Tulip Time Tulips Are Now In Bloom

UNPRECEDENTED WEATHER
HASTENS THE FLOWERS;
HOLLAND'S LANES A RIOT
OF COLOR

Holland's Tulip Festival committee and all its auxiliary committees have been working diligently for months, lining up all features that have to do with this great annual festival. Despite the fact that they are "working like Trojans," way back in their minds they have been rather concerned as to whether nature has not been working over-time.

The entire month of March has been unprecedented in real summer heat waves. That "cold March wind" was not in evidence, but instead, summer zephyrs held sway. In other words, it was "growing" weather. And with growing things, tulips, too, got the urge to develop earlier.

Then came April with rather a wintry aspect, and fears that tulips would develop too fast were allayed. Even snow covered them for a few days, and cold held them back; but not for long. The latter part of April dawned rather sunny; and May started out with a heat wave that was indeed intense. In fact, the U. S. Weather Bureau states that May 3, day before yesterday, was the hottest day for this time of year in the history of that department.

And still the heat continues. But what do the tulips care? They are growing and blooming, for they know nothing of Tulip Festival dates months ago, and they are living riotously, ignoring all the plans of "mice and men!"

Anyway, tulips are popping open so fast that Mr. Connelly called together a meeting of the Tulip Time committee, and it was decided to tell the nation through radio, telegrams, and through the national press, that tulips in Holland are in bloom; and every day varieties more blooms and larger varieties. The tulip lanes are open for inspection, although the dates of the Tulip Festival, with all its features, parades, amusements, band tournaments, and that wonderful miniature Netherlands never seen by anyone, will not be changed, and will remain May 14 through 21. A cold spell undoubtedly will retard the tulips for the real festival dates, but even "Bill" Connelly cannot control nature on a rampage.

The news in this article gives Mr. Connelly's telegrams sent to the Associated and to the United Press, as well as to other avenues of broadcasting. Mr. Connelly states that the blooming of the tulips is a matter over which we have no control; but, knowing that they are in bloom, it is only fair that the people know that the tulips bloom here, and that they are welcome to come now, or at Tulip Time, or at any other time during the year. Holland bids them welcome; the latchstring is hanging out; and a good, old Dutch greeting awaits one and all.

CHEST CLINIC FOR TUBERCULOSIS NEXT TUESDAY

Dr. J. H. Bartlett of Muskegon will be in charge of the chest clinic for tuberculosis at the old hospital annex on Central Ave. and 12th St. next week Tuesday, May 10, from 1:00 p. m. to 3:00 p. m. Miss Alma Koertge, city nurse, will assist the doctor.

PROGRAM FOR 4-H DAY, SATURDAY, ON PAGE THREE, THIS ISSUE

Tomorrow, the annual achievement day celebration for Ottawa County 4-H clubs will be held in the city. More than 900 4-H club members are expected to join in the celebration. The program and demonstrations, which number about 100, will be carried out in the Holland high school building.

A parade will be held about 9:15 from Holland high school to the Holland Theatre on East Eighth St., where, at 9:30, delegates will be the guests of Henry Carley, theatre manager, at a motion picture show. Motion pictures will be shown in the high school auditorium at 10 a. m. to those who will not attend the theatre showing.

A style show, readings, singing, special music, awarding of prizes, and numerous other numbers will be featured. Complete program of the day's activities will be found on page three, this issue.

CALLS JURY FOR MAY 16

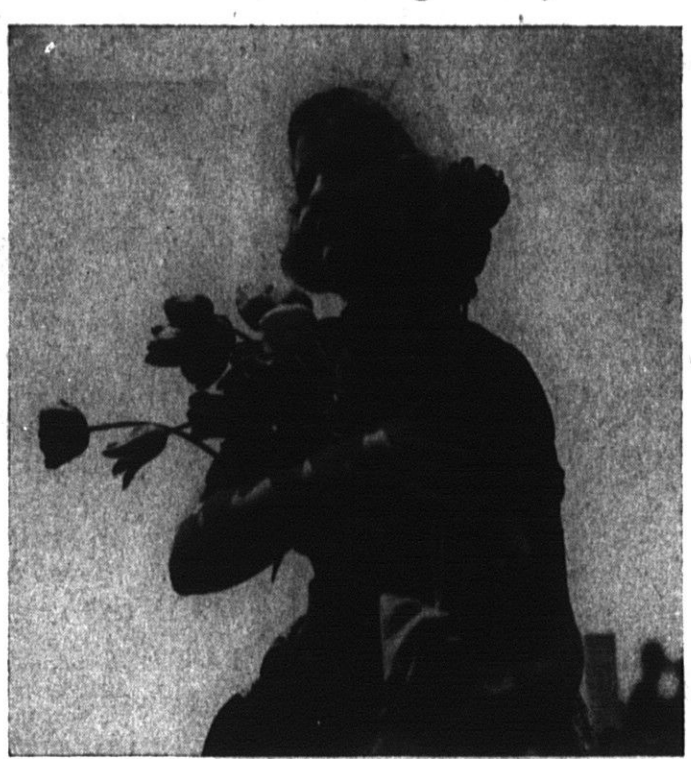

Judge Fred T. Miles has notified the county clerk's office that the jury for the May term of circuit court, which opened May 2, will not be called until May 16. There are but two criminal cases and six civil jury cases listed on the calendar for the term.

Harold Schaap, West 28th St., has filed application for a building permit with City Clerk Oscar Peterson in which he seeks to build a double garage at a cost of \$160.

MORE CHILDREN WANTED FOR PIED PIPER UNIT

The Tulip Tot unit, led by the Pied Piper in the opening day Tulip Festival parade, made a big hit last year. It was a great favorite with the movie camera men. This unit is in charge of Mrs. Peter Van Dornen, Jr., Phone 5626, and is composed of children of pre-kindergarten age. Campfire girls will assist in the care of the tots. Parents are urged to phone Mrs. Van Dornen at once and enter their youngsters in this parade, thereby saving the committee the work of soliciting entries. The Pied Piper is Cornelius Dalman, oldest fifer in the Holland Marital Band.

Beauty Embracing Beauty

Holland today is in festive array. Tulips are popping out everywhere, and by Saturday of this week there will be a riot of color in gardens, parks, and tulip lanes. You can tell how beautiful the tulips are in this picture. They are almost as beautiful as this young

lady—Miss Helen Mae Heasley, daughter of Mr. and Mrs. Roy M. Heasley, 303 Maple Ave. She, as well as all of Holland, welcomes you to our beautiful "Tulip City," and we especially announce that from today on our tulip display will be most gorgeous and beautiful.

COUNCIL NOTES

A large petition was sent in by property owners on East 26th St. between Columbia and Lincoln Ave. asking that the street be treated with chloride instead of sprinkling since the dust is terrific. Ald. Drinkwater pointed out that 6th St. between River and Central Ave. should also be treated. Ald. Kalkman of the 4th ward asked that 6th St. be paved from River Ave. to Columbia Ave. The whole matter was put into the hands of the street committee for further report.

Property owners on 21st St. asked that their street between Central and Michigan Aves. be paved, provided it could go on a WPA basis. 60 per cent of the property owners signed the petition. The matter was left to the street committee and the city engineer.

Walter Vander Haar of Holland Township, officer of the First Reformed church, asked that no new oil station be allowed on the Holland Armory corner where a station has just been dismantled, and there was prospect of a new service station being placed there. He spoke for the consistency of the church, stating that it would curtail the parking space for church purposes now available, should a station be built there. The communication was filed.

George Mool has offered to purchase property back of his warehouse on 6th St. for \$150.00. He wishes to use it for expansion purposes, and the aldermen went on record as setting June 15 as the date to receive bids on that property, to be sold to the highest bidder.

J. Vander Schraaf has applied for a soft drink stand at his service station at 15th St. and River Ave. It was left to the license committee with power to act.

The common council went on record as favoring how parking on College Ave. between 8th and 9th Sts., on both sides of the street. It also approved diagonal parking on College Ave. along Ninth St. Christian Reformed church and at First Reformed church on Central Ave., where the streets have been made considerably wider.

Ald. Huyser brought in a report recommending that arrangements be made with the Vande Water estate in closing the deal for \$2,500 for the property in the street, which will have to be acquired to open East 12th St. from Lincoln Ave. to Fairbanks Ave. City Atty. Parsons will draw up the necessary papers.

Ald. Drinkwater of the building committee called attention to the Knickerbocker Club housed in the old hospital building on 12th St. and Central Ave., stating that they were eight months behind in rent. The matter was referred to the ways and means committee and City Atty. Elbert Parsons, who are to call in the officers of the club.

Ald. Ed. Brouwer, chairman of the Civic Improvements Committee, stated that the dock at Kollen Park was absolutely in dangerous condition for children fishing and bathing. He stated that it would take 1,200 feet of planking to re-deck the dock, and that two-inch planking, white pine, could be secured from the old Klyn Novelty Mill, now being wrecked on East 6th St. Mr. Brouwer stated that all the material and labor would cost less than \$100.00 and there was \$100.00 in the harbor fund to do the work. Mr. Brouwer's proposal was unanimously passed.

Mr. Brouwer also brought in a matter of opening 4th St. from River Ave. to the lake. This is now city property and there are no options on it to bind the property. The common council has asked City Atty. Parsons to take up the legal phase and the necessary steps in opening up that street. This opening will be very important when Holland secures more land when the Lyons Construction Co. dredges the harbor and the island purchased is connected with the mainland.

The aldermen again went unanimously on record exempting soldiers and sailors from property tax,

Hat Bands Enter Into Council's Deliberations

CITY FATHERS ARE OF TWO
CLASSES IN SIZE; HEADS
ABOUT THE SAME

There has been considerable discussion in the common council from time to time relative to wearing cap and gown in the Tulip Time parades. For some years the Burgemeester and De Stadsraad have occupied a very important place in the line-up. Mayor Geerlings was decked as a Dutch Mayor should be, and the City Fathers followed the style prevalent in The Netherlands.

The aldermen, however, did not have their garments made-to-order, but instead, borrowed them from Hope College. The result was a "hit and miss" fit, as it were.

This year they intended to have them made to measure, but they found that the cost would be not less than \$150.00, while Dr. Wyndam Wichers was pleased to co-operate, giving the use of the gowns at 75c per gown during the Tulip Festival. The council decided that the offer of Hope College was the best bet, but the selection of the gowns will be more judiciously done.

Art Drinkwater and "Casey" Kalkman, the two "shorties" in the tail behind them, in the train that they will wear this time will expose their hands, and they won't have to be rolled up at the sleeves. Ald. Peter Huyser will not have the appearance of the "Bard of Avon," although his colleagues have often twitted that the mustache over the lip should be turned into a goatee on the chin, a la Shakespeare. We hope the alderman of the 5th takes this good naturedly.

Anyway, Ald. Ed. Brouwer hit upon a plan that will solve the problem of fitting twelve aldermen. He was with a tape measure and took the measure of every alderman—that is, the length up and down. Then the head was measured, and there is surely no reflection on the outcome. The hat numbers are rather sizeable and average up pretty well, but the length of our City Fathers varies considerably. Some are tall and spare; others are short and rotund.

Here are Brouwer's findings after using the tape on twelve city aldermen: Henry Prins—head, 7, length, 5 ft. 9; Al Kleis—head, 7, length, 6 ft.; Art Drinkwater—head, 7, length, 5 ft. 6; "Casey" Kalkman—head, 7, length, 5 ft. 6; (Art and Casey twins it appears); Martin Oudemolen—head, 7, length, 5 ft. 11; Ed Brouwer—head, 7-1/8, length, 5 ft. 10; Ben Steffens—head, 7, length, 5 ft. 8; Henry Ketal—head, 7-1/4, length, 6 feet; John Menken—head 6-7/8, length, 5 ft. 6; Peter Huyser—head, 7-1/8, length, 5 ft. 10; John Vogelzang—head, 6-1/2, length, 6 ft.; Frank Smith—head, 7-1/8, length, 5 ft. 5.

Mayor Geerlings needed no measurement, although his head is 7 1/2 and his height is 5 ft. 10 inches. Mr. Brouwer hopes that through these measurements he will secure cap and gown to fit Holland's aldermen divided into some 200 students' gowns should bring an average pick of outfits that fit, and not misfit.

It is rather interesting that six of the aldermen have hat bands the same size; and that the two aldermen of the second ward have the same measurements in head and length. Anyway, make your comparisons from the table compiled by Ald. Brouwer. We are sure that these gowned gentlemen will this year have gowns more becoming when they appear sedately meandering over 8th St., directing the scrubbing of the thoroughfare.

The Memorial Day article arranged at Tuesday's meeting was omitted until next week since the arrangements are very incomplete. At the meeting next Tuesday complete arrangements will be made and will be published in our next issue.

OVER THOUSAND CHILDREN BENEFIT BY WORK OF DR. FROST SINCE MAY 1, 1937

A report of dental service given in Ottawa county by the children's fund shows 1,422 children made 2,349 visits to the clinic for 1,685 extractions, 2,973 fillings, and 2,371 other operations from May 1, 1937, to the present time.

The majority of parent-teacher associations in the county were contacted by Dr. C. H. Frost in charge of the clinic where 5,224 persons were informed as to what the fund offered.

At the last dental advisory committee meeting it was decided to organize lay groups in various townships including all the school districts, in which groups will assist in the operation of the clinic. There has been a marked improvement in the general condition of children's teeth as shown in subsequent dental examinations conducted in the schools. Previous reports have always placed Ottawa county far down the list concerning dental conditions.

With a continued corrective and educational program, such as is being carried on it is expected that Ottawa county will soon rank among the foremost in dental hygiene, states Dr. Frost.

Teachers and officers of Fourth Reformed church will hold their quarterly meeting tonight at 7:30 o'clock at the home of Mr. and Mrs. Stanley Heneveld, Central Park. Guest speaker will be the Rev. W. G. Flowerday.

Investigation. Suggestions were made to council by Chief Blom that federal aid could be secured for the local improvements. The report of the police chief and fire chief, as presented at the last meeting of the board of police and fire commissioners, were accepted and filed by council.

Just A Peep Into "Kleine Nederland"

The picture above is only one small corner of Little Netherlands showing all the quaint things that "Zipp" Houtman wrote about that are going to be shown in the Holland Armory during the Tulip Festival. A panoramic view of nearly every part of provincial Netherlands is to be shown—the dikes, the canals, the roads, the windmills, the sea, Volendam, and Zaan-dam, highlights in Netherlands provincialism.

All this is to be in miniature and an example of just one of these is shown here—a Dutch barnyard. The size is apparent when compared with the young lady, who cannot even hide behind the house. A cow, to her, would only be a good hand!

This is only one of hundreds of others that are to be placed in an area covering approximately 3,400

One Thursday morning the fire department met pursuant to call and elected their officers for the current year. The following was the result: Chief engineer, G. Slenk; assistant engineer, John Hummel; secretary, George Van Duren; treasurer, John Ter Vree.

John Alberti has remodeled his barn on East 9th St. into a lively stable and now has horses and rigs to rent. He will also rent for funerals. Note: Later he became a funeral director, then built a building on 8th St. as a bazaar and crockery store. Many years later John S. Dykstra bought out the entire enterprise and now still conducts the funeral home. Livery barns have long ago been discarded with the advent of the motor car.

The twelve-year-old son of "Jake" Flieman, named "Jake," Jr. of the second ward, fought a muckelunge in Black river weighing 22 pounds. This does well for a young sportsman.

The carrier pigeons are still being slaughtered in large numbers near their roost at Petoskey. Once a week from 60 to 80 barrels containing several hundred dozen each are shipped to the Chicago market. Note: These birds are now extinct. The "deadlock" in the common council has finally come to an end and the salary of the city marshal was placed at \$300 a year instead of \$400. One concession was made, however. The marshal will have a telephone in his office costing \$49 per year. Note: The marshal then was Ed Vaupell. There were less than 100 phones in the city at that time. Today the same Bell Telephone Co. makes connections with approximately 3,000 phones in this vicinity at \$3.00 per month or \$36.00 per year.

Gerrit J. Diekema was appointed city attorney by the common council and F. O. Nye chief of the fire department.

Snow fell in Holland on May 12, 1888, and continued to fall for two days, after a heavy frost. The third day brought warm sunshine and the snow melted in short order. What the damage has been is too early to estimate, however, the peaches will be frozen as usual, with plenty left for all this fall.

His successor was Dr. E. D. Dimmett, who is still on Hope's faculty after years of very successful service as president. Hope Memorial chapel was built during his administration and his efforts were the paramount cause of the success in the erection of this pearl of architecture.

That a war exists between Germany and the United States is evident from the fact that in the Spring Lake schools all German books will be stacked in the school yard and burned and another language will be taught the pupils. School Board Wants To Close A City Street

CLOSING OF THIS STREET
WOULD MEAN THE SAFETY
OF THE STUDENTS

A matter came up to the common council last evening that is of unusual importance. The school board asked the City of Holland to close one block on 23rd Street between Maple and Washington Avenues. All the land on both sides of the street in that block belongs to the Board of Education of the city of Holland. The playgrounds are located there, and what is more, in the future this property will be used entirely by the Board of Education, possibly for a new high school if the city grows.

Anyway, it is very essential that this block be discontinued before any street improvements are made in that vicinity. It will be similar to 11th Street running dead at Centennial Park and also Graves Place, both at Centennial Park and Hope College campus. No one will suffer by the closing of this street, since it is entirely that particular block has only to do with the playgrounds, and possibly later with a school itself.

The Board of Education, as well as the members of the common council, felt that for the safety of the pupils along a street should not cut in half the two blocks, which should remain one unit for school purposes.

It was unanimously decided by the common council that Wednesday, June 1st, 1938, be the evening set for a hearing at the common council rooms, when the aldermen will finally decide on the closing of the street in that one block.

Mr. Fell states that they are developing the property at the present time as a playground for students. With the street closed the play could be arranged more in the center of the property, further away from the homes. That street in reality is not important to the property owners, since it contains no dwellings, but only to do with school activities.

One fact possibly has not been thought of, and that is, should this street be paved later, one entire block going through this property will not be paved, and the cost of this paving will be saved to the taxpayer, since no street will be built in that particular block. The paramount reason, however, is the traffic problem, developing rapidly as it is, going through the heart of the school property. This is a very important consideration; and should this property be developed for school purposes later, it will be very inconvenient to have two units divided by a city street.

The Board of Education has been far-sighted in securing these two blocks of property some years ago, in order to be protected should the need for extra schools and extra playgrounds be necessary further south, the direction in which Holland has been developing for some years back. We believe that the closing of that street, before improvements are made, is a very essential thing.

Semi-Annual Mission Meet Next Week

SPEAKERS FROM VARIOUS
FIELDS TO APPEAR ON
PROGRAM

The Ladies Missionary Union of the Christian Reformed churches of Holland, Zeeland and vicinity, is to hold its semi-annual meeting on Thursday of next week, sessions to be held both afternoon and evening.

These meetings are always looked forward to by the many members, and generally the ladies "make a day of it" and attend the afternoon session not only, but stay for the supper hour, when coffee, etc., is served by the entertaining churches, and then remain for the evening program.

As usual, the program this year which is to be held in First Christian Reformed church at Zeeland, again promises to be well worth attending. Speakers for the day represent a varied mission work, Canada, India, Home Missions, and City Missions being represented. The afternoon speakers include Rev. Henry Baker, Home missionary-at-large for the denomination, and Mrs. Wm. R. Angus of China. Mrs. Angus, prior to her marriage, was Miss Agnes Beukema, who while a student at Hope college, was winner of the oratorical contest.

Scheduled as speakers for the evening program are Mr. John Vande Water of Grand Rapids, and Mr. Bert Pousma of Star Lake, N. Mex. Mr. Vande Water, who formerly was in charge of the Helping Hand Mission of Chicago, and for the past several years in charge of mission work done by the denomination in Grand Rapids, is well known in Holland and vicinity, being a native of this city. He is an interesting and forceful speaker. Mr. Pousma is a mission worker among the Indians at New Mexico.

Several musical numbers, instrumental and vocal, will also be presented.

A playlet entitled, "Thanksgiving Anne" will be presented by ladies from the Fourteenth Street Christian Reformed church during the supper hour.

The afternoon meeting will begin at 2:00 o'clock and the evening session promptly at 7:30 p. m. Mrs. Robert Poole of Zeeland, president of the Union will preside.

Ladies who expect to stay during the supper hour are expected to take their own lunch, coffee being served by the entertaining church.

The date is next Thursday, May 12, and the place, the First Christian Reformed church of Zeeland. The public is cordially invited to attend.

Cages for Drunks

The people of Woburn, Mass., voted Sunday against putting drunks in a cage and drawing them through town behind a police car.

They perhaps feared that the proposed reversion to a colonial punishment would brand them as of horse-and-buggy mentality.

A great many years ago, we have read, a cage was used for misdemeanants in Boston, as being less expensive than a permanent jail.

And then, too, there were the stocks, which burdened the taxpayers even less and exposed those sentenced to them to the public eye and ridicule, at times reinforced with eggs and tomatoes.

The fear of public scorn still lives in Woburn even if cages for citizens, who can't carry their liquor like gentlemen, are not to be revived.

The mere exhibition of a cage before the City Hall last week cut the number of Saturday night arrests for drunkenness from 14 to two!

Preparations for the Tulip Festival Are Nearly Completed

Preparations for the 1938 Tulip Festival are rapidly nearing a close, it was indicated early this week by William M. Connelly, manager of the Holland Chamber of Commerce.

The photography contest being sponsored in connection with the Little Netherlands exhibition, which is to be on display at the Holland armory during the festival, is proving very popular. Details of the contest were given in a previous issue of the NEWS.

The exhibits, under the direction of S. H. Houtman, will be moved to the armory May 7 from its temporary location in the Masonic Temple basement.

The used Dutch costume exchange at the City Rescue Mission is now open, Mrs. Arthur Visscher, member of the committee, has announced. It was also announced by Mrs. W. C. Kools of the Woman's Literary club that each day at 8:30 p. m. during the festival, a film taken in the Netherlands will be shown in the club rooms. On the opening day of the festival, the Holland Furnace Co. will again sponsor a nation-wide broadcast from 1 to 1:30 p. m. Seventy-two stations will be used in the broadcast, whereas last year only 42 stations participated.

On May 14, George Heneveld, Park township supervisor, has been informed, the Fort Wayne, Ind., Aero club will send 15 airplanes here in mass flight.

Mr. Connelly has been informed that the Pere Marquette railway will run two special trains to the city on the opening day of the festival, one train coming from Detroit, and the other from Toledo, O. Miss Myra Ten Cate has been named chairman of the Children's Day committee. Children's Day comes on May 18, when a new variety of tulip will be dedicated to Princess Beatrix, daughter of Princess Juliana and Prince Bernhard.

With Ohio leading in the request for Tulip Time programs, Mr. Connelly stated today that but 40,000 of the original 120,000 printed programs remain for distribution. Illinois and Indiana are also strong bidders for first place for program requests.

BULK OF OTTAWA TAX SALES WILL START ON MAY 9

Ottawa county tax sales will not actually start on a large scale until May 9, it was announced today by County Treasurer Nicholas Spruiell.

To comply with the law however, the sales will be opened at 10 a. m. tomorrow, one description read and the property sold and the sale adjourned until next day when the one description sale will be repeated.

Sale of a single parcel a day will continue through this week to enable the treasurer's office to bring its books up to date and be in shape to handle other business besides the sales, Henry Van Noord, deputy treasurer, said. It is estimated about 3,000 parcels of land to be sold for taxes in Ottawa county.

DUNCAN PARK CRIME RESULTS IN PRISON TERMS FOR MUSKEGON FOUR

The four Muskegon youths who pulled a thrill hold-up at Duncan Park March 29, when Miss Angeline Mulder and J. P. O'Connor, from the U. S. C. G. Escanaba, were held up and robbed, were sentenced to prison Monday by Judge Fred T. Miles in circuit court.

Donald Bramer and Maurice Bush were both sentenced to Southern Michigan prison at Jackson for five to ten years; Robert Dick, who was a parolee from state's prison, may have to complete a balance of his sentence or nine years which with the sentence today would commit him for 11 years. Donald Hasselman was sentenced to the same prison for two and one-half to five years.

The boys have been waiting sentence in the county jail, having pleaded guilty to a charge of robbery armed in connection with the hold-up. They confessed the hold-up was a test one to see how well they could pull off a crime of that kind. The four youths were arrested for several weeks after the hold-up and the four were planning on a series of other jobs that would have included bank robberies and other high crimes, the officers said the boys admitted.

The arrests were made in Muskegon after the sheriff's department after a letter which was intercepted between two of the boys, announcing plans for the life of crime which they had planned.

Dick was sentenced from Muskegon court several years ago charged with arson in connection with a series of bad fires in that city in which thousands of dollars was lost.

INTERESTING EXHIBITS TO BE SEEN AT NETHERLANDS MUSEUM

Holland's friend, the late George F. Getz, became interested in The Netherlands Museum during the summer of 1937. Although his interests were national, Mr. Getz was always concerned with Holland and its activities. When he read in the Holland City News about The Netherlands Museum, he decided to aid in this project so he immediately wrote to the editor and offered his private museum collection as a gift. The matter was referred to Wilfrid C. Wichers who gladly accepted this generous donation on behalf of The Netherlands Pioneer and Historical Foundation. The death of Geo. F. Getz occurred before the arrangements for the transfer of the collection were completed. Although not legally bound to carry out these plans, the two sons, George Jr. and James Getz, readily agreed to execute the wishes of their father. Now the entire collection is in the Museum on Tenth Street and may soon be seen in the two front rooms on the first floor.

The Getz collection consists of many animal skulls and skins brought from the Getz expedition into East Africa, a number of stuffed animals which at one time lived in the zoo at Lakewood Farm, and a large display of World War articles, such as guns, shells, and helmets.

In 1927-28 George F. Getz and his son, George Jr., went on an African hunting trip and brought back many trophies which they added to their collection. Skulls of many species of antelope are now arranged in an interesting group in The Netherlands Museum. The One, which is a very rare species of the antelope, is characterized by long slender horns, and will charge a man or endeavor to stab a lion when it is cornered. The Eland, which is the largest of all antelopes and often weighs about 1,500 pounds, has large shaggy horns and fine horns. The commonest game animal of Africa is the Kudu, recognized by its narrow head and queerly shaped horns. Spiral horns are the distinguishing feature of the Kudu variety, most handsome and stately of the antelopes.

There are several Grand Gazelle skulls which are most interesting because of the lyre-shaped horns over two feet long. The Gazelle is a desert animal about the size of a big white-tail deer. Skulls of animals which live in the tropical wet lowlands include large and small specimens. The waterbuck, the reedbuck, and the bush-buck skulls are from small animals similar to the deer of the Northern Michigan. The skulls of the hippopotami come from huge animals which weigh as much as four tons. Their tough leather hides adequately protect them from injurious attacks. Large horns project from the massive skulls of the rhinoceros and the Cape buffalo. The Cape buffalo is probably the most dangerous animal in the world, attacking anything that disturbs it.

Skins of African animals—other trophies of the hunt—include leopard, lion, and jackal. On display are skins of the Skyes monkey, an Albino Colobus monkey, and several other Colobus monkeys. The Colobus monkeys are large handsome animals, conspicuously colored in black and white. The cat

Heeter, director of public school music and director of the Holland American Legion band, several more entries are expected before the time of the festival. With the enthusiasm shown on previous occasions by the townspeople, visitors, and bands and directors, and with indications of an enthusiastic reception this year, the review today promised to be an outstanding success as a climax to the Tulip fete.

Each band will present a series of maneuvers on the field at Riverview Park. Band directors must not be on the field while maneuvers are in progress. Drills in ex-

FER-DE-LANCE

By Jack Peterson
Leader, WPA Recreation

This snake, one of the deadliest of South and Central America, is so named because of its Javalin shape head. They claim it was introduced to many islands of the West Indies, the idea being a slave on the islands would not go into the bush to escape knowing that a deadly fer-de-lance might be waiting to strike.

The mongoose, also introduced to the islands to kill the fer-de-lance and other snakes, always came out a poor second when battling this deadly snake. Probably because its fangs were so long they penetrated the fur and sunk deeply into the flesh. Not being immune to this type of poison, the mongoose died quickly and so in time learned not to tackle this deadly reptile. The next creatures to be brought to the islands were the secretary birds of Africa. These made little impression on the fer-de-lance because it was far easier to pick up a living on small reptiles, frogs or lizards. To the West India islands the fer-de-lance is certainly a problem.

Length, 5 to 6 ft. Color, Olive-gray, crossed by dark bands margined with dull yellow.

South American of Holland in Dry Dock At Manitowac, Wis.

Above, the South American, of the Chicago, Duluth & Georgian Bay Line, in dry-dock at Manitowac, Wis., is prepared for a coat of grease paint to add to her speed, and (below) William B. Mayo, president of the line, and Harry J. Wilson, chief engineer of the South American (standing on propeller) inspect her propeller. The North American, her sister ship, followed her into dry-dock this week. The steamer South American has already returned to Holland to her docks at Montello Park, and the North American left and is now in dry-dock at Manitowac getting her grooming. The steamers will both be at their Holland docks by the end of this week ready to take on Tulip Festival guests. Each year these beautiful steamers are turned into floating hotels, and guests who have availed themselves of these accommodations are anxious to come again and live, this unique way—namely, on the water during Tulip Time. After the Festival the two steamers leave for the Lake Superior runs for the summer including chartered excursions. Late in September the boats will return to Holland, remaining until the next June. During the winter a sizeable force of men remain in Holland to overhaul the boats. A large warehouse building has been built near the Holland docks to accommodate some of the men and materials. Watchmen, too, are constantly on the ships during the "lay-up" season.

It was the first time the public had seen the Baby Princess who some day may be queen.

AUTO THIEVES GIVE POLICE A HOT CHASE

Having been warned by the state police radio system that a car stolen in South Haven Sunday night was heading toward Holland on U.S.-31, Police Officers James Spruit and Ernest Bear patrolled the area around Michigan Ave. and 30th St. During the course of the evening the stolen car appeared, identification having been made by license number.

Two unidentified men, occupants of the car, then led the officers on a merry chase about the city, and finally eluded the police cruiser. The car was later found abandoned on Garrison Ave., between Lincoln and Fairbanks Aves., and between 8th and 9th Sts.

About 8:45 p. m., Louis Van Hartesveldt, 115 East 9th St., informed police that his car had been stolen from in front of his home. Since the place where the abandoned car was found is near the Van Hartesveldt home, Police Chief Frank Van Ry believed that the same two men took the car. The car abandoned here was identified by its license number as being the property of Nellie La Dick, 37 East 16th St., here. By Monday night the Van Hartesveldt car had not been recovered.

Fish, Like Birds, Fight Against All Intruders

Robins Even Scrap Their Own
Shadows—Fish Fan Away
Sand and Silt to Make Beds

LANSING, May 4.—This is about the season when some robin will break into the headlines by carrying on a ferocious bout with its own image in a cellar windowpane. It happens every year. Two years ago such a shadow bout was reported in Holland which continued several days and to save the robin a sheet of paper was placed over the window.

Speculation on a possible explanation of this futile but spectacular trait brings to light from data in the state conservation department, the fact that birds and fish, even as dictators, set up their own special zones into which no other animal may venture without a fight.

Many species of fish, during the spawning season which comes about this time of year, make circular nests by using their tails and fins to fan away sand and silt in an attempt to uncover gravel beneath, on the bottom of the lake or stream they inhabit. Then they take up vigilant guard, hovering over the nest and darting out viciously at any other fish which happens to come too close. Even a five-inch bluegill may become quite belligerent during this time.

Birds, likewise, will establish a territory around their nests, any invasion of which is loudly and actively resisted. This habit may possibly offer an explanation of the windowpane battles. A robin, for instance, hopping around on the ground in search of food within its territorial zone may happen to get within glimpse of a cellar window, see its image and jump to the conclusion that another robin is trespassing. And the fight begins, to be repeated sometimes for several days at a stretch. Robins have been known to return to the same location and resume their pecking at the window even after being driven away.

Ornithologists are careful to emphasize that they do not really know the explanation and that thus far at least they can only guess about it.

Far More Men Are Arrested Than Women

**FIRE LOSSES IN HOLLAND CUT
IN HALF; BOTH CHIEFS
MAKE FIRE REPORTS**

Members of the board of police and fire commissioners held their regular meeting last Monday afternoon at 5 o'clock in the office of City Clerk Oscar Peterson. Annual reports by Chief of Police Frank Van Ry and by Fire Chief Cornelius J. Blom Jr., were features of the meeting.

Chief Van Ry's report showed 687 arrests in Holland for the fiscal year ending March 31. This is a reduction of 80 over last year's mark of 607. Of these, there were 572 male arrests and 15 female. July and August headed the number of arrests. Ten arrests were made for police in other cities. Eight cars were stolen here during the year, and all were recovered by Holland police. In addition, three cars were recovered for police of other cities. Police equipment was reported to be in good condition.

Holland police recovered \$3,500 worth of stolen goods. Last year \$5,500 worth was recovered. Collections included \$1,197.50 for fines, \$662.35, officers' fees from justice courts; \$210.50, parking fines; \$118.15, county criminal fees; \$232.70, notary fees; and \$49.90, confiscated gaming money. Besides a few retests, 99 gasoline pumps were tested, and 299 scales were examined.

There was one suicide in the city during the year, Chief Van Ry disclosed, and one person was killed. A total of 172 accident reports were received; and 1,188 persons were given night lodgings by police. Fifty-four fire alarms and 66 lost children were checked. 903 traffic warnings were issued, and doors of 204 business places were found open. Offenses checked by police, as given by Chief Van Ry, follow: intoxication, 32; disorderly, 15; drunk driving, 6; no license plates, 5; larceny, 1; parking too near fire hydrant, 9; unnecessary blowing of horn, 6; intersection violation, 3; running traffic lights, 13; no lights, 1; reckless driving, 3; falling to right of way, and assault and battery, 1 each; leaving scene of accident, 2; faulty brakes, 7; no operator's license, 10; lost and found, 1; gaming, 6; wrong parking, 3; failed to signal, 1; motor running, 2; picking tulips, 1; chauffeur law, 2; failed to report accident, 2; fire crackers, 1; accosting girls and vehicle laws, 1 each; parked engine running, 7; cutting traffic, 1; burglary, 4; right of way, disobeying officer, cutting through funeral procession, driving left side of street, desertion, crowded street, rape, hitching on cars, liquor in minors, passing car at intersection, rubbish ordinance, insane, indecent liberties, milk ordinance, and indecent language, 1 each; overtime parking, 206; stop street, 60.

Fire losses for Holland for the fiscal year were again low, according to Chief Van Ry. Losses were \$4,700 this year and \$8,050 last year. Eighty-two alarms were answered, including 10 outside fires, 16 still alarms, and three false alarms. Chief Blom urged a federal loan for the purchase of a new fire truck and the building of a new fire station in the city. The chief's report showed that the city was badly in need of new equipment.

A request was presented to the board that the Ottawa 4-H clubs be permitted to march over the downtown area Saturday at 9:45 a. m. The board turned the matter over to common council with the suggestion that the request be granted. The matter of allowing the Cunningham poolroom on East Eighth St. to install an electric sign was referred to the committee on signs and patrols.

Tulip Time arrangements were made with traffic officers Jay Dalman and William Sketeket in charge of handling traffic for the Festival, and the matter of employing additional men on fire station duty being referred to the personnel committee.

The copy of a letter, original of which went to Oscar B. Wilms, 258 River Ave., and which was sent by the state fire marshal, recommending that he tear down an old factory building on his property, condemned as a fire trap, was received by the board. Suggestion was that the building be torn down in 30 days.

On motion of Commissioner Fred Kamferbeek, the board voted to approve Chief Van Ry's plan of angle parking on West College Ave. between Ninth and Tenth Sts., and on the east side of Central, from Ninth St., south to the church property. Chief Van Ry reported that Henry Borr had been employed temporarily as extra man to fill present vacancies, until the board decides who is to fill these vacancies. He also reported 47 traffic warnings and 87 cases disposed of during the past month. A new car for the police department was discussed, and the status of Rufus Cramer and Henry Borr as special officers was brought up by Chairman John Donnelly.

A request by the American Legion to stage a tag solicitation in Holland on Saturday was referred to Mayor Henry Kierling and common council for action. Officers were reported by Justice of Peace Gerrit W. Kooyers and Justice Nicholas Hoffman for the past month.

Mr. John B. Strange, Michigan commissioner of agriculture, who was the main speaker at the banquet opening the fifth annual Zeeland and Egg Show at Zeeland Tuesday evening, has announced that he and his wife will visit in Holland during the 1938 Tulip Time festival. Mrs. Strange is the former Miss Evelyn Reidsma, daughter of the late Simon Reidsma, who was a veteran furniture merchant here prior to his death.

COUNTY GETS \$15,000

CARL T. BOWEN STATES

Carl T. Bowen, county engineer, states that \$15,000 has been allotted to Ottawa County by the State Highway Department, together with the Federal Bureau on Public Roads, when money is going to be distributed for all approved Michigan secondary roads. Up to this time only one stretch has been approved in this county of 3 1/2 miles from Coopersville north, to the Muskegon county line at Ravenna. In a project of this kind federal aid funds match to the county road system. The plans for this prospective road have all been inspected by government agents; and the project would be over an existing gravel road, but an increased right-of-way is necessary to cut through the hills for the proposed grades that allow vision of 1,000 feet.

The project would include grading, graveling, drainage, bridge work and general preparation for black-top paving providing the requirements of the federal government can be met. Right-of-way to improve the roadway must be secured, bids on the contract must be let and other items complied with before the job is assured, said Mr. Bowen.

The office of Carl Bowen states that this is the only project of that type now under consideration. Up to this time there were no such improvements contemplated in lower Ottawa or near Holland. The roads in this vicinity are in fairly good shape.

Harry Blystra officiating at the ceremony. Attending the couple were James Hoffmeyer, brother of the groom, and Miss Alma Van Nul. About 32 guests attended a wedding reception held following the ceremony at the Koning home, East 14th St. The bride's parents also celebrated their 38th wedding anniversary Tuesday. Mr. Peterson succeeds Paul DuHammell, who recently was made manager of the A & P store at Alma.

John H. Crane, pioneer Fennville fruit grower and business man, is an octogenarian. On April 22 he was eighty years old. He is hale and hearty and as fine looking as he was ten years ago. He works at farm activities on week days, and on Sundays he participates in the affairs of the Fennville M. E. church and Sunday school. Last Sunday, when he put in his birthday offering, the school scholars, every one, gathered round and sang "Happy Birthday!" He started to follow his usual custom and set out another orchard on his birthday. John Crane knows a great deal about fruit growing and his orchards have been many and as a rule, paying ones.

Vacation Jobs Discussed

Margaret Culkjin Banning Gives Friendly Advice on Summer Work for Boys and Girls

"Should my child work this summer?" Margaret Culkjin Banning, famous author asks parents whose children will soon be out of school on summer vacations.

Mrs. Banning, one of America's outstanding women, and mother of two children, discusses this important and highly controversial question in the May issue of WOMAN'S DAY. Not seeking to lay down hard and fast rules, but rather to give some friendly advice to parents, Mrs. Banning proceeds to answer her own question:

"The answer is yes, if the money is necessary. If the amount that a boy or girl can earn during the summer vacation is so needed that otherwise the family will be uncomfortable or suffer, the young person should be allowed to carry his share of the load and find a job if he can. The answer is also yes in cases where the summer job is not just a time-killer but will increase the earning capacity and usefulness to society of a boy or girl when he or she becomes a full-time worker.

"But educators say that students need the long vacation for relaxation. Some psychologists say that a young person who enters the working world with its disciplines and responsibilities too early, or while he is still studying part of the year, will be left with an unfortunate mark. A summer job may force his maturity or stunt his natural growth, mentally or physically.

"Such statements frighten the parent who is eager to protect his children almost into maturity. But sometimes we are apt to be too soft about our children, to their disadvantage. This is a very serious and far from ideal world: at the moment. If ideal economic conditions do not exist we cannot bring children up as if they did exist. And American parents can also remember this to their comfort: all over Europe, in China and Japan, boys are being taught at an incredibly early age to bear arms, sever family connections, encounter danger to life. Even if the healthy American boy or girl has to take on responsibilities a little sooner than we might wish, he is still lucky compared to the young people in other countries."

Accompanying the article, is a list of suggestions for pin-money odd jobs, which should prove useful in helping young people select summer occupations. The list follows in part:

For Boys

Painting: Fences, porch furniture, etc.

Tending: Gardens, lawns, drives, hedges. Raking and burning backyard trash; destroying tent caterpillars and other harmful insects; exterminating poison ivy.

Delivering: Parcels for steam laundries, dry cleaners, etc.

Selling: Vacuum cleaners, washing machines, magazines, newspaper subscriptions.

Teaching: Sports and studies to younger boys. Taking children swimming or hiking at regular intervals.

Cleaning: Cellars, yards, lawns. Collecting and selling old newspapers, bottles, etc.

Washing: Autos, windows, dogs. If in large city, walking dogs may be profitable.

Serving: As caddy at golf clubs; as attendant, ball-boy or ground keeper at tennis club.

Repairing: Radios, lawn mowers, etc.

For Girls

Tending: Flowers or lawns by the month.

Serving: As companion or reader for invalids or younger children; helping half days in tearooms run by women.

Making: and selling hooked rugs, sweaters, dresses, candy, cookies, jellies.

Taking orders: from neighbors for such things as subscriptions, stockings, aluminum ware, books from lending libraries, etc.

Telephoning: prospective customers for beauty parlors, etc., on a commission basis.

Assisting: at community park or playground; working at small paid job for summer with Youth Administration, Y. W. C. A. or other welfare agency.

"I couldn't keep house without a telephone"

Mr. and Mrs. Edward Brandt of Nykerk on last Thursday celebrated their Golden Wedding anniversary by holding open house from two to five o'clock when they were showered with congratulations by neighbors and friends, who called to pay their respects to this fine old couple. Besides a beautiful upholstered chair they were presented with a number of bouquets by the many neighbors as tokens of esteem and high respect. Since the day of their marriage on April 19, 1888, they first lived one year in Grand Rapids and then forty-nine years ago moved to their present home one-half mile southwest of East Holland school house where they have lived since. Mr. Brandt was born in the Netherlands and came to America with the family of their father, the late Dingens Brandt and settled in this community. Mrs. Brandt before her marriage was Miss Jane Boeve of East Holland. They are the parents of two daughters and one adopted niece who was reared by them since infancy. Their own children are Mrs. Edw. (Jennie) Ozinga of Zeeland, and Mrs. James (Anna) Hoekje, of East Holland; and the niece is Mrs. Albert (Lena) Kapega of Holland. Mr. Brandt has been a great asset to his community, and during his residence there has served as a member of the consistory of the Niekerk Chr. Ref. Church and as a member of the school board many years.

The walleyed pike or pike perch is a member of the perch family. Pike perch, the name officially adopted by the U. S. Bureau of Fisheries because of confusion due to many local names, is perhaps the most suitable, implying as it does, certain characteristics of the perch, such as the spiny rays of the dorsal fin, and its somewhat pike-like head, suggestive of the pike family.

WHAT a convenience sometimes to be able to shop by 'phone! No need to "drop everything" and go out on particularly busy days—or in bad weather.

How nice—and how important—to be in touch with the world even when you're home alone! The pleasant chat with the friend you don't have time to visit... the last-minute arrangements for spontaneous get-togethers, bridge games, movie parties and general good times with people you like—all these are made possible by your telephone.

No wonder so many women say: "I couldn't keep house without a telephone!" In so many practical ways this modern servant pays its own small salary—and for good measure adds much to the joy of living.

THE SUNDAY SCHOOL LESSON

May 8, 1938
Cooperating in Service
Mark 9:30-41
Henry Geerlings

The cross was beginning to loom large in the pathway of Jesus. The

days were swiftly carrying him toward the act of the supreme expression of His love for sinners in the tragedy of the cross. From this time to the end of His earthly career, He had much to say about His sufferings, death and resurrection. It was only natural that it should be so.

The disciples had professed their faith in Him as their Messiah, and He had taken them into such intimacy with Himself that He could begin to reveal to them something of the rough way and tragic end that lay ahead of Him.

He did not allow this dark picture to obscure or minimize His teaching about other subjects. His points of view. In many matters, however, it does not pay to be too firm one way or the other. The really important thing is to that really important thing is, too, that we put the cause first.

that end would be to serve the whole group, and further to serve the church and Christ.

Now the only hope we have of getting the work done that has been left us by our Lord is to forget ourselves in the common cause. No group will get along the way it should unless we cooperate. That does not mean that all of us must have the same point of view, or agree that one method of getting a thing done is the best. But usually there is not so much at stake in the matter of methods. It sometimes happens that the very best thing is arrived at when the members of the group take different points of view. In many matters, however, it does not pay to be too firm one way or the other. The really important thing is to that really important thing is, too, that we put the cause first.

matters of faith and purpose it does not make so much difference as to the ways of attaining these goals. What we desperately need is that consecration which will place first things first and let the others fall in where they may.

We cannot speak of cooperation without thinking of the larger and wider interests with which all of us ought to be concerned. The church is something more than an organization of members in a given community. It is an immense society of believers in Christ. They are scattered all over the earth. We are bound to them by sacred ties. Their interests are our interests. Their work is our work. We must touch them with our sympathies, our prayers, and our gifts. We do that best by serving our own denomination in the deepest loyalty. It is not enough that our congregation grows, that we keep out of debt, and that we have good times as we meet together. The larger interests of our church can be promoted only as we who are members of the local congregations support it in the ways it suggests.

LOCAL NEWS

Tuesday was the hottest May 3 in the history of Ottawa county weather reporting. In the Grand Rapids weather bureau the report is the same, the thermometer registering 87 degrees.

A Rummage Sale will be staged Saturday, May 7, sponsored by the First Methodist Church. It will be held in the basement of the church on West 10th St., starting at 9:00 a. m.

A total of 35 applicants for positions on the local police force, submitted last Saturday morning to an examination offered to applicants by the Holland board of police and fire commissioners. The examination, which took place in Holland High school auditorium, was supervised over by Principal J. J. Kiemersma. From the five highest scorers, following a physical examination, vacancies will be filled. A. J. Edwards, Brouwer and A. J. Henry Kotel were present to observe proceedings.

A farewell program was presented last Friday evening at the North River Ave. Mission for the Rev. Martin Gritters and family, who left Tuesday for Iowa, where Rev. Gritters has accepted a call.

A large number of local people pilgrimaged to some trout stream in Michigan Saturday to participate in the opening of the 1938 trout season. Among local fishermen were Eddie Landwehr, Thomas J. Mahon, Lawrence Wade, Dick Van Raalte, Ted Baker, Ransom Everett, Henry Wilson, Dr. Otto Vander Velde, Clark Lievesse, Dr. Carl Van Raalte, John Cooper, Archie Vander Wall, Ben Rutgers, L. H. Cobb, Dr. C. F. Sulkers, Edward Leeuw, Jacob Hobeck, Pete Smith, M. P. Russell, Mr. and Mrs. John H. Moeke, Henry Winter, Lawrence Wade, and Judge Irving Tucker of Allegan.

Application for a building permit has been made with City Clerk Oscar Peterson by E. S. Holkeboer and Sons, Holland contractors, who seek to remodel a home at 13 East 13th St., and who plan to place a garage on the same property. Total estimated cost is \$1,000.

HOLLAND RECEIVES \$14,000 WEIGHT TAX

At a meeting of the Ottawa County Road commission distribution of the 1937 gas and weight tax money was made to the cities and villages of the county after the county bonds and interest, totaling \$67,816.95, had been paid.

Grand Haven received a check for \$8,492.15; Holland, \$14,598.88; Spring Lake, \$1,293.48; Zeeland, \$2,900, and Coopersville, \$1,021.60. These funds, according to state law, must be used for street improvement or retirement of bridge and road bonds.

In the case of most cities these funds have already been expended as estimates are made as to the amount of the returned taxes. Payments are always a year behind of the current demands. Return of the gas and weight money to the cities and villages has been made in the past two years due to the friendly suit brought by the cities against the road commission to determine whether the county could retire the bonded indebtedness before the due dates or whether the taxes must be divided each year after the bond obligations due annually are paid.

OTTAWA COUNTY SCHOOL ALLOTMENT WILL BE GONE OVER BY COMMISSION

Members to the Ottawa county tax commission, annually appointed by the judge of probate, were named today by Judge Cora Vandewater. Reappointment of Ben Mulder, Holland, and A. C. Van Koevring of Zeeland, was announced. Mr. Mulder is the member at large and Mr. Van Koevring represents the school boards.

The other members are fixed by law and hold places due to the offices they hold: Nicholas Sprietsma of Holland, county treasurer; Gerrit G. Groenewoud, Holland, county school commissioner; and Henry C. Slaughter, chairman of the finance committee of the board of supervisors. Mr. Slaughter, as newly appointed chairman, is the only new member of the commission.

William Wilds, county clerk, is clerk of the commission. The first meeting, according to law, is May 9, at 2 p. m. at the courthouse. About 140 budget forms have been mailed to the townships and school districts with the request that the budgets be submitted as early as possible.

Rates for the county, townships and school districts must be established to come within the 15 mill tax limitation law in Michigan. Meetings of the commission continue some times as late as August.

The county rate last year was 5 mills. Mr. Slaughter has called a meeting of the finance committee of the board for Thursday when the county budget will be considered preliminary to a request rate from the commission. Mr. Slaughter said today that he did not know whether the committee would seek a higher rate next year or whether the rate might be reduced.

ALLEGAN GRANGE SPELLING STOPS AT JERUSALEM; TRIPS ON "NIAGARA"

Margaret Edgerton from the Osborne school, district number 4, Watson, Allegan county, was the spelling champion at the Grange finals held before the Pomona Grange at Wayland, April 21. John Peterson from the same school won second place and Virginia Marshall from the McDowell school, Casco district number 1 won third honors.

After exhausting a very difficult list of words which had been studied by the contestants, an unfamiliar list of geographical terms was used to eliminate the last contestants.

"Wiffletree" eliminated Virginia Marshall. "Mediterranean" and "Jerusalem" were too much for John and Margaret so "Niagara" was pronounced. John missed and Margaret spelled the word correctly and carried the honors.

Miss St. John will represent Glenn community in the sixteenth annual Blossom festival from May 7 to 15 in Benton Harbor and St. Joseph. HOLLAND GIRL HEARD OVER THE AIR HAS BUILT REPUTATION

The radio career of the former Miss Angeline Poppin of this city, now Mrs. Paul Gebhard of Chicago, is reviewed briefly in outline from the April 23 edition of "The Standby," publication of the Prairie Farmer Publishing Co. of Chicago, where she is in charge of the daily WLS "Homemakers' Hour." Mrs. Gebhard is the former Miss Angeline Poppin ("Ann Hart"), daughter of Mrs. Anna Poppin, West 16th St.

Mrs. Gebhard is a graduate of Holland High school and Hope college. Following college graduation in 1925, she taught dramatics for two years in Zeeland High school. In 1927, she married Mr. Gebhard, who is a hospital administrator. He is a native of Mount Vernon, N. Y.

Mrs. Gebhard has never suffered from "mike fright." Prof. T. C. Smith, head of the philosophy department of University of Chicago, officiated at her first radio broadcast in which he was scheduled to participate. Children of the couple are Paul, Jr., who was born in 1928, and Mitzy Delight, born in 1933.

Buyers Cautioned On Used Car Titles

Officials of the department of state caution purchasers of used cars, the titles of which bear liens on their faces, to secure discharges of liens from dealers, for their protection.

It is pointed out that while original purchase liens on new cars are noted on the faces of titles, proof of discharge of liens is limited to original owners' statements to dealers when they assign titles. A dealer may, in good faith, sign the title when selling the car, indicating that no liens are against it. A first mortgage, however, may recover the car if the original lien has never been discharged. While it is true that the subsequent purchaser may have recourse to the dealer for his representation as to the absence of liens, there is no remedy if the dealer has in the meantime gone out of business, instances of which have occurred.

Frank W. Carney, director of the motor vehicle division of the department of state, has issued special instructions to all branch managers concerning handling of titles submitted for transfer, when liens appear on their faces. Discharges of liens of finance companies, or statements that a finance company's equity has been transferred to the subsequent purchaser, are required.

Precautions to guard used car purchasers have been adopted, in view of the recent activity in the used car market, through sales through both dealers and individual owners.

WRECKING SOME CCC CAMPS; 18 ABANDONED

Title to the buildings on seven evacuated CCC camps in Michigan has been turned over to the department of conservation to permit wrecking for salvage or retention for public use.

At least two of the camps will be maintained for use by various group camps. Where continued maintenance of the camps is found impractical the buildings will be torn down and the material used for other state purposes.

The Wilderness and Muskegon camps will probably be retained. Two of the other abandoned camps are located on state parks, the Hayes and Bay City parks, and the rest are on state forests at Alpena, Johannesburg and Molasses river. In all, 18 camps in Michigan have been abandoned to date. It must have cost the government considerable for those 18 camps.

SUNDAY DINNER Suggestions

By ANN PAGE

If you can afford asparagus but once or twice in a season, now is a good time to have it, for the season is at its height and prices correspondingly low. Judging by market prices May and July are peak months for peas, not June.

Strawberries, pineapple and rhubarb are all plentiful and should be throughout the month.

Meats with the exception of lamb are moderate in price. Fish is plentiful and low in price and particularly good to eat at this season. Butters continue to be reasonable. A probably temporary decrease in egg production has raised prices on this food but eggs are still good value.

Here are three seasonal dinner menus.

Low Cost Dinner
Braised Short Ribs of Beef
Potatoes
Bread and Butter
Cornstarch Pudding with Strawberries
Tea or Coffee

Medium Cost Dinner
