War Stamp Drive In Holland Stores Explained at Meet

Campaign to Raise City Quota Will Be Stressed On Two Days in July

Upwards of 100 persons, including Holland merchants and members of their sales forces, attended the meeting Tuesday night in Holland high school auditorium which was arranged to explain the forthcoming campaign in retail stores to boost the sale of war savings stamps.

The campaign is to be particularly stressed on Thursday and Friday, July 2 and 3, but will be continued for an indefinite period. The purpose of the campaign is to enable Holland to reach its quota in the sale of stamps and bonds. Every store and all clerks have been ordered by the government to place war savings stamps on sale.

John Van Den Berg of Grand Rapids explained Tuesday night what the government is expecting in the drive. Each merchant was given a copy of the campaign on the retail selling of stamps.

Cornelius W. Dornbos, Ottawa county chairman of the special stamp selling program, made an announcement of a group of "salesmen" who will work under direction of a special retail committee of which Henry Wilson is chairman. The appointments were made by the committee named six months ago by Mayor Henry Geerlings when the local committee to promote the sale of stamps and bonds in Holland was named.

These "salesmen" include Henry Mass, Russell Vander Poel, Bert Post, Peter Veenstra, Andrew Steketee, Ralph Terman, William Bus, John Puthuis Clayton Congleton, Rein Visser, Fred Meyer, Jerry Houting, Leonard Steketee, Mike Essenburg, Marvin Lamberts, Leroy Naber, Ralph Zoet, Dick Zwip, Harold De Loof and Jack Zwemmer.

Ben Lieveens has been appointed rural chairman for that district north of Holland. He will be responsible for arranging the campaign at Holland State park, Tunnel park and Port Sheldon which are resort areas.

These "salesmen" will call upon local merchants soon to induce them to obtain special window displays and see that they have an adequate supply of war savings stamps.

Other members of Mr. Wilson's committee are John Van Tatenhove, Dick Boter, Earl Price, Fred Beuwkes, Jacob Fris and Harry Wiskamp.

The Holland Lions club also has adopted the sale of war stamps and bonds as their principal project for 1942 and a special club committee of which Chester S. Walz is chairman also is working under supervision of Mr. Wilson's committee.

At Tuesday's meeting Mr. Dornbos announced that the Holland Chamber of Commerce will offer \$5 in war savings stamps to the clerk of any local store offering the best campaign slogan for use in boosting the sale of stamps in Holland.

Mr. Dornbos also stated that the De Vries and Dornbos Co. will offer \$5 in war savings stamps to the store clerk who sells the largest amount of stamps on the two special days.

Child Angler Has Luck on Opener

The bluegill and bass season opened today in Michigan but Conservation Officer Forgest Lavoy reported fishing was "none too good."

He said Lake Macatawa was high and the water muddy with the result very few catches were reported in the forenoon.

However, many sportsmen got up at daybreak this morning in order to get in a full day of fishing. And Leroy Hiddings, six-year-old son of Mr. and Mrs. Leo Hiddings, North Shore drive, caught a 16-inch Black Bass in Pine Creek bay while fishing with his parents and brother about 8:30 a.m. today. Less than two hours later, the boy caught another bass about the same size as the first one.

Flames Destroy \$125,000 Dredge Of Lyons at G.H.

Coast Guards Assist Firemen in Battling Early Morning Blaze

Grand Haven, June 26 (Special)—A spectacular fire that lighted the sky and could be seen for many miles all but destroyed the hydraulic electric dredge Progress, owned by the Lyons Construction Co., early Friday.

Almost a total loss, the dredge was valued at \$125,000, according to information given Fire Chief Henry Hoebeke by Jack Lyons of Whitehall. It was partly covered by insurance.

When Grand Haven firemen could not get near enough to their pump truck to throw water on the blazing craft, tied up a short distance up stream from the Construction Aggregate Co. shipyard on the island, Chief Hoebeke called on the coast guard.

A detail of coast guardsmen under Chief Boatwain's Mate Carl E. Howell responded with a power surf boat and speed boat. The only water the combined coast guard and city firefighters were able to throw on the fire was a two-inch stream from a portable pump on the surf boat.

By 8 a.m. Friday the fire had burned down so that the firefighters were able to leave. The 100-foot long dredge, which had been laid up since 1939 when it was employed to dredge the south channel and deposit the fill on the site of the present Shell Petroleum Co. tank farm, was a burned out steel shell.

There was little wood in the craft, the hydraulic machinery of which was operated by electricity. Chief Hoebeke said origin of the fire was unknown.

John Clark of Ferrysburg, employed to keep the dredge pumped out, turned off the gasoline engine which ran the bilge pump and left the Progress at 10 p.m. Thursday. A call to the fire department came from Construction Aggregates Co. employees in Ferrysburg about 2:20 a.m. at which time the dredge was ablaze, Hoebeke said.

When firemen arrived, the craft with exception of the pilot house, was a mass of flames. Coast guardsmen arrived at 2:50 a.m.

Hudsonville Boy Held For Theft of Pennies

Grand Haven, June 25 (Special)—John De Vries, deputy sheriff of Hudsonville, brought to Grand Haven Wednesday afternoon a 13-year-old Hudsonville boy who was picked up in Grand Rapids Tuesday and held in the juvenile detention home for the Ottawa county sheriff's department.

The boy was questioned Wednesday afternoon by Sheriff William Boeve and admitted that on Monday night he broke the glass of a china closet in the home of Isaac Elenbaas of Hudsonville and took 16 rolls of pennies, each containing 50 pennies. The boy was returned to the detention home to await a hearing in Ottawa probate court.

He pleaded participation in another theft in Hudsonville.

total valuation as equalized, \$2,038,722.

There was much discussion on the equalization report by the Grand Haven delegation, including Edward Soule and Louis H. Osterhaus. Soule said Grand Haven is forced to value its property for its assessed valuation at a higher figure in order to produce sufficient funds for the operation of the public school system and that the city arbitrarily assesses at a higher percentage than does some of the other political units of the county.

Grand Haven representatives on the board voted "no" to adoption of the report.

Charles Lowing of Georgetown reported for the city and county airport committee which met June 22 at the Warm Friend tavern in Holland. He said the airport in Park township is now open and functioning under a specific budget of \$2,662 per year.

Mayor Henry Geerlings of Holland moved that the county purchase \$75,000 in government bonds to which Maynard Mohr of Zeeland township offered a substitute motion, asking this matter be referred to the finance committee, which motion carried.

Frank Garbrecht of Port Sheldon township presented two resolutions and moved their adoption. The first resolution authorized the board chairman and clerk to amend a lease between the county and west Ottawa soil conservation district dated Jan. 14, 1941, to permit the leasing by the county to the district of property acquired from the state under the tax reversion act and other county owned property.

The second resolution provides that certain descriptions be added to the land in the lease to coverage acreage in various sections.

Henry Wierenga of Grand Haven, in charge of retail sales of war stamps, asked that the county districts purchase war stamps. Mayor Geerlings suggested each supervisor be urged to contact each dealer in his district and be responsible for the success of the drive.

John H. Ter Avest, Mr. Van Ark and Edward Soule were appointed to attend the state equalization meeting in Lansing Aug. 17.

Phil Rosbach of Grand Haven called the supervisors' attention to the necessity of enlarging the county building to provide for additional office space. Mr. Soule suggested purchase of the Robbins property, located to the east of the court house square.

School Projects Over County Will Be Started Soon

Hospital Program in Ottawa Also Is Ready, Supervisors Are Told

Grand Haven, June 25 (Special)—The Ottawa county board of supervisors, meeting Monday afternoon for the first day of its June session, heard reports from Dr. Ralph Ten Have of the Ottawa county health department and Dick H. Vande Bunte, county school commissioner, on progress that has been made with the Kellogg foundation.

Dr. Ten Have stated that work on the hospital program will start July 1 and that there will be a diagnostic work which will be in Holland three half days a week and in Grand Haven two half days. He also stated that the Grand Haven hospital has made recommendations for improvements to the extent of about \$30,000 for equipment for improving the laboratory and x-ray departments and changes in the heating plant, kitchen and laundry equipment.

Mr. Vande Bunte said 111 schools in the county would come under the modernization program and four are not included—three of their own accord and one because of the fact that the school was closed, although it had put in a proposal which was accepted. The total cost for the modernization of these schools will be \$197,139, of which the district's share is \$60,770 or 30.6 per cent and the Kellogg foundation's share is \$136,369, or 69.4 per cent.

The program cannot be completed this year as all the supplies are not available but the money will be available and the school boards will be notified just when they may start. Furniture will be delivered during July and the school boards can at least start the modernization as soon as they receive official word the latter part of the week.

He also stated he desired that several slides be made of the work books which were prepared during the program and asked the board for an appropriation for this purpose. Clarence A. Lokker's motion that the board allow any reasonable amount necessary for slides to show the conditions before and after modernization was carried.

Dr. Ten Have called attention to the fact that the state health department has cut its appropriation to Ottawa county, \$2,400 and asked that the health department be allowed to operate on its present basis. Lokker's motion that the department continue to function without change from July, when the cut takes effect, until next October, when the board makes appropriations, was approved.

Carl T. Bowen, county engineer, asked for authority to sell a certain piece of property known as lot 14, Bayview addition, in Park township, which the road commission had bought in 1927 for the purpose of making the Ottawa Beach road. The commission needed only a corner of the lot, but the whole lot was purchased. The board granted the commission authority to sell the lot.

A communication was read from the Michigan State Association of Supervisors calling attention to a joint meeting to be held in Alpena July 14, 15 and 16 of the supervisors social welfare boards and the Western Michigan Tourist and Resort association.

Dick Newsma, of Park township was present Monday afternoon, taking the seat of the late George E. Heneveld, who served as a member of the board many years.

At the session on Tuesday of the board a resolution presented by the finance committee was adopted, instructing the county treasurer to cancel a balance of \$2,400 which represents an amount now impounded in the State Commercial and Savings bank of Zeeland.

During the 1933 bank holiday, this bank, which is now merged with the Zeeland State bank as of July 1, 1939, closed and had \$6,000 of county funds on deposit for safe keeping and the bank has declared the final payment on the account, totaling \$3,600. No bond or security was furnished by the bank, individuals or companies, for the securities of the funds.

Maynard Mohr asked that the chairman appoint a committee to present resolutions on the death of the late George E. Heneveld, Park township supervisor. Clarence A. Lokker and John H. Helder of Holland township were appointed.

Mayor Henry Geerlings of Holland reported that the mayors of Holland, Zeeland and Grand Haven met recently and approved bills amounting to \$207 for the Ottawa county civilian defense council.

Holland hospital today reported improvement in the condition of Mrs. William G. Flowerday, 69, West 10th St., who underwent a major operation Monday.

Holland Homes Above Average

Percentage of Owners And State of Repair Is High, Census Reveals

New York, June 25 (Special)—A greater proportion of Holland's population own the homes they live in and the homes are more modern and in better repair than are dwellings in most cities in the nation, according to final figures just issued by the department of commerce in reporting the results of the 1940 decennial census.

Their homes are better prepared to weather the present situation, with its shortage of building materials, than those of most other cities.

Of the 4,107 occupied dwellings in the city, 2,626, or 64.0 per cent, are owned by their occupants. This compares favorably with the national figure for cities, 37.5 per cent.

Only 19.9 per cent of the 4,180 homes in the city, occupied and unoccupied, have no private baths, as against 46.0 per cent in the nation at large. Major repairs—of the type whose continued neglect would impair the soundness of the structure—were found by the census bureau to be necessary in more than 11.5 per cent of the cases in other cities but in only 4.6 per cent in Holland.

Fewer of the owner-occupied homes in Holland are under mortgage, the figures show. The comparison is 45.6 per cent in the city mortgaged and an average of nearly 50 per cent in other cities.

Driver of one of the other cars was Rose Helen Severance of Grand Haven.

All three cars were traveling south. The Mulder car swerved to the left side of the road and continued along the ditch for about 300 feet before coming to a halt against a small abutment. Filing of Six Permit Applications Point to Construction Revival

New home construction in Holland, curtailed somewhat by the war and shortages of vital materials, is expected to be resumed at an early date, it was indicated today with the filing of six applications for building permits at the city clerk's office.

All six applications, calling for a total expenditure of \$20,600, were filed by Klomprens Lumber Co. Four of the homes will be built at 39 East 26th St., 47 East 26th St., 55 East 26th and 59 East 26th St.

The four homes will be of frame construction with asphalt roofing, one and one-half stories and costing \$3,800 each, according to the applications.

One home at 263 West 21st Street, will cost \$3,400 plus \$200 for a garage, will be one and one-half stories, 28 by 24 feet. The sixth home at 230 West 21st St., will be one story, 28 by 22 feet and cost \$2,600.

J. Lester Essenburg, local defense housing chairman, said commitments have been received from the Detroit office of the war production board, granting approval of 17 new homes in Holland.

Ten of these were granted to the Essenburg Building and Lumber Co. Mr. Essenburg said they called for the construction of the new homes in the Pine Crest subdivision near the Chris-Craft Corp. plant but that it is possible they may be changed to permit their erection in Holland.

Klomprens Lumber Co. received four commitments and Bolhuis Lumber and Manufacturing Co. received the other three commitments. These commitments, Mr. Essenburg said, are priorities on critical materials which are used in the construction of the homes.

James H. Klomprens, local building contractor, said seven new homes are scheduled to be constructed on 26th St. between Central and College Ave., four to be built by Mr. Klomprens and three by the Bolhuis company.

The 17 commitments are the first to be received here under the defense housing priority rating which Holland received some time ago to obtain critical materials.

Narrative of U.S. Features Holland High Graduation

Winners of Numerous Awards Announced at Exercises in Chapel

An inspiring patriotic narrative, "America Marches On," written by Paula Brower of the graduating class, was the feature of one of the most colorful and impressive commencements in the history of the school as 237 Holland high school seniors received their diplomas in 58th annual commencement exercises Thursday night in Hope Memorial chapel.

The narrative presented by a chorus of seniors and individual characters, reviewed in rhythmic fashion the history of America from its early struggles to its present strength with a predominant note of courage and patriotism running throughout. Mildred Lubbers, narrator, was aided by a chorus composed of Phyllis Buurman, Sally Diekema, Beatrice Fortney, Eleanor Meyer, Beatrice Speet, LaVonne Timmer, Joanne Vander Velde, Joyce Van Oss, Lloyd H. Van Raalte and Lucille Voss in the presentation of the historical sketch which began with the measured tramp of marching feet and ended with a patriotic resolve for the proof of the American way of life, the insurance of the freedom of the human spirit and the establishment of the ideal of love as the guiding principle in our national life.

Others participating in the narrative were William Wood as Henry, Robert Shank as Putnam, Gerald Diekema as Hale, Geoffrey Mills as Lincoln and Dale Van Lente as the voice.

The advancement of the colors following the processional while a portion of the band played a patriotic melody and the audience joined in saluting the flag and singing the national anthem was another innovation on the program with its American theme. Franklin Essenburg directed the band and Mayor Dale Van Lente led in the flag ceremony.

Diplomas were presented by Supt. E. E. Fell assisted by Principal J. J. Riemersma. Addressing the graduates briefly preceding the presentation, Supt. Fell said, "The world is topsy-turvy. You will have many unusual experiences and many irregularities in life and many great responsibilities. We trust that you will meet them in the spirit of calm resolution to be and do your best."

Reminding the seniors to remember the cardinal virtues taught them in home, church and school, he said, "Cling to these and let these be your guide. The real worthwhile things in life are what you are and how you think. Be pure and just and honest. Think correctly and live nobly."

Numerous awards and prizes announced by Principal Riemersma included the Fred T. Miles Commercial law prize of \$5 to Evelyn Beyer, \$3 to Melvin Folkert and \$2 to Russell John Ays. Brooks Says He's Not Candidate for Post in Congress

Jonkman Is Opposed By Strawhecker on GOP Side of Contest

Commenting on a Grand Rapids published report that he would become Democratic candidate for fifth district representative in congress, State Sen. Earnest C. Brooks of Holland said that he "has no such idea of becoming a candidate."

"However you can never tell what the future holds," Brooks said.

His term of office as state senator representing the 23rd district of Ottawa and Muskegon expires this year as he was elected to office in 1940. The office of state senator will be voted on at the November election with party candidates to be nominated at the September primary.

The Grand Rapids report said there were indications that Brooks would be a candidate for the Democratic nomination. Dr. Garrett Heyns, former Holland Christian school superintendent and director of the state corrections commission, had for some time been considered a likely candidate but Grand Rapids party strategists said they did not believe Heyns will seek the nomination. Heyns opposed Rep. Bartel J. Jonkman of Grand Rapids in the November, 1940, congressional election.

On the Republican side of the contest, two candidates have entered the field. Paul O. Strawhecker, Grand Rapids attorney, announced this week he will be a party candidate for the congressional nomination.

Strawhecker, 44, has practiced law in Grand Rapids for 20 years. He was a member of the Grand Rapids board of education for seven years.

Nominating petitions are being circulated in Ottawa and Kent counties which form the fifth district on behalf of the candidacy of Jonkman. Now completing his first full two-year term, Jonkman will seek re-nomination and re-election.

The primary election will be held Sept. 15 with the fall election on Nov. 3.

Mayor George W. Welsh of Grand Rapids is being mentioned as a third Republican candidate and he admits that he is considering making the race but declining to announce his decision.

Rumors have been prevalent among local political circles that State Rep. Nelson A. Miles of Holland may become a candidate for the Republican nomination but he has not made any definite decision as petitions are being circulated in the county on behalf of his candidacy for reelection as Ottawa county representative in the state legislature.

Sugar Figure for Ottawa Explained

Grand Haven, June 25 — In reply to complaints received by the county agricultural agent's office and the county rationing board, L. R. Arnold has explained why the county rationing board had set nine pounds per person as sufficient to meet the requirements for canning and an extra pound of sugar for jams and jellies.

The complaints were that rationing was not carried on the same in all counties and there is a belief that residents of other counties received more sugar for canning than did Ottawa county residents.

Mr. Arnold said the rationing board fixing the maximum amount was in keeping with instructions of State Director Arthur H. Sarvis who stated that the figure of nine pounds per person was deemed sufficient to meet the requirements even for persons who have canned an amount above the average.

The rationing board deemed it necessary to hold to a definite figure but confusion arose over the assumption that the family would be allowed one pound of sugar for every four quarts of fruit canned in 1941. It was felt that a loose interpretation such as this would cause dissension since there was no means of checking the amount of canning during the previous year.

After due consideration, the board made its decision and instructed workers to adhere to limiting of nine pounds of sugar per person. The board realizes that due to different procedure in some counties considerable confusion arose. However, it believes that the best policy was accepted in this county through establishment of a definite figure.

If any revisions are made through instructions from Service, such revisions will become effective in August during the second registration period, Arnold said.

The home of Mr. and Mrs. C. N. Wood, 30 West 27th St., was the scene of a simple but charming wedding on Friday afternoon when their daughter, Miss Dorothy Hawley, became the bride of Louis Nash, son of Mr. and Mrs. C. L. Nash of East Lansing. Only the immediate families and a few close friends were present.

The single ring marriage service was read at three o'clock by the Rev. Nicholas Gosselink before a background of palms ferns and large baskets of white and yellow daisies combined with blue delphinium. Vases of galliarda and white daisies were also used throughout the rooms.

Preceding the ceremony Miss Theresa Mackey of South Lyon, played "O Promise Me," de Koven, "Because," D'Hardelot and "I Love You Truly." Bond. As she played the traditional Lohengrin wedding march, the bride approached the altar on the arm of her father.

She chose for her wedding a lemon yellow street length dress trimmed with white lace, a white hat and accessories. She wore a corsage of white roses, tuberoses, white daisies and swainsons.

Local Bakeries Set Custard Ban

Will Not Be Used From May to October; City Ordinance Favored

As an added health measure in Holland, local bakeries have agreed among themselves to abolish the use of boiled custards in the preparation of bakery goods from May 1 to Oct. 1. Dr. William M. Tappan, city health officer, reports.

Dr. Tappan said he is planning to contact restaurants and other eating places which prepare their own baked goods to request them to take similar action.

The health officer said the fault is not entirely with the bakeries in fixing cream puffs, long Johns and pies with custards made from milk, eggs, sugar and corn starch during this five-month period but principally with the purchaser who neglects to place the baked goods with the cream fillings in refrigeration until consumed.

Allowed to set in the open for any length of time, these boiled custard goods are a good medium in which disease germs can grow. Dr. Tappan pointed out. He said Holland has no ordinance, controlling the making of baked goods in which the boiled custards are used, but that bakers are much in favor of having such an ordinance passed.

Michigan Bell Telephone Company

Stand behind our fighting men — Buy War Savings Bonds and Stamps!

You're being careful of many things these days. Careful of your tires and your car, your radio and household appliances.

And now to conserve war materials, the War Production Board has ordered drastic restrictions of telephone installations. Telephone service cannot be provided in some places. In others, only party line service can be furnished. Extension telephones cannot be installed in residences, generally speaking.

So please take good care of your telephone.

Don't put it on a wall box or a narrow ledge where it can be knocked off. Keep the cord straight and without kinks. Replace the receiver gently and carefully when you've finished a call.

In wartime, when repair materials are scarce, your telephone is worthy of extra care.

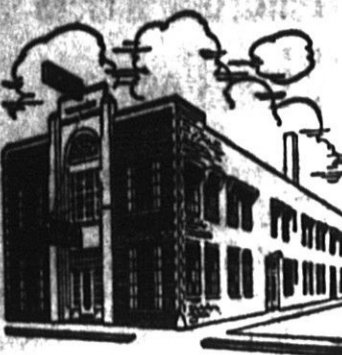

In so far as material and war restrictions permit, we shall provide the best possible service, and we look forward to the day when we again can give the kind of service wanted, "when and where wanted." But now, and for the duration, our needs come first.

SEEKING FOR A PARALLEL

It is the most natural thing in
the world to look for parallels in
history, of the horrors and cruelties
that this war is producing.
Historians have been experiencing
unusual trouble finding a match
in the story of mankind for the
extermination of the population
of the little Czech village of Lid-
dice, with a population of 483 ac-
cording to the Nazis themselves
but about 1,200 according to the
latest census. Even when taking
the Nazi figures, the horror of
shooting all the adult males, de-
porting the women, and placing
the children in institutions is so
great that some have given the
snap judgment that there is no
parallel for it in history.

That statement will hardly
hold water. All that anyone needs
to do is to go to the historical
records found in the Old Testa-
ment. It was quite the thing in
those days for a conqueror to put
the men, women and children of
a defeated community in the
sword. At least the Nazis have
not yet dared to boast that they
had shot the women and children
of the village that is supposed to
have sheltered the assassins of
the Nazi official assassin. But
the war isn't over; perhaps that
boast will come later.

There is also many a parallel
for the wiping out of Liddice in
the so-called "dark ages" when
the Roman Empire was slowly
breaking up. Gibbon tells the
dramatic story of the measures
taken by one of the later em-
perors. In one of the wars hun-
dreds of thousands of prisoners
had been taken among the so-
called "barbarians"—which word
merely meant "non-Romans"—
among them scores of thousands
of children. Those youngsters
were distributed throughout the
empire and were given a Roman
education.

Years later, when those chil-
dren had become men and women,
the emperor began to fear that
they would become the material
for trouble. He issued a proclama-
tion that on a given day all these
non-Roman young men should
gather in the market squares of
their respective cities to receive
the coveted badge of Roman citi-
zenship.

The young men gathered eagerly,
scores of thousands of them.
The emperor had his soldiers
ready. At a given signal they fell
upon the defenseless young men
and slaughtered them to the last
one. Hitler's Nazis still have
something to learn, and the pages
of human history can still teach
them some lessons in senseless
cruelty.

But not very much. Hitler is
always saying that his new order
is to last a thousand years. It is
fairly certain that not in a thou-
sand and years of the past have great-
er or more senseless cruelties
been perpetrated than are being
invented by the Nazis. The exter-
mination of the villagers of Lid-
dice ought to be remembered for
a thousand years.

THE CHURCH INVITES YOU

Goodness is associated with
church-going. Badness is thought
of by people generally, as some-
thing that is antagonistic to the
church or that has no relationship
to it whatever.

So it must be accepted as a fact
that the better impulses, the bet-
ter angles of their being prompt
people to go to church. It is church
services that appeals to the best
within and lifts the mind and
soul up to higher realms. No other
living beings can be so appealed
to or lifted to greater heights. It
is here where man is differentiated
from all other animals. Why
not recognize the difference be-
tween your life and that of the
lower animals and accept this in-
vitation to go to church next
Sunday?

Alcoholic Facts Versus
Drinking Propaganda
Proverbs 21: 17, 23; 32; Isaiah
5:20-23; Hosea 4: 11; Joel 3:2, 3;
Ephesians 5:18

By Henry Geerlings

Everyone knows that the arti-
cles which are most widely ad-
vertised are not always the best
on the market. The fact is that
the very opposite may be true. As
for the liquor traffic it might be
said that its products are so
glowingly recommended that one
would be led to conclude they
are indispensable to the joy and
the enrichment of the life of the
normal individual. The promotion
and the sale of beverage alcohol
have been carried to a point in-
finitely beyond anything it can
possibly merit.

Single verses and other brief
portions of the Scriptures have
been brought together for the
purpose of providing a lesson on
"Alcohol Facts Versus Drinking
Propaganda." That is a very im-
portant title, but it requires little
thought to bring into a very im-
pressive perspective. The liquor
traffic remains a business of im-
mense proportions in this coun-
try. The influence and the peril
of it do not greatly change with
the decades.

What particularly interests us
is the fact that this subject is
not given thorough treatment at
any particular place in the scrip-
tures, as one might expect would
be the case. On the contrary this
subject runs through the Bible
from beginning to end. Something
bearing on it may be found in
almost any of the Bible books.
The evil effects of strong drink
have been noted across the cen-
turies. Here and there one can
hear voices lifted against its use,
and a warning that indulgence
will take its toll in the course
of time.

The scattered nature of our
scripture text indicates that more
than one writer of the Bible
books was interested in the sub-
ject of temperance. Every one of
them knew of the abuse of some
of God's gifts. They knew also
that religion and strong drink do
not mix. They lift up their voices
against practices that take away
the reason and dull, if not alto-
gether kill, spiritual perception.
Indulgence in strong drink has
been an age long and universal
practice. No end of volumes could
be written on the havoc it has
wrought and the poverty and
misery that have followed in its
train. There is scarcely a legiti-
mate argument that can be ad-
vanced in favor of its perpetua-
tion. If there seem to be room
for such an argument it would
appear to be no larger than a
mole hill in comparison with the
mountain or arguments on the
other side.

Any one who is anxious to do
so will be able to get hold of
countless facts without any seri-
ous inconvenience. They are at
hand. They lie upon the surface
of numberless events and situa-
tions. They can be seen on the
streets, in homes, in factories and
shops, on trains and buses. Read
the laws that have been given a
place on our statute books; sense
the fear in the hearts of multi-
tudes of people, growing out of
habits of indulgence; study the
textbooks in our public schools
where their instruction as to the
danger hidden in the use of
strong drink; listen to parents
who themselves indulge counsel-
ing their children to do as their
seniors say and not as they do;
then you will be convinced of the
more than questionable character
of strong drinks that are offered
for our consumption.

The use of alcohol as a bever-
age has been an enemy of hap-
piness and progress. It has tend-
ed to disqualify men and women
for the work they have under-
taken. It has lessened their
chances of success in life. Gen-
erally speaking it has been an
enemy of both a sound mind and
a strong body. Those who in-
dulge do not stand the same
chance in life as those who ab-
stain. Other things being equal
the employer will recruit his
forces from among those who
have not fallen in the habit of
using strong drink. In a mechan-
ical age like ours there is little
chance for the promotion of per-
sons whose sobriety is under sus-
picion. We would not wish to
place our property, our fortune
or our children into the care of
those who are not meticulously
careful as to their habits.

The new approach to the liquor
problem is based chiefly upon
scientific facts presented in an
educational way. There is in-
creasing scientific literature upon
the subject which does not mince
words and which frankly and
plainly indicates the true nature
of alcohol and the inevitable re-
sults following its use. While
there may be a legitimate, sci-
entific and medical use for alcohol,
such use should be governed en-
tirely by competent medical ad-
visers.

ed in blue net and the brides-
maids in pink and green net.
White organdy was worn by the
flower girls. They carried bou-
quets of flowers in the same

Warlike Likely Will Cause Drop In Park Crowds

Holland State Park to Issue 15-Day Camping Permits This Year

Shortages of tires and possible gasoline rationing along with the scarcity of men may curtail attendance at Holland State park this year but Park Supt. Carl Van Weelden declined to make any estimates on possible crowds this early in the resort season.

No regular staff has been secured to aid in the upkeep of the park as yet. Louis England of Menominee and Leo Hiesche of Richmond have been serving as assistants to Van Weelden in the opening days of camping. "Men are hard to get," Van Weelden stated.

Holland State park officially opened May 30, Memorial day, along with other Michigan state parks and campers have averaged 30 or 35 groups a week. Cool weather and chilly waters have discouraged any great influx of bathers, Van Weelden said. Fishermen on the pier have been "catching plenty" according to all reports.

An innovation this year will be the issuance of 15 day camping permits rather than the eight day permits used in former years. No improvements have been made at the park for the current season. Visitors will find the modern bath house and a service building, constructed last year, again open for their use. Playground equipment will also be maintained.

Fewer vacations due to defense jobs may cut down attendance this year, according to Van Weelden. Tires and gasoline rationing also enter into the resort picture, reducing the number and frequency of trips. The armed forces have taken many young men who helped to swell beach crowds last year.

According to a state park report last year 1,200,000 persons were guests at the Holland park last season and there were 2,260 camps.

Last year Holland surpassed Grand Haven in park attendance and Bay City ranked third. In 1941 state parks remained open until Sept. 15, two weeks longer than usual, because of increased popularity toward the close of the season.

Checking attendance records for 30 popular state parks for clues to what may be expected in the way of state park use this summer, conservation department officials have found that visitors in the week including Memorial day this year were only two-thirds as many as in the same week a year ago, a drop from 228,000 to 150,000. The decline in the number of camp permits is proportional, amounting roughly to two camps for each three in 1941.

Sample state parks among those for which records are complete are: Bay City, with 5,700 this year in the week including Memorial day as compared with 15,000 in the same week a year ago; Rochester, 16,500 against 23,000 a year ago; Cass Lake, 15,000 against 25,000; Hayes 6,000 against 9,000; Muskegon, 8,700 against 10,800; Sterling (near Monroe) 7,400 against 9,900; Hartwick Pines, 1,200 against 2,800; Onaway, 860 against 3,980; Silver Lake, 4,500 against 4,250; and for three upper peninsula parks, Indian Lake, 785 against 825; Palms-Book (Big Spring) 480 against 850; and Wells, 774 against 1,250.

Records for state park attendance to date this season show the Memorial week drop was no exception to the general trend. Bay City park's attendance to date is 37,000, compared with 49,000 at the same time a year ago; Rochester's is 80,000, compared with 114,000; East Tawas has 18,000 compared with 38,000; Hayes has 13,500 compared with 37,500; Holland has 114,650 compared with 233,725.

The conservation department is now operating 46 state parks and three park sites, after closing 10 parks that were operated last year.

Lowry, George Copeland and W. S. Merriam, skipper of the Sea scout ship 17, sponsored by the Grace Episcopal Church Men's club, and seven Sea scouts, Frank Di Fligia, Duane Webbert, William De Wilde, Fred De Wilde, Donald Jalving, Bill Lowry, Jr., and Miles Baskett.

Herk Van Tongeren's 22-square meter boat, the Foo, placed first in this division with a corrected time of 8:20:53 and an elapsed time of 8:08:53. On board this boat were Van Tongeren, Jimmy Brooks, Norman Rutgers and Walter Parker.

A grand total of 72 boats started the race Saturday morning from Chicago with a fair light breeze which increased as squalls approached. The weather was foggy, necessitating steering the entire course by compass. As the yachts finished at Michigan City, gusty winds and rain squalls swept over the lake.

The Larikin returned to Macatawa bay Sunday at 8 p.m. As she entered the channel, Mr. Lowry, Mr. Copeland and Mr. Merriam went below deck and the Sea scouts, attired in their blue uniforms, sailed the boat into the harbor and docked at the yacht club. Hope to Continue Sports Program

The withdrawal of Adrian college from the MIAA conference and the abandonment of its athletic program for the duration of the war will not greatly affect Hope college's fall and winter sports program Coach Milton L. (Bud) Hinga said today.

He reported that as far as possible Hope college will carry out its football and basketball schedule. Transportation facilities will be the deciding factor.

Hope was scheduled to play a football game at Adrian Saturday, Nov. 7. On the basketball schedule, Adrian was scheduled to come here Jan. 21, 1943, and Hope was scheduled to play a return game at Adrian Feb. 23. Coach Hinga said attempts will be made to fill these dates with other schools, otherwise they will remain open. He pointed out that the trips to Adrian were the longest ones on the Hope schedule.

He said Hope will attempt to carry out its sports program because the federal government has requested schools to do so. It is also possible that the local college's physical education program may be increased during the 1942-43 school year.

Sports during wartime are designed to keep athletes in physical condition until they are called to the armed forces. Coach Hinga said he was in recent conference with Lieut. Comdr. Harry Kipke, U. S. N. A., and learned that young men enlisting in the navy are put through one of the toughest three months' course in athletics that can be devised to "toughen them up."

In Grand Rapids, Judge Advocate De Gay Ernst declared the 54-year-old MIAA is prepared to go ahead with its competitive schedules despite Adrian's withdrawal which leaves the association with only five schools.

Ernst said he thought possibilities of replacing Adrian were rather slim. Only denominational schools are eligible and Calvin college, which sought membership several years ago, has no football team and was turned down.

Work at Park Is Near Completion

New Water System, Added Parking Space Included at Tunnel

Grand Haven, June 25 (Special)—Extensive improvements to Tunnel park, located on Lake Michigan west of Holland and one of the most popular of county-owned parks, are nearing completion, Carl E. Bowen, county engineer, reported Tuesday.

These improvements consist of a new water supply system, modern flush toilets, an addition to the concession buildings, new driveways and parking space, softball fields and additional tables and stoves for picnics.

Plans also call for a tar surface on the new gravel driveways and parking areas but due to shortage of tank cars for shipments of tar this kind of work has been drastically reduced and some of the tar work planned will have to be postponed, Mr. Bowen said.

Gates are being placed at all entrances to the park and will be closed each night at midnight. The down timber and dead wood collected while cleaning up the new addition has been sawed suitable for firewood in the outdoor stoves and may be secured at the concession stand for a nominal charge.

The park is an ideal place for factory, school, church or family picnics and reservations should be made at the concession stand in advance to assure accommodations for large groups.

In 1941, the board of supervisors secured several acres of additional land for Tunnel park, increasing the lake frontage to more than 700 feet. An appropriation was made by the board last October for improving the facilities of the entire park.

Coach Benny Batema said Piersma will pitch tonight if his side which was recently injured is healed. Bob Vanden Berg who is rounding into shape will be in reserve. Vanden Berg has one win in one start to his credit this year.

Holland's fast infield will consist of Teunink, who has enlisted in the air corps, at first base; the smooth playing Harry De Neff at second base; Ken Vanden Berg, Hope college star, at shortstop; and Harry Brenner, who keeps in shape handling pipe in the oil fields, at third base.

Purpose of this new service is to hasten and reduce the weight and bulk of mail to and from the armed forces abroad and thus make available more space for the transportation of vital military material.

The operation of the "V-Mail service" is based upon the use of a combination letter and envelope. Each is a sheet of stationery so constructed and gummed as to fold into an envelope. The message and address may be type-written or written with dark ink or dark pencil. Nothing may be enclosed with the message. This mail will receive preferred sorting and handling.

To further expedite the V-Mail destined overseas or from the armed forces overseas to the continental United States where large volumes and long distances are involved, there will be inaugurated a photographic micro-filing facility.

Stations will be set up under military control to photograph V-Mail letters by specialized machines on 16-millimeter film. At destination, the receiving station will reproduce by photograph approximately four by five and one-half inches of the actual message as written by the sender.

The war and navy departments will furnish V-Mail letter sheets without charge to members of the armed forces stationed abroad. If the V-Mail originates abroad where no filming station is in operation, it will be dispatched by the most expeditious means available in its original form.

V-Mail messages sent by members of armed forces will be accepted for mailing without payment of postage, providing they write "free" in the upper right corner of the address side and in the upper left corner their name, rank and the service branch.

Parents, relatives and friends of members of the armed forces abroad may obtain V-Mail letter sheets at places handling stationery. Cost of mailing the letter will be three cents or six cents if the sender desires domestic air transportation.

V-Mail letter sheets are expected to be received at Holland post office within a few days. In

order to prevent waste not more than three letter sheets will be given any patron at one time or any one day.

V-Mail letter should not be sent by the public to addresses who are not members of the armed forces, unless the addressee receives his mail through an overseas military installation. Use of such letter sheets by the public will only cause the correspondence to be delayed.

V-Mail Service Will Be Started

Miner Who Killed Wife Surrenders

Bay City, June 25—Walking the entire length of town to reach the county jail, Matthew Cichocki, fugitive 31-year-old coal miner wanted for the murder of his wife surrendered to sheriff's officers today.

Cichocki's surrender came just 24 hours after he had fired two bullets into his wife's head on a lonely road south of Bay City while the couple's two children looked on.

He told sheriff's officers his wife, Helen, 27, had been unfaithful for the past six months while she worked in a restaurant during his unemployment as a miner, and that she had been "driving me nuts."

He added that he intended to shoot himself after he had killed his wife, but that he had broken open the gun and couldn't find the cartridges in the dark.

Cichocki left his dead wife near his automobile, which contained the two children, and fled on foot. He swam across Cheboygan creek and went into hiding in thickets along the bank of Saginaw river.

Four-Category Draft Is Set Up

Washington, June 25—National selective service headquarters today established a "four category" system of inducing men into the armed services whereby all eligible single registrants of local draft boards are to be called to duty before men with dependents are taken.

After single men the next group called will be those with dependents other than wives and children. Men with wives only would be inducted in the third group, and men with both wives and children, or children alone, would be the last called to duty.

The headquarters sent this directive to state boards in accordance with a policy written into the dependents' pay bill by congress and signed by President Roosevelt yesterday.

The order gave official recognition to "pre-Pearl harbor" marriages as causes for deferment, and carried out congress' intention to keep family units intact as far as possible. In setting up the married-men categories, the order specifies: "Registrants who were married prior to Dec. 8, 1941, and at a time when induction was not imminent."

Frank Lievense Named President Of Exchange Club

Flowerday, Van Lente And Van Zanten Are Given Other Offices

Frank M. Lievense, Sr., vice-president of the Holland Exchange club the past year, was unanimously elected president at the annual election of officers which was held Monday at the club's regular meeting.

Alex Van Zanten was unanimously reelected treasurer. Albert E. Van Lente was chosen secretary to succeed John A. Swets who resigned from the club in moving to Lansing and the Rev. William G. Flowerday was elected vice-president succeeding Mr. Lievense.

Restford Chapman, William

Brouwer and Peter Notier will serve the two-year term as directors while Fred Beeuwkes will be director for one year to serve out the unexpired term of Dr. H. P. Harms.

Mr. Lievense succeeds Prof. A. E. Lampen. The new officers take office Sept. 1 but the election is always held on the last regular meeting in June as this gives the new officers time to prepare for the fall meetings as the club will meet only once a month in July and August. The nominating ballots had been returned at the meeting of Monday, June 8, and a slate prepared from these by the committee chosen from the newly-organized Past Presidents' club of which Clarence Javling is president and Vernon Ten Cate is secretary. These two with State President Jacob Fris served as the canvassing committee.

William Olive formally welcomed two new members, James Heerspink and Ward Hansen, into active membership. He reviewed the story of the organization of the Holland Exchange club, formed from the former Victory club. Of the original group of charter members who formed this club in May, 1920, Mr. Olive, J. J. Riemersma, G. J. Koolker, Jay H. Den Herder, Peter Notier and George Pelgrim are still active.

Among the projects referred to as having been carried out by the local club, Mr. Olive mentioned the procurement of milk for the children of Froebel school, the boosting and sponsoring of aviation as a national and local project and the Goodfellow Foundation, entailing the selling of newspapers by club members on the Saturday preceding Christmas.

Each new member was given a copy of the covenant of service to be framed, the roster and constitution and a small lapel button. "God Bless America" was sung as a close for the installation ceremony.

Retiring President Lampen thanked the club members for the loyal and willing service given him, and for the excellent attendance record of the past year. He will serve as a director during the next year.

The Rev. Paul E. Hinkamp offered the invocation. Jay De Koning of the Holland Furnace Co. and Charles Duhamel of Park road were guests.

Principal speaker was R. J. Bender, consulting engineer for the Sinclair Oil Co., who was observed.

tained and introduced by Exchange Ray N. Smith. Mr. Bender, a graduate of the Central College of Arts in Paris, France, and a veteran of World War I, serving with the French army, spoke on "Petroleum—Ruler of the World."

He brought out the importance of petroleum in times of peace as well as in times of war. This is due, he said, to the fact that "we have adapted our lives and our industry to petroleum. Instead of adapting petroleum products to our needs."

Mr. Bender gave a rapid picture of the knowledge man had of petroleum through the ages to 1859 when the first oil well was drilled in Pennsylvania.

He gave a brief description of what takes place inside a refinery, calling attention to many new processes. He touched upon the subject of high octane aviation gasoline and synthetic rubber. What the Axis powers in Europe must do to compensate for this almost total lack of petroleum was illustrated by a few slides showing the use of the Axis made of many substitutes.

"We are blessed with a wealth of raw materials," he concluded, "but this will mean victory for us only if we avoid falling into the error of my native country, France, where such moral values as national pride, national unity and unselfishness had been lost."

Local Dealer Collects Rubber Which Captain Of Freighter Donates

A considerable addition to Holland's rubber drive was made Monday night when Glenn Mannes collected a total of 1,395 pounds from the freighter Sensibar which arrived at the local Harrington dock at 5 p.m. yesterday with a load of 8,500 tons of coal. Mannes collected the rubber, including an old conveyor belt used in unloading and quantities of sponge rubber, which was donated by Capt. Larsen in command of the ship. Previous to this, Mannes had collected more than a ton of rubber scrap at his State St. service station. The Great Lakes ship left the local dock at 2 a.m. this morning for Grand Haven to load sand.

About 615 million pounds of primary aluminum was produced in the U. S. during 1941.

Mr. Stelle said the American way of free enterprise and free competition was worth fighting to preserve, and lamented the fact that literature was not based on character in the last hundred years, and that religion was not foremost now as it was once in the world.

Officer Makes Perfect Score at Target Shoot
A pistol target card is being proudly exhibited at police headquarters. It contains 10 holes in the 10-ring of the target which were placed there recently by Police Officer Ralph Wolrding during a practice shoot on the range.

Wolrding was 75 feet away from the target and made his perfect score at slow firing. His total score was 288 out of a possible 300.

Nine of the 10 shots are rated "10-X" since none of them touch the line and the 10th shot is on the line. Proud of his officer's record, Police Chief Jacob Van Hoff has written on the target, "Why Holland Has No Crime."
