Bottje, Loser By Thirty Votes, Demands Recount

Register of Deeds Asks Recheck in Eight Precincts, Three Here

Grand Haven, June 27 (Special)—Frank Bottje, Ottawa county register of deeds for 20 years who apparently lost the Republican nomination in the June 18 primary by 30 votes, today demanded a recount in eight of the precincts.

Robert J. Kammeraad of Grand Haven who won by 2,814 to 2,784 said today he would abide by the findings of the board of county canvassers, unless "I feel there is any real wrong done in the canvass." He said he would reserve the right to appeal but was confident the canvass would show no irregularities.

Bottje, who said he was taking this action after being urged by friends, is asking for a recount in Crockery township, Holland township, Polkton township, Wright township, Grand Haven No. 4, Holland No. 3, Holland No. 4 and Holland No. 6.

Bottje filed the petition with William Wilds, clerk of the canvassing board, with one copy sent to the secretary of state and one served on his opponent.

The petition, dated June 25, alleges that Bottje believed election inspectors erred in tabulating votes and in some cases improperly placed votes cast for the petitioner in the unvoted box. The petition also charges that votes cast for Bottje were placed in piles of votes cast for Kammeraad and thereby credited to Kammeraad instead of the petitioner.

The recount will start at 9:30 a.m. Monday in the court house before the canvassing board consisting of Peter J. Damstra of Holland, Roland Plant of Coopersville and Gerrit Yntema of Zeeland, and two representatives of the state department. Sealed containers of the eight precincts will be opened in the presence of this group and Kammeraad and Bottje and their attorneys.

Child Seriously Injured by Auto

Judith De Groot, three-year-old daughter of Mr. and Mrs. Gerrit De Groot, route 3, was in serious condition Friday in Holland hospital with multiple lacerations of the face and neck, a fractured left leg and a possible concussion received at 3:25 p.m. Thursday when hit by a car a mile east of Holland on the old M-21.

Driver of the car was Miss Ruth A. Vander Kolk, 23, route 2, Hamilton, who told investigating sheriff's officers that she braked and pulled to the right shoulder when she saw the child crossing from the left.

According to information to officers, the child had come from undergrowth, hesitated at the edge of the pavement and then continued to cross the highway. She was hit on the right shoulder of the road, and she was picked up 27 feet from the point of the impact.

Face and neck lacerations, which required 68 stitches, were caused by the impact of the left headlight.

Carl T. Bowen of Spring Lake who served as county chairman for four years informed the group he did not wish to be reconsidered.

Supervisors Vote To Buy Signposts

Grand Haven, June 27 (Special)—With two dissenting votes, the Ottawa county board of supervisors Tuesday authorized the purchase of 1,200 street sign posts at an estimated cost of \$18,000 to be erected at crossroads of the county.

According to County Engineer Carl T. Bowen, there will be two signs at each crossing set back beyond the operation of mowing machines or snow plows. The signs with four-inch black lettering on white will be mounted on metal posts three inches in diameter and 10 or 11 feet tall. The 11-foot posts will be used in lighter soil and the 10-foot posts in heavier soil.

Dissenting votes were cast by Albert H. Stegenka of Olive township, former chairman of the good roads committee, and John Gallen of Holland.

The new signs will be placed at intersections shown on the regular county map but will not cover resort sections. Holland township will have about 200 signs of its own to erect outside city limits.

The naming of roads and numbering of houses is a project of the Consumers Power Co.

In continuing tax reapportionment discussion, the board approved Holland City Attorney Vernon D. Ten Cate's motion of the previous day to invite the state tax commission to make a survey of Ottawa county's equalization and reapportionment, in an effort to obtain a fairer distribution of school funds.

The report of the equalization committee was to be presented this afternoon and then "laid on the table" for 24 hours. The board will not meet Thursday, however, because of the Republican county convention.

The equalization report shows substantial increases for all townships and cities with the exception of Holland city. The total gain since 1945 is \$1,550,222 and the loss to Holland is \$64,820.

James Stearns, Grand Haven architect, submitted a bid of \$35,000 for two additions for extra vault space in the county building. A bid was to be submitted today by a Holland architect.

Rare Beauty Reflected In Holland Cemeteries

With the new program of perpetual and annual care inaugurated early this year, the appearance of Pilgrim Home cemeteries operated by the city of Holland has materially improved.

Actually, cemetery No. 3, the newest, is the only one planned and developed by the city.

Cemetery No. 1 on the north side of 16th St. was started in 1847 when Dr. A. C. Van Raalte laid out a cemetery in the church yard. It was taken over by a private association a few years later and in 1897 it was turned over to the city.

Cemetery No. 2 was started in 1860 by Holland township. It was turned over to the city in 1935 and named Fairlawn cemetery. Because of confusion with Rest Lawn cemetery located on the old M-21, the name was changed to Pilgrim Home cemetery a short time later.

On June 25 Mr. and Mrs. Dake would have celebrated their 56th wedding anniversary. They were married in Grand Haven June 25, 1890, by the late Rev. Lewis of the Congregational church.

Coal Buyers Must Pay Retroactively

The Michigan Retail Coal Merchants association has announced that consumers who purchased soft coal here since May 13 will be billed retroactively by Holland dealers at the rate of 46 to 58 cents a ton under new OPA prices.

Local dealers said the new price boosts better grades of soft coal to \$11.67 a ton plus tax and second grade coal to \$10.15 plus state sales tax. He said labor costs of dealers increased 67 per cent since 1941 but the increase in prices allowed dealers has been only 10 cents a ton.

Holland Used Car Sale Results in \$280 Fine

A Federal Court jury today returned a verdict requiring Fred Dirks of Holland, operator of Fred's Used Car lot, to pay damages of \$280 for selling a used auto at above ceiling prices. The OPA had asked three times the amount in a treble-damage suit.

The Michigan Retail Coal Merchants association has announced that consumers who purchased soft coal here since May 13 will be billed retroactively by Holland dealers at the rate of 46 to 58 cents a ton under new OPA prices.

All But One Township Has Equalization Increase

Grand Haven, June 27 (Special)—A comparison of equalized valuation of Ottawa county, according to a report now being considered by the board of supervisors, reveals a decrease in only one township in the county, it was pointed out today.

Due to suspension of operations at Holland Furnace plant 5 and fire damage to the Holland Color and Chemical Co., the equalized valuation in Holland township is \$64,820 under last year's figure. This amount was incorrectly credited to Holland city in Wednesday's Sentinel.

The township increases follow: Allendale, \$2,625; Blendon, \$16,280; Chester, \$29,030; Crockery, \$35,830; Georgetown, \$73,205; Grand Haven, \$101,730; Jamestown, \$16,425; Olive, \$3,950; Park, \$119,300; Polkton, \$44,400; Port Sheldon, \$25,020; Robinson, \$10,947; Spring Lake, \$411,425; Tallmadge, \$36,395; Wright, \$20,150; Zeeland, \$83,735.

Increases in the cities are Grand Haven, \$372,750; Holland, \$72,705; and Zeeland, \$52,300.

Candidates File For School Board

Unless a candidate chooses to run on stickers, there will be no opposition at the annual school election here July 8, it was revealed today.

With the passing of an unannounced deadline Saturday, only the three incumbents whose three-year terms expire this year had filed their petitions. They are C. J. De Koster who has served 15 years, Prof. A. E. Lampen who has served 12 years and E. V. Hartman, six years.

At the June meeting of the board of education, announcement was made of a deadline of 15 days for filing petitions in advance of the election. However, the state law requires 20 days and the information was not corrected publicly.

John Oler, board of education clerk, said sticker-candidates would be required to announce intent to run in advance of the election. He said he was unable to check that deadline today.

A legal opinion, prepared for The Sentinel, held that a sticker-or-write-in candidate need not make public announcement of intent to run. Additional candidates can be voted by write-in or by stickers, the opinion held. The attorney said the law requiring 20-day filing was changed a year ago from the 15-day restriction then in force.

Ottawa Parties Hold Conventions

Republican Keynote Calls for Return Of GOP Principles

Grand Haven, June 27 (Special)—Harvey L. Scholten of Grand Haven, who was the only candidate for circuit court commissioner at the June 18 primary, urged sound economic thinking and planning in his keynote address at the Republican county convention which opened in the court house at 2 p.m. today.

Scholten, who served overseas as a Navy officer in World War II, was elected temporary chairman of the county convention.

Speaking on "The Undermining of Democracy," he said the idea that wealth can be created by destroying the means that make wealth is preposterous. "Wealth is not dollars and cents as many believe. Wealth in a physical sense can only be measured on goods and resources. The productivity of our efforts in a large measure determines our wealth," he said.

"There have been developed in this country some time labor unions and they are an asset to this country and should be retained, but the responsibility of some of their leadership should be assured and be done by law if necessary and thereby stop high pressuring of the administration if it is not strong enough to withstand it itself.

"We need a government that will stop the persecution of groups and will develop a spirit of co-operation between our two greatest sources of power, labor and management.

"The Republican party must be a progressive party but not in the sense of socialism but in a sense of balance. The more government gives to its people, the narrower become the limits and the closer the approach to Fascism. The circumscribing of action tends toward lethargy and destruction of individual initiative. When initiative is destroyed we cease making progress.

"Our party can become great by leading this nation back to sound thinking but it can't be done by trying to appease all groups seeking power controls. We are a dominant Republican county and because of that we are liable to allow ourselves to be lured into a sense of security. We must take the initiative and really carry the election to the people."

Democrats Hit Record Of Jonkman in Voting On Military Measures

Grand Haven, June 27 (Special)—Fourteen delegates to the state convention in Lansing July 6 were named at the Democratic county convention Wednesday night at which County Chairman Charles E. Misner presided.

Delegates are Ernest C. Brooks, John Bontekoe, Ralph Dokter, Peter Smith and Miss Julia Kuite of Holland, Lawrence P. Smith of Park township, Louie Anderson, Anthony Boomgaard, Roy Hierholzer, Misner and Clyde Sands of Grand Haven, Roy Lowing of Georgetown, Nicholas Polich of West Olive, Emmett Culligan of Nunica and Jack Ahern of Spring Lake.

In resolutions adopted by the group, Republican and a few Democratic Senators and Representatives were "bitterly condemned" for voting regularly against recommendations of President Truman and "doing everything possible to bring about inflation and consequent depression."

Murray D. Van Wagoner was endorsed for governor of Michigan. "His former administration as governor was outstanding and our state needs the services of this experienced man to clean up the mess in Lansing."

"Congressman Jonkman is unfit to represent this district in Congress," the resolutions read. "During the war he voted against everything that would bring it to a successful termination and now is voting against everything that would help our country again adjust itself to peaceful times. Every patriotic citizen should look up the record of this congressman."

Resolutions also added that legal affairs of the state should be conducted by the attorney general's department and police work where the state is involved should be done by the state police. "The vast expenditures of public money for hiring private persons to perform the duties of regular officials, is condemned."

Resolutions also called for the return of one-third of the state taxes to local governmental units. From Holland attending the convention were Peter G. Damstra, Ralph Dokter, Lawrence P. Smith and Harry Kramer.

Candidates on the Democratic ticket will meet tonight to elect a county committee.

Holland Visited By New Engine

One of Pere Marquette railway's new streamliners slipped into Holland unheralded Friday afternoon on a break-in run.

Few knew he was coming, but that made little difference. Perhaps it was the new pneumatic horns that tipped off the people, because in no time they gathered from all points.

Although the 71-foot, 12-cylinder Diesel engine has a top speed of 117 miles an hour, the highest speed reached was 85 on the way to Holland and 87 on the return trip. The regular run between Grand Rapids and Detroit will take two hours and 40 minutes.

At the throttle in Friday's "maiden voyage" was G. A. Lischer, road foreman of engines. Other railroad officials present were Kenneth T. Reed, division superintendent who arranged the run; Roob H. Allie of Detroit, director of public relations of the Michigan Railroad associations; B. G. Nash, train master; R. W. Ohlman, division passenger agent; and M. P. Winston, supervisor of Diesel power.

WATER RATES CORRECTED

The minimum increase in water bills for home consumers after the new water softening plant is in operation, a year or more hence, will be \$6.60 per year over the present rates, the board of public works pointed out today correcting a statement in Thursday's Sentinel. The average increase will be \$9 to \$10, the board said. Minimum rate at present is \$6 a year less discount.

"Why did my neighbor get a telephone before me?"

That's a perfectly reasonable question, and we want everyone to know the order in which we are installing telephones today. For we still follow a priorities schedule established by the Government.

Telephones essential to Government, public health and welfare come first.

Next, business customers moving to new locations within the same area.

Then, new business service for returned veterans.

All other new or additional business service follows.

And, after that, temporary residence service in cases of illness or disability.

Next in line are folks who move to a new residence within the same area.

Residence service essential to military production, reconversion, employment, and food production follow.

Then, residence service for returned veterans and the wives of service men.

And, finally, all other applications for main residence service.

Remember this: within each of these groups, as facilities become available, those who have waited longest get their telephones first.

We'd like to fill every order on our books right now. But material shortages and strikes in many industries have dashed our hope of ending all waiting lists in Michigan by late fall. We now hope to get enough materials so that most of the orders for service received before January 1, 1946, will be filled by the end of the year. In areas where sufficient facilities become available, we expect to fill many orders received this year, but it may be late in 1947 before we can return to a "ready-to-serve" basis everywhere.

We shall spare no effort to fill each order just as soon as we can.

"AND GLADLY TEACH"

Several centuries ago the En-
glish poet Chaucer coined a phrase
that has carried over across the
chasm of time because it is as per-
fect a description of the teacher
today as it was in Chaucer's time.
Describing a schoolmaster of the
day the poet listed some of his
activities; he would serve his com-
munity in various ways, and al-
ways he would "gladly teach."

When a veteran teacher stepped
out during the Hope College
commencement, after 49 years of
continuous service, Chaucer's
phrase could have applied to him.
For Dr. E. D. Dimment served his
community in many ways during
the half century that he was a
resident of Holland. He built his
life into many institutions in this
city that are not usually thought
of as a teacher's concern. He
served on boards of directors of
various business concerns, and his
economic good sense is reflected
in the policies of institutions that
the general public does not readily
connect with his name.

But he was (and is) fundamen-
tally a teacher. He would always
"gladly teach." It has always
been his labor of love, as it is a
labor of love for all true teachers.
True it is that the teacher is not
held in very high esteem in twen-
tieth century America. There have
been eras when the teacher has
been thought of as the true legis-
lator of the world. Today he is
hardly more than tolerated. In
business he is assumed to be im-
practical and visionary; in politics
the fact that a man is, or has
been, a teacher is a distinct li-
ability.

In spite of all that some men
and women "gladly teach," and
while there are impractical vision-
aries among them, sober experi-
ence shows that most of them
have as much economic shrewd-
ness as the so-called "practical
business man." Dr. Dimment's car-
eer in Holland is evidence of this
fact.

But for the true teacher all
other activities are feeders for the
main business of life. They are
good for him because they teach
him what life is like; he learns
from life and he tells it again to
others. That essentially is what
teaching is—an art. A few per-
sons are artists in this field; when
they are they "gladly teach," for
an artist loves to do what nature
has taught him to do.

The retirement of a true teacher
deserves a word of comment at
a time when the phrase, "and
gladly teach," is hardly under-
stood.

Jesus' Friends Carry on His Work
Mark 16:15-16, 19-20; Luke 24:45-
49 Acts 2:46-47; 5:42

By Henry Geerlings

Today's lesson makes quite
clear how the Christian faith be-
gan to grow. Something of the
motive and inspiration stand
clearly revealed. But what has
happened since? That is a totally
unfamiliar story to most of us. It
might be supposed that the pro-
gress had been steady, but closer
study of the facts indicate that
Christianity's expansion has taken
place in a series of great sweeps
of alternate advance and retreat
like the movement of a tide in
flow and ebb. In this manner the
Christian movement has swept in
ever wider circles and penetrated
in ever deeper influence upon the
life of the human race.

There are four massive epochs
of march and retreat.
The earliest stemmed directly
from the initial impulse provided
by the life, death and resurrection
of Jesus. It was pressed forward
by the amazing vitality of the
early church and carried the
Christian movement through
roughly five centuries until it had
penetrated almost every outpost
of Graeco-Roman civilization. It
became the official religion of the
Empire and achieved such secure
rootage that it could endure when
everything else about it—political
economic and cultural—crumbled.
No religious revolution of compar-
able dimensions had ever before
been wrought in so brief a time.
Then the tide turned.

A long period of severe decline
set in from 500 to about 950. Bar-
barian hordes from the north and
Moslem Arabs from the south in-
flicted the most perilous setbacks
Christianity ever suffered. Half
its nominal territories were lost.
The church seemed condemned to
permanent insignificance if not
extinction altogether.

Then occurred the first of the
miracles of revival and recovery.
Another great forward movement
set in. It continued for some four
centuries from 950 to 1350. In
time it embraced the Middle Ages.
Geographically the extension of
the Christian movement passed far
beyond its earlier limits to
Scandinavia and Russia in the
north; to Turkestan, India and
China in the east. Moreover
Christianity established itself at
the heart of culture in the new
civilization of Europe. The church
now widely displaced political rulers.
But again vitally slackened.
Internal decay due to scepticism
and immorality set in.

From 1500 to 1750 the recession
was followed by another and still
more extended advance. The era
began with the birth of Protestan-
tism. It possessed great creat-
ive energies. Again expansion was
geographic, intellectual and cul-
tural. Moving with the daring ad-
ventures of explorers and empire
builders, the Christian movement
planted churches for the first time
in North America, among the ter-
ritories of Spanish and Portuguese
conquest in South America, along
the coasts of Africa, across Siber-
ia, in Burma, Siam, Indo-China
and the islands of the Pacific. In
the Philippines and certain Dutch
East Indies, Christianity actually
became the faith of a majority
of the native peoples. Nevertheless
the sweeping tides of extension
did not continue unbroken. An ebb
set in, though this time it was
brief and less severe than its
predecessors. But the period from
1750 to 1815 must be put down as
on the whole an interlude of sub-
sidence.

This retreat was short lived.
From 1815 to 1914 there was a
period of such prodigious expan-
sion and enlargement of influence
that it may rightly be called "The
Great Century." This is the epoch
of Protestantism's great achieve-
ments. This century was the most
fertile and fruitful in the long se-
quence. The Christian church was
planted in almost every country
on the face of the earth. At the
same time it was an era of intense
permeation bringing Christian
ideals effectively to bear upon
the diseases and disgraces of hu-
man society. From the church and
those inspired by its ideals there
issued during this century the
greatest succession of movements
for human relief and liberation in
all history: for abolition of the
slave trade, for prison reform, for
improved conditions of labor, for
equality for women, for elimina-
tion of child labor, for temper-
ance, for world peace. Meanwhile
the church was bearing the mes-
sage of hope and its gifts of prac-
tical helpfulness to every contin-
ent and virtually every people.

The end of that epoch was
clearly in 1914. Whether the de-
cades since have started a major
recession only history can tell. It
is clear, however, that this is the
period after the Great Century. It
is the age of transition.

Here then is the main teaching
of the story. For 19 centuries the
Christian movement has spread to
an even wider circumference and
permeated with ever deeper im-
print the life of mankind. This is
the story of the growth of the
church.

Holland
In 1914

The people of Holland will be
asked to vote on primary day in
the latter part of August as to
whether this city shall invest \$5-
500 in a swimming and skating
pond or not, began a story in the
Thursday, Aug 6 issue of the Hol-
land Daily Sentinel published in
1914.

While the various boards have
been zealously working to bring
new industries to Holland a home
concern has been quietly and
successfully planning what bids
fair to create a new industry in
Holland, namely the manufacture
of manual training and domestic
science equipment. The Home In-
terior Finish Co. has been enter-
taining this week the superinten-
dent and a committee of the Board
of Education of a prominent Ohio
city. After leaving for Grand Rap-
ids and Muskegon where they in-
spected similar lines of goods they
returned yesterday and placed an
order for over a car load of man-
ual training and domestic science
equipment for their new high
school.

Charles S. Dutton sent a lengthy
communication to the council
last evening in which he made the
suggestion that the water station
at Twenty First St. that has been
abandoned by the city be converted
into a public park.

The contractors, journey men,
carpenters, hardwaremen, lumber-
men and their shop employees to-
gether with their wives and chil-
dren, making a company of about
250, went to Castle Park yester-
day to enjoy a day's outing.

The Mothers' Council will hold
its regular meeting tomorrow at
the home of Mrs. N. Bosch, Dr. A.
Leenhouts will give a talk on "The
Health of Children."

It is generally agreed that the
commercial interests of the United
States are to receive a very large
share of the business of the South
American countries as a result of
the war in Europe, according to a
story appearing in the Friday,
Aug. 7, issue. According to a local
man informed in regard to condi-
tions in South America the manu-
facturing firms in Holland could
reap a rich harvest as a result of
war conditions. For instance,
Germany has been in the habit of
supplying shoes and machinery in
very large quantities to several of
the South American countries.

This supply is now cut off and an
opportunity is seen for the local
shoe factories and for the machine
manufacturing concerns.

A fire alarm was turned in last
evening in Zeeland. The new
steam laundry on Taft Ave. owned
by William Meyers, was entirely
destroyed.

Dr. and Mrs. A. T. Godfrey and
Prof. and Mrs. Wynand Wichers
returned to Holland last evening,
after an 800-mile automobile trip.
They went to the Soo by way of
some of the interesting points of
Michigan. The return trip from

wives were invited to spend the
evening at the Lakewood farm
yesterday.

out of the race for the Democratic
nomination for state representa-
tive from the First District of Ot-
tawa county, according to a story
appearing in the Saturday, Aug.
8, issue.

The ban has been taken off the
use of lawn sprinklers and begin-
ning today the people may again
use them.

Time was when this part of the
state was one of the richest wheat
growing sections of the country.
Fifteen or 20 years ago wheat was
the principal product of the farm-
ers in Holland township and Ot-
tawa county. But the coming of
the sugar beet, the pickle and
other well paying farm products
caused wheat to take a back seat
so that for years the yield in this
section has been comparatively
small.

The Rev. B.F. Brinkman and wife
arrived here yesterday from Pella,
Ia. They made the trip by auto-
mobile stopping for a time at Chi-
cago, leaving that city yesterday
morning.

The steamer Theodore Roose-
velt has been chartered by the
Chicago Masonic fraternity to run
an excursion to Saugatuck, Aug.

Fire originating from the
burning grass consumed the old
Riley homestead on the Grand
Haven road, about two miles
north of Holland on Friday after-
noon.

dent, left a personal diary of 12
large volumes, spanning the period
from 1795 to 1846.

Van Wieren-Schippers
Wedding Vows Spoken

Mr. and Mrs. Frederick Van Wieren

An arrangement of palms, bas-
kets of white asters and seven
branch candelabra formed an at-
tractive setting for the marriage
of Miss Eleanor Schippers and
Frederick Van Wieren, Monday
at 8 p.m. in the Woman's Literary

The bride who approached the
altar on the arm of her father,
was gowned in traditional white
satin fashioned with sweetheart
neckline, fitted bodice, long
sleeves ending in points at the
wrist and long train. A tiara of
orange blossoms held her finger-
tip veil in place and she carried
a bouquet of white gardenias,
sweetpeas and snapdragons.

Miss Marjorie Hop of Zeeland,
maid of honor, was gowned in
blue with tulle bodice and lace
skirt. She wore a ruffled hat of
blue net and carried a bouquet of
pink roses and sweetpeas.

Bridesmaids, Misses Tillie Van
Slot and Lillian Burisma, wore
identical gowns of blue net with
matching shoulder length veils.
They carried bouquets of yellow
roses and feverfew.

Both bride and groom attended
Holland Christian High school.

be at home at 48 West 17th St.,
after June 29.

WINDSTORMS vs. PRESENT HIGH COSTS

Have YOU looked over your Windstorm Insurance Policies recently?
It will take more money today to replace property destroyed by wind-
storms than it did a few years ago!

That's because of the present high costs of materials and labor.
It will be smart on your part if you take care of this before the next
windstorm!

The news was received in a telephone call from W. C. Kreuger of Lansing, secretary of the Michigan Builders exchange who said the new order also allows an extra cent per block for the next 10 miles and an additional cent for another 10 miles. Under this arrangement, 30 miles is the limit that delivery can be charged.

Van Voorst said this action erases the decision of Van Voorst Bros. to forsake retailing for the contracting business. He also said that the company sold its property and buildings to the Holland Furnace Co. in an unexpected development this week but will establish a new yard soon. The company which retains its machinery will vacate the premises within 30 days.

This decision is in line with reports that other West Michigan bakeries would be closed for varying periods during July. Henry Van Dyke, president of Bakeries association, said shutdowns during July would be in order.

Holland bakeries, closed on and off for several months, today indicated they may be forced to shut down during periods in July because of shortages of flour and sugar.

Expert Urges Use Of Water Softener

East Lansing, June 27—Laura P. Davis, extension specialist in home management, has given homemakers a few tips on how to make the soap go farther and how to make the clothes cleaner.

Too much soap in the washing machine not only is wasteful but does not do as good a job as the right amount. It is wasteful to use soap as a water softener. There are many softeners on the market today and they are less expensive than soap.

Water softeners, however, should be thoroughly dissolved before soap is added. Three to five minutes should be allowed before soap is added. A two-inch suds on the washwater is the most desirable. Find out how much soap it takes for that suds—then measure the amount in the future.

Skaalen Pitches 2-Hit Game as Dutch Beat Kazoo

Strikes Out 13 and Faces Only 29 Batters In Fifth Straight Win

Mike Skaalen scored his fifth consecutive triumph with the Holland Flying Dutchmen Monday night with a 6-0, two-hit shutout over Kalamazoo Quality Bakers.

Skaalen pitched to only 29 batters, fanned 13, and coasted after the fifth inning when his mates built a 3-0 advantage. It was his first shutout although he has allowed no team more than six hits over a nine inning stretch.

Skaalen got perfect support from his teammates in a fast game that was completed inside two hours.

Harold Van Wieren opened Holland's second inning with a double which led to Holland's first run, although it wasn't earned. He took third when Don Van Lente bounced out to the shortstop and scored on a passed ball.

The Dutch added another in the fourth and it too was unearned. Van Lente lined a double to the leftfield wall, took third on a passed ball and came around to score on the same play when the catcher couldn't find the ball.

Holland scored its first earned run in the fifth. Frank Bagliadi singled to center with two out, stole second and scored when Loren Wenzel singled on the ground to right.

The locals added three in the seventh on two hits, a walk, two errors, a balk, and two wild pitches. The hits were singles by Harry De Neff and Van Wieren. Skaalen was never in trouble.

Both Kalamazoo hits came after two were out. In the first inning Bill Carrier doubled against the rightfield screen but Skaalen fanned Leon Phelps, the clean-up batter. In the fourth Phelps singled but Skaalen retired Catcher Robert Stokes on a fly to Juke Van Huis in left.
