Congressman Diekema made his first tariff speech Monday evening in the House of Representatives. He expressed himself as favorable to the Paine bill except that he believed tea should be admitted free and the sugar beet industry should be protected. He stated that the tax on tea was not a Republican tax. Concluding a long argument on the importance of the sugar industry, Congressman Diekema said, "Every sugar producing country puts a higher tariff on sugar than does the United States. Sugar was cheaper in 1906 than it was 10 years before under the Wilson bill. All other things have materially advanced. The industry if destroyed will never be rebuilt. Let us continue to encourage this industry. Soon we shall be able to manufacture all our sugar and save the people \$100,000,000 a year. I believe we can do this and continue to maintain American wages and the American standard of living."

A Boy Artist in Holland

William L. Hemmingway, living with his parents at 147 E. Ninth street is making rapid strides in scientific investigation besides being a born artist and an adept on the violin.

William, who has for his laboratory, art studio and music room the whole lower portion of his parent's home has lived in Holland six months, moving here from Chicago some time ago with his parents. His first accomplishment was to acquire excellence on the violin. He plays nothing but the best classical music and can play with ease in the sixth and seventh positions. During the day he works in his "laboratory" and in the evening he plays the violin in the orchestra at the Idea Theatre.

After learning to play the violin, the young lad, when but fifteen years of age turned his attention to painting. In the two years that he has followed this line of work he has turned out about four hundred pictures. He uses crayon, water colors and oil with equal facility and many of his pictures are the marvel of critics. He has had absolutely no instruction being a born artist. When he was fifteen years old he ran away from school to watch an artist work. Landscapes, marine scenes and figure work all look alike to him and he has executed some especially fine work in each line.

Five weeks ago he became interested in wireless telegraphy. Since that time he has completed his own system. For one of his poles he uses his music rack throwing the waves from room to room to the receiving instrument. Now and then a wave from some outside station strikes his receiver and causes the little bell to ring. He talks fluently of the intricacies of the wireless system and seems to understand each part of it thoroughly.

Since he has turned his attention to scientific investigation he has perfected a storage battery of his own that retains its power longer than any others on the market and tested by a 4 volt meter shows power greater than the meter can register. He performs experiments for visitors along other lines, showing yesterday the working of an arc light which he had constructed himself.

A trip to his studio and laboratory is well worth while. It is marvelous to see what this seventeen-year-old lad has accomplished in the way of science, music and art. There is no doubt but what William Hemmingway will make his mark.

Temperance movement in Grand Haven is pretty well on the way unless checked by the excitement connected with a local election. Within the last few days several public meetings have been held which were largely attended.

The following are among the nominations for Supervisor, made in the neighboring towns: Holland—W. Diekema and J. D. Bloemers. Zeeland—J. G. Van Hees. Olive—W. A. Willis. Overysel—H. Kok Fillmore—

Prof. G. J. Kollen, has met thus far with the most encouraging success in laboring amongst the neighboring congregations for the Endowment of Hope College. The whole amount subscribed up to date, outside of the city, is \$15,000.

At a late meeting of the Harbor Board, Mr. Schaddelee was appointed to enforce the collection of all moneys still unpaid on contracts for the sale of harborlands.

Overisel has held her Township caucus and nominated for supervisor C. J. Voorhorst; clerk, Fred Voorhorst and treasurer, G. H. Nijkerk. Hendrik Kok, the present incumbent will dispute the right to "oust" him.

The fire alarm on Wednesday evening was an unwelcome sound. It was occasioned by the burning of one of the chimneys of the Germania House, on Eighth street, and the fierce wind prevailing at the time, together with the close proximity of other frame buildings made the population rather nervous for a little while. However no damage was done, no damage was done, with the exception that it broke up a fine congregation in the First Reformed church that had gathered to hear the Rev. Mr. Steffens of Zeeland deliver a classical sermon. Engine No. 2 was prompt on the grounds—at the fire, of course.

The People's Caucus was held on Tuesday evening at the store of Messrs Roost & Son. Hon. J. Roost presided and Dirk M. Meengs scribed. The following ticket was nominated: Mayor, E. J. Harrington; Supervisor, G. Van Schelven; Clerk, J. Ten Eyck; Treasurer, D. R. Meengs; Marshal, J. Vaupell; School Inspectors, Profs. T. R. Beck and C. Doesburg; Justice of the Peace, G. Van Schelven; Aldermen for the several wards as follows: 1st, L. Sprietsma; 2nd, D. DeVries; 3rd, H. Boone; 4th, J. Kuite. The ballot

for Clerk was a tie between John A. Roost and J. Ten Eyck and was decided by lot in favor of the latter.

WHAT YOU SAW 25 YEARS AGO
Workmen have been engaged this week in setting telephone poles to connect the residence of Mr. B. Van Raalte, who lives about two and one-half miles east of this city with our exchange.

It is generally supposed that fish at this time of the year are free from grubs, but this is not so as was demonstrated last Thursday by Mr. Geo. S. Harrington who showed us a common sunfish that had been caught in the Bay, that was full of these detestable parasites. When placed under a magnifying glass the "grubs" resemble a common white dead wood grub and is not a very inviting animal.

This week Ald. R. E. Werkman bought the interest of his partners, H. and G. Van Ark, in the Phoenix Planing Mill.

Last Wednesday night at a few minutes before twelve o'clock our people were awakened by an alarm of fire. It was soon discovered that the "old Ferris mill" which was recently used by the Holland Butter Tub Company as their factory was in flames. By the time our fire department arrived at the scene nothing could be done toward extinguishing the fire and all stood and watched its rapid destruction. The mill and the machinery was the property of Ald. E. J. Harrington, who loses \$2,000; no insurance. The mill was unoccupied at the time and was evidently set on fire by some unprincipled person who deserves to hang.

Hermanus Broek the oldest son of Rev. D. Broek died last Sunday afternoon, aged 18 years of rheumatism of the heart, a disease which had troubled him for some time past.

Last Thursday evening the Democrats of this city met in caucus in Lyceum Hall for the purpose of putting in nomination men for the various city offices. The caucus was called to order and Otto Breyman was elected Chairman and C. Ver Schure Secretary. The meeting then proceeded with the nominations. On the first informal ballot it was evident that Mr. R. Kanter was the choice of those present for the nomination for the office of Mayor and on motion he was declared the nominee. Kommer Schaddelee was then nominated by the caucus for Supervisor and accepted the nomination in a very neat little speech

The balance of the ticket is as follows. Treasure, C. Ver Schure; City Clerk, Peter Boot; Marshal, Frank Van Ry; School Inspector, full term, E. Vanden Berg, Dr. H. Kremers; School Inspector to fill vacancy, G. T. Huizinga; Justice of the Peace, full term, Isaac Fairbanks; Justice to fill vacancy, John Roost. The caucus then divided and met in the corners of the room, each corner representing a Ward and the Ward caucuses were then and there held with the following results. In the first Ward, M. W. Ross was nominated for Alderman and Peter Van den Tak for constable. The Second Ward, for alderman, A. M. Burgess, Constable, F. Van Ry; Third Ward, L. T. Kanter for Alderman, and J. Stroop as Constable; Fourth Ward, Alderman, J. Kuite, Constable, R. Van den Berge. The Democratic City Committee as appointed by this caucus consists of R. Kanter, F. O. Nye, J. A. Roost, J. Lizman, L. T. Kanter, Dr. H. Kremers, J. Kuite and H. Schmid.

Fire! Fire! rang out through the night air Monday night, about midnight, and the usually quiet neighborhood at Olive Center was in an uproar at the sight of an immense light in their midst, which proved to be Carey's mill on fire. The mill had been running during the day and the usual care was taken by the proprietor at bed time, and all seemed right, but it is supposed fire got out in the engine room some way and the family were rudely but fortunately awakened by Joe Smith, who was working for Mr. Carey. He had been away during the evening, on his return the mill was all ablaze inside. The house being so near the mill it was impossible to save it, the windows were already cracking from the heat, and yet the family inside slept on, and only for the timely arrival of Mr. Smith they would have undoubtedly all perished.

The members of the life saving crew at Holland harbor, before entering upon their duties of the year, were mustered for inspection Wednesday before Capt. Robbins and the marine surgeon at Grand Haven, and stood their examination successfully. The crew is again in charge of Capt. Morton and composed of last year's members: J. S. Skinner, John H. Smith, Frank E. Smith, Frank E. Johnston, Geo. C. Robinson, Austin J. Fairbanks, Albert Tanner, Nicholas J. Whelan. The last named spent the winter studying law at

Valparaiso, Ind.

With Easter morning of 1894 will be chronicled in the annals of our city a fatal and mournful event—the death of four young persons by drowning. They constituted a hunting party that left their homes on Saturday evening late, in order to be on hand at daylight the next morning and shoot the ducks in their early flight.

The party comprised Charles Petrie, aged 30 years, his wife's brother Eugene McKay, aged 18 years, J. C. Schafer, aged 25 years and his wife's brother Irwin Thake, aged 22 years. Shaefer was employed at King's basket factory; the others at the C. & B. Tannery.

They left the dock here in two small boats and crossed to the north side of the lake, calling at Ed Scott's place and later at S. L. Strong's, east of Pine bay, where they took in some decoy ducks. This was at one o'clock Sunday morning, and the last that was seen of any of them. Their intention was to go to the bayou and land at what is called Frenchy's point on the northerly or easterly shore of the bayou after passing out of the Superior narrows.

SICK ALL WINTER

Suffered from Bad Stomach and Severe Cough—Doctored without benefit—Vermont Man was Finally

RESTORED TO HEALTH BY VINOL

"About a year ago I began to run down in health, lost appetite and flesh and suffered from indigestion. All the winter I had a severe cough I doctored without any benefit and finally my druggist suggested that I try Vinol. I did so and soon began to feel better. My stomach grew stronger, my food no longer distressed me, my cough disappeared, I began to gain in flesh and soon felt like a new man. I did not believe that any remedy could make such a change in a person." Edw. R. Wooster, Rutland, Vt.

Vinol contains tonic iron and all of the medicinal, body-building elements of cod liver oil, does not taste of the oil and is everywhere recognized as the greatest body-builder, strength creator known for feeble old people, delicate children, weak, run-down persons, after sickness and for chronic colds, hacking coughs and bronchitis.

Try it. If it does no good your money will be returned on demand. That's your guarantee but we know it will benefit any such case. R. M. De Pree & Co., Druggists, Holland.

A Printers' Wife's Revenge

Trouble between a printer and his wife some 328 years ago resulted in a historical typographical error.

In the famous library of Wolfenbittel, in Hease, is an old Bible which is greatly treasured, but until recently it was not generally known why it was so valued. The mystery has now been solved by the discovery of papers relating to it.

It appears that in that passage in Genesis where God tells Eve that Adam shall be her master and shall rule over her the German translation is "Und er soll dein Herr sein." "Herr," which means master here, does not occur in this Bible, but instead there occurs the word "Narr," which means fool.

The newly discovered documents say that the error was caused by a quarrel between the printer and his wife in the year 1850. The wife was vengeful and in the silent watches

of the night she entered the room where her husband had been setting type and maliciously changed "Herr" into "Narr."

The woman was afterwards imprisoned for blasphemy. Orders were given that all copies of this edition should be destroyed. This was done with the exception of the one copy now in Wolfenbittel library.—The Printing Trades News.

Reward of Merit

The unanimous nomination of Evart P. Stephan for mayor on the Republican ticket is a step leading to the endorsement of a worthy official and a recognition of efficient service.

To verify that "Abe" Stephan is worthy it is only necessary to go to the public records—not only for one year back but back as far as "Abe" Stephan's history as a public official goes. There you will find that he has stood in favor of the measures that were right and has denounced the things that were wrong. You will find that he has a record as good as that of any man who has ever occupied a chair in the Holland council room.

To verify that he is efficient examine the history of the hobo graft and look into the documents prepared by Alderman Stephan that led to its fall. Ask the taxpayer what benefits he has received from the fight that alderman Stephan led against the old hobo system and from him learn the true test of a public servant—the saving of the people's money. Come down to a later date and see the clean cut business like measure proposed by Alderman Stephan in asking for an audit of the city books.

Mr. Stephan is a business man. He is a business man of the practical type, one who will not bend his energies toward amassing a big surplus to be on exhibition at the end of his administration, at the expense of public improvements. He is not the kind of business man to think that because the books of the city are satisfactory for one year back that they must necessarily be so for twelve years back. With a man of Mr. Stephan's caliber in the chair the people of Holland would be given the proper information concerning the use of their money. The city needs a business man in the mayor's chair.

The result of the coming election is more than a matter of politics; it is a question of civic pride. By completely endorsing Mr. Stephan at the polls next Monday the people of Holland will have done their duty by a man who has served them conscientiously, faithfully and well through a period of many years. After all it is efficiency that counts and not to reward such service as Mr. Stephan has rendered is not to recognize it.

Help Secure A Good Trophy

Next week a committee from the Hope College Athletic association will ask the Holland business men to help them in their efforts to secure a suitable trophy for the big cross country races that are to be held in Holland every year beginning this month. The present plans call for a large silver shield, suitably engraved, which will be held for one year by the team winning the annual race or until the trophy is won by some other team in the league.

The desire of the athletic association is to put up a trophy that will be worthy of Hope college and one that will be worth while for any cross country team to win. The more money that is contributed, the better the trophy and the better the trophy, the keener will be the competition and the greater will be the number of teams to enter.

These races will continue for a period of at least ten years. Each year they will be held in Holland, bringing from twenty to twenty five athletes to this city from neighboring cities. Besides being beneficial to those who compete they will bring material benefit to Holland in the way of outside advertising. These events will come to be looked upon as something belonging distinctly to Holland and the attention of the surrounding country will be centered upon them.

It has been suggested that if some one man should contribute a lump sum to the trophy subscription that such a contribution would be sufficient cause to warrant naming the trophy after him. However, in whatever manner the amount is raised, it should be a generous sum. Not only will a good trophy help Hope college but it will help every man who contributes to the fund.

Find the Right Man.

At the last session of the legislature a law was passed doing away with the old pathmaster system of caring for country roads and placing the care of highways under the supervision of the township Highway Commissioner. Not a few complaints have been received at this office from influential farmers who say that the new system is not as efficient as the old. They are dissatisfied with the Highway Commissioner, claiming that in most instances he is a man who has so much work of his own that he can not spare the time necessary to look after the highways. These farmers feel that a return of the old pathmaster system would bring about better conditions.

The News believes that the farmers are justified in their complaint, but at the same time we believe that the remedy lies with them.

The state legislature did not go into this matter of highway commissioners blindly and there must have been some good reasons for substituting the present system. It is natural for people to select men who have made a success of their own work to do public service and such men are apt to be too busy to do that work which falls to the lot of a highway commissioner without incurring private losses. The farmers should see that such is not the case. It is up to them to find a man capable of doing the work and willing to give it his undivided attention and then elect him to this most important office.

Amid all our questioning certain facts remain. We know that mother's love, the love of wife, of husband, of children and of friends is real. We know that some men spend their lives for a great cause, that some will die for the truth. Every day the press tells of some historic deed that reveals the capacity for heroic action that lies in all men. On every hand we see evidences of good will and kindness. No bitter experience, no misfortune, should blind our eyes to these great facts of life. On these we can build a faith that reaches to God.

Abe Stephan Nominated by Republicans

At the Republican city caucus held Friday evening, Alderman E. P. Stephan received the unanimous endorsement of his party for the mayoralty. The greatest peace and harmony prevailed at the caucus. Although C. M. McLean was mentioned for the run he pulled out of the contest and made a speech of hearty endorsement of

EVERT P. STEPHAN

Mr. Stephan, withdrawing strictly in his favor.

Upon his nomination Mr. Stephan was called to the platform where he made a strong and impressive plea for adherence to the principles of the Republican party, asking his friends to carefully weigh the qualifications of the candidates and not to vote for him unless they saw in him fitness and capability for the high office.

treasurers had an overwhelming majority in his candidacy for the nomination of city clerk. Out of a vote of 417 he secured 369. In the treasurer's race N. J. Youker and N. J. Essenberg were the only candidates and Essenberg was the successful man, receiving 277 out of 413 ballots. Neal VanderMeulen was nominated to succeed Justice of the Peace Kooyers.

Notes of Sport.

The last indoor game of the season was played between the Interurbans and the Ceresotas of Grand Rapids Friday night. The game ended in a tie with the score 9 to 9, it being called at the end of the ninth inning to allow the Ceresotas to catch the last car. Peterson, who opposed Sadler in the box, had the best of the argument all the way allowing but 8 hits and striking out 19 men. The Interurbans, on the other hand, secured 21 hits and 16 were put out on strikes.

The Interurbans close the indoor base ball season this year with a splendid record. They have lost but two of the seventeen games which have been played. The Valley City and the Nationals being the only teams able to turn the trick. They have scored 164 runs to their opponents 84. Following is their record for the season: Interurbans 15, So. End Athletics 7, Interurbans 13, Madison Squares 2, Interurbans 9, Ceresotas 7, Interurbans 19, Burton Heights 7, Interurbans 6, Nationals 6, Interurbans 4, Valley City 7, Interurbans 6, Nationals 0, Interurbans 17, Madison Squares 14, Interurbans 8, South End Athletics 3, Interurbans 4, Manhattans 3, Interurbans 14, Burton Heights 3, Interurbans 9, Star Clothiers 0, Interurbans 7, Garlands 4, Interurbans 5, Nationals 8, Interurbans 9-10, Zealand 15, Interurbans 9, Ceresotas 9. The team lined up as follows during the season: Schouten catch and manager; Peterson and Golds, pitchers; Van den Berg, 1b; Jarvis, captain and 2b; Batemia, 3b; Ray Peterson, 1s; Van der Hill, ss; Stewart, Houting and Patton, fielders.

Republican Nominees in Township.

The Republicans of Holland township met Saturday afternoon and nominated their ticket for the spring election. There was a large turnout 342 votes being registered.

Supervisor John Y. Huizenga was unanimously renominated. Clerk, A. VanderHaar; member of the board of review, John G. Witteveen and school inspector, John S. Brower all received endorsements for another run. Rokus H. Cook was nominated for Highway Commissioner to succeed Johannes De Haan and John P. Kleis was nominated for township treasurer, as John Klomprens has served the allotted number of terms.

The remainder of the ticket is as follows: Justice of the peace, G. J. Deur; Overseers of the poor, Phillip Heyboer, Albert Timmer; constables—George Sulker, Lambert Raak, Tom Vanden Bosch and Gerrit Riemersma.

Democratic Caucus

At the Democratic caucus which was held Monday evening Mayor Bruss was unanimously nominated for another term. Fred Zalsman was nominated for the office of city clerk and C. Blom will run for the office of city treasurer. Isaac H. Fairbanks for Justice of the Peace.

There was some difficulty in finding a man willing to make the run for the office of city clerk as nearly half of the voters present desired to leave that office blank.

The chief contests came in the ward caucuses. In the first ward Wm. O. Van Eyck received the nomination for alderman unanimously. Peter Smith was nominated for constable. In the Second, the battle between C. M. Phernambucq and Jacob DeFeyer ended in the nomination of the former for alderman and the latter for constable. Henry Hyma for alderman and M. C. Van Doorn for constable had no opposition in the Third ward and there was only one ballot necessary to nominate John C. Dyke for alderman in the Fourth. No constable was named. In the Fifth ward Otto C. Van Dyk was named for the aldermanic run. Louis Koeman went out for the constable's nomination at the last moment, and got it.

For Fourth Time

Because the demand and enthusiasm created have been so great the senior class of Hope college will present the play "Under the Spell" in Price's auditorium again on Saturday night. This will make the fourth time that the play has been given in Holland.

There is considerable expense connected with the production of this play and the students feel that it is encroaching upon their vacation time but they have finally consented to stage the play once more. This time the admission price will be 25 cents. Tickets are on sale at Hardies' and Vander Ploeg's.

About Letters

Many persons are under the impression that a letter once mailed is no longer the property of the sender but belongs to the person to whom it is addressed. This is an error. Under the postal regulations of the United States and the rulings of the highest courts in the land, a letter does not belong to the addressee until it is delivered to him.

The writer has a right to reclaim and regain possession of it, provided he can prove to the satisfaction of the postmaster at the office from which it was sent, that he was the writer of it.

Even after the letter has arrived at the office which is its destination, and before it has been delivered to the addressee, it may be recalled by the writer by telegraph through the mailing office.

The regulations of the Postoffice Department require, of course, that utmost care shall be taken by the postmaster at the office of mailing to ascertain that the person who desires to withdraw the letter is really the one who is entitled to do so, and the postmaster is responsible for his error if he delivers the letter to an imposter or to an unauthorized person.

The vital principal in our political system lies at the bottom of this matter. In this country the State is the servant or agent of the citizen, not his master. It remains merely his agent throughout the transmission of a letter. The state may prescribe regulations under which its servants may carry a message for the citizens; but it cannot shirk its responsibility to him.

One of the funniest things about a girl is how sweet she can look in the evening and how uncanny in the morning.

Every man who takes your measure does not make you a suit of clothes.

The fellow of whom everybody speaks well never gets very far in this world. It's the fighter who wins.

A man experienced in chasing a collar button is less amazed when he hears that the 500 buttons on the new feminine dress are not detachable.

NASAL CATARRH

Walsh Drug Co. Sells the Great Remedy that Cured Mrs. Karberg.

Here is a very simple yet wholly sincere statement of a Michigan woman who was cured by using Hyomei—the no cure no pay remedy for catarrh, asthma, hay fever, croup, coughs and colds.

"A bad case of catarrh was cured for me by the use of Hyomei. The trouble affected my head, nose and eyes, and was very annoying and disagreeable, and the cure, from the use of Hyomei was very gratifying. Hyomei has from me a strong recommendation and endorsement."—Mrs. E. Karberg, 5213 Kingsley St. Ann Arbor, Mich., Nov. 16, 1908.

Thousands of just such letters are in existence, and thousands more would be but for the desire to avoid publicity. If you have catarrh, bestir yourself, and drive it out of your system. Kill the germs. You can do that easily if you use Hyomei (pronounced High-o-me.)

It is a dry antiseptic and very pleasant air that, when inhaled, quickly relieves all forms of catarrhal inflammation, stops snuffles, hawking and blowing. The price for a complete outfit, including inhaler, is only \$1.00, at Walsh Drug Co.'s drug store.

STRAIGHT TALK

To Practical Farmers or those who intend to become Farmers

DO YOU KNOW that the FARM must be GOOD to begin with? Do you know that the best land is the cheapest in the end? From my experience as a practical farmer, I can demonstrate the superiority of a good farm, over a poor one; the farm that will support you, and the one needing your support.

Knowing this, does it not stand to reason, that those having good farms for sale, list them with me?

This is the reason why I have so many good farms for sale, and this is why those desiring good farms should come to me. Come and be convinced.

A MIX-UP IN THE DARK.

There was a dark spot surrounding the young man's left eye and various cuts and bruises were sprinkled impartially over the rest of his countenance. He walked as if his knee were stiff and he occasionally rubbed the back of his neck as if it hurt him.

"I'll bet," said his friend, after carefully studying him, "since you are six feet three, that the other fellow got the worst of it."

"He was over six feet, too," said the battered young man. "You might call it a draw unless you were particularly about fine points. Anyhow, he looks worse than I do. I—"

"Seems to me that for a man of peaceful instincts you've managed to do pretty well," said his friend. "I didn't think you lost your temper so easily. Still, in this hot weather there's no telling. What did you have against him? How did he irritate you?"

"It was howlingly funny," exclaimed the battered young man. "At the time, if any one had inquired, I might not have been of the same opinion, but time alters all things, you know, and the encounter was three days ago."

"His name was Timson and he came from Oshkosh, but in spite of those drawbacks he was all right—college man and all that. I couldn't hate him even though he did cast eyes toward Betty Haswich, who is the prettiest of the Haswich girls, and whom I rather like myself."

"We were down at Mrs. Haswich's cottage for the week end and Timson and I were given a room together. It was a large room with windows opening out on a balcony overlooking the lake and when you were in you sniffed lavender, and the chairs weren't spindly sticks that break if you look at them, but big fat ones with chintz covers."

"Timson had the luck to be the man on the spot when Betty Haswich and some others took it into their heads to go for a moonlight automobile ride. They said they were going to drop in on some friends 10 miles away and I knew what that meant—back not before midnight. Well, I talked with Betty's older sister and played a rubber of bridge and then went upstairs. I wasn't sleepy, for it was only 10 o'clock, but there didn't seem much to do. Funny, isn't it, how some persons always seem to keep things going and to make things interesting? That's why I like Betty."

"The moon was shining and it was hot, so I went out on the balcony for a smoke. You know how dark it is in the country even with a husky young moon working? Well, the grounds were full of shadows and everything was still and mysterious. After a while I began to grow drowsy from the effects of the moon and the quiet and the shadows, so I got to my feet and put my foot over the low sill of the window into the dark room. Then I stopped, for, just coming stealthily through the door, was a man."

"He too, stopped as my figure loomed up in the window. We might have been carved out of granite for a minute. I could hear him breathe—the deep breathe of a man who had been surprised. My heart thumped a little, too, for it isn't pleasant to run on a burglar. He hadn't made a sound coming upstairs or at the door. He evidently was an expert."

"I think we jumped at each other simultaneously. At the first grip I knew I had a fight on my hands that was going to be something good. I set my teeth and he gritted his, and we went at it hammer and tongs without a word of preliminaries. I found I needed all my breath for active service without wasting any on pink tea conversation."

"He smashed my eye, and I cracked the table and upset it. We fought all across and around that room with no regard for the furniture. Of course the noise was fierce and there were shrieks from all parts of the house. Presently, just as he was strangling me and I was yanking his hair out by the roots, everybody burst in upon us with lights, and some of the men pulled us apart."

"I wish you could have seen that room. Window curtains down, one chair smashed, the writing materials on the table scattered, the bed coverlet torn in two, the hardwood floor scraped and the rugs in hard knots. In the middle of the wreck and ruin were Timson and I, battered, bleeding, torn to pieces as to clothes, gasping like fish and trying to get at each other like two bulldogs!"

"Oh, it was very simple. The automobile had broken down, as usual, two miles from home, and the party had come in by the road at the back. Finding the house in darkness, they had come upstairs quietly. Their idea was not to disturb us. That is what Timson kept repeating pathetically—that he hadn't wanted to disturb me and so he had come in carefully. He is a thoughtful man, Timson. Of course he supposed I was asleep and the man climbing in at the window was a robber."

"Betty said we both deserved what we got for being such idiots. I'm terribly afraid that girl is a flirt, and doesn't care about either of us from the way she laughed. She hung to the door and simply shrieked. I'm going down next week to remonstrate with her for her heartlessness."

"Is Timson going, too?" inquired the friend.

"If he does," said the battered young man, "I'll finish him this time."—Chicago News.

Danger In Delay

Kidney Diseases Are Too Dangerous for Holland People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lunbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Holland.

Otto G. Van Dyk, retired farmer, 28 W. Eighteenth St., Holland, Mich., says: "I can say that Doan's Kidney Pills are the most reliable kidney remedy on the market to day. A short time ago I was suddenly taken with a sharp pain in the small of my back. I did not pay much attention to the pain at first but it gradually grew worse and finally constant. My condition grew so bad that I was unable to walk and I was in misery when a member of my family who had used Doan's kidney Pills with excellent results advised me to try them. A box was procured for me at Geo. L. Lage's drug store and I had only taken a few doses when the pains were greatly lessened. I continued using the remedy and gradually improved until I received a complete cure. I attribute my present healthy condition entirely to the use of Doan's Kidney Pills."

MAKE IT YOURSELF

There is so much Rheumatism here in our neighborhood now that the following advice will be highly appreciated by those who suffer:

Get from any good pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Kagon; three ounces Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery, and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

Resort Company Wins

The Macatawa Resort company scored a victory in the litigation over the control of the resort interests at Macatawa park through a decision by Judge Padgham, resulting in dismissal of the suit brought in the circuit court last fall by the Macatawa Cottagers' association, when an injunction was secured restraining the resort company from disposing of any of the property or assets.

The Cottagers' association some time ago secured control of the property through a clever cross deal in options put through by President Finley, who claimed that the affairs were run in a high handed manner. The resort company however, argued that under the new management the finances of the association did not show any prospects of repaying the money advanced in options of the syndicate headed by Swan A. Miller, and the bondholders took over the stock, formed a new company and agreed to assume all the debts of the company. A cry of fraud was made by the Cottagers' association in the transfer of the property, but the defendants' counsel denied this by raising the point that President Finley could bring no action in its name without the consent of the board of directors, which was never secured, and this plea was also sustained. The cottagers' counsel have filed notice taking the matter to the highest courts.

Marine

One of the first, if not the very first, iron ships built on the Great Lakes, was the man-of-war Michigan, which went into commission in 1842, and is still in existence, although she has since been converted into a school ship. Her most notable service was during the war of the rebellion, when in September, 1864, her officers were the immediate cause of a wholesale delivery of prisoners from Johnson island in Lake Erie being circumvented. The rebels operating from the Canadian shore, which was neutral territory, had succeeded in capturing a passenger steamer, which had touched at one of the ports on the north shore, and this was to be used for transferring the Confederates across the lake. The prisoners of which there were more than a thousand, were all officers, and had the plot succeeded would have given the Federal authorities a good deal of trouble. A general delivery of Confederate prisoners in Camp Douglas, just out of the confines of Chicago, was also to occur about the same time. Quite needless to add that the people of the North were thoroughly alarmed and greatly amazed when they learned what a narrow escape they had from this whole sale delivery of thousands of Southerners, who would have overrun Chicago and probably destroyed that city, this being the program.

SEVEN BILLION DOLLARS.

Hard For Human Mind to Grasp the Value of Our Farm Products.

The Secretary of Agriculture is authority for the statement that the value of the farm products of the United States aggregates the incredible and unparalleled sum of \$7,778,000,000.

The average man reads this statement and says, "Well, what of it?"

It is hard for the human mind to grasp the meaning of such a sum. Our ideas of wealth have developed tremendously in the last 20 years, but this amount is still far beyond our comprehension. It is only comparison that we can be brought to an appreciation of its stupendousness. Let us see what can be done to make it a little plainer.

Gold is the standard of measurement for money in nearly all the countries of the earth, but there is not enough gold above ground in the whole world to pay for this year's products of the American farms. Turn out the stocks of gold in all the mints, all the treasuries, all the banks, empty all the stockings, bring out all the hoards, from every land under the sun, melt down all the jewelry and turn it into coin or bars, give all to the American farmers and there would be still a balance due them. "Impossible," you say. Well, here is a fact that should clinch the other: All the gold that has been taken from the mines and the beds of rivers in all parts of the world since the discovery of America by Columbus, over 400 years, aggregates but a little over \$12,000,000,000, less than double the value of one year's farm products, this year's farm products, in America.

Talk about gold mines! Why, every farm in the United States is a gold mine. There are something over 5,000,000 farms in this country, and this year's product gives them an average income of about \$1,200. How many quartz gold mines will do as much? The total production of all the gold mines of the United States last year was a measly hundred million. The farmers gave us nearly 80 times as much.

But let us resume the comparison. The sum, remember, is \$7,778,000,000.

That is more than the total wealth of the United States in 1850—real and personal property, money, bonds, stocks, everything all added together didn't equal the value of last year's crops.

That sum is more than the entire present wealth of the countries of Belgium, Spain or the Netherlands.

It is one fifth the total wealth of the great empire of Russia.

It is more than the value of all the real estate in the state of New York, including New York City, where land is more valuable than any other place on earth.

It equals the total annual revenue of all the nations of the earth.

It is nine times the total capitalization of all the national banks in the United States.

Getting nearer home, it is more than six times the valuation of all the taxable property in Missouri, real and personal.

It is 15 times the valuation of all the taxable property in the City of St. Louis.

It is more than the aggregate valuation of all the taxable property, real and personal, in the states of Missouri, Illinois, Indiana, Ohio, Iowa and Kansas.

Now, perhaps you begin to realize that \$7,778,000,000 is a whole lot of money. But these facts, impressive as they are, rather stun than enliven the imagination. Suppose we take another tack.

We are all familiar with dollars, single dollars or silver or paper. We have them in our hands occasionally, for fleeting moments, and we count them, perhaps, as they fleet. Suppose we were to sit down to count this \$7,778,000,000, a dollar at a time, how long do you suppose it would take us? Well, if one man tackled the job and worked 12 hours every day, including Sundays and holidays, counting a dollar a second, and never stopping for meals, it would take him just 490 years. By that time, no doubt, he would be tired. If, to take another point of view, he had commenced to count in the year that Columbus discovered us, he would be counting yet.

Suppose, again, we had all this money in silver dollars and should lay them down in a single line, each dollar touching its neighbors on either side, how long a line would it make? Figure it out for yourself if you like that sort of thing. A silver dollar is an inch and a half in diameter, and so all these dollars would stretch out to 11,669,000,000 inches, which is 184,151 miles. It would wrap seven times around the earth at the equator and have enough left to finish up with a bow knot. If we did the same trick with paper dollars we could have a nice, green carpet 9 feet wide stretching clear around the globe.

Again, if we could take the silver dollars and stack them up one on top of another in a single column, it would rise to the height of 9,820 miles. The highest mountain in the world is only a little over five miles high. Or we could take these silver dollars and stack them up in columns 6 feet high, and make a solid silver fence 206 miles long.

Now, just one point to illustrate the purchasing power of this amount of money. This \$7,778,000,000 would buy a \$3,000 home for every man of voting age in the states of Missouri, Illinois and Kansas.—St. Louis Globe-Democrat.
