Furniture.

There is furniture that meets the critical approval of artistic eyes and is superior to any other popular priced furniture you can get to day. When you have a piece of furniture from this establishment it will have many of the good points of the very high priced goods and will cost you a great deal less.

Carpets and Rugs.

Why buy old-fashioned ugly carpet patterns when you can have the very latest ideas of the best foreign and domestic manufacturers? New fashioned goods at new fashioned prices are simply rolling the floor coverings out of our store.

Curtains.

In window furnishing the chief essentials are daintiness and durability. We would be able to fit attractively every window in town. These curtains will launder beautifully and people report using them for several years and they still hold their quality.

Credit.

Yes we extend Credit. We trust the people. You can come in this store and get an outfit to furnish your home, paying a little down and balance on very easy payments.

Robinson's Great Carnival and show company which recently gave a street fair in Benton Harbor wanted to come here and give a fair in August. The manager proposed that the city advance \$500 to pay expenses but the business men could not see it that way and at a meeting held last Friday night took no action on the proposition.

Marriage licenses have been issued to John Crawford of Holland and Ora Bultker of Frankfort; Henry Karel Fortuin and Johanna G. Van Goor of Holland; Samuel Schaftenaar of Holland and Helen Menken of Laketown; Arthur H. Merrill of Chicago and L. M. Porterfield of Maywood, Ill.; John Charles Ross of Detroit, aged 30, and Esther E. Davis of Grand Haven, aged 22.

The fire department was called out at two o'clock Wednesday morning by a fire in Anton Self's barn near his brewery on Tenth street. The blaze was large and threatening and a large crowd gathered thinking that the factory section of the city was in danger. Two horses in the barn were released by Mr. Self. A quantity of hay was destroyed, but efficient work on the part of the firemen saved the barn, the entire damage to barn and contest amounting to \$200. The loss was covered by insurance.

Installation of wireless telegraph service on the great lakes is being planned, and already, it is said, a Detroit vessel company has approved the arrangement. Owners of boats running out of Chicago are being canvassed as are operators of freight and passenger vessels in all the larger ports. The plan proposed is to establish shore stations at the largest ports and to equip with receiving and transmitting apparatus all the steamboats plying out of those ports. It is expected that the Graham & Morton company will be in the organization, and one of the stations may be established in Holland.

The ten year old son of Clause Stamper, an Olive farmer, was kicked to death by a horse in a field on his father's farm Monday afternoon. He was riding one of the work horses home from the field when the animal became frightened and threw the little fellow off its back. The boy was watering the horse when it became frightened and overbalancing the lad, his foot caught in the flynet and he was dragged a long distance. At every leap the hoofs of the horse would strike the dangling body and head of the youth. He was terribly mangled and his jaw, arm and skull were fractured. When found he was breathing his last.

George E. Merrill, the sign painter, has returned to Holland and is employed with Slagh & Brink.

Dr. J. W. Beardslee conducted services in Trinity church in Chicago last Sunday.

Arthur Drinkwater was taken severely ill Tuesday evening and for a time it was thought he was suffering with appendicitis, but all danger of that disease has gone and Mr. Drinkwater has nearly regained his former health.

Monday's yacht race on Spring Lake was attended by a splendid breeze. The Eaglet won handsily in good time followed by Vindicator, Audacitaur and Juke in order named. The Canterbury and Vindicator collided and Canterbury was badly damaged.

The Fennville Herald tosses the following at the street sprinkler boss: "One good thing about Fennville's street sprinkler is that it can be depended upon—to get to work a few minutes after a good soaking rain and about five minutes before time to collect from the weekly contributors."

Charles K. Hoyt, mayor of Grand Haven was in the city Saturday and talked with James DeYoung, superintendent of the board of public works, regarding the sewer and electric lighting system of Holland. Mayor Hoyt is a candidate for the renomination for county clerk and consulted his friends here upon the political situation.

The coroner's jury summoned by Coroner Maschenbroek to investigate the cause of the death of Mrs. Geertje Ellander whose body was found floating in Black River last Friday morning brought in a verdict Tuesday stating that deceased committed suicide while temporarily insane by jumping into the river.

There is a law in Michigan making it the duty of the pathmaster or overseer of each road district, to "cause the noxious weeds within the limits of the highway of his district to be cut down and destroyed twice in each year, once before the first day of July and again before the first day of September." A penalty of \$25 is imposed for failure to comply by any overseer.

Henry Van Ry, C. Kok, and H. Bos have been elected deacons of the Ninth Street Christian Reformed church to succeed E. S. Holkeboer, R. Mulder and I. Marselle who have united with the new English speaking organization. A. Vanden Berg succeeds as elder Rev. J. Vander Werp who has also joined the new organization.

Rev. J. Groen, pastor of the East Street Christian Reformed church of Grand Rapids has been called to the pastorate of the Ninth Street Christian Reformed church of this city to succeed Rev. K. Van Goor who has accepted a call from a Patterson, N. J. church. Rev. Groen was pastor of a church in Zeeland until three years ago when he assumed his present charge in Grand Rapids.

The village council of Zeeland last Monday night adopted a resolution calling a special election for Aug 5 to vote on the proposition of bonding the village in the sum of \$18,000 to construct a municipal light and water plant. The village now depends on a local factory for power to operate its water plant. This will be the second time the town has considered the question, the former election being illegal.

The congregation of the recently formed English speaking organization of the Christian Reformed church at a meeting held Wednesday night extended a call to Rev. D. Drukker of Drenthe.

An echo of the graveling contracts entered into between the city and John Koning some time ago is the suit today in Justice Van Duren's court of John Koning Vs. Jacob Kuite, Sr., and C. Blom, Sr.

Eno Prull, of Spring Lake, has taken a census of the boats on that body of water and finds a total of 446 including 28 gasoline boats, 10 steam yachts, 2 passenger steamers, 44 sailing yachts, 4 house boats and 358 row boats.

Rev. John Van Ess of Roseland Ill., a graduate of the Princeton seminary will deliver the sermon at the Third Reformed church next Sunday night. Rev. Van Ess will leave for the missionary field in Arabia next fall and his address will be on mission work.

The people of Holland will have an opportunity tonight to see what the West Michigan band can do with the new band instruments. An open air concert will be given at 8 o'clock. The instruments are of an excellent grade and with them it will be possible for the band to do much better work than was done with the old instruments.

Sheriff Dykhuis came to town Saturday on a still hunt for two Zeeland girls who felt that they had a right to break away from the restraints of home and seek their fortunes in the wide world. He found the girls and brought them back to peaceful Zeeland where they were arraigned before Justice Rosenraad on a charge of truancy. They pleaded guilty and were released upon suspended sentence.

The sentence of Charles T. Wright, the millionaire murderer, which was reduced to fifteen years by Gov. Pin-gree, has expired and he is now free. There is another charge of murder, however, on the docket in Benzie county against him. Whether he will ever be brought to trial on this second charge will be determined during the August term of the Circuit Court there. The prosecuting attorney is now investigating the evidence against Wright, and upon his decision the matter rests.

Miss Lottie Miller, daughter of R. A. Miller, of this city, formerly of Muskegon, was drowned in Pearl river near Jackson, Miss., last Saturday. She was attending a picnic and with her friends was in wading when she stepped into a deep hole. Miss Miller went from Chicago to Jackson last January to visit her sister Mrs. Frank Vogel. She lived at Muskegon until the death of her mother eight years ago when she moved to Chicago. The remains were brought to Muskegon for burial.

A fierce fist combat took place between Cornelius Boone and Will C. DeJonge Monday evening on Mill street near the plant of the Zeeland Milling Co. It is said that the trouble arose from Boone accusing DeJonge of having broken the window lights in the front of the Zeeland Millinery on the night of the 3rd. DeJonge denied it when Boone struck at him and dared him to fight. Boone is already a middle-aged man, but nevertheless he was accommodated and, we are told, quite severely beaten by his younger opponent. No arrests have followed.—Zeeland Record.

FRIDAY, JULY 25.

Lake and Marine.

Within three months, it is expected, the new life-saving station at the mouth of the Chicago River will have been completed. Work was started yesterday on the frame-work, which will be constructed on the north end of the south breakwater, 200 yards farther into the lake than the present station. From the lookout post of the new station a clear view of Chicago's water front for 15 miles will be afforded, greatly increasing the efficiency of the service. When the new station is dedicated another boat will be added to its equipment, the present surf boat being left at the old station ready, or moving overland in case quick transportation of the crew is desired. The new station will be erected on piles driven in rectangular form about the end of the breakwater. With its outbuildings the new station will cover a space 175 by 75 feet in area. The main building, constituting the quarters of the crew, will be two stories high and forty feet square. Adjoining it on the north will be the boathouse, entered from inside the breakwater by four slips, each of which will be used for launching a boat.

NORTH DAKOTA REPUBLICANS.

Gather in State Convention to Nominate Fall State Ticket and Two Congressmen.

Fargo, N. D., July 23.—The eighth convention of the republican party of North Dakota to nominate two congressmen and a full quota of state officers, was called to order Wednesday at 11 o'clock. Col. E. C. Garry was made temporary chairman, and it is probable that he and associate officials will be made permanent officers of the convention. The uncontested candidates two weeks ago claimed 500 votes out of the 788 in the convention, and since the vanguard arrived Sunday night there has not been the least fear among them. Gov. White is confident of renomination, notwithstanding the influence and prominence of his only opponent, E. Y. Sarles, of Hillsboro. Under the new census, the state is entitled to two congressmen. T. F. Marshall will be renominated, and the second place will fall to B. F. Spalding, of Fargo, who was defeated for renomination two years ago. The ticket will be:

Congress—T. F. Marshall, Dickey; B. F. Spalding, Cass; governor, Frank White; lieutenant governor, David Bartlett; Griggs; supreme court, John M. Cochrane, Grand Forks; secretary of state, E. F. Porter, Foster; auditor, D. M. Holmes, Bemis; treasurer, D. McMillan, Cavalier; commissioner of insurance, Ferdinand Leitz, Morton; attorney general, C. W. Frick, Nelson; superintendent of public instruction, W. L. Stockwell, Walsh; commissioner of agriculture and labor, R. J. Turner, Stark; railroad commissioners, C. J. Lord, Cando; J. F. Shea, Wahpeton; Andrew Slatz, Harvey.

Resolutions not framed yet. They will be silent on the so-called railroad merger, on prohibition and a primary law.

GIFT TO MRS. MCKINLEY.

Merchants' and Manufacturers' Association of Baltimore Prepare Handsome and Costly Memorial.

Baltimore, Md., July 23.—The Merchants' and Manufacturers' association, of this city, has prepared and will send to Mrs. McKinley a handsome and costly memorial in the form of an engrossed set of resolutions adopted by the association on the occasion of President McKinley's death. The memorial is in the form of an album, and is handsomely bound in black seal leather. The volume is 10 1/2 inches wide, by 14 1/2 inches long, and is lined with heavy silk. On the cover in gilt letters is the inscription: "In memory of William McKinley."

The book contains ten heavy bristol board pages. In the center of the first page is a well-executed picture of the late president, the result of most careful penmanship. To the right is a view of the capitol at Washington, and below the portrait is a picture of the American flag furled, with the coat-of-arms of the state directly beneath it. The other nine pages are devoted to the "resolutions adopted by the Merchants' and Manufacturers' association in respect to the memory of William McKinley, president of the United States."

SERIOUS RIOT AT NEW YORK.

Many Heads Broken in Attempt of Police to Disperse Crowd of 2,000 Italians.

New York, July 23.—Many heads were broken by the police in dispersing a crowd of 2,000 men and boys in Haverly street, Williamsburg. Stones were thrown and shots were fired, and Felix Efner, the innocent cause of the whole disturbance, was taken to a hospital with a fractured skull. A few days ago an Italian was fatally injured in a fight, and a meeting was held at his home at which it had been decided by those present that he had been clubbed to death by the police. Felix Efner, a collector, happened along about that time and called next door. The payment of his bill was refused, and he was thrown into the street. The police was called, and in a few minutes a general fight was in progress. Police reserves were sent for. By the time they arrived a crowd of 2,000 men, women and children filled the streets, and the police charged them. Many shots were fired, but the bullets struck no one, although many stones and clubs did execution on unprotected heads.

Have Not Returned to Work.

New York, July 23.—It was reported Wednesday that some 5,000 of 6,000 of the 30,000 striking garment workers have returned to work after satisfactory settlement of the trouble, but inquiry among the manufacturers contradicts the report. The manufacturers who were seen said they had offered contracts to the central body, which had been accepted as satisfactory, but that the workmen have not returned, and that at the various union headquarters they were told that the strikers would not return to work until next week.

Quiet at Eldorado.

Springfield, Ill., July 23.—Adj. Gen. Smith received advices from Capt. Butterfield, in command of the troops at Eldorado, that quiet prevailed there, but that he was making active investigations and hoped to bring to justice some of the parties guilty of the outrages toward the negroes.

Verdict in Latimer Case.

New York, July 23.—In the Latimer murder case Wednesday the jury brought in a verdict declaring that Latimer was killed by pistol shot wound. No accusation against any one was made by the jury.

Death List Grows.

Hamburg, July 23.—It is now announced that 109 persons were drowned by the sinking Monday morning of the steamship Primus, of this port, after a collision in the river Elbe with the tug Hansa.

STRIKE COMES TO AN END

The Freight Handlers in Chicago Decide to Return to Work in a Body.

BLAME TEAMSTERS FOR THEIR FAILURE

No Concessions Are Made by the Different Railroads, and the Men Are Told to Make the Best Terms They Can with the Railroad Managers—History of Strike.

Chicago, July 17.—The gigantic strike of freight handlers which has almost paralyzed Chicago for the last ten days ended Wednesday at 10:50 a. m., when the men by an almost unanimous vote decided to return to work in a body and secure the best possible terms under the circumstances. A strike of teamsters, which would have involved nearly 20,000 men, has been averted by the abrupt ending of the controversy.

Result a Disappointment.
The result of the strike was a bitter disappointment to the men. They knew early in the day that the end had come when they received authentic information that their ranks were broken and that many strikers, acting individually, had

AN UP-TO-DATE GOOSE RACE.

gone back to the freight yards and asked for work.

Follow Arbitrators' Advice.
The decision of the men to go back to work in a body was largely the outcome of a meeting between President Curran and the members of the state board of arbitration, held Tuesday night. Wednesday Chairman Job and the other members of the board saw the officials of the union again and told them frankly that the men could not hope to secure work unless they went back as the board suggested and went back at once. The state board had felt the pulse of the railroad officials and knew that if the freight handlers did not go back Wednesday they could never go back.

Teamsters' Union Is Blamed.
The whole blame for the failure of the strike is laid by the freight handlers at the door of the officers of the Teamsters' union. President Young's order to his men to live up to their agreement and to haul freight of all kinds marked the beginning of the end.

Railroads Issue Statement.
The Association of Railway General Managers, embracing every road which enters Chicago, has issued the following signed statement:

"All of our old men, not before on hand for work, reported at the freight houses at noon to-day, and were put to work. No conference was held with any committee or otherwise, since Tuesday, and no agreement was made with the union or with any committee. The men simply reported for work, and they doubtless expect and will receive the pay offered July 1, and which the railroad companies have been willing all along to pay."

Curran Makes Statement.

Without any evidence of bitterness and hopeful of his union's future, President Curran issued a statement saying that the freight handlers were neither cowed nor discouraged, but that they go back to work with only friendly feelings for everybody and well satisfied with the trend affairs has taken. Officials of the Teamsters' union were mildly criticised by him.

History of the Struggle.

The freight handlers' strike began at nine o'clock a. m. Monday, July 7, when the men left work at 24 freight depots in a body.

The strikers demanded 18 cents an hour for truckers, the striking out of the 30 days' probation rule, which provided for less pay for men for the first month of their employment, and the payment of time and a half for overtime work.

The officials of the road refused to grant the demands of the men, and imported labor to handle the freight. For several days both incoming and outgoing goods were handled without trouble. Then the teamsters refused to haul goods to the freight depots, and business was at a standstill.

Queen Wilhelmina Nearly Well.

The Hague, July 17.—Queen Wilhelmina, who has been convalescing at Castle Schaumburg, near the Rhine, is so far restored to health that she will return home Saturday with her husband.

ANOTHER RAINY WEEK.

Wet Weather in Large Sections of the Country Interferes with Farm Work.

Washington, July 23.—The weather bureau's weekly summary of crop conditions is as follows:

The lower Missouri and upper Mississippi valleys and lake region have continued to suffer from excessive rains, which have also interrupted farm work in the Ohio valley and in portions of the middle Atlantic states and New England. Much injury to crops and other property has resulted from overflows in Iowa and portions of Illinois, Missouri and Michigan. Drought has been largely relieved in the southern states, but extensive areas in that section are still much in need of rain, especially the northern portions, extending from Oklahoma eastward to the Carolinas. The temperature conditions as a whole have been favorable, although rather low in the northern Rocky mountain districts. The north Pacific coast states sustained considerable damage from high winds, and the Dakotas and Minnesota from hailstorms in scattered localities.

The corn crop has made splendid progress in the states of the central valleys, except in Iowa and limited portions of Missouri and Illinois, the condition of the crop in Iowa being fairly good on well tilled uplands, but great damage has resulted from floods on the river bottoms of the southern and eastern portions of that state and in northern Illinois. Highly favorable reports are received from Nebraska, Kansas, and the greater part of Missouri and Illinois, and a decided improvement in the condition of the crop in the Ohio valley is indicated.

Rains have interfered with the harvesting of winter wheat where unfinished in the extreme northern districts, and have also been unfavorable for threshing in the central valleys, while considerable wheat in shock in the lower Missouri

AN UP-TO-DATE GOOSE RACE.

valley has been damaged. Harvesting continues in California and has begun in Oregon, where it is filling nicely. The crop in both Oregon and Washington has, however, sustained considerable damage from recent high winds. Spring wheat has advanced favorably in the principal spring wheat states, but has sustained injury in scattered localities from hailstorms.

Oat harvest is finished in the southern states and is in progress in the central valleys, and while lodging is extensively reported from the Ohio, upper Mississippi and Missouri valleys and lake region, the general condition of the crop continues satisfactory.

In Tennessee, Kentucky and Maryland the condition of tobacco is somewhat less favorable than in the previous week, but the crop has done well in Indiana, Ohio and Virginia. Cutting and curing are progressing favorably in the Carolinas. Apple prospects are somewhat improved in Missouri, and promise well in portions of Oklahoma, Kansas, Nebraska and Michigan. The outlook in New York is less promising, but continues favorable in New England. Generally throughout the Ohio valley and middle Atlantic states the indications are for a very poor crop.

Haying has been interrupted and much hay spoiled by rains in the lower Missouri and upper Mississippi valleys and portions of the lake region.

Immigration Statistics.

Washington, July 19.—A statement has been prepared at the immigration bureau showing the number of immigrants who arrived in the United States during the fiscal year 1902. The total arrivals for the last fiscal year were 648,743 immigrants and 82,055 other alien passengers, making a total of 730,798. This is an increase of 160,825 immigrants over 1901.

Died in London.

London, July 21.—John W. Mackay, the last of the four California "bonanza kings," and one of the half dozen richest men in America, died at his residence in Carlton house terrace from heat prostration. His wife was with him when the end came painlessly and peacefully.

Trolley Car Struck by Train.

Council Bluffs, Ia., July 21.—A cross-river motor car was struck by an Illinois Central freight train at the Broadway crossing at noon Saturday. Forty passengers were on the car and eight were seriously but none fatally injured. All the rest were more or less bruised.

Dike Gives Way.

Peoria, Ill., July 23.—The dike protecting the La Marsh drainage district across from Pekin gave way and caused damage that cannot be estimated at this time. Two square miles of farm lands are covered from two to ten feet.

Special Session.

Columbus, O., July 23.—Gov. Nash has issued a proclamation convening the legislature in special session at three p. m., August 25.

Heavy Loss of Life.

St. Petersburg, July 22.—A ferryboat while crossing the River Volga Monday at Hersoniki sank and 58 harvesters were drowned.

Double Hanging.

Greenville, Miss., July 23.—Ashley Cooke and Tom Lauderdale were hanged for the murder of G. M. Wray.

MINE HORROR IN UTAH.

Explosion in the Daly-West Colliery at Park City Causes the Loss of Many Lives.

THIRTY-THREE DEAD ARE TAKEN OUT.

Over One Hundred Men in the Mine at the Time of the Disaster, Most of Whom Have Probably Perished—The Grief of Bereaved Women and Children Is Pitiable.

Park City, Utah, July 17.—Two powder magazines at the 1,200-foot level of the Daly-West mine exploded about one o'clock Wednesday morning, causing a loss of life that at present cannot be estimated nor even guessed at. At four o'clock 33 men had been taken out of the mine dead, and several others had been recovered in a half dazed condition. These were all brought out through the Ontario mine shaft, which is a mile distant from the Daly-West, in which the explosion occurred. The 1,200-foot level of the Daly-West corresponds to and is connected by tunnel with the 600 level of the Ontario.

Number of Dead Unknown.

In the Daly-West mine between 100 and 150 men were at work. In the Ontario were nearly 100. It is believed.

It is not known how many of these are dead, but the disaster extends to the Ontario, as the noxious gases that have been let loose are known to be the cause of several of the deaths. There are two powder magazines at the 1,200-foot level of the Daly-West, one at each side of the shaft, with a capacity of one to two cars of powder each. A car of powder was added to the supply within the past few days.

Shock Was Fearful.

The explosion occurred at about one o'clock in the morning, at an hour when every person in town was either asleep or at work. The shock was so tremendous that it awakened every one within a radius of miles. As an example of its awful force, it is told that two horses in the ore tunnel, one and a half miles away, were killed by it.

Excitement Tremendous.

The excitement is tremendous. Not a person in the town but has friends or relatives working in the mine. Women and children are thronging to the Ontario shaft house, which is midway between Park City and the Daly-West. Nearly all of them have husbands or fathers in the mines, and their grief is pitiable.

Mine Owners Exonerated.

Park City, Utah, July 19.—The coroner's jury returned a verdict holding the officials of the Daly-West mine entirely blameless for the accident by which 35 men lost their lives.

Tragedy in Ohio.

Cleveland, O., July 22.—Frederick Morrison, of Salem, O., while riding in a carriage on Miles avenue with Miss Mary Cowley, Monday, drew a revolver from his pocket and fired a bullet through his brain that resulted in his death shortly afterward. Morrison had been paying attention to Miss Cowley for some time past, and her refusal to marry him led to the tragedy.

Crews Saved.

Port Hope, Mich., July 22.—Fourteen of the crews of the whaleback steamer A. D. Thompson, and barge Whitworth, stranded near Port Aux Barques, were taken off the wrecks by the life-saving crew Monday. The steamer has been scuttled to prevent her from pounding to pieces during a gale. The Whitworth is afloat hanging to the steamer by her tow line.

Texas Democrats.

Galveston, Tex., July 17.—The democratic state convention nominated S. W. T. Lanham, of Parker county, for governor. The platform indorses the Kansas City declaration and denounces imperialism, centralization, trusts, monopolies, mergers and other combines.

The Anti-Trust Bill.

Washington, July 21.—President Roosevelt has delegated the task of framing the anti-trust bill to Congressman Littlefield, of Maine. It will be introduced in congress on the first day of the next session and made an administrative measure.

Dead Prelate's Estate.

Chicago, July 21.—The late Archbishop Feehan's estate amounted to \$120,000, divided between life insurance and personal property. By the will two sisters are left over \$25,000 each, and servants and church schools are given the balance.

Killed His Son.

Chicago, July 21.—William McCann, aged 20, was shot and killed by his father, Patrick, at their home, 249 Kinzie street, after the son had attacked the father with a sledge hammer. The family has always troubled the police.

Three Victims of Cloudburst.

Binghamton, N. Y., July 21.—A cloudburst at Coventry, this county, sent Lump creek over its banks, wrecking several mills and buildings at Afton. The family of James Cook, consisting of three persons, were drowned.

Rough Weather on the Lake.

Milwaukee, July 21.—F. & P. M. steamer No. 1, with 100 passengers aboard, was compelled to return to Milwaukee by a storm which caused a panic on the vessel.

Holland Good Place For Naval Training School.

Every city on the shores of Lake Michigan has entered the lists in an effort to induce the government to select it as the site of the naval training station. Mayor Hoyt of Grand Haven asked Congressman William Alden Smith to take up the matter and Mr. Smith wrote Secretary Moody of the navy department for information. The secretary replied as follows:

"Navy Department,"
Washington, July 14, 1902.

"My Dear Mr. Smith—The law does not go quite as far as you indicate in your letter. By its provisions I am directed to appoint a board to select a site on the great lakes for a naval training station and to estimate the cost of the land therefor. I am then directed to transmit that report with my recommendation to congress. I have appointed a board consisting of Rear Admiral Henry C. Taylor, chief of the bureau of navigation, and Lieut. Harry C. Roseau of the engineer corps to investigate the matter. They will take up the whole subject in the near future, and if there is a desire to present any site for their consideration it should be done by correspondence directly with them.

"Yours very sincerely,
"W. H. MOODY
"Hon. William Alden Smith, Grand Rapids, Michigan."

The naval training station would be a good thing for Holland and steps should be taken to secure it. Government officials will in the near future make a tour to select a site and arrangements should be made to impress them with the advantages offered by Holland.

It is said that the government will require a large tract of land for drill grounds, barracks etc., and the building erected thereon would run up into several hundred thousand dollars. It will be a permanent station, conducted in much the same way as is the Naval Academy at Annapolis. This will be the first naval station established on the great lakes.

Great Regatta in August.

A large number of entries is expected for the seventh annual regatta of the Lake Michigan Yachting association which will be held under the auspices of the Macatawa Bay Yacht club Thursday, Friday and Saturday, August 7, 8 and 9 and great preparations are being made to give visiting yachtsmen a royal welcome.

The course for the races will be a triangle, two miles to the leg, to be sailed around twice. There will be no twenty-one foot cabin or knockabout classes, as measured under the regular L. M. Y. A. rules.

All classes will be started each morning [at 10 o'clock] on ten-minute guns. The yachts will be given points in the order they finish each day, according to the table adopted by the association. The yacht having the greatest number of points after the last race Saturday will be awarded the prize pennant voted by the association in addition to the cup. Solid silver cups will be given in all classes that fill; two boats being required to start in the first day's race.

Besides the L. M. Y. A. regatta the Macatawa Bay Yacht club will hold a regatta for the inland lake and other types of open boats. Points will be awarded in these races the same as in the races of the association.

Firemen Argue Hotly And Badge Chief Kanter's.

L. T. Kanter, chief of the fire department, was called out to quell a disturbance in Engine House No. 2 last night. He was told that the firemen of both companies, incensed by the fire department resolution recently passed by the common council, had met to air their grievances and that his presence was necessary to restore good feeling and keep the department from going to pieces.

At the engine house he found all confusion. The air was blue with contending arguments. The gallant fire ladders were all loudly advancing objections against the resolution and it looked equally for the council, the department and the city. Mr. Kanter tried desperately to quiet the turmoil but found it a hopeless task. He was deeply chagrined to see the boys embroiled in bitter quarrel, for the fire department is dear to his heart and he does not wish to have the public think the fire ladders are unreasonable.

When the trouble was at its height N. J. Whelan appeared, but a protest was raised against his presence and he was requested to withdraw as the boys did not wish the trouble to get into the newspapers. Mr. Whelan protested that he had a right to remain saying that he had been attracted by the loud voices, that the public was interested in the matter and that he proposed to stay and ascertain the facts. After a heated controversy he was allowed to remain. Then J. Lokker, Will Tremble, Al Keppel, John Cook, John Dyke and others indulged in bitter argument and carried their tirade to such lengths that Chief Kanter threatened to resign and it looked black indeed, for the scowling faces and angry tones bore witness that the men were desperately incensed.

Not being able to settle the trouble the men finally appealed to Mr. Whelan and asked him to give his views. He did so in a manner that caused Mr. Kanter to gasp in astonishment. For he explained that the debate was all a joke, that the firemen were pleased with the action of the council, that they were pleased with everything in general and their chief in particular and that as proof of their feelings the firemen had delegated him to present to Mr. Kanter a handsome firemen's badge as proof of the regard and esteem in which the boys held their chief.

Mr. Kanter was overwhelmed with this proof of his men's devotion and thanked them in a manner that showed his hearty appreciation of the gift.

The badge is a beautiful emblem and will ever remain Mr. Kanter's greatest treasure. It symbolizes the good feeling existing among the firemen.

Allegan County Teacher's Institute.

The Teacher's Institute for Allegan County will open one week from Monday, Aug. 4, in the High School building in the Village of Allegan. The work will begin at 9 a. m. on that day. It is desired that teachers be present to enroll at that hour. All are requested to bring copies of the latest State Course of Study. Special instruction in primary methods will be given throughout the entire session of the institute. There will also be one evening lecture each week for the teachers. A cordial invitation is extended to all teachers in Allegan and adjacent counties to attend this institute.

J. E. McDONALD,
Com. of Schools.

Post Boy Excursion Monday.

The steamer Post Boy did not make its excursion to Fruitport, Spring Lake and Grand Haven last Monday on account of the heavy sea. But next Monday it will make the trip and those who desire a pleasant voyage should not fail to take a ride. Steamer will leave Holland at 9 A. M. and the resort at 10, and will be back to Holland about 6 p. m. Fare for round trip, 50 cents.

Additional Local.

Mrs. Helene Van Duren of Grand Rapids will meet her class here on Wednesday instead of Tuesdays in the future.

Samuel Schaffenaar and Miss Helen Menken, both of this city, were united in marriage yesterday afternoon at Graafschap. The ceremony was performed by Rev. A. Keizer in the presence of relatives and intimate friends.

D. E. Alward, secretary of the state central committee, came here yesterday to confer with Chairman G. J. Diekema. They decided to call a meeting of the committee at the Morton house next Friday afternoon. It is expected that at that meeting the committee will decide to call a convention for the middle of September to nominate a candidate for justice of the Supreme court to succeed the late Justice Long.

Landlord Swenle of the Virginia Park hotel was in the city yesterday and had rosy predictions to offer regarding the present resort season. All he wants is a continuance of this warm weather and the books will balance on the profit side of the ledger next fall. But good as the resort season promises to be at Virginia there are better things in sight for the golf season. The club recently organized has put the sport on the proper basis and every day are witnessed interesting contests. Yesterday an exciting game was played between Victor Briard, of Chicago, and Walter Arnold of St. Louis, and it rivaled in swiftness some of the base ball contests witnessed on the local diamond this year. Both men are expert players and will have to have two more meetings before the championship is decided. P. T. McCarthy, proprietor of the hotel, and Landlord Swenle will play a match game next Monday. The officers of the club are: President, G. A. Kanter; vice president, E. J. O'Leary; secretary and treasurer, E. B. Standart.

Probate Order.

STATE OF MICHIGAN, ss.
COUNTY OF OTTAWA.
At a session of the Probate Court for the County of Ottawa, holden at the Probate office in the City of Grand Haven in said county on Thursday the 17th day of July in the year one thousand nine hundred and two. Present, EDWARD P. KIRBY, Judge of Probate.

In the matter of the estate of Eliza Pike, deceased.
On reading and filing the petition, duly verified of Arville E. Stewart, residuary legatee named in the will of said deceased, praying for the probate of an instrument in writing filed in this court purporting to be the last will and testament of the said Eliza Pike, deceased and that the administration of said estate may be granted to himself Arville E. Stewart the executor named in said will or some other suitable person

Thereupon it is Ordered, that Monday the Eleventh day of August next, at 10 o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said deceased and all other persons interested in said estate are required to appear at a session of said Court, then to be holden at the Probate Office in the city of Grand Haven, in said county, and show cause, if any there be, why the prayer of the petitioner should not be granted: And it is further ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof by causing a copy of this order to be published in the HOLLAND CITY NEWS, a newspaper printed and circulated in said county of Ottawa for three successive weeks previous to said day of hearing. An ice cream social will be given in the basement of the M. E. church this evening. Music will be furnished by Adam's band, Prof. Beneker and Miss Lucy Welmers of Grand Rapids. The public is cordially invited to attend. Admission ten cents.

Prices cut no figure at Lokker & Rutgers. They have an immense bankrupt stock on hand and must close it out regardless of cost. This stock amounts to \$7,000 in value and was secured by fortunate investment by Lokker & Rutgers and they intend to give their customers the benefit of their good fortune. The goods must be sold as soon as possible and the cut made in prices is simply astonishing. It means money in your pocket to call at the big double store on East Eighth street.

Do not let the base ball fever obscure your vision to such an extent that you will pass by the bargains offered by James A. Brouwer, for at his store on River street is the place to buy the latest and best in carpets, rugs, curtains and furniture for the lowest prices. The goods are right and his way of doing business is right. Cash or credit. 218-214 River street.

BIG CHECK FOR MINERS.

Illinois Organization Sends \$50,000 to Aid the Pennsylvania Strikers.

THIS MAKES \$100,000 GIVEN SO FAR.

Secretary Wilson Says He Is in Receipt of Many Individual Checks Showing That Appeal to Public Has Been Effective—Plan of Distribution of Funds.

Indianapolis, Ind., July 23.—Secretary Wilson, of the United Mine Workers, Wednesday received a check for \$50,000 for the strike fund from the Illinois organization. This was forwarded by him immediately to the anthracite field. The Illinois miners have, within four weeks, given the national organization \$100,000 for the strike funds, and still have nearly a half million in reserve.

This donation, it is said, is the largest ever received for a strike. Wilson has received notice from individuals of checks for as much as \$1,000 that are now on their way to headquarters, indicating that the appeal to the public for the funds has been effective.

Method of Disbursement.
Secretary Wilson says no attempt will be made to pay the anthracite workers stipulated sums weekly.

"Our intention," said he, "is not to pay regular benefits, but merely to take care of the strikers and their families."

It is believed that the miners will not attempt to keep bituminous coal out of the anthracite markets except as a last resort. The officials will not talk about it now, but it is understood that this was fully considered the night the committee discussed Mitchell's recommendations and that it has been left largely to the discretion of Mitchell and Wilson as to what shall be done.

President Mitchell Wednesday afternoon went to Chicago, and Wednesday night left there for Wilkesbarre.

BATTLE WITH EAGLE.

Desperate Encounter of Maryland Farmer in Which Bird Comes Off Victor.

Baltimore, Md., July 23.—Silas Bennett, of Baltimore county, had a fierce battle with an eagle Wednesday near Gardenville, and as a result Mr. Bennett now bears several lacerations on the hands and face, which were made by the bird's talons.

When Bennett first saw the bird on the ground in the field, he thought it would take flight as he approached to where it was, but this was not the case. As soon as he made a pass at it with a club, the eagle flew at him, and for fully ten minutes there was a terrific battle on between the man and the large bird. Bennett finally escaped into a building, leaving the bird conqueror. He returned shortly with a Winchester rifle, but the eagle had flown.

LOCOMOTIVE BOILER LETS GO.

Explosion of Engine to Freight Train at Ravenna, O., Kills One and Injures Two Persons.

Ravenna, O., July 23.—One man was killed and two injured by the explosion of the boiler of a locomotive attached to a west bound freight train on the Pittsburgh & Western branch of the Baltimore & Ohio road here early in the day.

The dead: James Barnes, engineer, Akron Junction, O.
Injured: C. H. Cabban, fireman, Shelby Junction, O.; C. M. Jones, brakeman, Chicago Junction, O.

Robbed of Valuable Papers.
St. Louis, July 23.—G. W. McElheny, who reached here from his home at Guanajuato, Mexico, en route to New York city, was robbed at Union station of a valise containing, he said, deeds and shares of mining property in old Mexico valued at from \$125,000 to \$200,000. According to McElheny, the stocks are not negotiable. He postponed his departure for the east in the hope that the local police might locate the stolen property.

The police, after a search of the vicinity, found the missing bag and papers in a lumber yard, where they had evidently been secreted by the thief. All were returned to Mr. G. N. McElheny intact.

Alleged Bigamist Arrested.
Mattoon, Ill., July 23.—Jackson D. Hill, who Miss Lucy Bush, of this city, says hypnotized her into eloping to Charleston and marrying him against her will, and deserted her four days later, has been captured at Smithland, Ky., by Sheriff Byers, of this county. He is now in jail at Charleston. Hill had a wife in Delavan when he married Miss Bush, and was living with wife No. 3 when arrested.

Fashionable Wedding at London.
London, July 23.—There was a fashionable gathering at St. George's church Wednesday afternoon to witness the marriage of Maj. Charles Hall, of the Oxfordshire light infantry, to Mrs. C. Albert Stevens, widow of C. Albert Stevens, of New York. Joseph H. Choate, the United States ambassador, gave away the bride.

Choate to Take Vacation.
New York, July 23.—Ridgely Carter will be left in charge of the American embassy after the coronation. Mr. Choate taking a vacation in North Berwick and Henry White going to America, cables the London correspondent of the Tribune.

WISCONSIN REPUBLICANS.

State Convention Concludes Its Session—The Ticket Nominated.

Madison, Wis., July 18.—The republicans of Wisconsin finished their work in convention at 8:35 Thursday night after nominating the following ticket:

For Governor—Robert M. La Follette, of Madison (renominate).
For Lieutenant Governor—James O. Davidson, of Soldiers' Grove.
For Secretary of State—Walter L. Houser, of Mondovi.
For State Treasurer—John J. Kempf, of Milwaukee.
For Attorney General—L. M. Sturdevant, of Neillville.
For Superintendent of Public Instruction—Charles Omm P. Cary, of Delavan.
For Railroad Commissioner—John W. Thomas, of Chippewa.
For Insurance Commissioner—Zeno M. Host, of Milwaukee.
Gen. George E. Bryant was reelected as chairman of the state central committee without opposition.

A DEADLY STORM.

Eleven Persons Lose Their Lives and Great Damage Is Done to Property in Baltimore.

Baltimore, Md., July 21.—A fierce tornado, characterized by a windstorm of extraordinary velocity, thunder, vivid lightning and a heavy rain, suddenly burst upon Baltimore at 1:30 p. m. Sunday, coming from the southwest, with the net result that 11 persons lost their lives, hundreds of houses were unroofed, trees in the public parks and streets were torn up by the roots, many buildings damaged and several people injured. The storm exhausted its fury in less than 15 minutes. The damage done in the business part of the city was comparatively slight, being confined to the blowing down of signs and injuries to roofs. It was in the residence portions of the city along the river front and in the harbors where the wind spent its violence.

Value of Farms.

Washington, July 22.—The census bureau Monday issued a bulletin giving the condition of agriculture in the United States for the year 1900. It shows that there were at that time 5,739,657 farms in the entire country, which were valued at \$16,674,694,247. The value of farm implements, added to the value of the farms, give a total value of farm property amounting to \$20,514,001,838.

Investigation Postponed.

Lansing, Mich., July 22.—Owing to the illness of one of the attorneys for the defense, the examination of the Henderson-Ames company directors and S. N. Bickerstaff, of Kalamazoo, on a charge of perjury in connection with the grand jury investigation of the state military frauds, was postponed until August 11.

Deaths by Lightning.

St. Louis, July 19.—Fred Weickbrod, 30 years old, and a son and daughter of Jacob P. Huskopf, aged 14 and 15 years, respectively, were struck by lightning near Millstadt, in St. Clair county, Ill., Friday, and instantly killed. The same stroke killed two horses hitched to a wagon in which they were riding.

Resignation Tendered.

Lansing, Mich., July 22.—Warden Freeman, of the Marquette prison, has placed his resignation in the hands of the prison board, to take effect at their pleasure. The board, by resolution, expressed the opinion that the resignation should be accepted.

Friars to Be Withdrawn.

Washington, July 21.—The Vatican will withdraw the friars from the Philippines, as asked by the United States. The decision is due to Gov. Taft's final instructions, but withdrawal will be made gradually. Other Spanish priests will replace them.

Big Sum Missing.

Chicago, July 21.—Five Washington park bookmakers lost \$35,000, which they put in Masonic Temple safety vaults Friday night. The boxes are said to have been locked in the regular way, but the cash was gone when wanted Saturday.

Alleged Murderer Arrested.

Sioux City, Ia., July 22.—William Numley, a negro, was arrested at Denison, Ia., Monday for the murder of Fred Powell, a brakeman on the Milwaukee, who was stabbed to death Sunday.

Freeport, Ill., July 22.—D. H. Farand, of Dixon, was elected circuit judge of this district Monday, to succeed the late Judge Crabtree.

AIDS HOME BUILDERS.

Convention of League of Local Building and Loan Associations at Put-in-Bay, O.

GOOD ATTENDANCE ON THE MEETINGS.

The Secretary's Report Shows That There Are 5,302 Local Associations in Country with Total Membership of 1,539,593 and Assets Amounting to \$565,387,000.

Put-in-Bay, O., July 23.—The tenth annual meeting of the United States League of Local Building and Loan associations began here Wednesday with a good attendance.

President George H. Kostmayer, of New Orleans, delivered his annual address.

President Kostmayer, in his address, urged the making of efforts to increase the membership of the league, and called attention to the saving of \$1,600,000 by the exemptions under the war revenue act. If the legislatures of the different states, he said, could see the Building and Loan association in the same light as did congress, they would be convinced of the necessity of the exemption from all taxation, for, in my earnest opinion, I see no reason why the Building and Loan associations should pay taxes in any way, shape or form."

Secretary H. F. Cellarius, of Cincinnati, submitted his annual report. It was in part as follows:

"A slight increase in the total membership, with a small decrease in the aggregate assets, is the showing made by the Local Building and Loan associations of the United States during the past year. There are now in the United States 5,302 local building and loan associations, with a total membership of 1,539,593, and assets amounting to \$565,387,000. In most of the states these associations have about held their own, although the reduction of the interest rate for the past few years has had a tendency to bring back money loaned out by them at higher than existing rates, and associations unable to make desirable loans have returned some of their idle accumulated funds to their stockholders, causing a decrease in their assets. Building loan association supervisors in a number of states have agreed that the associations were not sufficiently prompt in meeting the reduced interest rate and that, as a result, they have lost some profitable business."

"The situation in Illinois and Missouri has been materially improved, although these states still continue to show rather heavy decreases in assets. Illinois having declined a little over \$4,000,000 and Missouri about \$2,000,000 during the past year. In Ohio several large building associations reorganized as trust companies. Substantial increases in assets were made last year in New Jersey, Massachusetts and Nebraska."

"The total expense of operating the associations was a little over \$5,000,000, making an expense ratio of less than one per cent to assets. The receipts for 1901, including cash on hand January 1, 1901, were \$385,987,216, and the disbursements \$368,077,266; the cash on hand January 1, 1902, being \$27,909,920."

Investigating Mine Disaster.

Johnstown, Pa., July 23.—The corner's investigation into the Rolling Mill mine explosion on July 10, in which 112 men were killed, began Wednesday. Jacob Brosch, a miner, who worked in the Klondike district before the explosion, was the first witness. From his evidence it appeared that the regulations in regard to safety lamps, danger notices and other safeguards were strictly complied with. Considerable time will be required to complete the examination of the foreigners who will be called first.

Stabs Son to Death.

Morrow, O., July 23.—Edward Baker, a farmer living two miles from this town, stabbed to death his son Edgar, aged 23. Baker had been to Morrow to dispose of a load of wood and returned home intoxicated. He quarreled with his son and in the encounter which followed stabbed him to death. The father was arrested and taken to Lebanon jail. Edgar Baker was at home temporarily to recover from an attack of typhoid fever. He has been employed at St. Paul, Minn., as manager of several groceries.

Still Considering Caesar's Request.

London, July 23.—Replying to a question in the house of commons Wednesday, the premier, A. J. Balfour, said the imperial government was still considering its reply to Russia's suggestion regarding an international trust conference, but it was impossible as yet to announce Great Britain's attitude on the subject.

Commutes Death Sentence of Soldier.
Washington, July 23.—President Roosevelt has commuted to dishonorable discharge and 15 years' imprisonment the death sentence of Private Guy Stevenson, troop M, Ninth cavalry. He was convicted by a court-martial in Samar, Philippine, of rape.

Shuts Out American Vines.

Washington, July 23.—The Bulgarian minister of commerce and agriculture has forbidden the importation of American grapevines, according to information furnished the state department by Consul Chester at Budapest, writing under date of June 22.

Town Marshal Killed by Negro.

Philippi, W. Va., July 23.—Marshal Wilmoth, of Womelsdorf, was killed by an unknown negro who escaped and went in the direction of Philippi. Nine negroes are already under arrest, and officers are taking into custody every negro they find.

Made Domestic Prelate to Pope.

Rome, July 23.—Very Rev. Thomas A. Flynn, vicar general of the diocese of Sioux Falls, S. D., has been appointed a domestic prelate of the pope. Rt. Rev. John Shanley, bishop of Fargo, N. D., will join the American pilgrims when they are received by his holiness.

CAREFUL PERUSAL WILL PROVE ITS VALUE TO EVERY HOLLAND READER.

The average man is a doubter, and there is little wonder that this is so. Representations make people skeptical. Now-a-days the public ask for evidence than the testimony of strangers. Here is proof which could convince every Holland reader.

Mrs. E. Mulder, living five miles west of Holland, near Ebenezer, says: "I suffered for years from a degrading condition of the kidneys. The secretions from those organs were irregular and unnatural. I could not rest comfortably at night and rose in the morning feeling tired and unrefreshed. The least cold or a strain always aggravated the constant heavy pains through the small of the back. Doan's Kidney Pills were so highly recommended that I procured a box at J. O. Doesburg's drug store and used them. I felt better after a few doses and in a short time I was entirely rid of the trouble."

GRAIN WEEVILS.

The Bisulphide of Carbon Treatment. Frequent Sifting and Fanning.

The common species of grain insects seem to be more than usually abundant this fall, as shown by numerous letters of inquiry received at the Kansas experiment station. The two forms most in evidence are the common grain moth and the black weevil, the latter generally more abundant. In either case the most ready method of their destruction is the employment of carbon bisulphide, one pound at least of the liquid to a hundred bushels of grain or a thousand feet of space.

It seems likely from the varying degrees of success reported with this formula that certain essential conditions are not always strictly observed. In ordinary cribs and bins the most important provision is to make the room as nearly as possible gas tight in order that the gas may remain in all parts of the space in full strength and for the required time. Except with highly organized insects, death does not occur immediately, and partial suffocation may only render the insect insensible, leaving it to recover fully upon the airing out of the bin; or the gradual escape of the gas through cracks in the floor or sides of the bin, allowing the entrance of fresh air, may cause failure through the subsequent revival of the insect. The adult grain moth readily succumbs to the gas, while the larva will stand more and yet revive. The black weevil is most difficult to kill. Hence to destroy all it will be necessary to continue the action of the gas in full strength for at least twenty-four hours, and to do this the bin must be made tight, the fluid carbon bisulphide be used in liberal quantities, and in case of doubt the experiment repeated.

Wheat may be largely kept free from weevil by proper handling, frequent shifting and fanning, such constituting the chief reliance in the elevators. Corn in cribs can scarcely be freed from weevil while remaining there owing to the practical impossibility of making the crib sufficiently tight. Tar-paulins and stack covers are useful in assisting to retain the gas within limits, but are by no means tight enough to prevent the escape of the gas by diffusion before the black weevil can be destroyed.

It is suggested by a correspondent that gasoline is equally effective with carbon bisulphide, and owing to its cheapness it can be used in certainly destructive quantities at little expense. It may be necessary to warn those who employ either of these liquids that the gas is highly inflammable and explosive when ignited; hence no fire or light should be allowed about the bin while the fumigation is in progress.—A. E. Popenoe, Kansas Station.

The Potato Crop.

The November estimate of the yield per acre of potatoes is 59.9 bushels against an average yield per acre of 90.8 bushels in 1900, 88.6 bushels in 1899 and a ten year average of 78.7 bushels. The present indicated yield per acre is the lowest since 1890. Of leading potato states Michigan and Maine alone report a yield comparing favorably with their ten year averages.

Summer Greens.

Spinach will not do well in the summer, so that one needs to turn to something else for greens. The two kinds of plants that have given the best satisfaction at the New Jersey station are the Swiss chard and the New Zealand spinach. The chard is a kind of beet, but with the nourishment stored in the leaf stalks instead of the root. It is grown the same as beets and thrives the summer through, yielding a large amount of substance for the table. The leaf stalks are large and quite flat, resembling somewhat those of celery, and when properly cooked is a fine dish. Those who are familiar with the preparation of creamed asparagus will know how to make a fine dish out of the Swiss chard. It can be sown in succession until as late as July. Besides, the early plants can be topped, and a new growth of leaves will soon come. The second salad plant to be highly recommended is the New Zealand spinach, which is more like the regular spinach than is the chard. This plant seems to prefer the hot weather and makes a large amount of thick leaves and tender tips to the many branches, which may be gathered at frequent intervals throughout the season.

News and Notes.

Within recent years a great reaction in the demand for horses has occurred, and the supply is now inadequate.

During the busy season of handling and curing flax almost 1,000 people are employed in this new industry in Michigan.

The average condition of meadow mowing lands and of pastures on May 1 is reported the lowest May condition since 1888, with the exception of 1899.

"Thin the peaches heroically," sums up the advice of most of the horticulturists.

Attracted by the high prices of the winter, many farmers have newly undertaken the growing of onions.

American Agriculturist reports an "uncertain hay promise." Meadows are reported "slow, small and thin," except on the Pacific coast, where all grass growth is above the normal.

Pigs fed soy beans mature rapidly, look thrifty, have strong appetites and glossy hair and skin.

The Angora goat is now having its day in Arizona, New Mexico, Texas, California, Idaho, Utah and Oregon.

A recent great mustang hunt in north-eastern Arizona is probably among the last that will ever be held, as the herds of the plains and Rocky mountain foothills have practically disappeared.

Windmills play an important part on the big farms of the plains.

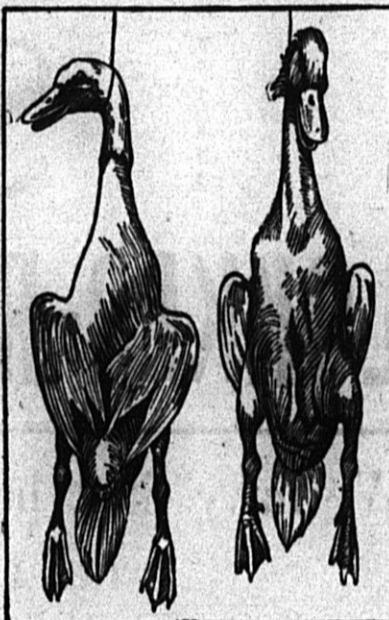

DUCKS FOR MARKET.

Killing and Dressing—Dry Picking and Scalding.

From the approach of Thanksgiving on till after the winter holidays the dressing of poultry takes on much importance. There are two methods of dressing ducks for market, by dry picking and by scalding, and these have been described by an authority on the subject as follows: Both of these methods are good and are being successfully employed by the largest raisers. Some have a preference for dry picking and others for scalding, and it only becomes a matter of taste which method is used. When birds are dressed by scalding, they should be dipped several times or until the feathers come out easily. The back should be dipped in the water first. After scalding wipe them as dry as possible with a sponge and pick the breast feathers first. A bird when dressed for market has left on it the feathers on the wings, the tail feathers and the feathers on head and neck. The legs are left on, and the birds are not drawn.

The process of dry picking is considered the simpler of the two methods, and one who is accustomed to the work can readily dress three dozen birds in a day. The picker's outfit consists of a chair, a box for the feathers and a couple of knives, one knife being dull and the other being sharp pointed and double edged for bleeding. The bird is taken between the knees, the bill held open with the left hand and a cut made across the roof of the mouth just below the eyes. The bird is then stunned by striking its head against a post or some hard substance. The picker seats himself in the chair, with the bird in his lap, its head held firmly between one knee and the box. The feathers are carefully sorted while picking, the pins are thrown away, and the body feathers, with the down, are thrown into the box. Care should be taken about this, as the feathers from each bird will weigh about two ounces and will quite pay for the picking.

The dull knife and the thumb are used to remove the long pinfeathers, and this should be done without tearing the skin. The down can usually be rubbed off by slightly moistening the hand and holding the skin tight. Often some of the pins cannot be taken out without tearing and disfiguring the

PAIR OF DRESSED DUCKS.

skin. When such is the case, they should be shaved off. Seven or eight minutes is all the time necessary to dress a bird.

After the birds are picked they should be carefully washed and plumped by placing in a tank or barrel of ice water. They are hardened in this ice water and given a rounded and full appearance.

The ducks are then packed in barrels or boxes and shipped to market. The first or bottom layer is packed with backs down, a layer of ice is then placed over them, and all other layers are packed with the breasts down, a layer of ice being between each layer of ducks. The top of the box or barrel is then rounded off with ice and covered with burlap. A flour barrel will hold about three dozen birds. Some raisers use boxes for shipping and have the empties returned free.

Pumpkins For Hogs.

Not much has been done in an experimental way in feeding pumpkins to hogs, but in practice many farmers in the west feed pumpkins very successfully. In 1898 experiments were carried on at the Oregon station to determine the value of pumpkins as a part ration for hogs with the following results: They were fed from Oct. 10 to Dec. 25. The pumpkins were cooked, and shorts were added to make the food palatable. The hogs gained 490 pounds and consumed 7,523 pounds of pumpkins and 924 pounds of shorts. Placing the pumpkins at \$2.50 per ton and the shorts at \$12 per ton, the total cost would be \$14.94. This makes the cost of 100 pounds of grain in live weight \$2. This is the cheapest pork produced from any combination of food materials tested at the Oregon station. The pumpkins were valued at the estimated cost of production. The pork produced by this feed was pronounced first class for bacon purposes. The hogs were healthy and were never off their feed throughout the feeding period.

The 1901 Flaxseed Crop.

There is a consensus of opinion among commercial authorities that the 1901 flaxseed crop of the United States will prove to be the largest ever produced in this country. Early in the season considerable divergence of opinion was expressed both as to acreage and yield, and estimates of production ranged from about 20,000,000 to 32,000,000 bushels. Late, however, the range has been narrowed, and now there is practical unanimity that the crop will amount to between 22,000,000 and 28,500,000 bushels.

A COSTLY SYMPHONY

BY EDWARD H. CLARK.

There must have been ten of them all told who one after another tried to get Frances Marsland and incidentally her \$4,000,000. Frances was a South side belle if she wasn't a South side beauty. She had some sense with her millions, and she thought, having handled much coin in her day, that there wasn't the true ring about the proposals which she from time to time, and not much time between times at that, had received. The South side youth had about given her up when Billy Benson appeared on the scene.

Billy was a white goods clerk, and if he had measured his salary as he did his cloth he wouldn't have needed a yard stick. Billy, however, had a good address and possessed plenty of assurance. He was talking over the matter one night at the South Side club with four or five of his chums, at least two of whom he suspected had, as he elegantly phrased it in his thoughts, been against the game and lost. Billy heard much at every one of these gatherings of Frances Marsland and her \$4,000,000, and how the pick of the South town had tried to win both girl and money. "The only trouble with these fellows is," he said to himself, "they didn't go at the thing right." Then he turned to Jack Masters, and said: "Jack, I don't take any particular interest in this thing, but I wish you'd tell me if this Miss Marsland that I hear so much about has any fads."

"She has two, Billy," said Jack. "They are money and music, but as a matter of fact, my boy, I think the money is a poor second. Fannie Marsland is a crank, if I may use such a word in speaking of a girl worth \$4,000,000, on the subject of music. She talks sonatas, rhapsodies, symphonies to the end of the string. She knows all about the old masters and the moderns and all that, and she always carries a roll of music as big as her roll of bills, and that's saying a heap."

Billy Benson mused. He thought musing was the eminently proper thing to do in a case like this. Now, to be candid, Billy didn't know any more about music than he did about Aramaic, but Billy was a good bluffer. It was not long after this that he met Miss Marsland, and he laid himself out to play the part of Apollo with the lyre prominent. It was apparent to all the South side circle and to the rejected ten particularly that this white goods clerk had made an impression. They didn't know, of course, that Billy spent three nights of every week in the music room of the Newberry library. He dug into the old masters and he skimmed over the moderns. He thought the moderns were dead easy. Had Billy been a musician he might have learned that out of some of the dusty old Spanish and other southern European music manuscripts that he turned over had come many an air which has done much to give fleeting fame to certain composers to-day. Billy didn't know anything about this, however, and the public knows about as little, so enough of it, but Billy crammed. He had all the schools at his tongue's end. He was bright enough, and in the course of a month he could talk adagio, andante, allegro and all the other a's, and down to the z's, too, for that matter.

Billy Benson felt that at last his purpose if not his heart was a tune like that of the medieval troubadour who sang outside of his lady's latticed window. For some reason or other Frances Marsland thought she had struck the right thing at last. Billy confessed to her that of playing he knew not a thing, but that he had made a hard study of music, and therein Billy told the truth. Whenever Miss Marsland tested the metal of his musical knowledge the ring came right. Here at last was the man whose nature responded to her own.

Billy went nearly bankrupt in concert and opera tickets. For the theater he said he cared but little. Music was the spring from which his soul drank. It is indeed sad to relate, but music, both vocal and instrumental, was to Billy Benson the worst of bores. He never was quite certain whether the orchestra was playing "Home, Sweet Home," or "The Last Rose of Summer," but the programme was always at hand, and when it came down to names and composers William was right there.

It was settled at last to the satisfaction of the South side that William Benson, clerk, was to pick the persimmon. The persimmon in this case was a bit passe, but persimmons are a fruit that is said to be better after it has been nipped a little by time and frost, and then again the persimmon is a golden fruit. Billy knew he was a hypocrite, but he excused himself for playing the part on the ground that it was the duty of every woman with money to get married, and that if some fellow didn't play some kind of a game the Marsland millions would go eventually to some home for decayed spinsters.

Billy knew that the time was fast approaching when he would have to put the test question, and on the answer would depend either yard sticks and white goods for several more years or Fanny Marsland and millions for life. He asked her to go to the last symphony concert of the season with him. She was delighted, of course.

"You know, Mr. Benson," she said, "they are to play the grandest symphony in all music. Every pulse of your being will be awake to the subtleties of the rhythm and to the concord of sweet sounds throughout. There is one passage in particular which awakens mind and heart and soul to the higher, the better and the purer things of life. I shall be delighted to go with you, a kindred spirit."

Billy felt a little conscience stricken at this, but they went to the last symphony concert of the year. Billy never had been able to feel at any of the hundred and one musical entertainments that he had been attending any of the "awakening thrill" upon which Fanny Marsland rhapsodized. He felt specially unlike any awakening thrill that Saturday night. Miss Marsland was in an ecstasy. "Perfect, exquisite, soulful," she murmured occasionally. Then suddenly the sweep of the symphony changed. The passage which was to awaken "mind and heart and soul to the higher and the purer things of life" was vibrating from the orchestral strings.

Frances turned to William Benson. "It is here, Mr. Benson," she said, "listen with your whole being."

A sound subdued but unmistakable was the answer. Discord of discords, it was a snore. Billy Benson was asleep.

Three days later Jack Masters met Billy Benson on the street. "Billy," he said, "I understand the symphony concert's fund deficit this year amounts to \$35,000."

"There's a mistake somewhere, Jack," said Billy. "The deficit is \$35,000 plus just \$4,000,000.—Chicago Record-Herald.

NOVEL TEST OF DEATH.

The Device of a French Physician Which Seems to Do Away with All Doubt.

Horror of being buried alive is common to the whole human race, and from time immemorial experiments have been in progress with the view of making such a terrible fate impossible. Some physicians maintain that satisfactory tests can also be made by the use of Roentgen rays, but it is not everyone who has the facilities for making such tests, whereas anyone can make a test on the plan devised by Dr. Icard, a physician of Mar-seilles, France. The doctor uses fluo-rescin, the well-known coloring material, and his experiments have proven so successful that they have won for him the approval of the French Acad-emy of Sciences. Fluorescin injected into the human body produces abso-lutely no effect. If the body is dead, whereas it produces a most surprising effect if the body is alive. Dr. Icard uses a solution of it which is so strong that a single gramme is able to color 40,000 quarts of water.

If a little of this solution is injected under the skin of a living person in two minutes the skin, and especially the mucous membranes, will become much discolored, and the person will present the appearance of one suffering from an acute attack of jaundice. More-over, the eyes will become of a green-ish color and the pupils will also be-come invisible. These symptoms will remain for one or possibly two hours and then will gradually disappear. Since fluorescin produces this effect on a living body it naturally follows, ac-cording to Dr. Icard, that any body on which it produces no effect must be dead.

A DEEP SUBJECT.

But George Treated It in a Superfi-cial Manner and It Was Speedily Dropped.

"George, dear, why is it that the scientific persons don't try to investi-gate the inside of the earth?"

"I suppose they consider it beneath them, my love," replied George, ac-cording to the Cleveland Plain Dealer. "There, George, you are trying to joke again. I'm serious about this—real-ly serious. It seems to me that it would be doing the world a great service if somebody could find out just what it is stuffed with."

"That is the woman of M, dear. You want to get at the cotton batting and sawdust. Yes, you do. You are con-sumed by a ruthless curiosity. You want to find the funny business that makes the doll say 'papa' and 'mamma.' It's the destructive instinct that all women possess."

"Why, George, you're horrid!"

"Oh, I know your sex. We've had several women in our family. I knew all about you when I married you. But suppose you could get your destructive little scissors into the inside of the globe. Would it do you any good to find out that the cotton batting was gun cotton, and the sawdust giant powder?"

"George, you are a mean thing. I don't care the slightest bit what's in-side the old earth. Only it does seem as if we ought to know. Perhaps we could guard against things better if we knew what to expect."

"Pooh, pooh, my dear. The chances are if you knew what to expect, you wouldn't sleep a wink afterwards. Your head would be filled with the wildest apprehension. Your ears would be strained to catch the hollow crash that foretold the end of everything. You'd walk pussy footed for fear of breaking through the crust. You'd have a sulphur respirator, and a lava cellar, and a steel umbrella that would shed cinders. Oh, you'd enjoy your in-side knowledge, I don't think."

"George, I'm not going to suggest anything serious again. You make light of everything. All I had in mind was a hole bored down into the earth far enough to enable us to know what's going on down there."

"And I suppose when you found out you'd pull the hole up and fold it away for future use?"

"George, I'm not going to say an-other word to you."

Sleep-Walking.

"Ten per cent. of the world's popu-lation is more or less somnambulistic," said a physician, "and every one, at one time or another, has done a little sleep-walking. I myself, when a lad, got up, dressed, took my books and went to school on a summer night, my father following close behind to see that I should come to no harm. Blond per-sons are more apt to be somnambulists than dark folk, and in cold climates there is more somnambulism than in warm ones. In certain Greenland vil-lages, I have been told, the hut doors are locked from without by a watch-man in order that those within may not come forth in their sleep, and maybe freeze to death. But in Egypt and such like hot lands such precaution is un-necessary."—Philadelphia Record.

Cry for a New Invention.

Unless we learn to avoid waste in the use of coal, says Prof. John Perry, the world, in a hundred years or so, will resemble a spendthrift who has run through his patrimony. What is need-ed is some form of engine to convert, as directly and cheaply as possible, the energy of coal into electric energy. Science, he believes, is capable of achieving the desired result, but only through united effort, supported by large capital. He suggests that if the expenditure of \$5,000,000 a year were entrusted for two or three years to such men as Lord Kelvin or Lord Ra-faigh, the problem might be solved.—Scientific American.

Tie With Greenville.

Greenville and Holland played to a standstill last Friday afternoon at Greenville, the game being called in the ninth inning with the score 1 to 1 in order to give Holland time to catch the train. It was as brilliant an ex-hibition of the national game as the fans cared to see and kept the crowd busy applauding sensational plays. Ball was pitted against Buckner and ran him so close a race that the colored gentlemen looked as if he had ducked his head in an ash barrel. Two or three more games of that kind and Greenville will have a white instead of a colored wonder. Both pitchers were stingy with their allowance of hits and neither side earned its run. Root was the hero of the day on the Holland side and his brilliant running catch in center saved the Holland boys from defeat.

Otsego Inundated.

If the Otsego boys used rowboats in the game with Holland Saturday they might have stood a better show but they couldn't dive deep enough to field the ball and couldn't swim well enough to get to bases and not one of them had the pleasure of seeing the color of the home plate. With Holland it was different. The rain soaked diamond did not worry the boys. They showed a liking for the river of mud and found the ball as easily as a school boy finds a stone in 8 feet of clear water.

Karsten was in the box for Holland and curved the ball over the plate like a rainbow. The Otsego pitcher threw as if he was tossing mud pies and the locals pounded his offerings all over the inundated grounds. The nerve tonic of the visitors gave out in the fifth inning and they were allowed to stop playing.

Score: Holland, 11; Otsego, 0. Um-pire: Tards Ver Schure—until he quit in disgust because the visitors did not appreciate fair decisions. He was succeeded by Fairfield.

Greenville, 3; Holland, 1.

Greenville with Buckner in the box played an errorless game Tuesday afternoon and defeated Holland by a score of 3 to 1. The visitors found Ball for a couple of safe ones in the first getting two men on bases. Then the inky hued Buckner ambled towards the plate with a bat that looked like the spar of an ocean schooner. He met a speedy one with his trusty stick and smashed out a safe one bringing in two runs.

It was blankety blanks on both sides until the sixth when there was some-thing doing for Holland. Root made a safe hit. So did Andrews. Both were advanced on Marshal's sacrifice. Van der Hill made a hit on which Root scored. Andrews tried to do like-wise but was caught at the plate.

Errors on the part of Holland ad-mitted another run for Greenville in the eighth. It might have been worse had not Tibald, Andrews and DePree figured in a double play.

Holland had a slight show to win in the ninth. With two men out Ball made a two-bagger and Tibald was in advance of him racing home. Uncle Bill grew over-anxious and cut third by 'teen rods. The umpire saw him and the agony was over. Ball and Buckner allowed eight hits each.

Holland, 6; Greenville 2.

Holland turned the tables on Green-ville Wednesday, defeating the Im-plement company representatives by a score of 6 to 2. Greenville made it's runs in the first two innings by touch-log Karsten rather timely and by taking advantage of a couple of Hol-land errors. After that they never had a look-in, for the tall boy from Zealand had them at his mercy and they couldn't find him with a search-light. He struck out ten of them and allowed but four hits.

Roy Clarke, imported from the Spaulding team to serve on Green-ville's pitching staff, was in the box for the visitors and he was found for seven hits. Root made two nice singles and played a great game in center; Ball played short in Andrews place who was sick and made a home-run that caused Clark to grow dizzy; Karsten not only pitched a phenom-i-nal game but he found the Chicago twirler for a home run.

The tragedy of the game centered on Buckner when he failed for three successive times to make a hit with men on bases. The comedy centered upon him when he was caught napp-ing between first and second and was put out by DePree.

In connection with the Greenville club one task still remains undone. Holland must defeat them with Buck-ner in the box, and a careful estimate of the work of the two clubs this week leads to the conclusion that the locals have more than an even chance to do it.

The business men and the Heinz Pickle company men will line up on the diamond for mortal combat this afternoon. They met last Friday and the score was: Business men, 15; Heinz, 16.

Defeated Dickerson's Colts 3 to 1.

Dickerson's ex-state leaguers, now known as the Grand Rapids Inde-pendents, were smothered to insemi-bility at Grand Rapids yesterday af-ternoon by the Holland club. Ball was in the box and was hit quite free-ly as he did not use his best kinks un-less the conditions were threatening. Then he let go a few teasers that in-variably benched the Dickerson bunch of castaways. All of the Hol-land boys were strictly in the going and made the orphans look like a pairless shake of the dice. Vanden Berg and Root shone with such bril-liance in the field that they dazzeled the opposing batsmen so that nothing but high flies were knocked. Andrews made a home run without the formali-ty of a hit as his long drive fieldward should have been caught by Benyin.

The score was 3 to 1 in favor of Hol-land and still Dickerson contends that his bunch is the best.

The result of the game raises num-erous questions as to the reliability of a recent article in the Grand Rapids Post which was evidently inspired by Dickerson.

You know "Dick" you said the In-dependent teams had the swelled head. How about it? They have not the swelled head, but they simply have an idea that the league teams are in a class by themselves and the game yesterday shows it's a mighty poor class.

You say all their strength lay in their pitchers. Why, what a poser. Past and present history shows that man for man the independent teams have the leaguers beaten to a stand still.

Say "Dick" why did you remark that "the state teams who were blow-ing their own horns so blatantly would have to get something more than a high-priced pitcher in order to keep their laurels?" You know they excel your men in team work as well as in pitching ability.

Dick old boy, why do you boast soot some of your players! Why do you say King has every independent catcher beaten to a standstill? Past exper-ience has taught you that Tony Van Der Hill can outplay King without an effort.

"Dick," you magnificent dealer in bluffs, why do you say Biff Stein has everything in his line beaten in the independent teams? You know Andrews of Holland can play circles around him.

Dick, old fellow, when your terrific imagination begins to get in its deadly work; when you feel the desire irresist-ably growing upon you to make state-ments that for wild extravagance ex-cel the tales of Munchausen—then! o THEN! put weights upon your wild flights of fancy and give to others their just dues.

Columbia Giants Tomorrow.

The Columbia Giants, the unriv-alled colored wonders, will be here to-morrow afternoon for a game with the Holland club and a cyclonic contest may be expected. The Columbia Giants include the best men of the famous Page Fence Giants and other colored men drafted from other parts of the country for their ability to play baseball. They have been in nearly every state in the north this season and wherever they have gone they have left behind them a trail of wrecked base ball hopes. They claim to outclass the Chicago Union-Giants and are willing to back their asser-tions with cash.

Tomorrow they will try to outdo the record of the Union-Giants and a fine game may be expected.

Ionis Tuesday.

Ionis, loaded to the rails with money to bluff the Holland fans and filled with a desire to play even for the defeats encountered at the hands of Holland, will come here Tuesday afternoon for a game. The Ionis team has been strengthened and advances the claim that Greenville and Holland will have to hustle to remain in the same class.

Sporting News

Bill Tibald, the "Old Roman," who is the oldest ball player in the busi-ness next to Dickerson, is playing a fine game with Holland, and his many admirers say that he is just as good as when he played against A. G. Spalding's Rockford, Ill., team way back in the seventies. He is hitting the ball, too, just as hard as ever.—G. R. Herald.

The Saugatuck Commercial-Record is out with a vigorous protest against the failure of the business men of Saugatuck and Douglas to pay the weekly contributions promised for the support of the Twin City ball team.

Fennville is making giant strides to the top of the percentage column. It shut out the Blue Labels Saturday by a score of 8 to 0.

Greenville shut out Fennville yes-terday by a score of 7 to 0.
