## Ottawa County Plans Rabies Advisory Council

### Immunization of Dogs, Control of Epidemic Is Organization's Aim

Plans are being completed for setting up an Ottawa Rabies Advisory council to actuate a full scale program for immunizing all dogs in the county against rabies, Dr. C. Dale Barrett, director of the Ottawa County Health department, said today.

Working under the conviction that immunization is necessary for all dogs in order to curb the present rabies epidemic which already has resulted in a 90-day county-wide dog quarantine, the new council is being formed with four veterinarians, enforcement officials, sportsmen and service clubs in the county.

Veterinarians co-operating are Dr. J. E. Cook of Holland, Dr. Richard Storey of Spring Lake; Dr. B. C. Heekhuis of Coopersville and Dr. John Martell of Spring Lake. Other co-operating agencies are the sheriff's department, police departments of Grand Haven, Zeeland and Holland; sportsmen's clubs and organized dog owners such as the North Ottawa Rod and Gun club, Holland Fish and Game club and Pointer and Setter club; along with farm organizations represented by Roelof Bronkema, L. R. Arnold of the county agricultural office, Henry Slaughter of the health committee of the Board of Supervisors, and John Hassold of the agricultural committee.

Representatives of the Holland Sentinel, Grand Haven Tribune, Coopersville Observer and Zeeland Record as well as representatives of the North Ottawa League of Women's Voters will join representatives of all sponsoring agencies at a meeting May 20 at 8 p.m. in the supervisor's room of the Court House in Grand Haven. Interested persons also are invited.

This group will discuss setting up clinics at locations in the county and determine costs, with voluntary secretary help provided.

It is estimated there are 8,000 dogs in the county. This number will be broken down according to townships and cities.

## WHTC's Tower Points Skyward From Swamp

Holland's radio station WHTC came one step nearer going "on the air" Friday when erection of a 160 foot high guide tower was completed except for obstruction lights and a few guide wires.

The guide tower is made of uniform cross-section steel above a cement base and is tied-down with 12 guide wires and six anchors. A seven-eighths inch, co-axial (two cables wrapped together) cable will feed the tower from the station.

For the ground system, there is 24,000 feet of bare copper wire buried in the swamp. The pattern consists of 120 radials each 200 feet long.

## Rain Dampens Skating Party

Rain forced policemen to end street skating Thursday night at 8 p.m. instead of the planned closing time, 9 p.m.

However, several hundred youngsters and a few adults roller skated to the music of Nick Hoffman's callopie from 6:30 to 8 p.m.

Officer Ollie Wierenga, who originated the idea, along with Charles Dulyea and Simon Steketee were there to help fix skates and tighten straps. One officer said he was swamped with requests to find lost skate wheel bolts.

Roller skating must be catching for an SRO turn-out was reported by the new roller rink just east of Zeeland city limits in Zeeland township which opened Thursday night.

The jets, known as P-80 Shooting Stars, were on a routine mission from their base at Selfridge field. These planes, according to W. B. Blain of Holland, cruise at 560 miles per hour.

Rabies Test on Local Dog Proves Negative

Holland city's reputation for "no rabies cases" in the current epidemic in Ottawa county remained clean today, but Poundmasters Ike De Kraker and Dennis Ende crossed their fingers on the future.

A report that state laboratory tests proved negative for a Beagle hound, owned by Gerald Looman, 244 Lincoln Ave., proved a relief both to enforcement officers and the owner. The dog died May 16 after contracting paralysis in the hind legs, one of the symptoms of rabies.

## Drowned While Working on Scow

Grand Haven, May 20 (Special)—Russell Seymour Spray, 49, employed as a scowman by the Construction Aggregates Corp., Ferrysburg, was drowned at 6:07 p.m. Wednesday while on duty at the gravel pit at Bass River in Allegan township. Spray was going from one scow to another when he apparently lost his footing and fell into 20 feet of water.

The body was recovered at 6:35 p.m. and efforts to resuscitate him failed. Coroner Joseph Kammerdave gave a verdict of accidental drowning. He said a bruise on the left of the face might have been caused either when he fell into the water or when he landed under the scow and attempted to get out of the water. He was an excellent swimmer.

Andrew Nauta, a fellow employee, saw Spray slip, and dove into the water after the body but was unable to locate him. Nauta and Byron Benson made a home-made hook, grabbed the body and dragged it to shore, a distance of 25 feet.

The men, who saw Spray go from the crane scow to the empty gravel scow, thought he had jumped safely. Sheriff William M. Boeve arrived just as the body was found.

Spray was born in Prattville in Hillsdale county on July 25, 1898, and had lived in Grand Haven about five years. He came from Muskegon where he had worked for two years after coming from Allegan.

He is survived by the wife, Minnie; two daughters, Mrs. Nancy Nameney of Muskegon, and Nancy at home; a son, Kenneth of Muskegon; two brothers, Frank of Grand Rapids and Echo of Allegan; one grandchild.

The body was taken to Kammerdave Funeral home where services will be held Saturday at 1 p.m. The Rev. Albert Hellenga, pastor of Second Reformed church, will officiate and burial will be in Lake Forest cemetery.

## Johnson Shatters State Track Mark In Tri-Meet Here

### Muskegon Heights Wins First Honors; Holland Takes Third

A 13-year-old state shutout record was shattered Tuesday by Tom Johnson, a Muskegon Heights lad, in a triangular meet between Holland, Benton Harbor and Muskegon Heights held on the Holland high track.

Johnson's mark of 54' 6 1/2" however, will not be recorded as a state record, because the feat must take place in a state meet at Lansing. The husky Negro's heave eclipses the throw made by Watson of Saginaw in 1935. Johnson's record was 53' 10". Johnson set the unofficial record on his first try.

Muskegon Heights also ran away with the meet honors by garnering 64 points to Benton Harbor's 451 and Holland's 271. Holland managed to get only two firsts.

Ivan Huyser took honors in the mile run, while Roger Vander Meulen placed first in the broad jump.

The Muskegon Heights' thin-clads annexed seven firsts while Benton Harbor garnered four. Both relays went to Benton Harbor.

Match results are:  
120 high hurdles—Walters, MH; Peters, BH; Van Voort, H; Armstrong, H. Time—16.4.

Medley relay—Won by Benton Harbor. Muskegon Heights placed second. Time—2:42.2.

100-yd dash—McGhee, MH; Reakes, BH; Veurink, MH; Ivory, MH. Time—10.5.

## Hope Students Show Paintings

Students of Dirk Gringhuis, local author-illustrator and director of the art department at Hope college, climaxed their year's work Monday by hanging an exhibit of drawings and paintings.

The exhibit comprises some 50 works, in water color, oil, charcoal and mixed media. Scenes of college life, landscapes, and figure studies make up the greater part of the show, but also included are abstractions and non-objective paintings.

"I am very well pleased with the degree of originality shown by these students," said Mr. Gringhuis. "Many of them have taken art for only one semester."

This is the first student exhibit of art ever to be hung on Hope campus as this is the first year that Hope has included such a course in its curriculum.

The exhibit is open to the public through Saturday and hangs in the Y Room in Hope Memorial chapel.

Exhibitors include Joan Wilson, Betty Kregel, Ken Kroes, M. Gene Pointer, Wilma Osterhaven, Joyce Baker, Jayne Baker, Ken McConnell, Barbara Kranendonk, Jack Pontier, Leon Wiersema, Richard Bostwick, Jo Ann Van Kolken, Charles Kelly, Judith Thaden, Laura Johnson, Ina Linton, Dale Akridge, Eloise Ihrman, Mia Backer, Lois Jillion, Patricia Butterfield, Esther Everse, Dale Van Eck, Audrey Reagan, Henry Halter, Dan DeGraaf, Martin Lambers, Allen Valleau, Latif Jiji, Dorothy Milne.

Holland found that the lead was too much to overcome and went out in order in the seventh inning. Kehrwecker held the Maroons to three hits in five innings but the Kazoos got to him for three scratch singles in the last. Credit for the victory went to Lohrer who had the situation well in hand at all times allowing the Dutchmen only two hits.

Coach Bob Stupka of the locals stated that he was well pleased with the performance his youngsters turned in. "It was a close game right to the sixth inning when the Maroons garnered their last two runs which beat us," said Stupka.

## Holland Drops Close Contest To Kalamazoo

The Holland High School Baseball team behind the six-hit pitching of Clyde Kehrwecker dropped a 5-2 decision to the Maroons of Kalamazoo, Thursday at Upjohn field.

The locals scored first in the third inning when Ronnie Appledorn singled and stole second and third. Frank Wlodarczyk then received a base on balls and stole second. Then with runners on second and third First Baseman Witteveen blasted a long double, scoring both Appledorn and Wlodarczyk.

But the Maroons were not to be denied and came back with a trio of runs in their half of the third inning. The three runs were scored on a walk, a single by the pitcher, Lohrer, and a terrific home run by Centerfielder Jones.

Neither team scored again until the sixth inning when Kazoo rallied two runs to give them a 5-2 advantage. The final two runs were scored on an error by Holland's short stop allowing runners from both second and third to score.

Holland found that the lead was too much to overcome and went out in order in the seventh inning. Kehrwecker held the Maroons to three hits in five innings but the Kazoos got to him for three scratch singles in the last. ## Schools Bearing Down On Teaching Reading

As a result of the pre-school conference held at the beginning of the year in which elementary teachers in the public schools met with people of industry, a program has been followed placing special emphasis on reading. First step was an inventory of reading ability in grades three through six. Results proved satisfactory, although many students were found not working to capacity.

## Hope Nine Drops First MIAA Tilt Against Albion

### Dutch Fail To Hit In Pinches; Errors Account for Runs

Albion college's baseball club proved to be the Hope nine's first "stumbling block" in the MIAA at Riverview park Monday afternoon, when they stopped the Dutchmen, 4-1 in a bitterly contested ball game. Both clubs were anxious to win the affair, preliminary to the baseball round robin to be held in the all-conference meet at Kalamazoo, Thursday and Friday.

The Briton win gives them a 1-1 record in the league, while Hope's total now stands at two victories and one loss.

Jack Marema, Hope flinger, pitched good enough to win the tilt, but he was the victim of a couple costly errors with runners on the bases. All four of Albion's runs were unearned, although a two run double was scored as a hit when the Hope rightfielder, misjudged the ball.

For four innings, both teams played on even terms, with neither squad able to "dent" home plate. Then in the fifth, Albion's Sigren drove a single to right. Leftfielder Tom Van Wingen, proceeded to drop an easy fly ball, sending Sigren to second and Nelson to first. After a fly to the outfield, Third Baseman Ballard singled, sending Sigren home with the first tally. Meanwhile Clark Wurm, Briton curve ball artist, was stopping all Hope threats.

In the seventh inning, Albion "iced" the game with three runs. Nelson singled and Wilcox walked to open the inning. Ballard struck out, Wurm's single would have loaded the bases, but an overthrow of third permitted Nelson to score, and advanced the other runners. Centerfielder Berry then drove a high fly to right fielder, which fell safe when Rightfielder Chuck Fenske lost the ball in the sun. Two runs scored on the hit, making the count Albion 4, Hope, 0. Bill Ver Hey relieved Marema in the eighth and retired the side in order.

Hope netted its lone tally in the ninth on a hit batsman and two singles. The failure of the locals to hit in the pinches cost the victory, because Hope left runners stranded in nearly every inning.

Coach Jack Schouten's lads garnered six hits, while Albion managed to get seven. Wurm struck out 14 Hope batters, while Marema and Ver Hey retired nine Albion batters via the strikeout rule.

whose name is supplied by Mrs. Earl Vanden Bosch. Beverly Frego, at right, files housing data. The housing office is located in the Chamber of Commerce building.

## Visitors Accommodated By Housing Committee

How are the thousands of Tulip Time visitors accommodated?

This question is asked over and over again during the course of Holland's four-day festival.

Housing the visitors doesn't "just happen." A well organized housing program is carried on each year under the direction of the Tulip Time committee and the Chamber of Commerce.

With "Dutch Hospitality" as a slogan, the committee this year is headed by H. A. Vanderploeg, president of the Holland Tourist council. Hotel Macatawa is opened for the festival, as well as several resort hotels in Saugatuck and other localities.

Bulk of the accommodations is carried by public spirited housewives who open their homes to visitors, at rates for the most part determined by the committee.

The first such assignment was made last March 29, and since that time, housing committee workers have been busily engaged in listing rooms and making assignments. Assignments are made in quadruplicate, one copy forwarded to the visitor advising where he is to stay, the type of room, the dates and the rate. A second copy is mailed the room owner advising whom to expect, and the other two copies are filed in the Tulip Time office, one under the name of the visitor and the other under the room owner. Committee personnel do all in their power to make happy selections, taking into consideration whether the visitor has his own car or comes by bus or train, giving downstairs rooms to elderly visitors, and other special notations.

## Woman is Injured In Head-On Crash

Mrs. Wilhelmina Rottschaefer, 49, of Grand Rapids, received two fractured arms, head injuries and other body injuries when a car driven by her husband Richard Rottschaefer, 49, was hit head-on early Tuesday night by a car driven by Charles Bolthouse, 55, of Grant, according to sheriff's officers.

The accident occurred two and one-half miles west of Grandville in Georgetown township on the north side of the divided highway. According to Chief Deputy Ed Brouwer, Bolthouse was traveling on the wrong side of the divided highway.

Rottschaefer and his wife were taken to Blodgett hospital Grand Rapids, and he was released later in the evening. Bolthouse received rib, chest and other injuries and was taken to St. Mary's hospital, Grand Rapids.

Rottschaefer is a brother of Henry Rottschaefer of route 4, Holland, and together they run a local building material company. Brouwer was assisted by Deputy Tony Steinfort of the Ottawa county Sheriff's department and Peter Rinkevich, chief of Grandville police.

Officers are continuing their investigation and said they will issue a summons after getting reports from the two hospitals.

Medalist for the day was Bob Houtman of Hope who nosed out his teammate, Earl Holkeboer by one point. Houtman shot a 73 while Holkeboer carded a 74 score.

Monday's match ended the regular season for the local collegians, but the climax comes Thursday and Friday at the Kalamazoo Country Club, where the MIAA playoffs will be held.

The locals are presently in fifth place in the MIAA standings behind Alma, Hillsdale, Kalamazoo and Albion respectively. The only team that was beaten by the Dutch was Adrian.

## Locals Wallop Potent Muskegon Aggregation, 12-5

Coach Bob Stupka's Holland high school baseball squad walloped the Muskegon Big Reds, 12-5 Tuesday at Muskegon.

The Dutchmen didn't sew up the contest until the last inning when they tallied seven runs.

It was definitely the best hitting attack the locals have displayed this season. Their bats boomed loudly, collecting a total of 14 hits. Local twirler, Clyde Kehwecker, silenced the Big Red's bats, limiting them to six safeties.

The Dutchmen broke into the scoring column first when they garnered four hits in the first inning to net three runs. But the Big Reds came back in the second inning to score one run to make the score 3-1. The Muskies scored 3 times in the third to take a 4-3 advantage.

The locals settled down in the fourth inning and scored twice to take the lead 5-4. The score stood at this point until the seventh inning when the Hollanders rallied to score seven runs and put the game in the bag. Muskegon scored its last tally in the seventh.

Ronnie Appledorn who collected three hits in four trips to the plate, while Earl Lubbers smashed out three singles in five attempts at bat.

Coach Stupka staggered the lineup from its usual form and used Eddie Pigeon at shortstop. Pigeon turned in several spectacular fielding plays during the course of the game and did his share at bat as well.

It was definitely a case of a hustling Holland nine and merely an "off" afternoon for the Reds according to Stupka.

## Rabies Causes Death of Dog South of City

### First Case Recorded For Immediate Holland Area; Epidemic Feared

The first case of rabies in the immediate Holland area was recorded today with the report from state laboratories in Lansing that tests proved positive for a shepherd-terrier mongrel belonging to Harry Yutts, which died Thursday.

Death of the Yutts dog was accompanied by all the symptoms of rabies. No person was believed bitten or scratched by the afflicted dog, but all dog owners are urged again to keep their pets isolated (either tied or penned) and to have them immunized against rabies as quickly as possible. This treatment is necessary to curb the long-feared epidemic.

Although the Yutts dog died in Allegan county, the incident is of primary importance to Holland since the death occurred at White Village Inn just south of the city limits. The case is believed to be the first on record for Allegan county in the present crisis.

Meanwhile, plans are going forward for a County Rabies Advisory council to be organized at a meeting of representatives of all groups Thursday at 8 p.m. in the supervisors' room of the court house.

Aim of such an organization is to control rabies in a long range program so that with the first case of reported rabies in a new locale or when cases occur in adjacent counties, control measures can be put into effect. The council is being organized under the direction of Dr. C. Dale Barrett, director of the Ottawa County Health department.

A primary purpose is the mass immunization of dogs, regarded as the most satisfactory method for prompt control of rabies when used as an adjunct to other control measures, such as regulations under the present 90-day quarantine in Ottawa county, requiring dog owners to keep their pets tied or penned.

Persons attending Thursday's session will represent the county health department, veterinarians, police and sheriff's departments, sportsmen's clubs, farm organizations, Board of Supervisors, the four newspapers of Ottawa county and other interested groups. Captains will be appointed in each township.

## Hope Announces New Department For Church Laity

Dr. Henry P. DePree will head the new department of Religious Education being inaugurated at Hope college next September, it was announced here by Dr. Irwin J. Lubbers, president of the college.

Dr. DePree received an A. B. degree from Hope college in 1902 and a bachelor of divinity degree from Princeton in 1905. Following his graduation from that school he served the Bethel Reformed church near Pella, Iowa, as pastor for two years. In 1907 he was sent to China as a missionary by the Reformed church in which field he remained until 1946. Fifteen of the 40 years spent in the mission field he served as president of South Fukien seminary.

Dr. DePree has always been an active student. Three of his furloughs were spent studying at Columbia university, McCormick and Princeton Theological Seminaries. In 1930 he received a doctor of divinity degree from Hope.

According to Dr. DePree, the purpose of this new department is to train more people for lay positions in the Reformed church. Pastors need the help of trained laymen if they are to meet the challenge of the times and carry out the larger program that the church should have to meet the present needs, he said.

"The first plan," Dr. DePree said, "is to make available a four year major in religious education leading to an A. B. degree. This will enable the student to choose many elective courses but at all times specializing in the field of religion."

Dr. DePree also outlined the courses offered beginning next semester for those students majoring in religious education. They are: The church and its work; religious education of children; organization and administration of religious education; missionary enterprise; religious education of adolescents; personal evangelism; vacation church schools; church organization and administration; and history of missions.

## Christian Nine Edged by Bucs In Home Thriller

### Local Rally Falls Short in Sixth; Lack Power in Clutches

Centerfielder Van Schelven's double with Pitcher Norm Baggett on base in the final inning gave Grand Haven a 5-4 win over the Holland Christian nine at Riverview park Tuesday afternoon. The defeat was Christian's third in five starts.

Christian had to overcome a four run deficit in order to stay in the ball game. A sixth inning rally was nipped after two runs had scored, bringing the count to 4-4.

Grand Haven combined four hits off Christian's Duane Rosendahl in the third inning for three runs. All runs were scored after two men had been retired. First Baseman Johnson's long double into the center field temporary bleachers was the big blow of the inning.

Coach Steve Sluka's men added another tally in the fourth on an error, a stolen base and a long fly to the outfield.

The Dutchmen fought back in the fourth inning, getting two tallies. "Butts" Kool singled and went to second when the third baseman muffed Glenn Petroelje's grounder. After the next two batters struck out, Paul Bluekamp, also bounced a drive off the bleachers driving in two tallies. The locals added two more in the sixth on a walk, a hit batsman and a line drive double to center by Rosendahl. This ended the scoring for the Maroons, although Ken Mast did reach first on a single in the seventh.

Norm Baggett, Buc fast and curve ball pitcher, was in top form, striking out 12 Dutch batters and allowing only four hits. Rosendahl retired six Havenites by the strikeout rule, while permitting nine safeties.

The two teams will meet in a return match at Grand Haven Thursday.

## WELCOME TO TULIP TIME

At Tulip Time we rededicate  
ourselves to courtesy at home, in  
public, in our cars, on the golf  
courses, at the beaches, lakes,  
streams and the parks. Spring is  
here again in all its glory and  
with the spring we always think  
of Tulip Time and the visitors that  
come to see our festival. We would  
like to ask that you remember  
your Dutch Hospitality, as well as  
the safety rules of the road. Traffic  
conditions no doubt will be one of  
our major problems so let's all drive  
at a reasonable rate of speed and give  
the proper signals so that all other  
drivers will understand.

These rules can also be practised  
by pedestrians. A good thing to  
remember is that when pedestri-  
ans show signs of bewilderment  
it is safest to stop and allow them  
to cross, leaning on the horn will  
not repair a bruised shin or broken bone.

The tourist and resort business  
for the state of Michigan is big  
business and if all of the people  
visiting Tulip Time receive courte-  
ous treatment, this not only  
helps Holland and vicinity but this  
also is good for all Michigan.

While we are on the subject of  
courtesy, we think it is a fine  
thing for everyone all the year  
around. Just think how many un-  
pleasant things could be avoided  
by all of us remembering that one  
word, "Let's all work on this pro-  
ject and see just how many fine  
results we can chalk up before  
the next Tulip Time rolls around  
next May."

## Sunday School Lesson

May 23, 1948  
The Temple in the Nation's Life  
Ezra 3:10-13; Ezekiel 11:16;  
Ezekiel 37:26-28

By Henry Geerlings  
The temple occupied a place in  
the affection of the Jews that  
may well serve as an inspiration  
to the church today. To be sure,  
the people of that day did not  
have to deal with the seculariza-  
tion of life as we know it. There  
were few who would raise the  
question whether God's law and  
the institution bearing His name  
have a valid place in the social  
order. Temple worship was pre-  
scribed as a moral and civil duty.  
Although there were false prop-  
hets there were few in any walk  
of life who would have brazenly  
ignored the call of God and the  
temple.

We have a right to raise the  
question whether church attend-  
ance is to be performed as a re-  
ligious duty, as was true of many  
of the Jews and whether the  
family should require church at-  
tendance of its children as the  
Jews did. One mother was heard  
to say, "I give my children no  
advice in religious matters; when  
they are old enough they may  
choose for themselves." The  
chances are about twenty to one  
that her uneducated children  
will grow up with the impres-  
sion that they were instructed to  
let the church alone. The pas-  
tor who calls the role of his  
church pillars any Sunday is apt  
to find that they came from the  
homes of church pillars and were  
brought to church as children.

The current crop of pillars will  
also recall that they were not al-  
ways exultant over the idea of  
church attendance. Their appre-  
ciation of the practice grew with  
the passing years.

When the Israelites were wan-  
dering about in the wilderness,  
wherever they stopped they erect-  
ed a great tent to God. This was  
called the tabernacle. It became  
a center of worship for the people.  
Here they found God in a special  
way. When they settled in Pal-  
estine, the tabernacle was devel-  
oped into a great temple, elabo-  
rate, costly, well-appointed. Here  
ritual was developed to a high  
degree until it almost obscured  
God.

When the temple was destroyed  
under Nebuchadnezzar and the  
people were scattered, they gath-  
ered in little companies to wor-  
ship God, to read His law, and to  
keep alive their faith amid an  
idolatrous people. These gather-  
ings developed into a synagogue,  
which means assembly. Perhaps  
these assemblies were in exist-  
ence even in the days of Moses.

At the time of Jesus the syna-  
gogue was an established institu-  
tion. The service was simple and  
instructive. It was Jesus' custom  
to worship in the synagogue on  
the Sabbath day.

Church attendance is necessary  
because we need to worship God.  
An age-old alibi of people who do  
not attend church is that they  
can worship God better in His  
great outdoors among the many  
beauties of His creation. True  
worship can be carried on any-  
where, certainly, but God has not  
asked us to do the easy thing.  
There is some merit in the disci-  
pline that comes from foregoing  
personal pleasures in order to  
join in common worship at church  
on Sunday.

Church attendance is import-  
ant because we need to learn  
more about God and His will, and  
to express this knowledge in  
everyday Christian living. There  
is the core of the church's pur-  
pose in those few words. And a  
sure test of the success of your  
church is to ask how close it  
comes to fulfilling those func-  
tions, namely, teaching about  
God and how to put one's knowl-  
edge of God into everyday living.

Church attendance is necessary  
because we gain inspiration and  
help from Christian fellowship.  
The old saying, "There is strength  
in numbers" applies to Christian-  
ity, because whether we admit it  
or not we are bolstered by the  
knowledge that many, many oth-  
ers are doing exactly the same  
thing. It is hard to stand alone,  
though sometimes one must, and  
one receives courage from feeling  
another's shoulder next to his own  
in the harness.

Church attendance is a Chris-  
tian duty and privilege. There are  
many admonitions to church  
membership in the Scriptures.  
No truly great Christian move-  
ment has survived apart from the  
church. It is easy to criticize and  
find fault with the apparent hy-  
pocrisy of the church and its  
members, much easier than it is  
to take one's share of the respon-  
sibility within the church. We  
should be challenged with the op-  
portunity of joining the church.

We need the church because we  
need God. In Eden there was no  
temple because God was there.  
In heaven there is no temple for  
God is there. Eden represented  
absolute innocence. Heaven rep-  
resents completely perfected char-  
acter. Innocence and perfect char-  
acter come into the immediate  
presence of God and can appre-  
hend Him. Between these two ex-  
tremes we are living. No one is  
completely innocent. No one in  
this life is perfect. We need aids  
to help us to God, to feel His  
presence, to develop faith and obedi-  
ence.

### All Girl Choral Group Among Quartets Listed For Tulip Time Program

Three barber-shop choral groups will be included in the musical festival to be held at Riverview park Friday at 8:15 p.m., according to Willis Diekema, head of the local chapter of the SPEBSQSA.

Holland's own 50-voice Windmill chorus will be the other attraction. These local men, representing a cross-section of the city's population, banded together under the direction of Diekema two years ago.

The program for Friday's musical festival, which was arranged by Everett Kisinger, Holland High school band director, and Diekema, will also feature the Holland High school concert band; the Lansing Sexton High school marching band; Homer Rodeheaver, song leader; the Spartan Guards, a precision marching unit from Michigan State college; and the Klompers dancers from Holland High school.

## Hope Netmen Overpower Alma

Coach Harold Haverkamp's Hope college netters chalked up another win Saturday on the local courts, when they outpointed Alma, 4-1. The match had to be called after five singles events were completed because of rain, but Hope already was assured of a victory.

The local netters have dropped only one conference match this season, that being to powerful Kalamazoo. If the Dutch show the same form at Kalamazoo during the MIAA events this week-end, they will be favored to cop second place in the MIAA. Kalamazoo's net supremacy on the courts is not expected to be contested to any degree in the events.

Hope won four singles matches Saturday, while Jack Tirrell, Hope's No. 1 man was losing to Harsen of Alma. The locals' Gnade was leading, 6-0, 2-0 in another match before the rain halted the events.

Results are:  
Singles—Harsen (A) def. Tirrell (H) 7-5, 6-4; Beckfort (H) def. Gentry (A) 6-0, 6-1; Etterbeek (H) def. Izadi (A) 6-1, 6-4; Barendse (H) def. Antonelli (A) 6-4, 6-4; Lightvoet (H) def. Denney (A) 6-3, 6-4.

Hope attempts to avenge an earlier defeat at the hands of Calvin this afternoon when it tangles with the Knights at Grand Rapids.

## Kisinger Expects 1,000 Bandsmen In Saturday Event

### 17 High School Bands Will Participate in Tulip Festival Review

Everett Kisinger is in charge of the Tulip Time band review which will be held at Riverview park Saturday, May 22 at 12:30 p.m. Kisinger anticipates 1,000 bandsmen from 17 Michigan high schools will take part in the three and one-half hour event.

He said some of the outstanding bands in the state and most high school bands are anxious to appear in the review because of the reputation of the event. He pointed out that a number of bands, particularly those in class A, were compelled to drop out because of Michigan high school regional golf, tennis and track meets which are being held at the same time.

Bands such as Muskegon, Muskegon Heights and Benton Harbor planned to come but re-scheduling their football fields robbed them of a place to practice.

Massed bands will lead-off the review this year and will play the Star Spangled Banner plus three marches. Judges of the review will direct the massed formation.

After the massed showing the bands will perform individually and will be allotted 10 minutes each to get on and then off the field. A penalty will be charged against any band taking longer. Bands will play while going through the maneuvers. It is expected the maneuvers will be based on Tulip Time themes.

Judging will be according to music, marching, maneuvers and inspection. The type music selected, precision of performance, cadence and quality will be considered. Marching is to be judged on uniformity of intervals, keeping in step and straight lines. Each band has been asked to plan special formations for the event and precision of performance, originality, good taste and showmanship are points to be scored.

Before going on the field each band will be inspected, and condition of uniforms and instruments will count in the final award. Ratings will be highly superior "A" first division; superior for second division; excellent for third division and good for fourth division.

At the end of the review, the bands will take part in a parade and will be joined by nine other bands. Awards and plaques will be presented at the Hope college athletic field where the parade will end.

High school bands taking part in the review are from Owosso, Carl A. Bremer, director; Kalamazoo, Easton G. Fuller, director; in class A, Coldwater, Harlan G. Bohn, director; Belding, Richard Worthington, director; Three Rivers, Irvin Van Sluysers, director; Ionia, Nelson Shutes, director; Grand Haven, Bonnester Merwin, director and Charlotte with Robert K. Powell directing.

Also appearing will be Greenville, Arthur Gorman, director; North Muskegon, Robert L. Wirschem and Flushing, Smith, director.

Class C bands are Napoleon, Bette E. Ettig, director; Paw Paw, Glenn A. Collins, director; Brooklyn, George W. King, director; Frankenthuth, Andrew S. Schott, director; Quincy, Donald Buchan, director. In addition the Lansing, Walter French, "Junior high school band, with Allen C. Knoll directing will take part.

Also taking part will be Zeeland, Allegan high school bands, the Holland American Legion band and Holland and Christian high school units along with Holland and Christian Junior high and Holland elementary school bands.

## Luncheon Is Final Event In Local DAR Program

Bouquets of lilacs and tulips decorated the tables at the annual spring luncheon of Elizabeth Schuyler Hamilton chapter, Daughters of the American Revolution, Thursday afternoon in Legion Memorial club house. It was the final event of the year. Invocation was offered by Mrs. Josephine Ball, chaplain.

Mrs. John Rozeboom, regent, presided at the meeting which opened with the Flag Salute and the singing of the Star Spangled Banner. Officers presented their reports. An invitation was extended to the chapter to attend a luncheon in the Whitcomb hotel at Benton Harbor June 15, to compliment the state executive board. Reservations may be made with Mrs. Rozeboom or Mrs. Bruce Mikula.

Mrs. J. W. McKenna was elected treasurer to succeed Mrs. Henry Hopper.

Endorsement of Mrs. Milton L. Hinga, former chapter regent, as state chaplain on the 1949 slate, was made.

In other business it was decided to place a suitable marker at the Old Wing Mission farm. Revision of the chapter constitution will be made in the fall under recommendation of a committee headed by Mrs. O. S. Cross.

The Misses Marjorie Mulder of Holland High school and Suzanne Dykstra of Holland Christian High, Good Citizenship pilgrims, were guests at the luncheon. When introduced they expressed appreciation of a trip to the state conference at Detroit in April.

Annual reports of all officers were presented, showing the wide scope of activities.

Mrs. Peter Veltman entertained with a group of vocal solos, accompanied by Mrs. Martha Robbins. She sang "By the Waters of Minnetonka," Laurence, "The Land of the Sky Blue Water," Cadman, and "The Time for Making Songs Has Come," James Rogers.

C. as a delegate to the annual Continental Congress of the DAR. Meetings, banquets, a reception in the White House, and sightseeing, occupied the delegates. The group enjoyed the first hand report which emphasized the national program.

Arrangements for the luncheon were in charge of Mrs. Mikula, Miss Martha Sherwood, Mrs. Andrew Crawford and Mrs. James Everts, Jr.

## Holland's Flying Dutchmen Open Against House of David Thursday

Holland's Flying Dutchmen, for years one of the strongest independent baseball clubs in Michigan, are all ready to raise the curtain on their 1948 season. Manager Benny Batema announced today. The locals will open play next Thursday under the lights at Riverview Park when they tangle with the Benton Harbor House of David organization. The tilt is offered as an excellent added attraction to the Tulip Time program, and many visitors are expected to attend.

Batema has been holding workouts for old players and new prospects for the last three weeks, but his club, like all other nines, have been faced with the weather problem. However, Batema seemed pleased with the turnout so far—especially with the interest shown among the younger enthusiasts. He reported that energy and interest are running high—and everything points to a good season.

Why shouldn't the wily Holland mentor feel good? He has practically everyone returning from last year's squad, although the probable starting lineup will be a bit advanced in age. "That's what I have the young players for," he said. "I plan on using a lot of ball players this season and many of the outstanding youngsters set around town are going to get a chance," he said.

The opening lineup, however, is expected to reveal practically the same team which left the diamond last fall. Starting at first base will be hard-hitting Ken Rotman. He will be flanked at second base by reliable Harry De Neff, whose misplays are few and far between. On the other side of the keystone sack will be Don Van Lente. Van Lente turned in a magnificent job last season, and Batema is hoping for some more of the same. At the "hot corner" will be familiar E. De Neff, who has played plenty of baseball for the Dutchmen at third base.

Outfield positions are still wide open, although Veterans Juke Van Huis and Harold "Mouse" Van Wieren are out for drills. Promising youngsters are George Czerkies, Louis and Bob Borgman, Con Boeve and Wentzel, a Hamilton lad.

Although the Dutchmen lost the services of George Zuverink to the minor leagues, they still have an average pitching staff. Returning are Lefty Van Wieren and Mike Skalen, plus Ernie Victor who won't join the squad until school closes. Van Wieren will get the starting nod Thursday night.

Veteran Loren Wenzel still heads the catching list, although young Jack Van Dorpie is also showing well. Batema said, Wenzel will be behind the plate in the opener next week.

Booking Manager Russ Vander Poel said the House of David club is the "home" club of the Benton Harbor organization. It is a member of the Michigan-Indiana league and last year amassed an impressive record. The invaders are not the bearded team of the House of David system, Vander Poel said.

## Stations Entered Near Police Post

Grand Haven, May 20 (Special)—Two gas stations located near the state police post were looted Saturday and a 500-pound safe containing \$340, 20 cartons of cigarettes and other articles were taken from the Harold Welscott station. State police were notified by Gerrit Lokse at 6 p.m. Saturday when he noticed cigarettes strewn outside the station while waiting for a bus.

Investigation revealed the Welscott station was entered through a side window. While checking up, police found the other station also was entered through a side window.

The exhibit was brought to Holland as an added attraction to the Tulip Time program. ## Hope Nine Splits 'Double Bill' With Muskegon Club

Skaalen Hurls Near  
'Perfect' Game; Dutch  
Falter in Second Tilt

Hope and Muskegon Junior college baseball squads traded shut-out victories at Riverview Park Friday afternoon in a twin bill affair. The Dutchmen won the opener with ease, stopping the Jayhawks 9-0, but dropped the second tilt, 1-0. The first game was a seven inning game, but the nightcap went only five innings.

Coach Jack Schouten's squad now boasts six wins in nine starts, while Muskegon's win in the second encounter gave them a 3-3 record. Hope takes to the road again today when it tangles with the Alma Scots in an MIAA affair.

Only one man, Catcher Hoot of the Jayhawks, stood between Mike Skaalen, ace of the Hope mound staff, and a "perfect" ball game. Hoot singled as the second man up in the first inning of the opener to mar the feat. He was the only runner to reach first base while Skaalen retired 20 men in order. He struck out eight batters and didn't walk a batter. It was Skaalen's fourth win for the Dutch.

Meanwhile the Hopeites "jumped on" starter Bob Van Zanten for four hits and four runs in the first inning. Chuck Zoet opened with a walk, and advanced to second when Mulder's attempted sacrifice was muffed by a Jayhawk. Tom Van Wingen, Hope leftfielder, then took hold of a fast ball and smashed it into the centerfield corner for a circuit clout, scoring three runs. Ernie Meuseen followed with a triple and scored on Fenske's one baser for the final tally.

Hope didn't register another hit until the fifth inning, but it didn't figure in the scoring. Don Mulder, put on a base running exhibition after he took first on a walk. He went to second on an overthrow, and then stole third and home for the fifth score.

The locals collected 10 safeties with Ernie Meuseen pacing the attack with a triple and two singles. Husky Dan Vander Wier handcuffed the locals in the second fray when he allowed five hits, but got tough in the pinches.

Muskegon got the only run of the abbreviated tilt in the second inning on two singles and a long fly to left field.

Freshman Hamilton McCallum, on the mound for the locals, turned in a creditable pitching performance although he was in trouble in nearly every inning. He allowed six hits while retiring three Muskies by the strikeout route. Seven Hope batters went down swinging.

Coach Schouten's boys muffed a great scoring chance in the fifth inning when they loaded the bases with nobody out. Harold Van Wieren then proceeded to pop out and Meuseen forced Zoet at the plate. Mike Skaalen, pinch hitting, then popped up to end the ball game.

## Vows Spoken in Jamestown Church

Mr. and Mrs. Elmer Hoeksema

Miss Jerene De Kock, daughter of Arthur De Kock of Jamestown and Elmer Hoeksema, son of Mr. and Mrs. John Hoeksema of Burdick, was married May 15 in the Jamestown Christian Reformed church.

The double ring ceremony was performed before a setting of palms, ferns, candelabra and altar bouquets of white snapdragons, peonies and gladioli by the Rev. Bernard Pelkelder.

Traditional wedding music was played by Nelson De Kock, who also accompanied Lester Brouwer, who sang "I Love You Truly," the "Wedding Prayer," and after the ceremony, "The Lord's Prayer."

The bride, given in marriage by her father, wore a white slipper gown with sweetheart neckline, sleeves tapering to points over the wrists and side pleats that ended in a circular train. Her fingertip veil was held in place by a braided headband with orange blossoms and edged with white tulle.

She carried a cascade bouquet of white roses. A pearl necklace, gift of the groom, completed the wedding ensemble. Mrs. Herman Lubbinge, twin sister of the bride, the matron of

honor, wore a pink rayon taffeta gown, a matching heart-shaped head-dress and carried a heart-shaped bouquet of roses and carnations.

Bridesmaids were Miss Ilah De Kock, sister of the bride, and Mrs. Edwin Oosterink, sister of the groom. Gowns were of turquoise and yellow and were similar to that of the matron of honor.

Bonnie Jean Burgess, cousin of the bride, as flower girl, was dressed like the attendants and carried a basket of May roses. David De Kock, another cousin, was ringbearer.

Ryan Hoeksema, brother of the groom was best man and ushers were John T. Hoeksema and Herman Lubbinge.

## Cooking Hint Adds Flavor and Food Value to Meals

### Use of Dry Skimmilk Inexpensive Way of Adding Protein to Diet

If you're looking for a way to get more milk in your family's diet in an easy way, your answer may be the use of dry skimmilk in many recipes. It is a cheap source of good protein.

Using dry skimmilk gives a fine flavor to many foods and puts minerals and vitamins to your diet inexpensively, advises Pauline Paul, research professor in the foods and nutrition department at Michigan State college.

Using various amounts of the dried milk in hundreds of recipes has convinced home economists that it is a very practical item for every housewife to add to her grocery list. It is easily stored and convenient to use. Keep it in a tightly closed container in a cool place and it is ready for your use in soups, meat dishes, breads, and desserts.

Usually you can use it dry and mix it with the dry ingredients. In a few cases you will need to return it to a liquid by adding water and use as ordinary milk. Some recipes will use enough dry milk to increase the food value over six or eight times, using fluid skimmilk. One ounce is equal to one cup of fluid skimmilk. Since it contains no fat you will want to use foods to replace the fat you would get from the whole milk. Using butter, eggs, cheese, green vegetables, carrots, liver, sweet potatoes and yellow corn will give you a good balance.

Dr. Paul and her co-workers in the foods department, Ariene Brill and Shirley Means, have worked-out successful recipes with the dry skimmilk. Their recently published bulletin, "Using Nonfat Dry Milk Solids", contains many of them.

## Date Important in Planting Beans

June is an important month for the bean crop since most planting is done then. But Herbert Pettigrove, bean specialist at Michigan State college, says that plans must be made carefully before planting is done.

Beans can be planted in May but they usually make a set of pods rather early. As they are maturing, a rain can cause the plant to send out new growth and make a new set of pods. The new growth makes harvest difficult and creates a problem most growers are not anxious to face.

Pettigrove lists the following rates and dates for planting various types of beans:

Pea beans (Michelite variety)—Plant the first week or ten days of June in rows 28 inches apart at the rate of 40 pounds per acre.

Cranberry beans — Plant the first ten days of June, preferably as near the first as possible, in rows 28 inches apart at the rate of 60 pounds per acre.

Kidney beans—Plant June 15 to 25 in rows 28 inches apart at the rate of 80 pounds per acre.

If beans can be dropped four inches apart in the row in a uniform manner, the spacing will be excellent. If the drill does not drop the beans uniformly in the row, enough seed must be used to avoid wide spaces between plants. Distances of 12 to 15 inches in the row without plants will reduce the yield.

The 28 inch row is standard. However, narrower spacing of the row may be used and an increase in yield obtained. The extra yield may not any more than compensate for caring for the extra rows but there may be an convenience in the use of equipment.

## Fresh Air Necessary For Turkey Poults

Turkey poults need fresh air, advises Charles Reed, extension poultryman at Michigan State college. Windows should be arranged so they can be tilted in slightly to allow fresh air to enter and circulate in the house. Lack of proper ventilation, the specialist points out, will result in damp

## Feed Cows Well For Best Return

Many cows yield only two-thirds capacity in Michigan because they are only fed from one-half to two-thirds volume. This fact is reported by A. C. Baltzer, Michigan State college extension dairyman, from records of dairy herd improvement organizations.

Many herds under DHIA test for the first time produce 2,000 pounds less milk and 100 pounds less butterfat than they produce after testing for 12 to 24 months.

The average Michigan cow receives two tons of hay, between 2,000 to 2,500 pounds of silage, and about 1,000 pounds of grain. The average DHIA cow receives two tons of choice alfalfa, alfalfa-brome grass hay; from 4,000 to 5,000 pounds of corn silage; and from 2,500 to 3,500 pounds of balanced grain mixtures.

Though the cost for this feed is greater, the dollars returned by the more heavily fed cows is often three times greater than that produced by the poorly fed cows.

## Europe Has Increase of Reforestation Activities

The great increase of reforestation activities that has exhausted the supply of planting stock in all the public nurseries in Michigan is not confined just to this state or country, according to Paul A. Herbert, head of the Michigan State college forestry department.

Western European countries are also increasing their reforestation activities. Word has been received at MSC from the Danish Health society in Denmark that they are planning to establish numerous shelter belts and plantations of foreign trees on a large scale.

Herbert reports that it is interesting to note that despite a cheaper labor supply than we have here, the Danish society has requested permission from the MSC forestry department to build a Michigan State reforestation. The machine, developed two years ago by two members of the MSC staff, takes the backache out of reforestation and will plant 8,000 trees per day with two men. Blueprint drawings and a detailed description of the machine have been forwarded to Denmark to enable them to build a machine of their own.

## County Boys Participate In Milk Marketing Trip

Six Ottawa county 4-H boys enrolled in dairy production participated in a milk marketing trip at Grand Rapids last week Monday and Tuesday, sponsored by the Michigan Milk Producers Milk Marketing association for 11 western Michigan counties.

The boys visited the milk producers' office Monday afternoon. Tuesday morning they visited the milk processing plants. The boys stayed over night at the YMCA in Grand Rapids.

The 4-Hers from Ottawa county were Richard Preston and Ray Featherstone of the Conklin Dairy club; Charles Lillibridge of the Marne dairy club; Carol Cook, Dale Hudson and Bruce Lessien of the Coopersville dairy club; Harvey Elliott, county club agent, accompanied the group.

Elliott said most of the dairy clubs in Ottawa county have reorganized for the 1948 season. New clubs were organized in Toothacre and Alward communities. The Toothacre club is led by Harvey Bennick and the Alward club by John Machiela.

litter and unhealthy poults. Farmers using gas brooders should be especially watchful since these brooders of fresh air in order to remain healthy. Air should enter the house without causing drafts directly on the poults.

## State Grass Day Plans Progress

Greater emphasis on high quality legumes and grass to stabilize Michigan's agriculture is being brought to the farmers in 12 Grass Day demonstrations during June.

Scattered throughout the state to serve all areas, these all-day programs will show farmers latest seeding, harvesting, hay handling and utilization methods.

The Michigan State college co-operative Extension service is sponsoring the events and machinery companies are assisting with the equipment for demonstrations.

Richard Bell, extension farm crops specialist at Michigan State college, points out that Michigan's hay and pasture acreage dropped from 5,400,000 acres in 1949 to 4,500,000 acres in 1944. The chairman of the Grass Day committee said farmers realized the need for more cash crops and cereal grain and met this great need.

Although there is still need for these crops, farmers are being encouraged to devote more effort toward getting better hay and pasture stands for higher yields of good quality roughage.

A Grass Day demonstration will be given at the Donald Nutt farm, one-half mile north of Ravenna in Muskegon county on June 16. In case of bad weather, the event will be delayed until the following day. In Ionia county, a demonstration will be given on the Henry Welch farm, four miles northeast of Ionia on Welch road.

## Report Large Crop Acreage

Lansing—Total acreage of asparagus and cabbage in Michigan this year is the highest on record, the Michigan Co-operative Crop Reporting service announced today.

The Service also predicted the fifth largest crop in 20 years for Michigan strawberry growers. Experts said the 1948 yield may reach 788,000 crates of 24 quarts each.

With asparagus acreage either remaining the same or showing an increase since 1928, this year's acreage reached a peak of 5,400 acres. This is five and one-half times the amount given to asparagus 20 years ago.

According to a survey taken in March, Michigan cabbage growers plan a 700-acre increase to 7,200 acres.

Production of maple products fell to the lowest point since 1916, with the exception of the 1946 crop. The Service reported. The 80,000 gallons of syrup produced this year compared with the record low of 63,000 two years ago and 114,000 gallons last year.

The program, to which the public is invited, starts at 10 a.m. with the viewing of the exhibits of work done by the 26 home extension groups. At 10:30 a.m. the formal program will start in the main auditorium.

## Five Points Listed for Control of Corn Borer

A five-point program for the control of corn borer is being advocated by the Michigan State college departments of farm crops and entomology. The fact that corn is a three-billion-dollar crop and is greater than any other two crops combined in acreage, dollar value, and diversity of by-products, makes borer control important.

These five points are urged: (1) Destroy old corn stalks and stubble before emergence of the moths. (2) Plant best locally adapted hybrids. (3) Plant at the best time, neither early or late. (4) Watch for egg laying and use insecticides where needed. (5) Consult the county agricultural agent for special advice.

## Fertilizer for Corn Discussed

The question of corn fertilization comes up each year, reports L. R. Arnold county agricultural agent.

According to word received from A. G. Weidemann, soils research specialist at Michigan State college, the value of commercial fertilizer applied directly for corn is very dependent on weather, moisture, and temperature.

With favorable weather conditions in July and August, commercial fertilizers often give favorable results. If applied at sowing time, fertilizer causes a rapid early growth but increases the yield of stover which draws heavily on the soil moisture supply. When moisture is lacking the corn suffers because of the unusually large early growth of stover and the grain yield is reduced.

A well fertilized rotation of small grain seeded to clover or some other legume that will produce a good sod helps promote better yields of ears and less stover in average seasons. Fertility produced in this way becomes available more slowly, retarding early growth, depressing the yield of stover, and conserving moisture until the time when the ears are forming.

If corn has to be planted on soil where the fertility has not been built up to a high level, fertilizer may be advisable. An application

## Advice Given to Farm Buyers

For the person who is considering buying a farm, Karl T. Wright, farm management research specialist at Michigan State college, today had a few words of advice.

Much depends, he believes, on how the land is to be paid for. If cash is available for a large share of the purchase price, the farm may be purchased with fewer farm products than normally.

Purchasers who pay only a small down payment take more risks. If the price of farm products decline, then one could very easily have to pay considerably more in the form of products than normal. A sharp reduced standard of living might result. Now is the time for caution, Wright advises, if considering buying with a small equity.

The rapid rise in farm land prices was "slowed to a walk" in 1947, according to figures from the Michigan Crop Reporting service. During the five preceding years land prices in Michigan had nearly doubled, but increased only two per cent during the year ended March 1, 1948. Farm land prices in Michigan have increased since pre-war about the same as in most surrounding states. This, however, is about a fifth more than the increase for the whole United States.

While the increase in land prices in the United States has been about the same in recent years as during and following World War I, Wright believes it is surprising that it has not been more. In view of the many forces increasing land prices, many much stronger than 25 years ago, farmers and others in the land market have shown admirable restraint, he says.

Of 150 to 200 pounds of 2-12-6, 2-16-8, or 4-12-8 in the row on heavier soils such as silt loam or clay loam is recommended. On sands or light sandy loams 4-12-8 or 3-12-12 can be used. A lighter row application supplemented by 200 pounds drilled solid or plowed under would be better in seasons of low rainfall. In extremely dry seasons even this treatment may not increase the yield of grain.

## Canners Warn Peach Growers About Sprays

Grand Rapids—Leading western Michigan canners have issued warnings to peach growers that they will not purchase fruits sprayed with certain new compounds. Gerber Products company at Fremont gave a notice that followed similar warnings by the Michigan Fruit Canners, which has plants in Benton Harbor, South Haven and Fennville.

A spray particularly cited was benzene hexachloride to control curculio disease in peaches. Use of this particular spray too close to harvest time impairs the flavor of peaches, Walter Tonjes, director of the Grand Rapids Horticultural Experimental station here, said.
