tionary store on River street to  
George R. Shaw of Grand Rapids.

Fourth of July oration in Carson City,  
Montcalm county.

the morning and 4 o'clock in the after-

tey organ of Cook Bros. He will take  
it to Amoy, China, when he goes there  
next fall to begin his work in the mis-  
sion field.

Dr. N. M. Steffens of Dubuque, Ia.,  
who will succeed Rev. Dr. Henry E.  
Doser on the faculty of the Western  
Theological seminary, was in the city  
the first of the week making arrange-  
ments for living here in the future.

John J. Essenberg of Muskegon,  
brother of Joseph Essenberg of this  
city, died at his home in Muskegon  
Monday at the age of 79 years. He  
was a well known architect and build-  
er and formerly lived here. He is  
survived by a wife and five children.

Ross Cooper's band at Jenison Elec-  
tric park is the best ever heard at the  
resorts. He has some of the best men  
in the country and they play together  
perfectly. The band music is one of  
the best amusement features of the  
resort.

Graham & Morton did the largest  
fourth of July business in the history  
of this port this year, the steamers  
Argo and Puritan being crowded to  
the limit every trip. The crank pin  
of the Soo City has been repaired and  
the three steamers are now on the run,  
giving double daily service.

The steamers Soo City and Argo of  
the Graham & Morton line will make  
an excursion to Chicago Saturday,  
July 11, leaving Holland at 10 p. m.  
Returning will leave Chicago Sunday  
night at 8:45, arriving in Holland at  
5 in the morning, giving a full day in  
Chicago and arriving back for business  
Monday. Fare for the round trip  
\$1.50. Berths extra at regular rates.

Will Van Anrooy has made rapid  
progress in building up his pile driv-  
ing and dock building business and  
is now in a position to take the biggest  
kind of contracts. He has just landed  
a good one. Robert Love of Muskegon  
has sublet to him that part of the con-  
tract for the improvement of Holland  
harbor calling for sheet piling and  
round piling. One hundred and ninety-  
six round piles will be driven and  
1,064 sheet piles.

Edwy Reid, the fiery editor of the  
Allegan Gazette, is not the only man  
that is on to Grand Rapids' curves, as  
the following from the Grand Haven  
Tribune will show: "Grand Rapids  
has the weather bureau and now is  
stretching out for the western normal  
school, the University of Michigan, the  
Agricultural college, the state fair,  
Grand Haven's harbor and an insane  
asylum or two where people that be-  
lieve Grand Rapids is not the whole  
thing can be shut up."

The new lookout tower of the Hol-  
land life saving station has been com-  
pleted and as soon as orders are re-  
ceived from headquarters, Capt. Poole  
will arrange for the standing of the  
watches in the new place. The old  
watchtower on the station will be  
continued in use and this will make a  
double watch, at least during the re-  
sort season. The new tower is situa-  
ted north of the south pier near the  
shore line and commands an unob-  
structed view of Lake Michigan.

There will be a grand display of  
fireworks at Macatawa and Ottawa  
Beach Saturday night. The display  
should have been made on the fourth  
but there was too much doing that  
day and it was postponed. Saturday  
night the heavens will be illuminated  
for two hours. For the accommoda-  
tion of those from Holland who wish  
to view the display from the bay, the  
steamer Post Boy will make a trip  
from Holland to the resorts and re-  
turn leaving the Graham & Morton  
dock at 7:30 in the evening and giving  
an excursion on the bay.

Contractor Postma is building a  
house on Nineteenth street for Mrs.  
Sarah Mattison.

J. J. Steffens has taken a position in  
the freight office of the Graham &  
Morton company.

Extra cars will be put on Saturday  
evening by the G. R., H. & L. M. elec-  
tric railway to accommodate those  
who wish to see the grand display of  
fireworks at the park.

Sherman Wells of Coopersville was  
convicted of the murder of Frank  
Carr at Forman, N. D., and was sen-  
tenced to 15 years imprisonment by  
Judge Glaspell of Elendale, N. D.

The Holland Gas Co. filed articles of  
association with the secretary of state  
in the sum of \$200,000. Julius Dick  
has been elected president, Geo. E.  
Kollen Vice president, Bascomb  
Parker Secretary and Treasurer.

Rev. A. Trott's subject for the M.  
E. church next Sunday morning will

ids will sing a solo. In the evening

Tempest Stilled."

Mrs. N. A. Herbert will open a home  
bakery tomorrow, Saturday, July 11,  
on East Eighth street, near the Sen-  
tinel office. She will also have an ice-  
cream parlor and a lunch room. Cakes,  
puddings, pies, etc. will be made to  
order. Suet puddings a specialty.

O. F., will install its officers on  
Thursday evening, July 16, the regu-  
lar meeting night, and every member  
is urged to be present. After the busi-  
ness of the meeting is transacted a  
banquet will be served.

Harry VerBeek, of Chicago, visited  
friends here this week. Mr. VerBeek  
is getting along very well in Chicago.  
He is president and manager of the  
Sanitary Specialty Mfg. Co. dealers in  
plumbing goods, and is doing an ex-  
tensive business.

E. F. Felbeck has organized a stock  
company capitalized at \$10,000 and  
will enlarge the capacity of the Hol-  
land Carving works, formerly owned  
by C. Vander Heuvel. Two two-story  
additions will be built and other im-  
provements will be made. Besides  
Mr. Felbeck, the principal stock-  
holders are P. H. Reed and J. M.  
Murphy of Grand Rapids.

Though the skies looked threatening  
before the steamer Post Boy started  
on the regular band excursion last  
night and though the threats became  
a rainy certainty before the trip was  
ended, there was a large crowd aboard.  
Since the weather bureau has been  
moved from Grand Haven to Grand  
Rapids the band boys have noticed  
every Thursday night (the regular ex-  
cursion night) has been stormy.  
They think this because Grand Rap-  
ids is envious of Holland and will ham-  
per it with weather conditions,  
and have decided to fool the weather  
man by giving the excursion on Wed-  
nesday night next week.

As a result of the art exhibition  
held in the public schools some time  
ago the following pictures and eleven

school room: Stratford on Avon;

The Shetland Ponies, 2; Brittany  
Sheep; Red Deer at Chillingham;  
Dignity and Impudence, 3; The  
Twins; Society of Friends; I Hear a  
Voice, 2.

In the death of Dr. Wm. Vanden  
Berg, who passed away at his home in  
Zeeland last Sunday morning, Zeeland  
loses one of its foremost citizens and  
Ottawa county one of its most noted  
physicians. Dr. VandenBerg was 77  
years of age and came to this country  
in 1847. He practiced his profession  
in the east a few years and then came  
to this county, residing in Drenthe a  
short time, and then moving to Zeel-  
and where he lived until his death.  
The doctor was deeply learned in his  
profession and had a remarkably good  
general education. He leaves five  
sons and two daughters, Dr. J. W., of  
New Holland; Christian, of Grand  
Rapids; Benjamin, Alfred and Edward  
of Zeeland; Mrs. T. Van Eenennaam  
of Zeeland; and Mrs. Wm. Brandle of  
Grand Rapids. The funeral services  
were held Wednesday afternoon at  
the Reformed church at Zeeland, Rev.  
J. P. De Jonge officiating.

The millinery stores will close every  
evening at 6 o'clock during the sum-  
mer.

128 blue gills were caught by Gerrit,  
Charles and Harry R. Doesburg last  
Monday.

H. Boone's trotter, McKinley will  
make its first race of the season today  
at Pontiac in the free-for-all.

Rev. D. R. Drukker delivered the  
fourth of July oration at Orange City,  
Iowa.

H. Fris, the news dealer, has leased  
the DeJonge building in Zeeland and  
will open a news stand there.

Capt. Oliver Deto is in command of  
Judge Everett's passenger steamer  
running between Waukegan and the  
other Macatawa Bay resorts.

John Foster was sentenced to Grand  
Haven for 30 days for being disorderly.  
Justice Van Duren did the sen-  
tencing and deputy marshal Brown  
did the arresting.

Capt. Upham of the steamer M. &  
M. of the new Saugatuck Grand Ha-  
ven steamboat line reports prospects  
for a good business on the route very  
bright.

As the 10-year-old son of John Van  
Dalk was crossing the street near Ho-  
tel Holland last Saturday evening he  
was knocked down by a horse that  
had been frightened by the report of  
an explosive placed on the street rail-  
way track, and the wheels of the  
buggy passed over him bruising him  
severely. Dr. Kremer attended him.

In response to numerous requests  
from those who wish to take a trip to  
South Haven, Capt. Austin Harring-  
ton has decided to run the steamer  
Post Boy on an excursion Tuesday.  
Steamer will leave Holland at 7:30 in  
the morning and the resorts at 8:30.  
About three hours will be spent in  
South Haven and the boat will reach  
Holland about 6 o'clock in the even-  
ing.

The carrying capacity of the G. R.,  
H. & L. M. street railway was given a  
severe test the fourth of July but  
proved more than equal to the emer-  
gency and gave metropolitan service  
the entire day. Though a large num-  
ber of people was transported to and  
from Grand Rapids and the resorts,  
not a suggestion of an accident marred  
the day's business and the immense  
crowd was handled expeditiously and  
satisfactorily.

The M. E. parsonage at Allegan  
caught fire Sunday morning from elec-  
tric light wires and the interior is a  
wreck, as is also the furniture in a  
large measure. It is partially covered  
by insurance. The loss is \$3,000. Rev.  
George R. Arnold was awakened by  
the crackling sounds and with diffi-  
culty was able to reach a window and  
crawl to the portico roof, where he  
gave the alarm. Mrs. Arnold and  
three children are visiting in the  
South.

Nelson R. Stanton, of Forest Grove  
and Leonard Reus, of Borculo, mem-  
bers of the county board of school ex-  
aminers met at the office of Commis-  
sioners Ernst Saturday. These  
gentlemen have long been associated  
together in school work. Mr. Reus  
has served on the Board during the  
six years Mr. Ernst has been commis-  
sioner, and Mr. Stanton for four years.  
Their relations have been most con-  
genial, all working harmoniously for  
the good of the schools of the county,  
and it was with feelings of regret and  
a touch of sadness they separated at  
the close of the last session of the  
Board.—Coopersville Observer.

Papers have been filed in the Circuit  
court in Grand Haven which may re-  
sult in some interesting litigation re-  
garding property rights at Ottawa  
Beach. George H. Long has brought  
suit by injunction against Gen. L. W.  
Heath, et al, to compel him to remove  
certain buildings erected on the shore  
of Lake Michigan at Ottawa Beach  
near the hotel. It is declared that in  
1886 a number of resorters in that  
neighborhood formed the Lake Michi-  
gan Park association, whose property  
was north of the channel on the lake  
shore. It was specified in the articles  
of incorporation that a plat of low  
ground in front of the bluff, and  
bordering on both the channel and the  
lake, was to be reserved in perpetu-  
ity for park purposes and was never  
to be encroached upon by buildings.  
It is claimed in the petition that  
early this year General Heath erected  
a cottage on the line to the prohibited  
property and that the porches and the  
kitchen of the building are on the  
park track. Long asks the court to  
grant an injunction restraining Heath  
from further building on the tract  
and to compel the removal of the of-  
fending cottage.

MAKES RAIN WITH GAS.

Australian Says That by Use of Certain Chemicals, Downpour Can Be Produced at Any Altitude.

Dr. McCarthy of Melbourne, Australia, claims to be able to produce rain by sending up continuously from three centers a column of gas made of certain chemicals. After a maximum of thirty-two hours rain is produced over a range of ninety miles at any altitude, in any sky, with the wind in any quarter. Dr. McCarthy explains that the gas causes in a different strata of the atmosphere a vacuum which is the center of a heat storm filled with dense rain clouds. The rain which follows is of a tropical character, slight at first and then very heavy. His experiments have been conducted in an inclosure twelve by eight feet. The chemicals react and must be changed in accordance with the altitudes.

Many Meetings and Lectures Occupy Time of Members of National Association at Boston.

Boston, July 8.—A busy day was in prospect for the National Teachers' association members Wednesday. From 9:30 a. m. to one p. m. each hour had its definite schedule, and beginning at two p. m. there were many events crowded into each 60 minutes. Not only were meetings scheduled for all departments, but there were exhibitions, lectures, open meetings, luncheons, and no less than 14 receptions between five o'clock and 11 p. m.

The kindergarten department, music, education, physical training, library, school administration and special education departments held their opening meetings; the others had met previously. Presidents George Harris, of Amherst; William J. Tucker, of Dartmouth; W. F. Slocum, of Colorado college, and Rev. Thomas F. Gallor, bishop of Tennessee, were the speakers in the department of higher education.

The firm did a business of \$1,250,000 per annum, and has liabilities estimated at between \$400,000 and \$500,000.

The assignment is attributed to the inability of the firm to secure sufficient bank accommodation. The head of the concern is Ara Cushman, of Auburn, who is also president of the National Shoe and Leather bank, and interested in several large enterprises in Maine.

Engineer Responsible for a Collision  
Between Two Trains at  
Rockfish, Va.

### MORE THAN TWENTY PERSONS KILLED.

Nine Others Are Injured, Some Fatal-  
ly—Most of the Victims Were Im-  
migrants—Over One Hundred Pas-  
sengers Are on Board and a Panic  
Follows the Crash.

Charlottesville, Va., July 8.—Twenty-  
three passengers were killed and 13 in-  
jured in a head-on collision 20 miles  
south of this city yesterday afternoon.  
The accident was caused by express  
train No. 35, south-bound, running into  
an open switch at Rockfish depot and  
smashing into a local freight standing  
on a siding.

The passenger engine and express  
coaches were demolished, and the bag-  
gage coach and second-class passenger  
car were telescoped. In the latter was a  
party of immigrants, all of whom were  
killed or injured. Traffic was suspended  
for eight hours.

#### Engineer to Blame.

The freight train was in charge of  
Conductor Brubeck and Engineer Hale,  
and at the time of the accident was on

## IOWA REPUBLICANS.

Renominate Gov. Cummins and Other  
Candidates for State Offices  
and Adopt a Platform.

Des Moines, Ia., July 2.—The repub-  
lican state convention on Wednesday  
nominated a ticket and adopted the  
platform of principles. All the candi-  
dates were renominated by acclama-  
tion with the exception of the state  
superintendent, for which office Mr.  
Riggs was nominated on the third bal-  
lot, his opponents being present Super-  
intendent R. C. Barrett, of Osage, and  
H. L. Adams, of West Union. The ticket  
is as follows:

Governor—A. B. Cummins, of Des  
Moines.

Lieutenant Governor—John Herriott,  
of Stuart.

Supreme Judge—Charles A. Bishop,  
of Des Moines.

Railroad Commissioner—David J.  
Palmer, of Washington.

State Superintendent—F. J. Riggs, of  
Sigourney.

The convention adopted the Allison  
tariff plank, and a declaration more  
conservative than the original "Iowa  
idea."

The platform reiterates faith in the  
historical principle of protection; says  
tariff rates enacted to carry this policy  
into effect should be just, fair and im-  
partial; indorses the policy of recip-  
rocity; approves the treaty with Cuba;  
favors the regulation and supervision of  
trusts; congratulates the nation on the  
present era of prosperity; commends  
the administration of Gov. Cummins;  
rejoices in Iowa's leadership in national

Stricken Pope Continues to Grow  
Weaker and His Condition  
Is Very Grave.

### CONFERENCE OF PHYSICIANS ADVISED.

Morning Bulletin Shows That Aged  
Pontiff Passed a Fair Night—Dr.  
Mazzoni Discusses the Case—Many  
Monarchs Inquire After Condition  
of the Patient.

Rome, July 8.—At 6:50 p. m. Wednes-  
day the pope's condition was very grave.  
His doctors were alarmed at the con-  
tinued weakness which is complicated  
by certain functional disorders. His  
holiness was restless and drowsy, fre-  
quently falling asleep.

At 6:25 p. m. Dr. Mazzoni was sud-  
denly called out of the sick chamber by  
Cardinal Rampolla, and a hurried  
whispered conversation ensued. This  
gave rise to all kinds of rumors, but it  
was soon explained that Cardinal Ram-  
polla had taken upon himself the duty  
of acting as mouthpiece for some of the  
intimate friends and relatives of the  
pope who suggested the advisability of  
calling certain other doctors in consul-  
tation. Dr. Mazzoni replied that he had  
not the least objections to such a con-  
sultation, but that the symptoms and  
course of the disease were so clear and  
well defined as to leave no doubt as to  
the diagnosis. He therefore was un-  
able to see the necessity for the step  
proposed. No decision has yet been  
reached about the matter.

#### The Morning Bulletin.

The physicians in attendance upon  
Pope Leo Wednesday morning posted  
the following bulletin:

"The night passed tranquilly enough,  
although the pontiff had no restorative  
sleep. The pulse was frequent, but  
regular. Breathing was as free as  
Monday night. The condition of the  
pope does not permit of a long exami-  
nation, but it seems that the pneu-  
monia tends to solve itself and that the  
pleuric liquid is not regathering. How-  
ever, the general condition of the pa-  
tient is not tranquilizing because of  
the state of depression which at inter-  
vals increases.

(Signed)

"LAPPONI.  
"MAZZONI."

As can be seen by the bulletin, the  
pope's condition is not so favorable as  
it was Tuesday night, due to the fact  
that the improvement after the opera-  
tion of Tuesday has not assumed the  
proportions the doctors wished. While  
the inflammation of the lungs is de-  
creasing, the patient's general condi-  
tion does not improve, and there is a  
tendency towards a radical change for  
the worse. The pontiff is extremely  
weak, and even chloroform seems to  
have lost its power to give the sufferer  
the relief of tranquil rest. Besides,  
what depresses the pope is the difficulty  
he is experiencing in breathing. At  
times he appears to be upon the point  
of strangulation, and then his breath-  
ing gradually becomes weaker, until his  
heart apparently stops.

Another great preoccupation of the  
doctors is the derangement of the pa-  
tient's kidneys, as a result of which blood  
poisoning is feared.

The outlook now is that the pope's  
life may perhaps be prolonged more  
than could have been expected 36 hours  
ago, but the hopes of his recovery are  
still very small.

#### Statement of the Doctor.

Dr. Mazzoni, speaking about the pope,  
remarked:

"It has always been said that Pope  
Leo has shown powers of extraordinary  
resistance to diseases of the constitu-  
tion. He enjoys the absolute harmony  
of all his organs and of his phys-  
ical, moral and intellectual quali-  
ties, which is the real cause of his  
great resistance to illness. Notwith-  
standing his advanced age and his pre-  
sent sickness, the pope has a constitu-  
tion capable of enabling him to recover.  
The difficulties and delicacy of the mo-  
ment are created by the personality of  
the pope. He is a very sensitive man,  
and a person to whom a simple injec-  
tion of caffeine causes great suffering  
for about three hours. Three years ago,  
when I operated on him for a cyst, it  
was said he did not suffer, but in reality  
he did suffer intensely.

"The liquid taken yesterday from the  
pleura may gather again and another  
operation may be necessary, but I hope  
not. Some of the liquid may remain,  
and often the little which is left is spon-  
taneously absorbed, which may be the  
case with the pontiff."

#### Inquiries Are Numerous.

Rome, July 8.—The arrival of tele-  
grams from all parts of the world ad-  
dressed to the vatican has been so nu-  
merous that the minister of posts and  
telegraphs has been obliged to recall  
clerks who had gone on their summer  
vacations, besides establishing a special  
service in the transmission, delivering  
and replying to dispatches to and from  
the vatican.

Emperor William, King Edward, King  
Leopold, King Alfonso, and the queen  
mother, the prince of Montenegro, Em-  
peror Francis Joseph, the king of  
Saxony, and King Carlos of Portugal,  
make frequent inquiries by telegraph  
as to the condition of Pope Leo.

#### Leather Workers Adjourn.

Lynn, Mass., July 8.—After three  
long sessions Tuesday the Amalgamat-  
ed Leather Workers' Union of Amer-  
ica, which began here last Saturday,  
adjourned to meet July 4 next year in  
Chicago.

#### Shrivers Open Convention.

Saratoga, N. Y., July 8.—The imperial  
council of the Ancient Order of Nobles  
of the Mystic Shrine of North America  
began its twenty-ninth annual session  
here Wednesday.

Mr. John Lockhart, of 28th street,

constant aching in my loins and  
kneys so that at times I could hardly  
keep around. I could not rest com-  
fortably in any position and after a  
restless night I arose as tired as when  
I went to bed. The kidney secretions  
became irregular, frequent and un-  
natural. I used different remedies  
but did not receive any benefit. Seeing  
Doan's Kidney Pills advertised I pro-  
cured a box at J. O. Desburg's drug

much good that I got another box

between these two points and the track  
there is a single one.

Engineer Hale had orders to get out of  
the way of the fast passenger train, but  
for some reason which has not yet been  
explained he had overstayed his time  
and had failed to take a siding so that  
the passenger train could pass. The  
trains came together with a horrible  
crash, and a fearful scene of panic en-  
sued when the occupants of the cars  
realized what had occurred.

#### Many Passengers on Train.

The passenger train was made up of  
an express car, a baggage car, two day  
coaches and two Pullman cars. The two  
Pullmans formed an early morning New  
York connection at Washington for At-  
lanta and the south. The train arriving  
here at 10:32 a. m. from Boston also  
made connections. It is estimated here  
that there were in all probably 120 pas-  
sengers on the train, including those  
from Boston and intermediate points.

Engineer McCormick, who was a pas-  
senger on the freight train, was going to  
Charlottesville to take a train south at  
the time he met his death. The engineer  
of the freight escaped without injury.

#### Her Last Slide.

Fort Dodge, Ia., July 6.—Clara Fox, of  
Omaha, was instantly killed while mak-  
ing a "slide for life" on a wire stretched  
from the courthouse tower to a tele-  
phone pole half a block away. The har-  
ness in which she hung became un-  
buckled just after starting. She fell  
into a crowd 100 feet below, striking W.  
H. Wheeler, of Fort Dodge, and fatally  
injurying him.

#### Broke World's Record.

Washington Park, Chicago, July 2.—  
Alan-a-Dale broke the world's record  
for one mile over a circular track at  
Washington park Wednesday after-  
noon, running the distance in 1:37 3-5.  
The former record of 1:37 4-5 was  
made by Brigadier at Coney Island in  
1901. Salvator holds the record for a  
straight course. He made it in 1890 in  
1:35 1/2.

#### Work of a Mob.

Norway, S. C., July 2.—Charles  
Evans, colored, suspected of the murder  
of John L. Phillips, was taken from  
the jail here Tuesday night and  
lynched by a mob. Four negroes, who  
were confined in the jail, were also  
taken by the mob and beaten into in-  
sensitivity.

#### Made a Great Record.

Washington, July 8.—The big United  
States battleship Kearsage smashed all  
ocean records for speed in the battle-  
ship class in her journey to Kiel, making  
a total distance of 3,345 miles, from New  
York to the Needles, at the high average  
speed of 16.62 miles per hour.

affairs, favors good roads legislation;  
indorses the Louisiana Purchase com-  
mission, and declares for nomination of  
President Roosevelt as his own suc-  
cessor. It renounces allegiance to the  
principle of the gold standard. It op-  
poses all legislation designed to accom-  
plish the disfranchisement of citizens  
upon lines of race, color or station in  
life, and condemns the measures adopted  
by the democratic party in certain  
states of the union to accomplish that  
end.

#### Sent to Prison.

Montgomery, Ala., July 2.—George D.  
and Barancus Cosby, the two white men  
who pleaded guilty to peonage for hold-  
ing negroes in involuntary servitude,  
have been taken to the federal prison  
at Atlanta. These are the first cases of  
their kind in the United States where  
the parties go to the penitentiary. The  
Cosbys' sentence will forever lose them  
their rights of citizenship unless par-  
doned by President Roosevelt.

#### Big Plant Burned.

St. Joseph, Mo., July 6.—Fire yester-  
day afternoon destroyed the main  
building of the Hammond packing  
plant, causing a loss estimated at  
\$1,500,000. The Nelson Morris plant  
was saved by heroic work. It is re-  
ported that two, and possibly three,  
men lost their lives. The carcasses of  
4,500 hogs, 1,800 cattle and 800 sheep  
were burned.

#### First to Cross Continent.

New York, July 8.—George A. Wy-  
man, a motor cyclist, has reached this  
city on his machine from San Francisco,  
and has the distinction of being the first  
man to cross the American continent  
on a power propelled road vehicle. He  
had ridden, pedaled and pushed his ma-  
chine from San Francisco to New York  
in 50 days, including stops.

Washington, July 2.—The monthly  
statement of the public debt shows  
that at the close of business June 30,  
1903, the total debt, less cash in the  
treasury, amounted to \$925,011,637,  
which is a decrease for the month of  
\$10,676,396.

to Fight Against  
Contract Labor  
The Michigan Manu-  
facturing Association held in  
NEapids Tuesday, agitation of  
er pressing question of prison  
et labor was revived. The  
facturers heard that a move-  
had been started to re-establish  
re manufacturing by convict  
the Ionia state prison and the  
aroused them to the fighting  
It was decided that should the  
board attempt to enter into a  
lot of that kind a determined  
should be made against it.  
is good news to the laboring  
In the beginning of the fight  
et prison contract, labor protests  
criticism came from labor, unions  
apally. The laboring men feel  
it is not right to force them into  
nous competition with cheap  
son labor; they feel that it is a blow  
ainst wages, against their homes  
d the rights of their families, and  
y have earnestly, consistently,  
bitterly waged the contest for a  
continuation of the abuse. Not  
ago their ranks were augmented  
some of the retail merchants  
well as by the wholesalers  
the ruinous competi-  
cut prices of prison  
oods and allied themselves  
e labor unions in denunciation  
e evil and in pleas for its eradica-  
Now comes the manufacturers  
r the same banner and the fight  
see to be fierce, and should re-  
n the abolition of the system,  
is unjust to the last degree. Not  
does it compete ruinously with  
the laborer, the price of  
chant, and the trade of the  
cturer but it is the greatest  
any of prison discipline.

is a vexatious question arises  
Some provision  
from the time the agitation  
tion first begun, is where  
of friends parted company.  
however they have, come to-  
late and have all reached  
usion that the only solution  
problem is to install in the  
manufacturing industries that  
the least with present en-  
rises, and have the prison made  
s sold in a way that will not harm  
imate enterprises.  
e question was up before the last  
ature and in casting about for  
dustry that would least inter-  
with existing Michigan enter-  
the establishment of a binding  
e plant was hit upon as the best  
ition. A binding twine plant  
id interfere with no Michigan in-  
ry, for there are none in Michigan.  
ould tend to relieve the farmers  
the squeezing of the great blind-  
twine trust and therefore com-  
ended itself to all public spirited  
ens. Officials of the labor unions  
ed forces with the farmers in an  
avor to have a bill passed appro-  
ating \$350,000 for the establish-  
of a plant at Jackson prison.  
The bill passed the senate and it  
looked favorable for its passage in the  
house, but the alarm was raised that  
the appropriations were getting too  
high, that the matter was too im-  
portant to be settled without more  
careful consideration than the closing  
ays of the session afforded, and the  
I failed to pass.  
text session the result promises to  
ifferent. The action of the manu-  
rers in deciding to fight under  
same banner as the merchants  
e labor unions is a good sign  
d should spell success.  
ndrie Contends It is Not a  
Business Proposition  
To meet the competition of the  
Marquette railway between  
and Rapids and Ottawa Beach the  
H. & L. M. railway company  
on sale resorters tickets calling  
rides between the resorts and  
Rapids for \$10. This is a  
ate than is given the citizens  
and the common council in  
to procure a like concession  
the company passed a resolution  
y requesting that the citizens  
and be given the benefit of the  
Rapids rate. Strathearn  
e, general manager of the com-  
t that the company could not  
the council's request and in a  
ommunication to the council Tues-  
night advanced the following

"Your letter of the 18th notifying  
me of the passage by the common  
council of a resolution requesting this  
railway to sell family tickets at the  
rate of 40 rides for \$10 was duly re-  
ceived. As the matter was of consid-  
erable importance I did not feel justifi-  
ed in hurrying the reply.  
"The rates of fare as established by  
the ordinance under which the rail-  
way operates have been considerably  
modified and reduced by various cir-  
cumstances and further modifications  
and reductions have been for some  
time under consideration.  
"The undersigned is a firm believer  
in charging the average rate of fare  
to all persons at all times for given  
distances instead of earning the same  
amount of money by charging some  
persons more than others. Unfortun-  
ately circumstances over which the  
company has no control have made  
the latter practice necessary, and its  
evil effects are seen in the dissatis-  
faction with which the citizens of  
Holland view the carrying of a certain  
class of citizens at a cheaper rate than  
themselves. For the present this  
state of affairs which is not of this  
company's making cannot be altered.  
"It is out of the question to con-  
sider the reduction of this company's  
gross income in any way at the pres-  
ent time, nor until such time as it  
has succeeded in earning its expenses  
and at least some return on the money  
invested in the property.  
"The sale of 40 rides for \$10 to sum-  
mer cottagers at Macatawa Park and  
adjacent points increases the revenue  
of the company because these persons  
are taken away from a competing  
railroad. The sale of tickets at the  
same rates to the citizens of Holland  
would, however, decrease the revenue  
of the company, and for this reason,  
at this time, it cannot be done.  
"Regretting that the wishes of the  
common council as expressed in this  
resolution cannot be complied with, I  
remain,  
"STRATHEARN HENDRIE,  
General Manager."

## Greatest Literary Contest.

### FIFTY DOLLARS GIVEN AWAY

Greatest Offer Ever Made Here

Unique Plan to Help the Young Men  
and Women of Holland Select  
Proper Books for their Library.

In order to stimulate the reading  
of good literature amongst the  
boys and girls of Holland and  
other places and to guide them in  
the choice of a good library of their  
own, I have decided to invite the  
aid of the readers of the News in  
this matter.

#### The Reason.

Many and many a time requests  
have come to me to pick out a  
suitable selection of books for  
young men and women who want  
to build up a library of their own.  
A few of them have some idea as  
to the books they desire; but far  
the greatest number are at a loss  
to choose for themselves from  
amongst the bewildering large  
number and variety of books  
thrown upon the market every  
year

It is to help these young men  
and women gratify their ambition  
and to give the benefit of the ex-  
perience of other readers and  
lovers of books, that I have ven-  
tured on this method of obtaining  
the aid of the men and women who  
care as to what books are read by  
the boys and girls of today.

#### The Contest.

The contest will be conducted  
according to the following rules:

1. The books must be suitable  
for young men and women between  
the ages of 15 and 25.  
2. The list must contain the  
names of from twenty-five to forty  
books, whose aggregate cost shall  
not exceed \$25.00.

3. Each list must state whether  
intended for young men or women.

4. Titles and authors of books  
must be plainly written. (Also  
publisher and price, where possi-  
ble—this is optional.)

5. The contestants will write  
assumed names under their lists.  
In a sealed envelope enclosed with  
list, they will place their own  
name. This is done in order that  
the judges may not be biased by  
the name of some person, thought  
more capable than the rest.

6. The lists will be judged by  
two committees of competent per-  
sons, one composed of three ladies  
and one composed of three men.

7. The contest will close Aug.  
15, 1903. Any letter received  
bearing postmark of that date, will  
receive recognition.

8. Any reader of the News,  
who, during July and the first two  
weeks of August, purchases books  
or stationery from our store  
amounting to fifty cents, will be  
entitled to take part in this con-  
test; any reader who purchases one  
dollar's worth, shall be entitled to  
take part in both, that is, he may  
send one list for young men and  
one for young women.

9. All lists submitted are to be  
addressed to H. Vander Ploeg, 44  
E. 8th St., Holland, Mich., and  
must enclose a ticket, showing  
that sender is entitled to take part.  
These tickets will be handed out  
or sent to purchaser as above men-  
tioned.

10. The result will be an-  
nounced as soon after August 15th,  
as possible, and will be published.

### Fifty Dollars in Prizes

## THE FACE THAT SMILES.

Brother, you are gazing backward, toward the scenes of your mistakes; You are weeping o'er your errors till your proud heart almost breaks. You're repenting and regretting, you are sighing, Oh, alas! And you're missing all the glories of the present as they pass. Leave the grim and gruesome picture—look the other way awhile, For the face that's toward the future is the face that wears a smile.

You are lost in contemplation of the blunders you have made; You are sighing o'er the countless times your soul has been dismayed. But the future's sun is shining on the future's verdant trees, And the future's birds are singing—you are missing all of these. Cease that useless gazing backward, look the other way awhile, For the faces toward the future are the only ones that smile.

When your back is toward the future then the blazing lamp of hope Throws your shadow o'er your landscape and with blinded eyes you grope For the blessings that have vanished with the times they strove to bless; Face about and you'll discover all your groping's fruitlessness. You'll be dazzled by the glory of the prospect for awhile. But with face turned to the future you will learn to wear a smile.

## A Closer View

By WILLIAM NICHOLSON

(Copyright, 1903, by Daily Story Pub. Co.)

MARIE shook her head a little sadly. "Of course I care a great deal for you," she said, "but not in the way you ask." She knew she was saying something very stereotyped, but she did not know how else to express herself.

"Then I suppose there is nothing more to be said," answered James Willis, with the uncomfortable infection characteristic of the rejected suitor.

"There is much more to be said," asserted Marie, vehemently. "I don't want you to think that I have been—been leading you on, because I have shown such a thorough appreciation of your society for two years. It has been very pleasant, and I don't want this to make any difference. We are not going to be foolish, as some people might; we are going to be the same good chums, are we not?"

"Yes," he answered, listlessly, "we won't let this interfere." But he knew very well that this would thereafter decidedly interfere with the spirit of good comradeship which had made them enjoy the hours they had spent together.

"I have so much for which to thank you," she stumbled on, not knowing how this expression of gratitude hurt him until she looked up into his eyes. "O, I don't know just what I wish to say," she cried helplessly; "but you have been to me what no one else could have been—you have taught me how to live and to enjoy myself without parting with my principles. You know what I mean. When my father died and I came to live with my uncle, I knew nothing but the knowledge to be found in books. I looked aghast at the world in which I found myself. I thought everything savoring of the world was wicked; I thought it a sin to dress too prettily—in fact, I was a silly little prude. You made me to know that some things that glitter are gold.

"I understand what you mean," he said very gently; "but if I have helped you any I must disclaim the credit of

"I DON'T BELIEVE THE HEART EVER TRULY LOVES BUT ONCE."

having done so from purely unselfish motives. You do not know how an unspotted, noble girl such as you are appeals to a man who has seen much of the shallow mockery of life. It was not altogether your fresh young beauty which first attracted me; and if I have been the means of your forming a taste for innocent frivolity, I am your debtor, for you have taught me one thing at least.

"And that is—?" she inquired, wonderingly.

"That there are women who will not sacrifice everything for the sake of that which glitters and is not gold," he answered.

"You have been disappointed in someone," she said, lowering her voice.

"Yes," he acknowledged, with a little laugh. "I loved madly, desperately, and the girl loved me; but she married a fellow who had more money than I. That's the story in a nut shell. Needless to add that I ceased to care for her after she threw me over. But somehow my faith in all women was shattered until I met and loved you."

"I don't believe the heart ever truly loves but once," she said with conviction. "If you really loved her you don't love me—not with all the strength of your nature."

"What do you know of love, child?" he demanded.

"I loved once," she confessed, a warm flush glowing in her fair face.

"Then, according to your theory, you love him yet," he said a trifle bitterly.

"Yes," she answered simply; "I have not heard from him directly for more than two years. He was away when my father died, and uncle took me home with him immediately. He—he worked as assistant bookkeeper to my father. I was very young and he was very poor; we knew we had to wait; we were not formally engaged, but we loved and understood each other."

"And during all this time he has made no effort to see you or to correspond with you?" asked Willis, a strange expression flitting across his face.

"He is too proud to seek me now," she answered, valiantly. "My uncle is rich, and he is poor. But my heart tells me he is waiting for me and he will seek me when he has something more than his love to offer."

"I hope he will," said Willis, a little brokenly. "I hope he will be everything you expect. But don't make the mistake of cherishing a romantic idea which may be no more tangible than the will-o'-the-wisp. To my mind his long silence suggests the thought that he has given you up, realizing that your paths now lie so far apart."

"Mr. Willis!" she exclaimed, indignantly. "I am surprised to hear such an expression from you; under the circumstances I should—"

"I have only your happiness at heart," he interrupted, "and I only wish that Heaven had decreed that I should be the one to inspire such marvelous faith in man's love and fidelity."

"I ask your pardon for doubting you," she said with downcast eyes.

"Granted," he returned quickly, and he rose to go. "I may be out of town for a week or two, but I'll see you at Mrs. Scott's, won't I? While I am not to be one of the house party I'll be there the night of the ball."

"I shall be there," she answered, and they parted.

It was seven o'clock, and Marie Allen was the only one of all the guests at Scott's Towers who was dressed for dinner. She stood on the broad piazza and looked anxiously down the long carriage drive, for the afternoon train would bring James Willis to Scottville. Finally her impatience mastered her, and throwing a scarf about her bare shoulders, she walked down the driveway. She reached the gate just as it was opened to admit the expected guest.

He greeted her pleasantly, though with some degree of formality. "I walked up from the station," he explained. "A June evening in the country is irresistible—but I hope I'll not keep dinner waiting."

"Dinner is at eight," she said. "I dressed early, and—came to meet you." She brought the words out with a jerk, and looked at him appealingly. Without a word he led her to a rustic bench near by and seated himself beside her.

"You wished to see me alone, then?" he asked.

"Yes," she said with a little gasp. "I knew it would be next to impossible to talk with you unless I met you here, and I could not wait to tell you."

"To tell me what?" he asked, trying in vain to conceal his eagerness.

"I have seen him," she answered with a little laugh, "and you are right and I am wrong."

He pressed her hand encouragingly. "I came on the morning train," she continued, "and it stopped at a little town for several minutes—and I saw him. His store is near the railroad crossing; he sells plows and things. He looked the same, and yet different. He was talking to a country girl as pretty as a wild rose."

Willis began to laugh in spite of himself.

"You know all without my telling you," she said, joining in the laugh. "I don't suppose he has given me a thought since I passed out of his life. He looked contented and prosperous, and he had eyes for no one but his pretty companion. I had dreamed of him toiling and striving for my sake, when doubtless, as you suggested, he ceased to care for me long ago. It is inevitable that the change in our circumstances should have left its mark on both, but believe me, that is not the only reason I could not love him now. It is true that a look into the hazy distance often discloses a beautiful picture which a closer view would dissipate; and I have had the closer view. But—but that is not the reason I do not love him now."

"And the heart never truly loves but once," said Willis, hopelessly.

"Ah! but it does," she said softly, "and he has long been supplanted, only I did not know it until to-day."

And then, in spite of all the windows of Scott's Towers staring through the twilight—he kissed her.

### Killed the Goose.

When the old doctor went off on his vacation he left his practice in charge of his son, who had but a few patients of his own. On his return the old man found the young doctor quite unhappy. Inquiries revealed the fact that business was very bad; there was nothing doing.

"But, surely!" exclaimed the astonished old doctor, "you must still have that cranky rich fossil around the corner to look after!"

"No; I cured him three days after you left home."

"What! You darned fool! Why, I sent you through college on that case!"—N. Y. Press.

### It All Depends.

"Yes," said Newbri, "I'm satisfied, judging from my own personal experience, that married life is the only happy one."

"By the way," queried old man Wederly, "how long have you been married?"

"Nearly a week," replied Newbri.

"Huh!" exclaimed Wederly, "I thought so."—Cincinnati Tiger.

## Increasing Interest of Eighth Grade Exams.

The class of young people who wrote for county diplomas at the eighth grade examination held at Coopersville, Hudsonville and Zeeland recently, was the largest and most capable class in the history of eighth grade examinations ever held in the county.

At the first eighth grade examination which was held in May, 1898, 40 young people wrote and of this number 21 were successful and were granted diplomas. The work has grown from year to year until in 1903 the class numbered upwards of 150 applicants and of this number 115 were granted diplomas.

Commissioner Ernst, who during the six years he has had charge of the schools of the county has done remarkably good work in arousing interest in the eight years work idea, takes just pride in the growth and strength of our district schools and looks forward to the time, in the near future, when every district school in the county will be represented at these examinations if due pressure is made in this direction.

Those from Holland township who were granted diplomas are Gebhard Stegeman, Ralph Van Dyk, Daniel J. Meeuwse, Ethel D. Van den Berg, William J. Slagh, Janet Knoolhuizen, William Westrate, Jennie M. Nies, James Mulder. Those from Zeeland are Hattie Riddering, Maggie Kaslander, Jennie Vis, Annie Nyenhuis, Jennie Dezemae, Fannie J. TenHaar, Henry Moes, Bert D. Roelofs, Ora Lillie, Arthur Van Kley, Hattie Meengs, Gerlie Van Noerd, Johanna Van Zoeren, Jake Ver Duin, George DeGroot, Bert VanHaltsma, Jeanette De Jong.

## Proposals for Coal.

## It Is a Mistaken Idea

To give too much time to the selection of a Piano; this time could better be spent in selecting a dealer. It should not be hard to size him up by the very appearance of things; for instance, if he be disposed to depreciate his competitor, his pretty strong evidence he hasn't much to offer for himself. One may well have reason to be suspicious of a dealer who promises very much more than is promised by other dealers in a like business. Select the dealer right and the good piano follows. Look up our record. Ask any of our customers how they like the Raymond. They all agree its the finest instrument they ever saw. We can suit you in price and style. \$300 to \$425.

To Die of Paralysis Like Father.

Helpless Invalid For Three Years.

Dr. Miles' Nervine Made My Nerves Strong.

"For many years I suffered from terrible headaches and pains at the base of the brain, and finally got so bad that I was overcome with nervous prostration. I had frequent dizzy spells and was so weak and exhausted that I could take but little food. The best physicians told me I could not live; that I would die of paralysis, as my father and grandfather had. I remained a helpless invalid for three years, when I heard of Dr. Miles' Restorative Nervine and began using it. That winter I felt better than I had before in many years, and I have not been troubled with those dreadful headaches since I first used Dr. Miles' Restorative Nervine. My appetite is good and my nerves are strong."—Mrs. N. M. Bucknell, 2929 Oakland Ave., Minneapolis, Minn.

"For many years I suffered from nervous prostration, and could not direct my household affairs, nor have any cares. My stomach was very weak, headaches very severe, and I was so nervous that there was not a night in years that I slept over one hour at a time. I spent hundreds of dollars for doctors and medicine. I was taken to Chicago and treated by specialists, but received no benefit at all. Finally I heard of Dr. Miles' Nervine and began its use. I was surprised that it helped me so quickly, and great was my joy to find, after using seven bottles, that I had fully recovered my health."—Mrs. W. A. Thompson, Duluth, Minn.

## RIOTERS ARE SHOT DOWN

Armed Mob Charges the Militia on Guard at the Jail in Evansville, Indiana.

NINE ARE KILLED AND MANY WOUNDED.

Battle Result of Race War Following the Murder of Patrolman Massey by Lee Brown, a Negro—Gov. Durbine Sends More Troops to Stop the Rioting.

Evansville, Ind., July 7.—Race rioting, which has been going on here for several days, came to a bloody climax to-night in an encounter between a mob and a company of militia.

Nine persons are dead and 35 are known to be wounded, while at least as many more are thought to have been hurt, but were able to conceal their injuries until they could get home.

### The Killed.

Those killed in the battle with the militia are:

Edward Schiffman, painter, top of head blown off with rifle.

Hazel Allman, 15 years old, daughter of Joseph H. Allman; shot in breast.

John Barrett, shot in right lung.

August Jordan, 19 years old, musician; bullet wound through heart.

Ed. Rule, 23 years old, laborer; shot through body and head.

Fred Kappler, aged 15, shot in side.

Frank Lampler, aged 28, shot through chin.

Charles Taylor, aged 25, shot in the back.

Unknown man, middle-aged, shot in the back.

### Fire Point Blank on Mob.

At 10:30 o'clock last night the members of Company A, First regiment, Indiana National guard, after a day's vigilance guarding the county jail, and 100 deputy sheriffs under Sheriff Chris Kratz fired point blank into a mob of 1,000 men gathered on Fourth, Division and Vine streets, surrounding the Vanderburg county jail and attempting its capture.

### Mob Restless All Day.

From seven o'clock in the morning until the hour of the night's catastrophe the crowd surged about the jail calling the militiamen vile names, assailing them with stones, and berating the deputy sheriffs who guarded the jail.

### Murder Caused Riot.

The battle was the outcome of the riots which grew out of the recent murder of Patrolman Massey by Lee Brown, a colored resident of Evansville. After several determined efforts had been made to storm the jail and lynch the officer's murderer, Brown was spirited away to Vincennes, where he is lying in jail at the point of death as a result of wounds inflicted by Massey before the latter was shot dead.

### The Governor Agitated.

Indianapolis, Ind., July 7.—Gov. Durbine was very much agitated at the information from Evansville. "If this condition continues," he declared, emphatically, "I shall go to Evansville myself and declare the city under martial law." At midnight he began ordering out additional militia companies. The first was that from Vincennes, which was rushed to the scene of the riot on a special train. The New Albany company was called out and placed under arms, with orders to proceed to Evansville early this morning.

### Nine Are Dead.

Evansville, Ind., July 8.—Nine persons lie dead and 35 are wounded as the result of the tragedy about the courthouse. One of the injured soldiers is so seriously wounded that it is expected he will die. While martial law has not been declared the city virtually is in control of the militia, the sheriff's deputies and the police.

### Exodus of Negroes.

All day long the exodus of the colored people has been going on. It is estimated that more than 1,000 have crossed the Ohio river in Kentucky. The colored population is estimated at 10,000. While it is believed by Brig. Gen. McKee, who is in command of the troops here, that there will be no further rioting, he has taken pains to place guards at every intersection leading to the courthouse, so that it is impossible to get within two blocks of that structure or the city jail without being halted.

### Ordered to Shoot.

The soldiers have orders to act promptly and not take any chances of another riot. Men approaching the courthouse are called to halt, and then if they continue to advance either to force them to stand and explain their presence at the point of the bayonet or shoot them down.

### Murderer Removed.

Vincennes, Ind., July 8.—Lee Brown, the negro who was in jail here for safekeeping after he killed Policeman Massey at Evansville and precipitated the race riots there, was taken to the state prison at Jeffersonville yesterday by Sheriff Summitt by order of Gov. Durbine, where he could not be reached by any mob. The negro was barely alive, and had to be given stimulants and worked with for two hours before he could be taken to the train.

### Will Return to England.

New York, July 8.—Whitaker Wright, the London financier and promoter, who was arrested early in March charged with fraud as a director of the London and Globe Finance company, and has since been in jail pending extradition proceedings, has formally waived all rights, and agreed to be voluntarily extradited to England by the British authorities. Wright waived his rights against the advice of his counsel, both here and in London.

## KINGS OF FOREIGN BLOOD.

Few European Countries Can Boast of Rulers Who Are Really Natives.

It is strange how little really native blood the royal families of Europe have in their veins. The king of Greece is generally called a Dane, being second son of the King of Denmark, but as the king of Denmark was a prince of Schleswig-Holstein, the Danish and Grecian reigning houses are both of German extraction, says London Black and White.

Germany, has, indeed, supplied most of the royal houses of Europe. The czar is, of course, a lineal descendant of Peter the Great, but nearly all his intervening ancestors have been German, as in the middle of the eighteenth century a prince of Oldenburg inherited the Russian crowns and transmitted them to the subsequent czars.

The king of Sweden is French, and of quite humble extraction—that is, humble for a monarch—though his grandfather, Bernadotte, was one of Napoleon's most famous generals.

The Spanish crown is filled by a prince who can boast at least of a fair percentage of real Spanish blood, and Italy's king, too, descended from the old kings of Sardinia—one of the Italian states.

The royal house of Hapsburg has given many emperors to Austria, which is one of the few countries where the king is really a native of the country he reigns over.

### WEAVING PERSIAN CARPETS.

Boys Work at the Looms and Carry Out the Patterns with Great Skill.

A most interesting sight is the local manufacture of Persian carpets. "Eight or nine boys, whose ages range from eight to 12, sit in rows at the looms," according to The Modern Priscilla, "and with the wool, which they pull from reels suspended above them, in their left hands, and a flat knife, crooked at the point, in their right, dash, with three movements, the thread through the web strings, hook it into the desired knot, and cut off the surplus ends, starting another knot before the spectator has realized what has been done. Having been shown the design and coloring of the carpet they are to work for the first two or three feet, these boys rely on their memories for the remainder of their task, for on only two or three looms is the design of the carpet to be seen affixed, and then only in plain pencilled drawing. When nearing complicated parts or medallions, a boy 12 or 14 years old, the foreman of the loom, who has the design seemingly imprinted on his mind, waits up and down, calling out in a quaint, sing-song manner, the number of stitches and the colors of the threads to be used."

### TIPS FOR TRAVELERS.

Good Reminders Which Will Save Railway Passengers from Worry and Delay.

Here are a few tips that should be written on every traveler's hat band, says "Vest Pocket Confidences," in Four-Track News:

Get posted! It costs no more to enjoy your trip by being prepared.

Get ready in time! By procrastinating you are apt to lose your head—and train.

Take as little baggage as possible. Take your manners with you.

Don't demand Pullman service on a tourist ticket.

Make the best of things—it is a winning card.

Use discrimination regarding tips. Don't pay for one seat and expect to occupy three.

Remember there are other passengers.

Don't talk too much—remember the fate of the parrot.

Remember a sleeping car is not home. Don't snore—there are others who want to sleep.

### RICE SHOWERS FORBIDDEN.

Railway Officials in Connecticut Town Put an End to a Growing Nuisance.

Rice-throwing has become a nuisance at Hartford, Conn. So many couples have been married there recently, and their friends have been so demonstrative at the railway station, that Superintendent Davidson, of the New York, New Haven & Hartford railroad, has decided to put an end to it in the precinct which is directly under his supervision. Recently he happened to be in the union station when a bride and groom were being pelted. Passengers had to keep off the station platform till the couple were within the car, and then, in the hurry to get aboard, several slipped on the rice.

Mr. Davidson promptly issued an order to the station master to call upon the police to arrest all persons who committed the nuisance of rice-throwing. Half an hour later the station master enforced the order, and caused the arrest of a young man, but on the ground that the order had not become well known the youth was released. Hereafter all offenders will be prosecuted.

### Chinese Fish Farming.

Those ever-ingenuous people, the Chinese, are great at fish farming, and one of their little dodges for hatching young fish is most ingenious. Taking a fresh egg, they suck the contents through a tiny hole and refill the egg with tiny eggs of the fish they want to hatch. The hole is then sealed up and the egg placed under a sitting hen. In a very few days the fish ova are so far advanced that one has only to break the shell into moderately warm water and the little fish spring to life at once.

Few Jap Women in New York. In the colony of Japanese in New York city there are about 1,000 men and but 30 women.

### Ionians Outplays Holland.

Ionians defeated Holland decisively Tuesday afternoon in a game that was uphill for Holland all the way, making nine scores in eight innings while Holland made but two. Most of Holland's failure to win is attributable to Wither, the ex-Kansas City leaguer who pitched here on the Fourth for the Lakesides, and who did the box honors for Holland. He was a weak sister when it came to playing in fast company, and Ionians straightened his curves into long hits with the greatest of nonchalance. Though it was apparent to the Holland boys after the third inning that they were up against it they made a game uphill fight until Umpire Ver Schure stopped the game in the eighth to give the Ionians a chance to catch the train.

Gleason, one of Holland's last year favorites, was in the game again, and in left field accepted and captured hard chances in a way to cheer the drooping fans. One of his catches of a high fly was sensational and he hit with the leaders. Bell was also there with the goods on second but was weak at the bat. He brought the rooters to their feet in the second inning. A hot grounder sizzled through Wither's fingers, splitting one of them. Bell saw it coming and got in the way, stopping it about ten feet from second, touching second and sending it to DePree for a double play of heart breaking proportions.

Ionians started the scoring in the third with two. It would have been worse but for sensational playing by Bell, who spoiled what looked like a two bagger for Harris. In the fourth Ionians added two more to the list and if Gleason did not pick a hard one off the fence and Karsten did not run up on a low fly and kill it, the result would have been even more disastrous for Holland.

Gleason got to first on three strikes in the fifth but was crowded out on second by DePree who reached first safely. Then DePree stole to second, advanced to third on a poor throw and scored on Karsten's hit. Holland's other lonesome score was made by Shippe in the sixth on a hit, a punk throw to second by Thomas and Gleason's hit.

Ionians continued to score merrily until they ran the score up to nine and then the game was charitably ended. Holland's bad showing was due to individual playing instead of team work, to absent mindedness and to "dobbers down."

### Another Defeat

Up against the real article again bumped the Holland base ball club. At Ionians yesterday it went down in defeat to the tune of 6 to 5 after a soul stirring struggle before a small crowd at Ionians.

Holland did not score until the seventh when leaving by Vizard and soreness by Thomas coupled with a glimmer of old time Holland pluck netted four runs. The score was tied at the beginning of the ninth and Holland scored another and it looked good. Then Ionians tied it and an error by Andrews let in the winning run.

### Defeated Lakesides Twice

Coming over on the Graham & Morton steamer last Friday night the Lakeside club of Chicago were shaken up a little by the dead swell. But that was not a marker compared with the shaking the boys got the next day on the Holland diamond. They were tossed and buffeted by the Holland boys in two games and being unable to weather the gale were wrecked on both occasions, while the whistling wind told of scores of 5 to 0 and 6 to 0.

Root pitched the morning game and his tantalizing curves, interspersed with slow straight ones, were too much for the visitors and kept them so busy guessing that they forgot to circle the bases.

Wither, formerly with the Kansas City league team, was in the box for the Lakesides and proved a puzzling proposition. It was impossible for the Holland boys to swell appreciably their batting averages and if Wither was given good support the score would have been 0 to 0, as not one of Holland's runs was earned.

Karsten pitched for Holland in the afternoon and did it in old time form.

### Alley Rats Challenge Liquor Men.

To show the liquor men of this city that they are not the whole thing in the base ball line, we, the Alley Rats, hereby challenge them to a game on the Holland diamond to be played on a date satisfactory to both sides. It's up to you now liquor men and we'll play you for money, marbles or chalk.

### THE ALLEY RATS.

### Lake and Marine

In ten days another modern steel passenger steamer will be added to the fleet on Lake Michigan. The new vessel, the Eastland, will be the property of the Michigan Steamship Company, which will operate the boat between Chicago and South Haven. It will be the largest addition to the Chicago fleet since the Manitou, and marine men are awaiting the steamer's appearance with much interest. In

building the Eastland steps have been taken to introduce to the lakes many features of ocean naval construction. The Eastland's lines are those of an Atlantic liner, and her interior arrangements are in many respects different from lake boats. The steamer is 279 feet long and 38 feet beam. She will have a capacity of 2,500 persons and berths for 400. The steamer will be driven by twin screws, with sectional wheels. Water-tight compartments have been built in the hull of the steamer, to be filled in heavy weather and steady the ship and as a protection against stranding. The Eastland's main cabin and dining-room are finished in mahogany, the upper cabin in white and gold and the smoking-room in oak.

### Balloon Did Not Go Up

"If you want to have two good times on the Fourth go to the Holland base ball park. There will be two skyrocket games there and the balloon is liable to go up any inning."

Just because a balloon did not go up at the Holland base ball grounds on the fourth a man living on the Saugatuck road is "consumed" with anger. He saw the above item in the News and taking the language literally took his family of three to the base ball grounds to see the "balloon go up."

He sat long and patiently the entire afternoon waiting for the ascension but all he heard was the monotonous chant of the umpire, the sharp crack of the bat, the yells of the coaches, the shouts of the fans and the barking of the popcorn boys. All these sounds were Greek to him. He is not interested in base ball and thought it looked foolish. As the shadows lengthened and no balloon soared away into space he began to get restless. He fidgeted. Then he grew angry and when told that there would be no ascension his howls of vexation were long and loud. He protested vehemently and picturesquely against what he termed the "mean swindle," but was not fully satisfied until he met the editor of the News and showered abuse upon him in three languages—English, Holland, and Swearing.

### Common Council

It took the common council until ten o'clock Tuesday night to complete the business before it. Most of the time, however, was devoted to routine business and very little of great importance was done.

The city attorney reported communication from the G. R. H. & L. M. Ry. Co., that said company had elected to have the city do the paving between the rails of their tracks on Eighth street, said street railway company agreeing to pay their share of the cost in installments same as abutting property owners. The communication was placed on file.

Permission was granted C. J. De Roo to build boat house at the foot of Third street.

The committee on streets and crosswalks reported recommending the defraying of the expense of street sprinkling by special assessment upon the real estate in one street sprinkling assessment district. Adopted, all voting aye.

A resolution was passed providing that the sum of \$40,000 be borrowed pursuant to resolution passed June 1903, and pursuant to Sec. 18, Title XXVIII, as amended, for the purpose of paying for the pavement of Eighth street, and that the clerk be instructed to advertise for sealed proposals for the sale of bonds to be issued for said loan of \$40,000, said bonds to bear interest at the rate of 4 1/2 per cent per annum, forty bonds in the sum of \$1000 each.

One of the most unique plans for aiding young people to select choice books for their private libraries has been inaugurated by Henry Vander Ploeg. He offers fifty dollars in prizes for the best list of twenty-five or more books, which would make acceptable reading for young people. Among the prizes offered are a Webster's Unabridged Dictionary and an Encyclopedia Britannica. For particulars as to this literary contest we refer the readers of the News to another column of today's issue.

### AUSTRIA'S STATE SECRETS.

They Are Placed for Security in Iron Rooms of House Built Expressly for Them.

The Austrian imperial archives have been lately conveyed from the Hofburg to the great house built for them adjoining the foreign office. They will later on be opened for public inspection, from the most ancient documents down to those of 1840, says the London Telegraph. The rooms containing the secret archives are of ironwork, each story being completely separated from the next one, so that neither fire nor water can penetrate. Those supplying abundance of water is fixed in every direction, the windows can neither be melted by fire nor destroyed by blows and the ornamental ironwork before each window can be unlocked in case of emergency.

It is remembered when Napoleon Bonaparte invaded Austria and established himself at Schonbrunn with what terrible haste the secret archives were carried off to Buda-Pesth to the Ofen stronghold, these being the first things secured when all else was left. Among the iron cases stands a plain wooden box which will not be opened for 50 years.

It contains the letters and papers of the late Crown Prince Rudolph hurriedly collected at Mayerling on the day of the disaster and placed in a box bought in the adjoining village.

### DISCOUNTING DEFEAT.

Englishmen Say the Last Cup Defender Was Manned by a Dutch Crew.

It is curious that Englishmen are questioning the international character of the American yacht race for the first time; for in the true sense of the word, it never has been a struggle between Englishmen and Americans, but between Englishmen and Englishmen, and Englishmen and Americans, says the King.

"The America, which carried off the famous cup, was designed by an Englishman, who, with his brother, navigated her across the Atlantic.

Later on it was a Scot who owned the defender.

Last time the American yacht was commanded by a Scotch skipper and manned by a Dutch crew.

If the English depended on American skill in this way we should hear of it; but apparently John Bull is roused at last. He objects to the employment of British sailors in the Reliance, which is supplied by Ratsey, of Isle of Wight fame.

Yachtsmen this side of the water naturally maintain that sails are a most important feature of a yacht, and if they are British in the American boat, the contest ceases to be international.

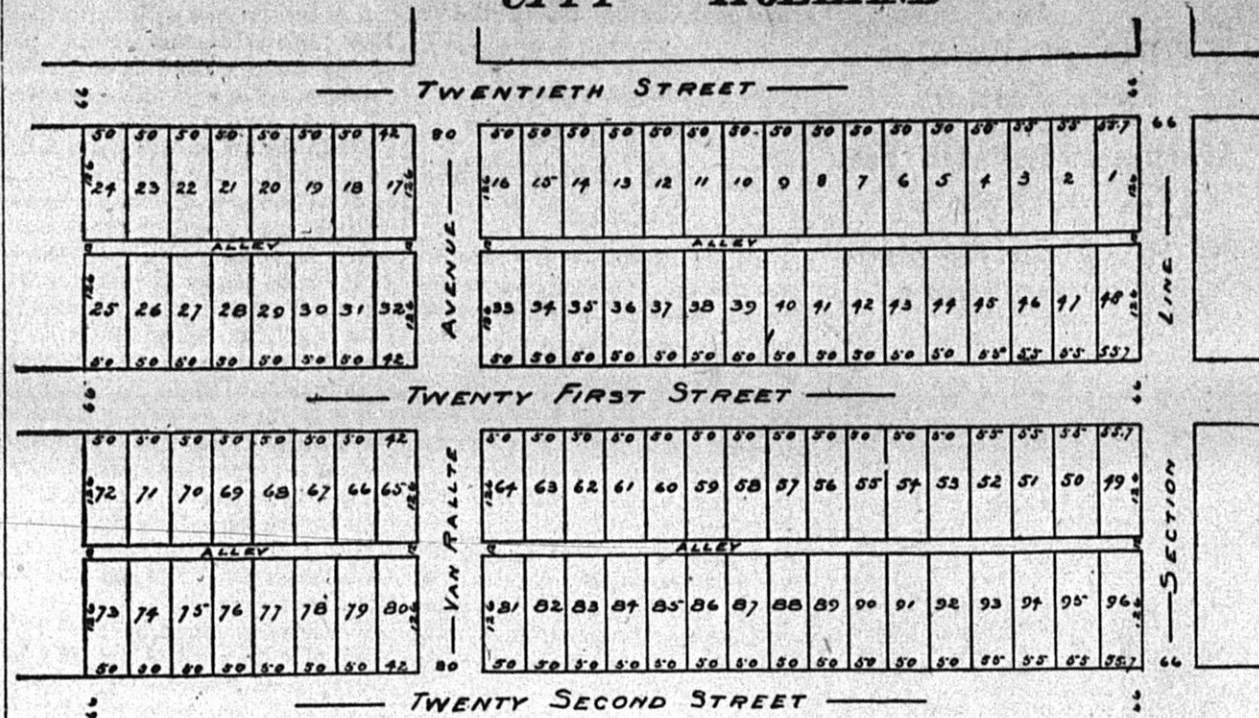

### MONEY SAVED

### Mc BRIDE'S ADDITION

TO THE

CITY OF HOLLAND

## HURRY HURRY

If you want a lot or house and lot for \$150.00 in the McBride addition you will have to do some stepping or you will be late. There is only 95 in all including the four 8-room houses, and under our long time and easy payment plan without interest this hand full of lots will not last long. Its the best offer ever made in Holland for the rich or poor man to secure a good home in the best city in the state baring none. Those who take advantage of it are bound to make big money. An abstract and warantee deed will be given with every lot or house and lot. No chances, every man or woman gets a good lot or house and lot for \$150.00 and long time to make the payments, without interest. We bought the entire plat of 95 lots including four new 8-room houses, all located on Twentieth and Twenty-first street and Van Ralte avenue, the very best location for any where near the money we ask, to be had in the city. To dispose of them quickly we offer them at the uniform price of \$150.00 and include the houses we realize the lots with the houses on are worth more than the vacant lots but the poorest lot on the plat is worth all or more than we ask and the corner lots are worth a great deal more, but to make a quick sale of the entire lot we made the low uniform price of \$150.00 houses and all. Only two contracts will be sold to any one person and the result will be that many houses will be erected at once, which will inhanse the value of all the lots and create a ready sale at an advance price. Real estate in Holland is a safe and sure investment, everybody knowthis, the proof is on every hand. You can't possibly loose. Prices have gone up like a balloon and will rise out of sight and reach of the average man in a very short time. Our office is on River street in Hon. Isaac Fairbanks building. A conveyance always ready to drive you to the lots.

### Additional Local

Rev. Matthew Kolyan, pastor of the Second Reformed church of Grand Rapids, will not accept the call of the Hope college council to a professorship.

Rev. J. VanHoute, formerly of this city, now pastor of the Grand Rapids Fourth Reformed church, has received a call from a large congregation in Boyden, Ia. The Grand Rapids Herald says that since commencing his work there Rev. VanHoute has become one of the most popular of the Reformed pastors of Grand Rapids.

Next Tuesday will be the banner day in the history of the Ottawa county Medical society. It is the occasion of the annual picnic which will be held at Macatawa Park. The banquet will be served at the hotel at 10 o'clock and it will be a fine affair. The society will be the guests of Dr. H. Kremers, the president, and a special invitation is extended the ladies to attend.

In Justice Van Duren's court yesterday John Scheerhorn, Henry Tuls and Teddy Helder, were examined on the charge of burglarizing the home of A. Witterdink and were bound over to the August term of circuit court in the sum of \$1000. Tuls and Helder furnished bail and Scheerhorn, failing to do so, was returned to the county jail.

If you want to arrange for the buying of a home under the most favorable conditions ever offered in Holland read the advertisement of B. L. Scott and J. H. Rayen on page eight. They recently purchased what is known as Mc Bride's addition and have arranged for the selling of lots under favorable circumstances to the buyers.

Prof. Henry C. Post, who was forced by ill health to discontinue his music studio in Grand Rapids and go to California for the benefit of his health, has returned to Michigan to stay. His health is improved, and he will reopen his studio in the fall and conduct his piano classes as formerly. Now that the electric railway makes Grand Rapids so easy of access it is likely that most of Mr. Post's former pupils from this city will rejoice in his class. During the summer Mr. Post will cruise on Georgian Bay and Lake Superior with a party on board of A. W. Hompe's 50-foot yacht Doloma.

If you have a bad taste in your mouth, feel bad, nervous, fretful, pain after eating, nausea, Rocky Mountain Tea will cure you in 30 days. No cure no pay. 35 cents. Haan Bros.

While other steamboat companies are content to make empty assertions for advertising purposes about installing a wireless telegraph system, the Graham & Morton company is content only when it does what others promise with no intention of fulfillment, there fore it has decided to take active steps, and its two Chicago-St. Joseph sidewheel steamers, the City of Chicago and the City of Milwaukee, will be equipped at once with necessary apparatus for receiving and sending wireless messages. s expected to have the system in operation by July 15. Little time will be required to fit out the shore plant, although the work on the steamers will take at least a week. The masts of both vessels will be lengthened thirty feet, and the necessary rigging installed. Of course if the system is a success on the St. Joseph steamers it will be installed on the Holland steamers without delay.

Maud—Last night Jack told me that he wouldn't marry the best girl living unless—what—unless she took Rocky Mountain Tea. Sensible fellow. 35 cents. Haan Bros.

### Suits

Summer clothing has always been wanting in fit and permanency of shape. Linings and tailorings were sacrificed to coolness and a man obtained comfort at the cost of appearances.

We offer our customers thin, cool, comfortable clothes that fit as perfectly as regular full lined garments and retain their shapes.

The suit is light and cool—the coat weighing but 22 ounces. The trousers have permanent cuffs to turn up at the bottom and loops at the waist band for belt. The materials are light flannels and summer outing cloths.

Each suit pattern is twice sponged and shrunk before it is cut and guaranteed not to shrink after it is made up.
