LONESOME TRAVELER — Wayne Lamer, 4, of 38 South Lee St., Zeeland, fondles a neighbor's turtle after his return home Monday from a 10-mile bicycle ride in quest of an adventuresome turtle hunt with his sister. He had traveled from Zeeland to

Harrington Ave. on South Shore Dr., but he didn't find his sister. He didn't find any turtles, either. They were both in Zeeland, three blocks from home. Wayne has on the same "hunting" gear he wore Monday — his shorts — no shoes and no shirt.

Boy Travels Afar On Turtle Hunt

Little 4-year-old Wayne Lamer of 38 South Lee St., Zeeland, went down the road, furiously pedaling his 16-inch bicycle without a concern in the world.

He had traveled over 10 miles Monday before he was returned home by Ottawa County sheriff officers to his parents, Mr. and Mrs. Raymond Lamer. And then they had to tempt him with a bottle of soda pop.

Wayne was traveling down South Shore Dr. — on the wrong side of the road — when deputies stopped him near Harrington Ave. and asked him where he lived.

"On my father's street," he said. And then he was off again, pedaling.

Deputies chased him down again, "bribed" him with the orange drink which he swallowed in two gulps — he was a thirsty boy after traveling over 10 miles — and took him home.

Wayne told the deputies he wanted to find his sister, Deborah, 8, who had left their Zeeland home with a neighborhood friend to get some turtles.

Deborah and her friend left the house about 9 a.m. Monday for a turtle hunt three blocks from home on 104th Ave. Wayne, of course, wanted to go, too, but his mother said "no," and kept him around the house.

About 10 a.m., she discovered that Wayne was gone. He, too, had gone in search of turtles. Mrs. Lamer searched the neighborhood and not finding him, called Zeeland police about 11 a.m.

About 12:30 p.m. police released the information to local radio stations and the fact that Wayne was missing was announced on the air. Mrs. Lamer received calls that Wayne had been seen at Montello Park and that he had been seen on 17th St.

Deputies were told that he was seen on South Shore Dr., and on cruising in that area, came across a small boy pedaling down the left side of the road.

It was Wayne.

He had gone over 10 miles by the time he was found at 1:15 p.m.

But how did he get from Zeeland to Harrington Ave.?

The answer: on his bicycle, of course.

The new office of executive vice-president was created to enlarge and strengthen the community development program. The new post does not supplant that of Secretary-manager, which is held by William Vandewater.

"The Chamber created this post to give a faster pace and broader base to industrial development in the greater Holland area. It is an expansion move," Giles said. Giles was selected for the post by the Chamber's board of directors last May, after they had spent several months reviewing the applications of over 40 candidates.

A high temperature of 94 was recorded on June 27, compared with 92 in 1959; 87 in 1960; 91 in 1961 and 90 in 1962. Less than a week before the high temperature reading, a low of 38 was recorded on June 21. Other recent lows for the month are 43 in 1959 and 1960, 42 in 1961 and 45 in 1962.

The average temperature for the month was 69.7, or 5.3 degrees above the average for June. This was just slightly less than the 70 degrees average in 1959, but higher than the 65.6 in 1960, 66.1 in 1961 and 69.4 in 1962.

Rainfall during the month totaled 2.05 inches, .81 inch below normal. The year 1959 had 1.29 inches, 1960 had 2.40, 1961 had 1.19 and 1962 was extremely dry with .95 inch.

BASEBALL TALK—Jim Kaat (right), of Zeeland visited his parents and friends in Zeeland and Holland Monday during an off day during the baseball season. The Minnesota Twins pitcher

Jim Kaat of Twins Visits Parents, Friends

Jim Kaat, Minnesota Twins left-hander, visited his parents and friends in Zeeland Monday and also stopped off to talk baseball in Holland before leaving for Detroit Tuesday.

Kaat, who is 8-6 this season, will work against Detroit in one game of a doubleheader Thursday. Kaat has a 3-4 lifetime mark against the Tigers including a 4-0 setback this year.

In Detroit he will be facing the hitter he regards as his toughest to pitch against in the league. It's Al Kaline, Detroit rightfielder.

The 24-year-old pitcher hopes to win four games a month in July,

August and September and this would put him in the 20-game class. He won 18 last year.

Looking at the pennant race, Kaat figured the Yankees are the team to beat. He noted the Twins have 13 game remaining with the league-leaders. The Twins have lost four of five games the teams have played this season and each of the losses has been by one run. Minnesota has never beaten New York in the season's series.

Kaat's roommate is Bill Dailey, acquired from Cleveland this year and the ace of the Minnesota relief corps. Kaat has hurried six

complete games this season and pitched 112 innings.

Elected assistant player representative for the Twins last week, Kaat assists Bob Allison listening to player's problems concerning major league parks such as bullpens, padded walls and painted seats.

An ardent bridge player, Kaat reports this is the pastime while on the plane flights around the league. He is in a foursome with Don Mincher, Allison and announcer Ray Scott.

Kaat has never hurled a shutout against Detroit and he is hoping to do so this season and maybe Thursday will be the day.

Mercury at 90 For Seventh Day

Holland residents continued to swelter Monday as the temperature climbed above 90 for the seventh day in a row.

Crowds of people jammed the beaches and parks in the area are filled to capacity. Water skiers and swimmers dot the waters of Lake Macatawa and Lake Michigan. Many others can be seen seated before window fans, or in chaise lounges in their backyards as resident and vacationing tourists seek relief from the current heat wave.

Holland State Park manager Lou Haney said that the lake warmed up to 65 degrees Monday, "the highest this season." The air is 79 there and campsites are filled to capacity, he says.

Camp permits are issued on a first-come, first-serve basis, and people are lined up outside the ranger's office waiting for them. Last week 217 camping parties were turned away. Park capacity is 194 trailers and 183 tents.

Stolen Cars In Accidents

Holland and Grand Haven law enforcement officers are looking for a man who stole two cars early Sunday morning and caused accidents with both.

The first car, owned by Allen Piersema of 47 Lynden Rd., was rolled over at 2:05 a.m. Sunday on Spruce Ct., after a Holland patrolman spotted the car on Eighth St. near the US-31 bypass and started chasing it.

The driver took off through heavy brush and was lost to the Holland patrolman. He was believed to have stolen another car from 76 Clover Ave., about a block from where the other car rolled over.

The second car was owned by the Central Farm Feeder Supply Co., of Zeeland, and was being used by Simon Simonsen of 76 Clover Ave.

The second car, a 1960 model, was next identified in a hit and run accident in Grand Haven at 7:15 Sunday morning. John Aerts of Grand Rapids told city police there that while he was waiting for a traffic signal on US-31 and Jackson St., the driver of the car in front of him backed up, hit his car, and then took off south without identifying himself.

Inspect Sites For Building

GRAND HAVEN — Proposed sites for Grand Haven's new \$500,000 post office and federal building will be inspected here the week of Aug. 19.

The U. S. government will advertise in area papers July 27 and the ad is being placed by the general services administration office at Chicago, Ill.

Proposals are to be sought for the sale or donation of a site at least 210 feet wide and 230 feet deep in the downtown area or in the immediate vicinity. Several sites are under consideration by a local committee.

The present post office and federal building was erected 58 years ago at Washington and Third streets and additions since then have doubled its size. The present building has been declared too small and in a poor location. It is "hemmed in" on the west by Security First Bank and Trust Co. and on the north by the public library and a large city parking lot.

A local committee has met several times to study possible sites and recently presented findings to the officials at Washington, D. C.

Owners of pieces of property aggregating less than the size required, but to which adjoining parcels may be added, are asked to offer such parcels in response to the advertisement.

Owners may submit their own proposals. Those submitted by agents must be accompanied by evidence of authority.

In April both the House and Senate public works committees approved bills asking for \$159,200 for the site and design an \$336,600 for the building. The new building will contain 17,000 square feet and the site must be big enough for postal motorized equipment and additional parking spaces for 30 vehicles.

Youth, 17, In 2 Crashes, Hospitalized

Edward James Mahan, 17, of 266 East 14th St., was in critical condition at Holland Hospital Saturday with injuries received when his car ran off the road early Saturday morning while being chased by a Holland police cruiser.

Hospital officials said Mahan's condition had "improved slightly" since he was admitted. He suffered a broken pelvis, broken ribs and lacerations.

Holland patrolman Glenn Geerts chased Mahan at speeds up to 100 miles per hour after Mahan's car nearly struck the police cruiser as Geerts turned around at the north city limits at Howard and North River Ave.

Geerts said Mahan drove off behind the Peoples Bank branch and Dykstra Drug Store in the suburban shopping district, before speeding north on Butternut Dr.

At Pine Creek Curve, Geerts said, Mahan's car skidded out of control, knocked down four guard rails, snapped off a light pole, collided with a fence and with a tree.

Mahan's 1960 model car was demolished, Geerts said.

Police said Mahan had been involved in a hit-run accident on the Ottawa Beach Rd., just a few minutes before Geerts spotted him. Geerts radioed to Ottawa County deputies during the chase, but Mahan crashed before deputies arrived to assist.

Ottawa County deputies investigating the hit-and-run accident said that Mahan's car collided with one driven by Fields Youmans, 47, of 1861 Ottawa Beach Rd. Deputies said Mahan's car left skid marks measuring 606 feet. They added that Mahan's car slid 273 feet sideways.

Ottawa County Farm News

By Richard Machiele

Extension Agent, Agriculture Michigan Christmas tree growers have long sheered their scotch and red pine trees in late June to improve shape. Michigan State University research now indicates that a two to three week delay can provide an added bonus—control of the troublesome pine shoot moth. The moth is the most serious insect problem facing Christmas tree growers in many areas of this country. Our studies show the shearing delay costs nothing and gives good tree quality.

Shearing is essential for top tree quality. The practice involves removal of part of the new shoot growth, thus improving tree form. It also increases business by stimulating more branching. Shearing gets rid of buds temporarily. Buds provide shelter and food for the moth. Shearing may clip off the bud with the moth inside. It may eliminate buds while moths are still on the twigs. Both processes get rid of the pest.

In an effort to prevent the cereal leaf beetle from being spread by shipments of infested materials, the States of Indiana and Michigan have imposed State quarantines.

Under the regulations, materials and equipment that may be invested must be treated before they are moved from an infested area. These include hay, straw, fodder, litter, small grains, corn, sod and harvesting machinery. Persons planning to move such materials from an infested area should first get in touch with local, State or Federal agricultural officials. But there is free movement of the above within a restricted area. No treatment of the grain or materials has to be made as long as it stays within the quarantined area.

The adult cereal leaf beetle is about 3-16-inch long; the male is slightly smaller and narrower than the female. Wing covers and head are a metallic, bluish black. The legs and the front segment of the thorax are red. The eggs are cylindrical, rounded, and less than 1-16 inch long. Newly laid eggs are yellowish, but the color darkens to almost black before they hatch. The larva is slightly longer than the adult and resembles the Colorado potato beetle larva in shape. The head and legs are brown-black; the body is yellowish.

Both adults and larvae of the

cereal leaf beetle damage grain crops. Adults take their nourishment from grain shoots or from adjacent grasses to which they migrate. Larvae chew out long strips between the leaf veins. In a heavy infestation, most of the leaves may be consumed, causing the plants to appear yellowish white. Timothy and quackgrass are among the "favorite" grass hosts.

The life cycle of the cereal leaf beetle has four stages—egg, larva, pupa, and adult. Overwintered adults (beetles) appear in the spring. They mate and the females lay eggs on the upper surfaces of host plant leaves. Larvae hatch from the eggs and begin feeding on the young, tender leaves of the host plants—oats, wheat, barley, rye, corn and native grasses. Pupation takes place in earthen cells in the top 2 inches of soil; pupae transform to adults in 20 to 25 days. The adults feed on grasses from July to autumn, then hibernates under field trash or in crevices until the following spring. They rarely hibernate in the soil.

BUSTING OUT OF OUR BRITCHES

Holland is growing. With this growth comes the problem of expanding the services that every civilized community needs — water lines, new sidewalks, new paved streets, new sanitary sewers and storm sewers and new schools. Orderly development of these services is a sign of progress and every growing community must face these tasks sooner or later.

One need travel only a few blocks around Holland to see evidence of the fact that we are busting out of our britches. South Michigan Avenue is torn up and through traffic to the US-31 by-pass is periodically detoured. North River Avenue was widened and traffic over the bridge was badly congested at times.

The US-31 by-pass is being crossed by pipelines both at Lincoln Ave. and at 16th St. and for new pipelaying techniques which drive these lines under the highway, it too would be closed temporarily for trenching. There are many other construction sites in the Montello Park area, at various locations on 32nd street and east of Holland where a new five million gallon water reservoir will soon be constructed.

All of these projects cause great inconvenience to the public and to the people living in the construction areas. It is well to remember therefore that these inconveniences are a necessary price to pay for the improvements that they bring. All of the projects involved are the results of careful long-range planning by competent engineers under the city street department and the Board of Public Works. Paving projects are best done in the summer time for a number of technical reasons. But before paving can be done careful planning requires that all the foreseeable construction of water, sewer and other utility lines be completed.

We are sure that the improvements to our fine city which are causing so much inconvenience today will be our pride and joy tomorrow.

Growing cities, like growing kids, inevitably bust out of their britches.

We always need to remember today that the cost of everything must be taken into account. It is all very nice to have all of the many public services. We first should realize that we the taxpayers are the ones that always must foot the bills. Therefore the very best planning is always important. Please take a few minutes to try and understand just how complicated we the people have allowed our form of government to become.

Sunday School Lesson

The God Who Acts ...
Genesis 1:1-13
C. P. Dame

This is the first lesson of the new quarter. During the next three months we hope to study lessons based on the Book of Genesis. Seeing that we will study Genesis it looks sensible to take a view of this first book of the Bible.

I. Genesis is called "the Book of Beginnings." It tells the story of how God created this universe. It informs us about the first man, the first woman, the first marriage, the first birth, the first sin, the first murder, the origin of the various occupations, the different languages and tribes and the origin of the Hebrew nation.

Genesis is one of the five books called the Pentateuch. The book can be divided into two parts. The first eleven chapters tell about race. The second part, chapters 12-50 records God's dealings with Abraham and his descendants. The truth we ought to keep in mind as we study the second part is that with the patriarch Abraham, God began to make ready the way for Jesus Christ, the world's Redeemer. Genesis records why man needs redemption. What is highly important is that God provided redemption through Jesus Christ.

II. The first chapter of Genesis is exceedingly important. It tells us about God's activity. There are thirty-one verses in this chapter and God is mentioned thirty-two times. Note the words, "In the beginning God created the heavens and the earth" and pause and think and remember that millions believe these words and thus deny atheism, pantheism, polytheism, communism and materialism. The Bible does not argue about God, it makes the bold statement that he created; in short, he acted.

The Bible gives us a reasonable explanation of this universe. God, a Person, Omnipotent and Sovereign, created this universe out of nothing. "He spoke and it was done." He commanded and it stood fast. The great God who made this universe also sustains it.

This universe reveals order. It is interesting to note the progressive development in creation. Back of this universe is design. In the story of creation man is pictured as coming upon the scene after all else had been called into being. All things were made for man who was to be in control under God.

The main truth to keep in mind is that God created the universe and man. Since man is a creature he is dependent upon God and responsible to him.

The original creation was good. Note the words, "and God saw that it was good," and "behold it was very good." We know that this cannot now be said of creation. In a latter lesson we shall learn about the tragedy that changed the situation.

Once this universe was sinless, perfect, and holy now it is not but some day it will be again what it was — "very good" because of redemption wrought through Jesus Christ.

Take Down Sign At Intersection

A traffic engineer from the State Highway Department office in Kalamazoo, Edwin H. Miller, was in Holland Monday, and authorized the removal of the "yield right-of-way" sign at the "Y" intersection of River Ave., Michigan Ave., State St. and 19th St.

City Manager Herb Holt asked the highway department to reassess the traffic control problem at the five-way intersection after his office received a number of complaints from local motorists that the sign was confusing and tended to cause hesitation and near-collisions.

The removal of the sign leaves the intersection marked as before in all respects, except for the signs detouring US-31 traffic onto State St. and the US-31 bypass. The detour is in effect until construction is completed on the stretch of U-31 from 32nd St. to the bypass intersection.

Through traffic is barred from US-31, but persons having business along the highway, or residents of the area, may use the road while construction is in progress.

GRAND RAPIDS — Funeral services were held Tuesday for Mrs. Mina G. VanderBroek, 64, of Grand Rapids, who died Saturday morning in Butterworth Hospital as the result of an accident at 80th Ave. and M-21 June 3.

Mrs. VanderBroek was riding with her husband June 3, when he slowed down for a yield sign on 80th Ave. and then pulled out onto M-21 into the path of a car driven by Lawrence Klynstra, 59, of 6064 96th Ave., Zeeland. Couple Married in Tiffin, Ohio

Mr. and Mrs. Stephen Charles Howlett
Miss Sylvia Ardene Addis and Stephen Charles Howlett exchanged marriage vows June 8 at 3 p.m. in the First Presbyterian Church in Tiffin, Ohio.

The Rev. Cecil Thornton performed the double ring ceremony in the church decorated with bouquets of white gladioli and daisies with palms in the background. Mrs. Helen Miller provided appropriate music.

Miss Addis is the daughter of Mr. and Mrs. Edwin Addis of Bettsville, Ohio, and Howlett is the son of Mr. and Mrs. R. A. Howlett Jr. of Allison Park, Pa.

The bride, given in marriage by her father, chose an original gown of silk taffeta and hand-clipped chintilly lace. The bodice was styled with a scalloped Sabrina neckline, long tapered sleeves and a wisp waistline. The bouffant skirt, accented with hand-clipped chintilly lace inserts ended in a chapel train.

The veil was of French illusion attached to a crown of seed pearls sequins. She wore a pearl necklace which was a gift from the groom. Her flowers were a colonial nosegay of roses, miniature carnations and stephanotis in white.

Miss Patricia Bryan of Charlotte, served as maid of honor and wore a gown of light blue nylon over taffeta. It featured a full street-length skirt and matching lace jacket with long sleeves. Her circular veil fell from a light blue headpiece. She carried a colonial nosegay of blue marguerite daisies and white miniature carnations.

Miss Anne Catron and Miss Sherry Bruce were bridesmaids; junior bridesmaid was Terri Jo Addis. All were attired in dresses identical to that of the maid of honor.

Miss Pamela Sue Addis, flower girl, wore a white nylon dress trimmed with lace. She carried a white net basket filled with blue and white daisies. Kelly Addis served as ring bearer.

Roy Rose of Pittsburgh, Pa. acted at best man with Arlen Addis, R.A. Howlett and Dick Newhouse serving as ushers.

Immediately following the ceremony, a reception for 125 guests was held in the American Legion Hall in Tiffin, Ohio.

For a wedding trip to northern Michigan the bride changed to a three-piece white and olive green suit and wore the white corsage from her bridal bouquet.

The groom's parents entertained with a rehearsal dinner party. The bride is a graduate of Elkhart University and is presently employed as a laboratory technician at Holland Hospital. The groom received his A.B. degree, cum laude, from Hope College this year and plans to do graduate work in psychology at Ohio State University.

The couple resides at 577 Michigan Ave. in Holland.

Kraai-Daniels Vows Spoken

Mr. and Mrs. Robert Kraai (Joel's photo)

Marriage vows between Vada Elaine Daniels and Robert Dell Kraai were solemnized at an 8 p.m. ceremony in Sixth Reformed Church on June 14.

White candelabra, ferns and palms accented by two basket arrangements of white gladioli and pink daisies set the scene for the double ring ceremony performed by the Rev. Henry Mouw.

Dan Gilbert accompanied by Mrs. Henry Slager sang "God Gave Me You" and "The Lord's Prayer."

The bride was escorted to the altar by her brother, Keith Daniels. She chose a floor-length gown of nylon sheer featuring an empire bodice, elbow-length sleeves and a moderately scooped neckline outlined with Venice lace. A full chapel train fell from under a soft bow. A double tiered crown of pearls and daisies held a bouffant veil of imported illusion.

Honor attendant Phyllis Brummel, sister of the bride, was attired in a street-length sheath gown of cherry pink silk organza over taffeta. A circular veil fell from a giant shasta daisy headpiece of organza. Bridesmaids were Evelyn Dyke and Pat Lipe who were attired in dresses identical to that of the maid of honor. All attendants carried bouquets of pink carnations. The flower girl, Susan Moffet, carried a basket of white and pink petals with streamers. Randy Daniels was ring bearer.

Lee Moffet, brother of the groom served as best man. Ushers were Jerry Kraai and N. L. Daniels.

Boss, 4-H agent and Warren Bosworth. Cooperative Extension Summer helper, Mrs. Grace VanderKolk, the Home Economics Agent, was in charge of menus and cooking the meals.

The feature of the third camping session which was an all-girl week, was that we entertained the Board of Supervisors of Ottawa County at a chicken bar-b-que on Tuesday noon, June 25. Each session of camp has been privileged to have Evet Snyder of the sheriff's department demonstrating mouth-to-mouth respiration and acquainting the campers with the sheriff's department.

Several persons who are qualified to judge horses have been contacted but as of this writing no one is available on the dates that are open in Ottawa County. With this in mind, leaders are being sent information regarding judging of horses; questions that could be asked by the judge in trying to point out the educational aspect of the horse project.

This will have to suffice for this year in regards to a clinic for the horse project. Details of this will be sent in a letter to the horse project leaders.

On July 16 Mrs. Grace VanderKolk, Home Economics Agent, will conduct a clinic for all girls and leaders enrolled in home economics projects for the summer of 1963. If possible the 4-H agent will conduct a clinic for displaying vegetables, crops, etc.

On July 18 a dairy tour is being tentatively planned in the northern and southern parts of the county. Details will be announced at a later date.

Time is rapidly fleeting and in less than a month members will be expected to display their projects at the Holland Fair starting July 29. This is merely to call the attention of 4-H members and leaders that exhibits will be accepted at the Holland Fair on Monday, July 29, and judging will be done on July 30.

First Nighters Enjoy Comedy At Red Barn

"Come Blow Your Horn," Neil Simons hilarious three-act comedy, opened Monday night at the Red Barn Theatre in Saugatuck before the largest Monday night audience of the season.

The play which kept Broadway audiences in stitches for two years centers around the complications of family life in New York when an older brother tries to show his younger brother that leading a fast, exciting life is much more rewarding than clinging to the family business backed by family tradition and hard work.

Director-producer James Dyas had a select cast for the play which is suitable for all ages.

Only Bill Cain with his blue eyes and tousled hair could play the part of the hard-working kid brother who up until now feels as though he has "been living in a convent." This convent life is soon changed when he leaves home to live with his playboy brother played by the versatile Bruce Hall.

Hall lives in a modern apartment with typical bachelor atmosphere and attempts to teach his brother the facts of life with the aid of two beautiful girls. The girls, played by Anna Marie Strames and Holly Richards, do a terrific job of teaching the lessons which prove to be a little too effective.

Matters become more entangled when mother and father step in. The audience twice applauded Don Bonevich for his excellent portrayal of the irate father. Bonevich employs an Hungarian accent which makes his part even more effective in reminding his sons.

The audience was equally delighted with Dorothy Lee Tompkins who also used an accent in her part of the pouting mother who is deeply concerned with the welfare of her sons while trying to pacify her fiery husband.

Things eventually settle themselves with a few enjoyable surprises.

Patrons and guests will thoroughly enjoy this delightful comedy expertly handled by the entire cast.

The show runs through July 6 with a 2:30 p.m. matinee Wednesday and curtain each night at 8:30 p.m.

The earliest crossword was one invented by the English - born Arthur Wynne and published in the New York World on Dec. 21, 1913.

Zeeland residents will receive their tax bills Monday totaling \$347,967.49 in city taxes and school taxes. City Treasurer John Holleman reported.

The total tax rate per thousand dollars of assessed valuation this year is \$48.70, which is 78 cents higher than the rate for the 1962 tax. The increase is in school operating tax which went up from \$22.30 per thousand last year to \$23.50 per thousand this summer. That is an increase of \$1.20, but a drop of 42 cents in the school debt retirement tax rate brings the difference down to 78 cents.

The school debt retirement rate this year is \$10.20 per thousand, and was \$10.62 last year. The millage rate for the regular city tax comes to \$15 per thousand, unchanged from last year.

Of the total tax to be collected, \$112,249.95 is for city tax; \$164,372.82 is school operating tax, and \$71,344.72 for school debt retirement.

The total tax bill, city and school, is nearly \$49,000 higher than it was last year. The 78 cents increase in the total rate does not make much of this difference, but the additional receipts will come from property assessed in the newly annexed area on the east end of the city. Several industries, including Herman Miller and Mead Johnson joined the city in that move, increased the valuation considerably. In all, about 200 taxable properties joined the city in the annexation.

National Safe Boating Week Observed Here

COAST GUARDSMEN CHECK TWO MOTORBOATS. THE COAST GUARD VESSEL IS ANCHORED ON LAKE MACATAWA, JUST INSIDE THE CHANNEL, WHERE IT STOPS INCOMING AND OUTGOING BOATS. BOATS MUST STOP WHEN HAILED OR BE SUBJECT TO \$100 FINE.

COAST GUARDSMEN CHECK FIRE EXTINGUISHER—A MUST ON BOATS

U.S. Coast Guard Checks Boaters

Boating has become the new national pastime.

Last year, with an estimated 37 million enthusiasts, nearly twice as many people took to the water in pleasure boats, as went to major league ballparks.

Surprising as it may seem, increased participation has not meant a corresponding rise in accident rate. Although the complete report for 1962 is not yet in, every indication is that boaters set a new safety record last year. Safety afloat is largely attributed to the emphasis which has been placed on education in the sport.

To keep boating a safe sport, and thus add to its enjoyment, Congress passed a resolution in 1958 requesting the President each year to set aside the week including July 4 as a special time to promote safe boat handling practices.

This year President Kennedy has proclaimed the week of June 30 through July 6 as Safe Boating Week.

During this time, national organizations, acting through their local groups, will join in promoting a program of good boating habits.

Beginning last Sunday on Lake Macatawa and at the marinas, the Coast Guard Auxiliary of Holland offers upon request to any boat owner a free inspection of his vessel. The examinations are made in respect to the minimum requirements of the law.

Boats passing the inspection are given the Auxiliary's safe boating sticker. It is an advantage to the owner to display this sticker on his boat, since the Coast Guard will not stop any boat if they see the sticker, since they know the boat has already met more than the normal requirements for boat safety.

Owners of boats which do not meet the state and federal standards are reminded of the requirements of the law, but Auxiliary members will make no attempt to report them to law enforcing agencies.

The Auxiliary itself is a service organization and has no power of law enforcement. In its boat checking, however, it is more stringent than the Coast Guard. Auxiliary members have completed several courses in water safety, have passed examinations on the subject and are qualified to advise on the condition of their craft.

Here are some of the requirements for boat safety:

Life-Saving Equipment — There must be an approved life-saving device for everyone aboard a pleasure craft.

Fire Extinguishers — Craft of closed construction and up to 16 feet in length, must carry at least one approved fire extinguisher; craft up to 40 feet at least 2; over 40 at least 3.

Signals — One hand or power-operated whistle or horn on motorboats 26 to 40 feet in length; one power-operated whistle or horn on boats above 40 feet.

Lights — Motorboats of less than 26 feet in length any powered by more than 10 horsepower must have one white light aft, and a combination light forward, red to port, green to starboard; boats over 26 feet must have a white light fore and aft, and a red side light to port and a green side light to starboard.

Flame Arresters — Gasoline in-board engines must have a Coast Guard approved backfire flame arrester fitted to the carburetor. The arrester is to prevent fires.

A vessel underway, upon being hailed by a Coast Guard vessel is required to stop immediately and lay to, or maneuver in such a way as to permit the boarding officer to come aboard. Failure to stop to permit boarding may subject the operator or owner to a penalty of \$100.

There are today an estimated 500,000 power boats operating on Michigan waters. Our waters are for the pleasure of all, no matter whether it be for fishing, power boating, swimming, skiing or canoeing.

Understandably, there can be conflicts between these types of uses unless all concerned exercise care and are aware of and observe all necessary "ground rules."

Accidents on water can be prevented. There is room for all on Michigan's waters. Michigan in common with other states, is moving toward a complete uniformity of law covering boating safety and operation. The 1962 session of the legislature passed a very comprehensive boating law designed to protect lives and to assure pleasant uses of lakes.

EVERYONE HOLDS ON WHILE LIFE JACKETS ARE CHECKED

BOAT REGISTRATION MUST BE CARRIED ON BOAT WHEN IN USE

CORRECT NUMBERING IS MC 2160 FD, NOT MC2160FD

SAILBOATS, WITH MOTORS, ARE ALSO SUBJECT TO INSPECTION BY COAST GUARD

Mississagi River Drive

Picture Story by Les Line

Ninety years ago, Midland's Tittabawassee River was the white pine highway of the world. One photograph in the county historical archives shows 21,000,000 board feet of pine on a gigantic log banking ground at Red Keg, long known as Averill.

Today, Ontario's wide and oftentimes wild Mississagi River—with its tributaries the White and Aubinadong—is much like the Tittabawassee of the 1870's. There, an annual river drive seemingly lifted from the pages of history is nearing its end.

Since spring breakup in mid-April, 36 million board feet of virgin timber has floated and hurtled downstream toward the largest white pine operation in Canada—the McFadden Lumber Company mill at Blind River, 93 miles east of Sault Ste. Marie on the North Channel.

Earlier, crews totaling 300 men were cutting the towering white pines and frequent reds deep in the rugged Ontario bush—120 miles north on the Aubinadong, 70 miles up the White River.

To 70 Indians on McFadden's river drive crews belongs the chore of moving future homes and cottages and tables and cup-

boards and shelves and crates to a storage area (in the photograph directly below) near the Mississagi's mouth. There, if you've a skilled pair of feet and a bit of bravado, you can cross the river's expanse on the thousands of huge logs awaiting rafting to the mill.

The river drive (above picture) is a spectacular event, the Indians and their Pointer boats dwarfed by green and red-rock cliffs and by the blue Mississagi itself. An old tool, the peavey, joins forces with the modern bulldozer to free logs jammed on rocks or gravel bars by low water.

Of McFadden's 1963 production, as much as 10 million board feet—more than a fourth—will find use in Michigan. Some new Midland homes will be built of the Mississagi's white pine.

Three of the 30 color and sound movies produced by Midland Daily News Editor and Publisher Philip T. Rich show these Ontario logging operations. "The Cut," "The River Drive" and "The Mill" highlight lumbering from the bush country to Blind River. Michigan distributor for McFadden is Dean Kuperus Lumber Company of Flint.

TUNNEL LAKE dam, on the Mississagi River north of Thessalon, Ont., is one of Canada's highest. There's a 280-foot head of water where the concrete structure spans a spectacular gorge, in the left background. You're looking from atop the dam down the 1,000-foot, 60-degree flume which carries pine logs for McFadden Lumber Company from the lake above to the river far below. Take a close look and you can see the Mississagi above the bridge.

WHITE PINE logs rip over a white water chute near the Mississagi's mouth. There's a massive log jam at the far side of the rapids which will require several hours work by the river crew to untangle. Timber 35 inches in diameter will twist like a matchstick in the roaring foam.

LOGS RIDE a conveyor through a high-pressure bath at their first stop at McFadden's big mill at Blind River, Ont. It's Canada's largest white pine operation, and 2,000 logs daily can be handled here. The "shower" prepares the logs for de-barking before they hit the mill's massive saws. At the far horizon—Manitoulin Island, which with Drummond and Cockburn isles separate the North Channel from Lake Huron.

WOODEN SHOELAND — "This is Bearsville," the sign proclaims. "Welcome to the home of the Three Bears and their friends." Bearsville is but one of many attractions at Wooden Shoeland, an amusement park which opened Monday day. The park is located just north of the Wooden Shoe Factory at 16th St. and the US-31 bypass.

Zip Code Information To Be Sent Out

Postmaster Louis A. Haight Saturday announced that individual cards with the zip code number were to be delivered to every patron in the Holland area Monday to acquaint them with its importance and use.

In the cards prepared and signed by the mail carriers personally, residents are urged to keep the card for a ready reference and to immediately begin including his zip code number in his return address after the city and state.

Patrons are also urged to ask the people with whom they correspond to use their zip code number and keep it handy, especially the code number of the persons with whom they most frequently correspond.

Postmaster Haight said that all postal mail vehicles, collection boxes and carrier satchels will have Mr. Zip decals or posters as a reminder.

The delivery area code is 49423 and those having a post office are to use 49424 as the code number. The use of the zip code will speed mail with fewer handlings.

Rod and Reel Missing

A rod and reel valued at \$65 was taken from a boat owned by W.O. Miller of Kalamazoo, Ottawa County sheriff deputies said today. The larceny occurred sometime since last Wednesday while the boat was at Jesiek Brothers Ship Yard Inc. on the west end of South Shore Dr.

The United States Department of Defense, was created on Sept. 8, 1947, placing the Departments of Army, Navy and Air Force in a single executive department.

grades 6 and 7; Harold Lampen, Hamilton, grades 7 and 8. The custodians are John Dozeman and Ed Busscher.

Two new buses have been purchased to provide transportation for the pupils. The new school will open Sept. 3 with an enrollment of 167 pupils. Twenty-one of this enrollment will be in the kindergarten.

The Board of Education has completed plans to have open house at the new Bentheim Elementary School on Tuesday, July 9, at 2 p.m. and dedication ceremonies at 7:30 a.m. The Rev. C. Denekas, pastor of the Bentheim Reformed Church, the Rev. J. A. Blaine, pastor of the Diamond Springs Wesleyan Methodist Church, and Dr. R. J. Lokers, superintendent of Hamilton Community schools, will participate in the program. Special music will be furnished.

The new school is a result of the consolidation of the Pershing and Highpoint schools. The Maple Grove District and the Diamond Springs District annexed by vote at the last April election. The Van Buren District had previously annexed to the Highpoint District in 1956. The new District No. 23 has a total land area of approximately 28 square miles in Overisel, Heath, Salem, and Monterey Townships, Allegan County. The state equalized valuation is over \$6,882,000. The high valuation permits a low tax millage of 6 1/2 mills for general expense and 3 mills for debt retirement.

The new school, site, and equipment cost the district approximately \$192,500. The site has an area of eight acres of land in the town of Bentheim. The building consists of eight classrooms, a gymnasium, a large kitchen, several storage rooms, an office, hot water heating system and an intercom system accommodate the entire building.

The Board of Education with Frank Collings, president, John Boerman, secretary, Alfred Smoes, treasurer, Leslie Hoffman, trustee, and Don Boerman, trustee, served as the building committee. Alfred Smoes retired from the board July 1 and is replaced by Lyle Wakeman.

The teaching staff is composed of Mrs. Amy Arendsen, Holland, kindergarten; Mrs. Shirley Henry, Hopkins, grades 1 and 2; Mrs. Hazel Berens, Hamilton, grades 2 and 3; Henry Bleeker, Hamilton, grades 3 and 4; Duane Doublestein, Allegan, grades 5 and 6; Mrs. Evelyn Berens, Hamilton,

St. Francis Church Scene of Rites

Mrs. Jerry Noel Smeenge (Joel's Studio)

St. Francis De Sales Church was decorated with bouquets of white mums and yellow and bronze pompons on June 22 for the morning wedding of Miss Delores Diana Cobb and Jerry Noel Smeenge.

The Rt. Rev. Msgr. J. A. Moleski performed the double ring rites for the daughter of Mr. and Mrs. Wilbur C. Cobb, 714 South Shore Dr. and the son of Mr. and Mrs. Justin W. Smeenge, 2006 West 32nd St. Miss Vera Kay Lewis was organist for the children's choir.

Escorted to the altar by her father, the bride was attired in a gown of imported lace over taffeta designed with chapel-length train, lace bodice and featuring a scoop neckline. The skirt was accented with panels of Alencon lace. Her veil was held by a seed-pearl crown. She carried a bouquet of yellow daisies and white feathered carnations with a white orchid.

Mrs. Richard Kolenda, matron of honor, wore a sheath of silk organza over taffeta with side wrap overskirt in lemon yellow. She carried a cascade of yellow daisies and bronze mums.

The bridesmaids, Mrs. Kenneth Taylor, and the Misses Barbara Kuite and Sally Alderink, were identically dressed in assorted colors of lemon yellow and apricot.

Richard Kolenda was best man and Kenneth Taylor Jr., Samuel Smeenge and Ronald McLean seated the guests.

The bride's mother selected a pure silk green sheath and a corsage of golden rapture roses and feathered carnations. Mrs. Smeenge chose a light blue dotted Swiss embroidered nylon dress featuring a bell skirt and she wore a corsage of white roses and blue daisies.

Mr. and Mrs. Conrad Knoll were master and mistress of ceremonies at a reception in Macatawa Bay Yacht Club for 130 guests. Attendants were Dorothy Remele and Kenneth Keyes, punch bowl; Mr. and Mrs. Randall De Pree, gift table; Sharon Knoll, guest book.

For a northern wedding trip, Mrs. Smeenge changed to a white Jersey shift with white and multi-colored accessories and a white orchid corsage.

The bride, a Holland High School graduate, was formerly employed at H. J. Heinz. The groom was graduated from Reading High School in Reading, Mich. and attended the University of Maryland and studied at Ausburg, Germany. He is presently employed at J. C. Penney Co.

The couple will reside at 754

Marriage vows were exchanged at 2 p.m. today by Miss Marciann Van Dorple of Zeeland and Keith Sherwin Rigterink of East Lansing in a double ring ceremony in Second Reformed Church of Zeeland with the Rev. Raymond Beckering officiating.

The bride is the daughter of Mr. and Mrs. Jay Van Dorple of 345 West Main St., Zeeland, and the groom is the son of Mr. and Mrs. Leon Rigterink of Hamilton.

For the ceremony to be performed in a setting of palms, ferns, two tree candelabra and an arch candelabra interwoven with baby mums and ferns the bride chose a full-skirted gown of organza etched with chantilly lace and a long sleeved bodice fashioned of lace. The bouffant skirt with rows of lace is edged with scalloped lace and the chapel train with lace motifs and pearls terminates the overskirt. A triple star crown accented with pearls secures an elbow-length veil and she will carry a cascade of red baby sweetheart roses.

Mr. Van Dorple escorted his daughter to the altar down an aisle where pews were marked with tulip bows and white bells.

Organist is Francis Baron and soloist Jack Mellema, brother-in-law of the bride.

For her matron of honor the bride chose her twin sister, Mrs. Donald Zeerip and for the bridesmaids another sister, Judy Lynne Van Dorple and Linda Interbitzen. Larry Rigterink attended his brother as best man while Wayne De Vries and Jerry De Boer will serve as ushers.

Gowns selected for the bride's attendants were fashioned of blue taffeta with back pleat forming flowing trains. Lace picture hats

with blue flowers complete their costumes. Each carried a long stemmed red rose.

A pink sheath dress with Swiss embroidery, pink matching accessories and pink rose corsage was chosen by the bride's mother while the groom's mother selected a blue lace with blue accessories and a corsage of yellow roses.

Assisting at a reception for 175 guests in the church parlors were Mr. and Mrs. William Boonstra as master and mistress of ceremonies. Miss Rosemary Plewes and Miss Judy Aldrich, gift room; Jim Cherry and Miss Ruth Cherry at the punch bowl and Diane Rigterink at the guest book.

For a northern honeymoon the bride selected a silk moss classic silhouette with white accessories. After July 15 the couple will reside at 2780 East River Rd., East Lansing. The bride has been employed in the office of the Holland Hitch Co. The groom will be entering his third year at Michigan State University. He is a member of Sigma Phi Epsilon fraternity.

Mr. and Mrs. Rigterink, the groom's parents, entertained at a rehearsal luncheon for the bridal party.

July 14 is a memorable date for Frenchmen because it is the anniversary of the storming and destruction in 1789 of the Bastille in Paris.

Herrick Public Library Lists Summer Reading

Summer is here! With it comes a surge of interest in the Herrick Public Library in books on summer sports—golf, baseball, swimming, skin diving, boating, tennis and archery—according to Hazel Hayes, director of the library. The library has a wide variety of recent books on summer sports and outdoor activities. A display of equipment for such summer fun was opened at the library last week.

For the golfer there are such newly-published manuals as Cary Middlecoff's "Master Guide to Golf" and "Sam Snead on Golf" by Sam Snead. Other books of advice for golfing enthusiasts include "Golf Secrets of the Pros" by Larry Robinson; "The Key to Golf" by Dai Rees and "Golf Magazine's Pro Pointers and Stroke Savers" edited by Charles Price. John Scott and Geoffrey Cousins in "Golf Begins at 45" describe methods of adjusting golf to the golfer's advancing years as does "Paul Bunyan's Book for Senior Golfers." Women golfers will appreciate "Golf for Women" edited by Louis Suggs. Parents will find excellent pointers in "Golf for Boys and Girls" by Chick

Evans, and "Start Golf Young" by Doug Ford.

For those Holland area golfers planning vacations away the Herrick Public Library is able to supply necessary information in the "Golfing Guide" which is a vacation Directory. It names top golfing vacation spots in the United States, Canada and The Caribbean. The Guide contains complete information on fees, facilities, tournaments, resort accommodations and rates. "Life With Par" by Morie Morrison and "Golf is a four-letter Word" by Richard Armour, are books which will add humor to any golfer's day—no matter what the score.

Baseball fans will be interested in reading "The National League Story" by Ethan Allen, the "Sports Illustrated Book of Baseball" by the editors of Sports Illustrated, and "Modern Baseball Strategy" by Paul Richards. Among baseball biographies waiting to be read at the Herrick Public Library or at home are Clay Felker's "Casey Stengel's Secret," "Maybe I'll Pitch Forever" by Le Roy Paige, and "King of the Home Run" by Arthur Daley. "How to Bat" is compiled by Harry "The Hat" Walker and Tom Meany. It includes instructions from the greatest hitters in baseball. "World Series Thrills" by Joseph N. Bell recalls top thrills from 1912-1960.

Instruction books are also available on swimming and diving. Recent titles include Carolyn Kauffman's "How to Teach Children to Swim," "The Young Sportsman's Guide to Swimming" by Lynn Burke, and "Water Games" by Hope M. Smith.

"The Pocket Guide to the Undersea World" by Ley Kenyon, "The Science of Skin and Scuba Diving" edited by Bernard E. Empleton and "The Complete Illustrated Guide to Snorkel and Deep Diving" by Owen Lee, are among books helpful to underwater goers.

Fishing is represented by "The Young Sportsman Guide to Fly Tying" by Ray Ovington, "101 Angles for Fresh Water and Dock Fishing" by Gil Faust, and "Why Fish Bite and Why They Don't" by James Westman.

Other summer sports books include "Field and Target Archery" by Larry Eisinger, "Instant Tennis" by Dick Bradley and "Sports Illustrated Book of Tennis."

The week of June 30 - July 6 has been designated National Safe Boating Week by the proclamation of John F. Kennedy, President of the United States of America at the request of the Congress of the United States in recognition of the importance of safe boating practices.

Herrick Public Library lists several books in keeping with this special observance. Among them are "Family Boating" by Lillian Borgeson and Jack Speirs, "Sailing Small Cruisers" by Guy Penant, "Basic Seamanship and Safe Boat Handling" which is based on U.S. Coast Guard Auxiliary Instruction by Blair Walliser, Captain U.S.C.G.R. "What Every Boater Must Know" is a booklet published by the State of Michigan. This publication includes helpful suggestions and facts on law, courtesy, common sense and safety afloat.
