Suggest Pay Boosts For County

GRAND HAVEN — Salary increases averaging \$208 for each of the 115 Ottawa county employees and a recommendation for a hospitalization insurance program were recommended for 1966 to the county board of supervisors Wednesday in a report from the personnel service of the Michigan Municipal League.

City Manager R. V. Terrill of Grand Haven, chairman of the officers and employees committee of the board, reported that the survey was completed recently. The service also submitted a program of reclassification of all county employees.

The increases in salaries would add about \$25,000 to the salary budget for next year, which will be approved at the October session. The cost to the county of the hospitalization program will be \$6,000. Salary boosts will go into effect Jan. 1.

The board adjourned Wednesday until 1:30 p.m. today, when the April session will be concluded. The report of the committee on equalization was submitted Wednesday and action was to be taken today.

Sheriff Bernard Grysen explained the new driver's license system of the secretary of state's office, which will go into effect July 1. Instead of the six drivers' license stations now being used in Ottawa, the state office plans to use only two, one at the police station at Holland and one at Grand Haven. The state prefers to use the sheriff's office at Grand Haven for the north Ottawa station instead of the city police station at Grand Haven as there is no room for the expanded service at the local station, Grysen said.

Mr. Terrill was asked to obtain more information about accommodations at Grand Haven and report back today. Under the new system additional room is needed as photos will be taken of applicants. The sheriff reported that if the north Ottawa office is established in the sheriff's office at Grand Haven he will need an additional clerk-typist. This would cost the county \$1,827 in 1965 beginning July 1, he said.

Two requests for funds were made to the board Wednesday. City Councilman David Pushaw and Fire Chief Thomas T. Tilden of Grand Haven requested \$10,000 from the county contingency fund to help pay for a new fire-rescue truck for the north end of the county.

Pushaw reported that the truck would cost \$22,000, including equipment, and the local area would pay \$12,000. The equipment would be housed at the Grand Haven station and local firemen would maintain and handle the truck. Police and firemen in the townships near Grand Haven would also be trained to use the many pieces of equipment. Chief Tilden listed the uses for the truck and the request was referred to the ways and means committee.

Roger Vander Molen, Grand Haven, of the Michigan week committee in Ottawa county, requested \$500 in county funds to pay for expenses incurred in the promotion of the week. This request was also turned over to the committee on ways and means.

Chairman Herman Windemiller, Park township, of the buildings and grounds committee, reported there is a place designated on the north side of the new county building, now under construction, for a six-foot aluminum plaque of the county seal. There are several seals used by the county and Clerk Harris Niemusma reported that there is an official seal in circuit court. The board voted to adopt this seal as "official" and it will be used on the new building.

George Swart, Grand Haven, a former member of the board, was invited to speak to the board and related his experiences as a boy watching the construction of the present courthouse, dedicated 72 years ago. Valuable documents were included in a copper box placed in the cornerstone, he recalled.

Top Product Awards Given In County

GRAND HAVEN — A revolutionary type of office furniture won the Product of the Year award in Ottawa County this week as the Michigan Week judging moved closer to the state finals.

Action Office, a new concept in office furniture and modern working procedures, is the product of Herman Miller, Inc., of Zeeland. It was researched by Robert Probst, director of Herman Miller's research division, and designed by George Nelson.

West Ottawa School District won the community achievement award for the vocational department's home-building project. A \$15,000 home was built by 15 West Ottawa High School seniors, following a model designed in the classroom, and is to be sold in June.

The two Ottawa County winners will be judged in regional competition and, if they survive, will go to the state finals. State awards will be announced prior to Michigan Week, May 16 to 22.

Honorable mention in the county Product of the Year judging went to Modern Partitions of Holland for their Videne wood veneer wall partition, and Weldon Products of Ferrysburg for the butter bank, a method of cold storing and dispensing butter patties in cafeterias.

Action Office provides components that permit a variety of postures — stand-up desks, perching desks and smaller sit-down units, and takes advantage of open-sided working areas.

Projected first-year sales for Action Office is \$600,000, and the new sales volume provides employment for 21 new people at Herman Miller, providing an additional annual payroll of \$120,750.

Herman Miller employs 275 people in Zeeland with an annual payroll of \$1,832,000. The new product, Action Office, is to be manufactured in Europe within the next three months.

The award-winning project of the West Ottawa vocational arts class was started in September and is scheduled to be completed by June.

The three-bedroom home is a ranch style home with double garage and full basement. It includes kitchen, living room, bath, dinette and laundry room.

A sub-contractor dug the basement and professional craftsmen installed wiring, plumbing and heating units. The 15 students worked with the contractors to learn all aspects of home building.

Two other classes at West Ottawa have also had a hand in the project. The home economics classes are planning some of the interior decoration, and the agriculture class is landscaping the lot.

The project was financed with a loan from a Holland bank. The 100-by-132-foot lot is located in Brookland subdivision.

\$1.6 Million City Budget Submitted

\$3 Million Hospital Addition Set

Room Rates Scheduled
To Go Up \$1.50; Wing
Will Add 50 Beds

City Council Wednesday night approved a three-part resolution submitted by the Hospital Board in connection with a proposed expansion program calling for a four-story wing extending west of the present building at an estimated cost of \$3 million.

The resolution called for approving the expansion program, the method of financing which will be by revenue bonds, and retaining bond counsel.

John H. Van Dyke, Hospital Board president, explained that the new expansion program has been under study well over two years and would boost the number of hospital beds to 193, compared with 143 at present.

The upper floors of the new wing would actually care for 106 patients, but some present patient rooms in the old building would be turned over to administrative work and other services.

Van Dyke explained that since July 1, 1964, the hospital has set aside \$2.50 per patient day into a fund for financing the new addition. To meet requirements of a \$3 million development, an additional \$1.50 would be needed, and he expected this would be reflected in new room rates about July 1. At the end of 10 months, there will be about \$97,000 in this fund. The request for revenue bonds sets the borrowing figure at \$2,750,000.

Addition of \$1.50 to present rates would boost hospital rates as follows: wards, \$22 to \$23.50; semi-private, \$24.50 to \$26; private, \$28 to \$29.50. The new figures do not reflect possible adjustments for increased operational costs.

Originally, Hamilton Associates had done a study on hospital needs and had recommended a \$2 million project for an expansion to 170 beds.

With faster growth reflected in the local area and ever increasing costs, plans were revised for 193 beds, and a resulting cost of \$3 million. Plans are being drawn by Schmidt, Garden and Erickson Architects of Chicago.

The new four-floor addition would lie parallel to the 1957 improvement program, extending west in the area of the present emergency entrance at the rear of the hospital. The four floors would correspond to the four floors of the 1957 wing, listed as basement ground, first and second.

As an alternate bid, plans call for a fifth-floor shell, on the same level as the present third floor patient area. Preliminary estimates list this shell at \$125,000. This area which could care for 40 beds may be needed within five years.

Van Dyke explained that the new wing would be geared mainly to patients. It would be completely air conditioned. The development would expand services in administration, x-ray, laboratory, pharmacy, laundry, stock rooms, emergency and central services. New services would include an intensive care unit, radio-isotope unit, new elevator for transporting patients, automatic pneumatic tube system, and separate public parking. Public parking would be developed in front of the hospital on Michigan Ave.

Van Dyke said increased rates are within the Blue Cross formula which also allows for full depreciation and interest. He said the Michigan Hospital Association currently is conducting a survey on rates and is finding some hospital room rates appear low, but high fees on service offset some figures. He felt local rates were well in line with other area hospitals and lower than rates in Grand Rapids.

Medical and surgical beds were occupied 87 per cent the past year, necessitating beds in halls on occasion, plus cancellation of many surgical cases. X-ray has shown a 45 per cent increase in five years listing 17,000 examinations in 1964. Laboratory has had an 85 per cent increase in five years, listing 76,000 tests in 1964. In 1964 a total of 7,500 emergency cases were treated, compared with 3,433 emergency cases in 1958.

Van Dyke felt that population growth in the area will cause increased demands on hospital facilities in coming years. While he was unable to predict what Medicare would do to the hospital, he felt sure it would have a marked effect, further necessitating expansion of facilities.

Council Okays Sunday Opening For Windmill

Windmill Island will operate on a modified seven-day week program, City Council decided Wednesday night by a vote of 7 to 2. Dissenting votes were cast by Councilmen Morris Peerbolt and Richard W. Smith.

The matter of Sunday operations, which had become a controversial issue in Holland, was recommended in a communication from the Windmill Island, consisting of Willard C. Wichers, Henry S. Maentz, Seymour Padnos and Henry Steffens.

Steffens, also a councilman, proposed that the hours on Sunday be from 11:30 a.m. to 6:30 p.m. except for the Sundays near Tulip Time, and the Labor Day weekend. This recommendation was included in the motion.

The communication indicated every effort would be made to develop a special type program aim of the committee to pleasing to both visitors and the citizens of Holland. The committee felt that as host, the city must be concerned with the convenience of its guests in addition to the views of local residents.

The committee suggests musical selections, choral groups in lieu of klompen dancing and extra emphasis on cultural aspects of the park as well as information on the city's traditions and heritage, as appropriate for Sundays.

In response to questions by Peerbolt and Smith, City Manager Herb Holt said it was the aim of the committee of please as many people as possible and that some Windmill Island advertising could include information on Sunday hours, but probably not all forms of promotion could carry the Sunday hours.

Trombonist Featured at Concert Here

Trombonist Robert Gutter will appear as guest soloist with the Hope College band in a concert Friday at 7:30 p.m. in Dimmet Memorial Chapel.

Under the direction of Robert Cecil the band will open the program with Johann Fischer's "Le Journal du Printemps," (1660) in four movements.

Gutter was principal trombone player with National Symphony orchestra of Washington, D.C., the Washington Opera society and the Washington Cathedral orchestra.

He will perform Rimsky-Korsakov's "Concerto for Trombone and Band" in three movements and Don Gillis' "Dialogue for Trombone and Band."

A clinic for interested brass players will be conducted by Mr. Gutter in the chapel basement following the concert.

The 135-member Hope College chorus directed by Roger Davis will also present several numbers with Robert Barrows at the organ. Included will be "Jubilate Deo" from the Sacred Symphonies of Giovanni Gabrieli.

Other selections by the Hope band are Sousa's "Hands Across the Sea," "Ulysses Kay's" "Short Suite" in five movements, Carlos Chavez's "Vals Nostalgico" and William Walton's "Crown Imperial," a coronation march of 1937.

Eta Gamma chapter of Beta Sigma Phi met Monday at the home of Mrs. James Jellison. Mrs. John Snively presented a list of activities which the chapter could use as cultural projects. Following the business meeting members participated in a Chinese auction. Dessert and coffee were served.

The program at the final PTA meeting of the Longfellow school Tuesday included string instrument numbers under the direction of Mrs. Calvin Rynbrandt and selections by the fifth grade chorus as well as the sixth grade chorus directed by Miss Belle Kleinhessel. These numbers were omitted in a story appearing in the Wednesday edition.

Weekend guests at the home of the Rev. and Mrs. Verne C. Hohl in Saugatuck will be the Rev. and Mrs. A. Fergus with of Nashotah, Wis. Fr. With is vicar of Holy Innocent's Church at Nashotah. He will preach at the 11 a.m. service at All Saints' Episcopal Church, Saugatuck on Sunday.

In answer to Smith's question of no charge for Sunday, City Attorney Gordon Cunningham said there could be no free admission so long as revenue bonds are outstanding. He said some changes possibly could be made in the bonding ordinance but none that would dilute the economic protection that bond holders have. "I am sure free admission is completely out of the question for the present. After the bonds are retired and the city owns the development, then perhaps such changes can be made," Cunningham said.

In connection with the Windmill Committee letter, Deputy City Clerk Terry Hofmeyer presented petitions bearing 792 signatures requesting that Windmill facilities be operated on a seven-day basis. Also presented was a letter from Mr. and Mrs. William Boersma, 1149 Legion Park Dr., expressing the hope that Windmill Island would be closed on Sunday. Hofmeyer substituted for City Clerk D. W. Schipper who is attending the Municipal City Clerks' convention in Flint today and Friday.

There were 24 persons in the audience. None participated in the Windmill Island discussion. The seven-day proposal was offered as a substitute motion to one calling for a Monday through Saturday schedule which had been tabled several weeks ago, well in advance of the spring election April 5.

City Manager Holt emphasized that there are many unknowns in operating new projects. "We'll know a lot more about operations a week after Tulip Time," he said. "We know a lot more today than we did six months ago."

Tax Rate Increased 61.9 Cents

5 Per Cent Pay Raise
For All Employees Set;
Public Hearing May 5

The 1965-66 proposed city budget calling for expenditures of \$1,628,320.80 was presented to City Council Wednesday night.

The tax rate will be increased 61.9 cents per \$1,000 assessed valuation. The new rate is \$19.626 compared to \$19.007 for the current year.

The total to be raised by taxes is \$923,998.43 up \$37,266.99 from the current year.

The budget is on file in the clerk's office. A public hearing is set for May 5 at which time the budget will be adopted.

A summary of the budget will be published in the Sentinel before April 28.

The budget is for general city operations and does not include the Board of Public Works or Holland Hospital. Both operations are self-supporting.

The hospital budget is \$2,007,970.

The Board of Public Works budget lists the following breakdown:

Electrical — \$229,583, capital expenditure, \$413,900; Water — \$478,664, capital expenditure, \$255,300; Sewer — \$248,221, capital expenditure, \$248,400.

City Manager Herb Holt explained that the new budget includes a 5 per cent across-the-board increase for all city employees effective July 1. This is the first pay adjustment in two years. This action affects Board of Public Works employees and Hospital employees as well as general city employees.

Holt described the new budget basically as a continuation of the existing program, one with no major changes but reflecting increases which are the inevitable result of rising costs. The personal services budget this year totals \$820,000 or some \$36,000 more than the 1964 total of \$784,000. Yet a half-mill on valuation would bring only \$23,000.

One item the city does not have to budget next year is welfare, now handled by the county, eliminating a \$30,000 item. On the other hand, the budget for Herrick Public Library was boosted from \$92,344.58 to \$107,613.64 or an increase of \$15,269.06. The library is contemplating a new service program whereby all families in Ottawa county not-served by another library could share local services on payment of a \$1 fee per family per year.

Under such an arrangement, the local library could share in the distribution of penal fines which could mean \$30,000 in revenue. It is estimated that the county will distribute \$50,000 in penal fines to libraries on the basis of 50 cents per capita.

The budget also includes \$1,800 for support of Park Township Airport and provides two police dogs for the police department.

Debt retirement in the new budget totals \$93,000 or \$4,000 less than last year. Debt retirement covers Civic Center, the 1957 addition to Holland Hospital, and the 1960 sanitary sewer improvement.

City Council Lets Paving Contract

West Shore Construction Co. was awarded the 1965 paving contract for Holland at a regular meeting of City Council Wednesday night.

The firm's low bid of \$43,753.91 will cover the following projects: Central Ave., 37th to 40th St.; Central Ave., 40th St. to US-31 bypass; 37th St., Pine Ave. west for 504 feet; Kollen Park Dr., 11th to 12th Sts. Three other bids were submitted.

Council awarded a contract for approximately 20,000 gallons of dust palliative road oil applied to West Shore Construction Co. at a cost of 10.6 cents per gallon. The company was the only one of four bidders whose bid met specifications, and the city manager's recommendation listed it as the best bid for the city.

One request to move a house was approved and another was denied. Granted was Walter Deitz request to move a house from 424 West 32nd St. to 510 West 32nd St. Denied was his request to move a house from 697 Maple Ave. to the southeast corner of 31st and Maple Ave. A petition bearing 16 names objected to the latter move.

Oaths of office were filed for John Gallen Jr., municipal judge; Gerald J. Van Wyke, associate municipal judge; Roy M. Heasley, board of appeals, and Guy E. Bell, planning commission.

Several licenses were renewed. Licenses for collecting rubbish were approved for George Bruschart, 1538 West 32nd St.; Fred Stam, 144 Fairbanks Ave., and Albert Van Huis, 325 West 48th St. Other renewals included Holland City Bus Lines listing no changes in routes, fares and buses; Warm Friend Hotel, dance permit; Erwin Atman of Sea Way Bar, dance permit.

Council granted a request of the Board of Education to have the city conduct the annual school election June 14, with the school district paying all costs.

Permission was granted Hotel Warm Friend in conventionary parking for the convention of Mothers of World War II May 4, 5 and 6. A letter from the Downtown Merchants' division of the Chamber of Commerce indicated no objection to the request.

A communication from R. E. Barber Inc. requesting water and sewer services to its property consisting of a six-acre site on East Eighth St. bounded by Waverly Rd. and the US-31 bypass, was referred to the Board of Public Works for report in two weeks.

Three recommendations of the Traffic and Safety Commission were approved. Smith also questioned whether improvements could be made to Prospect St. lying west of Prospect Park running from 22nd to 24th Sts. Holt said maintenance possibly could relieve some of the rough spots but felt no lasting improvement would be made unless the street is paved. Property owners there have not been agreeable to paving.

Injuries Fatal To Zeeland Man

Allegan County sheriff's officers Monday said they were convinced that Ronald J. Vanden Bosch, 21, of 755 Academy St., Kalamazoo, had swerved his car to avoid hitting a hen pheasant just prior to a two-car crash Saturday on M-40 south of Holland which claimed the life of the former Zeeland resident.

Vanden Bosch was pronounced dead on arrival at St. Mary's Hospital in Grand Rapids where he had been transferred from Holland Hospital following the accident at M-40 near 144th St. in Allegan County at 9:45 a.m. Saturday. Vanden Bosch received head injuries in the crash.

A four-month-old Holland infant, Glenna Overbeek, daughter of Mr. and Mrs. Jarvis Overbeek of 451 Beech St., was reported in fair condition at the Grand Rapids hospital today with head injuries suffered in the crash. She had also been transferred to St. Mary's Hospital from Holland Hospital. The baby's parents were released from Holland Hospital after treatment for minor injuries.

Allegan County deputies said Vanden Bosch was driving north on M-40 and the Overbeek auto was traveling south on M-40 when the two collided.

Overbeek told officers he was driving past a line of three cars waiting in the northbound lane for the lead car to make a left turn. Overbeek said he was even with the second car when Vanden Bosch's auto suddenly veered from the northbound lane into the southbound lane of traffic.

Vanden Bosch's car was struck broadside by the Overbeek car.

Deputy Jerry Beetley, who investigated the accident at the scene, said he was convinced Vanden Bosch had involuntarily swerved to the left to avoid hitting the pheasant.

The body of the hen pheasant was found near the wreckage of the two cars, Beetley said, and blood and feathers from the bird were found on the grille and headlights of Vanden Bosch's car.

Vanden Bosch had been living in Kalamazoo since September

Tulip Time Interlochen Program Set

Dance and music from Interlochen will be a feature of the 26th Holland Tulip Time festival.

The "Interlochen Presents" feature of the 1963 Tulip Time will be given the opening evening Wednesday, May 12, at 8:30 p.m. in Civic Center.

The dance, modern and ballet, will be offered by students of the Interlochen Arts Academy, a college preparatory high school for youth talented in the arts—the first such school in the country when it began in 1962 as an outgrowth of the famed summertime National Music Camp.

The music will come from Interlochen Arts Quintet, a professional woodwind group of academy faculty members whose experiences range virtually from one end of the world to the other.

"We are extremely happy that Interlochen can contribute to this year's Tulip Time," said Dr. Joseph E. Maddy, world famous music educator who is president and founder of both the camp and the academy.

The dancers, all students in their teens, have performed in many Michigan cities for varied groups, both adult and youth, and last spring performed in Philadelphia.

Under William Hug, a product of the Juilliard School of Music and performer with extensive background, and Patricia Carleton Sigurdson, formerly with the Ballet Russe de Monte Carlo and the American Ballet Theater, the Interlochen students train four to five hours a day, bringing their skills to an amazing level for teenage dancers.

The quintet has appeared in many states including two appearances in the Alaska Festival of Music. Its members are Melinda Dailey, bassoon; Don Haddad, French horn; Gary Sigurdson, flute, and Fred Orman, clarinet. All have rich backgrounds with symphony orchestras, as soloists and as teachers.

By Robert G. Burton

What is philosophy? In the vernacular a man's philosophy of life is simply the sum of his beliefs concerning the meaning and significance of his life. But one does not begin to philosophize in the technical sense unless and until one attempts to make a systematic and critical examination of those beliefs.

We acquire our beliefs through our experience, so if we would examine our beliefs, in an effort to gain a unified understanding of the universe and of our place in it, we must begin by reflecting upon the varieties of our experience.

Through systematic reflection we can examine and clarify those beliefs of which we were already aware, and what is more important, we can discover tacit beliefs of which we have not been explicitly aware.

Once our beliefs have been exposed and clarified as much as possible we are in a better position to see whether or not they are consistent with each other and what kind of world view they present.

So philosophy, which means literally "the love of wisdom," aims at achieving a reasoned conception or understanding of the universe. But wisdom is not synonymous with knowledge, since wisdom opposes foolishness as well as ignorance. Therefore philosophy implies the cultivation of critical judgment and the art of living well in addition to the pursuit of knowledge.

But why do we philosophize? We do have the capacity to reflect upon our experience, but capacities need not be exercised. Socrates held that the unexamined life is not worth living. But why not? Some men seem content with a pig-eye's view of the world.

It has often been argued, most recently by the existential psychiatrists, that man has a fundamental need to find meaning in his life, to gain an authentic philosophical perspective upon his very existence. But none of these considerations answers our question. We can at best observe that man is a creature who can, does, and apparently needs to philosophize.

So far we have been thinking about philosophy from the perspective of the individual. But is there a place for philosophy on the larger social and political planes? Yes. Consider the following problems.

We Americans enjoy a standard of living unequalled in the history of civilization. But our social and political freedom is being challenged both from within and from without by conflicting forces which are the expressions of conflicting philosophies.

We in the North would like to disavow any responsibility for the race prejudices which continue to separate and destroy us, by transferring our own guilt to the shoulders of the white southerner.

The white southerner often finds a different scapegoat in his own act of self-deception, namely the communists. Now Communism is certainly one of the forces threatening us, but we could learn something from the communists who are sensitive to a problem which we have all but ignored.

We are not yet fully aware

A burglar late Thursday or early Friday robbed a safe at Moor Shoes, 11 East Eighth St., of \$495.

Holland detectives said the money was taken from a small metal cash box in the safe, and included \$392 in receipts and \$100 petty cash. Detectives said the thief left \$45 and a bank book in the safe and also failed to take money from a cash register.

The burglary was discovered shortly before 9 a.m. Friday by store owner Harold Moor. Police said Moor opened the store at 8:30 a.m. and discovered the theft when he opened the safe.

Detectives said the burglar entered the store by prying a night lock on the rear entrance. He left the same way, locking the door as he went out, detectives said.

According to detectives there were no pry marks or other signs of forced entry into the safe.

Moor told detectives he had locked the safe prior to leaving the store after the close of business Thursday. The safe was closed when Moor opened the store this morning, detectives said.

Window display lights in the store are set to go out at 10 p.m. A light near the safe was burning all night, but police said the area where the safe is located is hidden from the street by shoe display racks.

United Fund State Budget Meeting Set

David C. Hanson and Mrs. Joseph Lang of Holland will represent Holland United Fund at the annual budget conferences of the Michigan United Fund April 27 and 28 at the Kellogg Center in East Lansing.

They are among 250 volunteer workers in Michigan who are serving on the admissions and budget committee.

Financial needs of state and national agencies which are included in the Holland United Fund will be determined. In 1964, the combined request of 37 agencies was \$4,398,937 but was reduced by the budget committee to \$3,784,145.

Among these agencies are Michigan Heart Association, Michigan chapter of the Arthritis Foundation, Mental Health Society, Michigan Kidney Disease Foundation and other agencies which in other states campaign independently for financial support.

United Fund leaders throughout the United States point to the annual Michigan admissions and budget session as one of the outstanding examples of United Funds meeting agencies needs on a state-wide basis. Michigan is the only state where many of the large national health agencies, such as the Heart Association, annually submit a budget for review. National agencies included in Michigan United Fund were reviewed at the annual budget conference in New York City in March.

Out-of-town guests included Miss Paulina Henkel, Mrs. John Crozier, Mrs. Howard Stowell and Mrs. Neal Van Voorst. Unable to attend were Mrs. Vaughn Bryant and Mrs. Arthur Hills.

that the miserly poor who comprise over two-thirds of the world's population are demanding their share of the wealth they see about them. The communists would subject the masses to greater poverty and less freedom for a time in order to produce the capital for the necessary industrialization so that in the long run both the poverty and the restricted freedom may be eliminated. We reject this answer, but our own answer has yet to be clearly formulated.

Communism subordinates the individual to the state. We have sometimes embraced the opposite extreme with a philosophy of individual self-interest. But since every individual must ultimately perish, mere individual self-interest can hardly be an ultimate ideal. There are no easy solutions to these problems. But can we afford to bury our heads in the sand or to take refuge in the inadequate theories of the past? Dare we choose

philosophizing?

THE KKK - YESTERDAY

The front-page headline of the Sentinel for Saturday, March 27, read: "Probe of Klan Sought by President Johnson." Referring to the organization as a "hooded society of bigots," he inevitably raises the question in every citizen's mind. "What is the history and record of this organization?" Space limitations compel compression to a very brief review.

Historically, had the words of the immortal Lincoln's Second Inaugural been heeded, it is possible the Klan would never have existed. "With malice toward none, with charity for all; with firmness in the right as God gives us to see the right, let us strive to finish the work we are in, to bind up the nation's wounds, . . . to do all which may achieve a just and lasting peace among ourselves and with all nations."

But 40 days after the address, an assassin's bullet struck down our great leader of that day. There followed a bloody Reconstruction period which is not a pleasant part in our history. Marauding freedmen, pillaging Negro militia, and the era of the "scalawag" and "northern carpetbagger" brought such indignities upon the fallen South that the Ku Klux Klan was born in its effort to strike back.

The Saturday Evening Post said editorially earlier this year: "There was hardly a responsible Southerner not involved in some way with the Klan during the heat of Reconstruction."

All this is a matter of historical record. It is depicted too (and some of us will recall seeing it) in David Wark Griffith's motion picture "The Birth of a Nation."

The Ku Klux Klan has had a number of reincarnations. It exercised a tremendous divisive force in our political life as a nation in the decades of the 1920's and 1930's.

After that turbulent period of history, which many of us lived through, it went into a decline but was stirred into action and resurrection again at the 1954 Supreme Court decision on school desegregation and during the next decade through the passage of the Civil Rights Act of 1964, burst into renewed activity into the Klan as we know it today.

Sunday School Lesson

Sunday, April 25
God's Hand in a New Order
By C. P. Dame

We have been studying lessons from the New Testament for some time and so now we will turn our minds to the study of lessons from the Old Testament. In this new series of lessons we will continue a series begun in 1963 with "Studies in Genesis" and carried further in 1964 with lessons on "Early Hebrew History." During this quarter we will study the rise and decline of the monarchy during the reigns of the three kings, Saul, David and Solomon, who ruled over the United Kingdom—the kingdom which lasted from 1000 B. C. to 922 B. C.

I. Nations do well to confess their sins. Samuel was the last of the judges who ruled for many years. The people wanted a change and so they asked Samuel for a king and become like the other nations. Samuel was old and his sons whom he had appointed judges "walked not in his ways, but turned aside after lucre, and took bribes, and perverted judgment. This blunder of Samuel — to appoint his sons—gave occasion to the elders to request a king. Besides, they wanted a strong central government, led by a king who could stop the aggressive Philistines.

The people asked Samuel to pray for them. Reluctantly God had given consent to choose a king. God felt hurt since He realized that the nation had rejected Him. Samuel had asked God to send thunder and rain in the time of the wheat harvest, in May and June, which came at that unusual season. This miracle made the people conscious of their sin in asking for a king. It is good for a nation or a congregation to become conscious of sin.

II. A nation's best citizens fear and serve God. Samuel told the people to serve God with all their hearts—not in a half-hearted manner. And Samuel warned them not to "go after vain things" that is to "nothingness" to idols which can't deliver. What a lot of vain things captivate many modern church members! God is faithful and will not forsake His people "for His great name's sake." And why? Well, because they were His people. God had done great things for them and therefore they ought to fear and serve Him in truth. To refuse to do that would lead to ruin.

III. God makes and keeps His promises. The last few verses of the lesson text tell about Solomon building the temple. God made promises to David, Solomon's father. They were conditional. If Solomon would keep God's commandments then "He would dwell among the children of Israel." But Solomon forsook God's commandments.

Solomon built a Temple, God's House. It took him seven years. He also built a house for himself. It took him thirteen years to do this. Does that suggest anything? We are building motels, skyscrapers, apartment buildings, palaces, government buildings, and they are all becoming more and more luxurious. No nation has ever become great by building huge edifices. What makes a nation great? How can a nation build the Great Society?

2 Local Men Tour Europe With Romney

Fifty Michigan business leaders, including two Holland men, led by Governor George Romney, depart Thursday on a seven-country European tour for the purpose of seeking business and information.

The project, termed Operation Europe, includes Charles Conrad, president of the Thermo-Ron Corporation of Holland, and Richard De Witt, president of Big Dutchman, Inc. of Zeeland, among its members.

Operation Europe grew out of the theme of this year's Michigan Week promotion, May 16-22, "Michigan — Dynamic in World Progress." Unlike many state trade missions which are sponsored and partially financed by state or local governments, this project is financed solely by its participants.

The 10-day trip will include stops in Amsterdam, Bremen, Hanover, Milan, Geneva, Paris, Brussels, and London. Romney will deliver speeches at most of these places, and he and the businessmen will meet with business and government leaders of the seven nations.

The objectives of Operation Europe are twofold: to create a greater awareness among Michigan businessmen of the market and trade potentials for them in Europe and to enable them to establish personal business contacts in the major world trade capitals; and, to give European business leaders in these countries a better understanding of the business potentials in Michigan.

For presentation to government officials and dignitaries in the various cities and countries, the Operation Europe group will carry with them, not the customary made-in-Michigan products, but rather eight \$1,000 scholarships for outstanding young musicians to attend the eight-week summer school music program at the National Music Camp at Interlochen.

At Amsterdam, the first stop, Gov. Romney will present a scroll from the city of Holland to Queen Juliana of the Netherlands. Romney received the scroll when here for dedication ceremonies of the windmill De Zwaan.

Holland High Students Tell Of Arkansas Exchange Visit

Southern hospitality is no myth. During their spring vacation, fourteen Holland High School teenagers were guests in homes of Little Rock, Ark., Central High School students and were thrilled by the warmth and friendliness of their hosts, their school, and their city.

Holland High students traveling to Arkansas were Dave Lauridsen, Bill Elenbaas, Sandy Vande Water, Linda Plaggemars, Prudy Todd, Virginia Evans, Judy Barber, Bob Venhuizen, Bob Brolin, Kurt Hopkins, Tom Burke, Linda Bauman, Colleen Lawson and Peg Lubbers.

They were accompanied by Mr. and Mrs. Al Dyk and Mr. and Mrs. James Van Lente.

Entertained by Mr. and Mrs. Winthrop Rockefeller in their lovely Petit Jean Mountain-top home, the Holland students toured the Winrock Farm and visited the Antique Auto Museum.

Later in the week, the visitors were presented honorary Arkansas Travelers Certificates, were feted at a dinner given by their hosts' parents, and were honored at a farewell dance on Friday night.

Pretty much aware now that teenagers are the same everywhere, the Holland students compared schools, after-school activities, and student behavior. The Dutch girls served that Central High boys were unusually well-mannered while Holland boys observed the beauty of the southern girls.

Little Rock students were interested in the differences in school program and Miss Colleen Lawson summed up the difference by saying, "Best of all, there are no bells and no study halls. Holland High's program prepares us well for college. There is no great adjustment period between high school and college."

The purpose of the exchange program is to provide for an exchange of ideas and to enable students to observe teenagers in other school situations.

Fifteen students from Little Rock's Central High School will return the visit in May, visiting their Holland hosts during Tulip Time.

Holland High's plans for their guests include scrubbing streets in Governor Romney's group on Wednesday, a scooter ride

Ottawa County Saugatuck 4-H News

By Willis S. Boss
4-H County Extension Agent

We hope that within the next two weeks we will be mailing out camp enrollments to those 4-H members who submitted applications for last year's camping program but were unable to come because of our full camp schedule. It is our intent to have these members receive their camp letter by April 23 so their reservations will be back by April 30 so we can make a new camp registration letter by May 10. We are also looking for a full-time cook for the 4-H Camp this summer.

We will be operating on a 6-week basis starting June 14, and the last session starting on July 19. Each session will run for four days and we anticipate 100 children for each session. Program planning is well underway. Also, if any of your older 4-H Club members, preferably 17 or 18 years of age girls are interested in being a camp counselor, we are interested in hearing from them.

The spring 4-H skating parties will be held in the various districts as follows: April 20 the Hudsonville area members will skate at the Tarry Hall Rink; on April 22 the Holland area members will skate at the Paramount Rollarade; and on April 27 the Coopersville area members will skate at the Ravenna Rink. All parties will begin at 7 p.m. and wind up at 10 p.m. Members may bring a friend. Admission is 60 cents, 25 cents extra for skates.

We are anticipating getting started with the summer program the second full week in May when we hope to have our initial leaders' training session and an open house. We will answer questions pertaining to 4-H which leaders may have. We would like 4-H Club leaders to plan on this so that they will be able to come in and get their materials about that time.

The new Ottawa County 4-H Plat book is available. The 4-H council representatives in the various districts are responsible for books in their area. If you would like to have a plat book, please contact one of the council members in your area.

The 4-H Council members are as follows: Coopersville District — Mrs. Richard Mc Nitt, Elmo Heft, John Koning, and Mrs. LaDeane Sichterman. Holland District — Mrs. Henry Elzinga, Chet Raak, Barney Zuidema, and Mrs. Harvey Grover. Hudsonville District — Mrs. Lucille Van Noord, Harvey Brouwer, Gerrit Berens, and Mrs. Sierd Spoolstra.

Several of the outstanding 4-H Club members in Ottawa County will be receiving application blanks to submit for various awards on a district level the week of April 12. These blanks should be filled out in detail and 4-H Club members should check with their leaders in regard to filling these out. Kaat Pitches First Shutout This Season

MINNEAPOLIS, Minn. — Lefty Jim Kaat pitched his first shutout of the season and turned in his second straight nine-inning performance as the Minnesota Twins blanked Cleveland, 3-0 Saturday.

It was Kaat's first win in two starts. He pitched nine innings

Jim Kaat ... first since '63

in the Twins' opener against New York before retiring for a pinch hitter in the 10-inning game.

The victory was Kaat's first shutout since July 24, 1963. That shutout was also notched against Cleveland. He hurled a six-hit shutout and won the game, 5-0. The 1963 win was Kaat's 10th and final win that season as a shoulder injury soon after kept him sidelined. Kaat had a 10-10 '63 mark. He posted 17 wins last season to be the winningest Minnesota pitcher. None of the wins were shutouts.

In recording Saturday's shutout, Kaat gave up seven hits and one walk. He didn't have a strikeout. Two early double plays helped Kaat overcome an uncertain start.

The Twins scored two in the first inning on a double by Zoilo Versalles, single by Darmon Killebrew and triple by Jimmy Hall. Bob Allison's homer in the fourth was the other run.

Cleveland threatened in the second and fourth, when they touched Kaat for two hits, but he got the side out without damage each time.

The Twins made eight hits, including two by Allison and one by Kaat. Kaat has had two hits in six trips to the plate in two games.

Brown Predicts Title for Lions in '65

"I count on the Lions winning the championship this year," Lion defensive tackle Roger Brown said Saturday night.

The 300-pound all-pro tackle based his optimism on overall improvement and fewer injuries for the team this year.

In discussing the Lions at the Holland Sports Show Saturday, Brown said the Lion's new coach, Harry Gilmer should do real well.

One big change is that there will be no sharing of positions this year, according to Brown. Gilmer feels that the man best suited for the position whether a rookie or a veteran should get the job.

Brown said that no one could tell yet how the rookies will make out, but that the Lions have high hopes for three of their top draft choices, Tom Nowatski, Indiana fullback, Tom Myers, quarterback from Northwestern, and Jerry Rush, a lineman from Michigan State. Brown who has been an all-

pro selection three of his five years with the Lions evaluated some of his toughest competitors. As for blockers, Brown said he usually wound up with the most bruises after going against Baltimore offensive guard, Jim Parker.

"I wish he'd retire pretty soon," Brown added.

Brown rated Green Bay fullback Jim Taylor and Cleveland fullback Jimmy Brown as the two hardest hitting backs, and Lenny Moore of Baltimore as the best all around runner.

Commenting on the job of playing defensive tackle Brown said two of his biggest assets were his strong legs. He has 31 inch thighs and 22 inch calves. They allow him to power over blockers, and move with remarkable speed after ball carriers.

Brown is 6'4", but really does not look like a 300-pounder. This attests to his fine overall condition.

During the off season he stays in shape by working out three times a week, and push-

feature of the 11th annual event, sponsored by the Holland Jaycees. Brown predicted the Lions would win the National Football League championship this year and felt the Lions would be improved overall. (Sentinel photo)

This policy of calling out the Civil Defense unit was initiated by Vos a year ago every time severe weather is forecast and before the "Yellow" alert which means a tornado alert.

the cold front had gone through this area diminishing the possibility of tornado here, Vos took his men to the stricken area near Bentheim where portable lights, saws, chain and rope cam. in handy in removing debris. About eighteen men responded to Vos's call and aided in the emergency work south and east of the city.

Vos and Veldheer Monday attended a Civil Defense meeting in Holland where a member of the Grand Rapids weather bureau discussed the weather with heads of all police and Civil Defense personnel in the area. Elm Tree Spraying Set Here

The city park department will inaugurate its usual program of spraying elm trees for Dutch Elm Disease Thursday, weather permitting.

Park Supt. Jacob De Graaf said the city is continuing the program begun in 1955 on recommendation of the Michigan Department of Agriculture. He said other methods of elm tree protection have been under study but are not yet approved by the state department. In some cases, costs would be prohibitive.

Consequently, the program of spraying elm trees with 25 per cent DDT will continue. The program involves only trees on curb strips and on public property. Persons desiring to have elm trees sprayed in their yards may call private operators.

De Graaf said reports compiled by the Michigan Department of Agriculture indicate that cities which have a good spray program and a good sanitation program have a relatively low loss in Dutch Elm Disease. He added that all trees tagged for removal here last year by the state department had been removed.

The park department will put two crews on the spraying program, one working streets and the other avenues. Wind velocity should not be over 7 miles an hour, and the direction of the wind will determine which end of town the crews will start. Spray rigs make a good deal of noise and while the spray can be removed from a car with a light detergent, it has become the habit of local car owners not to park on the streets when spraying is underway.

Holland is one of about 100 municipalities in Michigan in a so-called "control area" of spraying elm trees. About a dozen years ago, a survey revealed 20 per cent of Holland's shade trees were elms. Since then a good many have been lost, but the loss has been higher in recent years.

Holland quadrupled in size a few years ago, necessitating expansion of the spraying program. De Graaf said elm tree loss in outlying areas is much greater than in the original city.

Tree loss in last summer's storm which ripped out dozens of large trees in Centennial Park and in the area of 11th St. and Pine Ave. affected mainly maple trees.

Instead, Manlius township Supervisor Jerry Lohman offered a motion designed to place the board on record as opposing all gambling in the state. The board was discussing possible amendments to this resolution when it was moved that the question be tabled until the April 26 meeting. This motion was approved.

Before adjourning to April 26 to give members of the finance and equalization committees time to prepare the preliminary 1966 budget and equalization report, the board also heard an oral report by Fred Neils, engineer-manager of the Allegan County Road Commission.

After discussing the commission's progress during the past year, Neils urged the board of supervisors to consider a long-range improvement program for county parks. First step, he indicated, would be running water and modern sanitary facilities for the three parks at a cost estimated at approximately \$30,000.

Table Motion On Racing In Allegan

ALLEGAN — Parliamentary maneuvering aimed at reversing the Allegan county board of supervisors' stand on dog racing was stymied Wednesday when the board voted 24-13 to table such a motion.

A group of five ministers and laymen appeared before the board Wednesday morning to urge supervisors to rescind a motion passed 24-14 in March which put the board on record as favoring legislation to legalize dog racing in the state.

It was pointed out to the group that it would be impossible under the board's rules of order — to rescind the original motion since the rules require that the same number of supervisors be present to vote on the motion to rescind as were on hand when the motion was originally passed.

Martin Township Supervisor Harold Monteith was absent, due to a serious illness, so the motion to rescind could not be offered.

Instead, Manlius township Supervisor Jerry Lohman offered a motion designed to place the board on record as opposing all gambling in the state. The board was discussing possible amendments to this resolution when it was moved that the question be tabled until the April 26 meeting. This motion was approved.

Before adjourning to April 26 to give members of the finance and equalization committees time to prepare the preliminary 1966 budget and equalization report, the board also heard an oral report by Fred Neils, engineer-manager of the Allegan County Road Commission.

West Ottawa Okays 6 New Teachers

Contracts for six new teachers for the 1965-66 year were approved by the West Ottawa Board of Education at a regular meeting Monday night.

Bert J. Berghorst will teach speech and direct the drama program. Ruth Remmerde, Sheryl Jansma, Ronald Bekins, Gertrude Arendsen and Marcelyn Weering will teach elementary classes.

Announcement also was made of the forthcoming school election in June to elect two board members for four-year terms. Those whose terms expire are James Corwin who was appointed recently to fill the term of Howard Davis who left Holland, and Louis Van Slooten, a board member for four years. Petitions with a minimum of 25 signatures must be filed in person with board secretary John Daniels, 3254 144th Ave., not later than 4 p.m. May 15. Petition blanks are available at the superintendent's office at 294 Lakewood Blvd.

In reply to an inquiry from Harrington school board, the board said its tuition policy remains unchanged and West Ottawa district will continue taking pupils from Harrington district.

The board considered a recommendation of the mechanics advisory committee calling for a power mechanics class starting in the 1965-66 school year and expanding the following year to include an advanced auto mechanics class if facilities can be provided. Estimated cost of tools and equipment for such a power mechanics course next year is \$8,000, not including teaching supplies and reference materials.

The board appointed Louis Van Slooten and James Corwin to review the distribution of insurance and insurance rates of the school district. It also approved a field trip for art department students to tour the Art Institute in Chicago under the direction of Robert Evans of the art department.

Nelson Lucas, attending as an interested citizen, expressed confidence in the board's athletic policies and said there is much more to coaching than a win-loss record. The board discussed its philosophy toward athletic events and personnel, emphasizing that the board is a policy-making organization acting on recommendations from the superintendent and athletic director, and that in no way wants to interfere in administrative affairs.

High School Principal Duane Hooker said work is being done to round out the teaching-coaching staff and final recommendations will come later.

Challenge to Freedom Cited at ASWA Meeting

"If we are to enjoy our freedom, we must accept the burdens as well as the glory," Mrs. Frederick H. Oert of Grand Rapids told more than 125 persons attending the 16th annual public relations dinner of the Holland chapter of the American Society of Women Accountants Tuesday night in the Tulip Room of Hotel Warm Friend.

Emphasizing that responsibility is always a great factor in any issue, particularly freedom, Mrs. Oert, wife of the minister of Central Reformed Church in Grand Rapids, said most freedoms sought by man are basically religious freedoms, yet man can spend his life looking for it and miss it completely. Her subject was "Free, But Not Easy."

"Man today lives in an atmosphere of conformity, yet in an atmosphere of distrust, and old concepts such as a man is innocent until proved guilty are under question as never before. Democracy is in danger of slipping, and we all have a responsibility in a return to trust."

Mrs. Oert was concerned with quick conclusions people reach these days, particularly young people. Sitting in with a young people's group discussing "Decisions 1965," she was alarmed at the easy conclusions they reached on U. N. failure, Viet Nam policy, Red China policy, and the seemingly undeniable belief that "we will always have war and its futile to work for peace."

"We need a few rebels today with ideals, people not over-ridden by distrust and fatalism... people who think rationally, make conclusions after deep thought and research, and keep alive this precious gift of personal freedom," she said.

As a resident of the south for 17 years, she spoke briefly on racial problems, adhering to the firm belief that people must realize when one group of people is held down, all are held down. "Don't be thrown off the track because Alabama is in the news now," she said. "In Virginia, the state of presidents, only 60 miles from the capital of Richmond is an area which has denied public school education to children for four years."

Bringing educational problems closer to home, she said all persons must be concerned with the education of all children, and had no sympathy for persons who vote down millage issues because they support private schools. "There are so many culturally deprived children in the country today, and you and I and our children must live with these deprived children. We cannot enjoy freedom unless all are free."

Attending the annual event were women accountants, their employers and guests. Celia Ver Hage, president, welcomed the group and Hannah Jipping program chairman, explained programs the past year. Henry Kleinheksel gave the invocation and Mrs. Isla Kamps provided music.
