Voter turnout increases.
Not even a weekend camping trip could keep sophomore Dan Vogler from the polls. He placed his ballot at one of several outdoor voting boxes, this one run by current Comptroller Bruce Brown. Sophomore Kurt Benson marks his choices in the background.

Student body selects Congress for 1989-90

The new Student Congress Cabinet for 1989-90 will be (from left) President Jonathan Hoffman, Vice-president Brad Votava and Comptroller Andrew Stewart.

by Carrie Maples anchor assistant news editor

Friday evening Student Congress elections were held to choose officers for the 1989-90 school year. Those elected were Jonathan Hoffman, president; Brad Votava, vice president; and Andrew Stewart, comptroller. All three expressed pleasure at voter turnout and their excitement about next year.

When asked to comment on the elections, Hoffman said, "I was very happy with the results of the election. Overall, I was really pleased with the voter turnout. I'm really excited with the position I've been elected to. I have some plans to implement next year. If I could take a quote from the Carpenters, 'We've only just begun.' The future will prove the quality of the cabinet."

Vice president elect Brad Votava said, "I think the elections went well. It was a fairly clean campaign with little slander between the candidates. I can assure the students that I won't let them down. I'm a very dedicated person."

Andrew Stewart, comptroller elect, expressed his gratitude and hopes for next year, saying, "I would like to thank everyone for their support. I look forward to serving them next year. I hope we have the same quality people next year."

Students also shared their high hopes for a strong Student Congress next fall.

Hirsh to conduct reading proficiency workshop

by Beth Pechta anchor associate editor

Dr. Bette Hirsh, a nationally and internationally recognized expert on the teaching of reading proficiency will be conducting a workshop at Hope this Thursday.

The two and a half hour workshop, "Proficiency-Based Instruction in Reading," will be attended by Hope faculty from the Modern and Classical Languages Department, some Hope education students and about 30 instructors from surrounding colleges and high schools.

Dr. Judith Motiff and Dr. Sander DeHaan of the Hope faculty are coordinating Hirsh's visit. DeHaan stated that Motiff had met Hirsh at a conference a few months ago and this initiated the possibility of a workshop at Hope. DeHaan also said that Hirsh has "published extensively in the area (of teaching reading proficiency) and most of us have read books or articles by her."

Besides having published books, articles and even computer software, Hirsh has served as a proficiency trainer for workshops and summer teacher training institutes, has read papers at national and international meetings and has received numerous grants for her work. In 1988 Hirsh served as president of the Association of Departments of Foreign Languages.

DeHaan also noted that Hirsh has been a consultant to "dozens" of school systems nationwide on the subject of teaching reading proficiency.

"Of all the folks talking about proficiency-based instruction in recent years, she's at the top of the list," he said.

Hirsh is a graduate of the University of Rochester and received her master's and doctorate from Case Western Reserve University. She is currently the Head of French at Cabrillo College in Atapos, California, where she teaches Language, Conversation, Composition, Culture, Literature, Women's Studies and French Film.
Students abuse VAX SEND command

Several students work late at night at the VAX terminals in Durfee. Because some students ran up a large phone bill, the SEND command has been deleted.

by Zan Ceeley
anchor staff writer

What happened to the SEND command on the VAX time-sharing computer system? VAX users may now have realized that the SEND option has been removed from general use and has been replaced with the PHONE option.

According to Tanya Shire, manager of Academic Computing and Operations at Hope, the SEND option is now a privileged command because of student abuse relating to its use outside of the Hope VAX system itself.

Shire says originally SEND, a utility that is part of BITNET, an international academic computer network, was made available to all VAX users. Intended primarily for research and professional academic use, BITNET is being used on a trial basis by 16 members of the Hope faculty and staff who have been authorized to "test" the system and evaluate its academic communication potential, according to Shire.

As a part of a networking system, she continues, the SEND command option is another utility that along with BITNET is capable of communication anywhere in the world, provided the user knows other users and how to contact them. Such a system is much more useful than slower communication channels such as U.S. Mail and Federal Express. Shire notes, another advantage is many other G.L.C.A. schools have the system.

The problem, as Shire sees it, is the fact that the "VAX is not a social toy." Apparently some Hope students used the SEND command to communicate with students at other schools. As a result of excessive "socializing" outside of Hope's own system, Shire says one of the people in charge of BITNET at Michigan State University complained to Hope's Computer Services of inappropriate use of BITNET and the SEND command.

Shire says since the goal of BITNET is communication for academic purposes, Hope Computer Services decided to discontinue student access to the SEND command. Although, she comments, "SEND is fine for communication within Hope's VAX system," the utility is such that its use cannot be limited to just intra-campus use — rather it is an "all or nothing" option.

Another problem, Shire says, "was that SEND was made widely available with no guidelines for justifiable use" and some students used SEND to socialize with other students and did not exercise courteous use. By "courteous use," Shire means not interrupting users and asking questions such as "who are you," and making other such seemingly meaningless and potentially annoying attempts at conversation that just block the flow of more important BITNET traffic.

However, the 16 faculty and staff members mentioned earlier, as well as the staff of Computer Services, still have access to use of BITNET as well as SEND, reports Shire. She also notes that these utilities are priority-restricted to this group. Because of the abrupt demise of SEND, certain faculty and others have voted to have the PHONE option reinstalled. According to Shire, Hope's VAX used to have this command several years ago, but many people found it a nuisance. As a result, PHONE is now simply an option — people can choose to set their terminal to "broadcast equals phone" in order to receive incoming calls. Otherwise, when someone calls your terminal, you will receive no on-screen notice someone is trying to reach you.

This may not be the end of SEND command for student use. Shire explains, "A combined faculty-staff committee will determine the outcome of SEND and other BITNET and networking opportunities during the summer." So far, nothing has been definitely decided except to remove SEND until its use "can be more carefully studied." Shire reflects, "The misuse of SEND was beginning to give Hope College a bad reputation (with other schools)."

Veldink receives American Bible Society National Scholarly Achievement award

HOLLAND — Elizabeth A. Veldink, a Hope College senior from Jenison, is one of the recipients of this year's American Bible Society National Scholarly Achievement Award for excellence in Biblical studies.

Veldink is one of the top students selected each year from colleges and seminaries across the U.S. because of his high achievements in the study of the Bible. The American Bible Society makes this award in gratitude for the work colleges and seminaries are doing in preparing students for the Christian ministry. Each institution selects the particular individual to be honored from its own student body.

Veldink will receive from the American Bible Society a Biblia Hebraica Stuttgartensia Old Testament in Hebrew with English-language introduction and key card.

For more than 170 years the American Bible Society has had as its single task the translation, publication, and distribution of the Holy Scriptures throughout the world without doctrinal note or comment.
Instructors given half-time opportunity at Hope

HOPE — A unique program that places current elementary and secondary educators in Hope College classrooms as education professors brings the immediacy of their experience with younger students to college pupils.

Through the "Half-time Professors" (HTP) program, teachers from three area school districts leave their classrooms for a portion of the day to teach at Hope. The HTP program, believed to be the only one of its kind, started with the beginning of the 1987 school year.

Dr. Daniel Paul, a full-time professor of education at Hope, has been gathering data about the program for a final article he is writing with Professor Tony Donk, one of the HTP instructors. Paul is pleased with the program, and believes it shows promise. "I think it is excellent. The response of both the professors and students is just outstanding. I think it is possibly a wave of the future," Paul said.

"I loved it," said sophomore Holly Hicks, who attended a class taught by Professor Nancy L. Cook, another of the HTP instructors. "She gave such a big insight into teaching because she was a teacher. She always gave examples of what the kids do," Hicks said. "It was more realistic because we knew that she teaches every day."

"It's just great," said junior Bruce Vander Kolk, who is currently taking a course on secondary education with Professor C. Baars Bultman, an HTP instructor. "It is incredibly beneficial to have his input and to have his true-to-life stories of the classroom.

The three teachers from West Michigan school systems involved in the program are: Bultman, a 1971 Hope graduate who teaches social studies with the Fremont Public Schools; Cook, who is a teacher consultant for special education services with the Hamilton Public Schools; and Donk, who teachers fifth grade with the West Ottawa Public Schools in Holland.

Each of the three specializes in different areas of the teacher education program. Bultman teaches courses relating to instruction at the secondary school level and "Perspectives in Education. " Cook teaches courses that emphasize children with special needs, such as "Introduction to Learning Disabilities" and "The Exceptional Child." Donk teaches "Educational Psychology, " an introductory education course, and "Language Arts for the Elementary Teacher."

For each, coordinating two teaching positions has presented special challenges. Donk, for example, often has only 20 minutes between the conclusion of his morning at Woodside Elementary School and the beginning of his afternoon at Hope.

Paul applauded the dedication of the HTP instructors, noting that their two "half-time" positions typically result in more than a single full-time commitment. Paul explained that Hope responsibilities include not only teaching but also advising students, attending departmental meetings and serving on campus governance boards and committees.

"They're putting a tremendous amount of work in, but they're enjoying their work so they're not complaining about that," Paul said.

Donk shares his elementary classroom with another teacher, who takes over his fifth grade students during the afternoon. Both are responsible for grading tests and papers, meeting with parents and preparing for their part of the program.

In this case, Donk said, the parents and students at Woodside Elementary have been tremendously supportive. We have not had to my knowledge the least bit of difficulty because of this program.

Donk noted that his role at the college is something he discusses with his fifth grade students, who sometimes refer to him as "Professor." Donk. "We talk about what I do at the college a lot," Donk said. "They take some real pride in the fact that I also work at Hope."

The program has also provided opportunities to grow as a teacher. "I see this as a today sort of inservice for me," Donk said. "Not only do I have to research it, but I have to try it out before I can talk about it."

When preparing to teach his college students about teaching language arts skills, for example, Donk discovered that his method for teaching spelling was based more on tradition -- the way he had learned in elementary school -- than practicality, a situation he has changed. "I've completely revamped how I teach spelling, and I've had much greater success," Donk said.

Establishing the program demanded the cooperation of many individuals from the college, the three local school districts and their teachers' associations. On Wednesday, April 19 the education department updated representatives of those associations on the program's progress at a luncheon given on their behalf.

Chem department receives grant

HOLLAND — A major grant from the National Science Foundation will help fund a summer program at Hope College for high school chemistry teachers.

The program, entitled "Summer Workshop and Leadership Activities Project, " will run June 26 to July 30, and is designed to assist high school teachers in making laboratory work an integral part of their instructional program.

The project will provide useful laboratory experiments for 40 teachers of college preparatory first-year honors, second-year and Advanced Placement (AP) chemistry courses. The $187,130 grant from the NSF is providing most of the funding for the program. Much of the instruction will be done by the Hope chemistry faculty, and participants who successfully complete the program will be awarded graduate credit.

"The teachers will gain the ability to alter their laboratory programs and thus make their courses more stimulating to the students that they teach," said Dr. Eugene Jekel, director of the summer project and the Drs. Edward A. and Elizabeth Holma Professor of Chemistry at Hope.

"The teachers will also be given updates in the field of chemistry education through attending the five-week program," Jekel added that the opportunity to interact with colleagues is another advantage of the program. "It is a benefit for the high school teachers in interacting with their peers from all over the country -- there's often an excellent information exchange among them, " Jekel said.

The program has received NSF grants for each of its 22 years. Jekel has been the director since its inception, and Frank S. Quinn, a chemistry teacher at Clayton High School in Clayton, Mo., has been the laboratory director for the program's duration as well.

"Usually books like these are produced by people who teach graduate students."

-- Dr. John Cox

Professor Cox said the idea came from a semester he was teaching back in 1983. "Usually books like these are produced by people who teach graduate students," he said, and went on to explain that graduate professors have more time to devote to such works.

Cox took a leave of absence from Hope in 1986-87 and, with the support of a National Endowment for the Humanities, did his research in Cambridge, England. He also received a series of faculty development grants from Hope between 1982 and 1987.

Princeton University Press published the book, which is considered a prestigious publisher of scholarly books. "I'm pleased to be working with Princeton," said Cox. "They're a very competitive press, and they have a reputation for excellence in the quality of their books -- not only in substance, but in appearance and durability." Cox's book was designed for Shakespearean scholars, but he is hoping it will help students also.

Professor Cox, who joined the faculty at Hope in 1979, teaches primarily British literature. He had previously taught at Westminster College, University of Victoria, and Harvard University. Cox is currently planning a book on Christopher Marlowe and will be returning to England this summer to do research.
Upward Bound sponsors conference on Is there life after high school?

HOPE - Is there life after high school?
Hope College Upward Bound hopes to answer this question when hundreds of parents, students and educators gather on the Hope campus for the Holland Area Parent-Student Education Conference.

Following the theme "Is there life after high school?," the conference scheduled for 9 a.m. to 5 p.m. in the Hope College Maas Center. Registration for the conference is free and parents will take place at the door.

"The responsibility of providing educational opportunity to youth is one shared by teachers, parents and students," said Rick Muiz, program counselor for the Hope College Upward Bound program. "Many parents don't realize what a difference they can make by taking a sincere interest in their children's education."

"What we intend to do through this conference is provide a setting where parents and students can put their heads together to discuss how best they can contribute to the education of their children," Muiz said.

"Anyone who has anything to contribute along the lines of educational involvement is strongly encouraged to attend.

"We're expecting more than 300 people to attend the conference and we have a full day planned for them," Muiz said, "including workshops, speakers, skits, panels and open discussions.

The keynote speaker for the conference will be Maureen Burns, author of the best selling motivational book, "Run With Your Dreams."

Burns acquired a national reputation as a motivational speaker, having worked with major corporations such as AT&T and John Hancock, and learning institutions such as Purdue University, Ohio State and Michigan State. The Greenville resident's book is a best seller in English, Spanish and French.

"Her messages of positive thinking are exactly what we need parents and students to hear," Muiz said. "We think we're fortunate to have such a dynamic speaker at our conference."
AIDS will affect many collegians

(CPS) - "Significant numbers" of college students will be suffering from AIDS in the 1990s, the head of the American College Health Association's AIDS task force told a health conference in Seattle the first week of April.

"This is not a potential problem on campuses," Dr. Richard Keeling, who also heads the University of Virginia's health services department, told a regional meeting of doctors, nurses and hospital administrators in Seattle. "It's an established problem."

About three out of every 1,000 collegians carry the HIV virus, which causes AIDS (acquired immune deficiency syndrome), a preliminary Centers for Disease Control report estimated last fall.

AIDS is a fatal disease that breaks down the body's immune system. It is often spread through certain kinds of sexual contacts. Health experts have long considered college students, who generally are sexually more promiscuous than other people, as running a high risk of contracting the disease.

"Most students now have a fairly good base of information about AIDS," he said. "We need to facilitate links between what they know and what they do."

Keeling thought most of the students now infected won't begin to suffer AIDS symptoms until the early 1990s because the virus takes that long to destroy the immune system.

At that point, Keeling expects campus health services to be overwhelmed. "We're still in the infancy of providing the range of medical and psychological services" needed to treat AIDS patients.

Senate moves to cut off loans to students from high-default schools

(CPS) - Students who attend colleges that have high student loan default rates won't be able to get Stafford Loans in the future if a bill approved unanimously by the U.S. Senate at the end of March becomes law.

If 25 percent of the loans processed by any one school are in default, the offending college or schools is well over 25 percent, he said.

Community colleges and trade school students would feel the biggest impact from the law, observers said.

The effort is part of a decade-long campaign, which has included everything from towing away defaulters' cars to garnishing graduates' paychecks, to collect overdue loan payments. Defaulted loans will cost the federal government $1.7 billion this year, cutting into the amount of money it can loan out to other students.

"The incentive is for institutions not to serve students who are high risk," explained Richard Hawk, director of the Higher Education Assistance Foundation in Overland Park, Kan.

The average default rate for community colleges and trade schools is well over 25 percent, he said. The average for four-year institutions is well below the cutoff, though some are over the 25 percent mark.

"There will potentially be impact in both areas," Hawk predicted.

The Senate's bill -- a slight compromise from last year's proposal to automatically cut off lending to students at institutions which have the highest default rates -- is expected to release default regulations the third week in April.

Two major lenders, Chase Manhattan Bank and Citibank, both in New York, already have cut off lending to students at schools with high default rates.

Demonstrators fight to keep accused rapist in school

(CPS) - An accused rapist can continue attending classes pending the outcome of his trial, of officials at the State University of New York's Stony Brook campus decided April 4.

Quincy Troupe, charged with the March 24 on-campus rape of a SUNY student, will be allowed to attend classes, accompanied by a guard. University officials, apparently spurred by a gathering outside the administration building of 300 students chanting "Prove it or drop it, release Quincy Troupe," modified an earlier ruling that banned Troupe from campus altogether.

Many of the protesters apparently think Troupe, who is black, has been treated unfairly.

"There are allegations that Suffolk County police acted differently toward Troupe than had the suspect been white," confirmed university spokesman Dan Forbush.

Some victim advocates also attended the rally. "It is not a racist issue, it is an issue of women's rights," argued Maria Gerena, a friend of the rape victim.

The 20-year-old rape victim identified Troupe in a yearbook photograph and two subsequent police lineups, which led to his arrest March 31. He was released on $10,000 bond April 2.

A trial date has not yet been set.

Profs at private colleges make 4 percent more than last year

(CPS) - Private college professors earned an average of $35,974 this year, a slight increase over their 1987-88 salaries, the College and University Personnel Association (CUPA) said last week.

"Salaries did not increase as much as they had in the past few years," said Richard Howe, who directed the salary survey for CUPA. "I'm not sure if this is a trend, but (the pay hike rate) is slowing down."

This year's average salaries were 4.15 percent higher than last year, but the increase was lower than the general inflation rate.

Book companies threaten to sue Kinko's over 'professor publishing'

(CPS) - A group representing the biggest book companies in the country threatened in early April that it may sue Kinko's, the nationwide chain of photocopying centers, for its practice of helping teachers engage in "professor publishing."

The Association of American Publishers (AAP), based in Washington, D.C., said practice -- in which professors photocopy and bind together materials to supplement or in some cases replace textbooks -- violates copyright laws.

Professors claim the practice also can save students from having to buy a lot of textbooks. Under the "fair use" provision of copyright laws, professors need permission to copy everything, unless they can pass a litmus test for brevity, spon-

Palm Springs t-shirt sells well

(CPS) - A best-selling t-shirt in Palm Springs, Calif., the spring break mecca that has become something of a police state as it tries to prevent a repeat of the terrible riots of 1986: "Spring Break. Come on vacation, leave on probation."
Wisconsin may ban students who use banned words

(CPS) — In an attempt to dam what appears to be a still-rising tide of racism on American campuses, the University of Wisconsin said April 4 it may start expelling students who utter racial, ethnic or sexist epithets at others.

"This is a step backwards," said Regent Ody J. Fish, who voted against the proposed rule. "The goals are laudable, but the cure is worse than the disease. This is not constitutional and, furthermore, not workable."

While the notion of expelling someone for something they say — as opposed to something they do — made him uncomfortable, Meyer Weinberg, a University of Massachusetts professor of race relations, thought it might help force people to think before they insult others.

"For someone to argue today that racism is a protected form of speech, I don't buy it," said Weinberg.

Wisconsin wasn't the only place trying to find ways to defuse campus racial tensions with new speeches, workshops and reports in early April.

Stanford University issued a massive report about the nature of its students' race relations, while University of Colorado students met under the glare of T.V. lights to discuss ways of getting along better.

"Weinberg said, "and it should not letting administrators decide who or who does not get constitutional rights troubled some observers.

"Even those who voted for it articulated their uneasiness with it," said Eunice Edgar of the American Civil Liberties Union office in Madison, site of UW's flagship campus.

Edgar predicted the "ACLU or an individual would challenge it" if it becomes an official rule.

But some African-American students say they'd welcome such a rule on their campuses. "Something has to be done to make people watch what they say," said Tia Collier of the Black Student Alliance at the University of Colorado.

"Maybe instead of expulsion they should require a few months of cross-cultural training," she suggested. But, "I'm sick of being called a nigger. I'm for anything that will stop that."

The ethic is common on campuses. Recent Polytechnic Institute hockey coach Mike Adesa, for one, allegedly called one of his players a "nigger" in February, prompting an early April protest against him.

Students found racist graffiti in recent months at Louisiana State University's library and Cal-Berkeley, among other places. Iowa State students protested the campus radio station's playing of "Rock 'n Roll Nigger" by Patti Smith in late March.

On April 6, Michigan State black students asked MSU President John DiBiagio to send retired Economic Prof. Charles P. "Lash" Larrowe "to get the help he seems to need" in retaliation for a newspaper column Larrowe wrote satirizing a Detroit minister's approach to fighting MSU's racial problems.

"If you can't criticize someone for that person's behavior, this country is in bad shape," said Larrowe, a long-time civil rights activist.

And other kinds of racial problems continue to plague campuses.

Two black Harvard students, for example, claim Cambridge police harassed them on a crowded bus in March, while a University of Utah white student allegedly threw flour on classmate John LaPointe, a Native American, and yelled "Now you know what it's like to be white." as he fled.

At Penn State, a white man reportedly stopped a black female student on campus in late February, punched her in the eye, and said "Why don't you protest this?" A white PSU student, in turn, was beaten up by a black assailant who uttered racial slurs at him.

"Between 20 and 25 percent of all minority students on campuses nationwide have been victimized at least once during an academic year," Howard J. Uhrich of the National Institute Against Prejudice And Violence found in an early 1989 survey of collegiate race relations.

anchor gives annual awards

As the year winds to a close, everyone is scrambling to get it all finished and still spend some time with friends one may not see for the entire summer.

Due to this, the anchor would like to continue an annual tradition and hand out a smile and a friendly handshake to some and a grimace and an unfriendly gesture to others for their accomplishments over the past year. To the winners of the third annual anchor awards, we offer our congratulations!

The SILENCE IS GRAND Award goes to the greek system that managed to not only stay out of our headlines, but the headlines of the rest of the country as well. The only greek stories we ran were for civic projects, which beats hazing violations any day.

The COLOR BLIND Award for meritorious idiocy goes to the deejays who thought the red overload signal on WHS's transmitter meant Christmas was here again before it overloaded and burned out.

The OLLIE NORTH MEMORIAL Award goes to the administrators who sat on the faculty's All Faculty and Student Congress Elections. They have been slammed. We find that money was sorely needed for a lot of capital improvements and general upkeep of organizations like the anchor.

The THANKS BUT NO THANKS Award goes to all those involved with the 1987-88 Milestone staff for making the 1987-88 Milestone staff look like villains for choosing (before the summer even began in 1988) not to be on the staff this year. We at the anchor salute the integrity of all those much maligned staff members. We know you didn't deserve to be made scapegoats.

The LOOKS LIKE YOU MADE IT Award is given to the women's soccer team as they take their deserved place as a varsity sport.

The MONEY BEFORE OPUS Award, we give to our editor for accepting so many ads that we ran out of room for Bloom County near every week.

The NO HEALTH HERE Award goes to the Health Clinic for their less than memorable handling of the flu epidemic. Just go home, drink lots of fluids, sleep, but you're still not excused from class.

The GO BLUE Award for All-around Excellence honors the Student Activities Committee for their good movie selections, improvements at Winter Fantasia, funny comedian encees, Kletz parties and willingness to attempt a classy Homecoming dance for next fall.

The CHEER UP GANG Award goes to the Business Office, for all the rumors we have heard of frowning faces and less-than-sincere smiles. Then again, we all know that accounting is no fun.

The ALMOST MODERN award goes out to the Library staff, for their work in adding the new barcoding and computer systems. There's still room for improvement, but it's not half bad.

The FACULTY STAFF PARKING ONLY award is presented to Public Safety and the administration for the amazement lack of student parking around dorms and campus buildings. And we pay 40 bucks for this?

The HOLD ALL MY CALLS award honors Director of Student Activities Bruce King for his attempts to really and truly hold office hours this semester. It's getting better, Bruce - keep pluggin'.

And last but not least, the BEACH-BOUND award goes out to all the Hope students who have to take final exams just when the weather is getting better in Holland. Summer's just around the corner!

Letters to the editor

Delta Phis feel they've been insulted

Dear Anchor Staff,

We would like to take this opportunity to express our concern about the recent Ranchor article and Anchor cartoon. For two weeks now, the Delta Phi sorority has been slammed. We find these comments insulting and degrading.

How would a freshman basketball player know if Delphis goes parking? Or if we are familiar with the male body - especially Wade. None of us have ever been in a car with him. And how do you know what we look like in bathing suits? Did you see the cover of The Naple Daily News or have you been peeping at "Maul"?

Number one, Delta Phis aren't dizzy. Number two, we are a far cry from being stupid. We are Mortar Board members, AEA members, MENSA members, Baker Scholars, Distinguished Scholars, National Chemical Society members, National Merit Scholars, Presidential Scholars, AND responsible parents.

It's ridiculous that the Delta Phi sorority has been put down for two weeks in a row. Don't you have anything better to do than trash our sorority and Greeks in general?

Sincerely,
Tina Mann and Tracy Piasccki

Outgoing Cabinet 'joyeux' over new officers

Dear Editor,

It is with great joy that we announce the Student Congress Cabinet for the 1989-90 school year:

President - Jonathan Hoffman
Vice President - Brad Votava
Comptroller - Andrew Stewart

We would like to thank all those who ran for office, all those who sat at tables for us during the election, and especially all those who voted.

About 950 ballots were cast in this election, 100 more than the election that put us in office for this year.

In many ways this year was revolutionary for officer elections. It was the first year we had candidate debates; the first year that the comptroller was singled out as the officer in charge of the Student Activity Fund; the first year any candidates received endorsements; and the first year of what we call the "poster wars."

Although there was an undesirable amount of negative campaigning this year, we can only regard it as a sign of the seriousness with which these elections were taken. Of that seriousness we are overjoyed.

The last meeting of this year's Student Congress will be Thursday, April 27 at 9:30 p.m. in the Mass Auditorium. This meeting is specifically open to all students and organizations to provide ideas and issues for next year's cabinet. We encourage all of you to attend. And once again, we thank you. It's been a fantastic year for us on Congress.

Sincerely,
Tom Kyros and Bruce Brown
Graduating Student Congress officers

Graduating Student Congress Officers

Dear Anchor Staff,

The FACULTY-STAFF PARKING ONLY award is presented to the administrative assistants who we hope didn't deserve to be made scapegoats.

The ALMOST MODERN award goes out to the Library staff, for their work in adding the new barcoding and computer systems. There's still room for improvement, but it's not half bad.

The MONEY BEFORE OPUS Award, we give to our editor for accepting so many ads that we ran out of room for Bloom County near every week.

The NO HEALTH HERE Award goes to the Health Clinic for their less than memorable handling of the flu epidemic. Just go home, drink lots of fluids, sleep, but you're still not excused from class.

The GO BLUE Award for All-around Excellence honors the Student Activities Committee for their good movie selections, improvements at Winter Fantasia, funny comedian encees, Kletz parties and willingness to attempt a classy Homecoming dance for next fall.

The CHEER UP GANG Award goes to the Business Office, for all the rumors we have heard of frowning faces and less-than-sincere smiles. Then again, we all know that accounting is no fun.

The ALMOST MODERN award goes out to the Library staff, for their work in adding the new barcoding and computer systems. There's still room for improvement, but it's not half bad.

The FACULTY STAFF PARKING ONLY award is presented to Public Safety and the administration for the amazement lack of student parking around dorms and campus buildings. And we pay 40 bucks for this?

And how do you know what we look like in bathing suits? Did you see the cover of The Naple Daily News or have you been peeping at "Maul"?

Number one, Delta Phis aren't dizzy. Number two, we are a far cry from being stupid. We are Mortar Board members, AEA members, MENSA members, Baker Scholars, Distinguished Scholars, National Chemical Society members, National Merit Scholars, Presidential Scholars, AND responsible parents.

It's ridiculous that the Delta Phi sorority has been put down for two weeks in a row. Don't you have anything better to do than trash our sorority and Greeks in general?

Sincerely,
Tina Mann and Tracy Piasccki

Outgoing Cabinet 'joyeux' over new officers

Dear Editor,

It is with great joy that we announce the Student Congress Cabinet for the 1989-90 school year:

President - Jonathan Hoffman
Vice President - Brad Votava
Comptroller - Andrew Stewart

We would like to thank all those who ran for office, all those who sat at tables for us during the election, and especially all those who voted.

About 950 ballots were cast in this election, 100 more than the election that put us in office for this year.

In many ways this year was revolutionary for officer elections. It was the first year we had candidate debates; the first year that the comptroller was singled out as the officer in charge of the Student Activity Fund; the first year any candidates received endorsements; and the first year of what we call the "poster wars."

Although there was an undesirable amount of negative campaigning this year, we can only regard it as a sign of the seriousness with which these elections were taken. Of that seriousness we are overjoyed.

The last meeting of this year's Student Congress will be Thursday, April 27 at 9:30 p.m. in the Mass Auditorium. This meeting is specifically open to all students and organizations to provide ideas and issues for next year's cabinet. We encourage all of you to attend. And once again, we thank you. It's been a fantastic year for us on Congress.

Sincerely,
Tom Kyros and Bruce Brown

Eight months ago, if someone had told me that the school year would go by quickly, I would have just laughed. Now, eight-plus months and 25 issues of the anchor later, I realize that the year really has flown by, and I’m more than a little sad to see it go. All in all, it’s been a great year for the anchor. We’ve finally got national news, we’ve got better overall local coverage and we’ve also received a very positive response from both the students and the administration of Hope College. Where the anchor of the past was sometimes seen as something to flip through and throw away, the paper has received a great deal of encouragement this past year.

On top of all that, we ran the longest “ranchor” issue ever, increased our sports and feature coverage, and even received a “first class” rating from the Associated Collegiate Press – the first such rating in several years.

SPOTS OF TIME

Time to commence

MARY TAYLOR

Tenth Street is becoming Greentown, Kollen has automatic locks, and Dykstra cluster life seems to be causing friendships.

And I’ve heard that in the next ten years a slew of cottages will be torn down to make room for apartment units. What about the Boyd Boys? What about Van Drezen’s roof perch?

It is my sense that the average student Hope attracts today is different than that of a few years ago. Indifferent, more worldly, less concerned about the heritage of the school. Hope students today don’t shop downtown. They go to the mall. There’s a sailboarding club in the making. Junior varsity field hockey has been dumped. Women’s soccer. No one goes to baseball games anymore. And you even need a ticket for a Phool’s salad plate on Saturday night.

Who knows what will happen next?

It’s time to get out while you can. Seniors, let’s get out while the lounger in Van Wylen is still sometimes available, while there are just two front entrances to VanderWcler, and before a parking garage is built in the Pine Grove. Let’s go before we forget our freshman Nykerk song and the days the admissions building was across from Grays.

I think it’s about time to go to a school where I won’t know everyone in the terminal room. It might be nice to be “just a number” on campus. 560-86-0177 has kind of a nice ring to it.

Times are changing, no doubt about that. And personally, I’d be rather remember the way things were. It’s going to be bad enough not to be able to show my kids “Beggar Cottage in fifteen years.

You know, it’s been a wonderful four years, but maybe it’s time to get out of here and get on with our lives.

SLIP OF THE MIND

Things change

JIM MONNETT

“Thjs old town’s been home as long as I remember. This town’s gonna be here long after I’m gone.” - “My Town,” The Michael Stanley Band

It’s almost over. Another year of the collegiate experience draws to a close and I doubt there are many people sad to finish classes. In less than ten days most of you will be on your way back home or at least to a different place to call home than dear old Holland. I’m sure you’ll all miss the classes, textbooks, library, dorm room and the one- pty toilet paper.

This is a time to look back on the year. To begin to file the memories away where they will collect that fine sheet of dust that turns the past golden. Can’t you hear the distant sighs of nostalgia? Remember these are the finest years of your life.

Aack-thypt to all that.

Let’s be honest, it’s not nostalgia time. It’s time for “No more pensils. No more books. No more teachers’ dirty looks.” It’s time to cut it all loose and move on. Sure, I know that you seniors out there are a bit frightened. After graduation, Hope and Holland won’t be home anymore. But do you honestly want to stay at Hope for a few more semesters?

As a sophomore, I can leave for the summer secure in the knowledge that I get to come back here for at least two more years. I can take comfort in knowing that Holland is still my home for a while longer.

Seniors don’t have that luxury. Most of them I imagine love Hope and don’t want to leave it. Sure they want to move on to bigger and better living, but Hope’s been their home for four or so years. Next year it won’t be the same.

But to be honest it won’t be the same for me neither. Many of my close friends are leaving. The Hope I have known this year will be gone when I move back into my cottage next fall. The Hope I knew will be going to grad school in Chicago, living in cottages, and not sitting next to me in stats.

So what does any of this have to do with the price of scotch?

Let me try to find sense in it.

Last weekend I went to the Knickkerbocker Theater and saw the movie “Things Change” with Don Ameche from “Cocoon.” At one point in a Tahoe casino he wins $35,000 on one spin of the roulette wheel and loses it all on one bet on the number wheel. The young dealer apologizes to him, but he just smiles sadly and shrugs saying, “Things change.”

But it makes sense to me. Every single one of us is going to look back at Hope College differently after the summer. The seniors will look back at a place that isn’t entirely theirs anymore. The rest of us will look back at Hope with the knowledge that it isn’t the same place it was when we left. One fourth of it’s membership has moved on, the remaining three-fourths are living in new dorms and cottages, and there will be a brand new wide-eyed fourth staggering around in total confusion. Hope will have changed. Things change.

But this past year will still be ours in our memories. Those great philosophers, the Michael Stanley Band are more right about this town than it may seem. This old town has been home long as we remember. And it’ll be here in our hearts long after we’re gone.

Students choreograph 'Dance Happenings'

by Julie Thorner

anchor news editor

Part of the dance major's curriculum involves choreographing a performance piece. "Dance Happenings" is the result of this requirement. Seven dance students have created pieces according to their personal style preferences. These will be performed Thursday, April 27 at 8 p.m. in the Dow Studio. Four of the student choreographers were able to be contacted.

Liza Fritz used Mannahaim Steamroller's song, "Sirens." Fritz explained, "I brought the idea to Carla, and she enriched it," said Fritz.

"In her future, Fritz wants to teach dance in grades K-12. During that time, she said, "I want to perform as much as possible." In just a month to June, picked "Everything I Miss at Home," by Cherelle for her piece. "I pick it because every time I listen to it, it puts me in a good mood. It's a sexual, seductive song."

In describing her style, Gano said, "Mine is really jazzy. It's soul jazz. You feel it inside. The moves are really hot." Gano is using four dancers - Katie Browne, Heather Brawkamp, Britanny Tyler and Christie Guth. "They've been a lot of fun," said Gano.

"I want to become a professional dancer," Gano said about her future. "And I want to own a professional dance company." Fritz added, "I want to do choreography in college and then do something else."

Heather Kelley described her style as all about being at the go station. "I've always liked the idea of powerful women," Fritz explained.

Steamroller's song, "Sirens." Fritz used Fritz and Hough to perform the storyline. "I saw the connection at first. Fritz longs to ask out his Crush, Lloyd Dobler (Cosack), discussed his dream date with his friends. Lloyd longs to ask out Diane (Lone Skye) but they "come from different types of background." She is the class valedictorian who has spent her last four years with her books, and he is popular with everyone.

On a whim she goes out tonight, sir, I'm just kinda sleep with her, and dump her," Lloyd says, "If you guys know so much about women, why are you still single?" His girlfriend sweetly spells out to her dad at the table.

He is pressed again for his plans near the end of the film, "I can't figure it all out tonight, sir, I'm just kinda hangin' with your daughter right now," Lloyd spells out to her dad at the table. Lloyd and his four buddies comfort one another and complain about women. All four guys have dumped and give their input on women. "Man, you can't trust women," Lloyd said. "You've better without us;" are the offerings of the exps.

After advice like, "You gotta get a girl who looks like her, sleep with her, and dump her," Lloyd's family is not using music. In stead she has taken excerpts from speeches made during World War II that have been edited. "Mine is really jazzy. It's soul jazz. You feel it inside. The moves are really hot."

Gano is using four dancers - Katie Browne, Heather Brawkamp, Britanny Tyler and Christie Guth. "They've been a lot of fun," said Gano.

"I want to become a professional dancer," Gano said about her future. "And I want to own a professional dance company." Fritz added, "I want to do choreography in college and then do something else."

Ritesma to conduct orchestra and symphonette

HOPE - The Hope College Orchestra and Hope College Symphonette, Dr. Robert Ritesma, conductor, will present a joint concert featuring winners of the 1988-89 concerto-aria competition at 8 p.m. on Thursday, April 27 in Dimnent Memorial Chapel.

All of the soloists are students studying in the department of music at Hope College. The symphonette will open the program, accompanying three of the soloists.

Ariane Marolewski, a senior chemistry major from New City, New York, will perform the first movement of the Concerto for Clarinet by Mozart. Marolewski is a student of Professor Jose Feghali.

Mary Alice Smith, a senior music education and music performance major from Michigan, will perform the aria Una Voce Poco Fa from The Barber of Seville by Rossini. Smith is a student of Professor Joyce Morison.

Heather Thompson, a junior humanities composite major from Topeka, Indiana, will perform the aria Poco Fa from the Barber of Seville by Rossini. Thompson is a student of Professor Heather Perry.

J. Knighten Smit, a senior piano performance major from Grand Rapids, will perform the second movement of the Piano Concerto No. 1, in d minor, by Brahms. Smit is also a student of Professor Laura Floyd.

The orchestra will conclude the concert with a performance of the stirring Finlandia by Jean Sibelius.

Senior pianist to play

HOPE - Hope College senior J. Knighten Smit of Grand Rapids, will present a solo piano recital Friday, May 5, at 8 p.m. in Dimnent Memorial Chapel.

The program will feature works by Mendelssohn, Beethoven, Chopin and the Argentinean composer Ginastera. Smit has been a scholarship recipient for the past two summers at the Aspen Music Festival where he studied with John Perry.

The recital is free and open to the public. Alumni and parents of graduating seniors are cordially invited to attend.

Bright to give final recital

HOLLAND - Pianist David Bright of Holland will present his Hope College senior recital Tuesday, May 2 at 8 p.m. in Dimnent Memorial Chapel.

The public is invited and admission is free.

The program will consist of works by Beethoven, Chopin and American composer Dello Joio.

A vocal music education major at Hope, he is the son of Mr. and Mrs. John Bright. He is a student of Professor Joan Conway. Bright has had the opportunity to perform with the Hope College Orchestra. He has participated in several master classes, sponsored by the Hope College piano department, taught by artists such as Flavio Verani, Jaime Bolipata, Paul Shaw, Lawrence Campbell, and the latest Van Cliburn winner, Jose Feghali.

Smit has been a scholarship student for the past two summers at the Aspen Music Festival where he studied with John Perry.

The recital is free and open to the public. Alumni and parents of graduating seniors are cordially invited to attend.

Dianne Brown is an assassin in CF

by Scott A. Kaukonen
anchor staff writer

There is an assassin on Hope College's softball team. She hides in centerfield, quietly - well, maybe she's just so totally stalking her prey. Waiting to attack, she patiently remains in tense from pitch to pitch. Finally, a batter lines a shot up the alley and everybody is running. The runner from second rounds third and heads for home. But she'll never make it. She is gunned down by the centerfielder who smiles and laughs as she returns to her post, anxious to reload and fire her cannon-for-a-right-arm.

As the lone returning senior on Hope's team this year, Dianne Brown, a physical education major from Byron Center, was pretty "bummed" in the pre-season. She didn't expect much from this youthful team and though she tried to stay optimistic, a rough 2-8 spring trip wasn't much comfort to the soul.

But when the MIAA season opener with Alma rolled around, Brown was ready - and she made sure her teammates were too. The result has been a fine MIAA season as the Dutch have carved a 16-2 record and await the MIAA tourney. "I'm Baaaccckkk!" I'd like to apologize to all my fans out the waders, landing nets, and all you catch is an 8 lb. carp. But when trout season comes, that 8 lb. carp becomes a trout. Although we catch and release, however. There is no place a lot of people are fishing is what is known as a "good spot." But for our purposes we really don't have to know this. Since we're true sportsmen and release our catch, virtually anything we catch is a trout.

We work along the way, Brown has had "Soooo much fun." She is enthusiastic to the point of, at least, constantly joking with leftfielder, Susie Renner and hollering in to her pitcher. To opponents, it must seem like a crime. Not only is she having fun, but she is having fun at their expense.

Brown has added some excitement to the Hope softball program. "It's the last "In the Crease" of the year, and I guess that's pretty big news, but what's even bigger news is what happens this Saturday. Trout season opens! Yes, that's right, time to break out the waders, landing nets, creels, and your backpack flies. I've had much experience in trout fishing, and in order to help my readers, I'd like to try and pass on some of the lessons I've learned about this great American sport.

The first thing you have to know is where to fish. The best place to fish is what is known as a "good spot." There is no real definition for a "good spot," but it usually falls into one of these four categories: 1. any body of water in Canada, 2. any place with so many sticks and branches in the water that you snag one nine times out of ten casts (ideally you catch a fish on the other cast), 3. any place on a bend in a river that is too deep to see the bottom, and 4. any place that you can see fish.

One myth you want to stay away from is the belief that any place a lot of people are fishing is a "good spot." More likely, it's just a bunch of city folks who have heard from their barber that it's a "good spot," when actually, it was last week's "good spot." The other thing it helps to know is what a trout looks like. There are specific traits to the trout, but for our purposes we really don't have to know this. Since we're true sportsmen and release our catch, virtually anything we catch is a trout. It seems miraculous, but when trout season comes along, everything turns into a trout. This is beneficial because suppose you go out fishing all day and all you catch is an 8 lb. carp. Well you don't want to go back to home, or whatever and have to say that's all you caught. Since it's trout season, you don't have to. Because during trout season, that 8 lb. carp becomes a 3 lb. rainbow. This only works for catch and release, however. Don't bring home an 8 lb. carp and try to tell someone it's a 3 lb. rainbow; most people know the difference between 8 and 3 lbs.

The only other thing you need to know is the best way to catch trout. Unfortunately, the best way is not legal, and it also goes against the principles of good sportsmanship, so don't snag and don't try to blast them out with dynamite. Though both these methods work, it's often difficult to tell what it is you've actually caught.

The best way to get trout legally is either with worms, or spawn, or home tied flies. Nothing beats natural bait for catching fish, no matter what artificial lure companies may say.

One other thing it's good to know is what to do if you start catching fish, and someone asks what you're using for bait. Simply dip into your tackle box and give the guy the ugliest lure you've got it's always good to have some cheap useless lures in your box for just such a situation. Though it'll cost you a lure, you'll at least have a good time.

Spring sports finish off their seasons

by Scott A. Kaukonen
anchor staff writer
and Bill Meenans
anchor sports editor

As the Hope spring athletic teams head toward the end of their seasons, the anchor presents a summary of the seasons to date.

MEN'S BASEBALL

Following a rough preseason which saw nine losses in a row on the way to a 2-13 record, the Dutchmen have put together a respectable 6-4 mark in MIAA competition with two games remaining at Olivet on Saturday. The Dutchmen have an overall record of 8-19. Mathematically, the Dutchmen are not out of a very tight race for the conference title. Calvin and Alma each have two losses and six games remaining. Albion also has two losses with four games to play.

Saturday, the Dutchmen kept their hopes alive by sweeping Adrian 3-1 and 8-2. Seth Parker and Vic Breithaupt continued their strong pitching, each picking up their third win, with Dan Klunder getting his first save in the first game. Parker leads the MIAA in wins with a 3-0 record and has a 1.94 ERA. Breithaupt is second in the MIAA with a 0.94 ERA to go with a 2-2 league mark.

At the plate, shortstop Tim Peterson leads the Dutchmen with a .364 (83 hits) average and 14 RBIs. Freshman Sherrrie Scholten leads the team in runs scored with 14 and freshman Johanna Pscodna leads with 11 RBIs.

The Dutch will finish their season with the MIAA Invitational Tournament and Saturday at Calvin. The tournament will feature teams from throughout the Midwest.

MEN'S TENNIS

The men's tennis team is 3-1 in the MIAA with their only loss coming to perennial champion Kalamazoo. The Dutchmen swept Adrian 9-0 Saturday. Hope is currently 5-3 overall and finished 9th at the GLCA tournament.

Senior Spencer Heimbrecht is playing number one singles for the Dutchmen and has posted a 6-4 record. The number two singles slot currently belongs to junior Dirk Vande Poel who also has a 6-4 record. Senior Eric Sawaski is 5-2 at number three and sophomore Kevin O'Keefe has posted a fine 8-3 mark at number four.

With the exception of the loss to Kalamazoo, Hope has only lost two flights in MIAA competition, both to Calvin. Hope blanked Alma and Adrian.

The Dutchmen visit Albion today, Wednesday, for a make-up match. They are currently tied with Albion for second in the MIAA. The Dutch will then finish their season Saturday afternoon at Olivet.

WOMEN'S TENNIS

Hope's women's tennis team will go into the MIAA tournament this weekend as the odds-on favorite. Entering their match last Monday with Olivet, the Dutch had a perfect 5-0 record in the MIAA. The Dutch have dominated the MIAA, as no team has even come close. Hope defeated Albion, Calvin, and Adrian, each 9-0. Alim put up a little more fight, managing to take one flight. Kalamazoo, viewed as Hope's toughest obstacle to the title, succumbed to Hope as well, 7-2.

Hope is led by senior All-American Colleen Sandro who is a perfect 13-0 at the number one flight singles. Along the way, Sandro has become Hope's all-time leader in singles victories. Number two singles player Dani Zurchauer, a junior, has also posted an impressive 14-1 mark. Sophomore Kathy Land has posted an 11-3 mark at the number three position.

The team stands at 14-3 overall with a preseason loss to Ferris State and two losses to nationally-ranked Kenyon College in league action. The MIAA tournament is Thursday and Friday at Kalamazoo College with the Dutch looking to earn a berth in the NCAA tournament.

WOMEN'S TRACK

The women's track team is on the verge of winning the MIAA title, following their victory over Calvin on Saturday, 77-50. The Dutch are 3-0 in the MIAA with one league meet at Alma on Saturday and the MIAA Field Day at Alma remaining.

The women's team has seen five school records broken and two athletes have qualified for the NCAA Division III Nationals, May 24-27 at Naperville, Illinois.

Senior Tauna Jecmen has dominated the distance events, establishing school records in the 3000 (10:18.0), 5000 (17:38.0) and 10,000 (36:56.26) meter runs. Jecmen has qualified for the nationals in the 5000 and 10,000.

Senior Mary Busscher has established a new school record in the shot put and qualified for nationals with a toss of 45 feet, one inch. Busscher also has the top Dutch performances in the javelin, discus, triple jump and 400 meter hurdles.

Sophomore Abby Van Dyne also broke a school record, with her time of 57.8 seconds in the 400 meter dash.

Other top performances have come from Mary Herin, Lisa Bloemers, Michele Brown, Sandra Kubala and Lynn Kingma.

FISH ON, Continued from page 13

watching the guy try and catch a fish with the thing.

In fact, for a really good time, give him a salt water lure, and then after he's been fishing the lake for a while with no luck, pull up your hook and worm. This is great fun, but you'd better be able to run because he may not think it's as funny as you do.

Well, that brings the first year of "In the Crease" to a close. I hope you were able to find at least one or two entertaining and worth reading. I'll be here next year "In the Crease."

"In the Crease" was brought to you by the numbers 66, 99, and 18 and by the letters P and W.
Dianne Brown is an assassin in CF

by Scott A. Kaukonen
anchor staff writer

There is an assassin on Hope College's softball team. She hides in centerfield, quietly - well, maybe not so quietly - stalking her prey. Waiting to attack, she patiently remains intense from pitch to pitch. Finally, a batter lines a shot up the alley and everybody is running. The runner from second rounds third and heads for home. But she'll never make it. She is gunned down by the centerfielder who smiles and laughs as she returns to her post, anxious to reload and fire her cannon-for-a-right-arm.

As the lone returning senior on Hope's team this year, Dianne Brown, a physical education major from Byron Center, was pretty "bumped" in the pre-season. She didn't expect much from this youthful team and though she tried to stay optimistic, a rough 2-8 spring trip wasn't much comfort to the soul.

But when the MIAA season opener with Alma rolled around, Brown was ready - and she made sure her teammates were, too. The result has been a fine MIAA season as the Dutch have carved a 18-3 record and await the outcome of Calvin's remaining games to see if they have earned at least a share of the conference title.

The key to this year's success in the MIAA has been teamwork, according to Brown. "We work well together. And the coaches have been great. And excellent pitching."

Along the way, Brown has had "sooo much fun." She is enthusiastic to say the least, constantly joking with leftfielder Susie Renner and bollering in to her pitcher. To opponents, it must seem like a crime. Not only is she having fun, but she is having fun at their expense.

Brown has been voted to the All-Midwest region team the past two years, the All-MIAA team the past three years and holds the Hope record for hits in a season (37). This year, she is second on the squad, batting .300 with a team-leading 37 hits. Brown fits very well in her lead-off position in the batting order. All 26 of her 27 hits this year have been singles and 33 of her 100 at bats have been doubles. "She's a great centerfielder and she hits a lot of home runs as well," said senior teammate and catcher Debbie Ekdal J. Buys Athletic Fields, who is a fast-pitch softball pitcher. "I played football, basketball, softball... Somewhere along the line, I guess there was enough volleyball to pursue it here at Hope. This past fall, she was a co-captain of the women's team."

Brown was an around sports all her life - something which tends to happen when one has five older brothers and a father who is a fast-pitch softball pitcher.

"I played football, basketball, softball... Somewhere along the line, I guess there was enough volleyball to pursue it here at Hope. This past fall, she was a co-captain of the women's team."

Spring sports finish off their seasons

by Scott A. Kaukonen
anchor staff writer
and Bill Meengs
anchor sports editor

As the Hope spring athletic teams head toward the end of their seasons, the anchor presents a summary of the seasons to date.

MEN'S BASEBALL

Following a rough preseason which saw nine losses in a row on the way to a 2-13 record, the Dutchmen have put together a respectable 6-4 mark in MIAA competition with two games remaining at Olivet on Saturday. The Dutchmen have an overall record of 8-19. Mathematically, the Dutchmen are not out of a very tight race for the conference title. Calvin and Alma each have two losses and six games remaining. Albion also has two losses with four games to play.

Saturday, the Dutchmen kept their hopes alive by sweeping Adrian 3-1 and 8-2. Seth Parker and Vic Breithaupt continued their strong pitching, each picking up their third win, with Dan Klunder getting his first save in the first game. Parker leads the MIAA in wins with a 3-0 record and has a 1.94 ERA. Breithaupt is second in the MIAA with a 0.94 ERA to go with a 2-2 record.

At the plate, shortstop Tim Peterson leads the Dutchmen regularly with a .389 (333 MIAA) average and 14 RBIs. Breithaupt is batting .296 (.367 MIAA) and leads the Dutchmen in runs scored with 16. First baseman Steve Dieterle and Ted Toole are hitting .328 and .292, respectively. Dieterle has also cracked three home runs. Catcher Tim Stevens is batting .310 in MIAA play.

The Dutchmen are a young team with Peterson and Toole being the only starters who will be lost to graduation. The team has improved throughout the year and will most likely be a force in the MIAA again next year.

WOMEN'S SOFTBALL

Following a dismal showing on their spring trip, the Dutch have recovered to have a very fine season with the possibility conference title still to be decided. The Dutch have completed their MIAA season and must now hope that Calvin loses at least one of their remaining four games. The Dutch split their games with Calvin 5-4 and 2-4. The Dutch are 10-5 in MIAA play and 14-16 overall. The other MIAA loss came last week in a split with Adrian. The Dutch completed their regular season Saturday at home by pounding Olivet 11-1 and 14-3, both games ending by the mercy rule.

The strength of the Dutch all season has been their pitching. The staff has been led by sophomore Eileen Malkewitz. She has a 9.5 (6-0 MIAA) record with a 1.93 (0.91 MIAA) ERA. Malkewitz has also spun 12 complete games with two shutouts and leads the staff with 33 strikeouts.

Sophomore Shelly Venema has provided good hitting and stellar performances from the rubber, posting a 5.6 (4-2 MIAA) record with a 2.92 (1.36 MIAA) ERA. Malkewitz and Venema are two and three in the MIAA in ERA. Venema has also thrown two shutouts.

Malkewitz also leads the Dutch in batting with a .306 (.350 MIAA) average. Senior centerfielder Dianne Brown is hitting an even .300 and leads the team with 27 hits. Freshman shortstop Kristie Gauntt has come alive in MIAA play with a .384 (28 HR) batting average and leads the Dutch with 7 stolen bases. Freshman Sherrrie Scholten leads the team in runs scored with 14 and freshman Johanna Pcosden leads with 11 RBIs.

The Dutch will finish their season with the MIAA Invitational Friday and Saturday at Calvin. The tournament will feature teams from throughout the Midwest.

MEN'S TENNIS

The men's tennis team will go into the MIAA tournament this weekend as the odds-on favorite. Entering their match last Monday with Olivet, the Dutch had a perfect 5-0 record in the MIAA. The Dutch have dominated the MIAA, as no team has even come close. Hope defeated Albion, Calvin and Adrian, each 9-0. Alma put up a little more fight, managing to take one flight. Kalamazoo, viewed as Hope's toughest obstacle to the title, succumbed to Hope as well, 7-2.

Hope is led by senior All-American Colleen Sandro who is a perfect 13-0 at the number one singles slot currently belongs to "Junior Eric Zurchauer, a junior, has also posted an impressive 14-1 mark. Sophomore Kathy Land has posted the number one performances in the 110 and 400 meter hurdles with times of 15.0 and 56.27, respectively.

Hans Hiemstra, Dave Kingma and Bryan Whitmore lead the Hope middle-distance runners and Billy Roberts, Don Kent and Mike Northuis lead the distance team.

HOPE — A variety of camps and programs in basketball, football, diving and swimming for elementary and secondary students will be held at the Hope College Dow Center this summer.

A basketball camp for boys is scheduled for July 10-31. The program costs $46, and is directed by Glenn Van Wieren, head basketball coach at Hope. The basketball school's five age group levels are: fifth and sixth grade, seventh grade, eighth grade, ninth grade and tenth grade.

A basketball camp for girls will run from June 18-23. The program is for girls entering seventh through twelfth grade, and is directed by Sue Wise, women's basketball coach at Hope. The camp features morning and afternoon sessions and evening scrimmages. The cost for participating girls who live on campus is $150, which includes lunch and dinner. Commuter participants must pay $110 with lunch and dinner; $85 without.

Both camps will feature individualized attention, a camp T-shirt for each player, and contests and awards.

The college’s coeducational swimming program will feature two different sessions consisting of 80-50 minute lessons running Monday through Thursday. The first two-week session will run June 12-23, and will feature classes for the beginner and advanced beginner swimmer. The second session will run June 26 through July 7, and will feature classes for the beginner, advanced beginner and intermediate swimmer.

The program is designed for children entering first through sixth grade, and the students are divided by ability level rather than age. The program costs $16 per participant.

The college’s diving camp, also open to both boys and girls, will run July 10-14. The program is open to students entering seventh through twelfth grade. The diving camp will feature a camp T-shirt, video taping and an intercamp meet. The program costs $42 per participant.

A high school junior varsity basketball team camp will run from July 10-13. The cost for the program, which is directed by Van Wieren, is $300.

A football team camp, directed by M. Dean Kreps, instructor of physical education, recreation and athletics at Hope, will be held from July 30 through Aug. 3. The cost for those living on campus and participating in camp and commuting on campus for those other participants will cost $60 each.

More information concerning the camps may be obtained by calling the Dow Center office at 394-7699. Overall director of the program is Dr. George Kraft, professor of physical education.

Book buy-back is an opportunity for students to recover some of the money they have spent for course books that they do wish to keep in their personal libraries. This process requires books from those wishing to sell to those wishing to buy and allows the bookstore to offer used books as well as new ones. Over half the titles used at Hope are revisited at some other time, but with new editions, changing titles and gaps between the times a course is offered, students can more likely expect to sell back about 25% of their books at the end of the term.

HOW DOES BUY-BACK WORK?
During the last two weeks of the spring and fall semesters a buy is held at the bookstore. There are actually two buys going on at the same time. First the store buys books that are being used the following semester at Hope at 55% of the purchase price. The quantities bought are sometimes limited by projected class enrollments and the number of books the store already has on hand.

The second buy is done for Follett College Book Company who will buy thousands of textbooks which they will buy, but even they do not buy everything. For example, novels and religious titles are almost never listed. Also, when a new edition appears, the old edition has no value even to the used book company. There is never a guarantee that textbooks purchased by students will be used again by any instructor anywhere in the country. Students should not buy books with the expectation of reselling them later.

THE REAL VALUE OF A TEXTBOOK IS OBTAINED BY STUDYING IT CAREFULLY AND IF IT CAN BE SOLD AT ALL, THEN THERE IS NO GUARANTEE THAT THE SALE WILL OCCUR AT THE END OF THE SEMESTER.

WHY WON'T THE BOOKSTORE PAY ALL MY MONEY?
In a given semester there are several factors that can cause a book not to be bought back at the 55% price offered by the bookstore. Some of them are:
1. The professor has not yet submitted a book order.
2. The book is not being used the following term at Hope. It is a good idea to try again at the next buy-back before selling to the used book company.
3. The professor has changed books because something better has become available. The bookstore no longer needs the book but it may be bought for the used book company.

Follett College Book Company lists thousands of textbooks which they will buy, but even they do not buy everything. For example, novels and religious titles are almost never listed. Also, when a new edition appears, the old edition has no value even to the used book company. There is never a guarantee that textbooks purchased by students will be used again by any instructor anywhere in the country. Students should not buy books with the expectation of reselling them later.

THE REAL VALUE OF A TEXTBOOK IS OBTAINED BY STUDYING IT CAREFULLY AND IF IT CAN BE SOLD AT ALL, THEN THERE IS NO GUARANTEE THAT THE SALE WILL OCCUR AT THE END OF THE SEMESTER.

WHY WON'T THE BOOKSTORE BUY ALL MY MONEY?
In a given semester there are several factors that can cause a book not to be bought back at the 55% price offered by the bookstore. Some of them are:
1. The professor has not yet submitted a book order.
2. The book is not being used the following term at Hope. It is a good idea to try again at the next buy-back before selling to the used book company.
3. The professor has changed books because something better has become available. The bookstore no longer needs the book but it may be bought for the used book company.

Follett College Book Company lists thousands of textbooks which they will buy, but even they do not buy everything. For example, novels and religious titles are almost never listed. Also, when a new edition appears, the old edition has no value even to the used book company. There is never a guarantee that textbooks purchased by students will be used again by any instructor anywhere in the country. Students should not buy books with the expectation of reselling them later.
