Many Items Keep City Council Busy

City business covered a wide range of subjects at Wednesday's regular meeting of City Council which lasted about 90 minutes.

The Board of Public Works submitted three reports. One submitted an easement covering the location of electric lines serving First Michigan Bank and Trust Co. on East Eighth St. The easement was approved.

The second submitted contract forms signed by Dykhouse Brothers of Grand Haven for constructing section II of the southeast sewer at a cost of \$92,593.25. This contract was approved.

The third report advised Council the board had studied proposed sanitary sewer service on the west side of South Washington Ave. which would cost an estimated \$46,000. In view of the fact that the potential use at this time was considered less than 1 per cent return on the investment, the board was of the opinion that the expense is not justified. It pointed out, however, that in case of new developments the matter should again be brought before the board and Council for further study.

The Hospital Board reported receipt of two gifts, a three-year subscription to Sports Magazine from Meidema Brothers, Inc., and an oxygen tent with high humidity valued at \$600 from the Christian Reformed Hospital unit.

Council approved a recommendation of the Planning Commission to rezone a parcel 131 by 132 feet on the south side of Ninth St. between Columbia Ave. and the railroad tracks to C-2 highway commercial. This property is owned by the Board of Education. The city attorney was instructed to prepare the necessary ordinance amendment.

City Clerk D. W. Schipper was directed to publish notice that all utility charges unpaid for three months or more prior to June 30 and not paid by July 31 will be assessed on the city's tax rolls. Delinquent bills total \$10,691 as compared with \$8,782 last year.

Claims against the city were filed on behalf of Holland Broadcasting Co., 87 Central Ave., and Joseph Overweg, 170 East 17th St. They were referred to the city attorney and insurance carrier.

The city manager reported a gift to Windmill Island from Seven-Up Bottling Co. of Western Michigan in the form of an FF-60 dispensing system valued at \$1,600. It was accepted with thanks.

Council approved extending an agreement with Adex Advertising Co. for public relations in connection with Windmill Island at a retainer of \$150 a month. The city manager indicated that Adex has provided an outstanding service in publicizing Windmill Island and the committee feels it is vital to continue this activity for another year.

Council approved low bid of Lefebvre Brothers of the Netherlands for 120,000 tulip bulbs for the Park department and 107,950 tulip bulbs and 10,000 hyacinths for Windmill Island at a cost of \$10,807.71. It was the lower of two bids submitted.

City Manager Herb Holt told Council he will be absent from the city on vacation the week of July 25 and designated City Clerk Schipper to act as manager in his absence.

Council approved an affidavit from Councilman Bertal Slaght in connection with the purchase of three picture frames for Windmill Island at a cost of \$117.95.

Tabled from previous meeting was an application of Walter Deitz to move a house from 568 East 32nd St. to 402 East 24th St. No action was taken in view of a letter from the mover requesting the application be withdrawn.

A letter from Mr. and Mrs. G. J. Nevenzel, 743 Myrtle Ave., inquiring about the purchase of city property on which the old Park township hall is located at 604 Pleasant Ave. was referred to the Planning Commission for study and report.

The city clerk was directed to communicate with the C and O Railroad Co. on possible improvements to railroad crossings on River Ave. and in other locations in the city. The subject was introduced by Councilman Morris Peerbolt who said many cars were taking to the right lane instead of the center lane to avoid rough riding. City Manager Holt said rough railroad crossings are a problem all over the state and the Michigan Municipal League has been working with railroads seeking improvements.

An inquiry of Councilman Donald Oosterbaan on traffic problems on Pine Ave. between 27th and 32nd Sts. was referred to the Traffic and Safety Com-

BREAK GROUND FOR NEW PLANT — James F. Brooks, president of the 7-Up Bottling Co. of Western Michigan (second from left), uses a bottle of 7-Up to christen one of the first shovelfuls of earth turned over in ground-breaking ceremonies at the site of the proposed new 7-Up bottling plant on 32nd St. Wednesday. Among company and city officials attending the ceremony are (left to right): James Hallan, 7-Up vice president; James Brooks; Henry Maentz

(behind Brooks; John Van Dyke Jr. and Roscoe F. Giles, of Holland Economic Development Corporation; Mayor Nelson Bosman; H. C. Grigg, chairman of the board of the 7-Up company; Phillips Brooks, board chairman of the 7-Up Bottling Co. of Western Michigan; and Ben H. Wells, president of 7-Up. Seven-Up Breaks Ground For New Bottling Plant

Ground was broken Wednesday for a new bottling plant and other facilities for the 7-Up Bottling Company of Western Michigan to be built on 32nd St. east of the US-31 bypass in the South Side Industrial Park.

More than 50 7-Up officials, plant employees, local businessmen, city officials and others were on hand for the unique groundbreaking ceremony. The group all began digging when two shots were fired by Lt. Ernest Bear of the police department, and a siren on a fire truck was sounded. Officials also christened the ground with 7-Up and other of the company's soft drinks.

The new bottling plant will occupy 45,000 square feet, and another building covering 15,000 square feet will house a repair shop for 7-Up vending equipment and automobiles.

Included in the development of the property is a new street running south from 32nd St. to be known as Brooks Ave. Also to be constructed is a Chesapeake and Ohio railroad siding for shipping.

James F. Brooks, president of the local 7-Up Bottling Co., said the company hopes to begin construction of a warehouse this September with completion of the warehouse scheduled for early November.

Construction of the plant is being handled by Elzinga and Volkens. The first phase of the building includes construction of the bottling plant and repair shops. Further building is planned as additional facilities are required.

The location for the new bottling plant was acquired through the cooperation of the Holland

Economic Development Corporation (HEDCOR). John Van Dyke is president of HEDCOR. Henry Maentz is vice president. Roscoe Giles serves as industrial coordinator for the organization.

The 7-Up officials said there were many reasons for their decisions to build in the Industrial Park. They stated that the adjacent expressway facilities are highly desirable for moving merchandise. They look to further advantages from the proposed new highway system around Holland.

James F. Brooks said, "The fine service always received from this area's utilities made Holland's Industrial Park our prime choice in deciding upon the new location."

Initially, the plant will utilize two high-speed production lines and will have equipment for filling their fountain syrup requirements. Site layout will permit initial production to be doubled to four production lines as future sales growth necessitates. It is expected that local employment will be increased proportionately as full production facilities become operable.

The 7-Up Bottling Company of Western Michigan, Inc. was founded locally by Phillips Brooks in 1934 to serve the nineteen counties of southwestern and central Michigan. The population of this area has now grown to two million people. The new plant has become necessary to care for rising 7-Up sales as well as the company's new products. Like, a diet drink, and Howdy flavors—Cola, Orange, Root Beer, Grape and Strawberry.

Officials of the 7-Up Bottling Company of Western Michigan, Inc. participating in the ground breaking ceremonies were Phillips Brooks, chairman of the board; James F. Brooks, president; James A. Hallan, vice president; and John Hudzik, production manager.

The 7-Up Bottling Company of Western Michigan, Inc. is a franchised bottler of the Seven-Up Company, St. Louis, Mo. Officials of The Seven-Up Company participating in the ceremony were H. C. Grigg, chairman of the board and long-time Holland summer resident, and Ben H. Wells, president of the Seven-Up Company and former Grand Rapids resident.

Also present at the ceremonies were: Mrs. Janet Brooks Winter, Mrs. H. C. Grigg, Mrs. Ben H. Wells, Mrs. Phillips Brooks and Mrs. Jo Anne Brooks.

The city was represented by Mayor Nelson Bosman and City Manager Herb Holt.

Representing HEDCOR at the ceremonies were John Van Dyke, Henry Maentz, and Roscoe Giles. The Board of Public Works was represented by Randall Bosch and Guy Bell.

One of the company's first salesmen, Nick Lanning, represented the Sales Department at the ceremonies.

Real estate transactions were handled by Russell Klaassen and Robert Kow, local realtors who were also present at the ceremonies. Elzinga & Volkens was represented by Peter Elzinga and Charles Fautscher.

Following the ceremony, the officials were guests of the 7-Up Bottling Company of Western Michigan, Inc. at the Macatawa Bay Yacht Club for lunch.

New Library Services Are Offered

Holland township residents now have the opportunity to borrow books from Herrick Public Library for the fee of \$1 per family for one year.

Arrangements for this service were made through the cooperation of the Ottawa County Library Board, the Herrick Public Library Board and the Holland township board. For this service, Herrick Library will receive penal fines collected in the township in addition to the \$1 per family.

The township board urges residents to take advantage of this offer for the pilot year which opened July 1 and runs through June 30, 1966. The \$1 fee is paid at the library.

Librarian Hazel Hayes said such services are available to all townships in Ottawa county with the exception of Grand Haven, Georgetown and Robinson which are served by other libraries.

Other cities in the county having their own libraries are Coopersville, Zeeland, Spring Lake and Grand Haven. The Holland library board currently is negotiating with the Allegan County Library Board to provide similar services for townships in the northern part of the county.

Mrs. Hayes and Ruth Klompburg and Roger Walcott of her staff were in Lansing Monday and today arranging with the Michigan State Library Board for the loan of 10,000 books on a two-year period to meet the demands of the additional services.

Local Man Fined In Boat Mishap

SAUGATUCK — Randall Piers, of 1739 Waukazoo Dr., was convicted in Saugatuck Justice Court Saturday of reckless operation of a motor boat, after his boat was involved in a collision with another owned by Robert Perritt of Cincinnati, Ohio, at about 6 p.m. Saturday afternoon on Kalamazoo Lake.

Perritt's daughter, Susan, was reported to have received bruises in the mishap.

Piers was ordered by Justice Ervin Kasten to pay a \$25 fine and \$5 costs, in addition to making restitution for damages and paying any medical expenses incurred by the Perritt girl as a result of the accident.

Allegan Sheriff's Deputies said that the accident happened when Piers' craft apparently struck the other boat broadside, causing an estimated \$300 damage.

Deputies said that a warrant has been issued for the arrest of a Grand Rapids man, also on charges of reckless operation of a motor boat, as a result of an apparently unrelated incident.

Couple Receives 2-Years Probation

Lawrence Smith, 28, and his wife, Barbara, 23, of 119 West 10th St. today were put on two years' probation for child neglect by Municipal Judge John Galien.

One of the conditions of the probation is that the probation officer or juvenile officer may go into the Smiths' home to inspect conditions at any time.

The Smiths were found guilty of child neglect in a decision mailed out by Judge Galien July 13. Their trial was held June 15.

The Smiths were charged following the death of their six-month-old son, Dwain, April 28.

The 40th St. and Waverly Rd. projects involve establishing a base by earth excavation, fine grading, drainage structures, porous sub-base and eight-inch gravel wearing-course.

Council Given Detailed Report On Juveniles

After nearly two years of study, the Jaycee Committee on Juvenile Problems submitted a report of its work plus recommendations to City Council at a regular meeting Wednesday night in City Hall.

"Holland is no 'hot bed' of juvenile crime," Committee Chairman Roger J. MacLeod told Council in presenting the 69-page report plus a great deal of related material. "Quite the contrary, as a community it compares very favorably with most other communities our size. However, it would be a disastrous mistake to assume that no serious problems exist. The most valuable service of this report is pointing out that these problems are solvable."

"Holland is on the verge of a great urban growth. Industry the past 12 months has either spent or committed to be spent in the next few years over \$25 millions for new facilities, new plants and equipment. These are all fine, sound industries and we are fortunate to have them here. A town either grows or dies, no in-between."

"Growing up means growing pains and here is where this report is valuable. We have the unique opportunity to take corrective steps before such steps become economically and humanly unsolvable. Holland as a community is headed for serious trouble with the young people. Will it only realize this fact in time?" MacLeod asked.

Recommendations follow:

1. The city of Holland should establish by ordinance a Child Protective Agency with legal power to act. The agency's responsibilities should include children's protective service, the administration of a cultural enrichment program, the coordination of all juvenile services in the city, and making recommendations for future improvements.

This agency should be staffed by a director and a case worker, both with master's degrees in social work, and supported by a full-time secretary. Appropriate office space and transportation should be provided.

2. The Holland police department should try to orient itself to the problems of an urbanizing community by emphasizing the prevention of crime and good public relations as a major adjunct of good police work. It should encourage its personnel to seek education and special training whenever possible and it should orient itself towards the modern ideal of appropriate college education for police personnel. The department should have a new building and modern facilities appropriate to expanding task in a rapidly urbanizing community. The department is today, in the opinion of the committee, incapable of handling the problems of our growing urban community.

3. Holland should establish a Human Relations Council as an agency of City Council consisting of appointed citizens, councilmen and a professionally competent human relations director.

4. School systems should make every effort to staff their secondary schools with professionally competent counselors who can perform both vocational counseling and personal counseling. This should include at least one full-time counselor for every 300 students.

5. The school systems of Holland should develop sex education programs to begin at the junior high level or in earlier grades.

6. A coordinated high school apprentice training program should be established with the cooperation of local industry for both Holland and West Ottawa students.

7. Holland should build a swimming pool and consider possibilities of a recreation center—a teen canteen for its young people.

8. Probate court staff salaries should be raised so that they may attract personnel with advanced professional training and the size of the staff should be increased at least up to the minimum level of six as recommended by the state of Michigan and supported partially by state funds. Particular attention should be given by this staff to establishing and supervising an adequate foster home program.

9. Every effort should be exerted by citizens of Holland and their elected representatives to have the state develop an adequate treatment program at Boys Training School and to have the state provide adequate treatment facilities for our seriously disturbed "sociopathic" juveniles.

Earl E. Hall of the sociology department at Hope College, committee member who directed much of the program with the aid of college students, told Council the survey was conducted on professional lines and involved interviews with 100

selected students. Only one student did not cooperate. Had the study been conducted by a foundation, costs would run to \$20,000 or \$25,000.

One observation in the report reads: "This is probably a good time to try to bury the myth about Holland and Ottawa County's high illegitimacy rate. It is a myth and nothing more. Ottawa County's illegitimacy rate is typical for a county of its kind with a substantial rural population, small towns and a small city. It is low. It runs, year in and year out, between 1.5 and 1.9 per cent based on the county of the mother's residence according to Michigan Department of Health statistics. Kent County runs about 3.4 per cent, Wayne County about 7 per cent, and the national average is 5 per cent."

The juvenile survey in Holland was conducted under a limited budget of about \$1,000. Council Wednesday night approved an expenditure up to \$500 for final costs.

The committee's interpretation of juvenile delinquency in Holland is based on three primary sources, the juvenile attitude and behavior research program conducted by the sociology department of Hope College, a six-month detailed description of all juvenile cases handled by the Ottawa sheriff's department's Holland area office combined with approximately 50 per cent sample of Holland police juvenile cases from the same period, and the yearly summaries of Holland police cases involving offenders under 21.

Mayor Nelson Bosman expressed gratitude for the work of the committee. Copies of the report were given each councilman. A copy is on file in the city clerk's office and two copies are in Herrick Public Library.

Committee members serving were Chairman MacLeod, Mayor Bosman, Mrs. Carlisle Eady, Lavern Edwards, Earl Hall, Donald Oosterbaan, Capt. W. D. Stuart and Robert Strabbing. City Attorney Gordon Cunningham served as legal counsel.

Grand Haven Moves to Halt Rowdiness

GRAND HAVEN — The City Council took steps to correct two problems at a special meeting Tuesday night. The overflow problem involving trailers at the state park was solved and rowdiness near the Grand Haven Roller Rink will be stopped, Mayor William Creason reported.

Many complaints have been made to city officials in connection with fights, disorderly acts in parking lots and streets and other nuisances near the rink, on nights when as many as 1,700 teenagers pack the small rink at Seventh and Elliott Sts.

The city attorney's office will meet with Jason Kraai, owner of the rink, Friday morning. Chief of Police Richard Klempe will also be present. An effort will be made to correct the conditions there or dancing will be prohibited, the mayor said. A Muskegon radio station promotes the dances, which several years ago were stopped at the Muskegon armory and were shifted to the Eagles hall at Grand Haven. Dancing at this hall was also discontinued last year.

Law-breaking persons picked up for being drunk, fighting, possession of beer and other offenses will face stiffer fines, starting today, Municipal Judge Jacob Ponstein announced.

Residents on Harbor Avenue, near the state park on Lake Michigan, complained at a council meeting Monday that parking of trailers on that street by campers waiting for an opening inside the park is a nuisance and the city council also took steps to correct that problem Tuesday night.

The area will be posted and parking of trailers will be allowed on the gravel parking strip on Harbor only four hours a day, 5 to 9 a.m. Waiting must now be done in the old Coast Guard camp or in the fishermen's parking lot near the oval.

Zeeland Youth Loses Toe When Gun Discharges

ZEELAND—Duane Veldheer, 16, of 352 Michigan Ave., Zeeland, was treated at Zeeland hospital Tuesday after his shotgun accidentally went off and hit his right foot.

Sheriff's deputies said Veldheer, who lost one toe in the mishap, had just shot a crow and was climbing a hill when the gun discharged. The accident occurred near 96th Ave. south of M-21.

Holland-Suco To Set Up Laboratory

Holland-Suco Color Company will begin this week to establish its new Central Research Laboratory in the former office building of the Holland Furnace Company at 491 Columbia Ave.

The building was acquired by Holland-Suco in April this year. The laboratory will specialize in research and development work in organic, inorganic, physical and analytical chemistry, and in sales service projects.

C. C. Candee, Executive Vice president of Holland-Suco, said the centralized laboratory will occupy the third floor and half of the second floor of the four-floor building. Various research and technical laboratories at Huntington, West Virginia; Brooklyn, New York; Stockertown, Pennsylvania; and at Howard Avenue, Holland will be gradually closed.

The areas occupied by these laboratories will be converted to production purposes. The laboratory employees at those locations will be offered employment at the new Central Laboratory or will be absorbed into the remaining plant laboratories or production at the plants.

Candee added that in view of the rapid growth of Holland-Suco, the company anticipates further expansion of production facilities at the Howard Avenue plant as well as at its other locations. The Holland plant has been undergoing substantial expansion in recent weeks.

The new laboratory will be utilized for a program of diverse research and development activities in new products and processes. The company intends to launch a career development program to train high school graduates who are science-oriented and who are interested in making use of their technical abilities, Candee pointed out. The company hopes that this program can be coordinated with the area high schools and Hope College.

The new laboratory will be available also for use by other divisions of Chemetron Corporation, the parent organization of Holland-Suco.

2 Teenaged Girls Lauded for Rescue

GRAND HAVEN — Two 16-year-old Grand Haven girls today received highest praise from Ottawa County Sheriff Bernard Grysen for their courage and quick thinking which averted a triple drowning at Camp Pottawatomie Wednesday evening.

The two girls, Gail Dolbow of 14183 155th Ave., and Cathy Benes of 14015 155th Ave., teamed up to rescue a Grand Haven mother and her two young daughters from possible drowning by pulling the trio, none of whom could swim, from 15 feet of water.

Mrs. Robert G. Pankey of 13056 144th St. told Grysen her two daughters, Marcia, 10, and Myrna, 7, were wading in Pottawatomie Bayou and that Marcia was demonstrating the "dead man's crawl."

Mrs. Pankey said she heard the younger girl scream that she was in "too deep." The girl grabbed for her older sister and both were pulled into deep water.

A non-swimmer, Mrs. Pankey

handed her 16-months-old daughter, Mary Lou, to a girl on the beach and headed off a drop-off and went under.

Mrs. Pankey told officers she recalled going under for the third time before she blacked out. She didn't remember being pulled ashore.

Miss Dolbow and Miss Benes were a short distance away and heard Mrs. Pankey's cries for help. Miss Dolbow went into the water and located Mrs. Pankey about 35 feet from shore and brought her into shallow water. Neither of the girls apparently was aware at first that Mrs. Pankey's daughters were in trouble.

Miss Benes saw the girls come to the surface, grabbed an inner tube from the beach and swam out to them. After bringing Mrs. Pankey to shore, Miss Dolbow went back into the water to help rescue the two children.

The incident was reported to the sheriff Thursday. Grysen said he would recommend the two girls for a citation.

FINALLY MEET — Mr. and Mrs. Ed Dakin (couple in center) from London, England, were among those visiting Windmill Island last week and are seen "looking over the vises" to the island with Mr. and Mrs. Ben Kroeze and Mr. and Mrs. Russell Woldring with whom they have been writing for the past 40 years. Seen (left to right) are Kroeze, Mrs. Kroeze, Mrs. Dakin, Dakin, Mrs. Woldring and Woldring. (Sentinel photo)

Three Couples Meet After 40 Years of Correspondence

Holland boasts its visitors come from all over and the latest guests come from London, England. They are Mr. and Mrs. Ed Dakin who arrived last Saturday and are staying with Mr. and Mrs. Russell Woldring at 46 East 25th St.

However, while they are enjoying Holland's attractions, their main reason for coming was to meet Mr. and Mrs. Woldring and Mr. and Mrs. Ben Kroeze with whom they have been corresponding for some time.

The story goes back to 1917 when Dakin, then only nine years old, found a slip of paper thrown from a train transporting American soldiers in England during World War I.

Dakin vividly recalls chasing after the paper blown down the tracks by the wind and reading the pencilled note "Kool, route 2, Holland, Mich."

He wrote a letter to Kool but thought that was the beginning and end of a possible acquaintance when eight years later (even after Dakin had moved) he received an answer from Mrs. Kroeze, Kool's sister. Mrs. Kroeze found the letter in her brother's knapsack. It was several years later Mrs. Woldring, Kool's sister, began writing.

Kool is now in a Veteran's Hospital in Fort Custer. The Dakins are spending the day with him today.

Dakin, who is in the banking business and deals with stocks and investments, is also a borough councilman representing some 188,000 persons. As such he is chairman of the education committee for secondary schools and head of the finance committee.

Mr. and Mrs. Dakin were impressed by our method of driving which they seem to believe is far superior than theirs. They also felt people here have more time; they walk much slower; they are more pleasant.

When asked of the Liverpoolian set, Mr. and Mrs. Dakin emphatically exclaimed, "Liverpool is a place of its own! It

can't be compared with anything else. Because it is a dock area, all kinds and classes come in there."

Mrs. Dakin described some of the younger set as "not really unruly, they just want to draw attention to themselves and the press plays it up. Some of those attending art school are really brilliant."

"Others," she said, "You'd be surprised with their hair so long. You can't tell the boys from the girls."

Both felt Holland was a friendly city where one was able to see more of his neighbors. In England, Dakin explained, every boundary is fenced in and if you want to talk to your neighbor, you have to walk around a fence. He added this "is undoubtedly a relic of the old feudal days" and the saying "An Englishman's home is his castle."

Mr. and Mrs. Dakin, Mrs. Kroeze and her sister, Mrs. Martin Danning and Russell Woldring, toured The Sentinel Wednesday afternoon.

The Dakins are hopeful of seeing part of Northern Michigan before going to Canada and then "home" to London.

(Van Putten photo)

Marriage vows were exchanged Saturday evening in Ottawa Reformed Church by Miss Lola Kay Overway and Donald Ver Hey Jr. The Rev. Larry Johnson, brother-in-law of the groom, read the double ring rites following appropriate wedding music played by Miss Ruth Overway organist. She also accompanied Mrs. Carol Johnson who sang "O Perfect Love" and "The Wedding Prayer."

The bride is the daughter of Mrs. Janet Overway of route 2, and the late Mr. Overway. The groom's parents are Mr. and Mrs. Donald Ver Hey Sr., 97 Spruce Ave.

Given in marriage by her uncle, Clarence Overway, the bride wore a floor-length sheath of white silk organza featuring an empire waist and detachable chapel-length train. A veil of silk illusion fell from a pearl and crystal headpiece. She carried a bouquet of pink roses and white fuchsia carnations.

Her honor attendant was Miss Sandy Brady whose floor-length gown of soft pink taffeta was enhanced with a matching cummerbund and headpiece. She carried a single pink long stem rose.

In identical attire were the bridesmaids Miss Mary Bartels and Miss Eileen Ver Hey, and

the flower girl, Sally Overway, who carried a pink and white nosegay. Terry Ver Hey was ring bearer and Rick and Steve Ver Hey lit the candles. Serving as ushers were Glenn Vander Zwaag and Steve Ver Hey. Ken De Feyter assisted the groom as best man.

The bride's mother chose a navy blue sheath dress with white accessories and a corsage of white carnations and pink sweetheart roses. The groom's mother selected a mint green dress with white accessories and a corsage of white carnations and yellow sweetheart roses.

West Ottawa Board Meets

Several reports and proposals were presented to the West Ottawa Board of Education at its monthly meeting Monday night.

Elementary Principal Dan Paul reported on furnishings for three new elementary buildings. He will evaluate bids which will be studied by Harvey Knoll and Neal Kalkman of the Board before orders are placed Aug. 15.

Paul also proposed a pilot study for a pre-first grade for youngsters who have finished kindergarten but are not yet ready for first grade. This affects about 10 per cent of the enrollment, Paul said, and could be a factor in dropouts in later years.

High School Principal Duane Hooker discussed the feasibility of naming chairmen for eight departments to coordinate activities in each department. He also said five teaching positions remain to be filled, one carpentry drawing position, two senior high math, one junior high math and one junior high math and science.

Supt. Lloyd Van Raalte reviewed state aid formulas and transportation reimbursements. Cost of transporting 2,009 children over 1½ miles for 1963-64 cost the district \$62,325.61 including depreciation, with reimbursement of \$38,938.88. This program involves 886 map mileage each day. Transportation figures for the 1964-65 year are being compiled. He anticipates a kindergarten enrollment of 301 in September, compared with 306 last fall.

Van Raalte also discussed school district boundaries in connection with the redistricting program in Michigan. In answer to many inquiries from residents in Harrington school district, the West Ottawa board reiterated its policy in believing people in an area should have the right to decide where they want to send their children to school.

The statement reads: "The West Ottawa school district reiterates its stand that it be-

lieves in the right of the people of an area to decide where children should receive education and in keeping with this policy the West Ottawa board has always endorsed democratic procedures as applied to annexation of one school district to another."

Peter Roon, administrative coordinator, explained federal aid programs such as the National Defense Education Act, the work study program and possibilities of West Ottawa participating in the various programs of the 1965 elementary and secondary education act.

Ketchikan, Alaska, is the wettest city in the continental United States, the National Geographic says. The South Alaskan settlement is inundated by 150 inches of rain annually.

TRACTOR OVERTURNS — Oliver Schaap, 46, of 365 112th Ave., is in good condition at Holland hospital with a fractured pelvis received Monday night when he was trapped under his farm tractor. Deputies said Schaap was dragging a field 100 yards west of 112th Ave. next to 24th St. when the

tractor got too close to the edge of the field and overturned. Schaap tried to jump clear of the tractor but was caught under the rear tire and fender. Ottawa sheriff's deputy Donald Key is shown inspecting the overturned tractor.

Zeeland Voters Must Reregister

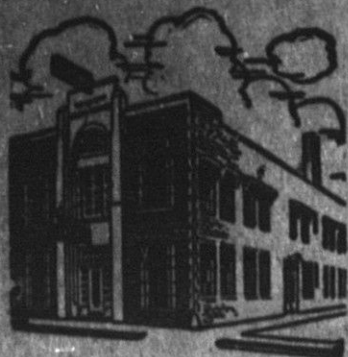

GRAND HAVEN — Circuit Judge Raymond L. Smith filed a judgment today for a reregistration of all voters in the city of Zeeland.

Zeeland City Clerk Leon Van Harn had requested a reregistration several months ago to bring registration books up to date. He worked through Secretary of State James M. Hare's office, and it was on Hare's petition in Ottawa Circuit Court

that the reregistration was ordered.

Zeeland city has annexed several sections in recent years. Some old registrations lack sufficient naturalization information, dates, birthplaces, and in some cases no voter signatures.

The city clerk will organize the registration program. The work must be completed by Oct. 4, according to the court decree.

THE IMPORTANCE OF WATER

Once again the vital im-
portance of a dependable supply
of water has been demonstrated.

Most spectators will agree
that without a thorough soaking
by the combined efforts of the
township and city fire depart-
ments, the frame building
directly west of the burning
Holland Bus Line garage would
have been ignited by the in-
tense heat of the garage fire.
This frame building was a ware-
house for petroleum products.
The consequences of this build-
ing catching fire could have
been a disaster of major pro-
portions.

The emphasis on water is not
intended to belittle the efforts
of the fire fighters who showed
great skill and daring in confin-
ing the very intense flames to
the one structure involved. But
the finest equipment and the
most skilled firemen would still
be helpless without the supplies
of water which the Holland sys-
tem was able to furnish.

The lesson is crystal clear.
Everybody is better off when
communities cooperate.

Van Dyke Heads Board At Hospital

John H. Van Dyke was reelec-
ted president of the Hospital
Board at the annual organiza-
tion meeting of the board Tues-
day afternoon. This is the only
elective hospital office provided
for in the city charter. The city
clerk serves as permanent sec-
retary of the board.

Other board members are
Clarence Becker, Clarence Jal-
ving, Mrs. Richard Oudersluis
and William J. Brouwer. The
mayor and city manager also
attend board meetings.

The board passed a resolu-
tion calling for a special elec-
tion to be held in Holland Aug.
24 to vote \$3,000,000 in general
obligation bonds to finance a
new hospital addition. This
measure was approved by City
Council at its meeting July 7.

The resolution defines func-
tions of the financing program
which provides that net operat-
ing revenues of the hospital are
to be maintained at such a level
that payment of bonds and
interest should not involve any
city tax expenditure.

The advantages of floating
general obligation bonds instead
of revenue bonds should result
in a net saving of \$250,000 to
\$500,000 over the 27-year span.

Christians Grow Through Study
Acts 17:10-12; II Timothy 3:10-17
By C. P. Dame

Every Christian ought to
grow. Some do not. Earthly
parents want their children to
grow physically, mentally and
spiritually. Our Heavenly Fa-
ther desires his children to grow.
He has made it possible, for
He gave them His word. Food
and medicine do no good if not
used—neither does a dusty Bible
benefit.

I. It pays to search the Scrip-
tures. There are two parts to
the lesson text, one is from
Acts, the other from II Timothy.
Luke wrote Acts. Paul, on his
second missionary journey
reached Europe and preached
the gospel at Philippi. From
there he went to Thessalonica,
and then to Berea where he
remained a short time. Paul
attended the service in the syn-
agogue there. These people were
"more noble than those in Thes-
salonica in that they received
the word with all readiness of
mind, and searched the Scrip-
tures daily, whether those things
were so."

The Bereans had heard from
Paul about Christ's death and
resurrection. They wanted to
know for themselves and that is
why they searched the Scrip-
tures, which Paul had expound-
ed in a new way. The results
of searching were fine for many
believed, "also of honorable
women, which were Greeks,
and of men, not a few." The
Gentiles who had been attend-
ing services in the synagogue
were converted. Bible study
blesses much. Groups who come
together to study God's Word
strengthen the church.

II. The Protestant Church
needs doctrinal preaching. Paul
taught his spiritual son sound
doctrine which was backed up
by consecrated and sacrificial
living. Since Timothy lived in
a pagan world Paul told him to
stick to the truths he had been
taught by his mother, grand-
mother and by Paul himself—
three reliable teachers.

These three teachers taught
him the Bible which is able to
make men wise unto salvation.
People need to know how to
get right with God. The Bible
makes this truth clear. If you
want benefit from the Bible you
must believe it trustworthy.
"All Scripture is given by in-
spiration of God"—that is, it is
breathed in by God, inspired
by the Holy Spirit. Today some
scholars teach vague ideas
about inspiration. Some so-called
scholars are tampering with
the authority of the Bible and
they are hurting the Church and
the world. A number of young
men graduating from theologi-
cal seminaries have weak ideas
about God's Book and their
preaching will miss the note of
authority. The Church faces
grave dangers today. The real
enemies of the Church are in-
side.

The Bible is profitable "for
doctrine, for reproof, for cor-
rection, for instruction in right-
eousness: That the man of God
may be perfect, thoroughly fur-
nished unto all good works.
Christians who want to serve
must know and trust the Bible.
This incomparable book fits
people who read it for service.
The best workers in our churches
are the people who know
their Bible and believe its mes-
sage.

Peoples Society held their regu-
lar meeting. Miss Thelma Van-
den Bosch spoke about her work
teaching the Indian children in
New Mexico. She also spoke

Water Study Discussed By Township

The Holland Township Board Thursday discussed a preliminary study prepared by Black and Veatch, consulting engineers, for future water service for the township.

R.D. McKim of the engineering firm discussed two methods by which Holland Township might receive its water from the city of Holland.

The two methods are 1) a "wholesale" program by which the township would purchase water from the city, and then distribute it through its own system of mains, pumps and reservoirs; and 2) a program in which the city would serve each customer in the township separately over a water distribution system built and maintained by the city. The cost for supplying outlying areas is double that of supplying areas within the city limits.

The first plan would require the township to build and maintain its own water distribution system, and meter the amount of water sent into the area. The water would be sent to the township during hours of low demand for the city, and stored in towers and reservoirs for use later.

Under the second system the city of Holland would deal with each resident in the township as a separate customer. The distribution lines and equipment other than fire hydrants would be built and maintained by Holland city.

The preliminary study pointed out that the first plan would be more economical if more than 1,000 customers purchased water service, but that the second program would be more economical if fewer persons obtain water service.

Although not taken up in this engineering study, another means under consideration for supplying water to the township is tying in with the Wyoming pipeline now under construction in the New Holland St. area.

After considerable discussion of the study, the township board voted to consider the report further at a later meeting.

Jack Taylor of the Ottawa County Library Board reported to the township board that his group signed a contract with Herrick Public Library for residents of the township to use the library.

Under the contract the rates

Retired Teacher Dies at 97

Mrs. Nina B. Daugherty, 97, of 37 East 15th St., for many years a well known dramatic reader and teacher in Holland public schools, died Saturday in her home after an illness of several years.

She was born Jan. 15, 1868, in Peach Belt just west of Pennville, daughter of William La-Dick and Susan Hamblin La-Dick.

Mrs. Daugherty was a graduate of Soper School of Oratory in Chicago and Valparaiso University. She taught school at San Francisco, at St. Joseph and in Holland Junior High School until her retirement.

Mrs. Daugherty's dramatic readings were both inspirational and entertaining to generations of townfolk in an era when elocution of this variety was extremely popular.

A faithful member of First Methodist Church, Mrs. Daugherty was active in church work and taught an adult Sunday School class until a few years ago.

Surviving are a sister Miss Nellie B. LaDick, also a retired public school teacher with whom she lived; a stepdaughter, Mrs. Fay P. Friend of Grand Rapids; a daughter-in-law, Mrs. Nancy Hale Jones of Gary, Ind.; four cousins, Mrs. Carl Hogmire of Fennville, Mrs. Lloyd Weaver of Kalamazoo, Eugene Sisson Ganges, and Raymond Vande Vusse of Holland.

Mrs. Gertie Hiemenga Succumbs in Hospital

Mrs. Gertie Hiemenga, 79, of 327 West 17th St., died Saturday afternoon at Holland Hospital. She was a member of Maple Avenue Christian Reformed Church.

Surviving are two sisters, Mrs. Sena Gerritsen, and Miss Eva Leseman, both of Holland; one sister-in-law, Mrs. Chris Leseman, of Grant; and several nieces and nephews.

Holland Pair to Play in State

Two Holland golfers were among 18 from western Michigan who qualified for the state Jaycee junior tournament in Thursday's sectional tournament held at the American Legion Memorial Park golf course.

Co-medalists in the field of 50 were Kurt Kretchman of Benton Harbor and John Vander Meiden of Grand Haven who each shot three over par 73. Kretchman won a two-hole sudden death playoff to take class B (ages 14-15) honors from Vander Meiden.

Mike Page of Holland tied Lee Edmundson of Ludington for class A (ages 16-17) honors as each shot 75. Page lost a sudden death playoff for top honors in the age group, but was one of 10 class A qualifiers for the July 26 state finals at Berrien Hills near St. Joseph.

Fritz Steininger, winner of the Holland local Jaycee tourney in class C, won a one-hole sudden death playoff for the third and final spot in the state finals in the 13 and under division.

Co-medalists Kretchman and Vander Meiden led five class B competitors into the statewide competition. Duane Vandenberg, medalist in Holland's local tourney with a 78 at West Ottawa Country Club, posted the same total Thursday, but missed out on the trip to the state finals even though his score was ninth best posted in the section.

Local and sectional tournaments are conducted in age divisions with quotas for advancement to state competition based on these divisions. From the Holland section 10 qualify in class A, five in class B and three in class C.

However, the state finals are conducted as an open tournament — with no age divisions. Because many of Thursday's top scores were posted in class B, players with some of the top scores in this section did not qualify for the state tournament.

Thursday's sectional tournament included top finishers in local Jaycee tourneys in Holland, Grand Haven, Ionia, Portland, Ludington and St. Joseph-Benton Harbor. Sponsoring the event were the local Jaycees, headed by tournament director Brian Ward.

The sponsoring group awarded trophies to the top three finishers in each of the three age divisions in the sectional tourney, which was held in Holland for the first time.

Surviving are two sons, Clifford A. Onthank Jr., and Bert Gilcrest, both of Holland; nine grandchildren; 13 great grandchildren.

Mrs. June Austin Succumbs at 43

GRAND HAVEN — Mrs. June Day Austin, 43, of 1050 Washington St., died early Wednesday a few hours after she was admitted to Grand Haven Municipal Hospital following a fall down the stairs in her home. An autopsy was to be performed to determine cause of death.

Born in Grand Haven, she was an ex-Marine and served from 1943 to 1946 as a sergeant in special service, stationed at Camp Pendleton, Calif.

She lived in Chicago for about 10 years and returned to Grand Haven from there about a year ago.

She attended the Methodist Church of the Dunes.

Surviving are two children, Kimberly Jane and Malcolm Scott, her mother, Mrs. Ethel Day who had been making her home with the Austin family recently; two sisters, Mrs. Edward Hamm of Spring Lake and Mrs. John Lindquist of Minneapolis, Minn., one brother, Frank Day of Palm Springs, Calif., a half brother, William Merchant of Spartanburg, S.C.

Other projects completed this year were a main in Graafschap Rd. from 26th St. to 27th St., a main in 27th St. from Graafschap Rd. east for 811 feet, a main in 26th St. from Diekema Ave. to Plasman Ave., and a main in 16th St. from Hoover Blvd. to 300 feet west of Lane Ave.

The city crews still have to complete a 12-inch line in Waverly Rd. from 10th to 13th Streets in addition to the work on the two 16-inch feeder lines, and the work on the mains near the Beech-Nut site.

Holland Tests Warning Sirens

A "growl test" of the civil defense warning sirens was conducted by Holland police Monday at 10:50 a.m. by request of city manager Herb Holt.

Holt said the test was a routine maintenance test to make sure each siren is functioning properly. Sirens are located at 26th St. and Myrtle Ave., 23rd St. and Plasman Ave., 30th St. and Central Ave., Eighth St. and Cypress Ave. and on top of the Hotel Warm Friend, Eighth St. and Central Ave.

Three Injured In Two-Car Crash

DOUGLAS — Two Saugatuck men and a Fennville man were injured Sunday night in a two-car accident in the New Richmond area.

Allagen sheriff's deputies said a car driven by 18-year-old Thomas Jackson was struck from behind by an auto operated by William Dunn, 23, of Fennville, Jackson and his 23-year-old brother, James, a passenger in the auto, were admitted to the Douglas hospital where they are listed in satisfactory condition today.

A third passenger in Jackson's auto, Ronald Laucks, 18, of Fennville, was released after treatment at the hospital. Dunn was not injured.

Deputies said the accident occurred on 128th Ave. near 58th St.

Two more projects for developing the eastern area are scheduled for this year. Water department crews will lay a second 16-inch feeder main from the reservoir down 16th St. to Hope Ave. The crews will also install mains in 48th St. to tie in the Waverly Rd. main and the Beech-Nut Life-Savers site.

Bell said that plans call for construction next year of a booster pumping station at the 16th St. reservoir to raise water pressure in the high elevation area, and building of a 500,000-gallon elevated tank on 48th St. near the industrial area to maintain a pressure when the booster pumps are not operating. Estimated cost of the pumping station is \$111,400, and the elevated tank will cost about \$128,000.

The high elevation area will be connected to the lower levels with regulating valves that will allow water from the reservoir to serve the entire city.

Long-range plans for the eastern and southern areas call for construction when needed of an elevated tank along 112th Ave. between Eighth and 16th Streets, and building of another elevated tank and booster pumping station in the Graafschap area.

Bell emphasized that long-range plans are necessary for orderly and economical expansion of the city's water system. The plans, however, must be flexible to meet special needs.

Construction of the main in Waverly Rd., for example, had to be moved up to meet the needs of the Beech-Nut Co. and other industries building in the South Side Industrial Park.

Besides work on the 16-inch mains the water department has added 4,600 feet of six-inch line and 1,200 feet of 12-inch line to the water distribution system this year. The smaller size pipe is installed in residential areas to carry water from the main pipelines. The estimated cost of the mains being installed in residential areas this year is \$51,000.

Projects already completed by city crews are a water main in 33th St. from Columbia Ave. to

College Ave.; a main in Hazel Ave. from 18th St. to near 20th St.; a main in 19th St. both east and west from Hazel Ave., and a main in Grove Ave. from South Shore Dr. to Lakeview Dr.

Other projects completed this year were a main in Graafschap Rd. from 26th St. to 27th St., a main in 27th St. from Graafschap Rd. east for 811 feet, a main in 26th St. from Diekema Ave. to Plasman Ave., and a main in 16th St. from Hoover Blvd. to 300 feet west of Lane Ave.

The city crews still have to complete a 12-inch line in Waverly Rd. from 10th to 13th Streets in addition to the work on the two 16-inch feeder lines, and the work on the mains near the Beech-Nut site.

LAY WATER MAIN — Workmen from the Willard Meyer Construction Co. of Hudsonville lower a section of 16-inch pipe into a trench along Waverly Rd. The pipeline which will be completed this week will feed water from the 5,000,000-gallon reservoir at 16th St. and Waverly Rd. to areas in the eastern part of Holland. (Sentinel photo)

Work Nearly Completed On New 16-Inch Water Main

Work will be completed this week on a 16-inch water main in Waverly Rd. from 16th St. to near 48th St.

The 8,645-foot pipeline, one of the largest built by the Board of Public Works in recent years, will carry water from the 5,000,000-gallon reservoir at 16th St. and Waverly Rd. to areas in the eastern part of the city. Future plans call for construction of feeding lines off the main at 24th St., 32nd St., 40th St. and 48th St.

The new pipeline is being built by the Willard Meyer Construction Co. of Hudsonville at a cost of \$83,296.50. It was started about three weeks ago.

Guy Bell, superintendent of public utilities, said the water main is part of an overall plan to supply water with adequate pressure to the high elevation areas in the eastern and southern sections of Holland.

The first step in the long-range program was construction last year of the 5,000,000-gallon reservoir at a cost of \$250,000 at 16th St. and Waverly Rd. The 16-inch main in Waverly Rd. is the first of the feeder lines from the reservoir.

Two more projects for developing the eastern area are scheduled for this year. Water department crews will lay a second 16-inch feeder main from the reservoir down 16th St. to Hope Ave. The crews will also install mains in 48th St. to tie in the Waverly Rd. main and the Beech-Nut Life-Savers site.

Bell said that plans call for construction next year of a booster pumping station at the 16th St. reservoir to raise water pressure in the high elevation area, and building of a 500,000-gallon elevated tank on 48th St. near the industrial area to maintain a pressure when the booster pumps are not operating. Estimated cost of the pumping station is \$111,400, and the elevated tank will cost about \$128,000.

The high elevation area will be connected to the lower levels with regulating valves that will allow water from the reservoir to serve the entire city.

Long-range plans for the eastern and southern areas call for construction when needed of an elevated tank along 112th Ave. between Eighth and 16th Streets, and building of another elevated tank and booster pumping station in the Graafschap area.

Bell emphasized that long-range plans are necessary for orderly and economical expansion of the city's water system. The plans, however, must be flexible to meet special needs.

Construction of the main in Waverly Rd., for example, had to be moved up to meet the needs of the Beech-Nut Co. and other industries building in the South Side Industrial Park.

Besides work on the 16-inch mains the water department has added 4,600 feet of six-inch line and 1,200 feet of 12-inch line to the water distribution system this year. The smaller size pipe is installed in residential areas to carry water from the main pipelines. The estimated cost of the mains being installed in residential areas this year is \$51,000.

Projects already completed by city crews are a water main in 33th St. from Columbia Ave. to

College Ave.; a main in Hazel Ave. from 18th St. to near 20th St.; a main in 19th St. both east and west from Hazel Ave., and a main in Grove Ave. from South Shore Dr. to Lakeview Dr.

Other projects completed this year were a main in Graafschap Rd. from 26th St. to 27th St., a main in 27th St. from Graafschap Rd. east for 811 feet, a main in 26th St. from Diekema Ave. to Plasman Ave., and a main in 16th St. from Hoover Blvd. to 300 feet west of Lane Ave.

The city crews still have to complete a 12-inch line in Waverly Rd. from 10th to 13th Streets in addition to the work on the two 16-inch feeder lines, and the work on the mains near the Beech-Nut site.

Views From The Campus

(Dr. Folkert is professor of mathematics and chairman of the department at Hope College. He is a 1939 Hope graduate and received his M.A. from the University of Michigan, his Ph.D. from Michigan State University. He has been a member of the Hope faculty since 1946. He had served as director of national science summer institutes held on the campus in 1960, 61 and 62.

Last summer he participated in a summer writing session sponsored by the Committee on Educational Media of the Mathematical Association of America. Editor's note)

By Dr. Jay Folkert
Recently increased emphasis on excellence in education has been evident in many academic

areas. This emphasis has been characterized by an examination of both the subject matter taught and the methods used.

In the field of mathematics, this analysis of education has been especially evident. At first the changes were most noticeable at the high school level. Programs emphasizing "modern mathematics" were developed in various parts of the country from Boston to San Francisco. As a result experienced teachers had to turn to summer studies in order to prepare themselves to teach the new materials. More recently, the teaching of arithmetic in the elementary schools has been modified in keeping with this trend and to bring it in line with the needs of the day.

The college level has also been affected. For a number of years the Mathematical Association of America has had a Committee on the Undergraduate Program. This committee has had separate panels working on recommendations for the proper training of college students who plan to become teachers, scientists, engineers, and graduate students of mathematics.

Serviceman Is Honored At Picnic at Smalburg

A picnic was held Saturday at Smalburg Park in honor of John Andrew Millard who left for service in the armed forces Thursday. He is the son of Mr. and Mrs. Gerald Millard, 201 West 14th St.

The Mathematical Association hasn't limited itself to consideration of the subject matter which should be taught. It has also established a Committee on Educational Media which is

Orchestra and Chorus Head Concert Schedule

The Indianapolis Symphony Orchestra with Isler Solomon as conductor will pay a return visit to Holland for the 1963-64 season of the Holland Community Concert Association.

Another topflight attraction is the Helsinki University Chorus which will be touring the United States commemorating the 100th anniversary of the birth of Jean Sibelius, most famous of Finnish composers.

Five concerts are slated for the new season. Four have been scheduled, and the local association is hoping for an October opening for tenor Herschele Garber.

Other concert dates follow: Saturday, Nov. 6, 1963 — Helsinki University Chorus, Ernst Pohjola conductor.

Thursday, Jan. 27, 1964 — Musical Arts Trio, chamber group.

Thursday, Feb. 10, 1964 — Theodore Lettvin, pianist.

Thursday, March 17, 1964 — Indianapolis Symphony.

The Indianapolis Symphony which has appeared at least twice before in Holland is rated as one of the finest in the nation and is known for its verve, its musical integrity and its vigorous spirit. Its home in Indianapolis, Ind., is one of the finest and newest halls for the performing arts.

The orchestra was founded by Ferdinand Schaefer in the depression days of 1930. In 1937 Fabien Sevitzky became the conductor and it was during this period that the orchestra achieved major symphony orchestra status. Its third and present conductor, Isler Solomon, was signed in 1956 and since that time has built the

Indianapolis Symphony to its present standards of excellence. The Helsinki University Chorus made two previous visits to North America in 1938 and 1963 and during these visits showed how the Sibelius style is the national style for the Finns.

Sibelius, regarded today as Finland's national treasure, has been venerated in his lifetime to a degree experienced by few men.

Herschele Garber, tenor, began singing professionally at the early age of nine in a clear alto voice. Formal training began when he was 16 and he continued his singing career as soloist with the famous Blue Jackets choir in the Navy. He studied with Dino Bigalli, one-time conductor of the Chicago Operetta Co. and with Lydia O'Connor, still studying with the latter spending as much time as his busy schedule allows.

His voice has been acclaimed throughout the United States, Canada, Mexico, South America and the Far East. Last summer he toured Europe, appearing in Vienna, Munich, Salzburg, Venice and Zurich.

Theodore Lettvin, pianist, has appeared with the New York Philharmonic and Boston Symphony and has been acclaimed as a true master of the keyboard to top critics.

The Musical Arts Trio consists of John Wummer, flute; David Sackson, violin and viola, and Joseph Wolman, piano. Its repertoire ranges from rarely heard works by such 18th century composers as Heinrich and Telemann through Bach and Mozart to works of Martinu and Creston.

concerned with the techniques to be used in and outside of the college classroom.

Last summer this committee, with financial aid from the National Science Foundation, conducted an eight-week writing session at Stanford University. Approximately fifty mathematicians gathered to pool their ideas and share their talents in an effort to produce materials which would improve mathematics instruction at the college level. About half were involved with materials for the teaching of calculus, while the remainder worked on materials for the training of prospective elementary teachers. Some worked on instructional films; others wrote programmed learning materials which followed the recommendations of Panel on Teacher Training for elementary teachers.

It was my privilege to be a part of this latter group. As a result of our efforts, a trial version of these materials has been produced and is being circulated for use in a selected set of college classes. Some will be used at Hope College in the near future.

I expect that various teaching aids will have a greater impact on methods of teaching in future years. The shortcomings of programmed instruction are being recognized. The limitations of movies, film strips, tape recorders, etc., cannot be denied.

Personal contact between the pupil and his teacher will be necessary for years to come. Nevertheless, new methods of education will be explored and the best of these will be adopted. Just as the availability of paper and pencils for every pupil made the old fashioned slate obsolete, so some of the aids which we consider essential today may be abandoned in the future.

Body Found On Beach

The body of Leighton Scott, 60, of Charlotte, was found washed up on shore Friday afternoon south of Tunnel Park at Idlewood Beach, six days after he apparently fell overboard from his home-made cabin cruiser in Lake Michigan.

Ottawa sheriff's deputies said a woman cottage owner found the body washed ashore. Sheriff marine deputies and Coast Guardsmen were called to the scene.

Scott was pronounced dead by medical examiner Dr. William Weststrate Jr.

Alton White, 29, also of Charlotte, reported Scott missing Sunday after a voyage from Saugatuck to Holland. White said he was taking a nap below while Scott piloted the vessel. White said he awakened to find the cruiser going around in circles and Scott missing.

Vienna Summer Students Visit Military Branch

Students of the Hope College Vienna Summer School program, touring countries of Northern Europe prior to the beginning of classes in Vienna, were briefed recently by officers at the Supreme Headquarters of Allied Powers in Europe (SHAPE), the military branch of NATO.

Traveling with the group are Lee Van Dyke of 97 West 21st St. and Conrad Nienhuis of 25 East 22nd St.

British and American officers addressed the group during the morning briefing. They discussed the administrative and intelligence aspects of SHAPE's work and gave an estimate of the relative military strength of the Western allies and the Soviet Union in the European area.

The briefing was followed by an informal question and answer period with officers at SHAPE. A multi-national staff of officers heads the organization, with an American, Gen. Lyman Lemnitzer, as Supreme Commander. Officers who met with the group were from The Netherlands, England, France and the United States.

During the following two weeks, Hope students received an intensive introduction to contemporary economic and political life in Europe.

They visited the headquarters of the European Economic Community in Brussels, the German Parliament in Bonn and the Council of Europe in Strasbourg, France.

In Brussels, George Weil, member of EEC Commission, spoke on "European Integration Today" and continued the question and answer period throughout the luncheon which followed.

At the Council of Europe, Maitland Stebart, press officer, described the workings of the Council, which has parliamentary representatives from 18 European countries.

In Bonn, students met with Dr. Kurt Birrenbach, a senior member of the German Parliament.

Students also had the opportunity to attend performances of the Ballet of the Paris Opera, a chamber concert in the Gothic city hall of Brussels, and the Berlin Philharmonic.

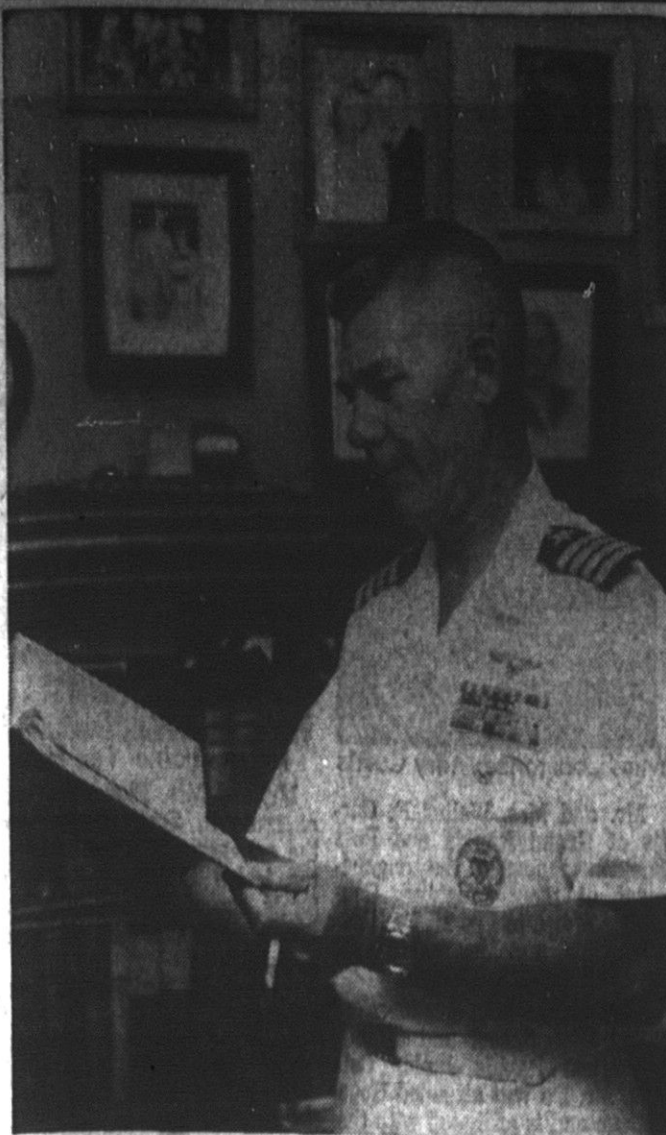

The trip included visits to famous cathedrals in Paris, Strasbourg and Lyon in France, Brussels in Belgium, Aachen in Germany, Stams and Gurk in Austria, as well as museums, castles and monasteries.

At the end of the tour there was a 4th of July reunion in Klagenfurt, Austria, with the Hope students who had been touring Italy and France. The festive party in the Austrian hotel was complete with American flags and singing of "The Star Spangled Banner."

The next day both groups completed the trip to Vienna, where all 56 students attend classes for six weeks. The Hope College academic program in Vienna includes courses in art, history, music history, recent European history, and German and Austrian literature as well as German language instruction.

During weekends, the students are planning visits to Budapest, Hungary, and Bratislava, Czechoslovakia, to gain an understanding of life in the Eastern European countries. They will also go to Salzburg, Austria, to attend the music festival.

The Vienna program is directed by Dr. Paul Fried, chairman of the History Department and director of Foreign Studies at Hope College.

SKIPPER TURNED SCHOLAR — Capt. Mayo A. (Mike) Hadden Jr., son of Mrs. Mayo A. Hadden, 276 Pine Ave., and the late Mayo Hadden, will soon be doing some heavy reading when he enters the Center for International Affairs at Harvard University, Cambridge, Mass., this fall as a "Fellow" for a year's special research under Dr. Ben Brown. In the library at the Hadden home, Capt. Hadden is surrounded by mementoes of his distinguished service career. The family is vacationing here before going East. Capt. Hadden on July 1 left command of the aircraft carrier USS Hornet and exchanged his Captain's chair for a study desk. (Sentinel photo)

Skipper Trades Shoulder Boards For Mortar Board

The shoulder boards of a Navy Captain will be exchanged for mortar boards this fall when Capt. Mayo A. (Mike) Hadden Jr., studies at Harvard University, Cambridge, Mass., at the Center for International Affairs. He will be a "Fellow" for a year on special research on a topic of his own choosing in international relations.

Going back to school won't be a new experience for Capt. Hadden, who was graduated from Holland High School in 1934, from Hope College in 1938, from the Navy General Line School in 1947, Naval War College in 1954 and National War College in 1961, plus off-campus studies at George Washington University.

For the present, Capt. Hadden and his family which include his wife, Lorain, a daughter, Jon Marta, who will be a freshman at Michigan State University and Merry Lorain, 13, who go to school in Cambridge this fall, are vacationing with his mother, Mrs. Mayo A. Hadden at 276 Pine Ave.

Enjoying a busman's holiday, Capt. Hadden went sailing Friday morning with Jim Brooks and then looked for a golf course. A son, Lt. Mayo A. (Biff) Hadden III, who was here en route to Fort Rucker, Ala., is in the Army, formerly in the paratroops.

Capt. Hadden's career reads like a story book. From seaman to skipper to scholar is the sequence. For the past year he was in command of the air craft carrier, USS Hornet.

It was on July 15, 1964, that he took command of the Hornet and almost one year later he again participated in a change of command ceremony. On July 1, 1965 the officers and men of the Hornet took leave of Capt. Hadden in a most unusual ceremony. Instead of the usual reports, as each section of the crew and officers reported, gifts were presented to the Captain.

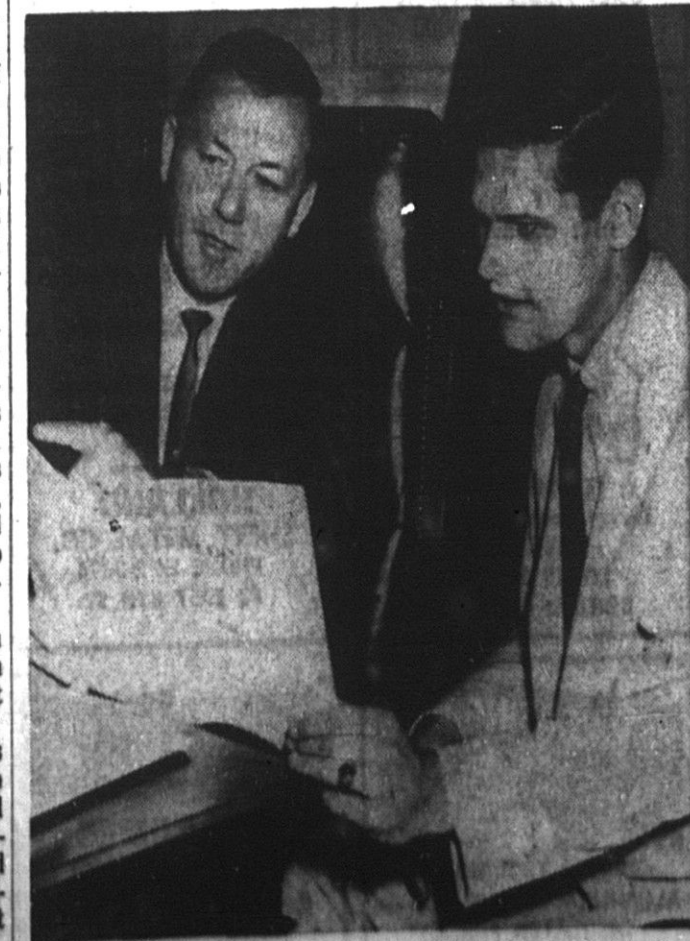

The dining room at the Hadden home is, at the moment, like a treasure chest. One of the most unusual items presented is a talking doll. Made especially by Mattell, the doll is dressed in a Navy Captain's uniform and when the cord is pulled, the doll speaks, and when it does, it is Capt. Hadden's voice.

Officers of the Hornet presented an engraved silver tray with all their names, the gunnery section's contribution was half a carbine as a desk set. Other suitably inscribed tokens included a "hot line" telephone, blanket with the Hornet's shield and gold braid and a large photo of the Hornet with the signatures of all of the officers.

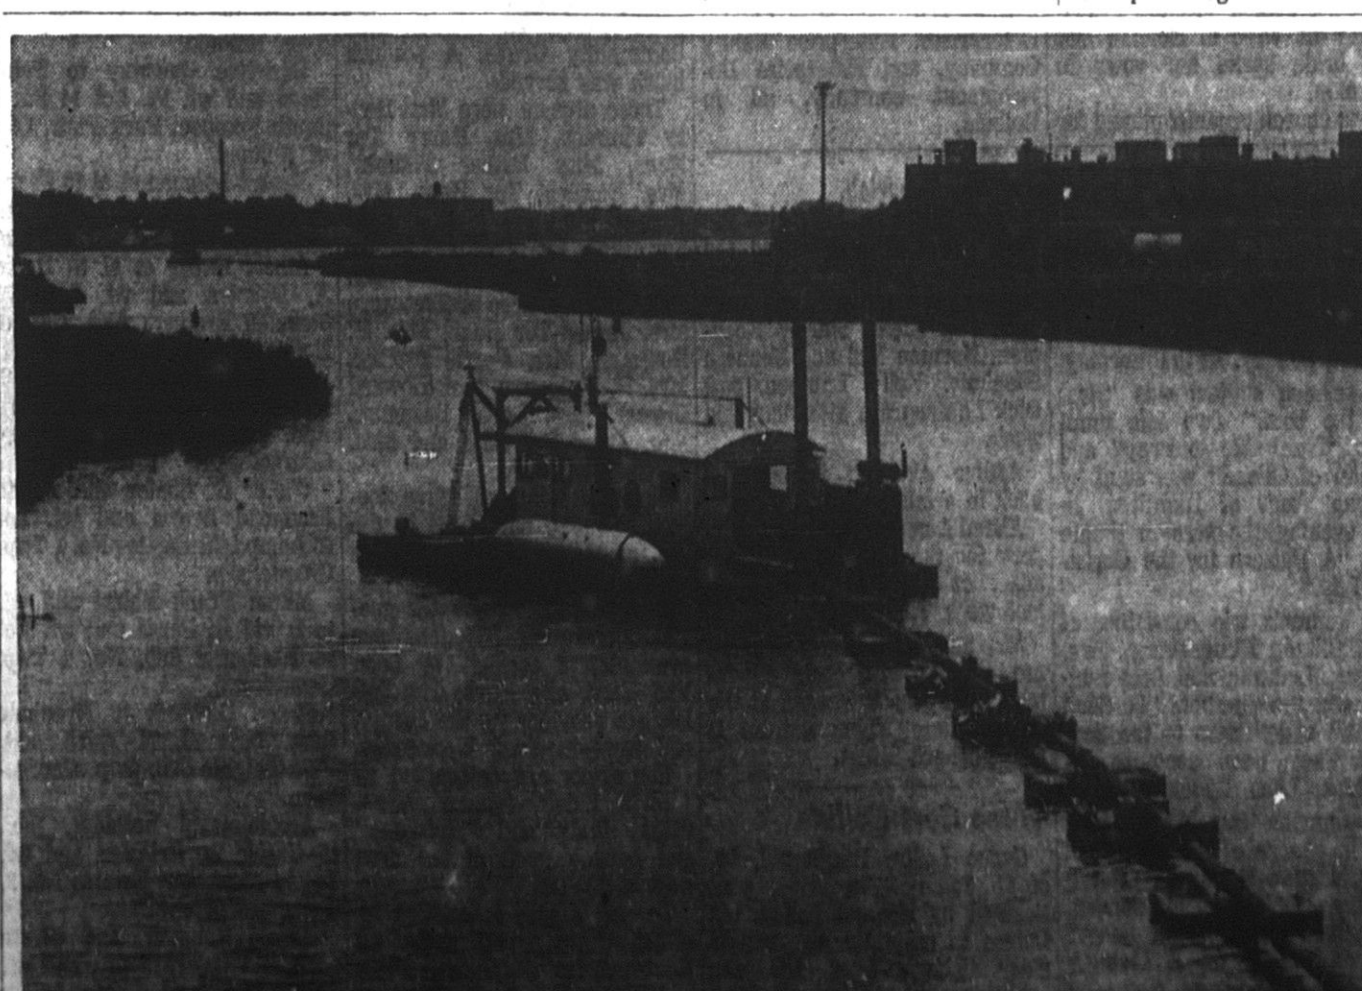

Mrs. Marguerite Hadden proudly shows that she is an honorary member of the Hornet crew.

Among the many souvenirs Capt. Hadden will treasure is a handsome leather bound scrapbook compiled by the public information officer aboard the Hornet. In it are photographs of many significant events aboard ship and illustrations. The final drawing in the book shows Capt. Hadden in academic robes complete with mortar board — on his shoulders are the Captain's four stripes.

In his studies of international law, Capt. Hadden has a possible title for his research,

LEARNING ABOUT WASHINGTON — Jerry Van Wyke, (right) son of Mr. and Mrs. Gerald J. Van Wyke, 89 West 32nd St., joined the Washington staff of Congressman Robert P. Griffin (left) on July 12 as a summer intern, under a continuing program of the Congressman to encourage young people in their study of the Federal government. Van Wyke, 21, a graduate in 1961 of Holland Christian High School, is state chairman of the Michigan Federation of College Republicans. He plans to enter graduate work in political science at Michigan State University next fall.

DREDGE RIVER BASIN — The Army Corps of Engineers dredge "DEPOE BAY" began dredging Black River east of the River Ave. bridge, earlier this week and will remain in the area about one month. Project head Robert Ellis, of Peoria, Ill., said the crew of 13 men will dredge a settling basin 16 feet deep from the bridge 900 feet west toward

Lake Macatawa and the entire width of the river. The present depth of the river is five feet. The crew works three shifts, 24 hours a day and six days a week. The dredge was here two years ago and dredged the same area to 16 feet. The settling basin is to catch sand and debris that drifts to Lake Macatawa from Black River. (Sentinel photo)

There was a series of Oriental carpets beginning at the entrance of the church extending to the pulpit. The attendants stood on each side of the aisle as the bride and groom passed through. An interpreter assisted in the ceremony as the groom spoke his vows in English and the bride spoke her vows in German.

The church organist played for
