Holland Census Enumerators Are Appointed

FIVE FROM THIS CITY WILL DO THE WORK IN SIX WARDS

Three Women and Two Men Will Begin Work Next Week

The News has been advised that five census enumerators have been appointed for Holland and these will get busy next week, spending the next two or three weeks tabulating at least 16,000 names and asking ever household an endless lot of questions. But remember they are all pertinent questions and every enumerator has the right under the law to ask them for, remember, they are Uncle Sam's officially appointed officers and they are given authority to make the necessary inquiries so that the population of the entire nation may be known.

There are three women and two men in the list given in the Holland by Mr. George E. Fritz of the 7th Michigan district with headquarters at Grand Rapids and the appointees are the following:

Mrs. John Rozboom, 236 W. 16th Street.

Mr. Gus L. De Vries, 7 E. 21st Street.

Kathryn J. Elbers, 350 Maple Avenue.

Alderman Andrew Hyma, 349 Pine Avenue.

Mrs. Dena Nykamp, 38 W. 21st Street.

Other enumerators appointed in this vicinity are the following:

Park and Port Sheldon Township comprises one district and the appointment is George Straight, R. No. 6, Holland, Michigan.

Oliver Township, Charles Bartels, R. No. 2, West Olive, Michigan.

Markus, Vinkemulder, R. No. 2, West Olive, Michigan.

Zeeland Township, outside of the city of Zeeland, Adolph Seekman, Zeeland, Michigan.

Zeeland, Michigan, James S. Van Volkenburgh, Zeeland, Michigan.

In Allegan County, in the townships near Holland, the following appointments were made:

Fillmore, Henry J. Kleinhekel and John Fairbanks.

Lakewood, Wm. E. Bjork.

Lee, Samuel Daves.

Manlius, W. Haverdink.

Overisel, Henry Rietink.

In Allegan city the following enumerators have been named:

Mrs. Alvin E. Fox, Mrs. Lillie Stuch and Mrs. Blanche Gray.

Mrs. Dorothy Wolbert was named in Saugatuck and Elkannah S. Johnson in Ganges.

Tonight the enumerators of Holland and vicinity are meeting with Mr. George E. Fritz at the Holland City State Bank building in order to get lined up and receive a schooling in this tremendous work.

There are many questions to be asked is evident from a recent report sent out from Washington, D.C., which follows:

This spring it will be ten years ago that the national census was taken and the 1930 census enumerators all over the country will soon be asking folks a great many pertinent questions that will be considered by many impertinent. They will be quizzed about their age, color, how often married, etc., etc.

Here are the questions you will be called upon to answer when the Holland enumerator for the 1930 census calls upon you.

1. Relationship to head of family, including a statement as to the homemaker in each family.

2. Whether home is owned or rented.

3. Value of home, if owned, or monthly rental, if rented.

4. Radio set?

5. Does this family live on a farm?

6. Sex.

7. Color or race.

8. Age at last birthday.

9. Marital condition.

10. Age at first marriage.

11. Attended school or college any time since September 1, 1929?

12. Whether able to read and write?

13. Place of birth.

MOTHER TONGUES

14. Place of birth of person's father.

15. Place of birth of person's mother.

16. Mother tongue of each foreign-born person.

17. Year of immigration to the United States (for foreign born).

18. Whether naturalized (for foreign-born).

19. Whether able to speak English (for foreign born).

20. Occupation of each gainful worker.

21. Industry in which employed.

22. Whether employer, employee, or working on own account.

23. Whether actually at work (for each person out of work, additional information on special unemployment schedule).

24. Whether a veteran of the United States military or naval forces; and for each veteran, in what war or expedition he served.

New questions are those relating to the value or rental of homes, to age at first marriage, employment and radio sets.

CLASSIFY FAMILIES

The data on homes, Mr. Fritz pointed out, "will make possible a classification of families according to economic status." The replies will be used only as a basis for classification into broad groups, and like all other replies, will not be made public in individual form, Fritz emphasized.

The age at first marriage date will serve two purposes, according to Mr. Fritz. First, it will give definite information as to the relative age at marriages of persons in different racial and economic groups. It will also yield important data

FORMER HOLLAND LADY OF 90 SUFFERS STROKE

Mrs. H. Bos, who is past ninety year old, suffered a stroke on Monday at Grand Haven and her condition is said to be critical. Mrs. Bos is the mother of Mrs. John Den Herder, wife of the county treasurer, with whom she makes her home. She is a former Holland woman but moved to Grand Haven when Mr. Den Herder took up the county treasurership.

COUNTY CLERK IS MADE MAJOR

Capt. William Wilds, an officer in the Officers Reserve Corps, has received his commission as major, the appointment having been made on March 18 by official order of the president. Major Wilds has a long record as a military man and his promotion was learned of by military men and friends with satisfaction. "Bill" is entitled to this much deserved promotion and the News sends congratulations. Mr. Wilds is able a county clerk as he has been a soldier.

DEATH OF AGED WIDOW REMINDER OF PIONEER DAYS

Mrs. Mary Sooter, age 88, for 50 years a resident of Holland, died Wednesday in the Brown home, 1435 Fulton street, E. Grand Rapids, where she lived the last five years. She came to this country from the Netherlands, where she was born, when she was a child.

Surviving are two sons, F. B. and F. A. Sooter, both of Grand Rapids.

Funeral services will be held at Van Strien's mortuary, Grand Rapids, Saturday at 1 p.m. The body will be taken to Holland and buried in the family lot in Pilgrim home cemetery.

The Sooters lived on East Eighth street for many years. Mr. Sooter built the brick building at the northeast corner of Columbia ave. and Eighth street and was a broom maker for some time. W. H. Beach owned the building for many years, in fact, Mr. Beach and Mr. Sooter built the building jointly.

Capt. Frank Sooter, the late husband, sailed the "lumber hooker" Arrow, a two masted schooner from this port. He was also 1st mate under Capt. "Baz" Van Ry on the "Kanters," a larger sailing vessel.

Capt. Van Ry was the father of Chief Van Ry. Capt. Sooter owned the "Arrow" jointly with the late Jacob Kuite. Capt. Sooter has been dead for several years.

HOLLAND C. OF C. SEEKS 400 TOTAL

The Holland Chamber of Commerce has set its goal at 400 members for 1930. The roster now lists 320. Secretary Charles A. Gross has announced May 19 as the tentative date for launching the community chest campaign. A budget of about \$2,000 will be spent this year to advertise Holland as a resort and tourist center and feature the tulip time celebration.

HEAR! YOU ARE CALLED!

"Hear! You Are Called! Answer that Call!" On this subject Rev. C. P. Dime of Trinity Church will preach next Sunday evening. This is the third sermon of the Sunday evening series, "Earnest Appeals to Sinners." The service will begin at 7:30 o'clock. The choir will render appropriate music. In this sermon the pastor will call attention to the fact that God is ever calling us to come to Him now while the time is opportune. The tragedy of life is that so many do not heed God's call. You are cordially invited to come to church Sunday evening. Non-churchmen are especially invited to attend Trinity Church next Sunday.

LARGE MEN'S CHORUS TO SING AT SIXTH REFORMED CHURCH

Next Sunday evening in the Sixth Reformed Church located at Lincoln avenue and 12th street the Men's Chorus of this church, consisting of about thirty-five voices, will sing for the first time in public at the evening worship. This chorus was organized last fall of men of the congregation and has met every week for rehearsal under the leadership of John Vander Sluis. They are preparing an Easter cantata to be given on Thursday evening, April 17th. They will lead the song service next Sunday evening and sing a few familiar old Gospel songs as specials. There are about thirty-five men in this chorus. The topic of the sermon of Rev. J. Vanderbeek, pastor of the church, will be, "Putting on the New Man."

on the size of families based on the number of children reported in families of women who have married a stated number of times.

The data on radio sets will give a direct answer to the moot question as to the size of the potential radio audience.

40 QUESTIONS OFFERED

Women doing housework in their own homes, or supervising such work done by servants, will be designated as home-makers. This is a compromise with the former procedure, by which such women were listed as without occupation. The homemaker designation, however, will be entered in the family relation column of the schedule, so that women who, in addition to being homemakers are gainfully employed, may be properly classified in respect to both lines of activity.

Charles Gross, secretary of the Holland Chamber of Commerce, urges that all the local manufacturers fill out their questionnaires. A questionnaire was mailed to every local manufacturing establishment in January or February and is to be returned in the same envelope sent with it.

A Six Weeks' Tour Over Land and Sea

DR. BROWER TELLS OF HIS TRIP IN THE WEST INDIES AND CARIBBEAN SEA

MARTINIQUE

At every port we docked, or anchored in the harbor, we were always met and entertained by the diving boys and girls. We have watched them at every port. Some of them were clumsy, black, beastlike creatures tumbling into the water after a coin. We often marvelled that they got the shiny little pieces of silver tossed to them, so many times. It sometimes seemed like an accident that an untrained awkward dull negro should manage to get the coin for which he was aiming. Others were very graceful and alert, what a contrast! Some high-strung bronzed athletes. Some were gliding fish-men who dove into the swirl of the waters and swam along the ship's side long before we had dropped anchor. Imagine them keeping this up all day. As many as 5 to 15 diving from all angles after one coin. We could see them 15 to 20 feet down in the water. All soles of feet up, which were almost white, and the rest of the body coal black. A most unique sight. Always some one would have the coin before it reaches bottom, and carry it in mouth. They have eyes wide open under water, salt water at that, for they must see the coin in order to catch it.

We now arrived at Martinique island, situated 30 miles south by west of Dominica. A French colony, area 380 square miles, surface rugged and mountainous, the slopes in most parts covered with forests. Valleys are very fertile and about 80% of the land is under cultivation. The chief products are sugar, molasses, cocoa, cassia, coffee, limes, gum, tropical fruits. We were scheduled to land at St. Pierre but on account of the port being closed, due to excessive activity of Mount Pelee, we were wirelessly that we could not stop there to view the ruins of the once most beautiful and prettiest city of all the West Indies. We sailed around it and saw the volcano in the distance. I for one, was glad we were not allowed to land at this point of the island. Altogether too dangerous and uncertain. I remember very well what Stambold did in 1928 when we sailed through the Dardanelles on our way to Constantinople. It was then in eruption. We sailed around it at night, most beautiful fireworks but very treacherous. I can not forget either what Vesuvius did when some of us were going to go part way within the crater. The volcano is nearly always active, ever since 79 A. D. when it completely destroyed Pompeii. Pompeii was laid more than 20 feet under its ashes and not until 1748 were excavations made and walk through the streets of this ancient city. 2,000 people perished at that time. In 1631—3,000 were killed, and in another outbreak in 1872, 20 were killed.

St. Pierre now lies in ruins, due to the volcanic eruption of Mt. Pelee, not a building escaped and fully 40,000 persons instantaneously lost their lives through asphyxiation or burning, many ocean liners and boats that were in the harbor were also destroyed, practically a repetition of Vesuvius, even worse than that ancient catastrophe. Of all those actually in St. Pierre at that time only one man escaped, a criminal in a condemned cell. This jail was situated with its back to the volcano and being of massive stone and rock, windows facing seaward, neither flame nor ash could enter. By the way, as we go through history, it has often happened that there is some lone unfortunate eye witness, like the Indian guide of General George Custer in Montana. We visited the Custer Battlefield last summer and noticed how the field was dotted with markers at the very spots where each and every one of Custer's men fell and died, on June 25, 1876, the most memorable and tragic Indian battle ever fought in the West.

General Custer with a brother, also an officer, and 212 troopers were attacked by 5,000 Sioux Indians commanded by Sitting Bull, as they were fording the Little Horn River in an attempt to reach the Indian encampment on the other side. Only the Indian prisoner of Custer lived to tell the story. There was no surrender, every man died fighting.

Thus great tragic prominence comes to places like it also came to Martinique in 1902. The ruins of this old capital are therefore one of the points of interest for tourists. We sailed on to the new capital, Fort De-France, a splendid city located on a fine harbor. It is defended by three strong forts and contains the government buildings and many fine villas and near it the old

Mr. and Mrs. Peter Wilms, River street, lost their oldest boy, Harry, through lung fever. Note: It wasn't called pneumonia in those days.

Among the approaching weddings we can mention Mr. Albert Bloomers with Mrs. T. Schaap also Mr. Otto J. Schaap with Miss Alice Dalman.

The News has been calling attention repeatedly that Holland should have a colonial fair instead of these "Market Days" accompanied with their drunken brawls. It appears now that Holland folks are beginning to take a fair for this community seriously. The News promises its whole-hearted support. Note: Holland did have a fair four years later located at the west limits of this city.

Twenty-five YEARS AGO TODAY

Another new factory will be built in Holland, the News is glad to relate. The men back of the enterprise are G. J. Schurman, George Schurman, Jacob Heeringa, Wm. Beekman and Edwin Heeringa. These men have formed a co-partnership for the purpose of manufacturing tea rusk. The name of the plant will be Michigan Tea Rusk Co. The factory will be located on what is known as the Derks property on East Eighth street and will be 23 x 65 feet. The machinery and ovens have been ordered. Note: This plant has long since outgrown the small plant and a new factory building very much larger was built near the west limits of Holland. The older men of the organization have passed on, however Geo. Schurman and Edwin Heeringa are still identified with the enterprise.

Benj. Neerken of the First State Bank has been selected as cashier of the new Zeeland Bank.

A marriage license has been issued for Jake Dykstra of Grand

Rapids and Lukje Volkema of Holland. Both are 57 years old.

Ex-governor Cyrus G. Luce of Michigan died Saturday at 81. He was known as the "farmer governor."

Tony Vander Hill will get \$200 per month for playing ball with Joplin, Mo., quite a salary. Note: "Tony" passed on about six years ago. He was the greatest "back stop" ever turned out from Holland and caught here when Neal Ball had his famous team in this city and the Ball Park was at 16th and River.

Johannes De Loof, father of deputy Marshal Leonard De Loof died at Grand Rapids.

FIFTEEN YEARS AGO TODAY

Arrangements are being made for a Lincoln Chautauqua for August. John Vander Sluis and a group of men are behind the enterprise and the proceeds it is thought would go for a Y. M. C. A. The tent will be pitched at Fifteenth and River Ave. (where Junior High is located).

Twenty-two horses owned by Seth Nibbelink were in a bad freight wreck near Carnovia. A car load of other horses in the shipment were all killed. Those belonging to Mr. Nibbelink came out of it unharmed.

The body of 12 year old boy Arie Doctor who lost his life going through the ice on January 15th off Pine Creek Bay was found nine weeks later by Frank Van Ry, Jr. and constable Herman Beekman. The young men started out with a launch taking with them the grapplings from police headquarters. They were unsuccessful however, but when going for shore they discovered the body a short distance from the beach. There had been weeks of searching in which Dick Homkes and the father of the boy also participated constantly.

The Department of Conservation through its officers and contracts with individuals, removed 27,610 noxious fish from rivers and lakes in Michigan during the year 1929, according to a report compiled by the fish division.

The report shows that 11,751 carp were taken; 3,727 garfish, 495 dogfish, and 10,637 miscellaneous other noxious fish.

Sparring under the supervision of the conservation officers brought a total 1,285 noxious fish, the report indicated while use of gill nets operated by the department removed 5,682 noxious fish from the water.

FIRE RAVAGES ROTTING HULK OF "AURORA," DEFUNCT BARGE IN GRAVEL CO'S SHIPYARDS

The old derelict, "Aurora," a gravel barge which has been lying at the Construction Materials shipyard at Ferrysburg, for the past three or four years, burned to the water's edge from the bow to amidship today, occasioning a small loss.

Sparks from the derrick and dredging saw are supposed to have originated the fire, which broke out on Monday several times but which was subdued by water from the tug, Johnson.

At four a. m. today fire again broke out and it was not until about half the old hulk was burned that the fire was put out. Some chain and machinery were housed there. This was not damaged so the loss is negligible.

The Aurora is said to have been an old salt carrier sailing out of Ludington.

HOLLAND GUN CLUB TO SHOOT IT OUT WITH GRAND HAVEN

The target range located just north of Ferrysburg, which was inaugurated last year will be opened for rifle practice on April 1. It will be in charge of Ben Rosema, and the Grand Haven men, entitled to use the range, are anxious to get out, that they may again test the accuracy of their shots.

They will receive special instruction this year from Capt. Lester Webb, U. S. A., who has been in the first time regular army officer has been detailed to any section of Western Michigan outside of Grand Rapids.

He has recently come from Panama and he will serve companies at Holland, Kalamazoo, Big Rapids, Muskegon, Ionia and Grand Haven. The rifle range will be improved somewhat by an extension of concrete walks and further excavating. Holland Gun club will "shoot it out" with Grand Haven often this summer.

nothing about staying there one and a half years. Big war boats look like cocoanuts in comparison, but the rock is so steep and high, almost perpendicular. From this commanding position they harassed the French fleet all this time until June 1805 when through want of powder they were compelled to surrender to a French squadron of more than a dozen ships, upon which they inflicted severe loss, wounding 70 men and destroying 3 gunboats while they themselves lost only 2 men killed and wounded.

Now just use your imagination a little bit: This was rock, a rock island, not earth, no place to dig a well to get water to drink, all provisions had to be hoisted up there by ropes. They had no machinery like we have now. The sides do not slope but are straight up several hundred feet.

I can compare it very favorably with the National Monument called the Devil's Tower at Sundance, Wyoming, which perhaps many of my readers have visited. This is a volcanic rock 800 feet high with nearly vertical sides, the lava plug which once filled the crater of an ancient volcano. It has been scaled by one man and a woman, and the workers months before doing the extremely dangerous feat. Here is a lesson, "Where there is a will there is a way." "I can't do nothing, I'll try does wonders," I will, does everything."

Next week we will describe the Barbados.

During the British-French war of 1804, the British continuously noticed that the French boats were escaping between the rock and the main island of Martinique. So the British landed 120 men and boys and ammunition provisions and water, and they remained there for nearly 18 months. Looking at the rock one would think nobody could land or live on the rock, saying

half-castes of various grades. Farther on, off the southwest extremity of Martinique, we sailed close by the historic Diamond Rock. I took several pictures of it. Little rock rises from the sea like a little haystack, becoming very big as we came closer. This rock was named in 1804 by English sailors who hoisted a cannon to its summit and harassed the French ships as they passed to and from Fort Royal. Every Englishman who knows the history of this rock gazes upon it with pride.

The plantations in the interior are very attractive and explorations in the forests are of considerable interest to strangers: there being good roads and bridge tracks

house in which Empress Josephine was born. She spent the first 15 years of her life here in a local convent.

Josephine became the first wife of Napoleon Bonaparte, a Corsican by birth.

She was a Creole and born on this island of Martinique. A peerless white statue stands in her memory in a beautiful park, her head turned towards Trois Ilets across the Bay where she was born on June 23, 1768. This memorial is surrounded by beautiful, stately Royal palms and well kept.

The natives were mostly good looking blacks, of all shades. They wore characteristic head gear made of cloth, much like the turbans of the Palestinians, short sleeves and short dresses among the women, with strings and strings of beads made of all manner of native seeds. This is the best place of all the West Indies Islands to buy beads. Beads sold in Havana or Colon of this type are all made here.

The island was discovered by Columbus in 1502. We visited the Post Office and the Library called the Bibliothique Schoelcher.

It is probably less disturbed by hurricanes than most of them. The majority of the population today consists of Creoles, negroes and

The village blacksmith hammer-

the radius of his public service was

wagon-riding community. He could

the number of people coming to

limited service.

The discovery that developed the
modern era out of the start fur-

was that the proportion of brains
to muscle could be changed. A re-
sourceful brain could be used to
direct a lot of muscles. It was this
discovery that enabled millions to
live in greater comfort in a given
area than was possible for thou-
sands in the wagon-riding age.

Quick brains have been given en-
larged scope for activity. They are
served by lightning and by wings.

What would the village black-

Federal Reserve Advances
Russia Answers the Pope
In A. D. 1001930

Gangsters, Cruel, Silent
Los Angeles.—The federal re-
serve chief tells business to go
ahead boldly, showing more initia-
tive and less hesitancy.
Excellent advice. Business will
advise the federal reserve, when
and if prosperity booms again, to
be less enthusiastic about promot-
ing usury, and run the federal re-
serve more like a banking institu-
tion, less like a pawnshop.

Reserve board financiers that
forced 15 to 20 per cent interest
rates, handing hundreds of millions
to money lenders and adding thou-
sands of millions in value, tempo-
rarily, to inflated bank stocks, need
advice as much as any business
man needs it.

Russia, inflamed by the pope's
protest against atheistic propa-
ganda, retaliates in vindictive fan-
tasy. In the Minsk district a fund
is started to build an airplane pre-
sumably for war, to be called "Our
Answer to Pope Pius." And from
the Veronesi district workers send
to the industrial fund at Moscow
ten cartloads of church bells, sacred
images, crucifixes, etc., to be melted
down. That shipment is called "an
answer to the pope."

One item of news will be remem-
bered a million, and ten million,
years hence.
Nothing else in our age will be
of the slightest consequence, even
100,000 years from now.

The news that will outlast reco-
lection of this age of industrial and
financial barbarism is the discovery
of another planet in our solar sys-
tem, sailing around outside the orbit
of Neptune.
Earth dwellers in the year one
million nineteen hundred and thirty
as they converse in the ozone area,
thirty miles above the earth, will
wonder how such primitive beings
as ourselves could have discovered
that planet.

Similarly, we wonder how primi-
tive cave dwellers could have made
those interesting pictures of their
necromancers and horses.

Gangsters are not kind to each
other.

John ("Billiken") Rito, described
by police as "a bootleg racketeer,
member of the "Bugs" Moran gan-
gster in the morgue. Wires with
which his arms, hands and ankles
were bound when he was taken out
of the Chicago river have been re-
moved. The police wonder who
burned the tips of his fingers in
the process of torturing him before
he was murdered, and why they did
it. They will never know.

Golf links, daily dozens, radio
setting-up exercises and other de-
vices are designed for the man who
leads a sedentary life physically.
Edison wants to know: "What
about the man mentally sedentary
and inactive? Who will plan some-
thing for him?" Many millions need
to be called early on the radio with
the question: "How long is it since
you have exercised your mind? How
much reading worth while do you
do, and how much do you think as
you read?" It is mental, not phys-
ical, inactivity that burts a nation.

The Union Pacific railroad has
bought \$500,000 worth of the new
motor omnibuses. Railroad men
have passed the phase of contempt
for automobiles. The Union Pacific
will use 22 new omnibuses between
Chicago and Los Angeles, 11 be-
tween Portland, Spokane, Boise and
Salt Lake City.

Many more railroad omnibuses
will be bought when railroad flying
machines carry all the long dis-
tance passengers, and busses carry
most of the short haul.

What people think decides what
they are. Prosperity is to a consid-
erable extent a matter of psy-
chology.

Once a man was fastened in a
chair, his feet put in warm water,
and as a practical joke he was
shown a razor of which the blunt
end was drawn across the soles of
his bare feet. He was told, "You
will bleed to death painlessly in
this warm water." He didn't lose
a drop of blood, but he died.
Don't let prosperity die in that
fashion, killed by imagination.

Mr. Edison is hopeful about a
rubber supply from goldenrod.
Chemists who think it ought to be
done by some synthetic process and
victims of hay fever are less opti-
mistic.

The great inventor, eighty-three
years old, says he wants only five
years more to finish this job, and
doesn't ask to live one hundred
years.

The death of Primo de Rivera,
former Spanish dictator, killed by
heart disease, reminds you that be-
ing dictator is a wearing job. It
takes such a man as Mussolini to
stand it a long time.

The Italian ruler establishes a
"minor" class of citizens, not
obliged to enter the Italian army.
This is planned to keep Italians
in foreign countries interested in
Italy.

President Hoover, like a good
family doctor for the nation, says
nothing or says things that are en-
couraging. There is a great deal
of value in that.

Buy what you want, bargain;
with a good automobile; buy it now
and then enjoy it now. Life does
not last forever. Keep it hot,
and full.

LOCAL MEN ATTEND BANKERS' CONFERENCE

Henry Winters and Carl A. Fors
of the Peoples State Bank and Wy-
nand Wichers of the First State
bank are representing Holland at
the Midwest Regional Savings con-
ference which is being held in De-
troit this week Thursday and Fri-
day. The purpose of the meeting is
to look into the matters of the pre-
sent economic situation. Savings, for
the first time in 20 years, showed a
decrease whereas in the past they
formerly showed a healthy increase.
This fact means that the present
banking concepts are due for revi-
sion.

SUCCESS OR FAILURE
Is your seeding of clover or alfalfa insured through
the application of SOLVAY PULVERIZED
LIMESTONE?

Often loss of seedings of clover and alfalfa is attrib-
uted to "dry weather", when it is really due to a
lack of limestone in the soil. Avoid this experience.

Apply SOLVAY PULVERIZED LIMESTONE
which, because it is finely pulverized and furnace-
dried, gives results the very first year. Field tests
have proved it is still effective twelve years follow-
ing application.

Hope College News

As far as is now known by the
committee in charge, Dr. Frederick
F. Shannon of Chicago, Illinois,
noted clergyman, will deliver the
baccalaureate sermon to the class
of 1930 this June 15.

Hope college has always been
particularly fortunate in being
able to secure men for her Com-
mencement Week exercises who
are of such high calibre as to make
the occasion of their appearance
an outstanding event. The speaker
for this year carries out this estab-
lished precedent.

Recently Dr. Joseph Sizoo, now
pastor of the New York Avenue
Presbyterian Church in Washing-
ton, D. C., came to Holland to talk
to the graduating class of that
year.

Dr. F. Shannon was at one time
pastor of the Reformed Church on
the Heights, Brooklyn, N. Y., a
pulpit now filled by one of Hope's
own graduates, Rev. C. Muste.

Dr. Shannon's appearance in
Holland has always been the cause
of great gatherings of people who
come to hear this leader of Amer-
ican Church endeavors. Since 1911
he has been the author of many
religious volumes, including "God's
Faith in Man," "The Land of Be-
ginning Again," and "The Unfath-
omable Christ."

Immediately after the vacation
has passed the associate editors of
the Anchor will begin laying plans
for the compilation of a special
issue of the campus paper, to be
labeled a "Fun Issue," or some sim-
ilar title. This extra number will
come out in booklet form and will
feature cartoons, pictures, humor,
poetry, and stories. All the best of
the college's literary ability will
be asked to work towards the con-
struction of this booklet. The volume
will be issued about May 1, according
to tentative plans of the staff. It is
their intention to increase the stu-
dent appreciation of campus liter-
ary possibilities, and to add to the
student appreciation of the Anchor
as an outstanding college publica-
tion. Humorists and artists of abili-
ty on the campus are expected to
express their views on the matter.

From time to time the Home
Volunteers are privileged by hav-
ing noted speakers address them.
At this week's meeting they will
act as host to the Student Volun-
teers and all others interested in
the work of the church.

"Triple Action"
Gets the Dirt

"Triple action" (rapid sweeping—thoro beating—
powerful suction) loosens and gets the embedded dirt, sweeps
up the lint, threads and hair, thoro cleaning long or short
nap rugs.

Was \$62.50 — NOW \$39.50

— and this is the identical motor-driven beating brush cleaner that
previously sold at \$62.50. This sensational price reduction is made
by eliminating the tremendous expense of factory-trained agent su-
pervisors and agents.

This cleaner is so easy to operate—light in weight—ball-bearing
motor requiring no oiling—designed to get in corners and under
furniture—it runs quietly—it glides without effort.

28% More Dirt

In tests made by Modern Precilla Proving Plant, this Hamilton Beach
cleaner removed 28% more dirt than the average removed by 14 other
cleaners previously tested. Good Housekeeping Institute says about
this cleaner, "particularly effective in picking up threads and lint."
Every Hamilton Beach cleaner is backed by a 127 year old,
\$13,000,000 company—and a 2 year guarantee. Over 1,000,000
Hamilton Beach appliances now in use. Ask the users.

We shall be glad to let you try this cleaner in your home or on our
special demonstrating tables in our store.

There is no better cleaner made—regardless of price. We respect-
fully invite comparison.

New Brunswick Theological Semi-
nary will speak at the meeting.
His theme, an interesting one, will
be "Fore-Warned."

During the first days of next May
the annual "Music Week" will be
celebrated throughout America.
Colleges and universities usually
devote their efforts to making this
a real celebration. It is the inten-
tion of Hope College to do the
same.

Prof. C. Snow is interested in
making this year remembered by
some sort of "May Festival." He
would like to have the various mu-
sical organizations of the city unite
to give a series of concerts during
the week. As for talent, we need
not look very far for with the Civic
Chorus, the Public School Chor-
uses the Chapel Choir, and the two
Glee Clubs—what is there to pre-
vent us from having a "Music
Week" which will be comparable to
that of any other city? Further de-
tails will be developed after the
spring vacation period.

Cooking School So Crowded Had to Change to Armory

Tuesday one of the worst storms on record caught the entire Middle West in its grip. It had the appearance of an inauspicious day to open such a venture as a cooking school, particularly in a city like Holland where home-makers have some reputation as cooks. At ten minutes before starting time there was a meager attendance in the hall but no one expected more. To the great surprise of every one concerned, by the time the first session was in progress the room was comfortably filled. Mrs. Florence Quigley, Home Service Department of the Tappan Stove company, who is conducting the course expressed her gratification that the crowd was as large as it was.

Her lecture and demonstration pleased the audience greatly, its interest was evident by the many questions that were asked.

The second day many people who were a little late were disappointed by finding no room. It immediately became evident that larger quarters would have to be found and through the courtesy of Capt. Geerds the equipment was moved to the Holland Armory where the remaining sessions are being held.

Mrs. Florence Quigley comes well recommended as an authority in home economics and from the number of visitors in the school it is evident that her reputation is well established. She has made a most favorable impression on all the housewives who are availing themselves of this course.

Today, Friday, the last day of the school will be held and it is again urged that visitors remember that the time is 2 p.m. and the place the Holland Armory.

JUDGE MILES ENDEAVORS TO HELP BOYS

Places Chester Township Lads on Probation, Instructs Them on Health

Judge Fred T. Miles believes in giving boys a chance to turn-around face and start on the upward path when caught in the talons of the law for misdemeanors, as was evidenced by the way in which he disposed of two boys held in Circuit Court for breaking and entering a cottage on Crocker Lake.

Harold Rapp and Clarence Whitsell of Chester township were placed on probation for two years under Sheriff Cornelius Stokete. They are to report once a month and give an account of their activities. They are to refrain from use of tobacco and intoxicating liquors.

Among other things the judge required was a study of Health Book No. 2, a treatise on the care and treatment of the body which he believes will inspire the boys to a more careful personal appearance. They are to report to the County Nurse once a month when she will question them as to their studies.

Judge Miles carefully went into their case and believes they are boys who have been placed in hard circumstances both physically and by home surroundings and he has signified his intention of helping them to help themselves.

FORMER HOLLAND GIRL DIES IN MILWAUKEE; SISTER OF BEN NASH

Mrs. Alice Dodd, for years a resident of this city and daughter of Moses B. Nash, formerly employed at the Holland City News, also sister of Ben Nash of Holland, died at Milwaukee, Wis., according to a letter from the father to the editor of this paper.

The Milwaukee Journal of March 19 prints a picture of Mrs. A. E. Dodd with the following paragraphs:

"Mrs. Alice E. Dodd, 40, an active worker in Wauwatosa church circles for many years, who died Monday at the Deaconess hospital, will be buried Thursday in Forest Home cemetery. Funeral services will be held at 2 p.m. at the Wauwatosa Methodist Episcopal church."

Mrs. Dodd was the wife of Roy L. Dodd, supervisor of the underground division of the Electric Co. She was a resident of Wauwatosa for 27 years and lived at 120 W. Milwaukee Ave.

In the Wauwatosa Methodist Episcopal church Mrs. Dodd was treasurer of the Ladies' auxiliary and was a member of several other church societies. She was also a member of the Wauwatosa Women's Club, the Wauwatosa Eastern Star chapter and the ladies' commandery of Knights Templar.

She is survived by her husband; a daughter, Miss Ruth E. Dodd; her father, Moses B. Nash; her mother, Mrs. Alice Ter Haar, and a brother, Benjamin B. Nash, Holland, Mich.

Funeral services will be under the auspices of the Eastern Star. The body will be at the Wauwatosa Methodist Episcopal church from 5 p.m. Wednesday until the time of service." Mrs. Dodd was born in Saugatuck.

LAST OF SCUDDER MISSIONARY FAMILY IS TAKEN BY DEATH

Advices have been received in Holland of the recent death of Mrs. Silas D. Scudder, the last surviving member of the family of seven brothers (and their wives) of Dr. John Scudder, who were numbered among the pioneers in mission work in India.

Dr. John Scudder first carried the gospel to India more than a century ago. His interest in missions dates back to 1819 when he came to read a pamphlet on India's needs while keeping a midnight vigil at a patient's home in New York city.

He left that year for Ceylon, where he labored 16 years. His evangelistic work subsequently resulted in the establishment of the Aroor mission in 1853 by him and two of his sons. The mission since has been sponsored by the Reformed Church in America.

Five generations of the Scudder family have carried on the work in India and has resulted in the establishment of schools, colleges, churches and hospitals.

The first church organized by Rev. Henry M. Scudder in 1851 numbered three members, including Mrs. Scudder. The number of village congregations now has reached 573 with a total membership of 24,273.

The Aroor mission recently celebrated its diamond jubilee, at which Rev. William J. VanKersen of Holland was present. Hope college has a special interest in education in India as annually the salary for the principal of one of the schools is guaranteed by the faculty and student body.

The weather prophets, who a few days ago so confidently and loudly announced an early spring, have suddenly disappeared. Opinions in regard to their whereabouts vary—some believing that they have followed the example of the groundhog, while others suspect that they are caught under the snowdrifts. However, we are all rather greatly flustered and down in the mouth, after having our cars spring-cleaned, gardens plowed and made ready for planting; yards raked and our winter togs neatly laid away. The early bird caught a cold instead of the proverbial worm.

Bertha Risselada of Holland spent the past week-end at the home of Mr. and Mrs. Jack Nieboer.

Grand Haven Not So Bad for the Unemployed

CHAMBER OF COMMERCE SECRETARY COMPILES DATA ON NUMBER OUT OF WORK

Grand Haven Tribune.—Employment conditions in the city, according to figures compiled by the secretary of the Chamber of Commerce, are far ahead of many sections of the country at this time and indicate that business conditions here are far above the average.

Out of 17 manufacturing plants in the city, included in the survey, it was found there are 1700 men employed as against 2000 employed in 1928. This makes a balance of 306 unemployed. Considering the closing of the Challenge Refrigerator Co. with about 200 men thrown out of employment, it leaves but 106, which have been pared from the other institutions.

According to figures of the Welfare Board as compiled by Chief Pippel there was \$3700 spent in 1927 as against \$5,000 this year, or about 50 cents per capita. The figures indicate that while business is not up to normal, there is but little real want and much of the unemployment will be taken up with the opening of spring construction.

In comparison with figures from other sections, the above conditions are indicative of a fair condition. The resort business, which many consider will be large this year, is a factor which will add to the prosperity of the community.

At the recent drive by the Michigan Tourist and Resort Association there was \$200 more collected from this community than ever before and interest is strong to open this section to the influx of tourists who leave a trail of gold in their wake.

Glee Club Looks To State Meet

In the latter part of the month of May most of the colleges in the state will be represented by both men's and women's glee clubs in Lansing. The occasion is to be a festival of music in which all of the glee clubs are to participate. Both the men's and women's glee club of Hope College expect to attend this contest. The men's club is already practicing the numbers which it is to sing. They are "The Sleigh," by Kountz (this number was sung by the boys on their trip), "Where E'er Ye Walk," by Handel, and a Bach number, "Break Forth, O Beauteous Heavenly Light."

The girls' club will sing an Italian number, "Laudi Alla Vergine Maria," by Verdi; "Valleys of Dream," by Fletcher; and "Spring, Lovely Spring," by Grieg.

On the day of the festival it will be decided by the directors of the glee clubs whether or not it will be a contest, with prizes being given. In the past it has been the habit to have prizes given to the winners who were picked by expert judges.

Ottawa County Gravel Boat To Run Soon

IS SUBSTITUTE FOR "ANDASTE" THAT FOUNDERED OFF HOLLAND HARBOR

Members of Crew Make Wonderful Model of Full Rigged "Windjammer"

The freighter, Fontana, belonging to Construction Materials Co., which has been lying in winter quarters in Spring Lake off the Johnsen Bros. Boiler Shop will be overhauled immediately and prepared for the new season. Capt. Carlson arrived on Thursday from his home in Menominee to get the boat outfitted. He expects to get her out by next week.

The boat has been overhauled and some boiler repairs done during the winter. She is a 6,000 ton freighter, and was brought here last fall to replace the steamer "Andaste," which was lost in Lake Michigan last fall not far west of southwest of Holland harbor.

With the Fontana getting under way the big plant in Ferrysburg will begin operations. The tugs and scows, which have been rebuilt this winter in the Grand Haven shipyards, are ready for the season, which it is anticipated will be one of the heaviest in the history of the plant.

The improvements which have been going on for the past year will be continued to conform with the \$600,000 expansion program. While the officers have made no definite statement relative to the dredging of the inner harbor, which is assured by a recent decision of the board of engineers at Washington, D. C., it is expected to stimulate the expansion at Grand Haven, to become one of the largest gravel distributing points in the nation.

In connection with the crew of the steamer Fontana, it appears that there is one man aboard who is quite an artist with a jackknife. His name is F. A. Brytz and he is first officer on this freighter.

While guarding the Fontana this winter, Brytz, during spare moments, built a model of a full rigged ship.

The model is about three feet long, and is a five masted schooner modeled after the only one that has ever sailed the Atlantic Ocean, now grounded and broken on the rocks in the English Channel. The "windjammer" was made from memory but is very correct as to detail. The intricate network of lines and halyards, the masts, the yards and over 200 tiny pulleys, are an example of patient labor and intimate knowledge of the sailing greyhounds which preceded the fleet steamboats of today.

It took about three months of fairly constant work to complete the project. It is mounted upon plaster paris to resemble the sea and a little fishing village on one shore is accurately described with tiny dwellings, churches and state buildings.

The ship was made after the German boat "Plusen." The original was 300 feet long, 55-foot beam and carried 49 sails. She carried salt-peter from the South American countries to Germany and could make 20 miles an hour and was about the fleetest sailing boat ever built. It is said there were 15 men lost on her first trip, the captain having no mercy on his crew. The ship in question, it is said, rode at such an angle that the men slipped from the decks into the sea.

Mr. Brytz sailed boats of this type for years before coming to the Great Lakes. He was born in Sweden and is a regular "old salt" who says he was all but born on the water.

MRS. W. J. OLIVE IS NEW PRESIDENT OF CENTURY CLUB

The Century club held its regular meeting at the home of Mr. and Mrs. J. P. Ogge, 126 East 12th street on Monday evening.

J. Vander Meulen was the speaker of the evening. He had as his subject, "Two Gentlemen of Florence," the two being Savonarola and Leonardo.

The address was a masterly review of the Renaissance period during the latter half of the Fifteenth Century, leading up to its full and final expression in the great churchman and reformer, Savonarola, and the still greater artist and humanist—Leonardo De Vinci.

The annual election of officers was held at which time the following were elected: Mrs. W. J. Olive, president; Dr. B. J. De Vries, vice-president; and Mrs. Albert Diekmann was re-elected secretary-treasurer. Mrs. W. J. Garrod and Henry Geerlings were elected as members of the executive committee.

Mrs. Arthur Visser ably rendered two groups of beautiful songs, one group before the lecture and the other at its close. She was accompanied by Mrs. W. Curtis Snow.

Dr. Thomas W. Davidson, the retiring president, on behalf of the club thanked the speaker, soloist, accompanist and Mr. and Mrs. Ogge for their co-operation towards the success of the evening.

Refreshments were served by the following committee: Mrs. W. Wichers, Mrs. C. J. Lokker, Mrs. Albert Diekmann, Mrs. W. H. Wing, and Mrs. W. J. Garrod.

It was announced that the annual banquet of the club would be held on Monday, April seventh, and that a "Mystery Program" was in preparation for the occasion.

OPPOSE OTTAWA ROAD

The Ottawa county road commission is working to set the right-of-way for the Port Sheldon road from Borculo to Port Sheldon. It is apparent some of the residents of that section are not in favor of the proposed route, as evidenced by opposition to the right-of-way. Others are deeding the way without question.

HOLLAND PASTOR TO SPEAK ON PROHIBITION AT ZEELAND

Next Monday evening, March 31, at 6:30, the W. C. T. U. of Zeeland will assemble in the Town Hall for a fellowship supper. The meal will be followed by a program, the speaker of the evening being the Rev. J. Vanderbeek of the Sixth Reformed Church of Holland. He will speak on the subject, "Prohibition: Is it of God or of Man?" Rev. and Mrs. Vanderbeek have been life members of the W. C. T. U. for nearly twenty-five years.

"ALL-COLLEGE" BANQUET IN PROGRESS THIS THURSDAY NIGHT

Everyone is looking forward to a good time to-night at the "All-College Banquet" at the Masonic Temple now in progress. "Everyone" means, of course, those fortunate Hopelites who bought their tickets before it was too late. All-college affairs have been noticeably few and far between in the past and so this opportunity for getting everyone together is welcomed by everyone.

The banquet will start off with a bang promptly at 6 o'clock. (Set your watches ahead, all you foolish virgins.) A sumptuous dinner will be served by Mrs. H. J. White and her committee of the Eastern Star.

After everyone has satisfied the pangs of hunger, music will be furnished by a Hopelite orchestra of merit and distinction. This will evening—the only after-dinner speech that is to be given—by Coach "Judy" Hymes of Western State Teachers College of Kalamazoo. Following this, Coach I. Schouten of our college will present the athletic awards for the year, including the Girls' Basketball trophy. It has been rumored that next year's football captain will also be announced.

This banquet has been sponsored by Y. M. and Y. W. Allen Brunson and Evelyn Steketee are the chairmen of the general committee, which also includes Bernadine Siebers, Alice Brunson, Lenard Hogenboom, and Marvin Meengs. The sale of tickets was in charge of Mary Kosegarten. The "All-College Banquet" is going to be good, and if you don't have a good time, it will be because "you are just naturally grouchy," as the committee puts it.

These men will be called upon this Thursday evening at the banquet for their letters. They have been serving on our teams this year, and deserve all the credit that can be given them. The captains for the next season are announced on page one.

"TOO MANY COOKS" MAKES A BIG HIT

The last performance of the three act comedy, "Too Many Cooks," by Frank Craven, was presented before a packed house last night. The play was given at the Holland high school auditorium Monday, Tuesday, Wednesday and Thursday evenings of this week by the senior class of high school. A large crowd was present at each performance.

The play given was built around a home building scene. A home was constructed on the stage and the theme of the play centered around the family row over the possession of a room in the new Cook domicile.

The cast of characters follows: Alice Cook, Martha Slowinski; Mrs. Cook (her mother), Lillian Bos; Mr. Cook (her father), Myron Van Leeuwen; Emma Cook (her aunt), Marian Working; Louise Cook (her aunt), Virginia Boone; Walter Cook (her uncle), William Baron; Joe Cook (her brother), Leonard Dekker; Louis Cook (her brother), George De Boer; Mary Cook (her sister), Esther Harris; Bertha Cook (her sister), Norma De Maat; Ella Mayer (her friend), Beatrice

Infirmary Is Hard Pressed For More Room

BOARD OF SUPERVISORS SEES URGENT NEED FOR \$25,000 BUILDING FUND

At the October meeting of the Board of Supervisors, it was voted unanimously to raise \$25,000 for an addition to the County Infirmary at Eastmanville. Because of constitutional limitations, it is necessary to bring this before the people at the Spring Election, to authorize a loan for the amount. For that reason, Holland and Ottawa county will vote on this proposition on Monday, April 7.

The improvement is sorely needed because of congested conditions at the Infirmary. There is normally room for only 35 and at present there are 57 inmates, consequently patients are required to sleep in halls and on enclosed porches without any heat, because the heating plant can not carry any additional loads.

The subject under discussion was recommended by E. C. Nicholson, Secretary of the Welfare Board of the State of Michigan, for the past three years as a dire necessity. Quoting from a report of Mr. Nicholson as early as April 1927, he says, "Owing to the over-crowded condition of the institution at the present time I would recommend that an addition be built to the present place which would accommodate at least thirty more persons."

At a recent meeting of the Holland Common Council, Supervisor Peter Damstra of this city plainly presented to the members of our City Council the dire need for this improvement and the mayor and aldermen immediately fell in with these plans, promising to give this proposal their earnest support.

The poor never call on Holland in vain and we believe there will be no exception this time. An appropriation of \$25,000 spread over the entire county tax roll means only a few pennies annually to each tax payer during the life of these necessary bonds or loans as the case may be.

It is evident that this project—a crying need—will alleviate the congestion and suffering of our poor folks, ease of them old and decrepit and severed from their home ties. Let us not forget those who are less fortunate than we. Surely none of us would relish changing places with these unfortunate.

If Holland, Zeeland and south Ottawa does as it always has in the past, the county infirmary project will surely go over big. It might be well to state that every supervisor, including those from Holland, voted to back this much needed building program at the Ottawa County Infirmary.

C OF C HELPS TO ADVERTISE TULIP TIME

The board of directors of the Chamber of Commerce held their regular monthly meeting at the Chamber headquarters Tuesday morning. The directors present were President Dick Boter, Milo DeVries, Frank Dyke, Wynand Wilcofs, J. H. Hoover, E. C. Brooks, A. W. Wrieden, Vaudie Vandenberg, Andrew Klomparsen, Frank Lievens.

The Chamber of Commerce is co-operating with the city officials in the publicity work in connection with Tulip Time in Holland celebration. Vaudie Vandenberg of the publicity committee reported that 65 thousand tulip time in Holland envelopes have been sold to local merchants and manufacturers. An opportunity will be given local citizens to purchase these envelopes in small lots after April 1st, who wish to use them in their personal correspondence among their friends. Arrangements are also being made to broadcast the Tulip Time in Holland time from the leading radio station in the country.

The Chamber of Commerce has a membership of 320. A total of fifteen new members were added to the list since February 2nd.

SUNDAY SCHOOL LESSON

(By REV. P. D. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago.)
(© 1930, Western Newspaper Union.)

Lesson for March 30

REVIEW

GOLDEN TEXT—Unto us a child is born, unto us a son is given: and the government shall be upon his shoulder; and his name shall be called Wonderful, Counsellor, The Mighty God, The Everlasting Father, The Prince of Peace.

PRIMARY TOPIC—Jesus the Savior.
JUNIOR TOPIC—Jesus the Savior.
INTERMEDIATE AND SENIOR TOPIC—He Went About Doing Good.
YOUNG PEOPLE AND ADULT TOPIC—The King Serving.

Since the lessons of the quarter are bound together by the three-fold unity of one book, one theme, and one person, the best method of review for young people and adults is to present the book of Matthew as a whole, and each lesson in its relation to Matthew's central purpose. The central theme is Jesus Christ, the King, the fulfiller of the Messianic hope.

Lesson for January 5.
God entered into covenant with David concerning the Kingdom (II Sam. 7:16). Christ's genealogy shows His legal right to the throne of David (1:1-17). The Messiah was not only said to be the seed of the woman (Gen. 3:15) and the son of a virgin (Isa. 7:14), but the mighty God (Isa. 9:6). Jesus Christ, the King, was begotten of the Holy Ghost and born of Mary, thus becoming Immanuel (Matt. 1:23, cf. Isa. 7:14).

Lesson for January 12.
The King entered upon His official work by being baptized. Christ's baptism was His act of consecration to the task of saving His people through the sacrifice of Himself upon the cross. Having received the official approval from the open heavens, the King went forth to the wilderness to meet and overcome the devil (Heb. 2:14). His victory demonstrated His ability to accomplish the work of redemption.

Lesson for January 19.
The voice of John the Baptist being still, the King becomes His own herald. His message was the same as John's, namely, "the kingdom of heaven at hand," which means the Messianic earth rule of Jesus Christ. He called helpers to His side and went through Galilee preaching with triumphant success.

Lesson for January 26.
This lesson shows the characteristics and responsibilities of the subjects of the kingdom, the beatitudes showing the characteristics, and salt and light the responsibilities. The life and testimony of the disciples are to light up the darkness of the world and preserve it from decay.

Lesson for February 2.
This lesson displays the principles which are to control the lives of the subjects of the kingdom. They should live a life of prayer, putting their trust in the Heavenly Father for temporal blessings. Spiritual affairs are to be first.

Lesson for February 9.
The subjects of the kingdom should be free from censorious judgments, be on the lookout for false teachers, avoid empty profession, and obey the words of Christ, the King.

Lesson for February 16.
The performance of mighty works the King demonstrated His ability to administer the affairs of the kingdom. He showed His power over the chief foes of mankind—sickness, sin, satanic power, death, sorrow, and storms.

Lesson for February 23.
The kingdom was to be propagated by sending forth twelve men to preach the gospel of the kingdom. Their mission was authenticated by supernatural deeds.

Lesson for March 2.
In the propagation of the kingdom, violent opposition arose, resulting in the plan to kill the King. Opposition will be experienced by all who go forth in Christ's name.

Lesson for March 9.
The parables display the admixture of moral and spiritual conditions in the world between Christ's crucifixion and second coming. The parabolic method of teaching makes clear the truth to those who love it, but conceals it from those who do not.

Lesson for March 16.
The parables of the wheat and tares, mustard seed and leavened meal, show the outward growth and inner decay of the work inaugurated by Christ in the interval between His Crucifixion and second coming.

Lesson for March 23.
Though rejected by the nation, the King continued His ministry of healing and teaching.

Well--how about your Insurance?

Too often insurance is both ordered and written by guesswork. And then comes a loss which is accompanied by vain regrets that the insurance policy didn't cover as completely or accurately as it might have.

It is all—important that every policy be written carefully and accurately.
