Safe Yields \$13,000 To Burglars

Cigarettes Valued
At \$2,500 Taken;
Enter Through Roof

Thieves took an estimated \$13,000 in cash and checks, plus 1,100 cartons of cigarettes in a break-in and safe burglaries, discovered early Monday, at Standard Grocer Co. at 510 East 16th St.

According to William Bowen, general manager of Standard Grocer Co., about \$300 to \$400 of the missing loot was in cash. The rest was in checks, including one check for \$11,000.

An inventory taken this morning revealed that 1,100 cartons of cigarettes, valued at \$2,500, were also missing, Bowen said.

According to Holland detectives, the thieves entered the building by sawing a hole through the roof. They removed several tiles from the ceiling of the office to get to the safe, and knocked a hole through a brick wall where they entered the warehouse to get the cigarettes, detectives said.

Detectives placed the time of the burglary after midnight Saturday and before midnight Sunday. A time clock on the warehouse wall apparently became jammed with pieces of mortar and stuck on the Sunday date, detectives said.

Bowen said the theft was discovered by Fred De Boer, who works in the firm's frozen foods department, shortly after midnight this morning. De Boer notified Holland police of the break-in at 12:17 a.m. Bowen said the safe had been locked, and that the burglars unlocked the door to the walk-in vault. Inside the vault the thieves pried open a smaller steel cabinet in which the cash and checks were kept.

Detectives said the burglars, after sawing through the roof, tore a hole in the office ceiling, about 10 feet to the west. Then the thieves smashed through a brick wall into the warehouse a short distance in the opposite direction from where they entered through the roof.

According to detectives, there was about three feet of space between the roof of the building and the office ceiling.

According to Bowen, the firm normally kept only a fraction of the amount of money stolen in the safe during weekends. He said the cash and checks taken Sunday represented receipts for orders delivered by the firm on Saturday.

Name Lubbers To Committee

LANSING — Gov. John B. Swainson Wednesday announced appointment of a Fair Campaign Practices Commission to make sure there is "honesty and fair play" in the spring election campaign.

The commission has functioned in the past under former Gov. G. Mennen Williams, and Swainson said this was basically the same group.

Emrich has been named by Secretary of State James M. Hare as a member of another commission to watch for irregularities in the election itself—not just the campaign.

Among members of the committee are Dr. G. Merrill Lenox, Detroit, executive director Michigan and Detroit Council of Churches; The Rev. Marion de Velder, Grand Rapids, minister of Central Reformed Church; Dr. Irwin Lubbers, Holland, president of Hope College; Nelson D. Brown, Mason, editor of the Ingham County News.

The county building committee have met with the architect, R. S. Gerganoff and accepted the building as substantially complete so county offices may now occupy the new building and the old building will be emptied and released for removal according to Gerganoff.

He said, the county shall have the right to take possession and use any completed or partially completed portions of the structure even though the time for completing may not have expired.

After 4:00 p.m. Wednesday, the county will take over and pay for all utilities, fuel, custodial service except that the contractor shall maintain the builder's risk insurance in full force, until such time as the building is accepted by the county as fully complete.

Any commemorative plaques or objects contained in the old court-house building determined by the county to have historical interest, are to be carefully removed by the contractor and turned over to the county on the site, including clock and bell.

The contractor is to remove all steel vault doors and deliver them to the new court house as directed by the architect, and according to Gerganoff all other materials shall become the property of the contractor and shall be removed from the premises.

A panel was introduced by vice president, Mrs. James Taylor. Farm Blaze Loss Is Set At \$50,000

7 Buildings Destroyed
On G. Thorson Farm
Northwest of Fennville

SAUGATUCK — Whipped by a high shifting wind, flames from a brush fire in an apple orchard spread to the farm buildings on the Thorson farm located a half mile northeast of Fennville Monday afternoon causing damage estimated conservatively at \$50,000.

Seven buildings and all the farm implements from the large 140-acre farm were destroyed and the roof of the house was considerably damaged but can be replaced. Also lost were eight head of cattle and some sheep. Destroyed were the barn, an implement shed, corn crib, silo and milk shed. Considerable land also was burned over.

Thorson was burning brush in the apple orchard when winds sprang up and shifted, carrying sparks to the farm buildings. Fire departments of Fennville, Casco township and Saugatuck responded along with tankers from Manlius and Casco Townships. The Conservation Department also sent out a piece of equipment to battle the ground blaze.

Firemen were on the scene 5 1/2 hours, according to William Wilson, Saugatuck fire chief.

Shifting winds mostly from south-southwest at velocities in excess of 35-miles an hour fanned the roaring blaze from building to building and over acreage dryer than usual for the spring season.

The Douglas Fire Department which has one piece of equipment remained on duty in the Saugatuck-Douglas area. During the height of the Thorson farm fire, it was called to put out a grass fire in the Douglas area.

HHS Model Displayed at Philadelphia

A model of Holland's new senior high school which won a national award is currently on display at a convention in Philadelphia, Pa., of the American Association of School Administrators and the American Institute of Architects.

In addition to the model which has been on display in several places in Holland are four large panels of various scenes of the completed school. Attending the convention from Holland are Assistant Supt. Robert Slocom, Vern J. Schipper, Jack Plevens and Harry Frissel. The latter two are members of the Board of Education.

The Holland High display is among 30 other exhibits of buildings selected on the basis of education specifications and outstanding organization. There had been over 7,000 entries.

Shirley Cooper, in charge of exhibits for school administrators, predicted many educators will be visiting Holland to see the completed school, adding that the plans rate with the best that have ever been exhibited at such conventions.

Youths Admit Stealing Cars

Sixteen car thefts in Holland during the last three months appeared solved today after six juveniles, picked up by Holland detectives Wednesday afternoon, admitted taking part in the thefts.

Detectives said the youths, ranging in age from 14 to 16 years old, admitted being involved in the thefts, although all six were not involved in each theft.

Only one of the youths was 16 years old, detectives said. The group is being referred to probate court.

Detectives said the youths admitted they took cars, drove them for a short time, and then parked them a few blocks from where they were taken.

According to detectives, only one auto theft this year was not solved by the arrest of the six youths.

The Rev. Jack Van Impe will speak at the Men's Breakfast Saturday at 6:30 a.m. in the Youth for Christ Clubhouse. All men are invited and reservations are not required.

Roof of Field House Begins to Take Shape

Laminated wood bents are being placed in position to provide the framework for the roof of the field house on the new Holland High School site as the dome for the round building begins to take shape.

Ed Milarch of Milarch Inc., of Livonia said today a total of 24 of the wooden bents will be used to form the roof framework for the field house.

Constructed of pieces of southern pine wood glued together, the 90-foot bents weigh 2 1/2 tons each, Milarch said. They are 26 inches wide and seven inches thick and no nails are used in the wood.

The bents are joined together through compression at the top and it took three cranes to set the first bent in place. There is a distance of 22 feet between each bent at the bottom along the ring of the field house.

Milarch said the construction is being worked like a wagon wheel, starting with the crosses at mid-points around the ring. The other bents are then filled in between. The bents join 40 feet in the air, the height of the building. The building will be roughly 190 feet across.

Milarch said the spot where the bents are joined is the center compression area while the round structure of the building formed the tension ring. The ribs are supported between the tension and compression rings.

This is the first time the Detroit firm has worked with this type of ring and arch construction. They have been here for the past two weeks and expect to complete the work on the field house and also put bents on the two classroom buildings and the library next week.

The Peshtigo Unit Structures Co. of Peshtigo, Wis., manufactures the laminated wooden bents. No poles or supports will be used to hold up the roof.

The bents will form an impressive design to be viewed from the floor. The structure will be covered with a white roof.

De Leeuw Warehouse Destroyed

Three Fire Departments
Fight Blaze; Two Other
Warehouses Saved

A mid-morning blaze Tuesday destroyed a combined warehouse and mill of the De Leeuw Lumber Co. on Lakewood Blvd., causing a loss estimated at over \$100,000.

The fire had threatened two other warehouses owned by the lumber company and firemen from three departments fought the blaze for nearly two hours before bringing it under control.

Intense heat from the blaze scorched nearby buildings and charred several nearby lumber piles. Two automobiles parked across Lakewood Blvd. from the warehouse had windows popped out by the heat. About 10 firemen required first aid treatment for minor burns of hands and faces.

The fire was discovered about 10 a.m. by two employees of the lumber company who were working in the mill section of the building. Jack De Boe and Roger Van Nui were the only two persons in the building. They said they first noticed flames shooting down from the roof, near the chimney on the south end of the structure.

Van Nui and De Boe called the office via an intercom system, and reported the fire to the owners. They left the building and were able to salvage only one power table saw. The owners said every other piece of equipment was lost in the blaze.

The mill is located in the south half of the large 85 by 100 foot structure.

Van Nui and De Boe said within minutes the entire roof of the building was aflame.

Firemen from three Holland Township stations were called to the scene of the blaze, and minutes later Holland City and Park Township fire departments were summoned.

During the height of the blaze, fire trucks were pumping water from Black River direct to the fire three blocks away.

Firemen concentrated their efforts on saving the two adjoining lumber warehouses to keep the blaze from threatening nearby homes.

Fire officials expressed grave concern for two large gasoline storage tanks located a couple hundred feet from one of the imperiled warehouses. Holland Township Fire Marshall Andy Westenberg said that the fuel tanks were the fire fighters' biggest worry. He said that had the fire reached the warehouse east of the burning building, it could have spelled disaster.

Westenberg commended firemen from all departments for controlling the blaze and confining it to the one building.

The destroyed building and its two adjacent warehouses were built about a year ago, and had been in use only since April 1, 1960, according to the owners.

Warner De Leeuw said the building which burned cost \$30,000, and he said total damage would run at least \$100,000. In addition to equipment in the mill, several carloads of lumber were destroyed in the blaze, De Leeuw said.

The two adjoining warehouses and nearby lumber piles also suffered some damage. De Leeuw said the total damage could run as high as \$150,000. He said the building and contents were covered by insurance.

Officials said they did not know how the blaze started.

Holland firemen were called out at 8:45 a.m. Wednesday to extinguish a swamp fire near the Fifth St. light plant. Firemen said the blaze burned over about an acre of grass. One jumper and three men from No. 1 station were sent out and were at the scene of the fire for about an hour.

FIELD HOUSE ROOF FRAMEWORK — Workmen are busy putting the framework for the domed roof of the new Holland High School field house. A total of 24 laminated wood bents will be used to form the structure. The bents are 90 feet long and each weigh 2 1/2 tons. They are placed into position by

cranes and are placed 22 feet apart and join in a center compression area at the top. Three rows of bents are seen on the ground in front of the field house. The bents rise 40 feet in the air above the center of the building. (Sentinel photo)

Christian Stops Fenton In Semi Play

LANSING — Holland Christian's basketball team scored a thrilling 50-46 semi-final win over Fenton before 2,500 fans crammed into the Lansing Sexton gym Friday night.

The Maroons had a mighty rough test Friday night with a scrappy Fenton quintet. A last minute spurt by the Tigers pushed them within two points, 48-46, with 23 seconds left. Christian had enjoyed an eight-point, 48-40 bulge, with 1:33 remaining.

Each team dug deep into the strategy bag for ideas in the final half minute.

Christian uncorked the play not seen all season as the players lined up in a straight line in the center of the floor and then ran in various ways with Center Frank Visser breaking loose, getting the ball and then missing the shot.

Ken Disselkoen, playing with a painful right hand, missed a shot and Fenton, in between two time-outs, set up plays for single shots. With two seconds left Bob Bruder of Fenton was called for charging on a drive-in shot and Clare Van Wieren stepped to the line. He made both shots and Christian had a four point win.

This was a battle of defenses and it was the best defensive game seen by Christian fans this season. Both teams played tight man-form defenses and it was tough for players to break through for a shot.

Christian played its best defensive game of the season.

But there were frequent fouls and the Maroons cashed in with a fine 22 of 26 from the charity line including 13 of 14 in the first half. Fenton connected on 16 of 27.

Since the game was a defensive tussle neither team had a lot of shots or particularly good shots. Each team hit only 31 per cent. The Maroons made 14 of 44 and Fenton 15 of 49. This is the fewest number of shots Christian has taken in a game this season.

Harold Huff was the key to the Fenton defense. The 5'9 guard gave Christian plenty of trouble when the Maroons brought the ball up the floor. Huff fouled out with 1:33 remaining. For Christian, Visser stood out on defense as he held down high-scoring Dick Seitz. Four different times Visser knocked the ball out of Seitz' hands and stopped possible scoring plays.

The game was tied eight times, three in each of the first two quarters, and twice in the third period. Fenton led 10 to 9 at the close of the first period while Christian ended a tight first half with a four point spurt on two free shots each by Disselkoen and Tom Bouman in the final 1:50 to take a 23-19 half time lead. Fenton had tied the game at 19-19 with 1:51 left.

In the third period Christian moved out to a 26-22 lead but in the next three minutes scored only one basket while the Tigers worked for three tallies and tied the score 26-26.

Visser went to work and after Jim Fredricks scored a jump shot he tallied five points in a row and the Maroons led 35-28. Two free shots by Doug Windemuller at the end of the quarter after a Fenton free throw gave Christian a 37-29 third period lead.

Following two quick Fenton baskets to open the fourth period Christian scored seven straight points and took a 44-33 lead with 3:40 left for the Maroons' biggest bulge.

But Fenton didn't quit. With Ron Conklin hitting two jump shots, Huff two free shots and Bruder one charity toss, the Tigers outscored the Maroons, 7-2, in the next minute and a half. Bouman got Christian's lone basket.

Windemuller scored two free shots with 1:33 left and the Maroons were eight points out, 48-40, and then came the Fenton drive. Seitz hit a basket with 1:20 left and in the next minute the Tigers scored four more free shots.

Windemuller, ill with the flu Thursday and Friday, led Christian with 13 points. He sat out the second quarter and scored 10 points in the second half including four straight free shots. Visser and Van Wieren followed with 10. Seitz had 14 for Fenton and Bruder followed with 12.

Car Strikes Tree

ZEELAND — Allyn Kroll, 21, of 25 North State St., Zeeland, escaped injury when his car struck a tree at 12:45 a.m. Saturday on 96th Ave., a quarter mile south of Part Sheldon Rd., north of Zeeland. Ottawa County deputies said Kroll, apparently blinded by fog, left the road and lost control of his car. Damage to the 1961 model car was estimated by deputies at \$600.

The peach originally came from China, where it has been a popular fruit for more than five thousand years.

Palette and Masque Cast Presents 'Royal Gambit'

The Hope College Palette and Masque players presented "Royal Gambit," their fourth production of the season, to an almost full house Thursday evening, opening night.

Hermann Gressieker is the author of this erotic and moral tragedy of the life of Henry VIII. The college production was directed by David P. Karsten, director of theatre, and Carl Benes, assistant director.

Bob Fisher, senior from Rosendale, N.Y., turned in an impressive performance as the tyrant, Henry VIII. Playing his six wives were Ruth Vander Meulen, Katarina of Aragon; Marilu Walter, Anne Boleyn; Louise Zjawn, Jane Seymour; Lois Bonema, Anna Cleves; Linda Walvoord, Kathryn Howard; and Barbara Walvoord, Kate Paar. "Gambit" is a term which, when applied to the game of chess,

is an opening move in which the player loses a chess piece in order to achieve an advantageous position. Thus the term also applies to Henry VIII in his qualifying moves as man to attempt to improve his position as a creature of the earth.

The stage setting was done along this motif or theme and no attempt was made to indicate locale, but rather only the suggestion of the playing board for the game itself.

The play moves rapidly from place to place and the audience follows the game from locale to locale only through the use of lights and sound. Costumes are drawn from historical sources, although modified in style to continue a transcendent theme.

"Royal Gambit" was presented Friday and Saturday in the College's "Little Theatre" with curtain time at 8:15 p.m.

New Addition Recommended At Allendale

ALLENDALE — Recommendations for a new addition to Allendale School consisting of six to eight additional classrooms, an all-purpose room, music room, library and arts and crafts room are included in a report recently drafted by a Citizen Study Committee organized last November by the Board of Education.

The study grew out of a desire to provide better community understanding of the school program and school needs. Blaine Sessions was general chairman.

The study also revealed that enrollment figures can be expected in the future necessitating an immediate building program in which the elementary curriculum would be expanded to provide increased education opportunities in the areas of special education, guidance and testing, arts and crafts, physical education, science and library.

Estimated cost of the proposed addition would be \$250,000 and the committee recommended a 20-year bond issue of this amount.

The committee does not recommend an immediate change in school organization. Members feel at the present time the district is not in a position to operate its own high school. Enrollment lists 357 students in grades kindergarten through eighth. High school students attend school in Coopersville, Hudsonville and Zeeland.

WE LEARN TO MEET COMPETITION

More and more there appears in the news people who are taking another look at the many problems that we have in meeting the competitive markets over the world.

We have passed through many trying periods where the labor market has made it possible for people to ship products into our country and under sell some of our own articles of merchandise. We are now learning to pick up some of the lost motion and reduce the waste in industry so that we are selling more of our products to our own people.

The automobile field is just one of the fields that many people are aware of. Recently we noticed that the tuna industry on the West Coast was almost run out of the business and they have improved their position by using our great know how with better and larger nets and equipment so that they can compete with competition from Japan.

The railroads have done many things to improve their position. Rubber workers in Ohio facing a shutdown of their plant, did something about their contract terms. All along the line we can use all the know how we have to help hold and increase the production and hold the line wherever possible.

We need to learn to help ourselves. This, we think, is the first order of business. Our world problems are many and if we are going to continue to try and help with the world problems we must do a better job of selling ourselves. Every person that travels should make it his or her business to have a good knowledge of our government and our way of life so that they can do a much better job of selling our way of life. I am quoting an editorial written by Harold A. Fitzgerald of the Pontiac Press.

"YANKEE" IMPERIALISM

When I was in Acapulco, Mexico, at a meeting of the directors of the Inter American Press association last week, President Ricardo Castro Beeche uttered one of the greatest pronouncements that you've heard in many a moon.

"Yankee imperialism means a country that has gone to two World wars with enormous sacrifice of lives and money and which hasn't taken a single inch of land from the beaten countries."

"It means a nation which devoted hundreds of millions of dollars for the reconstruction of the defeated countries after the war through the Marshall plan - and these are the very countries whose people - were victims of their own dictatorial governments."

"Yankee imperialism is a country which has spent millions of dollars in technical assistance and in food over all these years in order to save many people of the world from hunger and misery. Yankee imperialism says a man has a right to happiness through a worthy life."

"Perhaps soviets could tell us how this compares with the imperialism which Russia exercises. The soviets maintain all the countries defeated and occupied by them under their yoke without freedom at all; and moreover, they try through subversive means to destroy the democracies in order to make themselves the lords and masters of the world." This penetrating analysis comes from an editor in Costa Rica and is a magnificent declaration of American principles. It should be emblazoned throughout the world. In spite of these facts, too many countries still scream "Yankee Go Home" out of one corner of a twisted mouth - as they gravely utter thanks out of the other for our benevolence.

This nation isn't perfect. None is. But we've expressed and actually lived more humanitarian virtues and principles than any country you can name. Certainly this is true if fighting, dying, and forgiving count at all.

The great Costa Rican editor has expressed some exceptionally profound thoughts. They are a graphic description of what the United States is struggling to achieve. -Harold A. Fitzgerald in Pontiac Press.

Sunday School Lesson

Sunday, April 2
Christ, Our Living Lord
John 20:11-22
By C. P. Dame

In this last lesson of our study of John's Gospel we are told about one of the greatest events of all time - the resurrection of Jesus from the dead. This event has given much assurance to many doubting hearts and it has brightened the lives of millions. It tells us of the living Jesus Christ.

I. Lovers do and dare. Mary Magdalene loved Jesus much. She is first mentioned in Luke 8:2, with a number of other women who had been healed by Jesus and who in gratitude helped to support Him. After that no more is said until the time of the crucifixion and burial of Jesus. In the synoptic gospels her name appears first among the women who visited the tomb after the Lord's resurrection—John says that she came alone. It is believed by many that Mary Magdalene lived a sinful life before she met Jesus but there is no proof of this. The sinful women whom Jesus healed and forgave are not mentioned by name in the gospels.

Jesus was buried on Friday. The following Saturday was a long, sad day for His disciples. Very early, on Sunday, the first day of the week, Mary left home to visit the tomb of Jesus. It was her deep love that made her go. When she came to the tomb, she noted that the stone had been rolled away, and therefore she hurried to tell Peter what she had seen. Peter and John—they evidently were together—hurried to the tomb. John got there first but did not enter the tomb, Peter did as soon as he arrived and then John who had stopped to look in and had seen the linen clothes there, also stepped in. Peter too noted the undisturbed grave clothes—which made John believe. People act differently. The two men, disciples, went home, but Mary remained at the tomb weeping. She saw two angels who spoke to her and Jesus too.

II. Lovers are rewarded. Jesus asked Mary the same question the angels had asked her: "Woman why weepst thou?" Mary did not recognize Jesus until He addressed her by name. Have you ever noted how often God addressed people by their names? The personal God looks upon us as persons and dignifies us by calling us by our names. Mary wanted to resume the old relationship but this was not to be and so Jesus said to her, "Touch Me not." Jesus wanted to impress upon her and the other disciples too that from that time on the fellowship would be spiritual, rather than physical. Mary was the first to see Jesus after the resurrection and she was the first to receive the charge to tell other disciples and hence she was the first preacher of the resurrection. Since then millions of women have told the story of all stories. It is worth noting that Jesus told her to tell His disciples whom He calls "My brethren" for the first time.

III. Jesus personally revealed Himself. On the evening of the resurrection day the disciples met together most likely to consider the events that had happened. Suddenly Jesus stood in their midst and said, "Peace be unto you." Then the Lord "showed them His hands and His side" for not all the disciples were convinced. Note that after the resurrection again and again called attention to His body. "Then were the disciples glad when they saw the Lord." They had reason to be glad. Jesus then gave a charge to these disciples who had seen Him, telling them that as the Father had sent Him, so He was sending them. Some one has said that there are but four chapters in John in which it is not said that Jesus was sent. Those who preach the gospel need authority. The Lord breathed on His disciples and said, "Receive ye the Holy Spirit" and thus He commissioned them to the greatest work in the world—preaching to sinners.

Barn, Corn Crib Leveled by Blaze

DRENTHE—A fire of unknown origin leveled a barn and corn crib late Tuesday afternoon on the farm of Clifford Van Spyker on Adams St., about three miles east of Drenthe.

Officials said eight steers and two heifers in the barn were killed in the blaze. A baler and miscellaneous farm equipment were destroyed along with several hundred bushels of grain and about 500 bales of straw and hay.

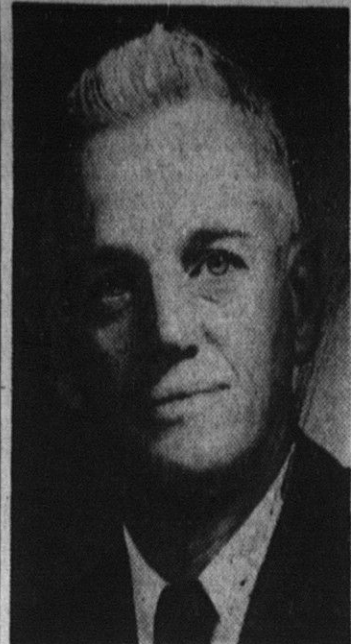

The fire broke out at about 4:30 p.m. Firemen from Jamestown and Zeeland assisted the Drenthe Fire Department in battling the blaze. Firemen kept the blaze from spreading to a nearby chicken house which contained about 300 chickens.

Officials said the farm was owned by Ralph Van Spyker but was being operated by his son, Clifford. Officials gave no estimate of damage and said they did not know if the barn and its contents were insured.

Strong River Rouge Runs Over Christian in Finals

Maroons Drop 79-44 Game In State Meet

Holland Christian's cage squad and followers were finding some solace today in being second best following a 79-44 trimming by powerful River Rouge Saturday morning before 11,709 fans in the state championship class B game on the Jenison Field House court.

More than likely the Maroons have the distinction of being runners-up to the greatest B champion that the state has ever had. A disappointed but not dejected Coach Art Tuls of the locals summed it up when he said, "We just were not in their class."

Situated in an area which turns out some great individual performers and strengthened by a basketball program complete with coaches extending into the fifth grade, Coach Lofton Greene of The Rouge has fashioned one of the state's best prep teams of all time. This coach's "dream team" has everything from size and speed to phenomenal shooting. In addition Greene demonstrated a second five Saturday which would give any team a battle.

Holland Christian which had gained the finals for the second time in eight years by wading through seven tough foes fought the entire contest but were out of the game after 12 minutes of play. Up until this time they were giving the Panthers all they cared for and took their only lead of the game at 11-10 late in the first period.

Tuls was disappointed in the fact that the shooting of his club fell off to 24 per cent after averaging close to 40 per cent for the entire tournament. "If we had been hitting the shots we should have been, at least the score would have been closer," was his comment.

Without making excuses, Tuls said that the physical shape of two of his top scorers may have accounted for some of the poor shooting. Ken Disselcoen, a starting forward, didn't dress for the game due to a painful bone chip in his wrist. The sparkplug guard, Doug Windemuller, came down with the flu just before leaving for Lansing and was under doctor's medication for the two day stay in the capital city.

The Dutch mentor started three juniors, Clare Van Wieren, Paul Tuls and Paul Steigenga, in the championship game. All came through nobly along with other senior starters Frank Visser and Windemuller. Jim Fredricks, another junior, and senior guard Tom Bouman, also performed well against the Panther pressure tactics.

The Panthers used a man-to-man press on defense, triggered by two shifty guards, Esly Williams and Jon Roman. They were also the lead men on the tremendous fast break which Tuls called "the best I have ever seen in prep basketball." At center they have 6'5" freshman Willie Betts, the best rebounder to face the Maroons all season.

Their other standout performer is Park Richardson, an all star at his forward post. He is a great driver and a phenomenal shooter. Joe Roache rounds out the starting five, although he is spelled often by Ken Wilburn, considered to be the best shooter on the team.

River Rouge started it all out with a bang and collected four points in the first 30 seconds. Steigenga came through with Holland's first score from the foul lane. Christian knotted the count at 5-5 before the Panthers went ahead 10-5. Then the Maroons fought back with six straight points to take an 11-10 margin. After Rouge spurted to a 14-13 count, they added four more just before the horn for an 18-13 lead.

Coach Tuls' Maroons fought valiantly in the third quarter and showed signs of getting back into the game. They narrowed the gap to 46-34 with two minutes remaining. The flurry only served to ignite the Panther fast break as they really turned on the steam at this point to score nine straight points to lead 57-34 into the finale.

The champs upped the margin with some great shooting until Greene inserted a second unit at the five minute mark. This unit kept up the shooting percentage to give the winners an 18-38 or just under 50 per cent for the last two quarters. Both coaches cleared the benches in the final two minutes.

Overall the Maroons connected on 14-55 while Rouge had 35 out of 81 tries. At the charity stripe, Christian collected on 16 out of 26 and the Panthers had nine out of 21.

Visser led Christian with 13 markers while Roman paced the winners with 17.

Notes: Coach Art Tuls in comparing this year's River Rouge team with the Panther outfit which stopped his 1954 Holland Christian club in the state finals felt that they were far superior in speed and shooting. He did think however that the press of both was about as effective on both occasions. Blanche Martin of Michigan State football fame was a member of the 1954 River Rouge team.

Most of the coaches of teams in the semi-finals Friday whose teams were subjected to long delays Friday afternoon were complaining bitterly.

Christian found themselves in a similar situation. The Maroons arrived about 3 o'clock in the hotel lobby and sat on their suitcases in the lobby until 4:10 before registration was completed. They were forced into another half hour wait along with other competing teams in the third floor corridors outside the Michigan High School Athletic Association headquarters.

Each team and its coaching staff was taken into the headquarters separately for a 15 minute briefing on tournament procedures by State Director of Athletics Charles Forsythe.

Christian got out of the briefing at 4:50 just in time to make a 5 o'clock eating reservation. Then it was off to be at the Lansing Section gym by 6 o'clock for the 7 p.m. game with Fenton.

Christian Holds Parade

Followers of the Holland Christian High School basketball team gave the Maroons a royal reception when the Class B runnerup returned to Holland at 6:15 p.m. Saturday.

The team was put aboard a truck at the Eighth St. and M-21 intersection and then a motorcade formed behind the truck and moved over Eighth St. to River Ave., and south on River to Christian High School.

A police escort, along with a fire truck and the uniformed Holland Christian band added to the occasion. It took about a half an hour for the motorcade to reach Christian High School.

A pep rally was held in the school gym. Principal Raymond Holwerda spoke briefly and Coach Art Tuls introduced the team members and lauded the team on its overall tournament performance.

Mayor Robert Visscher congratulated the Maroons and Cornelius Westenbroek, president of the Christian school board, commended the team. Elmer Ribbens, reserve team coach and Clare Pott, ex-reserve team coach, concluded the list of speakers.

Therapist Gives Hints in Aiding Speech Defects

Charles Doornbos, speech therapist for the Holland Public Schools who has been working with children having speech defects, said that correction in the early stages of the trouble will greatly help the child.

Mr. Doornbos pointed out several instances which might cause delayed speech, including defective hearing, mental retardation, environmental causes, a severe illness, emotional conflicts, improper teaching methods and bilingualism (the use of two languages in the home).

From all indications a speech readiness period lies primarily between the ninth and 24th months of a child's life. He may be taught much later but it is during this period that he will learn his speech skill most quickly and thoroughly.

However any child who does not begin to speak intelligible two-word phrases by 2½ years should be referred to the physician and the speech correctionist. The longer speech is delayed, the more difficult it is to teach.

Several do's and don'ts were advised in helping the child. Among them are do not force the child to recite or perform when he feels himself incapable of doing so successfully, do not let the child live in the so-called "silent environment," do not encourage "baby talk" by speaking to yourself.

The do's advised were keep the child in a speech environment of slow, quiet, easy talk, create a need for talking, let the child hear a great deal of "good" talk, give the child adequate opportunity to talk, insist that no wish be granted until the child does vocalize.

Early treatment of the young stutterer in the primary state of stuttering also was advised by the speech therapist. Doornbos has an office in the Thomas Jefferson School.

Some Take 'Glory Day'

Principal Raymond Holwerda had no comment Tuesday on an unscheduled "glory day" taken by many Holland Christian High School students Monday afternoon.

Holwerda said the matter was an "internal affair." The unscheduled "glory day" came about because of the runnerup finish of Holland Christian's basketball team in the Class B finals of the state basketball tournament.

The school staged an assembly honoring the team Monday morning and classes were held in the afternoon.

Many students didn't attend classes and spent the afternoon riding around in automobiles and staging small parades at various points in the area.

Ottawa county deputies were called to provide an escort for one procession from Hudsonville into Holland and also put a stop to a minor disturbance caused by one of the cars at West Ottawa High School.

Holland police received a report that some of the students came close to having an accident when they ignored a stop light at River and Eighth St. and interfered with a truck.

Two Offices Broken Into at Grand Haven

GRAND HAVEN — City police are investigating breakins at two offices, the WGHN radio station and T and H Associates, both located on the second floor at 223 Washington St.

The breakins were discovered at 6:50 a.m. Monday when Richard Gillespie reported for work at the radio station. Investigation revealed little or nothing had been taken other than cookies from a drawer.

Officers believe the culprit or culprits went up a fire escape at the rear of the building to the roof and then broke the covering on a trapdoor into a second-floor hallway. Both offices were entered through transoms above the doors. The thieves presumably ascended a six foot ladder to the trapdoor and went out the same way they came in.

TRAVERSE CITY — An application from the Mona Shores High for admission into the Lake Michigan Athletic Conference was denied and league members approved the ordering of a set of conference school flags here Monday night at a meeting of the LMAC in the Park Lane Hotel.

The Mona Shores school will be located West of Muskegon Heights and plans call for the school to be in operation by the 1963-64 school year.

An admissions committee, composed of the six principals of the league schools, was established. It was decided that any school admitted into the conference must receive a unanimous vote from the other schools.

The league decided to remain a six-team league at present. The group said that any school to be admitted must be participating in a minimum of eight interscholastic sports, that the conference schools must have a well-rounded program covering the entire school and any new members must be members of the North Central Association.

Each school placed an order for a set of school flags. These flags of contrasting colors will be three by five feet and will be hung in the respective school gyms. Holland's flag will be red lettering on a white background. School colors will be used in the flags.

Wrestlers Get Awards In Zeeland

ZEELAND — Zeeland High School had a wrestling team for the first time this season and Coach Tom Pratt was pleased with the progress the Chix made this season.

"As a first year team I have no remorse about our record," Pratt said. "Zeeland won three matches, lost seven and tied one. However, I realize that in two instances we dropped matches because of careless mistakes on our part which would have made our record much better."

"Although the boys did not win as many as I figured we might, I still feel that they turned in great performances considering the competition we faced."

Pratt singled out two boys, Dick Welch and Paul Nyenhuis, as the top individuals on the club. Nyenhuis took the major role in leadership and was elected team captain. He was the lone senior on the team and plans to attend Western Michigan University.

Looking ahead to next year, Pratt said "while it is true we have everyone back next year it is also true that we enter the Grand Valley League which is wrestling in some of the toughest competition in the state."

Pratt awarded varsity letters to John Meyer, Rog Pritchard, Max Elenbaas, Marinus De Jonge, Welch, Tom Posma, Carl De Kline, Nyenhuis, Bernie Brower and John Lutke.

Reserve letters were awarded George Oerweg, Irvin Derks, John De Jonge, Rog Kroodsma, Craig De Pree, Tim Brower, Jim Brower and Chuck De Jonge.

Township Firemen Battle 3 Grass Fires Saturday

Holland Township firemen answered three alarms Saturday, all to grass fires, according to Fire Marshall Andrew Westenbroek.

Two alarms came in almost simultaneously from different locations about 2:30 p.m. Trucks were sent to Beech St. and Fifth Ave., where a tree had caught fire, and to 136th Ave. and Riley St., where a rubbish fire blazed out of control, burning over an acre of land.

Late Saturday morning a fire of unknown origin burned over about 20 acres of grass on Lakewood Blvd., west of 120th Ave., Westenbroek said.

Allegan Manager Resigns Post

ALLEGAN — An era ended for Allegan Monday night when City Manager P. H. Beauvais twice shattered the calm of the last city council session before next Monday's elections.

He submitted first a tersely worded resignation, effective May 1, just thirteen years and eight months after he became Allegan's first city manager.

He then proposed that last year's 15-mill tax rate be slashed more than half, to 7 mills for 1961.

Cleanup Week Starts April 3

Barring late snowstorms or other undesirable weather, Holland will observe its annual cleanup week next week coinciding with spring vacation.

Starting Monday, April 3, city trucks will pick up lawn rakings along city curbs. Persons getting an early start in cleaning yards are asked to rake the refuse onto the curb strips but not to place rakings in the gutters until Monday, April 3. Unexpected showers can cause flooding if drains are blocked with lawn rakings.

The annual cleanup service does not extend to ashes, rubbish or tin cans.
