Northrup, marine superintendent of the United States transport service, was in charge of the test at the government pier. The men were thrown out and then the boat righted itself. But still they say there is hope in the future. God bless a hopeful mind. It helps wonderfully when two or three factions get over excited by selfish motives.

### Able Lecture By Rev. A. Pieters.

The attendance at the lecture at the Western Theological Seminary last Friday evening was encouraging and the lecturer did ample justice to a very perplexing question that confronts every missionary in heathen lands, "The organization of the native church, the first great step in the accomplishment of our purpose." Of course, the Rev. Pieters confined himself to Japan, for that land was for years the scene of his noble activities; her people he had learned to love and respect.

After a brief statement as to the importance of the church, the organization thereof, and the need of its independence, the speaker invited his hearers to follow him in the discussion of three points: the development of the church at large, the church of Christ in Japan and the condition of the church and its problems. A chart in the hands of his auditors simplified matters very much, and Mr. Pieters is to be complimented on these and other precautions taken for stimulating a lasting interest in the work he represents.

The history of the development of the church dates back to 1872, when the first church was organized at Yokohama. This was, of course, preceded by long years of preparation dating back to 1859 when mission work began in Japan. A year previous, 1871, the Gospel of Matthew was first translated and in 1873 religious liberty was practically established.

From 1872 to 1889 great advance was made and the membership doubled every three years. For this marvelous progress the lecturer assigned four noteworthy reasons: Natural curiosity; a craze for everything occidental; a desire for learning English; and the existence of a leisure class, the Samurai. The great reason was however, declared to be the outpouring of the Holy Spirit followed by an extensive revival, the organization of the church could now proceed at once, but the rapidity of the movement led to extravagant expectations on the part of the Japanese, the missionaries and the house churches in America.

However marvelous the growth in the church, the reaction that set in was equally amazing. Among the secular causes for such retrogression were given these: natural curiosity had abated; having their own educational system, there was less need of approaching the missionary; with the granting of the Constitution came that feeling of self-satisfaction; the return of men from Europe and America spreading evil accounts of Western civilization; and the gradual disappearance of the leisure class who were now interested in politics, commerce and education. Among the religious causes were cited, the educational laws that implied that no other moral code was necessary; Prof. T. Luouye's book on the Interpretation of the Imperial Rescript on Education; and the natural reaction common to all revivals, but here heightened by the comparative ignorance of the converts.

Yet the reaction was not all baneful; it was shown to have its benefits. It gave time for inward growth and sifted the membership by keen trial and spiritual conflict. Besides it gave time for more thorough evangelization. Present statistics sound a more hopeful tone everywhere; the audiences are better, contributions larger, and the total number of converts has reached 42,000.

The church of Christ in Japan was formed in 1877 when four independent churches and the presbytery of five churches of the Presbyterians united. Other bodies united with this church later, and the work is carried on largely by this united church. Its struggles with contentions concerning church government, confessional positions and original creeds were almost exasperating. Speaker showed the unsatisfactory character of the confession finally agreed upon, but considered it unwise now to start a movement to change it.

The condition of the church is in the main gratifying, still the spiritual and moral life is not such as to justify the expectations of some. Church attendance was comparatively small owing to the fact that converts were largely from the middle class, very many of whom are of the illiterate class. Prayer meetings were well attended, and Sabbath observance generally recognized, though discipline in connection with it was rare. Family and private prayer, together with daily Bible reading was general. Discipline is quite well enforced in matters of chastity, and in the marriage relation. This means something in Japan where divorces equal one-third the marriages, and concubinage is common. And as the Christian church is the only body that takes a

firm stand in these matters, its influence is sure to be far reaching.

Amid all the dangers and problems, the lecturer is himself hopeful and succeeds in imparting some of that hopefulness to his audience. "The Evangelistic work after the establishment of the church" will be the subject of the next lecture, Friday, March 22. All are welcome.

### A GIANT INDUSTRY.

Annual Output of Ores from the Lake Superior Mining Region in Four Years.

The Century for March contains, in its series on great material achievements of the past century, a paper on "The Mining of Iron," the author being Waldon Fawcett. It will amaze the general reader to learn what amazing strides the industry has made in this country since 1896:

"Twenty million tons, which constitutes the yearly output of the Lake Superior region at the opening of the new century, is more than double the product of any other iron manufacturing region in the world during any single year in history. Loaded in freight cars of the ordinary type, three railroad tracks would be filled solidly from the Atlantic to the Pacific coast. Even persons thoroughly conversant with the meteoric flights of American enterprise must be surprised at the mushroom growth of this Lake Superior mining country. The first ore diggers went to work there nearly 45 years ago, and yet one-third of all the ore which has been produced there during the 4½ decades has been mined since President McKinley was elected the first time. Within two score years the annual output has increased 150-fold. Or, if still more convincing evidence is desired, take the record of last year or the year previous. In either one of these periods there was taken out of the ground nearly twice as much ore as in even so recent a year as 1896. Indeed, the output in each of the two closing years of the century exceeded that of any five years previous to 1899, and surpassed the entire 30-year period of shipments up to 1882.

"What might be termed the financial side of the iron mining industry easily constitutes one of its most important phases. Here is a commodity which, in its raw state, adds nearly \$25,000,000 to the wealth of the country every year—an aggregate greater than that of the gold and silver mines of the nation. There are mines in the territory bordering on the world's largest freshwater lake which have in a single year recently netted their owners a profit of \$1,500,000, or half as much again as the authorized capital of the company controlling them, and it is nothing unusual to hear of a mine which has paid for itself in a single season."

### DEATH IN HOTELS.

Peculiar View of the Subject Said to Be Taken by Some of the Proprietors.

"I had an experience in a New York hotel which struck me at the time as being rather odd and brought vividly to my mind the homelessness of hotel life," said a hotel boarder to a friend who had him at his home for dinner, relates the New York Sun. "A friend of mine died in the hotel where we both had rooms. The first thing thought of was a bit of crepe, or some other emblem of mourning for his door. So I went to the clerk and asked him if they had any mourning emblems in the house. 'He looked at me in amazement. Said he had been in the hotel business 20 years and never had that question asked him before. Then I asked him if there would be any objection to my buying something of the kind and putting it on my dear friend's door.'"

"'Certainly, there would,' he replied. 'It would never do. It would alarm the other boarders. Might as well stick a scarlet fever sign on the door. And,' he added, in a peculiar manner, 'please do not have your friend's funeral from the hotel if you can help it.'"

"'Why not,' I asked. "'I don't know,' he answered, 'but somehow guests don't expect people to die in a hotel. Of course they do die, but it is usually unexpected.' 'I reckon he was right. I don't know why anybody should want to die deliberately in a hotel.'"

## Rheumatism.

Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food.

You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it don't, it don't cure. It never does harm.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

**RUSH MEN TO TIENTSIN.**

The British Send Australian Troops from Peking on a Special Train.

**WALDERSEE FAILS TO ADJUST MATTERS**

**Rumor That Hostilities Had Begun Between Russian and British Soldiers Not Confirmed—Rockhill Sends Another Communication to Washington.**

Tientsin, March 20.—A special train bearing reinforcements of Australian troops left Peking for Tientsin at ten o'clock Wednesday morning.

One French, an Italian and a German warship are outside the bar.

A dust storm prevented Count von Waldersee, who arrived here Tuesday, from proceeding for Peking until Wednesday morning.

Ninety British marines arrived here at night from the Taku forts to replace the Indian guards on the disputed land. The fusiliers are expected during the day.

Gen. Lorne Campbell, the English commander, and Gen. Wogack, commanding the Russians, met Count von Waldersee upon his arrival here. Learning that both had received instructions from their governments, Count von Waldersee said it was useless for him to give even an opinion regarding the matters at issue.

**Bloodshed Not Expected.**

It is the general feeling in Tientsin that the trouble is not likely to reach a point where blood will be shed. Both detachments on guard have orders to do nothing aggressive unless forced to do so by the other. Except the army and camp followers the only Russians now residing here are the members of the consular staff, two clerks and two Jews, who are running stores, and who left Russia in order to save their lives. These are now being offered inducements to move to the Russian concession.

**French Soldiers Quiet.**

The French concession is quiet. French gendarmes are on duty at the British concession to prevent the soldiers from trespassing, and Australian naval brigade men are preventing the Sikhs from invading the French concession.

Count von Waldersee has gone to Peking.

Gen. Lorne Campbell, upon hearing of the death of ex-President Harrison, ordered all the British flags to be flown at half mast.

**Move of Russian Warships.**

Shanghai, March 20.—A dispatch to the China Gazette from Tokio, March 20, says that all the Russian warships in Japanese waters have sailed for Korea and that the Japanese squadron is mobilizing for an immediate departure to the Korean coast.

**Rumor of Outbreak.**

London, March 20.—The officials of the foreign office here have received no information of an outbreak of Russian-British hostilities at Tientsin. Their latest advice there says the position remains the same.

The rumor (credited by a news agency to the London stock exchange and published in New York) that the British and Russians had fired at each other at Tientsin has not even reached the leading stock exchange firms, nor have any declines occurred, which the circulation of such a rumor would create.

**Message from Rockhill.**

Washington, March 20.—Another communication was received Wednesday from Special Commissioner Rockhill touching the complications that have resulted at Peking from the efforts of the various powers to reach a uniform basis for their indemnity claims, but there is nothing to indicate that an agreement is any nearer than it was when this subject was first taken up by the minister. Although the state department is more than ever convinced that its suggestion looking to the reference of the entire subject of indemnities to The Hague commission is the true solution of the difficulty, that proposition having been definitely rejected early in the negotiations it is not now before the ministers. No precise instructions have been sent to Mr. Rockhill within the last few days on this point, owing principally to the absence of the president from Washington. It is presumed that, now that the president's attention is again directed to the subject, there will be more complete definition of policy.

**Critical Point Passed.**

The situation at Tientsin still fails to excite the officials here, who feel that the critical point has passed.

A curious fact in connection with the Manchurian complication is that so far there is no trace of an official protest to Russia against the execution of her announced programme in Manchuria. It is not for lack of disposition to oppose this policy that the protest has not appeared, but because there is no authenticated copy to be had of the reputed Chino-Russian agreement, and, further, no one of the powers has yet been found willing to take the initiative in challenging Russia. Our state department has exerted what influence it could to secure a statement of the facts as to Manchuria, the result of which has been to secure a repetition of the Russian disclaimer of improper motives, but not a definition of the programme for the future, further than it was defined in the Russian pronouncement of August last.

**Date of Election Fixed.**

**OFFICERS TAKE OATH OF ALLEGIANCE.**

**Will Try to Persuade Rebels in the Lake Country to Yield—Gen. Dioceno, Most Troublesome Leader in Panay, Captured—List of Post Offices Established.**

**Important Surrender.**

Manila, March 15.—Capt. Gen. Mariano Trias, commander in chief of the insurgent forces, with 20 officers, 2,000 men and 119 rifles, has surrendered to Col. Baldwin, of the Fourth Infantry, at San Francisco de Marabon, Cavite province. The officers took the oath of allegiance and have been given their liberty. Additional surrenders are promised.

**Will Use Persuasion.**

Manila, March 19.—Gen. Trias, who recently surrendered through the agency of the federal leaders, will send one of his chief lieutenants to the lake country, where the rebel Gen. Calles is in command, with the object of persuading his men to surrender. Two thousand Filipinos took the oath of allegiance at Lapog, Ilocos Sur.

**Leader Captured.**

Washington, March 20.—Gen. MacArthur, at Manila, Tuesday informed the war department of the capture of the insurgent Gen. Dioceno. His cablegram is as follows:

"Gen. Robert P. Hughes reports Dioceno, most troublesome insurgent general Panay, captured March 18, wounded three times. This will end war Capt. province Panay. In my opinion will terminate hostilities Panay. Transport Sheridan arrived to-day."

**List of Post Offices.**

Washington, March 20.—Acting Director General Catterman, of the Philippine postal service, reported to the post office department that the following is a complete list of post offices now in operation in the archipelago: Angeles, Aparri, Bacolon, Batangas, Cagayan, Calamba, Calapan, Cavite, Cebu, Dagupan, Iloilo, Jolo, Laoag, Legaspi, Lucena, Nueva Caceres, San Fernando, Pampanga, San Isidro, Santa Cruz, Tacloban, Visayan and Zamboanga.

**Work of the Commission.**

Washington, March 20.—Quite a number of the acts of the Philippine commission, as promulgated by the military authorities in the islands, have been received at the war department. One of the most important—that for establishing a department of public instruction in the islands—already has been briefly reported by cable from Manila. Among the other acts is one declaring all persons in arms against the authority of the United States in the Philippine islands, and all persons aiding or abetting them on the first day of April, 1901, or thereafter, ineligible to hold any office of honor, trust or profit in the Philippine islands.

Harrisburg, Pa., March 15.—Charles W. Ryan, cashier of the Halifax national bank, was shot to death by Henry Rowe and Weston Keiper, of Lykens, at noon Thursday in an attempt at a daring bank robbery. The robbers were captured by a party of citizens soon after the crime and were brought to the Harrisburg jail, together with F. B. Straley, of Lykens, who is suspected of being an accomplice.

Two-thirds of the business houses were burned and nearly half of the residences. Several hundred persons are homeless. The loss is \$125,000.

**A Strange Verdict.**

Batavia, O., March 20.—The jury in the trial of John H. Donald, charged with killing William Snyder at Higgsport in August, 1899, returned a verdict of assault and battery, and the prisoner was fined \$100 and costs. Donald was convicted of murder in the first degree at a former trial in Georgetown.

**Death of a Professor.**

Madison, Wis., March 19.—Nelson O. Whitney, professor of railway engineering in the University of Wisconsin, died suddenly of heart disease, aged 43. He was a native of South Carolina and a graduate of the University of Pennsylvania, and had been with the University of Wisconsin for ten years.

**Noted Author Dead.**

Harpwell, Me., March 18.—Rev. Elijah Kellogg, author and preacher, whose fame rested on his books for boys and his composition, "Spartacus to the Gladiators," which nearly every schoolboy has learned at some time, died at his home Sunday in his eighty-eighth year.

### Holland Township Republican Caucus.

Notice is hereby given that a Republican Caucus for the purpose of placing in nomination candidates for Township officers of the Township of Holland and for the transaction of such other business as may properly come before it, will be held at the Town Hall in said Township on Saturday the 23rd day of March, A. D. 1901 at 2 o'clock p. m.

### Important Meeting of Holland Republican Club.

The Holland Republican club will hold an important meeting next Wednesday evening, March 27 at the club headquarters in De Grondwet hall. Good speakers will be in attendance and a fine program has been arranged. Besides attending to the regular business of the meeting an informal "smoker" will be held and toasts will be responded to by prominent republicans while the members are enjoying choice "Havanas."

Every Republican in the city is urged to be present. Do not fail to attend as an interesting time is assured.

### Nominate Good Men.

The republicans of this city will hold caucuses next Monday and Tuesday nights to nominate men to carry the standard of republicanism in the coming municipal campaign.

In the past, politics played an unimportant part in city elections; but this year the fight bids fair to be made on party lines. The democrats have forced the republicans into a strictly party conflict by their attitude the past year. Having the controlling vote in the council they drew the lines hard and often and if it were not for the fact that one of their number dared to listen to the voice of the people they would have rode rough shod over the republicans. Their action has aroused the members of the republican party, and although they deplore the necessity of dragging municipal affairs into politics they must do so in response to the urgent demand of the thinking people of Holland.

Realizing then that the fight is likely to be made along party lines the republicans should see to it that the right kind of men are nominated for the different offices.

Nominate good men. Nominate

men who are entitled to the respect and confidence of the voters. Nominate men, who, if elected will give Holland a clean, creditable, business-like administration. If the right kind of men are chosen, a sweeping victory will be the result.

You cannot nominate good men by staying at home and criticising the men who do the work. You must put aside personal comfort and attend the caucuses. Attend with the idea of voting and working for the best men.

If you do this no mistakes will be made and even though there are a great many candidates in the field it will be possible to choose the right ones. This being done, an aggressive campaign can be waged.

### The Political Outlook.

At the annual charter election of the city of Holland to be held Monday April 1st the following officers will be chosen:

A mayor in place of William Brusse whose term of office expires.

A city clerk in place of William O. Van Eyck, whose term of office expires.

A city marshal in place of Frederick H. Kamferbeek, who was appointed to fill vacancy caused by the resignation of Henry J. Dykhuis.

A city treasurer in place of Gerrit Wilterdink, whose term of office expires.

A justice of the peace in place of Isaac Fairbanks, whose term of office expires July 4, 1901.

### DISTRICT OFFICERS.

A supervisor for the first supervisor district composed of the first and fifth wards of said city, in place of John J. Rutgers, whose term of office expires.

A supervisor in the second supervisor district, composed of the second, third and fourth wards of said city, in place of Johannes Dykema, whose term of office expires.

### WARD OFFICERS.

In the First ward—An alderman in place of Peter Van den Tak who was appointed to fill vacancy caused by the resignation of Andrew J. Ward; also a constable in place of Simon Roos, whose term of office expires.

In the Second ward—An alderman in place of Jacob W. Filleman, whose term of office expires; also a constable in place of Jacob De Feyter, who was appointed to fill vacancy caused by the resignation of Henry J. Dykhuis.

In the Third ward—An alderman in place of Luke S. Sprietsma, Jr., whose term of office expires; also a constable in place of Gerrit Van Haften, whose term of office expires.

In the Fourth ward—An alderman in place of Jacob G. Van Putten, whose term of office expires; also a constable in place of John F. Van Anrooy, whose term of office expires.

In the Fifth ward—An alderman in place of Bernardus Riksen, whose term of office expires; also a constable in place of Nicholas Jonker, whose term of office expires.

So far as the mayoralty is concerned there will be no change in that office. Mayor Brusse has filled the position in a manner satisfactory to all parties. He has ever kept in mind the welfare of the city of Holland and has worked faithfully for its best interests. The republicans will hail his candidacy with delight and a unanimous nomination will be tendered him.

For the present incumbent of the clerk's office things are not so bright. W. O. Van Eyck will receive the nomination at the hands of the democrats, but the chances are decidedly against his re-election. If the republicans nominate a strong candidate they will win. They have an abundance of eligible candidates. Those prominently mentioned for the nomination are Henry Winter, Henry Kiekentveld R. Van Keppel and John Kerkhof.

For the marshalship a strong array of candidates will contest for the nomination on the republican ticket. Chief among them are Simon Roos, John Van Anrooy, Bert Van der Veen Austin Harrington and J. C. Brown.

For treasurer the choice of the republicans lies between the present incumbent, G. Wilterdink, and Jacob Moes.

For supervisor of the first district John J. Rutgers will be the unanimous choice of the republican convention. He has made a splendid record and his election is a foregone conclusion. The choice of the democrats for this office is problematical.

The republicans have not yet chosen a man to make the run in the second supervisor district against John Dykema, the present incumbent, who will undoubtedly be nominated by the democrats.

For Alderman of the First Ward the republicans would like to see J. Lokker make the run. The democrats will probably nominate Peter Van den Tak.

In the second ward G. Van Zanten is mentioned as the choice of the republicans and Jacob W. Filleman of the democrats.

In the Third ward the republicans talk of nominating Ed. Vaupell. The democrats will nominate Luke Sprietsma, Jr.

Otto Kramer is the choice of the republicans of the Fourth ward. J. G. Van Putten can have the democratic nomination if he wants it.

B. Riksen will be re-nominated by the republicans in the Fifth ward. For the office of constable in the different wards the present incumbents will be renominated without opposition excepting in the Fourth ward where J. C. Brown will oppose John Van Anrooy for the republican nomination.

### The State Ticket.

The Republicans of Michigan present to the electors of the state this spring a ticket that for genuine worth and merit has probably never been surpassed in the history of the state. Every candidate upon it has proved his capacity for the work that will devolve upon him by reason of his election by the people, and it is with the utmost confidence that the party speaks for the ticket the enthusiastic support of all Republicans, and commends it to the people of the state generally as worthy of their ballots.

Chief Justice Robert M. Montgomery, whose name adorns the head of the ticket, has amply proved that a wise selection was made when he was first nominated for justice of the supreme court ten years ago. At that time he enjoyed an enviable record as a careful practitioner and a painstaking circuit judge, and to this has now been added a most satisfactory service of a decade upon the bench of the highest tribunal of the state.

The career of Justice Montgomery is one of which both he, his party and his state may well be proud. A self-made man in the best sense of the term, he has steadily advanced until today he occupies an acknowledged position among the foremost jurists of the country.

Judge Montgomery is the youngest of the present judges of the supreme court of Michigan, having been born in this state in 1849. He is noted for his energy, industry and capacity for hard work. He is now in the very prime of life and grounded in habits of study which have already given him a most enviable reputation as a jurist. With this record behind him, there can be no doubt that his re-election will insure for the Michigan tribunal a continuance of that name which has made it famous in the judicial annals of the world.

Associated with Judge Montgomery on the Republican state ticket are two gentlemen whose fitness for the offices they seek is unquestioned. Mr. Frank W. Fletcher, of Alpena, has given much valuable time during the past six years to the upbuilding of the Michigan university, and his large experience in business has been of great value to that institution. The other nominee for regent, Mr. Henry W. Carey, of Manistee, has also had extended experience in large affairs of business and possesses qualifications that are needed in the management of Michigan's great institution of learning.

### About Building a New Opera House.

Strangers that come to Holland are surprised to see our opera house and say we ought to have a better one. Business men say it would be a good thing if we had a better one. Every show troupe that comes here say we ought to have a better one. Every time a citizen goes to the opera house he says we ought to have a better one.

Well, why don't we have it? For the simple reason that in the past the people of Holland have not seen fit to accord the present opera house company the patronage it deserves. Just as soon as they do, just as soon as they show an inclination to support an opera house in keeping with the city, some of our business men, associated with other parties, will erect one of the best places of amusement in Western Michigan.

And from present indications that time is coming swiftly. More people attend the opera now than formerly. This change is due in a great measure to the present management, headed by Gerard Kanters. He has raised the grade of plays produced here. He has induced better companies to come with the result that a greatly increased patronage is noticeable.

Encouraged by this increased patronage Mr. Kanters has decided to put the people to the test. He is anxious to see if they will support the grade of plays produced in Powers Opera house, Grand Rapids. Therefore he has arranged for the production of a play as good in every respect as any ever seen in Grand Rapids. In fact it is one of the best plays in the country today. If it were produced in Powers Opera house the prices for seats would range from 75 cents to \$1.50.

In order to put the matter to a test and find out if our people will show a disposition to do even half way right Mr. Kanters has reduced the scale of prices of admission to \$1.00, 75 cents and 50 cents.

Our people would pay railroad fare and other incidental expenses, besides the cost of admission to see a show of this kind in Grand Rapids. Now they have an opportunity to see a good show for half the cost incidental to seeing it in Grand Rapids and it remains to be seen whether or not they will do so and thus encourage a home enterprise. If they do, a great stride will be taken towards the erection of a new opera house.

The play referred to will be given at the Lyceum Opera house Monday evening March 25. It is "The Royal Box," one of the most successful productions of the year, and will be played by the best and largest company ever seen in Holland.

As all of the old scenery will have to be removed and the stage enlarged and remodeled, carpenters and workmen have been busy the last two weeks getting everything in readiness. Every seat should be filled that night, and it is gratifying to note that present indications point to a crowded house. In fact standing room will be at a premium and if good seats are wanted those desiring them should have them reserved at once.

### Glen Hills Killed By the Cars.

Glen Hills, the 16 year old son of Mrs. Libbie Hills, 303 West Twelfth street, met a terrible death last Sunday afternoon at 4 o'clock. Fifteen cars on the Pere Marquette track between Holland and Waverly passed over him and ground his body to pieces. With him at the time of the accident were Tony Van Dort, John Vennema, F. Vos and Henry De Maat.

The boys had been out for a walk along the grade of the Grand Rapids, Holland electric road and had just reached a point near where the electric road intersects the Pere Marquette tracks when the south bound freight came along. The train was going at the rate of about 6 miles an hour with an engine on the front and another on the hind end of the train to help it up the grade south of the Holland depot. When half the train had passed where the boys stood young Hills said he was going to ride. He grasped the hand rail of a moving car but was unable to hold on and was thrown under the wheels. Fifteen cars passed over him, and his horrified companions saw nothing but his scattered remains when the last car went by. Arthur Roost, the engineer of the engine on the rear of the train, saw the boys frantically waving their hands when he went by but he did not know of the accident until he returned with his engine 20 minutes later.

Soon a crowd gathered to view the terrible sight. Near where the accident occurred they saw a shoe covering a foot that was severed just above the shoe top, then they came to other pieces of the body and finally the head and part of the trunk. Some parts of the remains were ground to a pulp, but the head was in remarkably good condition and scarcely showed a scratch.

Coroner Yates was notified and impelled a jury to view the remains. The inquest was then adjourned until 3 o'clock Monday afternoon and Undertaker Nibbelink took the remains to his establishment on Ninth street.

At the inquest Monday the jury brought in a verdict of accidental death, exonerated the railway company from all blame and recommended that the city take some action either by ordinance or otherwise to prevent further accidents of this kind. The mother of the young man was prostrated with grief when she heard of the fate that had befallen her son. His father is a resident of Grand Rapids. Mrs. Hills, Glen, and an older brother moved here from that city some time ago. The funeral was held from the house Tuesday afternoon, Rev. J. T. Bergen officiating.

The best breakfast food in the world is Cremola.

John Vandersluis has something more to say about spring dress goods in his add this week.

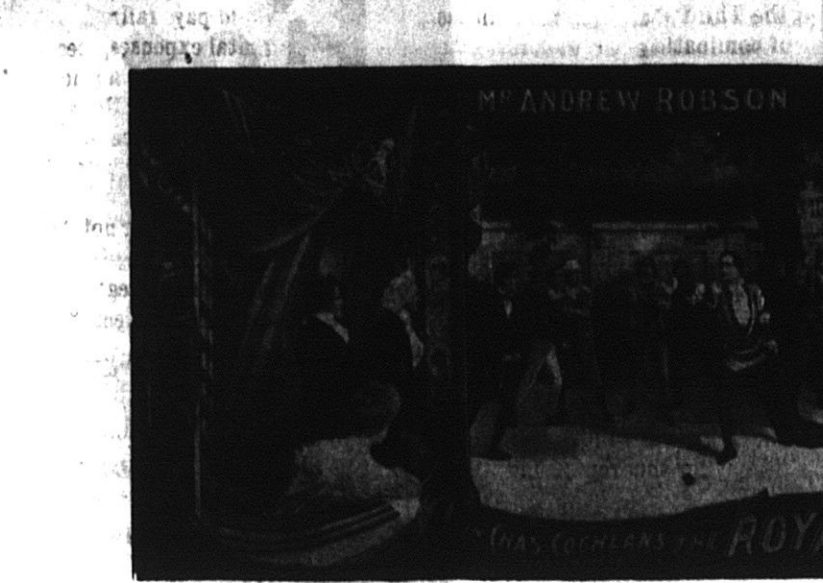

Born to Mr. and Mrs. John Grodes, 52 East Sixth street, Wednesday—a daughter.

This spring the designs in wall paper are prettier and more artistic than ever before. A call at the furniture store of James A. Brouwer, on River street will prove this. By far the finest line of wall paper ever carried in Holland can be seen there. If you wish to have your house fitted up in the best style you will despair in doing so until you have seen the display of paper at Mr. Brouwer's. Prices are right as usual.

At a meeting of the Quarterly Conference of the M. E. church held Wednesday evening in the office of Dr. J. A. Mabbs plans provided by Architect James Price were agreed upon for the new church building. The new church will be one of the handsomest edifices in Holland. It will be built of brick and stone and will have a seating capacity of about 800. It will be ready for occupancy about the middle of July.

The fourteenth annual Sunday school convention for Ottawa County will be held in the Third Reformed church of this city March 27 and 28. The Wednesday afternoon session will be opened by devotional services by Rev. G. H. Dubbink. Greeting will be extended by Prof. J. T. Bergen, and Rev. T. W. Mullenburg, of Grand Haven will respond. Addresses will be made by Rev. J. Van der Meulen, Prof. J. H. Kleinheksel and Miss Margaret Bilz. Mrs. Adam Clarke will sing a solo and routine business will be transacted. In the evening praise service will be led by Prof. J. B. Nykerk. Mrs. G. J. Diekema will sing a solo and State Sec'y Alfred Day will deliver an address. The \$50,000 Pere Marquette hotel which is now being erected at Ottawa Beach will be leased to J. Boyd Pantlind, proprietor of the Morton House. The deal is not entirely completed but it is expected that it will be announced with full particulars on Mr. Pantlind's return from the South. He and President Charles M. Heald of the Pere Marquette are together at Hot Springs, Ark., and it was stated before they left that the terms would probably be arranged before the trip was finished. Chief Clerk J. Mortimer Rathbone of the Morton will be put in charge of the Ottawa Beach hotel by Mr. Pantlind if the arrangements are carried out. Mr. Pantlind himself will probably have little personal supervision over the house except as he will be the manager and will make frequent visits to the place and keep in touch with the conditions. Naturally the furniture men will be turned toward Ottawa Beach when Mr. Pantlind assumes control, and it is believed that many of them can be taught to come to Michigan for resorting as well as furniture. The new hotel is to be opened on July 4 if everything goes well. The contractor promised to have it ready for use on July 1 and the force that he has at work now goes to show that he means business. At present the men are putting in the 140 odd piers. These are of concrete and have a spider base

All scenery is to be removed from the stage of the Lyceum Opera House for "The Royal Box," and will be replaced by their own. Carpenters are now enlarging the stage and building the box in which the Prince of Wales is to be received. The stage will present appearance as in cut above.

Register of Deeds Peter Brusse is improving rapidly from the effects of his serious illness and is now able to sit up part of the day.

Richard H. Post, of this city, who is taking a course in journalism at the U. of M., is attracting considerable attention by his clever work in several short stories recently published in the college papers. Mr. Post is assistant managing editor of the U. of M. Bulletin and is a candidate for the office of secretary of Democratic club at the election which will be held tomorrow.

Holland and Chicago Boat Line.

The state press has been filled with stories this week to the effect that the Graham & Morton company, had bought out the Holland-Chicago line of steamers and would operate that line in connection with their present business. The deal is said to have involved an expenditure of nearly half a million dollars and with the steamers—the Soo City and the new propeller, the Ottawa—go leases to valuable dock property at Holland.

In reference to the above all that can be said at present is that negotiations have been pending for some time to make a deal as indicated above. It has not yet been consummated, however, but the chances are that the matter will be settled today. W. H. Beach, president of the Holland & Chicago boat line has been in Chicago the past week in conference with the Graham & Morton people. He will return this afternoon and will inform the stockholders in this city of the progress made.

If the deal is closed Holland will not necessarily lose the new propeller Ottawa on account of her changing hands. The steamer will be run between St. Joseph and Chicago during the early spring and late fall. During the four summer months she will run regularly between Holland and Chicago, in connection with the Soo City, thus giving Holland a good line.

It is likely that if Graham & Morton get control of the local boat line that Holland will be benefitted thereby. Improvements will be made on a large scale and all possible will be done to attract passenger traffic to Holland and the resorts.

The local company has done very well but they did not have the great capital of the Graham & Morton people and could not make improvements on the scale that a city like Holland deserves.

Circuit Court.

The circuit court for this county convened Monday afternoon.

Bert C. Tibbets, the alleged murderer of Humphrey Jackman; Henry Boet, who is held for burglary, and Horace Sparks and Ida Carpenter, who lived some months together in a little shack across the river from Spoonville, and who are charged with adultery, were all arraigned. Tibbets was arraigned upon information of murder. He stood mute upon being asked to plead. A plea of not guilty was entered. He will be defended by Attorneys Geo. E. Kollen and G. J. Diekema. P. H. McBride will be assisted by Attorney Geo. A. Farr.

Tuesday the case of the People vs. Chas Lindgren, proprietor of the Riverside hotel, was on trial. He was held for an alleged violation of the liquor law in his place of business on July 15 last. The jury after being out five hours, returned a verdict of "not guilty."

The "Quinny" Boet burglary case went to jury at shortly before six o'clock Wednesday night and the jury after being out a few minutes brought in a verdict of guilty.

Thursday morning the adultery case of the People vs. Ida Carpenter was put on trial. After several witnesses had been examined it was plainly evident that the prosecution had a weak case. Mr. Pagelson asked the court to instruct the jury to bring in a verdict of not guilty and at 11 o'clock Judge Paugham did so instruct the jury.

The case of the People vs. Horace Sparks, who is charged with committing adultery with Ida Carpenter is now on trial.

After Sickness

Take Vinol—Our Great Strength Creator.

IT GIVES ONE A SPLENDID APPETITE.

AND QUICKLY REBUILDS THE SYSTEM.

We Will Refund the Price of Vinol if It Fails.

The worst part of sickness, frequently, is getting over it. The patient's strength is depleted, his system is generally demoralized, relapses are continually feared, and naturally.

The one thing to aid recovery is to give the patient that which will enable him to get strong, and at the same time give strength direct to the different organs of the body.

Nothing will do this like Vinol.

It acts directly on the stomach, creates a healthy appetite, and enables the digestive organs to obtain the necessary elements to increase the weight of the patient and to make new healthy flesh and muscle tissue and pure, rich, red blood.

The following is a letter showing where Vinol was taken and did good after a case of sickness. It reads as follows:

"I wish to certify to the very great benefit which has been derived from the use of Vinol in my family. My wife was very sick with the gripe and afterward was wholly run down. One bottle of Vinol places her on her feet in better condition than she had been before in six months. I heartily recommend and endorse it."—HENRY F. STURTEVANT, 81 Huntington St., Brooklyn, Mass.

Everything that is in Vinol is plainly printed on the label of each package.

We know Vinol is a splendid preparation, and in many cases we have been able to see for ourselves the wonderful results it brings about.

Remember that we guarantee Vinol and refund the purchase money if you are not satisfied.

# GEN. HARRISON IS DEAD.

Former President of United States Succumbs to Pneumonia at His Home in Indianapolis.

HIS DEATH WAS QUIET AND PAINLESS.

Hope That Near the End He Would Recognize Members of His Family Not Realized—Career of a Man Who Brought Himself Fame Both in Law and Politics.

Indianapolis, Ind., March 14.—Without passing out of the unconscious state in which he had lain for hours, Gen. Benjamin Harrison breathed his last at 4:45 o'clock yesterday afternoon. The death scene was an affecting one, but signs of the deep grief felt by all at the passing of the distinguished statesman were restrained, and it was not until Dr. Jameson had silently given the signal that the end had come that there was a full giving away to tears. Mrs. Harrison bore up bravely, and it was only after the final dissolution that the strain of the week's illness told. She then sank exhausted into the arms of a friend. The

GEN. BENJAMIN F. HARRISON.

Little daughter, Elizabeth, stood silently holding to her mother's hand and looking from the face of her mother to the pallid countenance of her dying father. Pneumonia was the cause of his death.

### Sorrow in Indianapolis.

News of the death spread quickly through the city and several of the more intimate friends, at once hurried to the residence to offer services, which, however, were not needed. The word was flashed from all the bulletins of all the newspapers and thus communicated to the people on their way home in the evening. The announcement produced the greatest sorrow, nearly everyone having nurtured the hope that Gen. Harrison would recover. Within a few moments the flags on all the public buildings and most of the downtown business blocks were hoisted at half-mast and other outward manifestations of mourning were made.

### His Children Absent.

None of Gen. Harrison's children was present at his death. Neither Col. Russell Harrison nor Mrs. McKee had reached the city, although both were hurrying on their way to the bedside of their dying parent as fast as steam would bear them. Elizabeth, the little daughter, had been taken from the sick room by her nurse before the end came.

The group at the bedside included Mrs. Harrison, W. H. H. Miller, Samuel Miller, his son; Rev. M. L. Haines, pastor of the First Presbyterian church, which Gen. Harrison had attended for so many years; Secretary Tibbitt, Drs. Jameson and Dorsey, Col. Dan Ransdell, sergeant-at-arms of the United States senate and a close personal friend of the dead ex-president; Clifford Arrick and the two nurses who have been in constant attendance at the bedside. Gen. Harrison's two sisters and an aunt were also present. Mrs. Harrison knelt at the right-hand side of the bed, her husband's right hand grasped in hers, while Dr. Jameson held the left hand of the dying man, counting the feeble pulse-beats. In a few moments after the friends had been summoned to the room the end came, Dr. Jameson announcing the sad fact.

### Governor's Proclamation.

Gov. Durlin issued a proclamation announcing the death of Gen. Harrison and directing that all public business be suspended on Saturday, the day the mortal remains of Gen. Harrison will lie in state; that the flags of all buildings be placed at half-mast during the customary period of mourning, and that such other honors be paid the distinguished dead as befits the occasion.

### HIS CAREER.

A Brief Story of Gen. Harrison's Life and Public Services.

Benjamin Harrison, the twenty-third president of the United States, was born August 20, 1833, and was the son of John Scott Harrison, the grandson of President William H. Harrison and the great-grandson of Benjamin Harrison, one of the signers of the declaration of independence. He was graduated at Miami university (Ohio) in 1852, studied law in Cincinnati, and in 1854 removed to Indianapolis, Ind., where he has since resided. He was elected recorder of the Indiana supreme court in 1860, and reelected in 1864. In 1862 he entered the northern army as a second lieutenant of volunteers. In 1876 Mr. Harrison was the republican candidate for governor of Indiana, but was defeated by a small plurality. Two years later President Hayes appointed him on the Mississippi river commission. In 1880 he was elected to the United States senate, taking his seat March 4, 1881, and serving a full term. In 1888 Mr. Harrison was elected president of the United States on the republican ticket, receiving 233 votes in the electoral college to 168 cast for Grover Cleveland. Four years later he was an unsuccessful candidate for reelection. Mr. Harrison was married in 1862 to Caroline Lavinia Scott. Mrs. Harrison died in the white house in 1892. Of the two children born by this union Russell B.

Harrison is widely known. He served in the volunteer army during the recent war with Spain. The daughter became Mrs. McKee, the mother of "Baby" McKee. After Gen. Harrison was married to Mrs. Mary Dimmick, the niece of his first wife, in New York, he became much more sociable and took a keener relish in the social affairs of Indianapolis. Within a couple of years after their marriage a little girl, Elizabeth, came to bless their union, and the general took a fonder interest in this child than would a young husband of 21. In May of 1899 Gen. Harrison was employed as counsel for Venezuela in the celebrated arbitration over the boundary dispute with England. He spent months in preparing the case, and took Mrs. Harrison and the baby with him to Paris. He had a number of varied experiences while in the French capital, and was shown many honors. He made a lengthy speech before the arbitration committee, and, on returning to this country, remarked that he had never had a case in which he felt so completely on the right side and so thoroughly prepared. The decision, which was a compromise, was a keen disappointment to him. He felt piqued that the court should have made a compromise instead of deciding the case on its merits.

**The President's Proclamation.**  
Washington, March 15.—The national capital is in mourning for ex-President Harrison. The following proclamation has been issued by President McKinley:

"By the President of the United States. A Proclamation. Executive Mansion, Washington, March 14, 1901.—To the People of the United States: Benjamin Harrison, president of the United States from 1889 to 1893, died yesterday at 4:45 p. m. at his home in Indianapolis. In his death the country has been deprived of one of its dearest citizens. A brilliant soldier in his young manhood, he gained fame and rapid advancement by his energy and valor. As a lawyer he rose to be a leader of the bar. In the senate he at once took and retained high rank as an orator and legislator; and in the high office of president he displayed extraordinary gifts as administrator and statesman. In public and private life he set a shining example for his countrymen. "In testimony of the respect in which his memory is held by the government and people of the United States, I do hereby direct that the flags on the executive buildings and the several departmental buildings be displayed at half-staff for a period of 30 days; and suitable military and naval honors, under the orders of the secretaries of war and of the navy, be rendered on the day of the funeral."

"Done at the city of Washington, this fourteenth day of March, in the year of Our Lord one thousand nine hundred and one, and in the independence of the United States of America the one hundred and twenty-fifth. WILLIAM McKINLEY. "By the President: "JOHN HAY, Secretary of State."

### PLACED IN THE TOMB.

Remains of Gen. Harrison Now Rest in Crown Hill Cemetery.

Indianapolis, Ind., March 18.—In the presence of a notable assemblage the body of Gen. Benjamin Harrison, the twenty-third president of the United States, was laid to rest in Crown Hill cemetery yesterday afternoon. The president of the United States, members of President Harrison's cabinet, governors of surrounding states and illustrious Indiana citizens followed the body to the grave. The burial occurred just at sunset, and the scene was notable and picturesque. Thousands of people surrounded the grave and remained until the last solemn rites had been said and the body lowered to its last resting place. Gen. Harrison's grave is by the side of his first wife.

### Without a Parallel.

From the ceremonies at the First Presbyterian church, conducted by the pastor, Rev. Mr. Haines, to the final benediction at the grave, the funeral was without parallel in this city. The streets through which the cortege moved were dotted with thousands of spectators, who stood in places for hours waiting a chance to catch a glimpse of the coffin bearing the distinguished dead and of the distinguished men who accompanied it.

The funeral was of a distinctly private character, the state having paid its last respect to the dead on Saturday, when 40,000 people filed through the statehouse from noon until ten o'clock at night, where the body lay in state.

### Gen. Harrison's Will.

Indianapolis, Ind., March 20.—The will of Gen. Harrison was filed for probate yesterday afternoon. As near as can be estimated Gen. Harrison's estate will amount to \$400,000, consisting principally of high-class securities and real estate, the bulk of which is left to his widow and daughter Elizabeth, he having provided for his other children at the time of his second marriage.

### Made Treasurer of Cuba.

Washington, March 19.—In accordance with President McKinley's recent order that the treasurer of Cuba should be a citizen of that island, Gov. Gen. Wood cabled to the war department that he had appointed Carlos Rolos as treasurer of Cuba. Mr. Rolos previously has been connected with the fiscal branch and is considered well qualified for this important post. Secretary Root confirmed the appointment.

### Burned at the Stake.

Corsicana, Tex., March 14.—John Henderson, the negro who outraged and murdered Mrs. Younger several days ago, after making a complete confession was burned at the stake Wednesday by a mob in the presence of more than 5,000 persons.

### Fought a Duel.

Paris, March 18.—Count Boni de Castellane and M. de Rodays, editor of Figaro, fought a duel with pistols and the latter was slightly wounded in the right thigh. The count was not wounded.

### Vigorous Protest.

Washington, March 19.—The state department has made a vigorous protest to Venezuela through Minister Loomis against further interference with Consular Agent Balz at Barcelona.

### Ten Lives Lost.

Chicago, March 18.—Ten persons lost their lives in the explosion that wrecked the Doremus laundry in this city.

### MAKING PROGRESS.

Philippine Commission Continues Organization of Provinces—Panay Nearly Pacified.

Iloilo, Island of Panay, March 20.—The Philippine commission was welcomed on its arrival here by Gen. Hughes and his staff, and cadres were duly organized by the federalists and a gathering of citizens. Iloilo province is prepared for organization, and the other provinces, it is believed, will be ready by the time the commission returns from the south. Panay is nearly pacified.

The commission then formally examined the position of Panay, and Thursday the members will proceed to Negros, where they will remain three days.

Negotiations are being made for the surrender to the American authorities of the insurgent leader Fullon, in the interior of the island.

Iloilo, Island of Panay, March 20 (by mail from Panalog, Island of Masbate, March 18).—The islands of Masbate, Ticao and Burias, with a population of 40,000, were Wednesday constituted the province of Masbate.

Washington, March 20.—Secretary of War Root Wednesday received the following cablegram from Judge Taft, chairman of the Taft commission in the Philippines, dated at Iloilo:

"Have organized Tayabas, Romblon, including Tablas, Sibuyan and smaller islands and Masbate, including Ticao and Burias; visited Marikinaque, initiated organization of municipalities there and will organize province before return. Receptions most enthusiastic. After visiting Negros shall go to Jolo and Mindanao; returning, shall organize Iloilo, Capiz, Antique, Cebu, Bohol and Leyte. Shall probably organize Zamboanga and Misamis. Marked improvement in general situation."

### ANXIOUS TO AVOID STRIKE.

Response of United Mine Workers' Official to Appeal of Board of Trade.

Wilkesbarre, Pa., March 20.—President T. D. Nicholls, of the First district, United Mine Workers of America, Wednesday replied to the appeal of the board of trade requesting him to use his efforts to prevent a strike of the miners "for recognition of the union on a purely technical point." President Nicholls said:

"As one of the officers of the United Mine Workers I will do everything in my power to avoid a strike by trying to arrange for a joint conference. We are not asking for the recognition of the union on purely technical grounds, but are striving to obtain a joint conference so that a scale of wages may be arranged and adopted. At present there is no scale in vogue in the anthracite region except in one or two places. This leaves the employees at the mercy of the bosses."

"I feel that the board of trade should direct a communication, or several, if necessary, to the operators, so that a joint conference may be held and a systematic plan of procedure arranged. This will avoid strikes and petty differences in the future. The operators have the power to avoid a strike."

"We are striving to do business on business principles. We desire to meet the operators man to man."

Bridgeport, O., March 20.—Operators and miners of the Fifth Ohio subdistrict met in conference here Wednesday to discuss the scale proposition. There is every indication that a strike will be declared if the demands of miners on machine scale and differentials is not accepted. Considerable bitterness exists at Yorkville. Wednesday morning 200 miners went out and submitted their demands to the conference.

### SHOT FOR TREASON.

Three Boers Executed at De Aar for Helping to Wreck a Railroad Train.

Cape Town, March 20.—J. P. Minabers, S. Minabers and J. A. Neuwoudt were shot at De Aar for treason and murder in pursuance of the sentence of a court-martial. The death sentence was passed a week ago, in connection with the wrecking of a train near Taasbosch, by which five men were killed. Gen. Kitchener confirmed the verdict. The garrison was paraded and the prisoners were led out at sunset. Death was instantaneous. A Dutch minister and relatives remained with the prisoners till the end. Two others concerned in the train wrecking were sentenced to five years at penal servitude.

The failure of these peace negotiations means that the military position in South Africa is not yet decisive.

Cape Town, March 20.—A dispatch from Cradock, Cape Colony, says Col. Gorrington's force engaged Kritzinger's force of Boers March 15. The latter lost nine men killed and had seven men wounded. The British loss was one man killed and ten wounded.

### Post Office Looted.

Oberlin, O., March 20.—Robbers early in the day blew open the safe in the post office here and escaped with everything of value. A young man who slept in the building was found in the morning, lying on the floor of the office, bound and gagged. He is unconscious and it is believed was drugged by the cracksmen. The amount taken will not be known until the post office inspector arrives. There is no clue to the identity of the robbers.

### Suit Begun.

Springfield, Ill., March 20.—A suit for a petition of mandamus of the Chicago Teachers' federation against the state board of equalization began Wednesday morning. The session was taken up in hearing the arguments presented by the attorneys on both sides.

### Failure at Pittsburgh.

Pittsburgh, Pa., March 20.—L. D. Strauss and L. L. Satter, doing business as Strauss, Satter & Co., and the Pittsburgh Lumber company, filed a petition in bankruptcy in the United States district court. The firm has liabilities of \$100,000 and no assets.

Holland citizens praise Doan's Kidney Pills. Kidney sufferers appreciate this. They find relief for every kidney ill. Read what this citizen says:

Mr. J. H. Streur, farmer, three miles south of the city, says: "I was bothered more or less for years with pain through my loins, never sufficiently severe to lay me up, but it was distressing and annoying. If I over-exerted myself or had been driving long, my back became so tired and ached so much that I could not rest nights. I had often heard Doan's Kidney Pills so highly recommended that I got a box at J. O. Doesburg's drug store and used them. They relieved me immediately, soon banished all my aches and pains and rendered the kidney secretions healthy and natural."

## BESIEGED WITH CALLERS.

Congressmen Confer with President McKinley on a Variety of Matters.

MARK HANNA HAS A LONG INTERVIEW.

Is So Important That Secretaries Root and Gage Are Unable to See President—Almost Certain That P. C. Knox, of Pittsburgh, Will Be Successor of Griggs.

Washington, March 20.—The president was fairly besieged with callers Wednesday. Senators Burrows and McMillan, of Michigan, called to file a caveat on the vacancy in the civil service commission created by the death of Mr. Brewer. They have not yet selected a candidate, but believe the place should go to Michigan.

Within a short time they expect to recommend a candidate.

Representatives Hitt, Foster, Foss and J. R. Williams, of Illinois; Rucker and Benton, of Missouri; Jones, of Washington, and Minor, of Wisconsin, saw the president on behalf of Representative Rodenburg's candidacy for a place on the St. Louis exposition commission. They appeared to be encouraged over the outlook for their candidate when they emerged from their interview. The contest is understood to have narrowed down to a choice between Mr. Rodenburg and Cyrus Northup, of Minnesota. It is understood that the commission will be named during the present week.

**Hanna in Conference.** Senator Hanna, Representative Grosvenor and Representative Dick, of Ohio, had a very extended conference with the president. They were closeted with him for almost two hours. Senator Foraker called during the progress of the conference, but remained only a short time. The importance of the consultation may be judged by the fact that Secretaries Root and Gage, who had business with President McKinley, after waiting for some time, returned to their respective departments. The consultation between the Ohio republican leaders and the president covered quite a number of questions, national as well as state, but was largely confined, it is understood, to the political situation in Ohio. At the conference a number of Ohio army appointments and several other appointments were discussed. The president's trip to the Pacific coast also was talked about. The Ohio delegation in congress is to go to San Francisco to be present at the launching of the battleship Ohio. Gen. Grosvenor has gone to New York to make the arrangements.

**Knox the Man.** Washington, March 20.—It is understood on high authority that the president has decided to appoint Mr. P. C. Knox, of Pittsburgh, to fill the vacancy in his cabinet that will be caused by the retirement of Attorney General Griggs on April 1.

**RAILROADS IN MICHIGAN.** Another Severe Snow and Sleet Storm Ties Them Up—Wires Down.

Grand Rapids, Mich., March 20.—All trains on the Grand Rapids & Indiana, Pere Marquette & Michigan Central railroads north of Cadillac to the Straits of Mackinac are again at a complete standstill. The sleetstorm and heavy wind which prevailed in that territory Tuesday and Tuesday night not only again blocked the wheels by drifting the snow and freezing it, but severed all communication as well, the weight of the ice which formed on the telegraph wires breaking them in numbers of places. The last news the G. R. & I. from the north was that one passenger train was stalled directly in front of Mancelona station, and that three engines were unable to move it. Soon after this the last wire went down, and the general officers here have no knowledge of any of their trains, though they are many hours past due. The officials say the tie-up is the worst of the winter.

**Aged Banker Dead.** Detroit, Mich., March 20.—Albert Ives, the oldest banker in Detroit, died at his residence here early Wednesday aged 91 years. In 1847 he established the private bank of A. Ives & Sons, which failed last fall. Mr. Ives, who had retired from active business, was kept ignorant of the failure, and up to his death believed the institution to be flourishing. He was born in Wallingford, Conn., and came to Detroit in 1837.

**A Mysterious Delay.** Omaha, Neb., March 20.—On motion of the county attorney, the trial of James Callahan, the alleged abductor of Edward Cudahy, Jr., which was set for Wednesday, was postponed until April 1. The action of the county attorney came as a surprise, as he has all along insisted on an early trial and has vigorously opposed all attempts of the defense to delay.

**French Troopship Floated.** Paris, March 20.—A dispatch received by the ministry of marine from Singapore says that the French troopship Vinh-Luong, which went ashore March 18 near the entrance to the port, has been floated and is not injured.

**Baseball Player Signed.** Philadelphia, March 20.—Napoleon Lajoie, the leading second baseman of the country, Wednesday signed a contract with Manager Connie Mack to play with the Philadelphia American League Baseball club.

## CARNEGIE RETIRES.

Steel King Quits Active Business Life—Donates \$5,000,000 for Fund for Old and Disabled Employees.

Pittsburgh, Pa., March 14.—Two commissions from Andrew Carnegie, which are officially made public, tell of the steel king's retirement from active business life and of his donation of \$5,000,000 for the endowment of a fund for superannuated and disabled employees of the Carnegie company.

Mr. Carnegie's \$5,000,000 gift brings the total of his contributions for libraries and other purposes to over \$27,000,000. Two-thirds of this vast sum has been for libraries, about 75 American and 27 European cities—the latter being mostly in Scotland—having been honored with institutions of learning. January 26 a complete list of Mr. Carnegie's public donations aggregated \$21,240,965. Since then he has averaged almost a library every other day.

Washington, March 19.—Hon. Mark S. Brewer, of Michigan, a member of the civil service commission, died here Monday night from a complication of diseases. Mr. Brewer had been at home sick for the last ten days, although for some time past his health has been poor. He was 64 years of age and leaves a widow. The funeral will be held at Pontiac, Mich., Thursday. Mr. Brewer was at one time active in the politics of his state. He served as a state senator several terms and was in congress for four terms. From 1881 to 1885 he was in the consular service, being stationed at Berlin. He has been a member of the civil service commission for several years.

**CONVICTS REBEL.** Those Working in a Mine in Kansas Become Mutinous and Make Their Guards Prisoners.

Leavenworth, Kan., March 20.—Fifteen guards in the Kansas penitentiary mine and the property itself were at the mercy of 284 mutinous, hungry and desperate convicts from Monday morning until nearly midnight Tuesday night. The convicts demanded from Warden Tomlinson a promise to give them better food and less work, holding the keepers as hostages and making threats to kill their prisoners and destroy the mine unless the demand was complied with. That officer held out until late Tuesday night for unconditional surrender, and then, by a ruse, rescued the imprisoned guards and brought the mutineers to terms.

**BOERS REJECT TERMS.** Gen. Botha Refuses to Accept the Terms Offered by Gen. Kitchener to Bring About Peace.

London, March 20.—In the house of commons yesterday Mr. Chamberlain, secretary for the colonies, said that Gen. Louis Botha, commander in chief of the Boer army, had informed Gen. Kitchener that he (Botha) did not feel disposed to recommend the British terms of surrender to the consideration of the Boer government. Gen. Botha added that his government, through its chief officers, agreed with his views. The terms offered by Gen. Kitchener will be made public as soon as they are known.

**Many Are Homeless.** Memphis, Ind., March 19.—Fifty out of 60 houses in Memphis were destroyed by fire Monday. The flames originated in J. J. Hawes' stove factory. Every business house in the town was consumed. Twenty-eight families are homeless and are being cared for by neighboring farmers. The loss will reach \$200,000, with little insurance. Fifteen business houses were destroyed. The hotels and churches were burned. Two large heading and stove factories were totally destroyed. Hawes' flouring mill was saved.

**Three Boys Poisoned.** Sharon, Pa., March 19.—Three boys in search of wintergreen on Wintergreen hill, about half a mile west of Sharpsville, Monday afternoon ate a quantity of poison berries and died in terrible agony about an hour later. **A Sudden Call.** Marshall, Mich., March 15.—Judge Walter Ingalls Hayes, of Clinton, Ia., died here very suddenly of angina pectoris. He was an ardent democrat and served in the national house of representatives three terms from Iowa. At present he was serving as circuit judge in his home district.

### Holland Furniture Factory Destroyed by Fire.

As a result of the most disastrous fire that has visited Holland since the burning of the West Michigan factory, the main part of the Holland Furniture factory on River street is a mass of ruins and 150 men are out of employment. Nothing remains of the plant but the finishing department and store room.

The fire broke out about two o'clock Saturday morning. It started in the dry room and as the inside of the shop was filled with inflammable material the flames had a good start when the firemen arrived on the scene. For a time nothing was visible but dense clouds of rolling smoke, but soon the flames burst through the roof and windows, making a weird sight. The wind was from the northwest. Luckily it was light or the damage might have been much greater.

For a time the firemen devoted all their energies to the burning building and soon had twelve streams of water playing on the fire. They soon saw that the main building could not be saved and turned their attention to the finishing department and to adjoining property.

A fire wall separated the main building from the rest of the plant and was a great help in keeping the flames in check. Ladders were placed against the north walls and the fearless firemen climbed to the roof and poured streams of water into the flames below.

On the south side the boys were just as busy. A house owned John Van Dyke and several lumber piles were right near the plant. If they caught fire the flames might become uncontrollable, so the most stubborn fight was made at this point.

Soon the Van Dyke house caught fire and the Last Resort, owned by Dave Blom, was threatened. If this building caught fire, De Grondwet, the White Seal, the row of wooden buildings and the Holland City State bank would be in danger. The firemen realized that they must check the flames or the city would be threatened, so they redoubled their efforts. The heat was unendurable, but protected by parts of buildings and old doors that they used as shields, they kept a continuous stream of water playing on the fire and adjoining building. Though the shields caught fire they stood their ground. They did magnificent work and kept the flames from the Last Resort, thereby confining it to the limits of the factory and saving River street property from incalculable damage.

So fierce was the fire that the walls crumbled to the ground and in the morning all that remained of the main department of the Holland Furniture factory was a mass of twisted iron, ruined machinery and smoking ashes.

A number of the employees witnessed the fire and aided in saving property. In the morning some who were not there the night previous reported for duty. All were disconsolate and many of the strong men burst into tears.

And well they might. They wept not only for the loss of employment or for the personal loss suffered, for many of them lost tools that they left at the shop, but they wept in sympathy with the management and particularly with J. G. Van Putten, the general manager. The best of feeling prevails between the employers and employees and all were sorry for the great loss.

The building destroyed was 80 x 125 feet, and two stories high with a basement. The loss of this building together with the machinery is estimated at \$50,000. The entire plant and lumber in the yards was insured for \$84,000, \$74,000 on the factory and \$10,000 on the lumber. Under the form under which the insurance is written, the actual loss by fire is not covered by more than \$33,500 insurance. The loss indicated by the difference in the figures showing the value of property destroyed, and those showing the amount of insurance covering this property is, however, not the only loss.

Many of the pieces of furniture in the finishing department are in an unfinished condition. Before they can be made ready for market the style will have been changed and their value depreciated. The patterns have been destroyed and the serious interruption of business will mean a loss of orders from the wholesale dealers. Then the machinery, which is totally ruined, cannot be replaced for anything near the price paid for it, as there has been a heavy increase in the price of machinery the last six years. Though the loss is heavy, the men at the head of the Holland Furniture factory are not easily discouraged and it is expected that they will take steps towards rebuilding in a short time. The officers of the company are:

President—J. A. VanderVeen.  
Vice President—R. Veneklassen.  
Secretary, treasurer and manager—J. G. Van Putten.

The board of directors is made up as follows: J. G. Van Putten, J. A. VanderVeen, J. Veneklassen, Dr. Knooihuizen, James Winter, R. Veneklassen and William Ten Hagen.

Other cities are alive to the great benefit that an institution like the Holland Furniture company bestows on a city, and many letters have been received asking if the company desired to change locations and offering inducements to do so. It is not likely that any of these offers will be considered.

The stock of the company is owned and controlled largely by Holland people. They realize that this is the best city in Michigan for manufacturing concerns. They have faith in its future. They like to live here and will undoubtedly arrange to rebuild in a short time.

When they do it is likely that they will add an additional department for veneering purposes. This building will be erected on the south side of the present site where John Van Dyke's house stood. It is probable that the city will give a small bonus if the addition is made as it will give employment to fifty additional men.

### Common Council.

At last Tuesday night's meeting of the common council the committee on fire department reported recommending that the firemen of both companies be paid the sum of \$50 per year, the eight men of both companies to receive \$25.00 a year additional, and that the driver Engine House No. 1 be paid \$45.00 per month and the driver at Engine house No. 2 \$40 per month beginning May 1, 1901, said payments to be made at the end of every month.

Adopted and recommendations ordered carried out.

The committee on fire department reported recommending the purchase of 1000 feet of hose of the size and quality now used by the city.

Adopted and recommendations ordered carried out, and matter of purchasing referred to Com. Fire Dept.

The committee on fire department reported recommending the purchase of a transmitter to be placed at the Water Works. Adopted and recommendations ordered carried out, all voting aye.

The clerk reported communication from the township board of Holland township, the highway commissioner and the city committee on bridges and culverts recommending the awarding of contract for the repairing of abutments of Black river bridge, to the Grand Rapids Bridge Company at \$1997.50 under certain conditions and that the matter of drawing contract be referred to the Highway Commissioner of Holland township, Ald. Westhoek, and City Attorney Geo. E. Kollen, said contract to be reported to the council for approval.

Accepted and contract awarded as recommended and further recommendations ordered carried out, all voting aye.

The board of public works submitted the following communication:

"At a meeting of the Board of Public Works of the City of Holland held March 18, 1901, the plans, specifications and estimates for the proposed extension to the water works system of the city of Holland, as submitted by Supt. De Young, were adopted and the clerk directed to submit the same to the common council for approval, with the request that, if approved, the common council give direction as to notice to be given, pursuant to Section 15, Title XXIII of the Charter of the City of Holland."

The communication was accepted, the plans, specifications, etc., approved and the board authorized to advertise for sealed proposals for doing such extension work, one insertion in the official city paper.

The committee directed to make the annual settlement with the city treasurer submitted their report saying that they had examined the books and vouchers of the city treasurer and had compared them with the receipts and accounts as kept by the city clerk and had found the same correct, leaving a balance on hand of Sixteen Thousand Five Hundred Fifty one Dollars and thirty one cents (\$16,551.31), for which said amount the city treasurer had submitted a certificate of the Holland City State Bank.

The report was accepted and the annual settlement approved.

Edward Bloom, under whose direction "The Royal Box" will be produced at the Lyceum Opera house next Monday evening, came here and thoroughly inspected the stage before he would consent to have the company appear here. At first he refused to make arrangements, but upon being assured that the management would make the desired changes consented to come. He demanded that all the old scenery be removed and that the stage should be enlarged in order that the company could use its own scenery. He also demanded that an opera box should be built upon the right of the stage to be used in the play. Carpenters have been busy complying with these demands and Monday evening the Opera house and the stage settings will present a strange but magnificent appearance. The fact that the company will use its own scenery should be sufficient incentive to secure a crowded house as it means that the play will be produced on a grand scale. The management of the Lyceum opera house had so much confidence in the desire of the people of Holland to see a first class show that they guaranteed the Royal Box company \$250.00 in order to have them come here.

### Royally Entertained.

Holland entertained royally the delegation that came from Lansing in the interest of a site for the location of a state Normal school. At 1:30 o'clock Friday afternoon a sumptuous banquet was served in Hotel Holland and it was so good that the visitors by a unanimous vote passed a resolution tendering a vote of thanks to Manager J. S. Whelan.

In the visiting delegation were Hon. Delos Fall, superintendent of public instruction; W. H. French, deputy superintendent; Jason E. Hammond, ex-superintendent; J. H. Thompson, member of the state board of education; Senators Humphrey, McMullen, and Bangham, members of the senate committee on education; Representatives B. Waterbury, G. W. Bullson, F. C. Martindale, J. H. Combs and E. P. Nash, members of the house committee on education; Representatives J. H. Read, F. A. Hunt, Chas. H. LaFlamboy, and Arthur L. Rich, members of the house committee on normal schools; James McLaughlin, of the tax commission, Senator Kelly and Representative Lincoln Rodgers of Muskegon. Five of the gentlemen were accompanied by their wives.

Forty of Holland's prominent citizens joined them at the banquet. The ladies of the delegation were entertained by Mesdames Wm. Brussee, G. J. Diekema, Geo. W. Browning, J. C. Post, C. M. McLean, F. D. Haddock. During the serving of the menu Breyman's orchestra discoursed sweet music.

After the banquet Mayor Wm. Brussee welcomed the guests and gave them the freedom of the city. He then introduced G. J. Diekema, who presented many arguments in favor of Holland. Mr. Diekema was at his best and his presentation of the claims of this city made a deep impression. Short addresses were then made by Hon. Delos Falls, Hon. Jason E. Hammond and Senator Humphrey.

One of the features of the program was the singing of the High school chorus under the supervision of Miss Grace Ballantine and Miss Minnie Mohr. They sang a song to the tune "Old Kentucky Home," reciting the benefits of educational institutions. So touching and inspiring was the rendition of the song by the chorus that vigorous applause followed and they had to respond to an encore. The

visitors were greatly pleased with the work of the girls and declared that it could not be equaled in the High schools of Michigan.

After the banquet the visitors, escorted by a committee of citizens, enjoyed a ride about the city and viewed several available sites. Then they took a trolley car ride to Macatawa park and arrived in Holland just in time to take the 5:40 train for Allegan.

So perfect were the arrangements in every detail that not a moment was lost and every second of the stay of the visitors was made pleasant. As souvenirs of their visit they were given copies of "Recollections of a summer" and also of a folder of unique design. This folder contained rhymes telling of Holland's advantages and the words of the parody on "Old Kentucky Home." The rhymes and song follow:

### THE SONG OF HOLLAND TOWN.

(With apologies to Author of "My Old Kentucky Home.")

- The sun shines bright over Western Michigan,  
'Tis summer, the people are gay,  
The corn-top's ripe and the meadow's in the bloom,  
While the birds make music all the day.  
Resorters sport on our smooth and sandy beach,  
All merry and happy and bright,  
There were Hard Times came, and Frost killed the budding peach,  
But that is a Dream of the Night. —[CHORUS.]
- We hunt no more for the possum and the coon,  
Where the Ottawa roamed along the shore,  
But we sing our songs by the glimmer of the moon,  
On the beach by the summer cottage door.  
And our troubles flee away as the running deer did speed  
For Michigan is prosperous and more;  
So we'll build such schools as the people surely need  
And equip them as we never did before. —[CHORUS.]
- We must keep our place in the sisterhood of states  
Forever, and ever, and aye;  
So we'll build good schools  
Lest they lead us in the race,  
And such as will surely, surely pay.  
We'll equip them well, as our sister states do,  
And guard them for ever and aye,  
For from such come those who can guide our children well,  
And lead them from Evil, far away. —[CHORUS.]

CHORUS—Weep no more, my lady  
Oh weep no more, I pray!  
The Past has gone  
Never more to return,  
But the best is before us in the way.
