### SILVER PUNCH BOWL FOR CITY OF GRAND RAPIDS

As a fitting tribute to the beautiful craft there will be in a little while a great silver punch bowl suitably engraved, presented to the ship by the Grand Rapids Association of Commerce. Her colors were presented by one of Grand Rapids public spirited men, J. Boyd Pantland, and there comes to every citizen of the municipality a touch of pride as he sees the great ship swing from her moorings into the stream and cleave her majestic way through the waters.

### Parcels Post Ruling.

After July 1, of this year, every rural carrier in the United States will begin the delivery of mail parcels heretofore exempted from delivery, under a parcels post ruling, which has just been made by the postmaster general. At present the parcels post will only affect the rural routes, but should the experiment prove a success in the country routes, the city routes will be added later. Under the system all fourth class matter weighing less than eleven pounds, will be delivered on the rural routes. The maximum cost for the delivery of an eleven-pound package will be 25 cents. There is no difference made in the distance a package is carried by the government, and in this way the rates charged by the express companies will be much higher than the cost of mailing.

### Rare June Weather

The month of June was not only considerably below the seasonable average in temperature but it was an exceedingly dry month as well. There has been no traceable rainfall since the fifteenth of June. On June 26th there was a trace of precipitation but not enough to insist in breaking the dry spell. The total precipitation for the month of June was 1.07, the least since 1903 when only 0.98 was registered. The normal for June in 2.51 showing a deficiency in June of this year of 1.44. The temperature of June was also far below the normal which is 65. Besides its mean temperature, 61 was the lowest since 1903 which had a record of 60. The year 1902 also had a mean temperature of 60 but last year the temperature went up to 67.1.

The prevailing wind direction for June was from the west and during the month the highest velocity reached was 31 miles from the south on the 15th. During the entire month there were 18 clear days, 3 cloudy days. There was no fog, no frost, no hail, no sleet. Thunderstorms prevailed on the first, third and fifteenth.

### PASTE THIS IN YOUR HAT

Now that presidential candidates for all the parties have been chosen, the News would advocate especially that the citizens of Holland keep cool in discussing the political questions of the day. This city we feel is on the verge of a prosperous growth. We can see this on every hand. Our people are pulling together better than they have ever done before. It has not been so long since this was not the case, therefore let us make politics a secondary consideration in our discussions and calculations. Let us deliberate on these topics in a dispassionate way if we can. At least keep so cool that friendships and business relations are not made to suffer, for after all it is Holland first and Taft, Wilson or Roosevelt afterward, taking in consideration that none of them, elected will be so bad that this great country of ours is going to the dogs.

This will be a campaign year of warm and heated arguments, and of varied differences of opinion, therefore, paste this in your hat

**KEEP COOL**

### New Building for Seventh Street

A R. De Merrell of this city will soon build a large two story brick building on Seventh Street in which he will conduct his monument business. The old frame building has already been moved out, and excavation for the new one will begin in a few days. It will be an ornament on this Street.

### Not Guilty

Miss Marguerite Kuite, daughter of Gabriel Kuite living on the north side was vindicated on the charge of assault and battery by a jury of six men yesterday in Judge Sooy's court where she was brought for trial. The complaint was made by Miss Nellie Burgess. It seems that according to the story of Miss Burgess that because some disparaging remark had been made by her regarding Miss Kuite's behavior, she was asked to prove it. Not being able to do this she claims the Kuite girl struck her. Miss Burgess, however, is a large woman while Miss Kuite is no bigger than a "pint of cider" as the saying goes. At least so the jury thought and brought in a verdict of not guilty.

Mr. John Burgess, father of the plaintiff, came in for thorough scoring by Attorney Ten Cate. It is alleged that Burgess was following the two young girls who were being escorted by two of the neighbor boys by the names of De Witt and Deiters and that he sneaked from fence to bush and from bush to tree to see what their conversation was about. It appears to be a neighborhood quarrel.

### How to Carry a "Pop"

If you want to carry a concealed weapon bring in your name to Big Chief Kamferbeek or Sheriff Andre. They are the boys who will pass upon your case and will determine if the public is safe when you are at large with a "pop". These men with Prosecutor Osterhaus meet the first Monday of each month to pass upon matters pertaining to sabers, gatin and pop-guns.

The pupils recital given by the students of Miss K. M. Doesburg's music studio, held in the parlors of Hope church Thursday evening, was a decided success. The auditorium was well filled by an appreciative audience. All the pupils rendered their part of the program in a creditable manner and the little ones especially did very good work. Miss Cathreen Doesburg of Milwaukee showed her ability as reader in her well rendered selection entitled, "How 'Dot' heard the Messiah."

The P. M. will put down heavier rails between Holland and Grand Rapids. New equipment in the shape of 25 of the Pacific type locomotives now in use on the Chicago and Detroit divisions, and six new type gasoline-electric motor cars for use in local territory between Holland and Grand Rapids for relief of the through trains will be purchased.

### Raised Doughnuts

Add to one pint of milk bread dough one egg, one-half cup of sugar, one-quarter teaspoon of soda and half pint of warm milk. Add flour enough to knead and let it raise until morning, when it should be cut and fried without remodeling.

### Polished Wood Dusters.

Save the stocking legs. There is nothing better for dusting and wiping polished wood. Dampen them in boiled oil and they will give the wood a splendid polish.

### Milk Will Remain Six Cents

The fore part of this week the milk dealers of Holland formed a little trust among themselves and by resolution which was passed at one of their meetings they decided to raise the price of milk from six cents to seven cents. This only lasted for a few days, however, owing to the storm of protests from customers all over the city. About half the dealers got cold feet and are now charging the usual price of six cents. Had this not been complied with a milk station such as larger cities have would have been started in this city.

### Al Toppen Voted for Wilson 44 Times

Woodrow Wilson, governor of New Jersey, and former president of Princeton University, was nominated for the presidency by the Democrats at Baltimore yesterday, on the 46th ballot by a vote of 990. The fight in the convention has been one of the bitterest and the longest ever waged in a Democratic convention. Since the Sunday recess Wilson has been gaining slowly but steadily passing Champ Clark's lead and steadily increasing his advantage. On the 44th ballot yesterday Wilson had 600 votes and the 46th ballot brought victory to the sage at Princeton.

Woodrow Wilson one of the most unique figures in politics, seems to have found a place in the hearts of the Democrats of this section especially and the news of his nomination was greeted with joy. Champ Clark of Missouri put up a wonderful fight for the nomination and during the early ballots he was far in the lead of the New Jersey man.

Al Toppen voted consistently for Wilson accepting of two times when he voted for Clark but that was in the earlier part of the game. Tom R. Marshal, governor of Indiana was nominated vice-president on the second ballot.

### Water Problem Near Solution

The water famine problem is near solution, for the present at least.

The present dearth of water is due largely to the part that pumping was made difficult while new machinery was being installed and new connections were being made. This work was completed last night and an addition to the new well connections have been made with promising well points in the immediate vicinity. Until today people living on high points had very little chance get city water, and those not on high points could no more than half a supply. But now it is expected that conditions will be nearly normal and that lawn and street sprinkling can be carried on.

But the water question will not be permitted to rest there as a committee consisting of E. P. Stephan, Walter Lane and Supt. Champion, will collect data with a view of adding to the present supply.

The new law passed by the state legislature in regard to the sale of giant cannon crackers will be watched very closely by local police this Fourth. Some merchants have displayed cannon crackers that were too large, according to the law, and were compelled to withdraw them from sale. All indication point to a safe and sane Fourth in Holland.

DRENTHÉ

Drenthe is planning a grand celebration for the 4th. The committee on arrangements will soon announce the program. Some fine athletic contests will be pulled off. There will be two ball games, one in the morning and one the afternoon. Drenthe's 20-piece band will furnish the music. Addresses will be delivered by Judge E. P. Kirby, Rev. T. Van der Ark, Rev. G. De Jonge and Prin. H. K. Boer. Will you not come and celebrate the day with us? We are satisfied to believe that you who have been with us before can not help but say, it was "good" and we had a "jolly time." Our amusements are attractive, clean and wholesome. Our grounds are cool, airy and refreshing. Make up your minds to come to Drenthe. Business men drop your business for a day and have an outing. Come all you people and meet your friends and acquaintances. Can you find a nicer place than our "grove" for a little reunion?

GIBSON

S. J. Minkner of Gibson, has received a letter from Madrid, Spain, in which the writer begs him for aid in securing a fortune of \$330,000 from the clutches of the Spanish law. It is one of the familiar letters, about a dozen of which have been sent to Holland citizens during the past two or three years. In each case the letter has been about the same. It was always written on the same kind of stationery, thin paper with cross-lines and the hand-writing in each case was identical.

In return for certain financial aid in securing the fortune which the writer cannot lay his hands on because he is in prison in Madrid, he promises to give a third of the \$330,000. Detailed directions are given as to where to send the money and how to go about it.

As far as is known no one in Holland has been easy enough to fall for the scheme, and several of the letters have been printed in the Sentinel from time to time. Doubtless the "prisoners" in Spain will soon grow tired of trying out "easy marks" in Holland and will send his letters elsewhere.

WEST OLIVE

The people of West Olive have decided to hold a big celebration on July 4. The program for the day starts with a salute at sunrise. There will be a baseball game between the Ottawa's and West Olive Sand Burrs at 10:30. In the afternoon various races will be held and prizes awarded. A grand display of fireworks will conclude the program. Music will be furnished by Peck's string orchestra.

COUNCIL DECIDES ON "MORTON PARK" AND "GRAHAM STREET"

"Morton Park" will from now on and henceforth be the name of the little triangular park near the Graham & Morton dock that has hitherto been known as "Drinkwater Park." This was decided upon by the council Tuesday. This park will in time be a beauty spot and it was deemed appropriate to give the park a name by which it might officially be known.

It was also decided to build a sidewalk along the west side of the park to accommodate those people who approach the boat dock from that direction.

While they were in the naming business anyway the council decided also to take a name to the bit of paved street that leads up to the boat dock from Eighth street. Various names were suggested some of which had to be discarded immediately. Some one suggested "Grand Rapids Avenue" in honor of the new steamer and in honor of the many Grand Rapids people who pass that way. Finally the name "Graham Avenue" was decided upon.

All Venders and Beggars Must Wear a Badge; Lack of This Brande Them As Impostors

That begging shall be discouraged as much as possible and that no more encouragement shall be given to all kinds of venders than is absolutely necessary was the gist of a discussion on this subject by the common council Tuesday. One of the aldermen wanted to know why all armless and legless and blind men were allowed to ply the begging trade on the streets of Holland. He declared it was objectionable for more reasons than one and the other aldermen agreed with him.

Under the new ordinance any person that wants to sell things or that wants to beg has to have a badge. The first question a householder should ask on being "touched" for something is whether he has a badge. If he cannot show one, he should be told to provide himself with one or steer clear of the police.

This perhaps seems a bit heartless in some cases but the aldermen agreed that that kind of thing should not be encouraged. There is a great deal of fake about it in the first place and moreover it is often an injustice to local people who do a legitimate business here.

Tuesday one of these venders asked for a permit. When told that he would have to wear a badge and that he would have to deposit a dollar for the return of the badge he indignantly refused. He was told to go on his way which he did feeling very much outraged.

The people of Holland are advised by the council to insist in every case that the badge be shown and to turn people away as fakes who cannot show one.

A MUNICIPAL COAL YARD

At the meeting of the Holland Charter Revision Commission Monday Henry Brusse introduced the following resolution:

Whereas, during the past winter it has been rumored repeatedly that a combination existed among our local coal dealers, which rumor, whether true or false, has caused considerable discontent among the laboring men of this city, and

Whereas, the city of Holland, operating a Municipal light and water plant, has been very successful in furnishing water and light to its citizens at a much lower rate than the majority of cities are able to do, therefore,

Be it resolved, That we, the Charter commission, recommend that the voters of this city be given an opportunity to express their wish whether the city of Holland shall establish a municipal coal yard or no.

Signed,

HENRY BRUSSE

This resolution gave rise to considerable discussion on the part of the commissioners. Especially was the legal aspect of the case talked over at considerable length. It was questioned whether it would be legal to form a municipal coal plant and this matter will require considerable investigation before it can be acted upon.

It was therefore proposed last evening that a committee of two consisting of Commissioners Van Ry and Vanden Berg go into the matter especially into the legal aspects of it and report their findings to the commission.

Some interesting facts were brought out last night in the discussion. For instance, it was declared that each year \$60,000 worth of coal is consumed in Holland for domestic purposes alone. That is, that amount is retailed to the citizens and does not include the coal used by the manufacturing plants. It was claimed by some that if a municipal coal plant were established coal could be sold at a considerably cheaper rate and the citizens could save quite a little. It was said that soft coal of certain grades was bought at the mines at \$2.77 a ton and that even with freight charges, etc., it could be sold at lower cost than it now is. It was claimed that the same quality of coal that was sold to the city of Holland for use in the city hall for \$4.45 a ton was retailed to the people at \$5.50 a ton.

This discussion was particularly interesting in view of the present high summer price of coal and the prospects of a still higher price next winter.

COMMITTEE OF COMMON COUNCIL DEFENDS ACTION TAKEN BY COUNCIL

At the meeting of the common council Tuesday afternoon the following report was made by the special committee appointed recently to make reply to a communication from the Board of Public Works in regard to placing the employees of the board on a nine hour basis. The report was adopted by the council and a copy sent to the board.

Holland, Mich., July 1, 1912. To the Honorable, the Common Council of the City of Holland, Gentlemen:—

Your special committee united communication from the Board of Public Works, beg leave to submit the following reply thereto: To the Honorable, the Board of Public Works of the city of Holland:—

Gentlemen:—We have your communication relative to the matter of placing all labor under the so-called nine hour schedule, and note what you have to say in reference thereto, and in reply wish to call your attention to the fact that the reasons given in excuse for your not having taken action on this matter could have been given before as well as at this time, and thus placed the council in the position of knowing why its request had not been considered by your body. The fact that you apparently took no notice of the resolution was, it seemed to the council, sufficient cause for again calling the matter to your attention, and was not as you term it "ill-advised", but was entirely pertinent, and well within the rights of the council, to know why its request had not been acted upon, and what was more, apparently entirely ignored.

We appreciate the statement that you are in harmony with the movement, and trust that before this time you may have taken the necessary steps to conform to the request heretofore made, as other boards have done. The question of salaried employees does not enter into this matter, as it certainly is very well understood by all those persons have particular and peculiar duties to perform, which cannot well be regulated by any system of hours, or added compensation, and the action of the council could not well be construed to refer to such persons, as it distinctly referred to persons working on an hourly schedule.

With reference to the rights of the board over and against the council, we wish to call the attention of the board to the fact that the board is not supreme in any of its actions, except in the matters of merest routine but that the accounts and acts of any considerable moment are subject to the review and approval of the common council. Also we would call the attention of the board to the fact that under section 3, of Title XIII of the City Charter, it is expressly provided that all of the powers, duties, etc., of the board are subject to the direction of the common council, and hence it was not amiss for the council to take the action it did.

## Bert Slagh

While it is not the intention or desire of the council to encroach upon the rights and powers of the board, nor to presume to dictate in matters of publicity, yet, in view of the fact that the adoption of the nine hour system was necessary in all departments if it was to be effective at all, the Council was entirely within its rights to request the board to do as other boards did, and also to insist that the system be made general throughout all departments employing labor under the city government.

Considering all of the facts and circumstances, we must insist that the board comply with the former action of the council, as speedily as the matter can be adjusted to existing conditions, and the council can see no need for any further extended delay in the matter.

Respectfully submitted,

### CLOTHING IN NICK DYKEMA'S STORE DAMAGED THROUGH PECULIAR ACCIDENT

The water pressure was very low Saturday night and Dr. Leenhouts wishing to obtain a bowl of water opened the faucet wide but little or no water came. In fact so little came that the doctor closed his office and went home without thinking to turn off the faucet. Later there was plenty of water and the faucet being wide open it gushed forth filling and overflowing the basin and spreading over the floor.

The flooring is not water tight and so the water leaked through the steel ceiling of Nick Dykema's clothing store and greatly damaged the stock. The water ran all Saturday night and Sunday morning until discovered by P. H. McBride who has offices in the same block. He gave the alarm to Doctor and John Stuit, clerk in the store below. When Mr. Stuit arrived the water was dripping down on to the goods below, resembling nothing so much as a shower bath. Trousers, shirts, hats and men's clothing of all kinds were soaked through and through. The damage has not been estimated as yet.

### TEN CENTS ADDED TO PRICE OF TICKETS TO HOLLAND FAIR

This change is Popular With Farmers Who Kicked On It Last Year.  
At a meeting of the officials of the South Ottawa and West Allegan Fair Association a number of quite radical changes were made. The change that will perhaps most interest the general public is that the price of admission has been raised from 25 to 35 cents. This statement on the face of it appeared unwelcome but other changes were made that might offset it. The admission for children will be 15 cents and horses and buggies are to be admitted free of charge. This one fact will be welcome news to the farmer. Last year there was a good deal of dissatisfaction among the farmers especially who attended the fair because they had to pay extra for their rigs. The farmers had to come in their rigs and then when they came to the gate they found they had to pay for them. This was looked upon as an injustice by them and this year it has been abandoned. The admission charge for automobiles will be twenty-five cents.

Wednesday, September 18, will be children's day at the fair and on that day all children between the ages of eight and fifteen will be admitted on payment of only ten cents. One of attractions of the fair this year will be a pulling contest in which winning teams will be seven, five and dollars.

Cornelius Andre and John Kleis have been appointed as marshals of the fair.

### MRS. B. ARENDSHORST UNABLE TO RALLY FROM SERIOUS OPERATION.

Dies in Butterworth hospital at Age of 64; Lived Here for Fifteen Years.

At twelve-thirty Sunday night in the Butterworth hospital in Grand Rapids, Mrs. B. Arendshorst, wife of B. Arendshorst president of the Holland Rusk company, died as a result of a lingering illness that finally necessitated an operation. Mrs. Arendshorst had been ill for a long time and finally it was found necessary to remove her to the Grand Rapids hospital where an operation was performed. She was unable to rally from this and died peacefully Sunday night.

Mrs. Arendshorst has been a resident of Holland during the past fifteen years, coming here from Grand Rapids where the family lived at first after coming to this country. She was born in the Netherlands, in Vriezenveen, province of Overijssel. In 1890 with her husband and her two sons, William and John she came to this country, and the family lived in Grand Rapids for a number of years. Then they came to Holland where they made their home at 182 East Eighth street.

Deceased was 64 years old. She is survived by her husband, B. Arendshorst and two sons, William and John. The funeral was held this afternoon at 1:15 from the home 182 East Eighth street, and at two o'clock from the First Reformed church. The Rev. H. J. Veldman will officiate. Friends are requested to omit flowers.

### FORMAL MERGER OF KELSEY-BREWER PROPERTIES AT \$40,000,000 CAPITAL

Saturday there was deposited a sufficient amount of subsidiary company stock to warrant the merger of

the properties controlled by the Kelsey-Brewer interests into the American Public Utilities company in which the Holland Gas Co., is included, with an authorized capital of \$40,000,000. The time limit was set at September 1, but the new corporation appealed so favorably to the stockholders, that the preliminaries were perfected in a few weeks.

Officers of the new corporation are President, Chas. B. Kelsey; vice-president and general manager, J. H. Brewer; secretary, Blaine Gavitt; treasurer, Warren H. Snow; assistant secretary and treasurer, W. J. Ripley; operating engineer, Samuel C. Shaffner, all of Grand Rapids.

The directors are: Charles B. Kelsey, J. H. Brewer, W. H. Snow, B. Gavitt, C. A. Boalt of St. Paul, W. B. Parsons of Winona, Mich., and W. J. Maloney of Wilmington, Del.

The new corporation begins operations with a working capital of over \$750,000, which will be used to improve the properties as required. The stock certificates will be in a few days and headquarters of the company will be in this city.

### CHURCHES WILL TAKE OUTINGS AT JENISON AND LAKE MICHIGAN PARK.

Grand Rapids, July 8.—The picnic season is here at last. The woods are dry, the lakes warm enough for bathing, fish are biting freely, and the nice gentle warmth of these summer days action on the system, tired with the long fight against the winter chill, as a beneficent tonic, that brightens the eye, stimulates the circulation and appetite and make life worth while.

Just to show what is doing in the way of picnics this month, look at the following list:

The Muskegon Interurban will take the picnic of the Alpine Avenue Christian Reformed church to Lake Michigan park July 25, the West Leonard Street Christian Reformed church to the same place August 1, and the Bricklayers' union to Fruitport on August 3.

The Holland Interurban will take the following picnics to Jenison park: City Rescue Mission, July 9; La Grave Ave. Reformed church, July 11; the Swedish mission, July 13; July 17, the Holland churches between this city and Jamestown will hold a joint picnic at the park, and on August 1, the Grandville Avenue Improvement

### CHICAGO NEWSPAPER WRITER COMMENTS ON CAREER OF G. J. VAN DUREN.

In the Chicago Tribune of Sunday in the department devoted to little lay sermons to young men and to men who need encouragement and advice in the struggle of life J. L. Graff preached a little sermon on the life and career of G. J. Van Duren of this city. The article follows the story of the career of Mr. Van Duren published in the Sentinel some time ago very closely and the facts were evidently taken by the Tribune's special writer from that account. It was written by J. L. Graff, and is entitled, "This Worker Disproves Old Adage of Rolling Stone and Made Good." The article follows:

"By actual experience the oft repeated adage that a worker gather no goods while he is rolling around from one job to another, is disproved.

"The experience was that of a man who seemed to change his work after the custom of a successful farmer to rotate his crops.

"The name of this worker was G. J. Van Duren, who recently died in Holland, Mich. All of his work was done within two miles of the place where he was born fifty-nine years ago. He finished in a grammar school and quit study at the end of the sophomore year in college.

"Since then he has been a school teacher, butcher, shoe dealer, postmaster, supervisor, school director, and director of public works.

"One of the interesting features of the work of this man was that he made good in all of his ventures. He taught school first, and then went into the meat business. This he abandoned to go to selling boots and shoes some of them wooden. Then he began his political life as a supervisor, and graduated to the postmastership of his town. He quit the meat business to go back to selling shoes and this business he retained up to a few months of his death.

"When well along in his busy life he had been elected to the board of education and for 14 years he served as a member of the board of public works. In all of these appointive positions he made good. He is said to have made a model county official,

the postoffice under his administration graduated from the third to the second class and better quarters occupied. Some of the best school and public buildings marked the progress of the town while Van Duren helped direct the work.

"With all of this useful work, profitable to himself and valuable to the community in which he worked, he raised more than an average sized family, and saw his children begin successful lives.

"Here was a stone that rolled a heap and held on to moss at each and every roll.

### RED-HEADED IRISHMAN PROVES HIMSELF A PRETTY GOOD LAWYER AT THAT.

A "hobo" charged with vagrancy, pleading his own case in court is a sight which is not seen every day of the week. And the "bo" is some pleader too for he got to the hearts of the jury who while bringing in a verdict of guilty recommended clemency.

The "bo" who is a red-headed son of Erin by the name of Jerome Mahan showed familiarity with court procedure, examining the jury himself and having a number of the different points of law at his tongue's end. He told the jury and court an interesting tale but upon being cross questioned by Prosecutor Osterhaus he did not keep his story hanging together very well in spots. Mahan said that he is a brass molder by trade, that this is the dull season of the year in his line and that rather than stay at home and live on the old folks he preferred to get out and do what he could wherever he could. He said that he had come from Benton Harbor to Waverly last Saturday and that as his clothes were dirty he secured a pail and started to wash his shirt last Sunday morning.

"Cleanliness, they say, is next to godliness" continued the "bo" lawyer, "and there I was engaged in such a peaceful and godlike occupation as washing my clothes when this deputy came along and pinched me. I am no tramp. I am a man out of work and just let me tell you this, there are a great many who are in the same fix that I am in. Why, if they were to arrest all the men out of work the officials would have a line of men reaching from New York to San Francisco, side by side, two

by two, side by each, abreast."

When cross questioned by the prosecutor, Mahan admitted that he had been in 14 different cities since February, claiming to have worked in all of them but later admitting that there were some in which he had done nothing. He named the cities he had passed through from Chicago to Holland. He named them all straight coming here but on the return trip which the prosecutor sprung on him he named a number of places and came over a different route.

The jury recommending clemency Justice Robinson sentenced Mahan to serve the next 40 days in the county jail at Grand Haven. Every body was happy including the flaming-haired pleader of his own case. He had expected to receive a much stiffer sentence.

After the trial was over one of the jurors said that he had been in the same boat as the prisoner at one time and that that time was not so far back that he had forgotten it and for that reason he had recommended clemency. All the sympathy that the juror got from Mahan was "No wonder you quit. You must have been a poor one."

The jury was composed of the following business men of the city: H. Van Tongeren, Henry Van Ark, Cornell Hoffman, Maurice Bishop, Lou Bowman and Cornell Dornbos.

N. J. Gorham, Cashier Bank of Woodville, Woodville, Ga., had a very severe attack of kidney trouble and the pains in his kidneys and back were terrible. "I got a bottle of Foley Kidney Pills from our druggist and they entirely relieved me. I have more benefit from them than from any other medicine." For sale by all druggists.

In these days of high cost of living a medicine that gets a man up out of bed and able to work in a few days is a valuable and welcome remedy. John Heath, Michigan Bar, Cal., had kidney and bladder trouble was confined to his bed, unable to turn without help. "I commenced using Foley Kidney Pills and can truly say I was relieved at once." His example is worth following. For sale by all dealers.

Be Sane in Politics

So far the national campaign of 1912, for several unusual reasons, has been one of extraordinary tension in the early stages. The nominations could not be foreseen, and some of the rivalries among candidates were peculiar. Presidential primaries were a novelty, and instead of simplifying the situation added to its uncertainties. Each primary tended to deepen the suspense. States considered most steadfast in party ties changed alignment, choosing new favorites in surprising fashion. The third term issue was projected into what was already complicated far beyond the average of pro-convention periods. It is well to forget the super-heated language that was heard. Even when there is a real political flood such talk is but froth and driftwood and has no more effect on the current sweeping onward.

What is at stake in politics in this country? Good government in what is in many respects the greatest of nations. It cannot be brought about by impulsive excitement or vituperative anger. There are important public questions to be settled by legislative and executive action. If mistakes are made at the ballot box the people themselves must suffer until they realize the error, and supply the remedy at the same fountain head of power. In following a false guide they pay the score, and must retrace the steps that led away from the true destination.

Should the campaign go on with the childish turbulence that has marked its opening months there will be a great waste of temper and a wide variance from calm, collected judgment. Faulty conclusions are always expensive, sometime dangerous. They must be paid for. Voters should resolve to keep a level head and not be influenced by the bombast demagogues, the whole tribe of whom are selfish and crafty to the core. When appeals to passion are flying around it is a good time for sensible men to move in the opposite direction. The demagoguery of this year has been phenomenal, and the best way to keep it from becoming startling is to give it the cold shoulder wherever it tries to set up its thimblegrig.

The milk men will now charge 7 cents a quart for milk. If delivered by a maid their might be fewer objections to the raise.

A device has been invented that prevents eavesdropping on telephone lines, and right here is where the telephone begins to grow unpopular.

WHY MILK SOURS

Perhaps you have often wondered why it is that if you let milk stand for a short time, especially in warm weather, it will turn sour and become unfit to use in your tea or coffee, but if it is boiled and then sealed up in some sort of air-tight can or jar it will keep for any length of time in any weather.

Many persons believe that a thunderstorm will turn milk sour, and if you ask them what the thunder, which is nothing but noise, can do to the milk, you will find that they have no idea, but they just know it is so. So, there!

The reason that milk turns sour is that it contains a small microbe that makes an acid from the sugar in the milk. When the milk is boiled these microbes are killed and the acid is never developed. Warm air, and even electricity in the air, is very favorable to the rapid growth

of these microbes, which are really a sort of plant, and all plants flourish in warmth.

The acid which is made by these microbes in the milk is called lactic acid, and if the milk is good and clean it is none the worse for turning sour, although it is not just the thing to put in tea. For some persons sour milk is a much more wholesome drink than sweet milk, and is recommended by some doctors for the cure of certain diseases. There is a famous Chinese statesman who believes he will live to be 150 years old because he drinks so much sour milk every day.

HOW TO PREPARE ASPARAGUS

Three Ways in Which to Serve This Delicious and Healthful Vegetable.

**Asparagus in Ambush.**—Scrape out the inside of eight or nine rolls or plate biscuits; cut off tops to serve as covers. Set open in the oven to crisp. Heat two cups of milk, pour over four beaten eggs. Stir over the fire until it thickens. Add spoonful of butter rolled in flour. Put in the tops of two bunches of asparagus, boiled tender, chopped fine and seasoned. Fill the rolls with this mixture. Put on the tops and serve hot.

**Baked Asparagus.**—Lay two bunches of cooked asparagus on a buttered baking dish and spread Bechamel sauce thickly over the upper half of the stalks only. Sprinkle with grated cheese and bread crumbs and dot with bits of butter. Lay an inverted pan over the baking dish so that only the part of the asparagus covered with the sauce will be exposed to the heat and bake a light brown.

**Asparagus and Eggs.**—Cut about two dozen stalks of asparagus (tearing out hard parts) into inch lengths and boil tender. Drain, pour on a cup of drawn butter; stir until hot, turn into a bake dish. Break about six eggs on top, put a bit of butter on each; salt, pepper and put in quick oven until the eggs are "set."

HOW TO MAKE AN EGG LOAF

Very Dainty Dish for Summer Days and Can Be Served Either Hot or Cold.

For egg loaf use six hard-boiled eggs, 1½ cups grated bread crumbs, one cup finely chopped meat, any kind; one cup soup stock, one cup sweet cream, two raw eggs, one rounding teaspoon salt, one-fourth teaspoon pepper, one minced onion and one heaping teaspoon powdered sage if liked. Directions: Remove the shells from the hard boiled eggs, grate them, both yolks and whites; add the raw eggs, beaten; now the chopped meat and seasoning, next add the stock and cream and last of all add the bread crumbs. The other ingredients should be thoroughly mixed before the crumbs are added. The mixture must be stiff enough to form into a loaf. Use more bread crumbs if needed. Mold into a loaf, place in a pan and bake in a moderate oven twenty-five minutes. Cut into slices and serve either hot or cold with tomato sauce if liked.

USES FOR THE PAINT BRUSH

Comes in Mighty Handy About the House if One Knows How to Use It.

Some uses for a paint brush are to clean out the corners of windows and corners of furniture and carved work, also to brush out dust and dirt around buttons of leather furniture. Keep one in the pantry for brushing milk over the top of pie crust before baking, also to grease your bread pans and cake tins, so all the corners are sure to be greased well. Use one to spread your stove polish to get in places a cloth cannot be used without getting the hands all mussed up. To take out ink from white goods, soak in fresh milk about 15 or 20 minutes, then rub till stains take a grayish look, rinse in milk once more, then place in cold water in wash boiler and shave some more soap and boil 10 or 15 minutes, and the stains will disappear.

How to Make Hominy.

Take one-half gallon of white corn, shelled; put into a kettle sufficient to hold about two gallons of water, add one tablespoonful of lye or potash, put kettle on stove and boil about one hour and a half, or until the water is thick and the skin is coming off the corn; now drain and wash in several waters, rubbing the corn hard between the hands; put plenty of water in it and set back on stove to boil; in about an hour change the water again and wash. It usually requires eight hours to cook hominy. The amount will make five quarts of hominy.

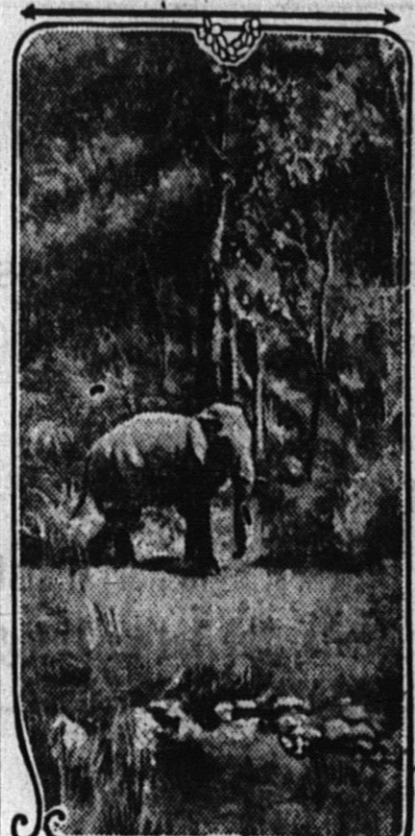

Strawberry Shortcake.

While the crust is baking carefully pick and wash the strawberries, drain on a cloth, put in a bowl and sprinkle powdered sugar over them. When the crusts are done butter richly, cover the lower one on the buttered side with berries and lay on the upper crust, butter side down. If three layers, butter both sides of the second. Other berries may be used in the same way. A tablespoonful of whipped or ice cream placed on top not only gives the shortcake a relish, but serves as a tempting ornament for the dainty.

PERILS OF ELEPHANT HUNT

Hunters More Afraid of Stampede Than of Being Attacked by Huge Beasts.

We were now in the bend of the Niger, and approaching Lake Nian-gaye, a fine sporting country, writes Capt. A. H. W. Haywood in the Wide World Magazine. Here I spent nearly three weeks, shifting my little camp as circumstances dictated. It was near the site of an inundated village that I made my headquarters for elephants. These fine beasts used to come and drink at the lake every three or four days, and I was fortunate enough to get two good tuskers here. My first view of these animals was a never-to-be-forgotten one. It was a beautiful moonlight night, and I had sent out my hunters in different directions to bring me early news of elephants coming to drink at the lake, which is a very large one. Suddenly a man appeared, saying that a herd was approaching rapidly, and soon I heard the thud of a multitude of huge feet

The Monarch at Home.

on the sandy ground. Making a wide circuit to avoid giving them my mind, I cautiously drew close to the lake.

Words cannot adequately describe the beauty of the scene that met my eyes. Some 40 elephants were disporting themselves in the moonlit waters, bathing and douching themselves with water taken up in their trunks. Knowing I should get my chance later, I had plenty of time to single out the best tuskers and mark them down. In the meantime, I lay perfectly still in my concealed position, enjoying this remarkable picture. Having bathed and drunk their fill, the elephants proceeded to retreat leisurely homewards. With a little maneuvering I had no great difficulty in shooting one of the animals I had marked down. Now arrived a dangerous moment. The huge herd, frightened rather than enraged at the report of my rifle and the fall of their comrade, stampeded in all directions. Some half dozen came careering toward me; there was neither time nor space to evade them, and for a moment I thought I must inevitably be trampled under their massive feet. I had flung myself on the ground to be as inconspicuous as possible, when fortunately something made them turn aside. They passed within a few inches of my prostrate body, screaming and trumpeting in terrifying fashion as they thundered by.

RISES GHOSTLIKE IN COURT

Very Much Alive, First Husband Appears in Annulment Suit at Paterson, N. J.

Paterson, N. J.—For ten years looked upon as dead, Ralph Mowerson of Syracuse, N. Y., walked into Vice-Chancellor Stevenson's court and established that he was alive. The suit, of John G. Schwartz, secretary and treasurer of the Schwartz Building company, against his wife Hannah for annulment of their marriage was under consideration. Mrs. Schwartz was testifying, when Peter J. McGinnis, counsel for Schwartz, ordered Mowerson to stand up.

"Do you know that man?" the woman was asked. Only a moment before she declared she learned her first husband had died somewhere in the west. Mrs. Schwartz gasped and almost whispered: "Yes, I know that man; he is my husband." She was then excused.

Mowerson testified that he married Hannah E. Straut May 8, 1896, at Tallman, N. Y. Ten years ago he deserted his wife, he admitted, and went to Phillipsburg, Mont. He denied that he had ever caused to be written letters to his wife declaring his death. Mrs. Schwartz testified that she had received a letter from his sister in Idaho telling of his death.

Human Chain Rescues Man.

Niagara Falls, N. Y.—One of the most daring rescues in the history of Niagara falls was made by Aran Kevorkian, an Armenian. Wading out waist-deep into the rapids a short distance above the cataract, he pulled to shore with a pike pole the unconscious form of Henry J. Smith of Buffalo.

Kevorkian was assisted by David Gordon and Park Constable Thomas Harrington, who formed a human chain, anchoring the Armenian to the shore and enabling him to resist the current, which was unusually strong owing to the high water.

NEW JERSEY YOUTH A CHAMPION EATER

Frederick Blinks Establishes World's Record in Art of Consuming Cream Puffs.

Paterson, N. J.—Emulating "the young man with the cream tarts," from Robert Louis Stevenson's "Modern Arabian Nights," Frederick Blinks, sixteen years old, of 80 Ellison street, has established a world's record.

He ate 42 cream puffs on a bet, thereby being the champion lightweight cream puff eater of the world. As a grand finale and at the same time to prove there was no ill feeling, Blinks, with great satisfaction, ate three coconut pies. The entire performance took twenty minutes. Blinks now stands ready to meet all comers in the cream puff line.

Louis Geng, a farmer of Wanaque, and a close friend of Blinks, came to visit the latter. During a conversa-

tion about his fondness for cream puffs, Blinks declared he could eat a dozen of them. Geng, who has a keen sense of humor, made a wager that Blinks could not eat fifteen.

Before accepting the bet Blinks asked to be excused for a few minutes. He left the room and came back in ten minutes smiling. He announced that he would take the bet and the money, \$10, was placed in the hands of Ernest Steinhebler of 80 Ellison street, who was made referee by mutual agreement.

Then the contest was on. When the fifteenth puff had been eaten Blinks never stopped, but kept right on until he had eaten all the puffs on the pan, 27 in all. There was nothing left to eat but three coconut pies. Blinks finished these and smacked his lips.

"Tell me," asked Geng after the bet had been paid, "why you left the room before you would say that you would take the bet."

"Well, I wanted to see if I really could do it," he replied. He had gone outside and eaten fifteen to make sure of things.

LEGS BURNED AND FROZEN

Section Hand, Camping Near Village, Has Fit and Falls Into a Bonfire.

Norwalk, O.—Suffering from burns on his right leg, extending from the hip to the ankle, and with his left leg badly frozen, Joe Moyrock, aged thirty-one years, a Polish railroad section hand, was brought to the county infirmary in this city recently from Greenwich.

Moyrock started to walk along the railroad track from Shelby to Greenwich, and when darkness overtook him he built a bonfire alongside the track just outside the village. He reclined beside the fire to spend the night. During the night he was seized with

an epileptic fit, and while in that condition his right leg fell among the embers of his fire. When he regained consciousness, Moyrock says, he was unable to walk or to drag himself to where he could receive assistance. He was not found for two days. During that time his left leg and right foot and ankle were frozen. Both legs were amputated.

QUEEN SEEKS REST COMING TO HOLLAND

Wife of King Haakon of Norway Is Tired of Court Life.

Her Highness Would Gladly Surrender Title, Wealth and Attention to Again Live the Simple Life in England.

Christiansand Norway.—Income \$300,000 a year. Everybody says "Your majesty." Power to do as she pleases. A husband who is devoted to her. A son who is growing up full of life and spirits, yet a model of what a son and a future monarch ought to be. Subjects universally adoring her. And, withal, Queen Maud of Norway isn't satisfied. She is content with her husband, Norway's King Haakon VII., and she is rejoiced over her son, the Crown Prince Olaf.

But she doesn't care for the \$300,000 a year Norway grants to monarchs; she'd rather have the \$40,000 she used to skim along on and be poor. She is tired of being her majesty, and would infinitely prefer being a princess, poor at that, says a writer. She would welcome her earlier life, when she was picked on by a mother-in-law—and where can woman find a more malign fate? She is willing enough that the Norwegian people shall adore her; but she would delight in exchanging her coach of state for the top of a London omnibus, with Norway forgetting all about her.

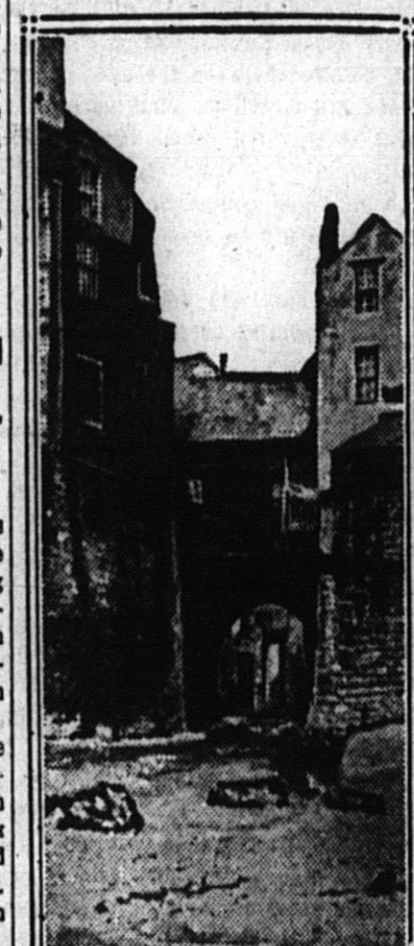

So there, enthroned by a whole nation's deliberate choice, victorious over all misfortune after years of harsh subjection, is a queen who resembles no other queen alive, and a woman who is homesick for the very things which millions of other women are breaking their necks and their husbands backs to get away from.

She has had her granddams now for half a dozen years, and the longer they have been thrust upon her the sicker she grows of them.

"I sometimes get tired of being royal, especially when I am looked at and wondered over like one of the Tussaud waxworks. I often think how glorious it must be to be able to jump on the top of a bus and have a day out. I think I shall some day."

That was what she said soon after she was crowned as Norway's chosen queen. She thinks it more emphatically now; she is chronically tired of being wondered at, and chronically hungry to jump on top of a bus and have a day out. She said so only the other day in other words.

If she could only abandon her solemn throne; only go to her old home in England and live there in peace and quiet, rearing her boy, now some nine years old, to be a simple gentleman;

Street in Quaint Old Christiania.

If she could only enjoy her outdoor life as she used to, without any one noticing her and with her husband at her side; to be called Carl instead of Haakon.

She calls him that anyway; but she wants to hear everybody else speak of him by the familiar name, and she longs to hear herself called Harry by the voices of her own family, as she used to be when her father, King Edward, was alive and was skimming out a few thousand pounds a year from his royal income to keep her from being too hard up over in Denmark.

She is different from her mother, Queen Alexandra, who has been moving heaven and earth to retain some vestiges of the royal authority she wielded before Queen Mary so mercilessly relegated her to dowagership and obscurity. She is different from Queen Amelia of Portugal, who braved assassination to hold her tottering throne for the sake of Manuel, the one son the assassin left to her; different from Italy's queen, who assumed a throne in the face of royal contempt and popular dissatisfaction, and fought her battle for respect and obedience through years of suspicion and unkind criticism; different from almost all other queens, who have lived and, having once reigned, have abandoned the royal prominence and prerogatives only at the bayonet point—and even then if we recollect, Marie Antoinette remained resolved to wait for the guillotine.

Diseases of the stomach, intestines, liver, blood, skin, or bladder, rheumatism, sciatica, diabetes, bed-sores, leg ulcers, weak lungs and those affected with long-standing, deep-seated, chronic diseases, that have baffled the skill of the family physician, should not fail to call.

According to their system no more operations for appendicitis, gall stones, tumors, goiter or certain forms of cancer. DON'T FOR WIVES

The leader of the Rockefeller church at Cleveland, Ohio, recently took the above heading for his text, and he asked his hearers to put the following ten points up in their wives' mirrors:—

1. Don't marry a man for a living, but for love. Manhood without money is better than money without manhood.
2. Don't overdress nor underdress; common sense is sometimes better than style.
3. A wife with a hobble skirt and a husband with a patched trousers make a poor pair. A woman can throw more out of the window with a spoon than a man can put into the cellar with a shovel.
4. Don't think that the way to run a house is to run away from it. It is wrong to go around lecturing other women to bring up children, while you are neglecting your own.
5. Don't tell your troubles to your neighbors. They may have enough of their own. Fight it out with yourself if it takes all summer.
7. Don't try to get more out of a looking glass than you put into it. Nature's sunshine is better for a woman's beauty than man's powders and paints.
8. Don't make gamblers and drunkards of your children by running whist parties for prizes and serving punch with a stick in it.
9. Don't forget to tell the truth, especially to the conductor about the age of your child; honesty is worth more to you and them than a nickel. A boy who is eight years old at home and six on the cars will soon learn other things that are not so.
10. Don't forget that home is woman's kingdom, where she reigns as queen. To be a mother of a Lincoln, a Garfield, or a McKinley, is to be the mother of a prince.

WHAT YOU SAW IN THIS PAPER

WHAT YOU SAW 35 YEARS AGO

A very systematic attempt was made on Wednesday last to "lift the till" in Mr. D. de Vries's grocery store, on River street. Just about noon, while the proprietor was to dinner, a boy was left alone to take care of the store, two strangers stepped up and one of them engaged the young man in conversation at the front door, while the second one sneaked around the store and entered the back door, and with cat-like stillness crept up to the drawer to empty it. Just at that minute, however, Mr. John R. Kleyn came around the corner in a great hurry to get something out of the store, and while entering saw this stranger come from behind the counter on his hands and feet in a very dexterous manner, and when emerged from behind the counter he complained of having hurt his knee. This was evidently said to Mr. Kleyn, a stranger to the would-be thief, to withdraw his attention. He then made his way to the door and asked the boy if he had seen a black and tan dog around there, in somewhat excited manner, which were all the signals necessary for his partner and the departed in a great hurry, jumping over lumber piles just north of Mr. Meyer's store, and proceeded down 8th street and out of sight before the intent of the crime was realized.

HOLLAND PUBLIC LIBRARY ENRICHED BY LARGE NUMBER OF NEW VOLUMES.

At 10 o'clock Tuesday morning a list of books that have been added to the public library were put into circulation. A list of the books is printed below. Many of them are new books just published, like Emerson Hough's "John Rawn", for instance, and "The Money Moon" by Farnol and "The Turnstile" by Mason and a number of others. NAMES ANNOUNCED AT CHURCH MEETING.

Detroit Free Press.—The custom of the house-to-house visitation plan in vogue for years among the churches in the Holland Christian Reformed denomination is again in progress and not a single family is overlooked.

At the Sunday services the names of the families to be visited during the week, together with the day and hour for each family, is publicly announced from the pulpit and no one can find a legitimate excuse for not being at home when the pastor and elder put in an appearance. The visits are usually of an hour's duration, at the close of which a prayer is offered.

One of the local ministers made 50 such visits last week, and as his congregation numbers over 400 families, the rounds would cover two months of strenuous work. Besides scores of homes annually are visited in cases of sickness.

When taken into consideration that the average salary of a clergyman in the Christian Reformed denomination is less than \$1,000 per year, the reason for the numerous vacant pulpits is easily explained.

Hartford fruit growers are predicting that the orchards of this section will produce at least a two-thirds crop of peaches while many of the younger orchards especially will yield an even better percentage of a crop. Some growers have been compelled to thin a number of the varieties and with favorable weather conditions the crop will approach that of a year ago.

The yield per tree will not be as large, but the young orchards which are just coming into bearing will swell the total volume of the crop. Dispatches from northern Michigan declare that the peach estimate in that section has been materially revised, and that a full crop is expected if weather conditions continue favorable until the fruit is ripened.

A writer from South Haven gives a different view of the outlook. In the "Reports from various orchardists in western Michigan" indicate that the June crop of peaches will be quite heavy. Some declare that where the bloom was heavy and prospects were for a big crop, the fruit has fallen badly.

"In some localities the yield will be badly checked because orchards located practically side by side will be quite different from the standpoint of yield. It will probably be a couple of weeks yet before anything like a definite report can be made as to the probable yield over the southern part of the state. One dealer who has handled Michigan peaches extensively for several years declares, however, that he looks for a pretty good yield of very nice nice peaches should the weather continue favorable until marketing time.

Washington, June 6.—Senator Wm. Alden Smith for 20 years has collected clippings on subjects of the greatest variety. The best of the bunch he carries in an envelope in his coat pocket and among these is a prophetic poem regarding a sea disaster in which the name "titanic" is mentioned. The poem was written by A. T. Quiller-Couch in 1893. Its last stanza runs.

They she, the stricken hull,  
The doomed, the beautiful,  
Proudly to fate abased  
Her brow Titanic.  
Praise now her multitude,  
Who nursed in fortitude,  
Fell in on deck and faced  
Death without panic.

P. S. Miller who has been manager of the Woolworth Co., store since it was first established in this city a year ago last March has been given the management of the company store at Chillicothe, Ohio. The store at Chillicothe is much larger than the one in this city and this promotion shows in what esteem Mr. Miller is held by Co. officials.

MISS JENNIE KARSTEN IS PRESENTED WITH FINE GIFT BY PUPILS.

Miss Jennie Karsten Tuesday night held a piano recital at her home 264 Lincoln avenue. About 40 were present together with the mothers and friends of some, in all a company of about 50. The playing of solos and duets gave great satisfaction. The programme called for a reading by Miss Amanda Roseboom. Her selection was "Ignorance is Bliss," which she rendered in a manner which left room only for praise and no criticism.

The pupils had decided on a little surprise for their teacher. They presented her with a beautiful hand-painted vase. The youngest of the class, Miss Florence Bicksford, was lifted on a chair and made the presentation speech. The gift was accepted with feeling and a hearty "I thank you."

A social hour was spent during which refreshments were served, all went home with the feeling that a pleasant hour had been spent with their teacher.

VALUABLE ADVICE

Holland Citizens should Profit By the Following Statement.

Doan's Kidney pills cured this Holland citizen.

Their merit was shown the story told.

Now comes further evidence.

The testimony is confirmed.

The remedy was tested—the cure lasted.

Could Holland residents demand stronger proof?

It's Holland testimony. It can be investigated.

William J. Dennison, carpenter and contractor, 526 Central Ave. Holland, Mich., says: "Three years ago I gave a statement for publication telling how greatly I had been benefited by Doan's Kidney Pills, and today I am glad to say that the cure has been lasting. I first took Doan's Kidney Pills about ten years ago when I was suffering from disordered kidneys. Every cold I caught settled on my kidneys, causing lameness in the small of my back accompanied by pain in my loins. Doan's Kidney Pills soon corrected my trouble and I continued taking them until cured. From that time to this I have been a firm friend of this remedy."

It was believed that it would be wiser to open the entire street and grade it from one end to the other. This report was adopted.

To Clean Furniture.

When your piano or other nice furniture has finger prints and look dull, take one pint soft water, one tablespoonful olive oil and wash with clean soft cloth, then take dry cloth and rub until perfectly dry; you will find your furniture looks like new.

Refreshments for Whist Club.

The following refreshments can be used at a whist party conveniently: Ice cream, cake or cookies. I prefer ladies' fingers, fruit punch or lemonade, fruit or candy.

Cooking the Cereal.

While washing the dishes from the evening meals put the cereal on and cook it. All that need be done to it on the following morning is to add a little water to it and heat.

ong Tastes and Palates.

Fifteenth century Englishmen seldom used either milk or butter. They used great quantities of spices, however, in their food, and, apparently, did not care for the more delicate flavors that suit modern palates. It is pointed out by a writer that storage eggs and "renovated" butter would have had a ready market with them.
