Manufacturers Exposition For Holland?

SUCH A PROJECT IS BEING
TALKED FOR THE SUM-
MER MONTHS

For the past few days there has been some talk of fostering a Manufacturers' exposition for Holland. At first the plan would be to open it up every summer during the resort season.

The idea is to have the manufacturers of this city display their wares in properly equipped booths and show the traveling and tourist public what this manufacturing center has to offer to the retail market.

Of course, up to now this is only a dream, but one that can soon be realized with the proper cooperation and it will do no harm to give it a little publicity in order to get a consensus of opinion on this project.

The Holland City News cannot say exactly on what plan such an exposition would be run. Undoubtedly it will be a showman, or rather an industrial fair for the summer months, where wholesale buyers from abroad might look over our manufacturers' products and our local merchants might cooperate with our manufacturers by taking customers through the exposition as prospective purchasers.

There is no thought of making it a sales exposition except perhaps indirectly—not interfering or competing in the least with the plans or sales of retail establishments, at least that is the thought.

There are several excellent locations in the business district of Holland, but none has been selected definitely. Any location selected would become a center of attraction not only for the thousands who pass through and stay in and near Holland during the summer season.

Holland has some fifty diversified manufacturing plants from furniture to furnaces, from shoes to spring mattresses, from medicines to machinery and a score of other manufacturing products that might find a place in an exposition of that kind.

The idea comes from Dr. Edward D. Dimmett, acting president of Hope College, who has talked to a half dozen "moving spirits" about this idea. If anything is to be done this season it will have to be done quickly. First the project "will have to be sold" to the manufacturers, arrangements for the building will have to be made and a great deal of preliminary work, such as booth building, decorations, etc., will have to be considered.

Many may feel it too late for this season but in any event if so plans might be thought out for next season.

Our civic organizations and especially the Chamber of Commerce can give such an idea the "once over."

Without having given the matter much thought The News feels at the moment that it might be an excellent undertaking, always bearing in mind that it should benefit our local merchants who need every benefit just now. Since the goods displayed are manufactured here the manufacturer could not help but be benefited if the plan works out as expected.

TAKES FIFTEEN PER CENT
CUT IN SALARY

State Senator Gordon F. Van Eenennaam, a graduate of Hope College and U. of M., formerly of Zeeland, now of Muskegon, has gone to Lansing today to file his petition for re-nomination. Mr. Van Eenennaam is one of the senators who demanded that his pay be cut 15%, giving his moral and financial support to a policy of economy in Michigan's official affairs. Mrs. Van Eenennaam, as a girl, was the popular Miss Isla Pruim of Zeeland, also a graduate of Hope and a voice artist of rare ability.

EVEN "BIDDY" TAKES A
SUMMER VACATION

About forty per cent of the hens in Michigan farm flocks stop laying between June 15 and Sept. 1, poultry specialists estimate. If the culchens are removed from the flock early instead of after Oct. 1, about 10 cents worth of feed is saved on each cull.

THE GAS INDUSTRY

Between January 1, 1921, and January 1, 1931, number of consumers served by the gas industry increased 40 per cent—from 11,452,000 to 16,009,000.

Gas, like electricity, has gone steadily forward. Each year has seen new high records established—both in customers served and in use of gas per customer. The gas industry performs a service necessary to the advancement of American civilization.

"TULIP TIME" PUBLICITY STILL GOING ON

The Holland City News is in possession of a pictorial publication "De Prim," printed in Amsterdam, The Netherlands, and in it is printed a picture of the street scrubbing operations at "Tulip Time." It looks rather strange to see Holland buildings and people published in a Dutch paper. De Vries and Dornbos, Williams' Jewelry, Stevenson's, Selles Jewelry, De Pree Hardware, Kresge's and Colonial Sweet Shop are plainly evident and from the Dutch language printed under the picture the cut we translate the following:

"Following a custom by the population of Holland, an American town in the state of Michigan, we are privileged to print a picture of one of the streets being scrubbed by the young ladies and young men of the city. It is one of the features of a tulip festival that is held every year and undoubtedly the tulip and scrubbing feature originated in our own Netherlands. Soap, brooms and water are much in evidence."

County Officer Sees Killing of Prisoner

Matt Hahn, Sentenced for Violating
Liquor Law, Will Property,
Then Shoots Self

Matt Hahn, sentenced Saturday morning by Judge Fred T. Miles to Jackson prison for 18 months for five years, shot and killed himself Saturday afternoon in the presence of Under Sheriff Jack Spangler, after he had asked the officer to take him to his home to make final arrangements before his departure to the state prison.

Mr. Hahn was 53 years old and lived on the outskirts of Grand Haven where Miss Leona Jones looked after him as he was a sufferer from heart disease. He requested the officer to take him home to clean up and dispose of his belongings. He had just written a note to Miss Hahn leaving to her his furniture and a life insurance policy. This was witnessed by Jack Spangler, H. Rossien and J. C. Macken.

The prisoner was sitting on the edge of his bed when the officer warned him to hurry up. Hahn painfully raised himself up from the bed and as he drew a .38 revolver from under the pillow. The officer was within two feet of the man. He grabbed Hahn's wrist as quickly as possible but not before Hahn had turned the gun on himself and shot, the bullet passing through his head.

The body was examined by the coroner who pronounced death due to suicide. Funeral services were held Monday at the Van Zantwick Funeral Home. Burial was in Lake Forest.

Hahn had lived in Grand Haven for several years. He had been arrested for the sale of intoxicating liquors and placed on probation. A few days ago, following a raid by the city officers, he was brought to the county jail and Saturday his probation was revoked and sentence passed by Judge Miles. Hahn formerly worked in the Eagle-Ottawa leather Co., but the past few years he had been suffering from heart trouble. He had been married and divorced and was known to have two children, and two sisters, whose names are not known. Sheriff Steketee wired to Chicago but thus far has received no word from any of the relatives reached by the wires.

Former Holland Doctor Honored in Grand Rapids

Dr. J. G. Huizinga, who has been in practice in Grand Rapids for the past 30 years, was the guest of honor last night at a dinner given by Dr. P. T. Grant, with whom Dr. Huizinga is associated in offices in the Medical Arts building, at Cascade Country club, to the members of the Grand Rapids Eye, Ear, Nose and Throat society.

Dr. Huizinga is to open offices soon in Holland. He will remain associated with Dr. Grant in the offices here, however, and will serve as consultant with Dr. Grant, Dr. Grant being his consultant in Holland. The offices here will be known as formerly as Drs. Grant and Huizinga and Drs. Huizinga and Grant in Holland.

Dr. Huizinga was born near Holland and after his graduation from the University of Michigan Medical school, first practiced there. He later removed to Chicago and then came here where he has been in practice for the past 30 years. Many of his patients have always come to him from Holland and the opening of his office in Holland will be a great convenience to them.

Dr. Huizinga served two terms on the old city council as alderman from the old tenth ward. He has for many years been an elder in Westminster Presbyterian church. He is a member of many medical societies and has served as chairman of the eye, ear, nose and throat section of the Michigan State Medical society.

Dr. and Mrs. Huizinga, whose home is at 726 College Ave., S.E., plan to move to Holland later this year. They have two children, Gerald Holmes of Havana, Cuba, auditor and assistant treasurer of the General Electric company of Cuba, and Miss Madeline Holmes of this city. Mrs. Huizinga and her daughter will leave this week for Havana to visit Mr. Holmes and will be gone most of the summer. The removal to Holland will not be made until after their return. — Grand Rapids Herald.

Keppel's Career In Politics Is Interesting

BAS KEPPEL WAS TOWN MAR-
SHALL WHEN THIS TOWN
WAS STILL "WILD
AND WOOLLY"

Sheriffs' Battle In Convention and
Election Closest in History
of County.

In the death of Bastian D. Keppel, chronicled in last week's issue, inadvertently his political career was omitted from the article but your editor happens to know considerable about this career and can say that besides being a good business man and public-spirited citizen, Mr. Keppel also dabbled in politics to a certain extent.

This harks back to the latter part of the 80's and the early part of the 90's. The paramount political position in Holland never was so much the mayor or the aldermen. The all-important office to the rank and file was the town marshal.

Democratic and Republican city caucuses staged in Lyceum hall brought full houses and the battle invariably was to get the right kind of a town marshal. Often the caucus was "packed" against the local candidate and when the local vote decided the nomination the "pack" left the hall not interested in any other business of the convention.

The town marshal really was the "King Bee" of the town. The town marshal in the earlier days shone brightly at public functions and especially on Fourth of July celebrations, which never "missed" fire from one year to another. He was custodian of the cannon in the public park and was the head of the market day crowd in Holland before this city had a public fair and when the saloons were still flourishing. It took a strong, athletic and agile man to wade in those frequent street and saloon brawls of the earlier days and three town marshals at least stood head and shoulders above the crowd and commanded respect. They were Ed Vaupel, B. D. Keppel and Frank Van Ry.

The youngsters of the city also gave the town marshal a hand and this was especially true in the winter time when the pupils of the Union School got into snowball arguments—the East Enders vs. the West Enders. These would be battles royal lasting for hours with Market street, now Central avenue, the dividing line.

Dick Vander Haar and Cy Rose were generals for the East Enders, while the Vander Hills, Kuites, Borgmans and Mulders were lined up with the West End crowd. The results of such battles make stories in themselves. However, the town marshal was in the thick of it all and was pelted from both sides, and not always with snowballs either.

It was in 1892 when our fearless Bas Keppel was advanced by the Republicans to run for sheriff. This was not to the liking of the Democrats and let us say right here that in those days of torchlight processions and Roman candles, party lines in Holland were closely drawn. There was no "middle of the road" nor independent voters. They were either on one side or another. Even trade at local stores was diverted for a time at least while sore spots remained and Republicans traded at a Republican store and Democrats bought from the owners having their political faith.

Anyway the Democrats cast about to get the strongest man they could find to run against Keppel and they really succeeded in inducing Joe Verplanke, a much beloved Holland man, to run against Keppel. Verplanke was the only Democratic sheriff ever elected in Ottawa county before that time.

But then, Keppel had no easy sledding even in the Republican convention before the election. It was the closest vote ever recorded for a county office. George Shears of Nunica was pitted against Keppel and on the first informal ballot Shears received 68 votes and Keppel 60. These informal ballots of the earlier days did not seem to count but were a test of strength. But on the second ballot, which was a formal ballot, Keppel received 65 votes and Shears 64 votes, Keppel winning by a majority of 1 vote. This was in 1892.

The Holland delegates at that time were William H. Beach, Harry Doeburg, Simon Klein, Dr. J. E. Yates, G. J. Diekema, Henry Luidens, R. N. DeMerrell, John J. Cappon, B. D. Keppel, Henry Kienkeld, Gerrit Van Schelven, John Pessink, Leonard Mulder (my father), J. B. Mulder, William Brusse, Patrick H. McBride and John C. Post.

From Holland Township Wiepke Diekema (father of G. J.), John Kerkhof, A. Elferink, Dar Huff, Isaac Marsille, Arend Visscher, Dick Van Loo and C. La Huis.

After the convention the battle really began and when the votes were counted in November the vote in Holland stood as follows:

1st 2nd 3rd 4th.

Verplanke 117 81 141 97 436

Keppel 136 65 158 105 464

Boyd 7 13 17 25 62

This gave Keppel a majority in the city of 25 votes. Four wards are chronicled because we only had four.

In the county the vote was also very close, Keppel receiving 3,431 and Verplanke 3,201, giving Keppel a plurality of 230.

President Harrison at that time defeated Grover Cleveland for the presidency of the United States in Ottawa county by a majority of 647. However, Harrison was defeated in the nation's vote, Cleveland receiving 299 and Harrison 155 electoral votes.

Two years later Keppel had easier sailing. He had made an excellent sheriff and was renominated by acclamation. This was

STRIKE OBJECT IN LAKE WHICH MAY BE "ANDASTE"

Ray Swartz, while sounding Lake Michigan preparatory to setting some nets seven miles south, near Port Sheldon, struck some object which he believes might be a wreck of some kind. He reported the same to Capt. William Preston, who stated he would go to the spot in the near future and make further investigation.

The strike was made about seven miles south of Grand Haven and a mile and a half out and is about where many believe the "Andaste," Construction Materials ship, met her fate on that September night when one of the worst winds of history blew over the lake. The Holland City News in a recent article on Port Sheldon states how the heavy steel wheel house of the "Andaste" had been cast up during that black and stormy night and lay buried in a sand dune within the small inlet at Pigeon Lake.

In 1894. The delegates at that time were George Van Duren, P. H. McBride, Leonard Mulder, Ed Vaupel, Harry Doeburg, G. J. Diekema, Ben Mulder, Dr. O. E. Yates, Arend Visscher, Jake Lokker, Simon Klein, Gerrit Van Schelven and Frank Van Ry.

Relative to these delegates you notice the name of your editor. It was his first as a delegate to the county convention. You also notice the name of Frank Van Ry. His presence there also meant something. He was being groomed for sheriff two years hence. In those days Holland always garnered the sheriffship—at least that was the complaints of the rest of the county—and undoubtedly it was true.

Anyway our ex-chief of police, Van Ry, was named sheriff two years afterwards and served two terms, all that a sheriff could serve in those days.

During the election for his second term Keppel was pitted against a strong Grand Haven man who had several relatives living in Holland. His name was Van Welden. In order to split the Keppel vote the People's Party put up a strong candidate in the person of Nichols. At that time Keppel received 469 plurality in Holland, 213 votes.

In the county Keppel had a plurality of his ticket, having a plurality of 2,231. Mr. Keppel had the highest vote excepting George G. Turner, who was running for clerk and who had 2 votes more than Mr. Keppel.

It is rather interesting to note that while Mr. Keppel's plurality was more than 2,000, the state Republican ticket only received a plurality of 647.

We forgot to add in this article that as a minion of the law Mr. Keppel followed in the footsteps of his illustrious father, Mr. Teunis Keppel, who was Holland's first town marshal—and a large nickel plated star constituted the uniform of Holland's guardian of the peace. We hope this article will make up in a measure for the one overlooked in last week's issue.

Halt On Harbor Operations For Three Months

GENERAL MEADE TO STOP
DREDGING UNTIL FALL

General Meade, sent by the United States government to dig a deeper channel from the harbor's mouth to the Goddard docks, has done some preliminary work, has scooped out some of the most shallow places and has dredged near the Holland and other freights, as well as our own boats, can find better sailing in the steamer lane. Considerable muss was stirred up from the bottom of the lake through this dredging, and there has been complaints especially from around Virginia Park. Austin Harrington, head of the harbor board, deemed best to put in a month of dredging late in the fall after the resort season, when there will be no annoyance to those having summer homes on Black Lake.

The waters of the bay should not be stirred up during this "dog day season," and the water shovels be kept as settled as possible while folks are occupying their summer homes.

General Meade will leave Saturday or Monday, returning in the fall to finish up this prospective dredging job, including the turning basin at the foot of Eighth street, which is so necessary.

We believe this is the wisest plan and after a winter and spring any stir-up the sanducker might have made in the fall will be gone when the resorts again arrive and, besides our much needed deeper channel will also have been completed.

ARENDHORST-SCHULLING BECOME ASSOCIATED

B. J. Arendhorst, Jr., son of Wm. Arendhorst and John Schulling, son of James Schulling, north side, have become associated as the representatives of the J. H. Pettey and Co. of Grand Rapids. Bond and stock analysis will be made by them and through their knowledge it will be evident when the financial position of an individual can be improved upon — which is possible with the prevailing low price level of many good investments, and bonds, especially. After a thorough analysis of these securities recommendations may be made as to the best course to pursue.

Both young men are graduates of Hope College and have also had experience with high class bond and investment firms. They are located in the offices of John Arendhorst, Eighth Street and College Avenue.

TWO BROTHERS FISHING HOOK THE SAME PIKE

Even the fish recognize the bond of brotherly affection that exists between Pete and Bill Nickel, two Detroit fishermen. While fishing in Canadian waters last week both got a strike at the same time and in hauling in their lines they found they had hooked the same wall-eyed pike. Bill's hook was on the right side of the mouth and Pete's on the left. It is evident that this fish did not want to play any favorites and decided to assist in continuing the cordial relations now existing between the two brothers.

Such a move has been unsuccessful for twenty-five years and Zeelanders still come to Holland in large numbers to see the pictures.

Boy Scouts of Holland and Grand Haven, part of the group at Camp Wilderness, who banded themselves into the Sieve patrol because their tent leaked so thoroughly, have emerged victors in three contests at the Ottawa-Allegan area camp on Pettit lake, Newaygo county, according to word received here today.

The Scouts played first in a melon-eating contest, a swimming meet and an animal hunt. The boys of the patrol are Herman Van Zantwick and John Van Woerkom of Grand Haven and Luke Lamberson, Henry Hofackers, Henry Dokter, Glen Kypma, Jason Kypma and Vernon Vande Water.

The school election this year fooled everyone. There seemed to be no hot contest on until the afternoon of election when from 2:00 o'clock until 8:00 o'clock, the time set for the polls to be open, a steady stream of voters poured into the city hall and there was a constant waiting list of at least 50 voters. Even after the polls were closed there was a long line ahead and these had to be accommodated.

The number of absent voters, largely from teachers on vacation and members of Company D, who are at Camp Grayling, numbered 110. After the votes were counted it was found that "De Ouden Blijven," literally translated meaning "the old ones stay." This is an old saying in our colonial days when church elders and deacons were re-elected from year to year. The old Dutch folks summed up the result of the election in these few words.

Mr. Geerlings, who has been on the school board for 39 years, received 1,111 votes; Fred Beeuwkes, a close second, polled 1,007 votes; Mrs. Martha Kollen, 867; Marvin Lindeman, 682; Jacob F. Van Dyke, 642; Wm. Wolrding, 434; blanks, 57.

The number of votes cast was nearly up with last year when 1,704 votes were cast.

The re-elected members will hold

Few things add more to the appearance of a farm than a healthy row of trees along the roadside, and few trees are better suited to this purpose than the walnut. Furthermore, the production of a row of these trees while it takes time, is comparatively inexpensive. A leaflet just issued by the department of agriculture gives detailed information on growing walnut trees from nuts. Five cents will bring a copy from the Superintendent of Documents at Washington, D.C. This leaflet plus a little well-directed labor can in few years add much to the appearance of any farm and also increase the annual income through the harvest of valuable nut crops.

JOHN DETHMERS HAS ANNOUNCED HIMSELF AS CANDIDATE FOR RE-NOMINATION

Attorney John R. Dethmers, who is serving his first term as prosecuting attorney of Ottawa county, announced today that he is a candidate for re-nomination on the Republican ticket for that office.

Mr. Dethmers originally comes from Zeeland, where he was city attorney and justice of the peace. His offices are now over Keefe's cafe in Holland and he divides his

time between this city and the courthouse at Grand Haven in order that official matters at both ends of the county can be more easily taken care of and citizens, who have dealings with the prosecutor's office, find it more convenient.

Mr. Dethmers has been a painstaking, conscientious Ottawa county official and his petition for re-nomination has been circulated about the city for the past few days and has been liberally signed.

JOTS OF SPORTS—PAST AND FUTURE

The Saturday afternoon baseball tradition will bring together the Grand Haven All Stars and Phillips "66" baseball nines for the third and deciding game of a series. The two rivals will meet at Riverview park starting at 3 o'clock. The Holland team will have Gerrit Brandt, Hudsonville southpaw, on the mound.

Nert week, Saturday, the Holland Boosters will play at home and the Fox Jewelers of Grand Rapids will be the opponent. The Furniture City team will pitch Frank Cook, former Union High school all-state football star who is the property of the Cleveland Indians. Cook will be supported by a brilliant cast of stars that have made a great record this season.

Irwin Woltman, who pumps gas to keep in training for tennis is the favorite to take first honors in the second annual city tennis tournament. Woltman, after passing the first round on a default, disposed of Glen Loveland, Holland High school performer, with ease. In the doubles Woltman, paired with Frank Visscher of Hope college, should defend their team title of 1931. The finals in the tourney will be played the early part of next week.

A great race is being staged this season in the city soft ball league. After Tuesday's game in which the Len Transfer defeated Washington Square, three teams were practically tied for first place. Lens and the Spring Airm have won 7 and lost 2, while the Washington Square Merchants have won 6 and lost 2. One of the features of the race has been the dazzling pace set by the Transfers. After losing 2 games to open the season, Lens team has won 7 straight games, including victories over the Spring Airm and Washington Square.

The Wolding Plumber is in first place in the junior baseball league, but only a small margin separates the Plumber from Washington Square and the North End Giants. The Corner Hardware, after getting away to a strong start, have dropped down in the standings by virtue of three straight defeats.

Youngsters are playing great ball in the city baseball league this season. Three of the youths who graduated from the junior league into the major circuit in the city have been making good. Russ Wolding is adding punch to the Holland Boosters, while Wynand Vandenberg has been playing good ball for the Phillips "66". Nelson Plagenhoef has been doing a good bit of work for the Dutch Boy Breads. Other young players who are looking good in their first year in the circuit are George Kolan and Joe Alverson of Gulf Gas; Milton Vandenberg of the Pure Oils, and Dan Koop of the Dutch Boys.

PAUL RADER SENDING OUT AN S. O. S. CALL

In literature received from Chicago at the Holland City News desk, Paul Rader wants to feed the hungry and needy in Chicago to keep them from starving the coming winter and the evangelist is sending out a call to farmers and their housewives in this vicinity, asking them for a tenth of all the food stored away for future use.

PAUL RADER

or its equivalent in food products. Paul Rader intends to set up a huge pantry to feed the Chicago hungry and he believes that in this district of grain, fruits and vegetables, thousands of tons can be salvaged for which there is no profitable market and which will go to waste if not gathered for the starving Chicagoans, according to Rader. Different canning camps will be established in different states. The one in Michigan will be at Lake Harbor, Muskegon. Last year the Chicago Gospel tabernacle fed 24,000 daily. This year they expect to make it 50,000.

80 CHILDREN ATTEND VACATION SCHOOL

Miss Henrietta Warnshuis, supervisor of the vacation school at Third Reformed church, announces that 80 pupils are enrolled. The children meet every morning from 9 to 11:45 o'clock.

Miss Lois De Pree, F. Drake, Everett Potts, Miss Gertrude Van Peursem, Miss Cecile Van Peursem, Miss Adelaide Vandenberg and Miss Verna Brouwer.

Miss Adella Beeuwkes is principal of the primary group. She is assisted by Miss Evelyn Steketee, Miss Doris Brouwer, Miss Marian Boot, Miss Beatrice Boot and Miss Jean Pellegrum.

Miss Florence Dubbink and Miss Betty Kraal are principals of the beginners' department. They are assisted by Miss Virginia Kookier and Miss Crystal Van Anrooy.

CAMPING OUTFIT

Take plenty of candles. They can always be depended upon. If you don't sleep warm you will be uncomfortable. Don't economize on quality or quantity of bedding. Economy in space is important. Have cooking utensils that will nest inside of each other.

A good wool sweater is better than a coat and much warmer.

Be sure to include a roll of surgeon's adhesive tape for strapping sprains and strains, mending rods, patching canvas, etc.

A pair of old slippers or low shoes to wear around the camp afford infinite relief after a day on the trail. A wise sportsman takes good care of his feet.

BATS ARE ON WING AGAIN THIS MONTH

Bats in Michigan are on the wing in July and August and many can be seen in Holland at dusk flitting about. They are not seen as frequently in large cities as they are in small towns, flitting and turning about old buildings, church towers and dim street lights. They are useful creatures of the night. They consume thousands of mosquitoes, which make up by far the greater amount of their food.

Legends and folk-tales have given a history to the bat it certainly does not deserve. They are not hideous creatures, in fact, they have some points of beauty and their life story is a most interesting one. They surely are not connected up with the "evil one" but God's creation to help mankind.

BLIND MAN GOES 30 MILES OVER M-50 AND DIDN'T GET LIFT

Ned Smith, blind colored newspaper vendor who was a familiar figure on Grand Haven streets several years back, is again on the streets there selling his wares. He has been in Grand Rapids during the past five years and has become a familiar figure in the downtown district there.

Ned makes his way about the city by the safety department of Grand Rapids. Recently he walked the entire distance from Grand Rapids to Grand Haven over M-50, pulling his little paper wagon the entire distance—and here is where a deserving pedestrian didn't get a lift when so many who really are road pests are helped and in turn help to spoil the trip of friends with whom the "pest" has nothing in common.

BEATS DEPRESSION WITH FROGS AND FISH

Former Contractor Now Has 130,000,000 Goldfish

When business in the building contracting game began to fail T. H. Forte of Handley, Texas, took to raising bullfrogs and goldfish with remarkable results. For seven years he has been in this business and save for one mishap, the escape of 800 bullfrogs, he has profited and expanded steadily since the first. The frog plant covers more than two acres and includes 11 different concrete lined ponds. Forte doesn't know how many frogs there are in his ponds and estimates the number of goldfish at over 130,000,000. Snails as a sideline pay for most of the upkeep of the entire place. Five varieties of snails are reared here.

George Woldring, local plumber, didn't bother with an attorney when he was sued for recovery of bathroom fixtures he had installed and removed at the house of Mrs. B. Hovinga, Petoskey, located here, but he won the decision of the jury when the case came to trial before Justice Elbert Parsons in the city hall on Thursday afternoon. However, he may be called into further action as his own attorney, because Thomas Mahon, attorney for Mrs. Hovinga, is preparing an appeal to circuit court. It was brought out at the trial that John Huizenga of Holland bought the house from Mrs. Hovinga on contract. After ordering the fixtures installed, he told Woldring to remove them as he was unable to meet payments. Mrs. Hovinga regained the house when Huizenga released the contract and was asked for the payment of these fixtures ordered by Huizenga. The case may settle some interesting legal points.

Conservation Is Live Issue With Michigan People

STATE SEEKS TO KEEP THOSE GIFTS OF NATURE FOR ITS GUESTS

Man came to Michigan centuries ago, killed the animals and took their furs to Europe to adorn the fine ladies of the old world. Later, other men came, cut down the trees and saved them into lumber to build homes as well as other buildings for the nation. Fortunately, most of these men left or ceased operations before devastation was complete. What remained of natural life began to rebuild itself as best it could. Those unaided natural efforts were so successful that Michigan began to regain much of her natural beauty and men began to come again—but to enjoy rather than ruin. Then there came the realization that man and nature are not enemies, but allies. With that realization came conservation. It is now assured that what nature gave to the state will be preserved.

The preservation and restoration of the natural beauties of the state is in the hands of the conservation department, which has worked out an extensive program, including reforestation and game protection.

A detail of all the excellent work of the conservation department is a long story, but a few of the highlights should prove interesting.

Each succeeding year fishermen find more pleasure with rod, reel and line as a result of the work of this department, which propagates and plants game fish in inland waters. Not content with this, a systematic effort is made to remove noxious species and control pollution of streams and lakes, which not only saves the fish but makes such bodies of water much more satisfactory for recreational purposes.

Protect Game
Game birds and animals are protected by the game division, which has established refuges throughout the state in which these creatures of nature may live and increase their numbers.

As a result Michigan boasts more wild game today than it could several years ago.

To the forestry division is entrusted the task of reforestation in Michigan. Each year thousands of acres of trees are planted in the state forests and present plans call for an increase every year until the burned over areas and waste lands are all reforested.

Perhaps the reader has driven along the trails that wind through the forests of northern Michigan and will recall the many signs along the roadsides asking the motorist to break a match before throwing it away, but out the camp fire, not to disturb the wild flowers—to give the country a chance. These signs are so generally respected that almost every citizen of the state is a self-appointed member of the conservation department. What a tribute to a great work!

Snakebite Common

It is estimated that more than 3,000 people suffer from snakebite in the course of a year. In May during the mating season and in October, when the young appear, snakes are more dangerous.

WIFE OF CHARGED BOOT-LEGGERS THROWS HAT IN RING FOR SHERIFF

Petitions have been circulated for the candidacy of Lucile Morgan, wife of Lou Morgan, charged with bootlegging, she to run on the Republican ticket for sheriff. She is the first woman to seek this office here.

With her husband in jail awaiting trial Monday for violation of the liquor laws, Mrs. Morgan is in hiding, believing she is wanted by authorities.
In a written statement today Mrs. Morgan said:
"I am the wife of a World War veteran who was disabled in France, but now awaits trial in county jail." She pleaded with ex-soldiers to help her husband by voting for his wife for sheriff.
"I need and want your support," she said, and pleaded with mothers of the county to help a mother.
Mrs. Morgan had the required number of signatures on petitions today to validate her candidacy.

WATER HEATER INVENTOR DIES—MANY HEATERS IN HOLLAND

Alfred H. Humphrey, age 74 years, president of the General Gas Light Co. of Kalamazoo, died at La Jolla, Cal. He was the inventor of the instantaneous water heater which has been marketed throughout this country and abroad. He was the organizer of the Humphrey Mfg. Co. and was also the inventor of the first arc gas light of its kind ever made. Many of those heaters are found in the bath room of many Holland homes.

HERE'S GOOD NEWS FOR THE FISHERMEN

Ordinary lines used for fishing unless bought attached to a hook, sinker, or some other article of definite fishing use, have been classed as "commercial" by the Bureau of Internal Revenue, and therefore are exempt from the 10 per cent "sporting goods" tax, recently levied for balancing the budget.

This decision was based on the fact that since the tax is collected from the manufacturer the same cordage which goes into lines for sport fishing also is used for commercial fishing and for a large variety of industrial purposes. Confronted with this problem of how a manufacturer could tell whether his lines were to wind up in the hands of a sport fisherman, a commercial fisherman or a user who needed them for upholstery, drapery or other strictly non-sporting purposes, the revenue experts decided that lines could only be classified as "sporting goods" if they were attached to an article definitely identified as for sporting use.

Miss Gertrude De Haan, Miss Ada Ver Schure, Miss Grace Schreier, Miss Arness Zwiers and Miss Johanna Westerhof are enjoying a house party at Colonial orchestra cottage at Idlewood beach.

Mrs. Gerrit Plakke left Thursday morning for an extended visit with relatives in The Netherlands.

Black Beaver Being Watched

A group of black beaver, the only isolated colony of these animals in Michigan, is being watched closely at Beaver Island. They were planted nearly a year ago by conservation officers as an experiment to determine if they would breed true to color. The animals were live-trapped at Sturgeon River in Cheboygan county.

The original colony, numbering four, rapidly adapted themselves to their new surroundings on the island that bears their name. A large dam, forming a lake of considerable size, was built by the beavers on Iron Ore Creek near the head of the island.

It is expected the family will be increased by at least four and possibly six this spring, and the hope is expressed that the young will be black like the parent stock.

Regarding Bank Check Tax

As there seems to be some misunderstanding regarding the U. S. government tax on bank checks, the following information might prove helpful. The present Congress has just imposed a tax of two cents on all bank checks excepting those of municipalities and all the branches of the government. This tax became effective June 21, 1932. It applies to religious organizations and fraternal bodies. It does not apply to withdrawals on savings accounts when the usual withdrawal form is used. For those that want to come to the bank and use the special form counter check (which is not negotiable) for drawing cash, the tax is not imposed. The law makes it the duty of the

bank to charge the account of the customer with the tax on all taxable checks at the time the check is paid and charged to the customer's account. There are no stamps to be used in connection with this particular tax.

COOK YOUR FISH

The Christian Science Monitor offers the following formula for cooking your fish without a pan: "Clean and season the fish and add several strips of bacon. Wrap each fish well in corn husk or in leaves, tying the wrapping on with cord or pieces of long grass. Put a thin layer of moist clay over the

leaves or husk and bury the fish in hot ashes. Leave it in the ashes until the clay covering starts to crack. The steam confined within the clay covering will cook the meat."

Penny sale at Jerrold's only two days more; ends Saturday night. The crowds have been tremendous.

"Messiah's" Popularity

Gambling With Father Time

WHEN you are young it is
time to think of the es-
sentials in life. When you
start out in life there are cer-
tain fundamentals that are in-
deed essential. The one thing
that is paramount is a Savings
Account. A young man or a
young lady with a savings ac-
count has a standing in the com-
munity. An employer is im-
mediately pleased and looks with
confidence upon an employe
with thrifty habits.

Watch the savings grow as
you add to them from week to
week and we likewise add to
them with interest compounded

semi-annually. Your savings works for you night and day — a tireless servant.
But do not gamble with time and neglect opening a savings book at this bank now.

Another heavy shower fell early
Sunday morning, drenching the
fields so that there is no longer
any lack of moisture. Crops are
in splendid condition. Wheat has
been harvested and assures a heavy
yield. Corn looks better than ever.
Evidently the farmers are going

to have an exceptional yield what-
ever the prices may be this fall.

John Peters at the Holland hospi-
tal is still in serious condition.
His many friends hope that the
aged gentleman, who has been
prominent in the community for
many years, may be restored to
health.

the parental home.

The first street in Hamilton is
being paved. East Washington
avenue is graded and a force of
men will soon give it a hard sur-
face of asphalt. It will not be
long now before Main street will
also be thus honored. We are
sure that none of the residents
will bring in any objection, for
with the heavy traffic everyone
has had enough of the dust clouds.

Mildred Lubbers spent several
days at the home of Mrs. Sena
Matman of Holland, returning
home Sunday.

depression. He has come out with
the proposal that if the farmer
will bring a bushel of wheat, he

then need to worry about low
prices.

among the colored people at Brew-
ton, emphasizing the progress
which has been and the plans for
the future. A large crowd was in
attendance.

The Independents and Merchants
were victorious in their contests

last week. The senior team took
the strong Allegan team into camp
by a 5-to-1 score at the Allegan
fair grounds. Rookie Lugten was
on the mound and hurled in splen-
did form, holding the opponents to
6 scattered hits. The lone score
was obtained as a result of an er-
ror, followed by a triple. He struck
out 8 of the opposing batters and
walked only 1. The local boys,
however, gave him good support
both in the field and at the bat,
covering a lone misplay with an
avalanche of big bingles. Ashley
and Voorhorst led at bat but the
whole team was out in their bat-

ting clothes. The same evening
the Merchants defeated the team
from Saugatuck in a well played
game by a 9-to-2 score. The young-
sters took an early lead and then
gradually increased it. Freeman
and Hashma formed the battery
for the locals, allowing 5 hits and
striking out 10 men. The team-
mates obtained 10 hits and re-
sponded quickly in times of dan-
ger, but were inclined to take it
easy when the bases were clear.
Two more games will be played
this week. The Independents will
meet Wayland, while the Mer-
chants take on Bentheim.

Business Success Lies Partly in
the Choice of a Good Bank . . .**

Sagacious fathers, these . . . who give their sons sound advice
on the establishment of sound financial connections. Such ad-
vice oftentimes starts young men upon a brilliant career—for, af-
ter all, financial gain is the measure of success in all lines of en-
deavor. We take a great measure of pride and pleasure in look-
ing after the accounts of enterprising young men (and young
women, too) who bank here. We like to see those accounts
grow; we like to see the younger generation make wise investments
and develop financial independence. We like all of these things
because it guarantees the future of these young people and the
prosperity of the community in which they live.

C. P. MILHAM, OTTAWA
COUNTY FARM AGENT,
TELLS OF FARM PROBLEMS

Twenty farmers attended the "weevil" meeting at Coopersville in order to learn methods of eradication before threshing time. Those who attended stated weevils were wide spread this year and many had neighbors whose grain was infested.

To kill weevils use one pound of carbon bisulphide for each 100 cubic feet of grain to be fumigated. Line all sides of the grain bin with three or four thicknesses of newspaper and cover the top of the bin by nailing cleats and boards one foot above the grain, covering with papers and blankets fastened tight around the edges to hold the gas in. Pour the carbon bisulphide onto the grain and leave covered for 48 hours when air temperature is above 70 degrees. Keep fire away from the granary as the gas is explosive and inflammable.

HOOKS BIG SNAKE
BY TAIL WITH FLY

Ivan Leonard used to wonder when he saw a watersnake streaking his way across the river how much of a battle a good sized snake would give him on light tackle. Recently he found out.

While fishing on the Pere Marquette river Leonard saw a big snake start across the stream and watched it all through with his head above water. He cast his fly in the direction and it landed over the snake. Giving a tug he hooked it in the tail.

"I rather expected some sort of squirming and jerking, but I didn't get it," Leonard says. "Instead he quit and straightened out as I drew him in."

Week. Classes, tours, camp fire programs, picnics, banquet, stunt night, singing contest, health contest, style show, games and a trip through the state capital are some of the activities planned for the week.

Six hundred 4-H honor delegates and leaders from 43 southern Michigan counties are expected at this year's camp. All groups will be in charge of leaders during the week.

A new bulletin, "Marl-Its Formation, Excavation and Use," has just been received by the agricultural agent at Grand Haven. Copies of this bulletin are available free to those who request them. As Ottawa marl beds and farmers are developing beds and farmers are making greater use of this source of lime this bulletin should be timely and valuable.

Castor Oil in Court

A Municipal Court judge in Cleveland recently gave a man convicted of intoxication the alternative of drinking a pint of castor oil or going to jail for 30 days. The man chose the castor oil. Whereupon the judge reduced the amount to half a pint and the man drank it. A half-pint of castor oil probably would not have any serious effect on a person saturated with fuel oil. We have read of even larger amounts being administered to offenders in Italy. At the same time, Americans are constitutionally opposed to "cruel and unusual punishments." Castor oil goes against their stomach. The only thing to be said in extenuation of the Cleveland judge's freak sentence is that the castor oil was not obligatory but optional. The man who drank it could have gone to jail instead. It seems that the judge prescribing such doses should bear in mind the dignity of the law.

100 Clammers Can't Clam
This Year

About 100 "clammers" who operated in Michigan streams last year will be unable to obtain a license for the 1932 season, the Conservation Department announced today. Under the new law adopted in 1931, no license may be issued to persons who have not reported the shells taken the previous year. About 100 1931 licensees have failed to make such reports.

The clam season will reopen July 1 and will close September 30. The fee for a resident clam license is \$3.00. A fee of \$50 is charged on non-residents who are considered as those who have not resided in Michigan for six consecutive months immediately prior to the date of application for a license.

Applications for clam licenses must be made on forms furnished by the Department.

The list of waters closed to clammers is furnished with each license.

ANNOUNCEMENT

Charley Jackson of Holland has announced his entry into politics as a candidate for the nomination for the office of sheriff on the Democratic ticket in the coming primaries.

Mr. Jackson is well and favorably known in Ottawa county and has a wide acquaintance throughout the state and elsewhere, gained through eleven years as manager of Lakewood Farm for George F. Getz and five years as business manager for Grandview Poultry Farms. He is experienced as an officer, having served as a deputy sheriff in Ottawa county during the past several administrations.

In an interview today Mr. Jackson said: "Manager friends have urged me to become a candidate for the office of sheriff of Ottawa county. I realize that the field from which the voters are to make their selection of a sheriff is a large one, but I am sure that the people of Ottawa county will appreciate a forceful business-like and economical administration of the office. That is what I have to offer. These times call for the utmost efficiency in the conduct of every office and the kind of administration I propose to give in the office of sheriff will be to the advantage of the taxpayers. My experience in the work of the sheriff's office is such that I can guarantee that result."

Enthusiastic friends who are supporting Mr. Jackson predict a red hot race for the nomination in the Democratic primaries between Mr. Jackson and Fred Kamferbeek which is something unique in Ottawa county politics as candidates of this party usually have been opposed in former elections.

Mr. Jackson, who has never before sought public office, expects to make a vigorous campaign, based on the proposition that in the present state of governmental affairs the time has arrived to put in every office men who are not and have not been professional office seekers.

State to Split
Road Money. Ottawa
Gets \$37,796

Michigan's 83 counties will split \$2,000,000 a few weeks hence under the provisions of the McNitt Act, adopted in 1931.

The act provides that each county shall take over 20 per cent of its township road mileage in each of five years, beginning with 1932. To assist the counties in maintaining and improving the roads taken over, the State will contribute \$2,000,000 this year, \$2,500,000 in 1933, \$3,000,000 in 1934, \$3,500,000 in 1935 and \$4,000,000 annually thereafter.

If this year's appropriation were divided equally among the counties, each would get \$24,096. The apportionment, however, is on the basis of township highway mileage. The money comes of the State highway department revenues. After the weight tax diversion act adopted at the recent special session of the Legislature has become operative, McNitt Act appropriations will be derived exclusively from the gasoline tax receipts.

In all there are 60,317 miles of township roads in the state to be maintained. Ottawa county has 1,139 miles which will give this county \$37,796.66; Allegan, mileage—1,375.9; \$45,621.92; Muskegon, mileage—894.8; \$26,685.40; Kent, mileage—1,293.8; \$39,915.45; Wayne, mileage, 636.5; \$21,104.98.

Allegan County Roads
in This Vicinity
to Become Fact

Allegan county has started on its road building program. One job was begun, namely, a concrete highway from Allegan to Otsego also one to Martin and Hopkins.

Other roads in the vicinity to be taken care of this year are 1 1/4 miles on the Graafschap road north to Ottawa county line; a little better than 2 miles on the road between the Fennville and Bravo, 4 miles on the Otsego-Pullman, 2 1/2 miles on the Otsego-Alamo road, and about 4 1/2 miles on the Allegan road to the intersection of the Cheshire center road.

Road Commissioner McOmber states that both Senator Leland and Representative Fred Wade of Saugatuck were very active and worked hard during the entire session. It is anticipated the county passed.

Mourning Dove Confused
With Passenger
Pigeon

Any walk in the woods or meadows will give you glimpses of the mourning dove. Easily he may be identified by the deep coo-coo-coo, repeated often and slowly. Young children hearing them at twilight oftentimes believe it is an owl calling, but this is delightful imagination of childhood.

Older persons confuse the mourning dove with the extinct passenger pigeon. Dark spots on the sides of the neck aid in identifying this bird. The wings are pointed and the long tail also comes to a distinct point. Bluish grey is the predominant color of the male. The bill is black. Female birds are smaller and more subdued in colorings.

These delicate creatures hatch their young in nest that is discreetly hidden and usually is made of a handful of twigs tossed together and it is a wonder that eggs do not slip through. Sometimes they will build their home within a disused rodent nest.

Three or four broods are common in a single season. The young birds are fed by regurgitation. A "pigeon milk" that is brought up from the crop with other food substances is fed the young.

LAKE DISAPPEARS WITH
FISH AND THEN RETURNS

Big Jackson Lake in Georgia has a habit of disappearing suddenly and returning later. This lake is about 10 miles long and four miles wide when full and vigorous. For the second time this year the lake has dashed away through some underground channel leaving only a dry bed behind it. Jackson Lake and Micoosukee Lakes form a triangle along the Florida-Georgia line and have a partnership in the disappearing act.

But Jackson is the most regular. Each time the water leaves the fish go with it. When the water returns, fish are unusually abundant, which leads one to believe there is a common reservoir somewhere containing fish which are replenishing the lake.

Allegan County News

Glenn Black, manager and director of the Black Box Players of Chicago, playing at Saugatuck, suffered a broken leg Thursday when a wild grapevine swing broke.

Rest-U-Well Camp at Gibson, southwest of Holland, was filled to capacity over the Fourth, the dismal weather having no sad effect on the happy crowd of well known folk that gathered in the little pavilion.

Mrs. S. Hemwall and son, Harry, of Chicago, are spending a couple of weeks with the Geo. Hemwalls of Gibson. Mr. and Mrs. E. Hemwall are joining in over the week-end.

Miss Elsie Lebensarger and Mr. Frank Barton of Chicago spent the week-end with E. Hall at Gibson.

Lennart Hemwall of Gibson has gone to Boy Scout camp at Neewago for a week, where the Ottawa-Allegan camp is located, under the supervision of Peter Norg of Holland and aids.

Analysis on the sample of water collected on June 23 from the municipal supply of Saugatuck shows no evidence of dangerous contamination and is fine healthful drinking water, says Edward A. Rich, director of bureau of engineering at Lansing. The communication was received by H. Newnam, water commissioner of Saugatuck.

Miss Marie Cunnagin of Bond, Ky., has been a guest in the home of Mrs. Orrin Ensfield, Ganges, a few weeks, coming to attend Hope college commencement, her sister being one of the class.

Clare E. Stegeman, Allegan, has taken his well-equipped and screened-in trailer cottage, built by himself, to Glen Shores, on Lake Michigan, where he and Mrs. Stegeman and their daughter Sally expect to spend their leisure hours whenever possible and enjoy the privileges afforded them by old Lake Michigan.

In the Fennville-Saugatuck districts the peach crop promises to be large, many hands being busy with the job of thinning, but the disease is showing in many orchards and more prompt removal of affected trees is imperative. The apple crop will be short as there are no Baldwins. The Bartlett pear crop will be very fine and very large. Low-bush blueberries are ripening and are plentiful, while the huckleberry crop in the swamps promises to be a big yield.

Cold weather has interfered with the fishermen, but several fine strings of bass have been taken from Hutchins lake. Very few pickers have been caught up to this time.

Duncan Weaver, the Fennville druggist, was elected first vice president of the Michigan State Pharmaceutical Association at Lansing last Thursday. This organization comprises nearly five hundred drug store owners and pharmacists of Michigan. The state association is now fifty years old and is just celebrating its jubilee year convention.

Donald Dickinson, Fennville, reports that last Saturday morning E. N. Sharpe and H. E. Perkins, of Otterbein, Indiana, purchased non-resident fishing licenses. In visiting with them about the bass fishing in this vicinity, Don mentioned the bass rearing pond that the local fishermen have fixed up at Pier Cove, and these gentlemen were surprised when told that the money for this project was being provided through contributions of local sportsmen, who gave \$2 each for this fund, their action being so different from that of some so-called "sports" from some outside sections who come in here during the pheasant hunting season and misuse our farmers by over-running their land without permission, cutting wire fences and committing other depredations that the incident is deemed worthy of mention. Thanks to the gentlemen from Indiana.

Capt. B. C. Swift, Middleville, and Howard C. Lawrence, state treasurer, are the principal speakers at the annual reunion of the Soldiers' and Sailors' association and their auxiliaries of Allegan county at the Allegan fairgrounds this Thursday.

George B. Williams, carrier on rural route No. 3, one of the Allegan postoffice for more than 30 years, was on the pension list on Monday, having made his last run Saturday. He was eligible for pension two years ago under the 65-year age ruling, but was granted an extension.

The annual picnic of state highway superintendents and employees and their families from Allegan, Ben, Berrien, Cass, Kalamazoo, St. Joseph and Van Buren counties was held yesterday at Base Line lake.

A heavy rain and strong accompanying wind did considerable damage to the Allegan county cherry crop over the week-end, growers reported Monday. Considerable fruit was blown off the trees and many branches broken.

The Consumers' Power company appealed the verdict in the recent dam suit today and Allegan followed with a cross-appeal, demanding an answer within two days. The city's action was to hurry consideration on the power company's appeal, Attorney Clare E. Hoffman says. Poor Allegan! This dam business is a dam shame.

The Baptist Fundamental league of Grand Rapids and Kalamazoo districts will have a rally at Gull lake Saturday. A large delegation from Allegan will attend.

Charles Hitchcock, Allegan, is a candidate for sheriff on the Republican ticket. He has been undersheriff the past two terms. Stephen E. Bellgraph of Hilliards has announced his candidacy on the Democratic ticket for judge of probate.

Frank Boltje, candidate for re-nomination for Register of Deeds of Ottawa county, was in Holland calling on the voters.

Napoleon Untiring in Work He Set Himself

Many witnesses have testified to Napoleon Bonaparte's amazing power of continued work. Roderer, who was his close companion during the consulate, wrote:

"He can work 18 hours at a stretch; it may be at one place of work, it may be at several in turn. I have never seen him without a spring in his step, not when he was physically tired, not when he was taking violent exercise, not even when he was angry."

Napoleon robbed hundreds of his fellow workers of youth and health because he demanded too much of them when he demanded from them what he extracted from himself, says Emil Ludwig in his biography of the Corsican. His private secretary would be sent for at a late hour and would get to bed at four in the morning; at seven the poor man would find new tasks ready for him and would be told they must be finished within two hours. During the consulate he would sometimes begin a sitting with his ministers at six in the evening and keep it up until five the next morning.—Detroit News.

Computing Averages

The law of averages aims to demonstrate that while the trend of human affairs cannot be forecast with certainty, it can be worked out to a considerable extent arithmetically by arriving at averages based on statistics relating to the event.

Blue-Eyed Beduins

British engineers surveying the Transjordan, Syrian and Iraq desert in connection with the Halfa-Bagdad railway, report important archaeological and ethnographic finds. To the south of Amman they discovered large caves containing potsherds, flint and other relics of the Prehistoric and Bronze ages. The walls bear inscriptions and drawings resembling the Assyrian. A Beduin tribe, not large in number, but rich, was also found. They are all tall, fair and blue-eyed and have no Semitic features. Remarkable ruins, including well-preserved 20-feet high walls, were discovered on the site of the ancient Babylonian towns of Almo-grube.

West Griqualand is a division of Cape of Good Hope province in South Africa. Kimberley, noted for its diamond mines, is its principal town.
