FRIDAY, May 3.

Lake and Marine.

The steamer Petoskey is fitted out to go on the regular run to South Haven.

There is a revival of the stories current from time to time during the last year or two of a combination of all of the passenger steamship lines. It is known that one of the leading companies running into Chicago was recently approached with such a proposition, but no details as to the progress with other companies were made known. Over a year ago the attempt to combine the companies made considerable progress but it was frustrated by the Goodrich Company, which raised its selling price over \$1,000,000 above the figure at which the promoters expected to secure it. Officials of this company deny that there is any likelihood of their ever becoming a part of any combination in the lake passenger business.

Laketown.

Editor News:—Having returned to my resort farm after a winter sojourn in the windy city, I thought it might be of interest to pen a few notes from the lake shore. Although it has been a wet and backward season until the 25th inst the season is now opening very auspiciously. I notice that wheat generally, is better than it was last year at this date (May 1st). The farmers have learned by experience in regard to wheat raising, if they wish to succeed and avoid the hession fly they must use fertilizers and sow later. This town seems to be enjoying a prosperous era as I note many improvements among the farmers in the way of repairs to their houses and barns, and are also well supplied with the latest and best farming utensils. The outlook for a good fruit crop is excellent. This town has many good peach orchards and more are planted every year. The new electric railroad passes through the fruit belt and in connection with the lake boats has added greatly to the convenience and value of the farms.

The writer in travelling over the western part of Allegan county recently was surprised to find that the fruit belt proper was quite limited especially in regard to the culture of the peach, only extending a few miles from Lake Michigan. One among the best of peach orchards in this town belongs to Prof. Kingsley of Chicago consisting of over 100 acres and yields a very fine income. He is an enthusiast in that line, buying his land in 1883 he cleared it and began planting trees at once, and in the course of three or four years it was on a paying basis.

As this East lake shore region with its many resorts becomes better known, it will attract many from the cities especially from Chicago, since so many cheap transportation lines have been established.

ADAMS.

Pentwater.

Captain Eddie Irons the oldest resident of this village died last week at the ripe old age of 96 years. He was the captain of the schooner Eliza ward in 1836 and had sailed the lakes as long as his age would permit him to do so. He brought a cargo of merchandise from Otsego, Lake Ontario for several ports on Lake Michigan in 1836, and had five hundred bushel of peas for Chicago, and the rest of the cargo for Grand Haven. In the early days Chicago had a bridge pier to land at, the harbor frequently baring up with the heavy seas. He was forced in harbor while unloading there and had to run a line from the schooner to a large oak tree that stood in front of Fort Dearborn and have the schooner over the bar with the windless. He claimed that was the first schooner in Chicago river.

Work on the canning factory is progressing rapidly. The first story of the large building which is five hundred feet long is well under way, the foundation of the warehouses are completed. Smith and Hoke of Muskegon have the contract for building the factory.

The first railroad excursion of the season left here Sunday morning for Grand Rapids.

For many years the passengers from the railway trains and people living on the south side of the harbor had to pay five cents to cross the channel. This season the village has voted it a free ferry.

A fine marl bed was found while digging the trench for the foundation of the canning factory.

A little life may be sacrificed to a sudden attack of croup, if you don't have Dr. Thomas' Electric Oil—Monarch over pain.

A Raging Roaring Flood.

Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had Consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by Heber Walsh. Price 50 cents and \$1.00.

Allegan County.

May 17 has been designated as Field-day for the Allegan County High School Athletic association.

The Twelfth annual convention of the Kalamazoo District Epworth League, which will be held at Otsego May 9 and 10, is expected to be the largest gathering of Methodist young people ever assembled in that district.

President and Mrs. McKinley and Party Leave Washington for the West.

ENTHUSIASTIC CROWD CHEERS TRAIN.

First Day of the Tour Lay Through a Historic Section in Virginia—First Speech Was Made to the Students at Charlottesville and Was Received with Applause.

Washington, April 30.—The train which is to carry President and Mrs. McKinley and their party on their long excursion across the continent and back made its start Monday precisely on schedule time, over the Southern road. Before ten o'clock many people had congregated about the station, and when the president and Mrs. McKinley arrived, as they did about 10:20, the building was thronged and many persons were congregated on the outside.

There was a cheer as the president's immediate party drove up to the station, and a general demonstration of affectionate regard as the head of the nation and his wife made their way through the crowd to the train. Mrs. McKinley leaned upon the arm of Dr. Rixey, and both she and the president smiled in response to the greetings which met them at every step. They were accompanied to the train by numerous friends and by many persons distinguished in the affairs of the nation.

Decorations for Mrs. McKinley.

Mrs. McKinley found the drawing-room of the private coach which she and the president are to occupy beautifully decorated with roses and other flowers. She spoke gratefully of the thoughtful care of her friends and seating herself beside a window, facing the crowd, continued to smile and bow to acquaintances until the train moved out. The president took his position on the rear platform of the Olympia beside Secretary Hitchcock, hat in hand, a brilliant carnation in his buttonhole and a smile upon his face.

Through Virginia.

Bristol, Tenn., April 30.—The first day of the president's long tour to the Pacific coast lay through a historic section in Virginia, across the valleys of the Rapidan and James, in sight of the homes of Madison and Jefferson, up past the peaks of Otter, so dear to the hearts of the Virginians, into the picturesque Blue Ridge mountains. Large crowds assembled at every station, the countryside and cross roads each had its little group of waving watchers straining their eyes to catch a glimpse of the chief magistrate as the train whisked by.

His First Speech.

At Charlottesville the students of the University of Virginia turned out. The president, speaking from the platform of his car, said:

"It gives me great pleasure to receive the greeting of the people of Charlottesville and the cheers of the young men of the University of Virginia. (Applause.) Your institution is linked with great names and great deeds and has influenced both. What an array of immortal names Virginia holds in her keeping to remind us of lofty patriotism, broad statesmanship and noble achievements. To no other state of the American union belongs such history to preserve and cherish and such examples to inspire and emulate. May the young men of the state of Virginia prove worthy sons of their noble ancestors and contribute in the future, as they did in the past, to the well being and honor and glory of the republic. Let me assure you, young gentlemen, that the present and the future hold rich reward for good scholarship, high character and noble endeavor; and the wish which I leave with you is that of these you may have your full share." (Prolonged applause.)

Greeted by Crowds.

Memphis, Tenn., May 1.—The presidential train passed through the heart of Dixie yesterday and at 4:30 o'clock in the afternoon reached this city and received a wonderfully impressive welcome. The president spoke briefly and paid a glowing tribute to Tennessee troops in the Philippines.

In Alabama.

Huntsville, Ala., May 1.—The scenes attending the passage of the presidential train along the route yesterday were a repetition of those Monday. Crowds at every station cheered and waved to the passing train and every farmhouse and cross-roads had its groups of eager watchers.

Will Open Gates on Sunday.

Buffalo, N. Y., April 29.—The question of whether the gates of the Pan-American grounds are to be open on Sunday was finally settled Saturday by the board of directors. Their decision is a compromise. The gates are to be open from one p. m. to 11 p. m., but the Midway and all amusement features will be closed.

Five Lives Lost.

Houston, Tex., April 29.—A fire which destroyed a livery stable and three residences burned five persons to death—Joe Copping, a florist, his wife and three children. A negro has been arrested on charge of having started the fire to get revenge on his employer for having discharged him.

Center of Population.

Washington, May 1.—The census bureau has issued a bulletin announcing that the center of population of the United States, excluding Alaska and recent territorial accessions, on June 1 last, was six miles southeast of Columbus, Bartholomew county, in southern Indiana.

Hanged.

Natchez, Miss., April 25.—Jake Johnson (colored), who in a fit of jealousy shot and killed his wife last July, was hanged here Wednesday.

HONOR GRANT'S MEMORY.

Seventy-Ninth Anniversary of the Hero's Birth Celebrated at Galena, Ill.

Galena, Ill., April 29.—The seventy-ninth anniversary of the birth of Gen. Grant was celebrated Saturday. The occasion was the tenth of the series and was in every respect successful. The train from Chicago arrived at 1:18 p. m. and brought the speaker of the day—Rev. Dr. Frank W. Gunsaulus—and a party of distinguished guests, who were escorted to Turner hall by the Plattville state normal band and the E. D. Kittie post, G. A. R.

The address delivered from the stage of the hall by Dr. Gunsaulus was pronounced one of the finest orations given from that platform and warmly received by an audience of immense size. The city was decorated in honor of the event, which was participated in by the leading citizens of the towns and villages within a radius of 100 miles. Letters of regret from Mrs. Gen. Grant, Mrs. Sartoris, Admiral Dewey, Chauncey M. Depew, Senator Allison and other prominent Americans, were read in connection with the exercises, which included special musical features by Miss Clara K. Sheean, of Chicago; Marion B. Green, of Dubuque; William Rippin, president of the Grant Birthday association, delivered address of welcome.

BOERS STILL ACTIVE.

Surround and Capture British Troops in the Calvinia District—Raiding Parties in Several Places.

Cape Town, April 27.—Eleven men of a troop of the western province mounted rifles who were patrolling in the Calvinia district were surrounded by Boers. They fought for two hours, but surrendered, after losing two men killed and two wounded.

London, April 29.—Lord Kitchener continues the process of wearing down the Boers, who, however, are very active in the Koonstad district, where they recently derailed two trains and also captured, after a severe fight, 25 men of the Prince of Wales' light horse, whom they stripped of their horses and accoutrements and then liberated.

London, April 30.—Darrells island in the Bermudas has been leased by the British for a Boer prison.

Cape Town, May 1.—The Boers in the neighborhood of the Kenhardt district of Cape Colony are actively engaged in removing supplies to various laagers. Boer raiding and looting parties are reported to be in the Richmond, Murraysburg and Middleburg (Cape Colony) districts.

REENTOMBED.

Remains of President Lincoln Placed in the Crypt of the Repaired Monument.

Springfield, Ill., April 25.—Unostentatiously and without any ceremony the remains of Abraham Lincoln and the other members of the family which have been entombed in the national Lincoln monument, and which have since March 10, 1900, when the work of rebuilding the monument at a cost to the state of Illinois of \$100,000 was commenced, been reposing in a temporary stone vault near the monument, were yesterday afternoon replaced in the crypt in the monument. The remains which now rest in the tomb in the monument are those of the president and Mrs. Lincoln, their sons Willie, Thomas (Tad) and Eddie, and Abraham, son of their oldest son, Robert T. Lincoln.

Burned to Death.

Sioux City, Ia., May 1.—Jay and Joy, the three-year-old twin children of Mrs. Layton Hubbard, were burned to death in a stable at Hawarden, Ia., Tuesday afternoon. The children were playing in the barn and set fire to some papers. A neighbor succeeded in rescuing a cow, but did not know the children were there. The charred remains were found after the barn had been completely destroyed.

Reform at Omaha.

Omaha, Neb., April 30.—In accordance with an order of Mayor Moore all saloons were tightly closed from Saturday night until Monday morning. The mayor promises now to go the whole length and asserts that next Sunday barber shops, ball games, theaters and even newsboys will be placed under the ban. The stringent action results from an agitation by the press.

Killed His Keeper.

Peru, Ind., April 26.—Henry V. Hoffman, an animal trainer, was killed by Big Charley, an elephant belonging to the Wallace circus. After killing Hoffman the elephant charged the employees in the circus quarters and kept them at bay for three hours. He was finally induced to eat apples heavily charged with strychnine, and his death followed.

Alleged Crime.

St. Paul, Minn., April 30.—The police authorities believe that William Rosenfield has thrown his four children, ranging in age from 2½ to 7 years, into the Mississippi river from the Marshall avenue bridge and then leaped in after them. Trouble in the family has existed for some time.

A Terrible Disaster.

Frankfort, April 26.—Fifty persons were killed and 150 more or less seriously injured by an explosion and subsequent fire in the Greisheim electro-chemical works, located near Greisheim, a suburb of this city.

A Fatal Fire.

McLeansboro, Ill., April 29.—J. W. Grimes, a hostler, in George Hoffmann's livery stable, was burned, together with five horses and several buggies and a large amount of hay.

WELCOME CUBAN ENVOYS

Delegates from the Constitutional Convention Arrive in Washington on a Mission.

CORDIALLY RECEIVED BY THE PRESIDENT

Refers Them to Secretary Root for Conference on Island Affairs—Given a State Dinner—Formation of Government First Question to Be Settled—Annexation Not Likely.

Washington, April 26.—The Cuban delegation from the convention framing a constitution for the new island republic saw President McKinley yesterday and there were introductions and a formal exchange of expressions of friendship between the United States and Cuba. When the president met the delegates he referred to the Cuban situation only in a general way, and suggested that the delegates confer fully with Secretary Root, who has an intimate knowledge of Cuban affairs. After the formalities at the white house, the delegates went to the war department and conferred with Secretary Root. In the evening they attended a state dinner given in their honor by the president.

Cabinet Discusses Cuba.

Washington, April 27.—The cabinet devoted its session yesterday to the discussion of the questions touching the relations between Cuba and the United States, and it was the general impression among the members that no promises could be held out to the Cubans beyond those contained in the Platt amendment. The administration will stand by the act of congress, but at the same time do everything possible to clear the minds of the Cubans of prejudice and suspicion against that act. The visitors are deeply impressed by the attentions shown them in Washington.

The Cubans Go Home.

Washington, April 29.—The Cuban commissioners made their farewell call upon the President Saturday, and expressed the hope that there should be reciprocal trade relations established between Cuba and the United States. President McKinley told the Cubans that the formation of a government and the provision for political relation with the United States was the first question to be settled. After that is done and Cuba has a government capable of making treaties he will appoint commissioners to meet representatives of the Cuban government to negotiate a commercial treaty.

The delegates started for New York at 11 o'clock Saturday night, homeward bound. They will sail for Havana Wednesday.

Will Not Be Annexed.

Washington, April 30.—It is asserted that the Cubans are assured by the president that annexation will not be considered unless rejection of the Platt resolution makes a new policy necessary. Liberal tariff concessions will be urged, and reciprocity is considered necessary to secure valuable markets.

Wood Returns to Havana.

Havana, May 1.—Gov. Gen. Wood arrived in Havana early Tuesday evening from the United States.

CALLAHAN ACQUITTED.

Jury in Cudahy Kidnaping Case Returns Verdict of Not Guilty—The Judge Scores the Jurists.

Omaha, Neb., April 29.—James Callahan is not guilty of complicity in the kidnaping of Edward Cudahy, Jr. Such was the verdict returned by the jury, which for nearly a week has been listening to the evidence in Judge Baker's criminal court.

The announcement was received with open disappointment by the court and with surprise even by the defendant. Judge Baker was deeply incensed. He roundly censured the jury, saying he could not conceive how 12 intelligent men, after hearing the testimony, could have returned such a verdict; said he did not know what motive actuated them in reaching this decision, but hoped none of them would ever appear again in a jury box.

Fire in a Mine.

Latrobe, Pa., April 29.—The entire tittle, engine house and boiler house of the Dorothy coal and coke plant of the American Steel and Wire company is a smoldering mass of ruins, and it is rumored that six miners and 39 mules have lost their lives. The loss is estimated at \$150,000.

Jerked His Head Off.

Clayton, N. M., April 27.—Thomas E. Ketchum, alias "Black Jack," the notorious outlaw who had terrorized the people of the southwest for the past 15 years, was hanged here for train robbery. The rope broke, but the fall jerked his head off.

Killed His Landlord.

Sioux City, Ia., April 27.—Harry Hammond, a tenant farmer, shot and killed Fred Bauman, his landlord, near Parker, S. D. The men quarreled over the boundaries of the farm, which had been changed by a resurvey.

Greatest Record of All.

New York, April 30.—Transactions on the New York stock exchange Monday were by far the largest in the history of that institution, the total being estimated at 2,760,000 shares.

Bank Robbed.

Rantoul, Ill., April 26.—Robbers looted the Bank of Ludlow, a private institution in the village of Ludlow, five miles north of here, Wednesday night, and secured \$3,000.

Result of Citizens Caucus.

The citizens caucus for the nomination of candidates for the office of school trustees to fill the places of W. H. Beach, C. Ver Schure and J. C. Post, whose terms expire, was held at the Lyceum Opera house last Wednesday evening.

As there was no contest on, the attendance was very small, not over forty voters being present. Dr. Yates was chairman of the caucus and G. J. Van Duren was secretary. The tellers were C. Ver Schure and M. G. Mantling.

As in previous years each elector placed three names on his ticket, the six names receiving the highest number of votes to be declared the nominees of the convention. On the first ballot Messrs. Beach, Ver Schure, Post, Calhoun, Yates and Mabbs received the highest number of votes. Messrs. Beach and Ver Schure requested that their names be withdrawn as they did not have the time to devote to the duties of the office. Their request was granted and a second ballot taken. The six receiving the highest number of votes on this ballot were Dr. O. E. Yates, J. C. Post, Dr. J. A. Mabbs, G. W. Mokma, H. Pelgrim and John Nies, and they were declared the nominees of the convention.

Their names will be printed on the official ballot Tuesday and the electors will indicate for whom they wish to vote by erasing three of the names, thus voting for the three whose names remain on the ticket.

The election will be held at the Lyceum opera house next Tuesday from 8 to 9 o'clock p. m.

The members of the board of education whose terms do not expire this year are: P. H. McBride, I. Marsilje, B. Steketee, Dr. Henry Kremers, Henry Geerlings, G. J. Van Duren.

On account of press of other business Mr. Mokma has declined to run so but five names will be placed on the official ticket and electors will erase two names instead of three.

Holland Club Leaves the Diamond.

The fans came nearly seeing a base ball game Monday afternoon. The Hope College Club and the Holland City Club met at the College Campus to play the first of a series of five games.

Everybody expected good sport, and for a short time their expectations were realized as both sides played clean, fast ball. Everything went swimmingly until the third inning. The college boys had batted Ver Schure freely, netting six runs and not a city player had crossed the home plate. Enthusiasm was at a high point among the college boys, while those who favored the city club were despondent. Interest was intense as a rally on the part of the city boys was expected. Ver Schure sent a hot one over the plate. A boy from Hope hit it squarely. It flew to left field. The fans watched breathlessly to see it fall. They saw a Hope base runner collide with the Holland short stop between second and third preventing him from catching the ball. They saw several other things in the line of ball playing. Then they saw a heated argument with the umpire. Then they saw the members of the city team leave the diamond. They were amazed at this action and rushed to the center of the diamond to ascertain the trouble. They were told that the Holland boys had quit the game because the umpire had not called the Hope base runner out when he ran into the Holland player who was trying to catch the fly.

Umpire Banniga decided the game in favor of the college club by a score of 6 to 0.

When the fans found out that the Holland boys had quit, they were chagrined and disappointed, for they felt that no matter what the circumstances were they should have finished the game.

There is a wide difference of opinion over the justice of the decision. But that should not be taken into consideration Umpire Banniga has always been eminently fair and even though the Holland boys thought he was wrong they should have settled the matter without quitting the game. For in doing that they have dealt a blow to the sport from which it will not soon recover.

During the week the trouble between the two teams amicably settled and the series of games

will be played as heretofore arranged. The second will be played this afternoon at 3:30 o'clock.

In Memory of a Worthy Pioneer.

With measured tread the venerable remnant of the heroic pioneers of '47 are being gathered to their eternal home. One by one they bid us farewell, and in a little while the "last muster" will be announced. During the week one more of the "first settlers" has gone to her deserved reward, Mrs. Jan Visscher, born Geesje Van der Haar, after an illness of a few weeks, from which she was apparently recovering. She died suddenly on Tuesday morning, aged 80 years. Six children survive her—Mrs. Lemmie Hazenberg, Netherlands; Arend and John W., of this place; John Forresterburg, S. D.; Mrs. S. G. Jenks, Kalamazoo; Mrs. John J. Mersen, Ann Arbor; also a sister, Mrs. H. G. Van den Berg, and an adopted member of the family, Dick Hompes. On Thursday afternoon her remains were laid beside those of her departed husband, in Pilgrim Home Cemetery. The services, held in the First Reformed church were conducted by Prof. H. E. Dosker and Rev. G. H. Dubbink, and at the home by Rev. H. Van Hoogen. As pall-bearers had been selected—Honorary, I. Cappon, E. Van der Veen, Prof. C. Doesburg, I. Fairbanks, R. Van Zwailuwborg, C. Schols; Acting—Prof. H. Boers, G. J. Diekema, Dr. G. J. Kollen; G. J. Van Duren, B. D. Keppel, D. J. To Roller.

Geesje Van der Haar, as was her late husband, was a native of Genemuiden, province of Overisel, Netherlands, and had she lived until then would have celebrated her 81st birthday, Aug. 5 next. May 2, 1841 she was married to Jan Visscher. Their birth place and home, Genemuiden, was also the first pastorate of Dr. Van Raalte, and for two and a half years, the young and energetic pastor was their spiritual leader. [From here Dr. Van Raalte went to Ommen and Arnhem, at which latter place he planned his campaign and embarked upon his life work in the New World.]

The young couple were engaged in mercantile pursuit and were prosperous. This however did not deter them from joining their fortunes with those of the young dominie, and enrolling themselves under his leadership.

If at that period of time the fatherland had manifested only a pittance of the good will and sympathy and charity towards their own countrymen which they now profess to entertain towards their descendants in South Africa, what a different, what a less cruel page would have been recorded in its behalf.

Although the first Holland settlements in Michigan, Wisconsin, Iowa, and Illinois date from the year 1847, the advance guards—the ice-breakers as they were termed—left old Holland the year before, and some even earlier. Mr. and Mrs. J. Visscher embarked Oct. 4, 1846 and sailed just three weeks later than Dr. Van Raalte, arriving in Baltimore about Christmas after a stormy voyage of 72 days. From there they proceeded to St. Louis, where they remained several weeks and were joined by another group of emigrants who had left Holland later and had come by the way of New Orleans. While here they received word from Dr. Van Raalte, that he had selected Black Lake, Michigan, as the site for his Colony, and urged the party to join him at once. This they resolved to do and sent three of their younger members, T. Keppel, H. Van der Haar and J. Binnekan, ahead, to notify Dr. Van Raalte and his first band of pilgrims, (who had reached here by the way of Allegan), that they were coming.

The party left St. Louis in February for Chicago, thence by vessel to Grand Haven, and by wagon road, such as it was, to Port Sheldon. Beyond this point they could not proceed, there being no road, not even a trail. The women remained for a time at this point, while the men went to the settlement to aid in building huts and cutting roads. When they arrived here they found that the three young men, who had traveled all the way from Chicago on foot, had reached here only two or three days before they did. In the course of a few weeks the families that were left behind at Port Sheldon came on a flatboat to the mouth of Black Lake, and in a canoe made their way to the landing at the Indian village, where for several weeks they lived among the Indians in a hut. This party of colonists were the first that landed among the Indians at their village, so-called (west of King's factory), the huts at that landing for years thereafter serving as receiving barracks and quarantine for those that made the journey by water.

Mr. Visscher at once secured a tract of government land—the old Van Duren place, a mile east of the present city—built the house lately torn down, fitted it up as a store, and resumed his former mercantile occupation, to which he added also butchering and trading in cattle. His es-

To feed the vital fires or they lose the power to regulate and control the body. Unnatural stimulants won't do. Like an air blast on dying embers they cause a sudden flash of heat—then all is dead. Give the nerves plenty of fuel, and the worry and fretting, the headaches, the nervousness, loss of sleep, deranged digestion, neuralgia, rheumatism and heart troubles, that burn up the brain substance and destroy the nerve-force, will disappear forever. Don't wait till the fires are burned out. Begin now.

establishment was one of the early trading marts in the colony.

From hence on, their lot was one in common with that of their fellow pioneers, and amid it all the departed has played her part as became a devoted and faithful wife and mother, in tribute whereof her descendants are a living testimony. She was a woman of more than ordinary intelligence and information. Her early effort, amid all the difficulties and hardships of pioneer life, was the acquiring of the English language, and her declining years, spent in the old home opposite Centennial Park, were devoted to literary pursuit. Her reading, current and historic, was of the highest and best. In her death passes from among us the last of the four Van der Haar pioneers, her brothers Wouter and Hein and her sister Mrs. A. Vennema having preceded her at different intervals.

Old Soldier's Experience.

M. M. Austin, a civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25 cents at Heber Walsh.

BRONCHITIS

We Know is Hard to Control.

Our Vinol is Making a Wonderful Record in Curing This Dangerous Disease.

CALL AND LET US TELL YOU ABOUT IT.

Here is a letter that has just come to our attention. It will interest people suffering from bronchial troubles. It is from Mr. Geo. W. Brown, of So. Hanover, N. H., and reads as follows:

"I have suffered with bronchial troubles for over a year; tried two doctors and have taken three or four kinds of medicine, none of which did me any good. At times I was so hoarse I could not speak. Then I heard of Vinol. After taking three bottles of it my voice has perfectly returned to me. I can see that in a short time I will be all right. When I began to take it I was very weak, but it has built me up and given me a good appetite."

This is what Vinol always does. This is the way Vinol accomplishes its mission of doing good.

Vinol, as we wish every one to know, owes its power of accomplishing the cures that it effects to the fact that it contains the most wonderful medicinal elements known to science for the cure of all wasting diseases, as well as being in itself a marvelous tonic. These medicinal properties exist and have heretofore been found only in cod-liver oil. Vinol contains these elements. For by a scientific process the necessary curative properties of the cod-liver oil have been separated from the fat and grease which formerly made cod-liver oil preparations so objectionable.

As long as Vinol does not contain any of the vile-smelling oil, and is prepared by combining the sought-after properties with a delicate table wine, it is a most delicious and palatable preparation.

We know of what we speak when we recommend Vinol, and because we do know that Vinol does all we claim for it, we unhesitatingly endorse it, and guarantee at any time to refund the money paid for the remedy if you are not satisfied it will do all we claim for it.

VENEZUELA IS SET RIGHT.

Makes Satisfactory Explanation to the United States of Baiz Affair.

MONEY EXTORTED TO BE RETURNED.

Promises Not to Molest Our Consular Agent at Barcelona—Venezuela to Be Given to Understand That the Course of Minister Loomis is Approved.

Washington, May 1.—The state department has received from the government of Venezuela a satisfactory explanation of the circumstances under which Ignacio Baiz, United States consular agent at Barcelona, came to be arrested and molested of a heavy fine. While no details are furnished, it is stated that the action of the Venezuelan government in the matter is all that could be desired and that Baiz, who has recovered or will recover the money extorted from him, will not be further molested.

Loomis' Course Approved.

New York, May 1.—A special to the Herald from Washington says: Venezuela will be given to understand that the United States has formally approved of the course pursued by Minister Frank B. Loomis in his action upon various matters in dispute between the two governments.

At the same time she will be told that the United States relies upon her sense of justice in the settlement of these matters. Instructions setting forth the attitude of the administration have been sent by the state department to Mr. Russell, charge d'affaires in Caracas. Mr. Russell will immediately call upon the Venezuelan minister for foreign affairs and apprise him of the fact that the policy of the United States in the several questions pending is the same as it was before the withdrawal of Minister Loomis.

Diplomatic representations are considered ample at this time, especially in view of the action of the Venezuelan government in expressing their regret to Mr. Russell for the arrest of Ignacio H. Baiz, consular agent in Barcelona. By its expression of regret the Venezuelan government, in the opinion of the authorities, has shown a desire to remove all irritation from the relations existing between it and the United States.

MAY DAY STRIKES.

Machinists Start a Movement at Buffalo That May Be Far Reaching Its Effect.

Buffalo, N. Y., May 1.—Between 500 and 800 machinists in this city and Erie county struck Wednesday to secure a nine-hour day without a decrease of pay.

Many of the local shops, at a conference with the men Tuesday afternoon, agreed to the demands of the union, and will not be affected by the strike. It is understood that the local movement is the forerunner of a strike that may extend all over the United States, Canada and Mexico, on May 20, when a general demand for a nine-hour day will be made.

Scranton, Pa., May 1.—Machinists, boiler makers, blacksmiths, car builders and laborers from all the shops in Scranton and all along the lines of the Delaware, Lackawanna & Western road in New York, New Jersey and Pennsylvania Wednesday presented a petition to their employers for the inauguration of a nine-hour day at the same rate of wages that now obtains for ten hours.

Buffalo, N. Y., May 1.—The strike of the marine engineers is practically settled on a basis of mutual concession.

Youngstown, O., May 1.—All journeymen plumbers of the city went on a strike Wednesday morning. Their grievance is not over wages or hours of labor, but they insist that threatening of pipes and similar work now done by apprentices shall be done by the journeymen. The plumbers at East Liverpool are also out.

Grand Rapids, Mich., May 1.—The union plumbers in all but nine of the 23 shops in Grand Rapids went on strike Wednesday to enforce a new wage scale.

New York, May 1.—All the bricklayers and masons of Elizabeth, N. J., to the number of 400, went on strike Wednesday. They had been getting \$3.60 a day and demanded \$4. At Yonkers 750 bricklayers, plasterers, stonemasons and hod carriers went on strike Wednesday.

Waterbury, Conn., May 1.—Two hundred carpenters and joiners, about one-half the total number employed in Waterbury, went on strike Wednesday to enforce demands recently presented.

Columbus, O., May 1.—Nearly 600 carpenters in the city refused to go to work Wednesday morning pending the signing of the wage scale of the coming year.

Paris, May 1.—May day is passing quietly. Work is proceeding here as usual and telegrams from the provinces show the day, thus far, to have been uneventful.

REGENTS WILL RULE.

Empress Dowager of China Names Six to Manage Affairs of the Empire.

Peking, April 26.—The empress dowager, fearing her authority is waning and wishing to hamper the future actions of the emperor, has appointed a board of regents to manage the affairs of the empire. The board consists of Li Hung Chang, Prince Ching, Kun-Kang and Jung-Lu, grand secretaries; Wang-Wen-Chao and Lu-Chuan-Lin, members of the tsung-li-yamen. Two of these members are mildly progressive, two conservative and mildly anti-foreign, while two are intensely anti-foreign. The new board will usurp the functions of the cabinet and the tsung-li-yamen (foreign office).

Washington, April 27.—The empress dowager's creation of a board of regents to rule China is regarded here as a sinister move, the effect of which is to nullify all promises of reform and again imperil the lives of all foreigners in the empire.

Peking, April 29.—Count von Waldersee reports four severe battles with Chinese troops beyond the great wall, in which the Germans defeated the enemy with great loss to the Chinese.

Vienna, April 30.—Information has reached here from a trustworthy source to the effect that the Chinese indemnity loan will be floated in America. Russia is to guarantee the loan.

CONGER RETURNS.

Minister to China Reaches San Francisco—He Praises Action of Missionaries.

San Francisco, April 26.—United States Minister Conger arrived here Thursday afternoon from China on the steamer Nippon Maru.

The minister, in an interview, defended the missionaries from the charges of looting. He also said the stories of brutality on the part of the soldiers of the powers were greatly exaggerated. There had been individual cases of excesses, but they were to be expected in times of war, he explained. The returned minister also expressed the opinion that China was able to pay an indemnity of \$300,000,000, though it would have to practice economy.

Dr. Ament, the missionary who achieved considerable notoriety on account of the charges of looting, and who was sharply criticised by Mark Twain, also was a passenger on the Nippon Maru.

KIDNAPERS OFFER GOLD.

Make Proposition to Mr. Cudahy to Give Back \$21,000 If He Will Call Off Detectives.

Omaha, Neb., May 1.—An agent of the kidnapers has made a proposition to Edward A. Cudahy to return \$21,000 of the money paid for his son's ransom, demanding in return a withdrawal of the \$25,000 reward and a cessation of the search that is being prosecuted, together with an abandonment of the determination to punish the criminals.

The proposition came in a letter from Elgin, Ill., and Mr. Cudahy is convinced of its authenticity. He went to Chicago ten days ago because of it, being summoned there by his brother in response to overtures that had been made. He refused to consider it for a minute and declares his unchanged resolve to prosecute to the end the search for the men who stole his boy.

Burned to Death.

LEADERS LAY DOWN ARMS

Gen. Tinio with His Entire Command Surrenders at Sinait to the Americans.

ORGANIZED REBELLION NEARLY ENDED.

Pacification of Northern Luzon Is Now Complete—Gen. Cailles the Only Important Insurgent Who Remains Hostile—Filipino Priest Also Gives Up the Struggle.

Washington, May 1.—Two important cablegrams were received Tuesday at the war department from Gen. MacArthur at Manila. In the opinion of the officials the news contained in them mark the almost complete collapse of organized rebellion in the Philippines. The cablegrams are as follows:

"Gen. Tinio surrendered with his command to-day at Sinait. He will deliver all men and guns in his command as soon as they can be gathered together. This completely pacifies the first department, northern Luzon, for many months the worst in Luzon.

"Col. Ciprano Callao and Gregorio Katibac, Malvars, best officers, surrendered to Col. Jacob Kline at Lipa on April 28 with 23 officers, 108 men and 86 rifles."

Other Surrenders.

Later, the following cable message, dated Tuesday at Manila, was received from Gen. MacArthur, announcing several other important surrenders in the Philippines:

"Juan and Blas Villamor, leaders Abra, surrendered Bangued, April 27; now engaged assembling scattered commands, delivered arms. Aglipay, ex-priest, leader Ilocos Norte province, Luzon, surrendered at Laoag, April 28."

Tinio is said here to have been, with Alejandro, one of the highest officers in the insurrectionary force. He was in command in northern Luzon during the famous chase after Commander Gilmore.

Was a Leader.

Malvars, whose colonels surrendered to Kline, was also one of the best-known Filipino leaders. He was Lawton's most formidable foe and commanded the insurgents at the fight at Zapote river, the most serious battle fought in the Philippines. He has confined his operations to southern Luzon, which never has been completely subjugated, and Lipa, where the surrender occurred, has long been one of the principal insurgent arsenals.

Want to Capture Cailles.

It is said at the war department, by officers recently back from the Philippines, that there now remains in the field in Luzon only one chief whom they are particularly desirous of catching, namely, Cailles, the head hunter. This man has violated every rule of warfare and it is not expected that he will be taken alive.

Surrender Confirmed.

Manila, May 1.—The report that Gen. Alejandro has surrendered is confirmed. He was looked upon as the possible successor of Aguinaldo. Padre Aglipay, the excommunicated Filipino priest, who preached the doctrine of a holy war against the United States, has also surrendered.

More Surrenders.

Manila, May 1.—Baldomero Aguinaldo and Pedro Aguinaldo, relatives of Gen. Emilio Aguinaldo, and five other insurgent leaders have surrendered.

Bank in Michigan Town Robbed.

Detroit, Mich., April 27.—A special to the News from Brighton, Mich., says: The bank of G. J. Baetke & Co. was entered by thieves early Friday, who dynamited the safe and secured about \$4,000. So much dynamite was used that the explosion demolished the interior of the bank. The loss to the bank is covered by insurance. Officers are searching the surrounding country for the thieves, but no clew has been discovered as yet.

Forest Fires in Michigan.

Houghton, Mich., April 29.—Forest fires are raging at a number of upper peninsula points and unless there is a drenching rain soon great damage will be done and many hamlets and villages endangered. The whole north country is very dry, less than a quarter of an inch of rain having fallen during the month.

Sault Ste. Marie, Mich., May 1.—The large lumber manufacturing plant of the Hall & Munson company at Bay Mills was partly burned Tuesday morning. The entire town was threatened and the fire departments of the two Soos went there on a special. The loss will approximate \$75,000; insured.

Consumption

by no means, the dreadful disease it is thought to be—the beginning.

It can always be stopped—the beginning. The trouble is you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

I could hardly stoop to lift anything without suffering severely. I did not rest comfortably at night and became so lame and sore from lying in one position that in the morning I arose feeling tired and unrefreshed. I was bothered a great deal with headaches, spells of dizziness, and the kidney secretions became affected, were irregular, too frequent and unnatural. I doctored a great deal and took many kinds of medicines but without getting better. I believe I would still be suffering if I had not heard about Doan's Kidney Pills and procured them from J. O. Wonders of the Automobile

A Grand International Speed Contest for the Pan-American Exposition

THE Queen City of the Lakes, with her beautiful tree-embowered streets and parkways, will this summer be the Mecca of the automobilists of the Americas.

As a result of a conference held in Buffalo between William I. Buchanan, director general of the Pan-American exposition, and a committee appointed by the board of governors of the Automobile Club of America, consisting of Albert C. Bostwick, Percy Owen and J. M. Hill, all of New York city, together with Thomas M. Moore, superintendent of transportation exhibits, and the sports and athletics committee of the exposition, it was decided to hold a grand international road race of 200 miles from Buffalo to Erie and return as the culmination of a week

namement, which will be held in the stadium, has not been arranged, it has been suggested that trials to test the mobility and economy of the various types of motor vehicles, obstacle and hill-climbing contests, brake contests and pursuit races be included in it.

The tournament will take place during the week beginning September 16. It is intended that the international speed contest over the famous Buffalo-Erie course shall rank with the famous long-distance automobile races held annually in France. This contest will be the feature of the week of automobile sports and tests, and will be open to self-propelled vehicles of all types and all countries. Large purses and valuable cups and medals will be presented to the winners.

Unpaid Taxes. Important.

On May 7th the several county treasurers will begin the sale of lands upon which the taxes for 1897 and prior years remain unpaid.

Every property owner should examine the published lists of the counties in which his lands are located, for all the years advertised, and apply to this department or the county treasurer to pay the delinquency if they are found to be listed for sale.

Remember that a few minutes and possibly a small sum of money spent NOW may save you hours of worry and any number of dollars after your land is sold.

of automobile sports at the Pan-American exposition.

To arrange and carry out the programme of the tournament Director General Buchanan has appointed a committee of automobilists to act in connection with the sports and athletics committee of the exposition.

Mr. Malcolm W. Ford will be chairman of the special committee, and his associates will be Mr. J. M. Hill, who will represent the electrical vehicle interests; Mr. Percy Owen, representing the gasoline vehicle interests, and Mr. S. T. Davis, Jr., representing steam vehicle interests. All four are members of the Automobile Club of America, and Mr. Davis is also president of the National Association of Automobile Manufacturers. The fifth member of the committee is Dr. Truman J. During the week preceding that of the motor vehicle tournament at the Pan-American exposition the Automobile club of America will hold a tour or endurance test from New York to Buffalo as a practical demonstration of the utility of motor vehicles.

This run will not be a speed contest, as the object of the trip is to demonstrate the possibilities of the various types of motor vehicles under all conditions of weather and roads.

Automobilists of all countries are invited to participate, and valuable cups and medals will be given as prizes.

The course is to be up the Hudson to Albany and thence across the state to Buffalo, a distance of about 400 miles.

The route to be followed will be definitely fixed by a committee appointed by Mr. A. R. Shattuck, president of the Automobile Club of America.

Honduras at the Buffalo Fair

The Republic Has a Handsome Building at the Pan-American Exposition

HONDURAS has erected a handsome building at the Pan-American exposition, and will make an extensive exhibit of her resources.

Honduras is the third in size of the Central American republics. It is generally mountainous but well watered, its principal rivers flowing into the Caribbean sea. It is said that the natural conditions are such that nowhere in the world can a greater variety of products be found. The staple products of all climates grow naturally and abundantly. Cit-

wonderful display, showing the great wealth of her mountains and plains.

The Honduras building at the exposition is located in the western part of the court of state and foreign buildings. It faces the approach and overlooks a portion of Delaware park and the lake. The building is designed with an octagonal rotunda surrounded with wide porches on three sides and with pavilions on four sides, the remaining side being occupied by the kitchen and toilet rooms. The central rotunda and two of the pavilions are intended for exhibits of the coun-

izens of the United States have already become investors in her agricultural, grazing, forest and mineral lands, but her boundless resources are still practically untouched. The government is divided into 15 departments, with an area of 43,000 square miles. The population is about 400,000. Bananas are the chief crop and find a market largely in the United States. The growing of coffee and cotton are increasing industries, and among the other exports, indigo, sarsaparilla, dye woods, cabinet woods, hides and skins figure prominently. Her live stock industry represents an investment of more than \$3,000,000. Honduras will bring to the exposition a

try's products. There are a cafe and offices for the commissioners in the other two pavilions. Stairs lead from the rotunda floor to a gallery, which surrounds the rotunda and is lighted by skylights and dormer windows. There are four large circular doorways, connecting the pavilion with the rotunda, which give a novel and pleasing effect. The porches are well protected by the broad projecting eaves and are comfortable places for weary visitors to rest and enjoy a taste of Honduras hospitality. The exterior of the building is an adaptation of the Spanish-American style, with classic detail. The roof is of Spanish tiles, and the exterior of the building of stucco.
