## ROWS ACROSS BIG LAKE IN SMALL SKIFF

MILWAUKEE MAN IS SIGHTED BY GRAND HAVEN COAST GUARDS

Grand Haven Tribune—Michael Eicher, 40 years old, of Milwaukee came into port today about 12:30 after crossing Lake Michigan in a little 14 foot row boat in which he claims to be the first man to row across Lake Michigan.

Burned to a copper color by the sun and wind he arrived in port here little the worse for his experience although his legs were cramped and his hands sore from 27 hours of almost constant rowing, battling during the long hours of Tuesday night with rain and wind squalls which he encountered in mid-lake.

His worst time he claims was just out of this port as the south-west wind blew up some sizable breakers. Surferman Laird was the first local man to spy him from the tower on the coast guard station. Laird had been on the lookout for him and the crew were ready to give him assistance.

He drew into the local coast guard station with little excitement only a few being aware of the feat which he had accomplished. The little boat is 14 feet long, 28 inches beam and has four watertight compartments. It is pointed at bow and stern with a V shaped bottom. He claims the craft will make between three and four miles an hour.

It has one pair of oars and a small seat covered with a small cushion. A life preserver was carried in the boat but the adventurer laughingly said that was only for looks.

Eicher left the Milwaukee yacht club dock at 9 o'clock Tuesday morning. During the 27 hours of rowing he rested five minutes each hour, most of which time he spent rubbing his legs, which were cramped in the tight quarters. His hands were protected by some heavy leather gloves, which he later changed to lighter cotton ones.

Riding on the top of the water like a cork the little skiff, painted red, dark green and white, looked able to battle with waves of any size. Eicher said he did not ship a bit of water on the trip although during the night heavy rain squalls wet the boat and himself considerably. He wore an ordinary street suit with a sailor cap and his shoes looked none the worse for wear.

He says he made the perilous voyage in the interests of sports and has no wager to earn nor will he consider going on a vaudeville stage.

The little boat was built by himself at his home, 1600 Juneau avenue, Milwaukee, during the winter. He lives with his mother and is unmarried. He has been a sailor all his life and when forced to stay at home with his aged mother he decided to do something to relieve the monotony. He conceived of this idea and started out last year, July 25, to accomplish what he claimed has never been done within the memory of the white man. Although he says the Indians probably crossed from one shore to the other. Last summer he got out 18 miles when the weather became so bad he was forced to turn back. This is not the same boat and he learned of some improvements which he incorporated in the second boat.

He had a \$25 compass and some tarpaulin covers in one end of the boat just behind the seat. He claims there is nothing in the boat which could possibly have assisted him other than his two arms and hands and two oars.

## SUIT HAS BEEN STARTED AGAINST HOLLAND AND ZEELAND FOLKS FOR \$25,000

It has been rumored around Holland that Peter Van Ark, city assessor, and the William H. De Pree company, a corporation at Zeeland, have been sued jointly for \$25,000 by the administrator of the Arthur Bowmaster estate. It will be remembered that Bowmaster was killed on the Zeeland road during a bad storm in December. It was alleged by the plaintiff's attorneys that Van Ark should have moderated his speed during a bad storm and that De Pree should have had someone guard his truck while endeavoring to pull a stalled car out of the ditch. Anyway in the mix-up of the three cars, Bowmaster was fatally injured and the puzzling question of speed, the elements and a score of other things that entered into the matter will have to be aired in court to get at the bottom of the whole situation.

The Holland man claims that it would have been impossible to speed in a storm of that kind. It is well to withhold judgment on the entire affair until the courts decide the merits of the case.

Drivers cannot be held responsible for the elements in an accident and no doubt this will enter largely in the suit when it comes up for trial in circuit court.

In a phone call to County clerk Wilds, he stated that this suit has been filed by attorneys for the Bowmaster estate.

## Local Business College Also Has Its Graduates

CLOSES ITS 35TH YEAR AS HOLLAND INSTITUTION OF LEARNING

The Holland Business College has just finished its 35th school year with a place in the record book for students for the year ended on Friday June 21, and the management as well as the student body were in a happy frame of mind since over 90% of the year's graduates have been placed by the school. The school's 35th year is thus a most successful one.

For many years Holland Business College has reflected, through the general condition of business in Holland and vicinity. In peak years prosperity the school has been able to place nearly all its graduates at or before the close of the school year. Occasionally business conditions have not permitted placement of all students until after the end of the year's work.

Be that as it may, it is a well known fact that students receiving instruction from such men as C. J. Dregman and Albert Hoeksma and their aids are thoroughly equipped to enter any office, no matter how difficult or intricate the work may be. This statement is reflected in this list of students who we find have been placed since last September in the following business enterprises:

## As The Airmen Saw Holland Saturday

The above photograph of Holland from 2,000 feet up gives News readers some conception of the layout of this city. On the foreground to the right of the picture is Holland's light and water plant, stand-pipe and all. Tucked in right side of it is Riverview park with the baseball diamonds. Airmen, you will notice, need pay no admission. Warm Friend Tavern can be seen in the very heart of the picture. You see that large black spot toward the center and left of the picture. That is Centennial park, with Central Avenue Christian Reformed church outlined against it.

You can easily pick out many of Holland's manufacturing establishments along the south shore of Black lake.

No better idea could be formed of just how Macatawa Bay lies in relation to Holland than is shown in the above picture. The first deep inlet is Pine Creek Bay, the narrows is Point Superior and beyond is Big Bayou.

The Masonic Temple is plainly visible. The Pere Marquette freight yards and depots can be seen to the left of the light plant. The depot was not in the range of the camera but to the bottom of the picture

part of the train shed is shown with 8th street directly to the left. Way in the distance on Black lake large white hulls of the North and South American steamers can be seen at their docks at Montello Park. This picture shows only about half of Holland since the city is too big for the camera.

Surely Holland was built on the level and on the square and in a wonderful location. Who can help but be proud of this "burg"?

## Holland May Have Woman Member on Its School Board

SCHOOL ELECTION IS TO BE HELD MONDAY, JULY 8

The annual school election will be held different this year, under the new law. There will be no caucus, as heretofore, anyone with the required number of names can qualify within the time limit. This limit has expired and those persons who did qualify are the following: Gerrit Vander Hill, Martha D. Kollen, Henry Geerling and Fred Beeuwkes, and their names will be placed upon the ballot to be voted on a week from next Monday at the city hall.

The trustees whose term of office expires are Gerrit Vander Hill, Fred Beeuwkes and Henry Geerling. The poles will be open from 2 until 8 p. m. and school trustees will act as inspectors of election.

Of the four names appearing on the ballot as stated above, three must be voted on, so one of the four is bound to be defeated. There's one woman on the list, namely Mrs. Martha Kollen, who has taken an intense interest in school affairs and has served often on former boards. At present Holland has no women on its board.

ZEELAND HOSPITAL FUND GOES OVER

## Popular Couple Are Wed in Hope Chapel

ANDERSON-DE PREE MARRIAGE SOLEMNIZED ON WEDNESDAY EVENING

On Wednesday evening of this week Miss Margaret Moe Anderson, niece of Mr. and Mrs. William J. Olive of this city and daughter of Mr. and Mrs. J. A. Anderson of Kansas, Ohio, and Kenneth De Pree, son of Mr. and Mrs. Henry De Pree of Zeeland, were wed in Hope Memorial Chapel. The marriage took place promptly at 8 o'clock with the edifice filled with relatives and friends of this popular young couple.

Preceding the services Mrs. Edward De Pree gave an unusual program of music on the large new Skinner pipe organ.

Friends were exceedingly impressed with the decorations of the chapel, the large stage presenting a veritable bower of green set off with beautiful flowers everywhere. The altar was banked with ferns and palms, interspersed with white peonies and white fox gloves deposited in rows of tall vase. Adding to the solemnity of the picture the altar was set off with 18 large white lighted tapers, casting a halo about the bride and groom during the marriage service.

Preceding the ceremony and just before the playing of the wedding march, Mr. Stanley De Pree sang, "I Love You Truly," by Carrie Jacobs Bond, and Mrs. John Telling beautifully rendered "Oh, Promise Me," by de Koven. Mrs. De Pree accompanied these numbers on the organ. The artists were gown in the vestments of the church.

The ceremony was performed by Rev. Thomas W. Davidson, pastor of Hope church, and by Dr. William J. Van Kersen, uncle of the bridegroom, the single ring ceremony being used on this occasion.

Promptly at 8 o'clock the bride entered on the arm of her uncle, Mr. Wm. J. Olive. Preceding them was the bridal party composed of the four ushers, two bridesmaids, the maid of honor, and the little flower girl followed by Miss Anderson and Mr. Olive.

The party proceeded to the altar over a carpet of white velvet and between a veritable lane of white satin ribbon, festooned from pew to pew.

The bridesmaids were the Misses Carol Van Hartesveldt and Maxine Boone, the former being gown in a period gown of chartreuse pink satin with green tulle and Miss Boone wore a period gown of blue tulle covered with tulle. Both young ladies carried carriage bouquets.

The maid-of-honor, Miss Marion Anderson, sister of the bride, looked very charming in an orchid taffeta gown of period style. Miss Eleanor De Pree was the flower girl. She wore a flesh colored taffeta dress and carried a miniature corsage.

The bride, Miss Margaret Anderson, looked beautifully gowned in ivory tulle with a long train and a wedding veil of ivory tulle caught at the back with orange blossoms and carrying a shawer bouquet of swansonia and calla lilies tied with tulle.

The bride was accompanied by her uncle, Wm. J. Olive. At the altar the groom awaited the bride where he was escorted by the groomsmen, State Senator Gordon Van Eenennaam, formerly of Zeeland, now of Muskegon.

The ushers were Edward De Pree, David Boyd, Stewart Boyd and William Tuttle.

After the marriage ceremony, the beautiful large home of Mr. and Mrs. Wm. J. Olive on Maple avenue and 11th street was thrown open and a reception was attended by nearly 300 guests. While Mr. and Mrs. C. M. McLean were master and mistress of ceremonies at Hope Memorial Chapel, Mr. and Mrs. John Bosman acted in that capacity during the reception at the home. Mr. and Mrs. Sears McLean were in charge of the dining room.

Throughout the evening a musical program was in progress with Miss Sarah Lacey and Mr. Monte Emmons giving numbers on piano and violin.

Following the reception the couple left on a honeymoon trip by auto to Montreal and Quebec and after their return they will be at home at 79 East 9th street.

Mrs. De Pree is a graduate of Hope college of the class of 1926. Since her graduation she has been teaching in the English department of the Alma Junior High school.

Mr. De Pree attended Hope college and the University of Michigan. For the past few years he has been associated with his father in the hardware business in Holland, the enterprise being under the name of the De Pree Hardware company.

## LOCAL PASTOR 25 YEARS IN THE MINISTRY

DOMINIE AND "JUFFROUW" CELEBRATE TOGETHER WITH CONGREGATION

Is tendered a reception and given Living-room Suite of elegantly patterned Mohair

In turning to the Holland City News files of May, 1904 we find that Mr. James Wayer is among the members of the Class of Students of the Western Theological Seminary, to graduate with honors as a Minister of the Gospel from this local institution — and further that he has accepted a call to Ebenezer Reformed Church, located southeast of Holland.

That, however, was twenty-five years ago this week and for that reason the event was being appropriately celebrated at this time.

The modest Rev. Wayer would no doubt have commemorated the event with a simple "at home" and in a quiet way, but the congregation, holding him in the highest esteem as well as they do Mrs. Wayer, planned otherwise.

Committees were quickly appointed, they worked diligently and in a comparatively short time an excellent program was arranged so that both Dominie and Juffrouw Wayer and the congregation as well might celebrate the great occasion together.

That is just what happened and on Tuesday evening in First Reformed Church, where Mr. Wayer is pastor, he and Mrs. Wayer received the felicitations of the entire congregation.

In reality the occasion held a double significance for them, for not only was 25 years ago that Mr. Wayer became an ordained minister but it was the silver wedding anniversary of the happy couple.

Rev. Wayer has served the First Reformed Church of Holland for nine years following Rev. Henry Veldman now of Muskegon. Last Sunday he based his sermons on the same texts which he used when he delivered his inaugural message in his first pastorate of the Ebenezer church at East Holland in 1904.

Before he came to Holland Mr. Wayer was pastor of Bethany Reformed church of Grand Rapids, 11 years. First church was organized in 1847 and recent statistics show an enrollment of 347 families and 862 communicant members.

The church is credited with the largest Sunday school in the particular synod of Chicago, it having an enrollment of 1,095, which was all brought out at the reception held Tuesday evening.

The program for the evening was in charge of Rev. Seth Vanderwerf, a former pastor, who gave an address on the development of First church in the past 25 years and Rev. John E. Kuizenga, head of the Western Theological Seminary, who spoke on "The Glory of 25 Years in the Ministry." Greetings were extended by Mrs. G. Tyse on behalf of the women's organizations and from Prof. C. Kieffer for the Sunday school. Miss Marian Linders spoke for the young people, G. Oonk for Mr. Wayer's first pastorate of the Ebenezer church, Peter Telder for Bethany church, Grand Rapids, and George Mool for the home church, which presented Mr. and Mrs. Wayer with a three-piece overstuffed mohair living-room suite. Rev. J. P. De Jong, who assisted in Mr. Wayer's ordination 25 years ago, gave the closing prayer. Rev. Albertus Pieters, pastor of First church 60 years ago, offered the invocation. The program was interspersed with music given by a quartet composed of Mr. Gerry Ter Beck, Mr. John Ter Beck, Dr. C. V. R. Gilmore and Mr. John Ter Vree.

In closing Rev. Wayer responded with a happy beaming face and his happiness was also reflected in the countenance of his estimable wife. Mr. Wayer said in part that he thanked the congregation and the friends from other churches who had so considerably and so thoughtfully planned this celebration that had a double meaning to him. He stated that if he were to live his life over again he positively would choose no other profession but to be content to do his Master's bidding as a minister of the Gospel. In closing he said: "To me it seems as if God himself is smiling down upon us this day for all the blessings which He is bestowing and Mrs. Wayer and myself feel truly grateful."

Mr. and Mrs. Wayer kept open house in the afternoon. The evening service was followed by a reception in the church parlors.

Mrs. George Van Liere and her daughter from Chicago and Mrs. Martina Roosenraad and daughter of New Groningen spent Friday at the home of Mr. and Mrs. Peter De Pree on East Central avenue, Zeeland.

Roy L. Brown, Bible teacher, is closing a two-weeks Bible teaching Sunday, June 30, at the First Baptist church at Allegan.

The Paul Rader Conference grounds at Muskegon will open for the season Saturday. Mr. Rader, brother of Paul Rader, will be in charge of the grounds.

## How They Keep Down Murder

The homicide record for the great and wicked city of London for the year 1928 will bear more than passing notice. Outside three deaths from criminal operations there were eighteen murders in the metropolitan area. Seven killers subsequently committed suicide. The other eleven were tried and convicted.

In London the carrying of firearms is not considered a minor offense to be winked at. In London, capital punishment is an institution. So is quick apprehension of criminals. So likewise is prompt trial and quick punishment. Technicalities are not permitted to defeat the operation of justice, and sub squadrons have no standing in the community.

When American cities create and maintain similar conditions, homicide will no longer be one of the major sports of the country.

## Mountain Out of a Molehill

Grand Rapids Herald.—Representative Oscar de Priest, the Chicago Negro whose wife's appearance at a White House reception inspired southern criticism of President and Mrs. Hoover, has summed up the tempest in a teapot admirably. Says Mr. de Priest: "It's all a lot of moonshine for anyone to suggest that a question of social equality was involved in my wife's going to a White House tea. My wife was invited, not because she was white or black, Republican or Democrat. She was invited because she happened to be the wife of a man who was a member of Congress." That's the whole thing in a nutshell.

## GIRL BASEBALL STAR TO PLAY HERE SATURDAY

Miss Mildred Gordon to Cover Second Base for Grand Rapids Team

Saturday afternoon at 3:15 the Holland Bats will cross bats with the Grand Rapids Kewpies at Riverview park in Holland.

The Grand Rapids Kewpies has one of the fastest teams in Grand Rapids and will feature Miss Mildred Gordon in their lineup at second base.

Miss Gordon is the greatest woman baseball player in Michigan, being offered a contract to play ball with a professional team in New York and other parts of the country. Miss Gordon is also a college graduate and school teacher. As a second baseman she knows how the national game is played. In addition to this Miss Gordon knows how to handle the bat, always getting her share of hits.

Last Sunday the baseball fans of Grand Rapids saw Miss Gordon in action at Ramona Park with the Lithuanian A. A. of Grand Rapids against the Chicago Maroons, the latter winning by the score of 6 to 7. She handled her only fielding chance cleanly hitting the ball hard in her three times to bat, and scored one of the team's runs, thus making a hit with the fans.

The Kewpies are backed by the Kewpie hotel of Grand Rapids and are playing a sensational ball this season. While the Batters are backed by the Beter Clothing store of Holland, and are one of the leading teams in Holland, having lost only one game this season on the local lot, that being to the Jess Elster's colored boys on Decoration day.

The local boys are out to give the fans of Holland a treat. Game will start at 3:15 sharp.

## OTTAWA FARMERS FILE PROTEST ON HIGH TAXES

Muck farmers in the celery district of Georgetown township filed a protest against high taxes and indiscriminate assessing with the board of supervisors today, under threat of appealing to the state tax commission for relief. After some discussion the board decided that it could take no cognizance of the protest and returned it to Sup. Harm Plagemeyer, who was instrumental in its circulation.

The farmers stated that muck land of Georgetown township was assessed at \$400 an acre, while high land of Jamestown and Zeeland townships was on the rolls for only \$250 an acre.

## REV. PEEKE TO LIVE IN HOLLAND

Rev. and Mrs. Harmon V. S. Peeke, who recently returned to this country on furlough from Japan, are planning to occupy the mission home at 174 15th street, west, Holland, early in September. Mr. Peeke still is a patient in Harper hospital, Detroit, where he underwent a serious operation.

Mr. and Mrs. Peeke have represented the Reformed Church in America in Japan since 1893 and it is feared their present furlough will be permanent owing to Mr. Peeke's condition.

The mission home to be occupied by them was donated by Mrs. H. J. Kollen to the board of foreign missions several years ago, to be used as a home for furloughed missionaries.

John Vanderploeg of the Shady Lawn Sanatorium was in Chicago Monday on business.

## Six Cylinder Sentences

By DR. JOHN W. HOLLAND

Hate is always second rate. Those who get on in life have to "get up."

"Let George do it" has never gotten anything done, by George.

The color of a man's moral world is the hue of his own conduct.

Fear multiplies the enemies that beset us, faith helps us to upset them.

Some can forgive and some can forget, but few can do both.

It used to be that only a certain kind of woman painted her face; now both the certain and uncertain kind do it.

Many fail to reach a ripe old age because of having lived a rotten young one.

A man is of little count to the world who spends all his time counting dollars and cents.

"He promoted me to the head of the production department."

When appetite comes in at the door reason flies out the window.

Anyway, when an opportunity is embraced it doesn't leave any powder on one's coat lapel.

Mr. Moody said there were about 1000 guests and 4000 delegates present. The theme of the convention was "Things which have been and possibilities of what may be done among the blind."

Mr. Riley, the former vice-president of the Lions club, was elected president at the convention and next year the convention will be held at Denver, Colo.

Mr. Champion spoke on various things concerning the board of public works. He also stated that at present the board is considering, although this is not yet passed, the erection of an elevated tank which will be in the western part of the city.

## HOLLAND HAS NEW PLAN FOR LAYING WATER MAINS

Hereafter it will be the policy of the board of public works to lay water mains on the assessment plan. This rule was adopted for outlying districts. Heretofore, where there was a number of vacant lots, it was impossible to install a water main until the street had sufficient number of property owners who wanted water service. According to the new plan installation will be made along the same lines as for the laying of a sewer. If the new main is laid, 75 per cent of the cost will be charged against the abutting property and spread over a period of five years.

The scouts of Third Reformed church held their meeting in the form of a picnic at Al Van Lente's place at Tennessee beach Monday evening. Betty Chapman is spending a week at the girls' camp at Ottawa Beach.

Mr. and Mrs. Abraham Peters and family have moved to Tennessee beach for the summer.

The local scout office has purchased a small Ford truck which has been repainted and will be used in connection with the summer camp at Camp McCarthy.

## The Szekeley Flying Field Is Dedicated

LITTLE MARY LEE SZEKEYLEY DROPPING ROSES FROM ON HIGH, PART OF CEREMONIES

Holland all along seemed backward as far as flying and airports were concerned, in fact, no concerted efforts were made along these lines until O. E. Szekeley came to town about two years ago. Other cities were planning and making arrangements and getting data and requirements, but not Holland. All at once, in fact overnight it seemed, this city got into the swim of things flying and finds that it has one of the best airports on one of the finest locations possible to secure. And this fact is already known to the flying world and Holland "stands put" on the map of aviation.

The Holland Chamber of Commerce was not slow in recognizing the airport possibilities here and appointed a committee of five for that purpose.

Anyway Saturday was dedication day for the Szekeley Airport and promptly at 2 o'clock in the afternoon, the dedication program for the afternoon was opened when little Mary Lee Szekeley, daughter of O. E. Szekeley, dropped roses from the large tri-motored Ford plane onto the flying field.

With several thousand aviation enthusiasts looking on Holland dedicated its new airport to the interest of aviation. The new Szekeley field promises to be a milestone in Holland's progress as an aviation center with Szekeley Aircraft and Motor company forming the cornerstone. Holland now boasts the production of one and one-half planes, and four plane motors a day.

The program of the day started with a grand parade over the city and surrounding resorts, with the tri-motored Ford plane leading. Following were 14 other planes of different makes and from all parts of the country.

Next came the events, which consisted of a plane race in the 90-horsepower class. This was a 20-mile event and was won by H. Shobe of Detroit, who drove a monocoupe. The second was a free-for-all and proved to be the thrill of the afternoon. It was won by Roy Mass, who drove a speedy Waco plane. The time for the 20 miles was seven minutes and forty-five seconds. The deadstick landing was the third event and was won by Ernie Burns, who drove a travel airplane. Burns showed rare skill in landing his plane 21 feet from the flag after planning from 1,500 feet with a dead motor.

Other notables in the flying world present were: Tom Demarest, who piloted an American Eagle; R. E. Voss, Ypsilanti, Waco; Walter Carr of Saginaw, Cabinair, a new Michigan plane. Holland's own flying Dutchman, manufactured by the Szekeley company, was piloted by Lieut. Cyril Peabody. Bob Lout of Bradford, Penn., brought two planes, representing the Kendall Refining company, makers of Pennoil oil. Jack Burns from the Furniture Capital Air Service, Grand Rapids, with Jimmie Pierson, from the Detroit News service, and others aided in the celebration.

Much praise is due Capt. O. M. Goodsell, who is piloting the big Ford plane in a tour of the states in the interest of aviation. He is paying his expenses by taking up flights of touring parties.

Although Szekeley field is privately owned, it is open to all planes and Szekeley officials hope a sufficient amount of interest will be displayed so that eventually Holland can be made one of the Michigan air mail stops. The field is one of the best in the state, having two 2,200-foot runways and two 1,500-foot runways, each of which is 300 feet wide. This permits a plane to land with the wind in any direction and the long runways are in the direction from which the prevailing wind blows 63 per cent of the time.

The Grand Rapids Herald in speaking of the flying field says: "The field is of sandy loam turf, and has been drained with 4,400 feet of tile, making the surface entirely free of water, further improvements are planned which will make it the finest in the state for a city of this size, and excelled by but a few fields anywhere."

The field is soon to be equipped for both day and night use. The field is located two miles north of the Szekeley plant in the southwest part of the city. The roof of the plant is of corrugated iron and bears a large arrow pointing to the field and bearing the word: "Holland." This and the other signs in the city puts Holland on the air map for passing aviators and the field is easily found.

Prizes for the events last Saturday were donated by enthusiastic business men who are anxious to see Holland in the foreground in aviation.

Among the merchants who gave prizes were: Fischer-Brooks Insurance Co., Holland Motor Co., John Arendshorst, Huizenga Jewelry, Chris Korose, Lawrence Drug Store, Louis Padnos, P. S. Borer Co., Ollie's Sport Shop, Paris Cleaners, Warm Friend Tavern, De Pree Hardware, Nies Hardware, J. H. Williams Jewelry, Brinks Book Store, City Sign Co., Standard Motor Parts Co.

Deputy Rufus Cramer and assistants and members of the state police force were in charge of the field and looked after the parking of the 1,000 or more autos. Individuals were given seats on the temporary grandstand erected at the north end of the field. Order prevailed throughout the program and the officers had things well in hand.

Lieut. Knowles of Battle Creek officiated as referee while Willis Diekema, N. O. "Wally" Wallgren and A. H. Landwehr of Holland were the judges. Szekeley field attendants and officials assisted in carrying out the program without mishap.

Winners in the various events were: OX5 Race, 15 Miles—E. Burns, Grand Rapids; Tom Demarest, Lansing; Norman Wood, Battle Creek.

Free-for-All—Roy Nass, Ypsilanti; Randy Russell, Battle Creek; Jack Byrne, Grand Rapids.

Dead Stick—E. Burns, Grand Rapids, 21 feet; Walter J. Carr, Saginaw, 31 feet; Norman Wood, Grand Rapids, 204 feet.

De Witt applied the brakes to avert a collision and cracked the brake pedal of his machine. The front wheel rested on the boy's arm when the car stopped. Andrew was taken to a doctor's office for treatment and then taken to his home on R. F. D. No. 9. His injuries are believed to be not serious.

Pommerening in turn to move his garage, chicken house, trees and shrubs at his own expense.

## AIR SERVICE ABANDONS G. H. WOODEN RAMP IDEA

The wooden ramp idea has been abandoned by the Grand Haven Air Service and an apron of heavy cyclone wire will be laid on the bottom of Lake Michigan under about four feet of water upon which amphibious planes can be taxied to the shore. This could be taken up and preserved during the winter. It will cost \$600 and be cheaper than the ramp. Louis H. Odierhouse, attorney for the Highland Park objectors, asserted today that he would serve an injunction whenever the company begins operations, holding permission must be obtained from the federal government as it will be an obstruction in federal waters.

## THOUSANDS OF SIGHTSEERS AT LAKEWOOD FARM OPENING

Sunday proved a busy day for officials who handled the huge crowds that poured in from many neighboring states to witness the opening of George Getz's Lakewood farms. Cars were counted from all surrounding states and authorities counted in the tens of thousands of visitors who took in the sights of the farm.

Improved facilities for reaching the farm made it easier to handle the huge crowd and parking facilities have been greatly bettered over the crowded and congested conditions of the past few years.

Visitors Saturday and Sunday found a number of improvements near the farm and a great deal of work accomplished toward making things more convenient for the public.

The new Tennessee beach road, north and south of the Getz farm, is now open and provides a concrete highway to some of the prettiest scenes of this community. The Ottawa county park, a new piece of ground south of the Getz farm, was donated by Mr. Getz. It is being whittled into shape and another week will see it virtually ready for the public. A new well was drilled Saturday, assuring plenty of drinking water for visitors. The grove of trees will be provided with facilities for picnicking.

Austin Harrington, chairman of the county road commission states that everything is being done to facilitate matters and complete the roads in the vicinity of Lakewood with all possible speed. Western Michigan and Holland in particular can thank "Big Chief" George Getz for again providing thousands with recreation at his wonderful gardens.

Word reached us today that the huge display airplane, "Independence" will land at the Grand Rapids airport Sunday, June 30.

The "Independence" proved to be the sensation of both the International Aeronautical Exposition at Chicago last December, and of the Detroit Aviation Show in April.

Aviation enthusiasts will see in the "Independence" a promise of practical adaptation of the airplane to commercial purposes, for it carries, instead of the usual twelve passengers, a display of more than 250 Monarch brand food products. The "Independence" is

owned and operated by Reid, Murdoch & Co. of Chicago.

It is a Ford tri-motored ship, companion in design to the Ford now in use by the Byrd Antarctic expedition. The wing spread of the plane is 74 feet, wing area 785 square feet, length 49 feet 10 inches. It is equipped with three Wright whirlwind motors.

In addition to the retail grocers of the city, who naturally will want to see this first winged display of food products, this unique use of the airplane will be of unusual interest to all those interested in the progress of aviation.

The Boosters of Holland returned to this village Tuesday to play off the tie game of last week. The visitors found that the local Tigers were in ferocious mood, however, so that they were mauled to the tune of 10-1. The aggressive playing on the part of the Tigers seemed to daze the Boosters so that they failed to play up to their usual form. Sakker started on the mound for the Boosters and found the going hard from the start and was forced to give way to Wolters in the sixth inning with the count 7-0 against him. Wolters could do no better for the Tigers continued to drive the ball in all directions and was saved from a larger score by hard running and good playing on the part of his teammates. Ashley and Dugremont, local battery, held the visitors helpless, allowing five scattered hits. The lone score came in the final inning when the visitors were able to squeeze thru two short hits. The Tigers also played a great defensive game, every man on the team but especially Chet Vorhorst at short playing the stellar game. The count is even now. The Holland team defeated the Tigers 7-2 on Decoration Day. Last week the two teams battled in a 2-2 tie game. However, this was the most decisive beating given either team. Another game between the teams is promised.

Hamilton expects to motor to Overisel on the Fourth next week to join in the celebration. In the morning there will be a ball game on the local diamond at 9:30 when the Tigers meet the Allegan Independents, a very strong team. In the afternoon they will play at Overisel.

## HOLLAND TO BE VISITED BY REAL LOG HOUSE

Big Fir Log House on Wheels Contains Two Rooms

Nursery rhymes have pictured many grotesque homes, castles, etc., and even an old lady living in a shoe and her children were legion. But Holland is to be visited by a home on wheels more substantial. It is a two-room house built in a large hollowed out Douglas fir log on wheels and the couple now are on a cross country tour.

With this unusual home that would awaken the envy of Holland's first pioneer log house builders of 147 if they were still alive. The log house will be in Holland July 2, 3 on Central avenue at Warm Friend Tavern.

Mr. and Mrs. E. A. Wade have traveled nearly 20,000 miles since leaving their home October, 1926, and they are going through Northern Indiana and then back to Washington by the way of Chicago. They expect to spend the winter months in Texas, Mr. Wade says.

"Ever since I went to the Pacific northwest and saw the big trees, I wanted to show them to my farmer friends. I knew they would not believe that the Douglas fir trees grow 350 feet tall," Wade states, "so when I was coming back I decided to bring one along. When I drove up to their front yards now they can't call me a liar. Some of them, though, want to bore a hole through the bark to see if it is really all one log. I brought a cross section of the wood we took out for them to look at; that satisfies anybody."

This, the largest log ever seen in this section, is arousing great interest everywhere. Wade said, especially with school children and their teachers. When he found, while traveling in California, that

State police and Deputy Jack Spangler drove a band of gypsies from Ottawa county. They were camping near Spring Lake. There seems to be no rest for these rovers in this county. Holland police set the example by keeping them moving town as soon as they arrive.

The board of public works has adopted a new rule. It has been approved by the council and is now in effect. Hereafter it will be the policy of the board to lay water mains on the assessment plan. When a number of property owners along a street want a water main they will be allowed to petition for it and a date for a hearing will be set. If the new main is approved and laid 75 per cent of the cost will be charged against the abutting property, and this cost saved over a period of five years. When the owner of a vacant property takes water at any time after that he will be rebated the amount he has paid.

Bonds are those cheap things bought by the broker who urges you to spend yours for stocks.

Mrs. Gerrit Van Schevelen and son, Louis, motored to South Bend over the week end visiting Mr. and Mrs. Parient.

A marriage license application was received at the county clerk's office from John Kamps, 24, Zeeland, and Wilma Prins, 21, Filmore Township.

Senator and Mrs. Gordon F. Van Eenennaam of Muskegon are rejoicing over the birth of a son born at Blodgett Hospital, Grand Rapids. E. J. Pruim, well known merchant at Grand Haven, is the father of Mrs. Van Eenennaam. This is his first grandchild. Mrs. Van Eenennaam will be remembered in Holland as Miss Isla Pruim, noted singer at Hope College from Zeeland.

The first daylight daily boat of the season to leave Grand Haven for Chicago weighed anchor Monday. Two boats daily will be added for the heaviest travel expected in many years by the Goodrich Transit Company. The Holland-Chicago daily service is now also in vogue.

Mrs. L. J. Klaassen of Holland is visiting her parents, Mr. and Mrs. Frank Stegenga—Grand Haven Tribune.

his home created such a sensation among children and the school authorities, he collected some special forestry information, pictures, samples of West Coast woods, and prepared a lecture.

Now when he gets in the neighborhood of a school he stops and gives the youngsters a treat. He has several hundred letters from principals and teachers in California, Arizona, and Missouri, praising his traveling exhibit as an educational treat of great value.

"This school teaching is something brand new in my life," Wade says, "but it is lots of fun because everybody is so friendly and appreciative."

The tree, a Douglas fir, from which Wade took the log for his house, grew in the Grays Harbor country of western Washington. It furnished nine more logs, each 22 feet in length. This tree was 311 feet high and contained about 50,000 board feet of lumber. The Wades have named their home "Columbus" because the tree was found to be 434 years old, having started to grow the year America was discovered.

The 9 by 16 foot log from which Wade made his home on wheels contained 6,580 board feet of lumber, nearly all heartwood. First a two-inch hole was bored through

the center, then a four-foot hole was burned. An electric buzz saw and wedges were then used. The job was finished with adzes.

The interior was then transformed into a modern two-room apartment with built-in breakfast nook, cupboard and wardrobe. Two beds fold up against the wall and there are electric lights and an oil stove for cooking.

There is enough timber left in the west to last the United States for generations, Wade states, and adds that western foresters figure Washington and Oregon alone, under proper forestry conditions, could supply all the timber the United States will ever want. The Douglas fir forest lands are more than 600 miles long and about 200 miles wide, extending from northern British Columbia down through Washington and Oregon into California. These are the thickest and tallest forests in America, with 10 times the board footage to the acre that is found in the south and in other heavily forested areas, he said.

"These trees grow thicker and taller than others in America, if not in the world," Wade said. They are like the corn in this state in that they grow so thick and tall and in such a short time. They are mostly heartwood and make the finest lumber. The lumber folks harvest their crop with steam and electric engines, two-inch cables, and main line railroads and within a year or two after the forest is removed the new growth is popping up all over the place.

There is enough timber left in the west to last the United States for generations, Wade states, and adds that western foresters figure Washington and Oregon alone, under proper forestry conditions, could supply all the timber the United States will ever want. The Douglas fir forest lands are more than 600 miles long and about 200 miles wide, extending from northern British Columbia down through Washington and Oregon into California. These are the thickest and tallest forests in America, with 10 times the board footage to the acre that is found in the south and in other heavily forested areas, he said.

"These trees grow thicker and taller than others in America, if not in the world," Wade said. They are like the corn in this state in that they grow so thick and tall and in such a short time. They are mostly heartwood and make the finest lumber. The lumber folks harvest their crop with steam and electric engines, two-inch cables, and main line railroads and within a year or two after the forest is removed the new growth is popping up all over the place.

## CROSS TO BE LIGHTED: CHIMES TO TELL TIME IN CHAPEL

The chimes continued to do their chiming in the belfry of the new chapel every half hour and hour, indicating the time of day. ## OTTAWA FARMERS DANISH SYSTEM OF HAY MAKING

Eighty farmers attended the hay day held at Greenvalle farm and their interest helped make a very successful demonstration. The John Deere and International hay making tools were demonstrated and the Danish system of making hay explained by Mr. Paul Miller from the State college.

This method of making hay recommended by the college is to cut the hay and rake immediately with a left-hand side delivery into a loose windrow and re-raking by turning over half way as soon as the top is dry. Hay made in this way will dry faster, retain leaves and color better and have a higher value than when cured in the swath.

## Barkema-Mook Wedding Takes Place Friday

FIRST EVENT OF THAT KIND TO BE HELD IN HOPE'S NEW MEMORIAL CHAPEL

Society was out in force Friday evening at Hope's New Memorial Chapel, the occasion being the wedding of Miss Martha Barkema, daughter of Mr. and Mrs. John Barkema, 331 Columbia avenue, and Mr. Kenneth Campbell Mook, son of Mr. and Mrs. Milton C. Mook of Metuchen, New Jersey.

The marriage took place promptly at 8:15 o'clock, Rev. E. Paul McLean, professor of religious education at Hope College officiating, and Rev. M. A. Stegeman of Hesperia, Iowa, brother-in-law of the bride, assisting in the ceremony.

The chapel decorations were rich, however simplicity prevailed throughout. Ferns and palms surrounded the altar over which a dimly lighted rose arch, together with baskets of white and pink peonies stood out amid the green background of foliage. On a slight elevation at the altar were arranged gates ajar in which the happy couple stood during the impressive wedding ceremony. With the playing of Wagner's wedding march from Lohengrin the groom entered, dressed in conventional black, preceded by Rev. McLean and Rev. M. A. Stegeman and Edwin F. Mook, brother of the groom. The bride party then followed, preceded by the six ushers, namely Stanley De Pree, Henry Weller, Paul Nettinga of Holland, Roswell Coburn, Willard Heaps and Sydney Spayde, friends and fraternity brothers of the groom, who were intimately associated at Northwestern university.

The ushers were followed by the bridesmaids, who were gowned in taffets in pastel shades, bodice effect, uneven hem lines, and bands of tulle to match for headbands, with a rosette at the left of the head, and carrying shepherd's staffs with taffeta bows to match. Silver slippers, tulle scarfs and small shower bouquets completed the outfits.

Leading the bridesmaids were Miss Dorothy Mook, sister of the groom, elaborately dressed in a delicate shade of yellow, and Miss Mary Visscher, becomingly gowned in a dress of burnt orange hue. Miss Cornelia Nettinga, in gown of lavender shade, Mrs. Cornelia Ossewaarde Oosting in blue-green, Miss Lucille Vander Werf in blue, and Miss Lenore Bowersox of Highland Park, Detroit, niece of the bride, in pink, made up the group of beautiful young ladies correctly gowned. The bridesmaids wore pearl necklaces and carried handkerchiefs to match their gowns, gifts from the bride.

The maid of honor was Miss Anne Barkema, sister of the bride, who looked beautiful in a becomingly blue taffeta of period design, with tulle skirt over silver lace, matched with silver slippers. She carried a large bouquet of white and pink roses.

The little flower girls in the persons of Miss Norma Jean Rosendahl, daughter of Mr. and Mrs. Bernard Rosendahl, and Miss Elaine Eding, daughter of Mrs. Ruth Eding, looked sweet in their delicately shaded gowns. Little Miss Rosendahl wore cream net over pink satin, sleeveless, with headband of pink caribou and blue rosebuds, with cream hose and slippers to match. Little Miss Eding was gowned in cream net over blue satin with headband of blue caribou and pink rosebuds, with cream hose and slippers to match. These little folks carried white baskets in wedding bell setting and in sprightly manner scattered rose petals in the pathway of the stately entering bride, who came unattended, followed by two train-bearers.

The bride, Miss Barkema, was beautifully robed in period gown of a delicate ivory shade of bridal satin and chintilly lace. The gown was sleeveless, with uneven hem line, bouffant skirt and cluster of orange blossoms and lilies of the valley at the side. The lace bertha of chintilly extended almost to the waistline. Her jewelry was not elaborate, consisting of a beautiful necklace of crystal, a marriage gift of the groom. The veil of tulle and lace was crowned with a setting of rhinestones and pearls, set off with clusters of orange blossoms.

The bride carried a shower bouquet of bridal roses and swan-sonia. Adding materially to the stateliness and completing this beautiful picture were the train-bearers, Master Calvin John Barkema, nephew of the bride, and Master Irvin John Lubbers, both looking fresh and youthful in their black and white satin Eton outfits. At the altar the groom awaited the bride's coming and bowed when she smilingly approached him. While Rev. McLean read the ceremony, Mr. Lynn Clark softly sang "The Day of Golden Promise," by Hamblen. The pastor of Evanston, Ill., solemnized this union with the double ring ceremony. After a fervent prayer was said by Rev. Stegeman, and the benediction was announced, the happy couple, arm in arm, left the beautiful chapel to the strains of Mendelssohn's Wedding March, played by Mrs. Edward De Pree, who presided during the evening at the large new Skinner organ. The bride party, in procession, left the chapel in the same order as they entered. A fine automobile awaited at the curb, the broad walk being covered with a canopy and carpeted to the large portals of the beautiful edifice.

Mr. and Mrs. Mook were whisked away to Warm Friend Tavern where the reception was held for nearly two hundred guests.

While the guests gathered in the large dining hall a string orchestra softly played appropriate selections. Here the art of a decorative hand was also shown. In the center of the room an artificial pond had been built and this limpid pool was bordered with ferns and the cooling waters were gleaming with

flashes of swimming goldfish. All through the dining hall mammoth bouquets of pink and white peonies were placed at intervals, interspersed with ferns, palms and potted plants. A large buffet table was placed at one end of the hall and pink and white tapers were artistically arranged conforming with the color scheme which prevailed throughout. It was from this liberally laden festive board that the guests were served, with Mrs. Martha Kollen and Mrs. Winifred Duffe pouring coffee at small individual tables.

Mr. and Mrs. Dick Boter, intimate friends of the bride and groom, were master and mistress of ceremonies. Mrs. Boter was gowned in blue satin and her flowers consisted of a corsage of white and pink roses and sweet peas. The bride's mother, Mrs. John Barkema, wore lavender silk net over baronette satin, with hat to match, and carried a corsage bouquet. The mother of the groom, Mrs. Milton C. Mook, was gowned in shell pink and white georgette, with wrap to match and carried a bouquet of pink and white roses.

After the reception the bride and groom, dressed in traveling outfits, drove away for a honeymoon trip in Northern Michigan. Mrs. Mook is one of Holland's popular young ladies, is a leading soprano and an artist of exceptional ability. She received her early training under Mrs. Grace Dudley Fenton and upon graduation from Hope in 1925 accepted a scholarship at the American conservatory of music in Chicago, where she was awarded the voice teacher's certificate and was graduated with highest examination honors. There Miss Barkema won the competitive gold medal in voice. She appeared as soloist with the Hope College Girls' Glee club for three years and has given recitals in several states. At the time of her marriage Miss Barkema was director of Third Reformed church choir in this city.

Mr. Mook has been honored with his doctor's degree in music in Chicago. They will reside in Rochester, N. Y., where Mr. Mook has accepted the position of supervisor of music in the public schools. As to Mr. Mook's ability as a musical artist it is fitting at this time to mention what is said in a special write-up in the "Music News," published in Chicago. This paper, because of Mr. Mook's work in the American Conservatory concert states that he won distinction in Holland as a musician and has appeared in numerous programs at Chicago and has been a student of Karleton Hackett. "The Music News" says about Mr. Mook: "Kenneth Mook has one of the best tenor voices heard in many months. It is not large but it is of exquisite quality and in its production there is not an iota of forcing. If he keeps this same quality and style untarnished he ought to become one of the best recital singers of the country."

There were many guests from out of town present, among them being Mr. and Mrs. Milton C. Mook, Dorothy, Edwin and Jack of Metuchen, N. J., Mr. and Mrs. E. Vander Ploeg, Mr. and Mrs. H. Vander Ploeg, Mr. Jack Vander Ploeg, of Chicago, Ill., Mr. and Mrs. James Roeper of Detroit, Mr. and Mrs. E. ## VANDER MEULEN SPEAKS IN MEMORY OF DEPARTED PYTHIANS

More than a hundred Pythians and their families and relatives of Pythians gathered in Pilgrim Home cemetery Sunday to decorate the graves of those members who have passed on.

The opening remarks were made by Charles Emmick, chancellor commander. The Pythian quartet, composed of Walter Groth, Leon Moody, Carl Shaw and Ben Mulder, rendered two sacred selections during the program. Prayer was offered by Prelate Pat Nordhoff. Remarks were made by vice-chancellor John Rutgers exemplifying the ritual. Cornelius Vander Meulen, past chancellor, made the remarks of the day.

Mr. Vander Meulen said in part as follows: "We come today in memory of thirty-one Pythian Knights who were members of Castle Lodge No. 153, Knights of Pythians, Holland. Death has taken them away but they still live with us in memory. Our vision cannot pierce the veil that separates us. Our hands cannot reach across to where they are, to give them a Pythian welcome, but we can come to these little mounds and place garlands upon them as a tribute to these noble knights. They may not see these blossoms or smell their fragrance but they must feel the heart throbs of fellow Pythians still on earth who pay this tribute to the day."

"They were our brothers. Some were bright, strong, young in health and vigor, ready to do battle with the world when the grim reaper took them. They had scarcely made a beginning in life. There were other men of age, battle-scarred. They were great warriors, eloquent in council, filled with the fire of enthusiasm, championing the cause of right. For them, too, the bugle call has sounded the taps."

## BEE KEEPERS MEET

Thirty-six beekeepers attended the three apary demonstrations conducted by Mr. Kremer from the State college at the Livensae farm near Borculo, the County Infirmary and John Gilbert farm near Conklin. Beekeepers are finding that following Mr. Kremer's methods make beekeeping more interesting, easier and more profitable.

The Holland playgrounds began their first day of work Monday, when the grounds were opened to the public.

Four grounds will be operated this summer, one at Kollen Park, being in charge of Raymond Steketee, who begins his third year of work. Chester Shagway, a seascout who has a Red Cross examiner's certificate, has charge of the swimming instruction. Donald Leenhouts and Herman Damsen will assist him. These swimming lessons are free. There will be three divisions, beginners, intermediates and expert swimmers. Lessons will also be given in diving and life saving. Miss Lucille Lindsey of the Holland High school will devote her time this summer to special work for girls.

Otto Yntema, a Hope college graduate, has charge of the Lincoln school grounds.

Another is operated at 24th street and College avenue, and still another at the Longfellow school grounds, being in charge of Mrs. J. Olendorf. A new center is going to be opened on the north side and a regular program will be carried on for the boys and girls there. Mr. Olendorf will have charge of this playground.

## "HIT AND RUN" DRIVER PLEADS GUILTY

Jake Van Zanten, a "hit and run" driver, collided with the car of Officer Dave O'Connor on the intersection of 8th street and Lincoln avenue Saturday afternoon. The driver failed to stop and Officer O'Connor gave chase and arrested Van Zanten on a charge of reckless driving.

Van Zanten was arraigned before Justice Cornelius De Keyser this morning and pleaded guilty to a charge of reckless driving and was assessed a fine of \$64.20, including the costs, and was ordered to pay \$10 damages to Officer O'Connor.

The Vaupell drug store has been closed and will not reopen. The block and adjoining building have been leased to the McClellan Co. and will be remodeled into one large block.

## 200 Hens Soon To Find Babes Gaily Clothed

PHEASANTS INSTEAD OF CHICKS DUE TO PECK 3,700 EGGS AT PRISON FARM

In about two weeks 200 hens at the Dalton farm of Michigan state prison, at Jackson, are due for a surprise, for instead of hatching out a family of chicks, it is anticipated that several hundred pheasants will pick their way from shell to world.

As an accommodation to the State Conservation Commission, 3,700 pheasant eggs have been placed under the hens, and are due to first see the light of day about July 1. The pheasants will be turned over to the department for distribution to various parts of the state.

Barbo Vihunzo, 40 years old, life inmate from Detroit, has been appointed as special keeper of the hatchery, under the direction of Carl Lewis, superintendent of the state.

## ZEELAND POLICE GIVE PUBLIC WARNING

The Zealand chief of police has asked us to call attention to the fact that there is a local ordinance with respect to the use of the streets in case of fire in the city, and it would be well for all of us to study this law.

Among the most important features are that all automobiles must pull up to the curb when the fire truck enters a street and remain there until the truck has passed, and then the restriction further says, that a car shall not approach the truck within one hundred feet. Then it also says that automobiles shall not park within one hundred feet from the scene of the fire nor on the street in the block where the fire occurs, neither shall they drive over any fire hose.

At the recent fire at the Brouwer home on Lincoln street, these rules were violently treated and that arrests were not made at the time is no assurance that violators will be let off again. In fact, the chief promises arrests will be made for future offences.

## K Y W WILL MOVE FROM CHICAGO TO COUNTRY

A grant has been given by the Federal Radio Commission to relocate K Y W, Chicago's pioneer radio station, owned by the Westinghouse Electric and Manufacturing Company, to a point about twenty-five miles from Chicago. Westinghouse engineers will choose one of several locations, which upon completion of tests will prove most suitable for complete local and distance reception with the use of 5 and 10 kw experimental broadcasting.

The station will be built entirely of latest equipment developed by Westinghouse and is to be the latest type of 50 kw tubes recently designed in the E. Pittsburgh laboratories.

According to H. P. Davis, vice president of the Westinghouse Company, KDKA, world pioneer, will also be rebuilt in a location twenty-five miles out of E. Pittsburgh, which is intended to vastly increase clarity of distant reception without fading.

Mrs. B. Hakken of Holland, who with her husband is on her first furlough from her mission post in Arabia, addressed a joint meeting of the Women's Mission society and the Light Bearers society in the basement of the church last Friday. Her talk about the customs in Arabia, their experiences with the people of that country, and their work there was very interesting. Refreshments were served after the address, with Mrs. John Ensing, Mrs. Gerrit Hoffman, Mrs. John K. Klooster, and Mrs. Edward Koers acting as hostesses. Mrs. Hakken gave her talk attired in a native Arabian costume, which added to the reality of her tales. She was accompanied by her sister, Miss Van Putten.

## SAUGATUCK

Mrs. M. M. Kinsey of Saugatuck picked the derby winner at Chicago on last Saturday but unfortunately she put up no money. Her selection from the field on last Friday was Windy City, who captured the race and \$60,000, if he did carry the unlucky thirteen, with an 8 to 5 against him.

Cordelia Crafts Job of Saugatuck is one of the eighty-four students who received the A.B. degree cum laude at the Smith college, Northampton, Mass., commencement exercises on June 17th. Four hundred fourteen A.B. and thirty A.M. degrees were conferred.

## FENNVILLE

Through Congressman John Ketcham the homecoming committee have secured the Great Lakes band from near Chicago to furnish music for the big day, August 24.

Ralph Birkholz of this place, and Miss Dolly Born of Saugatuck were married last Saturday. The wedding party of four persons, traveling in a coupe, were "pasted" by a Grand Rapids patrolman and Ralph had to contribute to the depleted treasury of the Furniture City. The offense was having too many persons in the driver's seat.

The canning factory opened its season this week to pack rhubarb and strawberries. Last year they packed about 700 tons of sour cherries, but the present prospect is for about 300 tons this season. The string-bean pack will no doubt exceed any previous record as the acreage is very large and the rains will help make a big crop. Raspberries promise well but the pear crop is very small. It will shorten the season and will lessen the wages earned by several hundred workers.

Many poultrymen are building up a good trade by selling pullets of from 8 to 12 weeks of age. This offers a profitable outlet for surplus chicks and gets the crowed the range before they crowd the birds that are being raised for laying stock. By the time the pullets are 8 weeks old they are past the stage of greatest danger and can be kept in colony houses or in summer shelters on range at low cost and with a minimum amount of attention. They usually find a good market among farmers, backyard poultry keepers, and others who do not have brooder equipment.

The dedication of Hope Memorial Chapel brought a column writup in the Detroit News of Sunday beside a picture of the \$350,000 building. A description of the building, windows, the organ, and the names of the donors were given. It gave some dignified advertising to Holland.

## FERRYSBURG PUPILS MAKE GOOD MARKS

An excellent record in the recent eighth grade examinations was made by Ferrysburg school pupils, 16 of the 17 who wrote in the examination passing with high grade according to county school commissioner Greenowood of Holland. Claude Katt made an average record of 96, Pauline Ruiters, national spelling contest alternate,

was a close second with a grade of 95.6. Others ranking above 90 were John Holthrop 93.8, Reginald Wells 92.4, Clarissa Katt 91.4 and Richard Groenevelt 91.2. W. E. Meiden is principal.

## HUGE WOODEN SHOES, ELECTRICALLY LIGHTED, WILL GUIDE TOURISTS

As a guide for tourists who travel through Holland by night, electric signs will be placed at the north and west limits of the city on US31.

The signs will be 14 feet long, 6 feet high, and shaped like a large wooden shoe in Dutch delft blue, with the name Holland in white letters. Small white lights in the shape of tulips will be used for

border and a small windmill will light the top. Holland is surely "cashing in" on its Dutch origin.

## 53 EXTRA bushels of POTATOES from ONE acre sprayed with Pyrox!

Mr. George S. Ranck, New Holland, Pa., who dug 53 bushels of potatoes from one acre sprayed with PYROX; 53 bushels more than the yield of an adjoining acre sprayed with home-made Bordeaux.

CONVINCING proof that PYROX increases potato profits is supplied by Mr. George S. Ranck, of New Holland, Pa. Mr. Ranck planted two adjoining acres in potatoes. One acre was sprayed 8 times with PYROX; one acre 8 times with home-made Bordeaux. The acre sprayed with PYROX yielded 337 bushels of potatoes—53 bushels more than the acre sprayed with home-made Bordeaux.

PYROX, the triple duty plant spray, does three things at once. That is why it is so economical. It kills bugs; prevents the development of blight and diseases stimulates plant growth. Produces bigger yields and better quality crops.

PYROX, prepared with scientific accuracy under constant laboratory check, eliminates the costly labor of home-made sprays, and the danger of improperly mixed chemicals. Sticks to plants like glue. Will not clog finest nozzles. Safe and easy to use.

Try PYROX on your potatoes and other crops this season. Prices now lowest in 30 years. Come in and get a copy of the new complete SPRAY GUIDE, free.

## Don't Let Your Community Make the Same Mistake

Within recent years many communities have made the mistake of paving their roads and streets at what they considered a "bargain price." The taxpayers thought they would save thousands of dollars. In many instances the maintenance has not only wiped out the hoped for saving, but has exceeded original cost. And in many cases also it has been necessary to build entirely new pavements—of permanent construction.

There are communities, however, which know the cheapest is not always the best. Many of these also built roads and streets several years ago. And they built for permanence with concrete.

These concrete pavements, built in accordance with approved standards of construction, are in as good condition today as when they were built.

Which of these communities will yours be?

# MR. RIPLEY ANNOUNCES NEW BUILDING PROGRAM AT GRAND HAVEN

Construction work on the new Grand Haven telephone central office building of the Michigan Bell Telephone Co. will be started within the next six weeks, according to C. E. Ripley of Holland, the company's manager in this area. Plans have been approved and submitted to contractors for bids, and it is expected the general contract will be awarded before the end of the month. Ground will be broken immediately thereafter for the erection of the two-story structure that will house the Grand Haven offices and switchboards. The building will follow the Georgian style of architecture and will be a distinct asset to that city, Mr. Ripley says. The \$600,000 Holland building and equipment is well under way.

A miscellaneous shower was given by Mrs. J. Andringa at her home in honor of her daughter, Miss Wilma Andringa, who is to be a June bride. The future bride received many beautiful gifts. Games were played and prizes won by Mrs. Wm. Scheerhorn, Janet Andringa, Mala Northouse and Wilma Andringa. A dainty two-course luncheon was served. Those present were Mr. and Mrs. Wm. # IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By Rev. P. B. Fitzwater, D. D.  
Dean, Moody Bible Institute of Chicago  
(Rev. 1929, Western Newspaper Union)

## Lesson for June 30

REVIEW: KINGS AND PROPHETS OF JUDAH'S DECLINE

GOLDEN TEXT—I have loved thee with an everlasting love, therefore with loving kindness have I drawn thee.  
PRIMARY TOPIC—Stories Retold.  
JUNIOR TOPIC—Learning to Serve God.  
INTERMEDIATE AND SENIOR TOPIC—True and False Leaders.  
YOUNG PEOPLE AND ADULT TOPIC—God's True Prophets.

The quarterly review always brings its problems. No set method can be prescribed. The grade, the aptitude of the pupils and the genius of the teacher are determining factors of the problem. For seniors and adults, two methods are suggested.

I. Character Study of the Kings and Prophets of the Period.  
Biography is always fascinating and profitable. In the use of this method, assignments should be made a week ahead. As to the kings of this period, a study should be made of their strong and weak points, and suitable lessons be drawn from them. As to the prophets, the nature of the ministry of each should be studied.

II. The Summary Method.  
This method involves the terse statement of the salient facts of each lesson with its central teaching. This method, to be effective, calls for assignments to be made a week in advance. Different minds will greatly vary. The following statements are offered as suggestions:

Lesson for April 7.  
Either at the beginning of Isaiah's ministry or later when called to a deeper experience, he had a vision of the majesty and holiness of the living God. The leading lesson is that a real sight of the living God discloses the sinfulness of man. Before acceptable service can be rendered sin must be removed.

Lesson for April 14.  
In leading the people back to God Hezekiah proclaimed a passover. The passover was a memorial of the nation's deliverance through the shedding of the blood of a sacrificial lamb. The lamb typified Christ. The only way for a sinning and divided people to get back to God and be united is around the crucified Lord.

Lesson for April 21.  
Isaiah sought to comfort the people by assuring them that the Lord God as the Messiah was coming to reign over the earth and to deliver them from bondage, and shepherd them. The only possible deliverance from the world is the coming of Jesus Christ and the establishment of His Kingdom.

Lesson for April 28.  
Salvation of God's people was to be accomplished through the suffering of their Messiah. At Christ's first coming He suffered the penalty of our sin. His suffering resulted in a spiritual progeny. Life out of death is the last law governing the universe—natural and spiritual.

Lesson for May 5.  
While the temple was in process of renovation the law of God was found and read to the king. This brought great disturbance to his mind as he realized the enormity of the nation's sins. God's Word has power to convict of sin and effect a reformation and revival.

Lesson for May 12.  
God called Jeremiah before he was born, overcame his timidity, and sent him to warn his people of coming judgment. Though violently opposed and persecuted, God delivered him. God will protect those who obey Him.

Lesson for May 19.  
Jeremiah called the people to obedience to God's Word. The only way to avert God's judgment is to return unto Him and render obedience to His Word.

Lesson for May 26.  
God will restore Israel to Palestine. Israel will return and possess the land. Jesus Christ will then come and enter into a new covenant, writing the law of God in their hearts.

Lesson for June 2.  
Because Jeremiah faithfully declared God's law, he was hated and cast into a dungeon. Those who faithfully declare God's law shall suffer persecution, but God will deliver them.

Lesson for June 9.  
The Rechabites out of filial loyalty to their father abstained from the use of wine. Jeremiah gave them a public test as an example of Judah. Obedience to earthly fathers brings blessings, but obedience to God brings greater blessings.

Lesson for June 16.  
Judah went into captivity according to God's Word. Not only part of God's Word shall fail.

Lesson for June 23.  
Psalm 108 is entirely devoted to praise to God. Those who have experienced the life of God in the soul will bless Him with all their being.

FARMERS MAY GET SLUDGE FREE FOR HAULING

Within the last four weeks over 20,000 cubic feet of sludge have been drawn out to the gravel beds at the sewage disposal plant. This sludge has been concentrated by air-drying to about one-half that volume.

Spite of the fact that some cities charge farmers for sludge, the sludge at the local plant can be had for the hauling. First comers will be first served.

Analyses show the sludge to contain 2.2 per cent nitrogen (dry basis) which is high for Imhoff tank sludge. The phosphorus content is about 1 per cent (P2O5, dry basis) and about 1/2 per cent potassium.

Aside from the fertilizing elements present the sludge is especially valuable for light sandy soils for two reasons. It contains a large percentage of lime, 15 tons having been added to the sewage within one year. Secondly, its value is greater than the nitrogen, phosphorus, and potassium content indicate because it introduces large quantities of humus bodies into the soil improving the texture thereof.

Since last summer a good gravel road has been put in East from River avenue on Third street leading down to the beds. Cars on tracks take the sludge to the loading point.

Blue, Pink, Gold . . . which of these is the color scheme in your bedroom? ## To Be Thrifty is Not to Be Stingy

Q That's the wrong idea. To be thrifty merely means to stop useless expenditures. You do not have to be penurious to save money. Just lay aside the small amounts you spend for things you can do as well without and put that money in the FIRST STATE BANK.

Q You will indeed be surprised at what these small sums will amount to even in one year's time.

Q A bank account will increase your self-respect and will also add to your prestige in the community.

## The Reliability of This Company Is Assured by Over \$400,000,000 Assessable Assets—Over \$3,000,000 Paid to Our Policy Holders

ON APRIL 30 a freak cyclone struck the big barns on the farm of Charles Hooper, in Gratiot county, completely demolishing both fine structures. The main barn was 40x50, the wing 36x50. Six registered Holsteins, and several registered hogs were in the basement of the wing, and were instantly killed. We paid Mr. Hooper the full amount of his windstorm insurance on the barns, \$3,800; also the full amount of his policy on live stock, \$500, and \$120 on other property in the barn. Mr. Hooper was entirely satisfied with the adjustment of his loss, \$4,420, his only regret being that he had not carried twice as much insurance. He estimated his loss at \$10,000. Windstorm insurance in the Michigan Mutual is so cheap that one should keep his buildings, etc., well insured.

## SOME THINGS to REMEMBER—

This Company has experienced 44 years of successful operation.

Its membership has increased from 1414 in 1889 to over 100,000 in 1929.

The losses and expenses of this Company during the past 44 years have been met with only 19 assessments.

During the past 12 years this Company has paid almost \$190,000 average yearly loss to policy-holders.

This Company's Officers and Directors are men of experience and ability.

Keeping plenty of Windstorm Protection on your buildings and property costs but very little in this Big Company and secure Protection for you against loss by wind.

It's Better to Insure Now than Wish You Had.

One of our agents will gladly go over the matter with you, or you may write the Home Office
