Holland Also Has Men To Go To The Forests

EMERGENCY CONSERVATION EMPLOYMENT QUOTA FOR COUNTY IS 110.

Definite information regarding the emergency conservation program as it affects Ottawa county was received by Carl Bowen, formerly of Holland, chairman of the welfare board of Ottawa county, this morning. The quota for Ottawa county is 110 based on a population of 54,858. Grand Haven will have 17, Holland City 28 and Zeeland City 6. The remaining townships vary from 1 to 8. Spring Lake township has 6.

The restrictions call for able bodied single men from 18 to 25 years of age who are members of families now receiving welfare aid. They must promise to return between \$20 and \$25 per month to their respective families. They must enroll for six months for work in the reforestation camps in Michigan. It is expected there will be about ten camps organized.

The applications must be certified by the supervisors from each township and the director of welfare in each city. Already there are 58 applications made in the county. These were taken by George Bork who volunteered to take the applications unofficially. He has turned the list over to Mr. Bowen, who in turn will await the approval of the various supervisors before admitting the applicants to the list. About 25 from this city have made application.

The following is the quota for the townships of the county: Alandale 3, Blenden 3, Chester 2, Crocker 2, Georgetown 6, Grand Haven township 17, Holland township 28, Jamestown 4, Olive 2, Park 3, Polkton 6, Port Sheldon 1, Robinson 2, Tallmadge 3, Zeeland 4, and Wright 3.

The person responsible for the recruiting in each state is the state chairman or director of unemployment relief.

The task of recruiting is primarily one of careful selection. Those in charge of the recruiting plans in Washington point out that with millions of families now receiving relief a civilian conservation corps of 250,000 can be enrolled very promptly.

HOPE COLLEGE BOARD OMITS SPRING MEET

The annual spring session of the board of trustees of Hope college, set for April 26, was omitted in the interest of economy. Routine work for the session will be merged into the meeting for June 20 during commencement week when annual reports will be submitted, officers elected and degrees awarded.

Annual contests in oratory for men and women will be held next month. Winners in the local contests will represent Hope in the district contest in March. Prizes in the men's contest, founded by A. A. Raven in 1908, are \$30 and \$20. The women's contest carries an award of \$25.

FOREST GROVE MAN SUFFERS ACCIDENT

Dick Smallegan, eldest son of Mr. and Mrs. J. Smallegan and senior member of the firm of Smallegan Bros., Forest Grove dealers, is in a serious condition at his home, suffering from severe pains in his head. It is presumed that the pain comes from a blood clot on the brain as the result of the bursting of a blood vessel while helping to unload some lime and sulphur from a truck on Monday. A specialist was called for consultation last Thursday. Miss Dena Klooster, a graduate nurse, sister-in-law of the patient, is caring for him.

TOTAL FISH HATCHERIES IN THREE OTHER STATES

Oregon maintains 37 fish hatcheries, Maine 31, and Washington 28. In all three of these states, however, this work is largely confined to the production of commercial species of fish.

LOCAL BANK HELPS BOOST LOCAL SCRIP

Don Matheson, conservator of the First State bank of Holland, sprung a surprise when he announced that the board of directors and management of the local bank advises and urges Holland folks to invest in tax warrants of the board of education, back of which the full faith and credit of Holland is pledged.

Mr. Matheson points out that the trust funds in the First State bank are redeposited in the Federal Reserve bank and are available at any time on demand. These trust funds bear no interest and using his own words as is seen in an announcement elsewhere, he says:

"Why not withdraw as much of your Trust Deposit as you wish and buy these tax warrants of the board of education as an investment which will pay you 2 1/2 per cent? Why not withdraw any funds paying less than 2 1/2 per cent and safely invest in these certificates?"

"The schools NEED your loyalty and support NOW!"

"We will gladly act as your free agent to buy for you!"

It would be well to suggest that any other idle money bearing no interest would be safe and interest-bearing when invested in these bonds and at the same time the money would materially aid our entire city.

DUTCH COSTUMES WANTED

A parade of adults of Holland in Dutch costume as a feature of Tulip Time Week will be staged here Monday afternoon, May 15, at 4 o'clock. Mrs. C. James McLean has been appointed chairman in charge of the parade.

Residents of Holland and vicinity having authentic Dutch costumes which they are willing to wear themselves or lend for use in the parade are asked to notify Mrs. McLean, 147 West Twelfth street, telephone 9852, or John Van Bragt, 279 Central avenue, telephone 3646.

HOLLAND THEATER GOERS LIKE STAGE FOLKS

Manager Carley of the Holland theater has given theatergoers a real treat when he engaged a stock company for two days a week, covering an indefinite period.

The company appeared for the first time last evening in "Mary's Other Husband." It was a real laughable farce wherein a spoiled child of a wealthy family, who always has had her own way, is given a lesson through cave men tactics that first brings hate and later love. Forbidden to marry a poet, she weds a chauffeur in spite, who makes her mind for the first time. "And does she mind?" We will say she does and learns to like it.

The family cast, the drawing room, the housemaid and all the appointments of a rich apartment are pictured.

The stock company appears every Wednesday and Thursday with a new offering. It is a tremendous show for the money, the regular picture and features starting at 7 o'clock and continuing until 9, and at 9 o'clock the excellent cast puts on the stage play which carries the show through until 10 o'clock, after which the picture features are repeated for the second show.

Mr. Carley has brought a real treat at the Holland. The company is playing in three cities: Muskegon on Sunday, Monday and Tuesday; Holland, Wednesday and Thursday; and Grand Haven Friday and Saturday. Jack Lowry and his associate players surely gave a program of wholesome comedy, which is rather refreshing and pleasing sandwiched in with the picture features.

Picnic Beer in State Parks O.K.

When beer becomes legal in Michigan it will not be sold in state parks. Beer will be permitted in the parks if it is brought there by visitors and campers but concessions will not dispense it. The action was taken by the Commission because of the fact that a large percentage of the millions of park visitors are children. If picnickers wish to bring beer into the parks they will find no objection on the part of park authorities so long as it is not connected with any disorder.

In other words, German style is O.K.

Suit Is Brought Against Fillmore Election Board

LUCAS BRINK CLAIMS SUPERVISOR UNLAWFULLY ELECTED

Suit has been filed in circuit court by Lucas E. Brink against Guy C. Hekhuis and the board of election canvassers of Fillmore township charging that Hekhuis unlawfully is filling the position of supervisor from his district. Brink claims that he rightfully was elected.

According to the charge, following the April 3 election, Hekhuis was pronounced 11 votes in the lead. A recount was asked and upon its completion April 16 the board announced Hekhuis had 237 votes, Brink 226, Schippers 2, and 50 votes were not counted for the office of supervisor. The board of canvassers claimed the 50 votes were not in accordance with election laws.

Brink charges that the Fillmore ballots were not in the prescribed form, the ballots containing but one list of nominees for the several township offices to be voted upon. Brink ran on stickers.

Brink claims the board of canvassers erred when they counted ballots for Hekhuis that should have been thrown out—some having distinguishing marks.

Brink asks that the ballots be reviewed and that he be made supervisor of Fillmore township.

In a phone call to Mr. Hekhuis, he stated that the board of township canvassers recounted the vote and found the result exactly the same as was given by the election board of Fillmore township, which canvassing board consists of John Lubbers, Henry Timmer, John Kleinhekel, Austin Fairbanks and Ben Tucker.

Undoubtedly the courts will get the correct version of this election contest.

Attorney Clare Hoffman of Allegan is representing Mr. Brink, and Attorney Orrien S. Cross of the firm of Diekema, Cross and Ten Cate is representing the township board.

Holland Pays Tribute To Wm. Prince Of Orange

REV. BEETS COMPLIMENTS PROFESSOR NYKERK ON HIS TRANSLATION OF DUTCH NATIONAL HYMN

Two Prominent Divines Give Review on the Life of William, the Silent.

Nearly a thousand folks from Holland and the countryside gathered at Hope Memorial chapel on Tuesday evening to commemorate the four hundredth anniversary of William, the Prince of Orange, better known in history as William, the Silent, one-time ruler of the Netherlands. The ruling house of today is pictured in this issue of The News as is the great liberator who fought for religious freedom for the Dutch people.

Wynand Wichers, president of Hope college, was in charge of the meeting, and fittingly told of its object and introduced Rev. Henry Beets, a powerful divine in the Christian Reformed Church, and Rev. S. C. Nettinga, president of the Western Theological seminary of the Reformed Church.

During the discourse Rev. Beets commented on the able poetical translation of "Wilhelmus Van Nassouwen," the national hymn. Mr. Beets stated that he had endeavored to make the translation in the rhyme sometime previous but he gave up the task. He contended that Dr. Nykerk had given a wonderful interpretation of this hymn in the English language. Both Dutch and English versions were printed in last week's issue. Prof. Curtis Snow gave a very appropriate and timely musical program which was especially fitting at this time.

Below will be found the addresses of Dr. Beets and Dr. Nettinga in part, as well as the balance of the program that was given.

Rev. Henry Beets, the first speaker of the evening, chose as his subject, "William of Orange, the Moses of the Dutch People." The discourse, which Mr. Beets delivered in his usual interesting manner, gave the audience a clear word picture of the character of this man who did so much for the people of the country across the sea.

Said Dr. Beets in part: "In speaking of William of Orange as the Moses of the Dutch people, I do not want to put these men on a par for Moses will ever remain the leader of the covenant people, but there is so much similarity between William of Orange and Moses, and also between the peoples whom they led, that I think we may well speak of this man as the Moses of the Dutch people."

"The first point of similarity is the noble ancestry of both. Moses was a descendant of Abraham; William of Orange was a direct descendant of Adolf, the Kaiser of Germany, called one of the greatest men of all ages. The mothers of both men were women of strong religious faith. Jacob clung to the promises of God and although Juliana, the mother of William, experienced much sorrow and affliction, she, too, repeatedly gave evidence of her great faith in God, and although often brokenhearted she continually stood back of her oldest son William, always advising him 'you are fighting a noble fight for Him who can and will help you stand.' Is it any wonder that Queen Wilhelmina named her daughter Juliana after so noble a woman?"

"Secondly, we have the similarity (Continued on Page Three)

BOY DIES IN HOSPITAL AFTER BEING HIT BY CAR

Gordon Bakker, eight-year-old son of Mr. and Mrs. Joseph Bakker, was seriously injured Monday afternoon when he was struck near his home two miles east of Holland on the extension of Sixteenth street by an automobile driven by Ben Wierda of East Ninth street. The youngster was playing ball when he followed the ball onto the highway as the car driven by Wierda approached. He picked up the ball and started to run to the side of the road, but fell in the path of the car.

Wierda stopped and was carrying the lad to a nearby house when Supervisor Albert Hyma, the boy's school teacher, arrived at the scene. The lad was rushed to Holland hospital in an unconscious condition by Mr. Hyma. The boy died Wednesday morning at 8 o'clock at the hospital from internal injuries complicated by a crushed pelvis and a fractured left leg.

Mr. Wierda was questioned yesterday at a session with Prosecutor John R. Dethmers, Coroner Gilbert Vande Water and Deputy Tony Groeneveld.

Besides his parents, Gordon is survived by two sisters, Clarence and Angelyn, and three brothers, John, Harvey and Martin, all at home.

Funeral services will be held on Saturday afternoon at 1 o'clock from the home and at 1:30 o'clock from the Niekerk Christian Reformed church. Rev. M. Bolt, pastor, officiating. Burial will take place in Holland township cemetery.

HOLLAND GETS CAR OF SUGAR BEET SEED

MERCURY DROPS TO 26 DEGREES TUESDAY NIGHT

A sharp drop in temperature occurred in Ottawa county Tuesday night when the thermometer dipped to 26 degrees. This is within 3 degrees of the record for the day which happened in 1907. Out in the rural districts, where it is low, the temperature dropped 10 degrees lower and a half inch of ice was reported by many farmers in this vicinity.

Due to the dryness of the air in this section there was not much frost. In the rural sections some damage is expected from the severe frost, although it is not expected to be extensive as the season is not advanced and fruits are not far enough along to be badly affected. There are quantities of young celery plants planted but it takes several very severe frosts to damage the crop, it was reported today.

GRAVEL PLANT TO OPERATE ON LIMITED SCALE DURING SEASON

R. C. Yeomans of the Construction Materials Co., whose office is located in Chicago, was in Grand Haven a few days ago. He stated that only limited operations would be carried on at the local plant this year due to the curtailment of road building in Michigan, which is being prescribed by the state. The company, it is understood, will mine very little gravel at Bass river this season as there is already a quantity on hand. The plant usually employs 50 or more men and a fleet of tugs and scows are employed annually on the river, bringing the gravel from Bass river to the distributing plant at Ferrysburg. The gravel is sent out from here on large freighters. In indications are that the large tonnage annually passing through this port from the company will be greatly reduced this season, he stated.

Mayor-Aldermen Now Concur In Welfare Rift

MAYOR AND COMMON COUNCIL CO-ORDINATE ON WELFARE

Resignation of Cornelius J. Dregman, Accepted and Ben Wiersma Is Named.

It appears from Monday night's special council meeting that there is co-ordination on welfare problems between the mayor and the common council, judging from the action taken at this special meeting.

The meeting was the result of another action taken at the regular meeting when, through a resolution presented by Alderman Kleis and signed by seven aldermen, the resignation of C. J. Dregman was demanded and in his stead Benjamin Wiersma was appointed as head of the welfare department.

This action brought out a veto from Mayor Bosch, all of which was explained and printed in full in the official council proceedings of last week's issue.

Monday's meeting was supposed to be an interesting one but it is evident that the aldermen and the mayor had been conferring and also the resignation of C. J. Dregman was unexpectedly submitted to Mayor Bosch. As the mayor stated, Mr. Dregman had repeatedly asked to be relieved of these duties, giving verbal notice on several occasions, but the resignation on Monday was written and made imperative.

The resignation was handed to Alderman Albert Kleis of the first ward by Mayor Bosch asking him to read it to the aldermen.

Together with his resignation Mr. Dregman also gave a review of what has been accomplished in the welfare department, which statement follows in full:

"I hereby resign as director of welfare effective April 29, 1933.

"On December 28, 1932, at the earnest request of your joint welfare committee, composed of citizens and council members, I agreed to organize your department of welfare. It is now on a business basis and operating smoothly.

"Costs have been reduced as follows:

"1—Coal costs are \$5.40 per ton for furnace mixture and \$5.63 for stove coal. These are the lowest coal prices paid by any welfare department with which I am acquainted. The Holland fuel dealers are to be commended for their fine co-operation.

"2—Rents have been reduced to \$4 and \$5 a month, whereas formerly the city paid up to \$10 a month and more.

"3—Medical costs have been reduced 3-1-3 per cent for operations and 25 per cent for house and office calls. Only emergency operations to save life were approved. Medicines are furnished by our doctors at cost.

"4—Prescriptions and drug store supplies are bought at cost.

"5—Milk formerly cost 6 cents a quart. It now costs the city 4 1/2 cents, delivered.

"Whereas under the former allowance system welfare families had to buy food at regular retail prices, they now obtain it at cost, plus 10 per cent. They are better fed at lower cost to the city. The average cost per person for food and milk is \$1 or less per week, depending on the size of the family.

"Lists of all welfare families on file in the welfare office show that present costs per family for food and milk are substantially lower for many families than they were under the allowance system, which did not include milk in most cases.

"Those receiving aid testify that under the allowance system they had not sufficient food, but that they supplemented the allowance by such small earnings as they were still able to make last year. These earnings have now almost completely stopped.

"An efficient accounting system has been set up and a detailed account is kept with each welfare family, showing each item of aid furnished, as well as credits for labor done and payments made.

"The visitor system of contacting welfare families is proving efficient and through the close supervision which it makes possible many abuses have been stopped and others prevented. Co-operation of the manufacturers and merchants in furnishing visitors with weekly payrolls is a very effective check on abuse of aid.

"At the beginning of my administration the city had 435 families on the roll. We now have over 600 families. General costs have been reduced about 22 per cent, while families have increased over 38 per cent.

"Bank accounts totaling \$5,650.45 have been assigned to the city. Notes for \$153.50 are held against welfare accounts. A later claim for \$250 has been assigned to the city.

"It has been my endeavor to put the Holland welfare on such a basis that it would save money for the taxpayer and care adequately for our unfortunate fellow citizens dependent on its aid. How well this has been accomplished I leave to the unbiased judgment of the citizens of Holland.

"C. J. DREGMAN."

No action was naturally taken on the mayor's veto since matters had shaped themselves in such a way that there is full cooperation on this vexing welfare matter as is seen from the mayor's message which follows below and the resolution presented by Alderman Fritz Jonkman, which is also printed in this column.

The thought in both documents largely coincides as this relates to the welfare department. In fact

MATCHES MADE IN GRAND HAVEN LONG AGO ARE USED

Grand Haven Tribune — Some matches were used at the city hall yesterday that were a product of the old Grand Haven match factory which manufactured matches here about 40 years ago. ZEELAND BARBERS WANT REST

Public notice is given that all barber shops in Zeeland will close at 12 o'clock noon each Wednesday and remain closed for the remainder of the day until further notice, as has been the custom in former summer seasons. Here the depression has made no impression, it would seem.

CITY FATHERS TO MAKE APPOINTMENTS MONDAY

The Holland council will meet Monday evening for election of city officers and members of various boards not covered by the spring election. Salaries also will be fixed. Offices to be filled and now occupied include City Attorney, Clarence A. Lokker; city engineer, Jacob Zuidema; health officer, Dr. W. M. Tappan; city inspector, Henry S. Bosch; president pro tem of council, Albert P. Kleis.

"SUNNY" KUIITE MOVES TO RIVER AVENUE

Rather an unexpected business deal transpired when the A. and P. food store, formerly in the Vander Veen building, leased the large Economy Market, conducted for years by "Jake" Kuite and son. This market has an unusual history.

It was started sixty years ago by the late Jacob Kuite, Sr., one of Holland's pioneers, and repeatedly an alderman of this city.

The market was then located in a one-story building where Pieper's Jewelry store is now, where it had been for many years. Some thirty-five years ago the market was taken over by Jake Kuite, Jr., who established it in a wooden structure on the site of the beautiful new building erected about ten years ago. For many years it has been known as the Economy Market.

Since the retirement of Jacob Kuite, Jr., Wallace Kuite, better known as "Sunny," has been in charge of the market. Mr. Kuite will not retire from meat market business altogether, having moved to River avenue in the Model Drug Store block, where Mark's accessory store was formerly located.

Scholarships To Be Awarded By Local Man

MICHIGAN STATE COLLEGE ALUMNI SEEKING OUT- STANDING STUDENTS IN MICHIGAN

Scholarships to Michigan State college will be offered to graduates over the state this spring before the close of the school year and Michigan State college alumni clubs and committees are engaged in seeking the outstanding students from each senatorial district in the state. Scholarships would give a college education to those who otherwise would be financially unable to consider one.

James Van Zyle of Grand Haven, a graduate of Michigan State college, and Jerry Breen of Holland, are assisting Otto W. Pino, teacher of agriculture at Zeeland High school. According to Mr. Pino only boys and girls entering Michigan State college this fall as freshmen and who have been in the upper one-third of their high school classes are eligible. Applicants must be students whose financial circumstances definitely warrant scholarship aid.

Last year applications were numerous from Muskegon and Ottawa counties, which are included in senatorial district No. 23. The award was made to Victor Bilen-ski of Muskegon.

Immediate application is urged by any student who measures up to the requirements listed. The successful candidate and two alternates will be announced by the committee early in June. Those selected in each district will take a comprehensive placement examination early in the summer.

Applications might include the following:

Rank in class for the four-year period.

List of sports or extra curricular activities.

State what course is desired in college.

Give as references two responsible adults other than relatives.

General health now and during high school.

A transcript of high school credits to date.

A small unmounted snapshot of yourself.

Members of the committee will be glad to give students any assistance needed in making application.

Mr. and Mrs. Morris De Vries have moved from their home at 14 West Sixteenth street to a residence at 358 Central avenue.

you might use the adage, "two souls with but a single thought, two hearts that beat as one." For the good of Holland it is indeed hoped that there will be full co-ordination.

Change Complex Of Standing Committees

MAYOR BOSCH APPOINTS HIS COMMITTEES; M A K E S MANY CHANGES

Mayor Nicodemus Bosch this year delayed in making his committee appointments and it was understood that these appointments would be announced at Monday night's meeting when the other appointments are made. The mayor, however, made many radical changes and sent these in to the city clerk so the aldermen could be notified and the Holland newspapers were also given copies of these appointments.

Alderman Al Kleis and Alderman Henry Prins, prominent on the ways and means committee, are not found on that committee this year. Albert Van Zoeren is chairman and Fritz Jonkman and Al Van Lente are the other members.

The committee appointments for 1933 and 1934 as made by Mayor Bosch follow below:

Street Committee—Fritz Jonkman, chairman; John Woltman, Henry Prins.

Welfare Committee—John Woltman, chairman; Bert Habing, Albert Van Zoeren.

What Our New Auto License Will Look Like

The 1934 motor vehicle license plates will have black block numerals on a canary yellow background, it was announced by Secretary of State Frank D. Fitzgerald. The year and the word MICHIGAN will be at the top of the plate. In order to prevent the counterfeiting and reprinting of plates of previous years the year will be divided so that the top line of the plate will read "19 MICHIGAN 34." Many in Holland do not even know what the 1933 license looks like.

Zeeland Plans Working Farm To Help Relief

PLAN DISCUSSED MONDAY NIGHT WOULD GROW VEG- ETABLES BY UNEMPLOYED MEN

(Zeeland Record)

It is quite evident that the Zeeland welfare committee intends to make use of the idle men in this city during the coming summer, in order that they may contribute something toward their own support, according to plans discussed Monday evening.

In accordance with the plan they are now contemplating the working of a forty-acre farm to raise vegetables for their use, and it is expected that a great deal of a year's supply can be grown by the men themselves, much of which can be preserved for winter use.

Alderman John A. Hartgerink is chairman of the committee has the matter in charge and the other members are Alderman D. Vereeke and Welfare Director G. P. Rooks.

It has long been felt that those wholly or in part dependent on welfare aid should contribute to their own support, but work has been scarce so that the demand for help far exceeded the possibility for earning it, and the present move is to produce profitable occupation to offset the need for aid.

IMMIGRATION

Our depression has been well advertised abroad, it would seem from the statement of current immigration published by the Department of State. It is just as well, perhaps, that no one wants to come to the United States any more. Still, the change is a remarkable one in view of the flood tide that poured into this country up to less than a decade ago. In the year 1913 nearly 1,200,000 people of other lands were admitted into the United States, in the year 1923 as a result of restrictive laws, 522,000 persons came. But so far this fiscal year, which will end in June, only 3,011 residents of foreign nations have sought and been granted visas to enter, not counting 1,105 that came from Mexico and 3,343 that arrived from Canada.

In every instance in which quotas have been allotted, the number of visas granted has been far below the allowance. The total theoretically permitted to enter this year is 158,831, not counting Canada and Mexico. Great Britain and Northern Ireland, with a quota of 65,721, have sent only 278 so far this year, Germany, with a quota of 25,957, has sent only 487, while the Irish Free State, with a quota of 6,524, has sent 495, while Italy, quota 5,802, has sent 597.

While it is true that American consuls abroad have been acting under instructions to be as sparing as possible in granting visas, and to give none where it appears the applicant is at all likely to become a public charge, still it is true that the depression in this country and not its laws have been the great deterrent factor. Our doors are open to suitable immigrants from every country on the list, from Afghanistan and Andorra to Togoland and Yap. None of the quotas, according to the State Department, is anywhere near filled.

CELEBRATES EIGHTY-FOURTH BIRTHDAY

Children of Thomas Boven gathered this week at the home of Mrs. Fred Stolz, 151 West Fourteenth street, where the eighty-fourth birthday of Thomas Boven was celebrated.

Mr. Boven was born in the township of Laketown near Graafschap and lived with his parents in a log house in that section and he can boast of being the first white child born in Laketown. His parents were married in the first log church by Dr. A. C. Van Rastle, where Mr. Boven was also baptized in 1847. The church site was on the brow of the hill in Pilgrim Home cemetery.

For forty-two years Mr. Boven has lived in the same house on Fourteenth street, a house which he himself constructed at a time when the street was "merely hilly territory to the east." His daughter, Mrs. F. W. Stolz, with whom he is making his home at present was a baby when the house was built.

Mr. Boven distinctly remembers of the great Holland fire of '71, which swept into the city from the woods to the south and west. The Third Reformed church then was located near the west and south limits of the city, where the fire made its first appearance. What is now Michigan avenue from Holland hospital hill to the Christian High school was then a large swamp and farmers walking from Laketown had to cross this bog, stepping from log to log. Later a log road was built across it, serving the farmers around Graafschap and Fillmore.

Mr. Boven is a veteran of the civil war, when Lincoln and Dr. Van Rastle called for volunteers. It was Dr. Van Rastle's earnest, forceful plea as a speaker that enabled Holland and vicinity to send such a large company to the southland in the civil strife.

Mr. Boven is a carpenter by trade and for many years was employed at the Scott-Lugers Lumber company as one of their trusted mechanics.

Five of Mr. Boven's children, including Mrs. Stolz, are living. They are Mrs. Susan Borchert, Peter Boven and Anthony Boven of Holland, and Henry Boven of Kalamazoo. A sixth daughter, Mrs. Tillie Kieft, died here about four months ago. In addition to his five great-grandchildren, he has nineteen grandchildren. Bobby Van Dis is the son of Mrs. Marjorie Van Dis.

BOARD OF PUBLIC WORKS TO TAKE WELFARE SCRIP

The common council debated another question at the special meeting Monday when the much debated board of education scrip problem was again open. It was felt by many merchants and others that the city government should accept some of this scrip and pay employees with it.

A conference was held with the board of public works and it was decided that part of the light and water bills could be paid with the board of education bonds, as these are called.

Speaking for the board of public works, James DeYoung stated that some scrip could be used as part payment of employees and light and water bills up to 10 per cent. The matter was referred back to the special committee, with City Clerk Oscar Peterson added as a member.

G. J. Postelker of Graves Place was taken seriously ill yesterday and was rushed to Holland hospital.

COUPLE OBSERVES 51ST ANNIVERSARY

Mr. and Mrs. Edward Vandenberg, residents of this city for 45 years, quietly observed their fifty-first wedding anniversary on Wednesday at their home, 213 West Fourteenth street. Mr. Vandenberg, 72, who has been seriously ill since last November, is confined to his bed.

Mr. Vandenberg was born in Spring Lake but spent a great part of his time in Grand Haven, where he was married to Miss Margaret Van Hall. Six years later the couple moved to Holland, where Mr. Vandenberg purchased the undertaking establishment of John Alberti, which was later taken over by John S. Dykstra.

Mr. Vandenberg was supervisor for sixteen years, ending his final term a year ago. He is a thirty-second degree Mason and has been a member of the Odd Fellows lodge for years.

Mrs. Vandenberg is a member of the Star of Bethlehem chapter, Order of the Eastern Star.

The two have a daughter, Mrs. Eva Ten Brink, living in Holland; eight grandchildren: Arthur Ten Brink, Edward Ten Brink, Jack Ten Brink, Raymond Ten Brink, Miss Evelyn Ten Brink, Mrs. Margaret Cleves, Mrs. Mabel Raffens and Miss Marjorie Vandenberg; and eight great-grandchildren. A son, Arthur, died fifteen years ago.

MRS. F. W. HADDEN SUCCEUMS AT HOME

Funeral services for Mrs. Frank W. Hadden, 74, who died early on Tuesday morning at her home following an illness of three months, were held this Thursday afternoon at 1:30 o'clock from the residence, 106 West Eleventh street. Rev. Joshua O. Randall, pastor of the First Methodist church, officiated. Burial took place in the family plot in Otsego cemetery.

Mrs. Hadden was born in Manlius township, Allegan county, on May 14, 1859. When a child she moved with her parents, Mr. and Mrs. Isaac H. Lamoreaux, to Otsego, where she was married to Mr. Hadden on December 27, 1857. Six years later the Haddens moved to Holland and have resided here for forty-eight years.

Mr. Hadden, who retired about twenty years ago, was formerly vice president and superintendent of the West Michigan Furniture company. Mr. Hadden has been ill for the past ten weeks. Mr. and Mrs. Hadden celebrated their golden wedding anniversary three years ago.

Mrs. Hadden was an active church worker. She was a member of the First Methodist church as well as of the Women's Aid society. She also was a member of the Woman's Literary club, the D. A. R., and Holland chapter No. 429, Order of Eastern Star.

Besides her husband, Mrs. Hadden is survived by one daughter, Mrs. Merrick Hanchett of Holland; two sons, Mayo A. Hadden of Holland and Ray W. Hadden of Chicago, and six grandchildren.

DR. CLARENCE HAND DIES SUDDENLY AT HOLLAND

Dr. Clarence J. Hand, who during his ten years residence in this city, has made a large circle of friends, died suddenly at his home, 630 State street, Saturday morning. Dr. Hand was taken with a heart attack early in the morning resulting in death a few hours later.

He was born in Williamsville, New York, in 1861, graduating from the University of Michigan from the dental department in 1884. He opened offices shortly afterwards at Bay City, later going to Romeo, Mich. From Romeo, he moved to Canton, N. C., where after 12 years of business he retired and came to this city.

At the time of his death Mrs. Hand and grand-daughter, Miss Vivian Visscher, were attending the D. A. R. convention at Washington, D. C., but hurried home when the sad message arrived. Dr. Hand was the father of the late Mrs. Raymond Visscher and the family coming to Holland was largely because their daughter had made this her permanent home. While here Mr. Hand was associated with the Visscher-Brooks Insurance Company.

He was a member of Grace Episcopal church, also a member of the Exchange club and of the Masonic order. He was affiliated with Oasis Shrine of North Carolina.

Funeral services for Dr. Hand were held Tuesday afternoon at 2:30 o'clock, Rev. J. Wendell Davis, pastor of Grace Episcopal church of Holland, officiating.

The pallbearers were Mayor Nicodemus Bosch, Otto P. Kramer, William L. Eaton, Phillip Brooks, S. L. Henkle and Percy Ray, representing the Sons of the Revolution, the Holland Exchange Club and the Masonic order.

The floral tributes were many and beautiful, showing the esteem in which Dr. Hand was held at home and abroad.

Interment took place in Pilgrim Home Cemetery.

The survivors besides the widow are a sister, Mrs. C. A. Wetherington of Los Angeles, Cal., and three grandchildren, for whom Dr. and Mrs. Hand have been making a home since the death of Mr. and Mrs. Raymond Visscher. The grandchildren are Miss Vivian Visscher, Jane Anne Visscher and Robert Visscher, all of Holland.

PEOPLES STATE BANK EXPECTED TO OPEN SOON

Progress is being made for the reopening of the Peoples State bank. Representatives of the bank have been at Lansing during the week and Clarence Jalving, together with the depositors' committee, has been given definite assurance of that fact by the banking department at the state capital.

It is understood since this bank has been placed in receiver's hands when bank defections first started in January, 1932, that certain legal technicalities must be complied with in Ottawa county circuit court before Judge Fred T. Miles. This petition has been requested, and the attorney general has been notified of the procedure.

Circuit court of Ottawa county will convene in May, and it is sincerely hoped by the bank authorities that the institution will be open for business around the middle of May. Mr. Tinch, chairman of the depositors' committee, states that the added \$50,000, making a total of \$150,000 capitalization, has been oversubscribed and a large part of the impounded \$50,000 in one of the Detroit banks has been released and all this has made more clear sailing for the local bank.

When the Peoples bank does open it will mean the release of the first 10 per cent of 50 per cent of the assets, according to the agreement made last fall.

Receiver Clarence Jalving and the depositors' committee have been untiring in their efforts and have overcome many obstacles and repeated disappointments.

The depositors' committee is composed of the following men: George Tinch, chairman; Fred Beeuwkes, Oscar Peterson, John Vandersluijs and George Steffens.

"Cold" Light Secrets of Firefly Worth Knowing

When electric light has been switched on for a few minutes the bulbs become too hot to handle. In other words, light has never been produced by any man without the attendant heat. Yet light without heat is possible, as proved by the firefly, the glow worm, and other luminous insects and bacteria. They are far more efficient makers of light than mankind, because they know how to utilize chemical reactions to produce cold light—that is, illumination without heat, which saves 90 per cent in the consumption of energy.

At present the best we can do in light production is represented by the very best electric lamp, but of the rays sent out, all of which require a supply of energy for their production, only 10 per cent are of any use to the human eye as light; the rest are heat radiation, the infra-red rays which we can feel but not see, and therefore pure waste so far as illumination goes.

Who is going to discover the firefly's secret of "cold" light, since all the light produced by the firefly lies in the range visible to the human eye? A fortune awaits the discoverer of a means of separating light from heat, for the same supply of energy will produce a light ten times more powerful, and only a tenth of the energy expended at present will be required to attain our present standards of light production.—Tit-Bits.

Should Men Wear Shawls, as in Days of Lincoln?

Should men wear shawls? The suggestion comes from Carolyn Wells, in the New York Sun. If women are to wear Victorian costumes or costumes of the gay nineties, is it fair to say that men should not wear shawls? Lincoln wore a shawl, but nature designed him so that he would not look ridiculous in one. His opponent in the Lincoln-Douglas debates would have made a less impressive figure in a shawl. Like all questions having to do with wearables, Miss Wells' provocative question admits of no positive answer. Should women wear hats that were in style 50 years ago? The one question is as answerable as the other. If enough men want to wear shawls or are persuaded that there is no escape from wearing shawls, then men will wear shawls, in the Twentieth century just as they did in the Nineteenth. There will be grumblers and dissenters and rebels, just as there are those who flout current customs, but the matter will not be determined altogether by propriety or usefulness of the article itself.

Species of Rain-Birds

In various localities different species of birds are frequently referred to by their name. The greater number of these are members of the cuckoo family. Thus the yellow-billed cuckoo, found throughout eastern North America, including Michigan, though chiefly in the southern part of the state, is referred to as the "rain crow." This name is given also to the anis, another species of cuckoo found in Mexico and Central America, and several varieties of cuckoo in the West Indies are spoken of as rain birds. Some of the other birds called "rain-birds" in the countries in which they are found are the green woodpeckers, of England; a species of quail, in India, and a member of the broadbill family in the Malay region.

Dormouse Is Thrifty

The dormouse, which has characteristics of both the mouse and the squirrel, finds its squirrel-like habits of real value frequently. It stores up large quantities of nuts for winter food, and, having stocked its larder properly, it goes to sleep. When bright warm days come in winter and cause it to awaken, it finds plenty of food at hand and after eating its fill it goes back to sleep until the next spell of unreasonable weather wakes it up. The common white-footed mouse, which is used as a pet in this country, is sometimes called a dormouse.—Washington Star.

Welfare Director Is Agreed Upon

ordination in the future for surely Holland needs to pull together more today than ever before.

MAYOR'S MESSAGE

April 24, 1933.
TO THE HONORABLE,
The Common Council of the
City of Holland:
Gentlemen:

I have filed with the City Clerk in writing my objections to the passage of a recent resolution pertaining to the city welfare work. I feel that the objections are in order, but I did not wish to elaborate in the preparation of those objections. There are a few things, however, which I feel I would like to call to your attention under the heading of general remarks.

As frequently stated by me, there is no department in our present civil government that has challenged my attention and caused me greater concern and sympathetic attention than the welfare work. I have known for some time that a change in the directorship of welfare would become necessary, as I have anticipated the resignation of the present director. However, I had not made definite conclusions as to recommendations.

I desire to direct your attention to the danger of employing a director for a longer period than one month. Personally, I feel that it would be unwise and I would therefore recommend the appointment of a welfare director on the basis of employment from month to month.

I would further recommend that the present system which has been very carefully worked out, be retained and not overthrown completely. In this connection I believe that the Common Council should and must, at all times, retain complete and final control over our welfare question, and that the various members of the Council should familiarize themselves with the important details of the welfare administration. It is fortunate that the Council, as a whole, is now facing this problem directly and interesting themselves in this all important city function.

I believe that the welfare committee should keep in constant and close touch with the welfare work and should report any proposed changes to the Common Council for determination. I am of the opinion that many substitutions and adjustments could be made, so that those on the welfare list may exercise their choice in the selection of commodities for their consumption; that those on the poor list should have an opportunity to acquaint the welfare department with their specific needs, such as the substitution of potatoes for spaghetti or butter for oleo without additional expense. These are minor substitutions and there may be many others that could be made and should be made. It is not at all improbable that a further saving might be made and still permit these adjustments.

I believe that the welfare director should not exercise arbitrary discretion, but that all the people served should be served with equality and that problems with reference to substitutions and the like and suggestions to be made should come direct to the Council for their consideration and disposition.

This message I give you in the spirit of cooperation and good feeling and to stimulate renewed interest and efficiency in this department.

Respectfully submitted,
Nicodemus Bosch,
Mayor.

Mr. Jonkman's resolution follows:

RESOLUTION

To the Honorable, the Mayor and the Common Council of the City of Holland:
Gentlemen:

WHEREAS, the Common Council is assembled for the purpose of reconsidering a certain resolution concerning the administration of welfare in the city of Holland, and

WHEREAS, the resignation of the former Welfare Director, C. J. Dregman, is on file, and

WHEREAS, it is one of the chief concerns of the Council members to efficiently and economically administer the welfare work of the city, and

WHEREAS, it is now necessary to create the administrative office of a Welfare Director and to make an appointment to said office, and

WHEREAS, the best interests of the people of the city can be served by a spirit of cooperation.

Therefore, BE IT RESOLVED, that the resignation of Mr. C. J. Dregman, as Welfare Director of the city of Holland, be accepted.

And, BE IT FURTHER RESOLVED, that pursuant to the authority contained in the Charter of the City of Holland the administrative office of Welfare Director be created.

BE IT FURTHER RESOLVED, that the compensation of said office be fixed at the rate of Sixty-five (\$65.00) dollars per month and that a Welfare Director be appointed to serve from month to month in accordance with said salary, provided, however, that said compensation of said welfare director may be changed from time to time by order of the Common Council and that said compensation be fixed as conditions may warrant.

BE IT FURTHER RESOLVED, that the general system which has been employed in the administration of welfare work be continued, subject to such specific modifications as may be proposed from time to time by the Welfare Committee and that the Common Council shall make final determination of any such proposed changes, and that the Common Council at all times retain direct supervision of the welfare work.

BE IT FURTHER RESOLVED, that the Common Council proceed immediately to select by ballot the Welfare Director as hereinabove provided for.

Respectfully submitted,
F. N. Jonkman.

After these documents were read the aldermen asked that a recess be given of ten minutes to discuss the hiring of a new welfare head. After much debate and several votes were taken, the council again reconvened and it was apparent that an agreement had been reached to hire former Alderman Ben Wiersma on a month-to-month basis as was suggested in both the mayor's message and Jonkman's resolution.

LOCAL PASTOR TO BEGIN SERIES OF SERMONS

Rev. J. Laning, pastor of the Immanuel church, which meets in the Armory, will present a series of sermons each Sunday evening entitled "God's Plan for the Ages," or "What Is Meant by Dispensations."

Many people in hearing about the second coming of Christ or events which are yet to come do not know where to place them in

the Scriptures, and thus come to many wrong conclusions. There are periods of time in the Bible, past, present and future, and the careful student will seek to learn what is to take place in each period or dispensation.

In order to help any who may be confused on this subject, Mr. Laning will give a series of messages taking in their order all the dispensations of time as given in the Bible. Many Christians have been led in the most dangerous doctrines, wild theories and speculations, to their own downfall and even some have given up the Bible in utter despair.

The Word of God is clear on all these important truths and you are invited to hear these messages illustrated by a large chart beginning in the Armory Sunday evening.

Mr. Laning's subjects are as follows:

- April 30—"From Adam to Noah."
- May 7—"From Noah to Abraham and the Reason for Circumcision."
- May 14—"From Abraham to Moses and the Reason for the Ten Commandments."
- May 28—"From Moses to Christ, the Rejected King."
- June 4—"The Dispensation of the Church and Who Are Members of It."
- June 11—"The Two Resurrection Periods."
- June 18—"The Judgment Seat of Christ and Its Purpose."
- June 25—"The Period of the Great Tribulation."
- July 2—"The Period and Condition in the Millennium or Thousand Years."
- July 9—"The New Heaven and the New Earth."

larity in education. As Moses, because of circumstances under the providence of God, was educated in the courts of Egypt, away from home and loved ones, so William of Orange was sent from home at the age of seven years and at the age of eleven years was taken to Brussels to be educated in court, educated in the wisdom of the world.

"Thirdly, both men had a remarkable vision concerning their life's task. Moses refused to be called the son of Pharaoh's daughter, because he felt that he was called to be the leader of his people. Thus, too, William of Orange at the age of 26 years, in 1559, was sent to Paris with several other prominent men as hostage, and Hendrik II, finding himself alone with this young man and supposing that he, because of his training and environment had knowledge of all the plans of the court, divulged these plans in detail, whereupon William of Orange resolved then and there to do all in his power to deliver his people out of this 'house of bondage.' Much could be told of the cruelties and sufferings that our ancestors were forced to undergo, but time will not allow.

"Then I want to mention the unswerving devotion, the wholehearted loyalty of both these men to their life's tasks, laying all on the altar of self-sacrifice, remaining loyal to the end, and leaving the completion of the tasks they began to their immediate successors. But the seed sown brought forth abundant harvest. Holland after becoming independent, became the leader of religious liberty through William of Orange, the Moses of the Dutch people, and his successors. We owe God the thanks for giving such a man as was William of Orange."

Rev. S. C. Nettinga, president of Western Theological seminary, was the second speaker of the eve-

ning, taking as his subject, William, the Silent, Pioneer of Religious Freedom." Rev. Nettinga began his discourse with the familiar phrase, "First in war, first in peace, first in the hearts of his countrymen," stating that this, although usually referring to the "father of our country," might also be said of William, the Silent, for said Dr. Nettinga, "He was indeed the 'father of his country.' No wonder the Dutch people think so much of the royal family. What men really are depends on the principles they hold dear. History is replete with incidents of that nature. We reap what we plant. Men who have faith in God live differently than pagans. You cannot build Christianity on pagan principles. We cannot minimize great leaders of their day such as was William of Orange."

"There were few people in his day who would tolerate a religion different from their own, who would tolerate two different religious faiths to live peacefully side by side. Then came Martin Luther who said that the soul was the supreme thing in life. There was no such thing as luke warmness in the sixteenth century, but men believed what they believed wholeheartedly. The few who dared to advocate tolerance of religious freedom, were regarded as heretics."

"But William of Orange was courageous. He dared to make known his thought because of his convictions of doing right before God. He demanded tolerance of religious freedom. The result was that The Netherlands became a haven of refuge for many."

"All this calls us to deep appreciation of this man of deep religious convictions. Our lines have fallen in pleasant places. Especially is this true of this United States of America where we may enjoy religious freedom, where we may worship God unmolested, but what a price has been paid. Suffering, blood, sweat and tears."

"But, remember, the enemy is always on the job. This is an age of lawlessness and unless we dedicate ourselves anew to this religious freedom and thus truly celebrate aright this four hundredth anniversary of the Prince of Orange, this celebration will not have accomplished its purpose."

HOLLAND RESIDENT TO BE
94 YEARS OLD WEDNESDAY

John Kollen, one of Holland's oldest and best known citizens, will mark the ninety-fourth anniversary of his birthday Wednesday. He is the only survivor of a family of five children and with the inclusion of his father, who died at the age of 46 in The Netherlands, the average age of the septuagenary mounted to 83 years.

Kollen's mother lived to be a centenarian and when she celebrated that anniversary in 1904 was the recipient of a congratulatory telegram from President Theodore Roosevelt.

Game As A Crop

By Arthur G. Baumgartel

In considering this subject there are certain factors, simple in themselves, that must be clearly borne in mind if one is to arrive at a logical conclusion.

While the game belongs to the State, held in trust for all the people, the land on which it lives is private property, to which the hunter has access only at the pleasure of the owner. It is therefore evident that the hunter and the landowner have a mutual interest.

For taking game by the hunter, the State exacts a fee, and in so doing acknowledges its responsibility for keeping up the supply. And as it has a reputation for sponsoring constructive conservation, and the plan is firmly believed to come under that category, Dwight Lydell Chapter was chosen to have the first opportunity to consider it.

The plan is not entirely new. Its aim is to produce more game at less cost, with adequate reward to the producer. Under it any farmer, even one who practices "clean" cultivation and therefore has little or no game cover, could rear birds under wire and be sure of compensation for successful propagation.

In brief, it is for the State to furnish pheasant eggs free to farmers who would agree to give them and the young proper care and food, they to receive as compensation a stated sum for each bird turned over to the State for release on ground open to public hunting, either "wide open" or as controlled by the present trespass law or the "Williamston Plan."

What do some of Michigan's leading conservationists think of it? Here is what they have written me:

George W. Raff, Traverse City: "I think your plan the best I have heard of so far."

Allen W. Church, Grand Rapids: "I am convinced that a canvas of the farmers of this state would show that a plan of this kind, in which they would have monetary consideration, would be far more acceptable than any other plan now in existence or proposed."

Peter Trudell, Jr., Negaunee: "The sportsman of Michigan's pheasant country contributed heavily to the small game license and is entitled to the development of his game and his hunting."

George D. Blair, Jackson: "It appears to our Directors that the proposition of supplying State owned pheasant eggs to farmers, with remuneration for each bird raised and released, has considerable merit. There seems little question but that this procedure would tend to make the land owner game-minded, and at the same time, provide him with a much needed additional income."

Dr. P. A. Wolfe, Cadillac: "The plan of encouraging farm-

ers to hatch pheasants for compensation is excellent."

A. H. Snook, Kalamazoo: "Since receiving your letter of February 17th, I have shown it to a number of sportsmen for their comments. They have, almost without exception, expressed the thought that the plan outlined would produce the results desired. The plan does appeal to me, personally, as being a long step forward from present methods."

Joseph M. Karmann, Dearborn: "I take this opportunity to endorse the plan and hope it can be made a reality."

Tom McClure, Lansing: "Your plan of having the farmer rear birds from eggs given him by the Conservation Department and holding them until a certain age, full-winged and capable of going free, for which he would be compensated by the State, the amount of which is to be subsequently decided upon, in our opinion is very commendable and has much merit. I believe that your plan is practicable and one which should meet with general approval."

Theodore (Ted) A. Thompson, Williamston: "I have talked the matter over with King (originator of the Williamston Plan of controlled hunting) and we are both of the opinion that if the farmer is to be compensated for his effort, this compensation should come from the State rather than from private resources with their tendency to exploit either the farmer or the game or to restrict hunting to a privileged few in certain areas."

Albert Stoll, Jr., Detroit News: "It is very evident that if Michigan is to continue to satisfy the licensed hunters of the state some extensive plan of game production must be undertaken and if sufficient inducement can be offered land owners to undertake such a program the problem will be largely solved."

What is the reaction of the scientist? Dr. E. C. O'Roke, U. of M., Ann Arbor: "I see grave danger in the plan to have farmers rear pheasants, presumably with or near farm poultry."

"Losses to young chicks from disease such as Pullorum disease, coccidiosis, and gape worms are liable to be heavy. Also the incidence of avian tuberculosis in farm flocks in Michigan is such that young pheasants, thus reared, may already be tubercular when they are liberated in late summer and may not survive the first winter. Pheasants are not easy to raise even by one who is thoroughly familiar with bird diseases and their prevention, and for an amateur, the undertaking is more liable to fail than to succeed."

"I dislike very much to discourage the project, for its psychological and good will value is so wholesome, but I speak from wide experience with game bird raisers whose birds I have inspected. Frankly, I don't believe it will work but I wish it would. I would like to see every farm boy who wants to raise a brood of pheasants to have a chance to try it. Having cared for these little birds through thick and thin and succeeded, he is not going to become a poacher or a violator."

Prof. H. M. Wight, U. of M., Ann Arbor: "I have been familiar with the plan you outline for several years and have not yet become convinced that it is a working proposition. Until more reliable information is available, I cannot advise a wholesale utilization of the plan. It is highly advisable and desirable, however, to develop a well organized experiment outlined to provide reliable information on each important factor involved in this method."

In New York the plan is in operation in connection with 4-H Clubs and in 1931 the boys and girls

reared and released 11,076 pheasants; in 1932, 18,603.

Let me quote from a letter dated March 8, 1933, written me by T. Victor Skiff, Research Investigator, Bureau of Game, New York Conservation Department:

"As might be expected, some of the boys and girls reported a complete failure and on the other hand some of them raised birds from more than 85% of the eggs. In general the boys and girls raised a higher percentage from eggs distributed to them than did the sportsmen."

"Probably one of the chief values of this project is the educational one. Boys and girls through this direct contact with our department get first hand information as to the value of conservation."

"We are continuing this project this year, which is sufficient evidence as to our attitude concerning this project."

To the practical but scientifically untrained mind, the situation appears thus: It won't work but it will because it has.

In Michigan in 1932 9,815 eggs were distributed by the State to students in Smith-Hughes agricultural classes; 2,026 birds were released, or 21.1% of the eggs set produced released birds.

Of these, Dwight Lydell Chapter sponsored the setting of 151 eggs by six Sparta boys; 63 birds were released, or 41.7%.

In New York, 101,890 eggs set by 4-H Club members produced 18,603 birds, or 18.3%.

Applying these percentages and 10c per egg set (the price at which they may be purchased in quantity) and 75c paid the producer at release, we have the following comparison with the cost per bird at Mason game farm:

Sparta.....\$.94
Smith-Hughes School.....1.22
New York 4-H Club.....1.30
Mason Game Farm.....2.87

Of course it is realized the comparison is not entirely fair for the reason the New York birds were released at seven weeks, the Game Farm and Smith-Hughes birds at various ages, and the Sparta at 12 weeks. But it does show that, with the success attained by the 4-H Club members or the Smith-Hughes students, had we purchased eggs at 10c each and paid the producer 75c per bird released, we would have liberated twice as many birds for the same amount of money.

Suppose we carry the plan a step further and this coming fall turn over to farmers or sportsmen's clubs having facilities for wintering them a sufficient breeding stock, eggs to be set in the spring and payment of 75c each made by the State for each bird accepted for release. At eight or ten weeks, the young pheasants could be turned out on ground posted as a refuge for one year.

You ask where the sportsman comes in under the plan proposed. He makes the contacts because he is interested in having more birds. He may even find it to his advantage to himself pay for winter holding pens to insure a plentiful supply of eggs in the spring.

Director Hogarth, when making a recommendation to the Conservation Commission, said:

"I would not have you lose sight of the necessity for finding some way to make it worth while for many people to take a direct interest in the production, protection and year-round management of pheasants and other farm-type game birds."

Writing me February 7, 1933, Commissioner Philip K. Fletcher advised:

"I feel very strongly that proper provision should be made by the State the furnish adequate hunting facilities for the man who cannot afford to own lands of his own." This plan is offered as a basis for a working arrangement to produce more game for the man who pays the license fee, and at the same time adequately compensate the actual producer of the game.

LETTER FOUND INSIDE CODFISH TURNED OVER TO HAGUE POSTOFFICE

A ring, found inside a fish is nothing uncommon in romance, nor even in reality, but a letter carried in this way may provide a new subject for the next film story. A postman passing The Hague fish market the other day was called by a man who, in cutting open a codfish, had found a letter inside the fish. The address had been all but blotted out but the contents were still readable. The address proved to be in Norwegian and the conscientious fishmonger required the help of the postman to get it delivered. Presumably the letter had been blown from the hands of a sailor at sea and the cod had picked it up as a tid-bit.

Storm Signals Have Been Resumed at Coast Guard Stations

With the opening of navigation generally on the Great Lakes, the Ottawa county weather bureau and other points will resume the display of storm warnings on April 17. The Grand Haven bureau issues colored cards showing the various types of day and night warnings. These are issued to mariners and others interested in the warnings. In addition operators of boats may have their telephone number listed at the Weather bureau office to receive notice immediately on receipt of a storm warning.

The warnings are sent by telegraph from the district forecast office in Chicago to the various display agencies and distributed locally by telephone or messenger. Warnings are usually issued about 10:00 a. m. or 10:00 p. m. following the receipt of the regular weather reports from the various lake stations.

At Muskegon the Coast Guard station at the lake front will make a display. Other nearby points on the lake shore to do the same are Holland, South Haven and Ludington.

Daytime warnings consist of the storm-warning flag with a white or red pennant flying above or below it, to indicate the direction of the wind. The storm flag is red with a black square in the center. Night warnings are made with lights, using different combinations of red and white lights. What is known as the small craft warning is a red pennant hoisted alone. This is shown when windy weather is expected but no severe storm.

Waste Lands Offer Opportunity for Reforestation

Great possibilities lie in the reforestation plan of President Roosevelt. The President wants a quarter of a million men put to work on reforestation jobs; and while the primary motive, of course, is to hitch jobless men up with jobs, the reforestation idea in itself is a project of tremendous potentialities. This nation once had 822,000,000 acres of forest. Now it has a little better than 100,000,000 acres. At the present rate of cutting, this supply will be gone in two decades. Yet it has been estimated that we have approximately 310,000 acres of the idle land which could profitably be devoted to the raising of trees. Isn't it high time we put those acres to work?

PENNY SOCIAL TO BE HELD IN CHRISTIAN HIGH SCHOOL ON FRIDAY

A "penny social" will be held in the Christian High school on Friday evening, May 5, when those interested are invited to come out to spend a pleasant and enjoyable evening. Several of these socials have been given in Grand Rapids with great success and the local Eunice and Monica societies felt that local folks would also enjoy attending such a gathering.

Plans for the social have been arranged and these call for several short programs in the different rooms, exhibits of various kinds, collections of old relics, etc., an old-fashioned album and many other interesting features. Then too, there will be a rummage sale in one of the schoolrooms where many useful articles of clothing, household goods, etc., can be purchased.

Of course, it goes without saying that the ladies will have plenty of refreshments prepared so that the many who come can be well served. Only one penny will be charged for any of the many programs and exhibits, and even the lunches will be sold for a penny an article.

Those sponsoring the penny social extend a cordial invitation to all those interested to come and spend the evening. The social begins at 5:30 and will be carried on through the evening.

Invest In Holland

Q Citizens of this city and vicinity with idle money drawing no interest could never make a safer investment than to use this idle money in buying Board of Education bonds. These bonds have back of them the full faith, credit and resources of the City of Holland and that means something.

Q This city may be temporarily low on funds but its credit is A 1 and Holland with its high moral, religious and educational standards will never default on its debts.

Q To show the margin of credit that Holland has, the value of the three buildings and Centennial Park portrayed at the top of this picture would more than pay Holland's entire bonded indebtedness. Holland's assessed valuation is approximately \$15,000,000 and that does not represent the full valuation.

Q \$50,000 in Board of Education bonds are today available. They are payable on March 1st of next year, drawing interest at 2 1/2 per cent. It would be difficult to find a more gilt-edged investment at this time wherein safety plays the most important part.

Holland Girl Wins Signal Speaking Honors

FIRST WOMAN TO WIN ORATORICAL CONTEST AT
MICHIGAN IN MANY
YEARS

Motors With Father to Iowa City
for the Finals This Thursday
Night

Miss Alice Boter, daughter of Mr. and Mrs. Dick Boter of Holland, has made an exceptional record in her oratorical work. Her ability as a speaker was first noticeable at Hope College when in 1931 she won the elimination contest among her fellow students at Hope, her subject being "Carbon Copy." That gave her the

Miss Alice Boter

privilege to take part in the state contest at Alma, sponsored by the Michigan Oratorical League, where she also won first place. This gave her entrance to the inter-state district contest held at Bowling Green, Ohio, where she was given third place. Contestants from seven states were entered.

Holland considered at that time that this young lady from this city, a graduate from our school and college, was making an unusual record as a public speaker but this, it appears, was only the beginning of more enviable achievements.

Her main purpose of going to Michigan was to take a course in journalism; however, her reputation as an eloquent speaker had become known in the women's clubs of Ann Arbor and Detroit. She was first invited to speak at the Detroit Women's Club, where she was unusually well received and her discourse was made much of by the Detroit newspapers. She also appeared frequently before the Ann Arbor Social Club for discourses on different topics that interest women.

This year she decided to try for honors at the University of Michigan and entered the men's contest. In this contest women are not excluded but seldom enter. It is more than a score of years ago that a woman has won oratorical honors at Michigan, but this year Miss Boter, in a clean cut decision, won over 55 contestants with her oration "The New Woman," in which she portrays that a woman must not lose her feminine traits in this age of commercialism.

The fact that Miss Boter won this contest has been published far and wide through the national press and the feature has been especially stressed that a lady won this contest over the men and that a very feminine lady, who advocates that a woman must not lose this innate subtle attribute so essential to the home and society.

Anyway, Holland is proud of Miss Alice Boter, who left Tuesday with her father and sister, Miss Margaret Boter, for Iowa City, Iowa, where the final contest is to be held this Thursday night. Other universities to enter contestants are Wisconsin at Madison, Minnesota at St. Paul, Western at Cleveland, Illinois at Champaign, Iowa at Iowa City and Michigan at Ann Arbor. The latter will be represented by Miss Boter of Holland.

**DR. NICHOLAS ELECTED
HEAD OF ROTARY CLUB**

The new board of directors of the Holland Rotary club met last week, Thursday, following the weekly meeting of the organization in Warm Friend Tavern.

The following officers were elected: Dr. R. H. Nichols, president; C. D. Karr, vice president, and George E. Clements was re-elected secretary and treasurer. Rudolph Brink was re-elected sergeant-at-arms.

At the club's meeting Dr. Nichols was re-elected and H. S. Covert and Vaude Vandenberg were elected as members of the board to serve with W. L. Eaton, Charles Karr and O. S. Cross, whose terms do not expire at this time.

Miss Lida Rogers, instructor at Holland High school, addressed the club, telling of the Tulip Time festival and the reforestation project on the land donated by Albert C. Keppel.

Prof. E. D. Dimment of Hope college will speak next week on "Money."

Walter F. Thomas, well known in Holland, died at 66 years at Grand Rapids. Mrs. Charles A. Landwehr of Holland is a sister of Mr. Thomas who has been a prominent business man for many years. The Thomas family has been in Grand Rapids since 1885 and the firm was the first to put in a modern refrigeration system in western Michigan. Mr. and Mrs. Landwehr attended the funeral held Monday.

ALLEGAN DOES NOT EVEN WANT A NEW POSTOFFICE

Allegan, Gazette.—It will be a long time before a postoffice will be built at Allegan. Wisely the federal government has decided not to build any more postoffices until it knows when this specially included Allegan. Besides Mr. Weny has secured a lease of the present building for two years with privilege of three. He has to agree to \$400 less per year than he has had since he erected the building. He owns the furniture and fixtures and so was under necessity of taking whatever the department offered. It was simply a case of better than nothing.

NATIONAL BOYS' WEEK TO BE OBSERVED FROM APRIL 29 UNTIL MAY 6

National Boys' Week will be observed in Holland from Saturday, April 29, to Saturday, May 6. The general committee, composed of Vaude Vandenberg, Vance Mapes and Marvin C. Lindeman, and the chairman for the various days, have completed final preparations for each day of next week.

The opening day will be observed with a kite contest for all boys of Holland. Scout Executive Peter H. Norg has arranged a program to start at 1:30 o'clock in the afternoon on the grounds just north of Holland hospital on Twenty-first street, between Pine and Michigan avenues. Contestants will start registering at a tent on the grounds at 1 o'clock. Prizes will be awarded.

On Sunday, April 30, special church services will be held for the boys.

Arthur W. Wrieden, president of the Chamber of Commerce, and chairman for Monday, will take up the industrial phases as these effect youth.

Mr. E. E. Fell, superintendent of Holland public schools, will be in charge of Tuesday's program when educational day will be observed.

On the afternoon of Wednesday, May 3, Major Norman Imire of Culver Military academy of Culver, Indiana, will speak at a mass meeting for boys. Following the talk the boys will go to Riverview park to witness a football game that will mark the close of spring practice at Hope college. Milton L. Hinga, Hope college coach, will be in charge of this day's program.

Dr. A. Leenhouts will be in charge of the sixth day, Thursday, boys' health day and evening at home.

On Friday, May 5, citizenship day, the young men will govern the city for a day. O. S. Cross will be in charge of the day's arrangements.

On the final day, Saturday, May 6, boys' day out-of-doors, a program of hikes and games is to be arranged by Peter H. Norg, Scout official. All boys will gather at 9 o'clock in the morning for a parade before dividing into a group for the day's activities.

Boys from 9 to 12 years of age will be under the charge of Fred Benjamin, assisted by Leland Beach, William Lundie, Earl Faber and Lester Van Tatenhove. They will be occupied with games and contests in the city during the afternoon.

Kenneth Gross will lead the group of boys from 12 to 15 years of age on an all-day hike to the Legion cabin in Waukegan. Gross will be assisted by Carl Sief, H. V. Grover and Ike DeKraaker. A program of games and contests in campfire is being prepared.

A third group of boys 15 years of age and older will be under the leadership of Don Leenhouts, assisted by John Nobel, Kenneth DePree, Henry Eaton and C. C. Wood. An athletic program will be arranged for this division.

Now that beer has come back no doubt the fashion experts will tell us that Dutch collars are in vogue this spring.

Lewis Verburg was elected president of the Senior Christian Endeavor society of Sixth Reformed church Friday evening at the annual meeting in the church. Other officers named were Miss Helen White, vice president; Miss Genevieve Ter Haar, secretary, and Miss Helen Shank, treasurer. After the business session a program was presented with Miss Beulah Berkel in charge. Judge Fred T. Miles appointed Lemuel Brady receiver for the Sargent fruit farm in Saugatuck township Friday. A Fennville girl may be entered in the contest for Blossom Queen in the Benton Harbor Blossom Festival to be held next month, if present plans materialize. No charge is made where the minimum monthly balance is as much as \$300, but a service charge of 50c is made on smaller amounts, with from 10 to 20 free checks allowed. The above are in keeping with charges made by most other banks to cover cost of bookkeeping, etc.

Six gallons of gasoline were siphoned from the car of H. O. Maentz of Allegan as it was parked with others in front of the home of a friend where Mr. and Mrs. Maentz were being entertained one evening recently. A few nights later two turkeys from among a flock which was confined at his farm near Allegan were also stolen. Such instances of petty thievery are not uncommon in Allegan of late.

Sonny Morse of Fennville, who went to Springfield, Missouri, to play ball with one of the farms of the St. Louis Cardinals, has been having an illness that has prevented his getting into the game at once.

EAGLE-OTTAWA LEATHER CO. RECEIVES ORDER FOR 5 CARLOADS OF INSOLES

The Eagle-Ottawa Leather company of Grand Haven received an order for five carloads of insoles to be shipped to the International Shoe company at St. Louis. This is the largest single order of the kind that the local company has received in several years.

Mr. Peter stated today that conditions seem to be picking up slightly in the leather business with more orders and inquiries within the past month than have been received for some time past. The added business has not stepped up employment, but added to the hours of some of the employees, he said.

VETERAN MISSIONARY TO RETURN TO JAPAN

Rev. Albert Oltmanns, who will mark the fiftieth anniversary of his graduation from Hope college at the June commencement, is planning to return within a few months to Japan where he has been in active service since he completed his theological course in 1886. Dr. Oltmanns spent 25 years of his missionary career as teacher in theology. He is now secretary for Japan of the American mission to lepers at Tokyo.

Young men between 18 and 15 years of age and unmarried, who have persons dependent upon them for support may secure a form of application for work in the recently announced reforestation work by calling at the Fennville postoffice. It is not quite clear why married men should be left out, for most of the men who need this help are married; but they may be called later as the number of applicants is not large.

Trout Season To Open May 1, Not Earlier

SCHEMES TO LIFT LID ON
APRIL 29 FOR WEEK-END
ARE ABANDONED

Michigan's trout fishing season opens on Monday, May 1. Even though the attempt to set this ahead two days was successful in both the State Senate and House, the members of the House reconsidered the resolution to open the season on Saturday, April 29, and killed the proposal. The Conservation Department is instructing all conservation officers to see that no fishing takes place before the opening of May 1 and a heavy concentration of officers is expected on all of the trout streams of the north country.

So there are just three more days to "get set" and get to the trout streams.

All streams will be open May 1. The old rule closing feeder streams has been withdrawn. This means you can fish anywhere that is accessible provided you don't trespass.

No change has been made in established laws governing trout limits, etc.

Trout must still be 7 inches long. Not more than 15 trout may be taken legally in one day, nor may more than 15 trout be in any fisherman's possession at one time.

The question of trout license fees has not yet been settled. Unless the law is changed the conservation department will be required to issue the old licenses and charging every fisherman \$1.75.

Conservation officers will be out in force May 1, special men having been assigned to cover the trout streams on the watch for spears and illegal anglers.

HOPE COLLEGE STUDENT ACCEPTS POSITION AT YALE

NORTH MANITO COAST GUARD STATION CREW CUT DOWN TO TWO MEN

Fishing with a rifle instead of the conventional hook and line isn't legal in Michigan. Ralph Holloway, Bangor, Van Buren County, paid \$16.65 in court after conservation officers had found him wading in a stream, a rifle on his arm, watching for a fish that would stay quiet long enough to offer him a shot.

The annual meeting of the Senior Christian Endeavor society of Bethel Reformed church was held last week, Thursday evening, in the church. The following officers were elected: Sidney Haviga, president; Jack Essenburg, vice president; Miss Wilma Vander Wilk, secretary; Francis Wabeke, treasurer, and Herman Blok, assistant secretary and treasurer. Michigan Needs a Broom

Seventy per cent of all automobiles in America are operated in states which protect their citizens by a Safety Responsibility Law. The American Automobile Association presents such a measure to the Michigan Legislature this session under the sponsorship of the Automobile Club of Michigan and other organizations interested in the prevention of accidents. A Safety Responsibility law keeps the irresponsible driver off the highway until he has proved himself willing and able to pay for the damage which his driving misconduct causes. The law does not work a hardship upon the careful driver.

When the United States treasury gets through telling us how to pronounce the word "conservative" will they kindly explain just what the animal is, what his duties and powers are, and about when some of our frigid money will be thawed out?—Allegan Gazette. Brother Edwey: The accent on "the animal" is at the "va"; why worry about "frigid money"? It is in cold storage and is bound to remain well preserved. Just like a murderer's conscience in his reply to the minister before the hanging—"As good as new, never been used."

The Mayor also requested that if there were any persons who owned land that was not being cultivated, that they notify the Welfare Dept. so as to permit them to allot such parcels to persons on the Welfare list.

Carried. On motion of Ald. Prins, 2nd by Kleis, RESOLVED, that the Mayor and Clerk be and are hereby authorized and directed to execute all contracts necessary to be executed on behalf of the City of Holland.

Carried. On motion of Ald. Prins, 2nd by Kleis, RESOLVED, that every claim account in order to be considered by the Council must be in the office of the City Clerk not later than the Saturday next preceding each regular meeting of the Common Council.

Carried. On motion of Ald. Prins, 2nd by Kleis, RESOLVED, that the Committee on Ways and Means be and hereby is authorized to receive bids on City printing, bids to be in not later than 4:30 P. M. on May 17th, 1933.

Carried. On motion of Ald. Prins, 2nd by Kleis, RESOLVED, that the City Treasurer be required to furnish a surety bond in the sum of \$15,000 running to the City of Holland, the cost thereof to be paid by the City.

Carried. On motion of Ald. Kleis, 2nd by Prins, A resolution was presented to the effect that the services of Mr. C. J. Dregman, as Welfare Director, be dispensed with as of April 29, 1933, and further that the Citizens Welfare Committee acting in an advisory capacity be also dispensed with on the same date, and further that the City Clerk be instructed to address a letter of appreciation for their services to each

member of the Committee; and further that Mr. Ben Wiersma be appointed Welfare Director for the term of one year at an annual salary of \$800.00.

The resolution as passed is self-explanatory and follows below:

"WHEREAS, the conduct of the welfare work in the City of Holland during the past few months has been the cause of continued friction;—and

"WHEREAS, its efficiency and economy is still a much debated question;—and

"WHEREAS, the charter of the City of Holland vests certain administrative authority in the Common Council, who have been elected and taken their oaths of office to assume such authority;—and

"WHEREAS, The Common Council has been unable to obtain any unified action because of the continued assumption of their authority by those to whom it has been delegated by less than a clear majority of the Common Council;—and

"WHEREAS, it is to the best interests of the people of Holland that causes of friction and misunderstanding be removed and in their place be created a spirit of helpful co-operation;—so, therefore,

"BE IT RESOLVED:

"That the services of Mr. C. J. Dregman, as welfare director of the City of Holland, be dispensed with as of the 29th day of April, 1933;—and be it further

"RESOLVED, that the services of the Citizens' Committee, serving as an advisory committee to the welfare department of the City of Holland be likewise dispensed with on the same date, and the clerk be instructed to express to each of them individually in writing our appreciation of their faithful and tireless services in the interests of the people of Holland;—and be it further

"RESOLVED, that Ben Wiersma be and hereby is appointed Welfare Director of the City of Holland for the term of one year commencing May 1, 1933, or until his successor is chosen by the Common Council prior thereto, or thereafter, to serve at an annual salary of \$800.

"Signed:

"A. P. KLEIS, "FRITZ PRINS, "HENRY W. JONKMAN, "PETER HUYSER, "BEN STEFFENS, "W. A. THOMSON, "PETER BRIEVE.

Mayor Bosch voiced a strenuous protest to the resolution stating that back of this action was a motive of selfishness. The Mayor further stated that later he would show up the persons who were directly responsible for this action. Ald. De Cook in commenting on the resolution stated that in his opinion it was a matter of economy. He stated that he was not in favor of overthrowing the present system and felt that a good deal of study and thought had been devoted to this problem by the Aldermen and he felt they should be commended for their action instead of condemned.

Ald. Van Zoeren in commenting on the resolution said it had been sprung as a surprise. He stated that when the matter was up previously, he had obtained figures to show that at the present time this Dept. is being operated at a lower cost per capita than previously under the old system. Mr. Van Zoeren quoted figures to substantiate his statements. Ald. Van Zoeren also stated that at the previous meeting he had petitions signed by several of the larger tax-payers who were in favor of continuing Mr. Dregman as Director. It was further stated that two of the largest taxpayers pay approximately 1/10th of the total taxes in the City of Holland. During the discussion, there was considerable hilarity shown by a large percentage of the visitors who were present, indicating that they were in sympathy with the resolution.

When a vote on the resolution as presented by Ald. Kleis was taken, it resulted as follows:

Ayes: Alds. Kleis, Prins, Brieve, De Cook, Steffens, Habing, Huyser, Jonkman, Thomson and Van Lente — 10. Nays: Wolman and Van Zoeren — 2.

Ald. Jonkman called for a report from the special committee relative to the School Board scrip. City Atty. Lokker reported on behalf of the Com. stating that a meeting had been held with the Board of Education and after going into the various phases of the matter thoroughly, the following conclusion was unanimously reached: First—that the City of Holland could not agree to accept it for City taxes, but that it would be accepted in payment of School taxes, either Delinquent 1932 School taxes or for 1933 School taxes. Second—that it would not be possible for the B. P. W. to accept it generally in payment of Light and Water bills. It was pointed out that if this were done practically the entire issue would find its way finally to this

Dept. and thus jeopardize their own financial position.

It was pointed out, however, that the B. P. W. and the City should co-operate as much as possible by purchasing a limited amount from the Board of Education if and when they are able to do so.

Adjourned.

Oscar Peterson, City Clerk.

MAYOR'S OBJECTIONS

WHEREAS, the Common Council of the City of Holland, at its regular meeting held at the city hall in the City of Holland on the 19th day of April, 1933, passed a resolution concerning the direction and administration of the City's Welfare Department, said resolution dispensing with the services of the present Welfare Director and of the Citizens' Welfare Committee and appointing Benjamin Wiersma Welfare Director for a period of one year at an annual salary of Eight Hundred (\$800.00) dollars, together with other provisions in said resolution contained, reference to said resolution being hereby made for more certainty.

Now, therefore, by virtue of the authority in me vested under the provisions of the city charter, the same being section 50 of title 6, I do hereby submit in writing my objections to the passage of said resolutions and for reasons for said objections do hereby submit the following:

(1) I have taken my oath of office with a full sense of obligation and duty to the citizens of Holland and have considered the welfare work the most important department of the city's government today. General conditions throughout the land have compelled me to pay special attention to this department and to work very closely with it. I am confident with all due deference and respect for the individual opinions of the members of the council that the importance of this work and the efficiency of the welfare department, the problems coming before it and the manner of administration is not known to said members of the council, and I feel that the action taken was not passed with the usual good judgment exercised by common councils of this city, but that the resolution referred to was passed in haste without due consideration and that the passage of said resolution would immediately cause dissatisfaction and unnecessary hardships and entail a far greater cost of welfare work. I, therefore, feel that a conscientious effort

should be made by each council member to acquaint himself with full particulars and to be given an opportunity to reconsider the action taken, so that selfish considerations and "snap" judgments may not enter into so important a matter as the administration of welfare.

(2) The measure as passed would saddle on the people of Holland a director of welfare, inexperienced in the work itself for a period of one year, which would mean that should the welfare department fail to function satisfactorily under the new directorship, no substitution could be made until after the expiration of one year. Obviously, so important a position should not be filled by an untried and inexperienced man. Certainly in the exercise of good judgment such an appointment should never be made for so long a period. Should a change be indicated the taxpayers of Holland would have to continue the contract in force for one year whether any services were performed or not.

(3) I am firmly convinced after having made a careful personal investigation and inquiry from the unfortunate people on the welfare list, that they are highly satisfied with the present directorship and that these people, especially the children of the city, would be the innocent sufferers by making the proposed change.

(4) It is very important that the individual in charge of the welfare work possess an executive capacity due to training and experience to make the proper contacts with the state and federal departments and banking institutions, so as to obtain the best possible co-operation and results from such contacts and that he may, furthermore, be qualified to enter into such contracts with those from whom we buy, as will effect a real saving, i. e., to obtain the most at the least expense. In other words, the difference between the right and wrong man in this office will mean many thousands of dollars each year of the taxpayers' money.

(5) In conclusion, this is a humane question and the upmost thing in my mind is the safeguarding of the health and general welfare of the children of the city. This is paramount and far more important than the question of dollars and cents.

Respectfully submitted, NICODEMUS BOSCH, Mayor.

BURGLARS ENTER HOME 3RD TIME

A third time the home of Mr. and Mrs. Frank De Jonge of Zeeland was entered by robbers during the last two years, but they succeeded in getting little of any value except some small change. Entrance was effected with a skeleton key through a rear door. Other victims from the burglars were Gerrit Zuwerink, John Kamps and Dick Boerman. Kamps was the greatest loser where \$10.00 in cash was taken. It seems the burglar began his operations at the home of Mr. Zuwerink at McKinley, near State street, Zeeland, then went to the Kamps residence on Ottawa street, proceeded west to the Boerman home at McKinley and Colonial, and then to the De Young home on Colonial at the north city limits. No clues were left whereby identification can be made.

John Wieghink, who submitted to an operation at Holland hospital on April 6, returned last week to his home, 641 Michigan avenue.

WHY GET UP NIGHTS?

Physic the Bladder With Juniper Oil

Drive out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUKETS, the bladder physic, also containing buchu leaves, etc. Works on the bladder similar to castor oil on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights" go back and get your money. If you are bothered with backache or leg pains caused by bladder disorders you are bound to feel better after this cleansing and you get your regular sleep.

BEECHWOOD TO HAVE SCHOOL CLINIC MAY 2

A pre-school clinic will be held at Beechwood school on May 2, beginning at 9 to 11 o'clock. Mrs. W. Ven Bemeles will be in charge. Dr. Ralph Ten Have will conduct the examinations.

The purpose of the examination is to get a complete health record of every child before he or she enters school. At the same time, any physical defects found will be reported to the parents who will be urged that these be corrected before the child attends school. This is an effort to have children who enter school as free from defects as possible.

Many defects seriously hamper children in their school work. Partial deafness, defects of vision, bad teeth, diseased tonsils, adenoids, malnutrition, anemia and other bad physical conditions hold the child back though usually these conditions can be eliminated if taken in time. It is fair to compel children to do school work without taking every possible step to insure their maximum fitness to do it?

Wood Lighter Than Cork; Is Better for Airplanes

The use of balsa wood in the manufacture of airplane models has aroused considerable curiosity in the minds of users of this commodity, particularly because of its light weight. It has the reputation of being lighter than cork. Inquiry as to the comparative weights of the balsa wood to Forest Products Laboratories of Canada brought the following reply:

"The average run of balsa will probably weigh from 7 1/2 to 12 pounds per cubic foot, air-dry, although abnormal material will occasionally be found outside this range. Such balsa as we have tested, however, was in the neighborhood of about 8 pounds per cubic foot. It is considerably lighter than the weight sometimes quoted for cork—15 pounds per cubic foot, but this figure presumably refers to compressed cork products.

"The weight of ordinary cork as noted by us from time to time from tests of stoppers used in the laboratories averages about 9 1/2 pounds per cubic foot. The greater strength of balsa is probably another reason for preferring its use in making model airplane parts."—Montreal Herald.

Must Have Sunshine to Live

Were the sun to go out the earth would be plunged into darkness, relieved only by the feeble light of the stars, for the moon, of course, shines only by reflected sunlight. Within a few days the temperature would be so low that all plants and animals life would be frozen to death. Before many days the ocean would be frozen solid, and soon after the atmosphere itself would freeze, forming, first, a layer of liquid air upon the surface of the earth and then a layer of solid air. We are dependent upon the sun for our food and fuel, for plants cannot grow without the energy of sunlight, and coal and oil are only the fossil remains of plants which grew millions of years ago.

Boston's Landmarks

Many of Boston's landmarks, dating back a century or two, sit strangely into the modern scheme of things. Faneuil hall, where American liberty was cradled, is a bustling market place. Both the Old State house and Old South church serve as subway stations. Also, there is a subway station on the site of the Green Dragon tavern, where the Boston tea party was plotted. To complete the picture, a traffic officer is on regular duty on the circle of cobblestones marking the scene of the Boston massacre.

"Blind Flying"

An aviator is flying "blind" when he cannot see, either from the construction of his plane or from the weather conditions, such as fog, rain, etc. When flying "blind," an aviator guides his plane by means of instruments. The most important of these instruments is the earth indicator compass. Other essential instruments are a turn indicator, a bank indicator, and also a drift meter. While the precision of these instruments is great, they are by no means perfectly accurate. Skill is required to read the scales.

She had been parked near a fire plug for three hours. As she unlocked the car and got in, a cop who had been waiting for the culprit to show up, sauntered up and remarked very kindly: "I've been waiting a long time to see you, lady. What's your name?" She smiled her sweetest, and as she put her foot on the starter, replied: "It wouldn't do you any good if I told you. You look like a nice boy, but my husband is about twice your size and very jealous."

LANDS IN U. S.; NOW WITHOUT COUNTRY

Lone Sailor Is Held Up by Immigration Officers.

Los Angeles.—Another man without a country—one whose only reward for an 8,900-mile cruise in a 19-foot boat has been a short stay behind the bars of the Immigration station in Los Angeles—has turned up on the west coast.

Fred Rebell, literally a citizen of no land, sailed into Los Angeles harbor recently in his tiny craft after more than a year on blue water, en route here from Australia.

Born in Windau, Latvia, when that land was a part of the czar's Russia, Rebell went to Australia twenty years ago, but did not become a citizen of the "land down under." While he was away Latvia became a republic, and he an expatriate.

In 1931 he conceived the idea of his lone journey across southern seas to the United States and began to prepare for it by studying navigation in the Sydney library. He made his own sextant and bought three cheap watches for his chronometers. He bought his boat—a 10-foot clinker-built skiff with a large bowsprit and a sloop rig—and equipped it with a canvas canopy which could be drawn part way over the open cockpit as protection against rough weather.

He started out in December, 1931, cruised through the southern islands touching at Suva, Samoa and many other points and navigating and handling his little craft single handed. At one stage of his long trip the center board of his ship rotted away. Rebell repaired that, and later in mid-ocean successfully repaired one of his watches. His library-learned navigation was eminently successful.

When he reached Honolulu he obtained a 60-day distressed seaman's permit. He got under way again and headed for the California coast. It took him 66 days to reach Los Angeles and as soon as he set foot ashore he was detained at the Immigration station because his 60-day permit had expired. The "distressed seaman" had spent all of his 60 days at sea. To add to his distress, his boat which he had steered without damage across thousands of miles of deep water was wrecked inside the Los Angeles breakwater by the violent storm which recently lashed the western seaboard.

William Slavens McNutt, the author, came to Rebell's rescue and bailed him out and the man without a country is now temporarily living in Los Angeles, completing plans to write about his long trip, and incidentally planning another cruise.

Widow Lives in Scrap

Heap-Despite Heritage

San Diego.—After being destitute for 30 years Mrs. Sena Ryan, at the age of eighty-three, has inherited \$3,000. But it is too late. Thirty years of living among rusty and dusty debris have burned deeply into her aging mind one simple fact, and there isn't room for more. "I haven't got a cent," she says, peering suspiciously at her questioner through thick lenses. As far as she is concerned the report of the inheritance is just some idle talk she doesn't understand and it worries her to try. "It's my home," she says, gesturing toward the heap of castoff timbers and metals from which her late husband, collector of unwanted things, built their home by the junk heap. "It's been my home for thirty years," she says, protestingly, as though the whole thing were a plot to drive her from her castle. "My husband died in that bed"—gesturing toward a crazy relic—"and that's where I want to die. I haven't a cent. I'm going to stay here as long as they'll let me."

A daughter is trying to nurse her eighty-three-year-old mother into an understanding of her "affluence."

The money was the estate of a son, a barber in Los Angeles, who died intestate. Under California law the money goes to the mother.

Peru Makes Cuzco Archeology Center

Lima, Peru.—Cuzco, scene of the rise and fall of the ancient Inca empire, is declared the archeological capital of South America in a bill passed by congress. The measure authorizes the transfer of the National Museum from Lima to Cuzco and invites other South American countries to concur in accepting the mountain city as their archeological capital. A chair of American archeology is created at the University of Cuzco by the bill.

The ancient Inca city contains the famous Temple of the Sun and many other relics of the Inca race which flourished before the Spaniards conquered Peru.

SPORT NOTES

Holland will have another fast baseball league this summer. Four choice teams will make up the personnel of the circuit which will open May 22 with a 6 o'clock game at Riverview park.

The four teams are the Mosser Leathers, city champions for two successive seasons; the Holland Boosters, runner-up both times; the Dutch Boy Breads and the Pure Oils. Early practice sessions have been started and the teams are gradually rounding into shape for the season.

The league schedule includes 48 games, which means four games a week for twelve weeks. The tilts will be played on Monday, Tuesday, Thursday and Friday evenings of each week.

The Mosser will clash with the Dutch Boys in the opening game, and the Boosters and Pure Oils will meet one night later. The price of admission will be ten cents.

Four veteran managers will handle the league teams this year. Babe Woldring is with the Mosser club for his third season, while Benny Batema, an old teammate of his, is in charge of the Boosters. John Mills, a veteran performer, is at the helm of the Pure Oils, and George Matchinsky, a minor league player for a number of years, is with the Dutch Boys.

Four umpires will work all the league games, two men officiating each night. Fred Scheerhorn and Jack Van Zanden, league umpires of last season, have been retained. Other umpires are Spriggs Te Roller and James Ottipoby.

League teams are holding practice sessions on the Nineteenth street diamonds as Riverview park is being conditioned for the season.

Next Wednesday, May 3, two squads of Hope college football players will wind up spring grid practice with a regulation game at Riverview park. Coach Bud Hinga's Orange team will battle the Blue team coached by Henry Stefens. The teams are evenly matched and a great battle is in store. The game is listed on the program for Boys' Week. No admission will be charged and the public is invited to attend.

The Holland high school tennis team will meet Benton Harbor on Saturday in the opening match of the southwestern conference season. The match will be played on the high school courts.

Hope college broke even in spring sport competition with Albion college Saturday. Hope won the golf match from the Methodists, 8-1-2 to 3-1-2, but the visiting tennis team drubbed the Dutch, 7 to 0.

Two Holland ball players, Henry Stoecker and Danny Koop, left this week for Davenport, Iowa, to try out with the Mississippi Valley league baseball club. Stoecker, a pitcher, and Koop, an infielder, were members of the Dutch Boy Bread team in the city league last year.

The Hope college fraternity playground ball game opened Monday with the Cosmopolitans downing the Emersonians, 5 to 3.

Managers of the city playground league will meet with the playground commission Friday evening at the Superior Sport store to determine whether or not the league will be operated this year.

About 45 per cent of the taxes for this year are delinquent, according to a statement made by Fred Den Herder before the board of supervisors before they adjourned. This does not include the city of Holland, which has made no settlement as yet. The figures were given approximately after the deputy treasurer had been called into the meeting to report the amounts paid in by the townships, as requested by William O. Van Eyck of Holland. To date there has been \$155,285.52 paid in.

A statement was made concerning the funds of the county showing that there are assets of \$293,600 of which \$112,000 is in bonds and \$181,600 in cash in the two local banks. The balance of about \$59,000 is impounded in the various banks throughout the county which have been closed, restricted, or are operating under conservators.

Mr. Van Eyck asked if the suit authorized against the city of Holland for \$40,000 for back taxes had been started. The prosecutor was not in the county at the time to answer the question. Mr. Van Eyck stated he believed it very necessary to know these conditions in dealing with the tax situation and the budget later on.

Cornelis Rosenraad, chairman of the taxes and apportionment committee, reported that he believed it advisable to make a general cut of five per cent in assessments throughout the county. Personal assessments must of necessity be cut a great deal as stocks in stores and factories are way down, it was said. Lionel Heap believed the assessments should be kept as they are. Peter Van Ark of Holland argued at length that they should be reduced about 15 per cent. James De Pree, Zeeland mayor, made his first talk, arguing for assessments in keeping with the surrounding counties which have all indicated there would be large cuts, otherwise this county will pay more than its share of state tax, he said.

The proposed bill before the state legislature regarding the allocation of the 15 mill tax limitation was read and discussed. The proposed bill allocates the city schools seven mills, the county three mills and five mills to be allocated by the county board with one-tenth of one mill for cities added to what their charter provisions provide. The rural schools are allowed 4 mills. Albert Hyman said in his district it would be impossible to conduct the schools. There is but \$1,700 available in one school for salaries for four teachers, he pointed out.

What Will She Do About It?

H. L. CRAWFORD is one of the most successful merchants in the Middle West. He has built a business in his town that has made him famous—and a mighty substantial citizen!

How did he do it? Well, Crawford is a "born salesman." He knows that if he wants to sell goods he's got to find buyers. And he must persuade folks to come back, again and again.

One of the most forceful things he does is to place in every parcel that leaves his store, a folder or booklet offering an attractive bargain. This enclosure is always an effective piece of advertising, and it gets results.

The publishers of this paper are eager to produce that kind of printed matter for the merchants of this community. We want to serve you in that way. Please ask us to call and we'll discuss a plan.
