CITY AND VICINITY.

Ex-president Harrison will take the
stump in behalf of McKinley.

Rev. J. Winter of Manito, Ill.,
preached in Hope church last Sunday.
Next Sunday Rev. I. Van Kampen
will supply the pulpit.

Near the town of Manch Chunk,
Penn., is a coal mine on fire which has
been burning since 1858. The fire was
started accidentally, and all the ef-
forts at extinguishing have failed.

The sea lion that escaped from Lin-
coln Park, Chicago, two years ago, was
seen on Cheboygan River Monday by
a dozen people. He is fat and appears
to be having a great time. He has
been around there for two weeks.

Congressman Wm. Alden Smith
passed through the city Tuesday, on
his way to Grand Haven, where he ad-
dressed the McKinley Club, which was
organized there in the evening. Mr.
Smith feels quite hopeful and prom-
ised to be with us at an early date.

Milwaukee officials have decided to
tax the Goodrich line of steamers at
that port. There are ten of them.
The corporation is a Wisconsin one,
and there is evidence that the last
meeting of the stockholders was held
in that city. The boats are registered
in Kenosha.

The C. & W. M. is selling a combina-
tion ticket at the low rate of \$10 a
month to the business men of Grand
Rapids who have their families at the
Holland resorts. A special train
leaves the Valley City at 5:20 p. m.,
and arrives there in the morning at
8:00 o'clock. This train is largely pa-
tronized.

The steeple of the new Market street
church is completed, all except the
weather vane, the arrival of which
from the factory at Canton, Ohio, is
daily expected. The credit of laying
the last shingles on the tall spire is
claimed by F. Huizinga and J. Beuke-
ma. On Wednesday the new bell was
hoisted in position, and towards even-
ing it melodious tones reverberated
all over the city. It is a fine sounding
F sharp church bell, the largest in the
city; its weight is 1,550 pounds, and was
ordered from the foundry of E. W. Van
Duzen, Cincinnati, Ohio.

Pros. Atty Vischer in his semi-an-
nual report to the attorney general
gives the following summary of the
criminal business in Ottawa county
for the six months ending June 30:
Total prosecutions 219, of which 212
were convicted, 4 nolle prossed, 1 dis-
missed on payment of costs, 1 acquit-
ted, and 1 settled. These cases are
classified as follows: Drunk 134, va-
grancy 50, disorderly 2, assault and
battery 14, trespass to real estate 1,
larceny 3, truancy 3, cruelty to ani-
mals 1, hyring and abandoning boat 1,
violation of game and fish laws 24, dis-
turbance religious meetings 1, malici-
ous destruction of personal property 1,
violation of liquor laws 4, bastardy 1,
burglary 1, larceny in store 1, larceny
in dwelling 1, rape 1, larceny from
person 2. For the August term of court
the calendar will contain 2 bastardy
cases, 2 assault and battery, 2 murder,
1 larceny from post office, and 1 tres-
pass on real estate.

Thursday morning early the mercury
was not very far from the freezing
point.

Rev. A. Bunsma will preach for
the Fourth Ref. congregation next
Sunday.

The three-year old child of E. Bok,
a blacksmith at Forest Grove, fell in-
to a tub of hot water Friday last,
from the results of which it died.

The steamer Lizzie Walsh is now
making two trips per day between
Saugatuck and this place, and is car-
rying fruit in connection with the
Chicago steamboat line.

Between Sunday and Monday night
attempts were made to enter the resi-
dence of Prof. J. T. Bergen on
Twelfth street, judging from the
manner in which the window screens
had been tempered with.

Two of our well-known business
men got into a heated altercation last
Saturday, and unless the matter is
amicably arranged, as it should be, it
will terminate in an assault and bat-
tery suit before Justice Van Schelven,
Saturday.

G. H. News: The Misses Kellogg
and Seery, of Holland, who have been
in the city the past few days, the
guests of Miss Lillie Beauvais and
Esther Kelly, returned home Monday
afternoon. They were among the class
continued at St. Patrick's church Sun-
day.

In view of the fact that the August
term of the Ottawa county circuit
court will open the same week that
the Republican county and state con-
ventions are being held, Judge Padg-
ham has been requested to adjourn
the term on the opening day for one
week, and that jurors and witnesses
be informed accordingly.

Lieut. Col. G. W. Lydecker has been
designated as the successor of the
late Gen. Poe. In addition to the
responsibilities connected with his
new position he will also retain super-
vision over the harbors along the east
shore of Lake Michigan, so that it may
truly be said that his manifold duties
will require unceasing activity for
their execution. Col. Lydecker was
selected for this position by reason of
the great confidence reposed in him by
his superior officers in Washington.

Another musicale and ice cream fes-
tival will be held at the residence of
Mr. and Mrs. J. A. Kooyers, in the
Fifth ward, for the benefit of the M. E.
church, on Wednesday evening,
July 22. There will be music by the
new Holland Cornet Band, also duets
on piano and violin, guitar and banjo.
Five free carryalls will be in line on
the corner of River and Eighth streets
at 7:30 o'clock, and will run until
eleven o'clock. The grounds are to be
electrically lighted, and ice cream and
cake will be served, at ten cents. In
going the carryalls will come up on
River and pass down Eighth and Mar-
ket streets.

Writes a correspondent of the Fenn-
ville Herald: "The Michigan fruit
grower does not pay the same atten-
tion to the preparation of his fruit as
his California brother, but he will
meet this competition in time. Ap-
ples, peaches and plums in the Mich-
igan fruit belt need reformation as to
packing and preparing for market.
The Florida orange grower has learned
this and now his fruit comes on the
market with the number of oranges
marked on each box, indicating the
size of the fruit, so the buyer can tell
at a glance which grade he wishes to
handle. If apples, peaches and plums
were graded in this way in the Mich-
igan fruit belt, buyers would know
just what they were getting and could
decide just what they wanted, as the
marked boxes would practically indi-
cate the size of the fruit."

The basket combine which had
raised the price of peach baskets to
\$30 a thousand, has been broken up.
One of the members of the combina-
tion, E. E. Weed & Co., of Douglas,
dropped the price down to \$24. This
action, says the Fennville Herald,
caused consternation among the other
members and the representatives of
all the factories met at Douglas Wed-
nesday to see what they could save out
of the wreck of their nicely laid plans.
They decided that as Weed had se-
cured the cream of the trade by this
move and as the Douglas factory could
not supply all the demand, they could
gain nothing by dropping their price
and they therefore decided to hold
their packages at the combine price.
They express the belief that the grow-
ers will be obliged to take their pack-
ages at their price as a shortage in
baskets is almost sure to occur. The
growers however claim that they will
use boxes rather than pay an exorbi-
tant price for baskets and what the
end will be no man seems wise enough
to predict.

Rev. R. Bloemendaal of Muskegon
has received a call from the N. W.
Ref. church of Chicago, Ill.

Dr. H. Kremers, health officer of
the city, will attend a conference of
like officials, in Ann Arbor next week.

The steamer J. C. Suit will engage
in the peach traffic between Sauga-
tuck and Milwaukee, and commence
her regular trips next week.

Postmaster-general Wilson and a
distinguished party of government of-
ficials from Washington will spend a
month's vacation in a tour of the
Great Lakes.

A. J. Klaver, of Grand Haven, one
of the Republican candidates for the
nomination of sheriff, was in the city
Monday, calling upon friends. Dep.
sheriff Van Ry took him out for a
drive to Zeeland.

There are several provisions in the
proposed bicycle ordinance which are
not very acceptable to our wheelmen,
especially those requiring bells and
lanterns. They expect to present their
views to the council when the ordi-
nance is up for passage.

G. Watermuller, of Foreston, Ill.,
president of the Y. M. C. A. of Hope
College, offers to furnish the neces-
sary information concerning rooms,
boarding places, etc., to all new stu-
dents from abroad that desire to en-
ter Hope College next fall.

The Prohibitionists have now two
separate tickets in the field, both
presidential and state. They are
known as the Straights and Nation-
als. The former limit themselves to
prohibition proper, while the latter
are also tainted with free silverism.

Men are now living, says the Balti-
more Sun, who heard the eminent
scientific Professor Silliman, declare
in a lecture at Yale College, after a
careful mathematical calculation,
that no boat could contain a sufficient
amount of coal to propel it across the
Atlantic ocean.

When the steamer City of Milwau-
kee arrived at St. Joseph Tuesday af-
ternoon she had on board two passen-
gers whose names were not down on
the trip sheet. They were two boun-
cing baby boys, which were born to
Mrs. Jonas D. Jenkins of Hutchinson,
Kan., on the run across the lake.

In view of the many frauds and im-
positions that are being perpetrated
under cover of the "old soldier," the
officials of the G. A. R. desire to di-
rect the attention to a statute in this
state which provides that any person
who shall wilfully wear the badge of
the Grand Army of the Republic, or
the badge of the order of the Loyal
Legion, or who shall use or wear the
same to obtain aid or assistance there-
by unless he shall be entitled to use or
wear the same, shall be punished by
imprisonment not to exceed thirty
days, or a fine not to exceed twenty
dollars, or both.

Grand Haven suffered considerable
damage by Tuesday's electric storm.
It struck the city about seven o'clock
in the evening, and along the river
front its force was felt greatest. Thou-
sands of dollars' worth of property was
destroyed. The glass factory had its
north-west corner rased, where most
of the finished stock was stored. At
the city pumping works the roof was
torn off. The fisheries also suffered
greatly in their shanties, reels and
nets. A heavy yawl boat on the
government steamer Gen. Hancock
was carried off of the boat and landed
with such force on the pier that it was
ruined. Chimneys, trees, windmills,
and small buildings, were all made to
feel their insignificance. The total
loss is estimated at \$20,000. The beau-
tiful soft maple tree in the court house
square is also listed among the
trophies of the storm.

Mr. Wykes, a Grand Rapids mer-
chant, has bought a cottage site at
Harrington's Landing and is getting
out the plans for a nice summer resi-
dence.

Sunday forenoon while the sch-
Alert was beating down the bay, the
steamer Lizzie Walsh collided with
her, carrying away the schooner's bow-
sprit and jibboom.

The Allegan village council has de-
creed that withing certain prescribed
limits, in the business portion of the
village, all new sidewalks hereafter
constructed shall be of cement.

A well-known local agriculturist
says that if the annual summer
drought keeps up, the irrigation sys-
tem, so successful in the south and
west, will have to be tried here.

Another candidate for the nomi-
nation of county clerk on the Republican
ticket is announced—C. K. Hoyt of
Georgetown. From the same town
Wm. Whipple, Jr., is said to be in the
field for register of deeds.

A McKinley club was organized at
Grand Haven Tuesday evening, with
the following officers: President, J. V.
B. Goodrick; vice presidents, F. A.
Mansfield, Will Sheldon, Wm. Pelgrim
secretary, D. A. Lane; treas., Geo.
Stickney.

It is said there is more money de-
posited in the banks of Holland City
by citizens of this city than of Hol-
land. The excuse they make for de-
positing their money there is that
they do not want people to know that
they have surplus cash.—G. H. Trib-
une.

The light shower of Monday was
followed the next day by an old-time
rain storm. During the hours of nine
and ten o'clock in the evening the
water fairly poured from the heavens,
and with an intermission of a few
hours, it continued to rain steadily
during the night, saturating the
ground thoroughly. The first shower
was accompanied by a heavy thunder-
storm, inflicting slight damages here
and there. The S. of V. movement
suffered some inconvenience by the
blowing down of tents; and so did
Alfred Huntley by the toppling over
of the smoke stack at his machine
shop. Shade trees also came in for the
usual amount of damage.

A state convention of delegates rep-
resenting the Republican clubs of
Michigan will be held at Grand Rap-
ids, Tuesday, Aug. 4, the day before
the Republican state convention. The
basis of representation at this con-
vention will be two delegates for each
club and one additional delegate for
each fifty members. The business to
be transacted will be the election of
officers of the State League, the elec-
tion of two delegates at large and two
delegates from each congressional dis-
trict to represent our state in the na-
tional convention of Republican clubs
to be held at Milwaukee, August 25,
and such other business as may prop-
erly come before the convention.

THE CROPS.

Encouraging Reports of Their Condition in This State.

Lansing, July 10.—Wheat, according to the Michigan crop report issued by the secretary of state Wednesday, shows a marked increase both in acreage and condition over a year ago. The average yield per acre is estimated at 12.44 bushels, an increase of 2.36 bushels. The increased acreage is nearly 15 per cent. Corn is estimated to yield 98 per cent. of an average crop, oats 100 per cent. and potatoes 94 per cent. Compared with average years, the area planted to beans is 94 per cent. The condition of meadows and pastures ranges from 73 to 80 per cent. of the average. Apples promise slightly more and peaches slightly less than an average crop.

Decatur, July 10.—The threshing of the wheat crop of southern Michigan is now well under way, and some of the new grain is coming into market. The berry is plump and hard, and averages nearly 61 pounds to the measured bushel. The damage done by rust is fully as much as first estimated, the yield of heavy soil suffering the larger percentage of loss. In many localities grasshoppers caused considerable injury, but the best wheat-growing districts were little affected. Threshers report they yield from 12 to 16 bushels per acre, the latter figure being slightly exceeded in some instances.

Niles, July 10.—Farmers throughout southwestern Michigan have about completed threshing their wheat. This work is at least two weeks ahead of time. The crop is only about one-seventh what it should have been. Many fields of wheat that usually averaged 30 to 35 bushels to the acre this year only yielded five to six bushels. Many shocks of wheat were unfit to thresh.

LANSING BANK FAILS.

After a Long Run the People's Savings Concern Closes Its Doors.

Lansing, July 14.—The closing of the People's savings bank Monday marks the second bank failure in this city since the beginning of 1893. To the general public the failure of the bank to open its doors Monday morning was a great surprise, but to business men who had been aware of the condition of the institution for some months the result was not unexpected. Application was at once made for the appointment of a receiver, and Seymour Foster, of this city, was selected by Judge Person. The failure of the People's institution and the Central Michigan savings bank in 1893 weakened the People's bank and left it an easy prey to its creditors, who have steadily been making heavy demands upon it for nearly a year. It has been the depository of the city's funds and subject to large drafts recently upon that account. The total amount due depositors has dwindled to less than \$130,000 and less than \$40,000 of this amount are savings deposits. The bank's liabilities and assets have not been determined by the state banking commissioner, but as the capital stock of the institution is \$150,000 and the stockholders are personally responsible to that amount it is thought that the depositors will realize the full amount of their certificates.

Big Sale of Scrap Iron.

Houghton, July 13.—The Calumet & Hecla mine has sold its accumulation of scrap iron, weighing over 20,000 tons, for about \$100,000. The lot includes much valuable machinery, costing upwards of \$1,000,000 when new, and considerable of which has never been used at all. The lot will fill ten large lake vessels when sent to Buffalo.

Quits the Party.

Detroit, July 13.—The Detroit Free Press, which has always been a stalwart, leading journal of the democracy, has bolted the Chicago convention's platform and candidates and declares independence of all party organizations, although it will in the future give preference to candidates of democratic antecedents and democratic views.

BIG DAY AT DETROIT.

Evacuation of the City by the British Celebrated in Stirring Fashion.

Detroit, July 13.—Evacuation day was celebrated here Saturday with a burst of patriotism that is seldom witnessed on any national occasion. It was the hundredth anniversary of the evacuation of Detroit and of the United States after the war of the American revolution. Detroit was the last city held at the close of the war, and it was not evacuated at once, although the treaty of peace was concluded in 1763. For 13 years Great Britain held Detroit as an outpost, keeping her regular militia in old Fort Lernoult. It was a happy coincidence that the celebration of Saturday was held on the very spot whence the British regulars marched out of America forever on July 11, 1796. It is the site of the new Detroit post office and federal building and the old site of Fort Lernoult, later named Fort Shelby.

The exercises began with a public mass-meeting at 10:30 o'clock in the new federal building, which is still incomplete. It was packed to the doors and windows with an eager people, while the platform was filled with patriotic societies, such as the Loyal Legion, the G. A. R., Daughters of the American Revolution and the Sons of the American Revolution, at whose suggestion the celebration of the day took place. Distinguished guests from throughout the state, and several from other states occupied places of prominence on the platform. Gen. R. A. Alger presided as chairman, and delivered an address fervid with patriotic sentiments. He was applauded at every sentence.

The orator of the day was Senator Julius Caesar Burrows, of Michigan, who spoke on the significance of the occasion and of the celebration. He paid his respects to the British people and said they left Detroit 100 years ago never to return as rulers of the nation.

Col. Henry M. Duffield, of this city, gave a historical address on the facts relative to the evacuation of Detroit. At the close of the programme President Angell, of the University of Michigan, was called upon for a speech, and he spoke eloquently. Dr. Angell picked up and held to view the old spyglass of Commodore Perry, the hero of the Lake Erie naval engagement, and declared that as a native of Rhode Island, the state which Perry hailed from, he could not refuse to add tribute to the American heroes of those early days. He alluded to the slowness which England had shown in recognizing American independence and the institutions of the republic, but referred also to the several institutions, legal and otherwise, which the United States had inherited from the mother country and which did not leave us when the British evacuated Detroit.

During the exercises a brass band erected on one side of the entrance of the federal building was unveiled by Gen. Alger before thousands of people while a new American flag was unfurled to the breeze and the revenue cutter Fessenden fired a salute of 20 guns from its place on the Detroit river.

The feature of the afternoon was a gigantic military parade, such as the city has rarely seen. It was participated in by United States regulars, by a regiment of state troops, several cadet companies and other organizations. It took two hours for the vast procession to complete its comparatively short line of march and required 45 minutes to pass the reviewing stand, where sat Gen. Alger and the high functionaries Gov. Rich and his military staff participated in the parade.

The parade drew out a vast concourse of people; 20,000 were packed in front of the city hall when the parade moved by, and the crowd was so dense that street car traffic was blocked and the parade stopped for several minutes. It was a patriotic crowd, and as the procession passed cheer after cheer rent the air, and the national colors were waved aloft by people on the roofs of buildings.

The programme of the day concluded at night with fireworks and illuminations from the municipal buildings, while several private receptions were being held in honor of the distinguished guests. Gov. O'Ferrall, of Virginia, was to have been orator of the day, but was unavoidably detained.

FAMOUS UNION SPY DEAD.

James H. Sherman, One of McDowell's Guides, Passes Away.

Charlotte, July 15.—James Hervey Sherman, who was a spy in the union army, died at his home in this city several days ago. He was a New Yorker by birth, but, attaining manhood, he removed to Virginia, where he accumulated a large fortune, which was afterwards entirely swept away by the war. Mr. Sherman was loyal to the union cause, and on account of his accurate knowledge of the country he became a guide to McDowell's division of the Army of the Potomac, and afterward entered the secret service under Gen. Baker, of whom he was a trusted lieutenant in many expeditions and became his friend. During one of these trips near his old home his presence was betrayed by an old neighbor, and Sherman was captured by Mosby's men and was reported hanged. Instead of being executed he was taken to Richmond. He was confined ten months in Castle Thunder, and after 13 months more at the Salisbury (N. C.) prison he effected his escape and reported to his chief for duty, continuing in that service until the close of the war. He was 76 years old, and leaves a widow and four children.

President Angell's Grandson Drowned.

Traverse City, July 15.—The 11-year-old grandson of President Angell, of Ann Arbor university, whose home is at Detroit, was drowned Tuesday while swimming at Edgewood, a summer resort near this city.

Republican Nominations.

WILLIAM MCKINLEY,

For Vice President
GARRETT A. HOBART,

For Member of Congress, Fifth District—
WILLIAM A. SMITH,
of Grand Rapids.

"Democratic-In Name Only."

And for the rest truly Populistic.
Such is the verdict of the leading Democratic press throughout the land upon the result of the Chicago convention.

And as such, both platform and nominees are being condemned and rejected.
There is but little doubt that the Populists at their national convention in St. Louis next week will set their stamp of approval upon EVERYTHING that their Chicago colleagues have done. Hence in the campaign now upon us it will be the Republican party against the field—the field of free silver and free riot.

At least such is the interpretation put upon the Chicago platform by the influential Democratic papers of the country, and by the foremost men in the party.

We have before us a list of over one hundred Democratic papers published in commercial centres north and south, east and west, that have repudiated in strong terms this new Democratic departure, and denounce the cardinal principles of the platform as unpatriotic and revolutionary:

Detroit Free Press—If the platform of the convention should become the settled policy of the nation, it would precipitate upon the business and industries of the country such disaster as never yet befell them. It is felt that not only national honor and reputation are at stake, but the foundations of industrial prosperity.

N. Y. Times—It is an opinion widely held that within a short time the uprising of the American people against the party of Altgeld and Tillman will be so decisive and overwhelming as to leave the democracy free from the rubble that has temporarily overrun its domain. Free silver will be beaten by the saving common sense of the very classes to which the demagogues appeal. But the defeat must be so decisive in the popular majority against it, that the thing will never raise its head again.

N. Y. Sun—Free silver coinage would be national dishonor. Silver has had its day as a money standard. The commerce of civilization, which has used as a medium of exchange pretty much everything from shells to the higher metals, has progressed beyond silver. The silver campaign is based on delusions which have no justification and on statements which are not so. From now until the night of election—in November, the presidential candidate of every Democrat who still ardently hopes to crush the enemies of the fundamental principles he was bred in, should be, without hesitation, evasion, or prejudice, Wm. McKinley.

N. Y. Herald—Their declaration of principles is a reckless revolutionary proclamation charged with Populism and communism, and raises an issue as single and direct as that raised in '61. It was then the Union against secession. It is now patriotism against silverism, the country against Populism. On this vital issue true Democrats and loyal citizens can no more hesitate than they did in '61. All then stood shoulder to shoulder, regardless of party, for the honor of the flag and the safety of the nation. The time has come for all to do so again.

Detroit Free Press—Neither can the free silver men complain should gold men in the Democratic party decline to support their platform and candidates. The free silver men have done all they could to make it impossible for such men to do so.

Philadelphia Record—The platform adopted by the Chicago convention is such a declaration of purposes and principles as no consistent Democrat and no lover of the country can consistently approve. No man fit to be president or vice president of the United States could in honor stand upon it; and it is therefore quite unnecessary to consider what manner of persons have been presented for the suffrages of the people. The worst misfortune that could now befall the Democratic party would be the election of a president and congress pledged to carry into effect the aims of this revolutionary, socialistic scheme of political action.

Philadelphia Inquirer—They propose to overthrow the foundations of society, to destroy the vested rights of property, to deprive the laboring man of a chance to toil, and rob him of one half of what he may be able to earn. They propose free silver, free riot.

Column upon column might be filled with selections from the Democratic press, like the above.

The men who heretofore have been acknowledged leaders of the party, are no less emphatic in their denunciations:

Assistant secretary of the Treasury Hamilton—"The perpetuity of republican institutions has been threatened. Every loyal citizen should ally himself against the forces which controlled the Chicago convention; forces of lawless men which are inconsistent with the maintenance of the republic. Henceforth there should be no Republican, no Democrat, but a union of loyal citizens against the combined forces of repudiation and disorder. When once this dangerous element has been stamped out at the polls by an indignant people we can again divide and discuss these questions which for generations have kept alive the two great political parties."

Wm. E. Russell, Massachusetts—"The door is open for division, defeat, dishonor. We see new faces and new principles urging us on, but we have not yet crossed the threshold. May God save us from the fatal step."

Col. Fellows, New York—"We ask you to read the history of commercial nations. We ask you to study the laws which have governed the currency. We refer you to the periods when coinage systems have been changed, and we ask you, judging from these, if you are to be assured that your demand now will bring you any relief? And in your mad enthusiasm, as if you had taken up the cry of the howling dervish of the east, who dance around the graves of their kind—you merely answer, '16 to 1.' It is a tissue of populist and anarchistic notions, compiled by men who have no claim to recognition as statesmen, nor even as politicians, but who are frenzied fanatics. I cannot see how I can support it or any man who stands upon it."

Dr. G. K. Johnson, Grand Rapids—"I regard the platform as undemocratic, unsound and dangerous, and I scorn it."

Gov. Flower, New York—"It is a crazy quilt of anarchy, and an outcome of incompetent and brainless fools and fanatics. I never will cast a vote for such a platform or for such a ticket."

Elsewhere in this issue we publish the Chicago platform in full, and ask in its behalf a careful perusal. A most objectionable part of it is the so-called "Altgeld plank," in which the administration of President Cleveland is reproached with unconstitutional and wilful interference with "local affairs" on account of the well known procedure in the Chicago strike riots of 1894. The convention thus took the preposterous standpoint of Gov. Altgeld that the federal government must stand idly by when national laws are violated and permit the interference with the transmission of mails and interstate commerce in case the governor of the state where the riot takes place neglects or refuses to demand the interference of the government. This means that Uncle Sam has no right of interference if the governor is a demagogue who sympathizes with the rioters and finds it to his advantage to leave them undisturbed. With the same right President Lincoln could have been accused of violation of the constitution because he sent the federal army into the rebellious southern states without request of the governors of these states.

In this connection should also be considered the plank which opposes a "life tenure in the public service," which is intended as a rebuke to the federal judiciary. Should the new party of Altgeld and Tillman come into power, we may look for a reconstruction of our courts, in sympathy with the new regime.

At the Bryan ratification meeting in this city, Tuesday evening, the people were invited to come and listen to "the gospel of the New Democracy."

This was honest.
At the same time it releases the Old Democracy from future party obligation.

But what a gospel it is!

The S. of V. Encampment.

The week has been enlivened by the State Encampment of the Sons of Veterans. Due preparation had been made for the entertainment of all that came, and more too. There was some disappointment in the attendance of camps from distant points, but undoubtedly much of this is to be charged up to the postponement in dates, and to Tuesday's storm.

The location of the encampment, on the heights of Bay View, was all that could be desired, except for the exposure to the storm on Tuesday evening, which gave the boys an unexpected experience with actual camp life, and an object lesson in how to pitch tents. The camp was christened "Camp Holley," in honor of one of our well-known citizens. Telephonic communication was established with headquarters, and everything in and about the encampment, including the commissary, was satisfactorily arranged.

The great attraction to our citizens were the evening dress parades, and they were attended by thousands of visitors. The daily routine of camp life and exercises were all in accordance with the roster heretofore published.

The interest taken in the encampment by our citizens was manifest by the general decorations throughout the city, especially on the business streets. A banner of "Welcome" was stretched across Eighth street, and the national ensign prevailed everywhere.

Thursday was the big day, with the parade as the leading feature. The column was in charge of Maj. Stockton, and included in one of its divisions the employees of our leading manufacturing establishments. The two cornet bands and drum corps furnished the music and besides the S. of V., G. A. R. and veterans, and a section of Fox's battery of Grand Rapids, there were the fire department in uniform, and the men of the West Michigan

and Holland furniture factories—the former nearly 300 strong. The Calcony of ex-mayor Kanter's residence had been selected as the reviewing stand and was beautifully decorated for the occasion. The parade was witnessed by thousands, a large number having come from the resorts to view the procession. In all there were over one thousand men in line. At the business meeting on Thursday afternoon resolutions were adopted tendering thanks to the state officials, the comrades of the G. A. R., the press and citizens of Holland, and especially to the local Camp for their hospitable entertainment. The election of officers resulted as follows:

Commander—H. E. Condin, Rockford.
Senior Vice commander—W. A. Holley, Holland.

Junior Vice commander—Thomas F. Stockton, Flint.
Council—J. D. Crawford, Lowell; F. E. Munger, Dundee; A. C. Stow, Pennville.

Delegates-at-Large to National Encampment, Louisville, Ky.—George E. Cogshall, Grand Rapids.
Delegates—Dr. J. A. Mahbs, Holland; G. T. Chapel, Rockford.

Next year's meeting will be held in Flint.

The encampment breaks up this (Friday) afternoon, the parting feature being an excursion to the resorts, where the boys will be tendered an exhibition by the life saving crew.

A very pleasant thing to record in connection with the encampment is the satisfaction expressed by the visitors with the manner in which they have been received and entertained here by their comrades and the courtesies extended to them by our citizens generally.

For The HOLLAND CITY NEWS. The Proposed Sewerage System.

MR. EDITOR:—Will you give space for an examination of the sewerage system, proposed for the city of Holland by Messrs. Alvord and Shields? The points of criticism will be stated as briefly as possible, to place them before the public for examination and discussion.

"The outlet for this entire system in dry weather is located at the foot of Eighth street, and extends 1,400 feet into the water of Macatawa Bay by means of an iron pipe ten inches in diameter, laid beneath the bed of the lake."

The outlet is to be placed in Black Lake at the point where most of the ice used in the city, is usually cut, so that all the sewage of the city will be deposited at the bottom of that part of the lake upon which we depend for our ice supply.

All sewers above 18 inches diameter to be of brick, egg shaped in sections, the largest 26 inches wide, 39 inches deep.

This means a brick sewer of that size through Eighth street.

This plan involves great expense, breaking up our principal business street, and the size seems unnecessarily large. Such a sewer would be very liable to clog and its great size would render it impossible with our present water supply to flush it out.

Size of house connections is unnecessarily large. Four inches is large enough for dwellings.

"The drainage from the C. & B. tannery will form the larger portion of the sewage for some years to come, and should be connected direct with the sewer in Eighth street, together with all the dry weather flow of the creek, for the purpose of dilution."

An unnecessary expense. The character of the tannery waste is such that it is perfectly safe to flow it into tannery creek as at present, and nothing would be gained by the great expense of running it down Eighth street.

"The present plan contemplates the ultimate or final disposal of sewage by dilution in the waters of the Bay."

This is the objectionable point of the whole scheme.

"It is expected that the ordinary sewage flow of the first five years of the use of sewers, including the tannery wastes, will not exceed 1,000,000 gallons in twenty-four hours, which, with the amount of dilution available, will be entirely purified within a few hours after reaching the fresh water of the lake by the oxidation of its organic compounds. The city of Muskegon, much larger in population than Holland, now purifies its sewage by this method of disposal, and finds it without objection."

The sewage of Muskegon is shot into Muskegon Lake, as we are led to infer from the statement, may be safely treated in this way, while conditions are so different from ours that it is not a parallel case at all. Muskegon Lake is merely a widening of Muskegon River, one of the largest streams in our state, draining a basin of several thousand square miles, whose flow changes the waters of Muskegon Lake many times in course of a season. Black River, only drains about thirty square miles, and except a short time of high water in spring, does not deliver water enough into the lake to make any flow out of it.

"In dilution in large bodies of water or streams the necessary oxygen is supplied by the presence of air in the water, of which there is always a considerable quantity. Where the amount of sewage is not greater than could be readily oxidized by the air contained in the water, the purification takes place under favorable conditions."

Under the conditions in Macatawa Bay the exposure of the sewage to the air in the water, to be oxidized, seems a very far fetched and insufficient means to reach the result.

"It is found that where fresh waters are agitated by winds or currents, or flow over rocky bottom in water falls, they are capable of receiving and purifying a much larger quantity of sewage than would be the case if a still body of water undisturbed were used for absorbing the wastes. The reason for this is obvious. The air has a larger measure of access to the water, and can continually re-supply the exhaustion produced by the oxidizing process."

The conditions stated do not exist in our lake. There is very little flow into it from streams, probably not much if any more than to compensate for the surface evaporation.

"The area and soundings of lake Macatawa from the chart of the U. S. survey give approximately a contents of 1440 million cubic feet of water contained."

Computations of this kind have an air of great exactness of calculation. Was any account made of the fact that the waters of Lake Michigan and of our lake are three or four feet lower than when the survey was made? This would cut the amount of water stated at least fifty per cent short, and when the remainder is again divided by three, as that part of the lake into which the sewage is to be discharged is not to exceed one-third of the surface, you will find the dilution is rather delusive.

In Chicago with a thousand times greater chance for dilution of sewage, the taint which got into the outshore intake of the water works, caused an epidemic of typhoid fever in the city. So much for the harmlessness of diluted sewage.

Another important element in the dilution process, is the fact that about four months in the year our lake is sealed up under a coat of ice. During this time the sewage discharge continues just the same, but there are no winds and waves to supply air to furnish oxygen to decompose the sewage.

And in the spring after the lake has been sealed up all winter, we have to cut ice for summer use from water only a few feet above this mass of undecomposed sewage.

It was believed until people learned better that pure ice could be cut from impure water, the freezing destroying the harmful bacteria. But now after fatal experience of the falsity of this idea, the sale of ice suspected of taint of sewage is prohibited in Chicago under severe penalties.

And it is not merely a question of cutting off our local ice supply, but of forever destroying the possibility of establishing the business of cutting ice on our lake for export. The ice crop of our lake if properly harvested, would be worth, in good seasons, at least \$100,000.

For these, and other reasons, which I cannot ask room to state, I do not believe it wise to carry into effect the plans submitted. As an old citizen who has helped to lay the foundations of our township and city, I feel it my duty to enter an earnest protest against a scheme which proposes to poison the ice supply of our city, to prevent the building up of a great export ice industry, and convert the east part of our beautiful lake into a cess-pool.

The C. & B. Leather Co. have purchased the engine and fan and other heating apparatus that was formerly in the Central school building. Consideration \$225.

Messrs. Weatherby & Pulbe, contractors, are busily engaged with two gangs of men in placing the heating apparatus in the Central and High school buildings. The excavations are nearly completed, and the dirt is used to fill in the low ground in front of the High school.

Wilhelmina Van Prooyen has begun divorce proceedings in the circuit court against John Van Prooyen. The couple were married in 1891 and have one child, but the husband deserted the wife about two years ago.—*G. R. Herald.* Unless we have been misinformed John is the same chap whose acquaintance Sheriff Keppel is anxious to cultivate.

That the bicycle has come to stay, of this there can no longer be any doubt, and it is this that gives impetus to the agitation for the construction of a cycle path leading from Grand Rapids to some point on Lake Michigan, either Holland or Grand Haven. (Wheelmen in the Valley City were the first to propose its construction, and the suggestion soon met with a responsive sentiment, not only at both the terminal points named, but also from cyclists at intermediate places, each claiming superior advantages, of course. The most novel argument that has come under our notice, for a path from Grand Rapids to Grand Haven, following the river route, so-called, was that because the natural conditions were so much in favor of a path from Grand Rapids to Holland, that unless the river path was built first, it would never start any show for aid from Grand Rapids wheelmen afterwards. The discussion in the papers and the general expression in favor of the Holland route have spurred our local wheelmen and led to the organization of the "Holland Cycle Club," with the object largely of promoting the building of a path from Grand Rapids to Holland and its resorts. The club starts out with a promising membership. Its officers are: President, F. C. Hal; vice president, Dr. F. M. Gillespie; secretary, Geo. E. Kollen; treasurer, C. Verschure. The officers, together with Evert Takken, Jacob Lokker, and W. A. Holley, constitute the executive committee. The club also adopted red, white and blue as its colors. The particular work to which the organization will devote its attention and energies first, is the construction of a six-foot path between this city and Macatawa Park, and then turn about and meet the Grand Rapids people towards completing the path from there to Holland. Already a good path has been laid out from Battle Creek to Kalamazoo. From there to Allegan the natural road is very good. If a path were constructed, which eventually must follow, from here to Allegan, Holland would then have unbroken connection with four of the best cities in western Michigan, and intervening towns, with our resorts as the great terminal attraction. In Thursday's *G. R. Herald* we notice that the club of that city has had both routes inspected as to availability and cost, and that a decision will likely be reached on Monday evening, the result depending largely upon the proposals received from the clubs at the terminal points.

COR. DE KEYZER, P. M.

During the thunderstorm of Monday afternoon the thirteen-year old son of Mr. Zandstra, east Sixteenth street, who was standing near a fence post that was struck by lightning, fell to the ground unconscious. Fortunately he soon recovered.

There was quite a stir in Democratic circles here on Tuesday when it was learned that the *G. R. Standaard* had bolted the Chicago platform and nominees. The *Standaard* is the only Democratic paper in the Holland language in Michigan, and its course met with the hearty approval of many old line Democrats.

In Wednesday's shoot, at the S. of V.'s encampment, Arthur Baumgartel came out ahead with a creditable record. Out of 25 birds Arthur hit 20, Sears 8, Morse 20, Holley 13, Finch 16, Chapel 11. In the shoot-off on the tie between Baumgartel and Morse the score stood 21 to 20 in favor of the former. This gave him the cup.

As Oscar B. Wilms, with his nephew, launch was nearing the dock at the city, Thursday afternoon, he put his foot out to prevent the launch from striking the dock, and in doing so the brass on the railing came in contact with the calf of his leg, producing a flesh wound. The next morning he went to work again.

Ben Moes and Wm. Rhoads, two employees of the C. & W. M., met with serious accidents Wednesday. While engaged in switching and standing near the engine a rail jointed and struck them on the lower limbs. They were taken to the office of Dr. Yates, the surgeon of the company, where it was found that no bones were broken, although Moes had his feet badly injured.

The three men that were arrested near the resorts Friday noon, by two officers from Grand Rapids, assisted by dep. sheriff Keppel, were Peter Scott, John Scanlon and Frank Hutchinson. They were wanted for stealing hams from the meat market of F. Mechie, on South Division street. A part of the hams were recovered. When arrested the tourists were enjoying a good meal, having established themselves for the time being in an abandoned shanty in the woods, east of Ottawa Beach.

With some people a willful misrepresentation of facts pertaining to matters politically, is deemed not to be lying. In saying this we have specially in mind the correspondence that appeared from this city in the *G. R. Democrat* the other day, with reference to the Popocratic nominations. Think of such statements as these: The town went wild—enthusiasm broke loose—the town is illuminated with torches and fireworks—the firing of cannon—two bands are playing—no bolting here, etc.

Among the matters that came up at a special session of the Classis of Holland, held in this city on Tuesday, was an application of W. Wormser, for reinstatement as minister of the gospel. Some years ago this party, while in charge of a congregation in Jamestown, was guilty of conduct too immoral and too indecent to mention. He was dropped from the rolls, and no criminal proceedings were instituted, as there should have been. We were greatly surprised to learn that the idea even of re-instating him was as much as entertained for a moment. Have the clergy of the Classis of Holland lost all respect for "the cloth?"

Tuesday was Grand Rapids Newsboys' Day at the Holland resorts, and a small army of them, numbering about one thousand, came down in the morning for an all day outing. The C. & W. M. had kindly furnished a special train of sixteen coaches and two locomotives, and each boy had his day's luncheon with him. The steamer Music gave the lads an excursion on the bay, and the rest of the time was spent in bathing and roaming along the beach and in the groves of Macatawa.

Other people are taking advantage of the half off sale on dress goods at Streng's. Why not you?

ONE PRICE STRICTLY.

STILL ON THE BOOKS.

Government Treasurer Carries an Item Representing Paper Long Ago Destroyed.

The books of the United States treasury still carry an item of \$1,000,000, which represents United States notes which are supposed to have been consumed in the great Chicago fire 25 years ago, says the New York Sun. It was known that there was \$1,000,000 of currency, more or less, in the vaults of the subtreasury then, and that none of it was recovered, but the denominations of those notes and the exact amount are unknown, as the books of the cashier were consumed also. There could not have been, however, very many dollars less or very many dollars more than \$1,000,000, and it would simplify the accounts of the treasury and save a great deal of labor to the book-keepers if congress should pass a bill or resolution recognizing the fact that this money is no longer in existence, for every day when the cashier of the treasury balances his accounts he has to include this item, deducting it or adding it as the case may be from the amount in hand. It appears upon every daily, weekly, monthly and yearly statement of the assets and liabilities of the government as "unknown destroyed United States notes, \$1,000,000."

WOULD FISH ON SUNDAY.

And the Commercial Traveler Got a Hook in His Ear.

A commercial traveler who stayed over Sunday at Seneca Falls and went to the lake to pass away the time, thought he would catch a few fish, so he hired a boat, equipped it with the necessary tackle, started out and was soon busy watching his line. After a time, says the Post Express, something got hold and commenced to pull. To make sure it was a fish he leaned over the side of the boat and peered down through the water, and when he found it was a real live fish he became excited and tumbled in head first. In his efforts to extricate himself from his unpleasant position he became entangled in his line, and the fish separating from the hook that adjunct to a fisherman's kit attached itself to his ear. He was finally rescued but little the worse for his experience.

Watch Your Chance.

"There is no such thing as luck," said Col. North once. "Everybody in this world has chances. What people call 'luck' simply means that a man sees his chance, holds on to it, and at the right moment works it for himself. 'Luck?' Nonsense! 'Luck' is simply the faculty of seizing passing opportunities."

Our First Bank.

The first bank within the limits of the United States was chartered in Philadelphia in 171. It was incorporated by congress under the title: "The President, Directors and Company of the Bank of North America."

SUBMARINE DINNER PARTY.

One of the Most Singular Banquets Ever Partaken Of.

Some time ago the labor of deepening the harbor of Clotat was completed. To celebrate the completion of his labor and to make the occasion memorable the contractor gave to the members of his staff and the representatives of the press a banquet unprecedented, says Harper's Round Table, for its originality. The table was set eight meters below the level of the sea, at the very bottom of the harbor, inside the "caisson" in which the excavators had been at work, and only the narrow walls of the caisson separated the guests from the enormous mass of water around and above their heads. The new fashioned banquet hall was splendidly decorated and lighted, and but for a certain buzzing in the ears, caused by the pressure of air kept up in the chamber in order to prevent the inrush of water, nobody would have suspected that the slightest interruption in the working of the air pump would have sufficed to asphyxiate the whole party. After the banquet an improvised concert prolonged the festivity for several hours, after which the guests rescended into the open air.

GAME BUTCHERS' WORK.

Wanton Slaughter by Hunters in the Jackson Hole Country.

The American Field jumps upon the foreigners who come to the United States, seek out those localities where most of the big game is to be found, and then lay themselves down to the work of slaughtering it with rifles. A favorite resort of these game butchers is the Teton Basin. Here are found elk, deer and antelope, which are being killed off rapidly. The Teton Basin, Jackson's Hole, is much lower than the National Yellowstone park, and much of the big game migrates south to it, as a warmer climate is to be found in the valley. It is here that the hunters from abroad congregate, and in spite of the Wyoming state laws kill game wantonly. If these men would kill a couple of heads of each kind, taking care of the meat, and following up wounded game, little or no objection would be made.

These hunters, some of whom are Americans, pass through the national park on their way home with wagon loads of skins and horns. The law in relation to transporting game reads that "possession within the park of the dead bodies or any part thereof of any wild bird or animal shall be prima facie evidence that the person or persons having the same are guilty of violating this act." With this act behind him the superintendent could squelch the wholesale slaughterers of game in the region of the Yellowstone park. Capt. Anderson, the superintendent, is urged to make an effort to enforce the law. What would be better yet would be the annexation of the Jackson's Hole country to the Yellowstone park.

SUNDAY EXCURSION TO THE GERMAN PICNIC.

Grand Rapids on July 25th, will be the center of attraction for Germans from all over Michigan. On that date the Arbeiter Bund Societies of the state will hold the first Bundesfest in many years, and expect to make it the event of the year. Societies from Detroit, Ann Arbor, Saginaw, Bay City, Traverse City, Manistee, Ludington, Muskegon, St. Joseph, La Porte, Ind., and various other points, will participate in the festivities, which will be held in Schoenfelds Grove at Reeds Lake. Excursions have been arranged for at low rates from above named points, and a large number of people will attend the picnic.

Various Old Country games, sports, etc., will be given, and a general good time is assured.

For those who do not care to attend the picnic, a visit to Grand Rapids, with its many attractions, will well repay the slight expense. C. & W. M. excursion train will leave Holland at 9:30 a. m., and arrive at Grand Rapids at 10:35 a. m. Return train will leave at 6:30 and 11:30 p. m. Round trip rate 50 cents. Bicycles carried free. Base ball at 3:00 p. m. at Reeds Lake, between Grand Rapids and Milwaukee.

ST. VITUS DANCE.

A Physician Prescribes Dr. Miles' Restorative Nervine.

Dr. Miles Medical Co., Elkhart, Ind.: My daughter Mattie, aged 14, was afflicted last spring with St. Vitus dance and nervousness, her entire right side was numb and nearly paralyzed. We consulted a physician and he prescribed Dr. Miles' Restorative Nervine. She took three bottles before we saw any certain signs of improvement, but after that she began to improve very fast and I now think she is entirely cured. She has taken nine bottles of the Nervine, but no other medicine of any kind.

Of a Prominent Citizen of Holland—No Better Proof Can Be Had.
Mr. E. J. Harrington can well be said to be one of the prominent citizens of Holland, where he has resided for nearly half a century. Almost every elective position an appreciative public could place him in has been held by Mr. Harrington—supervisor, alderman, and treasurer—and like the famous Dick Whittington, who was three times Mayor of London, he has been three times Mayor of Holland. In a business way, Mr. Harrington is well-known in many parts of the State. The Harrington Block is one of his daily reminders of business enterprise to the Holland public, and is one of the finest in the city. During the summer months, Mr. Harrington resides in his beautiful summer home, erected on his fine property called Macatawa Park Grove, which is within a stone's throw of Ottawa Beach, Michigan's famous summer resort. What better endorsement can anything have than the commendation of such a representative citizen as Mr. Harrington? This is what he said to our representative:
"I have been subject to attacks of kidney complaint more or less during past years; the slightest cold would always precipitate such an attack. I have bought lots of porous plasters and worn them trying to gain a little relief. About two months ago, I experienced a very severe attack and I was suffering acutely; the pain was across my back in the line of the kidneys. I could hardly walk, and I was entirely incapacitated for business. I found no relief in the plasters. One day I went into Doesburg's drug store to see if I could get something to help me. Mr. Doesburg recommended Doan's Kidney Pills, so I began taking them and the relief they afforded me came so quickly I was much surprised. I had been using them only a couple of days when the pain and distress in my back and kidneys was gone, and I have been feeling first-rate ever since. For the length of time used and the results gained therefrom, Doan's Kidney Pills beat anything I ever heard of for such complaints. I recommend and endorse them with the greatest of pleasure."
For sale by all dealers—price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

GOOD RACES.

Events Witnessed by Big Crowds at the Battle Creek Bicycle Meet.
Battle Creek, July 14.—The particular feature of Monday's national circuit bicycle racing meeting was the coming together of Eddie Bald and Tom Cooper, the Michigan favorite. Cooper was badly beaten by Bald. There were three trial heats, and the following qualified: Cooper, Scherin, Ernie Johnson, Bald, Longhead. The candidates were Conn Baker, Bliss, Lute Johnson and Sanger, the "big un." Bald and Cooper rode well in the bunch until the stretch was reached, when both sprinted. Bald passed Cooper like a shot and won by four open lengths. Bliss was third. The attendance was nearly 10,000. Summaries:
One mile, novice, amateur: Frank Buray, Goshen, won; Hal Legg, Coldwater, second; A. C. Thorpe, Kalamazoo, third. Time—2:35.5.
One-half mile, open, professionals: E. C. Bald, Buffalo, won; Tom Cooper, Detroit, second; J. P. Bliss, third. Time—1:04.
One mile, open, amateur: Harry B. Marsh, Dowagiac, won; John Wilder, Battle Creek, second; Glenn P. Thayer, Grand Rapids, third. Time—2:35.15.
Two-mile handicap, professional: A. C. Martins, Minneapolis (80 yards), won; Conn Baker, Columbus, O., (100 yards), second; A. D. Kennedy (100 yards), third; Harry Clark, Denver, Col., (120 yards), fourth. Time—4:35.45.
Battle Creek, July 15.—Tuesday was Tom Cooper's day, and he again demonstrated that he is entitled to the title "Monarch" by beating Eddie Bald in the mile open, in a hot finish and fast time considering the dirt track on which the race was run. The one-mile professional race was, of course, the feature of the day. On account of the large field of entries there were three preliminary heats with seven men to qualify for the final. Cooper, Conn Baker, Kennedy, Bald, Longhead, Eaton and Bliss qualified, Sanger being shut out of the final, which was paced by Dr. Parker. The men kept in a bunch until the stretch, when Cooper, Bald and Longhead lit out and they finished in the order given with Bliss in fourth position. The attendance was a very large one, about 12,000 people paying admission at the gate. Longhead, the Canadian champion, went a half for a state professional record, making the distance in 57 seconds. The summaries:
One-half mile, open, amateur—Harry Marsh, Ann Arbor, won; John Wilder, Battle Creek, second; Steep Burhans, Ionia, third. Time, 1:02.45.
One mile, open, professional—Tom Cooper, Detroit, won; Ed Bald, Buffalo, second; Fred Longhead, Sarnia, Ont., third. Time, 2:34.5.
One mile handicap, amateur—Goldberg, Kalamazoo (140 yards), won; Swendeman, Battle Creek (50 yards), second; John Wilder, Battle Creek (40 yards), third. Time, 2:22.45.
One-half mile handicap, amateur—H. S. Legg, Coldwater (65 yards), won; Brown, Coldwater (65 yards), second; Millard, Kalamazoo (70 yards), third. Time, 1:01.
One mile handicap, professional—Fred Longhead, Sarnia (90 yards), won; Conn Baker, Columbus (50 yards), second; Kimball, Indianapolis (50 yards), third; Clark, Denver (65 yards), fourth. Time, 2:06.25.
Five mile handicap, amateur—Fletcher, Kalamazoo (380 yards), won; Goldberg, Kalamazoo (400 yards), second; Van Male, Kalamazoo (300 yards), third; Diehl, Jackson (380 yards), fourth. Time, 12:15.45.

BUY A 8-CENT LINE.
B. T. Wilson, of New York, Purchases Detroit Street Car Property.
Detroit, July 14.—The original three-cent street car line in this city, the one which Mayor Pingree fought for so long, has been sold to B. T. Wilson, of New York, who owns the major portion of the stock in the Citizens' line. H. A. Everett, of Cleveland, vice president and general manager of the Detroit railway, the three-cent line, admitted that Mr. Wilson had bought the major portion of the stock in the new line, and that the old board of directors would retire, although they held and would hold the bonds of the company. General Manager Everett, who intends to take a two years' rest from active work, said the sale could not affect the three-cent fares, as that was a portion of the franchise, and that it was probable that Wilson would continue the three-cent fare on his Citizens' lines, and give universal transfers. This will give Wilson and his coadjutors a monopoly on Detroit's car business, except the Fort Wayne & Elmwood line, and this line has already accepted a franchise for three-cent fares during the day, and universal transfers.

STORM AT GRAND HAVEN.
Great Damage Is Done by Wind and Flood in the Town.
Grand Haven, July 15.—A storm that struck this city Tuesday night was by far the most ever known in this section. In this city alone it did \$25,000 damage. The storm came up from the northwest, gradually veered around to the west, and then swooped over the city with terrific force. The wind blew 90 miles an hour. The big glass beveling plant of the American Mirror and Glass Beveling company was partly wrecked. The roof of the city water-works was carried off a distance of 100 feet. In the fishing district thousands of dollars' worth of nets and reels were blown into the river. The river rose three feet in half an hour and carried away several fishing shanties. The upper floor of the electric plant was blown completely out of sheer. The government warehouse on the pier was badly damaged. Kilbourn's factory suffered the loss of roof, and several freight cars were blown off the tracks.

Will Stand by the Convention.
Detroit, July 13.—The Grand Rapids Democrat, the leading democratic newspaper of western Michigan, which favored gold before the convention, declares that the Chicago platform is the accepted creed of the party for this campaign, and says democrats who don't like it can find comfort and company on the republican side of the fence.

Dynamite in the Grain.
Decatur, July 15.—When Henry Glass, of Pipestone, Berrien county, was about to commence threshing his grain he discovered three sticks of dynamite in one of the bundles. Had the presence of the dynamite escaped observation, all the men around the machine would have been killed or injured.

A Valuable Prescription.

Editor Morrison of Washington, Ind., writes: "You have a valuable prescription in Electric Butters, and I can cheerfully recommend it for Coughs, colds and Sickness. I have used it as a general system tonic. It has equalled Mrs. Annie Schelle, 2925 Cottage Grove St., Chicago, was all run-down, could not eat nor digest food, had a backache which never left her and felt tired and weary, but six bottles of Electric Butters restored her health and renewed her strength. thin baby
Poor baby! Your pity goes out to it and rightly. To be thin, for a baby, is to be deprived of its natural ease; to suffer and not be able to feel it; to wear a sad pinched face; to live on the edge of sickness; to grow imperfectly; and to lose the power of resisting disease. When a baby is thin it needs more fat than it gets from its food; it is starved, fat-starved. **Scott's Emulsion** is the easiest fat it can have; the fat it needs. Half of

Scott's Emulsion.
is taken by babies. Mothers like it because it brings the dimples back.
SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable, it is uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. Insist on Scott's Emulsion with trade-mark of man and fish.
Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.

DEFAULT HAVING BEEN MADE IN THE conditions of payment of a certain mortgage made and executed by Jan H. Wulink and Janna Wulink, his wife, of the township of Holland county of Ottawa and state of Michigan, parties of the first part, to Gillie Wabeke of the township of Zeeland, county of Ottawa and state of Michigan, party of the second part, dated on the 8th day of February, A. D. 1894, and recorded in the office of the register of Deeds, of Ottawa county, Michigan, on the 10th day of October, A. D. 1895, in liber 45 of mortgages, on page 374; which said mortgage was duly assigned by John J. Wabeke, John A. Pyl and Cornelia Van Zwailunburg, as the executors of the last will and testament of Gillie Wabeke, deceased, to Adriana Van Zwailunburg, and which said assignment was on the 7th day of December, A. D. 1895, duly recorded in the office of Register of Deeds of said county, in liber 55 of mortgages, on page 436; on which mortgage there is claimed to be due at the time of this notice the sum of One Thousand Four Hundred Ninety Dollars and Forty Cents, besides an attorney fee of Thirty-five dollars provided for by law and in said mortgage and no suit or proceedings having been instituted at law or in equity, to recover the debt secured by said mortgage, or any part of it; and the whole of the principal sum of said mortgage together with all arrearages of interest thereon, having become due and payable by reason of default in the payment of interest on said mortgage on the day when the same became due and payable, and the nonpayment of said interest in default for more than thirty days after the same became due and payable, wherefore under the conditions of said mortgage the whole amount of the principal sum of said mortgage with all arrearages of interest thereon, at the option of the said Gillie Wabeke, his heirs, executors, administrators or assigns, became due and payable immediately thereafter, and the said Adriana Van Zwailunburg, assignee of said mortgage, hereby declares her election and option to consider the whole amount of the said principal sum of said mortgage due and payable. Notice is therefore hereby given, that by virtue of the power of sale in said mortgage contained, and the statute in such case made and provided, said mortgage will be foreclosed by sale, at public vendue of the mortgaged premises, or so much thereof as may be necessary to pay the amount due on said mortgage with interest and costs of foreclosure and sale, including an attorney fee of thirty-five dollars said sale to take place at the north corner door of the Ottawa county court house, at the city of Grand Haven, Ottawa county, Michigan, that being the place where the circuit court for the County of Ottawa is holden, on Monday, the Seventeenth day of August, A.
