A BILL has been introduced in the New York Legislature providing for the extra compensation of jurors where the trial of a case is protracted beyond sixty days. It is intended to apply to the Tilton-Beecher jury.

The Massachusetts Legislature has enacted a substitute for the present prohibitory liquor law. The new law prohibits the open sale of liquors over a bar, but provides for licenses in connection with hotels and restaurants. The law also dispenses with the State police and seizes to enforce it.

Gov. TILDEN, of New York, has pardoned James H. Ingersoll, one of the Tweed ring, who was sentenced to five years in the Penitentiary in 1873.

### THE WEST.

The grand jury of St. Louis county, in a recent report, declare that their county jail buildings, the Four Courts, completed three years ago, at a cost of \$1,000,000, are in danger of tumbling down. George Reynolds, a Mormon, has been tried and convicted of polygamy at Salt Lake City.

There is to be a weekly mail run between St. Paul, Minn., and Helena, Montana, by way of the Northern Pacific railroad, between Bismarck and Carroll, the Coulson steamer line, etc. The contract commences May 1. The sparkling and vivacious Lotta is at present the attraction at McVicker's Chicago Theater, and is delighting large audiences with the imitatable drollery with which she invests her numerous characters. George Q. Cannon, Delegate in Congress from Utah, on trial at Salt Lake City for polygamy, has been acquitted on the ground that the prosecution was barred by United States statute of limitations.

GEN. SHERMAN states that the German girls, recently rescued from the Indians, will be taken care of for life by the government. The Indians who committed the massacre of their parents will be sent to Florida, and held as prisoners of war. A terrible collision occurred on the Chicago, Burlington & Quincy railroad, between Albia and Tyrone stations, 100 miles west of Burlington, on Sunday, the 4th inst., by which three employees of the road were killed and several wounded. The accident was due to the carelessness of a telegraph operator.

The first very large party of gold hunters left for the Black Hills on the 6th inst. They started from Sioux City 200 strong, well armed, equipped and supplied.

### WASHINGTON.

It turns out that fully two-thirds of the persons who were invited to join the excursion party to Mexico declined, alleging that it had the appearance of being gotten up in the interest of some unnamed scheme. Secretary Belknap, in reply to a telegram from Gov. Coke, of Texas, asking for protection against the raids of Mexicans, says that immediate steps will be taken to protect the people of Texas on the Mexican frontier.

It is claimed by reports received from Texas that the late outrages on the border were committed by Texans in disguise. Hon. N. B. Judd, of Chicago, it is stated, will be made an Associate-Judge of the Court of Claims, to succeed Judge Peck, of Chicago.

The Washington City Savings Bank, which failed eighteen months ago, has paid an additional fifteen per cent., making in all seventy-five per cent. Its assets, it is thought, will pay the full amount of its deposits.

THE President has declared that all reports to the effect that the present policy of this government toward Mexico foreshadows menacing conclusions are of a sensational character. An Associated Press telegram from Washington says: "As in previous cases where injuries have been inflicted on American citizens by Mexicans, the Mexican government will soon have brought to its attention by the Department of State the enormity of the offense recently committed by invading Mexicans on the Texas border, with such demands for reparation as will satisfy our national honor."

The Postoffice Department has information that nine out of the fifteen countries represented at the International Postal Convention have ratified the International Postal treaty.

### THE SOUTH.

JOHN E. BASSIEUX, President, and Thomas L. Armistead, Cashier, of the Dollar Savings

Bank, of Richmond, Va., which collapsed during the panic of 1873, have been arrested, charged with embezzling \$14,000 of the bank funds. George Drury, member of the Louisiana Legislature, has been indicted for participation in the forgery of the General Appropriation bill.

GOLDSMITH's stallion Abdallah was instantly killed at Paris, Ky., on Monday, by a collision with another horse while going around the track. He was valued at \$30,000. The steamer Bruno was fined \$500 at Little Rock, the other day, for violating the navigation laws in not flying the United States flag.

### THE TILTON-BEECHER TRIAL.

SIXTIETH DAY.—Mrs. Mary F. Perkins, sister of Mr. Beecher, testified that she lived in Beecher's house one winter, while Mr. Beecher was in Florida, but did not see Mrs. Tilton there. James Redpath, of the lecture bureau, related how he got the "True Story" from Tilton, copied most of it, and returned it. The copy was put in evidence. On cross-examination this witness said the charge in the "True Story" was improper proposals.

SIXTY-FIRST DAY.—The great event of the trial occurred to-day, when the defendant took the stand to tell his own story of the scandal. Mr. Beecher refused to take the oath on the Bible, declaring that he had conscientious scruples against that form of oath, and a simple affirmation was accepted by Judge Neilson as sufficient. He then proceeded with his story, commencing at the very beginning, even at the date of his birth, and gave a minute history of his career from childhood up to the point where the scandal begins. He had scarcely touched upon the merits of the chief issue involved when the court adjourned.

SIXTY-SECOND DAY.—Mr. Beecher's testimony to-day bore directly upon the merits of the case. He gave an absolute, emphatic and unqualified denial of the charges against him; stated that there was not one word of truth in Tilton's or Moulton's allegations of criminality; that Kate Carey's story about Elizabeth sitting on his knee was false; that, in short, there was no adultery, not even improper proposals, and he never confessed anything of the kind to anybody.

SIXTY-THIRD DAY.—The examination of Mr. Beecher was resumed. His testimony was chiefly in rebuttal of the evidence of Tilton and Moulton, whose statements of the defendant's admissions of guilt the latter flatly contradicted. The accounts of several of the interviews as sworn to by Tilton and Moulton were branded by Mr. Beecher as monstrous falsehoods. Touching the famous letter of contrition, he denied its composition or dictation, but admitted that it fairly represented the substance of what was said at the interview preceding the writing of the letter.

SIXTY-FOURTH DAY.—Mr. Beecher's testimony was explanatory of the letters that passed between Mrs. Tilton and himself. Mr. Fullerton called the attention of the court to the fact that Mr. Beecher had before him a memorandum of the questions to be asked and his answers thereto. This was frequently referred to by the witness, for the purpose of refreshing his memory as to dates. This unusual proceeding on the part of a witness was the subject of a good deal of remark.

### POLITICAL.

INGERSOLL's majority over all, for Governor of Connecticut, is about 6,500.

### GENERAL.

The three Eastern trunk lines, the Michigan Central, Lake Shore and Michigan Southern, and Pittsburgh, Fort Wayne and Chicago, have reduced the fare to Eastern points. The following are the new rates compared with the old ones:

	New rate.	Old rate.
Chicago to Boston.....	\$20	\$27
Chicago to New York.....	15	22
Chicago to Philadelphia.....	12	20
Chicago to Baltimore.....	9	19
Chicago to Washington.....	9	19

The rate to Boston by way of Albany over the Michigan Central and the Lake Shore roads is \$19, instead of \$20.

The amendment which the express companies made to the Postal law, by which the rates on third class mail matter were doubled, is not only diminishing the receipts of the Postoffice Department, but increasing its expenses. The estimates for postage for the department were made before the change in the rates. As a large part of its mail matter is of the third class, its postage appropriation will be exhausted inside of six months. Mr. Jewell will then be obliged to send this matter by express. The companies had better make all the money they can before next December, for this source of their income will then be cut off.

The trip to Mexico of the Senatorial excursion party, headed by Senators Cameron and Morton, has been abandoned, because of the steamer Dispatch, placed at their disposal by the government, being infected with the yellow fever.

The Commissioner of Internal Revenue reports a slight increase in the receipts last month over the corresponding month in 1874.

### FOREIGN.

The Emperor of Brazil contemplates abdication in favor of his eldest daughter, the Countess D'Eu. He proposes then to come to the United States and make this his home. The Carlist insurrection is now almost without any organized force. The end is near.

A DISPATCH from Berlin says that it is anticipated that the old laws forbidding intercourse between the Pope and Catholic clergy in Prussia, except through the government, will be re-enacted, and that measures will be introduced wholly suspending Papal authority in Prussia until the Pope abandons his pretension to cancel the laws of the kingdom. Paraguay has suspended the payment of interest on her national debt, and the foreign representatives have protested. The situation is described as serious.

SCHUCHEN, the Russian Diplomatic Agent in service, has been appointed Minister of Russia to the United States. Spain has made a formal demand on Prussia for the arrest of Don Alfonso on his entering that country, which will be complied with by the Prussian authorities. A dispatch from Berlin states that eighty ecclesiastics are imprisoned in Posen alone.

PROSPECTS of peace in Spain are increasing daily. One hundred and eighty Carlist officers have already given in their submission to King

Alfonso; 224 officers have left the service of Don Carlos and entered France. Of these, nine were Generals.

ADVICES from Calcutta, in relation to the difficulties between the Indian government and the King of Burmah, state that the King is making warlike preparations. The Polish Catholics, says a St. Petersburg dispatch, are rapidly becoming converted to the Greek church.

The Emperor of Brazil will not abdicate. Numerous arrests are made in Germany of those who speak disrespectfully of Bismarck. There is said to be a contingency in which the Pope will take up his residence in this country.

### FINANCE AND TRADE.

#### Weekly Review of the Chicago Market.

FINANCIAL.  
There was a good demand for money for speculative purposes, the increased activity in grain and provisions causing an increased inquiry. Money is plenty, however, and rates unchanged. The course of the grain market has again been very favorable for producers, holders and speculators on the "long" side of the trade, but directly the reverse to the unfortunate "shorts." The surrounding influences were nearly all of a favorable tenor and such as would naturally be expected to produce an active set of markets, and an upward movement in values. These influences were used as a lever by the bulls in their efforts to force a higher range of prices, and with good success. The receipts of the leading grains—wheat, corn and oats—have been steadily decreasing, this week's arrivals being considerably below the expectations of speculators. The shipping movement is on the increase, the low rail freights indicating a better demand. The grain now in store is generally held by operators for delivery on contracts, for shipment, or for purposes best "known to themselves;" at any rate, they are not disposed to sell, and the "shorts" are beginning to anticipate trouble in filling their contracts. The increased demand from this interest, further aided by favorable Eastern advices and the "bull" movement of interested speculators, resulted in the material advances shown on all grains, the exact amount of the advance being shown by the annexed table—the closing prices being about the highest figures reached during the week. Seller May is the favorite option all round, with cash grain scarce and wanted. Rye, about nominal. Barley firm.

The following table shows the prices current at the opening and close of the past week:

	Opening.	Closing.
No. 2 spring wheat, cash	93 @ 95	95½ @ 97
No. 2, seller April.....	93 @ 93½	94 @ 95

#### LIVE STOCK.

The cattle market was rather weak until Friday, and values declined about 12½c per 100 lbs. At the close however the market was again active and firm, and closed steady at \$4.75 @ 5.20 for medium to fair. \$5.30 @ 5.65 for good, \$5.70 @ 6.25 for choice steers. Extra sold at \$6.50 @ 7.00. Stock cattle quiet at \$3.50 @ 4.50. Butchers' stock dull at \$2.75 @ 3.50 for inferior to choice. Hogs in demand and values were firm and higher, closing at \$7.25 @ 8.50 for common light to choice heavy, \$8.80 @ 9.50 for extra. Sheep dull and heavy at \$3.00 @ 6.25 for poor to choice.

#### PROVISIONS.

Never in the history of Chicago as a commercial city has the provision trade exhibited such a degree of activity as during the past week. The following table exhibits the aggregate trading in mess pork and the options dealt in during the week ending this evening:

	Brk.	Brk.
Cash.....	4,424	Seller July..... 16,750
Seller April.....	28,750	Seller August..... 1,000
Seller May.....	95,870	
Seller June.....	109,250	Total..... 256,024

The following table exhibits the aggregate trading in lard for the same time and the options dealt in:

	Brk.	Brk.
Cash.....	18,500	Seller July..... 4,250
Seller April.....	1,850	Seller August..... 2,000
Seller May.....	54,700	
Seller June.....	27,500	Total..... 108,500

The following table exhibits the trading in the different kinds of meats during the past week:

	Lbs.	Lbs.
Hams.....	170,000	Long clear sides 485,000
Shoulders.....	1,360,000	Short clear sides 1,225,000
Short rib sides.....	7,760,000	
Total.....		11,000,000

The aggregate value of this product reaches the enormous sum of \$12,150,000, and exceeding a daily average of \$2,000,000.

According to this representation the stocks of mess pork and lard have changed hands more than twice during the week, and the trading in mess pork aggregates more than one-half the entire trading of the packing season of 1869-70, while the trading in lard exceeds that of the packing season of 1869-70. The market during the past week was unusually active and trade was largely confined to speculative circles. Prices were firm and considerably higher. Cash mess pork sold at \$20.00 @ 21.50 and closed steady at \$21.40 @ 21.50; seller April closed at \$21.35 @ 21.37½; cash lard sold at \$13.90 @ 14.55 and closed at \$14.50; seller April closed at \$14.47½ @ 14.50, and seller May at \$14.62½ @ 14.65.

SEEDS AND HIGHWINES.  
There was a large supply of timothy on the market, and sales, particularly of the common qualities, were rather slow. Values ranged at \$2 @ 2.30 for poor to good; \$2.35 @ 2.37½ for prime, and \$2.40 @ 2.45 for choice. Clover was in fair demand at \$6.35 @ 6.40 for prime medium, and \$7 @ 7.10 for mammoth; flax \$1.90 for good; Hungarian, 90c @ \$1, and millet, \$1.25 @ 1.35, according to quality. Highwines were quiet but steady; closing sales were made at \$1.11.

#### PRODUCE.

Beans steady at \$1.90 for choice Eastern, in barrels. Beans quiet at 26 @ 28c. Dried corn was in demand and firm at 11½ @ 14c for No. 1 to extra firm,

and 11 @ 11½c for good to choice stock braid. Cheese ruled quiet at 16½ @ 17c for prime factory in lots. Cider was steady at \$6.00 per bbl for choice sweet, but common was unsaleable. Cranberries steady at \$11.00 @ 14.00 for fair to choice cultivated. Eggs closed at 24c. Feathers remain quiet at 48 @ 52c for prime live Geese and 32 @ 35c for choice Turkey tail feathers. ### FEMALE SUFFRAGE.

#### Decision of the Supreme Court Denying the Right of Women to Vote.

The following is an abstract of the opinion recently delivered by the United States Supreme Court, in the case of *Minor vs. Hoppersatt*, denying to women the right of suffrage. The opinion was delivered by Chief-Justice Waite, all the Associate-Justices concurring:

This is the case presenting the question whether under the Fourteenth Amendment a woman who is a citizen of the United States and of a State is a voter in the State, notwithstanding the provisions of the Constitution and the laws of that State confining the right of suffrage to men alone. It is said that women are citizens. They are persons, and, therefore, under the Fourteenth Amendment, declared to be citizens of the State wherein they reside. But it did not require that amendment to make them such. They were, before, persons and people, and were not in terms excluded from citizenship by the Constitution. The Federal Constitution was ordained by the people of the United States, and whoever at the time of its adoption was one of the people became a citizen. All children born of citizen parents within the jurisdiction are themselves citizens. The naturalization laws are reviewed to show that women have always been considered citizens the same as men; also the laws giving jurisdiction in Federal cases. It is then said that the Fourteenth Amendment did not affect the citizenship of women any more than it did of men, and thus minors' rights do not depend upon her. She has always been a citizen from her birth, entitled to all the privileges, immunities, etc., of citizenship. The amendment prohibited the State in which she lives from abridging any of those rights. The right of suffrage is not made in terms one of the privileges of the citizen. The United States has no voters, and no one can vote for Federal, without being competent to vote for State, officers. The elective officers of the United States are chosen directly or indirectly by the voters of the States. The amendment did not add to the privileges or immunities of the citizen; it simply furnished an additional guarantee for the protection of such as he already had. Nor is the right of suffrage co-extensive with the citizenship of the State. When the Federal Constitution was adopted, all the States but Rhode Island had Constitutions of their own, in not one of which were all citizens recognized as entitled to this right. And under all these circumstances it cannot be for a moment doubted that if it had been intended to make citizens of the United States voters the framers of the Constitution would have so expressed that intention, and not have left so important a change in the condition of citizenship, as it then existed, to implication. But if further evidence is needed it is to be found in the provision of the Constitution. If suffrage is necessarily a part of citizenship, then the provisions of the Constitution which gives citizens of each State all the privileges and immunities of citizens in the several States would entitle the citizens of each State to the right to vote in the several States precisely as the citizens of those States are. Other provisions, among them that relating to the apportionment of representatives, were cited to the same point. But still again, after the adoption of the Fourteenth Amendment it was found necessary to use in the Fifteenth Amendment the following language: "The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude." The Fourteenth Amendment had provided against any abridgment of the privileges or immunities of citizens, and if the right of suffrage is one of them, why amend the Constitution further to prevent its being denied on account of race, color, etc.? The duty of the United States to guarantee to the State a republican form of government is dis-

charged in protecting those governments which were recognized as being republican in form by the Constitution when adopted. The governments of the States being then accepted it must be assumed that they are such as are to be guaranteed. The admission of new States is then considered, and it is found that there is nothing to favor the idea that suffrage is a right of citizenship, but everything to repeal it; also, the restoration of the States to the Union after the war, none of them having provided for female suffrage. Besides, a person who has simply declared his intentions to become a citizen of the United States may vote under certain circumstances in Missouri and other States, and this could not be if suffrage depended upon the right of citizenship. The court are unanimous in the opinion that the Constitution of the United States does not confer the right of suffrage upon any one, and that the Constitutions of the several States which commit the trust to men alone are not necessarily void. ### THE GEORGIA CYCLONES.

#### The Details of the Recent Terrible Storm—Three Hundred Persons Killed and Fifteen Hundred Wounded.

(Augusta (Ga.) Cor. Louisville Courier-Journal.)

The recent cyclone which passed over this region was the most awful ever heard of in the United States. I have been along a portion of its track, and, having just returned, will endeavor to give the readers of your paper an account of it.

## GOSSIP OF THE DAY.

GEN. SPINNER'S retirement from the office of United States Treasurer will necessitate the counting of every dollar in the treasury vaults, amounting to more than one hundred millions of dollars.

A BILL has been introduced in the New York Legislature providing that jurors on unusually protracted trials shall receive extra compensation. It is intended to apply to the Tilton-Beecher jury.

DR. TALMAGE, the pulpit orator of Brooklyn, has got disgusted with the developments of the Beecher trial. He raves against the newspapers for printing the evidence, and prophecies ruin and damnation to the editors who print it.

THE Washington correspondent of the Chicago Tribune telegraphs that "Senator Oglesby, of Illinois, has an ambition to become a candidate for the Vice-Presidency upon a ticket with Speaker Blaine, and that the friends of the latter are encouraging Oglesby in his ambition."

BEN BUTLER is the attorney in a case pending in the Treasury Department under very peculiar circumstances. The case is a claim for \$50,000 for property seized in New Orleans for the use of the Northern Army by Gen. Butler, in command of the Union Army. Butler now appears as counsel in the case against the acts of Butler, as General. Queer, isn't it?

A LETTER has been written by Gen. Sheridan to Gen. Sherman defining the Black Hills region, and stating that there has not been any fair test yet made near Harney's Peak to determine the existence of gold there in large quantities. Gold probably exists much further west than the Black Hills of the Cheyenne, and Gen. Sheridan proposes to send an exploration up the Yellowstone to the mouth of the Big Horn.

THE people of Michigan are afforded the opportunity of deciding by their votes at the polls the question of prohibition, as both branches of the Legislature have united in the passage of a resolution amending the Constitution of the State by striking out the section which prohibits the Legislature from passing any act authorizing the grant of license for the sale of intoxicating liquors. The amendment is to be submitted to the people at the general election in November, 1876.

CIVILIZATION in Japan is progressing. A compromise has been brought about between the Mikado and the disaffected statesmen of the empire; a war-vessel of foreign style of construction has been launched with great ado; while the establishment of a college for the instruction in obstetrics of Japanese women, the coinage of a trade dollar, and the detection of an attempted swindle in the interest of foreigners, furnish additional proof that Japan is rapidly advancing to a place among the enlightened and progressive nations of the earth.

COMPULSORY education is being vigorously enforced in New York city. Sixty policemen are engaged in taking a census of children not in attendance upon school, and will report about the middle of April. It is a noteworthy fact that so far no compulsion, properly so-called, has had to be used. Persuasion has proved sufficient. In many cases, it has been only lack of decent clothing which kept children away. When this was supplied, they have gone joyfully. As yet the newsboys, boot-blacks and factory operatives have not been approached. The hardest work will have to be done among them.

ONE of the most trying spelling matches anywhere on record took place lately in Boston. The contestants were on the one side members of the press, and on the other High school boys. The newspaper company was mostly made up of compositors and proof-readers, commonly reputed to be accomplished spellers. Yet the boys were victorious. At the very last round, a proof-reader of the Transcript and a school-boy were the only ones standing. The proof-reader missed "conferrable," spelling it with one r.

MR. CHILDERS, the well-known English traveler, delivered a lecture in London on the evening of April 1st, in which he gave an account of his last American tour. A cable dispatch states that he spoke in terms of high eulogy of America and the United States. He thought it was probably as prosperous as any country in the world. He estimated that in fifty years it would contain 150,000,000 inhabitants, while the progress of England was necessarily

limited. He forcibly presented reasons why England should seek friendship and alliance with the United States.

THE famine in Asia Minor has been far more destructive than was supposed. Karajali, a town of some 400 inhabitants, has lost 355 by death, and at Akali 500 out of 1,200 people have perished by starvation. In Yuva more than half of the inhabitants have died. This proves how uncivilized people suffer from the exposures of nature and the uncertainties of harvests even in the most genial climates. People groan over the privations and wretchedness of the poor in our great cities, where if one person dies for want of food or fuel in the winter there is no end of rebuke. But scarcely a year passes that a famine does not drop its blight down on some portion of Asia and Africa, and even at the best times, with the richest soils and the fairest climate, the people are often pinched for even the coarsest food.

A NEGRO murderer named Bryan, who was under sentence of death at Morehead City, N. C., has obtained a respite in a singular and unusual manner. The day before the one set for the execution the Sheriff and all the other county officers who were in any degree responsible for the execution of the sentence resigned in a body. The reason given by these officials for the non-execution of the death penalty is that the negro criminal belonged in Orleans county, and not in their (Carteret) county, whither his case had been removed and tried. The Governor had, on this account, to postpone the execution to the 3rd of September, when a new Sheriff and county officers will be elected.

JOHN RUSKIN, the British philosopher, sociologist and cynic, must be the most miserable man in the world. It is said he goes cold because he hates smoke; lives out of town because he hates noise; shuts himself out of society because he despises women; will not go aboard steamers because the noise of their whistling is abominable; reads only his works because other people's ideas worry him; and now refuses to travel by rail because he met with an accident some time ago. His last trip by carriage cost him \$350, and he hates that mode of conveyance. A contemporary advises him to go West, squat on the prairie, sing his own praises alone, and give up growling.

It is stated by a Washington dispatch that the troubles along the Texas border, occasioned by the raids of Mexican robbers, cause no serious uneasiness in official quarters, and no apprehension is felt that diplomatic differences with Mexico will grow out of these raids. The Mexican government will have its attention called to the matter, and steps will undoubtedly be taken to suppress the marauders. An intimation is made in official circles that Senators Cameron, Morton, and two members of the Senate Foreign Relations Committee, who are now en route to Mexico, will be requested by the President, unofficially, to examine into the causes of these repeated disorders, and to converse with the Mexican authorities on the subject.

GEN. SPINNER, Treasurer of the United States, has resigned, and will quit the office he has so long and honorably filled on the 1st of July. He will be succeeded by Mr. John C. New, Cashier of the First National Bank of Indianapolis. Gen. Spinner was appointed Treasurer by Secretary Chase early in the war. Before accepting the office he told Chase that there were two things in the law that he did not like. "In the first place," he said, "the law requires that I shall give bonds. I will not ask any man to go my bail." "That will be easily remedied," replied Chase. "Hundreds will volunteer to go on your bond." Then the General objected that under the law nearly every position in his office was to be filled by the President. Gen. Spinner felt that, as he was under bond, and as none of his assistants were required to give bonds, he ought to have the privilege of choosing his own clerks and assistants, and Mr. Chase readily acquiesced, as have all the Secretaries who have succeeded him except Gen. Bristow. Ever since Bristow came in there have been little differences arising between him and Spinner, not sufficient to cause an open rupture of friendly relations, but enough to occasion a feeling of uneasiness. This has finally resulted in the resignation of the latter. There was probably never a more faithful officer of the government than Gen. Spinner. For the first five years that he had held the office he was constantly at his post, working an average of seventeen hours a day. So close did he stay in his place that in those five years he did not once visit his home in New York State. His integrity has always been above suspicion.

## MICHIGAN NEWS.

### INDUSTRIAL PROGRESS.

SHIPMENTS of lumber from the Saginaw valley by water during the year 1874 were 448,707,652 feet; salt, 501,104 barrels.

Fog some time past operators have been engaged boring for coal on Rifle river, north of Bay City. A day or two since they struck two veins, one of them two and one-half feet thick, only eleven feet below the surface; and the second, five feet thick, only eighteen feet below the surface. The coal is very fine and the parties interested are highly elated.

The lumber camps in the Grand Traverse region are all breaking up, and mill proprietors are putting their mills in order preparatory to a good season's work. Loggers, the past winter, have cut double the amount of the year previous. The snow has been so very deep that it has taken twice the force of men and teams to put in an equal number of logs.

THE first boat of the season, the Carrie H. Blood, has arrived at Port Huron from Marine City. She is to make daily trips to Algonac, running in connection with the Chicago and Port Huron railroad.

### LEGAL.

It is not definitely known whether litigation will prevent the Ward mills, at Ludington, running this season. Their stoppage would be at least \$100,000 loss to the town.

### RAILROADS.

THE Trustees have filed a bill, asking that the Detroit and Milwaukee railroad be placed in the hands of a receiver, so that the earnings of the road may be applied to its repairs, instead of the payment of its debts.

On account of bad roads the mass railroad meeting called at Au Sable, April 8, has been postponed to May 13.

THERE is rejoicing at Marquette over the passage by the Legislature of the bill granting lands to the Marquette and Mackinaw Railroad Company.

### CRIME.

On the night of Dec. 7, Alexander Stewart left East Saginaw, to go home to Saginaw City, and was not afterward heard from. A reward of \$500 was offered for information as to his whereabouts, but nothing was heard until Sunday, when his body was found floating in the river, several miles below East Saginaw. Deceased was 40 years old, and leaves a wife and six children.

At Detroit, on Monday, as the Atlantic express train from Chicago neared the Grand Trunk junction, Carl Ludwig, who was on his way from his home at Milwaukee to a visit to his home in Germany, became possessed of the idea that men on the train intended to murder and rob him, and jumped off. His body was found horribly mangled. His wife and father continued their journey, the railroad company undertaking to bury the deceased.

### CASUALTIES.

THE breaking up of the ice in Grand river caused considerable damage. Four iron and one wooden bridge were carried away at Lansing, involving a loss of \$50,000.

MR. VICKER, the engineer at Dodge's mill, near Elba Station, was instantly killed on Friday by being caught in the belting.

### DEATHS.

NILES is in mourning again over the death of one of her best and most useful citizens, Dr. Stillman Richardson, who died a few days since, aged 69 years. He was an unusually skillful and successful physician and faith was reposed in him to a wonderful degree.

### MISCELLANEOUS.

THE postoffice at Raymond, Montgomery county, has been discontinued.

THE public school music-teachers of Michigan recently held a convention in Detroit and formed a permanent organization, with S. S. Jackson, of Detroit, President; H. W. Fairbanks, of Flint, Secretary; and C. B. Stockwell, of Port Huron, Treasurer. Most of the music-teachers of the State were present.

FAIRWELL, Osceola county, has a red-headed Indian.

THERE was an elderly man in Detroit the other day with his young son, looking for a recruiting office. He said he wanted his boy to learn the trade of captain in the army.

### THE LEGISLATURE.

TUESDAY, March 30.—Senate.—The Senate this morning adopted a concurrent resolution to adjourn over from Friday morning to the following Tuesday evening. Bills were passed requiring the collection of statistical information regarding the deaf and dumb, the blind, and the insane; and re-incorporating Benton Harbor and Ellettsville. The joint resolution proposing an amendment to the Constitution in the section relating to township libraries was lost. The joint resolution relative to the settlement of the specific taxes upon iron ore due from individual firms engaged in mining was passed. It authorizes a settlement upon the same terms as is accorded to companies organized under the general mining law.

HOUSE.—In committee of the whole nearly the entire day was spent in discussing the bills relating to the liquor traffic. Five bills in all were considered and amended, but the House refused to concur in the action of the committee.

The Senate passed a concurrent resolution for an adjournment upon the 23d of April, and for a final adjournment upon April 27. Adopted—yeas 23, nays 5. ment to the Constitution relative to constitutional amendments.

## POLITICAL MEMORANDA.

It is a coincidence, perhaps, that the two men who were elected Vice-Presidents when Mr. Lincoln was elected President—Hannibal Hamlin and Andrew Johnson—are now members of the Senate.

It is stated that the friends of ex-Senator Patterson, of New Hampshire, are about to take steps to vindicate him in relation to the Credit-Mobilier matter. Some new facts have come to light confirming the assertion of his entire innocence.

THURLOW WEED has been interviewed by a correspondent of the Cincinnati Enquirer on the Presidential prospects for 1876. He is reported to have said: "Your party (Democratic) might obtain the power in 1876 if it had good leaders. I can't, however, discover any within it."

CHICAGO Tribune: "When A. J. and B. B. heard of the Hon. J. Proctor Knott's lecture on 'The Model Statesman,' a blush suffused their cheeks, and they looked at each other with that benevolent expression which often accompanies conscious but modest superiority."

THE Utica Herald expresses the belief that the Speakership of the next House of Representatives lies between Messrs. Randall and Wood; that Mr. Kerr, of Indiana, will become Chairman of the Committee on Ways and Means, and Mr. Cox of the Committee on Foreign Affairs, while the chairmanship of the Committee on Appropriations will lie between Swann, of Maryland, Hancock, of Texas, and Lamar, of Mississippi.

THE act under which the North Carolina Constitutional Convention is to be elected requires every delegate to bind himself by oath not to help incorporate in the new instrument any clause impairing the operation of the Thirteenth, Fourteenth or Fifteenth Amendments to the Federal Constitution, or the reconstruction acts, nor any provision looking to payment for emancipated slaves, or in any way recognizing the rebel debt, or abridging the term of office of any of the present State officers.

DURING the Senatorial contest in West Virginia, Maj. Hotchkiss, of Staunton, made a sensible speech. He said: "Gentlemen—If no one will make a speech I will, and I will stop when I get done. Citizens of West Virginia, if you would all take the same interest in developing the resources of your country by opening your rich mines, cultivating the soil, improving your stock and cultivating habits of industry, that you take hunting public offices for yourselves or friends, you would soon have one of the first and best States in the Union."

THE Washington correspondent of the New York Graphic writes: "Speaker Blaine is a large-sized, determined, healthy, muscular man, and the back hair of the clerks who sat in front of him is filled with chips that flew from the bodies of his ivory mallets. He always preserved order when he started to do it, for he meant business if the desk had to go. He was a model Speaker, for he never got tired. He loved his neighbor, for he always told him to sit down when he should know enough to sit down and stop talking loud, and in this consisted good advice that was appreciated."

A WASHINGTON letter-writer says of the two New York Senators: "The most striking and engaging of the new acquaintances is Kernan, of New York. I hate to admit it—but if truth does not prevail in the correspondents' gallery where shall the weary seek it? New York possesses the two fine-looking men of the Senate. If common repute be not a jade, that State is likely to also own the two chieftains of the body. Conkling's mastery of the radical side is undisputed. He is the big, bright, handsome boy on the back forms, and the remaining Republicans are his abject tags. Kernan comes accredited with the ability which should give him the control of the opposition. He has all of Conkling's strong points, with geniality added. It is odd that the 'coincidence' hunters do not dwell more upon the fact that New York, largest and grandest of commonwealths, furnishes the two powerful men of the Senate, and picks them both from a small inland city—Utica—whose population covers in the neighborhood of only 30,000."

## Posture.

In standing, the true posture is the upright one with the heels together, or nearly so, and the toes turned out at an angle that is easy, and gives a strong base support to the body. The arms when not in use should hang evenly by the side, or be folded on the chest. In sitting, the spine should be kept straight, and the hips and knees only bent. Suppose you try standing in the way I tell you, and, to be sure that you are upright, stand with your heels against the wall of the room. Now if your hips, shoulders, and the back of your head touch the wall, you are upright. Maintain this attitude and go before a large glass and see how straight you are. Try and get into the habit of maintaining this posture when standing, walking or running; and after a while it will be easy for you. Now sit down in your chair as you generally do, sprawled out over half the room, so nobody can get by you without falling over your feet and legs, and ask your mother how she would like to have you always take up so much room in the world. Then try sitting upright, and see how she likes that. Try both ways before the glass and see if you don't like the upright position best. Some people think it a sign of weakness to look much in the glass; but I should like to have one side of every room, from the floor half-way to the top, a large mirror, so people could see their own behavior and attitude in it all the time. I believe they would be ashamed of themselves whenever they saw anything wrong, and learn to do better. One reason why many people are so mean is because they never see themselves. They don't know how badly they do act. A very large looking glass in their room would help them a good deal. Fancy, for instance, a large boy or girl quarreling right before a large mirror. They would laugh themselves into good nature at once, or else go off and hide for shame. Then again, if people could always see themselves in a large mirror they would like their good deportment so well that they would want to repeat it constantly. Sickly, deformed and ugly people never want to look at themselves in the glass.

Uprightness of the body is not the only thing to look after. There is an uprightness of mind that thinks and acts correctly, that does what is right, tells the truth, and is kind and tender of the feelings of others. There is a verse in the Bible which every boy and girl should remember and practice, and which reads: "Mark the perfect man and behold the upright, for the end of that man is peace."—Herald of Health.

## Marriageable Ages in Different Countries.

In Austria the age of discretion, both for males and females, is 14, and unless this age has been reached by both parties, the marriage is not valid.

In Russia 18 for males, and 16 for females.

In Italy 18 for males, and 15 for females.

In Prussia 18 for males, and 14 for females.

In France 18 for males, and 15 for females.

In Bavaria the rule is different in different districts; in one being as low as 14 for males, and 12 for females.

In Denmark 20 for males; 16 for females.

In Greece 14 for males; 12 for females.

In Hesse-Darmstadt and Baden the consent of parents is necessary to males until their 25th year, and to females until their 21st.

In Saxo Coburg Gotha the law is somewhat curious about marriage. The general rule is, that a man cannot marry until he is 21; but an exception is sometimes made, by grant of the government, upon petition, where the parents of the young man are unable, from age or other cause, to manage the farm or their business, whatever it may be, and it is deemed that the assistance of a young woman will be useful in the household—not, we presume exclusively in playing the piano.

In the American Union marriage is regulated by the different States, although Congress has assumed to prohibit polygamy. Not only are the required ages different, but the degrees of relationship within which marriage is permitted. In some States an uncle and niece are allowed by law to marry each other.

## A Formality Complied With.

In Augusta no provisions have been made this winter for feeding and lodging tramps. A vagabond went into a police station and wanted to sleep there:

"We only lodge prisoners," said the Sergeant behind the desk.

"You only lodge prisoners," replied the vagabond meditatively.

"That's all," was the reply; "you've got to steal something or assault somebody, or something of that kind."

"I've got to assault somebody, or something of that kind," again repeated the vagabond, thoughtfully. Then he reached across the desk with his long arm, and knocked the Sergeant off his stool, saying, as the officer got up with his hand to his eye, "Give me as good a bed as you kin, Sergeant, 'cause I don't feel very well to-night."—Portland (Me.) Argus.

NEW YORK Tribune: "There is likely to be a good deal of brimstone in the air in Ohio during the next campaign. Gov. Allen, according to the Republican journals, indulges in profanity to that extent that it passes out under the door of his room in a blue fog whenever he becomes excited. The Hon. B. F. Wade has always had the reputation of being an expert in the same way, and Mr. John Robinson, the circus man, whom the Republicans have nominated for Mayor of Cincinnati, is said to use expressions which would knock the bark off a hickory tree. Messrs. Moody and Sankey should come home from London and, with Mr. Varley, concentrate at once upon Ohio."

In the evening the entire Fire Department turned out, and in torch-light procession, headed by our Cornet Band, tendered their congratulations to the mayor-elect, and others.

THE Holland Soldiers' Association met on Thursday evening, pursuant to call. The attendance was fair and the object of the meeting, to wit: the proposition to attend the Soldiers' reunion at Grand Rapids on Wednesday next, in a body, was heartily endorsed. Arrangements were made preventing any one from not attending for want of sufficient funds if any such there might be. It is announced that our Cornet Band will accompany them. A committee was appointed to see about a special train, in case the number attending should warrant it. It was also resolved that the soldiers' wives should accompany them, inasmuch as the preparations at Grand Rapids are based upon this understanding. From the *G. R. Democrat* we learn the following details in regard to the arrangements made there: "The preparations are made on an extensive scale. Over twenty regiments will hold their annual reunions, in the forenoon of that day. At 2 o'clock P. M. the Michigan Soldiers' and Sailors' Association will convene at Power's Opera House to transact their annual business and listen to an oration by Chas. H. Dennison, Esq. In the evening the banquet will be held, which promises to be a most enjoyable affair. Through the kindness and liberality of Messrs. Berkey & Gay, the committee have secured the second floor of their new mammoth warehouses, on Canal Street. The room is 75 feet wide and 220 feet deep, giving space to seat from 1,200 to 1,500 persons. It is expected that the soldiers and sailors throughout the State will make arrangements to be present with their wives and daughters. No wines or liquors will be used. Gov. Bagley and wife, ex-Gov. Blair and his wife, and many other prominent citizens of the State are to be present. The desire is to bring the pleasures of this banquet within the reach of all, officers and privates. To this end the tickets will be placed at the low figure of \$1 a plate, although the cost of the entertainment will greatly exceed the receipts at that price.

THE spelling mania that is causing such general enthusiasm, throughout the country, paid our city a visit on Wednesday evening last. The following "dodger" gave notice of the event:

## SPELIN SKOOL!

Evrraboddy iz envited 2 kom 2 a spelin mach at

KENTON'S HALL.

on

Wednesday nite, April 7.

A valybel pryze wil bee given 2 the suksesful kompetetur.

Pursens attendin nead knot spel unles thay want 2

Admishun, 10 Sense.

Webster's Dicksunery and Spelin book wil bee yusd.—Spelin beginz at 8 o'clock.

The audience we confess was not as large as it should have been, yet a most truly "good time" was enjoyed by all. The number of spellers was about forty. As announced, the words were taken from Webster's speller, beginning with the "little ones." For a time not much effect was produced by the fine shot, but the ranks soon became thinned. Three "spells" were had, the last being for the prize—a beautiful copy of Moore's poems, which was carried off by our young friend John C. Post. As "ichthyology" and kindred bad ones were given, on the last few rounds, the enthusiasm became general and both the audience and the spellers were infected with the excitement.

In short the affair proved very successful, so much so that another spell was unanimously called for. The committee have therefore concluded to have a second match on Monday evening next, at Kenton's Hall.

Three prizes will be given: 1. A prize to the best speller. 2. A prize to the person missing the first word. 3. A prize to the best speller among our boys and girls. No person over 17 years of age will be permitted to compete for the last prize, which will be an article of value. The spelling begins at 7:45 P. M. The first match will be for the third prize; after which the general spell takes place. All are invited to put in an appearance, the admission being but ten cents.

THE *Minneapolis*, on her first trip this season, finally succeeded in reaching Milwaukee on Tuesday. Capt. Saveland reported the following incidents of the trip:

\* \* \* About fifteen miles east-northeast off Milwaukee heavy ice was again struck, through which the *Minneapolis* could not penetrate. She was accordingly backed out, headed southward, and upon reaching open water, steamed around the ice field into Milwaukee bay. There is not to exceed forty miles of open water between Milwaukee and Grand Haven, a distance of eighty-five miles. Some of the ice is of great thickness—bergs from beneath which the action of the wheel of the *Minneapolis* forced the ice that supported them, showing a height of between thirty and forty feet as they toppled over. The bergs were mainly formed by the continuous westerly winds of last winter. The present warm weather, Captain S. says, is rapidly softening the ice, so that in a few days more no great difficulty will be experienced by propellers in running from shore to shore. There is not over fifteen miles of clear water, between Sheboygan and Ludington, while north of those points the ice undoubtedly extends from shore to shore. Much of the ice in the middle of the lake looks as if it had never been disturbed by the action of the water while in process of formation, presenting the appearance of a level plain for many miles. In many places large bodies of ice were passed, showing a thickness of eight feet beneath the surface. These facts, prove beyond a shadow of doubt that the ice during February and the early part of March extended from shore to shore, between Milwaukee and Grand Haven, and farther south. A south wind is steadily driving these immense fields to the lower end of the lake, where they will form an impenetrable barrier to navigation for weeks to come, unless they are again driven this way by northerly currents. To effect this change, however, the wind must blow steadily from the north for a week or ten days.

At the regular meeting of the Common Council on Thursday afternoon, Mayor-elect Van Landegend resigned his position as Alderman of the First Ward, leaving a vacancy in that office for the term of one year. This has led to the call for a meeting of the voters of that Ward to consider in what way this matter could be disposed of the easiest and the quickest. It is generally conceded that a regular election is not the most desirable plan. It is expensive to both the corporation and the parties on the "anxious seat," and will cause delay in the organization of the new city government. And inasmuch as it is optional with the council to order a new election or fill the vacancy by appointment, we consider a call for the meeting of the voters to be wise and judicious. A plain and honest expression on the part of a majority of the voters of the First Ward will perhaps be sufficient to induce the Common Council to make the appointment accordingly. Let there be a good turn out, and a day or an evening fixed for a formal vote, the result of which can be laid before the Council for official action. See the call in another column.

## Special Notices.

### TO CONSUMPTIVES.

The advertiser, a retired physician, having providentially discovered, while a Missionary in Southern Asia, a very simple vegetable remedy for the speedy and permanent cure of Consumption, Asthma, Bronchitis, Catarrh, and all throat and lung affections,—also a positive and radical specific for Nervous Debility, Premature Decay, and all Nervous Complaints, feels it his duty to make it known to his suffering fellows. Actuated by this motive, he will cheerfully send (free of charge) to all who desire it, the recipe for preparing, and full directions for successfully using, this providentially desired remedy. Those who wish to avail themselves of the benefits of this discovery without cost, can do so by return mail, by addressing—

DR. CHARLES P. MARSHALL,

64 Niagara Street, Buffalo, N. Y.

### First Ward Meeting.

The Voters of the First Ward are requested to meet at Kanters' basement, on Saturday, April 10, 1875, at 8 o'clock, P. M., to consider what steps should be taken to fill the vacancy occasioned by the resignation of Alderman J. Van Landegend.—The object is to secure the most direct and least expensive course, subject to the approval of a majority of the voters.

Holland, Mich., April 8, 1875.

K. Schaddelee, E. J. Harrington, A. M. Kanters, J. O. Doeburg, G. Wakker, J. E. Higgins, J. W. Minderhout, W. Benjamine, G. J. Dinkeloo, F. Slooter, A. Steketee, G. Slenk, R. A. Schouteau, G. J. Te Vaarwerk, John Meyers, J. McVicar, A. C. Matrau, G. J. Haverkate, G. Van Schelven.

### CENTAUR LINIMENTS.

There is no pain which the Centaur Liniments will not relieve, no swelling they will not subdue, and no lameness which they will not cure. This is strong language, but it is true. They have produced more cures of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, caked breasts, scalds, burns, salt-rheum ear-ache, &c., upon the human frame, and of strains, spavins, galls, &c., upon animals in one year than have all other pretended remedies since the world began.

"WEST WINDSOR, Mich., Dec. 10, 1874.  
"Mr. Riley Hance, of this place, an aged man, has had a wonderful cure by your Liniment, and he wants it made known for the benefit of mankind. The following is his affidavit.  
Yours truly,  
L. MCQUOWN.

"State of Michigan, County of Eaton, ss.  
"Riley Hance, on his oath, says: That for the last ten years he has been very severely afflicted with the Rheumatism, and has been for the last six years entirely helpless, inasmuch that he could hardly move, and had given up all hopes of ever being helped. And deponent further says that about five months ago, I commenced the using of Centaur Liniment, and it has produced wonderful results, and now I feel almost as well as ever.  
RILEY HANCE.

Subscribed and sworn to before me, this 10th day of Dec., 1874.  
LEONIDAS MCQUOWN, Justice of the peace."

Henry Black, of Ada, Hardin Co., Ohio, says: "My wife has had rheumatism for five years—no rest, no sleep—could scarcely walk across the floor. She is now completely cured by the use of Centaur Liniment. We all feel thankful to you, and recommend your wonderful medicine to all our friends."

"Messrs. Ross & Co.,—Some time ago I was shipping horses to St. Louis. I got one badly crippled in the ear. With great difficulty I got him to the stable, on Fourth avenue. The stable-keeper gave me a bottle of your Centaur Liniment, which I used on my horse with such success that in two days it was as active and as well as any horse I had. I have been a veterinary surgeon for thirty years, but your Liniment heads everything I ever used.  
A. J. MCARTY, Veterinary Surgeon.

T. G. Burnham, P. M., Little Lake, Wis., writes: "Last summer, I was induced to try a bottle of your Centaur Liniment on a bruised leg, and it gave instant relief. Since then I have used it in five cases, and it has not failed once."

White Wrapper for Family use. Yellow Wrapper for animals. Price, 50 cents; Large Bottles, \$1.00.

CASTORIA is a substitute for Castor Oil. It is as pleasant to take as honey. For wind colic and sour stomach it is simply wonderful. Physicians recommend it.

Price, 35 cents per bottle.

## ERRORS OF YOUTH.

A GENTLEMAN who has suffered for years from A Nervous Debility, premature Decay, and all the effects of youthful indiscretion will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience can do so by addressing in perfect confidence, JOHN B. OGDEN, 42 Cedar st., New York.

### TO CONSUMPTIVES.

THE advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge), with the directions for preparing and using the same, which they will find a sure Cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address—

194 Penn st., Williamsburgh, N. Y.

P. S.—The above medicine can be procured at the "City Drug Store," of HENRY WALSH, who has been appointed sole agent for this city.

Spring has set in. Robins, swallows, martins, blue birds and pigeons have made their first appearances, and fresh fish are plenty. But the most positive indications are a flock of swans that were seen passing north on Tuesday last, and the departure of Borstlap for the Kalamazoo regions on his annual "grubbing" tour.

THE personal degradation and political corruption attending appointment by influence are among the most serious hindrances to republican government. Forty years ago Mr. Calhoun said in a report to the Senate what experience has justified, that no better means could be found "to destroy the love of country and to substitute a spirit of subserviency and man-worship, to encourage vice and discourage virtue, and, in a word, to prepare for the subversion of liberty and the establishment of despotism."

My aim has been to work the greatest good to the greatest number, as I understood it, leaving the consequences with God."

LLOYD, the famous map man, who made all the maps for General Grant and the Union Army, has just invented a way of getting a relief plate from steel so as to print Lloyd's Map of American Continent—showing from ocean to ocean—on one entire sheet of bank note paper, 40x50 inches large, on a lightning press, and colored, sized and varnished so as to stand washing and mailing, for 30 cents, and plain for tourists 25 cents, or mounted with rollers ready for the wall, and delivered post-paid anywhere in the World, on receipt of 50 cents. This map shows the whole United States and Territories in a group, from surveys to 1875, with a million places on it, such as towns, cities, villages, mountains, lakes, rivers, streams, gold mines, railway stations, &c. This map should be in every house. Send price to the Lloyd Map Company, Philadelphia, and you will get a copy by return mail.

## HOW TO MAKE MONEY.

Do not read this, unless you wish to know how to MAKE MONEY.

It is well known throughout the Colony, that Goods are sold cheaper at the CITY DRUG STORE, than at any other establishment in this City.

This fact being so well known, there is no use wasting words about it, in fact some of my opponents acknowledge that I sell goods at less figures than they can purchase them at wholesale.

Now I am still in the market with a full stock and am determined to undersell any dealer in Western Michigan. A large stock of *Paints, Oils, Varnish, Brushes, Etc.*, just received, which will be sold at "Bottom Figures," for cash. The question: "How to make money," is answered "by saving it." To do this, purchase at—WALSH'S.
