Elementary Boundaries Established

The West Ottawa Board of Education Monday night tentatively approved realignment of elementary service boundaries, arranging for maps to be posted in all six elementary schools. Changes were brought about through rapid growth in certain areas, particularly the Lake-wood-Waukazoo area. Maps will be kept current for revision as new subdivisions are developed.

The board also reviewed a 35-minute film of the outdoor conservation study and camping program carried on last summer at the 4-H campgrounds in the Allendale area, donated by Ted Brinks. The board also acknowledged the volunteer services of Grand Valley State College and West Ottawa students who served as instructors and counselors at camp. This film, which is narrated, is available to interested groups.

It was the fifth year the conservation program is in operation. This year, the group will gather at the White River campgrounds north of Montague. The program puts emphasis on conservation with respect for environment.

Applications from 126 football coach applicants have been screened down to five, the board was informed. Appointment is expected within two weeks or less.

Resolutions were adopted for the annual election June 12 in which two board members will be elected and a millage issue determined. It is expected the amount of millage will be determined the latter part of May at which time it is hoped the state legislature will have taken action on state aid. Last year, state aid formulas were not determined until September, and in March the West Ottawa board was notified that state aid was reduced by \$51,000.

Nominating petitions are available from the superintendent's office.

A progress program on the new middle school indicated construction is on schedule and several interior areas are nearing completion. Contracts for furnishings were approved for Fleetwood Co. of Zeeland, \$32,336, and Dykco Corp. of Zeeland, \$22,651, based on low bids.

ALLEDALE — Grand Valley State College will play its first home football game on its campus on Oct. 21 against Findlay College of Ohio.

Construction for the new field which will be located behind the fieldhouse will get underway shortly, according to Jim Kipp, sports information director.

The Lakers, who dropped six games to four-year schools last year and one to Grand Rapids JC, have six games scheduled for this fall, including two at Kalamazoo College.

"We would like to get the Hornets to come to our place now that we have a field," Kipp added. "However, I don't know if they would be willing because of our previous contract." Grand Valley is slated to open its season at "K" on Sept. 16 and to close its year at Kalamazoo on Nov. 11.

Kipp continued, "We have three open dates that we would like to fill on our schedule but at this date, it is very difficult. Besides the Hornets and Findlay College, the Lakers have games against Alma College, Ferris State and Manchester College of Indiana. Manchester is the lone new Grand Valley opponent."

"We are still working on a game with Grand Rapids JC," Kipp replied. "But at this time, we don't have anything scheduled yet."

The new field is expected to seat around 4,000 persons and Kipp indicated that bleachers from the fieldhouse will be moved to the stadium for use.

Auto Club Compiles Damage Files

Holland-area motorists were among the hundreds of car owners recently reporting damage to their vehicles by uncovered trucks hauling loose cargo, according to Automobile Club of Michigan.

A citizen's information-gathering campaign conducted by Auto Club to show the need for state legislation requiring covers for trucks hauling cargo such as gravel has resulted in 10 complaints from the Holland area.

Two proposed Michigan bills requiring truck covers are now before committees where Auto Club states they are stalled.

They are Senate Bill 1040 sponsored by Sen. David A. Plawcki (D-Deerborn Heights) before the Highways Committee and House Bill 4092 sponsored by Rep. James F. Smith (R-Davidson) before the Roads and Bridge Committee.

Approximately 50,000 windshield breakage claims (excluding glass damage in collisions) are made by motorists in Michigan each year, with a repair bill of \$5.5 million, a recent state-wide Auto Club survey of glass breakage estimates.

About eight of 10 damage claims received by Auto Club through its citizens' complaint program were from motorists traveling paved major roads where gravel and other debris is not present unless dumped or spilled.

To date, over 450 complaints have been received through the citizens' campaign, with almost four of every five from southeast Michigan. The survey shows that 230, or 65 per cent, of the 350 complaints from southeast Michigan.

I-75 between Monroe and Pontiac, with 85 complaints, was shown as the most likely stretch of road for motorists to receive damage to vehicles caused by uncovered trucks hauling loose cargo such as gravel.

Of the 350 complaints from southeast Michigan, 77 were scattered throughout Oakland, Macomb and Genesee counties. Another 42 complaints were collected from across Western Wayne, Washtenaw and Monroe counties.

Complaints filed through the citizens' campaign from outside the immediate Detroit area were Ludington-Holland area, 10; Alpena, three; Grand Rapids, 20; Jackson, 10; Kalamazoo, seven; Lansing, seven; Saginaw, 17; Traverse City, 10. Thirty-three other complaints were received but the areas were not stated on cards submitted.

OUR PROBLEMS WITH WATER

We have just read a story that appeared recently in the Christian Science Monitor. "Drink of water — Is it fit to drink?" The story is as follows.

"Today thousands of toxic substances, organic and inorganic, flow into the homes of every citizen through the water systems of this country," charges Sen. Philip A. Hart (D) of Michigan, who chaired the recent hearings.

"Both chambers of Congress now are preparing corrective legislation to extend federal standards to local drinking-water systems (not just interstate), as well as newer biological, chemical, physical and radiological pollutants.

"Accelerated testing and purification research would supply technical support.

"On fiercely competitive Capitol Hill, the legislation commands rare unanimity. Conflicts so far are confined to the funding level and federal vs. local enforcement.

"Committee aides confidently forecast a federal rescue, soon, for American drinking water."

Many areas are having problems with water and sewers. We here in this area are trying to keep abreast of these problems.

We hope with all of our scientific know-how that we will be able to continue to solve the problems as we find them.

The Church's Missionary Imperative
Luke 24: 45-49; John 17: 18-21; Acts 13: 1-3
By C.P. Dame

The church is like individuals—it is at times forgetful. The Lord gave a charge to His church a number of times to preach the gospel to all the world and today's church ought to give new and more serious thought to this heavy responsibility. May the study of this lesson lead to action.

Three passages of Scripture tell the command to preach the gospel everywhere.

I. The Lord gives orders. Luke 24 records several appearances of Jesus after His resurrection. After appearing to the two men of Emmaus Jesus suddenly appeared to the 11 and the two asked why they were troubled at seeing Him. He then asked for something to eat, they gave Him a piece of broiled fish and He ate it. Then Jesus talked about what He had said before to them and "He opened their minds to understand the scriptures" which said that Christ "should suffer and on the third day arise from the dead." This the disciples did not see in the Old Testament, but now saw.

A charge followed. "And that repentance and remission of sins should be preached in His name among all nations," beginning in Jerusalem. Note the scope. Wait in Jerusalem, the Lord ordered, become empowered by the Holy Spirit and become prepared.

II. The Lord sends messengers to a sinful world. The second part of the text is from John 17, a few words from the Lord's high priestly prayer. Jesus said to His disciples that as the Father had sent him into the world so He, the Son, was sending them into an unbelieving world—both Jesus and the disciples were sent persons.

Jesus, both sent and qualified them for their work. Jesus not only prayed for the messengers but also for their future converts who would believe on them through their words. The Lord prayed that they might be united even as He and the Father were united in a spiritual unity.

III. The Holy Spirit gives orders. The new church in Antioch, the third largest city in the world of that day, had in it some gifted, consecrated workers. While the church was worshipping and fasting the Holy Spirit said: Separate me, Barnabas and Saul for the work whereunto I have called them." The Holy Spirit spoke, the church worshipped, prayed, fasted, obeyed and sent the two gifted men off to do foreign mission work.

The Holy Spirit is the author of the foreign missionary program.

sive Health Planning Unit, and of the Michigan Health Council. She is also a member of the Board of Directors of the Michigan Diabetes Association and co-chairman of its Legislative Committee. Mrs. White was reported dead of chest injuries. She becomes the third fatality in the city this year.

Treated in Holland Hospital for minor injuries and released was Mrs. White's brother, Roy Harris, 31, of 936 136th Ave., and Joyce Brooks, 24, of 130 Clover.

Police said the convertible driven by Mrs. White was traveling at a high rate of speed as it approached the curve and went off the right edge, struck a guard pole, hit a street lamp pole, ripping it from the ground, and came to rest on its top.

Holland firemen were called to stand by at the accident scene.

Police said from the amount

of damage to the car it was impossible to say what part of the car struck the light pole.

Officers said the same car had been involved in a minor traffic accident about one hour before the fatal crash. In the accident at 9:10 p.m., the car was driven by Donna Jean Londo, 20, of route 4, and struck the rear of a car operated by Thomas Allen Schrottenboer, 19, of 11735 James St.

The first mishap occurred along Eighth St., 100 feet east of Central Ave. Police said Mrs. White was in the car at the time.

Mrs. White, who came to Holland from Austin, Ind., about one month ago, is survived by a son, Douglas, a daughter, Dena, both of Holland, her mother, Mrs. Robert Yarbro of Holland, three brothers: Roy Harris of Holland, James E. Harris of Owenton, Ky., and Wayne Harris of Holland; two sisters, Mrs. Douglas (Deva) Murr and Mrs. James (Ada) Fisk, both of Holland, and several nieces and nephews.

Help Sought For Alcoholic Employees

An expert on the problem of alcoholic employees urged business and industry in Ottawa and Allegan counties to begin a program of detection and rehabilitation of alcoholic employees.

James S. Ray, medical consultant for Employers Insurance of Wausau and former director of the Kent County Alcoholism Information Center, addressed about 60 representatives of industry, labor and governmental units at a meeting Friday noon in Holiday Inn of Ottawa Alcoholic Rehabilitation, Inc. (OAR).

Ray urged management to establish policies and procedures in dealing with employees with alcoholic problems. He said studies have shown that two-thirds of alcoholic employees sent to detoxification centers return to their jobs if their problem is detected early by employers.

Ray said management should provide periodic review of the alcoholic's problem; and a long range educational and informational program for employees.

OAR seeks to establish a rehabilitation center for treatment of alcoholics in Ottawa and Allegan counties. It was pointed out that approximately 200 persons from the two counties received hospital treatment for alcoholism last year.

OAR also seeks to provide help for alcoholics so they may gain sobriety and to advance area-wide information on alcoholism.

The organization was formed by a group of concerned citizens.

Ecuadorean Pianist Enchants Audience

By George Tatum

Anyone who enjoys brilliant piano performing made a mistake if he missed the concert given Friday night in Dimmet Memorial Chapel on the Hope College campus.

Featured was Ecuadorean virtuoso Alegria Arce who played a complete program featuring Haydn's "Variations in F minor," "Sonata in E major" by Beethoven, three "Etampes" of Debussy, and Prokofiev's "Sonata No. 2 in D minor."

The performance was technically brilliant. Miss Arce also brings to the stage a deep, meaningful brilliance in her personality.

In this day of "pseudo-greatness," patchy flashes of bril-

liance, and reliance on stage effects to cover for performer failing, it is truly refreshing to experience a performance given by Miss Arce.

This young star, now 26 years old, performed on a bare, unadorned stage, completely from memory, attired in a striking yet simple formal.

There were no announcements made, biographical sketches read, or stage gimmicks used. And yet, from this "bare" setting came a performance so brilliant as to defy even the semi-attentive mind to wander.

It was a study in greatness, a lesson in realism, an experience in virtuosity.

Miss Arce's concert was the final attraction of the season of the Holland Music Association.

Drug, Prescription Abuses Unfold at Parker Hearing

A web of drug abuses, use of forged prescriptions to obtain drugs, conversations concerning a plot to murder and free use of credit cards was unfolded in a 12-hour hearing Tuesday in Holland District Court for Mrs. Jane Parker, 30, accused of conspiracy to murder her husband, Dr. Phillip Parker.

Five persons, including Ricky Lee Snider, 24, a service station manager in Lansing, testified during the afternoon and evening session that lasted until 11 p.m. Snider, an admitted former drug user and pusher, was the prosecution's key witness.

At adjournment Judge John Gallien said he would take the matter under advisement and issue a decision later. No date was set.

Mrs. Parker appeared in court with her attorneys, Leo Hoffman of Allegan and James L. Theophilis of Lansing.

Mrs. Parker's husband sat in a chair behind his wife and her attorney.

The prosecution charged that Mrs. Parker and Snider conspired between July and December, 1971, to murder Dr. Parker.

Snider testified he was offered \$50,000 by Mrs. Parker to kill her husband and that attempts were made Halloween night, 1971, to kill Parker through drug overdoses. The attempts failed.

Snider testified to other attempts with drugs that also failed before Halloween and after Halloween when he and his wife, Pat, returned from a trip to Hawaii.

Snider testified that during one of his conversations with Jane Parker "she brought up the idea of going to the farm (Ward Hansen's farm at New Richmond) on Halloween and tripping with Phil (Dr. Parker) and giving him an overdose of LSD, mescaline and marijuana, and let him freak out and if that didn't work she would shoot him and if the police came she would say he freaked out and tried to harm her."

Snider said he was to go to the farm later and hit Mrs. Parker to leave marks.

Snider testified he remained at the Parker home at 1181 Euna Vista Dr. while the Parkers went to the farm.

"The Parkers returned home not over an hour later, they returned together. She said Ward Hansen put on a different padlock at the farm and were unable to enter and since they had dropped LSD they would trip at home."

Snider said he asked Jane what would happen after the Parkers returned home.

He testified she told him "do the same thing at the house that would have been done at the farm."

Snider said he prepared some cookie dough and mixed it with LSD and it was fed to Phil. "Phil began to trip and feel the effects of the LSD, mescaline and marijuana."

"I stayed downstairs for a while and then went upstairs and waited to hear a gunshot. Then I was to head downstairs and hit her (Jane Parker)."

"I heard something that sounded like a muffled shot and went downstairs."

Snider said he saw Dr. Parker and Jane and a staple gun that was being used to staple pictures.

"Finally Phil passed out," Snider testified.

Snider also told of a plan before Halloween in October when acquaintances and the Parkers met at the New Richmond farm "and began getting high on acid, mescaline and smoking hash."

Snider testified that drugs were placed in a drink of Dr. Parker's and that the doctor began to "freak out."

When asked by the prosecutor what he meant by "freak out," Snider said "he was paranoid."

Snider said that during the time they were at the farm Dr. Parker received a call from a baby sitter at the Parker house in Holland and "Dr. Parker used it as an excuse to get back to Holland."

"He was hallucinating and he took something to counteract the acid at the farm," Snider said.

Snider said that later at the Parker house some acid was broken down into cookie dough and Dr. Parker ate it "and went into a coma."

Prosecutor Bosman asked Snider whether Jane had given a reason for wanting to kill her husband.

"She said she hated him, loathed him and didn't love him and only used him against her former husband."

"She said she only wanted to be free to do the things she wanted to do."

Snider said Mrs. Parker offered him \$50,000 "and whatever I wanted" to kill her husband.

"She said she was going to get the money from Phil's life insurance and showed me the policies."

Snider testified earlier that there was \$150,000 in life insurance.

Snider said that in early November, after he and his wife returned from a two-day stay in Hawaii, which he said was financed through credit cards of Dr. Parker, he talked with Mrs. Parker. "She told me

there was more need of getting rid of her husband because he would find out about the credit cards and other stuff we had done."

"Jane and I made another plan to throw a party at (Parker's) home and have Phillip have an overdose again."

Snider testified the plot would be similar to the Allegan farm incident. He told of the use of drugs, of mescaline and "green acid" and "that night he (Parker) really went out. There was no valium in the house other than what I had."

Snider explained valium was used to counteract effects of amphetamines and speed.

When asked of the relationship between himself and Parker, Snider testified:

"We were pretty good friends. I really liked Phil. I think that with liking him kept me from going on. I felt guilty and sorry and could see no sense in trying to kill the doctor. He was a lot better person than some of my own friends in Lansing."

Bosman asked whether Snider had attempted to warn Parker of the alleged plot to kill him.

"In a narrow way. The wife and I went to Parker's office about Dec. 18, 1971. I was talking and I said to Phil 'you have \$150,000 in insurance policies' and said Jane was the beneficiary and asked him to change the beneficiary."

"He asked whether Jane was trying to bump him off."

A tape recording of a telephone conversation between Snider and Mrs. Parker was introduced. Snider said it involved a plot to kill Parker.

The recording was played for defense and prosecution during a recess.

When asked by Bosman why he kept a tape recording of the conversation, Snider testified "I didn't trust Mrs. Parker."

Snider also told of obtaining prescription blanks from Jane Parker and Dr. Parker and that Dr. Parker showed him how to fill them out and use them.

He testified to obtaining drugs in Lansing and Detroit and returning them to Mrs. Parker.

Snider said he first met Mrs. Parker through a mutual friend, Betty Lindsay of Lansing, formerly of Holland. Snider said Mrs. Parker wanted him to purchase drugs for her.

Snider testified how he, Jane Parker and two other men broke into Hansen's Drug Store in downtown Holland sometime after the first of the year.

"We entered with a key to the back door given by Mrs. Parker," Snider testified. He said watches, some drugs, cigarettes and cigarette lighters were taken.

He told of how he wrote part of a prescription on a blank of Dr. Nelson H. Clark. Asked how he obtained it Snider said:

"I got it from Jane Parker, a whole pad."

Snider's wife, Patsy, testified that she was in the Parker house with her husband Halloween night when the Parkers returned from the farm. She said she was asked by Jane Parker to "take part" by wiping a knife clean and placing in a room where Snider could find it and place it in Dr. Parker's hand after the doctor was shot according to a plot.

During her testimony, Mrs. Snider kept saying she didn't believe Ricky would go through with killing Dr. Parker.

She said she and her husband were using the credit cards of the Parkers because Mrs. Parker offered their use and "if she was dumb enough to give them why not use them?"

Also testifying was Betty Lindsay, a mutual friend of Mrs. Parker and Snider. She took the Fifth Amendment several times when asked to tell about a conversation she overheard at her house on Labor Day involving Rick Snider and Mrs. Parker.

She said she heard an insurance policy mentioned and something about "bumping him off." She said she was too busy minding five children, nine animals and a turkey dinner to hear much else.

John Jeglum, an acquaintance of the Parkers and Snider and Mrs. Lindsay, said the question of doing away with Dr. Parker was brought up in conversations with Snider but testified "it was my opinion it was a joke. Anytime I heard about it after that I considered it a joke."

He said he was approached by Snider about obtaining a contract to have Dr. Parker killed but testified that Jane Parker "never approached me" on the subject.

"I asked Jane if she was serious and she said 'Hell no' and that's the truth," Jeglum testified.

Holland police detective James Fairbanks was the final witness to testify.

He told of talking with Jane Parker, Robert Thorne of Lansing and Snider at the Parker home the night of Dec. 14 and early Dec. 15 concerning use of forged prescriptions.

Fairbanks said Snider told him that he had "forged prescriptions for drugs and had done it with the full knowledge of Dr. Parker."

Fairbanks said Snider told him Dr. Parker had instructed

Snider in the use of the prescriptions and had given him some blanks.

Fairbanks said Jane Parker and Thorne agreed Snider was telling the truth.

Fairbanks testified that the doctor talked about many uses of drugs and that Snider said he had purchased hash from Dr. Parker at his office.

Under cross examination by defense, Fairbanks said Dr. Parker had contacted him on Dec. 13 to report a forged prescription and he mentioned Ricky Lee Snider. Fairbanks said Parker told of receiving a telephone call from Snider telling the doctor to "keep looking over his shoulder."

Fairbanks said the Parkers were separated at the time and felt Parker blamed Snider as the cause of the problems and expressed fear that Rick and Jane were involved in a conspiracy to have his medical license pulled.

Fairbanks testified to receiving a conspiracy complaint from Lansing police which had been investigating a larceny complaint against Snider.

The complaint involved drapes missing from the Allegan county farm of Jane Parker's father.

Fairbanks said it was during the conversation in the Parker home that "Ricky, Jane and Thorne agreed to help police in making a case of Dr. Parker."

Snider had testified that in March of 1972 he returned to the Parker home to see how he was welcomed and testified Parker asked him to leave. Snider indicated he was attempting to purchase drugs from Parker for the police.

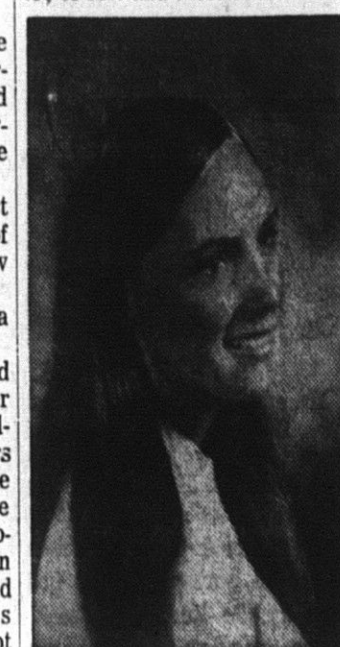

Fairbanks denied police had asked Snider to purchase drugs from Parker.

The win lifts Christian to 4-2 while Holland drops to a 2-6 season mark.

The Dutch never advanced a runner past second base as Kempfers faced only 25 batters allowing the two hits and issuing a pair of walks.

The Maroons scored the only run they really needed in the opening inning as Tom Klaasen scored on a double by center-fielder Dave Mulder. They added single runs in the third and fifth before scoring three times in the sixth frame to clinch the victory.

Christian collected six hits off starter and loser Larry Horn. Catcher Bob De Roo and Mulder paced the winners with two hits apiece.

ANTI-POLLUTION MOVE — The clean, white plume of steam rising from the smokestack at the Western Foundry Co., 310 East Eighth St., is visible proof of the moves the company has made to eliminate the emission of foreign materials previously exhausted into the air by the firm. Special air-cleaning equipment converts the previously exhausted smoke into steam by means of a high energy scrubber in which all dirt particles are separated from the air stream with high pressure water jets. Equipment Cleans Air From Foundry

The Western Foundry Co., 310 East Eighth St., has completed the installation of anti-pollution equipment which has eliminated the emission of foreign materials previously exhausted into the air.

The black smoke once seen being discharged from the cupola stacks will now be clean white steam discharged through the firm's air cleaning equipment, which is the second phase of a two-step program to provide in-plant, pollution-free working conditions as well as to eliminate outside air pollutants. The first step of Western's contribution to a cleaner environment was completed in July, 1969, at a cost of \$100,000.

The equipment recently installed will convert previously exhausted smoke into a white plume by means of a high energy scrubber in which all dirt particles are separated from the air stream with high pressure water jets.

Smoke containing dirt, sand and sludge from the cupola, where iron is melted, is drawn through a separator where the impurities trapped in the water are drawn from the bottom of

The clean smoke, separated from contaminants, is exhausted through a smokestack.

According to Elmer Andringa, the amount of carbon dioxide contained in the clean air is not enough to register on monitoring devices and the equipment has passed all tests for allowable emission limits set by the state of Michigan.

Waltz - Holtz of Grand Rapids assisted by engineers from Buell Engineering Co. of Pennsylvania worked together in the construction of the new equipment at a cost of \$75,000.
