Holland Back To Parallel To Parking Soon

ALD. VANDEN BERG BRINGS
IN COMPLETE REPORT OF
REASONS WHY MUST
COOPERATE WITH
STATE HIGH-
WAY DEPT.

Parallel parking will be reinstated in the city again when the recommendations of the civic improvement board are carried out, for the board, at the regular meeting of common council Wednesday night, recommended that the city enforce parallel parking in the downtown district as an indication of its desire to cooperate with the state highway department in maintaining and controlling the trunk lines through the city. Ald. Vanden Berg, chairman of the committee, gave a detailed report of the history of parallel parking in the city in which he said that the plan had been placed in effect temporarily about two years ago, and that the merchants had complained so that the system was abandoned. The return to angle parking was in opposition with the wishes of the highway department, and for this reason, no cooperation could be expected of the department until parallel parking was effected.

The original problem that was referred to the committee was that of re-routing the oil trucks that pass through the city so that they would not have to pass through the business sections of town. It was the opinion of the committee that the problem could not be solved without the complete cooperation of the highway department, and, consequently, parallel parking.

In looking up his data, Mr. Vanden Berg submitted a letter from the Michigan State Highway Department at Lansing, dated August 15, 1938, which was in reply to a council resolution, the department having an investigation made for raising the speed limits with establishments of regulatory driving zones within the city. The state department informed the city that with the parking conditions, namely, "angle parking," as they exist in Holland today, they would not consider it advisable to raise the speed limit until the primary matter of safety in parking had been taken care of. They pointed out that they had solicited the city in substituting parallel parking, showing the serious hazard of angle parking, which has increased because of augmented travel constantly, and they again advise to change the parking from angle to parallel. E. E. Horton, engineer of traffic, stresses the fact that as soon as this is done, the department will be pleased to further aid in the establishing of a regulatory driving zone, and with other engineering relief they would come under that scope. Of course, Holland instead continued to adopt angle parking; and by the same token, desired cooperation is not being received.

Mr. Vanden Berg also pointed out that the city records show that for the year 1938 the state highway department has contracted to pay the city of Holland the sum of \$5,756.05 for maintenance on trunk lines running through Holland, which amounts to 47% of the estimated cost. This includes snow and ice removal, flushing, and marking off and painting parking spaces in an amount of approximately \$300 per year. Mr. Vanden Berg commented that the cleanliness of Holland's trunk lines of ice and snow in the winter time were favorably noticed by outsiders generally.

Mr. Vanden Berg and his committee composed of Ben Steffens and Henry Ketel finally recommended in substance the following:

First, advise the State Highway Department that we wish to cooperate with them in an effort to improve traffic conditions in Holland and that we are ready to establish parallel parking on trunk lines.

Second, request the State Highway Department to cooperate with us in establishing proper speed zones on trunk lines passing through our city.

Third, solicit their suggestions and help in relieving present trunk lines in our downtown business districts as far as truck traffic is concerned.

Fourth, appoint a Council Traffic Committee—or designate one of the present standing committees for the consideration of all matters arising in the future pertaining to traffic.

The committee appointed by the mayor is a personnel of the street committee, Ald. Prins, Smith, Vanden Berg, civic improvement committee, Ald. Vanden Berg, Steffens, and Ketel.

At the conclusion of his report,

Ald. Vanden Berg read a series of letters from cities in western Michigan, all of which indicated that parallel parking is enforced on all trunk lines within these cities, and that very little trouble has been experienced with the system. The cities from which letters were received are Manistee, Grand Rapids, Traverse City, Benton Harbor, Kalamazoo, South Haven, and Muskegon. The letters were secured by secretary of the chamber of commerce, E. P. Stephan.

With this conclusion, Ald. Vanden Berg moved the adoption of the report, and that parallel parking be reinstated. The motion was supported by Ald. Kalkman and received a majority of votes.

COUNCIL NOTES

Ald. Ketel and Raymond were absent when Clerk Oscar Peterson called the roll to open the regular meeting of the common council Wednesday night.

Henry Geerds, representing a landowner on the south line of section 20, informed the council that this land had been filled in at the time that the "island" was built. At the time that the rights on these properties were clarified by the council, the situation for this particular piece was not touched. In the mean time, the work that was done in building up the land is being washed away, and a coffer dam is necessary to hold back the land. On the motion of Ald. Prins, the matter was referred to the civic improvement committee and the city engineer.

Building permits of \$12,233 were approved on the motion of Ald. Prins. One of the buildings at 20th street and Cleveland avenue, being built by H. Bos, was originally applied for as a frame building but under the building ordinance, commercial buildings must be fireproof. The building will be valued at \$900 and will be constructed of cement blocks.

Ald. Steffens reported that the ways and means committee recommended that former police officers Dave O'Connor and Peter Bontekoe not be employed by the city in positions as watchmen at the city hall and the Little Netherlands because there is no necessity for such jobs, and there is no money available to pay the men. On the motion of Ald. Steffens supported by Ald. Kleis, the report was approved.

Ald. Prins moved that the city apply for permission from the highway department to close Eighth street from College to River avenue, and River avenue from Eighth to Twelfth street during the Christian Endeavor convention parade on Saturday afternoon.

Four bids for the coal handling equipment that is to be used in the municipal power plant were opened by the clerk and read by Charles W. Hamilton, the consulting engineer on the project. The bids for the equipment are as follows: General Conveyors Corporation, Detroit, \$29,840; Webster Manufacturing Co., Detroit, \$39,996; Link Belt Co., Chicago, \$38,842; Fairfield Engineering Co., Marion, Ohio, \$33,800. It was moved by Ald. Prins that the bids be referred to the board of public works for further tabulation and perusal.

In a letter from the board of public works, the council was advised that the board has received a check in the amount of \$225,207, or one-third of the total government grant. It was recommended by the board that the check be properly endorsed and deposited half in each of the local banks. The action of the board was approved on the motion of Ald. Prins.

A resolution from the board of public works recommending that the city join the plaintiff in a test case of the recently-passed state sales tax on municipally-owned utility bills that is being carried on in Ingham county was approved on the motion of Ald. Prins.

A letter from E. P. Stephan, secretary-manager of the chamber of commerce, advised the council that the Tulip Time committee felt that they should not pay the 5% of the gate that is paid when ever Riverview park is used by any organization. Ald. Prins immediately moved that the matter be referred to the playground committee, but after some discussion, it was not thought expedient to refer it to this committee. City Engineer Zuidema stated that it is a yearly affair for the Tulip Time committee to make this request, and that, since the stipulation of 5% of the gate has been set, all must pay it. The high

Ninety-six graduates of Hope college received diplomas at the seventy-fourth convocation of the college at Hope Memorial chapel Wednesday evening. In spite of the inclement weather, local citizens and friends and relatives of the graduates filled the auditorium almost to capacity. Dorothy Vandenberg, senior organ student, played the organ prelude, "Fantasia in G minor" by Bach. While the graduates and faculty marched to seats on the platform, Mr. Kenneth Osborne, college organist, played the Hope processional.

The Rev. N. Boer, president of the board of trustees of Hope college, pronounced the invocation, following which Oliver Lampen, son of Prof. and Mrs. Albert E. Lampen, gave thealedictory. Lampen informed his fellow students that the world today is not waiting with open arms for the graduate as formerly. He exhorted his fellow-students to uphold the ideals of democracy and to make their lives adaptable to a changing environment by means of nature, books, and action. "We merely ask for a place to serve," he assured the audience.

John Olert and Cornelius Steketee next rendered a trumpet duet, "My Heart at Thy Sweet Voice." Mrs. W. Curtis Snow served as accompanist. In the absence of Dr. John E. Kuizenga, due to sudden illness, Dr. Wynand Wichers, college president, read Dr. Kuizenga's address, "The Riddle of Oedipus." Dr. Kuizenga was taken to a Grand Rapids hospital, where physicians estimate he will remain for about six weeks.

"The real riddle of life is man himself," began the address. "Why is man's life, which might be so happy, so full of misery?" In support of his thesis, Dr. Kuizenga presented excerpts from Shakespeare, Pascal, and numerous other men of literature who have been confounded when they were forced to face the facts of life. The Oxford Conference had a solution to all questions, save the one—"what is man?" We still face the riddle of Oedipus.

Man the conundrum and man the victim were the two heads under which Dr. Kuizenga developed his address. The question of man was traced down to our scientific age. "In ultimate essentials it has taught us nothing," he asserted. "What has psychology, off to such a brilliant start, actually wrought? We have had a national boundary that is safe? Where is value not jeopardized?" the speaker demanded.

"Know Thyself" and "Behave Thyself" are two ancient maxims, he continued. But man in himself can do neither. "Man cannot master nature because he cannot master himself. He must enter the era of the God-man; not the era of the man-God!" Quoting Calvin's "Institutes," the speaker stated, "We cannot know man until we know God." Three things are essential to an understanding of man: 1. Man is a being whose distinguishing characteristic is that he must heed God; 2. Man revolts against God by nature; 3. Man must be redeemed through the redemption and the incarnation. God way of life lies in the way to God through Christ.

"The future belongs to Christian education and the Christian college. Only the opening of the Book of God gives light."

Following a selection by the Senior Girls' trio, composed of the Misses Mary Jane Vaupell, Thelma Koolker, and Gertrude Young, Dr. Wichers awarded the degrees. Bachelor of Theology degrees went to Gradus C. Aalberts, George C. K. Hayson, David A. Lamar, Albert F. Mansen, John Henry Piet, and Maurice R. Snyder. Honorary degrees and prizes were presented. Dr. Bruce M. Raymond of the Hope college history department assisted in the presentation of the honorary degrees. Following the singing of "Land of Hope and Glory" by the senior chorus, Dr. Boer pronounced the benediction, and the convocation adjourned.

Scholastic awards and honors for extra-curricular activities were announced by Dr. Wichers at the exercises as follows:

school and college and the baseball teams all pay the percentage, he stated, and it would not be fair to make one organization exempt. Ald. Prins then withdrew his motion and placed a substitute motion that the committee pay the percentage. Ald. Steffens then suggested that the percentage could eventually be done away with and cancelled. Ald. Kleis then made another substitute motion that the matter be referred to the ways and means committee, and the motion carried unanimously.

Ald. Kalkman again practiced blowing smoke rings while meditating city business.

First Drowning Occurs In This Vicinity

BODY OF CHICAGO GIRL
DROWNED WEDNESDAY NITE
RECOVERED EARLY THURS.

The first drowning in the vicinity this season occurred at Port Sheldon late Wednesday night when Miss Ruby Harkens of Chicago was drowned in Pigeon Lake, Port Sheldon. It seems that Miss Harkens, age 21, and a companion, Mr. George Gent, also of Chicago, both excellent swimmers, decided to swim across Pigeon Lake. The girl, however, failed to make the crossing, and when she did not make her appearance on the opposite side of the lake, the sheriff's department at Grand Haven was immediately notified. They in turn notified coast guards at Grand Haven and Holland and Sheriff Frank Van Etta and deputy Charles Salisbury immediately proceeded to the scene of the drowning. The sheriff's department and coast guards dragged for the body and Grand Haven coast guards recovered it at about 5 o'clock Thursday morning in about 20 feet of water. Dr. Bloemendal, coroner, pronounced death due to drowning. The body was sent to Chicago.

Dr. Stauffacher takes with him a gift of \$520.00 from his friends in Holland. This money is to be used for the erection of a building about a mile from the leper camp where babies and very young children of leprosy parents who have not contracted the disease, may be cared for by efficient nurses. This will enable parents to see their children but at the same time will prevent the spread of the dreaded disease. NIJESMA TAKES PLACE OF DALMAN AS POLICE OFFICER

The resignation of Police Officer Jay Dalman was unanimously accepted at a special meeting of the board of police and fire commissioners, held Tuesday at 6 p. m., at the office of City Clerk Oscar Peterson. Action on the resignation, which Dalman had requested in writing Saturday, had been postponed at the regular meeting of the board Monday afternoon to allow the board to investigate the matter.

Dalman's request for resignation followed his being involved in an accident with a local police cruiser on the night of June 12. He is reported to have taken a position with the Holland Furnace Co.

When Dalman's case came up before the board Monday, Chairman Andrew Hays called the Tuesday session of the board, insisting that the whole board should decide on the matter, rather than that it should be left to a committee. Dalman had been a member of the police force since August, 1936. During the past two years he had been in charge of the large Tulip Time police squad. For his services during last Tulip Time, the board voted him an additional week's salary at Tuesday's session.

Harris Nijesma, 69 Madison Place, was selected by the board to replace Dalman on a six-months' probation period. Nijesma was selected by virtue of his having attained second place in a recent civil service examination.

Other matters called to the board's attention were the setting aside of a regular salary for Special Officer Henry Borr, and approval of the payment of a salary of \$300 for three months' work to Tony Ross, special officer at Kollen Park. The sum is to be derived from a life guard budget appropriation.

At Monday's session a letter from former Detective Peter Bontekoe was read, requesting his reinstatement with the local force. It was voted to set aside a sum of \$10 for \$5,000 insurance on the city fire truck while it is undergoing a paint job in a local paint shop. Collections of \$1.60 and \$22.60 were reported for the month of May by Justice of Peace Gerrit W. Kooyers and Justice John Gallien, respectively.

Someone shot the tubing of the city neon Welcome sign on US-31, north of the city, using a rifle, it is said. Deputy Sheriff Wm. Van Etta is seeking information as to who is the guilty party.

The Michigan conference of Wesleyan Methodist will hold their annual meeting which follows the Michigan conference on August 6 to 13. This is the 89th meeting. The Rev. C. W. Merrett of Holland will preside at the annual meeting.

Mrs. Elizabeth Bannell, age 83, of Saugatuck, is confined to Douglas hospital because of an injured thigh she received when she fell as she arose from her chair to walk to another room.

Born to Mr. and Mrs. Ted Piers, 332 Maple Ave., a son, Wednesday, at Holland hospital.

Mr. and Mrs. William Sakkers have returned from a trip to Washington, D. C., the world's fair at New York, and the Niagara Falls.

Dr. and Mrs. Henry Kuizenga of Chicago, former missionaries in Shanghai, China, are visiting friends and relatives in this vicinity, including Mr. and Mrs. G. G. Groenewoud, 219 West 15th St.

Commencement Cliches
(Detroit Free Press)

The president of the University of Chicago gave its graduating class this warning: "We must recognize that you may never make a nickel that you would not have made if you had never come here, that your education will not hoist you by a single rung up the social ladder, and that with the finest degree in America you may have to support yourself by pushing buttons eight hours a day."

The idea that a college diploma is an Annie Oakley to fame and fortune has long since been abandoned by generations of disillusioned graduates.

A college course is merely preparatory to the real business of acquiring knowledge, which is a life job.

About all the best of colleges can claim to teach is how to study, what there is to be known about a given subject and the names of the books from which this knowledge may be obtained.

The young men and women who are leaving our institutions of higher learning this month should not be disappointed or disheartened, therefore, if they are not invited at once to assume charge of General Electric or General Motors.

The technical and competitive world they are entering requires more than a sheepskin to reach the top of the ladder.

Success is as much a matter of character, as it is of knowing all the answers in the books. Some of our most successful men and women never went to college. Some of our greatest failures did.

The best thing to do with a college diploma is to throw it in a drawer and forget about it.

And then go to work.

The real keys to success in this life are a determination to accomplish something worthwhile, ability to get along with others, and loyalty to yourself, your job and the country that gives you an opportunity to exercise whatever talents you have inherited from your forebears.

Allegan Deer Still Problem

W. A. Bergin, assistant chief of field administration in the conservation department, said today he was considering the feasibility of a wholesale slaughter of deer in Allegan county in the fall because of heavy damage the animals have caused to farm property.

Reluctant to recommend the drastic step, Bergin said experiments were being pressed vigorously to find a means of keeping deer off private property. Thus far, he added, the deer were too smart for their own good.

An order by the conservation commission would be required before such a slaughter could be undertaken, Bergin said. He said conservation officers who are expert riflemen would be assigned to the kill if one were ordered, with dogs driving the animals into the open. The meat would be given to charitable institutions.

380 Pheasants Hatched June 15th at the Hillcroft
(Coopersville Observer)

Hunter Hering called at The Observer office Thursday and said, "Come out to the car; I have something to show you." We accepted the "summons" and there we saw 380 pheasants which had been hatched at the Hillcroft hatchery, Coopersville, and which Mr. Hering was taking to the home of Emmans Walbridge south of Nunica, where they will be cared for until old enough to be released.

Wm. P. Browne, proprietor of the Hillcroft hatchery, states that the hatch was a good one, 500 eggs being set in the first place. The "chicks" are to be released by the North Ottawa Conservation club, and the two clubs in Crocker township, as a part of the game conservation program being carried out in Michigan.

"The Fate of Our Society" Lies In Our Hands

NEW YORK DIVINE DOES NOT PAINT A REASSURING PICTURE OF FUTURE OF CIVILIZATION - SAYS CHRISTIANITY IS THE WAY OUT

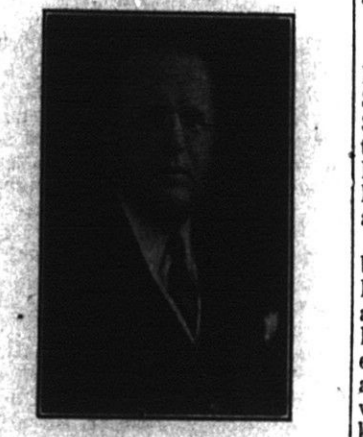

The Rev. Norman Vincent Peale, D. D., pastor of the Marble Collegiate church of New York City, last Sunday evening addressed the seventy-fourth convocation of Hope college at Hope Memorial chapel. Despite the warm weather, a capacity audience attended the baccalaureate service.

The organ prelude, "Chorale in B Minor" by Frank, was played by Kenneth R. Osborne, college organist. While the audience sang, the graduate procession marched in to the strains of "The Son of God Goes Forth to War." James Hinkamp and Allison Vanden Berg, juniors, served as ushers. First in the procession was the Hope college chapel choir. Then followed the 96 graduates, the college faculty and the seminary faculty.

Dr. Wynand Wichers, president of Hope college, presided at the services. The prayer of blessing was pronounced by the Rev. Clarence P. Dame, pastor of Bethany Reformed church, Grand Rapids. The choir responded with the selection "He Is Watching Over Israel" from Mendelssohn's "Elijah." The Scripture lesson, read by Dr. Wichers, was taken from Matthew 5:1-16. Announcements were then made by Dr. Wichers concerning the alumni business meeting at 4 p. m. Tuesday; the alumni dinner at 3:30 Tuesday, at which Dr. Samuel Zwemer was to be speaker, and concerning the reception for alumni and students at Dr. Wichers' home from 3 to 5 p. m. Wednesday.

Following a hymn by the audience, Mr. Osborne rendered the offertory "Adagio in A Minor" by Bach. The choir again sang a selection from Mendelssohn's "Elijah," namely, "He That Shall Endure."

Dr. Peale's address was entitled "The Fate of Our Society." In his introduction, Dr. Peale commended Dr. Wichers' determined stand for undiluted Christianity, his leading the college in the steps of

DR. NORMAN VINCENT PEALE

"The Greatest Scholar the world has ever produced, Jesus Christ." Practically and timeliness were the two elements which the speaker asserted his address contained which possessed a strong appeal to a present-day audience. All walks of life, he stated, are at the present time demanding a cure for the situation which confronts us. The graduate also has the right to inquire about the likely fate of society.

"To attempt to prophesy the outcome of life at a given point is of the utmost difficulty," Dr. Peale began. "There are many uncertainties in life, but there are two things of which we may be absolutely sure—birth and death, beginning and end, things which come to all save God Himself. Man and his institutions are subject to laws of dissolution and decay. No institution is eternal; no society is immortal."

"Some," said Dr. Peale, "suggest the decay of civilization at the present hour. They note the dust of confusion in the air. President Seymour of Yale believes this. When asked if he thinks the world is worse off today than before, he answered, 'I am compelled to answer that the world is worse off today than ever before in its history. Never before has there been such a disintegration of spiritual values. Never before has materialism been so rampant.'

Dr. E. Stanley Jones, well-known missionary, was quoted by Dr. Peale as having said that at the present time there is a race on between catastrophe and Christianity. The two are now neck-and-neck. It has not yet been determined which shall win. "It is a solemn hour to graduate in an hour such as this."

Dr. Peale condemned the "syncretized paganism and vulgarity" of the present day. The world is going unsound spiritually, economically, politically, and socially. "This is not pessimism," asserted the speaker. "This is realism."

Christianity was suggested as the only cure for the present-day condition. "Christianity always faces situations unafraid. It challenges to sturdy and heroic living. No real believer in God can be a pessimist. All for us to do is get on God's side and help Him redeem civilization."

The cure, asserted the speaker, is for the individual to begin doing things, for him to see that no one is doing anything about the world. Therefore each must feel a commission from God Himself. First the individual must think. He must learn to think God's thoughts after Him, as the scientist does. We brought ourselves into our present state of affairs. Then we forgot how to think. "We are not thinking today. We are merely engaging in intellectual free-wheeling." Simultaneously Dr. Peale announced his plan to petition congress to set aside 1933 as the 10th anniversary celebration of the depression (laughter).

The second requisite is for the individual to lead a decent, pure, honorable, upright Christian life. "Wherever there has been a decline of civilization in the past, moral life of the people has been decadent."

The speaker concluded with a summary of the story of the fate of Babylon, as indicated in Scripture. "Christ told his disciples, 'Ye are the salt of the earth.' He now urges you graduates to set your lives against this decay. You are the light of the world. You hold in

Person May Be a Dreamer in the Right Direction

REV. NETTINGA CITES JOSEPH THE DREAMER TO 260 GRADUATES OF HOLLAND HIGH SCHOOL

A capacity audience attended baccalaureate services for the Holland high school class of 1933 at Hope Memorial chapel Sunday afternoon. While the 260 graduates marched to seats in the front of the auditorium, preceded by the Holland high school A Cappella choir, Mrs. W. Curtis Snow of the piano department at Hope college, played the processional hymn, "Onward, Christian Soldiers." Mrs. Snow also played the organ prelude, "Romance Sans Paroles" on the Skinner pipe organ.

Numerous flower baskets decorated the platform, where sat members of the school board and A Cappella choir members. Mr. J. J. Riemersma, high school principal, presided at the services.

Following the invocation by the Rev. Henry Van Dyke, pastor of Fourth Reformed church, the choir under the direction of Miss Trilzie Moore, rendered "O Savior of the World" by Goss. Rev. Van Dyke then read Genesis 37:5-20, and the choir responded with "The Kingdom Come" by Christiansen. The prayer of blessing was pronounced by Rev. Van Dyke, and the choir and congregation sang the hymn, "O Thou Whose Feet."

Speaker for the occasion was the Rev. James Zwemer Nettinga, graduate of Holland high school in the class of 1930, graduate of Hope college, recipient of the B. D. degree at Western seminary, recipient of the Master of Theology degree at Princeton, and future candidate for the degree of Doctor of Theology at Union seminary. Rev. Nettinga is stated supply of the East 89th St. Reformed church of New York City.

Rev. Nettinga spoke on the subject, "Thou Art a Dreamer." He summarized Joseph's dreams in Scripture, the sheaves bowing to him and the stars bowing down before him. "Joseph dreamed dreams of the years to come," Rev. Nettinga stated. "He had one great quality. He was a dreamer. Dreams of God give us better dreams of life."

"There is nothing diabolical about these dreams. We have all dreamed our dreams. This is but normal. The value of these dreams depends upon our dreams of God. As we grow older, it is so easy to leave God out of the picture."

"You cannot live on dreams alone. Obedience and duty must always accompany our dreams. Joseph's dreams were of God, for they helped him rise above and overcome difficulties."

Rev. Nettinga then applied the principle to present-day world conditions. Dreaming eliminates fear, he asserted—fear, which is dominating all thought today—fear for food, work, existence, self. Cynics and pessimists were severely criticized by the speaker. "Catch the vision of God," he concluded. "Be a dreamer, but, above all, be a worker!"

The final requisite of Joseph's dreaming was morality. When he was tempted, the thought of God stopped him. "The thought of God will save you, not out of a sense of fear, but out of a sense of trust. The more your dreams are of God, the greater the victory you will be over life. Don't let the world rule the kingdom of your soul by its venomous attacks. Don't let the world blast your dreams out of existence with hatred, distrust, fear. Be true to your trust, and with God, dream on!"

Following the singing of the doxology by the audience, Rev. Nettinga pronounced the benediction. The choir responded with Lutkin's Choral Amen. The organ postlude, "Toccato and Fugue in D Minor" by Bach, played by Mrs. D. Minner, by Bach, played by Mrs. D. Minner, concluded services for the 260 graduates, largest class ever to graduate from the local high school.

DROWNED BODY IDENTIFIED AS THAT OF CHICAGO MAN

By means of a card found in his prayer book, officers were able to trace the identity of the man whose body was found on Lake Michigan beach last week. The book and card were dried, and on the card was the name of Szczepan J. Sendziak, a Chicago funeral director.

By telephoning, the sheriff's department immediately got in touch with him, and he stated that he knew of someone who had been missing for some time. The identity was then contacted and she identified his clothing and a homemade truss which he was wearing. The man was Stanley Wdowiars, age 55, of 2604 West 21st st., Chicago, and was a WPA worker. He had been missing since March 5.

The body was temporarily buried in Grand Haven because of its condition, but was later removed to Chicago.

GRAND RAPIDS AND ZEELAND RESIDENTS INJURED

John W. Ott, 455 Cherry St., S. E., Grand Rapids, and Mrs. Gerden Diekema, age 25, of Zeeland, were injured in an automobile collision on M-21 west of Zeeland. Ott received cuts on his nose and head, and Mrs. Diekema was cut under the left eye and under the right ear. They were treated at Holland hospital and released.

The automobile in which Mrs. Diekema was riding was driven by Gordon Goorman, age 24, of 27 East Central ave., Zeeland. Other occupants of the car were Mrs. Diekema's husband, and Miss Johanna Van Dyke, also of Zeeland.

According to Deputy Sheriff William Van Eita, both cars were going west and Goorman attempted to turn into the driveway of the Goering's Midway Gas station just as Ott attempted to pass him.

The two cars hooked each other and had gone down the road some distance before Ott's car became loose. It overturned twice, and finally stopped in the driveway of the gas station. It was a new car, and was damaged to the extent of \$700 or \$800.

Much Interest Manifested Talk Canning Factory at Coopersville

The article of last week regarding the idea of a canning factory for Coopersville has been received with a renewed effort to bring more enterprises to our town. Business men and folks from the farm have taken to the matter with enthusiasm and there is a possibility that something may be done in this direction.

Right now there are certain circumstances which may make the project assured, but it is too late to expect to do anything to care for this season's crops. Several plans may be proposed that will not require an outlay of cash as has been the case with projects that have been disheartening to many of Michigan's towns in the rural districts.

We realize from past experiences in promoting any enterprise in these days that the people are a bit skeptical to go along with such a proposition, so plans must be outlined in such a way that will guarantee a permanent business to agriculturalists and people in town must both give approval. Such a plan is now being worked out and as soon as all details are perfected, we are certain that it will be accepted.

One thing certain, nothing will be attempted that looks like a "blue sky" project. Every detail of any enterprise should be free from "sucker baiting" and must show its ability to prove itself a lasting success.—Coopersville Observer.

ROTARY CLUB TOLD ABOUT FIRST OIL WELL BY MR. GALLAGHER

The Holland Rotary club met in the Warm Friend Tavern Thursday noon and heard an interesting address by George A. Gallagher, advertising manager of the Leonard Refineries, Inc. of Alma. The speaker pointed out that centuries ago Michigan must have been primarily a warm body of water with hot and dense overgrowth on the sections above the water. The intense heat together with the probable nature of the country turned the overgrowth decay and bodies of reptilian animals into rich deposits of coal, oil, and limestone over a long period of time. Today the prospector mines the coal, and the same amount of energy is released from it that the sun expended long ago.

Mr. Gallagher stated that the oldest discovery of oil in North America was made at Smith's Bay, Canada, by Jean Nicolet and other Jesuit missionaries. The first oil well was drilled in Titusville, Pa. by Col. Edwin L. Drake. Mr. Drake claimed only the one well, thinking he had possession of all the oil under the ground. Others, however, drove wells, and his output went from 25 barrels per day to 15 barrels per day.

He continued by saying that Michigan's first oil wells were in port Huron and Saginaw. Today the oil industry is one of the two largest industries in this state, the cracking process being used by refineries. This means the breaking of large molecules into smaller ones under pressure.

The speaker said that automobile manufacturers made cars that taxed the fuel, and oil dealers produced a fuel that required a better car.

A sextette from Holland high school, under the direction of Miss Trilzie Moore, and accompanied by Marjorie Skeetee, rendered selections. Those in the sextette were Marjorie Brouwer, Clarabelle Dunne, Mary Jane Raffenaud, Phyllis Pelgrim, Mildred Herman and Vera Vanderbeek.

Mrs. Grace Fleser, general chairman, announced that the Burnips school will hold its annual reunion on June 24 on the school grounds. All those who attended the school are asked to be present.

It would be interesting to attempt to discover the secret of Paul's power and success. It is not probable that his physical bearing had much to do with his strength of personality, for there is general agreement that his stature was small and that his physical appearance was a handicap rather than an advantage. However, we are certain that he possessed a strong intellect. History indicates that he was well trained and highly educated. This is evident from his literary efforts. His early education fitted him for leadership among the Jews. The same training served him well after his conversion to Christianity. He was schooled in Greek philosophy and literature as well as in Jewish lore.

His conversion was marked and unique. At times we are inclined to think that the most effective leaders in any field are those who have been converted from one view to another. It seems that such a conversion lends itself to a significant enthusiasm. This is probably not a fact, for those who are reared in a faith can be just as effective as those who come into it from without. A conversion may produce a different type of service, but not necessarily more successful effort. Saul, the active Jewish persecutor of Christians becomes, through his conversion, the active

missionary of the Christian cause. His sense of having wronged the Christians may have made him so much more zealous to render the cause good service.

Paul's life was one of courage, enthusiasm, and devotion to a cause, marked by a singleness of purpose, and of a surrendered trust in God. On these qualities he built his work and no doubt to these characteristics he owed his success.

His activities included teaching, preaching, pioneering in church building and, when necessity demanded it, working at his trade as a tent maker. He was versatile in his preparation and this proved valuable to him in his varied life.

A record of his life would be very incomplete which did not call attention to his literary achievements. Although an active missionary he was called upon to do considerable writing. A large portion of the New Testament consists of his literary efforts in the form of communications to newly formed churches and congregations. This correspondence gave form to the doctrines of the new religion and also laid the foundation for the practical conduct of the congregations.

Above all else he was a missionary statesman. The founding of many churches is to his credit. The saving of these groups from disintegration is due to his care and oversight. Inspiring efforts to carry on the work he founded was an essential part of his effort. His work was accomplished against great opposition. But he was in no sense a quitter. He carried on his work in spite of enemies and obstructions.

It was no vain boast to summarize his life in the words—"I have fought a good fight, I have finished my course, I have kept the faith." His life as a missionary was fraught with danger, peril and opposition. In the face of these he fought a good fight. He courageously kept on in the midst of great discouragements.

He kept his faith until the end. Various interpretations have been placed upon this statement. Some stress the fact that he did not change his theology or intellectual concepts once he accepted the

Christian gospel. Others think that the statement means that he remained loyal to God and Christ throughout his life and that the emphasis should be put upon this rather than upon the theological viewpoints that he propagated. In view of the fact that both things are true there remains little reason for the distinction. Paul was loyal to Christian doctrine and to the person of Christ.

We owe Paul a great debt. He was an example of what a really consecrated person can accomplish for God. He demonstrated what a trained intellect can contribute to the work of the church. He exemplified what a courageous man can do in the face of discouragement. He was a thinker who gave his best thought to the development of Christian truth. He was a writer who busied his pen for the literary work of the kingdom. He was a scholar who worked with his hands when it became necessary. He was a statesman who used diplomacy in a good cause.

ORVILLE ATWOOD, FORMER SECRETARY OF STATE KILLED

Orville E. Atwood of Fremont, managing director of the state board of tax administration and former secretary of state, and Frank Longyear, Lansing, board officer manager, were fatally injured and four other persons were hurt in an automobile and bus crash one mile east of Howell.

Livingston county sheriff's officers said the accident occurred when Atwood, who was driving to Detroit, attempted to pass a light truck driven by Fred Croninwood, of Howell.

They said Croninwood's truck had been halted on US-16 near a viaduct, waiting to make a left turn. The officers said Atwood's car apparently clipped fenders with the truck and caromed into the path of an Eastern Michigan motor bus, westbound from Detroit to Lansing.

Angler Hooks Big Sturgeon

David Gardner, a Spring Lake Township farmer was late for breakfast and he lost his prized fish in the end, but he enjoyed the thrill of landing a 35-pound sturgeon. It was a real thrill, too, Mr. Gardner says, as he battled with the fish for 30 minutes before he finally got it ashore.

Living along Grand River, Mr. Gardner usually drops a line in the water while he waits for the coffee to percolate. He was about to quit fishing and go to his breakfast when a fish grabbed his worm baited hook. At first, Mr. Gardner believed he had hooked a large carp, but the battle put up by the fish soon convinced him otherwise. It was 30 minutes before he was able to tire the sturgeon and get it to shore.

After landing the fish, Mr. Gardner tied it to the dock and notified conservation officers. That afternoon the fish was released by Herman Pool, deputy state conservation officer from Ottawa County, as the law prohibits keeping sturgeon.

"Of course, I would have liked to have kept the fish, but it surely gave me a thrill to catch it," Mr. Gardner says.

Application for building permit was filed with City Clerk Oscar Peterson by H. Bos to erect a building at 20th and Cleveland Ave. at a cost of \$900. The building will be constructed of cement blocks, 20 by 40 feet, and have a tar and gravel roof.

MOOI-TENPAS VOWS ARE SAID

The Eagle Crest park home of Mr. and Mrs. George Mooi was the scene of a beautiful outdoor wedding on Monday afternoon when their daughter, Miss Edna Mae, became the bride of Dr. Henry William Tenpas, son of Mr. and Mrs. G. H. Tenpas of Clymer, N. Y.

The vows were said in a natural garden setting of peonies and evergreens with the Rev. William Van't Hof, pastor of Third Reformed church officiating using the single ring ceremony.

The bride, wearing a floor length gown of pastel blue marquisette and carrying a shower bouquet of briarcliff roses, forget-me-nots, and baby breath, tied with white satin ribbon and wearing a head-wreath of flowers, approached the altar on the arm of her father.

She was attended by Miss Marjorie Van Wessenberg of Chicago as maid of honor who wore a floor length gown of pink marquisette and carried Joanna Hill roses. She also wore flowers in her hair. Dr. James Thompson of Paw Paw attended the groom. Strewn rose petals in the path of the bride was the flower girl, Norma Lee Damstra, of Dayton, Ohio, niece of the bride. She was dressed in yellow organdie and carried the flowers in a white basket. The bridal party approached the altar as the wedding march from Lohengrin was being played by Miss Barbara Lampen, who also played several other appropriate numbers before the ceremony, and accompanied Miss Adelaide Kooker singing, "I Love You Truly" Carrie Jacobs Bond, and "O Promise Me" De Koven.

Following the ceremony a wedding supper was served to approximately 100 guests by Kay Stronks, Margaret Greenfield, Virginia Kleis, Betty Krelkel and Myra Kluis. Mrs. Edith Walvoord was mistress of ceremonies and Miss Virginia

Kookler in charge of the gift room.

Robert Arendshorst and Jay Zuidema were ushers.

Mrs. Mooi, mother of the bride was dressed in a navy blue printed sheer with blue accessories and wore a shoulder corsage of mixed flowers. Mrs. Tenpas, mother of the groom, wore navy blue and wore a like corsage.

Mrs. Tenpas was born in Holland, attended Hope college and U. of M. School of Nursing. Dr. Tenpas was born in Clymer, N. Y., graduated from Hope college where he received his A. B. degree, and later received his M. D. from the University of Michigan. At present he is an interne at the Butterworth hospital, Grand Rapids. Following a wedding trip to New York and points east are newlyweds will make their home at 162 Prospect Ave., N. E., Grand Rapids.

The Women's Guild of Grace Episcopal church was entertained at a cottage of Mrs. Percy Ray at Waukegan, Wednesday afternoon. Eighteen members and friends were present. A picnic dinner was served at 1 o'clock and the remainder of the afternoon was spent socially.

Oliver Lampen, son of Prof. and Mrs. Albert E. Lampen of Madison, Wisconsin, where he has a summer scholarship for six weeks' graduate work at the University of Wisconsin. He is a member of this year's graduating class of Hope college, and will continue his work at Wisconsin in the fall.

Allie Cappen of Coupeville, Washington, is visiting his cousin, Albert Bosch, 68 West 17th St., and other relatives here. He left Holland 43 years ago for Coupeville, Wash., and has not visited Holland since.

Flags are decorating the main streets in honor of the city's guests of the C.E. convention delegates.

HAMILTON FARM GROUP WINS BEAMER'S PRAISE

Elmer R. Beamer, state commissioner of agriculture, declared in an address prepared for delivery at the Hamilton farm bureau Wednesday night that the host organization has "developed a program of marketing that shows some of the most outstanding accomplishments in the state."

Asserting that the bureau ranked second to none in Michigan in egg marketing accomplishments, the commissioner compliments the members and said "the consumers, even in these times of low income, are ready to pay for a good product if they can be assured that they are getting what they pay for." He advised other farm groups to set up standards for the sale of land, arguing that land substitutes costing more than land were outselling the natural product because consumers can depend on a standardized product.

"We agricultural commodity groups of today have sadly neglected quality standards," Beamer said.

Applications for building permits filed with City Clerk Oscar Peterson were as follows: Mrs. Ben Olgers, 249 West 15th St., asbestos asbestos, house, \$175; Martin Inderbitzen, 400 Columbia Ave., chicken coop, six by six feet, \$8.

Diplomas Are Awarded To Forty-eight

Honor Awards, Scholarships Are Presented in Presence of Large Audience; Class Presents \$750.00 Memorial to School

Central Avenue Christian Reformed church was filled to capacity Tuesday evening despite the warm weather, when commencement exercises were held there for graduates of the local Christian high school. The class this year numbered 48, with Richard De Ridder as president and valedictorian.

Following the organ prelude, "Larghetto" from second Symphony, by Beethoven with Mr. John Pott of the faculty presiding at the organ console, the graduates slowly proceeded down the church aisle while Mr. Pott played the Processional, and took the places which had been reserved for them.

Rev. L. Van Laar, president of the Board of Trustees then pronounced the invocation, after which James Wildschut, treasurer of the 1939 class welcomed the audience in the name of the graduates. Mr. Wildschut in a most unique manner likened the school years which the graduates had enjoyed, to a radio, the aerial of which was the Word of God; the control room, the teachers and parents of the students; the training they had received was that which the "radio" brought them. He stated that many would be watching the graduates in the future years and that while some of them were going out immediately to face the battle of life, there would also be others who would seek higher education. Said Mr. Wildschut to his classmates, "Reaction will, however, come to all, and the way we meet the future will reflect the contact we have had with the radio of our school years. Pray God that we may be steadfast, that we may never abuse the privileges that have been ours, but rather be ever true to our God and guard jealously that stewardship that has been entrusted to us."

Presentation of diplomas to the graduates was made by Supt. John A. Swets, who addressed the class briefly prior to giving out the diplomas. Mr. Swets stated that he had met with the class early in the year, and that at that meeting the class had selected as their class motto, "I Have a Stewardship Entrusted to Me" as found in 1 Cor. 9:17. The fact that the class had chosen this particular motto from the several suggested, made him most happy, he stated, and he hoped that they might live up to that motto always.

Mr. Swets stated in part, "This night I would address myself to the seniors of 1939. It is their night! We have come here to honor them, to enjoy with them the fact that they have reached a milestone in their lives. However, it is also a night which we as teachers have had our day with them and that from now on we, as teachers and students, stand apart. These seniors must choose their own careers. We have had our time. However, I hope that the teachings they have received may play an important part in their future careers. May you be staunch in your Christian principles, may you ever be mindful of your Christian stewardship. You will recall that at the trial of Jesus, it was Peter's speech which betrayed Peter when he thrice denied the fact that he knew our Lord. May that also be the case with you in the years to come—may the teachings of our years gone by have such an influence in your lives, that your speech will betray you as did Peter's."

Principal John Tuls presented the prizes and awards as follows:

1. Honor Awards—"Medals" to the valedictorian, Richard De Ridder and to the salutatorian, Mildred Schrottenboer.
2. 1939 Essay Contest sponsored by Ladies' Auxiliary to Veterans of Foreign Wars. Subject: "True Americanism—How best to achieve it." Local 1st prize of \$10 awarded to Marvin Vander Vlies with the local 3rd prize of \$2.50 awarded to Richard De Ridder.
3. Triangular Oratorical Representatives—"Medals" to the girl, Corinne Pool and to the boy, James Wildschut.
4. Science Award—"Bronze Plaque" to student doing best work in Science during 4 years of high school awarded to Richard De Ridder.
5. Senior Essay Contest—Subject: "Whither Democracy?" Prizes given by the Christian high alumni association. 1st prize of \$10 awarded to Mildred Schrottenboer with the second prize of \$5 to Richard De Ridder.
6. Bible Award to student doing best work in Bible during his senior year. 1st prize of \$5 to Mildred Schrottenboer and the second prize of \$3 to Richard De Ridder.
7. Citizenship Award—"Medals" awarded to girl, Louise Grotenhuis, and to the boy, Richard De Ridder.
8. Scholarships. To Hope College awarded to Corinne Pool with Louise Grotenhuis as alternate. To Calvin College—Mildred Schrottenboer with Lois Tinhoft as alternate. (The Calvin Scholarship was originally awarded to Richard De Ridder. He did not accept it because of the fact that Classis Holland is sending him to Calvin to prepare for the ministry.)

Richard De Ridder, valedictorian and also president of the class in his valedictory took as his subject the words of the class motto, "I Have a Stewardship Entrusted to Me." He stated that he spoke for all the graduates when he said that the privileges enjoyed were very great. But along with those many privileges comes also a great responsibility for "to him unto whom much is given, from him shall much be required." Said Mr. De Ridder, "We have chosen as our motto, 'I have a Stewardship Entrusted to Me.' Each one of us

Summer Is Here

Two Grand Haven Offices Are Pilfered; Money Taken

Robberies in the Bolt Insurance office and Circuit Court Commissioner Matthew Locke's office, both on the upper floor of the Grand Haven State bank building, were reported to have taken place yesterday some time during the noon hour.

Miss Angie Bolt reported that \$10 had been taken out of a cash drawer and that two drawers in the safe had been tampered with. Mr. Locke said that about \$12 in cash and his mother's gold watch were taken from his desk.

Miss Ann Dykema, employed in the Bolt Insurance office and formerly employed in the offices occupied by Mr. Locke, said she noticed that the doors of the Locke office were opened as she came to work near 1 p. m. She went into the office and found a man dressed in a gray suit who said he was looking for the circuit court commissioner. He was about five feet nine inches tall and appeared to be very nervous as he engaged Miss Dykema in conversation. He said he would be back about 4 p. m.

Miss Dykema said the weather was warm but despite that the man wore gloves. Later it was discovered that the offices had been robbed. Entrance was apparently made with some instrument that opened the doors which were both locked. Sheriff Frank Van Etta was called and after investigation stated that the work was probably done by some one who was familiar with locks and that the robber was found by a novice. No clues were found by which the identity of the man in the Locke office would be traced.

PETITIONS TO RETAIN HEYNS BEING CIRCULATED

Friends of Dr. Garrett Heyns, warden of Michigan State reformatory at Jonia, circulated petitions throughout the state, and petitions have also been sent to Gov. Luren D. Dickinson to retain Dr. Heyns as warden of the reformatory.

Dr. Heyns is the former superintendent of Christian schools of this city.

Several times rumors had come from Lansing that Heyns would be replaced.

Mr. and Mrs. John Voss, W. 17th St., have as guests at their home Mr. and Mrs. Gerrit Smidderks of Los Angeles, Calif.

are stewards, each one has talents, each one of us has been given an education in which the Word of God has been our main guide, saturating the whole of that which was taught. How we are going to obtain, in us, the May we be worthy always of that stewardship entrusted to us."

As president of the class, Mr. De Ridder then presented to the school the sum of \$750.00 as a class memorial, to be used for the music, library, general high school and commercial departments. Mr. Swets accepted the gift in behalf of the school and thanked the donors for their generous memorial.

The music during the evening consisted of several numbers by the school chorus under the direction of Mr. Marvin Baas; vocal duets by Miss Grace Schreier and Mr. Nicholas Vogelzang, both former graduates of the school, and a two-piano duet, "Concerto in A major (last movement)" Mozart, by Miss Joan Schultz and Mr. John Pott.

Decorations consisted of palms and flowers, with the class motto in large letters suspended across the upper front of the auditorium. The class flower was tea rose; class colors, royal blue and ivory. Officers of the class are president, Richard De Ridder; vice president, Lois Tinhoft; secretary, Louise Grotenhuis; treasurer, James Wildschut.

COUNTY SURVEYOR CARL BOWEN SURVEYS NEW FACTORY SITE

Holland was agreeably surprised a few days ago to learn that a new industry is coming to the city, known as the Chris-Craft Corporation, who now have a large factory in Algona, Michigan. The enterprise is said to be the largest builder of motor boats, and at times have as high as 1,000 employees at work at Algona. Mr. Harrison Smith, general manager of the Chris-Craft Corporation, was in the city and looked over several sites upon which options had been secured through the Holland Chamber of Commerce, and Mr. Smith, together with Mr. Stephan, secretary-manager, and Mr. John Arendshorst, looked over these sites they had optioned. It is understood that the site which has been selected and which is now surveyed is a 22-acre tract, located on the North side, to the north of the Holland Aniline Dye Co. plant. Just how large the plant is to be was not definitely stated. However, judging from the size of the acreage, the boat company apparently wants plenty of room to eventually build to large proportions.

Legal papers, it is stated, are being made out, and when everything is in order, construction will begin, according to Mr. Smith. Mr. Smith was in the city repeatedly, conferring with Chamber of Commerce officials and, according to Charles R. Sligh, president of the Chamber, in erecting the buildings Holland labor will be used as far as this is possible and expedient. It is also understood that Holland artisans will be taught the art of boat building, and the building of the plant at Holland cannot help but be of great benefit to many who are unemployed, but to the city of Holland as well.

Theodore Cheff, head of the Holland Furnace Co., has also taken a deep interest in this new enterprise, being acquainted with the officials of the above-named concern. The Chamber of Commerce officials, as well as some of the members, have been very active in bringing this plant to the city. The common council committee, including Mayor Geerlings and the ways and means committee, were also called in for advisement.

Carl Bowen, county surveyor early in the week made a survey of the property in question.

Miles Orders Opening of the Village Street

JUDGE FAVORS POLKTON TOWNSHIP IN SUIT AT EASTMANVILLE

Holding the statute of limitations cannot be invoked against the public, Judge Fred T. Miles filed an opinion today requiring C. R. Kent, Hiram T. Kent and Elizabeth Kent of Eastmanville, Ottawa county, to open a portion of Second street in the village, which they have blocked off for some time. Polkton township brought suit against the Kents to compel them to open the portion of the former street they closed and also to obtain possession of the street property as originally platted in 1855 and which lies in a 40 to 50 foot ravine.

In the original plat of Eastmanville, Second street and Church street, crossed at right angles but actually both ended on the brink of the ravine. Judge Miles held that Mr. Kent, who bought land on both sides of Second street, and claimed it by adverse possession, was entitled to the platted portion of the street in the ravine as it had never been used as a public highway. The street to the ravine had been used and is returned to the public. Defendants are required to pay the costs.

Judge Miles included in his finding, the acknowledgment of the original plat of Eastmanville in which the Eastmans in 1855 set aside a square for a county court house, the property to be held by the county as long as the court house should be there. It was never moved from Grand Haven but the old plat and the "gift" of property to the county, recalls the bitter controversy over where the court house would be. Grand Haven was the county seat. Holland wanted it. Allendale thought it should be because of its central location and Eastmanville had ambitions to obtain it.

LIFE GUARDS PROVE THEIR USEFULNESS

It's not very often, fortunately, that the services of a life guard are required at any of the smaller inland lakes, but when they are needed they are needed in a hurry. Elly lake is provided with a life guard, and to this fact a young man of Fennville probably owes his escape from drowning. The youth was going out to the raft when his hand slipped off the shoulder of another boy who was helping him. He had gone down two or three times when the life guard noticed his plight and went to his rescue.

DR. SAM ZWEMER COMMENTS FAVORABLY ON HOLLAND'S CULTURE; SPEAKS AT HOPE ALUMNI BANQUET

Approximately 200 alumni and friends of Hope college attended the annual alumni banquet of the college held last Tuesday evening at 6:30 p. m. in the parlors of Hope Reformed church. At the alumni business meeting at 4 p. m., Tuesday, the following officers had been elected to the alumni association for the ensuing year: president, the Rev. Charles Stoppe; vice president, Ray Smith; secretary, Don Zwemer; and treasurer, Miss Mildred Schuppert. Routine business was also disposed of at the business session.

George A. Pelgrim, outgoing alumni president, presided at the meeting which was opened with prayer by Dr. Albertus Pieters of Western seminary faculty. An excellent dinner, prepared by ladies of Hope church aid, was served by members of the society and young men of the church. Floral decorations were plentiful and beautiful. Following the dinner, President

DR. SAMUEL ZWEMER

Pelgrim introduced the various numbers on the program. He announced that Hope college now has some 2,000 alumni, to which total almost a hundred are being added each year. These alumni are divided into twelve distinct chapters throughout the country. Hope graduates of this year and last year have been awarded some \$15,000 in scholarships and grants for advanced study. Mr. Pelgrim asserted, thus showing that Hope's scholarship standard is receiving wide recognition. Cooperation and integration of alumni was asked for.

The Hope College Girls' trio, composed of Thelma Koelker, Gertrude Young, and Mary Jane Vaupe, and accompanied by Mrs. W. Curtis Snow, sang three numbers, "Singing," "In My Garden," and "The Piper." Two encore numbers were given.

Next item on the program was a report from the various classes and alumni chapters. The entire class of 1887, of which Dr. Samuel Zwemer, speaker of the evening, was a member, was present. Members introduced were Paul Kotter and Dr. Pieters and their wives. Bob Wismeier spoke on behalf of this year's graduating class.

The Albany chapter was represented by the Rev. Bill Mott; Rochester was not officially represented; New York sent a telegram of congratulations through Arthur Winter; Detroit, the "baby chapter," was represented by Miss B. Tyner; Rev. A. De Young spoke for the Kalamazoo group and reported that chapter's whole-hearted support in Hope's proposed \$250,000 building program; Martinengo was the Muskegon speaker; Rev. A. Veneklaasen representing the 144 members of the Chicago group, reported that a \$100 scholarship has been provided by that chapter for some worthy student for next year; Ekdal Buys reported for Grand Rapids; Milwaukee was not represented; Gibberville, Wisconsin, was represented by the Misses Geraldine and Lillian Schmiss, the former of whom will soon leave for missionary work in China, and the latter to India; spokesmen for the International chapter with 89 members was Mrs. J. C. Otte; Cornelius Vander Meulen was spokesman for the "ideal" Holland alumni group.

Mr. Vander Meulen commended the hard work of J. J. Riemersma, local alumni president for the past year, and of Prof. Clarence Kleis, alumni secretary.

Gordon Vanden Brink next rendered two vocal selections, "Friend of Mine" by Sanderson, and "When I Have Sung My Song" by Charles. Mrs. Snow served as accompanist. A quartet led the audience in the singing of "The Orange and Blue."

Speaker for the occasion was Dr. Samuel Zwemer, popular speaker and well-known Reformed church missionary. He presented a witty and stimulating address, "A Defense of Books and Readers."

Approximately 100,000,000 people in the world today never read a book, Dr. Zwemer informed his audience. Among these people have been such leaders as Genghis Khan and Mahomet. "And," he continued, "There are advantages to illiteracy." The two main advantages are an increased use of common sense and an additional amount of keenness in the eye that can't read, thus causing additional emphasis upon meditation and observation.

"Non-readers smoke, play solitaire, and read lightly to pass away the time, but readers learn how to read to promote education and culture. We need books that abide, and reading that requires grey matter. A book is the origin and foundation of all civilization and culture. It is the tool of the scholar."

"The world of books is the most remarkable creation of man. No thing else lasts. Books live on, as fresh as the day they were written." First among books Dr. Zwemer classed the "Books of Books" in one of its 1,000 translations. Secondly come the poets, the historians, philosophers, and finally, the scientists "who think the thoughts of God after Him."

"Today there are two competitors of books," Dr. Zwemer continued. "They are the two great windmills of modern communication, the radio and the cinema. They have their place, but they should never replace the printed word. Reflection is incompatible with the cinema and the radio. You can turn back the pages of a book, but not the radio or the cinema."

Dr. Zwemer criticized severely those people of the present day who substitute the reading of light newspaper material for the reading of good solid books. The speaker traced the tremendous growth of the radio from its invention to the present day, and the growth of the movie from 1896, "the year I was married" to the Hollywood of modern times.

Dr. Zwemer praised the high level of culture in Holland, as is evidenced by Hope college and by the numerous book stores in the city. He summarized the content of culture as containing: 1. thought and reason, 2. disengagement of reality from mere words, 3. tolerance, 4. a philosophy of life, and 5. art and the tools of culture, such as appreciation and ability to "distinguish 'Yankee Doodle' from the 'Doxology'."

"Finally," concluded Dr. Zwemer, "the educated man is not educated until he has religion. Man has eternity in his heart. The only way to reality is to love books and the Book of Books. This leads to the measure of the stature of the fullness of Christ, the Perfect Gentleman."

Traveling Around America

LAZIEST IN THE WORLD

THIS limpid looking little fellow is just about the laziest animal in the world—sometimes he doesn't move for hours on end and then so slowly that one can scarcely see the movement. This one, photographed in the Panama Zoo, by a passenger on a Peru cruise, made not one move during the hour that the party was in the Zoo. He's a Bradypus tridactylus, commonly known as the three-toed sloth, who gained considerable fame during the heyday of the crossword puzzles through his shorter name—al. The sloth looks a bit like an ape—with very little ears or tail but with long legs ending in curved feet which have hook-like claws—the three toes having a trio of toes. Sloths spend their entire lives in trees—usually upside down with their feet clasped tightly round the branch and their bodies suspended below—feeding off the foliage, fruits and shoots. What little activity they indulge in is at night—when they shuffle slowly from branch to branch. During the day they scarcely stir at all—sleeping rolled up into a ball scarcely discernible from the tree, for a greenish cast is given to their shaggy gray fur coats by minute algae which grow on the fur. This camouflage is their only means of defense.

BEAUTIFUL DOUBLE WEDDING TAKES PLACE AT WARM FRIEND TAVERN

An impressive double wedding was solemnized at 4 o'clock Saturday afternoon in the ballroom of Warm Friend Tavern, when Miss Kathryn Rottschaefer, daughter of Dr. and Mrs. William Rottschaefer of Rock Valley, Ia., became the bride of Gordon Smith Cook of Newark, N. Y., and her sister, Wilma Rottschaefer, became the bride of Clarence Van Wieren of Lakewood Blvd., Holland.

Dr. Rottschaefer, father of the brides, officiated before an altar banked with palms, ferns, and peonies, using the double ring ceremony.

Preceding the ceremony, William Rottschaefer of Ann Arbor sang, "O Promise Me," De Koven, and "I Love You Truly," Bond. The Lohengrin wedding march was played as the bridal party assembled.

The brides' gowns were of white net, fashioned on princess lines, with fingertip tulle veils. They each carried a white bridal bouquet. Miss Kathryn Rottschaefer was given away by her brother, Jerry Rottschaefer of Ann Arbor, and Miss Wilma, by her brother William Rottschaefer, also of Ann Arbor.

Among the Cook-Rottschaefer party were Mrs. W. E. Rozenboom of Le Mars, Iowa, matron of honor; Edwin Cook of New York, brother of the groom, best man; Carolyn Isley of Clarendon Hills, Chicago, flower girl, and Roger Rottschaefer of Grand Rapids, ring bearer.

Attendants for the Van Wieren-Rottschaefer rites were Mrs. Jerry Rottschaefer of Ann Arbor, matron of honor; Elmer Van Wieren, brother of the groom, best man; Jerry Van Wieren, ring bearer, and Dottie Vander Brink, flower girl. Mr. Visser and James La Maar of Cleveland were ushers.

The matrons of honor were attired in aqua net formal gowns with short lace veils. They carried bouquets of roses. The flower girls wore pink net and carried baskets of spring flowers. The ring bearers wore black velvet suits and carried the rings on a satin pillow.

Mrs. Rottschaefer, mother of the brides, wore blue silk with white accessories. Mrs. Van Wieren, mother of one of the grooms, wore blue silk with blue accessories. Each wore a shoulder corsage. Miss Esther Berdine Hop was in charge of the gift room.

Immediately following the ceremony a reception was given in the main dining room of Warm Friend Tavern, with about 115 guests present at the buffet supper. The room was decorated with seasonal flowers.

Out-of-town guests included Mr. and Mrs. J. Brink of Chicago, Dr. and Mrs. Lanning of Grand Rapids, Dr. W. E. Rozenboom of La Maart, Iowa, Gerald Rottschaefer of Grand Rapids, Mr. and Mrs. Jimmy Scott of Cleveland, Miss Lewis of Jackson, Miss Robinson of Jackson, Mr. and Mrs. Henry Witteveen of Chicago, and Esther Cook of Newark, N. SHOOTING AT SEA

The latest landlubber sport to take to the sea is trap shooting. Golf, tennis, pingpong, horse races and swimming—to say nothing of shuffleboard, quoits, ring-the-jug and other such games—are not enough for today's sophisticated cruise passengers. They now must go gunning after clay pigeons. The trap shooting party shown here was "shot" aboard the Santa Lucia on a recent cruise to Peru and Chile. The shooting box on this ship is set up near the rail, aft on the boat deck; and the pigeons are released from a trap on the deck below. They "fly" outward over the sea in all sorts of wild and unpredictable courses, and it's by no means easy for the huntman above to bring down his prey. The rules for trap shooting on ship board usually are about the same as on land. The passengers usually practice for a few days however before a tournament opens, and handicaps are established so that beginners as well as veterans at the sport may have a chance to win. Often painted pigeons are introduced during each contestant's stay in the box. These, if successfully brought down, earn higher scores for the shooter than the ordinary garden variety of bird and thus tend to add bit of excitement to the contest. It is a sport enjoyed by old and young alike and quite as popular with women as with men.

Use Sailboats for Oyster Fishing
When you eat a North Carolina oyster, in all probabilities it was caught in a manner which has been prevalent for several hundred years; at least as long as man has been eating oysters. Oyster fishermen off the North Carolina coast still depend on sails for motive power, as they drag the bottom of Pamlico sound with basket-like iron scoops, to scrape the oyster from his lair on the rocky bottom.

Nature's Cycle Is Shown
Arresting examples of nature's endless cycle may be viewed at Hawaii National park in the Mauna Iki area. There among the weird formations in the pahoehoe lava, widely scattered shrubs and ferns and a few stunted trees are striving to gain a foothold. They represent the advance guard of vegetation and the breaking down of the lava built up by volcanoes into soil. Much of the surface of Mauna Iki's pahoehoe lava is rainbow tinted and as perforated as Swiss cheese.

Badminton's Origin
The Encyclopedia of Sports says that badminton was called poona when it originated in India many centuries ago. The game appears to have been confined to that country until the late 1800s, when English army officers, who had become converts, took equipment back to England and introduced the sport there. The Duke of Beaufort became interested in the new game and formally introduced it to society in 1873, during a house party at his home called Badminton in Gloucestershire, whence its present name is derived.

Designer of Grace
Samuel McIntire, a product of Salem, Mass., in colonial days like the Adams brothers of England, was most noted for his fame as an architect and as a carver, and is responsible for some pieces of furniture gracefully and delicately executed. His favorite piece of furniture was the sofa and several of these pieces together with chairs to match are in the collection of the Essex institute of Salem.
