The Detroit Weekly

TRIBUNE

FOR 1873.

ENLARGED AND IMPROVED.

THE DETROIT WEEKLY TRIBUNE, one of the oldest and most firmly established Republican newspapers of the country, has been enlarged by the addition of One Column to each of its pages, and is now a Fifty-six Column newspaper, and one of the Largest Weekly publications in the North West.

This marked increase in its size, and therefore, in the amount and variety of its contents, is not accompanied with any increase in its subscription price; which remains at the old figures of \$3.00 for single subscriptions, or \$1.00 for subscriptions in clubs of twenty or more, or five papers for \$9.00, or ten for \$16.00.

Will. M. Carleton,

the famous "farm ballad" poet is a regular contributor to its columns, and during 1873 will furnish a New series of "Farm Ballads," written especially for the Tribune. This fact will be learned with pleasure by the thousands who have read with such rare delight his "Betsey and I are Out," "Out of the Old House Nancy," etc.

The Detroit Weekly Tribune is also a carefully edited journal, which publishes in compact form all the news of the day, Foreign and Domestic; which is especially attentive to all matters possessing a Michigan interest; which gives full and accurate Commercial Reports; and which presents to its readers a large range of choice literary and miscellaneous selections.

Its Agricultural department is under the charge of an experienced and practical editor, and furnishes an increasingly popular medium for the interchange of opinions and facts among its subscribers.

The present circulation of The Weekly Tribune exceeds that of the combined weekly editions of all the other Detroit political journals, and will undoubtedly be greatly increased during the coming year.

It is published on the new four-cylinder rotary press of The Tribune establishment, which is the only one of the kind in Michigan.

Over the Hill from the Poor-house.

In Carlton's new book of Poems, the following pleasant sequel to "Over the Hill to the Poor-house" appears:

I, who was always counted, they say,

Rather a bad stick any way;

Splintered all over with dodges and tracks,

Known as "the worst of the Deacon's six";

I, the truant, saucy and bold,

The one black sheep in my father's fold,

"Once on a time," as the stories say,

Went over the hill on a winter's day—

Over the hill to the poor-house.

Tom could save what twenty could earn,

But givin' was somethin' he ne'er could learn;

Lease could half o' the scripture speak—

Committing a hundred verses a week;

Never forgot and never slipped,

But "Honor thy father and mother," he skipped

So over the hill to the poor-house.

As for Susan, her heart was kind,

An' 'good'—what there was of it, mind;

Nothin' too good and nothin' too nice,

Nothin' she wouldn't sacrifice

For one she loved; an' that one

Was herself, when all was said an' done.

And Charley and Becca meant well, no doubt,

But any one could pull 'em about;

An' all o' our folks ranked well, you see;

Save one poor fellow, and that was me;

An' when one dark an' rainy night,

A neighbor's horse went out o' sight,

They hitched on me as the guilty chap

That carried one end o' the halter-strap.

An' I think, myself, that view of the case

Wasn't altogether out o' place;

But mother denied it, as mothers do,

But I'm inclined to believe 'twas true:

Though for my me, one thing might be said—

That I, as well as the horse, was led;

An' the worst of whisky spurred me on,

Ore else the deed would never have been done.

But the keenest grief I ever felt,

Was when my mother beside me knelt,

An' cried an' prayed, till I melted down,

As I wouldn't for half the horses in town.

I kissed her fondly, then an' there,

An' swore henceforth to be honest and square.

I served my sentence—a bitter pill,

Some fellows should take who never will;

An' then I decided to go "out West,"

Concludin' 'twould suit my health the best;

Where, how I prospered I never could tell,

But fortune seemed to like me well,

An' somehow every vein I struck

Was always bubblin' over with luck.

An' better than that I was steady an' true,

An' put my good resolution through,

But I wrote to a trusty old neighbor and said,

"You tell 'em, old fellow, that I am dead,

An' died a Christian 'twill please 'em more,

Than if I had lived the same as before."

But when that neighbor wrote to me,

"Your mother's in the poor-house," says he,

I had a resurrection straightaway.

An' started for her that very day,

An' when I arrived where I was grown,

I took good care that I shouldn't be known;

But bought the old cottage through an' through,

Of some one Charley had sold it to;

And held back neither work nor gold,

To fix it up as it was of old.

The same big fire-place, wide an' high,

Flung up its cinders toward the sky;

The old clock ticked on the corner shelf;

I wound it up an' set it agoin' myself;

An' if everything wasn't just the same,

Neither I nor money was to blame;

Then—over the hill to the poor-house!

One blowin', blusterin' winter's day,

With a team an' cutter I started away;

My fiery nags were as black as coal;

(They some resembled the horse I stole);

I hitched an' entered the poor-house door—

A poor old woman was scrubbin' the floor;

She rose to her feet in great surprise,

And looked, quite startled, into my eyes;

I saw the whole of her trouble's trace

In the lines that marked her dear old face;

"Mother!" I shouted, "your sorrow is done!

You're adopted along o' your horse-thief son;

Come over the hill from the poor-house."

She didn't faint; she knelt by my side,

An' thanked the Lord, till I fairly cried,

An' maybe our ride wasn't pleasant an' gay,

An' maybe she wasn't wrapped up that day,

An' maybe our cottage wasn't warm an' bright,

An' maybe it wasn't a pleasant sight

To see her gettin' the evening's tea,

An' frequently stoppin' an' kissin' me!

An' maybe we didn't live happy for years,

In spite of my brothers' an' sisters' sneers,

Who often said, as I have heard,

That they wouldn't own a prison-bird,

(Though they're gettin' over that, I guess;

HOLLAND CITY NEWS

S. L. MORRIS, Editor.

SATURDAY, MAY 31, 1873.

THE FURNACE.

As will be seen by reading the proceedings of the Citizens' meetings, a committee will be reported at the next meeting of the "Association," whose duty it will be to solicit subscriptions to capital stock for the purpose of building a blast furnace in this city.

We have no doubt but what the amount required can be secured as soon as our citizens become fully aware of its great importance to the interests of this city. That it will be an investment largely remunerative, properly handled, we are satisfied, which fact, together with the natural increase of wealth and population, sure to follow, should stimulate every man who has an interest in this city to do all in his power to aid the project. It is true that poverty is a plea that we can all entertain to a greater or less extent, yet we must bear in mind that nearly all this money is expended here, and will soon repay itself. It is virtually a short loan for a long profit, entirely different from moneys expended for securing railroads where no return is expected. It is to be a straightforward business transaction, and we believe no fears need be entertained by men placing their money in such an undertaking.

If we secure this work it will be the means of inducing other enterprises to locate here, and will be a strong attraction for the Midland Railroad to make this point its terminus. It will increase our shipping facilities, thereby insuring the safety of our harbor.

Let there be a united effort made to secure the subscriptions necessary. Let it be done with full confidence in each other, and no such word as fail can for a moment be entertained.

Turn out to the meeting Monday evening at Bakker & Van Raltee's Hall.

Common Council.

CITY OF HOLLAND, May 28.

The Common Council met pursuant to previous adjournment, and was called to order by the Mayor.

The roll was called by the Clerk, the full Board being present.

The regular order of business was called.

No petitions, or reports of standing committees presented.

Mayor Harrington, chairman of committee on Cemetery Grounds, reported progress, and asked for further time, which was granted.

MESSAGE FROM THE MAYOR.

MAYOR'S OFFICE,

City of Holland, May 28, 1873.

To the Common Council of the City of Holland:

GENTS:—I would recommend the following subjects for your consideration this evening, to wit:

1. WHEREAS, The Legislature of the State of Michigan incorporated all of that portion of territory embraced within the limits of the city of Holland into a school district, to be known and designated as the Public Schools of the City of Holland, and—

WHEREAS, Said act took effect on the 21st day of April last, and, among other things, said act provides for a Board of Education, consisting of six members and the Mayor; and—

WHEREAS, By the incorporation of the public schools of the city of Holland, all officers of School District No. 1, residing within the limits of said city, became non-residents of the former district, thereby leaving their several offices vacant, on and after the 21st day of April last; and—

WHEREAS, There now remains a vacancy in the Board of Education for the Public Schools of the City of Holland, of three of its members, I would recommend the appointment of three suitable persons to fill said vacancies, each to hold their respective offices until their successors are duly elected and qualified, at the next annual charter election.

2. WHEREAS, The Common Council, in the estimation of the public, will be held responsible for the appointment of discreet and proper persons to the several offices, and it appearing to me to be desirable to have a united and harmonious action of said Board, in order to promote the interest of education; and it appearing to me that one member of said Board, by the name of Cornelius Doesburg, duly appointed to said office by your Honorable Body on the first Monday of May inst., for the term of three years unless sooner removed, has conducted himself

on sundry occasions in a manner calculated to disturb the harmony and well-fare of said district by assuming to still control the affairs of said school district under, and by virtue of the title of Director of School District No. 1, and in sundry other forms, setting at naught the action of your Honorable Body. Now, therefore, I would respectfully recommend that the said Cornelius Doesburg be forthwith removed from said office, and that a suitable person be appointed to fill the vacancy created by his removal.

3. I would also recommend the appointment of a City Collector, and a Street Commissioner.

4. I would recommend that the paving of the gutters on that portion of 8th street embraced within blocks 36 & 37 be let to the lowest bidder, plans and specifications to be seen at the City Clerk's office.

All of which is respectfully submitted.

E. J. HARRINGTON, Mayor.

OPINION OF JUDGE W. B. WILLIAMS.

ALLEGAN, May 24, 1873.

To the Mayor and Common Council of the City of Holland:

GENTS:—The following questions arising out of the present charter of the City of Holland have been submitted to me for my opinion, viz:

1. When did the new charter take effect as law?

2. Was the election held on the 7th day of April a legal election under the new charter?

3. What effect has the present charter upon the former school district organization—a portion of its territorial limits being without the city limits?

4. Do the officers of the old School District who still reside within the present limits of the city of Holland still continue in office?

FIRST. I have no question, and do not think there is any but that the present charter, which became law by virtue of the ten days' limitation, not being expressly approved by the Governor, did not take effect until ten (10) full days, excluding Sundays, from the time the bill was presented to him for approval. If it was presented on the 9th it took effect on the 21st.

SECOND. The election held on the 7th day of April, being before the present charter took effect, and being at the time prescribed for the annual election, under the old charter, was a valid election, but was of no validity so far as the election of officers under the new charter was attempted.

THIRD. The present charter creates the city of Holland a school district under the name of the "Public Schools of the City of Holland." The effect upon the old school district organization of the new charter, was, upon its taking effect as law, to divide it, leaving that portion of the old district outside of the territorial limits of the city still existing as the former district organization, while the city of Holland is an incorporated school district, created by special Legislative enactment, and its limits can only be changed by the power that created it.

THIRD. The primary school law, 3637 compiled laws 1871, provides that every school office shall become vacant upon the incumbent ceasing to be a resident of the district for which he shall have been elected, or upon the happening of either of the events specified in section three of chapter fifteen of the revised statutes of 1846. It would seem, then, that the officers of the old school district who reside within the city of Holland have ceased to be residents of that district and have become residents of the school district known as the "Public Schools of the City of Holland," and, as a necessary consequence the offices of the old district of which said residents were the incumbents have become vacant.

The new charter provides for the full management and control of the schools and the school property, placing such control in a Board of Education, to consist of six Inspectors and the Mayor. Three of this Board are to be appointed by the Common Council and three to be elected by the people at the annual meeting, but in case of a vacancy, it may be filled by appointment at the discretion of the Common Council, or a special election may be called by the Common Council for that purpose. There would seem to be a vacancy as to the three Inspectors elected or attempted to be elected at the last election. I have no question but the vacancy can be filled in either of the ways above referred to, and the persons so appointed would hold their office until the next annual election, unless sooner removed.

Very Respectfully,

W. B. WILLIAMS.

Moved by Ald. Schadelee, seconded by Kanters, that the Mayor's Message

and the Opinion of Judge Williams in regard to the questions arising out of the present city charter be referred to a special committee who will report to this meeting—carried, all voting aye.

The Mayor appointed Al. Schadelee and Aling as special committee in accordance with the foregoing motion.

On motion of Ald. Sipp, seconded by Kamperman, and carried, the Council took a recess of ten minutes.

After the recess the Council was called to order, all were present.

The special committee reported as follows:

To the Hon. the Mayor and Common Council of the City of Holland:

GENTS:—Your special committee to whom has been referred a written opinion of Hon. W. B. Williams, relative to questions arising out of the present charter of said city, and also the Message of our Hon. Mayor concerning the filling of vacancies in the Board of Education, and the removal therefrom of Mr. C. Doesburg, a present member of that Board, would respectfully report as follows:

It is the opinion of your committee that the Common Council, and the people of this municipality desire to obtain all legal light on the matter in question, and therefore recommend that said opinion of Hon. W. B. Williams, and also the Message of the Hon. Mayor, be published as a part of the proceedings of the Common Council, and would further recommend that the Message of the Mayor be made the special order of business at the next regular meeting.

Moved by Ald. Dykema, seconded by Hoogesteger, that the report of the special committee be accepted and adopted—carried, unanimously.

Adjourned.

Citizens' Association.

Met on Monday evening, last. In the absence of the President and Vice President, Mr. H. Walsh was called to the chair, and G. W. McBride was chosen Secretary.

The committee appointed to investigate the probable amount of iron ore to be found, and the area of territory upon which it may be found in paying quantities, made the following report:

We visited the iron land of John Aling & Co. and estimated according to the best of our ability that there are about fifteen acres which are covered with iron, on the lot of eighty acres. We found water on the land, so it was hard to decide the thickness of the ore; dug through in one place and found it a foot deep; this was one of the thinnest places we could find. We then went to the farm of B. Van Lente, where we found two or three acres of land entirely covered with the ore to the depth of 24 inches; also many acres more covered with what is called shot ore. We also visited the iron land of John Fuller, Dominie Stewart, and others, where we found an abundance of ore, but deeper down. The ore on J. Aling & Co's. land was two feet in depth; on B. Van Lente's, nearly on the surface; at the present time, the water is from six to twelve inches deep. There is also iron on the dry land; we saw a farmer who said he had spots a rod square that he could not plow for the iron on it.

Respectfully,
JOHN ALING,
CHAS. A. DUTTON,
R. KANTERS,
J. W. MINDERHOUT,
Committee.

The committee appointed to confer with the agent of Lawton Furnace, for facts and figures relative to constructing a blast furnace at this place, reported as follows:

We visited Lawton, and met the gentleman we hoped to induce to build a smelting furnace at Holland, but found that he was already engaged in a similar enterprise at another point.

We found him very willing to give us any information we desired, and from him we ascertained definitely, what would be necessary to induce an iron master to undertake to establish iron smelting works at Holland.

It remains to be seen whether we can supply what is wanting, and your committee are now making inquiries to enable them to settle that point.

We feel confident that it is entirely within the power of the people of Holland to secure this desirable object, if all are united in desiring it, and if each one is willing to do his reasonable share of the expense and labor needed.

The Holland ore is of good quality for bog ore; the 50 tons sent to Lawton was mixed with Lake Superior, in the proportion of 20 per cent. Holland ore, to 80 per cent. Lake Superior, and made a No. 1 foundry iron. The bog ore softens and opens the pores of the L. S. ore, but for some purposes, such as car wheel iron it cannot be used.

A Smelting furnace, with capacity of 20 tons per day, will require a capital of \$125,000. From 7 to 10 acres of land will be required, with port accessible for large vessels. It would need 10,000 tons ore, 15,000 cords wood, 1,200 tons limestone per year, and would employ about 100 men, adding from 200 to 500 souls to our population. It would make a reliable cash market for all the wood that could be made here. The transportation alone would amount to some 18,000 tons per year.

For building the works, 800,000 brick would be required, all of which could be made and furnished here.

The successful establishment of such a furnace at a point like Holland, with unlimited facilities for shipping by water and by land in every direction, would be very likely to lead to the establishment of manufactories of stove plate and heavy castings of various descriptions, opening up the manufacturing of iron to an unlimited extent, and employing at no distant future, hundreds of workmen.

HEBER WALSH,
H. D. POST,
Committee.

Both the above reports were read and accepted.

The subject of Black Lake Harbor was then introduced and discussed, Capt. S. C. Mower, engineer in charge of the work was present, and being called upon, made substantially, the following remarks:

That up to the present date, the tug Tempest has worked 117 hours, and has removed all the sand between the piers to within one hundred feet of the outer end, to a depth of ten feet, and has already accomplished an amount of work which it would have required a dredge three months' steady work to perform. He also stated that the work is being done more thorough, making it more uniform, with a greater depth of water than ever before, and gave as his theory for the filling up between the piers, was from holes left in the pier-work, which he informs us has been remedied, and expects no great difficulty from that source in the future and that the expense of the whole work of dredging will not exceed \$2,000. The Capt. assured us that the tug will not leave us with less than ten feet of water between the piers.

He also recommended that we secure a tug, drawing not less than 6½ feet of water, which would keep the present depth in the channel, with not to exceed five hours' steady work after each storm.

Altogether the meeting was very interesting, and, as the reports will show, profitable. Such facts as are being brought to light by our "Citizens' Association," certainly shows that an effort is being made which should be seconded by every citizen in this city.

Our citizens can but feel grateful to Capt. Mower for the thorough manner in which he is doing his work, and the deep interest he is manifesting for the benefit of our harbor.

SHIP YARD.—At A. Anderson's ship yard, preparations are being made for active work during the summer. The vessel Lookout will soon be on the ways to be rebuilt, at an expense of \$7,000 or \$8,000.

IRON ORE.—We have had left at our office some very fine specimens of bog ore from the iron beds two miles north of this city. Any one desiring to see what we have in that line will call and examine it.

Pure Drugs and Medicines can always be had at H. Walsh's City Drug Store, and at very low prices. It will pay you to make your purchases there. 13-18

DROWNED.—Horton Sperry, a resident of Grand Haven, a work hand on the tug Mary, while towing the vessel Lookout into this port on Monday last, accidentally fell overboard and was drowned. He leaves a wife to mourn his untimely loss.

Dr. Mac Rae will be at the City Hotel, Holland, Mich., Monday, June 9th, and on the first Monday of each month thereafter, and remain two days, for the special practice of Surgery, and diseases of the Eye and Ear. Permanent office at Saugatuck, Mich. 15

Dr. Frank S. Ledebor has returned to this city to resume the practice of his profession. He can be found at his old quarters, at the office of G. Van Schelven, where he will be pleased to see all his old customers, and as many new ones as may wish his services. 15-18

We this week call attention to the advertisement of A. Flietstra, who has opened a choice selection of groceries and notions, which he proposes to sell at a very small profit. He is centrally located, and we hope will secure his full share of patronage. Give him a call.

NOTICE.—I want to dispose of my entire stock of hardware, stoves, nails, etc., and will sell until further notice, at prices below cost, for cash only. And I hereby request all persons who are indebted to me, to come and settle without delay, and save cost. Accounts must be settled and stock must be sold. J. VAN LANDEGEND. Mr. Heber Walsh, our enterprising Druggist, has succeeded in obtaining the sole agency for this State the sale of Ralf's Dermic Lotion. It is the only known article which will remove freckles, pimples, tan, sunburn, chaps, grub or black worms, ring-worms, salt rheum, etc. Don't fail to call and purchase a bottle, it will do all for which it is recommended. 13-18

The news from the Modocs is very encouraging. Twelve warriors and fifty old women and children have come into camp and surrendered. "Curlyheaded Doctor," "Steamboat Frank," "Bogus Charley," "Shack-nasty Jim," and other eminent and delicately-christened savages, are among the surrendered warriors, and more are expected. The description of the Indian procession entering camp is very ludicrous, and the child-like smile with which "Bogus Charley" grasped the hand of General Davis and laid down his musket was not surpassed in artlessness by Ah Sin, when he

"Played it that night upon William And me in a way I despise." It seems that a rupture took place between the Indians who have surrendered and Captain Jack, and the latter, with about twenty warriors, is still endeavoring to escape. The pursuit will be vigorously kept up, and sooner or later all must be captured.

Mr. H. Walsh, having determined to reduce his immense stock of Drugs, Medicines, Paints etc., offers them very low to cash purchasers. 14-19

A most terrific tornado passed over a portion of Iowa Thursday of last week, tearing down houses and fences, uprooting trees, and scattering destruction along its pathway. A dispatch from Washington, Iowa, announces that the whirlwind was about half a mile in width, and that it resembled a huge balloon in shape. A number of persons were killed by falling timbers, and by being caught up by the storm and dashed violently to the earth. The damage to property is immense.

ATTENTION TEACHERS.—The teachers of Holland, Zeeland and Olive townships are invited to meet at the Union School-house in Holland, on Saturday, May 31st, at 2 o'clock p.m., for the purpose of discussing practical questions relating to their profession. All teachers are cordially asked to aid in this movement and avail themselves of these means for improvement in their responsible work. Order Co. Sup't. L. C. MILLER, Pres. Miss A. MANSH, Sec.

If there is any one thing the proprietor of the City Drug Store is particular about, it is his wines and liquors; these he purchases direct from the manufacturers or importers, and for fear they may be tampered with while on the road, he has all his best wines and liquors packed in boxes or casks, with sawdust. We are glad to see this great care taken to have pure liquors. Mr. Walsh sells these goods for medicinal purposes only. 13-18

Citizens' Meeting.

HOLLAND, May 29, 1873.

On motion duly seconded and carried, William Wakker, chairman, and H. D. Post, was nominated and elected Secretary.

On motion, H. D. Post was requested to state purpose of meeting. By direction of Citizens' Association, the committee, Mr. H. Walsh and H. D. Post, opened communication with Mr. Chas. T. Ford, Jr. late Superintendent of the Bangor Furnace, with reference to establishing a similar furnace at Holland. They visited Lawton and saw Mr. Ford and learned the points necessary to be settled with reference to the project. On their return their inquiry resulted so favorably that Mr. Ford was invited to visit Holland and look over the ground. He has spent two days in looking up the place and its facilities, and will make a statement to the meeting, and answer any questions which may be asked. He stated that the amount of capital required would be \$100,000 to \$125,000. That it would also be necessary to have at least 2,000 acres of good well timbered wood-land, as a reserve supply for fuel.

Furnace would employ 75 to 100 men. It would make 12,000 tons shipping to be done here. Ore vessels carry 450 to 550 tons, drawing about 9 feet. About 15,000 to 18,000 cords of wood is required per year for charcoal. 1,000,000 good brick would be needed for buildings.

Monthly expenditures would be from \$6,000 to \$7,000, paid in cash. 200 to 250 M. lumber and timber would be needed for buildings.

From encouragements received from our capitalists in this city and vicinity, it is confidently believed that the work is not beyond our reach, and its importance to this city demands, that some action be taken toward securing the necessary means to accomplish it; therefore—

Resolved, That a committee of three be appointed, of which the chairman shall be one, to select a suitable committee to solicit stock subscriptions to make up the required amount for the smelting furnace—carried.

Moved by McBride, seconded by Walsh, Resolved, That we deem the project of building a smelting furnace for the manufacture of pig iron, as one of great

importance and value to our city and surrounding country, and that in our opinion, the capital required, ought to, and can be raised—carried, unanimously.

On motion of McBride, seconded by Minderhout,

Resolved, That committee to procure subscriptions, be requested to report next Monday evening at the Citizens' Meeting.

Messrs. Bakker & Van Raalte tendered the use of their hall for the meeting of the Citizens' Association.

On motion of Dr. Morris, seconded by Walsh,

Resolved, That we accept the offer with thanks, and adjourn to meet at that place at 7 1/2 o'clock next Monday evening—carried.

Adjourned.

PURELY VEGETABLE
DE WALKER'S CALIFORNIA
VINEGAR BITTERS

No Person can take these Bitters

long unwell, provided their bones are not

destroyed by mineral poison or other means,

and the vital organs wasted beyond the

point of repair.

the region of the Kidneys, and a hundred

other painful symptoms, are the offspring

guarantee of its merits than a lengthy ad-

vertisement.

For Female Complaints, in young

womanhood, or the turn of life, these Tonic

Bitters display so decided an influence that

a marked improvement is soon perceptible.

For Inflammatory and Chronic

Rheumatism and Gout, Dyspepsia or

Indigestion, Bilious, Remittent and Inter-

mittent Fevers, Diseases of the Blood, Liver,

Kidneys and Bladder, these Bitters have

been most successful. Such Diseases are
