## Eleven Tornadoes Sighted in State; One Hits Ground

### Gratiot County Hit; Holland Escapes Storm As Crews Mobilize

Holland residents Tuesday as their normal activities went about the fifth tornado warning since April 3 was sounded for this area.

Today the weatherman took a look at his charts and predicted partly cloudy skies and cooler weather for most of Michigan with very little, if any, chance of rain today or Thursday.

Yesterday city officials, Holland police and Ottawa County deputies immediately went on an emergency basis and prearranged disaster plans were put into action as the tornado alert was revealed. The abandoned Coast Guard tower at the entrance to Lake Macatawa was manned by deputies and Coast Guardsmen. A second spotting point between Holland and Saugatuck was activated by Holland police, auxiliary officers and deputies.

The same operational plans for the city that were decided on earlier went into effect. Red Cross and Civil Defense authorities also mobilized their forces.

The lookout posts were manned until the alert was lifted shortly after 8:30 p.m. as the skies cleared and the heavy dark rain clouds blew over the city.

Thunderstorms early in the evening drenched Holland dropping .14 inches of rain.

The mercury shot up to 90 degrees in downtown Holland and then began dropping swiftly hitting a low of 61 during the night.

Elsewhere in the state 11 tornadoes were spotted near St. Joseph, Edwardsburg, Niles, Grand Rapids and Cassopolis.

One struck the ground in Gratiot County inflicting its heaviest damage in the Middleton-Perrinton-Pompeii area.

At least 29 farms were severely damaged in Gratiot County and many homes lost parts of their roofs and power lines were down by the dozens.

Wendell Wright, 35, who farms in the Perrinton area, was the only major injury reported. He was milking in his barn when the twister struck and sent a heavy beam crashing into his face. The barn was completely demolished.

Wright was hospitalized with numerous facial cuts, a broken nose and broken cheekbones. Doctors said his condition was "fair."

At Grand Rapids a false tornado warning sent hundreds of residents scurrying for shelter.

The false 30-second blast came only an hour after the weather bureau issued a tornado warning for Central and Southwestern Michigan.

When the huge siren went off, many persons panicked, others sought shelter and others prayed.

Powerful winds and torrential rains buffeted the rest of the state. A late evening downpour at Detroit tore down power lines, uprooted trees and flooded streets.

Heavy rains, in some cases accompanied by hail, bombarded the Detroit suburban areas, Grand Rapids, Lansing, Dowagiac and many other parts of the state.

The weatherman said the severe weather conditions were the result of a squall line which had moved out of Wisconsin and across into Michigan.

Michigan Bell Telephone Co. said 3,600 telephones were put out of service in the Battle Creek, Kalamazoo area and in the Lansing area.

## Board of Education Adopts Record High Budget

The Board of Education at a special meeting Monday night unanimously approved a \$1,370,139.83 budget for the school year 1956-57.

The new budget is \$183,077.61 more than the \$1,187,062.22 which the board received in 1955-56.

Of this new budget, Holland taxpayers will pay \$445,000 or just over one-third of the total. State aid, based on \$190 per pupil, will account for some \$562,000 and tuition will bring \$225,000.

The school tax rate this year is 9.85 mills or .25 mill under the 10.10 mills levied last year. But figured on a state equalized valuation of \$45,202,733 which is increased over last year, taxes will yield \$2,339.33 more than last year.

Supt. Walter W. Scott explained that the board could put to good use another \$40,000 which the .25 mill would yield, but he said conservative spending and careful planning in the new budget are expected to meet the needs without increasing taxes.

State aid is expected to yield \$37,336.54 more than last year and tuition will yield \$28,590.03 more

than last year. These increases are due mostly to increased enrollment. Tuition is figured at \$250 for the budget. This figure may be slightly altered after final figures are in for the fiscal year and new rates adopted.

Other sources of revenue come from vocational education, special education, library, city recreation and the like.

In outlay, the biggest cost of the budget lists \$954,494.46 for instruction. Included in this figure is \$813,157 for regular salaries and \$55,673.69 for principals' salaries.

Other classifications for disbursement list: administration, \$43,297.37; operation of school plant, \$78,250; fixed charges, \$15,800; auxiliary services, \$13,910; capital outlay, \$49,438; supplemental disbursements (transfer to high school building and site fund), \$80,000. The latter figure is in keeping with action taken about 1949 in which \$50 per secondary pupil (both rural and city) is set aside for a fund for a new high school.

On the instruction front the board is well aware that Holland is pay-

ing a high price but the public generally is well pleased with the desirable teacher-pupil ratio in which classes are not overcrowded plus the special emphasis on such subjects as extensive music programs, foreign languages for elementary students, a fine physical education program and other desirable services. The instruction section in the budget calls for \$954,494.46 or \$128,357.01 more than was spent in 1955-56.

Under maintenance is a \$44,000 item for continued improvement to six schools as recommended by the citizens taxation and school finance committee after extensive study more than a year ago. Out of the committee's recommendation came board action to set aside one mill for 10 years to accomplish said improvements. This will be the second year the improvement program is carried on.

The capital outlay item this year includes several items for improvement to certain properties to be used as classrooms for the expanding enrollment next fall. The school owned house on 16th St. between the schools will be remodeled for

use by agricultural classes. The Van Huis home on 15th St. just west of Junior high school will be remodeled for use by special education classes. The classrooms previously used in the Junior High annex will be used for regular classrooms. The Bontekoe store also will be put to use.

The board also is negotiating for the use of the second floor of the education building of Third Reformed Church to be used for classrooms for some 100 to 120 pupils. This arrangement is subject to final approval by the consistory. Use of these facilities would involve changes in schedules and it was announced that no cars, bicycles or scooters would be allowed in class movement. The Board of Education would provide custodial service and would assume cost of whatever changes would be required by the state fire marshal.

Approximately 175 pupils would be affected by the changes under consideration for the use of houses and church.

Within a short time, a complete copy of the budget will be on file at the administration office.

## Sloop Grounded At State Park

A 24-foot sloop carrying an Eaton Rapids couple rammed aground at the Holland State Park north of the breakwater late Wednesday night when the skipper missed the channel entrance.

Mr. and Mrs. James Gillett were enroute to Holland Harbor from Kenosha, Wis. when their four-ton boat struck bottom in shallow water only a few feet off the beach shortly before midnight.

One attempt by Coast Guardsmen and Ottawa County deputies to free the boat failed and a second try was made this afternoon.

Gillett, a retired building contractor from Eaton Rapids, launched his boat at Holland in September, 1954 after spending nearly 14 years building it.

The "Pipi-Quaw" is equipped with a 16-horsepower auxiliary engine in addition to its nylon sails.

## Missing Lansing Couple, Boat Safe At South Haven

### Extensive Search Made When Trailer and Car Found at Holland

The search for a Lansing couple missing since Sunday in their 22-foot cruiser was called off today when the pair and their boat were found safe in South Haven.

Holland Coast Guard commander, Walter Sears, Boatswains Mate First Class, said Mr. and Mrs. Harold Houghton left Holland for South Haven Sunday and were unable to return because of bad weather.

Coast Guardsmen and Ottawa County deputies began the search when the couples' boat trailer and car were found at the public fishing site on Big Bayou.

Harbors from Muskegon to South Haven were searched Wednesday night when a check with a sister in Lansing revealed the couple had planned to spend a week's vacation here.

The Coast Guard said they also called all hotels and motels in the South Haven area but had found no trace of the couple until this morning.

The Houghtons said they had no idea that anyone was looking for them. They planned to return here later today if the wind calms down.

It had been feared the couple had drowned in Lake Macatawa or Lake Michigan.

The initial check Wednesday night missed the Houghtons and their boat since the report said they were in a small outboard boat. They actually had a 22-foot inboard cruiser.

Haughton is employed as night superintendent at Oldsmobile in Lansing.

Authorities became alarmed Wednesday afternoon when operators of the Bay Haven Marina said the Houghtons had rented a boat slip from them for the week and had not used it.

The car and boat trailer were then investigated and a license check revealed the identity of the pair.

## Kelley Addresses Local Rotarians

Harry J. Kelley, manager of Industrial Relations for the American Seating Co. of Grand Rapids, was guest speaker at the Rotary Club noon luncheon Thursday at the Warm Friends Tavern.

Appointed by Gov. Williams to the Fair Employment Practice Commission, Kelley described the duties of the commission in carrying out the terms of the act which was passed Oct. 14, 1955.

Patterned after the New York Commission, Michigan was the 14th state to have such legislation, the speaker said. So far, about 80 cases have come before the commission according to Kelley, who stated that FEP is morally sound and in keeping with American principles.

Kelley said the commission operates on a three-pronged program, the first being to process the claims to the mutual satisfaction of both parties. Every effort is made to keep the case from going to court. Secondly, advisory councils are set up in several cities to establish a program of cooperative education and good will. The third phase is to study conditions and opportunities in local areas that have minority groups and to offer help and advice to the local councils.

In closing Kelley said that the commission does not seek jobs for minority groups as such. The sole function is to administer the act, so that each applicant for a job receives equal consideration, regardless of race, creed or color.

The speaker was introduced by program chairman Jim Obenchain.

## Berean Church Stretches Streak With No-Hitter

Sixth Church-Gra-Bell won by forfeit over Western Foundry in the other league game.

Miss Nancy Lampen, daughter of Mr. and Mrs. Edward Lampen of Hamilton, underwent surgery last week Thursday at Blodgett Hospital, Grand Rapids. She is reportedly recovering satisfactorily.

## Construction Firm Pays Overload Fine

GRAND HAVEN (Special)—Carl Goodwin and Sons of Allegan paid \$337.40 and \$4.30 costs in Justice F. J. Workman's court late Tuesday afternoon on charges of overloading a truck. The driver, Edward Leroy, Fennville, was stopped by County Weighmaster Sam Hartwell, Sr., shortly after 4 p.m. Tuesday on Ferry St. south of Robbins Rd. in Grand Haven township where work is in progress for the US-31 relocation.

Hartwell claims the dump truck had an overload of 3,660 pounds on one tandem axle and 2,945 pounds on the other. The truck was hauling dry cement mix. Citizens in the vicinity had registered complaints about heavy trucks breaking up the blacktop in front of their homes.

## Petunia Planting Urged, But Not As City Project

Because of the present shortage of water in the city, the Holland Council for Civic Beauty will not conduct its usual campaign this year of contacting all residents in Tulip Lane for planting petunias and other recommended blooms in an effort to keep tulip lane colorful all summer.

But persons in the city who have their own supplementary water supply are urged to make the summer plantings, and already many have started this phase of yard care, according to Lida Rogers, president of the Holland Council of Civic Beauty.

To residents who have adequate water supply for sprinkling and gardens, the following suggestions will prove helpful:

1. Purchase only short stocky branched dwarf hybrid petunias. Tall spindly bargain close-outs will prove a costly investment.

2. For sunny locations choose brightly colored petunias.

3. White petunias do well in the shade. This was proved last year by plantings at the residence of Dr. William Winter on State St.

4. When possible, plan with the neighbors in your block to choose the same color of petunias.

5. Avoid planting tall growing plants at the curb. These will be attractive elsewhere in the yard.

6. When tulips have died down, loosen the soil to a depth of six to eight inches and plant the petunias 8 to 10 inches apart in the lane. The next week remove top buds to promote bushy growth.

7. Water plants heavily once or twice a week. The following day cultivate lightly with a hand weeder to keep soil porous and to conserve moisture.

Miss Rogers who had headed the Holland Council for Civic Beauty for several years said residents have been most cooperative in previous years, but the council feels this year that it would be unfair to ask people to plant petunias when water is at a premium. In previous years each person living on tulip lane was contacted and received literature on lane plantings.

But next year with an adequate water supply available, the petunia program will be promoted with greater effort and residents are asked now to think in terms of more petunia plantings than ever in 1957.

Besides Miss Rogers, council officers are Ray Wenke, vice president; Mr. John K. Vander Broek, secretary, and Kenneth Zuverink, treasurer.

## Scouts and Explorers Attend Summer Camps

Holland area Boy Scouts and Explorers are attending both of the Grand Valley Council summer camps, Camp Ottawa at Newaygo and Camp Shawanodsee on Duck Lake near Whitehall.

Troop 6, First Reformed Church and Troop 33, Hamilton, are camping at Ottawa. Troop 12, Trinity Reformed Church, attended Ottawa's opening camp period last week under the leadership of Russel Hornbaker.

According to camp officials more than 2,000 boys will attend the two camps during the 14-week season. A well-trained staff of 60 counselors are employed at the two camps.

## Escapee Captured

GRAND HAVEN (Special)—State Police Sgt. Milton Swingle Wednesday night apprehended Wayne Eldred, 20-year-old escapee of Berrien county who walked away from a work detail a few days ago. The man was apprehended in an outhouse in Muskegon township.

## New Jail, Court House Addition Included in Plans

### Legal Question Balks Supervisors; Action Will Come Next Monday

GRAND HAVEN (Special)—Ottawa county voters probably will be given an opportunity to decide on an addition to the court house and a new jail at Grand Haven in the coming primary election in August or possibly the general election in November.

This course was strongly indicated at the first meeting of the Board of Supervisors Monday in Grand Haven where it was generally agreed the best way of financing such a project would be to levy an extra mill for four years to finance the projects. The millage increase was generally believed preferable to a bond issue.

There appears to be some question on the legality of such a vote at a primary election, and the question is now under study with reports, at the next meeting of the board next Monday. Ordinarily the board would have met today, but the meeting was postponed because of the welfare convention in Marquette June 27 through 29 and the fifth district convention in Muskegon Thursday.

Proposed plans for the court house addition, the "annex" in Holland and a second unit in Grand Haven to include a jail were submitted by the architectural firm of Koteles and Vander Meiden of Grand Haven.

The three-unit program calls for a court house annex at the northwest corner on Washington St. in Grand Haven which would house the health department, office of the probation court and the education department; the "branch" at Holland which would house the welfare department, bureau of social aid, health department, space for the sheriff for issuing licenses, offices for Mrs. Ruth Van Duren who is a psychiatric social worker and Probate Court Agent Avery Baker, and office space for the prosecuting attorney. The other unit in Grand Haven would be a new jail.

Estimates list \$140,000 for the first annex, \$90,000 for the Holland building and \$420,000 for the jail. Levying an extra mill would bring \$167,000 a year or \$680,000 over the four-year period. At present the county has \$61,000 in its building fund.

Available figures from the state list the cost of a jail at \$6,000 per inmate. The present jail can house 32 inmates and should be 40 but in the future 70. Figuring 70 occupants, the cost would be \$420,000.

Mayor Robert Visscher of Holland asked architects if there were any provision for the detention of prisoners in the Holland building and was assured there were no plans for such service. Mayor Visscher said Holland residents had voiced objections to any plan for keeping prisoners in the building.

Supervisors were informed that a re-hearing would be held before the Holland board of appeals on rezoning the property on 12th St. near Holland's City Hall for the auxiliary county building. Such a move requires a two-thirds majority of the total membership, and the vote at the initial hearing last week was 3 to 1 with one member absent. Three votes out of five constitutes a 60 percent majority whereas a 66 two-thirds majority is necessary. Application for a re-hearing already has been filed and a meeting will be set at such a time when all five members can be present.

A communication from W.H. Nestle, state inspector of jails, stated that the Ottawa jail was inspected April 26 and was found to be in the same condition as it was in 1955. Nestle insists on a full-time night man and said if this is not complied with "we will find it necessary to close the jail."

The communication also pointed out that the physical condition of the jail is hazardous and the brick around the top under the eaves of the outside wall is deteriorating rapidly because of defective eaves. Nestle pointed to three escapes and said it would be a waste of time to repair the jail. He strongly recommended some thought be given to raising funds for erecting a new jail. The report was referred to the sheriff's committee.

## Traffic Fines Paid

Paying fines in Municipal Court the last few days were Donald Lucas, of 519 Michigan, stop sign, \$7; Edwin Nyland, route 1, passing on right, \$10; Roger Dale Howard, of 77 River Hills Dr., speeding 40 in 25-mile zone, \$22; Minerva O. Banda, of 525 Chicago Dr., improper backing, \$12; Olivia Banda, of 525 Chicago Dr., no operator's license, \$5; Budd Eastman, of 214 Scotts Dr., right of way through traffic, \$12; Jeff Cox, of 1746 West 32nd St., speeding 35 in 25-mile zone, \$18. Jia Mae Jennings was referred to traffic school when arraigned on a stop street charge.

## Water Safety Program Sought In Ottawa County

Request Is Referred To Safety Committee, Sheriff's Department

GRAND HAVEN (Special) — A strong appeal for an effective water safety program for Ottawa county was made to the Board of Supervisors Monday. Appearing were County Safety Director Avery D. Baker, City Manager R.V. Terrill of Grand Haven, Robert Beardsley of the Spring Lake Yacht Club and Robert Vandenberg of the Grand Haven Harbor commission.

Upshot of the report was that there seems to be a lot of statistics on the books but nobody to enforce them. Baker said juveniles too young to drive cars operate speed boats on the lake. Vandenberg said several years ago the Coast Guard worked with the police department in patrolling the harbor and waterfront, but withdrew on orders of district headquarters because patrolling for a municipality was not a proper function of the Coast Guard.

The request was referred to the safety committee and the sheriff's committee for study and investigation. Because of the short season, and the need for extensive study it was unlikely that anything would be accomplished this summer.

Chairman Roy Lowing announced Monday that he was adding civil defense duties to the county safety committee, hereafter to be known as the Safety and Civil Defense Committee.

Lowing also announced his resignation as a member of the special appraisal committee and appointed William Koop, Holland's city assessor, as his successor.

Bids from three appraisal firms for county-wide appraisals which also would include Holland and Grand Haven cities were opened. J.M. Clemmshaw Co. of Cleveland was low with \$121,400. Others were Cole-Layer-Trumbull Appraisal Co. of Dayton, Doan Appraisal Co. of Des Moines, Ia. No action was taken.

Dr. Ralph Ten Have, director of the county health department, informed the board that a full-time school dentist is now working for the county. Dr. Clifford L. Norcross has closed his Grand Haven office. Clinics are operated in Holland Junior High School and in Grand Haven Central School with six months devoted to each, alternating on three - months periods.

Dr. Ten Have also said Ottawa county could join Kent county in an alcoholic rehabilitation program at a cost of about \$5,000. The matter was referred to the health committee to report at the October session.

The board approved an expenditure of \$6,000 for necessary improvements at the county infirmary ordered by the state fire marshal. Currently there are 56 patients at the infirmary of whom 12 are bedridden or unable to walk. There also are 10 boarding patients. The infirmary was built in 1886 and a women's annex was built in 1929.

The board also considered a request for setting a special election for incorporating Ferrysburg as a fifth class city. To allow certain residents of the area to present opposing views, the matter was held over until next Monday.

## Judge Sentences Three to Prison

ALLEGAN (Special)—Circuit Judge Raymond L. Smith Monday sentenced three persons to Southern Michigan Prison, a fourth to a 30-day "weekend term" in the county jail and placed another on probation.

## Hunderman-Coffey Rites Read

Mr. and Mrs. Menno H. Hunderman (Van Der Hoop photo)

Baskets of yellow carnations and white gladioli, candelabra and palms decorated Diamond Springs Wesleyan Methodist Church Friday evening, June 15, for the double ring wedding of Miss Doris Coffey and Menno H. Hunderman. The bride is the daughter of Mrs. Eva Coffey of Diamond Springs and the groom is the son of Mr. and Mrs. Nicholas Hunderman of Byron Center.

The Rev. Harrison Wingar performed the rites. Robert De Young was organist and the Rev. Carl Coffey, brother of the bride, sang "O Promise Me" and "The Lord's Prayer."

Given in marriage by her brother, Alvin Coffey, the bride wore a ballerina-length gown of white tulle and net featuring a portrait neckline outlined with sequins and seed pearl embroidery. A pleated net front panel cascaded from under the lace peplum. Her imported illusion veil fell from a pearl and sequin tiara. She carried a bouquet of lavender orchids and white carnations.

Mrs. Hazel Pepper, sister of the bride, as matron of honor, wore a ballerina gown of aqua nylon over satin and carried a colonial

## Tempo of Boating Activity Climbs During Balmy Summer on Macatawa

"Wherever particular people congregate," may be a well-known cigarette slogan, but at Macatawa, the people that congregate are sailors—all sizes and shapes, from business men, professors, doctors, lawyers and merchant chiefs to the kids that sail the Nippers.

At Jesieks, one of the largest marinas on the Great Lakes, sailing and boating take on an added glamor. Naturally, many of the cruisers and speed-boats are made by Chris-Craft, a local manufacturer. Other well-known names include Mathews, Owens, Roamer, Lyman, Higgins, Century and Richardson.

Of interest to many people are the unusual occupations of some of the boat owners. Dier E. Clark of La Grange, Ill., who owns the 56-foot cutter Nahma is a captain in the U.S. airlines who flies between Chicago and the coast.

Kreigh Collins of Grand Rapids, the creator of the comic strip "Kevin the Bold" is one of the saltiest of the group. He and his wife and sons use their 30-foot seabird "Argonaut" as soon as they can put it into the water. They live on board most of the summer.

A 40-foot ketch, which went into the water last week is the realization of a dream of Russ McKee of Lansing, former Holland Evening Sentinel reporter and now employed by the Michigan Department of Conservation. McKee and

his partners have completely reconditioned the boat he purchased last year and plan to do quite a bit of sailing this summer before they take the boat on an extensive trip.

Easy to confuse is the position of two families who own a 38-foot express cruiser. Mr. and Mrs. Lew Withey are living "aboard" the boat while the other family, the Harold Sears are "abroad." Both families are from Grand Rapids.

A delight to all lake shore residents is the houseboat "Bloomin' Barge" which is owned by Donald Winter of Holland. The boat is built on oil barrel drums and boasts a neon sign and television. It is towed all over the lake by a 24-foot speedboat. Other boating enthusiasts in the Brooks family (Mrs. Winter is the former Janet Brooks) are Mr. and Mrs. Philip Brooks, who enjoy their 24-foot express cruiser "Bottletops." The Jim Brooks children sail a Nipper.

Harry Jones, a Grand Rapids contractor, built a 30-foot cruiser during his spare time. He calls it the "Jolly Jones," and probably has more fun in it than many boat owners who never tried shaping and sanding and scraping.

One of the best known boats in the Macatawa Bay Yacht Club fleet is still missing from her familiar slip at Jesieks. It is the 55-foot yawl, "Hilaria," owned

and skippered by Hugh Schadeldelee, who is expected here around the middle of July to participate in the big races. The Hilaria is still in Florida, where she competed in many winter races.

Relaxing on weekends on their 42-foot schooner "Nomad" are Dr. and Mrs. Robert H. Trimby and family of Lansing. They plan to cruise later in the summer. Dr. Trimby is a well-known Lansing pediatrician.

Dr. Max Finton of Kalamazoo, takes time out from his busy practice by boarding his 42-foot cruiser "Mermex." Dr. Finton and his party will leave this weekend to cruise in the North Channel.

The Bel-Mer, familiar to everybody on Lake Macatawa and Lake Michigan is away from her home port this week. Mr. and Mrs. Warren S. Merriam and a party are aboard the 38-foot yawl cruising in the North Channel.

Dave Marvin of Three Rivers has his 30-foot sailboat "Nanka Marne" in the slip here for the summer, living on the boat some of the time and sailing in the area. An Indiana man, E. B. Maire of Goshen is set for some of the big boat races with his 50-foot yawl.

The E.R. Parrish family of Grand Rapids is spending quite a bit of time on their 30-foot cruiser, "Tee Pee." Harold L. Par of Moline, Ill., who spends the summer at the Castle has a 24-foot sloop he enjoys sailing.

(In one of the slips this week is "Wee Dollap," the 40-foot cabin cruiser belonging to Howard Par of Kalamazoo. Next week they pull up the anchor and leave for a cruise.

Preparing for the big boat races

this season is Charles Phelps and his 40-foot cutter, "Corvette." Phelps from Lansing has entered many of the races under the MBYC flag.

The phones at the shipyard ring continually with new arrivals and spaces to be used at the dock are listed on the huge chart. The boat sheds and slips might well be classed as a "floating city."

## Drivers Given Tickets In Separate Accidents

GRAND HAVEN (Special) A car was considerably damaged at 8 a.m. Tuesday when it skidded into a guard rail on the viaduct north of Ferrysburg in Spring Lake township. The driver, Henry Van Oordt, 67, Grand Haven, received a ticket from state police for excessive speed.

At the same time city police were called to Seventh St. where a car driven by George Arens, 48, route 2, Spring Lake, hit a light pole. Arens claimed an oncoming car was traveling over the centerline and forced him off the road. He received a ticket for failure to have his car under control.

## Marriage Licenses

Ottawa County  
John Lawrence Damber, 19, route 5, Allegan, and June Eileen Moeller, 17, Holland; Jerome W. Visser, 21, route 2, Hudsonville, and Kathleen Tubergen, 18, route 2, Dorris; Donald Sloothak, 20, route 4, Holland, and Muriel Van Houten, 18, Grand Haven.

## Weather Ideal For Resorters

Warm weather has brought many resorters to the cabins and motels in the area. Some have interesting occupations and come from widely separated sections of the country. The season is off to a good start. Two young navy officers, recently discharged from the service, spent a week at Lakeshore on Lake Macatawa. Mr. and Mrs. W. N. Penney of Clayton, Mo., their son Bill Penney and his navy buddy, Richard Eri, who spent much of their navy duty in Guam and Japan, tried their luck at water skiing.

Mr. and Mrs. Guenter Ahling of Cincinnati, Ohio, and their seven-year old son, Frank are spending three weeks at Lakeshore. The Ahlings came to the U.S. two years ago from Germany, where he was a construction engineer.

After learning that the Hotel Macatawa was torn down, Mr. and Mrs. A. W. Hendrickson of Indianapolis, Ind., settled on the Vans' resort. Their son and daughter-in-law, Mr. and Mrs. R. W. Hendrickson, also of Indianapolis, will be here for a week.

Entertainment includes shuffleboard, barbecue suppers and boating. The saps, a fish found along the California coast, is called a "sing-ing fish" because of the peculiar humming noise that is made by its air bladder.

## PUTTING A UNIFORM ON PREACHERS

The National Council of Churches in America has started out on a campaign to determine "what it takes to be an effective minister." Its name is the "Educational Testing Service": the headquarters of the movement are in Princeton, N.J.; the job is starting out with an appropriation of \$85,000.

In other words, the idea seems to be to put a kind of mental uniform on the Protestant preachers of America. The National Council of Churches is not confined to one denomination; with some exceptions, it is composed of the general run of Protestant ecclesiastical bodies. The avowed purpose of the movement is of course not to make the preachers of all the denominations "tick" in the same way, but that idea is probably not very far from the basic thinking of the high command of the movement.

Trying to make the rank and file of the workers in any profession more effective is of course a laudable endeavor; there is usually room for improvement, and the earnest workers in any profession will do all they can to become acquainted with the newest techniques.

But the danger is always that of a dead uniformity that leaves little room for the development of individuality in the profession. And individuality in a preacher, as in a teacher, is precious. Uniformity of techniques can never make up for that creative personality that grows out of the individual initiative of the preacher.

In education the trend toward uniformity is at present growing into a curse. Many teachers' colleges are trying to put uniforms on the minds of all teachers, endeavoring to make them all as alike as peas in a pod. The theory is that if the teachers all learn the same techniques of teaching, education will be advanced.

But the fact remains that the mind of the born teacher will never submit to being put into a uniform. The great teacher invariably ignores the rules and regulations of the uniformity addicts, knowing that learning is caught by the student, not imparted to him. A really good teacher will find his own way in spite of the rules and regulations.

And it is almost certain that the real preacher will be at his best if he does not allow himself to be put into a mental uniform. His best bet almost certainly is to give free play to his normally developing personality. The efficiency of uniformity will almost certainly not compensate for the personality of a born preacher. What do you think?

## Sunday School Lesson

Sunday, July 1  
Third Quarter

Writings of Faith and Encouragement.  
Nine Letters of Faith and Encouragement.  
Writings for Perilous Times.  
— I Peter 2:19-25;  
Jude, verses 3, 17-25

By C.P. Dame  
(Based on copyrighted outlines produced by the Division of Christian Education, National Council of the Churches of Christ in the U.S.A. and used by permission.)

During this new quarter we are going to study various passages from nine epistles. The lesson text of this lesson is from two epistles — I Peter and Jude. In the study of this lesson please remember that the words were sent to persecuted Christians.

I. To suffer wrongfully is hard. The first section of the lesson is from I Peter. This letter was sent by the Apostle Peter to persecuted Christians who were surrounded by pagans who suspected them. Some of the Christians were slaves. Peter told these Christians that it was no credit to them if they suffered patiently for wrong-doing but to suffer being innocent and do that patiently, that is "acceptable with God."

These Christians were reminded of the fact that they were called to suffer for things they did not do. The believers were directed to Christ who also suffered and gave us an example. When he was reviled, he did not revile again "but committed himself to him that judgeth righteously" — he left everything to God.

Christ suffered for our sins. We cannot make atonement for the sins of others but we can follow the patient attitude Christ manifested. And it is possible for all believers to find rest and trust in the truth that they have eternal security in Christ the Shepherd of our souls. There are Christians in our world who are persecuted who gain strength from these words written a long time ago.

II. We have a faith that is worth contending for. The Christian Church always faces two kinds of enemies, those who are on the outside and those who are within. The Book of Jude, written by Jude, a brother of Jesus, some time between 70 and 80 A.D. was directed against false teachers. There was controversy in the early church because false teachers soon appeared and proclaimed their errors. Jude urged true believers to "contend for the faith which was once delivered unto the saints." He would not have penned those words if contending for the faith was not needed.

We still must contend for the faith. The faith of the early church centered in Christ—his life, death, resurrection, ascension and glorification. Christ was central in the preaching of the early church.

Jude describes the enemies of Christ, calling them mockers who walk "after their own godly lusts," sensual people who do not have the Spirit. In contrast with these apostates, Jude challenges his readers to live on a high Christian plain. Jude gives counsel which we still need. Christians are urged to build themselves up in the faith. They do this by "praying in the Holy Ghost." Without prayer no Christian will ever build himself up. Nothing happens to a person nor to a congregation if there is no prayer. There are at least two kinds of prayer—the one is a formal type, the other is Spirit-directed.

The Christian must also keep himself in the love of God, that is stay where God can love him and bless him. The best way to guard against sin is to abide in the consciousness of God's love. It is also expected of a Christian that he should be "looking for the mercy of our Lord Jesus Christ unto eternal life." We need the Lord's mercy and the power of him who is able to keep us from falling and present us without blemish before the presence of his glory, to the only God, our Saviour through Jesus Christ, our Lord, be glory, majesty, dominion, and authority, before all time and now and forever. Amen.

1. Some Christians still suffer for their faith.  
2. Christ is our example as well as our Saviour.  
3. We must contend for the faith in love.  
4. Christians must always keep on building themselves up in the faith.

## Christian Endeavor

July 1, 1956

By Raymond E. Weiss  
Abraham, the Friend of God  
and Later Abrahams

Gen. 12:1-5, 18:1-8, James 2:23

To the leader: In the series of topics, of which this is the first, we are to study the lives of men of the Bible who were pleasing to God in some particular way, and then to discover and discuss the lives of other men and women who in a similar way followed God. One of the best ways to work out these topics is to study the life of the Bible personage first, making notes of those things in his life that pleased God, then think of others who exhibited these qualities of life. Ask various members of the society to speak 3-5 minutes on the life of the persons you have picked, instructing them to show how these persons were like your particular Bible personage in character.

You might begin to prepare this week's topic in the following manner: Read the scripture listed above; Note the title of the topic; Abraham was the friend of God. Why? Consider what Jesus said about how we could be His friends in John 15:14. Could this be why Abraham was the friend of God, because he obeyed God? (Gen. 12:3, Heb. 12:8) It seems quite clear that this obedience must be the answer. Something else important is said of Abraham however, and that is that He believed God. (Gen. 15:6, Rom. 4:1-5, 17-22, James 2:23) That was the source of his obedience. True faith results in obedience.

Note the following difficult instances when these characteristics were clearly evident in Abraham's life:

1. When God told him to leave his homeland and go to an unknown country (Gen. 12:1-4, Heb. 11:8-10)

2. When God promised him a son and innumerable descendants, promising to make of him a great nation. (Gen. 15:1-6, Rom. 4:1-5, Heb. 11:11-12)

3. When God gave him the ordinance of circumcision. (Gen. 17:9-14, 21:4)

4. When God asked Abraham to sacrifice Isaac. (Gen. 22:1-18, especially v. 18, Heb. 11:17-19, James 2:21-23)

What pleased God in Abraham's life was his absolute trust in Him which resulted in obedience to His commands. Who else was like this? You might consider Samuel Zwemer, the pioneer missionary to the Moslem people, William Carey, the pioneer missionary to India, Hudson Taylor, a pioneer to inland China, and David Livingstone, the pioneer to the heart of Africa. Your pastor or your local library will have books which will tell something of the lives of these men and of others of whom you or he may think who were men of faith and obedience.

## Zeeland Records 4-3 Win to Stay in League Lead

(Two runs in the top of the ninth inning) gave the Zeeland Chix a 4-3 win over the Holland Flying Dutchmen Monday night in a Southwestern Michigan Baseball League game at Riverview Park. Zeeland remained tied with South Haven for first place in the league, pushing its mark to 4-2 while the loss left Holland in the cellar with a 2-4 record, tied with Fennville.

Howie De Jonge, Chix second baseman, lined a hard single through the box in the ninth to score Tom Bos and took second base when the ball got away from center fielder Max Doolittle. Bos was running for Gene Talsma, who had singled.

De Jonge scored the winning run a few moments later when Tiger Teusink bobbled a chance at second base.

In one of the tightest games of the season for both clubs, a couple of lefties, Wayne Westenbroek for Holland and Jim Kaat for Zeeland, locked horns in a pitching duel.

Westenbroek, showing the best control of the season, allowed Zeeland only two hits in the first six innings and the Chix didn't threaten.

Jack Faber, Chix shortstop, picked off one of Westenbroek's offerings in the seventh and put the ball in the left field grandstand with Gene Talsma, who had singled on base.

Fabers' blast tied the score and set the stage for the final two innings of hectic action.

Doolittle scored Holland's first run in the first inning. He was safe on an error and came home on Teusink's single. He also scored the second Dutch run in the third. After socking a double, he scored on Tony Wentzel's single.

Holland went into the lead in the eighth, 3-2, on a run by Bob Van Dyke, who led off with a single. He stole second and was driven in by Del Grissen.

The Dutchmen threatened again in the ninth getting runners on second and third but didn't score. Westenbroek gave up six hits and fanned 11. Kaat struck out nine and allowed nine hits. Bob Van Dyke relieved Westenbroek in the ninth and walked two batters but both were retired on the bases.

Faber and Talsma each had two hits for Zeeland while Kaat and Howie De Jonge had one.

Big Tony Wentzel led the Dutchmen with three hits while Merle Human had two and Doolittle, Van Dyke, Teusink and Grissen had one safety.

Line score:  
Zeeland 000 000 202 4 6  
Holland 101 000 010 3 9  
Batteries: Kaat and Wiersma; Westenbroek, B. Van Dyke (9) and R. Van Dyke.

## Planes Available For Sowing Seed

Ottawa county farmers can take advantage of aerial seeding if they plan to sow a cover crop in their corn fields during the last cultivation.

Plans are now being made to carry out the project in a method similar to the one used last year. The Muller Crop Dusting Service, at the Bangor airport, will furnish the airplane for the job. It will cost the farmer \$1 per acre plus one cent per pound for each pound of seed used. However, the farmers will be required to make their own arrangements for the seed.

The seedings available are 10 pounds per acre of domestic rye grass, 10 pounds of inoculated sweet clover and 10 pounds of domestic rye grass per acre or one bushel of common rye per acre.

The Vo-Ag instructors of this area assisting are Harry Harris of Coopersville High School, Jerry Adler of Holland High School and Roy Miller of Hudsonville High School. Also the soil Conservation District in the Federal Building at Grand Haven is cooperating with the Vo-Ag department in the passing out of additional information with the application blanks.

## Coast Guards Rescue Boaters

Coast Guardsmen helped to avert two water tragedies during the weekend.

At about 1 p.m. Sunday a 14-foot outboard carrying two fishermen was swamped and turned over when it was hit by the wake of a passing speedboat. One of the occupants was Harry Brown, about 67, from Lowell, Ind., owner of the boat who is vacationing here at a cottage near Ottawa Beach.

Brown told Coast Guardsmen that he and a fishing companion were just off the Red Buoy in Lake Macatawa when a fast, unidentified speedboat passed. The wake hit the boat and pulled the stern under. The boat filled with water and turned over and the two men clinging to the seat cushion-life preservers until the Coast Guard pulled them from the water and loved in their boat. Neither suffered any ill effects. Only items lost were two new fishing rods.

At 3 a.m. Sunday, the Coast Guard crash boat was called out when Lake Michigan residents spotted a flashing light at the south pierhead. Walter Sears, commanding the Holland station, said a 20-foot speedboat operated by Al Myers of Grand Rapids had run out of gas while he and three companions were approaching Holland harbor from Saugatuck. Winds were high at the time and the boat was approaching the rock beds. The four occupants were rescued and the boat was towed to the station.

Another call was received at 4 a.m. Sunday from Grand Haven headquarters requesting search for an overdue 27-foot cruiser operated by Stanley Dalt and owned by Richard Saucher of Muskegon. The boat was later found in the bayou at Spring Lake.

## Bakery Executive Succumbs at 65

Word was received here this week of the death on May 10 of Theodore J. Van de Kamp, co-founder and executive vice president of Van de Kamp's Bakeries in Los Angeles, Calif.

It was largely through the efforts of Mr. Van de Kamp that the bakeries sent a large anniversary cake to Holland during the 1954 Tulip Time festival celebrating Tulip Time's 25th anniversary.

The huge decorated cake sent greetings from the poppy clime on the west coast to Michigan's Tulip Time in Holland. It was eaten at a joint service club luncheon May 14, 1954, in Hope Church.

Van de Kamp, 65, was born in Milwaukee and rose from an enterprising newsboy on the north side of Milwaukee to a career as one of the nation's best known bakery executives. He became actively identified with Van de Kamps at its inception in 1915, and the bakery development reads something like the Horatio Alger stories which Van de Kamp read avidly as a youth.

It started with a \$200 investment to open a small Van de Kamp potato chip store in downtown Los Angeles, with Van de Kamp and his brother-in-law, Lawrence L. Frank, each putting up \$100. At the end of the first year there were five potato chip stores in downtown Los Angeles. Baked goods were added later and the firm today has 234 bakery stores, four coffee shops and one drive-in restaurant in the greater Los Angeles area and 56 bakery stores in the Seattle-Tacoma area.

## Butler and Rich Hurt in Mishap

ESCANABA (Special)—W.A. Butler, publisher of The Sentinel, and Philip T. Rich, publisher of the Midland Daily News, were injured in an auto accident about a half-mile east of Ogontz River on U.S. 2 at 10:10 p.m., Wednesday, when Butler's car went out of control and turned over in a ditch after trying to avoid hitting a porcupine.

Butler, who was driving, received bruises and cuts on his left knee that required stitches. He was treated by Dr. Wilbur A. Towsley of Midland, who was following about 300 yards behind in Rich's car along with Howard H. Arbury, Midland Insurance man.

Rich received a gash in the left side of his head that required stitches and a bruised chest. He was taken to St. Francis Hospital in Escanaba, where X-rays were being taken this morning. Dr. Towsley and Dr. William LeMire of Escanaba treated Rich at the hospital.

All four men were going to God's lake, 500 miles north of Kenora, Ont., on a fishing trip. They planned to drive to Kenora by way of Duluth, then fly to the fishing site. Butler left Holland at 10:30 Wednesday morning.

Butler saw the porcupine in the road ahead and tried to swerve and miss the animal, but his left front tire struck the porcupine. The car whipped to the right on the wet grass and into a ditch, overturning. Damage to the 1956 model car was estimated at \$1,500 by State Troopers Frank Mallette and Charles Weirman of the Gladstone post. It was drizzling at the time.

Both Butler and Rich were "feeling fine" this morning and planned to continue on the trip if X-rays of Rich's chest show nothing serious.

## Easter Marine Set For July Traffic

With the Fourth of July holiday coming up, emphasis is on boating of all kinds. Marine services like Stanley Easter at Jensen Park are up to their ears in getting all the craft ship-shape.

Among boat owners in Holland and other points in Michigan, Indiana and Illinois using Easter's service are Professor Morrette Rider of Hope College and his new 19-foot Century Viking, Willis A. Diekema has his 21-foot Century Coronado cruiser at the dock of his Waukazoo summer home.

The Thomas Fitzgeralds of Indianapolis have a 19-foot Century at their cottage at 1977 South Shore Dr. The Fitzgeralds are long-time Lake Macatawa resorters.

In the 32 permanent slips at Easter's are L.J. Perry of Kalamazoo and his 32-foot cruiser; a 40-foot Mathews belonging to Robert A. King, Jr. of Kings Mills, Ohio and a 26-foot Chris Craft speedboat owned by Ben White of Kalamazoo.

The Dave Gardners of Lansing keep their 24-foot cruiser in the slip and live aboard during the weekends. They just returned from a cruise to Frankfort.

Popular this summer are the outboards and water skiing equipment that Easter rents to resorters. Skiers can get all the equipment they need for as long as desirable. Newest piece of equipment is a skitow line made of yellow plastic material that floats in the water and is easily visible. Plastic numbers and letters, Coast Guard approved, for boats is another new item.

Working with Easter is his son, Eddie, 21, who grew up on the water. Easter says he is well satisfied with the season so far and looks for continued interest in boating activity.

## Forestry Expert From Pakistan Visits Local Plants

Technical aid is one of the diverse programs granted by the United States government for developing the economy and industrialization of countries that need it.

Abdul Malik Chavdhury, 30, working for the Government Forest Service in East Pakistan, was welcomed to Holland Tuesday to visit Baker Furniture Co. Inc. factory as a part of his educational tour in various cities famous for wood work and better methods of production.

Chavdhury, a graduate of the University of Calcutta, Class of '45, was invited and sponsored by the International Cooperation Administration in the United States to stay for six months. He had the chance under this grant to visit Washington, Oregon, California, Michigan and other states for acquiring information on forests and lumber industries.

During most of his visit, Chavdhury, who also earned his Diploma of Pakistan Forest College in 1948, has attended the United States Forest Products Laboratory in Madison, Wis.

"This Institute is the best in the world," he said, "students and experts come to it from all over the world to study and acquire experience." The sun-burnt Pakistani feels that the technical aid to his country by the United States government for training personnel and experts in technical and scientific matters is one of the most beneficial grants to his nation.

Tuesday morning, Chavdhury went through the case-goods plant comprising one of the two factories of Baker Furniture, which hires around 450 workers. In the afternoon, he visited the four-floor chair plant and the Baker museum. Various operations in mechanical and technical mass production were explained in detail to him by Lavern Rudolf.

"I presume Mr. Baker had spent lots of money and much effort to gather these diverse manufacturers from all over Europe to place them at the disposal of his countrymen," he said.

Chavdhury also plans to visit the Baker show room and other lumber factories in Grand Rapids before he leaves this country early next month.

Asked about the impact of democracy and democratic institutions in the United States on him, Chavdhury said that he, as a Moslem (Mohammedan), feels that his religion is, and had been, always for democracy. He plans to go to Mecca as a Moslem pilgrim before he returns to Pakistan, if he can reach the pilgrimage season.

He feels that he has "moral and legal obligations" which push him to return to his country to serve his people.

"I like the United States very much, but my countrymen back home need my humble efforts," he said.

## Safety Lanes Set For This Weekend

The safety check lanes will be in operation again Friday and Saturday from 9 a.m. to 8 p.m. on 12th St. between River and Central Aves.

Police Chief Jacob Van Hoff said 1,051 cars were inspected last weekend in the two days the lane was in operation.

Van Hoff urged drivers to take advantage of the free voluntary check. In the future motorists will be stopped and those found to have defective equipment on their cars will receive tickets.

A similar lane will be set up in Allendale Saturday from noon until 8 p.m. Zeeland police said the turnout for their safety check last weekend was very poor.

Police said very few cars were checked and civilian help from service clubs failed to materialize leaving all the work to two officers.

The same situation occurred here in Holland when only a few service club members showed up to help.

**Guy Can't Even Get Night's Sleep**  
A report of a drifting rowboat in Lake Macatawa early Saturday catapulted Ottawa County Deputies and Coast Guardsmen into action shortly after 5 a.m.

Deputies first were called and spotted the boat about 150 feet off shore. They could see fish poles jutting out from the side of the boat and a lantern still burning in the bow.

Coast Guardsmen and deputies used field glasses and could see no one in the boat.

They immediately boarded a cruiser and raced to the scene. As they drew alongside they could barely make out a figure lying under the seats.

"Man, what's the trouble," the sleeping fisherman asked. He was told to blow out his lantern. He did. Everyone then went back to sleep.

## Henry Geerlings And Daughter Drowning Victims

Family Was Spending Week at Cottage In Upper Peninsula

ZEELAND (Special) — Henry A. Geerlings, 49, president of the Zeeland Board of Education, and his 10-year-old daughter, Mary Ellen, were drowned Thursday at 2:45 p.m. in the headwaters of the Tabquamenon River near Newberry.

The family had left Zeeland June 19 to spend a week at their summer cottage near Newberry. Mary Ellen and her 12-year-old

Henry A. Geerlings

Mary Ellen Geerlings

sister, Grace Ann, had gone into the river for a dip Thursday afternoon and called for help when they got near a deep hole in the river. Geerlings dived in and had Mary Ellen on his shoulder above water when he went down. Mrs. Geerlings, wearing two life preservers, waded into the river and also went under. She lost one preserver and barely managed to get out herself. Grace Ann managed to make shore by herself.

Then Grace Ann got a boat and she and her mother floated over the deep 18-foot hole where far down they could see Geerlings lying face down. They could not find Mary Ellen.

They sought help and some men working nearby came to the rescue and recovered the bodies in 45 minutes. The hole in the river was described as a swirling undertow of swift currents involving considerable silt.

The Geerlings have been spending summers at the site since about 1940.

Relatives here were notified about 5 p.m. and immediately a group of brothers and sisters left to join Mrs. Geerlings near Newberry. In the group were Alvin Geerlings, Mr. and Mrs. Jacob Geerlings, Glenn Bouwens and Mrs. Paul Van Eenennaam. On their arrival, Mrs. Henry Geerlings and Grace Ann were prepared to leave and the group immediately started on the return trip, arriving at Zeeland at noon Friday.

Besides being president of the Board of Education, Geerlings served on the building committee for several years. He was past president of the Lions Club and also served as secretary for a time. He was deputy district governor of district 11C of Lions International.

He was a member of the Zeeland charter commission and until recently was in business with his brother, Alvin, as Mobilgas dealer for Zeeland vicinity. He currently was employed in the office of the Herman Miller Furniture Co. He was a member of Second Reformed Church.

Geerlings, a charter member of the Zeeland Lions club, was scheduled to install new Lions last Monday night.

He is survived by the wife, Grace, and the 12-year-old daughter; four brothers, Jacob and Alvin R. of Zeeland, John of Holland and Martin of Drenthe; a sister, Mrs. Lawrence Klammer of Zeeland.

Mary Ellen is survived by her mother and sister and her grandparents, Mr. and Mrs. John N. Bouwens of Zeeland.

# PRIMER FOR AMERICANS

COPYRIGHT 1956.  
SIGURD S. LARSON

**Y**ou live in the United States of America. You are an American.

Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good—to keep it getting better and better all the time.

Why is America the way it is? What makes it a good place to live? The answer is simply this:

Throughout our history most Americans have believed that every person has certain *rights and duties* and *responsibilities*.

Americans have believed that there are certain things that people *should do*, and other things they *should not do*.

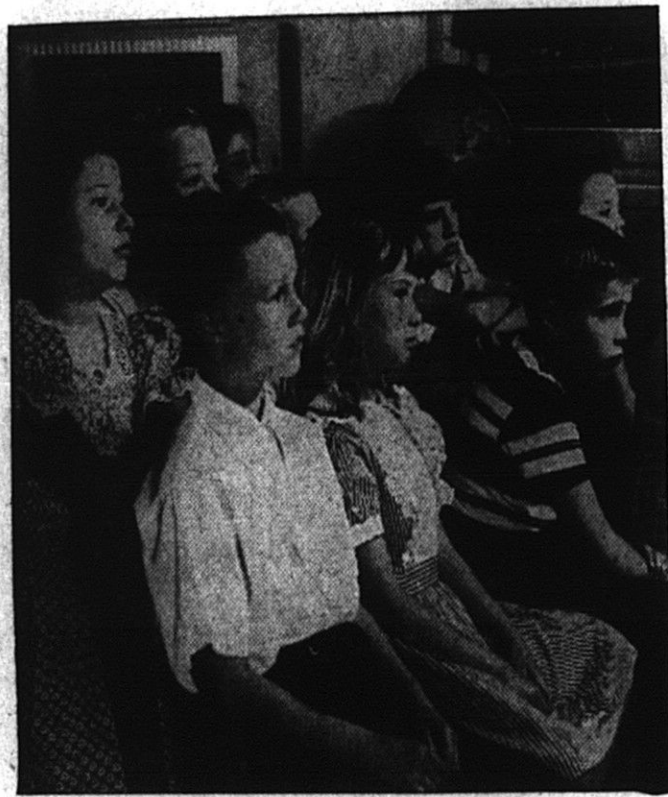

They have also believed in certain things that people *are*, and *are not*.

These things that people believe are called *principles*. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.

This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is.

If all of us learn and remember these principles—if we also guide our lives by them—then we can help to keep America growing better, and better, and better.

And if we follow these Principles of America, we can help make the world a better place to live in, too.

## The Principles of America are these...

### 1. Each Person is of Importance and Value as an Individual.

This is the cornerstone... the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance as a person, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two other principles that are also part of the foundation of Americanism.

### 2. We Believe that All Men should Enjoy Personal Freedom.

### 3. We Believe that All Men are Created Equal.

It is worth noting that the Declaration of Independence expressed the belief that "all men are created equal." It did not state or imply a belief that men develop equally or have equal ability, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without freedom. Americans have always believed the two should go together.

From the days of the Declaration of Independence and the writing of the Constitution, Americans have known that even though Life, Liberty, and other unalienable rights are granted to man by his Creator, they require some protection by man himself.

So, in our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals. And these principles play an important part in keeping America a good place in which to live.

### 4. The Right to Freedom of Speech.

This includes freedom of the press, of radio, of motion pictures, of every means by which man may express his thoughts on any subject.

### 5. The Right to Freedom of Assembly.

As we believe in the right of individual action, so we believe that individuals should be free to act together for the benefit of all. This is Democracy.

### 6. The Right to Freedom of Worship.

Not only is the individual free to worship as he will, but religions themselves are free and equal... regardless of their size or their beliefs.

### 7. The Right to Security of Person and Property.

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

### 8. The Right to Equal Protection before the Law.

As individuals are equally important, so laws must apply equally to all, without special privileges for any particular individuals or groups.

### 9. The Right to Freedom from Slavery.

This includes "the right to quit," for no individual may be forced to work for another.

### 10. The Right to Petition the Government.

The legally guaranteed right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

### 11. The Right to Vote for people of your choice.

This is the individual's most potent weapon in the protection of his rights and freedoms... a weapon that to be effective must be constantly and wisely used.

## The Principles of America hold that every man has...

### 12. The Right to a Good Education.

### 13. The Right to Live where he pleases.

### 14. The Right to Work where he wants to.

### 15. The Right to Join and Belong to an Organization.

### 16. The Right to Own Property.

### 17. The Right to Start his Own Business.

### 18. The Right to Manage his Own Affairs.

### 19. The Right to Make a Profit or to Fail, depending on his Own Ability.

There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles...

### 20. Every Man is entitled to Freedom and Equality of Opportunity.

### 21. Every Man may Earn his Living When, Where, and How he wants to.

## There are also Limiting Principles...

Principles of individual freedom sometimes clash with those of individual equality. Therefore our rights as individuals must be limited, and those limitations are themselves principles.

### 22. The Rights of any Individual shall not Interfere with the Equal Rights of Other Individuals.

Your right to swing your arms stops where the other fellow's nose starts.

### 23. The Rights of any Individual shall not Interfere with the Welfare of the People as a Whole.

Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

### 24. Every Individual owes Obedience to the Laws under which he Lives.

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

## Principles that are Patterns of Behavior...

Many of our principles of individual freedom and equality are guaranteed to us by law.

But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. They have stood the test of time. They have worked. They have become a basic part of the way we live and of the way we look at things.

These principles, too, are foundations of Americanism. They are as true, if not more true, today than they were in 1850 or in 1750.

If America stays free, they will still hold true in 2050.

### 25. Every Man shall be Judged by his Own Record.

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

### 26. Every Man is Free to Achieve as much as he can.

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

### 27. To Achieve anything, a Man should be Willing to Work.

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work and to work hard.

### 28. Achievement also Depends upon the Ability to do a Good Job.

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

### 29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

### 30. Security is the Ability of a Man to Provide for himself.

The only true security for any individual is the opportunity, the ability, and the determination to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

### 31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

### 32. Every Individual must Deal Fairly with other Individuals.

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

### 33. Fair and Free Competition is a Good Thing

Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.

### 34. Cooperation among Individuals is Vitaly Important.

PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

## Principles of Individual Responsibility...

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. Therefore, if we wish to remain free, we must faithfully fulfill our responsibilities as free men.

### 35. The Individual is Responsible for himself and his Family.

He must protect them and provide for their present and future well-being.

### 36. The Individual has Responsibilities to the Groups of which he is a Part.

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

### 37. The Individual has Responsibilities to his Country.

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

### 38. The Individual has Responsibilities to the World.

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

## For America's Future

Most of us are still confident of ourselves and of our country. We do not claim perfection. But we have faith in our ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life...

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

### 39. The only way we can Have More is to Produce More; and

### 40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.

If we, the people of the United States, want to have a better life, spiritually as well as materially...

### 41. We must stand firmly for our Beliefs, our Rights, our Principles.

WALT WHITMAN, writing nearly 100 years ago, put it this way:

"There is no week, nor day, nor hour when tyranny may not enter upon this country if the people lose their supreme confidence in themselves..."

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea...

## Is it With or Against the Principles of America?
