## IDEAS.

The impelling and resisting power of ideas is what moves and controls the world; they force man forward, though Nature has prepared the channel for them. An idea possesses supreme influence. The dogma of Mohammed sent a quivering thrill through the souls of men, from the Gulf of Guinea to the Chinese Sea; Europe, Asia and Africa rocked to their foundations under it.

Is there, then, no force in an idea? An idea can shake humanity from center to circumference! It can govern the world!

Then take courage, for we believe an idea is piling manufactured for the special benefit of this city, the propelling power of which must carry us to fame and fortune, provided our friends begin to see through the film which has obscured their vision, relative to their duties as pioneers, laying the foundation for future usefulness.

Our ideas must be based upon a correct estimate of our real position, not placed upon the list of high tariffs and protection to home industry, irrespective market of value, nor should we attempt to start from the top of the ladder, lest the mortification of a fall be added to the list of casualties to be overcome.

We must do away with the illusive idea that the growth and prosperity of our little city is beyond the possibility of a failure; we must abolish such ideas and learn that success means action, and that it requires something more than individual ideas promulgated from the counting-room or workshop. It requires time and money to make effective any effort that has for its object the public weal.

There can be no objection to ideas emanating and being promulgated from places of business, but to make them effective, they must be applied with energy and perseverance to the people for whom they are intended to benefit. Practical illustration of theories advanced for public good, has been what was most wanting in solving the problem of success for this city for some years past.

Theories may be beautiful, and ceremonies sublime; but of what avail are they only as made applicable? And who so competent to adapt them to our necessities as those who originate and advocate them? And as all men are possessed of ideas, more or less favorable to public and private improvements, it becomes a necessity that all unite in elucidating them, that the best of them may be taken as the base for future action.

We want no "Micawbers," who are "waiting for something to turn up." We want those who will turn up something, and after it is up improve it; neither are we pleading for that other extreme of action, so truthfully portrayed by Dickens, in his character of "Uriah Heep." We want the co-operation of men whose souls are not carried in their breeches' pockets, or locked up in their safes at night; but men who are not afraid to grapple with adverse circumstances, should they be required to in order to protect the interests of the many.

We believe that kind of spirit is becoming more and more manifest. The signs of the times indicate it; the demands for a larger business denote it, and the dissolution of factions and union of efforts point to that time not far distant, when increased activity shall mark the era for a new birth for the city of Holland.

Such ideas, propelled by the energy of our people, will invite capital and labor to become interested with us, and will hasten the good time coming; while yet, they who first settled this place and planned its future, may enjoy the full fruition of their work of former years.

## MORE TAXES CALLED FOR.

We notice that the Board of Aldermen, anxious to increase the amount of taxes to be raised in this city, have voted themselves the sum of fifty dollars each, per year for their services.

This action clearly indicates the interest taken in the prosperity of this city by a small portion of its citizens, willing to grab two dollars per regular session, for the privilege of guarding the interests of the city.

The vote taken will increase the expenditures of the city \$400, one Alder-

man, to his credit be it said, refusing to accept the grab.

To this \$400, will have to be added several hundred more as increase of salary, which, by the time all the city officers are properly cared for, will amount to a nice little sum, probably one half as much as was expended for all city purposes last year, which, taken together with the actual expense necessary for other objects, will increase the sum total, requiring to be levied by taxation, one half greater, or perhaps double what it was last year.

Why our Board of Aldermen should at this time seek to increase the expenditures of this city, by voting without precedent, at a time, too, when every effort possible is being made to invite capital and labor among us, we are unable to answer. Certainly people will lose confidence in any efforts made, if the sequence proves as in this case, that "to feather their own nest," is the secret motive power which prompts them to action. We regret that such action has been taken at this time, and believe it impracticable and unjustifiable, while our citizens are struggling to dig out from the ruins of 1871.

If the first act of our Council of the fiscal year is indicative of anything, it indicates a want of sympathy for the poor of this city, and a desire on their part to pocket money at the expense of the City Treasury.

We do not object to officers receiving a moderate compensation for services, but let them be elected by the people with such an understanding.

## GOOD GOVERNMENT.

The secret of good government is found in the close attention paid by the people to its interests. The best system ever devised by human wisdom is but little better than the worst if it fails to receive the cordial support of the governed. To elect good men to office is one of the first conditions of good government; to strengthen them in their authority, and encourage them in their endeavors to promote the public welfare by active co-operation on the part of the people is no less essential and important. Wise men may be elected to office, but they are powerless if the people refuse that ready support and cheerful obedience, which are the distinctive characteristics of a strong government. In a republic like our own, where the people are the recognized sovereigns, and the highest ruler is but the temporary servant of the popular will, there can be no excuse for bad government. If it exists in any locality the cause is to be found in the people themselves. They delegate the control of their franchise to a few who make politics a trade, who buy and sell office, without reference to principle, who care for a party only so far as it yields them a fair return in dollars and cents. Where such a practice prevails, bad government is sure to be found. Our large cities are marked; illustrations of this fatal tendency on the part of the respectable portion of the community, to leave the entire manipulation and management of political affairs in the hands of a few trained politicians. There must be a radical reform in this direction or the evil will become a source of positive weakness to our form of Government.

To bring about a reform, requires simply, the exercise on the part of the citizen of more watchfulness, not at the ballot-box alone, but also at the primary meeting is the fountain head of good or bad government. If it expresses the sentiments of all the people in a certain district, good government is likely to follow, but if it speaks the voice of what might be justly called the demoralized element of society—bad government is the sequence. The first step towards the purification of politics must be taken by the people themselves.

The intelligence, honesty, morality, and patriotism of the nation must be largely represented in the conventions that delegate power to a few men. This will give us a better class of officials everywhere, and make good government possible even in our largest cities.

The press, the pulpit, and the school must be used as levers to overthrow the prejudice which now exists among the more intelligent of our people against participation in political affairs. Every citizen should be impressed with necessity of taking an active part in the political affairs of the district in which he lives. By this means we shall have purer elections, better men elected, communities better governed, and the varied interests of the republic more faithfully guarded and sustained.—*Republic.*

The bids for a site for the government building at Grand Rapids, were opened last week. The prices were so extravagant that no selection was made by the commission. The prices ranged from \$40,000 to \$55,000.

## TERRIBLE ACCIDENT.

A terrible calamity occurred at Dix-on, in this State, Sunday, May 4th. A large concourse of people had assembled on the bank of Rock River to witness the administration of baptismal rites. About 200 persons, mostly women stood upon the Truesdell iron bridge, which gave way and precipitated the crowd into the river. A faint impression of the frightful scene may be obtained from our special dispatches. The catastrophe occurred about 2 o'clock p. m. Four hours later thirty-eight bodies had been recovered from the river, while a large number had floated away in the strong current of the stream. The dispatches tell of heroic acts by which men and women were rescued from impending death at the imminent peril of other lives; of heartrending scenes in which brave men struggling to save, and saving some, saw others—their nearest and dearest relatives and friends—sink beneath the waves, powerless to help. Not less than fifty lives have been lost, under circumstances the most sad and painful; enough of horror to appal the stoutest heart and to fill every quarter of the city with grief and mourning. To say in the presence of this havoc of human life that a fearful responsibility rests somewhere for the faulty construction of the fatal bridge is little better than a mockery of the terrible agony which to-day oppresses so many households in the stricken city.—*Inter Ocean.*

## Citizens' Association.

The meeting of the Citizens' Association, held on Monday evening last, was called to order by Vice President Kenyon. Quite a number being present, a preliminary discussion followed, in which Hon. John Roost, H. D. Post, G. W. McBride and others took part; the harbor and steamboat interests receiving their full share of attention.

Acting upon information received from Col. Mansfield, Capt. of Engineers, Mr. Post offered the following resolution:

Resolved, That the committee on harbor and lake, and the Harbor Board, are requested, if the tug Tempest should be sent here, to make arrangements to have soundings made before commencing work, and to make soundings again after she has run three or four days, and to report the same to this Association—carried.

The subject of ship building was brought up and discussed, and finally referred to the committee on manufacturing to provide some definite plan to promote such interest here.

Altogether the meeting was a profitable one, in elucidating ideas, and advocating the different branches of industry, particularly indicative of being made remunerative.

We hope that committees will soon be able to demonstrate a showing in their several reports, that our belief is well founded upon facts and figures, relative to the many advantages we enjoy.

## Common Council.

CITY OF HOLLAND, May 5. The Council met pursuant to provision of the charter; the roll was called by the Clerk, a full Board being present.

The rules were suspended, and the Council proceeded to the appointment of officers for the year.

OFFICERS APPOINTED. For School Inspectors of the City of Holland, the following persons were appointed for the term set opposite their names respectively:

Cornelis Doesburg, for 3 years. Nathan Kenyon, for 2 years. William H. Joslin, for 1 year.

Ald. Hoogesteger was appointed President pro tem of the Council for the ensuing year.

G. W. McBride was appointed City Attorney for the year.

For members of the Harbor Board, E. J. Harrington and Gerrit Van Schelven were appointed for the term of 2 years.

The following persons were appointed fire wardens: Gerrit Wakker, First Ward; Hendrik De Vries, Second Ward; John D. Everhard, Third Ward; Cornelis Van Landegend, Fourth Ward.

Ald. Kanter moved that the Aldermen perform their duties as Aldermen without compensation—motion lost.

Moved by Ald. Schuddelee, that Inasmuch, As the present charter contemplates that the Mayor and Aldermen shall be allowed a small compensation for their services and time, which they are required to render in behalf of the people of our municipality, and in view of the fact that the said officers consider it no more than just and right that they should receive also, a small compensation, as an offset, more in value than public officers generally receive at the hands of a criticizing public; Therefore,

Resolved, That the Mayor and Aldermen shall receive forty dollars each, for their services in their respective offices during the year.

Ald. Duursema, (seconded by Ald. Sipp) moved to amend by substituting "fifty dollars" for "forty dollars"—amendment accepted and carried.

The vote was then taken as amended which was carried, all voting aye except Ald. Kanter, who requested to have it entered in the minutes that he should not take any pay for his services as Alderman.

The Council then adjourned to Wednesday evening May 5, at 7 o'clock.

We have received several numbers of the *Republic*, a monthly magazine, devoted to the dissemination of political information. Our readers may have noticed in our columns, from time to time, articles credited to the *Republic*, if so they certainly have noticed them of true merit, and thoroughly Republican in spirit. The May number is upon our table, and we find it discussing the science of government, and reviewing current political events. Its table of contents shows that topics of present interest are duly considered. It will prove an invaluable reference for the editor, to the political student, and to all who desire to keep well posted and reach correct conclusions upon national questions as they are forced upon us from day to day. It is ably conducted, and fills a want long felt by those who have not the time or pecuniary ability to seek such information as it contains from the multiplicity of books issuing from the press of the country. We recommend to all seeking reliable political information, to subscribe for this excellent magazine. It contains sixty-eight pages, and will be furnished for \$3.00 per year by the Republic Publishing Company, Washington, D. C.

KILLED.—Mr. Albert Rooks, a farmer living in North Holland, came to this city last Saturday, and left for home between five and six o'clock p. m. with a load of fruit trees. When near the residence of Mr. De Vouw, his horses took fright from a fire burning near the road, one horse jumping over the other, throwing Mr. Rooks out of the wagon, he falling in such a position under the wagon that the wheels passed over him. A lady living in the neighborhood, hearing the noise ran out to the rescue. Immediately upon seeing his condition, she gave the alarm, and as soon as help arrived he was conveyed to his residence, where he expired at 10 o'clock the same evening. When first discovered he was in full possession of his faculties, and gave a detailed account of the accident. Soon after he became unconscious and remained so until the end. Mr. Rooks was a gentleman highly respected by those who knew him and leaves a family and a large number of friends to mourn his untimely loss.

TANNERY BURNED.—Last Wednesday evening, just after the men had quit work for the day, a fire was discovered in the tannery belonging to Simon Schmid. The alarm of fire was immediately sounded, but so rapid was the destruction before the firemen could get on the ground and ready for action, the entire building was wrapped in flame. Extra efforts were made by the firemen and citizens to save the leather in one part of the building, and the vats, which to some extent were successful. The fire is thought to have originated from the heater. The loss on building and stock is estimated at \$6,000; insured in the "Michigan State," of Adrian, for \$3,000. We take pleasure in stating that the firemen were promptly on the ground and worked bravely to save all that was possible. The wind was blowing briskly at the time, and it was feared that other buildings near by would share the fate of the tannery, but were saved. The loss falls heavily upon Mr. Schmid, as he had hardly recovered from the havoc made in 1871, when he lost his dwelling and all its contents. He has the sympathy of this community in the loss.

## Local News.

Last Monday there could be counted 15 vessels in our harbor at one time.

MARKET DAY.—Next week Wednesday is Market Day in this city.

REVIEW.—Eagle Fire Company are ordered out for review on Thursday May 23d. The Mayor and Common Council are expected to be present.

The steamer Fanny Shriver has been sold to parties in Ludington, who are fitting her up, preparatory to placing her in business at that place.

The enterprising furniture dealers, Reidsema & Son, have just received a large and varied assortment of wall paper which they are offering at prices to suit.

Our young friend, John Mulder, while using his ax one day this week, made a mistake and received a full blow upon one of his legs, just below the knee, causing a serious wound. He is doing well.

On Thursday of this week, the wife of Rev. A. T. Stewart, while busily engaged about the house, accidentally thrust her wrist in contact with a needle, entering the joint and there breaking. It had to be extracted by means of surgery.

The chairman of the committee on printing of ordinances, informs us that a clerical error occurred in Sec. 8, of Ordinances Relative to Licenses, 19th line from the top. It should read, "tobacco and beverages, or beverages and drinks" etc.

We notice the township authorities have caused to be set a row of maple trees on either side of the Black River bridge, being situated within their jurisdiction. This is a good move and should be encouraged, and others follow the example.

DOUBLE SON STROKE.—At the residence of J. O. Doeberg, in this city, on the morning of May 6th, belonging to the Twin Infantry Corps; weighed seven and eight pounds respectively and doing well. That is all we know about it.

We call the attention of our readers to the advertisement of Mr. R. Kanter, in to-day's paper. Mr. Kanter is prepared to furnish any kind of work in his line at prices to suit. If you want a pork barrel, fish barrel, butter firkin or soap tub, call on Mr. Kanter.

A NEW THING.—Mr. John Van Landegend, our enterprising hardware dealer has just received a large supply of iron, for sale in connection with his stock. This will supply a demand long felt by those requiring such an article, and we hope it will prove remunerative.

ANOTHER BUTLERY.—On Tuesday night, some burglars entered through the window of the basement of the Lake House, and captured quite a quantity of carpenter's tools, belonging to Mr. Hualy. No trace of the thief yet discovered. Since the above was in type we learn that the thief has been arrested and is now in jail awaiting trial.

Mr. E. Herold, one of our enterprising boot and shoe manufacturers, is quietly establishing a reputation for business, second to none. He will not flatter you that two sizes smaller than your foot is just what you want, but will allow you to choose for yourself from one of the best stocks of goods in the city.

Breathes there a man with soul so dead, That never to his wife has said:—My Dear! Go to Herold's and buy your shoes, There's the place to go—so says THE NEWS.

**SALARY GRAB.**—We take pleasure in placing Alderman Kanter's name as among those who give evidence by their actions of what they advocate by word, that their interests in this city, and their influence for our prosperity, is not controlled by money. The people will gladly remember this act of Alderman Kanter, in voting against the salary grab, and believe him to be truly identified with the growth and prosperity of this city.

**THE BELL RINGERS.**—Leavitt's troupe of Bell Ringers gave an entertainment in Music Hall, in this city, on Friday evening of last week. The audience was a large and appreciative one, and the performance excellent. During the entertainment a piece called the "Echo Song," was rendered by two ladies of the troupe, which had a most pleasing and harmonious effect; but the principal character is Harry Eades, who, as a comedian, has but few, if any superiors in this country. "On this occasion," he rose "to make a few remarks," keeping the audience nearly convulsed with laughter the whole time. On the whole the entertainment was good, everyone seeming well satisfied. We can safely promise them a more liberal patronage on their next visit.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by removing away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

The Aperient and mild Laxative properties of Dr. WALKER'S VINEGAR BITTERS are the best safeguard in cases of eruptions and malignant fevers. Their balsamic, healing, and soothing properties protect the humors of the blood. Their sedative properties allay pain in the nervous system, stomach and bowels, either from inflammation, wind, colic, cramps, etc.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good nourishing food, such as beef-steak, mutton chop, venison, roast beef, and vegetables, and take outdoor exercise. They are composed of purely vegetable ingredients, and contain no opium.

**JOSLIN & BREYMAN,**  
Cor. 5th and Market Sts., Holland, Mich.

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum Whisky, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all cases of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible. For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scour, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores. Cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Say a distinguished physiologist: There is scarcely an individual on the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of medicine, no verminicides, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases.—Persons engaged in Painting and Minerals, such as Plumbers, Typesetters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS twice a week.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Kentucky, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
