CASE AGAINST HOLLAND MEN

DISMISSED

Another chapter was added to
the Kirby vs. Soule slander case in
circuit court, when the men upon
whom notice had been served by
Soule's attorney's, informing them
that they could consider themselves
as defendants, filed motions
through their attorneys for dismis-
sal from the case of defendants,
and were granted their requests by
Judge Cross.

C. C. Coburn, attorney for Judge
Soule, immediately took steps to ap-
peal the case to the supreme court.
Those against whom the case was dis-
missed in this city were J. B. Mul-
der, I. Marsilje, Sentinel Publishing
Co., and Ben Mulder. From other
parts of the county are the Zeeland
Record, Van Kovering Bros., C. Van
Loo, Coopersville Observer, Millard
Durham, Walter I. Lillie and Ed-
ward P. Kirby.

Attorney Andrew J. Kolyn of the
law firm of Farr & Kolyn of Grand

City, Iowa, where he will wed an
old schoolmate, Miss Mae Helene
Hospers, a resident of that city.

Mr. Kolyn is well known in Hol-
land. He received his diploma from
Hope college, and went from there
to the University of Michigan,
where he studied law and graduated
as a member of the '12 class. He
won many honors as a law student
at the university and has made a
success here since going into partner-
ship with George A. Farr of Grand
Haven.

He has many friends among the
younger set.

The wedding will take place June
19, and they will be at home to

don and Penoyer avenues after July
1.

Found wandering about in a semi
conscious condition, Henry South-
field of Zeeland, was taken to U.
B. A. hospital early Tuesday morn-
ing suffering from a badly injured
head. He had been struck by a Hol-
land Interurban car the night pre-
vious and had wandered about all
night before being found. Although
suffering from a possible fractured
skull, authorities at the hospital say
he will live.

FERRY THE MILLIONAIRE TRIES

TO TAKE OWN LIFE

Former Ottawa County Man Be-
lieved To Be Dying At Salt
Lake City

Edward S. Ferry, formerly of
Ottawa county, Michigan, is believ-
ed to be dying at his home in Salt
Lake City as the result of an at-
tempt to commit suicide at his
home. He shot himself.

Ferry is a nephew of the late Sen-
ator Thomas M. Ferry of Michigan
and son of E. P. Ferry, veteran
Utah miner. Ill health and worry
over litigation caused despondency.
The will case was the one in which
Judge E. P. Kirby was sustained in
the higher court and involved over
a million dollars.

The Ferry family came to Utah
from Michigan in 1879. Edward
Ferry had become a wealthy and
prominent local attorney. A recent
adverse decision on a demurrer filed
in the supreme court of the United
States was a hard blow to the attor-
ney, and contributed to his depress-
ed mental state.

The attempted suicide of Edward
S. Ferry, a grandson of William M.
Ferry, the founder of Grand Haven,
is another topic of conversation in
town today, and many reminiscences
of the family are recalled.

Deacon W. M. Ferry came to
Michigan in the early forties and
secured a claim on most of the land
in Ottawa county. One of his sons,
T. W. Ferry, was elected United
States senator and occupied many
positions of honor, while a member
of that body. He represented the
president at many notable events
and it is common belief in Grand
Haven, that he once acted as pres-
ident, but a recent investigation by
Congressman Mapes, disclosed the
fact that he was not.

The father of the unfortunate at-
torney, left Grand Haven about 20
years ago with his family. His un-
cle, Montague, preceded him in
1879. They spent many thousands
of dollars in prospecting and work-
ing unprofitable mines until they
finally struck it rich and made a
fortune.

Will Take a Trip to Europe

Mr. and Mrs. J. N. Trompen, well
known in this city, and their two
daughters, Dorothy and Sara Helene,
will sail from New York Friday for a
trip to Europe. They expect also to
attend the world's Sunday school
convention to be held in Zurich,
Switzerland, in the early part of
July. They will return about the
middle of August.

"Stole a Pig and Away He Ran"

Altho' there is a fine of \$100 for
killing a bear, Deputy Game Ward-
en C. Dornbos has been notified by
State Game Warden Oates that this
law has been suspended in his case
and that if the bear which has been
terrorizing the surrounding country
GALLY NINE—Holland City news
proves dangerous, he may shoot it
—if he can. One may not shoot the
bear however, unless in self defence.

Many of our citizens have been
skeptical on the subject of Bruin,
but Peter Timmer, Macatawa life
saver, and a score of others have
been recently converted. Pete began
to "see things" in the shape of big
Teddy at about 2:00 in the morning
when he was patrolling the north
side of the Channel all by his lone-
some, and with incredible swiftness
he shinned up the nearest tree, for-
getting in his haste and fright that
Bruin could climb, also. But the

bear was evidently too indolently
inclined to arduous pursuit of his in-
tended victim and after a brief per-
iod of tho'tful cogitation, he delib-
erately ambled off, leaving the un-
fortunate fellow perched aloft and
shivering in his boots.

But Bruin must have had another
dinner in prospect and that he did
not go hungry, several of Port Shel-
don's citizens will testify, for one of
them, Gus Scheelen, is minus a
plump, promising pig. Mr. Scheelen
was awakened in the wee sma' hours,
by the sound of much squealing
from the vicinity of the pig sty
and upon investigation was only in
time to behold big Teddy disappearing
over the fence with a whimpering
little pig clasped tightly in his
huge forepaws. Stevensons, and
others were soon on the scene but
tho' they all gave chase, the four
footed maunder managed to suc-
cessfully elude them. Later he was
seen prowling around Hank Vanden
Berg's house, as Will Lannigan tes-
tified to seeing him at eleven o'clock
upon leaving the Vanden Berg home
after a call.

And they are not the only ones.
Charles Bontekoe and Niel Exo had
quite an experience with the much
talked of animal when wandering
about the woods near Big Bayou.
According to their incoherent re-
ports they watched him wading and
splashing around the shallow water
near the shore, imagining them-
selves in a position where they could
see but not be seen. Big Teddy's
eyes, however, were sharper than
they suspected, and as soon as he saw
them he made one quick dash but
with agility and speed that rivalled
that of Life Saver Timmer, the
frightened boys were soon securely
ensconced in a tree, where lazy Bruin
kept them for half an hour, before
making off for Ottawa Beach Hills.

Mr. Bear has also been nosing
around the bee hives of Frank
Bertsch, greatly to the alarm of that
respected personage, and the next
time the inquisitive black bear
came in search of the much coveted
honey he was frightened off by the
many lighted lanterns which wise
Frank had hung around to protect
the precious hives.

So many of our worthy people
however, have testified to seeing
the mysterious animal that we sort
of wink the other eye when the dif-
ferent reports come in. He must be
exceptionally lively to so accomodate
everyone in search of excitement
by being in so many places at once.
Nice bear! Consequently it is up to
our valliant Deputy Game Warden
C. Dornbos to take advantage of the
suspension of that law, which has
reference to a \$100 fine and the
killing of bears.

COLLEGE STUDENTS ENTERTAIN LARGE AUDIENCE WITH WORKS OF GREAT POET

Mrs. Pardee and Harris Meyer Help the Members of the Class to Make the Program a Success

A most entertaining and instructive program was rendered Monday night by members of the Hope College class studying the works of Alfred Tennyson under Professor Nykerk. The class was assisted by Mrs. Pardee and Mr. Harris Meyer. The first number was a quartette composed of Mrs. Pardee, Mae La Huis, Frank Kleinheksel and Prof. Nykerk. Miss Evelyn De Pree was at the piano and Miss Keppel played a violin obligato. The quartette sang the beautiful selection which is considered by some to be the greatest of gems from Tennyson, "Crossing the Bar". John De Boer next gave a selection from the "Coming of Arthur," one of the Idylls of the King, where Arthur's knights swear their allegiance to him and he declares his independence from Rome. Ruth Vandenberg followed with the closing lines of "The Passing of Arthur" describing the death of the leader of the Round Table.

One of Tennyson's famous ballads "Edward Gray," was sung by Frank Kleinheksel. Helene De Maagd very prettily rendered "The Lady of Shalott" after which a selection from "Maud" was given by Henrietta Plasman. Next followed one of the lyrics "The Wind of the Dawn" from the drama Thomas Becket, sung by Mrs. Pardee and Prof. Nykerk. Two selections from Tennyson's masterpiece, "In Memoriam," were given by C. De Young and Theo Thuerber, followed by a solo by Prof. Nykerk "Ring Out Wild Bells," also taken from the "In Memoriam."

Robert Kroodsmas next read from "Locksley Hall Sixty Years After." That inspiring bit of poetic art, "Ulysses," was given by Henry Poppen and followed by a trio, Mrs. Pardee, Mae La Huis and Frank Kleinheksel, who sang,

"Break, break, break,
That stirring ballad, "The Revenge" was rendered by C. B. Myeste, and Clarence Lokker well interpreted the humorous selection in the Lincolnshire dialect "Northern Farmer-New Style" and Verna Shultz gave "The Brook." The concluding number was again given by the quartette who sang another rendering of "Crossing the Bar".

The program was very entertaining as well as highly instructive and reflected great credit on the members of the class who participated and also on the instructor.

NICKELS FAMILY NOW SAY "IT WAS SOMETHING."

Did he or didn't he?
That's the question that is being asked concerning the remarkable case of Fred Nickels, Fair Plain farmer who is reported to have coughed up several small-sized fish. Publication of the story has brought about much speculation and among the medical fraternity, there is a difference of opinion as to whether fish could actually live in a man's stomach.

Mrs. Nickels, wife of the farmer, complicated the situation today by issuing statement that her husband "coughed up something, but we could not tell what it was."

"The statement that Mr. Nickels coughed up small fish is wrong," said Mrs. Nickels. "He coughed up something, but we couldn't tell what it was."

Neighbors circulated the story and have vouched for its credibility.

Van Peursem, the congregation of Trinity church has grown rapidly and the building of a parsonage was a venture that has been under consideration for some time.

FRATERNAL SOCIETY INDULGES IN FEAST IN HOTEL HOLLAND.

Several Alumni Present; Fine Program of Toasts Presented

Hotel Holland was Tuesday the scene of the 79th annual banquet of the Fraternal society of Hope college. The spacious dining room of the hotel presented a very pretty picture with the two long tables and the speakers' table at the head, while above the table was a beautiful skin bearing the society emblem in blue and gold. Plates were laid for nearly a hundred, under-graduates and their friends and alumni. A very elaborate five-course dinner was served during which music was furnished by Brouwer's orchestra.

Henry J. Pyle of the Senior class was a very able and witty toastmaster. The first speaker he introduced was Dr. H. E. Dosker, '76, who responded to a toast on "The Altar". Dr. Dosker said that where there was an altar there was a sanctuary a priest and a sacrifice. Today, the sanctuary has become the house of intellectual pursuits and he urged the young men to make the most of their opportunities in this sanctuary. The preists, he said, were the professional men while the young men of today were the acolytes in the temple. In striving to become priests there are three requisites of success—work, work, work. And to attain the top-most round the sacrifice of self is the prime requirement.

The ladies were very gallantly and ably toasted by Leonard Yntema in response to "Das Ewige Weibliche." He based his remarks on Goethe's statement, "The eternal feminine draws us ever onward and upward" and then showed how this was true today as before. At this time John H. Warnshuis '10 favored the company with a charming negro lullaby "Mammy's Song" and responded to an encore with "Good Night". Prof. J. W. Beardslee, '98, spoke on "The Forge." What can you do with a forge, he asked? He said a thick piece of iron might be made thinner, while a thin piece might be made thicker or the two welded together. He then went on to show how all these things were done in a society.

"Nirvana" was the toast responded to by Lambertus Hekhuis. Nirvana, the Buddhist paradise, in its original meaning has the idea of being blown out. In speaking for the Seniors he said they were willing

and ready to be blown out if in their 'blowing out' they may attain unto that height of success which has been reached by those who have gone before. Following this toast the company joined in singing the society song composed by Prof. J. E. Kulzenga '99. Charles Peet bade the Seniors of the Society a fond farewell and wished them the God-speed of those who remained behind, in responding to the toast, "Caps and Gowns."

"Incantations" was the subject taken by Att. C. Vander Meulen '00. Incantations he interpreted as charm. Three essentials for a well-rounded life, he said, were typified in the toasts of the evening, the forge stood for labor, the altar for sacrifice while incantations stood for the charm which rounds out the full life the charm of sympathy. The last speaker was Nicholas Slichterman whose subject was "O. K. E. 55 His was a toast to the society and a vision of its highest ideal. Before the last toast James Dykema '10 sang "The Three Cruisers" and also the charming "Gypsy Trail."

At the conclusion of the program all joined in the singing of "Old Hope" written by Dr. Dosker. The banquet was one of the most enjoyable social events of the year and marks the close of an enjoyable and successful society year.

LAW ENABLES CONDUCTOR TO KEEP A CROWD IN GOOD ORDER.

The railroad police law is one of the best legislature gave to the state. It makes a police officer of all conductors, on both steam and interurban roads. The owl cars and trains, as the midnight trains are called, had become a dread to conductors and brakemen. The law authorizes conductors to place any disorderly and drunken persons under arrest; to hand them over to any sheriff at any station along the line. It also gives them power to confiscate any liquor on the person or in possession of such drunk or disorderly person. It defines the taking of a drink of liquor or flourishing a bottle or offering a drink to any one as a disorderly act. It also gives the conductor or brakeman the right to not allow an intoxicated person to board any car.

This certainly is a god-send and will enable our interurban conductors to keep the last car crowd and the Saturday night owl train in a semi-respectable condition. No doubt this law is hailed with delight by managers of the road as well as the conductors themselves.

R. NEINHUIS OF DRENTHE PAID FINE AND COSTS BEFORE JUSTICE SOOY.

R. Nienhuis of Drenthe was found guilty of marring and defacing property on the school building of district number 3, Friday afternoon. The trial took place in the city hall before Justice Sooy. Prosecutor Att. L. Osterhaus appeared for the people while Att. W. O. Van Eyck was attorney for the defense. The jury returned after being out but a short time with a verdict of guilty as charged but recommended leniency for the prisoner. Justice Sooy then sentenced Mr. Nienhuis to pay a fine of \$5 and costs of \$26.25. He paid. Before the justice dismissed Mr. Nienhuis, he took the opportunity to give him a severe lecture. He said that his case should be a lesson to all the other people in the habit of marking up property and said that if the jury had not recommended leniency in his case that his fine would have been much more.

Will Leave the Seventeenth To Take Charge of Church in the Netherlands For the Summer

The Rev. H. J. Veldman, pastor of the First Reformed church in this city has again brought honor to our city. Mr. Veldman first boosted the name of Holland when he was elected Vice President of the General Synod of the Reformed churches at New Jersey. Word was received here Saturday that the Rev. Mr. Veldman has received the honor of taking charge of the English Reformed church in the Hague for the months of July and August. Each year a pastor from this country takes charge of the church in the Hague which is supported by the government for the benefit of the tourists in that country. This year Dr. Mason, an Eastern pastor was appointed to take charge of that church but will be unable to go to the Hague, on account of the serious illness of Mrs. Mason. Dr. Veldman was his alternate and notified his friends in Holland Saturday that he would spend Sunday, the 15th visiting in this city and would leave for the Netherlands on the 17th on the steamer, Maridom of the American line.

Mr. Veldman is highly honored by being given the pastorship of the church in the Hague as this is very important. The church is visited by tourists from all over the world and the pastor must be a man of no mean ability to be able to accommodate all these people.

MOHAMMEDANS FIRED OFF THE JOB WHEN THEY GET REBELLIOUS

Sixteen Mohammedan track laborers on the Holland interurban lines were discharged Friday after they refused to work under an American foreman. The track layers wanted one of their own race to do the bossing. As none was sufficiently qualified to supervise the work, the services of the men had to be dispensed with by the company.

MORE CARS PUT ON RUN BETWEEN GRAND RAPIDS AND HOLLAND SUNDAY

Sunday the Holland interurban company put into operation its fast limited cars, making stops only at Zeeland, Holland and Black Lake. These limited cars left Grand Rapids at 8:35 and 9:35 each morning and at 4:50 and 5:45 each afternoon. On Saturdays and Sundays, however, limiteds will be run throughout the day, leaving Grand Rapids 35 minutes after the hour. Running from the Beach, limiteds will leave in the mornings at 7:40 and 8:40 and Saturdays and Sundays throughout the day.

This schedule will remain in effect until June 21, when more cars will be added. The steamer City of Grand Rapids will be put into service next week with the steamer Puritan.

He has been traveling for this company for the past year and has visited most of the important cities in the United States and Mexico.

Parents-Teachers Club Show Right Spirit Towards Movement

The playgrounds movement received another boost Friday when the Van Raalte Avenue Parents-Teachers' club voted to donate \$5 out of their treasury to this cause. They were very enthusiastic about playgrounds for Holland and altho their donation is not a large sum it shows the spirit the teachers and parents show towards the movement and if all show a like spirit Holland will have some well equipped and well supervised playgrounds before the summer is far gone.

E. P. STEPHAN PROPOSES MEN SHOULD HAVE ONE DAY A WEEK

Proposes to Use the Plan Now Used in Life Saving Service, With City Employees

At a recent meeting of the Board of Public Works, ex-Mayor E. P. Stephan brought up a matter that was of vital importance to the men employed at the water and light stations. It seems that the men at present are working seven days a week and it is the opinion of Mr. Stephan and other members of the board that each man should have at least one day a week for rest and recreation; and they are devising some plan whereby this can be consummated. There are seven men thus employed and it was thought that by employing one extra man, the men, consecutively, could have one day a week.

This plan is followed in all life-saving stations in the country and it has worked out very satisfactorily. The superintendent also recommended a raise in salaries which was approved by the board. Those who will have an increase in salary are the following: Frank Austin, lineman \$57 to \$62 per month; John De Boer, coal passer from \$51 to \$56 per month; Clara Voorhorst, from \$31 to \$36 per month.

The president, A. Visscher, appointed the following standing committees for the year 1913-1914: committee on water—Lane and Stephan; on light—Bosman and Pifer; on sewers—Stephan and Bosman; on buildings—Pifer and Lane; on claims and accounts—Bosman and Stephan.

The men arrested were John Mulder and Frank Limbert of this city and Jim Doyle, Geo. McKenzie and George Meyer from other parts. John Mulder was arraigned before Justice F. T. Miles Tuesday morning; he pleaded guilty to the charge and was fined \$5 and the cost which he paid.

MRS. EARL MAXTED ASSAILED BY RUFFIAN SATURDAY NIGHT.

Her Screams Bring Help, But Assailant Escapes and Cannot Be Located.

Mrs. Earl Maxted, about 45 years of age, was assaulted Saturday night by a medium sized man on the corner of Tenth street and Maple avenue. Her assailant was standing in the doorway of Self's brewery when she passed; although she thought he acted strangely, paid no attention to him but passed on. When she had passed the doorway, the man suddenly seized her from behind and commenced choking her. She screamed and as he circled around in front of her with his hands still on her throat, she screamed again. This time Ray Peterson and another man who were passing on Ninth street heard the screams and started to the rescue. The third time Mrs. Maxted screamed Mr. Peterson and his companion were getting closer and her assailant giving a final tug at her throat turned and ran. She told the men which way he had gone and they ran in the direction designated by her, but her assailant had made good his escape.

Mrs. Maxted lives at 247 West Tenth street. She was returning home with an armful of bundles when she was attacked. The imprints of her assailant's fingers were visible on her throat for some time after the affair. When questioned, although much excited, she did not seem in the least nervous. Instead she said, "I would have got him if my arms had not been full of bundles," but evidently she forgot to drop her bundles when attacked. She claimed the man was white, between thirty and thirty-five years old, smooth-shaven. He wore a dark felt hat pulled down over his face and dark clothes, although the coat was not of the same material as his trousers. She said she would know him if she should see him again.

Mrs. Cress confirms the story told by Mrs. Maxted. She said she was passing the brewery about half an hour before Mrs. Maxted was attacked and the man Mrs. Maxted described was there and frightened her so that when she turned the corner she ran all the way to the boat dock to join her husband there. She also claims she would know the man if she should see him again.

LITERARY CLUB ROOMS WAS A SCENE OF ENTERTAINMENT

Mr. George Dok's Pupils Gave a Fine Program and Received Many Compliments.

Along all lines, incentives for work must be given in order to secure the best result. Believing in this, Mr. George Dok presents his pupils each year in June a piano recital.

The Literary club room was again chosen as the place of entertainment for the musicale given Thursday evening.

With this occasion in view the members of the class have worked with a will, not only for correct reading of notes but for perfect phrasing, which is so essential in all grades. Mr. Dok gives close attention to the marks of expression, knowing that only in this way can correct interpretations of the composers' mind be given.

There were 24 numbers so varied in style of composition that even the unmusical were pleased. Among the composers' names we mention Handel, Mendelssohn, Piezonka, Bohn and other well known writers.

The program was a model one in that it consisted of solos, trios and duets. The mandolin duet was especially good.

Mr. Dok was ably assisted by Miss Florence Taylor, who gave two vocal numbers "The Nightingales Trill" by Ganz and "All of a Summer Day," by Chapman.

We cannot mention the points of excellence in each number, but can say that every selection showed thoughtful, earnest work on part of pupil and teacher.

The ushers were Lulu and Laura Zwemer and Calla Elferdink.

Set Fire to Barrel of Rubbish in 4th Reformed Church

Some small children playing in the basement of the new Fourth Reformed church on the corner of 15th street and First Ave., set fire to a barrel of shavings Sunday evening at about 7:30. The fire department was summoned but the fire had been extinguished before it arrived.

There was practically no damage done as the fire was discovered in time to prevent it from spreading but this incident goes to show how much trouble can be caused by the children when they think they are not doing any harm.

Case of Van Oort vs. Boomers & Smeenga Decided Before Justice Sooy

The case of S. Van Oort vs. Boomers & Smeenga was tried Monday in the City Hall before Justice Sooy, Att. Thos. N. Robinson handled the case for the plaintiff while F. T. Miles handled it for the defense. The case arose over a plumbing bill, Mr. Van Oort claiming the defendants owed him. The defendants claimed that they had exchanged bricks for the bill but the plaintiff claimed this was only part payment and he sued for \$9.67. The jury brought in a verdict of 67 cents for the plaintiff.

SCHOOL CENSUS SHOWS THERE ARE MANY MORE THIS YEAR.

Total Number Is 3397 or 130 More Than Last Year When Census Was Taken

The school census for the local school has been completed and it was found that the number is 3397. Last year the census showed that the number was 3267, showing a net gain of 130 this year. The census by wards is as follows: First Ward—741; Second Ward—197; Third Ward—435; Fourth Ward—672; Fifth Ward—1352.

From Lansing comes a dispatch to the effect that Auditor General Fuller now estimates the amount of primary school money to be apportioned in July will be less than \$7 per capita. This money is to be distributed July 15, and as there are 774,169 children of school age in the state, there is now in the state treasury \$102,121 too little to bring the per capita apportionment up to \$7.

This will mean that the share of the Holland school will aggregate nearly \$24,000. This is considerably less than had been expected. In 1911 the apportionment was \$7.90, which would make the figure considerably higher on the three thousand three hundred pupils. Under the old law the apportionment came in November and May. The law was changed by the 1911 legislature to make the apportionment come in one lump in July.

The increase of a hundred and thirty pupils in one year is not surprising in view of the fact that all the buildings have been more than crowded the past year. The completion of the new high school will relieve the situation, but on the other hand the new building will attract more pupils and the next census will doubtless reveal a still greater increase than that of the past year.

The board of education has appointed an additional teacher in the person of Miss Genevieve Van Putten.

MAYOR BOSCH NAMES FOUR MEN TO ACT IN THIS CAPACITY.

Will Meet With Gas Officials In Effort to Come to An Agreement.

Mayor Bosch Monday appointed the following as members of the committee of citizens who will confer with the officials of the Holland City Gas Company in regard to the differences that exist between the city and the gas company: Dr. A. Leenhouts, Ben Mulder, Thos. N. Robinson and Dick Boter. Mr. Bosch is chairman of this committee by the terms of the resolution passed by the common council last Wednesday evening when the provision for the appointment of such a body was made.

"I tried to appoint a committee that would be as fair and impartial as possible," said Mr. Bosch in speaking of the appointments. "I believe that all these men will do the right thing both by the city and by the company. This committee will have to attack the problems before it in an impartial attitude, and for that reason I have tried to appoint men who are not strong partisans of either of the contending factions. Moreover, I think the members of the committee can look at the matter impartially even though they may have decided opinions. At least I believe that all of them will do what they think is for the best interests of their native city."

The gas company has been notified about the appointment of the committee and it will be up to the officials to arrange for a meeting. The committee will be ready now to meet at any time to talk the matter over. It is possible that the meeting will be held in the very near future.

WHO'S TO GIVE US THAT 2 CENTS?

Democratic leaders are promising that if the Woodrow Wilson bill is passed, with sugar on the "free list," so that we can buy sugar in the "world market" without paying a "tariff tax," we shall save 2 cents a pound on the sugar we buy.

While that means a saving of only \$1.63 cents a year for each of us on an average consumption of 81.5 pounds per capita it is still interesting in these days of "high cost of living." Every little helps.

Standard granulated sugar, the kind everybody ordinarily uses, is now selling at retail in Chicago at 5 cents a pound and less. The retail price has not been over 5 cents in the big stores for many weeks.

Would "free sugar" bring this price down to 3 cents? And if so, how? Who is going to give us the 2 cents that the Democratic leaders promise us? From whom will we get it?

In so far as it is imported our sugar practically all comes from Cuba. Practically all that does not come from Cuba is grown under our own flag. So the present "tariff tax" directly affects only the cost of Cuban sugar.

Now Cuba is selling raw sugar landed in New York for 2.1 cents a pound. It is evident Cuba cannot give us that 2 cents. That would leave Cuba only on tenth of a cent.

The average tariff on this Cuban sugar is 1.35 cents per pound. It is evident that taking off the tariff alone will not give us that 2 cents—not by more than half a cent.

The net cost of Cuban sugar at the refinery door is thus 3.45 cents. That leaves of the 5 cents or less that we are paying only 1.55 cents or less for the refinery, the railroad, the wholesaler and the retailer.

It is evident that they cannot together give us that 2 cents. They cannot work for nothing and pay us half a cent a pound for buying sugar.

This arithmetical problem is respectfully submitted to the Democratic statesmen who are promising to save us 2 cents a pound on sugar.

President Visscher Announces Water Situation

The scarcity of water for the last two or three days calls for a statement from the Board of Public Works as to its cause and probable duration. Ever since last fall until the present time the well at 19th Street station has furnished the city water owing to the fact that the condition of the new well was such that it was not deemed advisable to use it until it has been repaired. The only trouble was that the quicksand was working in under through the bottom of the brick wall and thereby endangering the wall.

The board now has caused steel sheet piling 15 feet in length to be driven in the well extending at least ten feet below the bottom of the shoe of the well, absolutely protecting it against the threatened danger. This work has been completed Tuesday; the surplus sand pumped out, and the well cleaned, and the water is being pumped out from time to time, and is ready for use, but before it is turned into the city mains the water was sent for analysis to determine its quality, and when a report is received that it is wholesome for use it will be turned into the city mains. The Board looked for such report today, and feels confident with the additional supply of water from the new well there will be no further reason for complaint as to the city's water supply.

Although the rate of taxation in Allegan city this year is lower than that of 1912, the total of every man's taxes will be greater. The rate per \$1,000 of assessed valuation last year was \$12.94. This year it will be \$12, but because the valuations have been advanced twenty-five per cent, under orders of the state tax commission, the lower rate will raise more money than did the higher one. Last year money was raised to pay for the city's share of paving and sewer costs, while this year \$3,000 extra will be raised for the library site. In other words, taxes will be higher this year than last simply because more money is to be raised. Neither the valuation nor the rate makes the taxes. Of course Supervisor McOmber and Treasurer Lelsie will have a lot of complaint for which they will not be to blame. Taxes have been increased generally in the state.—Allegan Gazette. Holland tax rate the past year was \$23.23 per \$1,000.

Red squirrels are the most desirable sort of citizens to inhabit the shade trees of the city, according to the reports which are made from certain observers of the habits of the animals. In one section of the city one of the residents has been rather mystified of late by the discovery of considerable quantities of chipped bark found on the sidewalk every day. After observing for a time, the owner of the trees discovered that the red squirrels which were making their homes there, were busily engaged gnawing off the bark of the tree in small bits. The red squirrels are also enemies of the better species of the animals such as fox and grey squirrels, which have been placed in Central Park and the court house square and will drive them out if they, themselves are not exterminated.—G. R. Tribune.

STATE INSURANCE COMMISSIONER GIVES WORDS OF WARNING.

Fire Chief Blom calls attention to a report made by Insurance Commissioner C. A. Palmer to Governor Ferris. Mr. Palmer made a plea for greater publicity in connection with the fire insurance business. Mr. Blom has often tried to impress the same ideas on the minds of Holland people. This is what Mr. Palmer has to say in connection:

"The average insurer depends too much upon the word of the individual agent for his insurance, and after the insurance policy is issued, he feels secure as to his property. Simply because a man has a fire insurance policy he should not relax his vigilance in the matter of fire prevention, because every step he takes to prevent a fire aids in the reduction of the cost of insurance. During 1912, fire destroyed \$5,111,988 worth of property in Michigan, which was partly covered by insurance.

"People will object seriously if there is an increase in the tax rate, but they submit without objection if there is an increase in the levying of an annual toll, not only in this state, but in all the states of the Union, which is appalling in its intensity, particularly because nine-tenths of this toll could be done away with.

"On January 1, 1912, there were 212 fire and marine insurance companies authorized to transact business in Michigan, of which 13 companies failed to request a renewal of their certificate of authority or withdrew during the year. Nearly all the companies withdrawing did so because of a reinsurance or consolidation with some other company. 13 companies were admitted to transact business, of which three were mutuals. Nine fire and marine companies have been admitted so far this year.

The Singing society of the Ninth Street Christian Reformed church rendered the sacred cantata "The Prodigal Son" last evening at 7:45 in the church parlors. The society has a membership of fifty and has been working under the direction of Chas. Van Hemert. STEFFENS—WETMORE

The following write up on the Steffens—Wetmore wedding appeared in the Grand Rapids Sunday Herald:—

The marriage of Miss Georgia Wetmore of this city to Rev. Jacob Julius Steffens of Chicago took place at 8 o'clock Tuesday morning at St. Mark's pro-cathedral. Miss Rose Whelan of Holland, Mich. and Freeman Cronk of this city were the first two members of the bridal party to enter. They carried a basket of bride's roses. Miss Whelan was gown in white silk and shadow lace and wore a little Dutch bonnet. They were followed by two bridesmaids, Miss Sarah Tucker of South Haven and Miss Elda Van Putten of Holland. They were gowned in white charmeuse and shadow lace and carried round bouquets of bridesmaids roses and maiden hair fern. Miss Edith Blanchard of Sand Lake and Miss Hazel Van Landegent of Holland, in similar gowns, followed them, and then Miss Bernice Groves strewed rose leaves in the path of the coming bride. Miss Florence McKay of this city niece of the bride, was the maid of honor. She wore a gown of blue trimmed with shadow lace, and wore a short bridesmaid's veil of tulle. Her flowers were a shower bouquet of white sweet peas and maiden hair fern.

The bride entered with her grand father Dr. Millet. She wore a gown of duchesse lace heavily trimmed with pearls. Her veil was of tulle bordered with real lace and fastened with butterflies worn by the bride's grandmother at her wedding. She carried a white prayer book. The bride and her attendants were met at the chancel by the groom and his best man, Rev. Edward White.

Louis P. McKay was the organist. He played Dubois' "Marriage Mass" for the procession and recessional and during the ceremony played softly. The betrothal part of the service was spoken by the Very Rev. Francis S. White, dean of the pro-cathedral, and then Rev. John Henry Hopkins of the Church of the Redeemer, Chicago took the service to the end. Immediately after the marriage service came the nuptial mass. Rev. Hopkins being the celebrant. This was a very impressive low celebration of the Holy Eucharist, which service was desired by the bride and groom.

Following the service at the church a reception and wedding breakfast were held at the Livingston hotel. Sixty guests were present. The bride and groom, maid of honor, best man and mother of the bride were in the receiving line. Miss Martha Blom of Holland was directress of the dainty wedding breakfast which was served, being assisted by Miss Maud Williams, Miss Florence Krusinga and Miss Ceta Tucker. The dining room was decorated in smilax and bridesroses. The guests were met at the door by Miss Whelan and Mr. Cronk, who presented each guest with a rose.

Mrs. J. H. Hopkins of Chicago presented the bride with a gift in gold coin from the Federation of Women of the Church of the Redeemer, and a similar gift was given the groom by Rev. Hopkins from the vestry of the Church of the Redeemer, of which the groom is curate.

Rev. and Mrs. Steffens will return to Chicago late this month.

Rev. Steffens is a graduate of Hope college and has studied also at the University of Princeton. He was an instructor in the University of Missouri and took post-graduate work in Chicago university. He is a curate at the Church of the Redeemer in Chicago.

TOLD EVERY FOURTH YEAR

The political spellbinder was annoyed by the constant interruptions of a member of the opposition party cheering for his own candidate. Nettled at length he enquired:

"My friend, why do you cheer for that party?"

The disturber arose and said: "My great grandfather belonged to it, my grandfather belonged to it, my father belonged to it and I belong to it. Hurrah for—"

"If your great grandfather had been a fool," said the orator, interrupting, "and your grandfather had been a fool, and your father had been a fool, what would you be?"

"A member of your party," came the quick return.

"Studebaker wagons certainly last a long time"

"I have had this wagon twenty-two years, and during that time it cost me only \$6.00 for repairs, and that was for setting two tires."

"And after twenty-two years of daily use in good and bad weather and over all kinds of roads, I will put this wagon against any new wagon of another make that you can buy today."

"Studebaker wagons are built of air-dried lumber and tested iron and steel. Even the paint and varnish are subjected to a laboratory test to insure wearing qualities."

"No wagon made is subjected to as many tests or is more carefully made than a Studebaker. You can buy them of Studebaker dealers everywhere."

"Don't listen to the dealer who wants to sell you a cheap wagon, represented to be 'just as good' as a Studebaker."

CITY'S GAS CASE NOW CONSIDERED BY U. S. SUPREME COURT.

The Holland City Gas case is now being considered by the United States Supreme court in Washington, D. C. City Attorney Arthur Van Duren left Holland Saturday to be on hand to make the argument for the city in the gas case and it is expected that today or Friday he will be back here. After the attorneys for the city and for the gas company have made their arguments to the supreme court justices it is likely that that court will take some time before rendering a decision. It is barely possible that a decision may be reached immediately, but hardly likely because of the importance of the case.

In case the Supreme court decides in favor of the city, sustaining the decisions rendered by the lower United States courts in Grand Rapids, the gas company will be prevented from continuing its suit against the city in a United States court. The United States court in Grand Rapids has held that the case does not come under the jurisdiction of the United States court but that it belongs in a state court. To this the gas company demurred and the Grand Rapids court did not sustain the demurrer. The company then appealed to the Supreme Court, entering its demurrer to the decision of Judge Sessions that the United States courts have no jurisdiction over the case. If the supreme court sustains Judge Sessions' decision, that will be the end of the case as far as the United States courts are concerned. If however the Supreme court does not sustain Judge Sessions' decision the city will have to appear in the United States court in Grand Rapids to answer the bill of the gas company.

If the Supreme Court decides in favor of the city the gas company can still continue the case by transferring it to the circuit court in Grand Haven. The decision of the Supreme Court will not be on the merits of the controversy between the city and the gas company, but it will merely establish whether the case rightfully should be tried in a United States court or in a state court.

So far the city has won every point in the courts and the decision of the highest court in the land will be awaited with a great deal of interest.

WHETHER OR NOT LOCAL LIQUOR MEASURE WILL HOLD WATER TO BE DETERMINED

Four men were arrested Monday by the police officers for drinking in public places, most of them behind a certain bill board on River street. The men are Frank Hathway, O. Deto, Frank Chrispell and George Kramer.

These men are charged with violating the new liquor ordinance that went into effect recently. The police department has been active in seeing to it that the provisions of the new ordinance are enforced. There is a warrant out for one other man.

It is declared that the liquor ordinance will be tried out in the near future as to its legality. It is said that at least one or two of those who have been taken because of alleged violation of this ordinance will make a fight for it and will settle whether the ordinance will hold water or not.

Until this question has been settled the new ordinance will continue to be enforced by the police department.

WOMAN'S LITERARY CLUB'S HOME TO BE A BEAUTIFUL ONE.

A sketch of the building of the Woman's Literary club to be erected this summer on the corner of Tenth street and Central avenue is being shown in the window of A. Steketee's store. Judging from this sketch this new \$8,000 building will be a credit to the city and will be one of the buildings which will be pointed with pride to visitors. It is possible that the new club house may be completed before October seventh, when the first meeting of the club will be held.

The Woman's Literary club has issued its year book for the coming year. The study topic for the year will be "United States history, Art, and Literature." The same topic was handled last year when it was brought up to the Civil War times. The coming year the period from the Civil War to the present will be covered.

CITY OF GRAND RAPIDS IS PUT ON REGULAR RUN BETWEEN HOLLAND AND CHICAGO

For the first time this year the G. & M. steamer City of Grand Rapids made the run from Chicago to Holland Monday. From now on this boat will be on the run between these two cities in addition to the Puritan which has been in operation for some time.

The steamers placed on this run have been changed from time to time as the traffic increased. At first the City of Traverse made the run and later the City of Benton Harbor was brought into service. The Puritan was the next of the G. & M. fleet to make this port and for the past few weeks the City of Holland and the Puritan have made the run. From now on throughout the resort season boats will arrive and leave here twice daily for Chicago.

Has Hudsonville Found the Same

The Answer is Found in the Straight Forward Statement of a Hudsonville Resident.

We have been reading week after week in the local press of Holland citizens who have been rid of distressing kidney and bladder troubles by Doan's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well-known respected resident of Hudsonville will set this doubt at rest.

Mrs. J. R. Stoddard, Hudsonville, Michigan, says: "I had been doctoring with a physician for gall stones and acute attacks of Bright's disease. After a course of his treatment, I was advised to try Doan's Kidney Pills. I had backache and trouble with the kidney secretions. I found such good results from the first box I got another. Now, the trouble has been greatly relieved."

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills—the same that Mrs. Stoddard had. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

GIVE SUPPER AT CASTLE AND ENJOY BOAT RIDE.

The Sorosis society of Hope College Friday gave their annual entertainment. The young ladies chartered the D. P. Perry and at 4 o'clock the care-free company, numbering about sixty, left the boat dock for the lake. At Macatawa a stop was made. The young ladies and the young men then took their way to the Castle. Some took the Indian trail and arrived there eventually, the others went along the beach. While on the way it started to rain and quite a number got more or less wet. But this did not dampen the spirits of the company but only served to whet the appetite for the supper awaiting them at the Castle. As one of the boys expressed it, "It touched the spot." A hot four course supper which would have pleased the palate of a king soon made the revelers forget that they were cold and it was a feast royal in every sense of the word.

After supper most of the company returned to the boat and enjoyed a ride on the big lake. Those who were so unfortunate as to miss the boat ride contented themselves with a walk along the beach. The Sorosis and their friends returned to the city late in the evening testifying to one of the most enjoyable affairs in the history of the society.

HIENZ PICKLE CO PLANT TO HAVE NEW FIXTURES Are Electing a New Building for the Furnace Rooms Which Will Have All New Fixtures

Three 250 horse power boilers are being installed in a separate building on the West side of the Vinegar department of the Hienz Pickle Company plant in this city. Formerly five one-horse power boilers were used but these are not satisfactory as they did not give steam enough. They were also on the wrong side of the building for the work being done now and would have to be moved, so the larger boilers will be installed in their place.

The new building which will be used exclusively for the furnace room will be large and roomy and built entirely of cement blocks so as to match the other buildings. Work has been delayed on the building on account of lack of material and it is not definitely known what time everything will be in readiness for use but it will be soon.

The new boilers are of B. and W. make and will combined produce a horse power of 750 which it is supposed will supply the entire pickle plant with steam very nicely. The most steam is needed in the department where vinegar is made and that is why the position of the boilers were changed.

The Rev. and Mrs. Andrew Stegenga of Rochester, New York, are visiting at the home of Mrs. Stegenga's parents, Mr. and Mrs. E. H. Beekman. Miss Muriel Wright accompanied them from Jackson. She will visit her grandparents, Mr. and Mrs. Harry Beekman.

Reports from Standing Committees

The Committee on Streets and Crosswalks reported as follows: Where 'as, the Honorable the Mayor of the City of Holland has filed his veto against the purchase of a tandem roller, for use in street paving; and

Whereas, we are fully convinced that the best work cannot be done with the present equipment, and in view of the experience we have had with the work put down last year, it would be poor judgement, and bad business policy to again attempt the same with the equipment used last year; and also being convinced that it will be practically impossible to rent a tandem roller at the time of the year when it would be needed here on the work, therefore,

Resolved, That the city clerk and hereby is directed to advertise for sealed bids for the paving of the two blocks on east and west Twelfth street, in accordance with the plans and specifications as prepared by the city engineer, such bids to be filed with the city clerk before 4 P. M. June 18, 1913, and the right reserved unto the city to reject any and all bids. Each bid to be accompanied by a certified check in the sum of 5 per cent of the amount of the bid, which is to guarantee the execution and performance of the contract in accordance with the bid. JUNE TEMPERATURE LOWEST ON RECORD

A weather bureau record for cold weather was broken Tuesday, according to the data compiled by Observer Eshleman of the Grand Haven office of the U. S. Weather bureau. The lowest temperature recorded Tuesday morning was 36 degrees the lowest mark for June to be found in the records of the local office covering a period of forty-two years. The lowest on record for June previous to Tuesday morning was 37 degrees on June 1, 1897. That of course was much earlier in the month, and therefore, not as unusual, and Tuesday's low mark was a record breaker.

The low temperature yesterday was 39 degrees which is pretty chilly for June 9. There has been a heavy frost both mornings, and it is feared that considerable damage has been done to produce throughout this region, especially in the low places. Several persons reported that ice had formed in several places where it was protected.

The drop in temperature of thirty degrees from Friday afternoon to Saturday morning was a distinct weather warning treated to two different styles of climate. Friday afternoon the weather was uncomfortably warm, and Saturday overcoats were not uncomfortable.

BEAR IS EVERY WHERE

The wandering black bear, which has been stirring the county to no little excitement by its sudden appearance at unexpected moments and places for the last week or two, is reported to have been seen in the woods on the Strahsburg place in Grand Haven township, yesterday morning. Richard Wilbert, who lives in the neighborhood is said to have seen the bear at about 9:45. The animal was then in the woods, near the road. The bear did not attack him but hustled back into the woods as though in fear.

No other reports of the bear have been received from the neighborhood today, although it was reported that young men in the neighborhood would organize a hunting party, and start out in search of the wandering bear. No report of the discovery of the bear was sent in to the sheriff's office and the officers had heard nothing of it.

If anyone should ask how many legs a chicken has the most casual observer would surely claim they have but two. This however is not always the case according to report from the South Side of the city. Arthur Rousseau claims to have the distinction of having a chicken with four legs. The chick was born last Friday and although it was thought it would not live long hampered by so many legs, it is still alive and from all appearances is in perfectly good health.

ATTORNEYS REQUEST IS DENIED AND HE THREATENS TO REPLEVIN IT.

A somewhat interesting situation was aroused in superior court of Grand Rapids yesterday when Attorney Edward N. Barnard who defended William R. Weber, recently, made a demand upon Clerk Alex Krakowski for the two coats Weber had bought for his children on the day Mrs. Weber was shot and also for the gun with which she was shot all of which were exhibits in the case.

Mr. Krakowski promptly refused to surrender the gun. Barnard informed him the prosecuting attorney had no objection and Krakowski as promptly declared the gun was an exhibit in the case and he didn't care anything about what the prosecutor said, that gun was not going out of his possession without an order from the court.

Barnard then announced he would begin proceedings to recover the gun and Krakowski told him to go to it and get it that way if he desired. Just why Weber wants the gun with which his wife was shot is the question that is interesting Krakowski just now.

A Tongue Twisting Name.

The mapmakers have agreed to call the big pond that lies in the town of Webster, where the boundaries of Rhode Island, Connecticut and Massachusetts join, by the last six syllables of what some insist is its full name. This saves space on the maps and provides a reasonable mouthful for the stranger to Webster's distinguishing natural wonder. There is, of course, no sort of authority for the popular corruption, "Lake Chawyermother's gingerbread." The name complete, according to one authority, contains forty-four letters, of which fourteen are g's. "For short" it has seventeen letters, with only three g's, which would hardly have made the town of Webster and its lake famed far and wide. The ascertainment of the full name is a perennial inquiry. The unwary investigator is apt to be baffled because he will suppose that the amputated portion followed that which the maps retain instead of having preceded it—Char-gogg-a-gogg-man-chau-g-a-gogg-chau-un-a-gung-a-maug—though it is not good form to separate the syllables by hyphens.—Providence Journal.

The First Hats.

Hats, we are told, did not become a well established custom until some 500 years ago. In the year 1449, when Charles II. entered Rouen after its recapture by the French from the English, the people there had never before set eyes on a hat. Their amazement, therefore, can be pictured as they gazed upon their king riding past them in pomp and on his head a gorgeous hat lined with varicolored silk and gayly bedecked with huge plumes. Of course every one followed his example. Hats began to make their appearance in shop windows, and women and men alike labored over the constructing of elaborate headpieces, each one attempting to surpass his neighbor if possible. But they were expensive, and it was a long time before they could be worn except by the prosperous classes. In the course of time, however, they became a more commonplace thing, and people of all classes were able to afford them.—Chicago Tribune.

Three Months Without Sun.

In the valley of the Lyn, in England, there is a quaint little hamlet called Middleham, where for three months in the year the sun is not seen. The cluster of houses forming the hamlet is surrounded on all sides by hills so steep and high that from November until February the sun does not rise high enough to be seen over their tops. The first appearance of the sun is eagerly looked for, and as it is first seen on Feb. 14 the inhabitants call it their valentine. If the day should be foggy or cloudy, so that it cannot be seen, there is great disappointment. For the first few days after the 14th the sun is only seen for a very short time, but as the sun rises higher in the heavens the time it is in sight increases daily until its height is reached, when it gradually begins to fade from view again until in November it entirely vanishes from sight for another three months.

Japanese Mirrors.

It is only during a comparatively short time that the Japanese have known glass as occidentals know it. When the first railroads were built passengers in the coaches often put their heads through the glass, supposing the frames of the windows to be empty, and the railroad company at length pasted pictures on the glass to call attention to the fact that a solid substance was behind them. The masses of the Japanese today do not know the mirror as it is known in the west. The richer people have one mirror, indeed, but usually the glass used in the mirror, sold to the populace is not quicksilvered, being merely well polished. As for cut glass, it is practically unknown in the island, and glass drinking cups are rare.—Harper's Weekly.

His Criterion.

A New York society woman of artistic tendencies said of an argument on art:

"We must not look at art too narrowly. We must not be like the famous London wigmaker. This wig maker attended a very wonderful first night of Tree's. Tree said to him after the performance:

"Glad you liked it, my boy. It's a fine play, isn't it?"

"It's magnificent," the other answered. "I couldn't detect a join between a wig and a forehead anywhere."—Exchange.

Art Collector's Economy.

A good story is told of the great virtuoso and generous, George Salting, says Mr. Thomas Seccombe in the New Witness. The collector hated spending money on anything save works of art. A friend met him once in a hat of unusual luster and remarked upon it. "Yes," said the millionaire; "my brother's widow found it among his things and thought it might fit me."
