How Many Guests Did Our Tulips Have Sunday?

ANY FIGURE IS GUESS WORK
TO SAY THE LEAST

Tulip time in Holland has brought many comments, several new suggestions, a few criticisms (mostly constructive), but the most question during the week was: "How many visitors came to Holland Sunday?"

The highest figure thus far given is 100,000; the lowest 50,000. The Holland City News has been asked repeatedly how many and the questioner was answered that we did not know, nor does any one else know. Any figure at best is a guess.

That there were thousands of automobiles and many thousands more people evident from the congested streets and the miles upon miles of parked cars that occupied the heart of the city, not only on business streets, but the residential streets as well.

A few personal sightings can give some idea as to the throng visiting Holland on last Sunday. Al Joldersma drove down Seventeenth street to Jensen Electric Park, and there was a solid line of automobiles coming towards Holland. In that entire motored there were only four Holland licenses and Al should know, for he issued them.

Bill Eby of Holland, connected with Butterworth hospital at Grand Rapids kept count of the automobiles on U.S. 21 from the Holland limits to the Grand Rapids limits going in the direction of The Tulip City, and counted 1567 cars going Holland-wards.

Ferry Ray, whose home is on Central Avenue, spent an hour counting cars coming in on that thoroughfare. The average was 31 a minute.

Former Mayor E. P. Stephan stood for six minutes at the corner of River Avenue and Eighth St. and during that time counted 212 cars headed for Centennial Park and the flower show.

Dr. O. Van de Velde, who had to make a call on the north side, said that it took him 40 minutes to drive from the Black River Bridge to his home in Lawndale Court, which ordinarily takes only a few minutes.

Prospective guests of the editor of this paper were supposed to arrive from Muskegon during the afternoon, but phoned that the congestion at Grand Haven towards Holland was so tremendous that it would take most of the afternoon to get to this city and they turned back home.

A representative of the News made it a point to visit every main gateway to the city and found that for hours an endless stream from north, south, east and west slowly rolled into the city. There was such a congestion that hundreds upon hundreds left the concrete, cutting across country towards Holland over less traveled highways.

The Grand Rapids Press has the following on the traffic:

"Traffic between Holland and Grand Rapids was badly congested throughout the day. Shortly after noon M21 became completely choked with two lines of cars extending from the city limits of Grand Rapids to Holland. Traffic lights in Grandville, Zeeland and this city tended to retard the movement of automobiles on trunkline highways."

"There were so many automobiles in Holland Sunday afternoon that it was next to impossible to find parking space near the tulip beds. Traffic fairly crept through the city and the flower fairs for the most part viewed the tulip beds from car windows. It was almost impossible to crowd into the flower show in Masonic temple."

Chief Van Ry felt sure that he was well prepared for the influx of cars and had plenty of men supposedly to take care of what might come. But the steady streams from all directions was more than anyone had ever dreamed of.

Besides the regular force of the police department put on two extra men, the Ottawa County State Police furnished three extra, but still more men were needed and John Luidens and Ed Brouwer, police commissioners, gave a helping hand, and John Ter Beek and Andrew Steketee, local business men, were doing their best to direct traffic. Mr. Beekman handled the traffic at the post office corner.

Now that you have the facts you can give us the figures and if you find them it would be an accommodation to the Holland City News to call up 2020 with the desired information.

GRAND RAPIDS PASTOR WILL SPEAK AT HOLLAND

Raymond Drukker, pastor of Trinity Reformed church, Grand Rapids, has been booked as speaker for the quarterly meeting of the Federation of Men's Adult Bible Classes, to be held next Monday evening in Maple Avenue Christian Reformed church, Holland. Holland Loves A Program Of Good Music

HOLLAND CIVIC ORCHESTRA IS UNUSUALLY WELL RECEIVED

As one of the Tulip Week offerings the Holland Civic Orchestra made their first real public appearance at Carnegie Hall, giving an extraordinary and well balanced program.

The large hall was packed to the doors and if one is under the impression that the rank and file do not appreciate music of a classical nature well rendered the applause of last evening tells a different story.

Director Heeter stated to the News this morning "Nothing has gratified me as much while I have been in Holland as the first efforts of our civic orchestra." Surely as far as appreciation is concerned the new organization has gone over.

It is evident that the orchestra under the direction of Mr. Heeter has put in some hard work and the difficult offerings as will be seen by the program below, were ably interpreted.

The program follows:
1. Overture, Mendelssohn
2. Unfinished Symphony, Schubert
(a) Allegro Moderato
(b) Andante Con Moto

This symphony was composed in 1822 when Schubert was but twenty-five years of age. For some unknown reason it was never completed and so is known as the "Unfinished Symphony."

Schubert's greatest gift was his genius for writing beautiful melodies. The "Unfinished" was composed in 1822 when Schubert was but twenty-five years of age. For some unknown reason it was never completed and so is known as the "Unfinished Symphony."

3. Intermezzo from "Nuits" Delibes
4. Valse Triste, from "Kuslema" Sibelius
This is one of the most popular of the Finnish master's compositions. It is a light and airy waltz, but the melody is so beautiful that it has become a favorite of the listener's heart. The music is so beautiful that it has become a favorite of the listener's heart.

5. Ballet Music, from "Faust" Gounod
6. Ballad and Circumstances, Elgar

MEMORIAL CHAPEL

FILLED MONDAY TO HEAR "SPRING"

As Monday's feature on the program for the Tulip Festival was the rendition of a fitting musical production "Spring," by Joseph Haydn, presented by the Holland Civic Chorus in Memorial Chapel.

The semi-sacred cantata was received with enthusiasm by a large and appreciative audience.

The soloists were outstanding in their respective roles. They were Mrs. John E. Telling, soprano; Andrew Sessink, tenor; and Walter Groth, baritone.

W. Curtis Snow was director while Mrs. Snow at the organ and Miss Sarah Lacey as pianist were accompanists.

The Brahms Motet "The Wall of Heaven," which was given recently at a vespers service at the chapel was repeated last evening prior to the cantata. This oratorio was one of the high lights during Tulip week in Holland. The program follows:

1. Overture.
2. Recitative—Simon, Lucas and Jane, "Behold Where Surly Winter Lies."
3. Chorus, "Come, Gentle Spring."
4. Recitative—Simon, "At Last the Bounteous Sun."

Saturday Was Moving Day for Warm Frienders

FINE NEW OFFICE BUILDING NOW OCCUPIED BY OFFICE STAFF

Building Imposing From the Exterior, Rich But Subdued on the Interior

All was hustle and bustle at the Holland Furnace Company plant Friday and Saturday for these were the days set to move from the old office building, that did service for years, to the fine new structure built at a cost of more than a quarter million dollars.

The large building standing high up on the crest of the hill on Columbia Avenue is an imposing structure.

Building operations were started some eight months ago and today the new offices, housing a tremendous clerical force, is complete in every detail. One is immediately impressed with the richness of the construction entering. The massive steel and metal doors over which are suspended two gigantic opalescent fixtures, show a richness and solidity indicative of this progressive nationally known organization that has given our city unlimited advertising and has made Holland known over the entire continent.

The next big surprise comes after one has entered the portals of this substantial building. The mammoth stairway that leads to the lobby is a dream in construction with heavy brass rails, specially prepared tile floor, onyx side walls, a ceiling in raised rosettes in blending colors such as only an artist can paint.

One must see these offices in order to appreciate them. Everything is rich, but not flashy. The colors are subdued, but blend in perfect harmony. Office furniture, rugs, side walls, electric fixtures, all harmonize in a color scheme that is pleasing but not loud.

There are conference rooms, respective offices for the heads of every department, there is a hospital for first aid, a large accounting room for the clerical forces and an imposing directors' room for "across the table" talks. A spacious well lighted room on the top floor is to serve as a rest room for the ladies who take their lunches with them and in this department all the accessories for warm meals have been installed enabling the girls to help themselves during lunch hour—with plenty of lounging chairs and cozy corners for comfort after the repeat.

One large department indicating the tremendous volume of business done by the Holland Furnace Company is noticeable in the filing room where thousands upon thousands of steel cases hold the correspondence sent in from the different branch offices from day to day. A peep into that filing room convinces one that the Warm Frienders sure do some business. The mass of reports and detail in this extensive department staggers one to think of it and Secretary Wrieden says that this represents the filing of only one year's business, since at the end of the year the files are emptied, the correspondence placed elsewhere and the cases filled with the next year's business.

The large office building is naturally heated by a battery of eight large furnaces built in the company's plant. These heat units have been so regulated that there is an even temperature with very little variation during the entire winter months. Radiation comes from the ceiling and what is more, the air in the entire building is automatically changed every few minutes and is washed in a large cooling and washing room, passing through a water spray installed in the basement before it is forced through the ducts that connect every part of the building.

Secretary Wrieden, Saturday personally conducted your editor through the new structure and it was an interesting hour indeed. Mr. Wrieden pointing out the appointments of the building and the reasons for many things that will bring about not only efficiency but comfort and pleasing working conditions the year around.

Yes, Friday and Saturday were moving days for the office force of the Holland Furnace Company, when two hundred fifty employees transferred their records from the old building to the new modern office building just completed.

In an interview with Mr. C. H. Landwehr, Vice President and General Manager of the company, Mr. Landwehr stated, "We are today in full operation in our new building, and this marks the realization of a step we have contemplated for the past ten years. Moving out of our old offices, we are moving out of the offices that were established when the business was originally started twenty-five years ago. The old offices have been added to almost every year since the beginning, necessitated by our ever increasing business. In the past ten years we have been faced with the needs of more efficient offices, continually making new additions to take care of our expanding business has made it necessary to scatter our forces upstairs over a large part of our factory space, making working conditions anything but ideal for efficiency. We had a total of 40,000 square feet of office space in our old quarters and a total of 44,320 square feet of office space in the new building. With a very small increase in floor space, the arrangements in the new quarters will allow for an expansion of fifty per cent additional business."

"Last August our Board of Directors voted to proceed to build the building into which we moved yesterday. Our first steps were to employ the services of W. H. Lef-fingwell of Lef-fingwell Incorporated, New York City to draw the preliminary sketches, which has today culminated into one of the most efficient office buildings in the state. Mr. Frank Davidson as architect, drew the final plans for the building and superintended its construction until his untimely

At the time the contract was entered into with Mr. Dyke, we stressed the desire that all materials should be purchased from local concerns whenever possible, and that our own men be at all times given preference for all construction work. We believe we have saved considerable money by building at this time on account of the low material cost, but we were chiefly interested in giving employment to as many men as possible when conditions were such as to cause more or less unemployment. We have not attempted to build anything elaborate or expensive in this, our

Big Damage Suit Is Again Tried In Circuit Court

OTTAWA JURY VOTES \$12,500 DAMAGES AGAINST PETER VAN ARK OF HOLLAND

A jury in circuit court at Grand Haven, late yesterday afternoon returned a verdict for \$12,500 in favor of Benjamin Bowmanmaster, Administrator of the Estate of Arthur Bowmanmaster, deceased and against Peter Van Ark of Holland.

Mr. Bowmanmaster died as a result of injuries received in an automobile accident in December, 1928, on M21 a mile and one half east of Zeeland. The accident happened during a terrific snow storm and the William H. DePree Company and John H. De Pree were also involved in the same accident. Suit was brought against the DePrees and Van Ark, but Judge Brown of Grand Rapids, who tried the case, dismissed the action against De Prees when it was found that the driver of the De Pree's truck had stopped to render aid to a driver whose car had been ditched. Attorneys Cross and Ten Cate of Holland represented the DePrees.

The case against Peter VanArk was re-tried however, Mr. Van Ark contending at the trial that he was driving carefully and not too fast but that the snow obstructed his vision partly and it was due to the elements rather than to his driving that brought about the accident.

Judging from the verdict of the jury, the twelve men took another viewpoint.

Judge Brown who presided at the second trial in dismissing the De Pree case ruled that the driver of the DePree car, if negligent at the time—this negligence did not contribute to the accident.

On the other hand in charging the jury in the Van Ark case, Judge Brown followed the ruling of the supreme court that there was contributory negligence on the part of the defendant and he so ruled as a matter of law. However he left to the jury to decide whether Arthur Bowmanmaster, the man who was killed, was also guilty of contributory negligence causing his death.

When this case was tried previously, Judge Brown dismissed the matter against DePrees and the jury rendered a verdict of "No cause of action" as to Mr. VanArk, but the Supreme Court reversed the judgment as to both DePrees and Van Ark and sent case back to the Ottawa Circuit Court for a new trial.

Approximately three days were taken up with this Van Ark-Bowmaster case. Attorneys Jay Lindsey of Grand Rapids and C. Lokker of Holland appearing for the defendant and Attorneys Clare E. Hoffman and Carl E. Hoffman representing the plaintiff.

The first stretch of the new pavement that is to reroute M21 from Holland to Zeeland is completed. It will be opened Saturday to traffic. Shoulders on the roadbed have not been completed but the work is being pushed.

Tulip Time Notes

Landlord Dauchy put on a fine street-cleaning exhibit last Thursday. The genial American-Frenchman had some Dutch family to work with. Who says the Dutch and the French don't clean well?

Rainy weather made it impossible to hold the concert by the American Legion Band in Centennial park on Tuesday as scheduled, but students of Mrs. Grace Dudley Fenton of Grand Rapids and those of the department of voice of Hope college gave a recital in Winants chapel. There was a representative audience despite the downpour.

Thousands are making a tour of the city to witness the hundreds of tulip beds, now in bloom. A ride over Holland's 30 miles of paved streets has brought many comments on the artistic display of tulip beds in every part of the city. The large garden surrounding the home of Mayor E. C. Brooks on State street, furnishes one of the most attractive spots in the tulip display. Several beds, containing thousands of tulips in all colors, rank next to Centennial park in excellence, beauty and artistic arrangement.—Grand Rapids Press.

Arrows have been posted all week on corners, directing visitors to the most advantageous drive where tulip displays are the most attractive in the city.

The Dutch theme, which is predominating all activities connected with the tulip festival, was exemplified in the musical program rendered in Hope Memorial chapel on Sunday afternoon. There were sung the favorite Dutch psalms by a large audience under the leadership of William Brouwer as a feature of the Sabbath contribution to the week's special program of music.

These psalms were sung by Dutch pioneers of the Holland colony in 1847 in the forests under the canopy of the blue sky before the first log church was erected as their house of worship and constituted the only musical liturgy under leadership of a "voorzinger" in religious services. Dr. J. B. Nykerk, dean of men at Hope College, was in charge of the program and Prof. W. Curtis Snow presided at the organ.

As a tribute to the service of the Melchior Chimes played the several selections of sacred music and John Mullenberg, trombonist played "Open the Gates of the Temple." Fully 2,000 visitors and Holland folks attended this psalm singing program.

Through rain or shine most of the Holland merchants had curbs flags flying during tulip week.

Individual exhibits of the tulip flower show has been a popular place for visitors, arranged in a small room at the right of the entrance in the Masonic Temple. This exhibit is sponsored by the Women's Literary club, and is in charge of Mrs. Arthur A. Vischer and Mrs. J. E. Telling. Featuring this exhibit were the tables laid, one for dinner and the other for breakfast. A handsome lace cloth covered the dinner table, the service plates were black, and the glass of etched crystal. Candlesticks of plain clear glass were used with black candlesticks. Dillies were used on the breakfast table, which was laid with blue glass. Calla lilies centered the dinner table, while yellow tulips were used on the breakfast table.

Following Holland's adoption of the tulip as its city flower, Grand Rapids has chosen the iris and for a start is distributing a large quantity of roots for immediate setting. The iris rivals the tulip in display of color, having many hues the tulip lacks. It is extremely hardy and grows well in all soils and locations.—Allegan Gazette.

When you drive over to the Holland Tulip festival, don't go expecting to see one grand massed effort of tulips in a big exhibition field. Tulip is queen of Holland this week, and you must look everywhere for her, on lawns and in the parks, on street corners and in back yards. Drive slowly so you can glimpse the lovely beds in yards behind the fine old homes. A drive suggested by C. A. Gross, secretary of the chamber of commerce is out Central avenue to State, back on State to River, River to Seventeenth street, west on Seventeenth street to the end, then back and forth on the streets crossing River and Central avenues. Centennial park is between Central and River avenues, starting at Tenth street.—Grand Rapids Herald.

The flower show at the Masonic Temple opened Sunday at 1:30 o'clock so as not to interfere with morning church services. The crowd after that hour was so tremendous that not over twenty-five per cent of those who wished to enter could be accommodated during the afternoon. It is estimated that 20,000

Studying Road Materials

Perhaps the greatest step forward in our road development is the attention being given to scientific selection of surfacing materials.

"Highway" to the average person has meant a main road, costing forty or fifty thousand dollars or more a mile. Obviously, such construction limits the mileage of road that can be built. Nowadays — and especially in rural areas — it is necessary to build the greatest possible mileage of road as inexpensively as possible. Traffic density, the type of business carried on in a locality and the physical characteristics of the land play an important part in preliminary road work.

By the use of sand-clay, gravel, shale, etc., bituminously treated, almost any community can provide itself with adequate, year-round water-proof surfaced roads whose original and maintenance cost is low. The future of agriculture in America will, to a large degree, depend on speed and economy in transporting farm products.

Good but inexpensive, secondary, farm-to-market roads, made of local materials scientifically treated, to connect with main highways, point the way to greater prosperity and progress for the farmer.

Resort Publicity
De Luxe

Editorial in Grand Rapids Press

Newspapers are in an embarrassing position when it comes to suggesting what is good "publicity" for resorts.

Publicity is too often regarded as a free puff, above and beyond the news—in other words, as propaganda "put over" on poor, blind newspapermen. But that view is usually in error. Real publicity—for resorts or anything else—is news in itself, news the public likes to read for its own merits, news to which the profits of the publicity seeker are only incidental. For example:

Benton Harbor's Blossom festival won't be a publicity picture for the "queens," for the Benton Harbor touring area, for western Michigan as a whole, for theaters and automobiles. It was highly commercialized yet the subject itself was news—the element of competition, the freshness and interest of the "blossom time" appeal, the town-to-town theatrical campaign.

Holland's delightful tulip time celebration, so rich in associations with the picturesque in old-country Netherlands life, has drawn thousands of visitors. It is a community event packed with the combined interest of history, tradition, real novelty, pageantry. That striking street-scene picture provided by the street-scrubbing spectacle is almost a model of the perfect "news-publicity" stunt.

There are many variations of the "revival-of-history" publicity method, ranging from centennial exhibitions, landings of birch canoe fleets with costumed missionaries and voyagers, and roles in lumber towns down to the up-to-date staged athletic meet held annually at Angel's Camp, California, where trained jumping frogs compete for a seat under the same mantle of fame which covered Mark Twain's famous but unfortunate lead-loaded amphibian of Calaveras county.

The point is that history, freshness, beauty and novelty make items which are news first, publicity secondarily. They not only do not reach the waste-basket, but should not. Readers want them for possibilities of their rare history as news, as a builder of resorts. Perhaps this year's state historical tour will awaken new areas to their buried treasure—to be dug out of local and historical records, and made real by restorations and fetes of many varieties.

Belasco Gone
Strange Sights in Spain
A Wall Street Story
Too Much Greek, Latin

David Belasco, one of the ablest, most brilliant theatrical managers and producers, is dead. He had been an important factor through all the important history of the stage in America. From negro minstrels and "Uncle Tom's Cabin," up to the modern play in which the "heroine" is a street drab, he had seen them all.

He leaves no successor in his field of work. He would not permit himself to "fall behind the profession," but he belonged to another age.

In Spain, strange sights are seen. Bands of workmen going through the cities cheering before blazing churches, groups of tourists following them. Firemen make no effort to save any church building set on fire, contenting themselves with playing streams of water on adjoining buildings to prevent flames spreading.

Spain has seized cash and lands belonging to Alfonso, the former king, and wants to get hold of him if possible to try him on charges of inciting mob violence.

Wall Street's uncertainty is illustrated in this story from that financial center.

An energetic broker was urging his client before the "five cents profit in three months" report came out. "Buy Steel, I tell you I know what they are doing. You can't help making money." The client replied: "Steel is good, but I don't like it just now. I would rather sell it short." Instantly the broker replied: "Oser nicht eine schlechte Idee," meaning "Not a bad idea either."

In spite of the double negative, the "osser nicht" statement was sound.

Yale decides that Greek and Latin are not necessary. Students are permitted to substitute classes in civilization courses for dead languages, a sound decision. Time devoted to Greek and Latin grammar is time wasted.

One student in a hundred thousand knows Greek well enough to read with appreciation the great Greek tragedies.

In the whole United States there are probably not ten men that know Greek thoroughly. And they don't really know it or how it was pronounced or accentuated.

Every student should know a certain amount of Greek and Latin words and their meanings. Some teacher of English should prepare a list of a few hundred Greek and Latin words which every boy that gets out of college should know—for instance, that anthropos means "man," that logos means "the discourse" or "the word."

Everybody should be taught the part that Greek and Latin play in our language, the derivations of phonograph, telephone, microphone, etc.

In that is needed of Greek or Latin could be learned by an intelligent boy in one week.

While many discuss birth control pro and con, Chicago wisely undertakes to encourage births, sound babies and safe mothers.

The total hospital cost of a new baby under the Chicago installment plan at the Presbyterian hospital will be \$45.

Installation plan babies will be well taken care of. The total charge of \$45 will include ten days in the hospital and monthly "parental" visits to the clinic.

Other cities might imitate that.

Captain Hawks continues, by deeds, not words, as the late Theodore Roosevelt used to, to prove that he is the best flyer in the world. He amazed Europe by breaking the record from London to Rome, splitting it in two, then breaking the record from Rome to Paris. A few days ago he broke all records between London and Berlin, and then broke the record from Berlin to Hamburg.

The prince of Wales says Americans are the best advertisers.

Captain Hawks is an excellent member of the fact that this country can produce real flyers. And real flyers will settle the next big war.

Youngstown steel mills have increased their pay rolls substantially. The federal reserve board reports a sharp increase in department store sales for April over March and February. Sales in department stores indicate the prosperity of the public.

Department store sales show a gain for April of 9 per cent over March, in spite of the fact, because of the early Easter, most of the Easter buying came in March.

Small straws are welcome when they blow toward prosperity.

While Spain is torn, as Mexico was recently, by religious strife and hatred, the authorities of Prussia have signed a "concordat" or treaty with the former state Lutheran church similar to that signed in 1925 with the Catholic church.

The Lutherans are content with the new arrangement, and religious discontent, open or secret, will cease.

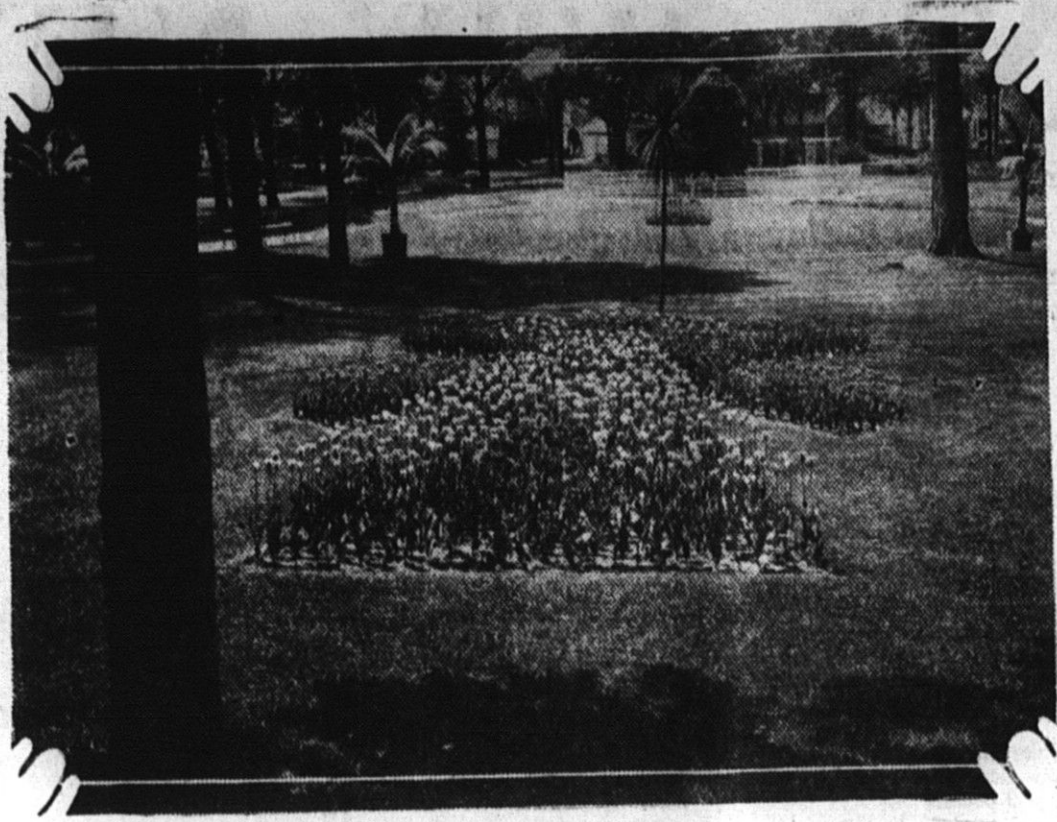

A nation is fortunate that can progress free from religious duties. And the foundation of such freedom is absolute separation of church and state, in all their functions.

Very few have any appetite for speculating now. They are like the mouse in the trap, that did not "care for cheese."

A dog's life is not so terrible for Collie, a canine, that, with Carl Johnson, arrived in Holland yesterday as one of the stops in a trip on foot around the world. In addition to "going places and seeing things," Collie, when he becomes tied, is carried by the man, Johnson said here today. The two left Chicago September 30, 1930. They have visited Mexico, California, Central America and the southern and other sections of the United States. From Holland, they are en route to Canada. The man wears a leather jacket and hobbled shoes. Expenses average ten cents a day and about 14 miles are covered each day, he stated.—Holland Evening Sentinel.

POLICE DOG KILLS PEKE ON
HIGHWAY; CASE IS
UNUSUAL

Grand Haven Tribune—When one man's dog kills another on the highway, who is responsible? This is the nut that Justice C. E. Burr must crack as the law states that had the dog been trespassing there would be no responsibility. And as there is no law covering one dog killing another a question is being raised in a civil case brought by Albert VanderLinde of Ferrysburg against Fred Bolthouse for the loss of a \$125 pekingese.

Bolthouse has a chicken business in Ferrysburg, and secured a police dog to guard his flock from inroads of dogs and other menaces, he says. The "peke" was formerly allowed the run of the section which adjoins the VanderLinde property, and had many times made inroads on the chicken yard, is the claim of the defendant.

Had the dog been killed in the Bolthouse yard, there could be no question that the owner was within his rights, said the justice today, but being killed on the road is a matter which both he and the prosecuting attorney are deliberating upon.

Some interesting testimony is being brought out relative to the rights of dogs outside of incorporated cities or villages. The little dog was a trespasser under the law, and any dog that runs over the fields of any owner may be killed if unaccompanied by its owner. But does this provide for the killing of a dog by another dog, or must he be killed personally by the land owner himself? The little dog was not licensed either and, according to law, was subject to death by the hands of officers of the law.

The case has been continued from last Saturday in order for the attorney for the defense to look up some additional facts. It will be continued this week.

ARRESTED SECOND TIME FOR
DRUNKEN DRIVING

Edwin Wood of Spring Lake was arrested Saturday for driving while intoxicated, second offense. He demanded examination and bail was set for \$500. Gray, Spring Lake, was arrested for being intoxicated and disorderly and fined \$5.00 and costs of \$5.25. Failing to pay the money he is spending 10 days in the county jail.

HANDLED BY FRIS BOOK
STORE

The Holland Furnace Co. awarded all the contract for material for their new office building where this was possible to Holland contractors and builders and Holland labor also was taken care of.

The firm however went still farther and awarded the contract of office furniture and filing equipment to the Fris Book store. The very large contract being handled and was ably completed by Jake Fris of the local store and John Miller of the Macey Company.

Figures were given by Mr. Fris, but a look at these installments makes it self-evident that thousands of dollars were spent to equip these offices with the "last word" in office furnishings.

LITERARY WORKS OF
STUDENTS

Save, borrow or steal a quarter; for "Pegasus Pony" will be on sale the first of next week. It comes out in a cover that will speak for itself. And the contents anxiously awaits the judgment of the students. Of course everything will not meet with approval; which is most natural with such a publication. You may not like some of the stories; you may think a few of the poems ridiculous; and you may disagree with some of the expositions; but you will admit that the work is representative of the student writing.

The second game was lost mainly through the failure of the locals to "get to" the opposing pitcher. The local battery was George Bosch, Prins and S. Stegenga. The score in the second game was 8 to 4 for the Beechwood team. This Thursday night, May 21, the Beechwood team will come here for a return engagement. Very probably it will be a double-header. HAMILTON

The Christian Endeavor Society of the Hamilton Reformed church held a social meeting last week Thursday evening in the church parlors. The following program was given: recitation by Gerrit Van Dyke and Arthur Hoffman; reading by Miss Josephine Johnson; reading by Gerrit Van Dyke and a budget offering. Entertainment was staged followed by refreshments served by Miss Helen Kuite and her committee.

Most of the folks in Hamilton and vicinity motored to Holland during the past week to join in the tulip festival. The road through this village also has been very busy all week. By actual count Sunday afternoon cars were passing through Hamilton at the rate of 600 an hour. We do not say, however, that this count is accurate for it was impossible for any human being to take the cars on account of the clouds of dust which hung over the road and covered the whole town.

Mr. and Mrs. Charles Rice of Kalamazoo, and Mr. and Mrs. Lee Slieman visited Mrs. G. A. Slieman Sunday afternoon. Dorothy Voorhorst and Florence Lugten visited Josephine Timmerman at Grand Rapids during the past week-end.

Both of the Hamilton teams were busy last week. The Mercedes, owned by Montello Park for a return game to obtain an easy victory by the score of 20 to 5. The Mercedes apparently had out on their batting clothes and every effort the Montellos put forth to stop the locals were ineffective. The Independents defeated the Dixie Dills of Holland Friday evening by the score of 4 to 2 in a beautiful game for the fans. Both teams were in good form, and the game was played very fast and a least break either in defense or offense would surely be taken advantage of by the opponents. Hamilton's battery, consisting of R. Wentzel and Roy Ashby, allowed only four hits and sent 14 men back to the dugout. The strikeout route, R. Wentzel and Roy Ashby were the leading offenders against the visitors. Nyhoff succeeded in getting a triple, double and a single, who were the only hits obtained by Hamilton this year on base of two good teams and it already appears that the folks are going to have a very interesting season.

Mae Rankens entertained Mae Fokert, Ethel Lohman and Akkie Klein at Sunday dinner. The local bank has put up a sign that will be closed on Thursday afternoon during the 25th wedding anniversary last Friday. They spent the day in Grand Rapids on a honeymoon trip.

The Women's Study Club held their annual banquet at the American Reformed Church last week Wednesday evening. A

gracious invitation had been extended to the husbands and friends of the members of the club. Mrs. B. Voorhorst was toastmistress; Mrs. George Schutmaat, the president of the club, extended the greetings to the guests. Greetings were brought from the Fennville Women's Club by Mrs. C. E. Bassett, C. E. Bassett of Fennville was the speaker and gave an interesting address. F. F. Gorder rendered several piano solos. The membership consists of: Miss Josephine Balks, Mrs. B. Voorhorst, Mrs. Fannie Bultema, Miss Donna Loer, Mrs. G. Buis, Mrs. B. Brower, Mrs. P. H. Plah, Mrs. Joe Hagekamps, Mrs. John Ill, Miss Grace Ill, Mrs. Marvin Koster, Mrs. R. Lohman, Mrs. Jack Nieboer, Mrs. J. A. Roggen, Mrs. George Schutmaat, Mrs. J. Schutmaat, Mrs. H. D. Stralberg, Miss Sadie Trigg, Miss Myrtle VanderKolk, Mrs. Henry Van Doornik and Mrs. B. Voorhorst.

The Baccalaureate service for the graduating class of the local high school will be held next Sunday evening at 7:30 in the new Reformed Church. Prof. Paul E. Hinkamp of Hope College will preach the sermon.

G. J. Bolks and Rev. J. A. Roggen attended the meeting of the Western Social Conference which was held at Pine Lodge Monday.

An Art Class was held in the basement of the First Reformed Church last Friday under the leadership of Miss Harbach of Grand Rapids. About 40 ladies attended the class.

Russell Peeg returned from the Tulip Festival at Holland with his car badly damaged as a result of collision. Several others report narrow escapes in the exceedingly heavy traffic.

Mr. and Mrs. Harry Hulman and family visited Mrs. Sena Mastman Friday.

There were a large number of young people who participated in the county exams for the eighth and seventh grades last week. The society of which Janet Kaper is president, is in a flourishing condition and a fine, live spirit is found among the young folks.

More than a hundred young people from Overland and Hamilton attended the Christian Endeavor Meeting held in the First Reformed Church Sunday evening. Miss Sue Weddell who represents the young people's mission work of the Reformed Church, was the speaker. Her subject was "Youth and the Future." The evening was also favored with a fine selection.

The King's Daughters Mission Society met at the home of Helen and Antoinette Kuite Friday evening. The speaker, Miss Antoinette Kuite, had charge of the devotion and Janet Kaper was chairman of the Program Committee. Following the usual business discussion the following program was given: "The Religious Views of the Filippine Islands," H. Kuite; a vocal duet by Antoinette Kuite and Ella Roggen; and a reading by Mrs. Roggen. After the meeting refreshments were served and a social time enjoyed.

SUNDAY SCHOOL ATTENDANCE BEST CRIME INSURANCE, HOLLAND WOMAN SAYS

More than 75 ministers, Sunday school superintendents, and teachers, held conferences in Central Methodist church, Muskegon, Monday for the quarterly meeting of ministers from the Grand Rapids district of Methodist churches.

After a meeting in the church sanctuary, the group adjourned to an informal session in the Ladies parlour on the second floor, for address by Mrs. Ralph Gunn, director of religious education at the First Methodist church in Holland, whose topic was "Religious Educational Progress in the Church."

The problems and accomplishments possible in a small church were stressed mainly by Mrs. Gunn, who set forth the three goals of religious educational work as being "Christ centered, Life centered, and Pupil centered."

"The only way to teach life is by living," she said, "just as in the day schools of today the various subjects are taught by experience. To teach life we can't have 'teachers' but leaders, and although that seems a minor detail, mere terms sometimes do a great deal in the creation of a proper atmosphere."

The difficulty of obtaining people to take over the problems of leadership was stressed. Mrs. Gunn quoting Miss Lone Catton, supervisor of elementary religious education for the state, who declares that "Regular attendance at Sunday School is the best kind of crime insurance."

A real worthwhile dinner was served by the ladies of Second Reformed Church and sixty-four bankers were present at the meeting. All but two of the Ottawa County banks were represented.

Very important matters were discussed at this gathering. The annual election of officers was held and the following men were named to serve for the ensuing year: President, Otto P. Kramer, president of the Holland City State Bank, Holland; vice-president, B. P. Sherwood, president of Grand Haven State Bank; member at large Mr. Frank Peters, cashier, Jamestown State Bank; secretary and treasurer, H. Baron, assistant cashier of Zeeland State Bank; chairman of the Vigilance Committee, J. Lindemulder, assistant cashier of Peoples Savings Bank, of Grand Haven.

The main topic of discussion for the evening was Regional Clearing House Associations, led by Mr. John C. Hicks, president of the Clinton County Savings Bank and member of the executive council of the Michigan Bankers Association.

The organization during the past year has been under the leadership of Mr. F. C. Bolt, Cashier of the Peoples Savings Bank of Grand Haven, Michigan.

Maentz declares this will make Allegan one of the best fire protected cities of its size in the state. No extra taxes will be necessary.

At a special meeting of the Allegan board of education Tuesday evening, called for the purpose of having taxpayers vote on the proposal to bond for \$12,000 to rebuild and build an addition to the South ward school building, a 112 to 34 favorable vote was recorded. A new room for kindergarten instruction is to be provided.

The Allegan city council has fixed the budget for 1931-32 at \$53,000. This is \$2,000 more than last year and will mean a tax rate of \$14 to \$15 per \$1,000 valuation. The rate last year was \$13.45.

SON OF ALLEGAN COUNTY SHERIFF IS DROWNED IN ALLEGAN LAKE

Dale Teed, 15 son of Sheriff and Mrs. Guy Teed, was drowned in Littlejohn lake, 2 miles northwest of Allegan, late Wednesday afternoon after a sailboat in which he and a party of friends were riding capsized in a heavy wind. The boy went down suddenly while swimming ashore.

The boat was owned and piloted by Harold Fish of Allegan and in it besides the owner and Teed, were Donald Garlock and Frank and Ferdinand Schneider, Allegan youths.

All occupants were good swimmers and when tossed into the water each swam back to the overturned craft. Fish then advised the youths to cling to the boat and he would swim the approximately 100 yards to shore, get his rowboat and take them in.

The arrangement was agreed upon by all and Fish had no more than struck out when Teed and Garlock started after him. The three were swimming about 25 feet apart and all with apparent ease when, after covering about half the distance, Teed suddenly cried for help and sank before anyone could reach him.

Fish and Garlock paddled about the spot where he went down expecting he would rise, but failing to catch sight of him, continued to shore.

Three Coast Guards from Holland station found the body.

Young Teed was popular among his juvenile friends and because of his friendly, affable manner was one of the city's favorites. He attended Fennville schools where the family lived until Mr. Teed was elected sheriff two years ago. Besides his parents, an older brother and two younger sisters survive.

PARK BOARD VOTES AGAINST REDUCTION

A special meeting of the park and cemetery board was held Monday evening in the city hall for the purpose of considering the recommendation of the common council that wages of employees under the direction of the board be cut ten per cent.

The board members voted against the recommendation and stated that they felt that as only three tendent, are employed throughout the year it would be unjust to lower the wages of other workmen occupied only during the summer.

It was suggested that the sum of \$1,700 in the budget for the care of trees here could be reduced to \$700 for the year and would mean a saving of \$1,000 in comparison to the saving of \$910 which a ten per cent cut in wages of the department would bring about.

Reports of Special Committees

Ald. Steffens of the Welfare Committee reported that they had made a complete investigation relating to the case of Evert DeJong, a charge of the City of Holland, who is living in Royal Oak at the present time, and is willing to go back to the Netherlands with his wife and family providing the City of Holland will furnish the necessary funds to make this possible. The committee reported that they had been in Grand Rapids to see the Consul to the Netherlands, also in Detroit and Royal Oak, and found that since Mr. DeJong has been in this country for 11 years he cannot be deported at the expense of the government, although he has never become a citizen of the U. S. The total expense of sending the family back to the Netherlands would be between \$950 and \$1000. The committee further reported that due to his physical condition, it was probable that he would never be able to support himself and family and recommended that he be sent back at the expense of the city since that would be less expensive than being obliged to take care of his family indefinitely.

City Atty. McBride reported that while in Lansing a few days ago he learned from a conversation with Mr. Dillman, State Highway Comm., that a trunk line running direct west, and continuing straight west as far as Holland was becoming a possibility, and recommended that a committee be appointed by the council to study the matter and decide on the most suitable route out of the City which

would be either 16th or 32nd St.

The report of this committee could then be presented to the Council for their approval and they in turn recommend to the

Dutch Spirit Rules Holland at Tulip Fete

NOTED NEW YORK EDITOR WANTS BLACK RIVER SWAMP TURNED INTO DUTCH GARDEN

Costumes of Netherlands, Wooden Shoes, Dog Carts Seen

Residents of our beautiful city—many descendants of pilgrims from The Netherlands—brought the land of windmills and tulips to the commonwealth of motor cars and mass production as the annual tulip festival opened Friday.

The head-liner on the opening day and the only speaker on the program for the entire week was a prominent New York City editor, where, besides newspaper work, he is directing one of the biggest yard and garden contests in the country over a stretch of territory that takes in 50 square miles. J. W. Johnston, horticultural editor of the New York Herald Tribune, told Holland Friday night—after being introduced by Dick Boter, president of the Chamber of Commerce—that as a civic project, from a town planning point of view, he has never seen anything to equal the Holland tulip festival idea.

"Mind, I do not mean you have the most beautiful city in the world," he said, "but in your effort to beautify your town you have accomplished a bit of work that other cities would do well to follow."

"It is fitting that Holland, Mich., should rally round the tulip," he pointed out. "In its improvement of the tulip and the hyacinth the country of Holland has put horticulture in its debt to an extent that cannot be estimated. The fame of your town will spread through the tulip and there is no reason why in years to come thousands should not travel from far away to see your tulips, just as today they come for thousands of miles to the flower festival in Chelsea, Eng., to the Portland, Ore., rose festival and to

the Shenandoah Valley apple blossom fete.

"You know here in America we work in cycles. First we destroy our national beauty and then we try to build it up. We had an orgy of tearing out our stately trees and replacing them with hot dog stands. Now through the wave of garden enthusiasm which is sweeping America, we are trying to replace the hot dog stands with flowers and shrubs."

"Holland has four years the start of the majority of towns its size. You have done much, but there are still opportunities waiting you to further beautifying the town. Your principal highways leading into the city still have a number of spots where tulips could be planted. "There's a chance for a bit of old Holland, too, in the lowlands there by your bridge over Black river. As I drove over the bridge today and glimpsed that spot, I could see just what a native Hollander could do to those lowlands by means of a windmill or two, dykes and beds of bloom. That spot might well become the feature of your festival in years to come."

Mr. Johnston was the only speaker at the dedication of the flower show in the Masonic temple. He is a recognized authority on horticulture, and is director of the immense Atlantic City flower and garden pageant which has replaced the beauty show, exhibits for which occupy four acres of floor space in a gigantic exhibition building. Following the show here, he went to Grand Rapids where he visited the flower show between trains.

Dedication exercises were brief, as the majority of the audience had to stand, all seats having been removed from the auditorium to make

way for the flower show. Dick

Boter, president of the chamber of commerce, presided, introducing Mr. Johnston, Mayor Brooks and Charles A. Gross, secretary of the chamber of commerce, who, Mr. Boter said, had carried most of the responsibility for the show. Rev. D. D. Douglas, rector of Grace Episcopal church, offered the invocation, and Christian Junior high school boys' glee club sang.

"Most American cities have a spring clean-up week," said Mayor Brooks, "when they try to make their man-made handiwork a fitting compliment to the handiwork of God, the flowers and leafing trees. Holland has gone other cities one better, and has not only cleaned up but added to its beauty by planting the tulip. Our festival is making a name known; it is drawing thousands of visitors here, and it should be our responsibility to see that no matter what season of the year they come, they find Holland ready to welcome them."

GOV. BRUCKER'S PROCLAMATION ON POPPY DAY

State of Michigan EXECUTIVE OFFICE Lansing

To the people of Michigan: On September 20, 1920, The American Legion, at its National Convention in Cleveland, adopted the poppy as its memorial flower and since that time it has been worn on Memorial Day in tribute to our departed veterans. In addition to being a mark of respect to our soldiers, the sale of poppies in Michigan has a practical aspect in that it provides labor for hospitalized veterans and the profits received by The American Legion Posts and American Legion Auxiliary Units from the sale thereof are used for rehabilitation and welfare work.

I therefore bespeak the support of the people of this State of these worthy purposes and urge that everyone buy a poppy during Poppy Week, May 23 to May 30, to wear on Memorial Day.

Given under my hand and seal of the State of Michigan, this ninth day of May, in the year of our Lord one thousand nine hundred and thirty-one and of the Commonwealth of the ninety-fifth.

By the Governor: WILBUR M. BRUCKER, Secretary of State, Frank D. Fitzgerald.

Cement Boat Line Planned for Haven

WOULD BE DISTRIBUTION POINT FOR THIS AREA; WOULD HAVE LARGE WAREHOUSE

Grand Haven Tribune—A freight boat line is in prospect for this port, which will be confined to shipments of cement with this city as the central shipping point for territory in western and central Michigan. The cement will be brought via water from the eastern section of the state and then shipped to destination by truck.

Nathaniel Robbins has been in touch with this plan for some time and has been given such encouragement that he has converted a building on the river into a storage building for this type of merchandise. The first boat, it is anticipated, will be of 10,000 barrels capacity.

The concentration of cement shipment through this port would be a nice increase in tonnage. Much of the product will be brought from Bay City. Vyn Co. will handle the truck shipments from the central storage house. The property is ideally situated on the river for both ship and truck.

The arrangement, while not yet a certainty, said Mr. Robbins today, holds much promise and of sufficient encouragement to warrant considerable expense in remodeling the building.

A typical farmer is one who says: "The other fellows will reduce their acreage, so I'll plant a lot and get rich."

Theatre Holdup Men Made Good Their Escape

FIFTY-SEVEN DOLLARS TAKEN BY PAIR IN JUST A FEW MINUTES FROM GRAND HAVEN SHOW HOUSE

Grand Haven Tribune—A daring robbery was staged at the Grand Theatre last Friday night about 8:53 p. m. at Grand Haven when two gunmen, unmasked, held up the cashier and got away with \$57 in bills. City, state and county officers have been at work on the job but have no clues other than an abandoned car, bearing Illinois plates, which was found at the corner of Columbus and Sixth streets, about an hour later and is believed to have been the car the gunmen drove.

Mary Vander Sys, 24 was in the ticket box and Kenneth Lund, son of the manager, J. C. Lund, was in the ticket lobby putting up new advertising sheets, when two shabbily dressed men walked in. Lund remarked that they had left the car running when the man covered him with a gun and said: "Never mind the car, this is a stickup."

The other went to the window, shoved a gun in the young woman's face, and demanded the cash. A quantity of silver lay on the counter, which she started to push under the window, when the bandit said: "Never mind the silver."

He turned and said, "Now don't touch that phone or I'll drill you." Lund was also warned to keep away as the two fled to the car and were last seen driving up Washington street.

Mr. and Mrs. Bernard Reghel were on the street, about to enter the theatre lobby, and noticed the men get into the car, the description of which tallied with the one recovered by the city officers.

Young Lund rushed into the foyer, where his father was standing, and within a minute the news was flashed by Mr. Lund to state police headquarters here and within seven minutes the news of it was heard over the radio by Mrs. Lund at her home. The broadcast was sent from Lansing state police headquarters.

All avenues leading out of the city were posted and search was made over the town during the night, following the finding of the car. It was discovered by people who had noticed the car parked for at least an hour. Nothing was found to identify the robbers.

Had the thugs taken more time they might have made a richer haul, said Mr. Lund today, as there was \$170.20 in bills and silver in a drawer to the right of the cashier but hardly discernible from the window. The job was pulled in lightning order and at a time when there were few on the streets. The first show was not out and it was a little early for the audience for the second.

Kenneth Lund said he thought it was a joke the fellows were pulling until the "shining instruments" were poked into his ribs. Miss Vander Sys was calm during the holdup but nearly fainted afterwards and was nervously shocked for some time.

From the meager description furnished by Lund, one man was light, the other dark, both about five feet, seven inches. They were shabbily dressed and both needed a haircut. He judged them to be about 23 years old. The robbers were quiet but meant business, he said, but it was all over so quickly that there was little chance to think. Lund was handling a small stepladder at the time and was about to shove the fellow off and put the ladder in another quarter of the lobby, when he felt the steel.

The car is a green Ford, two door sedan, bearing plates numbered 985-013. The officers believe the plates were stolen as they were wiped out and screwed, which showed they have been changed recently. The car was mud-splattered and bore evidence of having been through brush as there were scratches along the side.

The engine number is being used to trace the car as well as the license plates. Messages from Chicago up till noon disclosed no information, nor had state or city officers found any information leading to the apprehension of the crooks.

Mrs. Frances Lehman reported to the police that two men answering the description had stayed at "The Frances" the night before. They drove a dark red sedan and went to the Grand Theatre that night ostensibly to see the show. Mrs. Lehman said they came in about 11 p. m. One had a traveling bag, the other a cheap paper suit box. They paid the room rent the next day with bills. Neither one registered.

In speaking of the hold-up this morning, Mr. Lund said it was a smooth piece of work which he believed was professional. At the theatre is fully covered with insurance, there is no loss to the theatre, he stated.

This is the second time the theatre has had trouble of the kind. The first time the safe was slugged but being of a particularly heavy type there was no chance of the robbers getting in.

There is no burglary alarm in the box office, nor is the cashier armed. This is the first time a robbery of the sort has ever been pulled at a local theatre.

Mrs. W. H. Andrews and Mrs. Clara Noble are the guests of Mrs. M. DeWeese of Holland this Friday afternoon at a card party given by the Music Study club of that city and at which a program of music will be presented. Allegan Gazette

GRAZING WITHOUT GRASS

No stockman expects to graze his cattle without grass. It can no more be done than you can shave without a razor. There are some things in this world you cannot do, unless you have the tools to do them with.

There are many people who have the strange idea that it is possible to get along without a bank account. Success without a bank account is impossible.

HAY CROP IN OTTAWA COUNTY

Emergency hay crops are causing many farmers worry in Ottawa Co. this year states Agricultural Agent Milham. At least fifty farmers have inquired about soy beans, Sudan grass and millet for hay crops. In order to assist others this article has been prepared.

Varieties recommended in order of preference, Manchou, Ito San, Early Brown, and Black Eyebrow. They should be planted from May 25-June 10. If planted in rows 28 in. apart use 2-3 pecks of seed per acre. They must be cultivated when rowed. When drilled in solid from 5-7 pecks of seed per acre are required. Solid drilling increases yield and improves quality. Sow 200 pounds per acre of a fertilizer high in phosphorus. Sudan grass seeded at the same date as soy beans sowing 20-25 pounds of seed per acre with a grain drill set to sow two pecks of wheat per acre. Common or Siberian Millet is to be preferred sowing one half bushel of seed per acre. All the above crops should be cut before August 15th in order to cure the hay properly, all will respond to the use of fertilizer. Corn planted thickly also makes a satisfactory roughage.

Mrs. Clarence Warner, of Allegan, fell at her home here Tuesday and fractured her left hip. She was taken to Emergency hospital.

The operetta "Crocodile Island" will be presented May 28 and 29 by the Coopersville high school glee clubs.

EXPECT FAIR FRUIT CROP AROUND HOLLAND

Surveys of orchards in this vicinity give indications of a fair fruit crop. The recent cold spell checked bud growth and it is believed little damage resulted from frosts. Sour and sweet cherries, early and late apples and plums promise fairly good crops. Grapes are beginning to bud. Small fruits will likely fall below an average yield. Many orchards now are in bloom.

Holland Dancers Step at Grand Haven

Grand Haven Tribune.—Miss Margaret Watson closed her dancing classes here today with a party and review of the year's work to which she has invited the parents and friends of the students. Miss Watson brought six students from her studio in Holland who contributed to the program. They are Anita and Selma Chervin, Shirley Shaw, Ruth Eleanor Trueblood, Vivian Tardiff and Mary Eleanor Lake. The program opened at 4:45 p. m. to give many of the fathers an opportunity of attending.

About 30 children who have been attending classes during the year participated in a series of solos and group dancing in costumes which was altogether delightful. There was no attempt at more than the general class work. The numbers given by the Holland children, too, were exceptionally well done and bespoke the talent and instruction which they combined.

The grand march was led by David Johnston and Selma Chervin of Holland followed by Pat Lillie and Anita Chervin, also of Holland. On the revue program, the two Chervins gave a Dutch dance followed by a Pierrot dance done by Sally Lou Seifert, Jane Vander Veen, Catherine Lucas, Betty McKinney and Patty Eskew.

The balance of the program was as follows: Highland Fling by Hazel Cumming; gypsy dance by Ruth Eleanor Trueblood of Holland; tap dance by Evelyn Melnotte, Mary Fran Bos, Marie Baumgardner, Dorothy Hannigan, and Jane Peter; Simon and David Pieman by Vivian Tardiff and Shirley Shaw, both of Holland; Jolly Jinks by Gene Harbeck, Julian Hatton, Jr., Robert Bowles, Austin Lucas, Jr.; Irish Lilt by Mary Addison, Jerry Colten, Sally Burgess, Margaret Anderson, Margaret De Witt, Billy Hatton, Doris Johnson, Anne Lillie, Mary Lillie, Arthur Pippel and Mary Wilsberg; Bowery Girls by Winifred Eskew, Warren Michener, Kathleen Matusek and Martha Addison; tap dance by Pat Lillie and David Johnston; Rag Doll by Catherine Lucas, Patty Eskew and Sally Lou Seifert; Doll Dance by Barbara Milham; Waltz done by Austin Lucas, Jr., Mazurka by Mary Eleanor Lake of Holland; Riding Dance by Martha Addison; tap dance by Kathleen Matusek and two toe dances by Anita and Selma Chervin, Vivian Tardiff, Shirley Shaw and Ruth Eleanor Lake, all of Holland.

Bee meetings held Monday drew a larger attendance than normal with a number of new beekeepers in attendance. Otto Pino, agricultural teacher at the Zeeland High School, came with eleven members to attend the meeting at the Grandview Poultry Farm. A total of 35 attended. J. C. Kremer from the College examined the bees, clipped the queens, found no disease, plenty of stores and new brood for the season's honey flow. Lansing State Journal—Representative Fred Wade of Saugatuck wanted the legislature to authorize the purchase by the city of Allegan of public utilities, constitution or no constitution. "I don't care whether my bill is a special act prohibited by the state constitution or not," declared Representative Wade. "I am here to get what the people of Allegan want and I am going to get it. There have been plenty of special acts passed by this house and this is going to be no exception. Allegan is going to have a municipally-operated water and lighting plant." Coming to his aid was Representative E. L. Burdians of Paw Paw. "I know the situation in Allegan," he said, "and I will most certainly support Representative Wade. The Consumers Power company has a site there and is looting to improve it. The company's lobby is against this bill naturally. The house accepted the plan of the stalwart gentleman from Allegan county. The bill was passed by a vote of 96 to 2. Representative Frank P. Darin of River Rouge attempted to stop passage of the measure.

8 WAYS TO COMPARE TIRE VALUES

This Table lists the eight comparisons that were made (Six FIRSTS for Ward's Trail Blazers). And Trail Blazers are also the lowest priced.

4.50-21 Tire	Ward's Trail Blazers	* No. 1	* No. 2	* No. 3	WEIGHT AS A MEASURE OF TIRE QUALITY IS NOT INCLUDED IN THIS TABLE FOR TWO REASONS:
Non-Skid Depth	.250 In.	.250 In.	.218 In.	.190 In.	1st, Because no two tires of the same brand and size weigh exactly alike, and
Tread Thickness	.340 In.	.343 In.	.328 In.	.307 In.	2nd, Because quality of rubber and cotton fabric used, rather than the compounded weight after being mixed with other ingredients is the determining factor. Reclaimed or second hand rubber weighs more than new rubber. Tires containing a large percentage of second hand rubber, therefore, weigh more than those made entirely of new rubber—even though the tires are exactly alike in size—so "Weight as a standard by which to measure tire quality MEANS NOTHING."
Thickness of Tire	.625 In.	.593 In.	.558 In.	.500 In.	
Width	4.713 In.	4.747 In.	4.768 In.	4.742 In.	
Strength of Carcass	1714 lbs.	1655 lbs.	1256 lbs.	1418 lbs.	
Strength of Tread Stock	4176 lbs.	3490 lbs.	3160 lbs.	4165 lbs.	
Outside Diameter	30.765 In.	30.765 In.	30.796 In.	30.664 In.	
Squeezes	(A "squeeze" is an extra cushion of rubber between the two main tread planes for the purpose of preventing fabric breakage and separation of plies.)	55.15	55.69	55.69	55.65

I have personally examined the specifications of the four tires described above and hereby certify that I know these specifications to be exact, accurate and devoid of prejudice.

The hearing of the case pending against Marvin Bushee, 12, of Bravo in Judge A. S. Butler's court was adjourned from Saturday to Friday, June 5. Nov. 23, 1930. Bushee, while hunting with Signory Mikolajczyk, 13, also of Bravo, is alleged to have shot and killed the latter with a rifle. Bushee asserts he shot at a bird and the shooting was accidental. The fact there were two holes in Mikolajczyk's head raised the point whether two shots were fired or whether the bullet split and made two wounds. Dr. J. E. Bickert, who made the examination, is ill in the hospital at present and his testimony is needed by Judge Butler in determining the boy's liability in the matter.
