A peculiar incident connected with a jury trial in the case of the People against George Graftsma of Chester, charged with using defamatory language regarding the character of a neighbor woman, in Justice Hunton's court this week, was the fact that a young man not yet 21 years of age was a member of the jury which tried the case. Graftsma was convicted and heavily fined, but the fact that one of the jury-men was not yet of age, will undoubtedly be the means of setting aside the verdict of that jury and give the accused another trial. The young jurymen was Stewart Stone, the well known billiard academy proprietor. He was in no way to blame for the fact that he served as jurymen, for he was subpoenaed by a court officer and was asked no questions as to his age in the justice court.—Grand Haven Tribune.

The Beet Sugar Gazette reports as follows from Holland and St. Louis, local capital being interested at the latter place: At Holland, May 25, beet seeding was completed with very few exceptions on some low pieces of land. Many beets were up, some cultivators going, and thinning was expected to be under way in about a week or ten days from the above date. Farmers are much pleased with the spring weather, which has been favorable in every respect to the crop. At St. Louis up to that time 85 per cent of the acreage contracted for by the sugar company has been planted. The season has been most favorable and the entire acreage will be seeded before the end of May. There is an increase of 20 per cent in the plantings over last year, and the prospects for a good yield are 60 per cent better.

During the performance in the afternoon one of the lions attacked his trainer and bit the man's left arm. Dr. E. D. Kremers dressed the wounds.

Officer Frank McFall was called to Virginia Park Tuesday to apprehend Leason Lamm of this city who was causing consternation. Lamm went from house to house, in some instances opening the doors and making threats. He also caught on behind buggies that passed and threatened to kill the occupants. The new route northwest will carry the service to Waukazoo and to the summer residents along the lake shore north from Ottawa Beach. Route No. 12 will be a relay route, covering the southern part of Laketown township. The carrier will not leave the Holland office, but will meet Carrier No. 8 at Ostema's corner, and start from there. There are 65 families on route No. 12 and 157 on route No. 11. The carriers have not yet been designated.

The plan laid out by the Department of Agriculture to stop the shifting of the sands of Mt. Bald-head has not met with complete success nor is it a failure. The grass seed was planted in rows extending south from the old tower the ends of the rows nearest the tower are on somewhat higher ground than the other ends which seems to have some effects on the growth of the grass as that on the higher ground is more exposed than the other and in some places killed by freezing. The variety of grass that was transplanted seems to be growing all right in most places and the sand fences have done good work. The thing that has caused the most damage is the sliding down of the sand caused by people climbing the hill, in some places the plank walk built between Mt. Baldhead and Lone Pine is already covered with sand.—Saugatuck Commercial Record.

New Holland was well represented at Jensen Park last Friday afternoon, when pupils and patrons of the school gathered there for the closing exercises of the school year. Kidney Troubles Attack Holland Men and Women, Old and Young Alike.

Kidney ills seize young and old alike. Quickly come and little warning give. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain. Women worry, can't do daily work. Robust men have lame and aching backs. Old folks, weak, rheumatic, lame. The cure for man, for women or for child is to cure the cause—the kidneys. Doan's Kidney Pills cure sick kidneys. Cure all the varied forms of kidney suffering. Holland testimony guarantees every box.

Mrs. B. Volmarei, formerly of Holland, now living at Hamilton, Mich., says: "My kidneys bothered me for years until the dull, aching pains through my loins became almost constant. I easily tired and became stiff of sitting or lying in one position for any length of time and I rose in the morning feeling thoroughly unrested and devoid of energy. Often I could hardly stand up straight and I walked about in a stooped position. There was also a stiffness and numbness in my limbs. I had seen Doan's Kidney Pills highly recommended and I got a box at J. O. Doesburg's drug store and commenced their use. The result was most gratifying and in spite of my advanced age, I soon began to feel better. Aside from the natural stiffness of the joints in a person of my age, I feel splendid."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

A Regular Circus

Trying to Give a Little Girl Cod Liver Oil.

An interesting incident was told in Con De Pree's drug store the other evening.

A man came in and bought a bottle of Vinol and while waiting for change engaged the clerk in conversation.

Said he: "We were told to give our little girl cod liver oil. I bought a bottle and took it home. We had a regular circus trying to get the child to take it. Then it did not agree with her at all, the oil upset her stomach. She did not get any better, so I told the doctor how we had failed, and he at once recommended your Vinol, saying that it contained all of the curative, healing and strengthening properties of cod liver oil without a drop of oil, and that children all love its taste. "I took home a bottle and we began to give it to our child right away. She said it was delicious and wanted more. Almost from the first dose we noticed a change, and she has gained flesh, strength and appetite and sleeps well every night. "I don't believe any one should give a delicate child old-fashioned, nauseating, cod liver oil or emulsions when Vinol is so delicious, and it will do so much more good than any other tonic. It is simply a wonderful medicine for weak, puny children, and I am recommending it to my friends."

"We guarantee Vinol will make weak, puny children strong, robust, and rosy, strengthen and invigorate old people and build up the run down, tired and debilitated as nothing else can. If it fails we willingly return every dollar paid for it." Con De Pree, Druggist.

Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nerve. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"I take pleasure in recommending Dr. Miles' Nerve to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts, gives the sufferer renewed strength and hope. It is a superb nerve restorer."

PACKING HOUSES ARE CLEANING UP

PRESIDENT SENDS REPORT TO CHAIRMAN OF HOUSE COMMITTEE.

Confidential Agent of Executive Tells of Improvements Being Made in the Workrooms of the Big Plants at the Stockyards.

Washington, June 9.--In response to a request from the house committee on agriculture, President Roosevelt Friday forwarded to Representative Wadsworth, the chairman of that committee, the report made to him by a committee of the department of agriculture regarding conditions in the Chicago meat packing houses. Accompanying the report was a letter from the president, in which he points out that there is no conflict in substance between the Neill-Reynolds report and that of the agricultural department experts.

The president quotes a letter received from a most competent and trustworthy witness in Chicago, to the effect that the packing house proprietors are manifesting almost "a humorous haste to clean up, repave and even to plan for future changes." New toilet rooms are being provided, with additional dressing rooms and clean towels. The report says that "the haste towards reform would have been amusing if it were not so nearly tragic."

Following is the text of the letter of the president to Chairman Wadsworth:

Text of President's Letter.

"In accordance with your request I send you herewith the two reports of inspection by the committee appointed by the department of agriculture of April 5 and 13. This committee had already been appointed when I notified the secretary that I desired that such a commission should be appointed in order to make the investigation. Subsequent complaints to me and the consideration of complaints already made showed that the charges were not only against the packing houses, but also to a certain extent reflected upon the action of the government inspectors, and I came to the conclusion that it was best to have an investigation by outside individuals who could not be charged with being in any way interested in the matter.

"Some of the ground traversed by Messrs. Neill and Reynolds is not touched upon in the report of the committee of the agricultural department. As to the ground covered in common by the reports of the two investigating committees, there is no conflict in substance as to the important matters.

"To show the immediate and extraordinary change for the better which the mere fact of their investigation is already bringing about in the condition of the packing houses in Chicago, it is only necessary to instance the following portions of a letter received from a most competent and trustworthy witness in Chicago:

Awakening of Packingtown.

"On Monday I began a tour of all the great packing houses--going first to Libby's, then to Swift's.

"Tuesday, all the morning discussed changes that ought to be made and caught a glimpse of the awakening at Armour's. In the afternoon visited the plant with the superintendent.

"Wednesday I rested and contemplated the 'awakening of Packing town.' It is marvellous. Thursday did Nelson Morris, with the superintendent. Nelson Morris has done much to make things better. By the time the next inspecting party arrives they will have still more new lavatories, toilet rooms, dressing rooms, etc. Cuspidors everywhere, and signs prohibiting spitting. In most, the awakening seemed to come by force from without. There was the slightest indication that the 'still small voice' was at work also.

Notices Improvements.

"On every hand there was indication of an almost humorous haste to clean up, repave and even to plan for future changes. Brand new toilet rooms, new dressing rooms, new towels, etc., etc.

"Swift's and Armour's were both so cleaned up that I was compelled to cheer them on their way, by expressing my pleasure at the changes. The sausage girls were moved upstairs, where they could get sun and light, they to have dressing rooms, etc. I asked for showers and lockers for the casing workers at Armour's, and got a promise that they would put them in.

"The canning and stuffing room, chip beef and beef extract at Armour's seemed really quite good. In all of these rooms the girls work.

"At Libby's the girls are to be put into a blue calico uniform, which they will buy at half price. They are putting in toilet rooms which they say are temporary, and that when the building is remodeled they will have these put in a better place.

"The haste towards reform would have been amusing if it were not so nearly tragic.

"They tried to win my help on the ground that loss of foreign trade would mean hardship for the workers in my neighborhood, and I must say I do share this fear, but I cannot see the wisdom of my coming out publicly and saying that I saw indications of an awakening, for I want the changes to be radical and permanent, even though we all have to suffer for the present."

WHITE DAMP CHOKES EIGHT

Montana Miners Succumb to Effect of Deadly Vapor That Fills Shaft.

Anaconda, Mont., June 8.--One of the most serious accidents in the history of coal mining in Montana has occurred in the mines of the Northern Pacific at Rocky Fork, near Red Lodge, Carbon county.

GORMAN IS LAID TO REST

FUNERAL SERVICES HELD OVER LATE MARYLAND SENATOR.

Vice President Fairbanks Among Many Prominent Persons in Attendance.

Washington, June 8.--With simplicity and complete absence of ostentation, in accordance with his expressed wish, the funeral services of the late Senator Arthur Pue Gorman, of Maryland, took place in this city Thursday at 11 o'clock from his late residence. Before the services began many prominent men, including Vice President Fairbanks and nearly all of Senator Gorman's closest political associates in Maryland, as well as colleagues from the senate and house, in addition to members of the congressional committees, were afforded an opportunity to view the body. The floral tributes were many and beautiful, among them being a large wreath of water lilies and ferns from President Roosevelt, an immense wreath and orchids, lilies of the valley, roses and other flowers from the senate, and a large wreath of red roses from Henry G. Davis, of West Virginia.

Rev. Dr. Wallace Radcliffe, pastor of the New York avenue Presbyterian church, which Senator Gorman attended, officiated. The service, which was brief, consisting of Scriptural reading, an impressive address, a prayer by Rev. Frederick D. Powers, pastor of the Vermont avenue Christian church, and benediction by Dr. Radcliffe, was held in the presence of about 100 persons, including relatives, the committees of congress, Vice President Fairbanks, Gov. Warfield of Maryland, and 14 active and honorary pallbearers chosen from among Senator Gorman's political friends in Maryland.

The body was placed in a vault in Oak Hill cemetery temporarily. The services at the vault consisted of prayer and the committal.

SCORES REBATERS IN DRASTIC TERMS

JUDGE SEAMAN ISSUES PERPETUAL INJUNCTION IN GOVERNMENT CASE.

Milwaukee Refrigerator Company, Its Agents and Representatives Are Restrained from Soliciting or Accepting Refunds on Shipments.

Milwaukee, June 12.--A formal decree was entered Monday by United States Circuit Court Judge W. H. Seaman in the so-called rebate case, instituted by the government against the Milwaukee Refrigerator Transit company, the Pere Marquette Railroad company, the Erie Railroad company, the Chicago, Rock Island & Pacific Railroad company, the St. Louis & San Francisco Railroad company, the Wisconsin Central Railroad company and the Pabst Brewing company, in which a decision was handed down by the United States circuit court about a week ago.

As far as the Pabst Brewing company is concerned, the suit is dismissed on its merits and an injunction will not be issued against it.

Decree Is Drastic.

The decree is sweeping in its nature and restrains and perpetually enjoins the Milwaukee Refrigerator Transit company, its agents and representatives from in any way soliciting, accepting or receiving, and the defendant railroad companies from paying or giving any rebates or concessions whatever. It enjoins them from carrying or transporting in interstate or foreign commerce any freight or property whatever pursuant to any agreement or arrangement whereby less rates are given than those given in the official tariffs published pursuant to acts of congress, whether such diminutions of rates be made under guise of commissions or otherwise.

It is ordered that an injunction issue against the defendants pursuant to this decree, and the plaintiff recover the costs and disbursements in the action.

Violate Acts of Congress.

The decree recites that the combination and the rates, regulations and practices described in the petition--to-wit: The agreement for and payment by the defendant railroad company to the defendant refrigerator company of percentages and commissions on account of any shipment of freight or property over and along lines of the companies, from points in any one state to points in any other states or territories in the United States, or any payment on such act or consideration to said defendant refrigerator company other than reasonable mileage for the use of its cars--are unlawful and in violation of acts of congress.

It declares that the railroads, their agents, officers or servants are perpetually enjoined from paying and that the refrigerator company, its officers, agents and servants are perpetually enjoined from soliciting or accepting from any defendant railroad company any concession, discrimination or percentage of freight charges paid to or charged by defendants in pursuance of their published tariffs on any freight transported in interstate commerce in the cars of the Milwaukee Refrigerator Transit company.

INSURANCE MEN INDICTED.

Forgery and Perjury Charged to Two Former Vice Presidents of Mutual Life.

New York, June 12.--Indictments for forgery and perjury against Dr. Walter G. Gillette, and for forgery and filing false statements against Robert A. Granniss, both former vice presidents of the Mutual Life Insurance company, were returned Monday by the special grand jury which has been investigating insurance affairs for the past six weeks.

Six indictments were found against Dr. Gillette, five for forgery in the third degree, and one for perjury. Mr. Granniss was indicted for forgery and for making false statements to the insurance department, the latter being a misdemeanor.

The forgery indictments against Dr. Gillette are based upon alleged false entries in the books of the company and the perjury charge grows out of his testimony before the grand jury.

The forgery indictment against Granniss is based upon alleged false entries upon the annual report of the Mutual for 1904 to the insurance department. It is alleged that the sum of \$1,044,958.23, the net profits of the company for 1904, was not noted in that report, but was concealed by Mr. Granniss. The misdemeanor charge of making false statements grows out of the filing of the alleged false report to the insurance department.

COBURN DECLINES HONOR.

Gov. Hoch, of Kansas, Tenders Burton's Toga to Judge Benson, Who Accepts.

Topeka, Kan., June 11.--F. D. Coburn, secretary of the state board of agriculture, who was tendered the appointment to succeed Joseph R. Burton in the United States senate, notified Gov. Hoch Saturday that he could not accept immediately the governor called former Judge A. W. Benson, of Ottawa, Kan., by telephone and tendered the appointment to him.

Ottawa, Kan., June 11.--Judge Alfred Watson Benson, of this city, who Saturday was offered the appointment of United States senator to succeed Joseph R. Burton, stated Sunday that he would accept the position.

Unjust Criticism of Bonus Fund Committee.

It is the fashion to criticize men in prominent positions and generally heed is not paid whether this criticism is just or unjust. Of late undercurrent of criticism of the men who have charge of the bonus fund in this city has prevailed in certain quarters, and it is superfluous to add that this criticism is unjust.

Though the task of handling a fund of this nature and attending to the business incident thereto is a thankless one these men have fulfilled every obligation imposed upon them in a manner highly creditable. As a result of their judicious use of it Holland has within three years taken a stride that could not under ordinary conditions be taken in five times the time. It has attained metropolitan status that is noticeable in improved streets, improved sidewalks, improved public utilities generally. It has made large gains in population, has advanced greatly industrially, and has attained a standing that is the envy of many other municipal corporations.

Contrast its present condition with the condition it would still be in had not this committee had a bonus fund to judiciously expend, and then ask yourself if it is right for this undercurrent of unjust criticism to exist.

Holland's Population 9,339.

John B. Steketee and James Westveer have completed the work of taking the school census and the result shows a school population of 2,891, a gain of 324 over last year.

The census by wards is given as follows:

	males	females
First ward.....	352	406
Second ward.....	103	122
Third ward.....	239	258
Fourth ward.....	318	355
Fifth ward.....	389	349

Total..... 1401 1490

These figures show the girls to outnumber the boys by 89, and the first ward to have the largest school population, being 20 in advance of the fifth ward, the next largest. It is predicted that the fifth ward will lead all others in school population within another year.

The school census enumerators not only enrolled those of school age, but they took a complete census of the city and their figures show Holland to have a population of 9,339. The 1904 census gave Holland 8966.

Great Maccabee Day.

Charles A. Floyd, traffic manager of the Interurban, has received word that Governor Fred M. Warner will attend the great Maccabee field day at Jenison Park next Wednesday. Among others who have been invited to speak are Chairman Diekema of the Republican State Committee, Congressman William Alden Smith and Mayor Geo. E. Ellis, of Grand Rapids, and Mayor Van Putten of Holland.

Last year's big field day, when 5,000 Maccabees were present, will be insignificant beside that of this year. In the first place a much larger crowd will be present and the speakers outside the Maccabees will be enough to attract an enormous crowd to the park.

Special excursion trains are to be run by the Pere Marquette to bring the Maccabees and their friends from Allegan and Grand Haven, and the Holland Interurban will place its entire equipment in service to carry the crowds which will go from Grand Rapids and intermediate points.

Band concerts will be given by the Maccabee band of Allegan, Grandville and Grand Rapids and the Santa Maria Tent Orchestra.

A good program of sports has been arranged, including base ball game, tug of war and boat races in which the various tents will compete for honors.

THE BEGINNING OF THE END.

Hope College Frats Banquet at Hotel Holland.

Commencement Festivities for this year were very auspiciously begun last Friday evening, when the Fraternal Society of Hope College and their ladies banqueted at Hotel Holland. To Mr. Burk, the manager, is largely due the complete success which the venture proved to be. Nothing that could in any way add to the comfort or entertainment of the guests was lacking. He is to be congratulated for his success.

Beside each plate were red and white carnations, while potted geraniums and cut flowers decked the tables. Tasty menu and program cards were neatly arranged about the plates.

At the head of the table sat the toastmaster of the evening, and near him, those to whom the re-

sponsibility for the entertainment of the guests fell.

Plates were laid for seventy. Besides the Fraters and their ladies, several out-of-town guests and alumni were present. Genial good cheer was manifest at all times and in everything.

The affair was the seventy-second annual banquet. The Society was originally organized at Union College and later transferred to Hope. From that time on, it flourished and never has it shown such spirit or promise as it does today. Indications point to the fact that if all who wish to join next year are given the privilege, the membership limit will have to be raised.

After the innerman had been satisfied, the President of the Society, Mr. A. Judson Kolyn '06, introduced the toastmaster of the evening, Mr. A. C. Dykema '06. The following toasts were responded to:

Choral Union Fine In Hiawatha

A great success was scored by the Choral Union in its rendition of Hiawatha at Winants Chapel last Monday evening, and many favorable comments are heard of the members of the union and of the director, Prof. J. B. Nykerk. Not a member of the audience but was very favorably impressed with the excellence of the entertainment. Miss Yates as accompanist, Mrs. Grace Updegraaf Bergen, as soprano, Mrs. Pease, as baritone, and Mr. Duffy as tenor, scored distinct successes.

Following are the names of the members of Choral Union: The Misses Avis Yates, Minnie Vander Ploeg, Frances Weurding, Ethel Vanden Berg, Jennie Pikaart, Martha De Jong, Hilda Stegeman, Blanch Howell, Florence Taylor, Ida Larikus, Hannah Hoekje, Iva Stanton, E. Miss McKay's Pupils Entertained Big Audience.

The sixth annual musical of Miss Lalla McKay and pupils assisted by Miss Ella Marie Reepe, elocutionist, and Garfield Chapman, violinist, of Grand Rapids, proved to be the event of the season. The perfect ease in technique and expression with which the pupils numbers were rendered would have done credit to much older musicians. The vast audience showed its appreciation. Miss Marie Reepe, the popular elocutionist of Grand Rapids, with her charming personality and recitations, received repeated encores and will always remain a favorite with her audiences. Such exquisite playing as rendered by Garfield Chapman is seldom heard in this city. Mr. Chapman has been teaching violin lessons here for the past year. Surely Holland and Grand Rapids are fortunate in securing such a noted teacher.

The past annual musicals given by Miss McKay, have done much toward the upbuilding of the musical talent in Holland. May they long continue. Mr. Louis McKay accompanied Garfield Chapman on the piano in his usual masterly manner.

FABLE BROUGHT UP TO DATE.

Beware of Discouraging Industry and Integrity.

A Hawk that had a dexterous way of throwing three cards about one day met a Hen and invited her to bet on his game.

"But I don't understand it," protested the Hen.

"Why, all there is about it, I toss these three cards so and so, and you bet that you can pick out the ace of spades, for example."

"Yes, but I don't want to take your money."

"Oh, as to that, you are quite welcome—quite so."

"Then here goes a ten that I pick the ace."

The Hawk smiled as he thought how easy it was to throw snuff in a Hen's eyes, but lo! Biddy picked out the card she had named and raked in the sugar.

"I'll be hanged if I'm not completely discouraged trying to make an honest living!" cried the Hawk, as he flung the cards away in disgust; and he thereupon not only turned robber, but ate the Hen to boot.

EVIDENCE OF GHOST

CONSIDERED SUFFICIENT TO HANG TWO MEN.

Remarkable Case That Has Found Place Among the Archives of English Law Courts—How Clever Lawyer Saved Client.

The testimony of a "ghost" would not now count for much in a court of law, but the day has been when it has sufficed to hang a man. It is stated that the original depositions are in the Bodleian library of a most remarkable case of this character.

A girl named Anne Walker was supposed to have been sent away for her good by a substantial farmer. Some time afterward a so-called apparition appeared to a neighbor with its head all bloody from wounds and telling him that she had been murdered by the farmer and an accomplice. Her body, the apparition said, had been buried in a spot which she described and she begged the man to whom she appeared to bring her murderers to justice. True enough, the body was found in the place mentioned and the men were brought to trial. The sensational character of the case was intensified by one of the jurymen declaring that he saw the child of the dead woman "sitting upon the shoulder" of its father, the farmer. Both the culprits were hanged.

There was a ghostly accuser in a case with which readers of Scott are familiar. Soon after the "45" an English soldier wandering near Braemar met a violent death. Hawks do not peck out hawks' een and no man opened his mouth to give a clew. Years passed and then came a story of a communication from another world.

A farm servant declared that in the night a spirit had appeared to him declaring itself to be the ghost of the soldier, whose bones it said lay still unburied. The highlander must see to their decent interment and have the murderers, two men named, brought to justice. The highlander promised, but did not keep his word, and a second and third time the spirit appeared and upbraided him for his breach of faith. Alarmed at last and no longer daring to delay, the man called a companion, went to the spot the spirit had indicated and there found the bones of the murdered warrior concealed in a moorland tract called the Hill of Christie.

The story of the highlander came to the ears of an anti-Jacobite, who caused the matter to be brought to trial before the court of judicary, Edinburgh. There the tale was corroborated by a woman who had seen a naked figure enter the place on the night spoken of by the man. It was an age of superstition, in a district more than commonly given to superstition, and the jury seemed disposed to find the two men charged guilty of the murder. But it happened that the principal witness spoke only Gaelic. "New," said the counsel for the defense, "in what language did the ghost speak?" "In as good Gaelic as I ever heard in Lochaber," was the reply. "Pretty good for the ghost of an English soldier," said counsel. And that question and comment saved the necks of the men at the bar. The jury could believe in a ghost, but not in an English ghost speaking Gaelic.—London Standard.

Fair Bride's Determination.

"No," said the fair young bride—and in her eye was the light of a fixed resolution—"I will go to my mother."

"But, my dear," the young husband pleaded, "we have been happy together, have we not?"

"I do not deny it," was the response.

CHARMED BY THE MOUNTAINS.

Ideal Place for Summer Visit, According to Traveler.

A traveler sat in the moonlight on the lawn of a Florida resort. He had dined well, his coffee was on a little table at his elbow and his cigar perfumed the soft, mild air of the February evening with the aroma of excellent tobacco.

Near the traveler some young ladies, slim and graceful figures in their white gowns, played clock golf under a great arch of electric lights. Amid this charming scene the traveler talked about the coming summer.

"This is all right," he said, "but give me Zermatt. That is where I am going to spend the summer. I will spend the summer 8,000 feet up in the air.

"No man knows what a summer is till he has passed one high up on the mountains. July and August spent at an altitude of 8,000 or 10,000 feet are two feet months of heaven.

"How pure and delicate and sweet the summer air is on those Alpine heights, how tonic, how uplifting! And the sunshine, the mile-long shadows of the mountains, the brilliance and bigness of the stars, how amazingly beautiful they are up there!"

"Flies, gnats, mosquitoes? Not one. They can't live so high up. They are never seen at such a height from one year's end to another. Microbes, disease microbes, don't exist up there either. You can prove this with a piece of raw meat. You can throw a piece of raw meat out in the sun on an August afternoon and instead of rotting the meat will dry. At the month's end it will be sweet, wholesome dried beef.

"Nothing can rot, nothing can spoil on these pure, clean heights. The microbes that cause putrefaction are unknown there."

PACKERS GUILTY OF ACCEPTING REBATES

FOUR LEADING COMPANIES CONVICTED IN FEDERAL COURT AT KANSAS CITY.

DEFENDANTS ARE HELD AMENABLE TO STATUTE

New Issue Decided by the Case—Interstate Commerce Act Applied to Foreign Trade for First Time—Sentence Postponed.

Kansas City, Mo., June 12.—Armour & Co., Swift & Co., Cudahy & Co., and the Nelson Morris Packing company were found guilty in the United States district court here Tuesday of accepting rebates from the Chicago, Burlington & Quincy railway on export shipments on packing house products. The case was given to the jury at 10:40. The verdict was returned at 11:40.

Law Provides for Fine Only. Judge Smith McPherson, of Red Oak, Ia., the presiding judge, stated that sentence would not be assessed until the case against the Burlington railway, which is charged with granting the concession to the packers, is concluded. The Burlington trial began Tuesday afternoon. The law in the present case provides for a fine only, and not a jail sentence.

The specific case considered, which was practically identical with the others, was that charging Cudahy & Co. with accepting a rate of 23 cents per 100 pounds on a shipment of lard to New York for export to Germany, when the legal tariff then on file with the interstate commerce commission was 35 cents. The trial began last week, and after lengthy argument was continued until Tuesday morning, when Judge Smith McPherson, of Red Oak, Ia., the presiding judge, instructed the jury.

Case of Great Importance. The case is of unusual importance in the list of rebate trials to come up in this court, for it is the first time that any concern has been brought to trial before a jury on a charge affecting export rates as applied to the interstate commerce act. Counsel for the defendants in this trial contended that the court lacked jurisdiction, which was overruled by Judge McPherson, and that that when they signed a contract covering the 23-cent rate it was legal, and that the Burlington later raised its tariff to 35 cents. Judge McPherson's instructions to the jury uncovered the points fully.

Judge McPherson's Charge. Judge McPherson, in stating the case, said that according to the indictment returned against the defendant, the packing company signed a contract, to run until December 31, 1905, in which the Burlington railway agreed with other connecting railways, to carry packing house products from the Missouri river to Germany, billed by New York; that the rate agreed upon included a rate of 23 cents per 100 pounds between the Missouri river and New York; that while this contract was in existence the Burlington railway filed with the interstate commerce commission an amended tariff of 35 cents on these products from the Mississippi river to New York; and that the defendant continued to accept the 23-cent rate after August 6, 1905, when the alleged offense was committed.

Law That Covers Case. Judge McPherson said: "The constitution of the United States gives congress the power to regulate commerce between the state and with foreign nations. And in the exercise of this power congress did enact the two statutes of February 4, 1887, and of February 19, 1903, the last being amendatory of the former.

"The court charges you that in carrying the products from Kansas City, Kan., in and through this division and district to the Atlantic seaboard ports, to there be loaded on vessels and carried to European ports, such commerce was with foreign nations, and was such commerce as is referred to and covered by the two enactments of congress mentioned. In this case the defendant packing company was both the shipper and the consignee. And in making such shipment from Kansas City, Kan., to, within, through, and beyond this division and judicial district to an Atlantic seaboard port, to be there placed upon an ocean vessel, to be carried to a European port, both the defendant packing company, the Burlington company and the connecting lines of railroad, each and all, are amenable to the two statutes in question."

Lawyers Agree on Statements.

After the jury retired, A. S. Van Valkenburgh, district attorney, announced that the government and the attorneys for the defendant had practically agreed upon a statement of facts in the case of the Chicago, Burlington & Quincy railway, which is under indictment charged with granting concessions to the packing companies whose case was on trial Tuesday. No witnesses will therefore be examined in the Burlington case.

British Slay 160 Natives.

Durban, Natal, June 12.—Col. MacKenzie's column attacked the rebel natives who had sought shelter in the bush. The latter climbed trees whence they hailed assegais on the troops, but bullets dropped them out of the branches. Over 40 were thus killed and altogether 160 natives were slain. Darkness ended the operations of the troops, but the rout of the rebels is regarded as practically complete.

THE "COAL DUST" TWINS.

STATION AGENT IS ALSO COAL SELLER

PENNSYLVANIA RAILROAD EMPLOYEE AT MILTON, PA., ADMITS GRAFT JOB.

Witness Before Interstate Commerce Commission Vindicates Memory of Deceased President, Who He Says Was the Soul of Honor.

Philadelphia, June 9.—W. G. Spangler, local agent of the Pennsylvania railroad at Milton, Pa., was the first witness before the interstate commerce commission Friday. Spangler testified that in addition to his duties as railroad agent he also acted as sales agent for the Keystone Coal and Coke company. He said that the greater portion of the coal tonnage for Milton had been shipped over the line to the Reading company until he became sales agent for the coal company, when the Pennsylvania's tonnage was increased about 1,000 tons monthly. He was made sales agent after a conference with Robert K. Cassatt, and his appointment was made with the knowledge and consent of H. B. Lincoln, division superintendent of the Pennsylvania railroad at Milton. He received a commission of 2 1/2 cents a ton from the Keystone Coal and Coke company.

Milton is a manufacturing town and most of the bituminous coal used by the factories came from the Beech Creek district, on the lines of the New York Central railroad. The Keystone Coal and Coke company's operations are located in the Gronsburg district on the Pennsylvania railroad line.

Former President Vindicated.

J. McLellan, of Blairsville, Pa., the first witness at the afternoon session of the interstate commerce hearing, who appeared voluntarily, said he came to Philadelphia to vindicate former President Frank Thomson, of the Pennsylvania railroad. McLellan said that while he was in the employ of the railroad company he had been offered a "block of stock" by Capt. Alfred Hicks, who was about to organize a mining company. Witness said he wrote to Mr. Thomson asking his advice in the matter, and that Mr. Thomson had advised him "not to take the stock," that "honor is worth more than all the stock you can acquire." McLellan produced Mr. Thomson's letter, which was dated June 13, 1894. Previous witnesses before the commission testified that Mr. Thomson sanctioned the acceptance of gifts to employees of coal companies.

Joseph K. Aikens, chief clerk to the superintendent of the Monongahela division of the Pennsylvania railroad, was dismissed Friday by direction of President Cassatt. In his testimony Thursday before the interstate commerce commission Aikens said that while his salary had averaged between \$30 and \$125 per month, he owned nearly \$75,000 worth of coal stock. He admitted having received checks from coal companies and also gifts from company stores.

THIRTY-FOUR HURT IN AUTO

Brake on Big Machine Is Broken, Allowing It to Run Down Steep Grade and Overturn.

Boston, June 11.—Thirty-four Christian Scientists were injured through the overturning of a large sight-seeing automobile in the Brighton district Sunday. Every person in the automobile was injured, more or less.

The party had been making a sight-seeing trip through the suburbs and were descending Commonwealth hill. Suddenly the brake broke and the machine ran away down the steep grade. Near the bottom of the hill the car jumped to the side of the street and tore through a fence into the grounds of the Kenilworth Golf club, where it overturned.

FEDERAL LABELS FOR BEEF

COMMITTEE CONSIDERS PLAN TO PROTECT CONSUMERS.

Proposition to Place Government Tags on Fresh and Canned Meat Duly Inspected.

Washington, June 12.—The house committee on agriculture was locked in its room with the Beveridge beef inspection amendment for six hours Monday. When the session ended at 5:30 o'clock in the afternoon members said they had agreed to observe strict secrecy regarding what had been done. There was a general statement, however, that "nothing had been done finally."

The Beveridge amendment was taken as the basis of action and the greater part of it was gone over tentatively.

It is understood the committee found itself generally in favor of striking out of the Beveridge amendment, the requirement that the labels on the cans containing prepared meat products shall bear the date of manufacture.

The problem of federal jurisdiction to enforce sanitary regulations on which the question of constitutionality was raised, has a tentative solution at least in a proposition to have all labels for every character of meat product, canned and otherwise, issued by the secretary and attached to the product only after such sanitary regulations as the secretary shall prescribe have been complied with and approval been given by government inspectors. These government labels are to then be the passport of meat products into interstate and foreign trade and common carriers are forbidden to accept for shipment consignments of goods without official government labels. This provision, like all others, is only in the tentative stage.

Several modifications are said to have been recommended regarding the discretionary authority to be given the secretary under the proposed new law.

NEW TEMPLE FREE OF DEBT

Two-Million Dollar Structure Dedicated by Christian Scientists at Boston.

Boston, June 12.—One of the most remarkable religious demonstrations ever witnessed in New England occurred Sunday, when the new \$2,000,000 Christian Science temple in the Back Bay district was dedicated. From every state in the union, and from all parts of the world came members of that faith to be present at the dedicatory services. It was estimated that more than 40,000 Christian Scientists were in the city.

Six services were held to accommodate the vast throngs, but even then there were thousands who were unable to gain admission to the temple. The seating capacity of the new edifice exceeds 5,000 and at each service hundreds stood in the aisles and in the rear of the church.

The new temple, which is entirely free from debt, is one of the most imposing structures in Boston, and is said to be the largest church in New England. Christian Scientists all over the world have aided in its construction, and it is intended as a tribute to Mrs. Eddy, in recognition of her labors for her church.

The new temple, which is entirely free from debt, is one of the most imposing structures in Boston, and is said to be the largest church in New England.

COAL ROAD HEADS MAY GO ON STAND

INTERSTATE COMMERCE COMMISSION WILL INVITE PRESIDENTS TO TESTIFY.

APPEARANCE WILL BE ENTIRELY OPTIONAL.

Witness at Philadelphia Hearing Says Pennsylvania Railroad Company Operates All Cars on the Har-Simms Pier.

Philadelphia, June 12.—The presidents of the big coal carrying railroads will be given an opportunity to appear before the interstate commerce commission and make any statement they may desire. Commissioner Cockrell said Tuesday that invitations would be extended to the presidents of the Pennsylvania, Baltimore & Ohio, the Norfolk & Western, the Chesapeake & Ohio and the New York Central railroads to appear before the commission. No subpoenas will be issued for the heads of these roads, and their appearance will be entirely optional with the officials.

"You cannot condemn a man without a hearing," said Commissioner Cockrell. "It has been the purpose of the commission to permit the presidents of the coal roads to make any statements they may desire, but we are not yet ready. We want all the testimony we can get from the subordinates and then the case in its entirety will go before the commission and the railroad presidents."

Commissioner Cockrell said the official notification that the commission was ready to hear the presidents would be sent to them Wednesday, but he did not believe that they would be heard before June 21.

Investigating Claims.

The commission resumed its inquiry Tuesday into the relation of the railroads to the coal and oil interests. The first witness was Robert L. Franklin, assistant freight claim agent of the Pennsylvania railroad, who detailed the method of investigating claims made by coal companies for coal lost in transit.

The Berwind-White Coal company and the much-discussed Har-Simms pier in New York harbor came up again when R. F. Cochran, superintendent of the pier, was called.

The most important feature of Mr. Cochran's testimony was his statement that the Pennsylvania railroad operates all the cars on Har-Simms pier, both those belonging to the railroad and the coal company cars. The railroad's locomotives are used and railroad employees operate the locomotives. Berwind-White company employees are prohibited from handling the cars.

It is in evidence before the commission that the Berwind-White is allowed seven cents a ton by the railroad for performing this work.

PACKING PLANT IN FLAMES

Armour Oleo Building at Omaha Is Destroyed by Fire, Causing Heavy Loss.

Omaha, Neb., June 12.—A fire which started at about 11:30 o'clock Monday night gutted the building occupied by the oleo department of the Armour packing plant at South Omaha causing the death of one man and a pecuniary loss estimated at \$100,000.

The origin of the fire is not known. It started on the top floor of the five-story building occupied by the oleo plant and so inflammable were the contents of the building that all effort to check the flames were unavailing.

The oleo building stands between the main office and the killing department and for some time it was believed that the entire plant would be destroyed.

Vigorous work by the firemen of the company and the South Omaha department, however, confined the fire to the original building.

Cornelius Denny, a member of the Armour fire department, fell from the top of the building and died within a few minutes.

R. C. Howe, general manager of the western plants of the Armour company, said to a reporter that the value of the building was \$75,000 and of its contents \$100,000. The loss is fully covered by insurance.

Mr. Howe said the work of rebuilding the plant would be begun as soon as the debris has cooled so as to permit of its removal.

Rate Hearing Postponed.

St. Louis, June 12.—The St. Louis hearing, begun Monday in the maximum rate case, under the injunction suit case brought in the federal court by the 18 proprietary railroads, to test the Missouri maximum freight rate law, has been continued to July 16 to enable a number of railroads to prepare statements.

President's Uncle Near Death.

Dickema delivered a masterly address here last night on the occasion of the centennial celebration of the first meeting of the General Synod of the Reformed Church in America. The distinguished gathering listened with the closest attention to the address of the brilliant Michiganian, whose eloquent periods were received with frequent demonstrations of approval. At the close of Mr. Dickema's address he was congratulated upon all sides."

Confident that their captain would bring them safely through, the members of the Merrill yachting party who spent an hour battling with Lake Michigan's waves Sunday, were not afraid of the eventual end of the voyage. Robert W. Merrill, captain of the boat Blackbird, which turned turtle two miles off Grand Haven harbor, has been all over the world as a whaler and seen seas beside which those of Lake Michigan seemed small. Nevertheless the "big lake" almost got the better of him for once. In his party were J. Gerrish of Muskegon, A. McIntyre, Sr., A. McIntyre, Jr., G. H. Neal, L. E. Porter and Kingsley Hall, all of Grand Rapids. They were about a mile north of the harbor entrance and about two miles in the lake when the craft turned over in a sudden gust. The life savers saw them go over and manned a boat to go to their rescue, but they were picked up by the Kansas, which left the Grand Haven harbor just before the yacht capsized. Several of the party lost caps and coats and all were of course soaked to the skin. Captain Merrill handsomely rewarded the captain and crew of the Kansas.

The launch will long be remembered as the fastest gasoline launch on the Grand River. She is a new one, and improved by her late owner at a time of her recent purchase. She had been greatly improved and will give a good account of herself with the Macatawa boats on the trip yesterday it is reported. She is well supplied with life preservers and other necessities.

John Link of Wright township was brought to Grand Haven yesterday by Sheriff Woodbury and Under Sheriff Salisbury and locked up in the county jail, on the charge of beating up Detective Kennedy with a wrench. Kennedy had been hired by several of Link's neighbors to watch for some unknown person who had been damaging their property. Tuesday night he took up a position in the Grosse barn and just at day light, he claims that he saw Link come into the barn yard carrying a big wrench. The old man, it is alleged, went up to a big hay wagon standing in the yard and began loosening the bolts and nuts so that it would fall to pieces. At that the detective ran out upon Link, gun in hand, and ordered him to surrender. Instead of throwing up his hands, Link struck him with the wrench across his arm. At the same time the detective's revolver went off and Kennedy shot himself in the left wrist. Link also inflicted several severe wounds upon Kennedy's back with the wrench and started to run away.

HE HAD MET REGGIE

AND REACHED HOME FULL OF GLOOM—AND BEER.

All the Result of Unfortunate Combination of New Overcoat and Inquisitive Child—Now He Asks Sympathy as Human Doormat.

"I certainly do wish," said the man with a new overcoat, "that women would learn how to take care of their children in trolley and elevated cars or leave them at home. The kid wants to look out of the window and, for that purpose, must get on his knees on the car seat and wipe his dirty shoes over his next-door neighbor."

"I was peacefully proceeding homeward yesterday on the trolley when a woman—one of those high-nosed sort who sail into a car as if they were going to seize it as their personal property—came in. She had a boy of about six with her, and his name was Reggie. Reggie got on his knees at once, pressed his face to the window and began to squirm. In the process he rubbed his shoes, absolutely caked with mud they were, all over my coat. I drew my coat to one side and looked daggers at the woman, snorting indignation the while. Did it faze her? Not on your tinfoil! She gave me a glance as if to say, 'Why are such vulgar brutes allowed to ride on the public conveyances'—she looked conveyances and not cars—and said sweetly to the cherub: 'Be careful, Reggie. Mommer's darling must not crowd.' Then she gently gathered the two squirming feet of the blessed infant in one hand and switched them toward her."

"For a moment the little angel kept his feet on his own side, then, of a sudden, he saw something which excited him in the passing throng and I felt one of those celestial hoofs rub violently and down my new coat. Waugh! I thought of many things, and especially of a picture I once saw in which helpless infants were depicted as being thrown upon the spears of a brutal soldiery. Violently I shoved the little viper's feet away from me, whereupon the woman gave me a look which would have pierced a harder heart than mine, and said, 'Reggie, dear, be careful and not annoy the gentleman.'"

"I ain't touchin' him," squatted the child, showing both dirty shoes against me and beginning to snivel. "What did I do? What could I do? I rushed from the car and walked the rest of the way home, where I arrived late, filled with gloomy and murderous thoughts—and beer. It was all the fault of the woman and the angel Reggie. But I could not convince my wife, and, when I told her the story, she said I was a brute and had been drinking and that innocent children had some rights in the world. Perhaps they have, but I suppose I shall have to go on to the sad and frenzied end of my weary days having little Reggie use me for a doormat whenever I encounter one in a trolley car."—New York Press.

Hatless Man Here to Stay.

"The hatless man is here to stay," said a hatter, "and his coming did not meet with the opposition that the shirt waist man incurred."

"All but the bald heads were hatless men last summer. At the seashore, among the mountains, automobile, horseback, canoeing, rowing, driving, walking, the young men were invariably hatless. Their faces were tanned and the sun had given a bright, coppery hue and a crisp quality to their hair."

"I know a half dozen undergraduates of Princeton who took a cross-country walk of 200 miles in August without hats."

"This new fashion has hurt the hat business undeniably. On account of it my summer sales have been smaller than ever before. Still, I don't grieve, I like the idea of going hatless. The fact is, I went hatless myself during my vacation."

"When the shirt waist man appeared everybody derided him. A hoot went up from one end of the country to the other. But the hatless man was received in silence, an approving silence."

Unhappy.

The chronic kicker was complaining. Yes, he had a good job; the best he ever had. Hours were short, the taskmaster was humane and the wages were big.

"Then, what are you grumbling about?" demanded his friend.

"'Bout the wages."

"Aren't they all right?"

"Oh! I s'pose they're all right, but I can't afford to take a day off."

"Can't afford to take a day off?"

"Nope; the wages are so blamed big I'd be losin' too much."

Foolish Question.

There had been several umbrellas deposited in the stand near the restaurant door. A guest who was about to leave had tipped the waiter rather liberally, and that individual hurried to the rack and asked:

"Which is your umbrella, sir?"

The guest looked at him in astonishment.

"Why, the best one, of course!" he said.

HOLLAND HIGH IN LINE FOR CHAMPIONSHIP.

The local high school team defeated the Grand Haven high school in one of the snappiest games of base ball ever witnessed in this city since the palmy days of Ball and Tibald last Saturday afternoon by a score of 2 to 0.

Shaw, the dark-eyed idol of the local's sons, officiated in the box allowing only one hit and securing 12 strikeouts to his brilliant record. Bolthouse, the speedy twirler of Grand Haven, was also in superb form, although he was somewhat wild at times. The third inning proved to be the lucky one for the locals, Olson, the new fixture in center field secured a base on balls and by clever base running stole second. Smithy followed by clouting out a beautiful two beggar bringing Olson across the platter. Deto then drove a terrific grounder in Lillie's territory, which brought in the second run for the locals.

The rest of the game was simply a pitchers battle, save that now and then the infielders were reminded that they were up against a stiff proposition, by a swift grounder or a scorching liner. The feature of the game was a beautiful double play in the fifth inning from Rottschaefer to Knutson to Johnson, just at a time when it appeared as if Grand Haven might score.

This victory gives Holland a strong claim to the state championship, it being necessary to cross bats with the hard hitting team of Benton Harbor to decide the matter.

HOPE IS AGAIN DEFEATED.

Hope College again met defeat last Saturday at the hands of the Grand Rapids High school to the tune of 11 to 4. Numerous errors, inability to hit Weston and lack of practice were the causes. Except in the fifth and sixth innings Rigaud had the visitors at his mercy and had it not been for the numerous errors Hope would have had a fighting chance. Hope gathered five scattered hits and Grand Rapids found Rigaud for 9. Weston struck out 13 and Rigaud 11.

Hope presented a rather crippled lineup and this together with the fact that practice was not engaged in for two weeks previous, explains why Hope failed to get revenge.

This was the last game of the season. On the whole the season has been successful, especially from a financial standpoint. Never before has it been possible to collect sufficient money to pay the expenses of the visiting teams. This year however, money was made above expenses and the season closes with a neat sum in the treasury.

The annual election of officers for the Hope College Athletic association will be held soon. Never before has the association been so prosperous as at present. During the year a back debt of \$75 has been paid and the base-ball season closed with a neat balance of \$35 to the good. This success is largely due to the board of directors who have guided the affairs of the association for the past year. They are about to go out of office and the newly elected men will take their places. The present officers of the association are John C. Hoekje, director; Henry Vruwink, secretary; P. H. Pleune, treasurer; R. H. Nichols, manager basket ball; A. Veenker, manager base ball; H. F. Veenker, manager foot ball; John T. De Vries, manager tennis; George De Kruif, manager gymnastics.

Grand Rapids and Holland high school baseball teams will meet in Grand Rapids next Saturday in a game for the scholastic championship of this part of the state. The winner will meet Benton Harbor for the championship of Western Michigan.

It is probable that the game will be played at Ramona park. Shaw will pitch for Holland and Weston for Grand Rapids.

Holland Man Prospering in Panama.

E. H. Beekman of this city has received from Bocas del Toro, Panama, a newspaper containing the following regarding his brother, M. Beekman, who formerly worked for the Wolverine Boat Company in this city, and who is now in the boat building business at Bocas del Toro, Panama, being a member of the Beekman & Twist Boat Building Company!

"One of the few institutions in Bocas del Toro which make for progress is the firm of Surgeon Bros. Recently they had constructed the most up-to-date pharmacy in town, and now they have launched the gasoline yacht 'Zephyr,' the only craft of its kind in the whole Republic of Panama. The Zephyr's dimensions are as follows: Length over all, 90 feet keel, about 86 feet beam; beam, 19 feet; capacity, 80 tons. She is a twin-screw boat, run by two Wolverine engines of 100 or more horse-power and has developed a speed between 9 and 10 knots. Twelve berths, a state room and a toilet comprise the accommodation below decks. The upper deck is roomy and well protected from the weather, and has also a toilet of its own for the deck passengers."

"The engine room is entirely separate and complete in itself, and the engines are in charge of the chief engineer, William Brown (Jamaican)."

"It will not be amiss to state that the skeleton of the hull is the only part of this vessel made in the States."

"The cabin, the upper works and the other parts were designed by Capt. Aubrey Surgeon, and built by Mr. Beekman. The installation of the engines and all the other iron work was done by Mr. Twist, the chief mechanic of the firm of Beekman & Twist. The entire work reflects the greatest credit on the ingenuity and the skill of the above mentioned gentlemen and on the enterprising spirit of the firm of Surgeon Bros."
