Eight New Ordinances Introduced

Eight new ordinances were accepted for first reading at a meeting of City Council Wednesday night. Final action will be taken at the May 3 meeting.

Six ordinances referred to the Office of Environmental Health. One amends the building code, another gasoline service stations, another on fire regulations, and three measures to repeal current ordinances which no longer come under cities. These are ordinances on milk, meat, meat dealers and slaughter.

Other ordinances called for an amendment to the zoning ordinance, and one dealing with caring for lost and mutilated bonds owned by the city.

A Board of Public Works report recommending that the benefit charge to abutting properties for sanitary sewers be set at 100 per cent of the installed cost based on an eight-inch sewer was accepted for study.

Council approved low bid of R. E. Barber for a new truck for the Park Department for \$3,102.88 and low bid of Brevitz Equipment Co. for an aerial tower to be installed on the truck at a bid of \$10,107.

The city manager reported that as a result of improved plastic technology, the practice of using artificial ornamentation in the city's cemeteries is becoming more widespread. The majority of well managed cemeteries in the state prohibit the use of such material during the period from April 15 through Oct. 15. It is the plan of the city park superintendent to institute a similar prohibition to Holland because among other things, the artificial materials involve wire which creates a mowing problem. It was indicated this report was a matter of information and no action was necessary since this area has been delegated to the park superintendent by ordinance.

The city manager reported on a study on a petition protesting trucks using 40th St. east of the US-31 bypass. After investigation, the report said it appears that 40th St. may have to be used as a traffic route for the industrial park and therefore the problem is more complex than originally anticipated. It was recommended that more time be allowed for study and that the matter be referred to the Planning Commission.

City Engineer Harold Derks showed a map of the district, the places on the map of residents protesting the truck traffic, and the various roads currently accessible to plants in the industrial park. Ross Giles and Ab Martin of HEDCOR and Herb Thomas, industrialist at the sites, also spoke on the subject.

Council adopted a recommendation of the city manager granting a request of Barnes Oil Co. for a permit to install three 10,000-gallon underground gasoline tanks at 2 North River Ave.

Councilman Morris Peerbolt told Council he has been appointed chairman of region 5 of the Michigan Municipal League and that Holland has been requested to host the region 5 meeting next spring.

A communication from the Michigan Municipal League gave notice of the annual meeting Sept. 7 to 9 on Mackinac Island. Reservations should be made no later than June 1.

A request of the Board of Education to have the city conduct the annual school election June 12, entire cost to be assumed by the school district, was granted.

A letter from American Legion band thanking Council for providing funds to aid in purchasing new uniforms promised for delivery before Tulip Time was filed.

Council acknowledged receipt of gifts for the Hospital Board: P.H. apparatus, valued at \$2,131.25 from the Hospital Auxiliary Board; 66 New Testaments and 9 Bibles from Gideons International of Holland.

Council also acknowledged gifts from the Century Club to the Library Board consisting of \$7.50 each in memory of Miss Katherine Post and Mrs. William Tappan.

May 3 was set for date of public hearing for paving the north portion of an alley running from Eighth to Ninth Sts. just west of River Ave.

The city manager reported that at request of American Aerosols, an inspection was made April 14 by the city engineer, the Michigan Public Service Commission, C and O railway and American Aerosols for a proposed railroad crossing on 40th St. about 400 feet west of Waverly Rd. It was agreed that the spur beginning approximately 200 feet north of 40th St. on the C and O Allegan line

Infirmary Repairs May Run \$60,000

GRAND HAVEN — What to do with the county's old infirmary?

That will be the big question today as the Ottawa county Board of Supervisors concluded its four-day April session.

R. V. Terrill of Grand Haven, chairman of the buildings and grounds committee, reported to the board Monday that the fire marshal's office has listed 30 deficiencies in the county's "poor farm" at Eastmanville.

He said the board's improvement committee has investigated the cost of the work necessary to meet state standards and the work, including the installation of a \$23,000 sprinkling system in the building, will cost at least \$60,000.

Terrill moved that the amount be taken from the improvement fund, but Supervisor J. Nyhof Poel of Grand Haven opposed the plan, claiming it would be money thrown away. "Grand Haven just tore down the old junior high building," he said, "because it wasn't worth remodeling. I think the same is true of the infirmary. The building is too old, and should be replaced with a new building, costing about \$250,000."

Supervisor Robert Murray of Coopersville said the term "poor house" or infirmary does not pertain to the building any more. "It's a place for people who have to be taken care of can work. They are not bed patients," he said.

Stuart Poel of Grand Haven suggested that the county vote on the erection of a county medical center. The discussion became confused as different members were referring to two different establishments — an infirmary and a medical center. The question was tabled until today so that Larry Hillmore, director of the department of social welfare, could explain his proposal for the infirmary.

Hillsdale News Plans Tulip Tour

HILLSDALE — This community will be well represented at Holland's Tulip Time festival this year.

An announcement April 12 that the Hillsdale Daily News would sponsor a bus tour to Holland May 20 for Band Day at the Tulip Time Festival brought a phenomenal response of 193 reservations in 2½ days. The people will travel in five chartered buses, leaving at 7 a.m. from the front of the Daily News building and return about 8:30 p.m.

Some reservations came too late in the mail. These checks have been returned, but names of those persons have been placed on a waiting list.

The caravan is expected to arrive in Holland about 9:30 a.m. and will go directly to Nelis Tulip Farm. The group will visit the Wooden Shoe factory at 11 a.m. and have lunch at the Christian High School at noon. Each member will be carrying a tote bag labeled "We Grow Beautiful Flowers in Hillsdale County Too."

The five buses will be parked at the Holland Motor Express terminal for parade time in the afternoon.

Geneva Gates, woman's editor of the Hillsdale Daily News, is arranging the Holland trip. The newspaper has sponsored similar trips to flower shows, an ice show, and other events.

The May 20 group has cosmopolitan aspects. Included in the roster will be a German exchange student from Litchfield, and Stella Stefek, an 87-year-old friend from Reading, Mich.

Art Instructor's Works Accepted

Works created by Delbert Michel, instructor of art at Hope College, have been accepted in two national exhibitions.

Two acrylic paintings on paper, "Pilgrimage" and "Dunes" were accepted in the 26th National Watercolor Exhibition. The works will be displayed in the Mississippi Coliseum in Jackson, Miss., from April 27-30 and then move to the Jackson Municipal Art Gallery from May 1-30 as part of the Mississippi Arts Festival.

All of the works in the show, including those of Michel's, will tour Mississippi for one year in a traveling exhibit to be shown at universities, museums and public institutions.

Michel's acrylic work, "Figure in a Landscape," was accepted in the Third Annual National Drawing Exhibition at Bucknell University in Lewisburg, Pa. The show was open to all artists in the United States.

and crossing 40th St. at the present grade and 29 feet west of the existing crossing is a necessary facility. A resolution was adopted.

TREE PLANTING—A juniper tree was the first of 200 trees to be planted at Ottawa county's new arboretum at Hager Hardwood Park near Hudsonville at ceremonies Wednesday. Participating in the planting are, left to right, L. W. Lamb Sr. and Richard Ossewaarde of the Road

Commission; Herman Windemuller, chairman of the Board of Supervisors, and Titus Hager, park donor. Plantings of the trees throughout the season will be according to species. Windemuller and Hager spoke briefly at Wednesday's ceremonies. (Sentinel photo)

West Ottawa Dropouts Decreasing

School dropouts were discussed by the West Ottawa Board of Education at its monthly meeting Monday night, and members could take comfort in that fact that the number is decreasing, 22 this year compared with 46 during the 1965-66 school year.

The report covering the period from 1960 to the present was presented by Norman Boeve of the high school counseling department.

Of the 22 leaving school this year, six were in the 9th grade, seven in the 10th, five in the 11th, and four in the 12th. Five dropped out to get married, three were suspended and did not return, three had some problems, five lacked ability, and six just did not want to continue.

Boeve said teamwork among teachers, principals and counselors had a desirable effect on the general dropout problem.

During the summer months of the school year 1964-65, 27 students decided not to return to school, and in 1965-66, 13 discontinued school. Because of this dropout rate, Supt. Lloyd Van Raalte recommended that the board consider counseling services be made available throughout the summer months to provide continuity in efforts of counselors.

Of 227 high school graduates this year, 151 applications and transcripts have been sent to colleges, trade and nursing schools. From 40 to 50 per cent of the graduates usually take advanced training and the percentage is increasing each year.

Announcement was made that two members will be elected to the Board of Education June 12. Terms of Harvey Knoll and Carl Schaftenaar expire this year. Knoll has been serving a regular four-year term and Schaftenaar has been on the board two years, filling a vacancy caused by the death of Harvey De Vree. Schaftenaar has said he will seek reelection.

Petitions are available at the school office at 294 Lakewood Blvd. They should be turned to the board secretary, Jack Daniels, of 3252 144th Ave., not later than 4 p.m. May 13.

A teacher's contract was approved for Bernice Rose Van Engen, a June Hope College graduate who will teach English in the senior high school.

Tom Updegraff of the music department reported on the growth in band and orchestra from grade school through high school. Because of the rapid growth, Supt. Van Raalte asked the board to consider naming Calvin Langejans as chairman of the music department to direct and coordinate the entire music program of the district. Updegraff reviewed contributions of the Band Boosters in the community, pointing out that this group has purchased all uniforms for bands at West Ottawa.

Supt. Van Raalte reviewed current advances in state aid, future expansion proposals, and finances in general, pointing out West Ottawa district receives no income from taxes until January. Up to now, it has been possible to obtain advance payment on state aid, but the prediction is that advances no longer will be forthcoming. "Public school finance today is as bleak as it has ever been and state lawmakers say there will even be a reduction in state aid," he said.

The board approved a contract with Guido Binda Architectural Associates of Battle

Creek to develop the next building program for the district. Van Raalte said the district experienced a three-year growth in a single year last year. All available elementary classrooms are filled.

Van Raalte told the board that the district is experiencing a significant increase of children coming from other areas in the United States where compulsory school attendance is not rigidly enforced. Some children enrolling have been out of school more than six months, and some eight-year-olds have never been to school. Compounding this problem is the fact that often these children speak no English whatsoever.

The board authorized the superintendent to take whatever action possible to provide for the immediate educational needs for these children. The board looks to the Ottawa Area Intermediate School district for leadership in this problem since most districts in the county face the same problem.

The board granted a request of Henry Kort to use an idle section of the North Holland school property south of the parking lot for garden purposes. Kort agreed to keep the property neat and trimmed. Board Member William Sanford proposed a policy for leasing school grounds to be developed by the building and grounds committee.

The board approved for first reading policies which would provide the district with elementary physical education personnel and expand the elementary art staff.

Accepted with thanks was a gift of \$750 from the West Ottawa Athletic Boosters for physical education equipment in eight elementary buildings.

Holland Boy, 6, Falls From Auto

Jeffrey Krist, 6, son of the Rev. and Mrs. David Krist of 1140 Clover Ave. received bumps and bruises when he fell from a station wagon on Chicago Dr. west of Clover Ave. at 7:25 p.m. Tuesday.

The boy was riding in a car driven by Rose Hoffman, 17, of 671 Bosma Ave. He was playing with a dog in the back of the car when he fell out onto the pavement, according to Ottawa sheriff's deputies.

He was treated at Holland Hospital and released.

City's Budget Calls for \$2.77 Tax Rate Hike

Holland's proposed budget for the fiscal year starting July 1 calling for a total general fund appropriation of \$2,030,971.78 was presented to City Council Wednesday night and was ordered placed on file in the city clerk's office for public inspection.

A public hearing will be held May 3 when final passage is scheduled. A summary will be published in The Sentinel no later than April 26.

The total, which does not include Holland Hospital or the Board of Public Works, is \$212,047.58 more than last year's total of \$1,818,924.20.

The amount to be raised by local taxes in \$1,324,377.29, an increase of \$195,124.21 over last year. This figure includes debt service of \$276,828 of which \$205,000 is for paying bonds on two sewer programs, an increase of \$50,000 over last year. The remainder is for lesser amounts for Civic Center and the 1955 hospital addition.

The city tax rate will be \$25.94 per \$1,000 assessed valuation or \$2.77 more than last year's rate of \$23.17. This is based on a total assessed valuation of \$51,087,771, an increase of \$2,311,554 over last year.

The basic increase in budget needs this year is geared to increases in wages and salaries, and in debt service.

The budget calls for advancing city employees one step in the pay schedule, equivalent to 5 per cent. In their four nights of budget study last week, Councilmen agreed that a pay boost is necessary to remain competitive in the labor market.

Due to reorganization and upgrading criteria for the police department, policemen will be advanced two steps in accordance with new standards of more stringent academic and physical in-hiring qualifications for patrolmen.

New officers now attend Grand Rapids police academy in a 13-week mandatory course. In the last class of 21 recruits, three attended from Holland. Nine finished the course including the three of Holland who at

are Frederick Mold Jr., first vice president; Herman Luben, second vice president; Raymond Miller Jr., treasurer, and Mrs. I. Muilenberg, recording secretary. Edwin G. Mulder is minister of evangelism.

The Monday night session will see a preview showing of the church extension film, "The Search—An Open Door." Another film, "A Time for Burning," will be shown Tuesday night.

Dr. R. E. Beckering of Zeeland, president of General Synod, will conduct opening devotions Wednesday morning. The Rev. John Hains, former minister of Trinity Reformed Church of Holland, is among those giving reports Wednesday afternoon. His subject is Mexico.

Dr. John Piet of Western Seminary will report on the proposed Reformed - Presbyterian merger at the closing meeting Thursday morning and Dr. Herman Ridder, seminary president, will conduct closing devotions.

that time constituted one-third of the graduating class. A Holland man took top academic honors as well as ranking top in fire arms proficiency.

Under state law, firemen hereafter will work a 56-hour week instead of 63 hours, necessitating three more firemen on the local force. In spite of the 11 per cent reduction in the duty week, there will be no downward revision of salaries and firemen will receive the one-step increase.

Nurses' salaries at Holland Hospital will be geared to the \$6,000 minimum in effect at all five hospitals in Grand Rapids. Nurses presently start at \$5,064. Action was prompted to a large extent by the necessity to remain competitive in the salary area since Holland draws on nurses from Grand Rapids training schools.

Increases in patient loads continue under the Medicare program and many more nurses will be needed when the new hospital addition is put into service. The salary situation at the hospital also provides for varying salary increases to technical staff. No tax monies are involved in hospital operations.

Revenues from sources other than taxes list an estimated \$325,000 from electrical operations of the Board of Public Works. Revenues from other governmental units total \$286,100 including \$243,000 in sales tax returns and \$30,000 in intangibles tax.

This year's budget is a 200-page document.

UAW Strikes Against Bay Casting

Bay Casting Co., shut down March 15 in a contract dispute with United Auto Workers Local 406, reopened today with only a skeleton work force as union members went on strike and picketed the firm.

Local president Pat R. Nordhof said about 100 hourly employees had been called back to work by the company, starting today, but that none had crossed union picket lines. Only salaried and supervisory personnel went to work.

Nordhof said the strike action was taken about 10 p.m. Tuesday when the union membership voted not to accept the company's latest contract offer.

Officials of Crampton Manufacturing Co., of which Bay Casting is a division, said contract negotiations had officially broken down March 15. Officials said there have been no meetings scheduled with union officials to hammer out a settlement, although they said they were hopeful talks will be set up in the near future.

The company had presented its last contract proposal March 15, and at the same time announced it was closing the plant, according to union officials, before the union membership had a chance to vote on the offer.

Union spokesmen said the membership was to have voted on the company's offer March 16. Union officials called the company action a "lockout."

Issues covered in negotiations between Local 406 and Bay Casting included supplemental unemployment benefits, wages, working conditions, pensions, hospital and medical benefits, sickness and accident insurance, lay-off and rehire procedures, cost-of-living allowance, jury-duty pay, bereavement pay, holiday pay and night-shift premiums.

Union officials said Local 406 had tried to set up meeting through federal mediators but that the company had refused.

Bay Casting, which manufactures auto parts, had been hard-hit since the first of the year by cutbacks in automobile production.

Glass Blower Is Featured At Festival

One of the features at the Tulip Time Market, a new Tulip Time attraction this year, is an authentic Dutch glass blower, Henry Bruns, a native of The Netherlands, and rated among members of his profession as one of the best in the world.

Tulip Time Market is located at the former Little Netherlands site at Central and 12th street.

Bruns learned his trade at an early age when his family left Arnhem for a visit in Italy, where he became interested in glass blowing. He requested an opportunity to enroll at the school for glass blowing in Venice. It was explained to Bruns that he must have the "feeling" for the art and if he did, he would be accepted as an apprentice.

About the age of 16, Bruns went to Venice to enter the school for glass blowers under the direction of his father's friend. It is a very difficult and strenuous art. Approximately 5,000 boys try to learn the art each year, but hundreds drop out of the course after the first few months. Bruns was determined to be a glassblower, and he won over the difficult task.

Following his schooling he went to work in the shop of his father's friend, to continue learning the art which Webster defines as "the art or process of shaping molten glass into any desired sizes or shapes."

He worked with the friend for many years, and when he had reached a degree of perfection, Bruns decided to travel for a time in Sweden and France. He found in his travels that he should learn more of the trade and returned to Venice for more schooling at the same time working in the shop so that he could meet expenses. He said his total learning period took 23 years.

The glass that is used by Bruns is made especially for him in Italy. It is manufactured for his use exclusively. It is made from his own formula and specifications. Should he be unable to continue his profession, he may pass the rights to use the glass to his son and no one else. This is in accordance with the code of the trade and the profession as well as the manufacturer.

He receives one shipment annually from the factory in Italy and cannot re-order. He recently received his annual shipment, much of which he will be using at the Tulip Time Market. The cost to him for one shipment of this special glass is more than \$16,000.

Bruns is sought after in many large cities and is traveling throughout the United States and Canada for the entire year.

Board Okays Infirmary Remodeling

GRAND HAVEN — The Board of Supervisors Tuesday approved expenditure of \$60,000 for improvements to the county infirmary at Eastmanville to meet requirements of the state fire marshal. The vote was 35 to 2.

Supervisor J. Nyhof Poel of Grand Haven who favors construction of a new county medical facility moved that the remodeling proposal be tabled for more study but his motion lost.

The board was informed that there presently are 30 welfare patients awaiting assignment to private rest homes and that the need for a medical facility is growing. Chairman Herman Windemuller asked the welfare committee to study the need for a facility and report back in June.

The board ordered an overall survey of law enforcement problems in the county in connection with many requests from the sheriff's department for additional funds and for hiring a second detective.

Gordon Cunningham of Holland pointed to a request he made two years ago urging that a professional firm be hired to study law enforcement needs in all cities and units of the county. Gerrit Bottema of the county, Gerrit Bottema of the county won't stand repeated "raids" by departments, and felt the sheriff should get along with his present staff. William Koop of Holland felt that areas that need additional police protection should raise millage to pay for it. Others said expenditures in some departments are getting too high. Sheriff Bernard Grysens' request for transfer of \$7,118 from the contingent fund was voted down, 29 to 8.

The improvement committee was asked to study need for capital improvements, including a second circuit court room since Ottawa-Allegan circuit now has two judges. The county building built in 1965 was designed to permit an extension of a south wing on Fourth St. Meanwhile, the supervisors' room will be used on 10 days during the April term to permit two trials daily. The 1967 equalization table was approved and the tentative budget, to be presented to the tax allocation board, was approved after minor changes. The board hopes to have 4.5 mills allocated for county purposes. The altered budget calls for expenditure of \$1,736,494, plus \$100,000 for county road improvements.

The board granted per diem rates for members attending meetings of the reapportionment committee at the rate of \$15 for a full-day session and \$20 for a half-day session. This committee so far has held one meeting.

Board Honors Dr. Ten Have

The Ottawa County Board of Supervisors Monday passed a resolution in recognition of the long service of Dr. Ralph Ten Have who is retiring after 32 years of heading the Ottawa County Health Department. Dr. Ten Have was present. He will be succeeded by Dr. Richard Schaftenaar of Holland July 1.

John Koster of Tallmadge township was named to the Social Welfare Commission succeeding Tom Koning who is now a supervisor.

Gerrit Bottema of Spring Lake, new chairman of the ways and means committee, reported a balance of \$171,000 in the county improvement fund which accrues from interest and fees and is used for new buildings.

The board approved transfer of \$35,466 accumulated in fees so far this year to the improvement fund, despite a protest of Gary Byker of Hudsonville who suggested surplus funds be used for county expenses other than new buildings.

Supervisor Robert Murray of Coopersville said it would be shortsighted to curtail the improvement fund now as landscaping of the county square will cost \$35,000, work at the infirmary may cost \$80,000 and more room may be needed for circuit court in the county building.

The board was informed that the Humane Society has increased fees for handling dogs from \$1.50 to \$2. The board approved.

Motorist Gets Ticket After Three-Car Crash

Holland police cited Vernon Mulder, 17, of 290 North River Ave. for following too closely after a three-car accident at Eighth St. and Columbia Ave. at 8:40 p.m. Wednesday.

Mulder's car struck the rear of a car driven by Stella Gonzales, 25, of 372 East Fifth St. forcing it into the rear of a car driven by Ardith Van Dyke, 19, of Hamilton.

Bid for New SDD License Is Rejected

In a meeting that lasted almost two hours, City Council Wednesday night dealt with a wide variety of subjects.

A good share of the time was devoted to whether a new SDD (package liquor) license should be approved for Donald Kingsley Jr. in connection with an existing SDM (beer and wine) license at his place of business at 531 West 17th St.

The final vote rejected the application 5 to 3. Voting in favor of approving the application were Councilmen Bertal Slagh, Maurice Peerbolt and Robert Dykstra. Voting no were Councilmen Hollis Clark, L.W. Lamb, Jack Smith and Alvin Dyk and Mayor Nelson Bosman. Councilman Don Oosterbaan was absent.

The request for action had come in a communication from the Michigan Liquor Control Commission which issues such license. It was made clear that approval by the city would not necessarily result in a license but that disapproval surely would result in a rejection.

Atty. Ronald Dalman, appearing on behalf of James Pollock who operates Hansen's Drug Store, protested issuance of another SDD license for a place within 186 feet of an existing license. He said established procedure calls for licensees usually six blocks to a half mile apart.

Atty. Don Hann, representing Kingsley, said it was not up to the city to grant a monopoly. Later in the evening Hann and Atty. Jerry Roper both protested to Council after the vote had been taken that Council had not acted in accord with action asked by the Liquor Control Commission. This prompted Council to clarify its vote on the basis that there was no demonstrated need for another liquor takeout in the area and not because there was any question of Kingsley's qualifications for such a license.

Councilman Lamb, new member to Council, felt that the Liquor Control Commission was tossing a hot ball to Council, and while his sympathies lay with Kingsley he felt issuing a second license in the same neighborhood would set a bad precedent for the city.

Former Councilman Ernest Phillips questioned the city's issuing a building permit for a Hope College dormitory when no provision had been made for parking area, as required in the zoning ordinance. He was referring specifically to a new dormitory near his home on East Ninth St.

City Manager Holt said Hope College has an agreement with the Board of Appeals on developing offstreet parking in various areas and restricting the permits of Hope College students and personnel using these lots. He said the parking requirements for new construction are not realistic for Hope College, thus leading to the agreement with the Board of Appeals.

Later, on motion of Councilman Peerbolt, the Planning Commission was requested to give a report on the parking development plan for the college. A motion by Councilman Lamb calling for informational meetings of Council on the second and fourth Wednesdays so that new councilmen might become better acquainted with their responsibilities carried by voice vote. These meetings will be for information only, not for official business, it was pointed out.

An observation of Councilman Clark on increasing activity and noise of motorcycles in Holland during the spring season led to referring the matter to the city manager for study.

Council approved final form of the bond purchase agreement for \$12,500,000 1967 industrial development revenue bonds of the Beech-Nut Co. be sold to Eastman, Dillon, Union Securities and Co. as representatives of the several underwriters on terms set forth in the bond purchase agreement.

Mayor Bosman proclaimed the week of April 23-29 as Kandu Industries Week and suggested local residents learn more about this program for handicapped adults who reside in the city and county.

Sentinel Reporter Cornelia (Cornie) Van Voorst will leave Holland Friday for the Netherlands, joining a group of 20 American journalists for the dedication April 28 of the enlarged Schiphol Airport at Amsterdam.

Her Majesty Queen Juliana will officially open the modern airport regarded as the Air Gateway of Europe.

Other American writers who will be guests of the Netherlands National Tourist office for a week preceding the dedication are Maurice De Jonge, Grand Rapids Press; Helen Hennessy, Newspaper Enterprise Association of New York City; William Wolf, Wolf Features, New York City; Halsey Douglas, Newark News; Stuart Dods, Chronicle Syndicate, San Francisco.

Beth Fallon, Hartford, Conn.; Times; Ernest Bartlett, Toronto Telegram; Norman Weissman, Weissman Productions Inc., New York City; Herman Arens, National Geographic, Washington, D. C.; Mort Weisker, Travel Weekly, New York City; Harry Hoffman, Philadelphia Inquirer.

Edward Carpenter, Progressive Architecture, New York City; Henry Hayward, Christian Science Monitor; Elmar Baxter, Herald Examiner, Los Angeles; John McGuire, World Journal Tribune, New York.

M. Friedheim of the Montreal Press will go to the Netherlands April 25 from London, England. Don Michel of the Houston Chronicle and Howard Brico of the Houston Post will fly to the Netherlands directly from Houston.

Plans call for taking the American journalists directly to the Hague, and arranging a get-together of American guests and Dutch hosts Sunday evening. Monday will be devoted to sightseeing in The Hague with a reception in the evening by the Netherlands government.

There will be sightseeing in Rotterdam on Tuesday including a tour of its remarkable Europort regarded as the world's busiest harbor. This city, resurrected from wartime destruction, also has much to show in the form of unusual planning and civic amenities.

A tour through the tulip field of Haarlem and a stop at the famed Keukenhof gardens which boasts of a restored windmill much like Windmill De Zwaan in Holland, Mich. are slated Wednesday. Arrival in Amsterdam lists a trip by glass topped launch to the home of the Amsterdam burgomaster. In the evening, there will be a tulip ball at the Amsterdam Hilton with Dutch

folklore and other international entertainment.

Thursday morning will be devoted to sightseeing in Amsterdam with a typical Dutch luncheon "Koffietafel" at the new Schiphol Airport. A complete tour of the new airport is slated that afternoon.

The official dedication of the airport is scheduled at 3 p.m. Friday. That evening the reporters will be guests at a farewell dinner with His Royal Highness Prince Claus, husband of Crown Princess Beatrix, as guest of honor.

The enlarged Schiphol Airport is designed to handle 5,000,000 passengers a year and it is expected this figure will be reached by 1975, compared with 2,100,000 a year at present. The airport is 13 feet below sea level and the area centuries ago was a sea of inland water separating Amsterdam and Haarlem, a distance of 10 miles. Schiphol literally means "Ships' Grave" and this name was appended in 1572 when many Spanish ships were sunk in a unique sea battle when the lake suddenly froze.

Local arrangements for flights for Miss Van Voorst and De Jonge were made by Willard C. Wichers, director of the midwest division of the Netherlands Information Service in Holland. Miss Van Voorst will return April 29 via KLM airlines. De Jonge will remain an extra week and will be joined by Mrs. De Jonge. Arrangements are being made for De Jonge to attend the ceremony of the Queen's birthday at Soestdijk Palace Monday, May 1.

A MUSING — COULD THIS BE YOU?

"Our Ponytail" cartoon of Fri-
day struck a responsive chord.
It shows one moppet saying to
another: "I walk around the
house on tiptoe during income-
tax time!" For who can strug-
gle with the mazes and intrica-
cies of tax forms with distrac-
tions going on?

Even the cat's scarcely audible
paw-falls in his sudden decision
to leave the room, sound like
the thundering hoof-beats of a
stampede of wild horses. That
is, if it comes in the final stages
of your annual brush-up with
arithmetic — the old math, by
the way — when you're waiting
to see if you owe Uncle Sam
even more money than the whop-
ping amount he has been extract-
ing from you every month! You
ponder as you think of the con-
tinued government waste and
duplication.

Thoughts come crowding in
space. There's that stupid error
in subtraction you discovered
after the final figures were
squeezed in the little spaces and
which required you to change
them all! What optimists these
fine-print form-makers are to
assume we'll need only two
copies, one for them and a "file-
copy" for ourselves, and that
none will be spoiled! Then
there's the wrestle with con-
science — Is this deductible? The
instructions aren't too clear —
a phone call to an expert is no
help — he isn't in and you're
held up for a day. All the while
the deadline-day approacheth.
You feel like the walls are closing
in on you from both sides.

But at long last you make it.
You lick the fat envelope with
its supporting data, nonchalantly
put on a 10 cent stamp with lofty
disdain, although it might go
for 5, stamp the stamp a resounding
whack, and drop the return in
the mail-slot with a sigh of re-
lief.

People who mail a few days
early spend a little more of their
money and request a registered
return receipt so that they will
know that their tax forms and
payment have been received.

There have been some stories
about Congress making a com-
plete over-haul of the tax
structure. This may help next
year when you start earlier to
keep records of your 1968 tax
report.

The money — manipulators
need to "manip" more carefully.
They should remember that we
the taxpaying public are becom-
ing more and more aware of all
the huge problems we face with
more and more tax dollar waste.

Sunday School Lesson

Sunday, April 23
Peter and John
Acts 3:1-16
By C. P. Dame

Many people in these days
want power—social, economi-
cal, political power. Great is
the need of spiritual power, but
unfortunately many are not
concerned about this. Faith in
Christ gives spiritual power.

I, Christians are surrounded
by needy people. The apostles
performed "many wonders and
signs." This story tells us
about one. Peter and John
were both apostles, and they
were close friends. One day
they were on the way to the
temple to pray. The early
Christians continued to attend
the temple services and ob-
serve the three prescribed
hours of prayer at 9 a.m., 12
noon and 3 p.m. Good religious
habits ought to be kept. Some
good religious habits are being
dropped today. This is tragic.

On the way to the temple
the two saw a lame man be-
ing carried to the "gate of the
temple which is called Beauti-
ful to ask alms of them that
entered into the temple." This
beggar had learned that reli-
gious people are often charitable.
The beggar asked alms. Peter
said, "Look on us," and he
expected a gift. Peter said,
"Silver and gold have I none."
That is what he expected and
wanted. Peter said that he had
something else to give and
told what it was. "But such
as I have give I thee: In the
name of Jesus of Nazareth rise
up and walk," and then "took
him by the right hand, and
lifted him up; and immediat-
ly his feet and ankle bones
received strength."

Note that the church faces
needy people, they have econo-
mical, physical, emotional
and spiritual needs. Remember
too that life's best things can't
be bought. And observe that
the church has something to
offer. The beggar walked, and
was restored to useful living
and became a contributing
member of society rather than
a receiving member.

If Christians have a message
for people. When the people
saw the beggar "walking, and
leaping, and praising God"
they were amazed for the man
had been begging for years.
The lame man and Peter and
John attracted a crowd. Peter
saw an opportunity and ex-
plained what happened. Peter
preached, telling them that the
"God of Abraham and Isaac
and of Jacob, the God of our
fathers hath glorified His Son
Jesus." And then he told them
what they had done—they had
delivered Him up, denied the
Holy One and killed the Prince
of life. The apostles stressed
three notes in their preaching
—the crucifixion, the resurrec-
tion and the power of the
risen Christ, whose witnesses
they were.

"And His name through faith
in His name hath made this
man strong, whom ye see and
know"—this healed man was
a proof of the power of the
risen Christ. Peter spoke of
faith—his and that of John.
The world is full of needy
people. The church of today
needs men and women who
have great faith in the living
Christ. We have money, we
have skills, plans, programs,
but the power is often missing.
How come? If the church had
more people who have the
apostolic faith it would per-
form more miracles in the
name of Christ.

Ottawa County Farm News

By Richard Machiele
Extension Agent, Agriculture

We have had many calls this
past week on the condition in
lawns which sort of follows a
pattern. The pattern is circular
type of dead area which
merge together and form ir-
regular shaped areas of grass that
appear to be dying. This con-
dition is called "Snow Mold".

All species of blue grass and
fescues are susceptible to Snow
Mold. Actually Snow Molds are
a fungus disease which seem to
carry over from year to year
in the same area. Injury may
take place when the snow is
still on the ground. Compaction
of snow and soil usually favors
the disease. Here are some
points to follow for control:

1. Follow a recommended
fertilizer program. Pink snow
mold damage can be reduced by
using adequate amounts of
phosphate fertilizers. Avoid
fertilizer applications after
about September 15, especially
nitrogen. Lawns should not go
into the winter in succulent
condition. Use lime only when the
need is indicated by a soil test.

2. Keep the grass cut to re-
commended height (1 1/2 to 2
inches for bluegrasses, fescues,
and ryegrasses; 1/2 inch or less
for bentgrasses). Mow the turf
frequently so that the grass will
not be damaged by excessive
foliage loss. Mow throughout
the autumn season until grass
growth ceases. If possible, re-
move the clippings to reduce
the amount of plant debris on
the soil surface.

3. If the mat or thatch of dead
grass is over 1/4 inch thick, you
can use a "vertical mower" to
correct this problem. These
machines may be rented at
most large garden supply cen-
ters.

4. Before the first heavy
snow or cold, drizzly weather is
forecast in November or early
December, apply one of the
following turf fungicides to
areas with a history of snow
mold infection. Follow the
manufacturer's directions care-
fully. Reapply one or more
times during winter or early
spring as the snow melts.

Fungicides recommended for
snow mold control: Tersan OM,
Ortho Lawn and Turf Fungicide,
phenyl mercury, Dyrene, Thim-
er, mercury chloride mixture,
Kromad and mercury chloride
mixture, or cadmium-contain-
ing fungicides. Most of the
materials may be applied dry,
as sprays, or mixed with a
granular fertilizer.

5. Repair snow mold damage
in early spring by raking the
matted grass and fertilizing.
Reseed or sod as necessary.
Fungicide sprays may be need-
ed.

6. When establishing a new
lawn or other turf area, provide
for adequate surface shrubs
that shade or border the area.

7. Improve light and air cir-
culation by pruning or removing
dense trees and shrubs that
shade or border the area.

8. Where snow molds cause
damage year after year, the
construction of barriers (e.g.
snow fence or windbreak plant-
ing) will keep snow from ac-
cumulating and help to reduce
damage.

We are already receiving calls
on the "Clover-Mite." This is a
minute reddish-brown insect
that quite often makes its ap-
pearance on the side of the
house and finds its way into the
house in many cases. This mite
lives in the grass and then mi-
grates and becomes a nuisance.
If they are found inside the
house the best way to remove
them is to pick them up with a
vacuum hose. However, to eli-
minate them it would be neces-
sary to use a spray on the grass
in approximately a 6 foot band

around the house. The material
recommended is Kelthane, at
the rate of 2 lbs. to 100 gallons
of water. Apply to grass or
building foundations or other
areas where mites will cluster.

Buyers of landscaping ma-
terials and other nursery stock
should read the certificate of
inspection when making pur-
chases.

The law requires that nur-
sery stock carry a certificate of
inspection issued by the De-
partment's Plant Industry Divi-
sion. This shows the material
has been examined and found
to be free of plant diseases and
insect pests. Individuals selling
or giving away such material
should have plants inspected
by the division.

The law states that nursery
stock must be stored and dis-
played under conditions that will
maintain its vigor. Quality is a
factor in determining price and
purchasers are unlikely to find
high quality items at give-away
prices.

The purchaser should be wary
of salesmen who make extrava-
gant statements about their
merchandise or claim them to
be some sensational develop-
ment in the horticultural world.
Agents who solicit sales of nur-
sery stock are required to carry
an agent's permit. These are
requested by the nursery firm
the agent represents from the
Michigan Department of Agri-
culture. Prospective buyers
should ask to see the permit.

GIFT GIVEN TO KANDU—Mrs. Margret Gearhart (right) president of the Holland Hairdressers Association, Unit 45, is shown presenting a check of \$250 to Mrs. Lester Swieringa, publicity chairman of Kandu Industries, a workshop for the handicapped in Ottawa County. (Penna-Sas photo)

Kandu Industries Gets Gift From Hairdressers Group

The Kandu Industries, a workshop for the handicapped in Ottawa County, recently was the recipient of a \$250 check given by the Holland Hairdressers Association.

The check represents proceeds of the hair and fashion show presented recently at Point West in connection with National Hairdressers Week. It will be used by Kandu Industries to help finance the cost of printing place - mats which tell the story of the workshop, and will be used in restaurants throughout the county during Kandu Industry Week, April 24 to 29.

Mayors Nelson Bosman of Holland, William Creason of Grand Haven, and Frank Hoogland of Zeeland, have signed proclamations in their cities proclaiming the week of April 24-29 as Kandu Industry Week. An invitation is extended to

interested persons to attend open house to be held at the workshop during Kandu Week. The facility, located at 1650 Marion, in Grand Haven, will be open daily and on Monday evening, April 24. Groups wishing to tour the "shop" any other evening may make special arrangements by contacting Mrs. Lester Swieringa.

Kandu Industries is a work-activities program for handicapped persons 18 years of age and up. The present facility, although located in Grand Haven, serves all of Ottawa County. A grant of \$4,000 from the United Cerebral Palsy Association of Michigan has been received, part of which has been appropriated for transportation so that persons from other areas can be included in the program.

Presently there are ten actively enrolled in the program; another eleven from the Holland, Zeeland area have been accepted and will be included as soon as a small bus can be purchased.

There have been about 70 applicants for the workshop. Each is "screened" by a professional advisory board composed of diagnosticians and medical people.

Because of the great number seeking admission to the program, it is hopeful that as soon as additional funds become available, Kandu will be able to open another activity center in the southern part of the county.

The work - activity program allows the severely handicapped to devote part of the time spent in the workshop in the manufacture and or assembly of products, and the remainder of the time in less absorbing activities. It also allows the director to evaluate potential for future employment, either within or outside of the program.

Exchange Club Holds Annual Ladies' Night

The Holland Exchange Club held its annual Ladies Night dinner at Point West Monday with the president, Lewis Vandebunte in charge.

After the dinner the vice president, the Rev. H. Voogd who was in charge of the program introduced the speaker, Buck Matthews of WOOD, Grand Rapids.

He said "Broadcasting is work, but it is fun." The broadcaster is always conscious that he is talking to a huge unseen audience and that means every sentence must be carefully evaluated before it is spoken.

He said that a large part of the fun lies in that fact that the audience is constantly finding new ways of being mean and inventing new ways of telling about it. Then too many people are always on the lookout for things to complain about, things that they can use to write the speaker about.

Mr. Matthews said that such criticism, though largely wrong or unwarranted, keeps the speaker on his toes and always puts him under extreme tension while he is talking. He said that they do not expect letters of commendation.

Two of the senior members were commended for their years of membership in Exchange and for the active support they have given.

They were Judge Fred T. Miles, who just reached his 90th birthday and the Rev. Paul Hinkamp who made use of his rockounding hobby to make a coffee table decorated with polished rocks. This was given to the winner in ticket sales for the recent Home Show.

Classical Union Holds 34th Spring Conference at Bethel

Women of Holland representing 15 Guilds for Christian Service of the Reformed Church of America met in the Bethel Reformed Church for their 34th annual Spring Conference of the Holland Classical Union on Thursday.

The session opened at 10:30 a.m., with Mrs. Gerald Reinink, Classical president, presiding. Mrs. John L. Van Harn presented Mrs. Reinink with a corsage for her services to the classis, and also led the morning devotions. A vocal duet, "He Giveth More Grace," was rendered by Mrs. J. Essenberg and Mrs. D. Rhoda.

The Rev. Owen T. Bechtel, missionary to Taiwan, gave a challenging address concerning the urgent need for spreading the Gospel in Taiwan. The majority of people in Taiwan are living without any hope of salvation, he said. Many young people are searching, but opportunities to help them are slipping by because of lack of missionaries. Rev. Bechtel pointed out the lack of concern of people and churches in our country. He also stated that we are bound together in this mission even though not every one has the opportunity to serve in a foreign land. This is a tremendous task and it behooves every one to pray, give, and be concerned, he concluded.

During the business session three new officers were elected and installed. Mrs. J. Van Eerden was elected to the office of vice president, Mrs. Preston Van Zoren to the office of recording secretary, and Mrs. James Mooi to the office of organization secretary. Mrs. Albert Nuttle installed the newly elected officers.

Three students of Hope College, Vivie Pao of Hongkong, Ruby Beaton of Burma, and

Kim Lan Nguyen of South Vietnam gave insights of life in foreign countries.

A luncheon prepared by the women of Bethel Church was served at noon to 200 women.

The afternoon session convened with devotions by Mrs. Mary Ver Hoog of the Adelphi Guild. A vocal solo, "The Holy City," was rendered by Moody Yap. Mrs. A. Kapenga, Board of Managers representative, gave a report on the Board of Managers meeting held at Warwick Estates on Jan. 10-12.

Keynote speaker for the afternoon session was Mrs. H. Colenbrander, on the topic, "Go and Tell John." She told of the mission stations in Japan, Hongkong, Ethiopia, Arabia, and India she and her husband visited recently. Citing the tremendous needs in the mission fields today she stated that only by sacrificial giving will the needs be met.

The offering for the day was \$361.60. Mrs. W. Burggraaf and Mrs. G. Rozeboom gave the morning and afternoon offertory prayers.

Holland-Suco Donates Gym To YMCA

Local YMCA and Holland-Suco Color Co. officials met Thursday to sign an agreement giving full and exclusive use of a gymnasium in the Holland-Suco plant to the Holland-Zeeland YMCA for an indefinite period.

The agreement was arranged by Holland-Suco to promote a more active interest in YMCA activities in the area, a company spokesman said.

The gym, which will open within the next two weeks following extensive clean-up and reconditioning, will provide facilities for both adults and children on a 24-hour-a-day, six-day-a-week basis.

Once the gym is ready for use, the Y will begin physical fitness classes for both men and women, according to Gene Emerson, YMCA executive director. More youth and adult programs, including volleyball and basketball, will be added after the program gets underway, he said.

It is expected that interest in the local Y will increase, since facilities before the acquisition of the gym were extremely limited, Emerson said.

Local firms have contributed their time, talent, and merchandise at reduced prices to augment the remodeling efforts, YMCA officials said.

Included with the gym are shower facilities and dressing areas, as well as restrooms. YMCA officials said they are hoping to have lockers installed in the near future.

Area Y'smen, an affiliate of the YMCA, are now in the process of paneling and remodeling an adjoining room to be used for meetings, pingpong, and billiards. The Y'smen, undertaking the project by themselves in their spare time, are led by Dr. Arnold Dood, area physician and Y'smen president.

Long-range plans for Y activities in the new gym for men, women, and youths include gymnastics and pre-season ski conditioning classes.

But the severe thunderstorm which passed over Ottawa county with some hail whipped into fury as it approached Owosso in midstate, and several twisters touched down, leaving a trail of demolished homes, buildings and other debris.

Michigan's weather pattern was associated with a ferocious storm system that whipped heavy snow in the Dakotas, floods in Louisiana and a line of severe thunderstorms in the Midwest.

Demonstration Is College Stunt

The popular sport of demonstrating against almost anything and everything has taken a new tack—the time-honored method of expression is now being used as a college fraternity initiation stunt.

The 20 "beatniks" who showed up in front of Holland Mayor Nelson Bosman's house Sunday protesting the Sunday opening of Windmill Island were simply Hope College fraternity pledges completing part of their initiation requirement.

The group was told to dress as "beatniks" and carry posters protesting anything they wanted to protest. They picked the windmill as the object of their sham protest, and carried signs urging that the wind not be allowed to blow on Sunday, "Burn the Windmill" and other slogans.

The entire demonstration took approximately 10 minutes, but it was long enough to cause some raised eyebrows among the residents of Holland.

Sandra K. Van Dyke Wed To James C. Waybright

Vows spoken at 8 p.m. Friday in Bethany Christian Reformed Church united in marriage Miss Sandra Kay Van Dyke and James Curtis Waybright.

The Rev. Henry C. Van Deelen performed the ceremony for the daughter of Mr. and Mrs. Orley Van Dyke of 15 West 31st St. and the son of Mr. and Mrs. Darl Waybright of Monaville, W.Va. in a setting of palms, ferns, gold arched candelabra, three branch candelabra and bouquets of white gladioli. Single candelabra marked the pews.

Miss Jane Zwier provided organ music and also accompanied Dan Gilbert who sang "The Lord's Prayer" and "Oh Perfect Love."

For her matron of honor the bride chose Mrs. John Keuning, and as bridesmaid Miss Kathy Waybright while the groom had as his attendants David Mulder as best man and David Van Dyke as groomsman. Guests were seated by Nick Unema and John Keuning.

The bride, given in marriage by her father, selected an A-line gown of crepe, designed with an empire waist, scoop neckline and three-quarter length sleeves. The sleeves and front of the gown were accented with daisy patterned trim and the full-length chapel train fell from

the back waistline. A bow-shaped headpiece trimmed with pearls held an elbow-length veil and she carried a cascade bouquet of white daisies.

Floor-length sheath gowns in mint green shades were worn by the bride's attendants. They featured empire waists and crepe skirts with detachable back panels. They wore petal-shaped headpieces with short veils and each carried a bouquet of yellow daisies.

Attendants at a reception for 100 guests in the church fellowship hall were Mr. and Mrs. Vern Van Langevelde as master and mistress of ceremonies; Larry Van Liere and Miss Sandra Veneberg who were at the punch bowl; Miss Mary Lou Ten Harnsel and Miss Delores Timmer who arranged the gifts and Miss Linda Barrett and Philip Van Dyke who presided over the guest book.

Following a honeymoon to Florida the newlyweds will be at home at 51½ West 22nd St. For traveling the bride chose a two-piece blue and white print suit with black accessories complemented by the corsage from her bridal bouquet.

The new Mrs. Waybright attended Grand Valley State College and is employed by the Bradford Paper Co. The groom is a test engineer with Conrad Inc.

Director Anderson said he was both "proud of his students for the work they did and pleased with the warmth of the audience in their response."

Students appearing in "The Death of the Hired Man" were Frank Lievesee, Jan Kempker and Jim Fortney; from "Spoon River Anthology," Chip Millard, Laura Brown, Tim Lee, Kathy Teller, Doug Ruddick, Chuck De Jonge, Marilyn Beltman, Darlynda Sundin; "The Congo," Steve Townsend, Joanne Kleinhekel, Bob Lucas and Beth Mills.
