The question voted on was, "Do you wish to permit an interruption of war production in wartime as a result of a labor dispute?"

The question involves a 20-cent an hour increase in pay and maintenance of membership. Five cents per hour will be retroactive as of May 21, 1943, and 15 cents per hour retroactive as of Aug. 1, 1943.

To Limit Allegan Deer Hunting to Three Hundred

Board, Meeting Here, Acts After Report on Decline in Damage

With the exception of restricted deer hunting in Allegan county and closing Grand Traverse and Leelanau counties to pheasant hunting, Michigan's army of 500,000 small game hunters and 225,000 deer hunters will find no changes in their 1944 regulations.

The Michigan conservation commission, meeting here Tuesday, adopted the recommendations of its game division to make only minor changes.

The number of hunters to be permitted in Allegan county during the special antlerless deer season Dec. 1-10 will be limited to 300 instead of the 800 allowed last fall. Harry D. Ruhl, chief of the game division, told the commission that damage by deer had been considerably abated and that it was necessary to shoot fewer deer to keep the herd down.

Waterfowl hunting rules will not be voted until July after the 1944 regulations of the federal fish and wildlife service have been considered.

The commission again refused to compromise with the Connor Land and Lumber Co., owners of large holdings in the Porcupine Mountains and which the state is now seeking to acquire. The company is now subject to a condemnation suit through which the state is attempting to buy about 4,000 acres of virgin hardwood timber.

The war production board recently asked Gov. Harry F. Kelly to effect a compromise through which the acreage would be reduced by 2,250 acres, after it had received a report of the findings of James W. Girard, forest service expert loaned to the board.

The governor asked the conservation commission as to its attitude. The commission stated this morning that it had requested a copy of Girard's report but that it had not been forthcoming. The commission voted to again demand a copy of the report and stated that since no new evidence or information had been learned and that the entire matter was now in the hands of a court of competent jurisdiction, any forthcoming new information should be presented to that court. The condemnation trial is to be held in Gogebic county June 26.

A proposed bounty on foxes was turned down by the commission. The 1944 legislature voted an appropriation of \$20,000 to be used in controlling foxes which have been increasing considerably in population in recent years and damaging poultry. The commission said that it did not believe that a bounty would be effective in getting rid of foxes. Instead of a bounty it voted to employ several experienced trappers to give instruction in trapping foxes, to assist in taking nuisance animals in areas where a considerable amount of damage may be suffered by poultry men, and to disseminate information about fox habits and fox control. Twelve counties now pay fox bounties.

Included among land purchases approved by the commission were 1,000 feet of frontage at the Port Huron State park, 238 acres in various public hunting land areas in southern Michigan; 3,500 feet of frontage on the Jordan river in Antrim county; 71 acres with 4,500 feet of frontage on Payne lake in Barry county; and 6,337 acres in the Pigeon river and Presque Isle State forests in Otsego and Montmorency counties. A proposal to purchase 4,277 acres making up the Jewett estate in Ogemaw county for public recreation purposes was laid on the table.

The commission deferred action on a request to permit oil drilling through Great Lakes waters until more detailed negotiations and surveys have been made. A party made up of the conservation commission, P. J. Hoffmaster, director of conservation, several members of its staff, and William Butler of The Sentinel spent Monday on an inspection tour of the Holland, Grand Haven and Muskegon State parks and the Yankee Springs recreation area in Barry county. The Yankee Springs area of more than 4,000 acres was deeded to the state by the federal government, July 1, 1943. It is now being operated by the conservation department.

The commission will hold its next meeting at Ironwood July 17, when it will inspect the 43,000 Porcupine Mountain recreation area project. De Waard wrote: "I didn't know that Bob got credit for an enemy plane destroyed but I do remember that mission. It was beyond range of our escort and we had quite a little battle. Bob has finished his 50 missions and should be home shortly."

Holland Reserve Attracts Enlistees

Approximately 40 prospective enlistees turned out Monday night in Washington school to hear about the activities of the U. S. coast guard temporary reserve and most of them signed their intention of joining the organization. Vice Commander Edgar Landwehr explained the military chain of command of the Lake Michigan naval district and Ensign Martin Michelsen, commander of the local complement, outlined the background of the reserve.

Lt. (jg) James Van Zyl, captain of this division, spoke briefly on the enlistment procedure and Lt. Howard Hurst, chief training officer of the Lake Michigan district, featured speaker, pointed out the importance of this branch of the armed service during wartime. Chief Morse E. Rhea, commanding officer of the Holland station, praised the work done by the local reserve and the extensive amount of interest shown in the practical training at the station.

According to a directive received from headquarters Monday, men over 30 classified as 2A's or 2B's may enlist as long as they are engaged in essential or war work. This will make more Holland men eligible and facilitate the filling out of a 100-man quota.

Since no enlistee may be sworn in or receive uniforms until he has taken the first training course, this phase of the work will start immediately. Training Officer Warren S. Merriam will teach lessons 1 and 2 for a 12-lesson training course Monday, June 19, at 7:30 p.m. in room 102 of Holland High school. Meetings for those who work on a night shift will be arranged later. Interested persons who are unable to attend any of the meetings should contact any reserve officer or men and a special tutor will be assigned.

Church Filled for Annual Christian High Graduation

Keyed to the class theme, "Success Begins and Ends With God," commencement exercises for 57 seniors of Christian high school were held Tuesday night in Central Avenue Christian Reformed church where the large auditorium was filled with friends and relatives.

Following the presentation of diplomas and Bibles to 55 members of the graduating class, the entire audience joined in a minute of silent prayer for two class members, Donald Holkeboer and Donald Zwier, serving in the navy and army air corps, respectively.

Robert Pool, president of the class, presented a check of \$1,150 as a class memorial for improvements in the school including a new piano. Pool also announced a gift of \$20 by Mr. and Mrs. Claus Volkema "in loving memory" of their son, Frank, a member of the class, a victim of the Vogelzang fire May 4, 1943. The sum will be used for Bible dictionaries. In accepting the gifts, Dr. Walter De Kock, superintendent of schools, also announced a gift of \$20 from one of the Christian High graduates in the service.

In her valedictory, Gladys Bareman pointed to the advantages and privileges in attending a high school which is distinctively Christian. "We have seen the majesty of God in all our studies, history, science, literature and music," she said. "With this background, we are prepared and fortified to face the future. We are proud to receive a diploma from a school such as ours and are grateful to God that He has brought us on our way," she said.

"For the boys, the immediate future is definite since they will be leaving for the armed service. The girls also will help bring victory a bit closer. We must remember the sovereignty of God in everything we do and then we can have no higher ideals," she said.

In speaking on the class theme, Salutatorian Lucille Jipping said most persons think of success in terms of material prosperity "but this is not true success." She said God has blessed each person with various talents whatever his walk in life, and that success is countless acts that occur in everyday life. "Success rests with God, not self," she said.

In presenting the diplomas, Dr. De Kock said, "You are leaving school when world conditions are in a turmoil educationally, economically, socially and spiritually, and the world will continue to totter until the spiritual props are built up. Length of life is not a measure of success."

Raymond Holwerda of the faculty in announcing prizes gave honor awards to Gladys Bareman, valedictorian, and Lucille Jipping, salutatorian. First prize of \$10 in the senior essay contest was won by Miss Jipping and second prize of \$250 went to Grace Hanson, Christian high won two prizes in the city-wide VFW auxiliary contest, first prize of \$10 going to Arlene Van Haltsma and third prize of \$250 to Miss Jipping.

The Hope college scholarship went to Miss Jipping and the Calvin college scholarship to Miss Bareman.

The school chorus under the direction of Martin Baas sang four selections and a trio consisting of Arlene Van Haltsma, Rosalind Scholten and Rosalind Lam also sang. June Menken played three marimba selections, the first two of which, "Navy Hymn" and "Army Air Corps" were dedicated to the two absent members. The class rose while they were played. Allowed. Committee on Ways and Means reported that there is a balance on hand in the Compensation Insurance Fund of approximately \$3,400.00, and in the Interest and Sinking Fund approximately \$8,000.00, and recommended that these amounts be invested in U.S. Govt. Bonds Series "F".

Adopted. Sewer committee to whom had been referred a petition for Sewer and Water connections on East 28th Street, near Central Avenue, reported that inasmuch as the City of Holland does not own the south half of that street and since sewers are customarily laid on the south side of the street, it would be advisable to acquire this property before laying any sewer or water in this street, and

On motion of Alderman Slagh, seconded by Dalman. The matter of acquiring title to the south half of East 28th Street that does not now belong to the City, be referred to the City Engineer and City Attorney.

Adopted. Commission of Public Safety reported that the Fire Chief is recommending the installing of a flasher system in connection with our traffic lights so as to stop all cross traffic on 8th Street and River Avenue while the fire trucks are going to a fire. The Commission reported that the estimated cost of installing such a system is approximately \$400.00 and recommended that such a system be installed. It was explained that this could be operated with a switch located at the Engine House and that this flasher system would remain on for two or three minutes as required and then the lights would go back to their regular system of "stop and go."

In this connection the City Attorney suggested that it would be well to contact the State Highway Department before any definite action is taken. Inasmuch as they have certain jurisdiction over the streets.

Referred back to the Commission of Public Safety with power to act.

Commission of Public Safety also reported for information of the Council that the Chief of Police has been requested to communicate by letter with trucking companies that operate trucks through the City of Holland and request them to no longer use 8th Street but detour on to 7th Street.

Committee on Public Lighting called attention to the fact that the City Sign Co. has agreed to enter into a contract with the city for the repairing and maintaining of the Wooden Shoe signs. However these signs have not as yet been put in working order and the Clerk was requested to contact the City Sign Co. to determine how soon these signs will be lighted.

The Public Lighting Committee called attention to the fact that last year Council had taken action to install a light on the dock at Kollen Park but that this work has never been done and suggested that action be taken now to have this light installed as soon as possible to assist navigation. In this connection, it was brought out that in case the Board of Public Works is not in a position to put in the light that the Committee should go ahead and have it done by a private contractor.

Civic Improvement Committee to whom was referred the offer of Mr. and Mrs. Harry Harrington to deed to the City of Holland for park purposes all of Block 15, Hope College Add., reported they have met with Mr. Harry Harrington and that both he and other Harrington heirs have now agreed to also deed to the City of Holland for park purposes all of that part of Block 1, Hope College Addition lying south of a line that is approximately 180 ft. north of the north line of 10th St. and running parallel therewith. The heirs of this property in addition to Harry Harrington and his wife Clara are Lucia E. Harrington, widow of Austin Harrington, and Carl Harrington and his wife Ora.

Committee recommended that this very generous offer of the Harringtons be accepted.

In this connection, the Committee further reported that the Board of Park and Cemetery Trustees has approved of the acquiring of this property for park purposes.

Committee further reported that the Harringtons have requested that this piece of land they are donating to the City be known as the "Harrington Addition to Kollen Park" in memory of Austin Harrington.

On motion of Alderman Mooi, seconded by Slighter.

Adopted and the City Attorney instructed to prepare the necessary conveyances of transfer from the Harringtons to the City of Holland.

Civic Improvement Committee to whom had been referred the offer of Albert Van Ark that was made through the Chamber of Commerce to deed to the City

of Holland for public purposes a piece of land lying between 31st and 32nd Streets, adjacent to Central Avenue and extending 408 feet east thereof, reported that they have given very serious consideration to this proposal.

The Committee recommended that inasmuch as the City of Holland already has all the parks that are needed and also sufficient playgrounds, that they do not accept this offer since this would require the expenditure of a certain amount of funds if it is to be used for public purposes.

It was the recommendation of the Committee that this very kind offer be not accepted and that Mr. Van Ark be extended a vote of thanks for his kind offer.

Alderman Meengs felt that the City might be acting too hastily. He felt that it might not be very long before the City would need more property in this end of town. It was explained by the Committee, however, that the City already has so much property that they do not feel they should take on any more property that would burden the City with added expense.

Adopted. Civic Improvement Committee to whom was referred a proposal from the property owners in the block between Seventh and Eighth Streets, running from River to Central Avenues that they deed the alley in the rear of their premises to the City, wishes to report that they have given this matter very careful consideration. It is the recommendation of the Committee that this proposal of the property owners be accepted and that upon receipt of proper conveyances of title, the City will go ahead and level the alley and also put in the necessary drainage to take care of the storm water.

Committee further recommended that later on if and when the alley is to be paved, it is to be done at the expense of the property owners and NOT at the expense of the City of Holland.

Alderman Dalman raised the question as to the justification of the City paying for the drainage. He felt that this was a legitimate expense of the property owner.

Alderman Slagh questioned the value to the property owners of deeding this alley to the City on the basis mentioned.

Alderman Van Hartesveldt brought out the fact that many of our downtown alleys are in a deplorable condition and it has often been suggested that the City participate in the expense of putting them in better shape. Alderman Mooi too felt that this matter of maintaining the alleys in the downtown section has been a bone of contention for a long time and he felt that if the property owners in this block would enter into such an agreement it would be a start in which the property owners of other blocks would follow later on.

Adopted.

Reports of Special Committees Alderman Van Hartesveldt, Chairman of the special committee appointed by the Mayor sometime ago to look into the problem of a mosquito control program, reported having met with the Board of Health and Dr. Ten Have, County Health officer, to discuss this matter.

Mr. Van Hartesveldt reported that he was in receipt of a copy of a letter sent to Dr. Ten Have by John M. Hepler, Director of the Bureau of Engineering for the State Department of Health, in which he states that the U. S. Public Health Service is limited to carrying on control measures except in those states which are recognized as dangerous areas. The only exception is within a one-mile zone of any government hospital. The communication further states, however, that the Department of Health at Lansing would be able to give some technical advice and possibly a little supervisory assistance in such a program. Mr. Van Hartesveldt further reported that his committee and Dr. Ten Have are still working on this problem and expect to have further information in the near future.

Alderman To Roller reported for information of the Council that the Playground Commission recently appointed has had meetings and has elected himself as Chairman and Alderman Slighter as Secretary-Treasurer. He further reported that Mr. Moran and Mr. Smallenburg is the Committee on Grounds. It was further reported that Mr. Leon Moody has again been selected as the director for the ensuing year a position he has held in the past.

Mr. To Roller called attention of the Council to the fact that both the grandstand and bleachers are very much in need of repairs. It was stated that the bleachers are in such a deplorable condition that they are hardly worth patching up and he felt that the Council should bear this in mind as it may require an appropriation later on for new bleachers if and when they are to be erected. He further reported that some of the reflectors in the lighting system need to be replaced and recommended that the Council request the Board of Public Works to make whatever repairs are necessary to these reflectors.

Recommendations adopted. Mayor Schepers suggested that he be authorized to appoint a committee to study the proposal for the appointment of a Charter Revision Commission to revise our City Charter.

Adopted. Mayor Schepers appointed as such committee: (Committee not yet appointed).

Alderman Bontekoe reported that during the past few weeks he has been besieged by complaints of people on the west end of town relative to the very obnoxious odors emanating from the pond of the Doughnut Corporation and in this connection called upon the City Attorney to give a report to the Council on what has taken place during the past few months.

Mr. Ten Cate called attention

to a letter that was presented to the Council last October 5 1943, by Mr. Bohannan who was then the Manager of the Plant, in which he called attention to what the company proposed to do to eliminate these odors. This consisted of a process to extract the protein so there will be none of this to go into the settling basin. Mr. Ten Cate went into quite a lengthy recital of the various phases of this control program. He stated that during the winter months these odors had not been nearly as bad as they have been since the weather has become warm. Mr. Ten Cate reported that he, together with the City Inspector, County Health authorities and the Second-Ward Aldermen have spent considerable time in contacting the present Manager of the plant—Mr. Walsh, in regard to getting this matter straightened out. It was reported that under the system now in use the protein is all being extracted, dried and sold and it was this protein that caused the odor during decomposition after it had been flushed into the settling basin. The City Attorney went into considerable detail in explaining the process that is now being used and stated that the operators feel that the odor now is being caused by proteins which were emptied into the pond previously.

It was also reported that they have contacted Mr. Oeming who is the Sanitary Engineer for the Stream Control Commission and he is of the opinion that it might not be objectionable to bypass the pond and empty the effluent directly into Lake Macatawa.

It was stated that the authority has now been granted by the Stream Control Commission to bypass the pond as an experimental move for a period of two weeks when further tests will be made to determine if it is safe to empty this effluent directly into the lake.

It was stated that the Doughnut Corp. proposes to separate the carbon sludge from the filter presses and remove it to their coal bin for burning so that the carbon sludge will not be emptied into the lake.

Mr. Ten Cate called upon Mr. Walsh who was present together with his Engineer—Mr. Mitchell. Mr. Walsh stated that he had just today talked with Mr. Oeming over the telephone and that they are now in a position to go ahead and construct this bypass just as quickly as possible. Mr. Walsh further stated that he feels sure that the odor keeps coming from the pond because of the fact that it is being kept wet and stated that he had made arrangements for a pump to pump out the water as soon as they have completed their bypass. Mr. Walsh further stated that he proposes to use sodium nitrate as soon as most of the water has been emptied out of the settling basin. He was confident that by this treatment the offensive odors would be eliminated.

In response to a question as to how soon he could make this change, Mr. Walsh stated he had all the material and if he could get the necessary labor, it might be completed within a week. The City Engineer suggested that he might be able to assist Mr. Walsh in acquiring the necessary labor to lay this pipe for the bypass.

ONE OF US

The announcement that Super-
intendent E. E. Fell will retire in
1945 as the head of Holland's
schools will force many local citi-
zens to make mental readjust-
ments in regard to the commu-
nity's educational system. For Supt.
Fell has been identified with Hol-
land's schools so long that it has
become difficult to think of one
without thinking of the other.

When Dr. Fell arrived in Hol-
land in 1910 in the full vigor of
youthful manhood his coming was
not too auspicious. The superin-
tendent who immediately preceded
him had not remained long enough
to win the interest and the af-
fection of the community; it is
doubtful if his very name is re-
membered by many. Mr. Fell came
out of a background somewhat
alien to the people here—a gradu-
ate of Alma College, for some
years a superintendent in towns in
central Michigan that most people
here did not know even by name.

In retrospect it is easy to see
that it was not too simple a mat-
ter for the new school official to
break through the natural bar-
riers of community reserve. But
it is also obvious that he succeed-
ed almost immediately and be-
came one of us to such a degree
that in the minds of most people
he is as closely identified with the
community as any native.

Discussion of Superintendent
Fell's professional achievements in
Holland can and should wait until
the time when the actual retire-
ment takes place. It is not out of
place now to comment on Mr. Fell
as a "Hollander"—a Hollander by
adoption. Doubtless it was some-
what difficult at first to make the
necessary mental readjustments
involved in becoming a citizen and
leader in a community that has
such positive community traits as
Holland naturally has. Most of the
citizens of a community such as
this, because they were born to it,
are not conscious of its "other-
ness," but for the newcomer out
of another background it often
means readjustment.

Not the least of Dr. Fell's
achievement in Holland has been
that he succeeded from the first
in doing this. He quickly learned
to respect the qualities of heart
and soul that characterize the
people of the community, and the
people of Holland quickly learned
to respect him as a man and an
educator.

He invested the best part of his
life in this community, and the
community accepted him as one of
its own. Today, after all these
years of association, he is as vital-
ly native as anyone who was born
here. He is one of us, and the re-
lationship is fruitful for both him
and us.

THE CHURCH INVITES YOU

Mordecai Johnson, president of
Howard University, says, "We are
witnessing the awakening of the
human race. We stand on the
threshold of a vast spiritual re-
naissance. We can rid ourselves of
dear insecurity and bring about a
wedding of desire and labor. We
can achieve a profound human
emancipation. For the first time
in history there can be universal
health and growing happiness for
mankind. The human race is still
in its childhood. It will not mat-
ure till men appreciate the value
of Christian philosophy, until we
determine to deliver one another
from the anxiety of the struggle
for physical existence, until we
join in world-wide crusade to re-
live men from the battle for daily
bread." The church offers that
Christian philosophy. Why not ac-
cept the invitation and go to
church next Sunday?

The fifth war loan drive started

The purpose of the meeting was
to give all solicitors the quota for
the township and a list of persons
to contact. Another meeting will
be held June 23 for progress re-
ports from solicitors. The town-
ship's quota is \$2,300.

A Good Soldier of Christ Jesus—

2 Timothy 2:1-4; 8-12, 4:5-8

By Henry Geerlings

The last year or more of Paul's
life cannot be traced as accurate-
ly as the years that preceded. And
yet aside from Christ himself it is
certain there is no other character
whose activities have been so de-
finitely outlined for us as those of
Paul. Almost from the day of his
conversion to the day of his death
we can tell where he was and
what he was doing.

On his missionary tour he met
Timothy and led him to accept
Jesus as the Messiah. At the out-
set of his second journey he chose
this same young man as his com-
panion and associate in the service
of the Master. From that time
until the death of the apostle, Tim-
othy was with him in his work,
and no one was closer than he.

When Paul gained his freedom
from his first imprisonment in
Rome, after a probable visit to
Spain, he went eastward to Ephesus
where he had spent three years in
arduous labor, and where
Timothy was now in charge of the
work. From there he visited Col-
osse and Laodicea, to the south-
east of Ephesus, and it tradition
be true it was from Laodicea that
he wrote his first letter to Tim-
othy.

When the apostle was visiting
other centers he was again arrest-
ed because of his aggressive mis-
sionary activity, and flung into
the horrible Mamertine prison
where he remained until he was
led forth to be executed. It was
during his second imprisonment
that he wrote his second letter to
Timothy, and the last of all his
epistles.

Paul was happy to recall the
fine religious training which Tim-
othy had received at the hands of
his mother and grandmother. He
does not tell us whether they had
become Christians or not, but even
if they had, he goes back further
than that, and thinks of the faith
and the habits of prayer they had
instilled in him from his child-
hood. The training the Jews re-
ceived made it easier for them to
accept Jesus, for his coming was
the fulfillment of the prophecies
which they had long cherished.
Paul was persuaded that their
faith was in Timothy also, be-
cause of the splendid work he was
doing as a young minister, and no
doubt because word had been car-
ried to him in prison to that ef-
fect.

Just because back of Timothy
lay generations of trustful and
victorious faith, the apostle makes
bold to encourage him to employ
all his gifts in the prosecution of
the task that had been entrusted
to him. Possibly Paul knew very
well the tendency Timothy had to
become discouraged and to do less
than his best in the face of trying
circumstances. Timothy was en-
dowed with unusual gifts, and
Paul urged him to stir them up,
that is to kindle them into a flame
by prayer and exercise, as one
kindles a fire that is in danger of
going out. Paul was present when
Timothy was ordained to the min-
istry, laying his hands upon the
candidate and thus conferring up-
on him the grace of God.

The spirit God gave Timothy
was not a cowardly one that would
lead him to shrink duty or to fear
to bear testimony in the face of
scorn. On the contrary it was pow-
er to endure hardship, love that
seeks the salvation of others, and
discipline, or a sobering, which
makes one steadfast under all cir-
cumstances.

Timothy could take his choice.
He could act as if he were ashamed
of all that Christ did for him,
and of all that Paul meant to him,
now that he was a prisoner, or he
could throw himself into the con-
flict, remembering that he was
part of the eternal purpose of God
who saved us and called us to be
his co-laborers out of his pure
and unmerited mercy.

Paul constantly reaffirmed those
fundamental truths which he had
brought to the attention of Tim-
othy, and which he had preached
all through his Christian ministry.
There was a time when he thought
he himself would never be a her-
ald of the doctrine that God had
manifested his grace in Jesus, but
now he could not understand why
every man should not desire to
give himself in utter abandon to
proclaim that glorious name. It
was through Christ that light and
immortality, which had not been
clear teaching of the Old Testa-
ment, were brought to light. The
few rays that had been turned on
like the midday sun. That was
good tidings indeed, for somehow
it had been the universal hope and
belief that death does not end all.
If young Timothy could not be
stirred by such teachings as these
to put his best into the gospel
there was nothing that could pur-
sade him to bend his energy in
the direction of the great convic-
tion that had laid hold upon Paul.

What Timothy had heard from
Paul, both in form and substance,
he was to hold and keep before
him as a type or example to guide
him in his office. Perhaps it was
a sketch of sound Christian doctrine
that the apostle had in mind for
his spiritual son, who was to guard
these spiritual treasures as men
guard earthly treasures. All that
had been entrusted to him to protect
from heresy and corruption.

ilton—About two weeks ago while
digging a cellar Bert Stockwell,
a young man living near Dunning-
ville, came across what to him
looked like gold dirt and although
paying little attention to it at
first, he kept on digging and Bert's
imagination began to work and
finally pictures of brick blocks
and fine houses and other nice
things began to flit before his eyes
and suddenly Bert stuck down his
shovel, gathered a little of the dirt
and started for Hamilton to find
out what others thought about it.
The more Bert investigated the
more his imagination worked and
after mailing some of the dust to
Lansing for analysis, he returned
home and hired a man to watch
his diggings over night. It is now
reported that Bert received in-
formation from Lansing that the
dirt contained gold, but the
sample was too small to say if
the sufficient quantity for pay dirt.
Since then all the neighbors have
begun to dig for gold with the re-
sult that several have found dirt
that looked even more favorable
than Bert's. Among those that
found what they supposed to be
pay dirt are Morris Palmer, Mr.
Houdette, Fred Mott and Jan
Spaman.

Liquor Control Is
Weak, Miles Says

The word "control" has been lost
sight of in Michigan's liquor traf-
fic, Judge Fred T. Miles of Hol-
land declared in an address Friday
at the Methodist conference in
Lansing.

During the year ending March 1,
1943, he said, the state liquor con-
trol commission issued 12,156 li-
quor licenses for operations in 9,
988 places throughout the state.

"The sale of practically every
brand of beer, wine and hard liquor
is not only permitted, but encour-
aged," he asserted. "The term al-
coholic beverages has been substi-
tuted for intoxicating liquors; no
attempt has been made to limit ad-
vertising or wasteful transporta-
tion, neither has an adequate local
option law been provided, nor has
proper action been taken in the
matter of education."

Calling for correction of these
points, including a ban on the sale
of all advertised liquor, he also
urged that the percentage of al-
cohol and the fact that it is intoxi-
cating be printed on each container
and all glasses in which liquor is
served. Youth, he added, is entitled
to this information.

front was made known the other
day when the teamsters held their
picnic at Tennessee beach, accord-
ing to a story appearing in the

Macatawa Park was "dry" to-
day with a vengeance. The park's
water system last night fell badly
down the hill on which it has
been stationed for a number of
years. There were three tanks of
them and they made quite a rack-
et as they came crashing down the
hill carrying with them an avan-
che of sand. The mass of sand
and water slid down upon Gris-
wold Ave. and made that walk im-
passable. The accident put the
whole water system at Macatawa
out of business for the time be-
ing. The park authorities immedi-
ately sent in a call for help to
Grand Rapids and extra crews
were rushed over to the resort to
put matters to right. This news
story appeared in the Tuesday
July 29 issue.

George E. Clements and daugh-

o'clock in the forenoon and again
at 5 o'clock. A balloon race be-
tween a man and a woman will
take place and other amusements
are being planned by the Holland
Interurban for the picnickers.

5TH WAR LOAN

**IT'S FOR INVASION!
FOR VICTORY!
FOR YOUR BOY!**

**WHY YOU ARE ASKED TO
INVEST MORE
During the "ZERO HOUR" Drive**

NOW, AS America goes all out for invasion—your dollars must join the fight, too! No matter how much you have done—you must do more! It is a solemn duty for every American to buy MORE

War Bonds during the 5th WAR LOAN DRIVE—to keep the attack going—to help safeguard your country and your own boys in the fight. The job is big—you've got to dig!

It's a question of simple arithmetic: War costs more today than ever—and during invasion, the demands for supplies reach their peak. A heavy bomber costs about \$250,000. A 155 mm. howitzer costs \$23,000. Fighter planes cost \$50,000.

Invasion barges, tanks, field guns cost thousands upon thousands of dollars. Invasion demands more and ever more fighting equipment to insure Victory. The money must come from every patriotic American at home.

BOOST YOUR PLEDGE

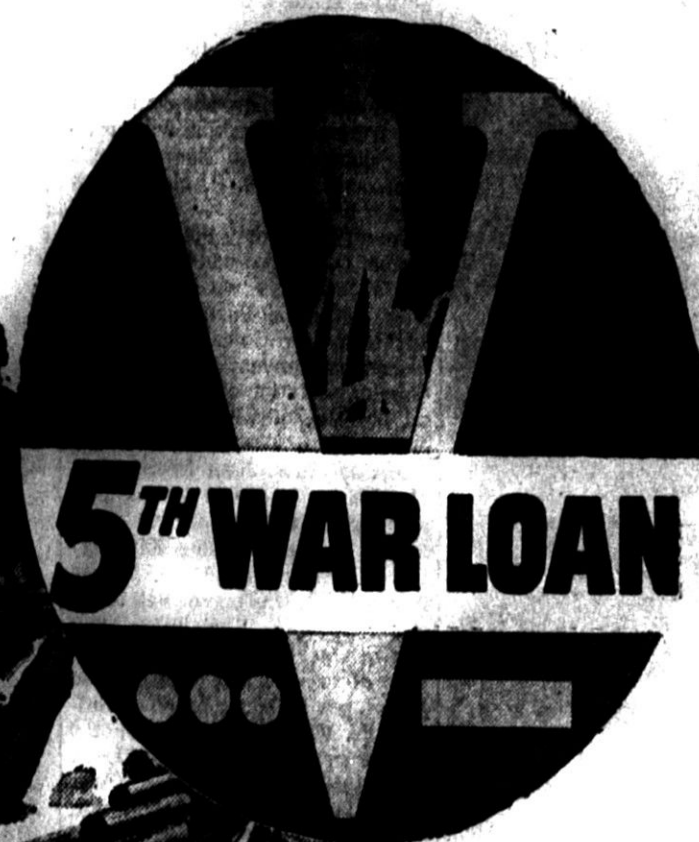

As America faces its "Zero Hour", our armed forces march unflinchingly forward. They are ready to die if need be.

And now, on the home front comes the command—back up our fighting men with the biggest War Loan of all. This is the "Zero Hour" Drive. Our duty is clear...

If you are on the payroll savings plan, buy extra bonds in this drive.

If you buy War Bonds regularly at your bank or Post Office, double your War Bond investment. But, whatever you do, whoever you are, ask yourself this question: "What have I done today that some mother's son should die for me tonight?" Then buy your extra \$100—or \$200—or \$300 Bond. It's for Victory!

WELCOME THE VICTORY VOLUNTEERS
when they come to tell you about War Bonds

Back the Attack! — BUY MORE THAN BEFORE!

Lievense, Wilson Appeal for Full Support in Area

Plans Are Outlined For Merchants to Raise Their Share

With the fifth war loan drive opening officially in Ottawa county June 12, Frank M. Lievense, local bond chairman, and Henry Wilson, head of the Holland merchant's division in the campaign, have urged the home front to match, in its own way, the invasion sacrifices in Europe.

Mr. Wilson also announced that merchants here are organizing to raise their quota of \$225,000 toward Ottawa county's total quota of \$4,267,000, an increase of \$760,000 over the quota of \$3,507,000 assigned in the fourth war loan drive. The national quota is \$16,000,000, two billion over the previous campaign's total.

Holland's quota of \$1,016,981.52, for the fifth bond drive includes Park and Holland townships and has been assigned by County Chairman B. P. Sherwood of Grand Haven on the basis of assessed valuation.

Mr. Lievense said: "The long dreaded but necessary invasion has been launched into suffering and death.

"This is a young man's war. They are fighting and dying for a war in which they are guiltless. They did not bring it; they did not cause it. Yet they give their all."

"What more can a young man do than lay down his life for another?"

"I earnestly appeal to all who have loved ones in our country's service to fight for this war bond drive. Right now it is our job. The tie between home and loved ones at the fighting front is sufficient for victory. To all others who enjoy the sanctuary of American citizenship, I say, measure your deeds by the deeds of those who are dying for you.

Mr. Wilson outlined a plan whereby every store owner or manager will be a captain in his own store. His first duty will be to buy bonds himself, then he will appoint gallants from among his clerks or helpers whose duties will be to buy bonds themselves and then, together with the captain, sell bonds on any and all with whom they come in contact.

The captain's next duty will be to report to the secretary of the Chamber of Commerce all the names of the stores he represents and the names and addresses of each of his gallants, and once each week report the amount of bonds sold. This report is necessary so that an up-to-the-minute record may be kept and the leaders will know whether any special promotion will be necessary.

Mr. Wilson said it also will be the responsibility of each captain to canvass all offices in the building he occupies, display the flag on the sidewalk and in windows, put signs on doors and windows and make window displays.

Board Will Buy Ten Thousand In War Bonds

Trustees Also Plan For Nine Teachers to Take Place of Twelve

The board of education at its regular monthly meeting Monday night in Holland High school authorized the ways and means committee to invest \$10,000 in war bonds to be credited to the city's quota in the fifth war loan drive. Although no particular series was specified in the motion, a short-term three-year bond offering 14 per cent interest was favored.

Supt. E. E. Fell reported the teaching staff is "pretty well" lined up for the new school year. Fifteen teachers have left or are

leaving by the end of the present term. Nine new teachers have been employed to take the place of the teachers, effecting a saving of \$6,500 in salaries. Shifting of classes and curriculum has been responsible for this "taking up of slack."

Dr. Fell is still seeking a teacher to teach deaf and hard-of-hearing pupils in the special education department. Sight conservation classes will not be held due to an insufficient number of pupils and there will be no speech correctionist for the coming year. In all, the curtailed program represents a saving of \$11,900 in salaries.

As part of the nine new teachers, the board approved the hiring of Miss Esther Ruth Van Dyke of Holland who was graduated from Hope college last week to teach in the elementary department, and Mrs. Roy Klompars, the former Jean N. Van Raalte, now teaching in Grand Rapids, as a full-time substitute.

President Fred Beuwick appointed Henry Geerlings, A. E. Lampen, Mrs. John Olert, Mrs. Marinus Mulder and C. Roos as inspectors for the school board election July 10 in the city hall.

The board approved the expenditure of \$100 as part payment on a motion picture projector costing \$500 to be used for special films in the work shop and nurses classes, both connected with the vocational department. Local industrialists, interested in promoting further study of woodworking and carpentry, are providing the balance. The board also authorized the expenditure of \$175 for new fluorescent lights in the work shop.

The board referred back to the building and grounds committee a proposition to purchase a triangular piece of property belonging to Glenn Mannes at the extreme east end of the Longfellow school playgrounds. The board also instructed the clerk to write the city council regarding the proposed construction of a sidewalk on the north side of 25th St. between State St. and Central Ave. which would cut considerable footage from the school's playgrounds.

Decision was made to hire Auditor Corrie Kragt to do the annual audit on the same terms as last year.

Bills allowed for the month amounted to \$35,107.50 of which \$20,479.28 was for teachers' salaries. All trustees were present. Trustee Martha D. Kollen opened the meeting with prayer.

Value of by-products in the meat packing industries in the U.S. amounts to more than \$300 million annually, or about 20 per cent of the total production.

Miss Theresa Berkompas, daughter of Mr. and Mrs. John Berkompas, Harlem, became the bride of John Henry Van Oss, son of Mr. and Mrs. Henry Van Oss, route 1, Thursday night in the parsonage of the Graafschap Christian Reformed church, Rev. H. Blystra officiating.

The bride wore a chiffon satin gown with short-puffed sleeves and a sweetheart neckline and a double strand of pearls, a gift of the groom. She also wore a fingertip veil and carried a bouquet of carnations, snapdragons and baby breath.

Miss Ella Berkompas, sister of the bride as maid of honor, wore pink chiffon with blue trim and a blue flower headdress. Her bouquet was carnations, snapdragons and daisies. Giles Veldhuis, a brother-in-law of the groom, assisted as best man.

A reception was held in the home of the bride following the ceremony, with the four-course lunch served by Misses Hermine Hassevoort, Marie Van Raalte, Elsie Schutt and Lucille Bos.

Mr. and Mrs. Van Oss are making their home at 78 West Ninth St.

According to U.S. census bureau statistics, diseases of the heart are now taking a toll in three years equal to American war losses in the past 150 years.
