R. L. Hale, the Allegan boy who  
has won fame on the base ball dia-  
mond, was in the city this week the  
guest of Tony Van der Hill. With  
him was McNutt, the Twin City  
pitcher. Hale made such a good show-  
ing last year with the Los Angeles  
team that he attracted the attention  
of the manager of the Boston Ameri-  
can league team and this year he will  
pitch for the Boston. Hale and Van  
der Hill have worked together in  
many a hard fought base ball battle,  
the Holland player doing the receiv-  
ing part of the battery work.

This is the busiest season of the  
year for James A. Brouwer, the furni-  
ture dealer. It is the time for house  
cleaning, renovating and redecorat-  
ing, and as new carpets and furniture  
are needed the housekeepers go to  
Brouwers to make purchases; but no  
matter how great the rush he has an  
able corps of assistants and every cus-  
tomer can inspect his line of goods to  
advantage. In his advertisement this  
week he has a great deal to say about  
carpets, matting, linoleum, rugs and  
tapestry. Prices are quoted and men-  
tion made of his credit system. Read  
and be convinced that Brouwer's is  
the place to buy your spring house  
keeping outfit.

Like Holland, Grand Haven is in  
favor of the plan of having an in-  
dependent ball club instead of joining  
the state league, as the following  
from the Grand Haven Tribune indi-  
cates: "Grand Haven has an oppor-  
tunity to join the Michigan state  
base ball league, recently organized  
by the indefatigable Emerson Dick-  
erson. Robert Badeke has received a  
letter from Dickerson asking him  
what he (Badeke) thinks of a league  
team here. The idea is to play two  
games a week in each town, one on  
week days and one on Sunday. Grand  
Haven should not stand for Sunday  
ball within the city limits, and if  
Grand Haven is going to have a ball  
team the coming season, a strong in-  
dependent nine would be better of  
the two. We have a nucleus for a  
good independent team here and we  
ought to have one."

The Dunkley Transportation Co., op-  
erating a line of steamers between  
South Haven and Chicago, has bought  
the docks and three steamers of the  
H. W. Williams Transportation com-  
pany of South Haven. The boats pur-  
chased were the steamers City of Kal-  
amazoo, Glen and H. W. Williams.  
The purchase price is estimated at  
\$125,000. The Dunkley company, it is  
stated, is backed by the Michigan  
Central railroad in the new purchase.  
What effect this will have upon the  
future of the steamer Darius Cole,  
which is now the property of the  
Star-Cole Co., is not known, but Mr.  
Dunkley was instrumental in clear-  
ing up the difficulty between the Wil-  
liams company and the Star-Cole Co.,  
so that by returning the outstanding  
notes to the Williams company the  
former owners come into possession of  
her.

At a meeting held in Zeeland  
uesday a branch of the General Dutch

presided and addresses were made by

Rev. G. J. Haan of Zeeland. Members  
were enrolled and these, together  
with the projectors of the branch in  
Zeeland now number about thirty. A  
membership committee composed of  
Isaac Ver Lee and K. Boonstra were  
appointed to look after a larger rep-  
resentation of the Hollanders. Officers  
will be elected at the next meeting.

Carl Smith, a seven year-old boy  
living on Fourteenth street, was

FRIDAY, MARCH 21.

### ROB AND BURN.

**Thieves at Marissa, Ill., Blow Open Hotel Safe and Start Fire That Destroys Many Buildings.**

Marissa, Ill., March 19.—Safe blowers are responsible for a fire which destroyed \$150,000 worth of property in Marissa Tuesday night. They entered the Commercial hotel, where 50 persons were asleep, shortly before midnight, and blew open the safe. Obtaining \$2,500, the robbers escaped, leaving the building in flames. The fire spread rapidly and was not checked until a dozen business buildings and several residences, with their contents, were destroyed. The Commercial hotel was totally destroyed. The flames then spread to other buildings.

The fury of the flames was checked by the firemen at the Kenna residence. The loss is well covered by insurance. Several persons had narrow escapes from death.

St. Louis, March 19.—A special to the Post-Dispatch from Marissa, Ill., says that two blocks of buildings were destroyed in Tuesday night's fire, which caused a loss of \$80,000, with only a small amount of insurance to offset it. The statement that a safe in the Commercial hotel was blown open and robbed is denied. It is not known how the fire started.

### HARD ON LIVE STOCK.

**The Storm in the Northwest Results in the Loss of Many Hundred Sheep.**

St. Paul, Minn., March 19.—A Bismarck (N. D.) special to the Dispatch says: Reports of loss of live stock in the storm have begun to come in. Joe Allen, a ranchman near here, started for Sterling Friday noon, was caught out in the storm and struggled until Monday morning, when he was found so badly frozen that it is feared he cannot recover. One of his horses was dead and the other has not been found. William H. Bratton, of Sterling, lost 100 cattle and several hundred sheep. They were sheltered, but the roof fell in and smothered them. A ranchman named Cook lost 50 cattle.

William Wilton lost 400 sheep. A band of 5,000 sheep in the western part of the state were turned out to graze the day before the storm. The herder perished with his flock.

### Give to Monument Fund.

Cleveland, O., March 19.—Thousands of Porto Ricans have contributed to the McKinley national memorial. Gov. William H. Hunt, in a letter received Wednesday by Ryeon Ritchie, national secretary, reports that \$1,497.42 has been raised in the island and the number of contributors runs far up into the thousands. Gov. Hunt asked someone in each town to receive the funds and no contribution was to be over ten cents. The people of the island responded at once.

Kobbé to the command of the department of Dakota, headquarters at St. Paul, Minn. These changes will take effect on the 25th instant.

### Place for James R. Garfield.

Washington, March 19.—James R. Garfield, son of the late president, will be given the appointment of civil service commissioner to succeed William A. Rodenburg if he will accept it. The president at one time favorably considered the name of Harry A. Garfield for the place, but he was informed that the latter would not accept the appointment.

### New Class of Warship.

London, March 19.—At the spring session of the Institution of Naval Architects, Wednesday, the president, the earl of Glasgow, announced that the admiralty had decided to create a new class of war vessels, to be known as the scout class, somewhat after the type of torpedo boat destroyers, but of greater sea keeping power.

### Santos-Dumont to Visit St. Louis.

Paris, March 19.—M. Santos-Dumont Wednesday accepted an invitation from the officials of the St. Louis exposition to go to St. Louis to assist the authorities in the organization of the proposed balloon contests and select a site on which to erect a balloon shed for himself. The aeronaut will sail for New York on the steamer Deutschland April 4. He will not take a balloon with him.

Some Limitations Which Nature Has Imposed Upon the Most of Mankind.

A man cannot rise from a chair without bending forward, or putting his feet under the chair or outside of it, says the Philadelphia Inquirer.

Many a man will back himself to give another a start of 50 yards in a race of 100, provided the man having the start hops all the way. But no runner, however swift, can give that amount of start to an ordinary man. For the first five yards they go at practically the same pace. Therefore the runner, to go 95 yards while the "hopper" goes 45, would have to run more than twice as fast, and it would be a weak man who could not hop 45 yards at a pace equal to 20 seconds for 100 yards; and that would mean that the runner, in order to win, would have to beat all previous records.

If a man boasts that his penknife is particularly sharp, ask him to cut with one stroke of the blade one of those yellow ribbons, mostly of silk, which are around bundles of cigars. In 999 cases out of 1,000 the knife is not sharp enough to do this. It will cut through all the ribbon but the last strand, and that will pull out long, and the more he tries to cut it the longer it will pull out.

No one except a blind man can stand without support of any kind for five minutes at a stretch, if he is thoroughly blindfolded, without moving his feet. If he does not move his feet he is pretty sure to topple over in about a minute.

## LIFE-BOAT CAPSIZED BY THE ICY SEA.

Effort to Rescue Imperiled Sailors Near Chatham, Mass., Ends in Disaster—Only One Member of the Life Station Survives—Captain Went Down with His Men.

Chatham, Mass., March 18.—Seven life savers, practically the entire crew of the Monomy station on the south end of Cape Cod, met death Monday at their post of duty and with them into the sea which capsize the lifeboat went five men from the stranded barge Wadena, whom they tried to bring in safety to the shore. One man, Lemuel Ellis, through the heroic work of Capt. Elmer Mayo, of another stranded barge, the John C. Fitzpatrick, was rescued from the bottom of the upturned lifeboat. Among those lost was William H. Mack, of Cleveland, O., who was on the barge, representing his company, the Boutelle Towing and Transportation company, of that city, while Capt. Marshall N.

Fitzpatrick, on the way to Boston with cargoes of coal, stranded on the Shovel shoal, about three-quarters of a mile off Monomy point. Since then every effort has been made to float the barges and all day Saturday and Sunday men from Vineyard Haven were at work throwing coal overboard from both of them. Sunday night the tug Peter C. Smith, which has been lying beside the barges, ran alongside the Wadena and told those on board that a storm was coming on. All the wreckers were taken on board the tug with the exception of the five men who met their fate Monday.

## SHIP SUBSIDY BILL.

Provisions of the Measure Passed by the Senate to Aid Mail Service and Common Defense.

Washington, March 18.—The following is a summary of the ship subsidy bill passed by the senate:

The title of the bill passed by the senate is: "To provide for ocean mail service between the United States and foreign ports, and the common defense; to promote commerce, and to encourage deep sea fisheries." Section 1 of the measure as passed deals with ocean mail steamships and their subsidies. The postal subsidy act of 1891 is so amended as to direct the postmaster general to enter into contracts for not less than five nor more than 15 years with American citizens for the carrying of mails on American steamships to such foreign points as will best promote the postal, commercial and maritime interests of the United States; the mail service on such lines to be equitably distributed among the Atlantic, Mexican gulf and Pacific ports and the contracts to be made with the lowest responsible bidder.

The vessels employed in the mail service shall be American-built and owned and operated by American citizens. During the first two years one-fourth of the crew must be American citizens; during the next three years one-third must be American citizens, and during the remaining life of the contract at least one-half must be American citizens. The ships must be screw steamships of iron or steel, and divided into the following classes, according to speed: First class, 20 knots or over; second class, 19 knots; third class, 18 knots; fourth class, 17 knots; fifth class, 16 knots; sixth class, 15 knots; seventh class, 14 knots. All steamships of the first four classes shall be constructed with particular reference to prompt conversion into auxiliary naval cruisers and shall be of the highest rating known to maritime commerce. Mail steamships are required to carry as apprentices one American-born boy for each 1,000 tons

gross register. He shall be educated in seamanship and engineering and rank as a petty officer.

Section 2 of the bill provides for the general subsidy to be paid. It directs the secretary of the treasury to pay to the owners of any vessel in the United States duly registered and engaged in the foreign trade of the United States a compensation amounting to one cent per gross registered ton for each 100 nautical miles sailed, not exceeding 18 entries in any one year; and on each entry, not exceeding 18 in any one year, for a period of five years from the date of registration of a vessel of 1,000 gross tons, which shall be completed after the passage of this bill, one-fourth of one cent per gross ton for each 100 nautical miles sailed, in addition to the above-mentioned compensation. The bill specifies certain vessels which shall not receive compensation under its provisions, among them being vessels engaged in the coastwise trade exclusively. Each subsidized vessel is required to carry as a member of its company one American boy for each 1,000 gross tons, who shall be taught seamanship and engineering. The owners of the vessel must agree before receiving compensation that the ship in emergency may be used by the United States for the national defense or for any purpose, at a fair valuation for this service.

Section 3 of the bill directs the secretary of the treasury to pay to the owner of a documented vessel engaged in deep sea fishery for at least three months in any one year two dollars per gross ton per annum, provided that at least one-third of the crew shall be citizens of the United States; and he is directed to pay also to a citizen of such crew one dollar per month for the time he is necessarily employed.

## Section 4 provides that no vessel shall be given compensation under two or more sections of this act at the same time; that a subsidized vessel shall not be sold to a subject of a foreign power; and that the president of the United States shall cause proper regulations to be framed for the execution of this act.

### From Those Who Ought to Know Best.

So many different reports of the existing conditions in the Philippines have been received of late, that the affair has become a muddle. Some give hopeful and rosy prospects, while others are adverse. Governor Taft in his recent report pictured the islands as rapidly advancing in civilization, and that hostility had practically subsided. While General Chaffee brings in a report derogatory to that of Taft. Both are men of sound judgement and experience and men who ought to know. But which of these reports can the people of this country accept? Cornelius Gardener, formerly of Holland, who has been on the ground for the past two years sends the following to the News which will throw light on the subject:

Public opinion, which at first received Governor Taft's estimate with adverse criticism and an inclination to jeer, is gradually beginning to veer round to his way of thinking. (The initial shock over, reflection tends to show that the governor should easily be able to give Congress a reason for the faith that is in him. In the first place, it must be remembered that the estimate is based, not on the present, but on a year hence; and he would be fatuous indeed who would venture to assert that conditions then will be no better than now. Compare today with a year ago, and the progress achieved will be sufficient answer.

Another phase of the question which justifies Taft's estimate is the number of troops capable of maintaining order in the islands. First there will be 15,000 U. S. soldiers, 10,000 native troops, 5,000 constabulary, and the police force of Manila and the other municipalities. This will give an effective body of some 35,000 troops. Then the white population, as in the early days of the outbreak, can be counted on at a pinch.

It may also safely be taken for granted that Samar will have seen its last of open hostility by that time. Of course it will have to be garrisoned more or less strongly, but a large number of the troops now stationed there will be rendered quite unnecessary.

Another feature which must be considered is the immigration of American capitalists and settlers which is sure to follow favorable legislation. Can the latter class be induced, in large numbers, to cast their ventures here, an event which seems not at all improbable when Secretary Root's recommendation as to the homestead law is called to mind, then another very important factor in the country's pacification will have been introduced. Last but not least, and as a corollary to this measure, may be mentioned the general contentment which would be spread among the natives by the development of the islands consequent on favorable legislation. At present they are frequently

driven to ladronism by starvation. Given a chance for employment, and an opportunity to satisfy their needs, many of these might be trusted to resume peaceful vocations and give over the hardships and dangers incident to the bandit's life.

Another fact worthy of observance is that many of the so-called "scare" to which we are periodically treated are false alarms having but little substance or occasion. A firebrand here and there scatters incendiary literature and immediately it is thought that a whole province has been sounded to arms. Naturally such incidents are made much of by the press, as they far surpass in interest the fact that Sr. Gonzalez or Sr. Lopez or some other wealthy Filipino has once more resumed the work on his hacienda and given peaceful employment to some hundreds of Filipinos. A small out-break gets a double-column "scarehead" where the laying of a new road or the introduction of some other public utility gets three-line mention. And so it is that we hear of every little brawl which occurs and forget the great silent agents which are at work making towards pacification and progress.

When these facts are duly pondered we can more easily give Governor Taft's estimate serious consideration. Such reflection is likely to result in a coincidence with his views or at least a modification of the condemnation which they at first provoked. We believe that in one year from now, or even less, General Chaffee himself will admit the correctness of Governor Taft's forecast, and acknowledge that his estimate was based on a sound knowledge of prevailing conditions and was not begotten of an optimism unwarranted by facts. Within a year all things are possible.

### Republicans Adopt Primary System.

The Republicans of Holland will this spring nominate men for city offices by means of the primary system instead of in general convention as heretofore.

In former years the conventions were held in the Lycium opera house and so many republicans turned out that the hall was not large enough especially when a few democrats would attend and take active part in the nominations. To mitigate this evil it was decided to make a change and the primary system was adopted after careful consideration.

The matter was definitely settled at a mass meeting of republicans held in De Grandet hall last Monday night. A large number of republicans were present and took part in an exhaustive discussion of the plans submitted by the special committee which was appointed last week. These plans were adopted. They provide that primary elections be held at the Lycium opera house on the afternoon and evening of the day appointed and that men will be nominated for the following offices: Mayor, marshal, treasurer, justice and district supervisors.

The election will be conducted on lines similar to the school elections and will be in charge of inspectors and clerks. A blank ballot will be given to each voter and opposite the different offices he can write or paste the names of the men he wishes to vote for. The city committee will have charge of the election and will appoint inspectors and clerks.

This change in plans does not apply to ward caucuses for aldermen and they will be conducted as in previous years.

### Common Council.

The common council at Tuesday night's session approved the report of the committee directed to make the annual settlement with the city treasurer. This report showed that there was a balance left of \$3,233.07.

The committee on streets and crosswalks reported recommending that the petition of Millard Harrington and others for the opening up of 28th street between Central and Michigan avenues be granted.

Report adopted, recommendations ordered carried out and the city attorney instructed to draw up the necessary papers and resolution.

The committee on streets and crosswalks reported recommending that the petition of Walter C. Walsh and others for the opening up of College avenue south of Sixteenth street be granted, and that said street be opened up and graded and graveled as far south as Twenty-fourth street and State street.

Adopted and recommendations ordered carried out.

The committee on claims and accounts, to whom had been referred the claims of Gerrit Wilterdink reported recommending that the bills of \$12 and \$4.75 for office rent and supplies be allowed and that the bill of \$15.00 for assistance be not allowed.

Adopted. Resolved, that the following be and are hereby determined as the places for election purposes April 7, 1902.

Second ward—Kamferbeek building, No. 147 River street.

### High School Oratorical Contest.

The High school oratorical contest, which took place Friday evening, proved to be one of the most successful entertainments ever given by the High school. The room was well filled with a large and enthusiastic audience, which went away well pleased. Harry Brown will represent the High school at the Inter-High school contest at Allegan, as the judges decided that his oration, "The Anglo Saxon" was the best. Miss Gertrude McKay, whose oration was entitled, "Joan of Arc," was a close second. Bernard Rottschaffer chose for his subject, "The Boer War," Miss Daisy Davidson spoke on "Cardinal Richelieu," and Robert Van Houten told the story of "The Ride for Oregon." All the contestants did remarkably well. The audience was further entertained by instrumental solos by Misses Dykema and Taylor, a selection by Mr. Cooper, the elocutionist, and a mandolin duet by Will Olive and Pete Kramer. The entertainment certainly shows the excellent work being accomplished by the High school.

The judges were: Thought, P. A. Latta, C. M. McLean and John W. Beardslee, Jr., delivery, Hon. G. J. Diekema and Attorney Geo. E. Kollen.

### Dr. Albert Leonard Lectures.

The Inspiration Institute in session at Winants chapel was opened last night by appropriate exercises, and by an able address by Dr. Albert Leonard, of Ypsilanti. A large audience was present and bestowed liberal applause upon those who participated in the program.

L. P. Ernst, commissioner of schools for Ottawa county, was in charge of the meeting and the first number was a song by the college quartet, which was encored. Rev. J. T. Bergen led in prayer, after which Commissioner Ernst in a short talk of an encouraging and advisory nature introduced the speaker of the evening.

Dr. Leonard gave a scholarly address along advanced educational lines. He showed a thorough mastery of the subject and presented inspiring thoughts in a lucid and learned manner. Prof. J. B. Nykerk sang a solo and the exercises were closed by "America" sung by the audience.

The sessions in progress at the chapel today are well attended and great interest is shown in the work. Tonight Henry R. Pattengill, conductor of the Institute, will deliver an address on "Made in America."

### Life Savers Drowned.

Seven life savers of the crew of the Monomoy, Mass. station and five members of the crew of the barge Wadena were drowned Monday by the capsizing of the Monomoy lifeboat. One life saver, Lemuel Ellis, was rescued.

Monday morning Capt. Eldridge of the Monomoy station saw the signals of distress flying from the Wadena. A fearful sea was running, but the life savers lost no time in getting started. It took them nearly an hour to reach the Wadena.

The five men were gotten on board the lifeboat in safety and the return journey was begun. Half way to the shore a tremendous sea caught the life boat under the stern and she went over.

All efforts to right the craft were fruitless. Mr. Mack was the first to succumb, and the others quickly followed until only four were left. These four managed to climb on the bottom of the upturned boat.

The lifeboat drifted in the direction of the barge Fitzpatrick. Capt. Mayo, of that craft, caught sight of the four men. Although the waves were running high he dropped a dory overboard and started to the rescue. Before he reached the life boat three of the men had dropped off. Ellis managed to catch a rope Mayo threw to him and was dragged aboard the dory.

### The Reception of Dr. and Mrs. Kollen.

Tuesday evening Dr. and Mrs. Kollen again gave one of those exceedingly pleasant receptions which have become very characteristic of the hospitality and kindness of the doctor and his wife.

The beautiful home of the president was thrown open to all the students, faculty and other friends specially connected with the college. The home was very tastefully decorated with national and orange colors, and with carnations, roses and ferns. After all the guests were present and hearty handshakes and greetings had been exchanged with each other, they were ushered to the beautifully decorated dining room where dainty and elaborate refreshments were served. The evening was most enjoyably spent so that every one departed having formed a closer tie of love and friendship with the Dr. and Mrs. Kollen and all pronounced them most excellent entertainers.

The Jolly Time club closed its social season in a blaze of glory last Friday night at the annual banquet given at the home of Mr. and Mrs. Will Breyman. J. B. Mulder was toastmaster at the feast of wit and reason following the sumptuous repast and toasts were responded to by Mrs. Will Breyman who told about "Our Club," and Mrs. J. B. Mulder who spoke about "The Sphere of Woman." The following program was carried out:

Instrumental solo—Mrs. Otto Kramer.  
Recitation—"The Father of Our Shingle," R. B. Fuller.

Two hundred and fifty six visitors were present and work was done in the second degree. Then the banquet was spread, 400 covers being laid. Toasts to Holland City lodge were responded to by Anton Self and James McLaughlin. Those present from Holland were B. Schermerhorn, H. T. Van Dusen, Theron Metcalf, J. E. Bowker, James Babcock, L. S. ### Major Scranton Circle Entertainment.

The entertainment given by the ladies of Major Scranton Circle Monday evening was a success in every way. In the dining hall the following toasts were given and responded to. "Our Soldiers," Rev. A. Clark responded. He reminded the veterans of their foraging expeditions and spoke of their bravery, and that to them we are indebted for much that we enjoy today. "Our Ladies" was responded to by Comrade Stillson of the Soldier's home of Grand Rapids. "The Vidette" responded to by Mrs. Wilms. The Vidette is a paper published at the home in the interest of the G. A. R. work.

The editor of it was present and told something about what he expected to make of his paper. Comrade Harris responded to "Our Circle," and as he is poetically inclined, brought down the house by his humorous quotations. "Our Flag," was responded to by Mrs. Sylvia Lamoreaux, and at signal from the toastmistress, Mrs. J. Reeve, the veterans and members of the Circle arose, and saluted the flag. The company then adjourned to the lodge room where a fine program in charge of Mrs. A. Clarke, was rendered. Recitations were given by Miss Ethel Weaver, Xlra Hooper, Roy Heath and others.

Sylvia Hadden gave a violin selection, accompanied by Ray Hadden. Miss Riedema rendered a piano solo. Lucille Steketee, Minnie Ver Schure, Mabel De Boer and Sylvia Hadden sang "Red, White and Blue," the audience joining in the chorus. A number was given by the Ladies Quartet. Duets, solo and gramophone selections finished the program. Three of the veterans from the Home were present, also Mrs. Siglar from Grand Rapids, and Harry Cogshall, of Colorado, who was most cordially welcomed as he is a general favorite wherever he goes. Mrs. W. Belcher and Mrs. E. Allison, assisted by four young girls served refreshments.

### Burglars Took Fruit.

The burglars have changed their tactics. Instead of gathering in jewelry and money in their midnight pilgrimages they have turned their attention to provisions. Last night they entered the cellar of Mr. Adams, on West Tenth street and carried away forty quarts of canned fruit. The burglary was committed after 12 o'clock as Mr. Adams did not retire until that time. Entrance was gained through the woodshed door, the burglars going through the shed into the cellar. Mr. Adams lives alone. Sheriff Dykhuus is in town and is aiding the local officers in their efforts to trace the thieves.

### Cantata At Hope Church.

Good Friday will be observed in Hope church by special services in the evening. The choir will give the cantata entitled "The Seven Last Words of Christ." The choir will be under the direction of Dr. A. C. V. R. Gilmore, and will be assisted by Breyman's orchestra.

The rehearsals now in progress indicate that the cantata will be even better than the one rendered Christmas and that is saying a great deal for the Christmas cantata was especially good.

Rev. J. T. Bergen will conduct services appropriate to the occasion and will deliver a short address. Services will begin at 7:45 in the evening, Friday, March 26, and a cordial invitation to attend is extended all.

### Fair Days Sept. 9 to 12.

The South Ottawa and West Allegan fair association will hold its annual fair one year earlier than usually this year. The board of directors, at a meeting held in the office of L. T. Kanters, the secretary, last Tuesday, selected the balmy autumn days of September 9, 10, 11 and 12 as the dates for the event this year. Superintendents of the various departments were appointed as follows:

Poultry—R. Westveld, James L. Conkey.

Agricultural—G. D. Deur, K. Koster.

Farm Implements—B. Breuker.

Pomological—George H. Souther, H. Sheffield, William Parrish of Allen-dale, Charles Bassett of Fennville, and Horace Welch of Douglas were appointed assistant superintendents in this department.

## GOOD NEWS FROM SAMAR

**Guevarra, Insurgent Leader, Has Agreed to Surrender to the American Army.**

### RESULT OF INFLUENCE OF GEN. LUKBAN

**Gen. Chaffee Greatly Pleased, as This Practically Closes the Active Insurrection in That Island—Gen. Otis Continues His Testimony Before the Senate Committee.**

Manila, March 19.—Gen. Lukban's efforts in influencing Guevarra, who recently issued a proclamation declaring himself the successor of Gen. Lukban in the island of Samar, to surrender have been successful. Both Gen. Smith, in command of the United States forces in the island of Samar, and Guevarra have agreed to an armistice to facilitate the collection of Guevarra's men with their rifles, when the formal surrender will be made. The arms will be paid in at the fort.

Gen. Smith cables that Guevarra has 400 rifles, and that Guevarra guarantees the absolute peacefulness of his men.

Gen. Chaffee is greatly pleased with what he considers as closing the active insurrection. The resistance in Batangas and Laguna provinces practically is over. There are daily surrenders there of men and guns. The insurgents have been completely starved into submission by Gen. Bell's aggressive tactics in preventing any exterior assistance from reaching them.

Some surprise is expressed at the number of rifles to be turned in by the men under Guevarra, as it was thought there was but 200 in Samar.

### Gen. Otis Continues Testimony.

Washington, March 19.—Gen. Otis continued his testimony before the senate Philippine committee Wednesday. Referring to his order of September 8, 1893, directing the withdrawal of the insurgent troops outside the defenses of Manila, Gen. Otis explained that a commission from Aguinaldo's cabinet visited him.

In the discussion which followed he said they did not mention the fact that the towns immediately adjacent to Manila were not a portion of the city. He classed as ridiculous Aguinaldo's request to receive a portion of the northern part of Manila, occupied by Spaniards, in trade for some of the southern part of the city, held by the insurgents.

Gen. Otis said he did not give the insurgents actual permission to occupy the blockhouses which Aguinaldo claimed had been given. What he had said was: "I don't care anything about the blockhouses; we are not going to take possession of them."

Gen. Otis said that Aguinaldo had demanded of Gen. Merritt the right to occupy the palace and to make appointments in the civil government, which caused Gen. Merritt to cable Washington for instructions. The reply was that there must be no dual occupation of Manila.

Gen. Otis then detailed the circumstances attending the capture of Iloilo, the offer of the Spanish general, Rios, to hold the place against the insurgents pending the arrival of United States troops, and the capture of the town by the Visayans before the arrival of the United States troops. Aguinaldo, he said, was overjoyed when he learned that the detachment had been sent out because he (Aguinaldo) declared that the first shot would be fired at Iloilo, which would bring on war between the United States and the insurgent forces. Gen. Otis said he had cabled Washington, saying that the taking of Iloilo meant war in the islands, and had received the response to defer action, which he did until the insurgents made war on the United States forces in Manila. He had, he said, issued his proclamation extending military authority to all parts of the archipelago under instructions from the president. Senator Rawlinson sought to show that many of the things done by the United States military authorities were in contravention of the protocol, but Gen. Otis explained that he felt it his duty to protect lives and property.

The committee adjourned until 2:30 p. m. in order to permit Gen. Otis to conclude his testimony Wednesday.

Hayden, pastor of the First Congregational church, of this city, has resigned his pastorate, to take effect July 1, and will accept the position of professor of philosophy and biblical literature in the Illinois college, Jacksonville, commencing September 1.

New York, March 19.—The body of Jonathan Boyce, the millionaire lumber merchant of Essexville, Mich., will be shipped to the United States for burial, says a London dispatch to the American and Journal. Mr. Boyce died a few days ago at Tiveshall, Norfolk, where he spent his boyhood as a herd boy.

### Carter Funeral at Pana, Ill.

## HAGUE PEACE TREATY.

**United States Senate Adopts the Peace Pact with Other Countries—Some of the Features.**

Washington, March 15.—The senate yesterday, without division, ratified The Hague peace conference relating to the conduct of war on land and sea. The countries party to the treaty are Germany, Austria, Belgium, Denmark, Spain, the United States, Mexico, France, Great Britain, Greece, Italy, Luxemburg, Montenegro, Netherlands, Persia, Portugal, Roumania, Russia, Servia, Sweden, and Norway, Turkey and Bulgaria. The provisions of the treaty are binding only on the contracting powers in case of war between two or more of them, and cease to be binding when a noncontracting power joins either of the belligerents. Among things specially prohibited are:

To employ poison or poisoned arms. To kill or wound treacherously individuals belonging to the hostile nation or army. To kill or wound an enemy who, having laid down arms, or having no longer means of defense, has surrendered at discretion. To declare that no quarter will be given. To employ arms, projectiles or material of a nature to cause superfluous injury. To make improper use of a flag of truce, the national flag or military ensigns and the enemy's uniform, as well as the distinctive badges of the Geneva convention. To destroy or seize the enemy's property, unless such destruction or seizure be imperatively demanded by the necessities of war. Rules of war and the employment of methods necessary to obtain information about the enemy and the country are considered allowable.

### SEVERAL LIVES LOST.

**Family of Four and Others Perished in the Northwestern Blizzard—Loss of Stock Unknown.**

St. Paul, Minn., March 18.—The great blizzard which had raged over the Dakotas and Manitoba since last Friday subsided Sunday night and Monday the weather was generally fair, but intensely cold, the thermometer ranging from ten to sixteen below zero. In view of the fury and suddenness of the storms it is remarkable that so few lives are reported lost. While the reports so far have been meager and many remote points have not yet been heard from, it is general belief that not above eight or ten persons perished throughout the storm-swept region. A family of four is reported to have perished near Minot, N. D., and two or three others are said to have been frozen to death in different localities. The loss to stock is hard to estimate.

### BIG PIER IS BURNED.

**Docks of Phoenix Steamship Line Destroyed by Fire at Hoboken, N. J.—Loss About \$1,000,000.**

New York, March 19.—A swift and, in many of its details, a picturesque fire, Tuesday night destroyed the pier of the Phoenix steamship line on the Hoboken (N. J.) river front, with many bales of cotton and hay; burned that company's vessel, the Britain Queen, to a hulk, consumed several lighters and their cargoes, damaged a dock belonging to the Barber steamship line, and for a time threatened the property of the Holland-American line and the huge Campbell stores. The loss, according to estimates, will approximate \$1,000,000. Whether any lives were lost was most difficult to learn.

### Navigation on Lake Erie Opened.

Detroit, Mich., March 19.—Navigation on Lake Erie was opened Tuesday for the season of 1902 by the steamer City of Detroit, of the Detroit & Cleveland line, which left her dock at the foot of Wayne street at 9:30 o'clock, bound for Cleveland. The City of Detroit has a full cargo of freight aboard and despite the cold 75 passengers made the trip. The vessel is equipped with wireless telegraph instruments and will be in communication with a receiving station at her dock throughout the trip.

### Miss Stone Is Grateful.

Salonica, March 17.—A press representative here has received a letter from Miss Stone, the American missionary, in which she expresses her surprise and gratitude at the universal manifestations of joy at the release of herself and Mme. Taika. Miss Stone also conveys her heartfelt thanks to all those who by their labor, their money and their prayers cooperated to the release of herself and companion.

## PRINCE IN HOME HARBOR

**Henry of Prussia Warmly Welcomed at Cuxhaven by His Brother, Emperor William.**

### EXPRESSES HIS THANKS TO AMERICA.

**In an Interview He Sends His Last Word to the United States Full of Gratitude for His Reception—Tells of Interest His Brother Takes in the Trip.**

Cuxhaven, March 19.—The return of Admiral Prince Henry of Prussia to German soil was safely accomplished Tuesday afternoon amid all the pomp and circumstance with which the prince's imperial brother has seen fit to mark the successful ending of Prince Henry's American mission. The Hamburg-American line steamer Deutschland, from Cherbourg, having on board the prince and his suite, was first sighted at half past five Tuesday afternoon. The German battleship Kaiser Wilhelm II. steamed down the roadstead to meet the Deutschland, and returned escorting the big liner. The Deutschland tied up to the new stone quay and was the first ship to dock there. Emperor William stood upon the quay, surrounded by high naval and municipal officials. As representative of the American embassy at Berlin, Commander William H. Beehler, the naval attaché to the embassy, stood at the emperor's side.

### The Brothers Meet.

The quay was decorated with the flags of all the states of the empire, and the thousands of spectators who covered the roofs of the great warehouses and the wide slopes overlooking the scene, cheered wildly as Prince Henry walked down the gangway from the steamer. Emperor William kissed his brother upon both cheeks and shook hands with the members of his suite, saying a few cheerful sentences to each. In the meantime the guns of the squadron saluted. Side by side his majesty and Prince Henry then passed down in front of the marine guard, which stood at salute. After this the marine guard passed in review, while the band of the imperial yacht Hohenzollern played the national anthem.

### Board the Warship.

The passengers on the Deutschland crowded to the steamer's rail and cheered heartily during the ceremony. Some of the American passengers waved little American flags; otherwise the Stars and Stripes were not flying. After the inspection of the guard of honor and the veterans by Emperor William his majesty and his party, Prince Henry and his staff and Commander Beehler boarded a tender and, amid fresh salutes, music and cheering proceeded to the battleship Kaiser Wilhelm II. Upon arriving there the crew of that vessel manned their ship to receive the royal personages. The Kaiser Wilhelm II. weighed anchor at a quarter past seven and started toward Kiel through the canal. A banquet was served on board the warship.

### Expresses His Gratitude.

As the steamer drew near to Cuxhaven, Prince Henry received the correspondent of the press in his cabin. The prince, speaking with deep feeling, said:

"I desire to send a last word through you to America, to say how deeply grateful I am for the measureless kindness I received while here. I tried to say this before I left, but I want to say again that I am grateful for the cordial and generous manner in which the people and the president of the United States received me. I met and talked with as many individuals as I could, but of course I saw most of the people in crowds, and some times only from the railroad car platform, and only long enough to touch my cap or take off my hat to them. I wish to thank all those thousands for the trouble they took. I had no opportunity of studying the details of industry as I would like to have done."

### Killed Himself.

Rockford, Ill., March 19.—Orin P. Cowen, formerly chief clerk of the northern Illinois hospital for the insane and well known in state politics, committed suicide by shooting here Tuesday. He recently removed here from Elgin to start in business. No cause is assigned for the action.

### Lukban's Successor.

Manila, March 17.—Givera, the insurgent leader, has issued a proclamation in the island of Samar, declaring he has succeeded Gen. Lukban, who was captured by the Americans, and that consequently all orders now standing in the name of Lukban are void.

### Hanged.

## Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—you

and the bottle.

### ARTIST OF MIST AND RAIN.

**Simple Methods of the Celebrated Japanese Painter, Hiroshige, and His Pictures.**

Mary McNeil Fenollosa has written a charming essay on Hiroshige, the Japanese artist of mist, snow and rain. The essayist, says an exchange, traces Japanese landscape art from its curious beginnings, about 1770, when Toyoharu, "having seen and studied some old Dutch woodcuts, which had found their way into the empire through the little Dutch colony at Nagasaki, conceived the idea of rendering the landscape of his own country into similar forms. It is interesting," she continues, "to see his initial attempts at foreign realism and perspective. The foliage of trees is drawn with such painful minuteness that it loses all resemblance to Japanese vegetation; the round, carefully modeled white clouds seem to be held in air by concealed wires, while in some of his conflicts with perspective the garden of a tea-house is thrown far away from the building to which it belongs, and street vistas dive headlong beneath the startled horizon."

"Gradually, as modern landscape prints from Japan show, the rudiments of foreign methods were learned, and a flourishing school of artists sprang up, whose landscape prints, in black and white, were in great demand as illustrations for guide books of the country. Before the days of the camera, these were the only means of reproducing a given scene, the fashion of painting single pictures on paper having not developed there till much later."

It was Hiroshige, pupil of a pupil of Toyoharu, who conceived the idea of printing these illustrations on separate sheets, instead of binding them in heavy guide books, and who, now that they begin to be taken more seriously, as works of pictorial art, applied to them the wealth of coloring already used in figure prints. "His methods," writes the commentator, "are ridiculously simple. We ask: 'How can this man, with his crude hand apparatus, and a half dozen wooden blocks, gain effects over which Corot might have spent months in vain?' 'Diluted inks,' the modern print maker tells us. 'A deft blue with the finger on the wet block just before it is applied to the absorbent paper; a deliberate yet nervous grading of the force with which the block is pressed down.'"

"These directions, however, give but little hint of the consummate genius required to employ them. After all, it takes Hiroshige himself to lure within a small ink rectangle the changeless impression of a moment's passing loveliness; to spread his mist in breezy places, from whence no wind can drive them, his snows unmelting in winter sunshine, his rain forever falling, yet never at an end."

### He Was Brave.

During the heavy gale that blew Monday the river steamer Tourist was blown from her moorings at St. Joseph. Three men, George Gilbert, William Moulton and L. D. Wallace, who went out in a rowboat with the idea of getting aboard the vessel to save her, were nearly drowned by the capsizing of their boat. As their boat was going over Wallace and Gilbert sprang forward and caught the railing of the Tourist. A moment later Moulton caught the railing, but owing to the weight of his water-soaked overcoat could not pull himself upon the deck.

Moulton remained clinging to the railing for fully ten minutes, pleading with his companions to rescue him. He expected momentarily to be over come with cold and be carried into the river. Wallace and Gilbert made desperate efforts to lift him up to the deck, but they failed. Their hands became numb and cold and as a last resort, determined not to see Moulton go to a watery grave, Ald. Wallace laid on the deck, caught the collar of Moulton's coat in his teeth and held him until Mabel could warm his hands. Wallace's brave act saved the life of Moulton, who was rescued in a row boat by George Gilbert a few moments later.

### Officers of The Graham & Morton Fleet.

The Graham & Morton transportation company is squaring away for the summer's business.

Acting under orders from President Graham, Fred Zalsman, the local agent, has taken soundings at the harbor. These soundings show that the depth of water in the channel ranges from 10 to 11 feet and that there is but 9 feet 6 inches of water on the bar just outside of the pier. This is shallower than President Graham anticipated and he says a change will be made in their plans and that navigation will be opened at this port by the new steamer, C. W. Moore. This will mean tri-weekly service for a short time but the larger steamers will be put on and daily service inaugurated as soon as dredging can be done.

The officers have been selected for the different steamers.

The steamer City of Chicago will be in command of Capt. W. J. Russell with William McElure as engineer.

The City of Milwaukee will be commanded by Capt. John Stewart, with Charles L. Barron as engineer.

The Puritan will be commanded by Capt. W. A. Boswell, with James Stuart as engineer.

The steamer Soo City will be in command of Capt. Edward Williams, with Byron Hopkins as engineer.

The Post Boy will be in command of Capt. James Vanderhoof, with R. W. Stevens as engineer.

When the regular schedule for the season is arranged the steamers City of Chicago, City of Milwaukee and C. W. Moore will run on the Chicago, St. Joseph route while the Puritan and Soo City will take the Chicago and Holland run and the Post Boy will do the excursion business between Chicago and Lincoln Park.

### Do You Want To Be Strong?

**We Have Proof at Hand that Vinol is all that is Claimed For It.**

A good many of us have to go "to the city" to get certain things.

We will save our friends and customers the trouble of a trip, at least so far as buying Vinol is concerned.

It is one of the greatest tonic rebuilders that has ever been brought to our attention. Large quantities of it are sold in all of the large cities of our state and elsewhere. Now we have been appointed sole agents for this place.

Vinol is better than cod liver oil for everything for which this greasy mixture was prescribed.

The following from Chillicothe, Ohio, written by Mr. George Burgoon, who says:

"My wife was very much run down in flesh and strength. Commenced taking Vinol and she felt the beneficial results of it before the first bottle was gone. She took four bottles in all and received wonderful benefit. Her strength returned and she gained materially in weight. I am happy to state that she is now in perfect health and we give VINOL the entire credit for this happy result."

Don't you please call on us and let us show you how VINOL does good or let us send you a book that tells all about it.

We sell Vinol under a guarantee that if it doesn't help you we will return your money.

MALE CHORUS.

Holland and Hope met on the basketball battle field at the college gymnasium last Monday night. The engagement was spirited but the fortunes of war were with the city boys and this added to aggressive and brilliant playing made it possible for them to march home with the fruits of victory in the shape of a score sheet that read Holland 10, Hope 6. Here is the line up.

L. F.—J. DePree	L. F.—Pleune
R. F.—R. DePree	R. F.—Niesink

The officials were: Principal Dick of the Holland High school, Supt. Marshall of the Zeeland schools and Mr. VanderMel of Hope college.

### Two Business Deals.

Two important business deals were consummated this week. Tiemmen Slagh purchased the St. Charles hotel property of the former proprietor, A. E. Ferguson. He will lease it to Jacob Osterhouse, of Grandville, who will run the hotel in place of Mr. Ferguson.

O. J. Lokker & Co., proprietors of the Crystal Creamery, have extended their business. They have leased the creamery at Zeeland and will take possession April 1.

### Barbers Close Early.

The barbers have made an agreement regarding closing hours and list of prices.

They met at Charles Harmon's shop last night and entered into an agreement to close their shops at 8 o'clock every evening excepting Wednesdays and Saturdays, and to charge 25 cents for a hair cut and 10 cents for a shave.

Thousands of once-hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip and whooping cough and is positively guaranteed for all throat and lung troubles. 50c., \$1.00. Trial bottles 10 cents at Heber Walsh drug store.
