SERIOUS ACCIDENT OCCURRED NORTH OF HOLLAND

FAMILY OF REV. FLEMING FIG.

At 4 o'clock yesterday afternoon a serious accident took place at the intersection of U. S. 31 on the Alpena

The family of Rev. and Mrs. B. H. Fleming of Oklahoma City, Oklahoma, figured in a serious accident in which Mrs. Fleming was very seriously injured and quickly taken to Holland hospital. The accident happened during the pouring rain late yesterday afternoon.

It appears that Melvin Pickering, 360 River Ave., was out on a radio call north of Holland. Pickering made the turn towards Lakewood farm just as the Fleming car was coming from the south. Pickering stated that he saw

B. S. Fleming, son of the injured woman, who was driving the car stated that he wished to pass the Pickering car and was making the attempt when the Pickering car started to turn right. Fleming stated that he was turning right when he was struck by the Pickering car.

The result was that the Pickering car was sideswiped and then the Fleming car run into a tree near the highway which caused serious injury to Mrs. B. H. Fleming.

Rev. A. K. Fleming, another son of the injured woman, was also in the car with his wife and two little girls. Although not injured they were badly shaken up.

Mrs. Fleming, the mother, was rushed to Holland hospital by ambulance and it was found that her back was

The Flemings are closely related to Rev. Guy F. Fleming, a former pastor of the Methodist church of this city. Other passengers in the car were Margaret, Donald and Elizabeth Fleming. The Flemings were on their way to Ludington where they were to spend the summer.

Fleming was in considerable pain during the night but her condition was slightly improved today and even if conditions prove favorable it will be several days before she can be discharged from the institution.

TURKEYS AND

Sanitation in the houses and poultry run helps in the control of certain diseases among poultry. Since only young chicks are subject to gapes, one of the serious causes of chick deaths, and since turkeys of a age may carry the gapes parasite, chicks should be kept away from turkeys and the premises used by turkeys.

Another player of great ability who will be seen in action during the game is Dunkel, a former Michigan State League star. Dunkel was one

CHILD RUN DOWN BY AUTOMOBILE AND DIES LATER

At 9 o'clock Tuesday night little Thelma Klinkenberg, aged 5 years, was run down by an automobile driven by Fred Gerben Terpestra of Zeeland, Mich., as he was coming into the city at the hill near the John J. Huizinga place.

Deputy Sheriff Egbert Beckman and Coroner Gilbert Vande Water were at the scene of the accident soon after the child was rushed to Holland hospital where it was found her skull was crushed, her jaw was broken and she was internally injured. The little girl died at 3 o'clock Wednesday morning.

Terpestra had as passengers in his car John Overway and John Roosa, both of Holland. When interviewed by the coroner, Terpestra stated that he saw the little girl standing along the roadside with one other and when he glanced up again the child was in front of the automobile and he was unable to stop. He said he was about 35 miles an hour at the time of the accident, and his car, which was a Ford, went about 100 feet beyond where the accident occurred.

Mr. Vande Water states that the child was playing with a little friend, Miss Viola Steinfeld, at the time of the accident but the Steinfeld girl cannot give much information.

Mr. and Mrs. Bert Riemersma of New Grandingen were eye witnesses and will testify at the inquest, which is to be called later.

The jury impaneled and sworn in at 10:30 Wednesday morning were Dick Schaafsma, Henry Vanderlinde, Peter Boven, Adriaan Casauwe, John Miller and Jacob Fris. The inquest is to be held Tuesday morning at nine o'clock from Dykstra's undertaking parlors.

The funeral will be held Friday afternoon at 2 o'clock from the home, Rev. L. Veltkamp officiating. The body will lie in state at the Dykstra funeral home until Thursday night. Burial will be in the Holland Home cemetery.

She is survived by her parents, Mr. and Mrs. Gerrit Klinkenberg, R. R. 10, Holland, and two brothers.

MUCH INTEREST IN C. M. T. C.

Applications for training in the Citizens' Military Training Camps throughout the country have reached a total of more than 46,000, showing an excess of more than 10,000 over this time last year. As most of the camps do not open until the end of July it is expected the total of applicants for training will come close to 60,000. The first, second, fourth and eighth areas have more than filled their totals. The sixth Army Corps Area, which includes the States of Illinois, Michigan and Wisconsin, has three-quarters of the applications expected on file and inside the next month will be over the top as the requests for the month's course at the various camps in this section are now rapidly coming in.

"The exceptional interest being taken in the camps this year makes it certain that just as soon as camp facilities are supplied there will be at least one hundred thousand youths in training every year," said Colonel Noble B. Judah, Civilian Aide to the Secretary of War for the Sixth Army Corps Area. "Ever since the foundation of the camps there has been a rapid increase in the number of applications coming in each year and there never yet has been enough room at the camps to take care of all the applicants."

"This year approximately 4,300 will be trained in this area, which is an increase of several hundred over 1926. But the applications are far in advance of what they were at this time last year and especially in this section where the camps are contiguous to the camps. This is thought to be the result of increasing numbers of camps so that parents of the young men in training and the youngsters themselves could get first-hand information as to the conduct of the training camps. The demand for training at the CMT Camps is always ahead of the supply and it was never so clearly shown as this year."

Dutch Woodcraft Shop Makes Its Initial Showing

Grand Rapids Herald—A new line in the Grand Rapids Furniture Market and a new line in the furniture industry is that of the Dutch Wood Craft Shop of Zeeland, showing its splendid line on the ninth floor of the Pantland Exhibition building.

John Vanderveen of Holland, the head gazer of the Holland Furniture company, bought a factory in Zeeland and organized the Dutch Wood Craft Shop. This market is the first showing of the line.

The product of the company is occasional tables, table desks and a fine big line of novelties of every description. All the furniture is of the finest of woods and in the most exclusive design. As to construction, it is necessary to say only that the workers in the factory are of the highest skilled Dutch craftsmen of this district where that class of cabinetmaker and carver and furniture makes his home.

Holland and Zeeland and the surrounding country was settled by Dutch woodworkers. They came from the most skilled workers of The Netherlands. They were the sort of wood workers who passed their trades down from father to son, each taking a particular pride in his skill and in his son's skill with the wood-working tools. These descendants of those original settlers are of the same type and many of them are able to follow their trade back through many generations. It is this class of workman who is making the Dutch Wood Craft Shop's line.

The result is, as must be, some of the finest furniture possible to be produced by the hand of man. It is a distinct addition to the furniture industry and a distinct addition to the market. John Van Leuven, who handles the line as well as that of Holland Furniture Co., is as tickled with his new line as if it were a new baby come to the house. The line should be seen without fail. It is well worth while.

IT COST ST. LOUIS \$3000 TO CLEAN UP

It cost the city of St. Louis \$3,000 to clean up that city after the paper-throwing and confetti-tossing of the Lindbergh parade of Saturday. 85 men and 20 teams worked from 6 o'clock that night until 9:30 o'clock Sunday before the job was finished.

CONSIDERABLE MORE WATER IN BLACK LAKE

Black lake is coming back into its own, that is in water depth. Stranded boats on both sides of the lake again are getting into shallow water and the shore lines are becoming wider as the lake level continues to rise.

Although no measurements have been taken at the various points on both sides of the lake, it is noticeable that there has been a rise of several inches in the lake level within the past few months. The same condition prevails at the harbor. Capt. Toff of the coast guard reports the water in the channel has deepened six to eight inches in recent months.

HAIRPIN TURNS NOW ILLEGAL

With more drivers appearing on the local streets Chief of Police Van Ry is issuing another warning to motorists. This is the last week of warnings. "Hairpin" turns are a direct violation of the law. All violators are to be arrested and fined. He also stated that all drivers when coming out of an alley must come to a complete stop, the same as a red light before crossing the sidewalk.

All accidents which damage life, limb or property must be reported to the police department as soon after the accident happened as possible. All persons driving may turn to the right on a red light providing they come to a complete stop before turning.

MUSKEGON TO HONOR MAIL CARRIERS WHO HAVE SERVED FORTY YEARS

Charles Beukema, 67, and Arthur Brace, 60, who have been carrying mail for 40 years are to be honored at a banquet to be given by the Muskegon Letter Carriers' association, to commemorate the 40th anniversary of the establishment of free delivery in Muskegon.

Both Beukema and Brace are still active mailmen. Three other carriers who were in the office in 1887, Willis Webb, Richard Meade and Ed Cariton will also be guests at the banquet. Two of the original eight carriers are not in the city.

GIVES ADDRESS ON GRATITUDE

The revival meetings at the Wesleyan Methodist church, corner 17th and Pine Ave., are growing in interest. Evangelist S. B. Shaw preached last night on gratitude, taking for his text Ps. 118:12. "What shall I render unto the Lord for all His benefits toward me?"

PLANT COSTS RUN BENEATH BOND TOTALS

The Grand Haven city hall was a busy place Monday and Tuesday when representatives from 16 companies were there to present bids for the construction of the filtration plant for Grand Haven.

Some of the bids were submitted as a whole, others were divided into classes. A including the brick and cement construction and B the mechanical equipment.

The lowest bid on contract A was \$57,652 by the G. E. Tillman Co., of Centralia, Ill. The lowest bid on contract B was Roberts Filter Co., of Philadelphia at \$24,940 showing a total of \$82,592. The authorized bond issue was \$115,000.

The bids on the total construction ranged from \$57,809 to \$108,509. The figures on construction A ranged from \$57,652 to \$89,493. By a division of the contract the city gets the best figures an the \$82,592 total will probably be the cost.

The Love Construction Co. of Muskegon was the only Michigan company in the race. Others came as far west as Kansas City, east as far as Philadelphia and south to Fort Lauderdale, Fla.

MODEL LAUNDRY SET FOR BIG SEASON

Equipped with the latest machinery, which has been installed from time to time as the business increased and as new floor space was added to the building, the Model Laundry is all set for a big resort year; not only but for any amount of increase in the business that the city and surrounding community can produce. This institution has taken a place as one of the substantial business firms of Holland. It is equipped with all the machinery of the highest grade laundry and ready for any kind of job that may be required locally or at the resorts. The Model Laundry is today beginning an interesting series of advertisements under the title, "Aunt Julia's Rocking Chair," which will run every Wednesday.

JUST WAIT AND SEE WHERE YOU ARE SOON

Grand Haven Tribune—The street signs, eagerly looked for as a convenience to the summer tourists, are on order and the city manager, P. R. Taylor, says they will be installed as soon as possible.

There are 250 local signs being made up with an order for Grand Rapids. A uniform system of mounting will be adopted and the city hall is confident they will arrive in time to be of some use for the 1927 season.

Miss Minnie Mollegraaf, daughter of Mr. and Mrs. Jacob Mollegraaf, has left for Ann Arbor where she will take treatment at the university hospital.

GRAND HAVEN RESENTS ACTION OF GREYHOUND

Grand Haven Tribune—General resentment at the position of the Greyhound bus line is being voiced in Grand Haven.

Originally the bus line was given a franchise from Grand Rapids to Muskegon and from Muskegon down through Grand Haven. The bus traffic eventually has proved too tough competition for the electric line which wants the right to run an auxiliary bus service to supplement its trolley.

Granting of this permit is vital to Grand Haven in keeping the interurban traffic moving, particularly for the benefit of the cheap electric freight transportation and its feeding of Chicago freight to the Goodrich plants.

But now that the Greyhound has succeeded at the expense of the trolley line, the motor company wants to play dog in the manger and not even go up against even competition. Grand Haven seems unanimous for the trolley company.

Expressions of antagonism for the Greyhound are quite general and it is apparent that line is losing many friends here. Grand Haven does not like kindly to having its transportation facilities throttled for private ends and the community good must prevail in the belief of civic leaders.

"The Greyhound will lose more business through its suit than it could through the trolley bus competition," said one prominent business man. "I would walk barefoot I would ever again ride the Greyhound line after their present stand and I am sure others feel the same way."

"Competition is the life of American business. The Greyhound brought by competing with the trolley on an unequal basis and yet they now seek a technicality to prevent letting the electric company compete with them on an equal basis."

BOY SAILS FOR PARIS ON 5 CENTS; FINDS HERO GONE

Whatever passes for the wooded in a New York apartment will not figure in the home-coming of Herbert Avram, 14 years old, who went to Paris on a nickel to see Colonel Charles Lindbergh, his father said Friday. Herbert, who is now in the newspaper, he could have saved himself a lot of trouble. Still, had he been better informed, he never would have been able to hang up the world's record for long distance travel on a nickel.

He only had a nickel, but before the vessel was 24 hours out. Then he announced himself as a stowaway. The captain allowed him to leave the ship at Havre to look over the town, but warned him he must be back in time to return with the ship to New York. But Herbert had collected a little money from the passengers. He returned to Paris.

Officials at Paris demanded his passport, but he told such a heart-rending story about having become separated from his two sisters that they let him by. His sisters, Marguerite and Violet, are in school in Paris. He paid them an unexpected visit, only to hear that Lindbergh had left for the United States.

LOCAL TEACHERS' CLUB BELIEVES IN PUBLICITY

Teachers Bulletin—The most worth while accomplishments of the Holland Teachers' club, it seems to me, include the strengthening of the bond between parents and teachers through the activities of education week, the publication of a bulletin and the publicity given to educational affairs in the local papers, the furtherance of professional interests, especially by keeping the club members informed in regard to progress toward an actuarially sound pension law, the encouragement of the club's sphere of activity as shown by the extension of social membership to teachers not in our system, and by the Easter service which it sponsored; and the fostering of the spirit of friendly interest and sympathy toward the welfare committee has given tangible expressions.

The Ottawa County Board of Supervisors will convene on July 27 for a short session on equalization of taxes for the county.

Dear Mr. Editor—Kindly allow me a little space for the following: We as residents of Holland often hear pleasant things said about our city. It's a town where people really live. Our people have an eye for beauty which is not alone shown by our parks but in particular the homes. Most of our folks are home owners. The lawns neatly kept, shrubbery, flowers, well kept lawns in general, make it a real pleasant place to live. Many have a neat little garden in the rear of the lot with vegetables, a hen-house with a few chickens, or a few fruit trees. Now this fruit tree question has often come to my mind and I wondered whether these trees which are not sprayed because they are few would not spread damaging insects throughout the neighborhood. Those having several trees care for them and give them proper attention, but with a few it is often overlooked. Could not the city, which also cares for the shade trees, spray the fruit trees for the resident owners and collect for services the same as the water bill is collected? This would mean a healthy system to hold in check the various damaging insects which now thrive where fruit trees are not seen to. I would appreciate hearing from others on this question and if possible give us some light on this question. Thanking you for space and for the betterment of fruit trees found in the resident district.

Yours very truly,
GEORGE W. DEUR.

WILL GIVE SACRED CONCERT IN HOPE CHURCH

Mrs. H. L. Dunwoody, the musical director of Hope church, is arranging for a sacred concert which will be given on Sunday evening at 7:30 P. M.

The following will take part: Mrs. A. H. Cloetingh, soprano, Mrs. H. L. Dunwoody, contralto, Mr. William E. Andree, tenor, Mr. W. J. Bos, baritone, and Miss Ruth Keppel, violinist. In addition to the above, Mr. C. Groth, baritone, will by special request sing a solo. The entire program will appear in a later issue of the Sentinel.

SCHOOL GIFT REJECTED BY THE HAVEN BOARD

The board of education of Grand Haven has rejected the bond given by Mrs. T. B. Stewart of Denver, Colo., as a means of carrying on the Lora A. Smith declamation contest on the grounds that the board could not accept it under the restrictions limiting the gift.

After a discussion by the members a motion was made by Dr. C. E. Long that a letter of appreciation be sent to Mrs. Stewart voicing the appreciation of the gift but stating the board could not accept the gift under these restrictions. The motion stated further that Mrs. Stewart be asked to allow her name to be used in connection with future contests which will be under state rules. The board wished to convey to Mrs. Stewart their appreciation of her thoughtfulness in regard to the gift.

The board felt they cannot conscientiously accept it under restrictions which do not comply with the state rules.

ORIENT CHANGED SAY AMERICANS LIVING IN CHINA

A recent letter from the city of Kulungsu, written by Dr. and Mrs. Harold Veldman, tells some very interesting facts about the reforms that are taking place in China. Dr. Veldman, D. D., former Holland pastor, and has been in China but one year. The following is taken from the letter which is dated late in April—

"You may perhaps know already that we were called to leave Tungan, our station, and are now in Kulungsu, the International Port. All the missionaries of our church are here, except two, Dr. Holleman and Rev. Mr. Poppen. Those two men are staying on in Lengna, our furthest in station, five and a half days' ride from Kulungsu. The women and children and the Westmans family are down there. They say that the mission faces loss of all the gain they have made in this territory if the men must also leave. It is the most critical position in our station, and the other side of the Yangtze. The agitation against foreigners that did not allow us to remain, in the mind of Consul. We have heard since from Lengna that there was a huge representative meeting held in Lengna for three days which six hundred picked representatives attended. The meeting was led by the men who are pushing the Nationalist program. This was for the purpose of deciding what should be done in Lengna in the way of reforms."

The following were some of the things determined upon: 1. That there should be no more foot bindings. 2. That all men and women should have their hair cut short. 3. That all the nunneries and monasteries should be emptied of the women. 4. No large expenditures of money for funerals and weddings as in times past. 5. Taxes which went to the old-style literati for special education were to go for general education. 6. That there were to be no more daughters-in-law taken in which there were still children for future marriage in the family. These were some of the radical reforms decided upon. In the last meeting the subject of the idols was discussed and, to our amazement, it was decided that they should be destroyed.

"Such was the spirit of the meeting that they decided to do it right away. They rushed out to the temples, plundering them and destroyed all the idols. Several times during the meetings the subject of the missionaries was brought up but the chairman insisted it was not an anti-Christian meeting and nothing was determined against our mission. But such a radical move could not be without its reaction and a later letter from Dr. Holleman said that the streets were filled with idol paper being burned to appease the anger of the gods. Two factions over the idol appease movement developed. Just whether this reaction will cause a turn against the Christians remains to be seen. We surely hope not."

"But what a strange China this is. It shows how in turmoil the people are, how they are striving to achieve a change and how they over-step themselves in their efforts."

"The work is going on in all of our stations of course under the Chinese Christians in our schools and hospitals. They are having a heavy burden of responsibility thrust upon them, to take up the management of many institutions they have depended on the foreigners' direct guidance heretofore. But it is interesting to see how faithfully they will carry on. It certainly is difficult for them. They often face the taunt of being called foreign slaves, of carrying on the work which so many non-Christian Chinese consider an agency of imperialism. Our mission has been fortunate in the Providence of God that there has been no destruction of property, nor any attack upon our work. The agitation in Foochow and Amoy against the communistic elements of the Cantonese has been successful in their military program. Then they will turn their attention to our schools and hospitals."

The marriage of Miss Sarah Krut-hoff of Holland and George L. Beech of Grand Rapids took place at the Methodist parsonage in that city on Thursday evening, June 16, Rev. Henry Gandler performing the ceremony. The young people were attended by Mr. and Mrs. William Bonsema of Grand Haven.

Mr. and Mrs. Ted Helder and sons Maynard and Howard have gone to West Lake, near Kalamazoo, for a week.

SCHOOL CENSUS FOR YEAR SHOWS INCREASE OF 87

There was an increase of 87 in the school census of Holland during the past year, according to figures compiled in the office of the superintendent of schools, on the basis of the statistics gathered by the annual school census taker. The 1926 school census gave the school population, that all persons in Holland between the ages of five and twenty, an exactly 4,100. The 1927 school census, recently completed, gave it as 4,187.

There are 111 more males than females in the city's school population. The total number of males was 2,149, and of females 2,038. One fact to be kept in mind, the superintendent's office announces, is that the school census was taken later this year than last. While this makes the period under consideration a trifle over a year, this is more than counteracted by the fact that by the time the census was taken this year a number of families had already moved to farms to begin, spring work. It is believed that if the census had been taken as early as in 1926 the total increase would have been larger. The time of taking the census is dictated by the state department of public instruction which last year for some reason asked for an early count. It is expected that from now on the census will be held at the same time of year each year.

By words the figures were: First, 387 males, 377 females, 764 total; second, 192 males, 153 females, 339 total; third, 192 males, 225 females, 417 total; fourth, 350 males, 347 females, 697 total; fifth, 574 males, 553 females, 1,127 total; sixth, 490 males, 383 females, 873 total. That makes a total of 4,187 in all, with a total of 2,149 males and a total of 2,038 females.

The census takers were: first ward, Mrs. Margaret Stegenga; second, Mrs. Cornelia Gronewoud; third, Mrs. Nellie Vander Meulen; fourth, Mrs. Mabel Vanden Berg; fifth, Mrs. Minnie Meens; sixth, Mrs. Hilda Stam.

BEN'S ROUGHLY WRITTEN NOTES SEIZED IN RAID BARE SPLIT WITH MARY

A number of scratch pads containing the scribbles of "King" Benjamin Purnell were introduced as state evidence in the cult dissolution trial Tuesday at Grand Haven.

Roughly written in pencil during the four years he was in hiding at the colony, it is these scribbles, according to the state, which tell of the split and conflict between the "king" and "Queen Mary."

Spattered with bits of poetry, the writing told of the "Queen's" intimacies with Francis Thorpe, an official of the cult.

Purnell in the notes described her fight charges her with misleading his cult during his illness with the intention of gaining for herself alone the property of the little religious kingdom.

The writings were read into the records Tuesday afternoon.

ANNOUNCEMENT OF ENGAGEMENT MADE

Mr. Guy Lefel announces the engagement of his daughter Ardath Gwendolyn of Pontiac, Michigan, to Gerald F. Dorgelo, son of Mr. and Mrs. Fred Dorgelo of Holland. The marriage will take place early in the fall.

MUSKEGON OIL WELL DOWN TO 2,100 FEET

At a depth of nearly 2,100 feet the drillers on the first test well for the Muskegon Oil corporation there were progressing rapidly in a soft sand formation, after having continuously encountered salt brine for nearly 100 feet.

The next stratum of oil-bearing sand is expected to be found at approximately 2,400 feet.

In his department in "The Michigan Tradesman" under the editor, "Out Around," E. A. Stowe, the editor, Zeeland, Holland, and vicinity. About his drive through Holland he says: "A drive through the prosperous city of Holland is always a delight, no matter what route one takes. The civic spirit of the city is high and her citizens appear to vie with each other in keeping their homes and surroundings up to a high standard of excellence, so far as neatness and attractiveness are concerned. No other city in Michigan achieves and maintains a better record in these respects than Holland."

U. S. 81, West of Holland, was lined with cars containing people who sought a glimpse of the most recent havoc wrought by fire on last Thursday at Macatawa Park. The resort was platted so long ago that the congestion had grown to be intolerable. If any attempt is made to rebuild on the burned districts, it is hoped that transfers of ownership rectify the mistakes of the past by increasing the width of the lots from 30 to 100 feet. Some material more fire resisting than wood should also be substituted for the flimsy construction of the past."

Mr. Stowe wants to find somebody to explain to him why the Dutch farmers around Holland have no woodlots. On this point he says: "The farming country southwest of Holland is wonderfully attractive. The soil is strong and every available space is kept under a high state of cultivation. Only one thing is lacking in the landscape—the farm woodlot. The Dutch people love a cow. They love their homes, their churches, their children. They are fond of flowers and cultivate them successfully. For some reason they do not seem to have the same respect for trees that the Anglo-Saxon possesses. In clearing their land in this locality on an early day they did not preserve the woodlot which is the crowning glory of a farm. I have never been able to explain why this is so, but it seems to be a characteristic of the Hollander to want to make every acre of land something which can be converted into the coin of the realm."

"Broad acres mean nothing to him unless they are covered with grass, wheat, corn, rye or some other product which can be converted into the coin which soon finds its way into the savings bank."

A big young people's rally is to be held by the Epworth league at the Methodist church at Fenville, Sunday evening. Special speakers will be Mr. and Mrs. Fred Replege of Lansing.

Rufus Boer, 50, of 263 Carroll St. SE, bond salesman for A. E. Kusterer of Grand Rapids, who was taken to a Manistee hospital Tuesday night following an accident in which he and four others were injured at Pelton's corner, six miles north of Scottville, was said last night by members of his family to be improving. It was said that Mr. Boer will remain in the hospital for another week, the physician advising against moving him any sooner. Mr. Boer suffered severe lacerations of the face, a crushed nose and other injuries. Mr. Boer is a former student of Hope college and is a relative of Dr. B. J. De Vries of Holland and was a former Grand Haven man.

Rev. and Mrs. Correllus Nicholas Baker of New Haven, N. Y., are the guests of Mrs. Baker's mother, Mrs. Meren. They have been in Holland attending the graduation exercises. Both are graduates of Hope college.

Mr. and Mrs. Fred K. Colby and son Harry of California, have arrived to spend the summer as the guests of Mr. and Mrs. Austin Harrington.

RED CROSS LIFE SAVER TO COME HERE IN AUGUST

Scout Executive Geiger, who is also chairman of first aid and life saving for the Ottawa county Red Cross, has received word from headquarters that Mr. Ned Campbell, life saving field representative, will be in Ottawa county August 17 and 18, for a series of demonstrations. This work in past years has been done by Mr. Moravia who now has taken a position in life saving in Detroit.

Before Mr. Campbell arrives, Mr. Geiger will line up the life saving agencies here and make arrangements for the public demonstration. The letter to Mr. Geiger says in part: "Itineraries of first aid and life saving field representatives who will visit Red Cross chapters in the interest of first aid and life saving service, have been made and we have reserved August 17-18 for your chapter."

Mr. Ned Campbell, life saving field representative, will travel in Minnesota, Wisconsin and Michigan, and because of the need of economy both in time and welfare, the above date was assigned to your chapter.

"This year we wish to accomplish three things through the visit of the life saving field representative: 1st, all examiners should review the life saving test, with the representative; 2nd, new examiners should be examined and qualified; and 3rd, a plan should be made for a year around program in the respective activities."

"When planning your program you should have these things in mind. You will want a definite time set aside for reviewing old examiners and another time for giving the test to prospective examiners. The life saving chairman should go over the plan for the year in detail with the representative. It is possible that you will want to have a review of the work with the junior and senior life savers in your chapter, although your examiners could carry on such work after the life saving representative is gone."

"A demonstration of life saving methods before the public by the life saving representative is an event that interests the community at large. In the life saving program probably you will want to plan for such a demonstration at night or at some other time when the largest crowd could be in attendance. If a luncheon could be arranged with the representative, I hope that you will make plans to have him speak before the club. Business men are always interested in activities which tend to broaden the interest of the community and if you can arouse their interest in your life saving program, it goes a long way towards insuring its success."

Rufus Boer, 50, of 263 Carroll St. SE, bond salesman for A. E. Kusterer of Grand Rapids, who was taken to a Manistee hospital Tuesday night following an accident in which he and four others were injured at Pelton's corner, six miles north of Scottville, was said last night by members of his family to be improving. It was said that Mr. Boer will remain in the hospital for another week, the physician advising against moving him any sooner. Mr. Boer suffered severe lacerations of the face, a crushed nose and other injuries. Mr. Boer is a former student of Hope college and is a relative of Dr. B. J. De Vries of Holland and was a former Grand Haven man.

Rev. and Mrs. Correllus Nicholas Baker of New Haven, N. Y., are the guests of Mrs. Baker's mother, Mrs. Meren. They have been in Holland attending the graduation exercises. Both are graduates of Hope college.

Mr. and Mrs. Fred K. Colby and son Harry of California, have arrived to spend the summer as the guests of Mr. and Mrs. Austin Harrington.

LOVERS CARESS EACH OTHER WITH KNIVES; AND LAND IN JAIL

What Muskegon Heights police label a "lovers' quarrel" was wound up in the office of Justice McNitt Monday when Rose Harrison, and Doc Holmes, both colored, who have been living on West Broadway near the city limits, were fined \$50 and costs each, with the option of attending the county jail for 60 days if the fines are not forthcoming, on a disorderly charge.

During the quarrel, the pair drew knives, and while neither was seriously hurt, both were cut slightly about the head and arms. Holmes was taken to the county jail in default of payment of his fine. The colored woman paid the fines and costs.

PARKING AUTOS ON DOWNTOWN STREETS RAPPED

Detroit, June 22—Parking of automobiles in downtown business sections of American cities works an injustice on 94 per cent of the automobile drivers and should be prohibited, according to Samuel Meyer, of Atlanta, Ga., chairman of the garage committee of the National Association of Building Owners and Managers, in his report to the twelfth annual convention of the association here.

"Studies made by the association show that only about six per cent of the automobiles entering the business districts are accommodated by adequate parking privileges," said Meyer. "This means that the other 94 per cent of the drivers are compelled to suffer the annoyances created by the stagnant traffic at the curb, which results in reducing the width of streets by two lanes of traffic. Streets in most American cities are already too narrow and with increasing use of the automobile conditions will get worse instead of better unless methods of handling traffic are improved."

"We advocate establishment of belt lines to take through traffic around the business district, and we urge more building owners and managers to undertake the provision of terminal facilities for the automobile traffic that seeks a resting place in or near the business district. Skycraper garages of the ramp type can be successfully operated not only physically but financially as well."

Dr. Willard M. Burleson of Grand Rapids to date is 1927 champion among fishermen of western Michigan. Fishing with a feather minnow and W. by road in a Kent county lake, Dr. Burleson brought to net a large-mouth bass weighing six and one-quarter pounds.

James Purdy Van Landegend of this city is the guest of his uncle Ed Van Landegend, at St. Louis, Mo. They will motor back to Holland where Mr. Ed Van Landegend will spend his vacation a guest of his mother, Mrs. John Van Landegend.

Rev. and Mrs. Correllus Nicholas Baker of New Haven, N. Y., are the guests of Mrs. Baker's mother, Mrs. Meren. They have been in Holland attending the graduation exercises. Both are graduates of Hope college.

"Cyclone Sweeps Over Michigan"—DOING THOUSANDS OF DOLLARS DAMAGE!

This is fresh in mind because it happened but a short time ago. Several counties of the state suffered heavy losses—Houses, Barns, Silos and Orchards were destroyed and stock killed.

This big, new barn, 40x60 feet, was built about 3 years ago of the very best grade of material. Was located 4 miles east of Clare and belonged to Jas. A. Reeder. This picture was taken just after the barn was built and before it was painted.

This is the same barn taken just after the cyclone of May 9, 1927, showing its complete wreck. We promptly paid a \$3,000 loss on this building. Several head of purebred stock, including a two thousand pound Durham bull, were killed; no insurance. Also three autos; no insurance.

THIS STORM WHICH DID SO MUCH DAMAGE SWEEPED DIAGONALLY ACROSS THE STATE TO THE NORTHEAST

How Soon Will We Have Another One In Michigan? Whose Property Will It Wreck?

The only business-like way to do is to carry plenty of Windstorm Insurance with this OLDEST and LARGEST Company operating in Michigan.

All Losses Promptly Paid for Over 42 Years

The Cost is Comparatively Small—only 17 Assessments in Over 42 Years—and Losses Paid Have Amounted to Nearly 2½ Million Dollars.

SPORTSMEN ARE QUESTIONED BY STATE OFFICERS

Frank Salisbury of Grand Haven has been instructed to find out from Holland sportsmen what they think of certain proposed changes that are contemplated in the game laws as these will govern different kinds of game in this state.

A communication has been sent to him from Secretary Hogarth of Lansing instructing him to have sportsmen of Ottawa county address all communications to Frank Salisbury, game warden, Grand Haven, Mich., and these communications will be forwarded to Lansing as they arrive.

The state department is doing this thing in other counties and from this mass of opinion from men who hunt a program of changes in game laws will be made. If no opinions are sent in applying to the questionnaires, then the state commissioners will follow their own judgment.

The letter sent in containing four questions to be answered follows:

To All Conservation Officers:
At a recent meeting of the Conservation Commission considerable time was taken up discussing the advisability of offering protection, extending closed seasons, and shortening the season on certain species of our wild life. While it is true that a closed season is a step forward in conservation, the question also arises as to whether or not the public feels that such a closed season is necessary. Although several members of the commission feel that certain protective measures should be inaugurated, they do not wish to take any action until a careful survey has been made, and the public given a chance to express their views.

With this idea in mind I am asking that you immediately take steps towards an investigation in your territory. Discuss the following questions with the people in your vicinity who are interested in our wild life and ask them to communicate with this department expressing their wishes:

1. Do the people want the Spike Horn Deer protected, by permitting the shooting of full antlered deer only?
2. Should the closed season be continued on Black and Grey squirrel, and shall Fox squirrel be included in this order?

Note: The closed season on Black and Grey squirrel expires October 25, 1927. Present law on Fox squirrel permits hunting from October 25, to Oct. 31, both inclusive.

3. Shall the season be shortened on rabbits to October 1, December 1, in the Upper Peninsula; October 25,

December 25, in the Lower Peninsula? Note: Present law, Lower Peninsula, October 25, January 21, both inclusive; Snow-shoes October 25, February 15, both inclusive, while in the Upper Peninsula the open season on all rabbits shall be from October 1, to February 1, both inclusive.

4. Shall we have a closed season on musk-rats until November 15, 1928? Note: Present season March 1, to November 15, inclusive, while in the Upper Peninsula the open season on musk-rats shall be from October 1, to February 1, both inclusive.

Start this investigation at once and have everyone interested send in their petitions or communications indicating their approval or disapproval of the above contemplated acts. We also desire an expression from all conservation officers on the above questions. George R. Hogarth, Sec'y Conservation Com.

MUSKEGON FIGHT BRINGS TOGETHER GOOD SCRAPPERS

Western Michigan fight fans will be given a real treat in Thursday's night's battle at Muskegon, Mich., when Emmett Curcio, the Fremont high school lad who has been winning his contests via the knock-out method, and Len Darcy of Detroit, little holder of the state light heavyweight championship, will meet.

The contest will be a championship go with the title at stake. Curcio, the popular young fighter, worked his way up from the amateur fighters, winning the state championship in Grand Rapids two years ago. Since that time he has been under the tutelage of some fast working fight men and has shown a wonderful change of pace which combined with his knockout punches will make the ten round contest a thriller from the first bell.

Darcy is no mean fighter. He can land clean heavy blows which will have a telling effect on the young fighter if he should connect. The Detroiters is fast on his feet and with his famous criss-cross style should be able to show the young "Newygo brawler" a tough time. The contest is scheduled to go ten rounds.

A fast preliminary is slated with young Perlick of Kalamazoo meeting Russel Bradford of Pontiac. Both men have met before and a real fight will be witnessed in the semi-finals. Perlick is an all-around athlete, having played baseball and basketball during his high school days in Kalamazoo. He is a very fast thinker and can put his foot to good advantage when it comes to floor work. Both lads are coming. The winner will meet the winner of the main bout.

E. W. Dickerson, sport editor of the Grand Rapids Herald, will referee the contests. Dickerson is a well known official throughout the entire country.

GUARDSMAN TO TAKE BRIDE AT MILITARY WEDDING IN ARMORY

The club room of the Muskegon armory was the scene of a picturesque wedding ceremony Wednesday night when Miss Ruth Stoberg became the bride of Serg. Frank Verhoven, a member of headquarters company, second battalion, 128 infantry, Michigan National Guard.

The ceremony was, it is believed, the first military wedding ever solemnized in the Muskegon armory. Rev. H. S. Grandholm, chaplain of Merrill post, American Legion, officiated at the ceremony. Lieut. Raymond Thornton and Mrs. Thornton acted as best man and bridesmaid.

Members of headquarters company stood at attention during the wedding. The wedding party entered the club room through an arch of bayonets and the service was performed before the altar of the room.

TUG SINKS AT ST. JOE DOCK

St. Joseph, June 22—The fishing tug Lloyd M., one of the oldest of the St. Joseph fleet of fish boats, and which has not been used for over a year, sank in the St. Joseph river at its dock near the highway bridge Monday night.

A small leak in the bilge allowed water to slowly fill the hull and the tug settled to the bottom of the river sometime during the night. The boat is lying at a 45 degree angle with most of its deck still above the water.

The Lloyd M. owned by the Mollhagen Brothers, one of the pioneer fishing firms of this locality. It will be raised at once, according to officials of the company.

Recently the boat passed rigid inspection in a federal authority and is still in good running order. The water in the hull had been pumped out from time to time by its own pumps, but as the crew had been fishing pond nets with a small gasoline launch, the steam tug had not been given much attention and water seeped into the boat until the crew realized it was asserted.

A farewell party was held Tuesday night at the home of Mr. and Mrs. James Vander Hill, 240 West Tenth street, in honor of Mr. and Mrs. B. Ten Hoven of Paterson, N. J. The Ten Hovens have been visiting with friends and relatives in Western Michigan for the past two weeks. They started on their trip to the east Wednesday morning, intending to drive the states of Ohio and Pennsylvania, visiting towns that interest along the route. Mr. Thomas Ten Hoven, a son, who received his degree from Hope last week, is returning to the east with his parents.

SPORTING

BOAT RACES MOVE ALONG FOR HOLIDAY

A meeting of the Spring Lake Motor Boat club was held at the chamber of commerce office at Grand Haven to hear reports from committees on the July 4 races.

Many boat owners, some of their skippers and other interested in the promotion of racing on Spring Lake were there. They are rapidly rounding out details to make the meeting a big success.

The classes of boats are being arranged and handicaps decided for the number of boats already entered in the regatta. The runabouts, the little outboard motors, the cruisers and launches are all being classified. The prizes for the various events are assured as the contributions committee made a splendid report. Among the big contributors are A. E. Wallace and Lew Wallace of Grand Rapids, Nathaniel Robbins, Hunter Robbins, Carl Trautman of Grand Rapids, Martin Drege, D. J. Campbell of Muskegon and bank and business men of Grand Haven and Spring Lake.

Beautiful cups will be purchased for the first prizes and flags for the smaller ones. These will be exhibited in some Grand Haven store shortly. So generous have been the donations that it has been made possible for Der Vriesman, secretary of the chamber of commerce, to go to Chicago where he will purchase \$1,000 worth of fireworks to shoot off in the evening from a scow in the wide part of the lake where hundreds will be lined on the shores, in boats and on the dock to the splendid display.

Communications from Milwaukee, Jackson Park and Whitehall boat clubs have been received telling of delegations that will be sent from those clubs, besides many private owners from Begon Harbor to Ludington.

This regatta is to be one of the biggest meets staged at Spring Lake in many years and citizens are beginning to realize there will be many holiday fans attracted there by the big events. It will be widely advertised in the state papers. Grand Haven and resort hotels are being lined up for reservations for outside guests.

One of the most interesting races will be for the Johnson and Lockwood out-board motors capable of going 27 miles an hour. The boat is 14 feet long by 47 inches wide, can hold two people, preferably one for racing, and stick out of the water with just enough surface in to propel themselves. They scoot about the water in a veritable water bug and are usually painted in bright colors. Several of the motor enthusiasts are going to get this type of boat, while others prefer the still more speedy Kris Kraft type.

This is going to be a big year in water sports on Spring Lake and the race on July 4th is but the beginning of races during the season.

FEDERALS CONTINUE TO WIN IN FACTORY LEAGUE

The Federals continued their winning streak by defeating the fast Hudson-Essex team to the tune of five to three. It was a real ball game all the way. Temple, pitching for the Hudson-Essex, was replaced by Lefty Vander Bunte in the sixth inning. No runs were made after that. Jake Boerman starred at bat for the Federals and H. Ter Haar and Hick Hoover for the Hudson-Essex. H. Ter Haar knocked out a two-bagger scoring two runs.

On Thursday night the Vac-A-Tap will mix with the Pickle team. Friday night there will be no game as the Holland Independents play.

The race is becoming very interesting with the teams tie for second place, the Hudson-Essex, Shoes and Holeman-DeWeeds. The Holland Baking company team should also start to win games with the new players they have. There are stronger teams than ever before in the league and the fans can figure on seeing some real base ball before the end of the season. All the teams are on an edge and are fighting hard to win and it is a long way to the championship.

WOLVERINE STARS ARE DEFEATED

The winning streak of the Wolverine Stars was broken Friday night when the West Olive team trampled over them to a 14-0 victory. The Stars apparently seemed to be the winners by getting four runs in the first inning, but the infielders contributed heavily to the error column and allowed run after run to be scored. Unema was replaced by Sakers in the sixth with little result. B. Schroeder, the West Olive shortstop, was easily the star of the game, making many pretty catches and getting two hits. Ed Wolens of the Wolverines connected with two pretty hits, while Japinga also got two bingles.

Score by innings:
West Olive 004 105 022 14 11
Wolverines 400 100 001 6 10
Batteries: Stone and Davis/Unema, Sakers and Westerhof.

NOORDELOOS TEAM IS SHUT OUT

The Cappon-Bertsch baseball team defeated the fast Noordeelos Independents Friday evening at Noordeelos. Chrispell of the Cappon-Bertsch team pitched shut-out ball throughout the game, allowing only one safety.

The final score was Cappon-Bertsch 9, Noordeelos 0. Batteries—C. B. Chrispell, Hopp; Noordeelos, Elzinga, Pyle.

INDOOR BASE BALL TEAM IS ORGANIZED

Saturday evening a meeting was held at which an indoor baseball league was formed. The following teams have entered: The West Michigan, Shoe Factory, De Pree Chemicals, Commercial Printers, and North Ends. One more team is needed to make it a six-team league. Those interested can get further information from Arthur Ploegma, 102 E. 17th St.

FEDERALS DEFEAT BAKING CO. 5-2

The Federals continued their winning streak by defeating the Holland Baking Co. five to two. The Federals have now won five games and lost none. It was an interesting game and the Baking company team showed marked improvement with their new line-up.

Tonight the Vac-a-Taps and Holeman-De Weeds will play at River view park. Should the H. & D's win they will go into a tie for third place with the Shoes.

Monday night the two leaders will clash for the first time, the Hudson-Essex and Federals. This should be some game as the Hudson-Essex are determined to win and again get into a tie with the last year's champions for league honors.

Mr. and Mrs. H. Barkema left Wednesday for Kelospeil, Mont., and will make their home. They have left for the west on account of Mrs. Barkema's health.

Herman Laug New Assistant of Troop 4

Herman Laug has been appointed assistant scoutmaster of Troop 4 in Coopersville and will act as scoutmaster during the summer while scoutmaster Veldhuis is away. Mr. Laug is a Hope student.

The Coopersville troop continues its splendid progress, and the people of the community have shown their approval by raising three hundred fifty dollars as the quota of the county budget and for troop purposes. Scout Leaders Complete Training
Four leaders of the Seascout Ship Paul P. Harris of Holland have completed the course of training given by the seascout department of the Grand

Rapids council and have received certificates of training. They are: Skipper Andrew Hyma, Mates Chas. Vos and J. Chas. Ash and Boatswain Mate Ted Wyma.

The Holland Ship is moving ahead with all sails hoisted. Semi-weekly meetings are being held and are becoming devoted largely to boat work. A motor boat recently given the ship is also being conditioned, thus giving the scouts some practical boatbuilding experience. Many cruises and other interesting activities are being planned for the summer.

National Seascout Director Thomas J. Keane of New York will be a guest of the Grand Rapids Council Saturday, and it is expected that many Ottawa County leaders will attend a banquet in his honor on that evening.

Scouts Meet With Campfire Girls
Troop 5 held its last meeting on Monday, June 13, 1927. No meeting was held on June 20th on account of the exams. At the meeting the Camp Fire Girls gave a ceremony demonstration.

The Beavers took a hike Saturday and 5 tests were passed. Wilber Husted passed tracking, Ellis Maddocks passed tracking and fire building, and Edward Ellinger passed nature lore and handicraft.

Edward Ellinger, Troop Reporter

This and Troop Reporter
City Commissioner Edward S. Hilder has left for the summer.
Troop 2 of Port Sheldon Township will hold its charter ceremony next Tuesday. Council President O. T. Schubert will preside.

The branch office in Grand Haven has been moved to the Red Cross room in the basement of the Public Library.
Scout Executive F. J. Geiger, accompanied by Assistant Scoutmaster Gilbert Hoefacker and Scout Calvin Strong, went to Camp Shawandosee Saturday afternoon and helped pitch tents. Nearly all tents are now up and everything will be in order when the first group arrives.
The scout executive visited Troop 8 last week.

Byrd Sends Message
Commander Richard E. Byrd, noted aviator, engaged in preparing for his contemplated trans-Atlantic flight, discussing aviation with Captain James H. Beard, Scout Executive, Borough of Manhattan, New York City, sent a message to Boy Scouts. He said: "A large percentage of the successful flyers of the future will come from the ranks of the Boy Scouts of America. The aviation merit badge of the Boy Scout program is an ideal step in the boy's choice of flying as a vocation, and the Scout ideals can be safely calculated to develop the sort of young men who can hope to succeed in the air."

"Aviation, of course, is in its infancy, and the future of aviation lies in the youth of this country. It depends upon them whether or not America shall retain her leadership of the air. For this reason I want to congratulate Boy Scout officials for their foresight in introducing the merit badge aviation. Such instruction spells development in this highly important field and lends itself to the accomplishment of the purpose of

every individual interested in aviation; supremacy of the air."

Camping and Hiking
1. A trained scout—like the pioneer of the frontier—should be able to live in the open. Hiking and outdoor camping, if properly conducted, provide this training. Boys desire to become scouts for the opportunity of seeing and living in the Great-Out-of-Doors.

2. For helpful camping and hiking, careful preparation must be made ahead of time. This preparation includes training, equipment, campsite or trail for hike, and tested water supply.

3. Scouts secure permission before entering private grounds. Scout hikers are alert to conserve, never to destroy property.

4. It is a rule of scouting, as well as of the woods, that if stacked firewood is burned, an equal or larger supply is stacked in its place.

5. All evidence of camp shall be removed by proper policing of grounds.

Any paper, unused edibles, or refuse shall be burned or buried.

6. Hikes may be classified as Adventure, Good Turn, Compass, Tracking and Trailing, Travel, Night, Exploration, Stunt, Game, Starvation, Father and Son, Camera and other types. (See Handbook for Scoutmasters.)

7. A hike or camp shall be so conducted that it provides adventure, experience, excitement, exertion, and something of surprise; but it must be planned and carried out with adequate trained leadership, and ample provision for physical safety and comfort.

8. Patrol hikes are permissible only with the full knowledge and consent of the scoutmaster.

9. All hikes and troop camps should be reported to local scout headquarters, with date, place, interesting features and list of scouts and leaders participating in the hike recorded.

10. Every hike and scout camp is a test and an opportunity for scouting. Make it a "Good Turn" experience.

Holland Lays Black Base Foundation

During previous years, the citizens and officials of Holland have noticed that the construction of the foundation of crushed stone took many more weeks than did the laying of the sheet asphalt surface. This has been annoying to them and, while it gave a very solid foundation, they sought to learn of something that would have all the good qualities of this type of base and be capable of faster construction.

The good features that such a foundation must have were that it should be solid, non-rigid, not subject to cracks, and not affected by the action of water.

Your Street Committee, together with other members of the Council, learned from the City Commissioners of Ludington, Mich., that they had been laying a "black base" foundation. They were told this had all these good points as it was composed of crushed stone, or gravel, sand and asphalt mixed, laid and rolled while hot.

Visits were made to Ludington and Grand Rapids and many thousands of square yards of this type of construction were shown them. It was decided to try it out and bids were requested on both the old and the new specifications.

MICHIGAN GRANTS DEGREES TO 1850 GRADS ON MONDAY

Many students from this vicinity are to receive degrees at Michigan next Monday. The board of regents of the University of Michigan, at its final meeting of the school year at Ann Arbor Friday night, approved degrees to about 1,850 seniors. The formal award of the degrees will take place Monday, on Ferry field if the weather is fair; in the West field house if rain threatens.

The graduating class, while not quite as large as some which featured the post war rush, is one of the larger classes of the university. Total graduates of the school year 1926-27 will number about 2,175, a total of 325 degrees having been awarded at different regents' meetings since last September.

Holland is well represented in the list of those who are to receive degrees next Monday. The master of arts degree will be conferred upon the following: Harry De Vries, Jacob Geerlings, Ruth M. Nibbelwink, Dora B. Young, Zeeland, Christian H. Roosenraad. Degrees will also be given to the following from this vicinity: B. S., Grand Haven, E. Ronda; Grand Haven, J. De Kiop.

Doctor of Dental Surgery—Zeeland, Herman L. Coburn.

School of Education—B. S., Grand Haven, Adriana Van Lopik. Medical School, Doctor of Medicine—Coopersville, Albert W. Myers.

A. B. Degrees—Fennville, Emily Jane Benson; Grand Haven, Eleanor J. K. Oel, C. Koch, Lucinda J. Sherwood.

College of Literature, Science and Arts—B. S., Saugatuck, Rebecca W. Ruley.

LOCAL STUDENTS PUNCTUAL LOT

Punctuality is an asset, and being right on the dot seems to be quite customary in Holland high school. There were 51 pupils who were not absent or tardy during the entire school year and many of these come from the rural districts.

The punctual ones are the following: Willis Arnold, Elmer E. Bauhahn, Evelyn Beach, Hazel Beerboer, Hermine Bouwman, Mabel Brower, Nathaniel Brower, Ola Charter, John De Kraker, Elbert De Weerd, Muriel De Witt, Marie Driscoll, Carl Emmick, Wilbur Ensfield, Frank Harbin, Jr., Edna Helmbold, Leslie Hofstee, Evangelina Horning, Grace Illig, Louis Jappings, Robert Kamp, Louis Katherine Kemker, Harold Klaasen, Chester Kramer, Howard Kronmeyer, Peter Lugers, Preston Luidens, Reo Marotte, Marian McCoy, Leroy Naber, Carroll Norlin, Marguerite Oudemool, Frieda Overway, Lloyd Patterson, Hester Pellegrin, Merle Rignier, Dorothy Schipper, Edith Slighter, Henry Smith, Margaret Smith, Charlotte Strabbling, Margaret Tibbe, Edna Tuttle, John Vanden Belt, Wilmer Vander Hoop, Clarice Van Doesburg, Jeanette Van Slooten, Lewis Verburg, Edward Wendell, Margaret Wierigink, Barba Zook.

One Sensational 1-1-National Shant, Leonard Rummel, Henry Terpin, Henry Vander Putten, Theodore Steketee, Dorothy Kamerling, Rudolph Frundt, Pauline Baker, Viola De Witt, Irene Plakke.

ZUIDEMA TAKES NEW POSITION

Dr. Alle D. Zuidema, for twenty years a member of the faculty of the Detroit Conservatory of Music, ten years of which he has also served as a member of the board of trustees has resigned and has accepted a similar position with the Detroit Institute of Musical Art, which school boasts one of the strongest faculties in America. He will sail from New York, June 25, for a period of study in Belgium and England, taking up his new duties about September 11th. He will continue as organist and choirmaster of the Jefferson Avenue Presbyterian church, which position he has held since 1910.

SPRING LAKE PIONEER DIES AT SAUGATUCK

Mrs. Ellen Fox, a pioneer resident of Spring Lake, died at the home of her daughter, Mrs. Mary Snay at Saugatuck, on Wednesday night after a short, acute illness. Mrs. Fox had not been in robust health for some time and a week ago went to the home of her daughter for care.

Mrs. Fox was 88 years old and lived in Spring Lake 77 years. Her father was the owner of the first tavern in Grand Rapids and she had seen that section develop from a wilderness to the present thriving city. She was a member of the Baptist church and an ardent worker and a member of the W. C. T. U.

Mrs. Fox was the head of one of the largest families in that locality and is survived by ten children, 70 grandchildren and 25 great grandchildren. The following are the children: Mrs. William Fox Snay, Saugatuck; Mrs. John Roda, Ludington; Mrs. Peter Enge, Grand Haven Township; Mrs. Jas. Berghorn, Muskegon Heights; Mrs. Fred Wattleboro, Muskegon; Curtis Sparks, Grand Haven; Amos Sparks, Muskegon Heights; William Sparks, Spring Lake and George Sparks, North Muskegon.

COOPERSVILLE DRIVE FOR BOY SCOUT FUNDS PASSES \$350 FIGURE

That Coopersville people are very much interested in the boy scout movement is seen when reports show that the campaign for funds has passed the \$350 mark, with more still to be turned in. The campaign, which began last week, has been conducted intensively and every house has been or will be canvassed. The response has been even greater than anticipated, and Ellis P. Lillie, chairman of the drive, is highly elated over what has been accomplished. The scouting movement which has been very slow in getting under way in Coopersville seems to have "arrived" at least, under the able leadership of Scoutmaster Veldhuis and county officials now back the troop as one of the best under the jurisdiction of the council. Now that the boys know and realize that the community is back of them they will work harder than ever to merit continued support and will try to show the people of Coopersville what scouting is and what it will do for the boys of any town if given half a chance.

GETS PH. D. DEGREE FROM U. OF ILLINOIS

Mr. Harvey Kleinhekel was recently graduated from the University of Illinois where he received his degree of Ph. D. Mr. Kleinhekel received a scholarship in chemistry from Hope college where he received his degree of A. B. in 1922. He was accompanied on his return to Holland by his father, Mr. H. Kleinhekel, his sister and Mr. John S. Dykstra, who attended the graduating exercises.

DEATH COMES TO MRS. W. H. BEACH EARLY THURSDAY

After an illness of many weeks, culminating in double pneumonia, Mrs. W. H. Beach died early Thursday morning between three and four o'clock at her home at 140 East 12th street. Mrs. Beach had been in poor health for some time but she was not confined to her bed until the 11th of May when she was taken down with pleurisy, which later developed into pneumonia. She had been in a critical condition for some days and on Monday it appeared for a time as if the end had come, but she rallied, showing remarkable vitality and it was not until early Thursday morning that her heart gave out. Mrs. Beach, who was one of the best known and best loved women of Holland, was born in Cleveland, O., where she received her education in the public schools, later serving for a few years as a teacher in Michigan. With her parents she moved to Saginaw, where she was married to Mr. Beach in 1874. Her maiden name was Myrtle A. Sawyer.

In the year of their marriage Mr. and Mrs. Beach moved to western Michigan, first living in Muskegon for a brief period, later moving to Holland where they have been residents ever since. Mrs. Beach has always taken a prominent part in the life of Holland. She had a large circle of friends and she took a large part in social activities until few years ago when failing health made it impossible to keep up such activities or to see as much of her friends as her hospitable nature prompted.

She was a charter member of the Century club, a charter member of the Elizabeth, a member of the American Revolution, a member of the Woman's Literary club, and a member of Hope church during most of the period that she was a resident of Holland. The first meeting of the Century club was held at her home.

She was a woman of beautiful character, always kind and considerate and always eager to do something for others and to bring happiness into the lives of others. Even during her last illness although she suffered great pain much of the time, she was concerned about the comfort of others and displayed a cheerfulness that is unusual under such circumstances. If she had lived, Mr. and Mrs. Beach would have celebrated their golden wedding anniversary next April.

She is survived by her husband, one son, Chester L. Beach, and one daughter, Miss Myrtle K. Beach; also by six grandchildren.

FIND OIL ON BOTH SIDES OF HOLLAND MAN'S PROPERTY

Anson A. Parla, rural carrier, left Friday for Los Angeles, Calif., where he will spend his vacation attending to a business matter. A few days ago Parla received a notice that oil had been discovered on both sides of some property that the local man owns. As a land holder in the Golden Beach area, Parla is very anxious to be on hand when operations are started on his own property. Mr. Parla is driving through and hopes to make visits in Iowa and Nebraska during his trip across the country.

NEARLY \$50,000 IN LEGACIES TO HOPE REPORTED

President E. D. Dimment of Hope college today announced gifts to the college during the past fiscal year for the permanent endowment of the institution of close to \$50,000.

Announcements were made to the council of the gifts this week but to the public no report was given until today. The late Mrs. Arend Vischer gave the college a legacy of \$10,000 to be used as a memorial fund for her husband, the late Mr. Arend Vischer, and to be known as the Arend Vischer Memorial Fund. The income from the money is to be used for specific purposes, the details to be worked out by the four children, Mr. Oswald Vischer, Mr. Raymond Vischer, Mr. Arthur Vischer and Miss Anne Vischer.

Legacies amounting to approximately \$25,000 were given for the library and for the president's salary. In this amount is included the sum of \$5,400 in the will of Mrs. Catherine Clemens Van Wyk, of Evanston and Chicago, the income from which is to be used for library purposes. Also included in the \$25,000 is the sum of about \$12,000, one half of the residue of the estate of Rev. Harry Du Bois Mulford, D. D., of New York City, an old friend of the institution and at one time a member of the council of the college. These sums, together with other amounts, will bring the total near to \$50,000 for the year.

In addition to that, the building fund for the new chapel that is to be erected on the southwest corner of the campus has been increased during the year by about \$38,000, Dr. Dimment announced today.

FISH NURSERY IS ASSURED

R. A. Smith, state geologist of Lansing, was in Holland Friday at the request of Joe Rhea, president of the Holland Game & Fish Protective association. Mr. Smith met with the committee having in charge the prospective fish ponds to be installed near Holland for the propagation of bass and bluegills. He has looked over some of the sites and has made certain recommendations that are to be followed out. The club has several fish ponds located under consideration and sportsmen are assured of such a fish nursery in the near future. It is stated that when completed it will be a show place worth visiting.

Two young job seekers from Missouri received a treat in Holland last night that will last them the rest of their long trip. It is doubtful if they will ever forget it.

After returning from a business trip outside of the city limits Friday afternoon, Henry S. Bosch, city inspector, met Francis N. Dawson and J. H. Perkins, of Webster Groves, Missouri, stopping down the road. The officers offered the boys a lift, which they readily accepted. After a little questioning, Mr. Bosch discovered that the lads had traveled all the way from Oberia, Mo., where a Junior college is located, both lads being students at this place.

After traveling along the road and sleeping where they could, they arrived in Chicago last week. Their destination is Mackinac City, where they expect to find employment. They were left without any money in Chicago for traveling and had expected to ship on board a lake steamer but those passage ways were filled.

When picked up by Mr. Bosch the boys stated that they had missed a couple of meals, so when they arrived in Holland the kind-hearted officers took them to a local restaurant and soon the lads had their cravings satisfied. Both boys were loud in their praise of the Dutch hospitality.

Young Dawson is an accomplished harmonica player and in order to pass some of the longsome hours the lads spent their last fifty cents for an old fashioned mouth organ. As soon as they had that, things looked more cheerful.

Vets' Encampment Formally Awarded To Grand Rapids

Grand Rapids, June 22—A delegation representing the Grand Rapids, Mich., call President Coolidge at the time of his visit to Mackinac Island where he will address a session of governors from leading states in July and invite him to attend the sixty-first national encampment of the Grand Army of the Republic, which will be held here the week of Sept. 11, it developed Tuesday at a meeting of national officers and local interests to make arrangements for the veterans' meeting.

Members of the executive committee, national council, G. A. R., and representatives of the city and state signed contracts late Tuesday afternoon providing for the holding of the national encampment here Sept. 11-17. Heading the committee was C. D. R. Stowits of Buffalo, national quartermaster general, and A. Hosley of Boston, national chief of staff, was here for the proceedings.

National Commander Frank A. Walsh of Milwaukee, who was unable to attend, sent as his personal representative George W. Morton of Berlin, Wis., adjutant of the department of Wisconsin. The terms of the contract were practically identical with those of the 1925 encampment here.

Necessary funds for defraying the city's part in entertaining the veterans and providing for other convention expenses will come from an appropriation of \$10,000 made by the last legislature as the result of a bill introduced by Sen. James C. Quinlan. An order secured by Sen. Quinlan as the result of action of the state administrative board makes the funds available for this year instead of 1928 when it was originally planned to entertain the veterans at a national encampment.

Gen. Stowits explained that because of lack of hotel facilities and difficulty in meeting other requirements, Dayton, O., which was selected last year as the meeting place for the 1927 encampment, had agreed to cancel its contracts. The Central Passenger association will offer the usual cut rate railway fares to the encampment, he said.

Local representatives taking part in the meeting were Mayor Elvin Swarthout, Postmaster Robt. G. Hill, Lawrence W. Smith, president and Lee H. Bierce, secretary, of the Association of Commerce, Sen. Quinlan, Fred J. Pantlind and Walter L. Funk. Mr. Bierce presided.

Circuit Judge O. S. Cross is acting as probate judge in Allegan county pending the appointment by Gov. F. W. Green of some one to fill the vacancy caused by the death of Probate Judge Chas. N. Thew. It is expected that Governor Green will fill the vacancy within the coming week.

NINE-YEAR-OLD BOY DIES FRIDAY AFTERNOON

Julius Charles Essenberg, nine-year-old son of Mr. and Mrs. Jacob Essenberg, died Friday afternoon at his home on Rfd. No. 4, after an illness with spinal meningitis. He is survived by his parents and three sisters, Alberdina, Lillian, and Mae Rose. The funeral was held on Tuesday.

ENGAGEMENT OF LOCAL GIRL IS ANNOUNCED

At a dinner party given in honor of Mr. and Mrs. Isaac Doak, Rev. and Mrs. E. Vander Werf announced the engagement of their daughter, Alda to Mr. Nelson Doak of Amsterdam, New York. The out-of-town guests were Mr. and Mrs. Hilbert Vander Werf of Muskegon, Mr. and Mrs. J. A. Vander Werf of Grand Rapids and Mr. and Mrs. Isaac Doak of Amsterdam, New York.

SUMMER WHITE HOUSE NEAR TWO FOREST RESERVES

The "Summer White House" in the Custer State Park in the Black Hills of South Dakota, where President Coolidge will spend the summer, adjoins the Black Hills National Forest and the Harney National Forest, which are not only rich in Indian lore and pioneer historic interest but furnish one of the earlier examples of forest management in the United States. The president therefore will have the opportunity of both enjoying the hospitality of the state of South Dakota and of making himself at home on a million acre federal forest estate.

The state park of 60,000 acres, where the summer White House is located, is adjacent to the Harney National Forest and a few miles south of the Black Hills National Forest. This park was the southeast corner of the Harney National Forest until the federal government exchanged it, as a solid block for state lands scattered throughout the federal President Cleveland in 1897, have all holdings. The two forests set aside a net area of 1,136,167 acres of government land, 50,000 acres of which are in the Theodore Roosevelt Game Preserve and 50,000 acres in a federal game refuge adjoining the state park. Within the present boundaries of the forests there are also 240,457 acres of patented lands, some of them in prosperous farms and ranches on the stream bottoms, some timberland more or less abused by hard cutting and fire and some mining claims.

The name "Black Hills," was given to the region by the Sioux Indians. In their tongue it was "Paha Sapa," in allusion to the somber appearance of the forest clad heights as seen from the plains. The Harney Forest was named for General Harney who was one of the early explorers of the region.

The president will have opportunity to see how national forests are administered and developed. He can see how timber sales are made under the methods that keep the forests growing; how grazing is regulated to keep the range green and how land more valuable for farming than for timber growing has been made available for homesteading. The first timber sales in any national forest were in the Black Hills in 1899 when the timber to be cut was so carefully selected, under scientific forestry, that the area can be cut again by 1935. About 25,000,000 board feet of logs are cut each year from these federal timberlands under the same methods with such an improvement to the forest that the foresters expect to maintain this annual harvest forever, and even to increase it to 40,000,000 feet. This is partly because the old defective trees in the virgin forests are removed in the first cut, and the thrifty sound trees left to grow. When the logger comes back 35 years later the timber he then gets is much more free from rot and other defects than was that cut the first time. Also, young timber is coming in on old burns and other barren places and will thus increase the areas which may be cut over every 35 years.

Within and near the Jack Hills and Harney National Forests are many points of interest, the most famous of which is the famous Hot Springs at the southern end of the Black Hills are visited by thousands and the Wind Cave National Park and Jewel Cave National Monument also are well known. Harney Peak, the highest point in the United States east of the Rocky Mountains, Custer Peak, the "Needles," and Sylvan Lake are other points of interest, as well as the old mining town of Keystone, where is located the famous Holy Terror mine, from which came the richest gold ore ever found in the world. Tradition says this mine was named in honor of the discoverer's wife.

The recommendation that Muskegon Heights, North Muskegon and Muskegon consider the possibility of uniting in one municipality, with a population of more than 60,000 before the taking of the 1930 census, was made before the members of the Muskegon County Real Estate board by John C. Beukema, secretary of the Greater Muskegon Chamber of Commerce.

Appointment of three committees, to be made up of representatives business men of each of the three separate municipalities, to study the advantages and disadvantages of combining into one governmental unit, was suggested by Mr. Beukema as the first step toward amalgamation.

"I would not propose to state amalgamation of the three cities into one would be the best move for everyone concerned," said Mr. Beukema. "That would be a thing for the separate committees to determine based on the facts of the situation as they would find them in a thorough investigation."

Unless there is developed a strong positive sentiment in all three communities, however, favoring their union, it would be a grave mistake to attempt to bring them together into one city and under one municipal government. The initiative is this move and the absolute barometer as to whether it should be made should come from the people."

THE HEART of the HOME

If home is to have that gripping influence that holds us secure in life's most treacherous storms, it must be cozy. Some folks live in homes—others in houses. And it is not difficult to tell to which class a person does belong, is it?

The person whose life is strengthened by a happy, cozy home is one that we all admire.

He is one that can smile in the face of any struggle. He is a person who fills the rest of us with confidence. That is the kind of character that we all want to have. So let's strengthen our home influence all we can. Let's start with the HEART OF THE HOME.

SMALL SERVICES HELP IN SELLING WEST MICHIGAN

West Michigan's opportunity to give small services that will "sell" the region to its thousands of summer visitors is at hand, Clarence V. Smazel, executive secretary of the Development League of Western Michigan, points out. Here are a few suggestions he offers regarding service the general public can give to tourists:

If you see a tourist stalled along the highway with automobile trouble stop and ask if he wishes you to have a service car sent out from the nearest garage on your route.

If a tourist stops at a corner, obviously wondering which way to turn, and you may be able to advise him, don't drive on by but show him that you are interested in his pleasure and well-being by guiding him on correctly.

Know your community and its attractions; people don't always think of the things they want to know when at regular information bureaus. If you can answer the question asked say so, and advise where it can be answered conveniently on the tourist's way. Misdirection of insufficient direction often only serves to make matters worse.

Dozens of little things of this nature can be done, Mr. Smazel points out, which will make a man go on his way well pleased, feeling good toward the individual, the community, West Michigan, and be remembered among the pleasant experiences of the trip, whereas otherwise they might be listed among unpleasant or at least trying experiences of the vacation.

Muskegon's school tax next year will be almost identically the same as it was this year, with possibly one mill drop below the \$12.80 rate established by the board of education last June. The budget totals \$887,537 with income from endowment funds taking \$151,000, leaving a balance of \$736,537 to be raised by taxation, or \$6,928 more than last year.

Dr. J. B. Nykerk motored to Grand Rapids on business Friday.

Mr. and Mrs. Frank Oosting and their guests, Mrs. Wm. Frazer and Mrs. Pearl Hanford, have left for a week's fishing trip to Kalamazoo.

CYCLONES MEANS OF INTRODUCING STORM INSURANCE

FREQUENCY OF DESTRUCTIVE WINDS SEND MANY UNDER COVER WITH POLICY

The month of May was for the Windstorm company, one of the most outstanding in its history in the volume of new insurance obtained for that month—the total being \$9,986,000.

From the records which we have given for preceding months it becomes evident that if the good work keeps on as it has started so well for the first five months of the year, the company will make an even larger gain in insurance in force in 1927 than it did in 1926, when the gain was \$35,000,000 for the year.

Possibly it was the fact that destructive cyclones visited the north-east part of the state and a destructive windstorm swept across the extreme southern part that helped swell the total of new insurance for the month. Early in May a cyclone visited Clare county, also some of the neighboring counties in that section of the state, destroying a number of barns and doing a good deal of damage. Later in the month, the windstorm which swept through the southwest and southern part of the state damaged property to quite an extent. It is strange that it should be so, yet it is undeniably true, that a destructive windstorm or a cyclone within the state always means a rush of new policies for the Windstorm Company. That fact is again illustrated in this case. You would think it would be realized at all times that such storms may happen, and that it is wise to keep well insured, even with no storms to warn the danger. But when a storm destroys property it surely wakes up many folks to the danger of loss by windstorm, who would otherwise neglect their own interests. No doubt the record of new policies will be maintained through the month of June according to the present indications, with the result that 1927 will be a year of large growth for this company.

To add in a single month almost \$10,000,000 of new insurance is indeed a remarkable record. It shows the high standing which this company has in the state of Michigan and evidences its satisfactory dealings with its patrons. Both are conclusively proven by the company's record of new insurance for the month of May. The company has sent out its agents as quickly as possible to make adjustments wherever it has met losses. The promptness with which it has paid its losses and the square manner in which it has dealt with its patrons, when they

have not had losses to adjust, have brought the company into favorable contact, not only with its patrons, but also with many who have become its policy holders by reason of its straightforward dealings.

NEW PHONE CO. ORGANIZED IN ALLEGAN COUNTY

Papers have been filed with the Michigan Public Utilities commission in Lansing looking toward the organization of the Tri-County Telephone company which will operate in Cass, Van Buren and a part of Allegan counties.

According to the incorporation papers, Dr. O. N. Vaughan of the Van Buren County Telephone company will be president and actively in charge of the management; Mr. G. M. Welch, vice-president and general manager of the Michigan Bell Telephone company, vice-president, and Mr. A. B. Chase, general manager of the Van Buren Telephone company, secretary and treasurer of the new company.

Dr. Vaughan states that the new company is formed by consolidation of the Van Buren County Telephone Co., the Dowagiac company, certain properties of the Michigan Bell Telephone company, and certain toll lines between exchanges of the new Tri-County Telephone Co. The value of the property, according to Dr. Vaughan, will be something over \$1,000,000.

Dr. Vaughan says that the consolidation has been made because of the advantages, in the interest of both economy and service, of operating under one management. The whole area is closely tied because of the fruit industry and according to Dr. Vaughan, the service of the area will be better having the toll lines within the area and the exchanges under a single management rather than under the three managements at present. He states that a new toll board is now being placed in South Haven and that it will be ready for service about June 1. This new board, according to Dr. Vaughan, is of such capacity that the toll service between South Haven and other points will be much improved over previous years, and with a more complete system of toll lines reaching to its exchanges the Tri-County Telephone company will be enabled to render an even better toll service than either the Van Buren County Telephone company or the Dowagiac Telephone company has been able to render in the past.

Dr. O. N. Vaughan is a prominent physician with headquarters in South Haven and has been president of the Van Buren County Telephone Co. Mr. G. M. Welch, the vice-president of the new company, who has been vice-president of the Van Buren County Telephone Co. or the Michigan Bell Telephone company several years, and which position he continues to hold, is a telephone executive well known in the management of telephone companies in Michigan.

A. B. Chase, secretary and treasurer of the new company, was formerly a general manager of the Van Buren County Telephone company with his headquarters at South Haven, and is well known in independent telephone circles of Western Michigan. The telephone headquarters of the new company will be in South Haven.

All are invited to come to Maplewood school on Friday evening, June 24, and enjoy an excellent program. This school is one mile south and 1/4 mile east of 1st ave. and 32nd St. Tickets will be sold at the door.

DISPOSAL PLANT IS A CREDIT TO THE CITY, IS REPORT

Both the Grand Rapids Press and Grand Rapids Herald commented favorably on the fact that this city has installed a sewage disposal plant of the most improved type.

The editorials in question speak for themselves:

Grand Rapids Press—The Press correspondent reports that Holland's new sewage disposal plant has proved itself a complete success in three months. This plant is very much on the order of the one to which Grand Rapids is gradually working as it constructs its new sewer system and for which we have already passed a bond issue.

Holland's plant is a "clarification" rather than "purification" type. Grand Rapids expects by a similar plant to remove sixty per cent of the suspended solids so that river dilution within a short distance may render harmless the remaining forty per cent of finely divided solids and dissolved impurities. Holland's success in using this type of plant discharging into Black lake is encouraging.

Of course it is impossible to achieve absolute purification even with the purifying plant Grand Rapids may decide to put in. Storm sewers necessarily will send their immense flood directly into the river, laden with street dirt. Street and garage oil and similar impurities will find their way to the river. A city cannot live on land has shown this may successfully body of water without a certain amount of pollution. But Grand Rapids intends to reduce the amount by land disposal so that the residue reaching the river will rapidly be rendered pure by natural aeration. Holland's sewage disposal method.

Grand Rapids Herald—Holland Leads the way:

It will be safe this summer to bathe in Black lake. Cottages along the shores of Black lake now should increase in popularity. The water may continue to be dark, as it was when the Indians named the lake, but it will be as pure and clean as the average of other bodies connected with the Great Lakes. That achievement means a great deal to western Michigan, especially to the resort and business communities in southern Gt. Lake county.

For seven years Black lake has been badly polluted. Its waters have been unsafe for bathing. Dead fish floating on its surface, have given evidence of the poison in the water.

The city of Holland, as well as industries along the lake shore, were pouring raw wastes into Black lake. It was treating sewage as a cesspool. Not until conditions became so bad that surrounding resorts noted the results in reduced income and in lowered land values, did the cleanup of Black lake start. Now, however, Holland, as a result of that cleanup, enjoys a distinction too rare among Michigan cities. Holland is operating a sewage disposal works which removes all solids from the human wastes and treats the clarified product in such manner as to destroy all contamination.

Holland, by its speedy installation of a scientific disposal plant, has earned the envy of other western Michigan cities. With a tank system which does more than a half-way job of purifying the sewage, Holland is protecting its beautiful resort country by guaranteeing the purity of not only Black lake but of the immediately adjacent Lake Michigan waters. Other western Michigan cities, still contemplating their streams and lakes, are injuring their greatest resources, while Holland protects hers. The sooner other cities follow the lead of Holland the better will be the health and the greater prosperity of western Michigan.

GOV. GREEN NAMES NEW PROBATE JUDGE

Augustus S. Butler, native of Allegan and recently elected city treasurer, Saturday was appointed by Gov. Green to fill the unexpired term of the late Probate Judge Charles N. Theis.

Mr. Butler has lived in Allegan since birth and has been prominent in civic affairs. He was graduated from the University of Michigan Law school but had not practiced law in recent years. His father established the first bank in Allegan.

Judge Cross was acting judge until the vacancy was filled.

Deputy Game Warden Frank Salisbury was in the city for a few days on official business for the state.

Born to Mr. and Mrs. Jerry Van Ark, W. 12th Street, Tuesday, an 8 pound, 13 ounce boy.

Fred Vos of Allegan, well known in Holland, resigned as alderman of the third ward in that city. Alderman Arson Coburn of the second ward was appointed in his place by Mayor Mosler and Fred Hale was in turn appointed alderman of the second ward, the place vacated by Coburn.

Judge Oren S. Cross of the Ottawa and Allegan circuit is holding court in Manistee for a week, taking the place of another judge.

The ladies aid society of the Ninth St. Christian Reformed church will hold a sale Thursday afternoon, June 23, in the church parlors. Refreshments will be served.

Under the auspices of the home missionary society of the Methodist church a religious drama, "The Rock," will be given at that church in the auditorium on the evening of July 8th, at eight o'clock. This drama deals with the life of Saint Peter and other apostles.

Miss Helen Fleming of Albion called on friends in Holland Tuesday. She has been the guest of Miss Bronson of Ganges for the past two weeks and returned to her home Wednesday. She is the daughter of Rev. G. B. Fleming, former pastor of the Methodist church here, and is a Sophomore at Albion college.

LOCAL STORE OPENING PROVED A GREAT SUCCESS

MORE THAN 3,000 TAKE SOUVENIRS FROM THE ROSE CLOAK EMPORIUM

The Rose Cloak store Friday moved from its old quarters into their beautiful newly remodeled building a few doors west of the old location. Saturday was open house and more than 3,000 souvenirs were given away and the crowd was beyond all counting.

The Rose Cloak was established ten years ago on College Ave. and 8th St., by Mrs. Rose and four years ago Mr. and Mrs. Tad Taft bought out the business and there has been a steady growth since. It was found that the floor space in the old building was entirely inadequate and two years ago the management purchased the Ward building at 31 East 8th street, and for the past six months, local masons, carpenters, decorators and electricians have been busily engaged in reconstructing the building and putting it in first class shape for the Rose Cloak's new home.

The local firm now has ten times as much floor space as was available in the old building.

Mr. Taft came to Holland from Chicago where he was engaged in the wholesale coat and dress business and saw that Holland was a wonderful place to live and do business in. He saw that this city had a future and for that reason he has built the size of his new store accordingly.

The first floor and part of the basement are being used for store purposes. The show windows are of unusual beauty, being done in Italian Lava marble. A new daylight reflector system lends added beauty to the store and the deflection of light cannot help but add to the beauty of the garments displayed in the interior.

The interior of the store is done in a soft shade of grey green. The walls are painted in egg shell and decorated in buff by local decorators. There are five plaques in beautiful colors made of anaglypta.

The floor is covered with rose taupe carpet which harmonizes with the entire decorating scheme, lending an elegance to the store.

There are wall cases specially made to care for garments and there are also three large fitting rooms with special mirror equipment.

The show windows especially are of interest. They are of Mr. and Mrs. Taft's own design and they spent a year planning them. As a result they have the benefit of what amounts to four show windows instead of two, each being doubled in capacity and displaying power because of the unusual design.

Peter Kolan, Holland fighter, has been booked to meet Ivan Shipoy of Grant in one of the preliminary bouts at the Muskegon go on Thursday night of this week.

Grand Rapids Press—A demonstration of night spraying, a new orchard practice in Michigan, will be given on O. H. Roth's fruit farm near Peninsula. A new daylight reflector system lends added beauty to the store and the deflection of light cannot help but add to the beauty of the garments displayed in the interior.

Many orchardists were inclined to question the practicability of night spraying after hearing Prof. H. A. Cardinell, extension pomologist, explain his 1926 work in the Huron fruit farms near Ann Arbor, during the horticultural convention in Grand Rapids last winter. These doubts, however, were dispelled when they were from Missouri and had to be shown, will be shown at the first night meeting on the evening of July 26.

Prof. Cardinell will supervise the demonstration. A dust spray will be given and the application will be made with a bright spot light focused upon the trees. Tests in the orchards of the Huron fruit farms last year convinced the pomologist that night spraying has enough worth-while advantages to commend the practice for general adoption.

"Spraying usually is a battle with the winds, with frequent rains between the blows," Prof. Cardinell, who has found night applications greatly simplify spray operations, said. "Wherever winds are troublesome factors it is easy to enjoy night spraying. That army of orchardists who spray with the wind and will not face a wind full of lime-sulphur or nicotine, will find night spraying an ease and a comfort. An operator may spray a spray a wind in the daytime and at night protect the other side, instead of experiencing the delay of days and the uncertainty of waiting for the wind to change.

"It is astonishing how much more spraying can be done in five or eight hours at night than during the heat of the day. The worries of the day are not problems of the night. If a night shift at dusting or spraying is a desired thing then it is no trick to prepare for it. A good light that will envelop the tree is the first condition. An open flare with a 14 or 18-inch reflector is ideal.

"One crew can spray during the day and another at night. Usually the same crews will spray day and night and then sleep it out.

"Unless there is a known reason why night spraying cannot be safely done it will be worth the consideration of every operator of large orchards. The diversified farm will especially appreciate doing the spraying in few days. Unfortunately too many orchardists try to apply it the day time. Night has a monopoly on calm."

She was a passenger on the steamer Cedric, which left New York this month for Liverpool. From there Miss Smallegan will re-embark on the Herefordshire for Colombo, Ceylon, thence by rail and boat to her destination.

Mr. Dan W. Elferdink of Detroit, and John and Gerrit Elferdink of Grand Rapids were guests over Sunday of Mr. and Mrs. George Elferdink and Mr. and Mrs. Joseph Hume of this city.

In the course of his many years of work, the old sexton has buried all kinds and classes of people. After the old section of the cemetery was found to be too small, the board purchased the new addition. It was laid out according to the plans of Mr. Van de Water and today the new section is one of the most beautiful cemetery spots in Western Michigan.

In all of his 70 years Mr. Van de Water has had only six months of vacation. Once he took a trip to visit the cemetery. He has been working for the cemetery for 30 years. This winter he took a trip to California for three months. He started work when eight years old and has had only two vacations since that time.

At the time Mr. Van de Water took the cemetery position he was also sexton of Hope church. He held this position until the year of 1917. Then his work at the cemetery demanded so much of his time that he had to give up his church position. He also served several years as foreman on the West Michigan & Chicago line. He gave up this job because of having to work Sundays.

New Essex Super-Six Line Announced

Largest Production in Hudson-Exess History Ordered

(Above) The new Essex Super-Six Coach is built with curving lines which give it a pleasant appearance from any angle. Like all other Essex bodies it is lacquered in two colors and attractively striped.

(Above) Essex, which created the Coach type body, has perfected an arrangement which makes entrance to the rear compartment easy.

(Right) Essex power is increased through a motor which is improved throughout and slightly enlarged. These new Essex will travel easily at better than a mile a minute.

New Essex Super-six cars—larger, finer and more powerful—are announced by the Hudson Motor Car Co. They are now on display at the Holland Hudson-Exess garage.

This unexpected announcement embodies one of the dramatic automobile stories of the year. Since the Essex Super-Six was first introduced this year the demand has been continuously ahead of the number which Hudson could manufacture, notwithstanding the largest schedule of cars in its history was steadily maintained.

Most companies would have been more than content with such remarkable business, but the Hudson-Exess organization decided both to improve the Essex still further and to enlarge the production facilities. To accomplish this Essex production was expanded while there were actually thousands of buyers waiting for cars. This drastic action gave full right-of-way to the improved cars, which are now being shipped at the highest rate by far in Hudson history.

The improvements in the new Essex affect both its performing ability and its appearance. The motor is improved in detail and is enlarged in displacement by about 10 per cent. This is accomplished by adding one-quarter inch to the stroke, the new dimensions being 2 1/16 by 4 1/2 inches. The crankshaft is larger and heavier, the connecting rods redesigned,

and the bearing enlarged to care for the additional power loads.

Experimental runs in the new Essex have shown it capable both of higher speed and of improved performance throughout its entire range. Maximum speed is now well above mile-a-minute, while the company continues its assurance that the car may be safely driven at 50 miles an hour all day long. Even at its best performance, the motor operates smoothly and without apparent effort. The Essex motor retains its essential high-grade items: aluminum pistons, all connecting rods balanced, a crankshaft built under Hudson Super-six principles, roller tappets, front end drive by silent chain, highly developed splash lubrication, etc.

The new bodies are more attractive throughout. The rear quarters of all enclosed cars—the coupe, the coach and sedan—are rounded in pleasing curves. All these cars too, are painted in two-tones. Mouldings and window reveals are employed as decorative features. The wheels are an inch smaller setting the whole car closer to the ground. Road clearance, however, is not affected, because of a change in the rear axle design. Large sized tires give the whole half of the car a remarkably trim and dapper appearance. Typhloster is in fabric of richer design and materials than ever before used in Essex cars. All

enclosed cars have dome light, door pocket rear vision mirror, window curtains, transmission anti-theft lock, an all instruments grouped under glass and indirectly lighted.

An interesting advancement has been made in the seating arrangement of the coach. The right front seat is mounted on a mechanism that allows it to slide forward far enough so that passengers in the rear seat may leave or enter the car without disturbing the front seat rider. The action of this device is entirely simple and positive, and added decidedly to the convenience of the coach-type enclosed car.

The coupe is finished optionally in leather for business purposes.

List prices of the new cars, f. o. b. Detroit, and color combinations are:

Essex speedabout—2 passenger—\$200; entire body and hood in Sahara Sand; moulding and wheels Emerald; stripping black edged with red.

Essex coach and coupe—each \$735; finished in two tones of green; moulding in black with green center and edged with straw color. Essex coupe trimmed with leather \$15 extra.

Essex sedan—5 passenger, \$835; finished in two tones of Gray, moulding in black with green center, edged with cream color.

39 COTTAGES RAZED BY FIRE

Now that the ruins have cooled and a checkup can be made of the burnt-over area at Macatawa park, it is found that 39 cottages were razed in the latest blaze at that resort. It is difficult to estimate the actual loss and any figure is guess work at this time, but roughly the figure is given as \$250,000.

It is believed that the blaze started in the cottage of Dr. M. J. Cook, either because of a defective chimney or from sparks falling on a shingle roof. Mrs. Cook had been cleaning during the day. She had the new curtains hung and had deposited a few papers and rags in the grate. She set fire to them and waited until the rubbish was all consumed. Then she stirred the grate and found that there was no more fire left.

Dr. and Mrs. Cook and son were going to occupy the cottage this week for a few weeks. They were coming early this year since they had a prospective buyer for the place.

The cottage was located on the lake front near the bathhouse at Grove Walk. Fanned by a northwest wind that carried the licking tongues of fire from shrub to tree and from tree to cottage, the blaze rapidly gained momentum and swept irresistibly down the lake front until it was halted only by the waste left in the wake of the April fire.

The Holland fire department, which halted the April blaze and saved a portion of the cottages then standing, responded to the call, but was forced to confine its efforts to keeping the flames from spreading to the north.

The fire had a free sweep south and with a brisk wind blowing against the hillside a variable draft pulled flames thru row after row of cottages and with the equipment at hand there was no possible way of saving them until the fire burnt itself out and there were no more cottages to burn.

The fire made a clean sweep from Grove walk to the burnt over district of last April when 35 cottages were destroyed.

Chief Blom had one large pumper on the dock at Black lake, throwing two large streams, and it is the Holland fire department that saved the row of cottages on Grove walk. Hotel Macatawa, and the large grove of forest trees in that section of the resort.

When the alarm was turned in, Chief Blom ordered out Holland's big pumper and the firemen made the run of six miles in nine minutes. In a comparatively short time, two strong streams were playing on the fire, which could only be fought from the north because the pumers could not negotiate the deep sands on the lake front, there are no adequate walks to support such heavy apparatus.

The fire department returned to Holland at 5:30, having done all that possibly could be done with the impossible surroundings to get to a fire that exist at Macatawa.

Within the last five years more than half of the summer homes have been destroyed at Macatawa. In 1922 there were 300 cottages at this resort. Since that time 163 cottages have been destroyed.

The saddest part is the destruction of the beautiful forest that covered the hills and valleys, said to be as fine as anything in Michigan. The beautiful ravines, one of them well remembered as Golden Gate and one just as beautiful along Griswold walk, filled with ferns, dense with undergrowth and dark and cool with shade, have been swept clean of every tree and shrub and fern, and nothing but two black holes remain where nature showed its rarest beauty at Macatawa.

Two cottage owners feel their loss with special poignancy. In April their summer homes were destroyed. They purchased others on the lake front in order to be at Macatawa early as usual, and now left second cottages have been destroyed. A cottage built by the Essenburg Lumber company, just completed, was also consumed.

Charles Ayres of Jenison Park had just purchased a cottage on corner of Grove walk and Lake Front walk a week ago and this home was the second to burn, being right next to that of Dr. Cook.

In complete isolation on Griswold st., Macatawa Park, stands the cottage of Arthur Fowle of St. Petersburg, Fla. The fire of April 14 burned up to the Fowle cottage, and, after scorching its sides, was halted. Yesterday's fire again burned up to the cottage from the other direction, leaving it alone in a desolation of smoking ruins.

All of the cottages on Mishawaka ave., Nahant Trail and Griswold St., with the exception of one cottage, have been destroyed.

Members of the Grand Rapids Association for the Blind, of which Miss Roberta A. Griffith, 338 Sheldon ave., SE, Grand Rapids, is secretary, had planned on spending the week-end at the cottage owned by the organization and Thursday had called by phone if supplies could be obtained. New furnishings had been purchased recently and were in the building when it burned.

Leonard Van Regenmortel, postmaster and caretaker at the park, asserted that the April blaze and Friday's fire in the resort. It is doubtful if any attempt will be made to replace those destroyed, he believed, pointing out that in addition to the destruction of the cottages, the burning of the shade trees and shrubbery has made many of the locations that were formerly most desirable, practically worthless.

Included in the cottages destroyed yesterday were three owned by E. C. Westervelt of South Bend, Ind., who lost two cottages in the April fire. Two brothers of Westervelt also lost their cottages.

Insurance companies which held policies on the cottages at Macatawa, have not finished paying damages for the April blaze. The losses yesterday will run from \$3,000 to \$20,000 a cottage.

A cottage owned by John Baker at Macatawa Beach across Black Lake from Macatawa Park was destroyed by flames yesterday morning, after an oil stove had tipped over. Prompt action on the part of caretakers who had ample water pressure, saved the Ottawa Beach resort from destruction. Loss was estimated at \$7,000.

FIREMEN ARE TREATED TO A FINE SUPPER

That the work of the Holland firemen at Macatawa Thursday afternoon was appreciated by the people who had cottages in that resort was shown when the firemen were treated to a supper before they left for home. The cottage owners warmly praised the firemen and the good feeling that exists between the Holland fire department and the Park township people was increased by Thursday's experience. The best of relations exist and there is an agreement between Holland and Park township for assistance by the Holland department in all cases of fire in that township.

FIRE LOSS IS \$1,500,000.00 IN LAST 5 YEARS

A million and a half dollars will buy a great deal of fire equipment and without doubt a great deal of the destroyed property at the Holland resort might have been saved if there had been a central plant for fire protection, connecting with Blake Lake.

In round numbers fire did \$1,500,000 worth of damage since 1922. This does not include the destruction of the beautiful forest trees that cannot be replaced.

Here are the figures:
July 16, 1922—30 cottages destroyed, loss, \$200,000.
Nov. 6, 1923—Ottawa Beach hotel destroyed, loss, \$500,000.
April 18, 1925—59 cottages destroyed, loss, \$250,000.
April 14, 1927—35 cottages destroyed, loss, \$350,000.
June 16, 1927—39 cottages destroyed, loss, \$250,000.

FIREMAN DIES FRIDAY NIGHT

Ray Smeenge, aged 23, a member of Holland's fire department, having served in Co. No. 1 for about three years, died Friday evening at his home, 320 West 17th street. Mr. Smeenge was an employee of the Peter & Son dairy on Michigan ave.

Death came as a result of goiter and heart trouble. Mr. Smeenge was well known and had served the city faithfully as a fireman. He had been seriously ill for about three months. He is survived by his mother, Mrs. Sena Smeenge, and two brothers, Thomas and Andrew.

The funeral was held on Tuesday, afternoon at 1:30, fast time, at the home and at two o'clock at the Fourth Reformed church. The deceased was a member of the Van Riecke Avenue Reformed church but on account of the smallness of the building the funeral services were held at Fourth Reformed.

SAYS HOLLAND NEEDS REVIVAL

Interest is growing in the revival conducted by Evangelist S. B. Shaw at the Wesleyan Methodist church. There was a good-sized audience present Monday night, Mr. Shaw said.

"A revival means renewed interest in the work of God, something beyond the ordinary means of grace. A church can be active in good works, an example to the world and yet not have any great love for God or a love for the church at Ephesus. It is full of good works. God was pleased with their works, they had lived a consistent life, were not guilty of open sin, they had not fainted nor given up the work. Yet God said, 'I have somewhat against thee because thou hast left thy first love.'"

"Husbands and wives sometimes lose their first love for each other and the manifestations disappear, yet they are kind to each other and have no thought of separation. Holland is one of the best towns in the state with more Christian people than any other city of its size, yet there is great need of a revival that will bring greater love and fellowship in all the churches."

The meetings will be held every night the balance of this month.

GIBSON WOMAN EXPLOSION VICTIM

Mrs. Harry V. Lee of Gibson, 46 years old, died Monday evening at 6 o'clock as the result of the exploding of an oil stove. Mrs. Lee lighted the stove at about three o'clock Monday afternoon when it exploded and injured her so seriously that death followed Monday evening.

Mrs. Lee, a neighbor, hearing the woman's screams, found flames issuing from the open door and all other entrances locked. Breaking a window she discovered Mrs. Lee lying unconscious on the floor, her clothes burned from her body. Other aid was summoned and the fire was extinguished. Mrs. Lee never regained consciousness.

The husband alone survives. He and Mrs. Lee had moved there from Saranac about five years ago when he purchased the Briar Hill farm near Gibson.

The funeral was held Wednesday afternoon at two o'clock at the home in Gibson.

DAILY SERVICE BEGINS SATURDAY

The Goodrich Transit Co. started daily service Saturday, June 24. Steamers will leave daily at 10:00 P. M. There has been but one other year when daily service was started this early. Str. Carolina came in Sunday and alternate with the Str. City of Holland until full summer schedule goes into effect June 25th, when Str. Carolina goes on Mackinac Island run from Chicago. Both freight and passenger business is quiet at this time. Mr. M. H. Livingston of South Haven has been appointed traveling passenger agent for the Goodrich Transit Co. Mr. Livingston will make all the inland cities back from all ports in Eastern Michigan, such as Bay City, Saginaw, Flint, Lansing, etc.

SALE OF FIREWORKS BANNED UNTIL JULY 1
Grand Rapids Herald—Fireworks may not go on sale in Grand Rapids until July 1 and may not be exploded except on July 4, City Manager Locke said last night in explaining the restrictions the city placed upon this means of celebrating Independence day. The regulation was adopted by the city commission several years ago.

CHANNEL SPEEDERS TO BE ARRESTED SAYS THE ENGINEER

The federal engineer's office in Grand Rapids gave warning today to all owners of speed boats in Holland and elsewhere that a practice of speeding through the channel at Macatawa must stop or federal warrants will be issued for the arrest of the offenders, government workmen are engaged on the piers and they are being hampered a great deal by speed boats.

The pleasure craft spin through the channel at a terrific speed and the workmen are complaining that they are being placed in jeopardy almost daily. There is a law that says that speed boats may not go through the channel at more than eight miles an hour and this law is to be strictly enforced. The next person violating it will be arrested, the engineer warns.

He pointed out today that speed boat owners have all of Black Lake and all of Lake Michigan to speed in and hence there is no necessity to speed through the channel.

BANKERS GO ON A LAKE TRIP

The state bankers' convention is to be held for the next five days on board ship starting out from Detroit, sailing up Lake Huron thru the locks at the Soo into Lake Superior. Practically every bank in the state will have representatives present.

The Peoples bank sent B. D. Keppel, the president of the institution. Holland City State bank is represented by the cashier, Otto P. Kramer, and by Dick Boter, one of the directors. The First State bank sent President G. J. Dieken and Director Henry Pelgrim. Mrs. G. J. Dieken, Mrs. Dick Boter and Mrs. Otto P. Kramer accompanied their husbands. The Holland party motored to Detroit where they took the boat and will return by auto when the convention adjourns and when the steamer again docks at Detroit.

GRAND RAPIDS CHURCH TO BOOST PINE LODGE

Grand Rapids Herald—The young people of Immanuel Reformed church will conduct a service in Seventh Reformed church after the regular worship tomorrow evening. The service will be followed by a mass meeting to create interest in the summer conference for young people to be held next month at Pine Lodge, Black lake. The program will include short speeches made by some of the boys and girls who attended the conference last year. The Bible conference will be held at Pine Lodge in August.

GO ON A TRIP TO PENNSYLVANIA

Mrs. Peter Raffenaud and three children have left for a trip to Pennsylvania in Mr. Raffenaud's car, accompanied by Mr. and Mrs. Morris Ver Hult, Mr. Ver Hult acting as driver. Mr. and Mrs. Ver Hult are making a wedding trip at the same time. They were married Wednesday evening in Grand Haven. Mr. Ver Hult, who was formerly a resident of Holland, is now employed by the Holland Furnace company.

Fred Faassen, an organist at Zion City, will spend the week-end with his uncle and aunt, Rev. and Mrs. W. Wolvius, 362 First avenue. Mrs. E. J. Faassen of Pella, Iowa, is the guest of her sister, Mrs. Wolvius.

REDPATH OFFERS CONTRACT TO THE GIRLS' GLEE CLUB

The Hope college girls' glee club has been offered a contract by the Redpath summer chautauque bureau for the summer of 1928. A representative of the bureau, who heard the Hope college girls sing recently, was so impressed with their work that he decided to recommend them to his organization for a contract. The test came too late in the season for this summer's chautauque, the contracts for 1927 having been signed up months ago, but by the summer of 1928 the local girls will be on a regular circuit.

On the last Friday morning of the college year Dr. J. B. Nykerk invited a representative of the Redpath bureau to come and hear the glee club girls sing, unknown to the girls themselves. He expressed himself as highly pleased and promised to recommend them to his organization. Today Dr. Nykerk received an offer from the president of the Chicago bureau, Harry Harrison, for the services of the college girls during the 1928 summer season. The contract carries terms suggested by Dr. Nykerk himself. While four or five members of the glee club will be lost to the college by graduation, Dr. Nykerk expects to add more than that number to make up for the losses and the talent of the prospective new members in such that by the summer of 1928 the glee club will be in better condition than ever.

It is expected that the glee club girls will be put on a circuit that will include many towns in Illinois, Indiana, Wisconsin and perhaps Michigan. The Redpath summer chautauque is one of the best of its kind and the offer of a contract from them is perhaps the finest compliment ever paid the college organization.

HARDWARE MAN WAS BUSY DURING FIRE AT MACATAWA PARK

One of the busiest men at Macatawa Thursday afternoon was Charles M. Camburn, proprietor of the Park grocery store. When the first news of the fire reached neighboring towns where owners of cottages resided Mr. Camburn was deluged with telephone calls asking information.

Mr. Camburn was the first to compile an authentic list of owners whose cottages were destroyed and cheerfully volunteered information to hundreds who queried him. Newspaper correspondents from Chicago, Grand Rapids and other cities found him a willing helper.

A WANT AD THAT DIDN'T PAY

The Sentinel has been running a want ad that at least for once didn't pay. John Brower of Hamilton sent in a classified ad, announcing the fact that his cottage at Macatawa park was for rent for the season and to make inquiries from him at Hamilton. He sent it in the day before the fire, which consumed Mr. Brower's cottage and 38 others.

DO NERO STUNT AT MACATAWA PARK

The raucous tones of a jazz band hammering out "Ain't She Sweet?" and other popular songs, were carried across the barren wastes of Macatawa park yesterday afternoon, while smoke rose from the ruins of the 39 cottages destroyed. A group of Holland high school boys salvaged a Victrola and a stack of records from one of the cottages before the flames reached it and, lacking other diversion, proceeded to have music much in the manner that Nero fiddled while Rome burned.

CONVICTED FIRE BUG THREATENS

James L. Eckert, sentenced in Allegan circuit court Wednesday to serve five to ten years in Jackson prison, was taken to that institution Thursday afternoon by Deputy Sheriff John Van Arkel. Eckert was securely ironed and the trip was made by train.

On the way there Eckert proved communicative, among other things telling the officer that inside of five years there would be a great upheaval in the leading prisons of the country. Just what he meant he did not explain further than to remark, "Just keep tab on what I have told you and see if it does not come true."

Eckert had thanked Sheriff Ben Lupton and his deputies for their kindness to him while in the Allegan jail.

Lannie Warner, convicted of liquor law violations, was taken to Jackson prison Friday.

One of our local insurance agencies hit upon a novel method of advertising yesterday. While the fire was at its height, the Du Saar Photo Shop took pictures. Viascher-Brooks agency in the Warm Friend Tavern had more than a thousand of these made. The pictures shows where the fire was first checked on Grove walk. The slogan, "Insure with Viascher-Brooks," was etched on the plate and as fast as prints were made the pictures were distributed around Holland and at the scene of the fire.

BLOW LAUNCH OUT OF CHANNEL ON SATURDAY

On Saturday a boom of a heavy explosion was heard in the vicinity of Grand Haven which for a time caused some little excitement. It was learned the police authorities were dynamiting an old derelict boat in the South Channel that was a menace to navigation going in and out.

C. P. Milham, county agricultural agent, well trained in handling explosives, was commissioned to see the job and the Grand Haven officers assisted. Mr. Milham planted 15 pounds of dynamite mounted on tall sticks all around the old hulk. He covered the dynamite with grease so the water could not destroy the charge. These charges were ignited by a cap arrangement attached to a battery and long wire. This was set off at some distance with little danger although the shock of the charge could be felt several blocks away and the boom was heard for blocks.

The explosion entirely demolished the cabin and broke the hulk in two so that it was possible to tow it to the big lake where it will find a deep grave out of marine traffic's way.

The launch belonged to William Miers for several years and was sold to U. Porcham. It was used for lake fishing and saw many a battle with the waves of the big lake. For a time it was docked in the South Channel but a heavy wind storm this spring tore it from its moorings and it was swamped in the channel and became a menace to small craft going in and out there.

An attempt was made last week to dislodge the hulk, but the blast was unsuccessful, due to water getting in the charge. Mr. Milham thoroughly greased all parts touching the water and it worked perfectly. It was quite a sight throwing debris and water many feet. Martin Graveling with his picture machine was on the spot to make a record of the blast.

To those with sea going hearts and real love of water craft there is an element of sadness in the destruction of a boat. To a sailor boat has an identity akin to life and no seaman looks on such a scene without a sigh for the craft that has served its day.

SCENIC HIGHWAY OPENED TO DUCK LAKE CHANNEL

The new scenic highway has been opened on the north of Muskegon to the Duck lake channel, and later this week will probably be opened to Snyder's hill on the south shore of the lake, permitting motor travel from White Lake, Michilindine and Sylvan Beach to the road in front of White Lake Inn.

The top picture gives an idea of the desolation caused by the fire at Macatawa Park near the spot where it started. It marks the place where the cottages of Dr. M. J. Cook and Charles Ayres, Grove Walk and Lake Front, stood. Lower picture shows what remains of the beautiful forest near Golden Gate and Griswold Walk.

TELLS SAD STORY OF MACATAWA IN AN EDITORIAL

An editorial appearing in Saturday's Grand Rapids Press is of special interest to the older citizens who knew Macatawa when it was still called "The Mud." The mouth, and when the hillsides and beaches were dotted with camp tents instead of cottages.

The old timers will remember that the first two cottages, both small ones, were built by H. Boone of Holland and D. J. Dornink, a book dealer of Grand Rapids, and were located in the grove on what is now Grove walk. Shortly afterwards Heber Walsh and Charles Dutton built more pretentious homes nearby. When the name of the resort was changed to Macatawa, a two-story hotel, built and conducted by the late Dan Bertsch, father of Fred Bertsch, of Dutch cider fame. There was a small fishing village, the light-house and the keeper's home, but that was all.

The Press editorial was under the title, "The Sad Story of a Fine Resort."

"In brief, groups and whole congregations of the cottages at Macatawa are gradually succumbing to flame. This oldest of all western Michigan's big summer resorts has become the state's chief victim among many closely built, frame construction summer communities. Arson and accident have conspired to destroy not only cottages, which are replaceable, but forest beauty, which is slow in returning.

"No old timer who has followed the social and resort history of this part of the state can consider the slow torture and tragedy of Macatawa without emotion. Wednesday's disastrous fire is another landmark in the life story of a resort which has meant incalculable pleasure and recreation to three generations. Its narrative is closely linked with that of western Michigan.

"Train and steamer access made it one of those few western Michigan beauty spots of half a century ago naturally attracting not only the formal and elaborate family 'vacation' parties of those days but the holiday picnic crowd. It had tent colonies before residents of Holland began to construct early cottages. Some old Grand Rapids people remember the two-day drive to Macatawa by double-power which was popular at one time.

"Just before the gay 'victrols' the reorganized Chicago and West Michigan railroad had an enterprising general passenger agent named William A. Gavett and a wide-awake president named G. K. Mulliken. Across the channel, which had been moved over and deepened for boat traffic, they established in the railroad's name a lively plating venture called Ottawa Beach. Grand Rapids people rushed to obtain lots. Interest increased in the beauty of both sides of the channel and in the frontage on Black Lake and Lake Michigan. Lumber was cheap. Frame dwellings were thrown together in a hurry. Streets were gridironed on the unfortunate city plan of those days. But it was a marvelous family community, neighborly, full of fun.

"Then came the yachting spree, a sport only now reviving after a long hiatus. Regattas, rival yacht clubs, the thing called 'class' came to the beach. Here, managers like M. H. Turner and Boyd Panfili were great assets. First the Pere Marquette, then the boat and interurban lines pushed the holiday traffic. 'Venetian night' was unforgettable.

"In succession, like the old and sentimental in a Grand Rapids novel, have come the interurban sale and five carousels, the trackless automobile has brought in range a thousand competitors for the favor of Grand Rapids people where before there were only a few. And the scene of fire is not beautiful.

"Yet Macatawa and its younger sister across the channel have a charm of memory, tradition, history. The mark of age is upon them and the indefinable, pleasant odor of the charred and piling up of houses. It ought to be worth something in a comeback, and this is not an obituary."

TOURISTS WAIT WARMER WEATHER

Unless the weather takes a sudden turn to the warmer, especially in the larger cities of the middle west, it is expected that the tourist and resort business will continue to increase slowly until after July 4, when they will come to Michigan no matter what the weather.

More inquiries with regard to boys' and girls' camps are to be found mixed up with the rest on fishing, boating, golfing, swimming and camping, probably because of the approaching close of schools everywhere.

JUDGE DENIES DIVORCE TO YOUNG WIFE, FLAYS PARENTS FOR LAXITY

Laxity of parents was attacked by Circuit Judge Vanderwerf Saturday afternoon when he refused to grant a divorce to Norma Phillips from her husband Frank, 19. The girl is a year younger and married Phillips at the age of 16.

The judge pointed to conditions in the homes of both parties, continuing with general observations charging lax home conditions as the cause of most divorce suits.

HOLD MAN FOR PASSING FORGED CHECK FOR \$1

James McMahon of Forest City was arrested Friday by Deputy Sheriff John Van Arkel of Allegan on the charge of passing a forged check. The check was for only one dollar and was cashed by Archie Webb, a Merson procer. McMahon used the name of Mike Keen of Allegan, at whose home he has been rooming. He was arraigned Saturday before Justice F. E. Fish and bound over to circuit court. In default of \$200 bail bond he is in jail.

A quiet, pretty wedding took place on Saturday afternoon at 4:30 at the home of W. E. Takken at Saugatuck when Mrs. Belle Hills became the bride of Dick Oosting of Holland. The rooms were beautifully decorated for the occasion and after the ceremony a wedding luncheon was served to the many relatives and friends who attended.

The ceremony was performed by Rev. Mr. Miller of Saugatuck. The couple left for Grand Rapids by auto, the destination of their wedding journey not being given. Friends had liberally decorated the car with signs on the sides. Mr. and Mrs. Oosting will make their home in Holland.

NO LINDBERGH STAMPS ON SALE HERE

Air mail stamps commemorating Lindbergh's flight were to go on sale for the first time Saturday in Washington, St. Louis, Detroit, and Little Falls, Minn. Postmaster General New announced. Every large postoffice in the country will have a supply by June 22, New said.

"We have been overwhelmed with the demand," he added.

The department ordered 15,000,000 stamps printed. This is the first time a stamp has been issued to commemorate the deed of a living man. Postmaster Westover stated that the Holland office does not have a supply on hand and it will be some time before the office will have, judging from the large advance orders sent in from the larger cities.

TO CONDUCT A REVIVAL HERE

Rev. S. B. Shaw of Grand Rapids will be in charge of two weeks of revival meetings at the Wesleyan Methodist church, corner Pine and 17th St. Mr. Shaw preached at the city mission Sunday afternoon on the only cure for infidelity. He said many books have been written on Christian unity and many sermons preached on it but that the only cure for infidelity is more love for God and for each other.

Mr. Shaw has been in evangelistic work for more than 40 years and has frequently preached in Holland before. He conducted a series of services for the Grand Rapids Salvation Army in May and Divisional Commander Edwin Clayton expressed himself as highly pleased with the result. A similar endorsement was received from the commanding officer of the Muskegon corps, B. E. Corliss, for which company Mr. Shaw also conducted revival services in May. Similar expressions of confidence in his work were made by church leaders in Phoenix, Arizona, Los Angeles, and other places.

ASK PASTOR TO STAY HERE

The talented cartoonist, Delbert Hanson, of Grand Rapids, gave a novel message at the Wesleyan Methodist church Sunday. He drew pictures to illustrate the songs, "Let the Lower Lights be Burning," "Jesus Keep Me Near the Cross," and "I Am Anchored My Soul in the Haven of Rest." He also illustrated the parable of the two builders; the one who built his house on the rock and the other on the sand. His pictures were drawn in colors while the people watched.

A vote was taken in the morning service at which the present pastor, Rev. G. Visser, was unanimously invited to remain another year.

The Rev. S. B. Shaw gave an inspirational address in the evening on the value of a human soul. He is a veteran in evangelistic work, having labored for almost fifty years. He will conduct services in the church every night this week at 7:30.

LOCAL POLICE WANTS TO KNOW ABOUT JULY 4

Officials of police and fire departments in Holland, Zeeland, Allegan, Ludington, Muskegon and Grand Haven have asked local department officials to furnish them with verbatim copies of any ordinance which may be passed here to ban fireworks.

Assistant Fire Marshal Fred P. Higgins stated Friday he had copies of the ordinance proposed recently by Safety Director James Sink and he would send them following any definite action by the city commission, which already has gone on record as favoring such a law.

"Many cities in the western part of the state merely are waiting for Grand Rapids to take the lead," asserted Higgins Friday.—Grand Rapids Press.

DONOR ASKS THE RETURN OF HER CASH FROM G. H.

A letter has been received from Mrs. T. B. Stewart of Denver, Colo., by the T. B. Stewart of Grand Rapids. She is asking for the return of the \$1,000 check sent to them for the purchase of a bond to be used as revenue for providing the Lora A. Smith declaration prize each year.

The matter is still hanging fire although it has been discussed at almost every board meeting since the difficulty arose as to the control of the prize fund, said Mr. Babcock when asked whether the board had taken a definite stand on the proposition.

Mrs. Stewart sent \$1,000 to be used in the purchase of a bond, the revenue of which was to buy an annual prize of some value to be used in the declaration competition known as the Lora A. Smith contest.

The donor stipulated that declarations only were to be used in the contest and the board felt they could not be bound indefinitely by any such request, so the prize money has not yet been accepted.

The contest have been held in the school for a number of years, originating with declaration contests for boys only. On request, Mrs. Smith changed the rule to permit girls to compete but requested that declarations only should be included. This does not fit in with the state contests which include oratory as well and it was felt the competition could not be undertaken with any such rigid stipulations.

The older graduates of the school are making a vigorous protest against giving up the time honored school contest and are hoping the board will find a way out of the difficulty satisfying the requirements of the present day at the same time according to the request of the only one who has ever done a like service for the Grand Haven schools.

A large number of orders are being received by the American Legion for curb flags for homes and they are being filled as fast as they are received. Persons wishing such a flag are asked by the Legion not to wait until immediately before the Fourth of July celebration as the demand is very heavy with the celebration at the fairgrounds and the demand may become so great that it will be impossible to fill them at the last minute. Call 2239.

ANOTHER WEEKLY IS LAUNCHED IN OTTAWA COUNTY

One more newspaper was added to the list of Ottawa county publications Saturday when the first issue of a weekly paper appeared in Hudsonville, the village that was recently incorporated. The paper as yet has no name and the first issue appeared under the title "The Hudsonville Weekly," which will not be the permanent name. The publisher and editor is W. Charles Covey, and Mrs. Covey is the assistant editor. The paper is offering a prize of \$25 for a name.

In its official bow to the public the editor says over his signature: "Although still clad in the swaddling bands of infancy, we still have strength to make a pretty bow to the general reading public, especially to the reading public of Hudsonville and vicinity. Our advent into the world of readers is the result of the concerted efforts of the business men and interested friends, particularly those interested in the development and prosperity of Hudsonville.

"We are grateful to the authors of our being and trust that our instinct of self-preservation is stronger than any effort that can be brought against us by present or future opposition. It is our determination to serve our well-wishers in an acceptable manner and to gradually become absolutely necessary to the welfare of the community which we wish to faithfully represent. We doubt that anyone will sneer at our immature growth.

"If, however, any such should appear, we warn them that, fed by the fine material for growth with which we are surrounded and to which we are confident that our creators will have placed us on our feet, will not forsake us as long as we continue our best efforts for the prosperity and growth of Hudsonville.

"Though we are now appearing under a temporary name, we hope to gain a good and acceptable title and slogan through the skill of outsiders. For the accomplishment of this purpose we are offering as a reward a check of \$25 for the best title and the same amount for the best slogan to accompany the title.

"There will be no favoritism shown in the selection of either the name or slogan, for no one chosen to make the selection from those submitted will know the author till after the selection is made."

'PAUNEE BILL' ON FINANCIAL ROCKS

"Paunee Bill, the Blind Tie Man," whose boxes of ties are familiar to many householders in Holland, is on the financial rocks. A receiver has been appointed for the St. Louis Knitting Mills, which backed Paunee Bill, who in private life is Samuel Presberger.

Last month creditors began liquidation of the Mississippi Valley Knitting Mills, which backed Paunee Bill, who in private life is Samuel Presberger.

Both Presberger and Tyler were proteges of Jacob Karchner, who was expelled from the American Legion in 1924 and since has been in conflict with police and the Better Business Bureau over his promotion of things with a charity appeal.

The knitting mills supplied the blind men with ties and these were mailed by the hundreds of thousands to all parts of the country. Recipients, already having been misled by mail to the point where they returned ties, Dunning letters were sent after the ties in many instances, and these resulted in complaints to the post-office department. The financial difficulties of the two companies have been attributed to the fact that many recipients did not return the ties and did not pay for them. There is no law requiring persons to return unordered goods.

AGED OTSEGO MAN JUMPED INTO RIVER AND WAS DROWNED

Allegan Gazette.—On returning from the funeral of a friend late Thursday afternoon, Samuel Carruthers, aged Otsego township resident, jumped into the Kalamazoo river near the Bardeen dam and was drowned. Two boys crossing the dam after fishing saw a hat and coat floating on the water. A letter in the coat pocket revealed identity of owner, Sheriff Ben Lugten and Coroner C. Clay Benson were called and after dragging the river found the body. No cause for the suicide is known but it is thought dependency after attending the funeral may have caused this act. Funeral services were held Sunday from Benson funeral parlors in Otsego and burial was in Mountain Home cemetery. Mr. Carruthers had lived all his life in Otsego township and was seventy-six years old. On August 1, Mrs. Roy Gates, lives in Otsego and two other daughters live in Detroit and Philadelphia.

NAMED DIRECTOR OF BELL COMPANY

Announcement was made today by Burch Forsaker, president of the Michigan Bell Telephone company, of the election by the stockholders of that company of Fred J. Fisher to the board of directors. Mr. Fisher succeeds Harry B. Thayer of New York city, chairman of board of directors of American Telephone & Telegraph company.

Mr. Fisher, who is a native of Norwalk, Ohio, has spent the major portion of his business life in Detroit and has been actively identified with the manufacturing life of that city. He is president of Fisher & Company and vice president and director of the General Motors corporation.

NO GANGES FRANCHISE FOR MT. PLEASANT CO.

The Mount Pleasant Power and Light company was denied a franchise at the special election held in Ganges township, with only 26 favoring the company and 71 against.

The Southern Michigan Light and Power company are now operating in the township.

ALL GOODRICH SHIPS IN SERVICE NEXT WEEK

The entire fleet of 12 lake liners operated by the Goodrich Transit company will be in service on Lake Michigan next Saturday when the full summer schedule of the lake transportation company goes into effect.

The S. S. Grand Rapids relieved the Carolina on the Muskegon-Chicago run Monday. The Carolina will go to Manitowish.

TOO MUCH BOOZE GETS HIM INTO TROUBLE

Tom Cohen, a local colored boot-black, was arrested Sunday for driving his car while drunk. He was arraigned before Justice Charles E. Van Duren Monday morning, pleaded guilty and was fined \$103, including costs. His driver's license was revoked for three months. He was promised a jail sentence if he appeared in court again on a similar charge.

Cohen was found zig-zagging on the Grand Haven road through the heavy Sunday travel and how he escaped a collision is a mystery. Policeman Dornbos gathered both negro and auto in and the driver spent the night in the city jail. Holland officers were advised by rural phone calls sent in by several Sunday tourists that a drunken colored man was endangering motorists and to come quickly.

RESCUED BY COAST GUARD

Two sea scouts from Grand Rapids were rescued Saturday afternoon at three o'clock by the Macatawa coast guard crew when their canoe capsized in Lake Michigan about a half a mile from shore and about a mile north of the channel. The boys were in the water about fifteen minutes. The crew went to their aid when the capsizing of the canoe was noticed. The boys were exhausted when picked up. They were taken to Ottawa Beach where they were staying. They were Robert Wren and Charles Gorman, both of Grand Rapids.

'OLD IRONSIDES' MAY MAKE VISIT TO HOLLAND PORT

For some time a campaign has been going on throughout the United States to raise funds to repair the old vessel, "Constitution," better known as "Old Ironsides," the ship that played an important part in this nation's early history and was largely instrumental in giving Uncle Sam the freedom of the seas with its merchant marine.

The historic story is well known and the ship is now being rebuilt in the Boston navy yards. In order that every American might have a hand in its reconstruction an act passed by congress has made it possible to do this work through popular subscription.

The B. P. O. Elks of the nation, an intensely patriotic organization with a membership of more than two million, is backing this movement. The movement is taking hold of the school children and already eight million young folks have contributed to this cause.

The G. A. R. is naturally backing this movement, in spite of the fact that their ranks are rapidly being depleted. Patriotic organizations generally are making a campaign in behalf of "Old Ironsides" with great success.

President Coolidge and his cabinet, heads of the navy, big banking institutions, fraternal organizations and the newspapers generally are lending their support to drive for funds to put the "Constitution" in such a condition that she may sail the seas again.

In the White House at Washington there hangs a large painting of "Old Ironsides," from the brush of Gordon Grant, a great artist and painter of sea pictures.

GRAND HAVEN BABY WINS TITLE FILM OFFER

In the recent Los Angeles better babies exposition, Edna Beryl Goldberg scored 100 per cent in health, form and features, winning the title of "Baby Venus" as the most beautiful and perfect child. This little girl is a granddaughter of John D. Goldberg of Grand Haven and a daughter of Mr. and Mrs. Charles J. Goldberg who lived there up until two years ago.

More than 30,000 children were entered in the contest. The examining physician remarked, on completion of the scoring, that she was perfect plus. She is just three years old, with blue eyes and golden hair. She was offered a contract with the Metro-Goldwyn Mayer Studios.

Mr. and Mrs. Goldberg are planning on making an extensive tour of the states and Canada but intend to return to Michigan at some later date and make their permanent home at Grand Haven.

TURTLE RAINSTORM SEEN IN ILLINOIS

The residents of Pana, Ill., were surprised recently when after a terrific storm they found small turtles in their yards. The largest turtle was reported to be 14 oz. in weight. The turtles appeared dazed as though they had been hurled a very long distance. Heavy hail accompanied the rain, doing great damage to vegetation and to green houses and windows in dwellings.

Mr. Gerrit Den Besten, of the Holland Hitch Co., has left with his family for a month's motoring trip through the West.

TIME HAS COME FOR FURNISHING HOSPITAL ROOMS

Now is the time for all those who are anxious to have a hand in furnishing special rooms at the hospital to get in touch with the hospital building committee to make the necessary arrangements. This announcement was made by a member of the committee today.

The building committee is not asking for donations and it is not for that reason that the present announcement was made. All gifts of furnishings for rooms in memory of some individual or organization will be gratefully received and the people of Holland are encouraged by the committee to do that kind of thing. But the committee is not placing itself in the attitude of begging for gifts. It is merely making the announcement so that those who had already decided to do something of that nature may know that the time for action has now come and so that all others who may want to do something will not find, a little later on, that the time has passed.

Action is necessary now because the committee is about ready to let contracts for the furnishings. Some of the members have already made trips to other cities to get information in regard to equipping the hospital rooms and before very long the necessary contracts will have to be let as the hospital is to be ready for occupancy by September.

Those who want to turn a room should therefore not delay. Whatever individuals or organizations do, the committee can deduct from its general fund for furnishings. Trouble and confusion will be prevented by getting in touch with the committee now and taking the necessary steps without delay.

Several persons and organizations have already expressed the wish to furnish certain rooms. Every opportunity will be given to carry out such plans but the necessity of reasonably prompt action was pointed out by the committee today.

EAGLES GATHER IN MUSKEGON

From Lake Superior to the Indiana line delegates were converging on Muskegon Tuesday to attend the 22nd annual convention of Michigan aerie, Fraternal Order of Eagles. Sessions, which cover four days, opened Monday night with registration of delegates.

More than a thousand delegates and their wives are expected to arrive in Muskegon including a group of 50 from Detroit.

Delegates and their wives were feted with a gala entertainment program at the Hotel Muskegon Monday night. The convention was called to order this morning at 10 a. m. by Harry Chandler of Jackson, worthy state president.

Mayor J. Arthur Dratz delivered the address of welcome and Prosecutor R. Glen Dunn made the response. Mr. Chandler followed on the program with the opening address of the convention. Philip Lathrop responded in behalf of Muskegon aerie. A business session followed.

Wednesday's session will begin with a business session. An address by Otto P. De la Motte of Indianapolis, past worthy grand president of the order, will feature the afternoon session. J. P. O'Donnell, Kansas City jurist, will speak on the same program in behalf of the organization department of the order. A matinee for ladies is also on the afternoon program.

Initiation of a large class of candidates a stag party for delegates and card party for women are scheduled for Wednesday evening.

The convention closes Thursday morning with a business session.

WARNING LIGHTS PUT UP AT GRAND HAVEN BRIDGE SITES

With permission of the state highway department, private companies have put in red flash lights at the interurban crossings on U. S. 31 just before entering the city. The warning signals are erected on a pedestal of some height and flash a light of some brilliance. They are financed through advertising.

The lights have been receiving favorable comment and the road commission is appreciative of their value, especially for the stranger not knowing the highway is near.

The signals are being put up all over the state and are just another means of making the highways safer for the motorist.

CHILD CLEARS E. K. LANNING BABY CASE FRIDAY

At noon Friday after an inquest that took up most of the forenoon in the town hall of Zeeland township, in the village of Vriesland, the jury in the case of the E. K. Lanning baby brought in a verdict exonerating the father. The verdict read:

"That baby Lanning came to its death on Friday, Aug. 13, 1927, from natural causes due to premature birth; that there was no evidence given in the testimony of any intentional negligence either in the death or burial of the child."

There was great interest in the case and people came from far distances to attend the hearing. Several hundred people were crowded in the hall and many more were outside the building. Autos were parked along the highway for about a mile. Prosecutor Clarence Lokker appeared for the people and Coroner Oll Vandewater presided.

Doctor C. E. Boone of Zeeland was the first to testify. He stated that he could save the mother but did not think he could save child. Dr. R. Ten Have of Zeeland, he stated, administered the anesthetic and Mrs. Hilda Byer, of Drenthe, who was the attending nurse, told the father to take the baby to the basement, so the mother, who was in critical condition, could not hear the child cry.

Mrs. Bena Oudemans, also of Drenthe, saw the child in the barrel and heard it moan.

Mrs. Clara Teichoff, also of Drenthe, heard the child cry, saw it in an apple barrel and that he had made out no other child. She saw it in the barrel and heard it moan. This witness was rather snappy in her testimony. Prosecutor Lokker took her to task and said it was testimony he was after and she was there to give the truth. This witness stated that she had washed the child's clothes afterwards.

Nick Hunderman, township clerk, testified that he heard there was a birth and a death in the Lanning family and that he had made out no other child. He stated that he had seen the child in the barrel and heard it moan. This witness was rather snappy in her testimony. Prosecutor Lokker took her to task and said it was testimony he was after and she was there to give the truth. This witness stated that she had washed the child's clothes afterwards.

Arthur, Brederode, a blacksmith of Drenthe, stated that his shop was located across from the Lanning home. He heard that on April 8 a child was born and went there in the evening. Mr. Lanning, the father, asked him to come down to the basement to see the child. It was lying on top of an apple barrel. The father lifted it up in a blanket and stated that Dr. Boone and Mr. Byer, the nurse, had said that the child couldn't live and he was sorry. He stated the babe was groaning, not crying, and moved its left hand and right leg. He said he directed his flashlight to the baby's face and he saw it opened its eyes twice. He said he did not approve of seeing the baby in a barrel; he thought it was a queer place. He insisted the child had hair seven-eighths of an inch long and he would not deviate from the measurements. Mr. Brouwer of Drenthe, sexton of the cemetery, saw the child in a barrel in the garage back of the house. It was then wrapped in a towel and there were no signs of life. He was ordered to prepare a grave for the child on Monday of the next week. The child was buried because Sheriff Kamferbeck and deputy Beekman called to investigate with the state police. The babe was buried in a casket but it is stated this all happened after the child had been buried in a barrel where it had rested for nearly three months.

John Lanning, a brother of E. K. Lanning, the principal in the case, knew that a child was to be born and thought it was his. He said the child could not live; he said it was warm in the basement where the child was, as it was near the furnace. John Timmer, also of Drenthe, who lives close to the cemetery and saw the child on Saturday, June 11. He said he found the grave in the plot of E. K. Lanning's parents and helped to exhumed the body, which was found in a casketed box. It was found on Monday and was buried on Tuesday, June 14.

Edward Lanning, son of E. K. Lanning, 18 years of age, who works for his father on the farm, did not know his mother was to have a child, went to Grand Rapids while the operation was taking place in the basement and heard that his mother was very low when he returned with Harold Brouwer. He said there was a blanket around the child in the barrel, he heard it groan and he saw its arms move. He also stated that the child was moved to the garage by himself. He said he had come from Zeeland later in the evening, went downstairs, saw the child was dead, called the nurse who stated it was best to take the body to the garage. The young man said it was hard for him to take a dead baby to a place where that, for he did not like to carry a dead person. He stated that his father and another brother, Nicholas, buried the child and soon after the father began which hinted that the father had attempted to kill the child. The son insisted that there was no truth in this; instead the father urged to have the child taken to a Grand Rapids hospital, placed in an incubator, but the nurse and the doctor who stated that there was no hope for it to live.

Harold Brouwer testified relative to the barrel and the life of the child, that the father remarked it was a nice baby, but it was too bad it could not live and be taken to a Grand Rapids hospital. He stated that he saw practically what other witnesses had seen and heard what they heard.

Mrs. Gerrit E. Brouwer of Drenthe seemed to know nothing but what everybody said. "It isn't gossip we want, it is facts. We are holding this inquest to clear away gossip and get the truth." Nicholas Lanning, a son of E. K. Lanning, stated that he was a student of Hope college and that he and the girl who took the son to the study room were in the basement and he occasionally slept there. He said he got home Saturday evening, surprised that his mother was sick. He became angry that he had not been notified. The father told the son to go to the garage where the baby had been placed. The witness said it was of good size and that he had questioned his father why an attempt had not been made to keep the baby alive and thereupon the son Nicholas and the father on Monday afternoon placed the baby in the blanket, deposited it in a corrugated box, took it to the cemetery and buried it in his grandfather's grave.

E. K. Lanning, the father, was the last witness called. He stated the child was expected in July but arrived in April. On the eventful day in question he was going to Grand Rapids, but his wife became critically ill. He called two doctors who stated that an operation was necessary in order to save the mother. He said he stayed while part of the operation was going on, but he faint because he couldn't stand seeing it. In a broken voice Lanning testified: "I came to the basement in a blanket, laid it on top of some clean burlap sacks, easier, saw its eyes open from time to time, and saw it move. I was all in, I had to go to bed shortly after 8 o'clock. I took care of the child tenderly, as well as a man can. I never had murder in my heart, but instead love was there. I was so unmoved by the strain, first because of the critical condition of my wife and secondly because of the situation of the child, that I didn't know what I was doing. I was beside myself. When the child died my son and I buried it in father's plot, taking the infant in a box to the burying grounds. Children of John Timmer were watching us as we buried it. Had the state police started to investigate at my house instead of at the grave I would have told them all that is within my heart. The gossip has been terrible, but I am innocent of any intentional wrongdoing."

Sheriff Kamferbeck and Deputy Sheriff Egbert Beekman have taken a deep interest in this case and were present during the inquest. The jury consisted of Dick Boter, Edward Vandenberg, Gilbert Haan, Charles F. Stringer, all of Holland, and John De Pree and Wm. Kamperman of Zeeland.

GROWERS WILL STUDY ILLS OF RASPBERRIES

Field conferences under the joint direction of federal and state workers will be held in Berrien county on Thursday and Friday to study diseases of raspberries.

Thursday's itinerary includes 17 farms near Benton Harbor, Joseph, East, Claire, Baroda, Bridgman, Harbert and Stevensville. Friday's route extends north from Benton Harbor, listing stops at Lawrence, Paw Paw, Gobels, Fennville, Miami Beach and South Haven.

Spray experiments will be studied Friday in the Crane orchards near Fennville and peach yellows will be looked into in R. C. Brower's orchard near the same town.

ZEELAND HOSPITAL FUND MONEY IS STILL COMING IN

The final report on the Zeeland hospital drive, about to be made by the committee. In addition to the sum now reported and collected there are still a few pledges out that have not paid in which will bring the total up considerably higher than it now stands.

The figures now available are classified as follows: Zeeland City \$12,739.00; Mr. and Mrs. George F. Huizenga, \$7,500.00; neighboring villages and vicinity, \$2,787.60; a total of \$22,986.60. Included in the villages are New Groningen, Beaverdam, Forest Grove, Vriesland, Oakland, Allendale, Jamestown and Drenthe, ranging in sums of \$44.00 up to \$452.10.

The Zeeland exchange club is all set for the organization of a governing body that will have charge of the institution. Just what the result will be is yet very speculative. It will not be the exchange club, nor a body of persons responsible to the exchange club. When they finally turn it over it will be completely severed from all other clubs. It is possible that one person each from among several organizations, such as the American Legion, Ladies Auxiliary, Ladies Literary club, Exchange club, the several churches, will be nominated for their respective bodies and they, when approved by the city council, will form the governing body, limited to a term of one or more years.

ENGAGEMENT IS ANNOUNCED

The following is from the Argus Leader of Sioux Falls, S. D., May 28: "In the midst of so many announcements of engagements and approaching wedding news, the betrothal of Miss Cornelia Ossewaarde, a popular member of the high school faculty, to Henry Oosting, of Holland, Mich."

"The news was made public Thursday evening at a charming dinner party given in the Pompeian room of the Carpenter hotel, when members of Miss Ossewaarde's bridge club were hostesses.

"Covers were laid for 12 at a table very lovely in its appointments. At the place of each one corsages of sweet-pens and lilies of the valley were placed, and in these were hidden the announcements which were small handpainted folders bearing the news of the approaching marriage.

"Miss Ossewaarde, whose home is also the same city as her fiancé, has for the past two years taught in the science department of the Washington high school. Mr. Oosting is receiving his Master's degree from Michigan State college this summer. After the wedding, which is to take place in August, the couple will live in Minneapolis, where Mr. Oosting is to be an instructor in botany at the University of Minnesota."

ENGAGEMENT IS TOLD TO FRIENDS

The engagement of Miss Estelle K. Mohl and Dr. Ira W. Weersing of Chicago was made known Thursday evening at a dinner given by Miss Mohl's parents, Mr. and Mrs. Charles G. Mohl, at their home on College Avenue. No date has been set for the wedding. Dr. Weersing was graduated from the Chicago College of Dental Surgery with the class of '27.

GRAND HAVEN DOWN-TOWN STREETS TO BE MADE 50 FEET WIDE

The Gr. Haven downtown streets leading off Washington and 7th, are being widened to 50 feet and the work of removing curbs and trees is going on at present.

This expense is being borne by the property owners and those in the downtown section who will be benefited by the change.

TO PRINT SERMONS OF LATE PASTOR

Plans are being made for the publication of a volume of the sermons of the late Rev. D. R. Drukker, first pastor of the 14th street Christian Reformed church and also pastor of Zeeland churches for a number of years. Mr. Drukker died a few months ago, soon after he was to be pastor of Jersey where he was to be pastor of a Christian Reformed church.

The plan of the family is to select a number of his sermons, two on missions, two for young people, and others which were favorites with his parishioners and publish them in a volume. The size of the volume and the number of copies to be printed have not yet been determined.

STEEL SKELETON OF NEW BANK IS ABOUT COMPLETE

One of the interesting sights in building operations in Holland just now is in connection with the steel construction of the new Peoples State bank building next to the De Vries & Dornbos store. A small crowd of people may be seen at almost any time watching the steel men at their job. This is the first building in the city that is all steel and cement construction and the riveting of the steel beams with air hammers is giving a touch of metropolitan building operations to Holland just now.

The bolts with which the beams are riveted together are heated in a furnace erected in the excavation. They are thrown into pairs white hot from the furnace and are tossed up to the workmen on the beams who catch them in other pairs, sometimes singly, sometimes several at a time. The bolts are slipped into their proper places and the rap-a-tap of the air-hammers does the rest. The whole operation from furnace to the bolt's permanent place in the beam takes but a few moments.

The work is done by the employees of the company furnishing the steel, their contract calling for steel and putting it in place. The men are old hands at the game and highly expert.

FIRE CRACKER SHOOTING MUST STOP SAYS CHIEF

Chief Van Ry has given orders to his men to stop all fire cracker shooting until the days allowed by law. Those days are July 3, 4 and 5. Spontaneous shooting is already going on, annoying the sick in homes and hospital.

Shopkeepers may sell fireworks after June 21, under the state law. The state law also sets the days when fireworks may be shot off, namely three days in July as mentioned. The Holland police feel that parents could aid in this matter by advising their children to obey the law. Mr. Van Ry asks for this cooperation.

Miss Agnes Kramer of this city, for a number of years book-keeper at the West Michigan Furniture company, was united in marriage Saturday in Chicago to Mr. William Callan, of Chicago. The marriage was performed by Father Phillite. The couple will make their home in Chicago where the groom is in a business position.

Among those from Holland who attended the wedding were the bride's mother, Mrs. Rose Kramer, Miss Eunice Kramer, Miss Gertrude Kramer. Another guest, besides those from Chicago, was Mr. Henry Warren of Grand Rapids.

height. The basement and first two stories will be used for banking purposes, the second story being in the form of a mezzanine, providing a 12' ceiling for the ground floor, with banking offices on the second floor. The top story will be for general office purposes.

It is expected that the building operations will take up the rest of this year.

BUTCHER KNIFE FIGHTERS TO BE TRIED IN COURT

The examination of Jack C. Tate and Kathleen Tate was held Monday morning before D. F. Pagelson, justice of the peace, by the assistant prosecutor Jay Den Herder.

Ozeln Meche, the man attacked with the butcher knife, was the principal witness. He exhibited his wounds as evidence of the violence offered by the Tate couple in the recent brawl in Marne.

Both were bound over to Circuit Court on a charge of assault with intent to do great bodily harm less than the crime of murder. The woman was held for \$1,000.

The case grew out of a row in the cook's train at Marne where a group of railroad construction employees were housed while repairing track there. Mr. and Mrs. Tate went after Meche after he had complained of the food. Meche is an Albanian and has been in this country since 1912. He speaks little English.

TO HAVE WEDDING AT P-T MEETING

An excellent program will be given by the P. T. A. at Maplewood school, located one mile south and one-fourth mile east of First avenue and 32nd street, on Friday evening, June 24, at 7:30. A large attendance is desired and an invitation is extended to the public. A wedding will be one of the features of the evening. Tickets will be sold at the door.

CELEBRATE 58TH WEDDING ANNIVERSARY

Mr. and Mrs. Danker Leys, aged respectively 87 and 85 years, observed their 58th wedding anniversary on June 17. Born in The Netherlands, they were married at Kalamazoo and came to Holland in 1877. They have lived on the same farm 45 years.

Both are in good health and Mrs. Leys does all her own work, including washing and baking. Both read without the aid of glasses. Until two years ago Mr. Leys worked nine hours a day in the Holland Furniture factory and walked four to five miles daily.

They have six daughters, one son, twenty grandchildren and nine great-grandchildren.

SAILED TUESDAY ON TRIP TO EUROPE

Miss Anna Klinge, formerly linotype operator with the J. Klaasen Printing Co. and now employed by the Chicago American, sailed from New York Tuesday on S. S. Frederick VII for a three months' trip to Europe, with a party under the leadership of Dr. George L. Scherger, professor of history at Armour Institute. The party will visit Denmark, Germany, Austria, Italy, Switzerland, Holland, Belgium, France, and England.

Albert Swartz of Wayland, Allegan county, taken into custody Sunday evening by Traffic Officer Virgil Rhoads for attempting to operate his automobile on US131 while under the influence of liquor, was arraigned before Justice Fidus E. Fish, of Allegan, Monday, and drew a jail sentence of 30 days. His driver's license was suspended.

CAMP WILL HAVE NEW FEATURES OF SPECIAL INTEREST

With the prospects of enjoying the best camp that Ottawa county scouts have ever experienced, the interest in camp is running high. Several troops, at least, will turn out almost full strength, and a good representation is assured from almost every one.

The combined leadership and equipment of the Grand Rapids and Ottawa county councils assures many unusual advantages. An attractively illustrated folder has been gotten out. It reads in part:

"Camp Shawondosee, the Grand Rapids boy scouts summer camp, is located on a most beautiful stretch of the shore line of Lake Michigan, about three-fourths of a mile north of Port Sheldon, and three and one-half miles from West Olive. The grandeur, romance and cleanliness of Lake Michigan and its shores at this point are unsurpassed.

"When scouts enroll for camp they will be sent a list of things to take, and a program from which they may select their favorite activity. Boys may pick one subject, such as archery, and follow it through their camp period.

"Scouts must come to camp in good health. First-aid equipment and a motor car are at hand for all emergencies. Boys becoming ill or having a temperature will be immediately taken home. For sanitary purposes dishes will be furnished and washed by employees.

"The daily program will be: 6:30, reveille, get-up, dip; 7:00, breakfast; 7:30, clean-up of tents and grounds; 8:00, tent inspection; 8:30, scoutcraft, handicraft, nature, hike, archery, beginners' swimming, etc.; 11:20, morning dip; 12:00, lunch; 12:45, rest period; 1:30, scoutcraft or dmerit badge examination; 2:30, baseball, indoor ball, volley ball and cricket leagues between patrols; 3:50, swimming; 4:50, evening colors; 6:00, supper, free time; 8:00, evening entertainment; 9:30, taps.

"Honors to earn are: second class, first class, special merit badges, life, star, eagle, Shawondosee monograms, bronze, silver and gold Wolf-skins, athletic "S", silver cups for swimming, athletics, camping, archery, championships; special prizes, trips to Oliver for best campers.

"Select your favorite activity: archery, swimming, test passing, nature study, boxing, band athletics, fishing, campfires, council fires, wrestling, indoor baseball, Indian lore, hiking, baseball, scoutcraft, volley ball, cricket, treasure hunt, stunt night, handicraft, radio, cooking, music.

"New features for 1927: horseback riding (first term and others if found satisfactory), older boys' trips, canoeing, diving platform, spring board, big picnic and circus on the 4th; no dishwashing, evening program for two weeks instead of every week, your last chance to enjoy a camp Shawondosee and get a Wolverine."

There will be a band in camp throughout the entire season. The players will be carried without cost to themselves but they will be required to stay throughout the entire season. Several good musicians can still be used, and those interested may apply to Ottawa county headquarters.

There is also a chance for several scouts, preferably older and more advanced, to work their way through

OTTAWA SCHOOL PROJECT LOSES BY THREE VOTES

The new school project at Beechwood was defeated Monday evening by a margin of three votes, the fourth defeat in a year. The amount involved had been reduced in four attempts from \$138,000 to \$83,000. Once the proposition carried by one vote but was declared illegal. Another election will be held soon.

ALLEGAN WILL VOTE ON NEW LIGHT PLANT

Allegan will decide by a special election on July 12, whether or not it will build its own electric lighting plant.

On that day voters will be asked to register an opinion on three charter amendments, the first to give the city power to acquire a site for the plant by condemnation; second, to give the city a right to issue mortgage bonds; and third, to decide on the number of supervisors the city shall have.

Two propositions will also be submitted, the first to decide if the city shall build a lighting plant, and the second to fix the amount of the bonds at \$185,000.

The city of Allegan and the Consumers Power company both have their eyes on a dam site on the Kalamazoo river. This election is to pave the way for settling whether or not the city shall acquire this site.

camp as cook's helpers.

Several Holland scouts are also wanted to go out to camp for next Saturday afternoon, only to make some preliminary preparations. Those who can should call headquarters.

PURNELL TRIAL IN SEPTEMBER

"King" Benjamin Franklin Purnell, long-haired Seventh Messenger of the House of David, will go on trial in September on criminal charges brought against him by Mrs. Bessie May Woodworth, George W. Bookwalter, Berrien county prosecutor, announced today.

Mrs. Woodworth, a former Shiloh girl who alleges she was forced to submit to the "king's" blood cleansing rites while in the colony, led state troopers in the dramatic raid on the colony last November when Purnell was captured.

The Israelite prophet faces three criminal charges and two civil suits.

Besides Mrs. Woodworth, criminal charges brought against him by Ruth Bamford Reed and Gladys Bamford Rubel, Detroit girls, are pending. They also are seeking \$100,000 each. Purnell, who is now confined to his bed with Bright's disease, will appear in court during the present dissolution trial to face his many girl accusers. The Bamford girls already have testified and Mrs. Woodworth will take the stand this week.

It was indicated by Bookwalter the criminal case against the aged and decrepit "king" would be pressed promptly due to the serious illness of Purnell.

"Our case is complete and we are ready to try him," Bookwalter said. "We will put him on trial in September—that is the earliest possible following the dissolution suit."

Until his capture in November, Purnell had been a fugitive for four years on capias warrants of the Bamford girls.

Mike Schoon was in Grand Rapids on business Monday.

LEGION WANTS A CURB FLAG SHOWN AT EVERY HOME

The American Legion has started on a campaign that has for its ideal the placing of a curb flag in front of every home in Holland. Even the most sanguine members of the organization do not think that the ideal will be attained but they believe that the number of curb flags at the homes will be large enough before the drive is finished so that Holland will be better supplied with home flags than perhaps any other city in this section of the state.

The campaign opened with the placing of flags on West 12th street and in one or two other sections. On flag day last Tuesday new curb flags were seen flying in front of the homes of G. J. Diekema, Con De Pree and one or two others. These gave the general public an idea of what the home curb flag looks like. They are identical with the curb flags in the business section but they make an even better display in their surroundings of green foliage.

"The curb flags displayed at several homes on flag day will give the people an idea what it would mean if Holland's residence streets were lined with them," a member of the Legion said in discussing the project. "If for instance, we could have a whole street like Twelfth or some other beautiful residence street lined with curb banners on the Fourth of July or Memorial Day or any other patriotic day, what a wonderful sight it would be."

The Legion has now on hand a large enough supply of curb flags so that the demand can be taken care of. Immediate delivery can be made and the Legion is ready to accept all orders and to execute them before the Fourth of July. The Legion takes care of the installation of the flags and is just now specializing on placing them in front of homes, although they are also ready to supply curb flags to business places.

THE OAKLAND'S \$2,000,000.00 PROGRAM IS COMPLETE

Pontiac, Mich., June 18—The Oakland Motor Car company completed the \$2,000,000.00 improvement program recently launched to double Oakland's production, and is now building the Oakland Six in a plant unsurpassed anywhere in the automotive industry.

The improvements instituted in the Oakland Division were made possible by the transfer of Pontiac Six machinery to the new Pontiac Division, which went into production a few weeks ago. All the Oakland machinery was removed temporarily, so that new floors and new concrete bases might be laid. The Oakland Division was completely rebuilt while these plant improvements were going on. Hundreds of thousands of dollars' worth of new machinery was bought and installed. A motor conveyor assembly line, of the same type as used in the new Pontiac Division was laid out and constructed, along with new block test facilities, overhead conveyor systems, and lights.

The interior of the Oakland Division has been repainted throughout to improve the working conditions of its employees. This step, and the far more spacious quarters provided by a completely new plant layout, are expected to enhance the precision of manufacture for which Oakland already is famous. A feature of the improvement program was the upgrading of the line shaft power transmission system, and substitution of electrical unit driven machinery almost exclusively.

The improvements in the Oakland Six Division involved movement of 775 individual machines, but it was accomplished in just two weeks' time. The resultant plant rivals anything in the industry in point of systematic arrangement, working space, lighting,

and every other factor that contributes to the manufacture of high grade motor cars.

GRAND HAVEN MAN FINED OVER A WOMAN'S FIGHT

An altercation over the attention of several friends to Mrs. Edna Leslie, Elliott street, Grand Haven, resulted in a fight that produced one desperately black eye and the arrest of Marlon Tipsword, 24, for assault and battery.

The complaint was entered by Mrs. Leslie against Tipsword declaring that he had threatened her and struck her son, Kenneth Leslie. Tipsword denied the charge of hitting young Leslie, as he was a minor. He was fined \$10 and costs of \$4.48 which he paid.

BOBBED HAIR IS GOING OUT NET SALES REVEAL

The Lorraine Mfg. Co. of Grand Haven, which imports hair nets from its factory in China, notes an interesting change in its business. All orders from the east now are for the large sized ones which went out of vogue when bobbed tresses came in style. While the western business still runs to the little sizes for the short haired girls, the east, where fashions are set, is taking only big sizes now. The company is confident the west will follow suit and is governing itself accordingly.

It has been a long time since Hol-
land has had a glimpse of a circus,
but Sunday morning a real surprise
was in store for residents along Col-
lege Ave., when a small wagon show
came rolling thru town. There were a
half dozen horse drawn vehicles and
the small parade wound up with an
elephant and a donkey tied together.
The show is showing in Hudsonville.

Since the passage of the new
school project by voters of Laketown
township the board of education of
district No. 3, fractional, has taken
the initiative in seeking bids for \$25-
000 school bonds. The proposed new
building will be constructed on the
unit plan, with a three-room school
at the start. It is planned to have the
school building completed before fall.
There are about 300 families in the

Mrs. Ella Wood of Spring Lake has
found that one of the rings recovered
by her by the state police does not
belong to her, the value being con-
siderably under the one stolen from
her by Geo. Bernard. The statement
made by the state police as to the
values of the recovered rings was
made on the property which they
supposed belonged to Mrs. Wood.
The owner for one of the rings has
not been located and it is being re-
turned to the police at Waukegon.

Now that band concerts are to start
weekly in Centennial park citizens
are calling up the Sentinel asking
that certain patrons make less noise
while the music is in progress. There
are always a few who disturb the
many and this mars the evening. A
vast majority of the people come to
hear the musical program and are not
there to chat and laugh while the
band is playing. The police depart-
ment, as usual, will have an officer
present to assist in regulating the
crowd and to prevent unnecessary
disturbance.

will spend a few days of Mr. Ros-
bach's vacation.

FINAL PLANS FOR
PLAYGROUNDS ARE
MADE MONDAY EVE

The playground commission held
their final meeting Monday evening
and the stage is all set for the open-
ing of the city playgrounds on June
27th at one o'clock in the afternoon.

With the first week as an opener,
the plans of Director L. N. Moody are
to be carried into full swing with a
special feature each week. Friday of
every week will be known as fea-
ture day. Special features in the line
of tournaments will take place. The
director and his assistants will con-
duct these for all the various classes
into which the play ground group
will be divided.

The playground baseball will be
divided into three classes: juniors,
those boys that are 12 or under, the
older boys, ages from 12 to 16, and
the men's group. If the need is felt a
new class will be organized for the
young men of the city. A tourney will
be held and the players on the win-
ning team will be given ribbons that
will denote the championship which
they hold. Any man or boy within the
city limits can join or play on the
grounds.

The girls of the city will also have
tournaments, both in indoor baseball
and jackstones. They will be divided
into two classes, junior and older
girls. The junior age will be 12 years
or under, and the older girls all above
12. As the children have had some
play in these games the contests are
looked upon with great favor.

The playgrounds are to be opened
promptly at one o'clock every day,
with the exception of Sunday. They
close at 5 for supper recess and open
again at 6:30 until 8:45 for the night
session. The playgrounds will not be
open on July the Fourth, as the com-
mission feels that all families should
celebrate this holiday in a fashion
suitable to their own needs and pa-
triotic feelings.

The General Meade put in an ap-
pearance in the Grand Haven harbor,
coming in to coal up. She spent last
Saturday and Sunday in the Grand
river cleaning up some of the bars.

WHITEWASH APPLIED
TO CATCH AUTO THIEF

At last we have the solution to the
puzzling problem of catching auto-
mobile thieves.

It's offered gratis to all police de-
partments of the world by former
Inspector C. Turner of the London
police. Here it is:
Have handy in each police station
pails of whitewash and syringes.
When a car is reported stolen, distri-
bute the whitewash equipment at the
important outpost of the town and
when the stolen car is spied, an offi-
cer at each side of the road sprays
the machine with his whitewash.
It's sure to be identified easily and
stopped at the next crossroads.

ZEELAND GIRL WEDS
A HOLLAND MAN

Wedding bells rang for Miss Min-
nie Myaarl of Zeeland on Tuesday
when she was united in marriage
with Mr. Maurice Schepers of Holland.

The ceremony was performed by
Rev. C. P. Dame, pastor of Trinity
Reformed church of Holland, at the
parsonage, only witnesses being pres-
ent. The couple immediately left on
a short wedding trip before taking up
housekeeping in Holland where Mr.
Schepers is employed.

EMBRACING GIRLS IN
AUTO IS EXPENSIVE

Officer Bontekoe was rather sur-
prised on Sunday evening to see Les-
ter Hartley drive his car with one
hand and embrace a girl with the
other arm. Hartley was so intent on
his spooning operations that he
failed to see the minion of the law.
Bontekoe halted the car of the
young shif and told him that
spooning and driving an automobile
at the same time is contrary to the
"statute made and provided" under
the state law and city ordinance and
further that it is a dangerous proce-
dure.

Justice Van Duren smilingly hand-
ed Hartley a fine of \$5, advising him
to love with both arms and drive
with both hands but not at the same
time.

For good Printing call on us.

HOLLAND BUSINESS
COLLEGE CLOSES
ITS 33RD YEAR

On Friday Holland Business college
completed its thirty-third year of
work, one of the most successful in
its 33rd existence both in point of
attendance and in placement of stu-
dents. The growth of Holland indus-
trially and commercially is reflected
in the constantly increasing demand
for local industries and institutions
for the graduates of this school.

Since 1894 when C. J. Dregman first
opened his school in Holland, its stu-
dents have gone far and wide and
some may now be found in nearly
every state in the Union. Many have
achieved conspicuous success and oc-
cupy positions of great trust and re-
sponsibility as business managers,
bank cashiers, office managers and
accountants.

The following students were placed

FORMER ALLEGAN BOY
TO STUDY IN THE EAST

Allegan News—As a reward for ex-
ceptional work done at M. S. C. L.
roy Stegeman, formerly of Allegan,
has been granted an opportunity to
study in the east during the summer
months. He has been accepted as a
student at the summer biological
laboratories of the Long Island Bio-
logical association and will leave there
at the end of the present school
term.

RECEIVER'S CERTIFICATES
ARE BEING MAILED OUT

Receiver's certificates are being mailed
out this week to depositors of the
insolvent First National Bank of Al-
legan, according to J. Garver Bly, re-
ceiver. These Bly states, must be pre-
served and not destroyed. They are
not, however, to be brought in until
notice has been sent out to creditors
as to when they will be received.

Anyone wishing to assign in
claim against the bank must have
the assignment recorded. Bly states,
Unless such transfer of claim is re-
corded, the claim will not be allowed
when a dividend is declared.

Bly is at the present time devot-
ing himself to collecting accounts
owed the bank in order to hasten the
payment of a dividend, he says.

Annual mission fest of Grand Rap-
ids and Neighboring Ref'd churches
will be held July 28 at Franklin park.
This year's fest committee is Rev. G.
Pikkema, Rev. G. M. Van Pernis, M.
H. Koster and Rev. J. A. Klaaren.
There will be morning, afternoon
and evening sessions and amplifiers
will be used as they were last sum-
mer when a record crowd was present.
