BAJSDA

Sunday forenoon in Hope church, Prof.

Milton J. Hoffman delivered the baccalaureate sermon to the graduating

class of the high school. He advised the students to pattern their lives after

the great pattern of Christ, taking his illustration from the building of the tabernacle by the Israelites. That

tabernacle was built after the pattern delivered to Moses on Mount Sinai, and similarly the speaker advised the

students to pattern their lives after the great plan of God. And as the tabernacle had an outer court, and inner

court and a holy of holies, so, the speaker declared, man has a body, mind and soul. He gave much advice in regard to the proper and symmetrical development of each.

### WYOMING MEN ASK ROAD BUILDERS TO SHOW THEM

Wants to Know Why Road to Holland Is Better Than Theirs

Residents of Wyoming township along the road from Grand Rapids to Jenison are wondering why the highway is not so good as the same road from Jenison to Holland, which is too good with which to find fault. They propose a campaign to undertake to get some satisfaction from the county road commissioners on the subject. They point to the fact that the road in question is a main traveled road, and one that ought to be in good condition.

### She is ninety Years Old

It is not often that local people have the opportunity to see a sight such as met the view of some Friday morning. Seated on the steps leading to the second floor of the building occupied by the Interurban company sat a very old woman lustily and cheerfully smoking a pipe. The little scene attracted considerable attention from passersby, but the woman paid little attention to them. She continued to smoke her pipe in complete unconcern.

### ANOTHER LETTER SENT TO THE NEWS FROM THE BATTLE-FIELDS IN EUROPE.

### Canadian Does Not Like Wilson's Policy

The following letter was received by the editor of the News from the Battle-field in France. Mr. Dabin, who writes this letter is a Canadian newspaper man, well known to the News. Apparently he does not agree with Wilson's policy. However a good many reasons may be responsible for this. Being a Canadian he could not feel toward the president as an American would, and on the battlefield where all news comes through a censorship and very little of it at that, Mr. Dabin could not possibly be acquainted with all the facts and therefore would not be able to pass an intelligent judgment as to the advisability and the correctness of the policy of the President, of this country. The News thinks President Wilson is handling the European situation admirably and in a way which no American citizens, even William Jennings Bryan, need be ashamed.

Nevertheless we print below an interesting war story and the Canadian newspaperman's viewpoints in a letter sent to the News:

New Part of France, May 24.

Dear Ben:-

A letter I wrote you was held until U. S. A. veered one way or the other on the question of the Lusitania. It was lost in a billet through unexpected orders to "Fall in." It was not until we came out of the trenches that I heard, or we heard. We were plugging through a lane when we passed a solitary Scot.

D.—Have you seen the newspapers lately?

S.S.—Aye.

D.—Are we going to use gas?

S. S.—(Long answer).

D.—What did the U. S. do about the Lusitania?

S. S.—I did na see onythin.

Well, I got at it eventually, and was mightily surprised. First let me say that any nation is wise and thoughtful for her individual citizens to keep out of this war, but it is a different thing for the State. Uncle Sam may want help from John Bull some day, and if it is not forthcoming, little Woody and his bible sharks are to blame. In your last, written before the Lus. sailed you said strict neutrality would be best

## SUES DEAD MAN FOR WAGES

SUICIDE'S ESTATE IS SUED FOR LIFE'S WAGES

Louis Schaflee of Grand Haven Brings Suit Against Estate of John Huber for \$1010 Said to Be for Lifetime Wages

### APPEAL FROM COMMISSIONERS

An appeal from the report of commissioners on claims of Jacob Glerum and Louis H. Osterhaus in the matter of the estate of John Huber, who came to his death by suicide this spring in the beginning of suit in Ottawa Circuit court by Louis Schaflee for the collection of \$1010. The commissioners allowed a few claims but refused to allow Schaflee's amount which he alleged was for labor during his lifetime until the date of Huber's death.

Huber committed suicide at his home in Peach Plains by shooting himself through the temple with a 32-calibre revolver. He has left a note, the writing of which was unwitnessed, disposing of his property. The note was not held good in the probate court.

Schaflee is a young man and says he had worked for Huber many years before 21 years of age. He has presented a lengthy account of the dates from time to time during his said labors.

### ARTHUR VAN DUREN BUYS PERCY MAYHEW PLANT FOR \$500

In the matter of P. G. Mayhey Co., Holland, now in bankruptcy, a hearing on offer for sale of the assets for \$500 was this day held and no cause to the contrary being shown the trustee was authorized to sell all the assets, subject to any and all liens and encumbrances to Arthur Van Duren, of Holland, for \$500.

for the States. It was true then, but not now.

I don't believe Wilson's action is the vox populi, at all. Where then is your Democracy—Representative Govt., etc.

From the way I have seen policies advanced, changed, and in the case of the liquor proposals, dropped in Monarchy, England, I can advise all Americans to think twice before denying that country to be ruled by the people.

As said, I don't think the people are being represented at all so I just allude to one scream of the Eagle. It is a well known picture, showing an American Tar indignant pointing to a torn Old Glory and demanding "Who Did That?" An innocent unsophisticated puppy, who did it, is hidden behind a box or something. There are other screams which make burn the ears of your countrymen, who intended them to be lived up to.

The clippings you sent were interesting, and the letter I had written, was a description of the big battle. I will write it later, as a Censor has to read these letters, and I can't run on forever. I will just say Canadians are known, and respected all along the line, especially the British line. The Herald was careful to say the "gas is alleged." I wish I'd had him (the editor) by me on two occasions.

First. When the French Zouaves made their first retirement. I met them more than an hour after they had got a small dose. They were gasping, coughing, and mad for water to drink, just able to stagger along, some of them clutching at their throats, with their coats and shirts torn open.

Second. I popped up from my shelter to look at the country. A green, yellow fog on a 200-yd. front, 50 to 70 feet high and 20 to 30 feet deep, was rolling over the ground to my right. My stomach never turned so cold, nor fell so far, before, until a breath of wind, brought me too. What breeze there was prevented the Germans using the stuff on little me.

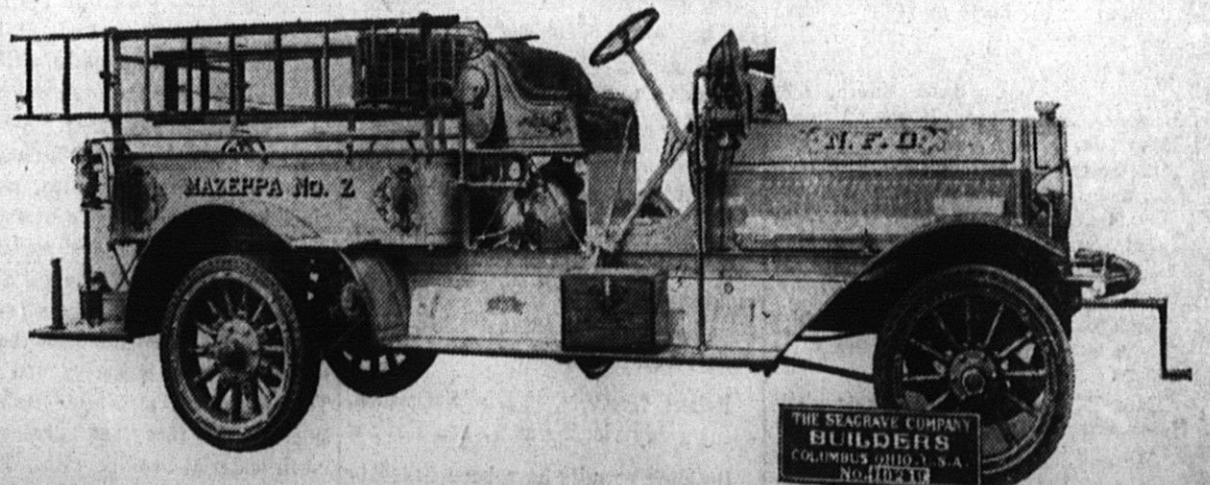

On that occasion the French were ready with respirators, and when the laboratory sumps came on they were slaughtered. British soldiers feel pretty grim about this gas and more than one regiment will get the reputation of a famous Irish one. It is conceded by the English soldiers that when they hear the Irish—a are coming on they—the Germans—make sure of a road to the rear.

Will continue.

Yours as always,

Dabin.

## Holland's Contemplated Fire Truck

Above is the type of combination motor car that Holland is contemplating for its fire department. The committee appointed by the Mayor and the Police Board, who went to Columbus, Ohio, to look into the mechanism of a Fire Truck, were certainly given a thorough demonstration as to what a fire truck can do and what it should be made of, and the most skeptical of the committee are no longer so. The committee was shown every stage of operation necessary to build fire apparatus, from the casting of the raw iron and steel, to the boring and cutting of the

gears from the hardest of metal. They were shown how the wheels were put together, how one spoke interlocked the other in such a manner that the car would stand the most severe usage. The wood used in these cars must dry five years before the Seagrave Co., who make fire apparatus exclusively, will put it in a fire truck. And go! The committee said that even the editor of this paper turned pale, so that's going some.

In trying out the truck the committee was taken in the country over good, bad and indifferent roads. . . . .

The truck rode over the high hills, down deep valleys, through sand, clay, and mud, in several instances reaching to the hubs of the machine, and although the machine is supposed to carry a load of 1500 pounds of hose, the demonstrating machine was loaded down with 4000 pounds of stone besides a committee of five, a driver, and a representative of the Seagrave Co. The committee who were in Columbus were Aldermen Vander Ven, Brower, Brieve, Commissioner Mulder and Chief Blom.

### EAST SAUGATUCK

East Saugatuck has a bunch of enterprising farmers and a wide awake highway commissioner in the person of Henry Prins.

About a mile and a fourth beyond the stone road south of Holland, the farmers in that vicinity have gotten together and are digging away a large sand hill and are practically grading and graveling the road, which is usually had in that vicinity. When this road is completed there will practically be a good road from E. Saugatuck into Holland. The farmers are doing this work without pay and Mr. Prins has been heading the movement. If all localities would show such enterprise, Michigan would be the best Good Roads state instead of the poorest Good Roads state in the Union.

The editor of this paper had occasion to travel nearly a thousand miles through the states of Ohio, Indiana and very noticeable that wherever the train passed the country roads, he did not see one which was not a well laid stone or gravel road; deep sand and poor roads are an unknown quantity in those states.

The last Monday morning chapel exercises were held in the Zeeland High school assembly room Monday morning. Superintendent Washburn first spent a few minutes reading Gov. Ferris' Flag Day Proclamation. Then he spoke of the several creditable things done by the High school. The first of these he said was the fact that the high school had been placed on the University of Michigan's accredited list for two years. Then he spoke of the very splendid showing the high school made in oratory, the past year. After having a good local contest, Zeeland's representative, Miss Van Loo, won first place in the sub-district contest at Holland. Miss Van Loo also made a very creditable showing in the District contest at South Haven. The superintendent also mentioned the basketball team—Zeeland won 8 games and lost 7.

This is a very creditable record considering the fact that there was not much material to work with. The high school baseball league, in which the Seniors won first place, was a great help to all the boys in school. Last of all, Mr. Washburn talked about the splendid cantata, "Barbara Fritsche," which was given several months ago.

Besides self-government, there will be several other changes next year. One of these is the giving of programs weekly in the assembly room by the different classes instead of by the two societies.

A Zeeland High school Field meet was held Tuesday afternoon. The Juniors, Sophomores, and Freshman took part. The Seniors failed to appear at the appointed time, so the contest was between the three other classes. The contest resulted in a tie, the Sophomores and Freshmen each receiving 25 points. The meet which was held in the school yard was witnessed by many spectators. Van Lopik of the Freshman, proved to be a real star, getting all the points for his class. VanLopik received 5 first places. Roosenraad for the Juniors received first place in the high jump. The Juniors got 18 points in all.

The score of various classes was as follows:—

Event	Juniors	Sophs	Fresh

100 yd. dash	1	3	5
High Jump	5	4	0
220 yd. dash	3	1	5

Broad jump	3	1	5
Relay race	0	5	0

Zeeland's first Flag Day, which was observed Saturday was a great success and after the expenses were paid, there still remained \$57. The committee, of which Mrs. B. Hoffman is chairman, is well pleased with the result of the day's work. This money will be for the benefit of the poor children in care of the Michigan Welfare League. Several children sold flags for the committee and each child who sold a certain number of flags was presented with a beautiful pennant of Michigan. Probably the biggest string of perch ever caught in the breakwater at the entrance to Holland harbor is credited to H. L. Hall, Guy Cross and Frank Kennedy, all of Olean, N. Y., and Simon A. Verwey, a Holland city mail carrier. The catch exceeded 400, and it was only part of a day's work.

### HUNDREDS OF PEOPLE LISTEN TO STREET CARNIVAL BAND LAST EVENING.

These Italians Certainly Give Fine MUSIC

That band concerts on summer evenings would be popular in Holland was shown Tuesday night when the Carnival band gave a concert in Eighth street in front of the Elks' lodge about eight o'clock. Hundreds of people passing along the street gathered around the band or stood on the walk or in the doorways of stores not too far away, and listened to the music. But few automobiles passed while the music was going on. But every machine that came along stopped and the occupants listened to the band. Automobiles lined the curbing for nearly a block.

The carnival band is a good one and is well worth listening to. They will give a concert in Eighth street every afternoon and evening, while the Great American shows are in the city—if the weather permits.

## HENRY FRIS GIVES VIEWS OF THE PEOPLE LIVING IN THE BORDER CITIES OF MEXICO

Believes Obregon Will Win Presidency; Border Towns Hope for U. S. Protectorate

That Obregon, the man whose arm was shot recently, will some day be president of Mexico, is the opinion of Henry Fris, of El Paso, Texas, who is this week visiting his relatives in this city. Mr. Fris has had rather unusual opportunities to study the Mexican situation. Not only is his home in a border city where the people come in rather intimate contact with the numerous Mexican conflicts, but he has in the past traveled extensively in Mexico and he has formed personal acquaintanceship with many of the well known Mexican leaders. For instance, he knows Gen. Villa, personally, and is also personally acquainted with Obregon.

Mr. Fris declares that in his opinion Obregon is best capable of all the revolutionist leaders to handle the difficult situation in that republic. He thinks that the upshot of the note of President Wilson will be that Carranza will become provisional president for the time being, and that when a constitutional election is held it will be Obregon who will be the choice of the people of Mexico.

"Obregon is a polished gentleman," said Mr. Fris. "He is far ahead of most of the other leaders in education and refinement. He is a representative of a higher class Mexican and he is just now making great headway. And not only is he a polished gentleman, but he is a practical fighter as well. That was shown the other day when he had his arm shot off."

Mr. Fris has a poor opinion of Villa. He looks upon that general as no more than an ignorant bandit who is fast losing his hold on the people.

But even tho the present revolution should be put down and peace restored, Mr. Fris declares that the people along the border do not believe that it will last. They all look for another revolution to start up almost immediately again. And that they think that permanent peace will not come to Mexico until the United States shall assume a kind of protectorate over the southern republic.

## Association Is Granted Request From Road Commissioners for Strips of Sample Concrete Road in the County and Along Highway

The Ottawa county road commission has received a proposition from the Grand Highway association for the construction of several strips of "object lesson" concrete road all along the proposed route of the highway. The matter was acted upon and the request of the association granted in the meeting of Monday.

In each section it is planned that a strip of 100 lineal feet of concrete road be constructed with a width of 8 or 9 feet. This patch of road is to be built immediately or before the bulk of concrete highway is completed. The purpose of the new idea is to demonstrate the value of concrete roads all along the route and thereby be an incentive toward the speedy completion of a concrete drive from Grand Haven to Grand Rapids.

The expense of the proposed work is to be defrayed by the Highway association according to the letter received by the commissioners.

## ZANT ROSEMA LIES UNCONSCIOUS ALL NIGHT NEAR SALEM CENTER AFTER AUTO ACCIDENT

Lying under his car unconscious, with his left arm broken near the elbow and his left leg badly bruised, Zant Rosema was found Tuesday by early passers-by on the county line road near Salem Center.

When taken to his home and restored to consciousness, he said that he left Grand Rapids Monday evening about 8 o'clock on his way to his home in Allegan county. He said that the rain rather obscured his vision through the windshield making it difficult to follow the road, which is rather rough near the point where the accident occurred.

He remembers nothing concerning the accident that caused his car to turn turtle and was much surprised when informed of the condition in which he was found. Aside from a broken windshield, smashed top and twisted fenders the car was uninjured and was quite easily taken to Rosema's home.

## HERE'S A CHANCE FOR SOME BRAVE GIRL

Man to Get \$18,000 If He Marries Before First of September; Says He Will Not

HAS PROPERTY IN HOLLAND D. A. Lane, well-known former Grand Haven resident and merchant, sends the Tribune the following clipping from the Los Angeles Tribune of June 6, which is of local interest:

"LONG BEACH, June 5.—If Arthur Vissers of this city marries by September 1, he will receive a legacy of \$18,000. If he does not he will get nothing."

Such is the stipulation of the will left by Mr. Vissers's grandfather, who recently died in Holland, Mich.

Mr. Vissers wants that money. He does not want a wife. He has been married before, his wife dying a year ago of hydrophobia. "I was happy," he says, "and if my attorneys can break that clause, I will certainly not seek another union."

Mr. Vissers is 32 years old. He is in the auto repair business here. His life has been a varied one, for he was with the U. S. marine for four years, fought with Admiral Dewey in the Philippines and was wounded during the Boxer troubles in China.

"The \$18,000 is composed of \$10,000 in cash, 160 acres in King county, Mich., and a residence in Holland, Mich."

"The girl must be a Christian," the will reads. Mr. Vissers doesn't want her, he she Christian, Hindoo or Voodoo. So it's up to the lawyers.—G. H. Tribune.

## H. J. HEINZ CO. WILL DEVELOP COUNTRY

The H. J. Heinz Co., in establishing a receiving station in Saugatuck is doing more for the community than our people at first thought if the energy and expense they are putting into the project are any indications.

As before stated in the Saugatuck Commercial-Record, they tried to contract 200 acres and if they had a salting station would have been established but at they got only about half that amount, this expense was not warranted, and growers will get only 95c a bushel for their crop while otherwise they would have gotten \$1.00.

One thing that the company is doing that is greatly appreciated by the grower is to hire an experienced man to visit each grower a number of times during the season and show him how to raise cucumbers to the best advantage. Claude Hiser, a graduate of the Agriculture College, of Ohio, has been secured for this district. Mr. Hiser is a pleasant man to meet any one to talk with him will become interested in pickles even if they never ate one. He tells us that it is a common thing for growers to make from \$100 to \$200 an acre on this crop and the one great advantage is that there is so large a percentage of water in the cucumber that it takes but very little of the fertility from the soil.—Saugatuck Commercial.

## MAN RECEIVES BROKEN LEG WHEN "BOSSY" OBJECTS TO ANTICS OF HORSE-FLY WHILE BEING MILKED

GRAND HAVEN, June 17.—A noisy horsefly buzzed around "bossy's" head. She objected to the bites of the visitor and in the excitement of the situation stepped back a few paces. The man milking could not get out of the way and now has a broken leg because the cow stepped on him in her dash for liberty.

Jacob DePender of Peach Plains was the victim. Saturday night he was doing the evening chores at the Peach Plains home and had just begun milking the favorite cow. A large horsefly flew into the barn and after a few circles over the cow's head, proceeded to inflict the much-feared punishment. The cow tried to free herself and in the exit impaled the right ankle of DePender. He was able to get to the house and called Dr. Vander Veen, who attended the injury.

## SPRING LAKE BEGS CEMENT FROM CEMENT CO. WITH WHICH TO BUILD GOOD ROAD

Thirty Firms Written To—Some Respond

Spring Lake men have a novel plan for getting an "object lesson" carried out in connection with building good roads. That is, to have 30 cement companies each contribute the cement sufficient to build 100 feet in every mile of the Grand Highway. Thirty companies have been formally requested to make such contributions and yesterday Mr. Connelly, county commissioner, received assurance from one of them that they will make the donation. He expects today's mail will contain assurances from the other 29 companies. The work of building the first half mile of the highway was completed a year ago, one mile will be completed this year, and that the entire 30 miles will be completed within the next three years the officers of the association firmly believe. The road is of cement and nine feet wide.

### WHAT YOU SAW IN THIS PAPER THIRTY-FIVE YEARS AGO

Just after we went to press on Friday evening last, we learned of the accident to a 3-year-old child of Mr. J. H. Stegenga, of North Holland, formerly of Roseland, Ill. The child fell into a tub of boiling water, on Thursday and after suffering untold agonies, died the following day.

The weather is very changeable. A few days ago Mr. I. Fairbanks received one of those portable steam engines adapted for thrashing, etc. Go see it at his office on River street. How would it do to use one of these machines in connection with our fire apparatus. The machines are compact and strong.

Rev. Charles Scott, vice-president of Hope college has arrived home from his trip to the Carolinas.

Married:—At the residence of the bride's parents in New Groningen on Tuesday, June 2, 1886, by Rev. J. Kremer, Mr. John De Jong to Miss Gertrude Jekel.

Prof. G. P. Hummer who has so efficiently conducted our public schools for three years past has been engaged for another year by the Board of Education.

Prof. Shepard will give a concert with some of the pupils of the public schools in the Lyceum hall on next Friday night, the proceeds to go to the school library. Admission 25 cents. Reserved seats can be secured at O. Breyman's without extra charge.

News has reached us just as we go to press that Rev. Daniel Van Pelt has been appointed by General Synod, Professor in the Theological Seminary at Hope college. The appointment is a good one and will give general satisfaction in the West as well as in the East.

The farmers of this vicinity are now afforded an excellent opportunity of improving their stock. Mr. Jas S. Purdy has made a few trips to Kentucky and has secured some very fine short-horn Durhams. He has sold several to the farmers in the neighborhood and has a few still on hand which are full-blooded registered cattle. He will show them to all who desire to see them, and as he asks but a moderate price for the cattle he should meet with no difficulty in disposing of them.

### PUPILS ARE CLEVER ACTORS AND PROGRAM PASSES OFF WITH OUT A HITCH

The auditorium of the Holland High school was crowded Tuesday night when the 8-2 grade exercises were held.

About thirty pupils took part in the exercises which were carried out with out a serious mistake or interruption. The pupils taking part in the exercises handled their parts well, and the audience was well pleased. One feature that the audience missed last night was the giving out of diplomas to the pupils who will pass into the High school next year. This custom has been abolished and the diplomas will not be given out until Friday when the school closes. "The Family Album," a sketch by the pupils, was cleverly acted out and it made a good impression on the audience. The pupils taking part in this were in costume.

The following was the program given: Chorus, 8-2 class; address by the class president, Harold Hunt; Girls' Glee club; duet, Viola Stirton and Rudolph Brink; Quartet, Barnie Ras, Willard Kellogg, Harold Ensing and Theodore Cook; A Soldier of the Empire, reading by Judson Staplecamp; Boys' Glee club. The following pupils took part in the Family Album: Maxine Mc Bride, Ruth Gardie, Alice Klooster, Gerrit Weersing, Florence Schafer, Marvin Geegh, Rena Bazaan, Florence Branderhorst, Ruth Van Lente, Elmer Collins, Helena Viissers, Edward Wolfert, Beatrice Lackie, Bertha Waldring, Jennie Bazaan and Wm. Van Anrooy.

A picture of Henry Clay was presented to the history class having the highest average by the D. A. R.

### HIGH SCHOOL

A debate on the question, "Resolved, That it would be for the best if the class of low foreign laborers would leave the United States," in the Junior high school Tuesday was won by the affirmative. The affirmative was upheld by Randal Fell, Thelma Welton and Ray Whelan and the negative was taken by Walter Steketee, David Boyd and Dwight Yntema.

The two statues, "The Winged Victory" and "The Discus Thrower," purchased by the Senior class to be left in the High school, as memorials, arrived Tuesday and will be placed in the hall near the auditorium.

Yesterday was the last day of actual school work in the High school. There will be no school work today or tomorrow. The students will merely go to school to receive their grades. Friday will be the last day of school for all the grades.

The Camp Fire Girls of the High school are making plans for a two-weeks' camping trip at Buchanan Beach commencing next week Tuesday.

A. J. Esselstyn, who has been an instructor at the High school during the last term, returned to Alma for Graduation. Mr. Esselstyn was graduated from Alma Thursday night and he received the honor of having cum laudo, meaning high praise written on the certificate. He finished his work at Alma the first semester of this year. Alma the first semester of this year. He has been engaged to teach in the Holland High school again next year.

The public entertainment and program of the 8-2 class of the Junior High school was held Tuesday evening at 7:30 o'clock in the High school auditorium. As graduation exercises were not held this time the entertainment was arranged to take their place. About thirty pupils took part in the exercises. A feature of the entertainment was a play entitled The Family Album.

The following was the program for the evening:

Chorus, 8-II class; address by Class President, Harold Hunt; Girls' Glee club, Jr. High Girls; Sunset, duet, Viola Stirton, Rudolph Brink; Quartet, Barnie Ras, Willard Kellogg, Harold Ensing, Theodore Cook; A Soldier of the Empire (Thos. ### NO GRADUATION EXERCISES FOR EIGHTH GRADERS; NEW SYS- TEM IS ADOPTED FOR FIRST TIME IN LOCAL SCHOOLS THIS YEAR

Democratic Movement Will Be Welcomed In Many Holland Homes

For the first time in many years there will be no Eighth grade graduation exercises in Holland this year, and in the future there will be no graduation exercises or big doings when a student completes the work of the Eighth grade and is ready to enter the High school. The time is past when boys, wearing their first suit of long trousers, and girls with their new dresses and white slippers will stand before a large audience surrounded by flowers and flooded with oratory, and receive their Eighth grade diplomas.

That the completion of the work of the Eighth grade is but a step upward in school work and not a final achievement, was the opinion expressed by Superintendent of the Schools, E. E. Fell when interviewed on the subject Thursday night. Mr. Fell stated that in the past too much has been made of Eighth grade graduation. Mothers at the washtubs and fathers working for small wages spend upward of \$25 to dress their children up and prepare them for the graduation exercises so they will keep up with others. Some boys who cannot afford good suits in some cases skip the exercises and would even rather go without their diplomas than go on the platform with an old suit. These elaborate exercises after the child has completed the eighth grade makes the pupil think they have done something, and many feel as if they have completed their school work for life and are thru the fuss and preparation of the 8th grade graduating exercises in the past have been artificial, as the student really is not finishing his school work, while it often gives a vivid impression of reality to the student and makes him think that he has completed school.

Abolishing the Eighth grade graduating exercises will make a closer union between the Eighth grade and the High school, and the students of the lower grades will begin to look forward to graduation from the high school and entrance into College instead of graduation from the Eighth grade with possible entrance into High school. With no fuss being made over a student's graduation from the eighth grade the student will look forward to the time when he can graduate from the High school.

In the future as much as possible the student will be made to think that graduation from the Eighth grade is only the beginning of school work and not the end.

This year's diplomas will be given out to the graduates of the Eighth grade tomorrow in the very same manner they are given to the pupils of the other grades. The 8th grade diploma is about four times as large as the diplomas given to the pupils in the lower grades.

### SET OF LARGE BLOCKS FOR KIN- DERGARTEN WORK FOR THE BUILDING OF PLAY HOUSES TO BE PUT IN EACH SCHOOL

Probably one of the most welcome and surely one of the best steps forward in Kindergarten work in the local schools in some time will be introduced by Superintendent E. E. Fell for next year. In the past the pupils of the Kindergarten have been given little blocks to build tiny play houses, miniature bridges and various other things. Next year each kindergarten class in the public school will be provided with a set of building blocks large enough to build play houses that they can actually use and bridges that they can walk across themselves. The blocks are on the same order as the smaller blocks but are large. A set of these blocks will be put in each school. There are over 500 blocks in each set.

The blocks are being made by Miss Elsa Habermann's Manuel training classes. One set of blocks has already been made.

The Manuel Training classes have made themselves useful in many ways. Articles of furniture built by the class are set around in many part of the high school building. One of the big jobs was the making of tables and counters for the lunch room.

The committees of the council and the committee of the police and fire board have returned from Columbus, Ohio, where they inspected a fire truck. Those who were in the party were Benjamin Brower, Wm. Vander Ven, Frank Brieve, Chief C. Blom and Ben Mulder.

### HOW MUCH IS AN EDUCATION WORTH TO EACH STUDENT

Superintendent Fell Knows and Gives It In Detail Below

Supt. E. E. Fell has it figured out in dollars and cents how much a high school or college education is worth to a student. Striking the lowest possible average, he comes to the conclusion that a student in high school or college actually earns three thousand dollars a year, or fifteen dollars a day. In an article in this quarter's issue of the Holland high school "Boomerang" on the subject, "Does It Pay to Go to High School or College?" Mr. Fell reaches these conclusions. The article reads as follows:—

"Many young people are seriously and sincerely tasking themselves this question. There was a time when colleges and universities were few and scarcely attended, and they offered less advantages than the high schools of today. Then a persons with a common training was educated compared with the majority of his fellows. Today hundreds of colleges and universities in all parts of the world are training young men and young women for leadership and usefulness in all walks of life. They are opening the understanding of hundreds of thousands of young people to new worlds and new possibilities and helping them to live the complete life. Today we meet college and university graduates on every hand. They are the people who are doing things. We must compete with them in the race of life. Today the persons who has completed the 8th grades of the common school is not educated. He has only laid the foundation, which will be of little value to him unless he builds upon it. He must take his place in life as an unskilled laborer.

"But does it pay financially, and if so, how much is a person's time spent in high school and college worth in dollars and cents? If an uneducated man earns \$2 a day for 300 days in a year he does very well; and if he keeps it up for forty years, he will earn \$2,00x300x40 or \$24,000. An educated man is not generally paid by the day, but by the month and by the year. If you will strike an average of the earnings of educated men, beginning with the President of the United States, who earns 175,000 a year, the presidents of insurance companies and of large railroad companies, and run down the table until you come to the lower walks in point of earnings among educated men, you will admit that \$1200, a year is a low average for the earnings of educated labor. For 40 years you have \$48,000 as the earned-educate man. Subtract \$24,000 from \$48,000 and the difference of \$24,000 must represent the value of a person's time spent in high school and college.

"Now if \$24,000 represents the value of the time a person spends at the school getting an education, what is the value of a year, or a day spent in such school?

"The time required to complete high school and college is eight years, or 200 days each. A simple division will show the value of a day spent in high school or college to be \$15.

"INVEST IN AN EDUCATION."

### JUNIOR RECEPTION TO SENIORS MOST SUCCESSFUL EVENT OF HIGH SCHOOL YEAR

Miss Bernice Masten Acted As Toast-mistress and Eleven Responded To Toasts

The Junior reception and banquet to the Senior class of the High school on Saturday night at the High school was one of the most successful social affairs of the season. A six course banquet was served to the Seniors, Juniors and members of the faculty in the high school gymnasium. The Gymnasium was artistically decorated with red, white and blue bunting and flags.

Miss Bernice Masten, class patroness of the Junior class, presided as toast-mistress. Miss Masten likened the High school to a garden which was owned by Superintendent E. E. Fell, and she called on different speakers as a part of this garden. Principal C. E. Drew was head gardener, the teachers were the garden tools, the Junior girls were the rose buds, and the boys the sepals; the Senior girls were the roses, and the boys the leaves.

Toasts were given by Superintendent E. E. Fell, Prin. C. E. Drew, Miss Mabel Geiger, a member of the faculty, R. L. Robinson and Miss Bertha Howard, former instructors at the High School, Miss Marian De Pree, a Senior, Miss Helen Bell, a Junior, Rudolph Haberman, a Senior, and Daniel Den Uyl, a Junior, former principal R. H. Gilbert, and Miss Ruth Price, a former member of the Junior class.

Following the banquet an entertainment was given by the Juniors in the High school auditorium. Scenes in Mr. Drew's office were shown. Sylvester Pauls took the part of Mr. Drew very cleverly. The juniors imitated a faculty meeting. A pantomime, "The Star Spangled Banner", was given by Elsie Gurdy representing the Goddess of Liberty. Dorothy Brooks who sang the song, "Star Spangled Banner."

## 104,000 Men

In the jungles and fields, in our factories, etc., 104,000 men are employed to meet the demand for Goodyear tires.

No other tire commands anywhere near such favor. And this spring has shown, in sales to dealers, an increase of 52 per cent.

### Extra Values

The reason is, we fortify our tires. We give the best that others give, plus five exclusive features. In costly ways, employed by no one else, we combat:

Rim-Cuts  
Blowouts  
Loose Treads

Insecurity  
Punctures  
Skidding

And we never skimp. Despite all price reductions, Goodyears are better than ever. Lately we have added

three conspicuous improvements.

Some Goodyear supremacy can be seen at a glance. Compare size and thickness with the average tire. Compare number of fabric plies.

### Prices Down

Goodyear has made in about two years three great price reductions, totaling 45 per cent. The last was on February 1st. Our matchless output enables a value which no other maker can duplicate.

Goodyears mean less trouble, less upkeep. That is proved by our exclusive features, our dominant place, and the swelling Goodyear tide. We urge you to join this army. Any dealer will supply you.
