## CITY AND VICINITY.

The Citizens' band will give an open air concert tonight instead of tomorrow night in Centennial park beginning at 7:30.

Today is the anniversary of the assassination of President Garfield, who was shot on July 2, 1881 by Charles Jules Giteau, a disappointed office seeker.

Sadie Brooks owned by Casper Belt of this city won fourth place at the Pontiac races yesterday in the 2.18 trot. John Boone was the boy behind the horse.

The Baptist prayer and covenant meeting will be held at the German Lutheran church, corner of Twelfth and Maple streets tonight also preaching and communion service on Sunday at 3:30.

W. A. Thomas, the well known painter who had the misfortune to fall from a step ladder Saturday, wrenching his right knee, is improving. Mr. Thomas manages to hobble about with the aid of a crutch.

Mrs. A. Maltby, proprietress of a rooming house, has come into possession of a 14 months old baby, left with her by a woman who is believed to be the wife of a Spring Lake man. The woman left the house early yesterday morning saying that she was going to the railway station for her valise. She did not return and the officers are searching for her.

Peter T. McCarthy has returned from Chicago where he went to engage the services of a Chinese cook for Olympia pavilion. He has hired one of the best celestials obtainable and will be able from now on until the end of the resort season to serve not only the regular American fare but chop soey and all other Chinese dishes. A specialty will be made of fine cooking, and the result will be an abundance of patronage for the pavilion. Meals and lunches will be served in the main room of the pavilion and in the Pullman car annex.

After carefully investigating the letter received from the Westinghouse people who claim they were not given a "square deal" and that the Allis-Chalmers made offers and provisions in their bid that they could not live up to, and the answer filed by the Allis-Chalmers Co., the board of public works decided that the bid of the Allis-Chalmers Co. be accepted. It will go to the council for approval. This company will start at once putting in the huge steam turbine and generator providing the council sanctions it. The machine will more than double the lighting power of the city.

Blinded for an instant by the bright glare of the headlight on an interurban car while walking on a narrow part of the Graham & Morton boat dock, George Reehmael of Muskegon lost his bearings and plunged into Black Lake. Albert Coach heard him call and jumped into a boat that was in front of Tanner's and rowed to the rescue. He was not there any too soon as the man had started down for the second time when he grabbed him and pulled him into the boat. The life saving crew hurried to the scene but the rescue had been made. The life savers gave him dry clothing but he lost his suit case.

Believed to be the work of an enemy, Gardiner Broad's new \$5000 river boat was badly damaged by the explosion of dynamite on board as the boat lay moored where she was launched, six miles down the river at Allegan. The boat was nearly ready to start on regular service between Allegan and Saugatuck. She was a flat-bottomed craft, 60 ft. in length and 17 ft. wide, capable of carrying about 50 passengers. She was expected to make her trial trip in a few days, the Pere Marquette having constructed a draw in its bridge to permit of navigation and the owner having received his government permit to operate the boat. The engine, costing \$1500, was wrecked.

The Sixteenth Christian Reformed church has extended a call to the Rev. J. L. Tielens of Hackensack, N. J.

Henry Konkright was attacked by a stroke of paralysis Tuesday while shaving a customer. He was taken to his home on West Fifteenth street and is improving.

John DeVries, head press feeder at the Holland City News, while adjusting part of a press in that office, had the middle finger of his left hand crushed.

The Holland City Drum corps will go to St. Louis, Mich., on the 4th of July. Nicholas J. Whelan will be the orator of the day. The band will be dressed in colonial uniforms.

Damson's four-piece orchestra started their summer engagement at Macatawa Park hotel Monday evening. The members are: piano, Ray Hadden; violin, George Damson; trap drums, Perry Askins; cornet, Will Thomas.

Miss Katherine Conlon has discontinued her violin class for the summer and will spend a couple of months in Chicago studying with Carl Becker and other eminent instructors. H. C. Post, the piano teacher, left yesterday with his family for British Columbia.

Postmaster G. VanSchelven, four clerks and five carriers will be given a salary increase of \$100 each per year, beginning July 1. The Asst. Postmaster and one carrier will not receive the increase. The former received a similar increase last year. The carrier will be granted the increase in his pay envelope next fall.

Henry J. Kleinheksel of Filmore has a freak colt which is attracting the attention of the farming community for miles around. The colt is less than a week old and is perfectly healthy. It weighs just 25 pounds. Its head is larger than its body and its legs are scarcely two inches around the thickest part, while its body is less than a foot in circumference.

Charles A. Floyd of the Holland interurban, took about 900 Polish children to Jenison park Monday to enjoy the time of their young lives. They were accompanied by priests and sisters of the Polish churches and schools and everything at the park was wide open for them. The children traveled by special train coming and going. Lunch was served soon after their arrival, and then came the games and all kinds of sport.

Rev. H. P. Boot expects soon to leave for the mission field in China for another term of work there that will last for several years if health permits. Mr. Boot has spent several years in China and returned to this country about a year ago. While in China his wife contracted a disease peculiar to that climate, of which she died in a hospital in Chicago a few weeks ago. Mr. Boot has been a successful missionary. He is a graduate of Hope college.

One of the laws passed by the last legislature regarding the employment of clerks takes effect July 1, and Labor Commissioner McLeod is notifying all employers affected that they will be expected to comply fully with its provisions. The act provides that no male person under eighteen years and no female person can be employed for a longer period than ten hours in any one day. It is applicable to stores employing ten or more persons, and in such means the closing at 6 o'clock every day or the employment of two sets of clerks. Failure to obey the law means a fine of \$5 to \$100 or imprisonment from 10 to 90 days.

Monday Prof. A. Raap, professor in the Dutch language and literature at Hope college, will spend considerable of his summer vacation in the west. He has been asked by the council to represent Hope college among the Reformed churches of Wisconsin, Illinois and Iowa. In addition to representing Hope college, Prof. Raap will look after the interests of the two papers of the Reformed church, The Hope and The Leader. The latter paper has been existence for only two years but has attained a good share of success. Mr. Raap expects to acquaint the people of those churches with these papers and thus materially add to the subscription list.

The Scott Lagers Lumber Co. has just received several carloads of extra fine barn shingles which they are selling at a low price.

## Alleged "Pirut" Known in Holland Is Captured

Many people of Holland have been interested this week in the chase and capture of Dan Seavy, who with his schooner Wanderer, is well known in this port.

Seavy, who has been dubbed the "pirate of the inland sea," is now facing a possible sentence of 10 years in the penitentiary. Thus comes to a termination, for a time at least, the career of the only alleged genuine skull and crossbones, cutlass and pistol depredator of the great lakes. Seavy is the only buccaneer who was brought to bay by the revenue cutter Tuscarora Monday with a solid shot fired athwart his bow—meaning the bow of his fleet little, tight craft, the Wanderer, aptly named.

Seavy is known all around the lower end of Lake Michigan as a whiskey pirate. All went exceedingly well with "Pirut" Seavy and his band as long as they adhered to whiskey piracy. It was when, on June 17 as charged, that, having put stealthily in at Montague, they spied a lumber schooner unguarded that the bold buccaneer invited his fall. The Wanderer stole away but Seavy and three of his band remained behind. While Capt. McCormick of the Nellie Johnson, visited up shore, they seized the little 58-foot lumber hooker, and made off.

Capt. McCormick lodged a plain complaint of theft and that sleuth hound of the fresh water deep, the Tuscarora, took up the trail. After visiting half the ports at the upper end of the lake, they got word from Frankfort that Seavy was there and they steamed for Frankfort.

The cutter finally appeared off Frankfort and learned that Seavy was inside the harbor with the Wanderer. The cutter remained all one night outside waiting for the Wanderer to come out, but the vigil was in vain. At daybreak Tuesday the cutter steamed up the shore out of sight and notified the life saving station to keep her informed as to the movements of the Wanderer. Hardly had the steamer dropped anchor when the Wanderer, under full sail and with a fine breeze behind her, came racing out of the harbor heading directly across the lake.

There was some excitement aboard the cutter. Anchors came up on the run and she swung around on the course after the flying steamer.

Nearer and nearer drew the cutter until within an hour or two she had come alongside the Wanderer. The officers hailed Seavy and in the name of the United States ordered him to heave to. An armed crew from the Tuscarora was sent aboard the Wanderer, and they brought Seavy on board the cutter. He was brought before United States Commissioner Foote Tuesday and given his liberty after being placed under heavy bonds to appear for trial July 9. The trial was postponed to enable the government witnesses to reach Chicago. Seavy had been a member of the crew of the Nellie Johnson, as had also the two confederates of Seavy, William Lequist and Hugo Colton, who have disappeared.

## Woman Baggage Clerk

That this is a progressive age and that women are destined to play an important part in it was illustrated Saturday when General Manager Chas. A. Floyd of the Grand Rapids, Holland & Chicago interurban road received a visit from an attractive middle aged woman, who nearly knocked the general manager off his feet by applying for the position of general baggage agent, and if that couldn't be given her wanted the position of local baggage agent.

The female caller had all the physical requisites which would be necessary for her to successfully handle the luggage and trunks of the hundreds of resorters and tourists who are traveling over the road this season. With an arm that showed she was, or had been accustomed to hard work, and with a pair of shoulders which seemed capable of lifting the average summer trunk and all its thousand and one things that go toward making a summer vacation complete, she seemed to fill the bill physically.

"She would certainly prove a good card for our baggage room," said the general manager, "but I am not prepared to inaugurate the innovation just at this time."

The Scott Lagers Lumber Co. has just received several carloads of extra fine barn shingles which they are selling at a low price.

## Mayor Brusse Prohibits.

Selling of cartridges of any form or any pistol or gun to children under the age of 13 years and the placing of any torpedo or explosives on rails of any steam or electric road within the city is to be prohibited here on the fourth of July, according to the ultimatum drawn up by Mayor Henry Brusse. Chief of Police Kamferbeek stated to the Sentinel that he would see that it was enforced.

The mayor's action resulted from an investigation he has recently made in regard to the protection of human life on the Fourth of July. Mr. Brusse finds that a greater number of deaths from lockjaw result after our celebration of the Fourth of July than at any other time. He decided that the increase of fatalities and casualties then occurring can to a great extent be prevented.

It is the judgement of the mayor that if the people generally knew the Michigan law governing the sale and use of cartridges, toy pistols and other dangerous fireworks; if they knew the real danger resulting from their use they would exercise discretion that would protect their own interests, and merchants may become more reluctant to invest in these dangerous goods.

The act to prevent the sale and use of the toy pistol in the compiled laws of Michigan is as follows: "That no person shall sell, give or furnish to any child under age of thirteen years, any cartridge of any form or material, or any pistol, or other mechanical contrivance, specially arranged or designated for the explosion of the same:

Sec. 2. Any person violating any of the provisions of the foregoing section shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than ten dollars, nor more than \$50, and costs of prosecution or imprisonment in the county jail not less than ten days nor more than 90 days, or both such fine and imprisonment, in the discretion of the court.

Sec. 3. It shall be unlawful for any person under the age of thirteen years, to have in possession, or use any of the articles named in section one of this act.

It has been a habit for a number of years for boys or older celebrators on the Fourth of July to place caps and torpedoes on the car tracks, and await for a passing car to explode them. When from 50 to 100 of these explosives were strung along the rails the din made when the car passed over them was a fair representation of the battle of Santiago.

For the crews and passengers the racket is a torment.

## Nearly Drowned.

That one or more of four well known Holland boys are not at the bottom of Black Lake, the result of a sail boat accident Sunday afternoon; that such a catastrophe was averted is alone due to prompt action of Henry Eby and Deputy Sheriff Sam Leonard, who came to the unfortunate boys' rescue not a whit too soon, as two of them were on the verge of despair, having exhausted almost their last vestige

of strength and were about to let go their hold on the overturned hull.

Charlie Birg, G. Content, John Vos, and Leo Halley were the four who figured so prominently in the near-fatality. The lads were sailing in a spanking breeze in mid-lake when without warning their craft turned turtle.

How long they managed to hold fast to the boat's bottom, they are unable to tell, other than it seemed an age. They shouted lustily for help and fortunately the breeze happened to be blowing in the direction of Eby and Leonard who put out to them in a row boat.

## Dominic Keyzer Editor.

Grand Rapids, June 29.—Grand Rapids will keep the Holland Theological seminary and John Calvin Junior college for at least two years longer. The general synod of the Christian Reformed churches, which held its session in Muskegon last week, decided that since the agitation originated entirely with the school authorities, no action could be taken at present. For a proposition as important as this the rules of the church demand a written statement which must be submitted to all the churches of the Christian Reformed denomination at least two months prior to the convening of the general synod. This was not done in the present case, and action was deferred two years.

In spite of the action of the synod the Muskegon board of trade, through its secretary, W. W. Barker, made a flattering offer to the synod of 20 acres of land and financial aid, the amount of which was not stated, which will hold good for two years. The Holland delegation also promised to have a very tempting offer for the location of the college in that city.

Rev. C. Keyzer of Holland was made editor-in-chief of the official organ, "De Wachter," with the following assisting board of editors: Rev. J. W. Brink, Muskegon; Rev. J. Manni, East Saugatuck and Prof. K. Schoal and of John Calvin Junior school.

Rev. J. Manni of East Saugatuck, was elected president of the synod and Rev. G. D. De Jong was appointed professor of theological history. The synod also granted Prof. E. L. Van Dellen a two years' leave of absence at Ann Arbor in order to make historical research work.

The attendance at the synod was the largest on record.

## A Crazy Man.

While waving his arms frantically about and screaming loudly on the Pere Marquette track near the Roller Mills Sunday, Thomas Owens was taken into custody by Officer Kieft. It is feared that the man has gone violently insane and he was locked up for safe keeping. He was guarded the remainder of Sunday afternoon and evening. Monday morning he was taken to Grand Haven where he will be examined as to his sanity by Probate Judge Kirby.

Several years ago Mr. Owens suffered a sun stroke with the result that he went insane. He was sent to the Kalamazoo asylum but later discharged as cured.

It is alleged he had often spoken to

his wife that he knew that he was going out of his mind, but he was alright until Sunday when he again suffered a relapse of his former malady.

## Motor Boat Rules.

Grand Haven, July 1.—Many inquiries having been received at the Custom House at this port from owners and operators of motor vessels, especially of 15 gross tons or less, as to what kind of lights, whistles and bells thereon shall be deemed sufficient and efficient under the rules and regulations governing the navigation of vessels on government waters, and the matter having been referred to the Washington department having jurisdiction with the result that it seems that the matter of such equipment required for motor vessels is to be left to the discretion of the collector of customs of the district in which such vessels are navigated. The following suggestions are offered with the hope that the observance of the same will obviate any serious difficulty with revenue-cutter, customs or other government officials and will suffice until more definite and specific rules and regulations for such craft are made and promulgated.

1. A motor vessel—that is, a vessel or boat propelled in whole or in part by gas, gasoline, naphtha, fluid or electricity, which does not exceed either a length of twenty-five feet over all or a breadth (from outside to outside, broadest part) of six feet, not having a house, cabin or canopy top, and not engaged in carrying passengers for hire directly or indirectly, needs carry only a "combination" or "three-way" lantern or lamp displaying a bright white light in front and a green light on the starboard (right) side and a red light on the port side, so constructed that all three lights may be seen from right ahead and so as to prevent the said green and red lights from being seen across bow. Provided that said lantern or lamp is placed on a substantial standard not less than two feet above from the uppermost part of the fore part of such motor vessel.

Motor vessels, not exceeding 15 gross tons, of a length of 25 feet or more, or of a breadth of six feet or more, not carrying passengers for hire all motor vessels carrying passengers for hire, and all motor vessels having a house, cabin or canopy top should be provided with the lights prescribed in Rules 2 and 3 of the Pilot rules, except that such vessels need not have their headlight on a standard or mast any higher than the breadth of the fore part.

2. Motor vessels having a house cabin or canopy top, should be provided with an efficient whistle so placed that the whistle itself will project above such house, cabin or canopy, and of such character as to be heard in ordinary weather at a distance of two miles: Provided that motor vessels not having a house, cabin or canopy top need only have such whistle permanently located in some convenient part of the vessel.

3. All motor vessels of any tonnage shall be provided with a "fog bell" not less than 8 inches in diameter constructed of bronze or brass or other material equal to in tone and volume of sound" conveniently and permanently placed on the upper and after part thereof.

4. Operators of motor vessels should become familiar with all the Pilot Rules, especially rules 1 to 15 and 28.

Compliance with the above suggestions will probably be construed as a compliance with the rules and regulations governing navigation of such craft upon government waters.

## Don't Expectorate on Sidewalk.

Health Officer Leenhouts and Chief of Police Kamferbeek recently held a confidential chat, during which the health officer called the attention of the chief to the pernicious habit of spitting on the sidewalks. The police will enforce the city ordinance which provides that expectorating on sidewalks shall be prohibited.

"This habit of spitting on the sidewalk is a very serious one and helps the spread of tuberculosis," said Health Officer Leenhouts today.

"Many other diseases are spread by this means too. The practice is not as bad as it used to be in this city but I know that if people knew the dangers resulting from spitting on the sidewalks and floors they would stop it."

Placards and circulars warning people will be distributed about the city soon.

## New Steamer Raising Invention.

Muskegon, July 1.—Dr. Fernando Staud of Chicago, inventor of the canal and organizer of the Staud Salvage Co., arrived in Muskegon yesterday morning and the long awaited operations to raise the sunken steamer State of Michigan of the old Barry line, which lies in about 60 feet of water in Lake Michigan, off White Lake harbor are to be commenced next week.

The company has purchased the old schooner H. M. Avery and raised her from her sunken position at Waukegan & Co's wharf. The Avery will be used as a tender and will carry all the machinery up to White Lake. A contract has been made with Robert Love & Son to tow the canals made by the Rodgers Bolter & Burner Co., on the scene of the proposed operations, and four huge metal cylinders will be placed in the water next Monday or Tuesday.

If the State of Michigan can be raised by the seemingly simple method of sinking four metal cylinders, 32 feet long and 14 feet in diameter, attaching to the boat and pumping out the water, then the day of abandoning boats sunk in over 50 feet of water is past.

The inventor of the canal is a Spaniard and derived most of his maritime experience in the Spanish navy. He has been a resident of Chicago for a number of years and has been Spanish consul there.

## Wife Shot By Jealous Husband.

Coldwater, July 1.—Angered because she refused to return to live with him and jealous because he believed other men were paying her attentions, Homer Bunnell, aged 35, shot his wife twice. Mrs. Bunnell left him several years ago and was living with a friend. Bunnell met her in front of a livery stable. She feared trouble and ran into the stable.

Bunnell followed and, as she crouched in a dark corner, fired, the bullet taking effect in her right side. The woman screamed and ran toward the door. The husband fired another bullet, this time into her left side. The revolver refused to fire again, and before he could follow her, stable hands seized him. Mrs. Bunnell is in a serious condition at the home of a friend and Bunnell is in the county jail. No charge has been placed, awaiting the outcome of the wife's injuries.

## CURES COUGHS AND COLDS.

**Hyomei Gives Relief in 10 Minutes—Cures Over Night.**

Everybody knows or ought to know that Hyomei is recognized among scientists as the specific for Catarrh, Asthma, Bronchitis and Hay Fever, but there are a great many people who do not know that Hyomei will cure a cough or cold in less than 24 hours.

But everyone should know that the soothing, balmy and antiseptic air of Hyomei when breathed over the raw and inflamed membrane of the nose and throat will instantly allay the inflammation and will effect a prompt cure.

Complete Hyomei outfit, including inhaler, costs only \$1.00 at Walsh Drug Co. Extra bottles if afterwards needed will cost but 50c.

Joseph M. Harbaugh, Heldredge, Neb., writes: "I have used your Hyomei in my family for two years or more, and find it one of the best remedies we ever used for a cold or sore throat. We find that it gives quick relief in cases of catarrh."

Our Ticket  
TAFT and SHERMAN

### A Well Balanced Ticket.

Chicago has met its party's high expectations fully. On each of its ends the ticket is strong. There was some fear at one time that the convention might be tempted to select for the vice presidency some man who would not measure up to the dignity and importance of that office, but that fear quickly subsided. A first-class man is placed on each end of the ticket. Taft and Sherman looks like a winning combination. Each has been long and favorably known to the country. Sherman, like Taft, is a young man, but has been in public life for many years. As representative in Congress from a New York district ever since 1887, and as a member of several important committees, the country long ago became acquainted with him. His prominence in Republican councils is shown by the fact that he was selected in the latest congressional campaign as the official head of his party in the canvass. As chairman of the Republican Congressional Campaign Committee in 1906 he did much toward bringing the great victory which the party won in that year. No man in Congress is better acquainted with the great issues of today and of the past score of years. Not often has the Senate had as well equipped a presiding officer as it will get for the four years beginning with 1909.

With a platform which is Republican in all its provisions and with a ticket which is well balanced, and which will be enthusiastically supported by every Republican, the party enters the campaign of 1908 with a fair prospect of victory. Every one of Mr. Taft's recent rivals for the candidacy has promptly rallied to his support. Hughes, Knox, Cannon and Fairbanks will take the stump for the Taft and Sherman ticket. "Now that the convention has spoken I am for Taft," says Foraker. This is the spirit which is seen in all elements of the party. All the fighting inside of the Republican lines which was to be done was finished in the convention. The men who favored any one of the other aspirants are now just as ardently in favor of Taft's success as are any of those who were with him from the beginning. There are no factional lines in the party. The fighting which the party will engage in hereafter will be against the Democracy, and that will begin just as soon as Denver makes its ticket and frames its platform. From President Roosevelt, Vice President Fairbanks, Speaker Cannon and the various competitors of Mr. Taft in the convention down to the humblest voter in the party, every Republican is enlisted in the support of the Taft and Sherman ticket.

Sensible Republicans will steer clear of the illusion that the victory, even with such a strong ticket and inspiring platform, will be easy. Hard work and much of it is ahead of the Republican campaign managers. In 1907 for the first time stagnation in business confronts the Republican party in a presidential campaign in which it is in power. The panic of 1873 had virtually ended before the campaign of 1876 came, but enough of it remained to take away some votes from Hayes and Wheeler. That convulsion was one of the causes of the Republican defeat in the congressional campaign of 1874. The business derangement of 1908 is far less extensive and serious than was the financial and industrial dislocation of either 1873 or 1893, and thus will have less effect in politics. Moreover, the improvement which is in progress promises to bring the country a long way on the road toward

normal times before November. To the extent, however, that the idle mills remain the Republican party may expect to lose a few votes. Then too, for some of the Republicans who are against the administration for any reason, or for no reason, there may be a temptation to stay away from the polls or to vote for Bryan, knowing that if Bryan should chance to be elected the Republican Senate would tie his hands. These are considerations which should be kept in mind by the men who will conduct the Republican canvass. It would be a serious mistake, of course to suppose that the election of Bryan, even if there should be a Republican House as well as a Republican Senate against him, would do little damage to the country. Bryan's election would be calamitous, even though all the other branches of the government were in the hands of the Republicans. It would show a fickleness and a blindness on the part of the electorate which would check enterprise, stop hundreds of mills which are now at work, reduce the value of American securities abroad as well as at home, and deal a damaging blow to American influence and credit all over the world. While the Taft and Sherman ticket, in the face of the much stronger fight that will be made by Bryan and Parker, can not get the immense majority that was rolled up for Roosevelt and Fairbanks, it will be the duty of the campaign managers to take immediate and intelligent account of all the factors in the situation, and make a canvass which will bring the Republican lead up to the highest possible figure.—St. Louis Globe Democrats.

National conventions, it is said, were once for the purpose of formulating and ratifying the will of the people. Some politicians are complaining because they say the Chicago convention was for the purpose of ratifying the will of Theodore Roosevelt. Well, the people are for Roosevelt and Roosevelt is for Taft. Does it not amount to the same thing?

Merchants who do not advertise should not complain when people of the community send to mail order houses for their goods. It is advertising that first attracts people to mail order houses, and without it they could not sell a dollar's worth of goods. Merchants who do not tell people what they have for sale have no reason to expect the patronage of the people.

It is reasonably safe to predict that the next president will be a man who has circumnavigated the globe, that his name is William, and that he never ran for the office before.

Mr. Bryan says the Republican party is in retreat. He may pursue and personally surround it, having already accomplished this feat with the Democratic organization.

"It will be Taft or chaos," said a Democratic paper when the Chicago convention opened. It is Taft, and chaos is billed for Denver.

With Smiling bill and Sunny Jim at the head of the ticket, the Republicans have done their part toward insuring a good-humored campaign.

Personally Taft and Sherman weigh 500 pounds, but politically they send the indicator on the scales around so swiftly that the Democrats have quit counting.

In the past year 10,578 divorces were asked for in Michigan, and 27,462 marriage licenses were issued. Is marriage a failure? About one-third.

### Piano Recital A Grand Success

A crowded house greeted the pupils of Miss Lalla E. McKay at the 7th annual piano recital given in the Methodist church last Monday evening. A choice program was artistically rendered. The ease of execution and evenness of scale work being most noticeable. Miss Bernice Jones the child electionist is a little artist of rare ability. Her enunciation and repose being particularly perceptible.

Mrs. Diana Tromp was drowned in the afternoon of June 25th, by the capsizing of the boat in which she was coming from Lake Michigan with her husband, John Tromp. A very severe rain squall passed over Black Lake, and she took refuge from the rain under the forward deck of the boat, while her husband commenced getting in the sails. But the squall was too quick for him, and the boat capsized, carrying Mrs. Tromp under with it. Her husband clung to the boat and was rescued by a boat from shore, but they did not succeed in saving his wife. Her body was recovered and brought to town in the evening, and an inquest held by H. D. Post, Esq., who did not consider it necessary to call a jury after examining witnesses in the case.

At the adjourned meeting of the Citizens Association on Thursday evening for the purpose of securing subscriptions to the capital stock of the Holland Iron Company, much earnestness prevailed. As the project progresses the people are becoming better informed relative to its promises, and are more fully inclined to favor it. Owing to ill health, Mayor Harrington tendered his resignation as President, which was accepted and Nathan Kenyon promoted to the position, thus leaving a vacancy in the office of vice president, which was filled by electing Gabriel VanPutten. The total amount subscribed to the stock is \$7,225. A committee was also appointed to look after the Saugatuck railroad project consisting of John Knoll, H. D. Post and G. Van Schelven.

Meeting adjourned till Monday evening next, at the same place.

Wednesday July 9, Adam Forepaugh's great Menagerie, Museum, and Equestrian Aggregation is to exhibit in Holland, afternoon and evening.

Reest & Klaassen's brick is being used on Vanderveen's new block. The bricklayers pronounce it excellent.

A party consisting of L. Dangremond, G. J. Voorhorst and daughter, and D. Telman of Overijssel, left on a trip to the Netherlands on the 3rd inst.

Mr. W. H. Finch deserves our praise for collecting money enough to make the mouth of the cannon speak at dawn of day as it once did on the field of battle. Gee's brass band appeared in their new uniforms on the morning of July 4 and made several parades through the city, each time taking with them a large number of excursionists on the propeller Mary Grog. Everybody seemed to enjoy the effort of the band and we think they were well patronized. The opposition excursion business consisted of Columbia Fire Co. No. 2 and friends, who had engaged the Zeeland Cornet Band. This band appeared with black hats and scarlet plumes, and begins to play quite nice. This party had a vessel, nicely trimmed up for the occasion, towed by the tug Twilight, and also made four trips to the harbor.

The presidential campaign of 1888 can now be said to be fairly opened.

The tug City of Holland was sold at U. S. Marshal sale in front of the postoffice on Thursday afternoon last. It was bought in by George Metz of Grand Haven, who paid \$750 for it.

Dr. W. VanPutten's horse Turk took second place in the 2:28 race at Kalamazoo this week. The time was 2:14. Several of the admirers of horse trotting drove all the way to Kalamazoo to see Turk trot.

Last Monday evening on receiving the news of the nomination of Harrison and Morton by the National Republican Convention the party enthusiasts of this place together with a number of young boys blew tin horns and hammered tin pans, making a frightful racket until stopped by Marshal Vaupell. The old cannon was taken to the top of the hill in the eastern part of town and there thundered forth until midnight the news that the work of the convention had been completed.

The Grand Rapids Democrat, Eagle and Leader this week contained very graphic accounts of the beauties of the resorts. The map of Macatawa Park attracted very general attention from would be lot owners.

##### WHAT YOU SAW 15 YEARS AGO

The class of '93 is the largest that ever graduated from the public schools of the city of Holland. As the roll is called we are proud of its members:

Edith Alice Kimpton, Kate Pfanstiehl, Clyde C. Bargelt, Allie May Rogers, Alvina Louisa Breyman, Anna Marie Dehn, Jennie Alberta Roest, Josephine Kleyn, Nellie Notier, Albertus VanArk, Annie De Vries, Cornelia Benjamin, Dora S. Dutton, Delia Van Dyke.

The marriage of Miss Maggie Pfanstiehl, daughter of Mr. and Mrs. P. Pfanstiehl, and Rev. M. Flipse, was celebrated in a quiet and appropriate manner Wednesday evening, at the home of the bride's parents, on Sixth street.

J. B. Mulder and J. E. Benjamin have become renowned as moonlight billposters.

Married in this city on Tuesday evening, I. Fairbanks, Esq., officiating, Henry Van Ry and Miss Jennie TerBeek, both of this city.

##### WHAT YOU SAW 10 YEARS AGO.

The Wellman Arctic Expedition of which Dr. Hoffma of Grand Haven, is a member, left Tromsø, Norway, for the north pole on Sunday. The expedition is undertaken with two objects, the first to find Prof. Andre, the aeronaut, and the second to discover the north pole.

The honorary degree of doctor of laws was conferred by Yale college upon President McKinley.

##### Program at Jenison Park on the Fourth

The only big celebration in this part of the country for the Fourth of July will be at Jenison Park, consequently the Holland Interurban will on that day operate all of its cars to the park and will give the most frequent service possible.

Bands will be playing on the park grounds all day, and there will be many attractions. The boat livery will be in full operation with its full equipment of boats, fishing tackle and launches. A first class caterer is on the grounds to serve lunches and refreshments.

There will be a base ball on the Interurban diamond. Excursions will be run from the dock out on Lake Michigan. The dance hall will be run in the afternoon and in the evening both, with a full orchestra in attendance.

In the evening a grand fireworks display has been planned and will be pulled off on the lake directly in front of Jenison Park.

##### Notes of Sport

Frank Kitson of Allegan returned home last Saturday from Kansas City, Mo., having been released by the management of the baseball team of that city. For some time Frank has not been pitching the ball he is capable of twirling, and this was all due to the support he received from the team, who were all jealous for the reason he was receiving about twice the salary of any other player. Before reaching home Mr. Kitson was offered the management of the Racine, Wis., independent ball team and may accept. Whether he does or not Frank has been saving during the 16 years he has pitched ball in major league and has an excellent farm with a fine house and other buildings, three miles north of Allegan, which will yield him as much every year as he made in playing ball. But we'll bet the genial Frank will be out twirling ball again before many weeks.

Henry Karsten, the renowned Zeeland pitcher has taken a position with Springfield, Mo., on the Southern league.

The Interurbans will play the Bissells of Grand Rapids at Jenison Park on July 4 in the afternoon. Mooney will be the umpire.

The Holland Independents, champions of this city journeyed to Boyne City last week, where they played a series of three games with the crack base ball team of that place. They lost all the games by close margins, the scores resulting 5-3, 3-1, and 2-1. According to the reports from our boys they were unjustly treated by the Boyne City umpire, who fearing that the youthful Holland aggregation would wallop these ex-league players, took opportunity to win victory by handing out "rotten" decisions. Considering this, Holland need feel no disgrace in seeing its champions beaten in those games, as the boys were rightfully entitled to more

than they got. The batteries for Holland were Shaw, Woldering Te Roller and Rottschäfer, Shaw who twirled for two of the games, had the misfortune to wrench his arm which is liable to prevent him playing the rest of the season.

Saturday Zeeland witnessed one of the best baseball games of the season when the Interurbans of Holland and the Independents of this city clashed. The Zeeland battery outclassed their opponents in every inning. Slabbercorn of Zeeland starred as a batter. He made three hits out of four times at bat.

The game by innings follows:  
Zeeland... 1 0 1 0 0 0 0 0—2  
Holland... 0 1 0 0 0 0 0 0—1

The batteries were Hendriks and Segiman for Zeeland; Ripple and Van Ry for the Interurbans.

##### Georgia Sullivan Drowns In Black Lake

Georgia Sullivan, the twelve-year old daughter of Mr. and Mrs. Harvey Sullivan, Fifteenth street and Harrison avenue, was drowned in Black Lake near Ed. T. Bertsch's ice house last Saturday afternoon at 1:45 o'clock. She was wading in the shallow water with a twin sister and Nellie Tubergen of Grand Rapids when she stepped from the bar into one of the numerous treacherous holes that line the shore at that place, and in spite of heroic efforts on the part of the other children to save her she sank from sight.

Help was summoned and soon a number of men and boys in rowboats were dragging the bottom of the lake with pikepoles, while John Wendel, Sammy Ming, N. J. Whelan and others started to dive in search of the body. It was difficult to ascertain within seventy-five yards of where the child sank and this handicapped seriously the attempts to aid. The life saving crew was summoned, and as soon as the six-mile trip could be made Captain Van Weelden and Surfmans Van Regenmorter and Peterson appeared upon the scene. They dragged the bottom with their grappling hooks but on account of the conflict of opinion as to where the body sank were unable to get results. Finally at 4:50 o'clock Martin Vander Bie and Al Finch, who were grappling with a rowboat caught the hand of the child with the hook and brought her to the surface. The water at that point is about sixteen feet deep.

The body was taken to the home of Mr. and Mrs. Bertsch and for two hours and a half the life savers aided by Coroner Mabbs, Mr. Bertsch and others, vainly endeavored by means of artificial respiration to restore life.

Mrs. Sullivan was at Shannon Brothers' tent show when the sad news was told her, and on her arrival home her condition became so alarming that a physician was called. Mr. Sullivan was summoned from Cincinnati where he was on a business trip for Fairbanks, Morse & Co., of Chicago.

The funeral services were held at the home of the parents Tuesday afternoon, Rev. J. M. Vander Meulen officiating.

## DEATHS

Mrs. Mellema, formerly of Nykerk, who has been making her home in Grand Rapids of late died suddenly Sunday night of heart failure. She arrived in the city last Tuesday and was spending a few days with her sister, Mrs. A. H. Brink. She went to Nykerk Saturday evening to spend a few days with her son Peter Mellema at whose home she died. Deceased was 73 years old and is survived by five sons and one daughter. The funeral took place Wednesday at 1:30 from the Christian Reformed church at Nykerk, Rev. Roberts officiating.

Miss Mary Vanden Brink, aged 31 years of age, died Tuesday at her home in Fillmore townships. The funeral services will be held this afternoon from the home. Interment will be at the Graafschap cemetery.

## Humor and Philosophy

By DUNCAN M. SMITH

### START SOMETHING.

Don't be dead while you're alive.  
Make a noise in action.  
If you don't accomplish much,  
You'll have satisfaction.  
Long enough will you be dead,  
Truly says the poet.  
So until your time arrives  
Rouse yourself and go it.

Sitting in an easy chair,  
Like a chimney smoking,  
Will not get you anywhere.  
No; I am not joking.  
You can loaf there for a week  
And you'll still be sitting  
And have not a thing to show  
In the way of knitting.

It's the fellow who can be  
In about three places  
At a time who captures fame  
And much air displaces.  
Though he may not every time  
Gather in the candy,  
The experience he gets  
Some day will be handy.

Don't be dead or half asleep.  
Try to get in action.  
Raise a warwhoop and you may  
Be the sole attraction.  
Anyhow you'll have some fun,  
And, if not a winner,  
You will have an appetite  
When you go to dinner.

It may be all very well to want to  
get even, but lots of people want to  
get even, odd and then even again,  
which isn't Christian.

A young man's palmy days are those  
when the girls want to read his palm.

Being both economical and wealthy  
looks like possessing queer taste.

Most everything is a habit except  
dying. Nothing but a cat has ever ac-  
quired that.

It is easy enough to give advice—if  
you get hard dollars in return for it.

If you are very clever, most people  
will think you are good.

A man is apt to discourse very little  
upon the mistakes he has made.

### A new Breakfast Food.

"I am inventing a breakfast food  
that is to be cut up into small blocks."  
"What is the idea?"  
"So that a man can make a square  
meal on it."

### Needless.

"So men can't argue."  
"No; they consider it stupid. Besides,  
it's useless."  
"Why?"  
"They know all about it anyway."  
Flattery frequently is used to make  
both ends meet, but it never allows  
friction between them.

Think well of your neighbor or else  
keep your thoughts to yourself.

The man who always keeps pegging  
away earns some praise and misses a  
lot of fun.

When you have made up your mind  
what you want, then go after it with  
all your might, after which conclude  
that you have got it.

### Out of Date.

The way was long, the wind was cold.  
The minstrel was infirm and old.  
His trade was gone, his fees were chaff.  
For each house had a phonograph.

### Other Fellow's Funeral.

"What are you looking so glum  
about?"  
"My rent is due and I haven't the  
money to pay for it."  
"Oh, well, it might be worse."  
"I don't see how."  
"You might be the landlord."

Miss Mary Lippen, a bright eighteen-  
year-old girl of Hoytville, Cal., expects  
to earn a snug sum of money and a  
trip east by fulfilling a contract made  
with her father, who has a cantaloupe  
ranch near that town. Miss Lippen is  
to keep him supplied with workmen  
during the cantaloupe harvesting sea-  
son. At that time labor is sometimes  
difficult to get, and this year the diffi-  
culty is complicated by the announce-  
ment of the local labor organization  
that stiff union prices will be demand-  
ed and no Japanese or Chinese labor  
will be permitted in the district. The  
season lasts from six to nine weeks,  
and Miss Lippen is confident that she  
can keep her contract.

### A Woman Who Knows News.

Miss Emma De Zouche was one of  
the women of the staff on the recep-  
tion committee for the entertainment  
given in honor of Joseph Pulitzer's  
twenty-fifth anniversary as owner of  
the New York World. The reception  
was held in the building with the gift  
dome on Park row, New York. Miss  
De Zouche is one of the ablest report-  
ers in the country, and that without  
dealing in the sensationalism by which  
many women have made rapid ad-  
vances in the profession. Not only  
does she know how to get a story, but  
how to write it. She has been award-  
ed the prize of \$50 which Mr. Pulitzer  
gives annually to a member of the staff  
notably proficient in the use of Eng-  
lish. Miss De Zouche would probably  
have had an important editorial pos-  
ition were she not a woman.

The Undertaker (who meets the doc-  
tor on the steps of a hotel)—After you,  
sir!—Black and White.

### Thirsty Weather.

The Gentleman on the Hill—Had any  
breakfast?

### Nowadays.

Nurse (to fond mother of celebrated  
musical prodigy)—Please, mum, is Mas-  
ter Willy to 'ave 'is morning sleep or  
go on wiv 'is sixteenth symphony?—

### The Wisdom of the Ancient.

"If so be it as it is, William, it is,  
and if so be as it ain't, it ain't."  
"Aye, aye, Jarge. Oi allus said as  
yur was a deep un. Oi did."—Tattler.

### A Remarkable Feat.

"She has a wonderful memory for  
faces."  
"Yes; she actually recognizes all the  
men she was engaged to last summer."  
—Philadelphia Press.

### The Voice of Experience.

The man whom uncomfortable con-  
ditions drives from his vices always  
looks around for a sentimental excuse  
for reforming.

Probably the reason women talk so  
much is because they like to hear  
pleasant things.

### Killed By Interurban.

Johannes De Kooyer, well known farmer was struck by a west bound limited car at Gronigen crossing at 8:40 Saturday evening and instantly killed.

De Kooyyer had reached the station from his farm near New Gronigen where he had been working and intended coming to this city. At the station there were Harry Vis, Peter Konolje and John Butter of Zeeland. The boys saw the car approaching as De Kooyyer stepped on the track to flag it. They told him that the car was a "limited" and would not stop. De Kooyyer replied that he would stop it and started waving his hands. One of the boys pulled De Kooyyer from the track but the unfortunate man stepped boldly to the front and doffing his hat in mock solemnity made a sweeping bow to the motorman, J. E. Mellema.

Just whether De Kooyyer realized that the car was so close to him or whether he essayed to "show off" before the young men, who had cautioned him to be careful, will never be known. Those who witnessed the tragedy declare that De Kooyyer acted with a braggadocio air and paid no heed to their warning.

Hardly had De Kooyyer leaned over the rail before the car, rushing on at high speed, was upon him. Striking him with tremendous force the car hurled him through the air lodging him against the Gronigen station with such impact as to break boards in the building's side.

The car was stopped and the body picked up and hurried to the local freight office where Dr. J. J. Mersen, was waiting, but life was extinct. The body was then removed to the undertaking apartments of J. S. Dykestra. Coroner J. A. Mabbs, after investigating the case decided that it was not necessary to hold an inquest.

The funeral services were held from the Dykestra undertaking apartments Wednesday afternoon at 1:30, Rev. D. R. Drukker officiating. Besides a widow, Mr De Kooyers leaves four daughters and one son, Clara, Jennie, Lizzie, Gertrude and Simon De Kooyers.

The dead man married a daughter of Tobias Koffers, living at 120 W. Eleventh street and at times made his home at that place.

### In Port.

Thursday seemed to be a day peculiarly chosen by lake captains to steam into harbor at Macatawa park with the result that the scene was an unusually animated one.

Among the boats to come in yesterday were the "Dorothea" "Dahlia" and "L. M. Foster" with the consort "Ida Konig." The "Dorothea" is a handsome yacht, used as the Illinois training ship. The boys of Uncle Sam spent the time in part by strolling about in squads and clothed in their naval uniforms made a picturesque sight. The Dahlia is the light house tender and came in with supplies for the "beacon". She left late last evening for Muskegon.

The I. M. Foster with her consort Ida Konning brought in a load of stone for the breakwater now under construction. The stone comes from Sturgeon Bay, Wis. The Oak Leaf which has lain in the inner harbor for a few days was towed out to the south breakwater and the work of unloading her was started. The work on the breakwater is being rapidly pushed and will soon be completed.

### New Factory.

If all goes well Holland may boast of a new type washing machine factory. H. Nopple of Grand Rapids, patentee of an entirely new type washer has been spending considerable time of late in this city looking over the field in view of locating a plant here.

This new machine is called "Help Yourself" and apparently is about the most convenient affair of its kind on the market. Mr. Nopple is highly impressed with this city as an ideal manufacturing center and expressed himself as undoubtedly deciding on locating here providing he receives the right sort of inducement. He says he plans erecting a generous sized plant and give employment to a number of men. He will confer with the board of trade.

### All Must Register.

This fall registration will be the order of the day among the qualified voters of Holland. The city charter provides that every eight years this

must be done. In some cities reregistration takes place every year but it was decided that once every eight years would be all that was necessary in Holland.

Reregistration is necessary to keep purity in politics was the opinion of those who drew up the city charter. At the end of every eight years the books quite mixed and many changes become necessary due to deaths and arrivals.

The reregistration applies to the city of Holland only and to no other place or township in Ottawa county.

### Missionaries Address Audience.

Rev. H. Fryling and Miss Cora Hartog missionaries to the Indians of New Mexico addressed a large audience in the Central Avenue Christian Reformed church Monday evening in the interests of their work. The Christian Reformed church has three flourishing mission stations among these Indians, Rev. Fryling laboring among the Zuni's, a well-to-do people who live in villages in the winter and work their farms in the summer. They are sun worshipers and do not take kindly to the Christian religion.

Miss Hartog is stationed at Rehoboth among the Navajos, famous for their beautiful blankets and rugs. They are blanket Indians and what religion they have comes to them through the medicine men. Miss Hartog made a strong plea for gifts for the hospital for which the senate has at last provided and for which there is great need.

Rev. L. P. Brink, in charge of the mission at Tohatchi is greatly facilitating the work of the missionaries by translating the Bible into the Navajo language.

Both Rev. Fryling and Miss Hartog spoke in the Holland language after a collection was taken and a male quartet composed of Cornelius Dornbos, Peter Brink, Ben Veldman and Elbert Ten Hoor, rendered two selections.

# The Perfect Silo

Because it has all the Points to be perfect. It is built of Cement and Steel, therefore cannot rot, cannot burn down, cannot dry out, needs no paint, needs no guy wires.

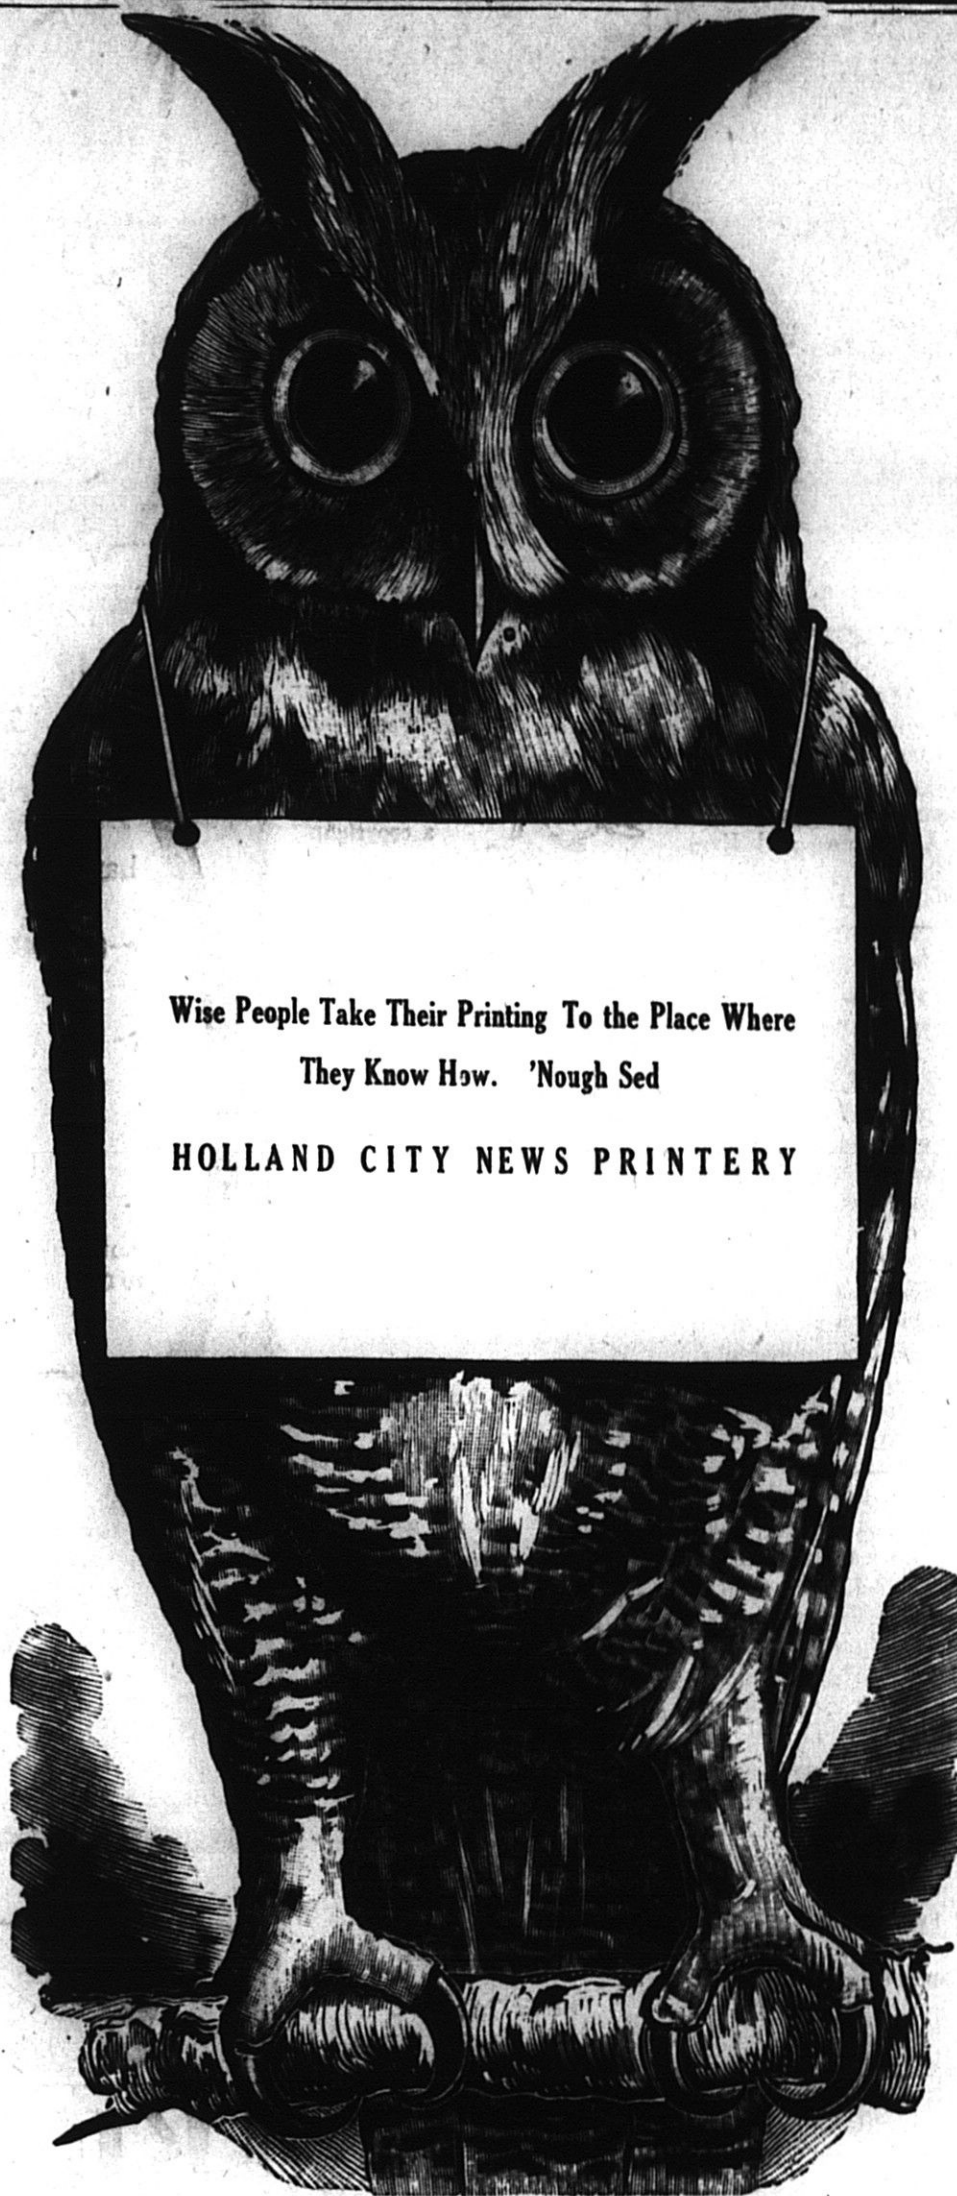

All these six points are a draw-back on the wooden silo, while the cement silo has nothing against it. It is the same as if you would put your winter's supply of pickles, beans or sauerkraut in a stone crock, which the cement silo represents, while the wooden silo is like a tub or barrel.

When the wooden silo man starts to build a silo he does not start with wood, but with cement, which he admits is better. Why not keep at it that way and have a silo that will last for all time, while the life time of a wooden silo is but ten years on an average.

I will build cement silos cheaper than you can get a wooden silo put up for as the wooden-silo-man does not furnish the base, nor the roof, nor the labor to put it up.

I will give you full instructions how to build a cement silo yourself. moulds to make the blocks, the steel door frame and bands, the wooden doors and the roof.

### Chrispell Returned.

John Chrispell, 180 East Sixteenth street, who it is alleged ran away with his wife's sister, Miss Gertrude De Witt of 117 East Seventeenth street Friday night June 6, returned to this city Sunday morning. He went straight to his home to visit his wife and family and was soon afterwards gathered in by the police.

Chrispell was arraigned before Justice Van Duren this morning on a charge of wife desertion and demanded an examination which will likely be given next Thursday. He furnished \$500 bail.

He denies that he went away with Miss De Witt and insists that he knows nothing of her whereabouts. He states that he left Holland to look for work and started for Logansport, Indiana, where he has been ever since.

Chief of Police Kamferbeek planned to have pictures printed of the couple and intended having bills distributed offering a reward for information that would lead to the location of the couple.

If Chrispell does not really know where Miss De Witt is the police will have a deep mystery to entangle. Why she should have purchased two tickets for St. Joe and if it was not Chrispell who went with her; who did? Those two questions are puzzlers to the authorities.

### Last Rites.

Grover Cleveland's body lies buried now in the Cleveland plot in the Princetown cemetery.

At five o'clock just as the sun was sinking in the west a distinguished company silently watched as the body was lowered into the grave. Then the simple burial service of the Presbyterian church was read and before the last carriage in the cortege had driven up to the path leading to the burial place, the benediction had been pronounced and the members of the family, President Roosevelt and others who had gathered about the grave were leaving the cemetery.

Many personal friends of the dead statesman lingered about the spot which was to mark his last resting place, and each in turn was permitted to cast a shovelful of earth into the grave.

Wadsworth Poem Read.  
Agreeable to the wishes of Mrs.

Cleveland, the services both at the house and at the cemetery were of the simplest character. An invocation scriptural reading, a brief prayer and the reading of a William Wadsworth poem, "Character of the Happy Warrior," constituted the services of the burial service at the house, while the reading of the burial service at the grave was brief and impressive.

Although the funeral was of a strictly private nature, those in attendance numbered many distinguished citizens, including President Roosevelt, Govs. Fort, of N. J., Hughes, of N. Y., Hoke Smith, of Georgia; former members of President Cleveland's cabinet, officials of the Equitable Life Assurance society, members of the Princeton university faculty and friends and neighbors.

Cleveland was buried with all simplicity and privacy that he himself might have wished, as a private citizen rather than as the former chief executive of the nation. There was nothing that savored of the official and the military element was injected solely as a measure of precaution in protecting President Roosevelt.

It is over a week since the college students left for their homes and to those who are interested in them and the college the town seems comparatively deserted. Most of the Seniors have chosen their courses or vocations for next year.

James De Kraker, after he returns from the Netherlands and Germany will enter New Brunswick seminary for a course in theology. William Duven, Anthony Haverkamp, John Plasman, Herman Renkers, and Frank Wynia will plan to take positions as teachers in high schools or academies. Adolph Schaefer has already secured a position as instructor in English and history in one of the western schools. Abel Renkes, William Walvoord and John Vander Schaaf will study Theology. Mr. Vander Schaaf is at present taking a theological course in the University of Chicago, and next September he will enter the second class in the seminary here. George Huizinga will perhaps take a course in the university and Miss Elizabeth Grotemat will go to an Eastern institution of learning. Miss Estelle Kolten expects to take a course in music in the Damrosch school of Music of New York City.

### Fell From Buggy.

Mrs. R. W. Scott, wife of R. W. Scott, 37 East Seventh street and Miss Caroline Koehler of Chicago were painfully but not seriously injured by being thrown to the pavement on Twelfth street near Pine street when the rear seat of the buggy in which they were riding fell out.

Mr. Scott was sitting in the front seat with Mrs. C. Koehler driving. The horse became frightened at the automobile owned by Congressman Diekema and shied and Mr. Scott rapped the horse with the lines. The horse leaped forward and as he did so the rear seat in which Scott's wife and Miss Koehler were sitting broke and fell to the ground and the women were pitched out backwards. They were picked up in a dazed condition and carried to a nearby house. They soon revived and were taken to their homes in the Diekema auto where they were attended by Dr. Leenhouts.

Mrs. Scott is suffering from a slight concussion and badly bruised shoulder and back. Miss Koehler is suffering from a painful injury to her hip. Both are confined to their beds.

### Abandoned Child.

Grand Haven, June 29.—Leaving a little 14-month-old baby girl in the hands of strangers, a mother disappeared from this city and as yet her whereabouts are a mystery.

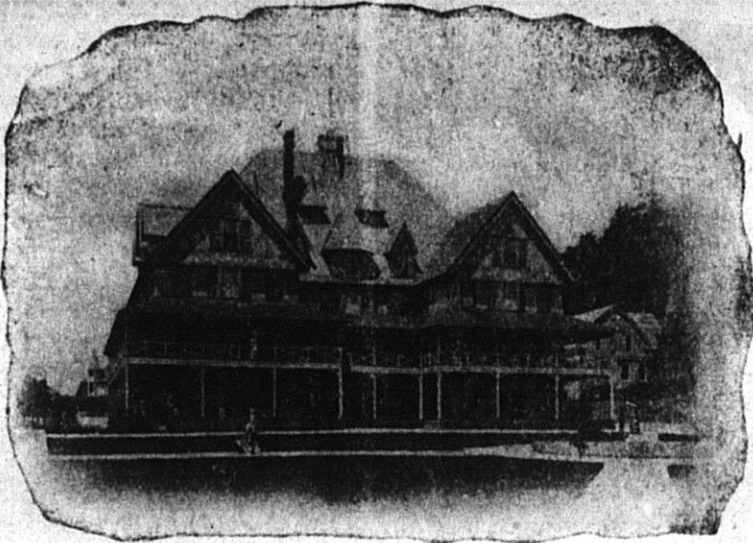

A woman and child applied at the residence of Mrs. Maltby, corner of Second and Columbus streets for lodgings. She engaged a room and spent the night there, arose early, and telling Mrs. Maltby that as the baby was asleep, she would go down to the station and get her grips. She stated that she would return in about ten minutes.

Considerable time elapsed and she did not reappear, and fearing something was wrong the sheriff was notified. For some time it looked as though the officers had a foundling on their hands but they finally learned that the woman had lived with her husband at the A. B. Caldwell cottage on Spring lake. Her husband was notified and he came and took the child.

It is claimed that the woman and her husband have not been getting along well together lately and he took her to Grand Rapids where he rented apartments for her.

It was feared that the woman had harmed herself but it was learned that she had inquired about the early morning cars at the Interurban station and all fears for her welfare are allayed. The officers are still looking for the missing woman.

Western Michigan fruit growers are realizing unusually heavy returns from the largest and finest crop of strawberries marketed in recent years. Heavy shipments are daily made by boat to Chicago. The banner shipment of the season was a consignment of 5,000 crates on the steamer Puritan.

Of the 45 school teachers re-engaged by the Holland board of education for the coming school year, 15 have handed in their resignations. Most of them have accepted other engagements which will lead to matrimony. Among them are Miss Genevieve Weston, instructor in drawing, who will be married to Principal A. J. Helmer.

After a long illness from tumor of the brain Nick DeVries of Zeeland died Monday at his home in Zutphen at the age of thirty-three years. He is survived by his wife and one child. The funeral was held Thursday from the Christian Reformed church at Zutphen, Rev. Van der Werp of that place officiating.

A large barn owned by Louis Peterham at Hamilton was struck by a bolt and was totally destroyed Sunday morning. The fire was discovered by the hired man who rushed to the barn and succeeded in getting three horses and a buggy and wagon from the burning building. The loss was estimated at \$1,000 and partly insured.

Recently some of the parties interested took exceptions to the assessment levied by Drain Commissioner Edwin Fellows in the Black Creek drain matter of Zeeland. They appealed to Probate Judge Kirby and he appointed a board of review who met in Zeeland and decided every point in favor of the drain commissioner's assessment sustaining his figures and assessment absolutely.

John Van Schelven of Grand Haven was arrested on complaint of Deputy Oil Inspector Harry Oakes, charged with violating the law in regard to conveying and keeping gasoline in cans other than those prescribed by law. The statute requires that all cans for gasoline must be painted vermilion red with the letters "gasoline" painted on it. Mr. Van Schelven was using an ordinary can when the arrest was made. He paid the costs in Justice Hoyt's court. Mr. Oakes states that this law must be lived up to strictly or he will make more arrests.

Dr. James B. Bradley of Eaton Rapids was in the city yesterday on his way to Saugatuck where he spoke in the afternoon in behalf of his gubernatorial candidacy. The doctor was accompanied by C. F. Davidson, C. A. Barnes and Ezra Brackett of Allegan. They took dinner at Hotel Holland.

Miss Grace Tennent, for two years instructor in English in the Holland high school, has resigned her position and has left for her home in Janesville, Wis. The resignation is the result of another of Cupid's pranks. Her engagement was announced some time ago to Dr. S. O. Mast. Dr. Mast was for several years professor of biology at Hope College. Last year he was granted a year's leave of absence by the college council to do original research work at Johns Hopkins university. He later resigned his position here and is now associated with the Women's college at Baltimore.

Theodore DeVeer, the Dutch journalist, who has toured Mexico, has arrived home. He was gone about six weeks and traveled in those parts of Mexico that the ordinary tourist never sees. While there he made a trip to the capital and had a conference with his excellency, President Porfirio Diaz. After a short stay in this city Mr. DeVeer expects to leave with his family for his home in the Netherlands. While in Mexico he bought and collected many curios, one of them being a saucer of a very old date. He bought this of a Mexican peasant woman for a small sum, which she however considered enormous for the saucer. While in the city of Mexico he visited a Dutch club which has a membership of 25 young Dutch business men. Mr. DeVeer expects to give his impressions of Mexico in a book that he will write.

#### HOW IS YOUR STOMACH?

Easy Way to Strengthen It and Get Well.

A good digestive system, one that acts so that you do not know that you have a stomach, is God's birthright to every man—to every woman.

If digestion is weak, if food turns into gas, if you suffer after eating, if you are sleepless, nervous and out of sorts—then the stomach is diseased and prompt action should be taken.

W. A. Ennis, a well-known builder in Syracuse, tells an easy way to strengthen the stomach and get well when he writes: "Mi-o-na Stomach Tablets have done more for me in one week than all the doctors the two years I was under their care. Thanks to Mi-o-na, I can work once more, the first time in over a year."

It is a neasy thing to strengthen the stomach and cure indigestion by using Mi-o-na. Get a 50c box from Walsh Drug Co., with their guarantee to refund the money unless the remedy does all that is claimed for it.

#### Some Drawbacks.

The farmer has a pleasant life

When looked at from afar,

But let us get a closer view

And see things as they are.

It is not all a holiday

In fragrant new mown hay.

For several troubles of his own

He draws from day to day.

When gentle spring comes down the pike

And growing time is here

He must be watching lest the frost

His budding blades should queer.

And as the tiny tender shoots

Show up above the ground

Cutworms and gophers on the job

Are always looting round.

Then wet and drought and creeping pests

And parasites and crows

And many things that interfere

With everything that grows

Come in their turn to bother him,

Each as it comes a threat

That for his labor and his pains

No harvest will he get.

The many pitfalls on the way

From seedling time to bin

Are then succeeded by the fear

That prices will be thin.

With all the chances that he has

To get it in the neck

The wonder is he doesn't soon

Become a nervous wreck.

#### Heroic Treatment.

"He has broken himself of the habit of smoking."

"Did he take one of the advertised remedies?"

"No; he took a new wife."

#### Snubbed.

Young Policeman (running in old offender)—Mind the step there! Old Offender (scornfully)—Garn w! yer! I knowed these 'ere steps afore you was born.—Tatler.

#### Slight Difference.

"He told me he spoke French like a native."

"I heard him jabbering away at it."

"Does he do it well?"

"Yes, like a native of Germany."

#### Ruling Passion.

"The poor old miser has passed away. He hated to go."

"Was he afraid to die?"

"Not that so much, but he did hate to pay the debt of nature."

#### Must Be Some Reason For It.

"He is a man of high ideals."

"I thought so."

"Did you, indeed? Why?"

"I noticed that he did not appear to have much money."

#### Chance For Comparison.

"See the painting over there?"

"Yes."

"That is my masterpiece."

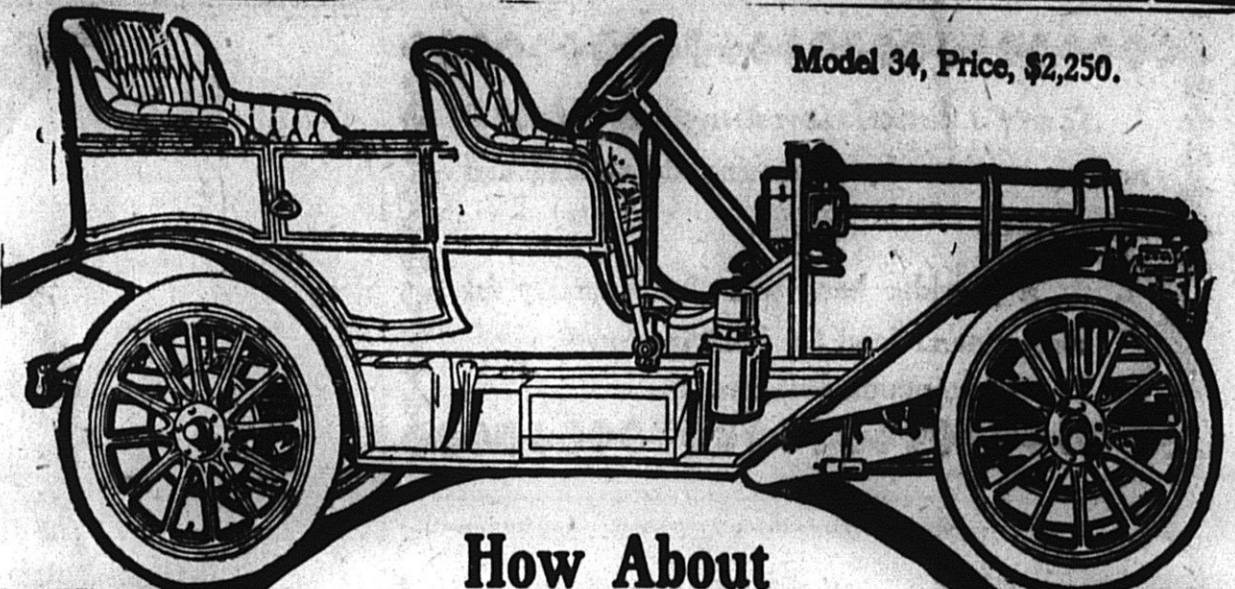

"Indeed."

"Great, isn't it?"

"It is very fine, but I was wondering."

"How I did it?"

"No; I was wondering if that was your best what your poorest was like."

## How About That Automobile?

There is more in automobiling than shows on the surface—more of health—of happiness—of exhilaration—for yourself, your family and your friends.

Just think of the delightful trips you could take, and still be on hand every day for business.

There is a difference in automobiles—some cost too much originally—and others cost too much afterwards.

# Rambler

Automobiles are not in either class. They sell at \$1,400 and \$2,250 and they cost next to nothing to operate.

We will gladly give you facts and figures to prove it.

All we ask is the opportunity to show you the new Rambler models and to take you out for a ride—that you may know from actual experience how comfortable the Rambler is, how smoothly it runs, and what lasting satisfaction it gives.

No matter how little or how much you know about automobiles, we can tell and show you many things about the Rambler that are exceedingly interesting.

We are willing to put our time against yours—and a call from you won't mean a promise to buy.

Come in and let's talk it over. Will you?
