Council Approves Changing Zoning On River Avenue

Restrictions Attached
For Commercial Zone;
Alley for Unloading

Common Council passed one and sent another ordinance back to committee for further study at its regular meeting Wednesday night.

The ordinance passed changes the west side of River Ave., between 13th and 14th Sts., from a residential to a class C commercial zone.

Under terms specified in the new ordinance, all commercial unloading must be done in an alley to the west of the block; no trades or industries can project into the alley and all commercial property must front on River Ave. An ordinance amending the cemetery ordinance was tabled for further study.

After no objections were filed Council approved a measure to improve Ottawa Ave., from 16th to 25th Sts., and Fairbanks Ave., from Eighth St. north to the end of Fairbanks.

The cost will be paid one-half by the township and county, and the other half by the city. The city's share will be divided up between the street fund and special assessments.

Bowen Engineering and Construction Co. of Spring Lake, was awarded the contract to remove the paving brick and ties from the center of West Eighth St., between River and Washington Aves. The firm also will replace center area with a concrete base.

The Bowen Co. was lowest of five bids submitted for the job with a \$4.25 per square yard price. Total cost of the job was estimated to be \$9,540.

After a motion by Ald. Bertal Slaght, the Ordinance committee was instructed to make a thorough study of the city's building code.

Ald. John Van Dyke said the new types of construction antiquated the building code.

Three bids to repair and rebuild the front entrance of the city hall, the stairways and both women's and men's rest rooms were held over pending further information on specifications.

A petition, signed by four property owners, requesting a sanitary sewer in 31st St., from State St. to Columbia Ave., was referred to the sewer committee.

The mayor and city clerk were authorized to sign an easement between the Holland Furnace Co. and the city for maintenance of the sewer in property owned by the company on Fourth St., between Central and River Aves.

Hope Fraternity Adopts Greek Boy

Knickerbocker fraternity of Hope college has "adopted" Eleftherios Sfachtos, 11-year-old Greek boy, through Foster Parents' Plan for War Children.

This plan, in operation for the last 12 years, has cared for more than 56,000 children of 14 nationalities. The organization gives no mass relief, but treats each child individually. "Adoption" is financial and carries no legal obligations.

Eleftherios is the second of three children in his family. His father was taken to Germany as a hostage in 1944 and only a few days after his return in 1947 he died of paralysis caused by torture and violent kicks received from German guards.

His mother, handicapped with a dislocation of her right hand, works only two days a week. John, a 12-year-old brother, attends night school and works at a coffee shop during the day. The family's total income is not more than \$20 a month. They live in two underground rooms which lack even necessary items of furniture.

In fourth grade at school, Eleftherios is a brilliant student. Sadly undernourished after years of malnutrition, he is in desperate need of the aid "Foster parents" can give him. Plan investigators report. The Knickerbockers will provide \$15 a month toward his support.

"Jesus was tremendously interested in people. He was moved with compassion for the multitude. So you must be in this day and generation of men," said Dr. Clarke.

Dr. John R. Mulder, seminary president, presided and scripture and prayer were offered by Dr. Harry J. Hager of Bethany Reformed church, Chicago, retiring president of the board of trustees. Music was furnished by the choir of Trinity Reformed church under the direction of Miss Margaret Van Vyven. Mrs. Harold Beemink was at the organ.

Local Police Laud Cautious Driving

Police today commended Tulip Time motorists for careful driving for opening day of the festival.

At the same time, officers asked for continued co-operation. Only one accident marred yesterday's near-perfect record. Cars driven by Forrest Giffin, Jr., of 384 West 19th St., and Leona Bouman of 39 East 34th St., collided at the crossing of 19th St. and Van Raalte Ave.

Giffin was issued a summons for failing to yield the right of way.

Downpour Fails To Quell Spirit Of Tulip Time

Tulip Time enthusiasts today looked forward to another gala day of activities following an auspicious beginning Wednesday when rain failed to dampen the spirits of a large festival-minded crowd.

Leading event in today's program is the school parade in which 3,000 youngsters in costume unite to present their main contribution to Holland's Tulip Time festival.

Children have been busy for weeks making the various props which are used in the parade—such things as Dutch plates, pin wheels, cheeses, shoulder yokes, flowers, flags, dolls and shields. Many decorate doll carriages and bicycles. Others skate. Last year, a group appeared with brooms, sweeping the streets as they sang the little Dutch song, "De Bezem, De Bezem" (the Broom, the Broom).

Hundreds of mothers have been equally busy getting the small fry decked out in costumes for another year.

Tonight's attractions again feature the Klompen Dancers in the post office block at 7:30 p.m. and the Invitation Musicale in Hope Memorial chapel at 8:15 p.m. for Holland high and Christian high choirs. Miriam Stewart Chicago soprano, will be guest artist.

Holland Wednesday doffed its collective hat to Gov. G. Mennen Williams who went far beyond the call of duty. Not only did he wear a Dutch costume and the wooden shoes which Burgemeester Harry Harrington presented to him, but he marched considerably farther (in those inflexible shoes) than was expected. Instead of mounting the reviewing stand when he reached Eighth and Central, he accompanied the town council the full length of the parade route and returned.

Even then, he remained on the street and scrubbed a considerable portion of blacktop for the benefit of photographers. Then he watched the scrubbing ceremonies, the parade and the klompen dance, all in a pouring rain. His wife and two children remained equally good natured on the reviewing stand.

The governor arrived in a state-owned twin-engine plane shortly before 2 p.m. at the local airport, where he was greeted by Mayor Harrington and an official welcoming committee. In the shelter of the large hangar, he received a pair of wooden shoes, traditional gesture of Holland hospitality. Presentation was made by Ald. John H. Van Dyke, president of Tulip Time, Inc.

Gov. Williams left by plane about 5:30 p.m. Mrs. Williams and their two older children arrived earlier by car. The family was entertained in the Earnest C. Brooks home.

Wednesday's downpour did the tulips no good, but enough colorful blooms remained today to offer a fair showing for the visiting thousands.

Democracy Needs Aid of Examples

Highlights of a recent European trip were told the Kiwanis club Monday night by Joseph Q. Mayne, secretary of the Detroit Round Table.

In relating some of his experiences while touring the Netherlands, Mayne was impressed with the industry shown by the Dutch, stating they are doing a very remarkable job in rebuilding and restoring their country since the war.

Referring to the present chaotic world conditions, Mayne asserted that in America "we must clean up our own back yard before we can hope to win in this tug-of-war that is going on between totalitarianism in Europe and Western democracy today."

Mayne, who is also a director of the National Conference of Christians and Jews, founded in 1928 by Chief Justice Charles Evans Hughes, was introduced by Wilbur Cobb, program chairman.

Induction of William Riemersma as a new member was in charge of the Rev. Herman Rosenberg.

Guests were the Rev. H. D. T. Keurst, Sidney Jarvis and Harvey Passmore. Daniel Vander Werf, Jr., president, conducted the meeting.

Amounts were paid. Complaint against Kamhout was made by Henry Van Oort of Spring Lake, involving a down payment for fluorescent lights which had been delivered.

Hope Graduates To Hear Minister, US Congressman

The Rev. Henry Beltman, pastor of the Park Hills Collegiate Reformed church of Los Angeles, Calif., and Everett M. Dirksen, representative in Congress from Illinois will give the baccalaureate and commencement addresses this year at Hope college, it was announced today by Dr. Irwin J. Lubbers, college president.

Rev. Beltman, president of the Reformed church synod, will preach the baccalaureate sermon in Memorial chapel on Sunday, June 5. He was graduated from the college in 1916 and from Princeton seminary in 1919. He has been a teacher, a missionary to China, a domestic missions field secretary, and has served several Reformed church pastorates.

Rep. Dirksen, businessman, manufacturer, banker and attorney, will deliver the commencement address on June 8. He is a veteran of World War I and is well known for his public service. He served the Republican National Congressional committee from 1933 to 1946 and has been prominent in House affairs. He has been a member of Congress eight years.

Mrs. Stalkamp Wins Top Honors In Flower Show

For the second time in five years Mrs. Leonard G. Stalkamp won the Phyllis Watkins silver trophy for the most outstanding artistic arrangement in the 1949 Holland Flower and Garden show in the armory. Mrs. Stalkamp also won the trophy in 1947. With the trophy goes the Sweepstakes award in arrangements.

Mrs. Stalkamp's Victorian arrangement was tulips, lilacs, iris, fuchsias and foliage in an ornate antique lamp base.

A second sweepstakes award was given to Mrs. Fred Pickel in the Tulip specimen class for six blue ribbons. Her parrot tulip won the National Tulip Society Award of Merit, the Margaret Walsh Brooks trophy and the tri-color ribbon and was judged best in the specimen division.

The pool in the center of the Armory, surrounded by tulips, ageratum and evergreens, was reflected in the mirrors at the rear of the hall, creating an illusion of depth and masses of blooms.

General chairman of the show this year is Mrs. Charles M. Selby, who with her committee has worked against nature's odds in providing the background and outstanding displays.

Mrs. L. W. Schoon, assisted by Mrs. H. E. Dunn, were in charge of compiling the results for the awards.

Especially interesting is the junior division of the show with over 200 entries, twice as many as have ever been in the show and of high caliber arrangements. Mrs. J. W. Lang and her committee worked with the children entering the show to make the most of their contributions.

Judges for the show were: Mrs. Guy Yaste, Pensacola, Fla.; Mrs. Karl J. Krauskopf, Peru, Ind.; Mrs. B. F. Orr, Indianapolis, Ind.; Mrs. J. Leo Gamache, Farmington, Conn.; Mrs. Paul Robinson, Albion; H. F. Dickerson, Kalamazoo; Mrs. V. T. Dickerson, Lakeview; Mrs. Ora Chadwick; Mrs. Herman Schoonbeek; Mrs. Thomas Stafford, Evelyn Grebel and Dorothy Tusch, all of Grand Rapids.

Also Mrs. J. J. Nicholson, Atlanta, Ga.; Mrs. C. E. Wildon, Mrs. H. G. Barton and Evan Roberts, East Lansing; Mrs. Erwin Dieckman, Mrs. Robert F. Mansfield, Mrs. G. E. Schlot, Indianapolis, Ind.; Mrs. John Allman, Peru, Ind.; Lida Rogers, Harry Neils and Chris Van Bragt, Holland.

Detroit Contractor Waives On Check Writing Count

Grand Haven, May 19 (Special)—Jack McGuire, 54, Detroit contractor, appeared before Justice George Hoffer today on a charge of uttering and publishing a check with insufficient funds. He waived examination and was expected to appear in Circuit Court this afternoon. He allegedly cashed a \$100 check dated April 6, payable to Otto Seifert while working in Grand Haven. Bond of \$800 was not furnished.

The governor's children, Nancy, 6, and Gerry, 8, were thrilled over daddy's Dutch costume and wooden shoes. At top, Gov. G. Mennen Williams poses as a Dutchman with his family and his host, Earnest C. Brooks, on the staircase in the Brooks home. Mrs. Williams explained three-year-old Wendy was left at home. The governor and his wife had visited Tulip Time before but this was the first visit for the children. Bottom picture shows the governor gamely scrubbing Eighth St. in the traditional opening of the 1949 Tulip Time festival.

Noordhoff, Orange City, Ia.; Herbert Ritzema, Mokena, Ill.; Walter B. Studdiford, Somerville, N. J.; Nicholas J. Yonker, Muskegon; and Frank L. Zwemer, Lakewood, Ohio.

This year the chapter is presenting funds to install fluorescent lighting in all classrooms of Van Raalte and Graves halls.

Streets Scrubbed Twice, Rain First, Then the Burghers

Governor Sets Tone
Of Good Humor for
Wet Down Ceremonies

The rain king beat the burghers to the task of cleaning Holland's streets, but who cared? Not the dancers; they splashed through their routines with verve. Not the audience; they sought what shelter as was available. Not the visiting dignitaries; they took their soaking in high good humor. The show went on.

Not the least of those who braved the ever-present rain was Gov. G. Mennen Williams. Though his new Dutch costume was drenched and his feet squished inside new wooden klompen, the governor set the tone for Wednesday's Tulip Time opening when he said:

"Everybody is wet, but everybody is having a good time and that's the purpose of the festival, isn't it?"

Mrs. Williams and children, Nancy and Gary, sat partly under and partly out of the shelter of an umbrella during the parade, which was delayed nearly an hour while Tulip Time chieftains watched the skies and hoped for a break in the clouds.

When it became apparent the rain wouldn't go away until another day, the signal was given and Town Crier Clarence Jalving took up the traditional cry. But of course, Mayor Harry Harrington was distressed with the sorry state of the streets and decreed they should be scrubbed in honor of the visitors.

Scrubbing proceeded. Brooms and buckets went into action. And what with an assistant from the rain, the streets practically sparkled by the time the folks parade had formed and marched bravely into the drizzle. The aldermen, rain dripping from the tails of their Prince Alberts, strode off their measured pace, led by the American Legion band.

Gov. Williams had walked with the aldermen on the first inspection, but he rode back. The top of the car was down to give Michigan residents a glimpse of their boyish chief executive.

The following bands marched: Holland junior high school, Christian junior high school, Holland elementary, Christian high school, and Holland high school band.

Weather conditions prevented floats from appearing in Wednesday's parades. Wind and rain would have made a shambles of the fragile floats had they been dragged from cover. They are to appear in all remaining parades, weather permitting.

Unofficial estimates placed the number of people in Holland Wednesday at 45,000, but several thousand apparently got rained out. Festival Manager Willard Wichers estimated 20,000 saw the parade. It is estimated that 150,000 persons have visited Holland this year, including Sunday's bumper-busting crowd.

Clowns, Imitations Amuse Small Fry

In spite of the weather, there weren't any dampened spirits at the second Children's Fun show Wednesday afternoon at Riverview park. Though the rain delayed the starting of the show, the boys and girls were kept in gay spirit by the antics of comedy clown, Bill Hall.

Opening feature was Lady Barbara, and her dancing horse, Spark. Harold Fink, young ventriloquist and his dummy, Corky, carried on a comedy dialogue, including an exciting story of a bullfight. As an added attraction to his act, Fink also gave imitations of farm animals, a Model-T Ford, and an airplane crash.

Hall again went through his paces in the show in an exhibition of imitations and juggling. Closing attraction on the program was Lady Barbara's complete miniature animal circus. The act included ponies, dogs and monkeys in fact-moving routines. Favorites seemed to be the "relay" of ponies with dogs riding on their backs, and the monkey riding a skooter.

The show was arranged by Tulip Time, Inc., in appreciation of the part the youngsters play in the Tulip festival. Chairman of the event was Lyman Seard, and he was assisted by Albert Howell, Ray Swank, Carl Van Lente, John Bradley and Robert Van Voorhes.

Karremen Rites Here

Funeral services were conducted Monday in Pilgrim Home cemetery chapel for John Karremen, 63, former Holland city treasurer, jeweler and optometrist, who died Friday at his home in Grand Rapids. Dr. John R. Mulder, president of Western Theological seminary officiated. Karremen served as city treasurer here from 1935 to 1939.

In any case the above named Michigan State college professors are now recommending Mephoxycolor for spraying of cows, or the barn. The DDT may be used in breeding places outside the barn.

They say DDT is okay as a spray on beef cattle and swine if the animals are to be slaughtered within 60 days of first application of spray.

Spanish Taught As Experiment in Cheshire School

New Language Taught By Woman Who Used To Live in Nicaragua

Allegan, May 19 (Special) — "Buenos tardes. Como estan ustedes hoy?"

That's the way the conversation starts on certain days at the Rowe school in Cheshire.

It is Mrs. Douglas Smith greeting her beginning class in Spanish, an experiment which is turning into a little "good neighbor" project between a native Nicaraguan and a dozen American children.

In the first place, the Smith children, upon coming to the United States three years ago, learned English in the country school. Their classmates became so interested in the newcomers' Spanish, it came about naturally that Mrs. Smith should call at the school for regular lessons in her native tongue.

So far they have learned simple conversational sentences and are beginning spelling. Teacher Clory Smith, while explaining the Spanish terms, is also advancing her own knowledge of English.

The Smiths, despite their sound American name, both were born in Nicaragua. His parents were English and American and at an early age, he was sent to the states for an American education. Then he returned as overseer of the family's coffee plantation for many years.

When the Marines were occupying Nicaragua during the 1927 revolution, they took time off for a Fourth of July dance. It was there that Smith met Clory Fley, a school teacher and his future wife.

They came to Michigan to give their four children some state education and to Cheshire because their relatives live there. They live on the Phillip Fisher blueberry farm.

They plan to go back to Matagalpa someday. They like their home here, but it gets much too cold in the winter. Along about January, the children long for the warm temperatures of their Nicaraguan home and despair of ever getting used to Michigan blizzards.

Although they have a nine-months rainy season, their home is in the highland country, where it is never too cold nor too hot.

While Mrs. Smith conducts her elementary age group through the fundamentals of Spanish, Mr. Smith is tutoring an adult class in Allegan. They "hablan Español" every Tuesday night and no English is allowed.

When the Smiths compare notes on the progress of their students, it's hard to say who is ahead. While the adults have more experience at learning a foreign language, the children seem to grasp the new sounds more readily.

It could become quite a contest.

Rebekahs Will Attend Burnips Chest Meeting

Plans were made to attend the chest meeting in Burnips on Tuesday night at the regular meeting of the Rebekahs. Friday night in the IOOF hall. A bus will leave the corner of Eighth St. and Central Ave. at 7 p.m. Mrs. Alice Rowan, left supporter to the vice grand, will be guest officer of the evening.

Because of Tulip Time, the fun party scheduled for Wednesday in the IOOF hall has been postponed.

Members who plan to send their children to the Odd Fellow and Rebekah camp at Big Star lake were urged to send in applications as soon as possible. As in former years, the Erutha Rebekah lodge will send two children to the camp. The two delegates will be chosen at the next meeting.

Following the meeting, refreshments were served by Mrs. Melva Crowle and her month's committee.

Scouts Take Pledge To Assist Democracy

Four hundred scouts and leaders of the central district of Ottawa-Allegan council pledged themselves to further the service of scouting in a climax ceremony Saturday night. Don E. Kyger, who has served the council six years and is leaving to take an executive post in Indiana, led the pledge. Myra Saunders, a Horizon club girl, depicted the Statue of Liberty.

The ceremony was highlight of a boy scout circus which provided 12 acts of scouting. Following a concert by the Holland High school band, a prologue depicted the adventures of Indians and their displacement by frontiersmen.

Then there was a grand entry and an opening ceremony, participated in by all scouts and scouters. Cub scouts demonstrated their games and put on an animal act with elephants, horses, giraffes and ostriches. Boy scouts demonstrated their skills in several acts and showed the audience their games, activities and life saving techniques.

Sea scouts rigged a land ship and demonstrated a breeches buoy while explorer scouts demonstrated pioneering skills.

The circus was staged to focus attention on the 40th anniversary crusade "to strengthen the arm of liberty."

Henry Filkins was General Chairman of the Circus, assisted by Gerrit H. Wiegink. William Filkins was narrator.

Battles Fish 3 Hours, Then Throws It Back

Allegan, May 19 (Special) — How would you like to battle a sturgeon for three hours before landing it, only to throw it back into the lakes?

Such was the experience of Pete Winter, 17, who hooked the fish around 3 p.m. while fishing at Allegan dam Sunday. By the time he landed it at 6:05 p.m. a large gallery was on hand. It weighed 50 to 60 pounds.

Conservation Officer Lyle Gates of Fennville was called and he instructed Pete to put the fish back. Sturgeon are protected in these parts.

Winter is a son of Hartger Winter, science teacher at Allegan high school.

Sturgeon were first seen at the dam about 10 years ago, but since then they have been very scarce. Sunday's catch is believed to be the first such fish hooked in the immediate area.

WE WELCOME YOU
TO TULIP TIME AGAIN

Again we in Holland rededicate
ourselves to courtesy at home, in
public, in our cars, on the golf
courses, at the beaches, lakes,
streams, parks—in fact every-
where. This is our annual event
and we want to welcome you one
and all. This year Nature has hur-
ried the weather and the tulip
blooms are not at their very best,
but we will all try to make the
festival just as fine as ever. So we
are asking that all of our people
remember their tradition of Dutch
hospitality and also the safety
rules of the roads and streets.
Let's everyone get out and co-
operate as much as possible and
then even with the absence of
some of the splendor of the tulips
in full bloom, we will have the
usual grand success that we have
had in the past.

Let's all remember that we are
entertaining thousands of guests
who come hundreds of miles to
our festival and that the goodwill
of the many friends and visitors
is one of the great assets of any
community or business today.

So again we say courtesy is a
fine thing for everyone. Let's all
look into the future and practice
what we preach each day of the
year. It costs nothing and the re-
sults are great.

Thanks for coming and if you
have a fine time we are glad. We
also would like to have you turn
in your complaints, either write
them or tell them to the Tulip
Time Festival office located in the
Chamber of Commerce building.

Meaning of the Lord's Supper
Mark 14:12-26

By Henry Geertling

There are a few questions
about this lesson we shall probably
never be able to answer fully. One
has reference to the precise even-
ing on which Jesus ate the Pass-
over. Another concerns the place
where the feast was observed.
Still another raises the question
as to the place in the feast where
the celebration of the Passover
ended and the institution of the
Lord's Supper began. But these
questions are not important. The
Bible always knows where to
place the emphasis. The fact is
the old order was no longer ade-
quate. It had served its day. It
had run its course. It was now to
be superseded by the new order,
which was not to pass until the
Lord Himself should come again.
We are no longer living in the old
dispensation but in the new. We
do not any longer go back to the
covenant formed at Sinai, but to
the one that dates from the cross.
Our Passover, even Christ, has
been sacrificed for us.

The Lord's Supper is a mem-
orial. Jesus himself said so. He
said we are to partake of the gifts
of bread and wine in remem-
brance of Him. He calls upon us
to remember His death, His bear-
ing of our offenses, His sufferings.
His being raised again for our jus-
tification. The exhortation to have
Him in remembrance is in the
words of institution, and we use
those words in the communion
service. There is the fear that
we have not stressed sufficiently
this aspect of our Lord's com-
mand which He announced dur-
ing the last hours of His earthly
life. This lesson from His own lips
dare not be obscured in our re-
ception of His Holy Supper, which
visibly sets before us the fact that
Christ is for us.

The Lord's Supper is more than
a memorial. This feast takes the
place of the Passover, which com-
memorated the redemption of the
Israelites from the bondage of
Egypt; and even the Passover
was more than a memorial. It
too, was a feast. So Jesus is not
only the Lamb of God that taketh
away the sin of the world and
saves us from sin and death, but
He is also the bread of life, the
food for us on our pilgrim way
to heaven. It may be said there-
fore that the Lord's Supper sets
forth Christ in us, the living
bread, nourishing us by His life
and communicating to us the gifts
and graces of the Spirit. It is fu-
ture for us to try to explain it,
but we know that if the words He
used mean anything, they mean
that He gives us Himself in this
sacrament. The manner of it be-
longs to the mysteries of our reli-
gion.

The Lord's Supper teaches us
our perpetual dependence on
Jesus for support. It is not enough
that we have been brought into
life, eternal life, through Him. We
are not henceforth independent of
Him, but we are to sustain our
life through Him by constantly
drawing from Him the fulness of
life. He is the bread of life, day
by day, and continually. While
there is a spiritual feeding upon
Him, absolutely necessary for
eternal life, which occurs by faith,
outside and without the sacra-
ment, as well as in it, yet the spiri-
tual eating finds its highest real-
ization in the proper use of the
Lord's Supper. Just as the body is
nourished by constant renewal of
supplies, even so must the believ-
er be nourished by continual feed-
ing upon Christ through the Word
and the Lord's Supper.

In the Lord's Supper Jesus
gives himself to us and we in turn
give ourselves to Him. There can
be no doubt it is the feast of ded-
ication. Each time we come to His
table there is a new claim made
upon us for loyalty in service. In
other words the world has less
and less in us while He has more
and more in us.

The sacrament of the altar
makes the death of Christ central.
The time of its institution, the
method of its institution, and the
words of our Lord at the time
of its institution are in agreement
in this matter. The fact that it
was instituted but a few hours be-
fore He went to the cross, that it
was instituted at the time of the
eating of the Passover which cele-
brated the deliverance of the
children of Israel, and that in its
institution Jesus said, "This is my
body which is given for you," and
"This cup is the new testa-
ment in my blood, which is shed
for you," all these make clear
the place given the death of our
Lord in the divine economy. If
you were to ask me if I thought
the death of Jesus has in it the
idea of sacrifice as an example
for all lovers of truth to follow,
it would answer in the affirma-
tive. But if you were to ask if I
thought that was the totality of
the message of the cross, I should
emphatically say no. Life as well
as example comes through the cross.

The last Supper was to some
degree the climax of a career.
There were further events to
transpire in the life of the Master
—His death and resurrection.
But this last Passover was to
Jesus a prelude to the last events
of His earthly life. Naturally such
an event would be fraught with
significance.

George Williams, the Young Men's
Christian Association was organ-
ized in London in 1844.

Chamber Directors
Vote Anti-Truman
Health Insurance

The Holland Chamber of Com-
merce board of directors Monday
night went on record against
President Truman's recently pro-
posed "health insurance" bill.

The resolution was passed at a
board meeting in the Chamber of-
fice.

The so-called socialized medi-
cine bill is in a House committee.
Text of the resolution is:

"Whereas, socialized medicine
presently called 'health insur-
ance,' recently proposed to Con-
gress by the administration, has
its roots in concepts of regimen-
tation and dictatorship, would
impose heavy additional tax bur-
dens on all the people, would un-
dermine the superior standard of
health now available and steadily
improving, and is obnoxious to all
American principles of free enter-
prise and individual liberty;

Be it resolved by the board of
directors of the Holland Chamber
of Commerce that all efforts to
impose socialized medicine in any
form or under any name on the
American people is hereby vigor-
ously opposed, and that a copy of
this resolution be sent to each of
Michigan's United States Senators
and Representatives in Congress,
to every member of Holland's
Chamber of Commerce.

In other business at Monday
night's session, John Van Dyke,
chairman of the Chamber streets
and roads committee, reported
that he is arranging a meeting to
discuss improvements to the Otta-
wa Beach Rd. P. J. Hoffmaster,
director of conservation; Highway
Commissioner Charles M. Ziegler,
and a Chamber committee will
meet to discuss the need and
methods of financing.

Joe Kramer, chairman of the
Chamber industrial committee,
reported that his committee is
helping Clawson & Bals Inc. per-
sonnel find suitable housing in
Holland.

A letter from Sen. William C.
Vandenberg was read that asked
for complete information about
vacant or idle factories in Holland.
Vandenberg recently was appoint-
ed special industrial contact rep-
resentative by Common Council.

Another letter read at the
meeting was from T. E. Buchan-
an of the Texas Co. who indorsed
the proposed Holland harbor im-
provements. The letter cited the
need for a widened entrance and
easing the bend to make naviga-
tion safer. It was addressed to Col.
J. O. Colonna of the district engi-
neers office at Milwaukee.

W. A. Butler reported on the
tourist council's booth at the De-
troit travel show.

President C. B. McCormick pre-
sided at the meeting. The direc-
tors dined at Smith's Restaurant
before going to the Chamber of-
fice for the business meeting.

News of Interest to Western Michigan Farm Operators

Management of Farm Woodlots Is Important

Extensive Plantings Don't Solve Problem; Care Necessary Too

Establishment of extensive plantings to pine trees does not handle the forestry problems, according to L. R. Arnold, county agricultural agent. Management practices on hundreds of woodlots is of great importance.

The farm woodlot is a valuable asset to any farm. Many are neglected and many have been mismanaged, particularly during these past years of high prices.

Pasturing of a woodlot spells the end of the woodlot for the future. The cattle trample on roots, causing butt rots which destroy the best part of the tree. Dying and stag-headed trees are evidence of slow growth and stagnation caused by injury to feeder roots and loss of water through run-off.

Too extensive cutting leaves open spaces. These fill in with grass. The future of the forest is doomed unless corrective measures are taken.

The services of R. G. Auble, farm forester, are available to any woodlot owner who wishes assistance in management practices. Request for such assistance can be made through the extension office.

Arnold urges Christmas tree growers to resort to pruning in order to develop better Christmas tree stock. At the present time only about 20-25 per cent of trees become well shaped Christmas trees. Pruning at proper time steps this percentage up to 90 per cent. A demonstration on pruning will be set soon. At present and at the present rate of growth, pruning should start by June 1, perhaps sooner. There is only about a two-week period when such pruning is successful. The time depends upon the length of canopies. These have now started a rapid growth.

Hamilton, May 19 (Special) — Hamilton men, unassisted, sponsored a community mother-daughter banquet at Hamilton auditorium Thursday night. A dinner, entirely prepared, and arranged by a group of men, was served by the men to 200 persons.

The program following also was presented by the men. The Rev. Peter J. Mayskens was master of ceremonies. Vocal solos were sung by Fred Billet, Marvin Smalleman and Harold Dargemond. Cornet solos were played by Edward Miskotten, Jr., and a reading was given by Floyd Kempfers. A toast to the mothers and daughters was given by Rev. Mayskens.

Group singing and comedy movies were additional features. The affair was sponsored by the Hamilton Community Welfare association.

Pipe Line Crews Are Moving to Allegan

Allegan, May 19 (Special) — Allegan will be enlarged by 30 families about June 1 when workers on the Texas-Michigan gas line move into the area to lay the pipe across Allegan county. The crews live in Rockford now and plan to make this city their next headquarters, according to Mrs. Ann Ferris, secretary of the chamber of commerce, who has been asked to find housing for them.

She asked that people with apartments, small houses and furnished rooms for rent for several months contact the chamber of commerce office.

In addition she asked that reporters and cottage owners list their facilities with her, since inquiries for accommodations on the county's small fishing lakes are beginning to come in heavily now.

Allegan county's three Dairy Herd Improvement associations held a joint annual meeting and elected directors for the coming year, according to F. Earl Haas, assistant county agent in Land Use Planning. Fred Collier, Allegan, was elected president of the East association and Donald Brooks of Otsego is a new director. Officers re-elected were Carl Hoffmaster, Hopkins, vice-president; Joseph Barnes Otsego, secretary-treasurer and Floyd Stevens, Allegan, director.

John Bouwman of East Saugatuck is the new president of the West association. Hollis Vanderkolk of Burnips was elected secretary-treasurer and Howard Busfield of Cheshire, director. Re-elected were Wilbur Vanderkolk of Hamilton, vice-president and Vernon Sanders of South Haven, former president, now a director.

The new president of the No. 3 association is Paul W. Thompson of Trowbridge and a new director is Stephen Brown of Plainwell. Officers re-elected are J. M. Cook, Plainwell, vice president; Russell Parmelee, Hopkins, secretary-treasurer and Russell Hooper, Otsego, director.

Dusts, Sprays Can Be Harmful to Man

Dusts, sprays, and other insecticides will do much to promote the healthy growth of fruits and vegetables but they often have just the opposite effect on man. This warning comes from A. D. Morley, Allegan county agricultural agent.

The agent urges special precautions to avoid inhaling fumes or vapors from fumigants. Though they may not be poison, they will usually prove irritating to humans. He puts special emphasis on proper labeling and safe storage where children cannot reach them.

Safety in insecticides use means caution. The following rules will help to point out the most important things to remember:

1. Follow the directions of the manufacturer in handling, mixing and applying.
2. Always spray or dust downwind.
3. Wear approved respirators which protect the entire face when there is danger of inhaling fumes.
4. Gloves, long-sleeved shirts and clothing to cover the entire body are recommended.
5. Wash hands and other exposed parts of the body with soap and water after using poisonous chemicals.
6. Store poisonous chemicals in strong leak-proof containers. Be certain children or livestock cannot reach them.
7. Thoroughly wash or strip fruits and vegetables to which poisonous chemicals of a stable nature have been applied.
8. Unknown substances should not be used, nor should substances sold under trade names without complete information as to composition and proportions.

Cow Testing Results Good for April Month

Robert De Pree, tester of the Southeast testing association, is quite pleased over the April report. No less than nine herds out of 24 showed an average fat production of 40 pounds per cow. He says this is unusual for April as cows are thinking of getting out of doors rather than of giving milk. Generally, during May when grass is plentiful production goes up, but not in April.

Howard Loew, Byron Center, can be proud of his herd. It has held to an average of 40 pounds since December, 1948. In this herd of 20 cows there are seven calf heifers which naturally lower the average. Part of this is due to fine roughage which is fed to the herd.

Dick Posthuma and Ward Keppel were first and second winners in the class for highest cow under three years; Gerald Poest, first and second, cow under four years; Groen Bros., Victor Carlson and Gerald Poest, first, second and third, cow under five years; Dick Posthuma and Gerald Poest, first and second, mature class over five years.

Gerald Poest and Ward Keppel, first and second, small herd, five to 10 cows; Elmo Heft and Arthur Van Farrowe, first and second, medium herd, 11 to 20 cows; Carl Buge and Dick Posthuma, first and second, large herd, 21 or more cows.

In the afternoon, Mrs. Backus will meet at the Zeeland City hall at 2:30 p.m. and will meet in the evening at the Methodist church at Coopersville at 8 p.m.

Anyone interested in the "teen-age" person or the younger child is invited to attend.

YOU NAME IT

The Chinese, who first used tea as a beverage, called it "cha," the English pronounced it "tay," and the German word for the tea leaf was "fa" or "thee."

It covers a summer session June 27 to Aug. 5. The special course can count toward an advanced degree.

Weed and Insect Control of Interest To Many Growers

Weed control and insect control practices are now of interest to many growers, remarks L. R. Arnold, Ottawa county agricultural agent.

As usual in past years farmers inquire about control of quack grass through use of compounds. Arnold says farmers are discouraged over the fact that only one product is successful. This is a chemical known as TCA. Cost of killing off the grass except on small areas is prohibitive. Rate of application, 40 pounds per acre, and the price which brings cost of application, up to 50 cents per square rod, doesn't sound practical. If used on small patches, the treated areas can be planted to crops again in a period of 30 to 60 days.

Inquiries on European corn borer and the corn ear worm will soon come in to the extension office. Sweet corn growers are much interested in control measures. The growers should watch for the eggs. Treatment should begin when the borer eggs are beginning to hatch to 50 per cent hatched. If impossible to determine period of hatching, treatments should be made when the corn whorl is 10 inches high. Apply DDT or ryania six to eight days apart for four treatments. Rate of application for DDT is 30 pounds of 5 per cent product to the acre; ryania, 40 per cent, applied at 35-40 pounds to the acre; for small acreages one per cent rotenone at 40 pounds to the acre. All above in dust form.

For spray, DDT at rate of one and one-quarter pounds of actual DDT to the acre. Ryania is not suitable for spray.

The control of the ear worm is the same except dusting or spraying must be applied to the silks, first treatment five or six days after silks break from tips of ears. A second treatment should follow in six or seven days.

Stalks treated with DDT should never be fed to livestock. Leaflets on borer and ear worm may be secured at the extension office.

Spittle Bugs on Berry Plants

Dewey Chittenden reports a heavy infestation of spittle bugs in strawberry plants on his farm. They are showing up in bud clusters. As yet no spittle is present. Chittenden went through a bad experience two years ago. He will start fighting this new pest at once.

In 1948 growers were threatened by the spittle bug. A heavy cold rain exterminated the insects so little damage was done. Growers cannot expect another such break.

L. R. Arnold, Ottawa county agricultural agent, says that benzene hexachloride is taboo as a remedy. Chlordane is recommended up to the time berries get to be three-eighths inch in diameter. Later applications may taint the fruit. Use one pound of actual chlordane to the acre. Don't use any more than this. Note the strength on package. If 50 per cent use two pounds in order to have a pound of actual chlordane. Rotenone may be used at the rate of three pounds of 5 per cent product to 100 gallons of water. A neutral wetting agent should be used with rotenone. A 3 to 4 per cent rotenone dust can be used. Rotenone works best when temperatures are above 65 degrees.

4-H Club Sunday To Be Observed

Sunday, May 22, nearly two million 4-H club boys and girls will go to their churches in observance of National 4-H club Sunday. At that time, in keeping with the Heart "H" their attention can be directed to the development of their own spiritual lives.

Many clubs in Allegan county will go in groups to churches where special services will be held. Since its inception nearly two decades ago, the observance of 4-H club Sunday has become a significant part of the 4-H program in many states. 4-H Sunday is an outgrowth of Rural Life Sunday, which was first observed in 1929.

Twelve hundred 4-H club boys and girls and 250 adult leaders are making plans to attend church in groups or individually in Allegan county.

Pastors in Allegan county are being asked by William J. MacLean, county club agent to help in observing National 4-H club Sunday, May 22.

TODAY'S GARDEN-GRAPH

Midget Vegetables for Small Gardens

By DEAN HALLIDAY
Distributed by Central Press Association

NOW horticultural scientists have come up with miniature vegetables which can be grown in the smallest backyard garden. Midgets, but not freaks, these vegetables have quality and flavor just like big ones.

Among the miniature vegetables are sweet corn with tiny 4-inch butter-yellow ears, a baby bush pumpkin, a midget tomato plant which can be grown outdoors in summer or indoors in pots during the winter, and cute little muskmelons and watermelons, lettuce and cucumbers.

Illustrated in the accompanying Garden-Graph is the new Cheyenne baby bush pumpkin and the Minnesota "356" midget muskmelon.

The ornamental, compact bushes of the midget pumpkin are only three feet across. They produce numbers of orange fruits of "Sugar Pie" type, which are excellent for canning or making pumpkin pies. So small is this pumpkin plant that it can be grown in the smallest backyard garden.

The tiny muskmelon, illustrated, is a new midget sensation developed by the horticultural department of the University of Minnesota. The 4-inch melons it produces are just right for individual serving. They ripen in only 60 days.

The small, 3-foot vines of the midget melon produce quantities of tiny fruits which have a high content and are edible to the rind.

A "tennis ball size" head lettuce is known as Tom Thumb. It's really a miniature butterhead type that is extra crisp and sweet. The midget heads can be served whole, with dressing. The plants are so small that some people grow them in window boxes.

Newcastle disease (pneumoencephalitis) is caused by a virus that has been shown to be infectious for nearly all of the common fowl found in Allegan county.

Of the common fowl, chickens seem to be the susceptible ones, then turkeys, pigeons, guinea fowl and ducks. Both sexes are equally susceptible. Birds of all ages can be affected although adult birds appear to be more resistant than chicks.

Symptoms start showing up 5 to 7 days after exposure to the disease. In young chicks the first symptoms are that of a cold. Gasping, sneezing and a nasal discharge may appear. Within a few days nervous symptoms may develop. Some of the birds may show partial or complete paralysis of one or both legs and wings or twisted necks. In some outbreaks no nervous symptoms may appear.

In adult birds the respiratory symptoms predominate and nervous symptoms may be completely absent. When the disease hits the laying flock egg production may go to zero in a few days and it may take 2-4 weeks or longer to get the flocks back into production.

The disease can be transmitted directly or indirectly in many ways. Most anything can act as a mechanical carrier such as clothing, shoes, egg cases, poultry crates, etc.

There is no satisfactory control treatment recommended at present except the use of vaccines. Your county agricultural agent recommends that poultry producers use every precaution when purchasing chicks and managing the farm flock.

When first symptoms appear some of the birds should be taken to a good veterinary or Michigan State college poultry pathologist for diagnosis.

Prof. Johnston will present Tchaikovsky's "Concerto No. 1 in B flat Minor." Wheat Acreage Allotments Set

In expectation that wheat acreage allotments may be in effect for the 1950 wheat crop which will be planted this fall, the Allegan county AAA committee has been, for the past several weeks, compiling the necessary acreage data upon which individual farm allotments will be established, according to Leonard Swanty, committee chairman.

The individual farm allotments will be established soon, Mr. Swanty said, and notice of this allotment will be mailed to each farmer so concerned whose farm acreage data was available to the county AAA committee.

Because their acreage data may not be on record in the county AAA office, farmers who grew wheat for harvest in either 1945 or 1946 and who did not grow wheat for harvest in either 1947, 1948 or 1949 and who intend to plant wheat this fall should request a wheat acreage allotment in writing to the county committee prior to June 1, 1949.

Likewise, farmers who have never in the past grown wheat but who intend to plant wheat this fall should also request an allotment prior to June 1, 1949.

These precautions are taken, Mr. Swanty said, so that no farmer who is eligible for a wheat allotment and who desires one is overlooked when the county acreage allotment is allotted among the individual farms in the county.

Ganges 4-H Member Writes Winning Essay

Jean Atwater 4-H dairy club member from the Ganges 4-H club, wrote the winning essay in Allegan for the Michigan Allied Dairy association essay contest. Miss Atwater is in her third year of dairy 4-H club work and has a registered Jersey cow and a calf. Her essay was sent to Lansing to compete with other counties in the state contest, according to William J. MacLean, county club agent.

First prize is a trip to the National 4-H club Congress with other cash awards. Essays were written on two topics: "Dairy as a Factor in Michigan Agriculture" and "Feeding the Family Through Dairy Products."

Miss Atwater read her essay on the second topic at the annual DHIA meeting in Allegan.

Charter Revision Group Cuts Down Elective Officers

The commission held its weekly meeting in the council chamber of the city hall. One spectator attended.

According to the tentative agreement, the city manager, city attorney, clerk, treasurer and assessor would be appointed under the proposed new charter.

It was argued whether to make the city assessor appointive or elective.</

Blood Brothers Employees to Vote On Deductions

Labor Group Irritated By Remarks They Are Suckers for Charity

Allegan, May 19 (Special) — Allegan's local No. 709 UAW-CIO of Blood Brothers Machine Co. workers have let it be known that it will take a new vote May 21 on the subject of paycheck deductions for charity drives in the city.

Irritated by reports among the 500 members that downtown merchants and some organizations hold off donations until they see the size of the union's check, the union said it may end its heretofore generous payments. The statement was made in a published letter from Edwin G. Cannan, financial secretary, who said he had the backing of the union executive board.

Periodic deductions from employees' checks for charitable purposes annually totals nearly \$10,000, Cannan said.

He cited three additional counts against the charity campaigns: That union membership was not represented on these committees; that out-of-town union members have to contribute to the city funds when their own localities need boosting; and that members contribute at work and are then besieged at home and at the theater for more donations.

The subject will come before the membership meeting May 21, Cannan concluded.

Smith Takes Over Gulf Oil Products

The Gulf's Refining Co. today announced the appointment of the Ray Smith Oil Co. as its distributor in this area which includes Holland, Zeeland, Saugatuck, Fennville, Hamilton, Burnips and Hudsonville.

The Ray Smith Oil Co. is owned and managed by Ray N. Smith, of 584 Lawndale court. Smith started in the oil business in 1920 at a service station in Grand Rapids. Later he was advanced to tank truck salesman and a year later to city salesman in Grand Rapids. Then he went on to territory sales work which included the largest part of Western Michigan.

He later operated as general agent at Benton Harbor, Owosso and Kalamazoo, working 25 years with a major oil company. In 1932 he decided to get into the oil business for his own profit and was given the choice of Bay City or Holland, choosing the latter.

When Smith entered the business in 1920, much of the delivery was done by wagon and gasoline was wholesaled for 30 cents a gallon and kerosene for 20 cents. With the coming of the automobiles and trucks and better highways, needs for petroleum products were greatly increased.

St. Mary's Looses Blistering Attack To Wilt Maroons

Muskegon St. Mary's baseball club unleashed a savage 17 hit attack against Holland Christian at Riverview Park, Friday afternoon to trim the Maroons 16-6. It was the Muskegon club's ninth straight win this season against outstanding competition.

Taking advantage of three Dutch errors and several bad judgement plays, the invaders connected for 13 tallies in the first two innings. In addition, the hit-terish saints smashed out 11 safeties—although several were of the infield variety. One Texas Leaguer accounted for three tallies. Feature of the uprising came in the second inning when Second baseman Halloran hit a long high fly to left center field which went for a home run. Two runners scored ahead of him.

During the two hectic innings, Coach John Ham used three pitchers. Floyd Brouwer was the starting hurler, but was relieved in the second by Ken Mast. Gord Grevengoed finally came to the aid of Mast in the second to retire the side. Grevengoed pitched effective ball from that point, allowing three runs in the remaining innings. He was touched for six scattered hits.

Christian notched its initial tally in the third inning on a double by Rightfielder Charles Aardema and a one base blow by Preston Kool. Two more runs scored in the fifth inning on two walks and singles by Ben Bouwman and Henry Holstege.

Holstege was also responsible for the Dutchmen's three markers in the final inning. After Bouwman had taken first on an error and Kool had walked, Holstege connected with a fast ball to send it to the extremities of the park in centerfield. He easily circled the bases for his third hit of the day. Storck and Kushnak shared the St. Mary's mound duties.

The defeat was Christian's sixth in eight starts.

Kalamazoo Central Outclasses Holland In Baseball Game

Lefty Al Suter Pitches Three-Hit Ball for His Fourth Win of Season

Kalamazoo Central ran its three-year win streak to 27 straight Thursday afternoon at Riverview park by defeating Holland high baseball team 8-3. Kalamazoo hasn't been beaten since Battle Creek turned the trick, 2-1, back in 1946. Right now the Maroons are considered by many as the best high school baseball team in the state.

Ace left hander Al Suter pitched a superb game for Kalamazoo, winning his fourth-straight of the season by allowing Holland just three hits, all in the last half of the seventh. In four games this season, Suter has allowed just eight hits.

Holland's three-hit attack in the seventh, including Ron Apple-dorn's long home run over the right-center field fence, was the most hits any team has collected off Suter this season.

The Kalamazoo hurler held Holland hitless for six full innings and faced only 18 batters. He issued two walks in the third frame but

caught both runners off base. He struck eight Dutchmen.

The Celery City lads scored one run in the first inning on a walk and a single by Dick Noble. They added three more in the second on hits by Stan Pavlick and Bob Topp, and costly errors by Forrest Shuck and Whitey Witteveen.

The Maroons brought their total to eight in the fifth by scoring four runs on five hits, including four straight singles to center field, a walk and an error. Roger Eggers was called to put out the fire with one man out and retired the side after allowing just one hit.

Holland, led by Catcher Spike Van Eck, played its best defensive ball of the season in the top half of the sixth. The crowd-pleaser started off when Keith Jones tripped over the center fielder's head. Ken Mosier walked. Jones held third. Noble hit a grounder to Shortstop Tom Hildebrand who threw to Van Eck to force Jones at home. Suter belted one back to Third Baseman Frank Wlodarczyk. Wlodarczyk and Van Eck exchanged catches before Van Eck piled up Mosier coming home for the out. Ken George hit back to Wlodarczyk, who threw to first, to retire the side without a run crossing home plate.

Holland tallied its three runs in the seventh. Merrill Human singled to left. Wlodarczyk doubled to center field, scoring Human. Apple-dorn smashed a line drive over the wall and onto Columbia Ave. for the other two runs.

Shuck allowed six hits and seven runs in five and a third inning. Eggers allowed two hits in two and two-thirds innings.

Holland now has a season record of five wins and three defeats. The conference record is two wins and two defeats.

Hope was never in trouble after a four run spurge in the second inning. The Dutch added three more runs in the fourth to sew up the victory.

Bob Hawley did the hurling for Jaycees and was charged with the loss. Zeitter caught.

The win brought Hope's season record to six wins in 11 games.

Classified Ad Ends in Marriage In Holland Court

Romance has received an assist from a work-a-day classified ad in a Chicago newspaper.

Municipal Judge Cornelius van der Meulen performed the ceremony uniting Edward Henry Rowder, 38, and Mary C. Morganthaler, 35, both of Chicago, in his City hall offices Monday at 3 p.m.

The courtship started several months ago after Rowder inserted a classified ad in a Chicago newspaper. His young wife had died and left his two children without a mother. Rowder was despondent over the children's future because his work kept him away from them too much.

He asked for a "mother for his son" and the paper used the story front page. Answers began to flood the Chicago newspaper office. The hundreds of letters were packed up in the newspaper office. One fell out. Rowder picked it up.

Meanwhile, Mrs. Morganthaler stopped by Rowder's house one day and left crayons and color books for the children. Rowder wasn't home. Mrs. Morganthaler has one child.

Eventually the two met, got along well together and decided to be married. They came to Holland to avoid publicity. The couple will live in Chicago.
