Tipton), "A Banjo Song" (Homer), "Lolita" (Buzzi-Pecia), by Mr. Groth; "Waltz Caprice" (Cyril Scott), "May-night" (Selin Palmgren), "Lilt" (Cecil Burleigh), by Mrs. Snow; "Nightingale Lane" (Alice Chaminade), "Over the Steppes" (Gretchen), "Happy Song" (Del Rio), by Mr. and Mrs. Raalte; "Ah, Love, but a Day" (Mrs. H. H. Beach), by Mrs. Van Raalte and Mr. Groth; "Blue Danube Waltzes" (Strauss), by Mr. and Mrs. Snow (two pianos).

It would be difficult to say which feature of this program was most pleasing, for the offerings all were of such a transcendent nature and of such select variety that comparison is quite impossible. Suffice it to say that no better preparation for the "feast of reason and the flow of soul" that furnished by Bach's "Siellienne," a two-piano number played by Mr. and Mrs. Snow of the College School of Music. In this composition there is an exquisite poesy imbued with a charming simplicity, restful while inspiring. It put the audience into a rapture of never departed throughout the program lasting an hour and a half. The ravishment was not disturbed when the brilliant number, Chaminade's "Le Matin" was rendered on the two pianos by Mr. and Mrs. Snow play as if their two souls were one in "linked sweetness."

Mr. Groth shows a remarkable improvement in his singing as illustrated in his group, composed by Campbell-Tipton, Homer and Buzzi-Pecia respectively. There is a delightful poise in his delivery and commendable control of his higher range, resulting in a pure sweetness of quality that formerly was absent. Mr. Groth has become easy to look at and easy to listen to. May Holland audiences often be favored with his ministry of song.

Mrs. Snow, who is a graduate of Oberlin Conservatory, delighted the audience with a sane and sensible group of the more modern school, by Cyril Scott, Selin Palmgren, and Cecil Burleigh. Mrs. Snow revealed a touch that was firm and brilliant and an interpretation that showed understanding.

Mrs. Van Raalte was at her best in her three well chosen songs, in which her beautiful voice and temperamental interpretation vied with each other in expressing her poetic personality.

And what shall we say of the wonderful duets sung by Mrs. Van Raalte and Mr. Groth? Goetze's "Calm as the Night" proved to be a stupendous, expressed in soulful antiphony. And Mrs. Beach's "Ah, Love, but a Day," these passionate words by Robert Browning, proved the climax of the vocal efforts of the evening.

Mr. Snow played the accompaniments in his usual artistic way—subduing and subordinating himself to the singers, but always making their efforts more effective as a good accompanist should do. How can one sing poorly when Mr. Snow is at the piano?

What we wished for took place when Mr. and Mrs. Snow's final duet proved to be the old but ever beautiful "Blue Danube Waltz" by Strauss. It proved the end of a perfect evening of song, provided by one of Holland's queen of song, Mrs. D. B. K. Van Raalte.

North American Trust Shares is a fixed investment trust—of an improved type.

It has set the standard for all other fixed trusts, solving the problems which worried its predecessors. The most important of these were:

[1] Maintaining portfolio balance.

[2] Protecting diversification.

[3] Providing a high yield.

Under the old plan of fixed trusts, the shareholders received only the regular and extra cash dividends from the underlying stocks. All stock dividends were held by the trustee and added to the units of the portfolio from which they came.

This threw the portfolio badly out of balance. As the practice continued, it was found that three or four corporations more prosperous than others, were becoming so predominant in the portfolio as to destroy balanced diversification.

North American Trust Shares solved both these problems by a single move—selling all stock dividends, share splits and subscription rights and adding the revenues therefrom to the dividend fund. This holds the portfolio as originally organized, four stocks each of 28 of the largest institutions in America, maintaining balanced diversification for the life of the trust, and at the same time practically doubling the income of the shareholders.

The corporations (listed at the left) whose stocks underly North American Trust Shares, have aggregate resources of 22 BILLION dollars, reserves of \$7,500,000,000 and surplus of \$2,000,000,000. In the first year of the trust's existence, more than \$40,000,000 was invested in its shares, in amounts ranging from \$100 to hundreds of thousands of dollars.

A superior court jury at Grand Rapids which had heard testimony of two dozen witnesses over a four-day period, exonerated Dr. Samuel B. Hirschberg and Dr. Seth Nibelink, well known in Holland, of manslaughter charges. Tuesday afternoon by returning a verdict of not guilty after more than two hours of deliberation. The state's case was damaged considerably when the defense summoned three physicians as expert witnesses. The three doctors testified they could see no relation between the visit of the young mother to Dr. Nibelink's office Dec. 7, when the prosecution contended an operation was performed on Mrs. Laura D. Henley, 24, and the birth and death of her premature child 10 days later. Judge Verdie instructed the jury before deliberating Tuesday afternoon that under the nature of the charges, Dr. Hirschberg, who did not take the witness stand, could not be found guilty unless the jury was convinced beyond reasonable doubt Dr. Nibelink had performed the operation. The defense maintained the "operation" merely was a health examination. After the verdict was announced the doctors shook hands with the jurors, their attorneys and friends who had waited patiently in the audience during the trial. Both doctors were discharged immediately by Judge Leonard D. Verdie.

John Bosma was arrested Wednesday on a charge of operating a motor vehicle without an operator's license and was arraigned before Justice C. De Keyser. He pleaded not guilty and will be brought to trial Tuesday, March 18th. Mr. Bosma was arrested about a month ago and Justice C. De Keyser revoked his license and it is charged by officers that he has been since driving without the permit.

Merchants are warned by local police to beware of a bad check artist who is operating in this neighborhood. The man, who has been traveling under several names, drives a green, four door Chrysler sedan, bearing the Michigan license 611-338. He is described as being about 30 years old, five foot nine inches in height and weighing about 130 pounds. Checks issued are on National Credit Co., 682 W. Leonard St., Grand Rapids, payable through a Grand Rapids bank. There is no such firm in Grand Rapids and Holland people are being warned not to accept such checks.

On Sunday Rev. Stradman Aldis on Pantunua, India, will speak at 7:30 o'clock in the First Methodist church. Mr. Aldis has spent many years in India and will be able to tell many things of great interest just now with the Nationalist uprising that is being led by India's great leader, Gandhi.

William Smith, 19 years old, who gave his address as Fruitport, was fined \$29.15, including cost, by Justice C. De Keyser and had his license revoked for a period of 60 days because he left the scene of an auto accident without reporting it. The accident occurred Tuesday at the corner of 12th street and Central avenue when the car driven by Mr. Smith and a car driven by Mrs. Van Asselt of Grand Rapids, a former resident of Holland, collided. The Van Asselt car was damaged considerably.

Miss Cornelia Van Anrooy returned to her home on Monday following an operation to which she submitted several weeks ago at the Holland hospital—Grand Haven Tribune.

Ladies Worried Lawmakers

About the time that women began to flutter their wings and, in deed, in 1896 they were wearing belted waists, the British parliament passed an act which made it unlawful for women to wear trousers. The Lord Shaftesbury of the time, an austere personage, complained of these dresses, and once the speaker caused shouts of laughter by suddenly declaring in the midst of a debate that he could spy petticoats. After this, evidently not wishing to be seen so much, the ladies came less often and sometimes they came in disguise.—Detroit News.

Mrs. Grace Fisher of Grand Haven was arrested for being drunk and disorderly on Sunday night and was brought to the county jail, where she spent the night. Jail sentence was suspended upon her signing a pledge to abstain from intoxicating liquor for three years. Failing to keep the pledge, she will be subjected to a jail sentence.

Fred Ennenga was picked up by Grand Haven officers on Saturday night in an intoxicated condition and placed in the county jail. This morning he appeared for the third time on a drunk and disorderly charge before Justice Burr. He was sentenced to 30 days in the county jail, and also given a \$35.00 fine and costs of \$5.50. The judge remarked he had raised the fine \$10 upon each arraignment but hoped this was the last time it would be necessary. In default of the fine the jail sentence will be doubled.

CAPTAIN MANU SWAM 20 MILES ACROSS A SHARK-INFESTED CHANNEL

On Feb. 28, 1911, at 8:30 p.m., Captain Manu's little ship was rammed and sunk while crossing the Molekai Channel, Hawaii. He was thrown into the water, not noticed by the other ship, and realizing his plight started to swim to Lania, a distance of over 20 miles through water infested with sharks. Manu reached Kaena Point on the island of Lania shortly before noon the next day. Manu's feat, considering his advanced age of 77 years, is one of the greatest endurance tests and displays of grit and courage ever recorded in the history of the Pacific.

Michigan Wants Shore Line For The People

PROPERTY OWNERS WANT SHORE LINE FOR THEMSELVES—IT APPEARS

A brief arguing that the relict land left by the recession of the Great Lakes since the original survey of Michigan belongs to the riparian owners instead of the state was filed in the supreme court at Lansing by attorneys for John R. Hilt, of Cadillac. In an opinion two years ago in the Kavanaugh-Baird case the high court gave the state title to this property, but recently re-opened the litigation in hearing Hilt's case against Herman H. Weber.

The controversy arises from the fact that the recession of the lakes has left a fringe of land around the lower peninsula varying from a few feet to two miles or more in width. Occupants of this property adjoining Lake Michigan have believed they were the rightful owners and even factories and dance halls have been erected on it.

These "owners" sponsored a bill during the last session of the legislature which would have given them title, but the measure was vetoed by Governor Green, the governor feeling that the people should not be barred from having access to the "Big Lake" which would destroy this taste as a "playground of America," if the shore became privately owned.

The brief filed contended that the original survey of the state did not follow the water's edge, as it rightfully should, but jumped from hill to hill. This left property within the category of relict land which has not been covered by water since the early ages, the court was told. It is not fair, the brief argued, for the court to give this land to the state.

Citing precedents from common law, the brief attempted to prove that English authorities make it mandatory upon the court to give title to this property to the occupants.

"Government maps and plats show that private ownership extends to the water's edge," the brief said. "Relying upon these maps, purchasers have improved these lands at enormous expenditures and have paid taxes upon their holdings. In some instances the state itself has sold this property for delinquent taxes."

The brief was filed for Hilt by the law firm of Penny & Worcester, of Cadillac.

Attorney General Wilbur M. Brucker, acting as friend of the court, will file arguments on both sides of the controversy.

FREEZE INSECTS TO WAR ON PESTS

Orchardists in Seattle put insects away in ice in the municipal cold storage plant. These insects are held to combat grasshoppers, caterpillars, crickets and moths, which annually cause heavy damage in the Northwest orchards.

The insects put in cold storage are mantes, giant grasshoppers imported from interior China. These are cooled and held in a dormant condition before being distributed to insect infested areas. The mantes increase in size during their eating period of life until the normal of 4 inches is attained. They lay eggs and dies. Lady bugs are another friendly insect used in winter hibernation dens in the Cascade Mountains and are scooped out and placed on ice until Spring when growers of melons and strawberries and flowers use them in combating plant lice and aphids of all forms.

156 YEARS OLD: STILL GOING STRONG

"One hundred and fifty-six years old and never took a drink." That sounds incredible. However, it's the boast of Zero Agha, a Turk, who is coming to New York in May to be exhibited throughout the United States by the American Anti-Alcohol Society. Hale and hearty, he says he is still well preserved because he never was pickled.

He ought to be a good example of the benefits of total abstinence. Oddly enough, though, the W. C. T. U. is NOT sponsoring him. He has buried eleven wives, as it happens.—Chicago American.

Dr. Pieters' Bible Class, studying the Book of Revelation, will meet again Monday evening at 7:30 at Trinity Church. The meetings are held in the basement and are splendidly attended. Visitors are always welcome.

Netherlands Spells Rest for Tired Tourist

A LAND OF PLEASANT MEMORIES, SAID THE LATE EDWARD W. BOK

The beauty and attraction of Holland lie in its infinite variety, its tasteful blending of the ancient and the modern. Edward W. Bok, a few weeks before his death, wrote of Holland, "You come away from a fortnight's stay in the Netherlands with a true feeling of rest and refreshment, yet pleasures of various kinds are at hand on every side if desired. A trip if he will take it. It is full of pleasant memories and memorable experiences. It leaves no unpleasant taste in the mouth." In fact, in the opinion of this famous American, the traveler is generally reluctant to name the sight which pleased him best in Holland. His usual answer is, "I liked it all. I felt so much at home among the Dutch people."

The cities of Holland are universally interesting and just as universally different. Amsterdam, of course, the best known and largest city. Founded in the thirteenth century, it offers all the advantages of an up-to-the-minute metropolis, combined with the charm of its ancient lineage.

It is cut by a veritable network of canals which are spanned by innumerable bridges. Visits should be paid to the diamond cutters' establishments, the national gallery, the Colonial museum, the Rembrandt house, the Jewish quarter, the municipal museum and the royal palace.

Rotterdam is the port of great ships, handling many millions of tons of ocean freight each year. It is one of the world's largest ports. The Hague is a serene city, the seat of the government and of Queen Wilhelmina's residence. Here also the Carnegie peace palace, the delightful suburb of Wassenaar, a fine picture gallery and Scheveningen, which is Holland's most important seaside resort.

Should the tourist be fortunate enough to find himself in Holland toward the latter half of April or the beginning of May he should not miss the flower display in the bulb district between Leiden and Haarlem or Alkmaar. There are few more enchanting sights in the whole world.

Middelburg, on the island of Walcheren, is a city full of interest, especially on a Thursday, when the farmers of the neighborhood in their national garb flock to the Middelburg market. From there the tourist should wander to Dordrecht, the paradise of painters and incidentally the city where many of Holland's great masters of the canvas were born.

The American tourist who wants to see the country leisurely and to the best advantage should avail himself of the canal steamers that unite many of the Dutch cities.

Volendam is a fishing town, full of the venerable traditions of old Holland. When the old patched fishing boats slip into the narrow harbor on Friday evening, the whole town gathers, shouting, haggling and bidding, in the auction mart of the town to the accompaniment of the shrill tones of the auctioneer's bell which announces the arrival of each boat. But Volendam is passing. A great dam is being constructed to separate the Zuider Zee from the open sea so that Volendam of the future will lie on a little cove, with its fishing industry gone.

HOLLAND CHRISTIAN HIGH BASKETEERS HAVE CLEAN SLATE

Holland Christian High school has finished its second consecutive season in basketball with a perfect record. The schedules for the two seasons listed 28 games. Holland amassed a total of 926 points against 430 by opposing teams, giving Holland an average of 33 points a game against 15 for its opponents. Holland faced some strenuous contests in the season just closed and some victories were registered by small margins. Greenville gave Holland the hardest battle, the locals winning the first game 25 to 24 and the second 20 to 17. These were the only games lost by Greenville this season. Holland Christian will take part in the tournament this week and Coach Syskens says the team is in excellent condition. The players include VanFleet, Bontekoe, Beckman, Dittmar, Boven and Timmer.

LIFELONG CITIZEN OF HOLLAND PASSES AWAY

Henry Bender, 65 years old, was found dead in bed at his home at 82 E. 13th street Thursday morning by his sister-in-law, Mrs. Lila Mallory. Mr. Bender was born in Holland on January 31, 1865, and spent his entire life in Holland. He was a marine engineer and spent 40 years on the Great Lakes.

The deceased is survived by a brother, George Bender of Holland, and two sisters, Mrs. Ella Payne, Mazend, Sask., and Mrs. Lila Gady in Tennessee. Funeral services will be held Saturday afternoon at 1:30 o'clock from the home and at 2 o'clock from the Seventh Day Adventist Church at Central Ave. and 13th street.

Mr. and Mrs. John Welling and daughter, Marian of Grand Haven, drove to Holland yesterday where they met Berdean Welling, who is attending Hope College.

COLLEGE MEN SET PANCAKE RECORD

As the result of the consumption of 700 pancakes and 20 pounds of sausage by a group of 55 students in a pancake eating contest, which ended shortly before last midnight, Kalamazoo college claims the pancake eating championship of the United States. Howard Hoover, of Danville, N. Y., won claim to the title with a total of 32 standard size pancakes to his credit. Kendall Sagendorf, of Greenville, who tucked away 24 cakes finished second, with Louis Nichols, of Schoolcraft, third, with a total of 17 cakes. The contest was staged by the Philolexian Lyceum of the college following the regular program.

Zeeland Record Also Has A Dream Road

Now that the promise of an early spring is more certain than it was in the middle of February when the first signs became evident in the form of beautiful weather, it leads us to think of pleasure driving and the tremendous increase in automobile traffic that lines our main highways, especially between Grand Rapids and the Lake Michigan resort districts.

And Zeeland is located in the direct line between these two objective points, so that we become decidedly conscious of having better roads, a situation that has never been adequately met in the past. During the coming summer we hope to see the relocation of M-21 over Washington street and the old interurban roadbed into Holland, which will relieve traffic in that direction; but again the need is becoming pressing in other directions in this section that cannot promptly be met, we fear.

To those who are observant, there is a very noticeable depreciation in M-21 between the Beaverdam road and a point a mile or two this side of Jenison, especially the swampy stretches making up about half the distance. It seems that between the moisture, frost, soft bottom and heavy loads, the emergence from the winter season reveals much damage to this road, and it will not be many years before a rebuilding or relocating will be a decided necessity.

We can appreciate that no funds are available for improvements in that direction, and will not be during the coming three to five years, although a widening program has been started in Kent county which will be carried out as far as Jenison. The fight begun by the Michigan League of Municipalities for a greater share of the weight and gas tax money will necessarily retard expansion in this direction, especially in the face of increasing demands from every part of the state.

In connection with this we are advancing a plan that, although not entirely new (having been suggested by us before), we believe will be of greater service

than rebuilding and widening the present M-21 route; and we think this plan deserves our careful consideration. Local sentiment expressed in plentiful measure to the county road commission and the state highway department will aid materially in bringing it to a fact.

The plan is to relocate M-21 over the Zeeland-Byron Center road to Forest Grove Station, at which point it should follow the old interurban road-bed into Jenison. This would give at least four distinct advantages at no more cost than rebuilding and widening the present M-21 route: it would add four miles of hard-surfaced highway on the direct Lansing route; it would open up a large area to a year-round outlet; it would effectively relieve an overburdened traffic condition; and it would put Jamestown back on the map where she deserves to be, and enhancing real estate values all along the line. We do not look with much favor on putting a great deal of money into the lowland road, but with relieved traffic this road will stand for many years.

GRADUATING CLASS OF ZEELAND HIGH SCHOOL HAS A UNIQUE RECORD

The outstanding feature of the senior class of 1930, Zeeland High School, is their remarkable record made in scholarship. One-fourth of the class of fifty-one has an average of 90% or above for the four years in high school.

Helen Clark has been chosen the valedictorian with an average of 97.77%. She has been active in debating and at present is the editor-in-chief of the Stepping Stone, high school annual. She is a member of the National Honor Society. Salutatory honors were carried off by Donald De Bruyn, who has an average of 96.89%. He has had part in many activities including oratory, football and dramatics. He was class treasurer for two years and is also a member of the National Honor Society.

Next in rank are Dick Van Dorp, 95.5%; Winona Wells, 95.2%; and Benjamin Sterken, 94.64%; the first five grades going to three boys and two girls.

The class has been busy making plans for commencement. Committees are working on the selection of a class memorial, song, motto flower and class colors.

Indications are that the class is the largest ever to graduate from Zeeland High School.

Waddy Spoelstra, Ben Batema, Bud Westerhof and Bert Galster attended the boxing bill at Muskegon Wednesday evening.

A Great Economic Question

Q Chain store and anti-chain store arguments have filled the magazines, have been expounded from the platform, have occupied the attention of the news papers, have been taken up by business organizations, civic clubs, associations of commerce and merchants associations everywhere. Even the air is surcharged with the purported evils that chain stores bring.

Q The Holland Merchants Association has taken cognizance of this economic problem that confronts the independent merchant today. A vast majority of its members feel that there are breakers ahead for the independent merchants, generally speaking, because of the syndication of business thru the so-called "chain" store system."

Q The arguments have been advanced that eventually the chain store will supplant the independent merchant altogether. It will take the individuality out of business, and it will make our independent merchants of today the dependent clerks of tomorrow. That being the case the markets of the world and the price of living commodities will be controlled thru syndicates and mergers according to the arguments advanced.

Q It is well for all citizens to study this question sanely and soberly. It is a big question, not local alone, but nearly world wide in scope. It is a development that has been gradually coming, imperceptible at first but very pronounced today.

Q The Holland Merchants Association naturally believes in home trade. It also believes in giving the home merchant every reasonable consideration, for it was he who for years carried the civic load; it is he who continues to build on the foundation laid by our pioneers; it is he who is carrying on in the face of these new business problems that are now confronting him. It is well to think these things over very carefully.

Science Students Lead Honor Roll In Class of 1930

Annual Day of Reckoning Arrives
For Scholarly Ambitious
1930 Graduates

Tuesday morning Prof. T. Welmers, college Registrar, read his annual list of seniors who have attained a scholarship average of 90 per cent or above for their four years of college. This year's list contained the usual surprises, not so much those of names not present, but those of close rivalry between the members of the Class of 1930. In the case of the valedictorian, Marvin Kuizenga of Holland, there was but the difference of .02 per cent between his average and that of his closest rival, J. N. Warren De Pree.

It is an enlightening fact to note that, of the seven highest on the list, six are enrolled in the science course.

The list is as follows:

Grades	Per Cent
Kuizenga, Marvin	94.61
De Pree, J. N. Warren	94.59
Olgers, Bertha	94.49
Berghorst, John—3 years	93.98
Tigelaar, Jacob	93.90
Siebers, Bernadine—3 years	93.78
Walshorn, Henry	93.49
Kuizenga, Herman	93.16
Brunson, Alice	92.86
Essenburg, Mabel	92.78
Vander Werf, Joan—3 years	92.50
Stekette, Evelyn	92.50
Langeland, Earle	92.31
Ver Hage, Mildred	92.19
Katte, Marian	91.82
Fredericks, Georgiana—3 years	91.25
Ten Cate, Myra Rose	91.22
Meungs, Marvin	90.88
De Jonge, Phyllis—3 years	90.60

Those labeled "three years" have been enrolled here that length of time, but their marks for four years have been proportionately considered.

After leading for practically the entire contest, the Hope basketball team had to take a 36-29 defeat from Alma on the home court last night. Hope took the lead early in the first period, and led 18-12 at the half.

During the second stage Alma slowly caught up. Still Hope continued to outplay the visitors, Alma garnering only scattered shots. In the last few minutes Spoelstra was taken out on fouls, with the result that Hope's strong offensive lost its key man. Spoelstra gained the satisfaction of scoring 19 of Hope's points, a feat not often seen on a court. Alma caged the decisive shots during the last few seconds of play.

The Beechwood Parent-Teachers club will hold a meeting tonight, Friday, in the school building.

HOLLAND PASTOR
OCCUPIES PULPIT
CHURCH BURNS

Union church, three miles north of Nunica, was destroyed by fire of undetermined origin Friday afternoon. The landmark was erected more than 40 years ago by a Baptist congregation under the leadership of Rev. G. S. Martin. After the pastor's death it passed into other hands and was vacant for several years. Last week the Adventist pastor from Holland opened it for services. He had planned a series of services throughout the season.

HOLLAND WILL
ENTER REGIONAL
TOURNAMENT TODAY

The Holland High court squad is to enter the regional tournament which is being held today, Friday and Saturday.

The Class A teams that will probably enter are Kalamazoo Central, Benton Harbor, Battle Creek, Muskegon, Muskegon Heights, and Holland. The team winning this tournament to be held later in the month, Holland has defeated all of these teams except Muskegon Heights, whom they have not played, so the boys should go a long way.

Women's Literary Fetes Hope Girls

Each year the Women's Literary Club of Holland entertains the girls of Hope at a program and tea. This year's event will occur on Tuesday, March 18. This is one of the high lights among the social activities of the year.

A play in charge of the Drama Group of which Mrs. Chas. K. Van Duren is chairman, will be presented. Miss Martha Sherwood will be in charge of the music. This program promises to be unique and one which will be particularly enjoyable for college girls. After the program tea will be served. Mrs. E. Paul McLean is chairman of the hostesses. Every girl on the campus will be included in the invitation. The girls of Voorhees are planning to reciprocate at Voorhees Day, when they will entertain the women of the Literary Club.

OLD TICKET AGENT
RELIEVED AND PENSIONED

Worden G. Barnaby, veteran ticket agent and operator for the Pere Marquette at the Holland station, has retired after an active service of 46 years. He will locate in Grand Rapids.

Barnaby began his career as night operator for the Chicago & West Michigan at Watervliet. He served three years at Watervliet, then was transferred to Hudsonville and came to Holland in 1898. Barnaby entered the service of the Pere Marquette when the Chicago & West Michigan, the Detroit, Lansing & Northern and the Flint & Pere Marquette lines were merged into the present system.

SO-CALLED BATTLE IN
THE CLOUDS BRING
VERDICT OF \$375

The damage suit brought by Peter J. Kolean of Holland against Swan Anderson was quickly decided by the jury following a short trial in circuit court at Grand Haven. They returned with a verdict of \$375 as damages for injuries received in a "battle of the clouds," when the Anderson brothers, it was alleged, pitched on the plaintiff as he was atop of a 60-foot scaffold on the Michigan Telephone building in Holland, which was being erected last summer.

As the three men were perched aloft, with things to themselves, there were but few witnesses to call. It was proven that Kolean's teeth were knocked out, he suffered cuts and bruises and was obliged to employ a physician and a dentist as a result of the alleged attack, at a cost of \$290.

ORATORS AT M. O. L. FINAL

Last Friday night the welcome news that both of Hope's orators had placed in the prelims was heard. The news was quickly relayed to the girls' dorm where the girls' societies were still in session. A few cars drove up to the dorm and yells were given for the school and the participants.

News was received on Saturday morning, which said that Gladys Kuizenga had placed first in the girls' contest and Paul Brouwer third in the men's contest. The other schools that placed were: Alma (2), Kazoo (1), and Calvin (1).

Friday the finals will be held at Calvin College, Grand Rapids, and both Hope orators will be entered there. Besides the other members who placed in the meet at Lansing will be entered the winners from the meet at Hillsdale. Hope should have a large representation at this contest at Calvin because it has these two orators, and because it is nearby. The student body confidently anticipates celebrating a state-wide victory.

\$1000 FIRE AT ZEELAND

Fire believed to have been caused by a short circuit in house wiring partly destroyed the home of A. Van Dormink about one mile south of the village of Overseer early Sunday. The electric line from Fennville had just been placed the day previous. Neighbors helped save the furniture and the Hamilton chemical apparatus aided in keeping the fire from destroying the entire home. Damage of about \$1000 is partly covered by insurance.

ALLEGAN WOMAN GETS 15 DAYS FOR SHOOTING MATE

Mrs. Elsie Hartsell of Allegan, who shot her husband in the jaw, was sentenced by Circuit Judge Fred T. Miles to spend 15 days in the county jail and pay \$11 costs, when convicted on a charge of assault with intent to do great bodily harm. If the costs are not paid, the woman must serve 30 days. The shooting took place in the Hartsell home several months ago during a domestic argument.

TO OPEN BLACK LAKE FOR SPRING FISHING

The Holland Fish and Game club has received assurances from George E. Hogarth, director of conservation, that Black lake will be opened for spring fishing for perch, catfish and bullheads if the conditions exacted are carried out. These cover the preparation of a chart specifying the spawning beds, deep water areas and the placing of signs on refuge grounds. Work on the chart has been started.

HOLLAND WILL SPEND \$455,375 THIS YEAR

Holland's appropriation bill for the current year as adopted by the council carries a total of \$455,375. Amounts specified for the city's needs are placed at \$211,275 and for the public school system \$244,000. The total is slightly less than the budget adopted last year. The council approved a contract negotiated by the board of public works for the installation of a 5,000-kilowatt turbine at the power plant for \$86,200.

Mr. and Mrs. C. J. Hand have returned from a trip through Texas and the Rio Grande valley.

Gerrit Hoogeraten of Beuhler Bros. has moved into his new home at 166 West 9th street.

The Junior high school basketball team will clash with the first and second teams of the Grand Haven junior high tonight, Friday, at 7:30 o'clock, in the gymnasium of the senior high school.

POULTRY SCHOOL AT ZEELAND

The concluding poultry school meeting will be held at the Zeeland High School on Saturday, March 22nd, starting at 9:30 a. m. Zeeland merchants undoubtedly will have special speakers besides the College specialists who will speak as follows:

Importance of the Poultry House and Raising Baby Chicks, J. A. Hannah.

Production and marketing of quality poultry meat on the farm of R. L. Gulliver.

Parasites, tuberculosis, leucemia, cancers, bacillary white diarrhea, coccidiosis and blackhead, Dr. H. J. Stafseth.

It is expected at least a thousand will attend the school.

SPRING LAKE VOTES FIRST CHANGE IN CHARTER SINCE '94

In one of the largest votes polled here in some time, Spring Lake today adopted a new charter. This is the first charter to be adopted under the home rule act as the village has continued to operate under the blanket charter granted in 1894.

No radical changes are contained in the new charter. There will be a village mayor who will have the power of veto. Other changes relate to zoning, a traffic ordinance and airplane traffic. Of the 150 votes cast, 58 were against the change. Opponents of the charter claimed it would give too much power to councilmen and would raise taxes. The number of councilmen remains unchanged.

ZEELAND THIEVES STEAL CAR, BUT RUN OUT OF GAS

Automobile thieves at Zeeland it appears did not get very far Saturday night when they took a Ford Sedan belonging to Frank A. Van Bree from his garage on South Elm St., and became stalled on East Central Ave., opposite the First Ref. Church in that city, for lack of gasoline, and apparently left the car parked.

Mr. Van Bree had run his car in his garage at the rear of the Van Bree building, Saturday, but when he looked for it Sunday it had disappeared. A little later it was discovered where it was left by the thieves, but there was no clue as to the identity of the parties who left it there.

"Chick" Output Shows Gain Over Preceding Year

Michigan Has Part in Increased
Bookings of Orders Amount-
ing to 43.7 Per Cent.

Approximately 17 per cent more baby chicks will be produced by commercial hatcheries of the country in 1930 than last year according to an estimate of the government bureau of agricultural economics. Western Michigan hatcheries will play an important part in this increase, although the government figures are not given for various localities. In January 3,189,721 chicks were produced by 493 hatcheries. In January, 1929, the figures were 3,189,721. Orders booked up to February 1 were 43.7 per cent greater than last year. While this may indicate an increase in the poultry business, it also shows that farmers are patronizing the commercial hatcheries more and more. Holland and Zeeland especially come in for a large share of this business.

Better Be Safe Than Sorry

AFTER THE FIRE—

How often have you heard it said—

"I was mighty glad that all my important papers were in the Bank's Safe Deposit Vault."

There are so many things that cannot be replaced if lost or destroyed. Every individual, no matter how modest his or her belongings may be, should rent a safety deposit box in which to keep their valuables such as mortgages, deeds, insurance papers, bonds, etc. They should protect themselves the same as does a corporation, a merchant, a church or a lodge who do not fail to throw about them these safeguards. The loss of one paper may pay the rent on a safety box for a life time.

A Safety Deposit Box at this Bank is

ACCESSIBLE TO YOU AND NO ONE ELSE

Valuable documents, heirlooms, jewels, bonds—they're safe from the greedy tongue of fire and the grasping hands of burglars, in our vault. Only you have access to them. Is safety worth a penny a day to you? If so, do not delay.

A FARMER CAN MAKE HIS CHOICE SUCCESS OR FAILURE

IS your seedling of clover or alfalfa insured through the application of SOLVAY PULVERIZED LIMESTONE? Often loss of seedlings of clover and alfalfa is attributed to "dry weather", when it is really due to a lack of limestone in the soil. Avoid this experience. Apply SOLVAY PULVERIZED LIMESTONE which, because it is finely pulverized and furnace-dried, gives results the very first year. Field tests have proved it is still effective twelve years following application. See your local dealer NOW, or write us today for prices on Solvay Limestone in bulk or 80 lb. bags.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(By REV. P. B. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago) (© 1930, Western Newspaper Union)

Lesson for March 16

PARABLE OF THE KINGDOM

LESSON TEXT—Matthew 13:24-32

GOLDEN TEXT—The kingdom of God is not meat and drink, but righteousness and peace, and joy in the Holy Ghost.

PRIMARY TOPIC—The Whole World for Jesus.

JUNIOR TOPIC—The World for Christ.

INTERMEDIATE AND SENIOR TOPIC—What Our Religion Means to Us.

YOUNG PEOPLE AND ADULT TOPIC—What Christianity Means to the World.

The things set forth in these parables only apply to the church in the measure that they permeate that body by virtue of its being formed within this period. It should be observed that they set forth the "mysteries" of the kingdom.

I. The Wheat and Tares (vv. 24-30, cf. 36-43).

1. The sowers. The sower of the good seed is the Son of Man (v. 37), and the sower of the tares is the devil (v. 26).

2. The growing of crops (v. 26).

There is a striking resemblance in the growing of crops. The chief peril of the devil is that he transforms himself into an angel of light (II Cor. 11:14, 15).

3. The harvest (v. 30).

There comes a time when the fruit of the crop shall be gathered. The separation is made by the angels under the direction of the Son of Man. For the tares there is a furnace of fire. For the wheat there is the Lord's garner.

II. The Mustard Seed (vv. 31, 32).

1. Its unimportant beginning (v. 31).

It begins as the least of all seeds. Not only was Christ, the King of humble parentage, but His disciples were unlettered fishermen. Likewise through the centuries not many wise and not many noble have been called.

2. Its vigorous growth (v. 32).

Though small in its inception, the work inaugurated by Christ has become mighty in power.

3. Its lodging capacity (v. 32).

The birds which find lodgment in the tree do not represent the children of men who find safety and salvation in the church, but the predatory beings who have found shelter in the church, though they are no part of it.

III. The Leavened Meal (v. 33).

1. The meal in Scripture means something nutritious and wholesome.

It was used in one of the sweet savor offerings which typified Christ (Lev. 2:13 R. V.).

2. The woman.

The woman is the administrator of the home. Her responsibility is to take the bread provided by the head of the home and prepare and distribute it to the children. It means then that the woman, the administrator, has introduced false doctrine and thus corrupted the children's bread.

3. The leaven.

In Scripture, leaven is invariably a type of evil (Ex. 12:15; Matt. 16:6, 12; I Cor. 5:6-8; Gal. 5:8, 9). It means that in this age the truth of God would be corrupted by worldliness and unbelief.

IV. The Hidden Treasure (v. 44).

1. The field (v. 44). Christ's own interpretation makes this to be the world.

2. The treasure. The treasure means Israel (Ps. 135:4; Dent. 7:6-8).

3. The purchaser. No one but the Son of God had sufficient resources to buy the world (John 3:16).

4. The purchase price. This was the precious blood of Jesus Christ, God's beloved Son (I Pet. 1:13, 19).

V. The Merchantman Seeking Pearls (vv. 45, 46).

1. The merchantman is Christ. The Son of Man has come to seek and save that which was lost (Luke 19:10).

2. The purchase price. Christ impoverished Himself (Phil. 2:6-8) to purchase the one pearl of great price (Eph. 5:25).

3. The pearl of great price. This is the church (Col. 1:18).

VI. The Dragnet (vv. 47-50).

1. The sea. The sea in Scripture denotes peoples or multitudes (Dan. 7:3; Rev. 17:15).

2. The dragnet. The dragnet cast into the sea means the sowing of the seed by the Son of Man.

3. The dragnet drawn to the shore when full means that when God's purpose for the present age is full, account will be taken of the results.

4. The separation made by the angels. This will take place at the end of the age.

5. The destiny of the bad fish. The angels shall sever the wicked from among the just, and shall cast them into the furnace of fire where there shall be weeping and gnashing of teeth.

GOOD YEAR PREDICTED FOR POTATOES IN MICHIGAN; GOOD SEED SHOULD BE SELECTED

Michigan potato growers are asked to consider the statements made by government officials in the Agricultural Outlook which reports a contemplated increase in the acreage of potatoes grown in the United States and predicts a consequent reduction in market prices if weather conditions are favorable for the crop. With normal weather conditions, the proposed acreage to be planted will produce 421 millions of bushels. The farm price for the 1924 crop which was approximately the same number of bushels was 62.5 cents per bushel. Prospective lower prices will make production economics still more profitable. The usual method of reducing the costs of production per bushel is to produce more bushels per acre. One of the least expensive ways of improving the crop is to use high grade seed which is certified to be free of troublesome seed-borne diseases. Michigan produces some of the world's best potato seed and growers of the state have the first opportunity to purchase it. The varieties of seed recommended by the State College farm crops department are Irish Cobbler for early potatoes, and Russet Rural, Green Mountain, or White Rural for late varieties.

Dr. and Mrs. A. Oltmans and the Misses Evelyn and Janet, missionaries in Japan, will return to America on furlough in the early summer.

Gerald Mokma claims Zeeland as his home but must go wherever the United States government sends him. Mokma is in the consulate service of the federal government. Although he entered only a few years ago he has risen in the ranks to one of the highest positions in the service; he's only 29 years old. Mokma recently spent a few days at home before leaving for Venezuela. He had returned here from Washington, where he took an advance examination that resulted in his being awarded three commissions—those of diplomatic secretary, foreign service officer and vice consul.

of other like matters. Mokma's parents died when he was a small lad and he educated himself. He now calls this city his home, for he stays with his favorite uncle, Dr. John Van Kly of Zeeland, whenever on leave from governmental duties. In the last game of the evening, Zeeland High's basket tossers tutored in the art of court battle by Tom Dewey, conquered Rockford in a struggle marked by the absence of scoring. The ultimate verdict was 7 to 5, Rockford employed a zone defense, forcing the Zeelanders to try to connect at long range and since both teams were not up to form in finding the basket, the score was kept down. As the players left the floor at the half, the count stood, 7 to 3, in favor of Dewey's boys. Zeeland held scoreless in the second period while Rockford was only able to net two markers. Van Peursem, Wissink and Komejan were the leading lights for the winners while Ten Eyck with five points led the Rockford outfit. Berry turned in a good all-around exhibition.

FENVILLE EXCHANGE MAY EXPAND OPERATIONS; SALES IN 1929 TOTAL \$300,000

Dr. A. T. Hadley Dies Enroute Around World

President Emeritus of Yale University Stricken With Pneumonia

Dr. Arthur T. Hadley, 73, president emeritus of Yale University, died aboard the round the world tourist ship, Empress of Australia. The Empress of Australia which Dr. Hadley boarded in New York last December 3, for a world cruise, docked at Kobe, Japan, from China.

Pneumonia was given as the cause of death. Mrs. Hadley was accompanying the educator on the tour.

When Arthur Twining Hadley resigned the presidency of Yale University in 1921 he carried out an intention expressed 22 years previously. Shortly after his election as head of the university in 1899 he informed the board of trustees that he would retire from the presidency when he reached the age of 65 and more than that age he reminded the corporation of determination to do so. He resigned the presidency in order to devote his time to the study of economics, to writing and lecturing.

His attainments, however, were not all strictly scholastic. He was regarded as the best chess and whist player in New Haven. He was apt at tennis, a celebrated pedestrian and Alpine climber; he was supposed to understand football strategy, at least on the intellectual side, better than Walter Camp; he was fond of discussing baseball and had one fixed idea, which he would debate for hours, that it would be a better game if played with ten men instead of nine. He was greatly interested in military strategy, and in particular was an authority on the strategic side of Napoleon's campaigns. Once at a circus he surprised the elephant keeper by his encyclopedic information on elephants.

Carl Swift spent the latter part of last week in Chicago, on business.

HAMILTON

Miss Gertrude Veen is employed at Saugatuck.

Mr. Herman Rutgers is driving a new Ford coach.

The Hamilton fire department was called out last Saturday morning to the Schutmaat homestead, occupied by the Henry Van Doornink family. The fire, originating under the roof over the kitchen, had gained considerable headway before it was discovered by Mrs. Van Doornink, who heard the noise of the blaze in the attic. An alarm was sent out immediately. When the men arrived a large part of the roof was in full blaze and the home seemed doomed. However, the men with the aid of a volunteer band soon had the fire under control.

Damages to the amount of several hundreds of dollars resulted. Mr. Van Doornink was very enthusiastic in his praise of the work of the local firemen and stated that the home was saved only by the quick response and efficient work of the fire department. This is the first call received by the organization, which came into being only a few weeks ago. Within one minute after the alarm was given the engine was ready to be rushed to the home one mile north of the village. The home and possibly other buildings, it was stated, "could not have been saved without the aid of the fire department and if help had come ten minutes later, the fire would have been beyond all control. The need and value of adequate fire protection has been forcibly brought before the community. A meeting was held Monday evening and the attendance shows that the people are getting back of the proposition. The Schutmaat Bros. were among the first boosters, little dreaming that their homestead would be the first to be benefitted.
