Riemersma Will Retire in June

J. J. Riemersma

J. J. Riemersma, principal of Holland High School, whose associations with Holland public schools date back to 1915, informed the Board of Education Monday night that he will retire at the end of the school year.

The 42-year span covers two years as mathematics instructor 1915-1917; assistant principal, 1917-1919; World War I, 1917-1919; high school principal, 1919-56; director of secondary school curriculum study, 1955-1957.

In his communication, Riemersma referred to the cordial relationships he had experienced with the Board of Education during his years with the system.

"During my years as high school principal I was particularly blessed in having a highly professional faculty, dedicated and consecrated to the education of the boys and girls of Holland community. Through their devotion, our high school has established an enviable reputation for maintaining high standards of scholarship, citizenship and character."

The letter also expressed appreciation to Dr. E. E. Fell, former superintendent for his patience, encouragement, assistance and inspiration at all times, and to Walter W. Scott for his stimulating educational leadership and sympathetic understanding of the secondary school program.

In accepting the letter, the board paid tribute to Riemersma's many years of fine leadership and drafted a note of appreciation which will appear in this year's commencement program which will honor the retiring principal. Plans also have been made for a reception in Durfee Hall after commencement exercises June 6, honoring Mr. and Mrs. Riemersma.

Riemersma's service to the community extends far and above the educational circles. As a member of Hope Church, he has served as a member of the consistory for a period of 35 years, 12 of them serving as vice president. He has been a member of the Board of Domestic Missions of the Reformed Church in America for 10 years, and served as Sunday School superintendent two years.

In professional organizations he has served as president, vice president and secretary of the Michigan Secondary School Association; chairman and vice chairman of region 9, Michigan Education Association; member of the reviewing committee of the North Central Association of Secondary Schools and Colleges for five years; and has served as member and chairman of various vocational and state education committees.

He received an A.B. degree from Hope College with majors in mathematics and science, and a master's degree from the University of Michigan in secondary school administration. He did graduate work at the University of Wisconsin and the University of Colorado.

In Holland, Riemersma has served as president and vice president of the Exchange Club, Century Club and Social Progress Club. He has been a member of American Legion post No. 6 for 37 years.

Since the organization of Tulip Time, he served as board member for 21, holding such positions as president and vice president. He has served as Tulip Time parade marshal ever since parades were a part of Tulip Time.

Perhaps the words of E. E. Fell best embody the sentiments of the people of Holland for Riemersma. Dr. Fell wrote: Mr. Riemersma is a discerning student of educational literature and a keen observer of educational practice and he carefully and ably evaluates in the light of student needs. His philosophy of life and education is one and inseparable. He believes that Christian character, discipline, culture, dependable scholarship, and good citizenship constitute the minimum preparation for life and the foundation for further education. The members of his teaching staff highly value his scholarly and stable leadership. He enjoys the confidence and cooperation of his co-workers and students. He is a strong tower as an educator, citizen and Christian leader."

The city manager's monthly report covering activities of all departments evoked some comment on an item in the police report on unlocked doors and Van Eerden wondered if some downtown people were getting careless. The report listed 68 unlocked doors during April and a total of 576 for the 10 months. Another councilman pointed out that it amounts to only about two unlocked doors a night.

Councilman Raymond Holwerda expressed some concern over figures in the inspection report and wondered about progress on a new health inspector. He made it clear his comment was no reflection of any kind on the present inspector.

Council okayed an agreement with Elmer J. Rowder for sharing the cost of tiling 110 feet of Wildwood drain between Fairhill Dr. and Wildwood Dr. Total estimate is \$1,210 of which Rowder agrees to pay \$605. The city's share is chargeable to the Motor Vehicle Fund.

A letter from Mrs. Andrew Klompars and family expressed deep sympathy for the special tribute paid to Fire Chief Andrew Klompars in closing City Hall during the hour of his funeral.

Council approved a change order for C. and C. Construction Co. for changes in waterworks construction with a total net increase of \$1,659.31.

Approval was given a separate fund for employees to be established, maintained and administered under the office of the city auditor, the resources being such non-public monies that accrue from vending machines, gratuities, etc. The fund will be subject to the annual post audit.

A claim from Mrs. Miriam Gordon for injuries received in a fall on city hall steps and a letter from Allen Duane Walters for windshield damage caused by a ball were referred to the city attorney and the liability company.

SCRUB STREETS — Burghers in traditional Dutch costumes wielded brooms and brushes as they scrubbed the streets of Holland Wednesday for the opening of the 1957 Tulip Time Festival. In spite of the chilly weather a fair sized crowd lined

the streets to watch the festivities. Many of the scrubbers donned warm clothing, either under or over their costumes. Today and tomorrow, Holland merchants will scrub the sidewalks for the benefit of visitors who missed the opening event. (Sentinel photo)

Tulip Time Highlights

Boatswains Mate First Class Walter Sears has extended an invitation to Holland residents and Tulip Time visitors to visit the Coast Guard station Saturday during the open house from 1 to 8 p.m.

Sears said the crash boats, used in rescue operations, will be tied at the station and Coast Guardsmen will be on duty to explain rescue methods and all phases of Coast Guard procedures. The station is located on the Ottawa Beach Rd. east of Holland State Park.

The USS Portage, a patrol craft escort, will arrive at the Georgian Bay docks on Lake Macatawa Friday to represent the Navy both at Tulip Time and Armed Forces Day, Saturday. The ship will extend open house to visitors from 9 a.m. to 4 p.m. Saturday.

Wednesday's opening of Tulip Time was one of the chilliest on record, but the people took it all in good stride and only a few left before the last step of the klompen dance was over.

All this cold reception stuff failed to daunt two women visitors who were bundled warmly. When it was all over, one said, "Wasn't that beautiful? I'm certainly glad we came." There wasn't one word about the weather.

Things seem to be going smoothly at Tulip Time headquarters in Civic Center. There's plenty of room to move around, places where people can sit and relax. The fulltime workers are busy, but there doesn't seem to be the madhouse that sometimes was evident in smaller quarters. All these smooth operations point to the excellent planning of the Tulip Time committee headed by Laverne Rudolph. This committee held many meetings the last several months.

So many youngsters are anticipated at the children's show this afternoon in Civic Center that Tulip Time leaders are planning two one-hour shows. One will be staged immediately after the parade. Headline entertainer will be Tony Nollies who puts on acts of Dutch puppets and magic.

Little Netherlands did brisk business on opening day. This is the miniature village at 13th and Central adjoining Netherlands Museum which also had plenty of calls the first day. Another popular attraction is the Dutch Fantasies Show at the Woman's Club, a program of Dutch entertainment, dancing and some surprises.

The Camp Fire Girls float was made entirely by the girls themselves, from the little Blue Birds to the Horizon Club girls. Many hours were spent in making the artificial flowers used on the float in its red, white and blue color scheme.

The colorful carousel in the center of the Flower Show at the Armory is quite a temptation for the young folks. One little boy was quite determined to have a ride on one of the "pretty horses."

The Fennville High School marching band displayed its wares without its director in Wednesday's parade. Roy Schueneman, the director, was in Allegan with his wife, who had just given birth to a baby girl, and he didn't get back to Fennville in time to leave with the band. The musicians first thought their performance would be cancelled, but decided to come

anyway and went through their routine without direction.

That fascinating turntable on which the colorful carousel revolves at the Flower Show in Holland Armory really is an ingenious device. Actually, it's a turntable for revolving cars at auto shows, and was made available to the Holland Garden Club for its central display through Robert De Nooyer and William Venhuizen. The motor that operates it is only 1/4 horsepower, Armory attendants said.

While at the Flower Show, spend some time at the conservation display. There are all kinds of wild flowers, shrubs and plantlife of the woods, plus toadstools and fungus growths. The dogwood trees were grown domestically, but they illustrate the beautiful dogwood which has been so much in evidence this month in Michigan forests.

Among the distinguished guests to Tulip Time Wednesday were American Legion Department Commander William J. Claran and Mrs. Claran of Detroit. They witnessed the street scrubbing, parade and klompen dancing Wednesday afternoon and at night were guests at a special dinner meeting at the Legion Clubhouse.

Holland is always grateful to the Michigan State Police for excellent assistance during Tulip Time festivals. At present there are 24 state troopers working in Holland under command of Lt. Robert Fisher of the Rockford post and St. Milton Swingle of the Grand Haven post. Holland police also are in full force, assisted by seven specials and 15 college students. Sheriff's officers also have specials on duty.

For Saturday and Sunday, additional state troopers will swell the number here to 32 to assist with heavy traffic and crowd control. Of this number six will be assigned to duties outside the city.

There were a lot of cars touring tulip lane in Holland today and Wednesday. The tulips are in fine condition and Park Supt. Dick Smallenburg and all the people of Holland have reason to feel proud of the fine showing of the tulip lanes this year. Persons living on tulip lane are urged not to park on the street if at all possible. Parked cars destroy the effect of the long colorful ribbons of tulips.

He and Van Hoven, who suffered a concussion, possible fracture and large skull laceration, are in "fair" condition. Gras, who has internal injuries and a cut on the temple, is in "good" condition.

State police said the youths were traveling "at least 65 miles an hour" in the north-bound lane when the car hit the truck, which was going east on Warner St. across the highway.

The left front of the car hit the right side of the truck, dragging it 85 feet down the road, police said. The automobile rolled completely over once and came to rest upside down. Kuiper and Gras were thrown clear, but Van Hoven was trapped in the wreckage until passing motorists freed him.

Correll was thrown from the truck and was found seven feet from the scene. Medical examiner Dr. Peter McArthur said he was killed instantly.

All four wheels of the 1951 truck were knocked off and the 1957 model car was a total loss.

The boys, all students at Holland Christian High School, are believed to have attended a junior-senior dinner at the Civic Center in Holland earlier in the evening. Van Hoven and Kuiper were wearing tuxedos and Gras was also well-dressed.

Funeral services for Correll, a truck farmer who lived alone, were held Tuesday at 2 p.m. from the Van Zantwick Funeral Home with burial in the Grand Haven Township Cemetery.

He was born June 24, 1885 in Chippewa County, Wis., and came to this area in 1926 from Montana. He was a baptized member of the Brethren Church in Wisconsin.

Mrs. Shackson Honored at Fete

Mrs. Mattie Shackson who will celebrate her birthday anniversary this week, was chosen as "Mother of the Year" at a special fellowship meeting Sunday evening following the regular service at First Methodist Church.

Mrs. Neal Houtman read the words of praise to a worthy woman, taken from Proverbs and Mrs. John Hagans led group singing. Poems of tribute to all mothers were given by Mrs. Ford Weeks, Mrs. George Damson, Mrs. Olin Walker and Mrs. Sicard.

Of special interest were past incidents in Mrs. Shackson's life presented by Neal Houtman in the form of the popular Ralph Edwards show, "This Is Your Life." Pictures were shown as flashbacks in her life and many scenes of early pioneer days showed a type of life, fast disappearing today. Others depicted both hardships and joys.

The influence of Mrs. Shackson's life is being felt today through her family in the public schools. She is the mother of Mrs. Ray Swank and Miss Marian Shackson, teachers in the local school system, and Miss Renetta Shackson who teaches in Grand Rapids. 2 Youths Admit Zeeland Breakins

ZEELAND (Special) — Police have apprehended two 14-year-old boys and solved two breaking and entering cases and several purse thefts.

One of the youths admitted Wednesday taking part in the breaking of the Zeeland Farmers' Cooperative gasoline station on East Washington Ave. the night of April 11 and taking some candy. Entrance was gained by breaking a window in the men's room.

Police said he told them he was responsible for a break-in at Zeeland Junior High School the night of Dec. 12, 1956 and taking some money from a small metal cash drawer which was pried open.

The youth said he also aided in the stealing of several purses from fellow students. The second boy told police Thursday that he took the purses. The second youth denied taking part in the breaking and entering.

Both have been referred to Probate Court.

New Teachers Salary Schedule Starts at \$4,000

Total Salary Increase On Present Staff Amounts to \$58,605

A new salary schedule for public school teachers starting at \$4,000 a year and ending at \$6,200 after 14 years was adopted by the Board of Education Monday night. A master's degree automatically boosts salaries \$300 a year.

Based on 155½ teachers as employed, the proposed schedule will cost \$43,450 more than the present schedule, representing an increase of 5.165 percent. The automatic advance of one year on the schedule for all teachers not already at the maximum will cost \$15,180, or an increase of 1.83 percent. The total increase based on 155½ teachers will be \$58,605 or 6.995 percent above the present schedule cost of \$84,748.32.

The schedule in effect this year started at \$3,800 and after 15 years reached a high of \$5,950. Teachers with master's degrees automatically received \$300 more.

Assuming that the board receives state aid in the same amounts as this year, it still will be necessary to get additional revenue. No resolutions were adopted Monday on this subject, but the board is considering a resolution to rescind the policy of transferring \$50 per student from grades 9 through 12 into a high school building and site fund. Such action would leave in the general fund the \$80,000 now budgeted to be transferred to the high school building fund.

The board is considering raising the tax levy to 10½ mills on state equalized valuation for the 1957-58 school year. Tax rate this year was 9.85 mills, and the new figure represents an increase of .65 mill. The finance committee will file an application for millage with the county tax allocation board, listing a tentative estimate of general fund disbursements next year of \$1,383,326.56. Estimates of state aid and tuition will provide \$12,600 leaving \$570,726.56 to be raised by local taxes. Ottawa county already has requested .4½ mills for operating expenses, which would leave a possible 10½ mills for schools in the case of Holland city.

In addition, it was pointed out, the budget must limit to the absolute minimum the expenditures for instructional supplies and equipment, building operation and maintenance and capital outlay. Supt. Walter Scott said each building principal has been asked to cut these items 25 percent, but there is considerable practical difficulty in achieving desired results.

The board also approved a salary plan for principals and administrative staff, amounting generally to a \$300 increase for each. Principals' salaries next year will range from \$6,200 to \$7,800 with most of them in the \$6,800 to \$7,000 bracket. The increase in these staffs next year amounts to less than \$5,000.

Supt. Walter Scott presented an analysis of two proposed state aid bills and unless there is an emergency appropriation, the present act upon which state aid is based this year will fall short about \$19 per membership child. This will mean a loss of \$68,780 this year to Holland. He also explained several other bills, and pointed to the necessity of having boards of education work with parents, teachers and the legislatures to insure adequate funds for the future.

In other business, the board appointed a committee of 12 to work with the presidents of the 12 sending districts in the annexation program. Appointees are Dorothy Winchester, Marian Beebe, Betty Becker, Margaret Steffens, Edith Connor, Alice Plum, Lester De Ridder, James Zwier, Jack Pleskes, A. Cook, Harvey Butler and Stuart Boyd.

Supt. Scott said the necessary resolutions on annexation involve considerable study to bring previous policies in line, and said work is in progress. He also said study is being done to care for some Maplewood school pupils in city schools, but this also is an involved program which would mean redefining attendance areas in the city, hence he had no recommendations at present.

Holland Edges St. Joseph, 3-2

ST. JOSEPH (Special) — Ron Kuylers threw a three-hitter at St. Joseph here Monday afternoon as the Holland downed the Bears, 3-2 to even its season's mark at 4-4-1.

The Dutch pushed across two runs in the first inning on hits by Kuylers, Joe Howard and Terry Otting, two stolen bases and a balk. The third Holland run dented in the third. Jim Overbeek singled, stole second, moved to third on Kuylers long fly and scored on Dennis Bluekamp's fly to center.

Earl Nyland picked up Holland's other hit with a single in the fourth.

A little wildness in the fourth cost Kuylers a shutout. He walked three men and had an error committed behind him for one run and allowed a single to push across the second St. Joe tally.

Kuylers, who has now faced 73 men this season and given up only seven hits, struck out three and walked three.

The Dutch stole four bases in the game and have 17 for the season.

Line score:
Holland 201 000 0-3 5 1
St. Joe 000 200 0-2 3 0

Fennville Closes Al-Van Schedule Without Loss

LAWTON (Special) — Fennville, the Al-Van League champion, wound up a perfect conference schedule Monday by defeating Lawton, 9-1. The triumph was the Blackhawks' seventh straight in the loop and eighth without a loss for the season.

Fennville got only eight hits, including two each by Bob Coffey and pitcher Gerald Steenburg, but mixed them well with walks in getting four runs in the fourth inning and three more in the sixth. The top five men in the batting order failed to hit safely, but Denny Morse missed a single on an unusual play. With a runner at first and two out, he lashed a long single to center. But the runner wasn't paying attention and was forced at second, giving Morse a fielder's choice.

Line score:

Fennville 101 403 0-9 8 2
Lawton 000 100 0-1 3 4
Batteries: Steenburg and M. Morse; Marks, Waite, Juriga and Wickett.

Double in 7th Gives Chix Win Over Christian

ZEELAND (Special) — A double by Secondbaseman Jim Van Dam in the last of the seventh inning broke up a tight pitcher's duel and gave Zeeland's baseball club a 1-0 win over Holland Christian, here Monday afternoon. The loss was Christian's fourth against two wins so far this season.

Van Dam's hit was his second of the game and scored Catcher Norm Wiggers who had walked to open the inning. There was one out when the game winning blow was delivered.

Aside from the run, there was little in the way of offensive power shown by either club. Both Allen Walters of the Maroons and Max De Jonge of the Chix hurled great ball, and kept out of serious difficulty most of the afternoon.

Before Zeeland scored their winning marker, Walter's string of scoreless innings had run to 13. Last week, he blanked Grand Rapids Christian, 5-0. Walters gave up just three hits, while walking four and striking out eight Zeeland batters. His best inning was the fourth when he struck out the side.

Zeeland's De Jonge was just as effective as he gave up just two hits and walked only one batter. He struck out four Maroon batters.

In addition to the well pitched game, both clubs turned in fine fielding contests. Christian played errorless ball, while the Zeelanders were guilty of just one miscue. The only time the Dutch had two runners on base was in their seventh when a single and a walk put De Jonge in minor difficulty.

Dan Bos, Christian's centerfielder, got the only two hits off De Jonge. Van Dam touched Walters for two safeties, while Roy Beyler, Chix centerfielder, got the only other blow.

Christian's next game is Wednesday when they travel to meet Grand Rapids South Christian.

Line score:
Holland Chr. 000 000 0-0 2 0
Zeeland 000 000 1-1 3 1
Batteries: Walters and Dykema; De Jonge and Wiggers.

Holland Christian's baseball squad combined some timely hitting and a superb pitching performance by Allen Walters to shut out the Grand Rapids Christian club, 5-0 at Riverview Park, Thursday afternoon. The win was the Maroons' second in a row after dropping their first three starts.

Walters did an excellent job on the hill for the locals, giving up just three hits and three walks for the seven innings. Eight Grand Rapids players went down by the knockout route. Grand Rapids used three hurlers, Koops, Prins in the third and De Vos in the sixth. The Hollanders collected five safeties, bunching them all into the run-scoring innings.

While Walters was going along in great fashion, retiring the first eight batters to face him, the Maroons were threatening in each of the first two innings. It wasn't until the third frame, however, that the locals could do any scoring.

With one out, Shortstop George Kalman walked and went to second on a single by Paul Sterenberg, the left fielder. Centerfielder Dan Bos singled to score Kalman, and Third baseman Jim Kool followed with another base knock to send two more runners across. Catcher Merle Dykema followed with the fourth straight single scoring Kool with the fourth marker.

Neither club could do anything in the way of scoring until the Maroons came through with their final run in the sixth. Walters walked, went to second on a fielder's choice, and then came around to score on an error.

Coach Elmer Ribbens' club played air tight ball in the field not committing an error. In addition, on two occasions some alert fielding resulted in picking Eagle runners off the bases.

Bos score: R H E Holl. Chr. 004 001 x — 5 5 0 G. R. Chr. 000 000 0 — 0 3 3 Batteries: Walters and Dykema; Koops, Prins, De Vos and Brummel.

Fennville bunched five hits, four walks and two errors for their first inning blast and picked up only two safeties the rest of the way. Gobles got its run in the sixth on a walk and a double by Dan Stech, one of two hits allowed by Fennville hurler Doug Allan.

Jack Barnes was the only Blackhawk to get more than one hit, collecting a pair.

Starting catcher Mickey Morse was injured when he banged into the Gobles first baseman while running out a sacrifice. He was knocked out and lost two teeth, but will be all right, Morehead said.

Line score: R H E Gobles 000 001 0 — 1 2 5 Fennville 111 000 0 — 11 7 0 Batteries: Zantello, Fash (1) and Wescott. Allan and M. Morse, Hammer.

YOU PAY AND PAY AND PAY
Are you one of those who think that the Senate rackets investigation does not affect them? Think again. Actually you are deeply involved.

Here is an offhand statement offered by a typical citizen over a cup of restaurant Java.

"Sure, let 'em round up those labor leader crooks in Portland and other places. Sen 'em to the pen and give 'em what they deserve. But why should I beat my brains out? I have plenty of troubles of my own, what with high taxes and everything else. What those crooks do does not concern me."

He could hardly have been more wrong. True, he had paid no assessment to any labor leader; his pay envelope could not be touched by men who liked to bet on the ponies of who spent union members' funds to the tune of \$99,999.95 without remembering what the money was spent for.

He did not contribute to that fund or to any other fund of that kind, directly. But like all the rest of us he was helping to pay and pay and pay for their every day of his life. Every loaf of bread he buys, every suit of clothes he purchases, every pair of shoes he acquires costs him more than it would if they were furnished him simply on a basis of what they cost to produce. The crooks get their slice, and you pay your share.

The same kind of thinking is involved when a careful citizen feels that carelessness resulting in fires or in traffic deaths or destruction does not concern him. Sure, punish such carelessness but don't ask him to join others in preventing them; he has troubles enough of his own.

But all such things are his troubles. He pays and pays and pays for them along with those who are directly involved in them. He doesn't know it, but his insurance bills are higher than they would be if prevention on a wide scale should take the place of paying the price of carelessness.

Some labor leaders—not George Meany and Walter Reuther, it should be said to their credit—ever argue that the Senate committee has no business to inquire into what is done with the funds coming from union members' dues, that such things concern only union members, not Congress or the general public.

But the general public helps to pay the bill. You are involved, whether you know it or not, whether you like it or not. You are one of those who pay and pay and pay.

Abraham and His World
Genesis 18:20-33; 19:29
by C. P. Dame

(Based on copyrighted outlines produced by the Division of Christian Education, National Council of the Churches of Christ in the U. S. A., and used by permission.)
Archaeology is revealing more and more facts to us about the conditions of the ancient world. Some of the houses, markets and temples of Ur of the Chaldees have been uncovered and we know more of the wickedness and vice which brought destruction upon Sodom and Gomorrah, due to archaeology. Abraham lived in a wicked world.

I. Prosperity has its perils. Abraham and Lot his nephew grew so rich that their flocks and herds could not pasture in the same territory. The herdsmen quarrelled often about pasture rights. Abraham suggested to Lot that they separate and he told Lot to choose where he wanted to go. Lot should have allowed Abraham to choose first but he was too grasping for that—he chose the rich pasture lands around wicked Sodom and Gomorrah. First he moved near the cities and finally moved in Sodom and consequently his family got contaminated by the wickedness of the city.

When Abraham learned of God's plan to destroy the wicked cities he did not say, "They have it coming," but he prayed for them. God looked upon Abraham as his friend and therefore he did not want to hide from him what he was about to do. The cry of the cities' wickedness reached God's ears but he wanted to see for himself and therefore the investigation that followed. The prosperity of these cities led to their terrible wickedness and the desire for prosperity on the part of Lot made him move to Sodom.

II. Intercessory prayers are much needed. Abraham, when he heard what God intended to do to Sodom and Gomorrah, "stood before the Lord" and prayed on their behalf. The fact that Abraham prayed for evil people teaches us that we also have an obligation to an evil world. Abraham, the nomad, prayed for the city dwellers whom he did not know! Abraham asked God to spare the city if there were 50 righteous people in it and God said that he would. Encouraged by the answer, Abraham mentioned 45, then 40, 30, 20, 10 and Abraham learned that for the sake of only 10 God would spare the city but there were not even 10 in that wicked city. Sodom was bad from the top to the bottom, it was permeated with wickedness.

The Bible records a number of great intercessory prayers. In Exodus 32:11-13 and 31-32 and in Numbers 14:15-19 are the intercessory prayers of Moses. In Paul's epistles there are several of his. The intercessory prayers of Jesus in the Upper Room and on the cross are unforgettable. Intercessory prayers benefit those who pray them and those for whom the prayers are offered. People who pray intercessory prayers should imitate Abraham in his humility and perseverance and concern for his fellow human beings who were on the brink of destruction, and his earnestness. Our times call for much intercessory prayer.

III. Intercessory prayer is never in vain. The wicked cities were destroyed—the Bible tells us that God destroyed them because of their wickedness. The words "God remembered Abraham" indicate that, although the cities were destroyed, God saved Lot, his nephew and his two daughters "out of the midst of the overthrow" although the wife of Lot lost her life because she looked back although she was told not to do it, and was turned into a pillar of salt.

Archaeologists do not try to explain why these cities were blotted out but they have a theory of how they were destroyed—they think their destruction came about through a great earthquake which was probably accompanied by explosions, lightning, issue of natural gas and general conflagration. God is merciful and just.

My Community: A Mission Field
Matthew 28:18-20; 25:34-40
by Darrell Franken

"In as much as ye have done it to the least of these my brethren ye have done it unto me." This statement speaks words of judgment and condemnation to many who profess Christ but do not follow his example.

But that verse also takes us by the hand to show us what we as Christians are to do. It leads us to see that an act of mercy to a violent neighbor is a missionary enterprise. The verse gives us added impulse to be sympathetic to suffering friends. It points us to acts of kindness to those we offend, and deeds of love to those who offend us. Our community is a Mission Field for those willing to help our suffering and thorn-crown humanity.

A Missionary's Armor
1st Youth: In the days of medieval knights, most of those who went into battle were covered with pieces of hammered iron to protect them from the swords of their enemies. A Christian too, needs protection from the hostile world as he seeks to serve the cause of Christ. He will not likely meet with persecution as people did after Christ died, but he will meet with cutting words and ridiculing sarcasm. These are the weapons of the enemy.

The armor a Christian wears is made from God's Grace. It is heated in the fiery furnace of conflict and struggle. It is pounded smooth on the anvil of God's Word, and it is tempered through personal experience. This armor is not absolutely impenetrable. But it will save a man from the fiery darts of the wicked.

A Missionary's Tools
2nd Youth: It may sound strange to think of a missionary using "tools." This term is only used to indicate those things which a missionary uses to help him witness.

One of the "tools" that youth can use in their missionary endeavors is kindness. Kindness was an admirable attribute of Christ. He used it and gained a good reputation. It was also partially responsible for bringing together the large following of people which thronged him.

Another tool is "helpfulness." Boy Scouts and Girl Scouts are trained to be helpful. Their honor is dependent on it. Their code requires them to practice it. Christian young people can take a lesson from the scouts.

The "power of conviction" can also be named as a tool for missionary work in one's community. This power comes through faith in Christ. The faith must be grounded in a personal experience, and when that happens the "power of conviction" will become extremely helpful.

This list of tools could be expanded to almost any length: using such things as prayer, meditation, devotional reading, and others as "tools" which youth can use in his Mission Field: The Community.

Allegan Schools Feeling 'Pinch'

ALLEGAN (Special)—Allegan County Superintendent of Schools G. Ray Surgis said virtually all county school districts are "in the same boat" financially, due to the fact that last quarter state aid payments are not coming up to the \$190 per child they counted on.

With state sales tax revenue down and school enrollment up, state aid checks due this week are falling short of expected revenues, he said. Several county districts already have sought necessary forms from his office to borrow against next year's payments in order to keep their schools operating until the end of the school year.

"These districts will be sorepressed next year, in fact all county schools will be in trouble if the legislature doesn't come up with additional funds," Surgis stated.

Allegan's city schools are still waiting to learn just how bad the news actually will be. Miss Hazel Bishton, secretary to the superintendent, said the district's state aid check is not due until the 15th. She indicated the district did have a cash reserve but pointed out that it would be impossible to say whether it would be adequate until the state aid check arrived.

Two Youths, Girl Injured in Crash

Two Holland brothers and a passenger in their convertible were injured early Sunday morning when the car missed the curve on M-40 South of Holland and landed upside down in a ditch.

Dave Bronson, 18, of 585 West 23rd St., his brother, Jack, 21, and Carol Meyer, 18, of Hudsonville, all were in "good" condition Monday at Holland Hospital.

Dave received lacerations about the face and legs and chest bruises. Jack suffered facial lacerations and body bruises. Miss Meyer received severe body bruises and a possible fractured pelvis.

Allegan County deputies said Dave was driving the 1954 model car when it failed to make the curve as they headed towards Holland. The car swerved off the road into a ditch and flipped on its top pinning all three underneath it.

Deputies said it took a dozen men to lift the heavy car from the injured persons. They issued Dave a ticket for failure to have his car under control. The car was demolished.

Portside Pitches One-Hitter; Dutch Keep Second Place

Jim Kaat came within one man of a no hitter at Riverview Park Monday afternoon as Hope College blanked Adrian. 5-0 in the first game of a doubleheader.

Then in the nightcap, the Dutch pushed across one run in the bottom of the eighth inning to win, 5-4 and took a stronger hold on second place in the MIAA. The Dutch have a 9-2 conference record, one game behind league-leading Alma.

With two out in the seventh inning, Kaat served one right down the middle which Jim Sadtler slapped for a double to left center field. The Zeeland portsideer faced 23 men and struck out nine. He hit one batter in the fifth inning. Kaat threw only about 10 wide pitches in the game and had most of the Adrian batters hitting the first pitched ball. The Hope freshman threw mostly fastballs and curves.

Kaat, who now has a 4-0 MIAA record, helped his own cause along in the second inning, with a single to right field which scored two runs. Jack Kempker, who had walked, and Art Olson, who beat out a bunt, came home.

Kempker pounded a home run into the left field grandstand in the third.

Single runs also crossed in the fourth and fifth. Carl De Vree singled in the fourth and scored on Kaat's single to right for one run. Dave Woodcock doubled in the fifth, took third on a passed ball and scored on Olson's deep fly to right for the final Hope run.

Three consecutive batters beat out bunts in the last of the eighth to set the stage for Hope's win in the second game. Daryl Seidentop, Ron Wetherbee and Mert Vanderlind all were safe on the dribblers.

Seidentop was forced at the plate on Jack Faber's smash to short but Wetherbee tallied the winning run, scoring on Ron Bekius' long fly to deep left.

Wetherbee pounded a home run in the second inning over the right field fence to open the Hope scoring. This was followed by a single run in the fourth Art Olson, who had walked, scored on a hit by pitcher Mert Vanderlind.

Woodcock sent a screaming line drive home run into the grandstand in the seventh inning for the third Hope tally and the fourth run came in the seventh as Ron Bekius, who was hit by a pitched ball, scored on Olson's hit.

Adrian shot ahead in the fifth inning of the game with four runs, scored on four errors and two hits, including a pop fly double.

Line score:

Hope 021 110 0-5 6 0
Adrian 000 000 0-0 1 2
Batteries: Kaat and Woodcock; Joles and Geer.

Library Looking Glass

If father and mother cannot find something they would like to read in the adult section of our City library—and they must be hard to please if they cannot—they would do well to sneak into the children's section when the youngsters are in school, and glance through the splendid selection of books for young fry.

For fifth and sixth graders, for example, there is a fascinating series of books entitled "We Were There." Based on the radio series of similar title, here are 12 books, clearly and simply written and well illustrated, of important events in history, written as an eye-witness account. Included in the titles are "With Byrd at the South Pole," "The Battle of Gettysburg," "Oklahoma Land Run," "Klondike Gold Rush," "The California Forty-Niners," "Jean Lafitte in New Orleans," and "The Oregon Trail."

If father gets hold of this exciting series first, Junior won't have a chance with them until he has finished!

Another excellent book is "The Story of Alaska" by Harold McCracken. This, too, is illustrated with dashing pictures, and contains little-known or little-remembered facts about this country. The chapter covering the time when Alaska was Russian is particularly interesting.

Three more books treating of important events in our history are "The Civil War," by Fletcher Pratt; "The American Revolution," by Bruce Lancaster, and "Winning the West" by Harold McCracken. All these books give historical facts but written in such a manner as to make them as interesting as present events.

"Water For America" by Edward Graham is an unusual and intriguing book for youngsters. Chapters on different kinds of water (including snow and steam), bodies of water (rivers, streams, lakes etc.), uses of water (drinking, swimming, power, irrigation, etc.) bring the reminder that though we take it for granted, water is one of our most valuable possessions. It should awaken the imagination of boys and girls alike.

For even younger children there is a charming little book "After The Sun Goes Down" by Glen Blough, which tells what happens to the animals and birds of the day time, and of the different kinds of animal wild life which awaken at night. Chapters have unusual headings—"Gliders," "Hunters," "Flutterers," "Chirpers," "Builders," are some of them, and you feel you just must read on to find out who and what these busy creatures are. Some of them are bats, owls, woodpeckers and whiporwills. It is a delightful book to read aloud to your children.

We have only room for two stories. One, "Stars for Crispy" by Mabel Leigh-Hunt is a simple but well-told story of a little Italian girl belonging to a large immigrant family, living in the slum part of the big city, and of her desire to achieve stars—gold stars which the library gives for reading a large number of books, the star diploma for being top in the class for baby care, and the beautiful words which her mother says hang in the sky like stars for you to reach up and take down when one needs them. Crispy has her ups and downs, and goes to a farm for a visit, a visit made possible by the kindness of a mysterious someone called as Crispy thinks "she-ate-cherries" which turns out to be Associated Charities!

"Black Fox of Lorne" a story of the early days of Scotland by Marguerite de Angeli. This is a story of the dim past when the kingdom of Scotland was barely in existence. It is adventurous and beautifully written, but perhaps a little difficult for children to understand. Good for reading aloud.

Ireland was the object of the earliest Viking raids.

Hawaiian Theme Feature Of Junior, Senior Event

An eight-foot straw hut surrounded by a genuine banana tree, palms, ferns, a sleeping native and a burro set the mood for "Hawaiian Holiday," theme of the Christian High School Junior-Senior banquet Friday night at the Civic Center. The formal affair is an annual event given by junior class members for seniors and the faculty and their wives.

Other features of the unique decorations were a false ceiling of sky blue crepe paper, and papered walls of beach and sea to give an illusion of being on a Hawaiian island. Set about the auditorium were water skis, surf boards, fishing nets and an old Indian canoe.

Table decorations included centerpieces of miniature palm trees, pineapples and coconuts, small banjos, mandolins and guitars. Nuts were Hawaiian straw hats.

Preceding dinner, leis were presented to all guests and punch was served at booths decorated in keeping with the motif by Dr. and Mrs. Bert P. Bos and Mr. and Mrs. Raymond Holwerda. Opening devotions were conducted by Andrew Vander Zee.

Welcome remarks were made to the seniors by James Kool, junior class president. The response was given by John Baker, president of the senior class. Master of ceremonies for the evening was the Rev. John Rickers, pastor of Noordloos Christian Reformed Church.

The junior quartet, Louis Wagnveld, Ed Diepenhorst, Jim Michmerhuizen and Don Vanden Bosch sang "The Lone Prairie," "Without a Song," "By the Light of the Silvery Moon," "Grand Night for

Singing" and "No Other Love Have I." Paul Weener was piano accompanist. A junior girls' trio sang "Banana Song" and "Aloha." Members were Linda Brower, Judy Van Rhee and Thelma Vredveld. Guitar accompanist was Marcia Goodyke.

Several numbers were played by a band composed of Cal Vander Meyden, Warren Otte, David Tanis, Merle Dykema, Ron Bolkers and Bill Va. Applauded.

Concluding the program was a one-act play, "Little Darling." Cast members were Joan Vander Leek, Janice Van Langen, Dan Bos, Karen De Graaf, Bob Jansen and Betty Marcus. Andrew Vander Zee, class sponsor, was director.

Members of the decorating committee included, tables: Marcia Westenbroek, chairman, Bob Cook, Warren Javling, Clarence Dornbos, Marvin Zwiers, Jim Meurer, Sally Blaukamp, Anne Vander Maat, Lois Wolters, Ruth Walters and Doty Nykamp; auditorium: Sherwin Ortmann, chairman, Georgia Bouma, Ruth Frens, Judy Klunder, Ula Oosterbaan, Carol Stephenson, Joyce Ten Harmsel, Ed Bosch, Dave Tanis, Ed Diepenhorst, Jim Alberda, Herb Berens and Merle Dykema.

Menu committee members were Thelma Slenk, chairman, Shirley Bakker, Linda Brower, Norma Kouw, Mary Vanden Brink, Sylvia Nykamp and Carol Zwiers. Members of the program committee included the play cast and Gretchen Ortte, Merle Lemmen, Warren Otte, Louis Wagnveld and Jim Kool.

Junior class sponsors are Misses Anne Selles and Jeanette Veltman, Bernard Kreuzer, Arthur Tuls, Andrew Vander Zee and Eugene Hage.

Open house for faculty members and their wives was held at the home of Principal and Mrs. Holwerda following the banquet.

Tilton Speaker At Rotary Meet

William Tilton, manager of the La Mar Pipe and Tile Co., a division of the American Marietta Company of Grand Rapids, was guest speaker for Rotary at their noon meeting Thursday.

Speaking on modern bridge construction methods, Tilton said that pretension is the latest and cheapest method of making concrete bridge beams. In making prestressed beams, he said, wire cables are laid out and stretched before the concrete is poured. This puts the concrete under compression before a load is applied, resulting in increased strength with less material. This method of manufacture is more suitable for mass production, with lower construction costs to counterbalance the increased cost of steel and labor in bridge construction, the speaker added.

A film, "Bridge Ahead" which shows the actual construction of a prestressed beam, was presented. John Galien was welcomed into the club by Dick Miles. It was announced that Sidney Tiesenga would represent Rotary at Boys State this year.

Farm Bureau Group Has Meeting at Town Hall

The "Arbeider" Farm Bureau Community Group, met for their May meeting Wednesday at the Olive Town Hall. Harold Slag, chairman, presided.

Davis Bosch led the discussion on "Agriculture and Our Freedom Under the Law." The group felt that their forefathers had written the bill of rights "so that we could enjoy freedom under the law and also developed the two-party system."

"We have been able to shift our votes as the danger to our rights developed. Socialism works toward state control and a one-party system. Farmers are beginning to taste the results of increasing state control over their operations. Decisions today will have much to do with future continuation of our rights under the law—and those of our children."

The group decided that every citizen must work harder for a better two-party system of government.

Next meeting of the group will be held June 12 at the Olive Town Hall.

Hungarian Child Is 'Adopted' by Fourth Graders

A nine-year-old Hungarian refugee who was taken to a Christian Children's Home in Austria because her parents are unable to care for her properly, today is receiving extra opportunities which might not have been forthcoming had not a group of local pupils come to her rescue.

The child, Eva Barna, was "adopted" (for a time at least) by Fourth grade pupils of Washington School, taught by Miss Jeanette Veltman.

Eva was assigned to the local children following their request for "any child in need" after a discussion as to whether they should sponsor a girl or boy. Money was raised by selling flower and vegetable seeds during the late winter months.

Eva, an intelligent, good-natured child is in the third grade in school. He was one of the unfortunate victims of the recent revolution in Hungary and until the crisis had lived happily with her parents in Totts, unaware of the political perplexities that disturbed her elders. Her father was a carpenter. The family fled, along with thousands of other refugees to Austria and freedom.

Many of the parents of children cared for by the Christian Children's Fund were Freedom Fighters who, when the fighting became a useless slaughter, fled with their families to Austria. Other brought their children to the border and left them and went back still determined to fight to the end."

The local children are eagerly awaiting answers from their new charge, who was assigned to them through the Christian Children's Fund, Inc. of Richmond, Va.

Churches to Open Annual Michigan Week on May 19

Throughout Michigan on Sunday, May 19, clergymen in hundreds of churches will recognize the spiritual foundations of the state and their own denominations.

This day, which opens the fourth annual Michigan Week celebration, has been designated as "Spiritual Foundations Day" and hundreds of special services are now being planned to bring out the importance of religion in the history and heritage of the state.

The Rev. Kenneth G. Neigh, Detroit, president of the Michigan Council of Churches, is chairman of the Michigan Week committee on spiritual foundations and his committee includes representatives of all faiths.

"On this day we hope that all clergymen and laymen will recognize the spiritual values of life in Michigan for it is the God given natural resources of this region that make it the beautiful and pleasant commonwealth it is today," Rev. Neigh said.

Many religious services and sermons in connection with the day will be broadcast or televised. The history and progress of many churches will be publicized. The importance of religious principles in the government and business life of the state will be stressed.

In some cities and regions there will be an exchange of clergymen on the same plan that was inaugurated by Michigan Week in the exchange of mayors and village presidents. Honors will be accorded to many who have contributed to the founding and growth of the church.

Church choirs will join in city and county wide observances in many communities and some churches will take part in music festivals. There will be displays of pictures and mementos relative to the history of the denomination with special emphasis on the development of spiritual life in the community and state.

Some outstanding events are being planned, the chief of which is the annual pilgrimage of the Pere Marquette Memorial association to the shrine of Father Marquette near Ludington.

Modern Trends Told at Meet

The meeting of Chapter BW P.E.O. was held at 8 p.m. Monday at the home of Mrs. E. D. Wade, 625 South Shore Drive, with Mrs. V. J. Baerman as co-hostess.

In the program, "Hats Off to New Trends," Mrs. Lester Kuyper spoke on modern trends in education, pointing up the preoccupation of many communities with the problem of annexation; the plans devised by larger schools to keep them from becoming too impersonal; and the interest shown in the emotional development of children, as well as their intellectual growth.

New trends in religion were discussed by Mrs. John O. Hagans, who told of changes in attitude of the clergy in the last few decades; the importance given to the use of visual aids in religious education; the present tendency of study groups to follow through their study with positive action; and the tremendous increase in church attendance throughout our country—a testimony to man's search for a faith to live by in these momentous days.

A report on the latest trends in summer fashions was presented by Mrs. Garrett Vander Borgh. In addition to hearing up-to-date news on styles and color schemes, she said that one of the newer trends is that clothing manufacturers no longer depend on guesswork or intuition in planning production schedules. Months in advance of a new season they consult with long range weather forecasters. The predictions are for a hot summer in 1957, so they are well prepared to supply the stores and dress shops with an abundance of attractive summer dresses and hot weather togs to take care of all needs.

Mrs. William Schrier, president, conducted the business meeting. The last regular meeting of the current season will be held on May 27, at 8 p.m. at the home of Mrs. Richard Hartigan, 687 Harrison.

Chamber Sounds Caution Note

A warning about schemes and rackets designed to fleece persons who want to earn extra money at home was issued today by W. H. Vande Water, secretary-manager of the Holland Chamber of Commerce.

According to Vande Water, the scheme is claiming victims in communities throughout the country, including Holland.

Scores of different types of earn-money-at-home schemes currently are active. Some of them involve the sale of varied merchandise such as name plates, aprons, jewelry assembly kits, bird cages, beach robes, lamp shades and even rubber roses.

Persons responding to the rackets are asked to buy something from the promoter, or to buy instructions for a certain sum.

Experience shows that little or no money can be made from such ventures and local residents are urged to check with the local Chamber before "falling" for such schemes.

Ottawa County Farm News

Richard Machiele, County Agricultural Agent

The report from the Ottawa No. 1 Association for the past month shows the High cow registered Holstein owned by Gerrit Berens of Beaverdam produced 2,055 pounds milk and 90 pounds butterfat. There was a two-way tie on second place, an aged cow owned by Gerald Poest, a registered Holstein producing 2,190 milk and 88 butterfat and a registered Guernsey owned by Hilbert Holleman with 1,515 milk and 88 butterfat. Third high cow was a registered Holstein owned by Gerrit Meekhof with 2,130 milk and 85 butterfat. Fourth place was a registered Holstein owned by Gerrit Berens with 1,950 milk and 84 butterfat.

High herd for the past month is the Elmo Heft Conklin herd with 48 butterfat. Second place is tied with Dick Post of Jamestown and Gerald Post of Zeeland with 46 butterfat. Third high herd is owned by Hilbert Holleman of Byron Center with 45 butterfat.

We have had some inquiry this past week about an all-purpose spray mixture for fruit trees. Take 1/2 cup of Ferbam; 1/2 cup Captain 50 per cent wettable powder; 3/4 cup Malathion (25 per cent wettable powder) and 1 cup of Methoxychlor (50 per cent wettable powder). This formula is listed in our Folder F 17 entitled "Pest Control Program for Home orchards and Smallfruits. This folder is available upon request.

We would like to repeat the recommended control for Clover Mite which is a bother to a good many home owners who have clover in their lawns. This small insect is red in color and about the size of a blunt pinpoint and has the tendency to crawl up on the house on a warm summer day. It is more of a nuisance than anything else. They can be easily controlled by using one of the miticides. Three are recommended: Aramite, Ovotran, and Dimite. We suggest wettable powders be used mixed according to manufacturer's suggestions and spray the outside of the foundation and into the grass and clover and a six foot band around the house.

These pests are noticeable only during the spring and when the hot summer weather comes, they disappear.

A new material is on the market to control mosquito, chigger, black fly, sand fly, fleas, ticks and deer flies. It is called Diethyltoluamide and is registered as a 50 percent solution in ethyl or isopropyl alcohol for spot treating of clothing and for use on skin as directed on the label. It is non-injurious to man if used with stated label precautions. If gotten in the eyes, it may cause irritation and also the skin may redden when perspiring. It is not recommended for use on pets and livestock. One of the commercial manufacturers have placed it on the market with the trade name (Off) It should be available at drug and grocery stores.

We would like to suggest three folders concerning the use of Chemical weed control in small orchards, vegetable crops, and field crops. These are available upon request from our office. Ask for F-190 Weed control in small fruits; F-193 Weed Control in Vegetable Crops; F-222 Weed Control in Field Crops.

We have done some experimental work in the use of Dalaplan in the control of quack grass in small fruits in orchards. We can recommend that it can safely be used on raspberries and grape plantings. It does a good job of killing. We are in the process of experimenting with it on blueberries at the present time. Will have some more information for you shortly.

From previous experiences we would like to recommend to home gardeners to use chemical in setting blossoms on tomatoes. Tomatoes are a plant that will not set fruit when the temperature at any time falls below 55 degrees. To set the first blossoms use a material such as blossom set, seedless set, and others. Use as directed on the container. You will find that you will be setting tomatoes much earlier in the season than you ordinarily would.

Some of the first experiments in overwater flying were made in the United States in 1906.

State Police Posts Open to Public

GRAND HAVEN (Special) — A special invitation to the public to visit the Grand Haven post of the Michigan State Police during the observance of Michigan Week, May 19-25 has been issued by Sgt. Milton Swingle, commander.

"While the public is welcome to visit a State Police post at any time, Michigan Week is a very appropriate occasion to do it," Swingle said. "The best hours will be from 10 a.m. to 4 p.m. each day."

Officers will show visitors through the post and answer questions about State Police operations.

"We will be happy to have anyone call on us who is interested," Swingle said. "This open house has been arranged to better acquaint the people with their State Police and to inform them on our numerous activities to protect their security. Many persons believe the State Police are strictly a highway patrol, when actually we do general law enforcement and much of our time is spent on criminal investigations and other matters not having anything to do with the highways. Michigan Week will afford an opportunity to find out just how broad a field we cover."

Open house will be held at every State Police post during the week.

Realty Firm Begins Suit

GRAND HAVEN (Special) — The Duga-Kiebach Realty Co. of Grand Haven, has begun suit in Ottawa Circuit Court against William J. Swart, Grand Haven zoning administrator and building inspector and the city of Grand Haven Board of Appeals, involving the stoppage on the construction of a house and garage in the Sheldon Homes Addition.

Plaintiff claims the property was purchased July 24, 1956 and that June 4, 1956 the city adopted an ordinance relative to building requirements which included a setback of 35 feet.

Plaintiff claims they received a permit last Sept. 27 and on April 26 of this year construction on the house was stopped after neighbors petitioned for enforcement of the regulation in the new zoning ordinance.

Local Man Finds 1902 Sentinel

Benjamin F. Harris of 359 Columbia Ave., ran across an interesting copy of the Holland Daily Sentinel in his possession the other day! It was dated April 26, 1902.

The edition was interesting to Harris because his name appeared in a front page article about J. C. Bishop of Agnew. It seemed Bishop, Ottawa County pioneer, was leaving that day for Los Angeles for a change of climate. Bishop had been ailing for some time.

Years previously, Bishop had been influential in county politics. He was an ardent Republican and along with Sen. Burrows of Kalamazoo, made speeches in the district for Gen. Sloughton for Congress.

Harris accompanied Bishop as far as Chicago, according to the article.

Another article tells of a 100 by 100-foot addition at the H. J. Heinz Co. plant that "will double its capacity."

Big Star Lake this summer. Alternates are Cynthia Hein and Jack Mapes.

It also was announced that a memorial will be held on June 14 in memory of members of all Rebekah lodges who have died.

Refreshments were served by Mrs. Genevieve Welton and her committee.

Hope Wins Meet; Wiegerink Hurt

Hope Splits With Olivet; Olson Hurt

Olivet won the opener, 6-5 and then were slapped 14-2 in the nightcap.

Besides the seven runs, picked up in the fifth on four hits, three walks and an error, the Dutch made three each in the first and second innings and added one more in the third.

Coach Russ De Vette was able to use 16 men in the second game and Hope hit safely 11 times, all singles. The Dutch cause was helped along by nine Olivet errors.

Jack Faber, Jack Kempker and Olson each had two hits in the second game while Tim Vander Mel, Dick Morgan, Ron Wetherbee and Al Kober each had one safe.

In the opener, Hope took a 2-0 lead in the first inning as Faber singled and scored on Dave Woodcock's triple. Woodcock tallied on Kempker's drive to short.

But the winners came right back with four hits and a walk in the bottom of the first to go ahead. Olivet's fourth run came home in the second on two singles.

Jack Faber singled in the third and scored on Olson's single after stealing second.

The only solid hit, the Comets made, a triple by Newingham in the fourth, brought home the fifth Olivet run and then Newingham scored the winning run on a pop single by Meisterman.

Hope made its final two runs in the sixth. Kempker and Carl De Vree walked. Kempker and De Vree came home on Morgan's long single.

ELMHURST, Ill. (Special) — Paul Wiegerink, Hope College's splendid timber topper and speedster, went on another rampage here Saturday with three first places in the Elmhurst Relays and one of his performances was the best of the season and another showing equaled his best earlier time.

Wiegerink again cracked the Hope College record in the 220-yard low hurdles. He hopped the hurdles in 24.4 which is one-tenth of a second faster than he has ever done before. The low hurdle race was the sixth race Wiegerink had run Saturday since he had to qualify in each of the three events.

His 10:1 performance in the 100-yard dash equaled the mark he made last Tuesday at Allegan against Adrian. The 120-yard high hurdles mark of 15.3 was slightly slower than his 15 flat mark made earlier in the season. Wiegerink finished about five feet ahead in each race.

Although the meet was run on a wet track, the soggiess failed to bother Wiegerink or the other four: Hope contestants as the Dutch racked up fourth place in the Class B division of 13 schools. Belout, Wis., won first with 52 points while Dubuque, Iowa was second with 46 and Carroll, Wis., followed with 38 and one-third. Central Michigan won the Class A competition with 37½ points.

John De Vries, Hope's outstanding field events man, tied for first in the pole vault with a leap of 11'6" and took third in the broad jump.

Jim Hilmer, captain of the Hope team, finished third in the high hurdles while Dave Spaan, who ran his fastest 220-yard dash race of the season with a 22.5 but failed to place, did finish fourth in the quarter mile. Jim Mohr, Hope freshman, failed to place in the 100-yard dash finals but chalked up a 10.5 performance, best of the season.

Opinion Filed In Yost Case

In the court's opinion it was brought out that according to an opinion of the Attorney General, "county officials are required to perform only official duties specifically required by law." The opinion of the Attorney General states that "if the county surveyor, in addition to his duties as a public officer, performs the services of a registered land surveyor, in a private capacity, he is required to be registered, not only as a professional engineer, but also as a land surveyor."

Yost has been charged with practicing land surveying without being registered and pleaded not guilty March 18, 1957. The alleged offense was in Holland Township Oct. 29, 1955 upon complaint made by Donald and Laura Essenberg. The case will probably be tried during the June term.
